

Federal Trade Commission

Cigarette Report

for 2015

ISSUED: 2017

I. INTRODUCTION

This report is the latest in a series on cigarette sales, advertising, and promotion that the Federal Trade Commission (“Commission”) has prepared since 1967.

The tables appended to this report provide information on domestic cigarette sales and advertising and promotional activity by the largest manufacturers. The 2015 sales and expenditure information in the tables was compiled from data contained in special reports submitted to the Commission pursuant to compulsory process by the parent companies of the major manufacturers of cigarettes sold in the United States: Altria Group, Inc. (Altria); ITG Holdings USA Inc. (ITG); Reynolds American, Inc. (Reynolds); and Vector Group Ltd (Vector).¹

II. TOTAL SALES AND ADVERTISING AND PROMOTIONAL EXPENDITURES

The total number of cigarettes reported sold by the major manufacturers, 244.2 billion in 2015, decreased by 9.6 billion units (3.8 percent) from 2014. Advertising and promotional expenditures increased during that same period, from \$8.031 billion to \$8.240 billion. The largest single category of these expenditures in 2015 was price discounts paid to cigarette retailers in order to reduce the price of cigarettes to consumers, which accounted for \$5.447 billion (66.1 percent of total advertising and promotional expenditures).²

¹ The number and identity of the companies reporting cigarette data has varied over the 50 years that the Commission has issued these reports. For 2008 through 2014, the Commission’s compulsory process orders were issued to Altria, Commonwealth Brands, Inc. (Commonwealth); Lorillard, Inc. (Lorillard), Reynolds, and Vector. In a transaction that finalized in June 2015, Reynolds acquired Lorillard and sold certain Reynolds and Lorillard brands to ITG Brands, LLC, which is a subsidiary of ITG, as is Commonwealth.

² The advertising and promotional expenditure figures contained in this report are in nominal dollars and have not been adjusted for inflation.

III. CIGARETTES SOLD AND GIVEN AWAY

Tables 1A through 1C display annual cigarette sales by the manufacturers to wholesalers and retailers. Table 1C displays the total number of cigarettes sold in the years 2011 through 2015. In 2015, the major cigarette manufacturers sold 244.2 billion cigarettes domestically, down from 253.8 billion in 2014. The Commission is not reporting the number of cigarettes given away³ in 2015, because – as in 2011 through 2014 – only one company reported such giveaways.⁴

IV. ADVERTISING AND PROMOTIONAL EXPENDITURES BY CATEGORY

Tables 2A through 2F show the amounts spent on cigarette advertising and promotion for the years 1970, and 1975 through 2015.⁵ These tables list the amounts spent on the different types of media advertising (*e.g.*, magazines) and sales promotion activities (*e.g.*, distribution of cigarette samples), and also give the percentage of the total amount spent for each of the various types of advertising and promotion.⁶

Table 2F shows that overall, the major manufacturers spent \$8.240 billion on cigarette

³ Cigarettes given away include all cigarettes distributed for free, whether through sampling, coupons for free product, “buy 3 packs, get 1 free” type offers, or otherwise, as long as those cigarettes were not reported as sold. For years prior to 2001, the Commission required the manufacturers to report the number of cigarettes they sold but not the number they gave away. It is possible that in those earlier years, some manufacturers included in their sales figures some cigarettes that were actually given away.

⁴ Because only one company reported giveaways, the Commission does not report this information in order to avoid potential disclosure of individual company data.

⁵ The reported figures include all advertising and promotional expenditures related to cigarettes, regardless of whether such expenditures would constitute “commercial speech” or would be protected from law enforcement action under the First Amendment.

⁶ Since the last report was published, the Commission has learned that some cigarette advertising and promotion expenditures were previously misreported by one or more of the companies. These errors have been corrected in Tables 2D through 2F.

advertising and promotion in 2015, an increase from the \$8.031 billion spent in 2014.⁷

The companies reported spending \$22.5 million on magazine advertising in 2015, a decrease from the \$50.0 million they spent in 2014. The Commission is not reporting the amount spent on newspaper advertising in 2015 because only one company reported spending in that category.

