4 DR. NEPUTE: -- Eric Nepute. I hope you're

5 having an amazing day today. It is Wednesday. It's

6 an interesting day in the world. Missouri just had

7 their primary elections. Record number of mail-in

8 ballots. We've been -- we've had an amazing story

9 that broke in the media locally yesterday in St. Louis

10 that's not getting any national press that we've got

11 to talk about. So I'll give everybody a minute to

12 jump on.

13 Where's everybody watching at from this

14 morning? Good morning, good morning, good morning

15 this morning. Where are you all watching from?

16 I got Kelly's who's in Tennessee.

17 Melissa, good morning.

18 We got Joanie. Howdy, Ms. Joanie. Hope

19 you're well.

20 Cynthia, good morning this morning.

21 Janet is in California.

22 Jesse's in West Virginia.

23 Good morning, everybody. Hope you guys are

24 good.

25 I got a little rant I'm going to go off on

5

1 this morning. I just tell you, dammit, I just -- I'm
 2 an optimist at heart. You know, I just am. I'm an
 3 optimist at heart and I know many of you are as well.
 4 So we'll give everybody a second to jump on.
 5 We got -- Benita's in Alaska.
 6 We got Tom who's in Florida.
 7 We got some South Carolina folks.
 8 Good morning, Scott in St. Louis. I'll be
 9 back in St. Louis at the end of this week.
 10 Karen, good morning, from Illinois. I hope
 11 you're doing well.
 12 Shelly, good morning, from Charlotte, North
 13 Carolina. I'm not too far from your neck of the woods
 14 right now.
 15 Everybody, this is Dr. Eric Nepute. I hope
 16 you're having a great day.
 17 Like I said, you know, I'm an optimist at
 18 heart. I'm -- I give everybody the benefit of the
 19 doubt, right? I tell everybody that, you know, people
 20 make mistakes, people move on, people learn. It's all
 21 about helping each other. And those of you that
 22 really know me, you know that my heart really is just
 23 helping people. You know, that's all I really want to
 24 do. I just want to help people.
 25 But as a doctor, and I feel that's an

7

1 good at prescribing drugs and doing surgery. I'm all
 2 about helping and healing people.
 3 (Reading from document.)
 4 Washington University says boosting your
 5 immune system may be treatment strategy for COVID-19.
 6 Well, no shit, Sherlock. Are you kidding me? Are you
 7 kidding me? Of course it is.
 8 You guys, when I came out and said that,
 9 when I said that in March and I was talking about the
 10 importance of zinc, every one of you needs to be on
 11 zinc every day. Every one of you needs to be on zinc
 12 every day. Every day. Every day. Every day, they
 13 need to be on zinc. As an adult, you should take 25
 14 to 50 milligrams every day of zinc, period. Period.
 15 That's all there is to it. Period. That's what they
 16 need to do.
 17 And when I came out about it, we had a
 18 couple videos that 30 million, 50 million people saw.
 19 I had the Attorney General's Office come after me; the
 20 FTC came after me; the Missouri Board of Healing Arts
 21 came after me to try to shut me down and silence me.
 22 But, yet, now --
 23 (Holding up document.)
 24 -- Washington University, one of the most
 25 prestigious medical schools and research schools on

6

1 obligation -- even before I was a physician, it was my
 2 job to help people. I was always that kid that helped
 3 people. You know, I helped people. That's just what
 4 I was -- how I was raised and I think that's just the
 5 right way to raise, and I don't know any different.
 6 But I'm really pissed off right now. You
 7 know, in March of this year when shit was starting to
 8 hit the fan and people were going crazy about COVID-
 9 19, I came out and I said, everybody needs to start
 10 getting on some things to boost their immune system.
 11 I talked about the importance of zinc. I talked about
 12 I'm the doctor that went famous for talking about
 13 Schweppes Tonic Water. And I was only talking about
 14 tonic water because it is -- it has quinine in it and
 15 quinine is one of the zinc ionophores that allows zinc
 16 to get in the system.
 17 So there's a story that just broke yesterday
 18 in St. Louis, local media. It hasn't gone national
 19 yet. It should. It absolutely should. It 100
 20 percent should. And here's what they said.
 21 Olivia, check out this -- this story.
 22 (Looking down and reading from document.)
 23 Washington University, which by the way is
 24 one of the top medical schools in the world, which
 25 that doesn't mean anything to me. It means they're

