## How Supple® Powder Works

Supple® Powder provides the body with the building blocks of cartilage, glucosamine and chondroitin, to augment the strengthening and rebuilding process. Glucosamine and chondroitin are natural molecules that penetrate to the joints and help synthesize proteoglycans which give resilience to cartilage and strength to ligaments surrounding the joint. Our formulation is enhanced with 10 important vitamins and minerals that facilitate joint repair and inhibit oxidative injury.

**Linda Wright** Does this work if the cartilage is worn away and rubbing bone to bone my doctor said there is nothing they can do but knee replacement????

April 25, 2013 at 5:58am

**Carrie At Supple** Supple will help the process of repairing cartilage and it works differently with every person's body.

**Linda Wright** Thank you

April 25, 2013 at 9:27am

**Supple LLC** You bet Linda! 😊

April 25, 2013 at 10:50am

**Supple LLC** Linda, we have had many people who have been "bone on bone" and their doctor's told them that they would only have one option and that is surgery for a replacement find Supple first and actually get to take their life back and not have to go into surgery. The best advice I can give, is give it a try. You have nothing to lose. We have a money back guarantee, so if it doesn't work for you, you will be reimbursed for your order. You just have to make sure that you take it every single day and take the full quantity of you your order. You will not be disappointed.