Spending on “outdoor” advertising decreased from \$2.2 million in 2014 to \$2.0 million in 2015.⁸

The companies reported spending \$41.8 million for direct mail advertising in 2015, down from \$46.2 million in 2014.⁹ Spending on point-of-sale materials (ads posted at the retail location but excluding outdoor ads on retailer property), which was \$45.8 million in 2014, decreased to \$34.9 million in 2015.¹⁰

In 2015, the companies reported spending \$5.447 billion on price discounts (payments made in order to reduce the price of cigarettes to consumers) to retailers and \$1.502 billion on price

⁷ Definitions of the advertising and promotional expenditure categories appear in the Appendix to this report. If only one company reported spending money on a particular type of advertising or promotion, that category appears as “N/A” and the expenditures are included in the “Other” category, to avoid potential disclosure of individual company data. For this reason, the Commission is not separately reporting the amounts spent in 2015 on newspaper advertising, Internet advertising other than on the company’s own websites, sampling, or promotional allowances paid other than to retailers or wholesalers.

⁸ Since 2002, “outdoor” advertising has been defined to mean billboards; signs and placards in arenas, stadiums, and shopping malls (whether they are open air or enclosed); and any other advertisements placed outdoors, regardless of their size, including those on cigarette retailer property. Before 2002, “outdoor” advertising was not precisely defined and it was not clear that signs in arenas, stadiums, shopping malls, or on retailer property were to be reported in this category.

⁹ The companies are asked to report the cost of coupons sent by direct mail in the coupons category.

¹⁰ The Commission’s orders for 2014 and 2015 did not collect data on transit advertising (advertising on or in vehicles, bus stops, taxi stands, or transportation facilities) because the recipients of the orders had not reported expenditures on transit advertising since 2000.

discounts to wholesalers.¹¹ In 2014, expenditures in those categories were \$5.564 billion and \$1.201 billion, respectively. Retail and wholesale price discounts were the two largest expenditure categories in 2015, representing a combined 84.3 percent of total expenditures (66.1 percent and 18.2 percent, respectively).

Spending on promotional allowances (intended to facilitate the sale or placement of cigarettes) paid to cigarette retailers (*e.g.*, payments for stocking, shelving, displaying, and merchandising brands, volume rebates, and incentive payments) decreased from \$260.3 million in 2014 to \$216.4 million in 2015. Spending on promotional allowances paid to cigarette wholesalers (*e.g.*, payments for volume rebates, incentive payments, value-added services, and promotional executions) declined from \$363.3 million in 2014 to \$356.7 million in 2015. The Commission is not reporting the amount spent on promotional allowances paid to persons other than retailers or wholesalers in 2015 because only one company reported spending in that category.

When price discounts and promotional allowances paid to cigarette retailers and wholesalers are combined, they total \$7.523 billion, and account for 91.3 percent of all 2015 spending.

The Commission is not reporting the amount spent in 2015 giving cigarette samples to the public (“sampling”) because, as in 2014, only one company reported spending in that category.¹²

In 2015, \$47.1 million was spent on non-branded specialty item distribution in connection

¹¹ Examples of price discounts include off-invoice discounts, buy downs, and voluntary price reductions.

¹² Although regulations promulgated pursuant to the Family Smoking Prevention and Tobacco Control Act (“Tobacco Control Act”) prohibited sampling effective in mid-2010, *see* 21 C.F.R. § 1140.16(d), one company has continued to report sampling expenditures because the Commission defines “sampling” to include the distribution of cigarettes for consumer testing or evaluation outside the company’s facility.

with the marketing or promotion of cigarettes, an increase from the \$37.4 million spent in 2014.¹³

Expenditures for the adult-only public entertainment category decreased from \$104.9 million in 2014 to \$72.4 million in 2015. This category includes public entertainment events that take place in an adult-only facility (*e.g.*, sponsorship of bar nights or concerts) and display the name or logo of a company's cigarettes or otherwise refer to cigarettes.¹⁴

Since 2013, the companies have reported that they made no expenditures either on audio-visual advertising or on public entertainment events taking place outside of adult-only facilities and displaying the name or logo of a company's cigarettes or otherwise referring or relating to cigarettes.

As they have since 2010, all reporting companies stated that in 2015 they spent no money on

¹³ Specialty item distribution includes the practice of selling or giving to consumers non-cigarette items, such as T-shirts, caps, sunglasses, key chains, lighters, and sporting goods. When the distribution of such items is combined with the sale of cigarettes, such as when a non-cigarette item is blister-packed to packages of cigarettes, the associated expenditures are reported under retail-value-added.

