RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

I have voted since I was 18. I am now 57 and disgusted with the fact that Washington is now run by lobbyists!. Ethanol is THE biggest scam in America. It burns faster, (MORE fuel being used). As of 4.9.14. Corn prices were \$4.80 per bushel. Continuing to add Ethanol to real gasoline is NOT cost effective, nor is it environmentally responsible. "If" this stupidity actually takes place?... "Vote Em Out" will also take place.

Sincerely,
Tom Breedlove, IL
