Washington, DC 20580

RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

This is unacceptable. Purposely making it confusing for people to identify safe gas from destroy your property gas must not be allowed. The label should be bigger and more visible than any other on the pump and it should specifically state that it will damage your motor vehicle. Better yet, E15 should not be allowed in the marketplace at all.

Sincerely,
Robert Baker, WA