8

1 the planet comes out and says, boosting the immune
 2 system may be the best thing to do for COVID-19.
 3 Well, no kidding. Are you kidding?
 4 My family got -- I got death threats, my
 5 family got death threats. We got all these problems
 6 out there -- and by the way, within 24 hours, we were
 7 able to -- the FTC, we shut them up. The Attorney
 8 General's Office, we shut them up. The Missouri Board
 9 of Health and Healing Arts, we shut them up because we
 10 showed them the facts. We showed them the facts and
 11 the benefits of zinc, D, vitamin C and et cetera.
 12 So those of you that are saying you're
 13 having trouble finding zinc, go right now, do this
 14 right now. I'll give you a damn bottle of zinc. You
 15 know what? I'm going to give away 2,000 bottles of
 16 zinc today. You know what? That's it. I don't give
 17 a shit. I just don't even care. Right now, right
 18 now, here's what I want you to do. There's 2,000
 19 bottles of zinc. I'm going to tell my people right
 20 now. I don't care -- I just do not care what anybody
 21 says or does.
 22 If the FTC comes after me again, so be it.
 23 I'll wear that with a badge of honor. They're coming
 24 after me because I'm trying to help you. These other
 25 doctors out there aren't trying to help you. I'm

9

1 trying to help you. I've had over 40,000 patients all
 2 across the country that have done our protocols with
 3 vitamin C and zinc and vitamin C and probiotics and
 4 all the things that we do and they're doing great.
 5 We've had two people in the hospitals. I can tell you
 6 thousands and thousands of people that put our
 7 protocols into place and they got rid of their
 8 symptoms within three to four days. Days. Their
 9 symptoms went down.
 10 Zinc is a virus killer. Zinc does not allow
 11 for viruses to proliferate, period. That's a fact.
 12 Nobody can argue it. Fact, fact, fact.
 13 Go right now. Here's what I'm telling you
 14 right now. Go to my -- what's the link? It's
 15 myfreezinc.com. Myfreezinc.com. You got to pay
 16 shipping and handling. It's like 7 bucks. Buy as
 17 many bottles as you can. Buy as many bottles as you
 18 can. I'm going to give you -- right now, my guys that
 19 are -- I'll tell them as soon as I get off here, I'm
 20 going to give 2,000 bottles away for free. All you
 21 got to do is pay shipping and handling. For free.
 22 Zinc, all of you that are saying, Terri,
 23 you can't find zinc, go to myfreezinc.com.
 24 Myfreezinc.com. That's what I want you to do. And
 25 for you, as an adult, you take 25 milligrams to 50

10

1 milligrams a day. That's what you do. As a kid, if
 2 it's a kid -- so I have children. I give my kids one
 3 -- so I give them 25 milligrams of zinc twice a week.
 4 That's what I give them. That's what my kids are
 5 getting right now. They'll get one on Monday and
 6 they'll get one on Wednesday or Thursday. They don't
 7 need as much as an adult does. That's what they need.
 8 Go right now. Go to myfreezinc.com. It's
 9 not sold out. It's -- I guarantee you it's not. I
 10 got 2,000 bottles. I'll just tell my guys right now
 11 to put it on there. Put 2,000 bottles on there of
 12 zinc. Give them away. Give the damn 2,000 bottles of
 13 zinc away. Every damn day, you should be taking zinc.
 14 This pisses me off. This article right here
 15 from Washington University, they talk about how
 16 boosting the immune system is the key. If you're in
 17 Canada, go ahead, get a bottle. You're in the UK, get
 18 a bottle. We'll ship it out to you. I mean, we'll
 19 send it out to wherever we need to go. This is
 20 ridiculous. Go to myfreezinc.com. I'm giving 2,000
 21 bottles of zinc away today, and that's it. That's
 22 what we're doing. I'll give it to you. You got to
 23 pay shipping and handling, and that's all you got to
 24 do. You pay for that much and I'll give you the damn
 25 zinc for free.

