4 ERIC NEPUTE: Hey, everyone, good --

5 (Break in audio.)

6 ERIC NEPUTE: Yeah. Hey, everyone, good

7 morning this morning. It's Dr. Eric Nepute. I hope

8 you're having a blessed day. Well, I guess it's

9 morning for some. I'm sure it's evening for others.

10 And wherever in the world you're watching, I just hope

11 you're having a blessed day. And I just wanted to

12 come to you calmly and collectively and let you know

13 that everything's going to be all right.

14 But I want to share some things with you

15 that you're not seeing anywhere else, that you're not

16 seeing in the mainstream. I want to give you some

17 common sense direction, some common sense decisions,

18 some clarity, some visions, and really what's

19 happening in the world right now. So as we're waiting

20 for folks to jump on on this beautiful morning, I just

21 -- I pray that everybody's at peace, I pray that

22 everybody's filled with love and filled with joy

23 because that's what we need. We need more joy in our

24 lives and our world. So hit that share button and let

25 me know where you all are watching from.

5

1 I've got quite an interesting message for
 2 you today that I really want to take my time and get
 3 out to you because I know that y'all are seeing that
 4 ignorance and stupidity have collided at a level of --
 5 of -- well, unprecedented level. I mean, I've never
 6 seen so much of either in the world and I really want
 7 to talk to you all about that. So where are y'all
 8 watching from?
 9 Dylan, good morning in Illinois.
 10 Cornelius in Holland, hope everything's well
 11 in Holland today. I've got some good friends over in
 12 that area that I actually spoke to a couple weeks ago.
 13 Clark is in Tennessee.
 14 Valecia, hello in Illinois.
 15 Linda, good morning from Michigan.
 16 David is in Ohio. God bless you guys in
 17 Ohio. We got a big lawsuit going on in Ohio right
 18 now. I hope you guys are aware of that.
 19 Shelby's in South Carolina.
 20 You know, any questions you guys have along
 21 the way, let me know as well.
 22 And I know that everybody's heard this, it's
 23 all over the news. I'm going to talk about the new
 24 strand, the B117 strand of the virus that's out, that
 25 everybody's hearing about. They're scared to death --

7

1 overwhelming when people hear and see these things,
 2 but it's -- common sense will help you.
 3 You know, and then we're talking about this
 4 -- this strand of the virus, this B117 strand of the
 5 virus that has come out of Africa and England and now
 6 is in -- let me see, I had the stats down. It's in --
 7 it's in what, 26 counties across the United -- or 26
 8 states across the -- or we got -- no, sorry, 76
 9 confirmed cases in 12 different states in America.
 10 And the FD -- the FDA, the CDC, the World Health
 11 Organization, all these three-letter agencies are
 12 telling you that it is more infectious than any other
 13 strand we've seen.
 14 Okay. My question is so what. So what?
 15 It's not more deadly. So what? So people are scared
 16 -- they're -- they're -- here's the plan. The plan in
 17 the playbook -- I'm going to show you the playbook --
 18 good morning. Those of you that don't know me, my
 19 name's Dr. Eric Nepute. I've been -- I've been on
 20 here for a while talking to you all about the truth.
 21 And those of you who haven't seen my videos,
 22 that are looking for some things, we've got millions
 23 and millions of people follow us. You guys can go --
 24 listen, for the information that we give out, because
 25 we're probably going to get shut off again. We get

6

1 they're trying to scare you to death that the world is
 2 ending. Y'all understand something. I mean, fool me
 3 once, shame on you; fool me twice, shame on me; fool
 4 me a third time, what the heck.
 5 So here's the deal. Stop playing into their
 6 hand. Yes, it's flu and cold season. Yes, there are
 7 people that aren't doing well. Yes, there are people
 8 that are going to get sick. Yes, people are dying.
 9 No, two million people have not died in excess.
 10 I need you to understand something. Please
 11 hear me on this. Here's the common sense thing. Let
 12 me debunk this because this is very, very big in the
 13 news right now. The news media is running a story
 14 saying that two million people have died from COVID-19
 15 and, you know, remember this -- globally, by the way
 16 -- remember this, every year, around 500,000 to
 17 700,000 people die from the flu that's reported in the
 18 world. Okay? That's the flu in the world.
 19 Please remember that we are now -- during
 20 COVID, we have gone through -- we are in the middle of
 21 the second one, we're going through the second flu
 22 season that's happened, the second one. So if 700,000
 23 people die a year times two, I mean, I'm not that
 24 smart at math, but that's two -- over two million
 25 people. Um, it is -- is -- is -- is that it can be

