RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

The EPA is obligated and required to listen to public comment minimizing economic impact to individuals and businesses. It is obvious they are agenda driven to force the 15% ethanol down peoples throats.

EPA do you job and allow for gasoline to have no ethanol, and absolutely no more than 10%.

Sincerely,
Kevin Baldwin, CO