11

1 People are saying they can't find it. It's
 2 myfreezinc.com. Myfreezinc.com. The Washington
 3 University is saying that boosting the immune system
 4 could be a treatment for COVID-19. Of course it is.
 5 Well, how are you going to do it? They're talking
 6 about using drugs. They're trying to do drug trials
 7 to improve the immune system. That doesn't work.
 8 It's so simple.
 9 Here's what you need. Take zinc every day.
 10 Take zinc every day, 25 to 50 milligrams a day. If
 11 it's a kid, anywhere below 18, give them 25 milligrams
 12 twice a week. That's all they'll need. They'll be
 13 fine with that. They need vitamin D3 every day. You,
 14 as an adult, need 10,000 IUs of vitamin D3 every day,
 15 10,000 IUs of D every day -- D3 every day. Your kids,
 16 your kids need 2,000 IUs a day. It's just that
 17 simple. Give your kids some vitamin C every day.
 18 Either dose it to bowel tolerance -- if you have
 19 trouble finding vitamin C, if you don't -- if -- start
 20 eating bell peppers, banana peppers, zinc -- or sorry,
 21 zinc -- sauerkraut and -- and other foods that have C
 22 in them, like oranges and grapefruits and things like
 23 that, every damn day.
 24 You guys, this is what you need to be doing.
 25 This is what you need to be doing. Vitamin C, but

12

1 zinc -- zinc stops the cells from regenerating viruses
 2 that stops viral proliferation. It's a fact. It's
 3 been in so many medical journals. But the damn
 4 doctors don't know it, so they poo poo it. So
 5 somebody in Wash U, in my backyard, I guarantee you
 6 they heard one of my talks about this. They saw my
 7 research about this. They saw how KSDK Channel 5
 8 tried to vilify me and now they're saying, well,
 9 Washington University has the solution, they say
 10 boosting the immune system is the answer. You're damn
 11 right it is. But they don't talk about how. I'm
 12 going to tell you how and I'm going to give you a
 13 solution.
 14 Go right now. Go to myfreezinc.com and buy
 15 a damn bottle of zinc. It's 7 bucks, or whatever it
 16 is, for shipping and handling, you can have that.
 17 Take one of those every day, you'll be good to go.
 18 Give it to your friends, your families, your loved
 19 ones.
 20 You guys, we're getting so much closer to
 21 "flu season," okay? Guess what? It's a virus. You
 22 want to stop the cold. It's a virus. Guess how you
 23 stop the viral load? You hear them -- you hear the
 24 powers-that-be use these fancy terms called viral
 25 load. Well, when you get a virus in your body, think

13

1 about it like weeds growing. Well, once that weed
 2 gets into your system, the virus gets into your
 3 system, it gets into your body and it starts to
 4 regenerate. That's called proliferation. Okay?
 5 That's called proliferation.
 6 Well, guess what? Guess what? Zinc stops
 7 that from happening. Zinc is one of the number one
 8 mineral deficiencies on the planet. So zinc being low
 9 causes your smell to go away. Remember people saying,
 10 well, I'm getting cold hands and fingers, blue hands
 11 and feet and toes. Zinc. It's zinc deficiency. I
 12 can't smell and taste. It's zinc. It's not
 13 coronavirus; it's zinc.
 14 It just so happens that when you get under
 15 attack from a virus, your body's going to use all the
 16 zinc that you've got. But guess what? You don't have
 17 enough zinc. Go right now. Myfreezinc.com. I
 18 guarantee the FTC is going to be pissed whenever they
 19 hear about this, so -- but I don't give a shit. I'm
 20 sorry, I don't give a shit. This is wrong.
 21 How many -- if people would have listened to
 22 this, when I talked about this in March, March, April,
 23 May, June, July, August, that's almost six months ago.
 24 How many hundreds of thousands of lives could have
 25 been saved? How many -- how many billions of dollars,