8

1 cut off almost every one of these broadcasts that we
 2 do, usually about six, seven minutes in when I say a
 3 couple words that triggers their algorithm and then
 4 they shut us down.
 5 So you guys can go to freevitamindeals.com
 6 and follow us there. You can follow us on social
 7 media. Get the inspiration, motivation, and the
 8 products that you need.
 9 You know, I know, Marilyn, I know a lot of
 10 other -- a lot of other doctors aren't standing up and
 11 speaking out. There are some, but most aren't because
 12 they're living in fear. They're scared of losing
 13 their jobs. They're scared of being threatened. Last
 14 week, I just did a video and showed you guys one of my
 15 offices, one of my -- I have lots of locations, but
 16 one of my offices is in the middle of an audit and we
 17 have 2,500 patient files that they're -- that they've
 18 asked for auditing. We're being audited higher than
 19 any other doctors that are out there because of our --
 20 because of our stance for freedom. And it's a darn
 21 shame.
 22 So that's why because -- because most
 23 doctors can't -- don't have the wherewithal. They
 24 can't stand this. And so I don't care because,
 25 listen, you got to understand something, I'm just a

9

1 man. God -- God leads me and guides me. I'm just a
2 man that -- that does what I'm supposed to do and
3 that's to help people. And so let's get back to this
4 viral strand because I want you to hear this. And hit
5 that share button because you guys need to check this
6 out.

7 And for those of you that are looking for
8 the other videos that we've done and the nutritional
9 products and recommendations that literally millions
10 of people have downloaded now, you go to
11 freevitamindeals.com. That's freevitamindeals.com.
12 Or share this link with your friends and family.
13 You'll get a popup notification of it. And I want you
14 to go there and sign up for our email because we send
15 our emails every day with all kinds of content, things
16 that we can't say on social media because they'll shut
17 us down. Literally, if we say certain words, this
18 video will go completely flat, go -- go gone.

19 So let's go back to the playbook. I want
20 you to understand what their playbook is. So the
21 playbook is real simple. It's all about fear. It's
22 fear and then control. If they can fear you, they can
23 control you. I mean, neurologically what happens --
24 and this is just a protective mechanism that the human
25 brain and human condition is, when we're in fear, our

10

1 frontal lobe, the front part of our brain that is for
2 logic, reason, and understanding completely shuts off
3 and we go back to what's called our reptilian brain or
4 our -- our old brain, and that's our -- that's our
5 fight or flight response.

6 And we can't think, we don't have rational
7 thinking, we don't have -- we don't have
8 understanding, we don't have common sense when that
9 happens. And so they know that and they've known that
10 for a long time. It's been a pretty common playbook
11 move for centuries. So the B117 strand is now being
12 labeled as the next plague. They're telling you --
13 the news media is now telling -- because they've been
14 spoon fed what to tell you, by the way. They've been
15 spoon fed what to tell you, by the way.

16 And the news media is now telling people
17 that, listen, this new strand is more infectious than
18 any other strand we've seen. So what? So what? Then
19 they're telling you in all the news media articles
20 that if you don't get the injection, if you don't get
21 the vaccine, this is going to kill millions and
22 millions of people. These are, by the way, the same
23 -- the same modelers that said that 2.2 million
24 Americans would have been dead by now. Well, they
25 were off by just a little bit.

11

1 And by the way, report after report after
2 report is coming out and showing the truth, and the
3 truth is is that the majority of people that died
4 during COVID-19 didn't die from it, they died with it.
5 Heart diseases, heart attacks, pneumonias, flus,
6 people that were on hospice. I mean, you all know
7 this story. It's true. It's on the CDC's own
8 website. But most people aren't going to go there and
9 read it and your media is not going to report it
10 because they're bought and paid for.

11 So the fact is is that you've been lied to
12 and it's all about fear and fearing you now towards
13 pushing you to do this vaccine that you don't want to
14 do. Now, let me just tell something. If you want to
15 get this vaccine, go on and get that thing, go to the
16 front of the line and get it done. That's -- that's
17 your decision.

18 But here's the deal. We just heard from Joe
19 Biden just a day or so ago that his plan for -- and I
20 just said that -- that word now, that Joe Biden, so
21 this video might go black now. But anyway, that his
22 first 100 days, he wants to get 100 million vaccines
23 into the arms of men and women in our country, and he
24 says we're going to have to move heaven and earth for
25 this. Well, the reason why he said that is because

12

1 this is a biblical thing. This is an absolute
2 biblical time. We are definitely in biblical times.
3 And I'm just going to tell you those that don't have
4 faith are going to be living in fear.

5 And so one of the healthiest things that I
6 could tell you right now is get some faith. Follow
7 some people that you know could teach you some good
8 word and be around folks that aren't living in fear.
9 I'm not living in fear. My family's not living in
10 fear. My patients aren't living in fear. They know
11 the truth. They have faith and they have facts.

12 And the vac -- the vaccine has clearly --
13 they have said -- Moderna, Pfizer, the Oxford
14 studies, the NIH, the World Health Organization, the
15 CDC, the -- who else can I tell you, the Surgeon
16 General, person, person, person, person again and
17 again and again has clearly said this vaccine is not
18 going to stop the spread of the infection.