Pursuant to the 1998 Tobacco Master Settlement Agreement with the attorneys general of 46 states, major tobacco companies, including all those from which the Commission then collected cigarette advertising and promotional data, agreed to not distribute branded non-tobacco promotional items. Subsequently, the distribution of such items was also prohibited by regulations promulgated pursuant to the Tobacco Control Act. *See* 21 C.F.R. § 1140.34(a). Nevertheless, due to misunderstandings, since 2002, some of the companies misreported that they incurred expenses for branded specialty item distribution. Because all such expenditures were misreported, the Commission has deleted the branded specialty item distribution category from Tables 2A through 2F and reallocated the expenditures in that category pursuant to instructions from the individual companies. Where the companies were unable to properly reallocate the expenditures, they were moved to the "Other" expenditure category.

¹⁴ The Commission has learned that for many years the companies have been reporting consumer engagement in adult-only facilities under this adult-only public entertainment category even when such activities do not entail any entertainment. Also, at some point the companies stopped sponsoring any entertainment in adult-only facilities. We are unable to separate or distinguish prior expenditures on adult-only entertainment from adult-only consumer engagement.

sponsorships.¹⁵ Since 2012, all the companies have also stated that they spent no money on endorsements and testimonials.

The companies reported spending \$335.6 million on coupons to reduce the retail cost of cigarettes in 2015, an increase from the \$254.8 million spent in 2014.¹⁶

Retail-value-added expenditures are the costs associated with offers such as “buy one, get one free” and “buy three, get a free T-shirt,” where the bonus item is distributed at retail when the cigarettes are purchased. As they have each year since 2011, the companies reported spending no money in 2015 on retail-value-added involving bonus cigarettes. Similarly, each year since 2010, the companies reported spending no money on retail-value-added promotions involving non-cigarette items.¹⁷ In 2015, the companies reported spending no money on telephone advertising, a decrease from the \$65,000 they reported in 2014. This category includes costs associated with telemarketing calls or the operation of incoming telephone lines for consumers to participate in promotions or hear pre-recorded product messages.

In 2015, the companies reported spending \$27.6 million on advertising on company websites, an increase from the \$16.6 million they reported in 2014. As in 2014, the Commission is not separately reporting the amount spent in 2015 on Internet advertising other than company websites because only one company reported spending in that category.

The companies reported no spending in 2015 on “social media marketing on Web sites or

¹⁵ Regulations promulgated pursuant to the Tobacco Control Act and effective since mid-2010 prohibited tobacco-brand sponsorships of “any athletic, musical, artistic, or other social or cultural event, or any entry or team in any event.” *See* 21 C.F.R. § 1140.34(c).

¹⁶ When coupons are distributed for free cigarettes and no purchase is required to redeem them, such activities are reported as “sampling,” not as “coupons.”

¹⁷ Regulations promulgated pursuant to the Tobacco Control Act and effective since mid-2010 prohibit “offer[ing] any gift or item (other than cigarettes ...) to any person purchasing cigarettes ... in consideration of the purchase thereof” *See* 21 C.F.R. § 1140.34(b).

other online services or communities, including but not limited to social networking sites, microblogging sites, content-sharing sites, and blogs,” just as they have each year since the Commission started requesting these data in 2009.

The Commission also requires the cigarette manufacturers to report the amounts they spent on advertising and promotion in connection with sports and sporting events.¹⁸ This question is separate from, and duplicative of, the reporting of the individual advertising and promotion categories. For example, money spent on sponsorship of a sports team would be reported under the “sponsorship” category and as “sports and sporting events” expenditures. These expenditures are counted only once, however, in computing the companies’ total advertising and promotional expenditures.

From 2010 through 2014, the companies reported that they did not spend any money advertising and promoting sports and sporting events; in 2015, they spent \$574,000 on advertising and promotion in connection with sports and sporting events. The Commission notes that its compulsory process orders for 2015 clarified for the first time that the companies should report all advertising and promotional expenditures “connected with or related to” sports or sporting events, including cigarette sampling in an adult-only facility on the grounds or in the parking lot of a sports facility.