14

1 trillions of dollars we could have saved? This is --
 2 there should be crimes against humanity for the people
 3 that came after me.
 4 And by the way, where's my apology? Where's
 5 my apology? Which, by the way, you can take my --
 6 that apology and shove it up your rectum because,
 7 quite honestly, here's the deal. You're wrong and
 8 you're -- you're -- there should be crimes against
 9 humanity for all the people that come against doctors,
 10 like myself, that are just trying to help people. I
 11 mean, this is just -- it's insane. Get on zinc now.
 12 Are there side effects of zinc? No. People
 13 sometimes when they take vitamins, they can get a
 14 little bit of upset stomach. Take it with food. Take
 15 your zinc with your lunch or your dinner. That's what
 16 you should do. You'll be fine. Take it. It's zinc.
 17 It's a mineral. You're deficient in it.
 18 By the way, a lot of times when you take
 19 vitamins, if you don't feel well, especially when
 20 they're good quality vitamins, like mine are non-GMO,
 21 organic, whole food, plant-based products. Guess
 22 what? You might feel like shit because your body's
 23 detoxing because all you've done is drink Mountain Dew
 24 and ate McDonald's for the last six years and you
 25 wonder why you feel like crap and your immune system

15

1 sucks. So get some zinc right now and start taking
 2 that stuff every day.
 3 Every person in your family should be on
 4 zinc every day. And you know what? You want to get
 5 zinc into your system, that zinc needs to have
 6 "corsequine" (phonetic). "Corsequine" is a better
 7 zinc ionophore even then quinine is. Quinine is in
 8 tonic water. "Corsequine" is in grapefruits and in
 9 grapefruit juice. Grapefruit juice is going to sell
 10 off the shelves now, right, even though there's a lot
 11 of sugar in that stuff.
 12 But you need zinc in your system every damn
 13 day. Every damn day, you need zinc, 25 to 50
 14 milligrams a day, period. Okay? Period. Go and
 15 order some. Okay? I'm going to give it to you. I
 16 got 2,000 bottles. I'm telling you right now, 2,000
 17 bottles right now. 2,000 bottles you can have.
 18 They're going to be gone by today, 2,000 freaking
 19 bottles of zinc. You need to get them. You can't
 20 find them on the shelves. You can't -- there's no
 21 contraindications for any medications that you're
 22 going to take.
 23 By the way, death from medicine is the
 24 third-leading cause of death on the planet, the third-
 25 leading cause of death. Let me tell you a couple

16

1 other things that are just asinine within this paper
 2 that was written by Washington University. They said,
 3 well, there's a theory out there that boosting the
 4 immune system can help you reverse or stop sickness.
 5 Theory? That's a fact, stupid. I don't even know
 6 what to say about it. My God. Stop trying to spin
 7 it. Just because you can't patent zinc and the
 8 pharmaceutical companies can't sell zinc and zinc
 9 manufacturers are not going to...
 10 Molly, you know why I swear? Because I'm
 11 pissed. And if you don't like it, turn the damn page.
 12 Sorry, but I'm pissed and I don't give a shit. I
 13 mean, I'm sorry if that upsets you. By the way, you
 14 know, I'm a super-passionate person because I've had
 15 over 40,000 people just during 2020 that we've taken
 16 care of. We've only had two of them that have been in
 17 hospitals, one on a ventilator. Period, that's it.
 18 Period, that's it.
 19 If it says sold out, go back later and check
 20 it out, myfreezinc.com, myfreezinc.com. This is so
 21 frustrating, man, because common sense is just not
 22 that common, especially in the health care space.
 23 Here's what else they said. Listen to this.
 24 Listen to this. This is hilarious. They said in this
 25 -- in this article that Wash U put out about how the

17

1 immune system is going to be the key for this. They
2 said an autopsy studied how it showed large amounts of
3 coronavirus patients in the organs of people who died
4 of the viruses, suggesting that their immune systems
5 were not working well enough to fight it. No kidding.

6 Your immune system is the key. The immune
7 system is what fights viruses and bacteria and
8 sickness off. That's the key. That's the key.
9 That's the key. It's just that simple.

10 So then, again, here's what they said. They
11 said -- they, being the researchers, Wash U, compared
12 the blood to 26 hospitalized sepsis patients and 18
13 others who were very sick but didn't have COVID-19.
14 And guess what they found? They found that the people
15 who -- the people who got their immune system boosted
16 lived.