19 And the reports just came out this week that
20 the best protection, the longest protection it's going
21 to give you is for 12 months. So that means every 12
22 months -- every 6 to 12 months, you're going to have
23 to get a booster shot. You understand the amount of
24 control and the amount of power and the amount of
25 money that this thing is going to be -- that is going

13

1 to be -- how do I say this -- made because of this
 2 fear machine. That's the truth.
 3 So here's what I want y'all to understand.
 4 The vaccine is not going to stop the spread of this
 5 infection. That's a fact, and multiple sources have
 6 told you that. And the papers and research from the
 7 pharmaceutical industries on these vaccines clearly
 8 state that.
 9 By the way, I want you to understand how
 10 this vaccine works. This is -- technically, it's
 11 really not a vaccine, or at least it's not a vaccine
 12 like we know it, and I've been studying vaccines for
 13 over 20 years. What a vaccine normally does is a
 14 vaccine is an unattenuated or live or a small sample of
 15 a live virus that goes into the body, the body
 16 develops its own immune system response to it, and --
 17 and then you develop, you know, TH1 or TH -- really
 18 TH2 immunity. Not true immunity, that's why you need
 19 boosters.
 20 Guys, hit that share button. I've got
 21 a lot of stuff I'm going to share with you today
 22 that's pretty deep, pretty heavy, and this is
 23 something that y'all need to understand. And for
 24 those of you that want more information on this, go to
 25 that website we've got, freevitamindeals.com. That's

14

1 freevitamindeals.com. All the information we've ever
 2 talked about is there, clearly spelled out there.
 3 So back to the vaccine, this vaccine is not
 4 a vaccine. It's really a -- it's really more of a
 5 genetic modality. Let's just call it that. It's more
 6 of a genetic modality because -- because here's the
 7 deal. What it is is it's a -- it's a -- it's an RNA
 8 -- mRNA vaccine, mRNA chemical wrapped in a lipid, a
 9 protein capsule that goes in and -- and alters your
 10 RNA, which alters your DNA.
 11 Now, there's something in this vaccine
 12 that's very concerning to myself and a lot of other of
 13 my colleagues that are out there, and it's called
 14 polyethylene glycol, PEG. This PEG, which when they
 15 originally told us what this is going to do is it's
 16 just going to go into the muscle and -- and it's not
 17 going to -- and it will dissolve in a couple days and
 18 it won't go anywhere else. No, no, no.
 19 Go back and look at the Moderna study, the
 20 Oxford study. Go look at what Pfizer has written. Go
 21 look at their animal studies that they did on these
 22 vaccine trials with this type of technology in 2012
 23 and 2014. It clearly shows that this polyethylene
 24 glycol can travel into your nerves and into your brain
 25 and that is why you are seeing a lot of these

15

1 neurological adverse side effects like Bell's palsy
 2 and you see these people that have this condition
 3 called ataxia.
 4 Ataxia is a neurological condition where
 5 their bodies are just shaking. You've seen these
 6 videos. That's from the polyethylene glycol. And
 7 I've put some of these videos on our site that you
 8 can go and -- and check out if you go to
 9 freevitamindeals.com. That's freevitamindeals.com.
 10 Now, there's a couple other things that I
 11 want to -- I want to share with you that are really
 12 important. And my screen's going black, so I
 13 apologize. And I know if I -- if y'all can still see
 14 me, would you give me a thumbs-up because I'm just
 15 telling you they just are always messing with us and
 16 it's just such an absolute joke. I'm -- I'm just
 17 embarrassed for social media. I'm embarrassed for our
 18 country with all the crap that we go through. It's
 19 just so silly. It's just so unnecessary, too.
 20 They're trying to block the truth. Y'all
 21 know that, don't you? They're trying to block the
 22 truth because they don't want you to know the truth.
 23 They want you to be fat, sick, and nearly dead, and
 24 they go after individuals like me. And, again,
 25 somebody asked earlier, how come more doctors aren't

16

1 standing up. Well, there's a lot of reasons. Number
 2 one, most doctors get de-platformed, which is why you
 3 can't find me -- you can't find me on social media
 4 anymore. We literally had some of our videos, 20, 30,
 5 40, 50 million people would watch them. And now
 6 that's why you have to go to freevitamindeals.com,
 7 register there, join the movement. We'll send you
 8 emails every day and you can join our platform.
 9 And then the other reason why doctors don't
 10 speak up is because they are -- well, they're feared
 11 by -- the three-letter organizations come after them,
 12 the FBI, the IRS, and, well, OIG. And so they get
 13 over -- over-audited, and that's what's happening to
 14 us, and I don't even care because it's not about me.
 15 It's about you, it's about God, it's about -- it's
 16 about the truth, and the truth will set us free.
 17 So you guys can go there. Good, I can see
 18 y'all, too, then.
 19 So let me -- let me share something with you
 20 about -- about the studies that just came out from --
 21 or the reports that just came out from the CDC on
 22 deaths. So we're saying now that there's 350-some-
 23 thousand deaths in the United States from COVID-19.
 24 Let me read some statistics to you real quick.
 25 Out of those 350,000-plus supposed deaths

17

1 over the last -- over the last now almost two years --
2 well, really a year and some change -- 87,000 of those
3 are from pneumonia and the flus. This is the CDC's
4 numbers. 17,000 of them are from chronic respiratory
5 disease; 26,000-plus are from respiratory distress
6 syndrome; 44,000-plus are from hypertensive diseases;
7 25,000 of them are from heart disease; 28,000-plus of
8 them are from cardiac arrest or heart attacks; 130,000
9 of them already had a severe major --