Since 2001, the Commission has required the manufacturers to report expenditures on advertisements directed to youth or their parents that are intended to reduce youth smoking. The

¹⁸ This includes expenditures for: (1) the sponsoring, advertising, or promotion of sports or sporting events; support of an individual, group, or sports team; and purchase of or support for equipment, uniforms, sports facilities, and/or training facilities; (2) advertising in the name of the cigarette company or any of its brands in a sports facility, on a scoreboard, or in conjunction with the reporting of sports results; and (3) functional promotional items (clothing, hats, etc.) connected with a sporting event.

companies reported spending \$2.3 million in 2015.¹⁹ Over the previous nine years, they had reported expenditures of \$57.7 million (2006), \$20.7 million (2007), \$11.5 million (2008), \$8.1 million (2009), and \$4.4 million (2010), \$2.9 million (2011), \$2.2 million (2012), \$1.9 million (2013), and \$1.7 million (2014). These figures do not include contributions to third parties that engage in such programs.

The cigarette manufacturers reported that neither they nor anyone working for them or on their behalf paid money or any other form of compensation in connection with the production or filming of any motion picture or television show in 2015, or paid money or any other form of compensation to anyone engaged in product placement in motion pictures or television shows. The companies also reported that neither they nor anyone working for them or on their behalf sought, solicited, granted approval, or otherwise gave permission for the appearance of any cigarette product or cigarette brand imagery in any motion picture or television show. Most of the companies reported that neither they nor anyone working for them or on their behalf: (1) sought, solicited, granted approval, or otherwise gave permission for the appearance of any cigarette product or cigarette brand imagery in any video appearing on the Internet, or (2) engaged in social media marketing that promoted any cigarette brand or variety or used cigarette brand imagery. One company reported having video advertising on company-operated websites and allowing the posting of user-generated content on those websites.

The expenditure data reported in Tables 2 through 2F were not collected in their present form until 1975. Therefore, Table 3 reports advertising expenditures from 1963 through 1974.

¹⁹ These expenditures are not included in the \$8.240 billion reported in Table 2F (cigarette expenditures by category for 2015).

V. TAR YIELDS, FILTERS, LENGTH, AND FLAVOR

Tables 4A and 4B give the domestic market share of cigarettes with tar yields of 15 mg or less for the years 1967 through 2015. The data for the years since 1982 are further broken down into sub-categories according to tar yields, *e.g.*, 3 mg or less, 6 mg or less, etc. (categories are presented cumulatively).

The tar yield data reported to the Commission appear to show decreases from 2014 to 2015 in the market share of cigarettes with tar yields of 3 mg or less, 6 mg or less, and 9 mg or less, and 15 mg or less. They also appear to show increases in the market share of cigarettes with tar yields of 12 mg or less. The Commission notes, however, that its compulsory process orders requesting data for 2011 through 2015 have required the companies only to report tar, nicotine, and carbon monoxide yield data that they have available; they were not required to conduct additional testing. Consequently, market share comparisons within these years or to previous years may not be reliable.

As shown in Tables 5A and 5B, filtered cigarettes have dominated the market since the Commission began collecting this information in 1963. Filtered cigarettes accounted for 99.8 percent of the market in 2015.

Tables 6A and 6B provide the market share of the various cigarette length categories. The King size (79-88 mm) category continues to be the biggest seller, with 53 percent of the market in 2015. This category is followed by the Long (94-101 mm) group, with 43 percent of the market.

Tables 7A and 7B give the market share of menthol and non-menthol cigarettes. In 2015, menthol cigarettes were 26% percent of the market, while non-menthols were 74% percent.

Table 8A shows the percentage of cigarettes that disclosed both tar and nicotine yields on their packs during the years 1994 through 2001; Table 8B shows the percentage that disclosed tar

yields from 2002 to 2011. In 2015, as in every year since 2008, 0.0% of the overall cigarette market disclosed tar yields on the pack. Therefore, as the Commission first noted in its Cigarette Report for 2011, Table 8B will not be updated unless and until the companies resume printing tar yields on their product packaging.