17 Let me tell you something about sepsis. Dr.
18 Marik -- write that down -- Dr. Marik, Dr. Marik,
19 who's a South African native physician, who works
20 at, I think, it's West Virginia Medical Institute
21 Hospital came up with a protocol that he got from the
22 doctors -- ortho-molecular doctors like myself that he
23 started using vitamin C IVs in hospitals to cure
24 sepsis. He went from a 60 percent fatality rate to a
25 20 percent fatality rate by using vitamin C. They're

18

1 finding patients that died from COVID-19 get
2 infections in their blood because their immune system
3 sucks because they don't have enough zinc and they
4 don't have enough vitamin C.

5 But, yet, when I talk about zinc and vitamin
6 C, the FTC comes after me, the Attorney General comes
7 after me, the Missouri Board of Health and Healing
8 Arts comes after me. Guess what? Guess what? They
9 lost; we won.

10 I'm just telling you right now, go and get
11 some zinc. I'm just going to give it away, give it
12 away, give it away. Because you know what? We're
13 going to save lives. How many hundreds of thousands
14 of lives could have been saved if they would have just
15 listened, if we just had a conversation with other
16 doctors like myself? And then the doctors that go out
17 on Capitol Hill just a couple weeks ago get vilified.
18 Simone Gold got vilified and fired from her job.
19 She's an attorney and a doctor. She's dangerous to
20 the establishment. You want to know why? Because
21 she's got her shit together. That's what it is.
22 That's what it is.

23 She knows the truth and I know the truth and
24 you know the truth and you feel it. We're being
25 suppressed so much it's not even funny. And this

19

1 ain't even about you or me anymore. It's about our
2 kids. They're fighting for our future right now.
3 They're trying to control them to make them consumers
4 of their drugs, of their vaccines, of their
5 paraphernalia and et cetera. And they want to take
6 our babies and sell them into sex slavery. That's
7 what they want to do. They are the problem.

8 And the people who got us into this problem
9 sure as hell don't have a clue on how to get us out of
10 it. I'll tell you that right now. If doctors like
11 myself and Simone Gold and Rashid Buttar and Dr.
12 Tenpenny and other doctors like Andrew Saul were in
13 charge or had something to say, we wouldn't be locked
14 down. We wouldn't have spent \$5 trillion on a bogus
15 ass "plandemic" that's happening right now. That's
16 the deal.

17 Go right now and get some zinc. Go to
18 myfreezinc.com. I'm giving it away. 2,000 bottles of
19 it, I guarantee they'll be gone by tomorrow. So you
20 better get yourself some zinc, get your friends some
21 zinc. Tag your friends and your family in this.

22 I'm sorry if my -- by the way, I'm a four
23 right now. I'm a four. I can go to a ten, but you
24 don't want to see that. My emotions are at a four.

25 Get some zinc, get some D3, eat some healthy

20

1 food, lose some damn weight, drink some water. And
2 guess what you don't have to worry about? You don't
3 have to worry about all this bullshit that's happening
4 in the world right now. You're going to be -- you're
5 wearing a mask that's got holes in it. Is this going
6 to help you? No. Boosting your immune system is,
7 dummy. Are you -- are we that stupid? Has Fauci
8 talked about that? Has Birx talked about that? Has
9 King Bill Gates talked about that? Hell no, they
10 haven't.

11 Go right now. 2,000 bottles of zinc. You
12 got them. You got them. Go get it. Go to
13 myfreezinc.com. You can buy it. It's freaking 7
14 bucks. I don't even know how much it is. Shipping
15 and handling, seven bucks. Get it done. My team will
16 get it out to you as soon as they can, I promise. But
17 I'm telling them right now, they're earmarking 2,000
18 bottles of zinc for you. Get it and get it for your
19 family, get it for you kids. Stockpile that stuff.
20 I've got months and months' supplies of this stuff at
21 home and in my offices. Me and my family, we ain't
22 worried. My patients ain't worried. My people aren't
23 worried.

24 But I'll tell you right now, we need to get
25 more people woke up. We need to get more people to

21

1 understand that we're being played and it's time to
 2 step up and stop this insanity. It's just insane
 3 what's happening right now.
 4 It's not sold out, Sheryl. I just told my
 5 guys to get some more. We got 2,000 bottles. Please
 6 go back. Go and hit it again. If we need to put
 7 another 2,000 down, I'll get another 2,000 bottles.
 8 You got to have zinc every day. I'm just telling you
 9 right now, you got to have zinc every day.
 10 Yeah, Australia, I heard about you guys. I
 11 heard that Australia -- that they can come into your
 12 house right now, that they can come into your house
 13 without even a search warrant and check your house and
 14 check you and see if you're sick. What the hell is
 15 going on? What the hell is going on? I mean, not in
 16 my world. I'm going to tell you you can come in my
 17 house, but you ain't coming out, or at least one of us
 18 ain't. I'll tell you that right now. Welcome to the
 19 Thunderdome, baby, because I'm telling you right now,
 20 I'm not taking this shit anymore.
 21 I got three kids, man. I want to have
 22 grandbabies. I want to have great-grandbabies. I
 23 want to be around for them. I want them to be around
 24 for this. I'm telling you right now this is just --
 25 it's just insanity. And then Wash U now comes out and

22

1 they're being touted as geniuses for saying, well, did
 2 you know that boosting the immune system may be the
 3 answer for COVID-19. No shit, Sherlock.
 4 Six months ago, we said this. \$5 trillion
 5 later, unemployment off the charts later, 57 percent
 6 of restaurants never opening again later, families
 7 separated because of beliefs, lives ruined, kids not
 8 being able to go back to school, 600 percent increase
 9 in the suicide hotline, people wearing masks thinking
 10 that's going to help them with something, are you
 11 shitting me? People not getting on an -- an elevator
 12 more than two people, are you kidding me?
 13 This is stupid. This is beyond stupid.
 14 This is asinine. There is no science that supports
 15 any of this shit. None. Zero. And the thing that
 16 pisses me off more than anything is they will not even
 17 have a dialogue. They won't even talk about this
 18 because they know they'll get their asses handed to
 19 them because the facts speak louder than emotions.
 20 They're trying to control you. Not even. They are
 21 controlling you. And we bought that shit hook, line
 22 and sinker, period.
 23 Saddest thing that happened in this whole
 24 "plandemic" is that the American population bought it.
 25 You bought it. They sold you that shit and they

23

1 bought it. And guess what? Every year, they're going
 2 to sell it to you again. Get a vaccine, get a shot,
 3 get this, get that. The immune system doesn't do
 4 shit.
 5 Well, guess what? The immune system, if you
 6 understand how it works, getting a vaccine does not
 7 mean immunization. Vaccination does not equate to
 8 immunization. It doesn't. Let's have that
 9 conversation. Let's debate that. 330 million
 10 Americans on this planet, 26 percent of them right now
 11 in the Moderna -- in the Moderna trial have shown
 12 negative health effects. Negative. That's 85 million
 13 Americans that could have problems. Are you kidding
 14 me right now?
 15 And you're worried about me saying shit.
 16 Ha. That's the least -- if that's the worst thing
 17 that happens today, I get it, I get it, I get it. But
 18 if you can't get offended and fired up and passionate
 19 about where we're at today, you're a damn sheep and
 20 I'm embarrassed because I'm an "Ameri-can" and I'm
 21 raising lions not sheep and I'm a lion not a sheep.
 22 What are you? What are you? What are you going to
 23 do?
 24 Are you going to step up and stand up, get
 25 yourself healthy, find a doctor that knows what the

24

1 hell they're doing, go get your blood test done to
 2 measure your immune system, and then get on some zinc
 3 every day, get on some D3 every day, get on some
 4 "corsequine" every day, start drinking tonic water,
 5 ruby red grape juice, start getting outside in the
 6 midday sun, start exercising, start getting your body
 7 moving? Come on, you're not a sheep; you're a lion.
 8 How many of you this message resonates with
 9 you? How many of you feel this sleeping giant powder
 10 keg of America getting ready to just erupt? How many
 11 of you feel that? You got to get it going. You need
 12 emulsified D3. If you can't find D3 somewhere, go to
 13 ericnepute.com, I'll give you some there. But I'm
 14 giving away that zinc. I'm giving it away. I got
 15 2,000 bottles of zinc earmarked today. Get it. Go
 16 right now. Order a bottle of zinc. Myfreezinc.com,
 17 myfreezinc.com. Boom, get it, get it.
 18 Use it every day. Give it to your kids,
 19 give it to yourselves. Take it. Oh, I'm supposed to
 20 say consult your physician if you have any questions
 21 because apparently you can't make up your own
 22 decision. It's an over-the-counter. You don't need a
 23 drug prescription for it. Wake up. Argh, so
 24 frustrated. You should be, too.
 25 Huhhhh, I really do love all you guys. I