TABLE 1A

TOTAL DOMESTIC CIGARETTE UNIT SALES (1963-2000)
(IN BILLIONS OF INDIVIDUAL CIGARETTES)

YEAR	TOTAL SALES REPORTED BY CIGARETTE MANUFACTURERS*	UNIT CHANGE FROM PRIOR YEAR	% CHANGE FROM PRIOR YEAR	USDA CIGARETTE CONSUMPTION ESTIMATES

* Because of rounding, sums of percentages may not equal 100 percent.

** Expenditures denoted "N/A" are included in the "Other" category to avoid potential disclosure of individual company data.

‡ Prior to 2014, price discounts were not broken down by whether they were paid to retailers or wholesalers.

† This expenditure was previously misreported due to an error by one or more companies.

2000	87.1%	50.4%	23.7%	13.6%	1.3%
2001	85.2%	58.1%	22.6%	13.2%	1.0%
2002	84.9%	58.2%	22.5%	12.9%	0.9%
2003	84.9%	59.5%	22.5%	12.6%	0.8%
2004	84.8%	57.7%	19.2%	11.5%	0.8%
2005	83.5%	58.4%	18.7%	11.5%	0.6%
2006	84.4%	57.7%	19.5%	11.1%	0.5%
2007	82.7%	57.3%	19.6%	10.7%	0.4%
2008	84.3%	57.6%	18.0%	10.3%	0.3%
2009	74.7%	54.4%	15.5%	9.6%	0.3%
2010	86.4%	53.8%	12.9%	8.3%	0.2%
2011*	94.2%	53.4%	12.2%	8.0%	0.2%
2012*	88.8%	54.8%	20.7%	13.0%	5.0%
2013*	87.3%	52.7%	14.0%	7.4%	0.3%
2014*	85.1%	50.4%	18.8%	7.5%	0.7%
2015*	84.5%	52.4%	14.8%	7.2%	0.2%

* Prior to 2011, the companies were required to submit tar, nicotine, and carbon monoxide yield data for every cigarette variety they sold. Since 2011, the companies have only been required to submit data in their possession or control; the Commission has not required them to test their cigarettes. As a result, market share comparisons both within a given year and to previous years might no longer be accurate.

* Prior to 2011, the companies were required to submit tar yield data for every cigarette variety they sold. Since 2011, the companies have only been required to submit data in their possession or control; the Commission has not required them to test every one of their cigarettes. As a result, market share comparisons both within a given year and to previous years might no longer be accurate. Given that and the fact that since 2008 the companies have reported that they have not disclosed tar ratings on any of their packs, the Commission will no longer be updating this table.

APPENDIX

2015 Advertising and Promotional Expenditure Categories

Newspapers: Newspaper advertising; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Magazines: Magazine advertising; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Outdoor: Billboards; signs and placards in arenas, stadiums, and shopping malls, whether they are open air or enclosed; and any other advertisements placed outdoors, regardless of their size, including those on cigarette retailer property; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Audio-visual: Audio-visual or video advertising on any medium of electronic communication not subject to the Federal Communications Commission's jurisdiction, including screens at motion picture theaters, video cassettes or DVDs, and television screens or monitors in stores; but excluding expenditures in connection with Internet advertising.

Point-of-Sale: Point-of-sale advertisements; but excluding expenditures in connection with outdoor advertising, sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, and retail-value-added.

Price discounts – Retailers: Price discounts paid to cigarette retailers in order to reduce the price of cigarettes to consumers, including off-invoice discounts, buy-downs, voluntary price reductions, and trade programs; but excluding retail-value-added expenditures for promotions involving free cigarettes and expenditures involving coupons.

Price discounts – Wholesalers: Price discounts paid to cigarette wholesalers in order to reduce the price of cigarettes to consumers, including off-invoice discounts, buy-downs, voluntary price reductions, and trade programs; but excluding retail-value-added expenditures for promotions involving free cigarettes and expenditures involving coupons.

Promotional Allowances – Retailers: Promotional allowances paid to cigarette retailers in order to facilitate the sale or placement of any cigarette, including payments for stocking, shelving, displaying and merchandising brands, volume rebates, incentive payments, and the cost of cigarettes given to retailers for free for subsequent sale to consumers; but excluding expenditures in connection with newspapers, magazines, outdoor, audio-visual, direct mail, point-of-sale, and price discounts.