25

1 appreciate all you guys more than you ever know. I'm
 2 just so sick and tired of the lies, the corruption,
 3 the deceit, the things that are happening literally
 4 under our noses. There's like 35- to 40,000 people
 5 that have been arrested already for pedophile rings.
 6 We are seeing all the corruption that's happening in
 7 the -- in the polit -- the political world. We're
 8 literally seeing -- you've got guys like Jerry Nadler
 9 that are saying there's no violence happening in
 10 Portland. One of my best friends lives there and he
 11 says it's like a damn warzone.
 12 You got people saying that hospitals are
 13 overflowing and they're not. They're not even
 14 anywhere near overflow. They're nowhere close to
 15 that. We've got people not going to work, kids not
 16 going to school. Our lives have been shut down from a
 17 political reason. 150,000 people died. Yeah. Geez,
 18 man. It's just so freaking wrong.
 19 I'm so pissed off and I'm so embarrassed.
 20 I'm so embarrassed by America. I'm so embarrassed
 21 about how weak and soy latte'd and pussified we've
 22 become. It's sad. We didn't -- we weren't always
 23 this way. We're the greatest country on the planet.
 24 We need to wake up. We need to wake up. We're
 25 getting played.

26

1 You're nothing but a part of the machine
 2 now. It's time to break that. It's time to eat the
 3 shit out of those red pills, wake up, take that with
 4 your zinc and your vitamin D every day. Every day.
 5 Every day for the rest of your life.
 6 I appreciate you guys praying for me. I
 7 pray for you. I pray for this world. I pray for our
 8 leaders every day as well because we deserve better.
 9 We deserve great things.
 10 I want you to understand that we're not
 11 fighting against flesh and blood, we're fighting
 12 against spiritual evil, sickness is evil, and you can
 13 fight it, but you've got to put in the work. If
 14 you're willing to put in the work, you're going to get
 15 the results. If you're not, you won't. It's just
 16 that simple. And that's true with everything in life.
 17 Everything.
 18 Teach your children. If you weren't doing
 19 the vitamins and nutrients and eating right years ago,
 20 the best time to do it is now. Wake up. Step up.
 21 Step out. Yes, you can.
 22 Get that zinc. I just told them 2,000
 23 bottles of zinc, 2,000 bottles of zinc. I'll give it
 24 to you. You pay shipping and handling, you can have
 25 it. Get as many bottles as you can. Send it to your

27

1 friends and family. Tag them. Private message them.
 2 Go back afterwards and do a watch party with this. I
 3 just want to help you. I want to empower you. I want
 4 to give you body armor and you can do it. You don't
 5 have to be a sheep anymore.
 6 We are in this together, but we're in this
 7 together not because we're wearing a mask, social
 8 distancing, using antibacterial soaps on our hands.
 9 That's all crap. We're in this together because we
 10 understand the truth and the truth will set you free
 11 if you'll let it, but you got to let it. Amen, amen,
 12 amen.
 13 I want you guys to go right now,
 14 myfreezinc.com, myfreezinc.com. I've got 2,000
 15 bottles laid out. If they're still there, get them.
 16 If they're not, go back later and I'll check. I'll
 17 have them put some more out. Get it going. Get some
 18 zinc in your body every day. D3 every day, vitamin C
 19 every day, probiotic every day, "corsequine" every
 20 day, ruby red grape juice or eat a grapefruit every --
 21 grapefruit juice, eat a grapefruit, eat some oranges,
 22 get some healthy food in your system. Exercise every
 23 damn day. That's all you got to do.
 24 Do it. Stretch, move, breathe. It's not
 25 difficult. Think well, move well, live well, and

28

1 you'll be well.
 2 I love you guys. I got to get going. I got
 3 some businesses I got to get to and do some things.
 4 Huhhhh, thank you guys so much for your love and
 5 appreciation and thanks for sharing this. You have
 6 the ability and you have the responsibility to share
 7 this message. Thank you so much. God bless you, God
 8 bless America, and God bless the world. Bye,
 9 everybody.