Promotional Allowances – Wholesalers: Promotional allowances paid to cigarette wholesalers in order to facilitate the sale or placement of any cigarette, including payments for volume rebates, incentive payments, value added services, promotional execution and satisfaction of reporting requirements; but excluding expenditures in connection with newspapers, magazines, outdoor, audio-visual, direct mail, point-of-sale, price discounts, and retail promotional allowances.

Promotional Allowances – Other: Promotional allowances paid to any persons other than retailers, wholesalers, and full-time company employees who are involved in the cigarette distribution and sales process in order to facilitate the sale or placement of any cigarette; but excluding expenditures in connection with newspapers, magazines, outdoor, audio-visual, direct mail, point-of-sale, price discounts, and retail and wholesale promotional allowances.

Sampling: Sampling of cigarettes, including the cost of the cigarettes, all associated excise taxes and increased costs under the Master Settlement Agreement, and the cost of organizing, promoting, and conducting sampling. Sampling includes the distribution of cigarettes for consumer testing or evaluation when consumers are able to smoke the cigarettes outside of a facility operated by the Company, but not the cost of actual clinical testing or market research associated with such cigarette distributions. Sampling also includes the distribution of coupons for free cigarettes, when no purchase or payment is required to obtain the coupons or cigarettes.

Specialty Item Distribution – Non-Branded: All costs of distributing any item (other than cigarettes, items the sole function of which is to advertise or promote cigarettes, or written or electronic publications), whether distributed by sale, redemption of coupons, or otherwise, that does not bear the name, logo, or an image of any portion of the package of any brand or variety of cigarette, including the cost of the items distributed but subtracting any payments received for the item. The costs associated with distributing non-cigarette items in connection with sampling or retail-value-added programs are reported in those categories, not as specialty item distribution.

Direct Mail: Direct mail advertising; but excluding expenditures in connection with sampling, specialty item distribution, public entertainment, endorsements, sponsorships, coupons, retail-value-added, and Internet advertising.

Public Entertainment – Adult-Only: Public entertainment events bearing or otherwise displaying the name or logo or an image of any portion of the package of any of a company's cigarettes or otherwise referring or relating to cigarettes, which take place in an adult-only facility, including all expenditures made by the company in promoting and/or sponsoring such events.

Public Entertainment – General-Audience: Public entertainment events bearing or otherwise displaying the name or logo or an image of any portion of the package of any of a company's cigarettes or otherwise referring or relating to cigarettes, which do not take place in an adult-only facility, including all expenditures made by the company in promoting and/or sponsoring such events.

Retail-Value-Added – Bonus Cigarettes: Retail-value-added expenditures for promotions involving free cigarettes (*e.g.*, buy two packs, get one free), whether or not the free cigarettes are physically bundled together with the purchased cigarettes, including all expenditures and costs associated with the value added to the purchase of cigarettes (*e.g.*, excise taxes paid for the free cigarettes and increased costs under the Master Settlement Agreement).

Retail-Value-Added – Non-Cigarette Bonus: Retail-value-added expenditures for promotions involving free non-cigarettes items (*e.g.*, buy two packs, get a cigarette lighter), including all expenditures and costs associated with the value added to the purchase of cigarettes.

Coupons: All costs associated with coupons for the reduction of the retail cost of cigarettes, whether redeemed at the point-of-sale or by mail, including all costs associated with advertising or promotion, design, printing, distribution, and redemption. However, when coupons are distributed for free cigarettes and no purchase or payment is required to obtain the coupons or the cigarettes, these activities are considered to be sampling and not couponing.

Sponsorships: Sponsorships of sports teams or individual athletes, but excluding endorsements.

Endorsements & Testimonials: Endorsements, testimonials, and product placement.

Company Website: All expenditures associated with advertising on any company Internet website.

Internet – Other: Internet advertising other than on the Company's own Internet website, including on the World Wide Web, on commercial on-line services, and through electronic mail messages; but excluding costs associated with social media marketing.

Telephone: Telephone advertising, including costs associated with the placement of telemarketing calls or the operation of incoming telephone lines that allow consumers to participate in any promotion or hear pre-recorded product messages; but excluding costs associated with having customer service representatives available for responding to consumer complaints or questions.

Social Media Marketing: All expenditures for social media marketing on Web sites or other online services or communities, including but not limited to social networking sites, microblogging sites, content-sharing sites, and blogs.

Other: Advertising and promotional expenditures not covered by another category.
