VALUE VISION
FIGHT THE FAT

DATE: RECORDED JUNE 6, 2000
FEMALE HOST: Those ten pounds have crept up and you just cannot maintain. Maybe you go on a fad diet, you lose the five pounds, you lose the ten pounds and you can't maintain it. No matter what your age, no matter what your lifestyle, no matter what your eating habits are, this system will help you lose weight. It will quite literally melt the pounds off you.

I want to introduce FTF, but before we do, I want you to listen to a gentleman named Randy --

MALE HOST: No, that's the --

FEMALE HOST: Oh, that's the next one, I'm sorry.

MALE HOST: That's okay.

FEMALE HOST: Everyone is going to listen to two women.

MALE HOST: This is going to be two women right now.

FEMALE HOST: Two women.

MALE HOST: Who will tell you about FTF. It's perfect.

FEMALE HOST: Ahhh, take a look at these testimonials and then we'll talk so much about really the breakthrough technology you're getting.

(Testimonials)

ON SCREEN: Leann L. Individual results may vary

LEANN L.: Well, I think FTF is definitely a dieter's dream. It is the most easy and convenient product that you could ever hope to use. I put the FTF in my purse, I put a few drops in my drink, I don't have to think about, you know, planning, I don't have to plan taking it ahead of time.

I can take it before or I can take it after a meal. It has go to be
absolutely the easiest product to use that's on the market today.

**ON SCREEN: Cam C. Individual results may vary**

CAM C.: Okay. FTF allows me to eat chocolate and I'd say most of my fat is in the foods that I really enjoy, and if I forget to take it before a meal, I can always take it after. And I've lost, oh, about eight and a quarter pounds in the last two weeks and I really haven't changed my eating habits that much.

FEMALE HOST: All right. Who's addicted? Chocolate --

MALE HOST: Chocolate, me.

FEMALE HOST: -- butter, salt, chips. These are foods you can continue to eat, continue to enjoy on July 4th, on your birthday parties, every single day if you want to because this product will take the fat components, from what I understand --

MALE HOST: Right.

FEMALE HOST: -- in whatever food you're eating --

MALE HOST: In whatever you're eating.

FEMALE HOST: -- and just escort it right out of your body.

MALE HOST: Before it can stick to your chin, to your jowls, to your belly, to your buttocks. It is an amazing product. Now, you may have heard of something called chitosan.

FEMALE HOST: Um-hum.
MALE HOST: What FTF is is a refined form of chitosan, okay? It's taken the active ingredients in chitosan --
FEMALE HOST: Um-hum
MALE HOST: -- and it has concentrated them, made them super-powerful. We've done a -- we had an independent laboratory test, FTF, and what they found is it actually absorbs 16 -- over 16 times its weight in fat.

MALE HOST: One of the things that we do know, that the way to lose

weight is exercise. We do encourage you to exercise because if you exercise, just a

simple walk around the block every day, is going to help you lose fat even faster when

you use FTF. The other item is that you need to reduce your fat caloric intake.

FEMALE HOST: Um-hum.

MALE HOST: FTF does that, and as we get older, sometimes your

cholesterol level goes up.

FEMALE HOST: Um-hum.

MALE HOST: Well, I'm going to tell you, if you take FTF regularly,
your cholesterol will drop. It will go down, studies conclusively prove that.

FEMALE HOST: Take a look at this. Let's take a look at the kind of

foods we eat especially this time of year. I have grilled out for the last two weeks and

I've had plenty of hamburgers.

MALE HOST: Absolutely. It's an American staple.

MALE HOST: You've got to get in shape. Now, how do you do that? Well, you eat less, you exercise and you probably need a little -- maybe a secret.

FEMALE HOST: Um-hum.

MALE HOST: And a secret is FTF. If you take FTF, if you use FTF on a regular basis, you're going to see amazing results, it's going to be fast, it's going to be easy. It is not a diet. This is a food supplement. It's going to work for you. And if you've used the product, call us up, tell us about your successes because I know that there are thousands of people in this country who have used FTF and that you can share your results with us right now.

FEMALE HOST: This is a dream come true for those of you that don't want to have to work for it, for those of you like me that have a very busy lifestyle, I work full-time, I'm a full-time mom, I have an almost two-year old.

MALE HOST: Oh, boy.

FEMALE HOST: And you can only imagine how busy she's keeping me. I do not have time to plan meals. I have been trying to put my husband and I on a diet for -- since I had the baby, which was two years ago. It hasn't happened in two
years, and if it's not happened yet, it's just not going to happen.

This is as easy as putting one of these on my counter in my kitchen, another one of these in my purse. I do a couple of drops at lunch, I do a couple of drops at dinner and that's all I have to do and the fat that I'm eating will automatically leave my body without really having to work for it.

Now, as Mark has mentioned, we do recommend that you eat a healthy lifestyle or --

MALE HOST: Right.

FEMALE HOST: -- at least try to. We do recommend that you get some exercise. But for a busy full-time working mom, let me tell you what, this is absolutely positively a dream come true. Now, this is breakthrough technology.

I want to show you a little bit of footage and I want to have Mark explain --

MALE HOST: Okay.

FEMALE HOST: -- what you're seeing here because I know a lot of you have heard of chitosan products and chitosan-based products, and you've heard of them somehow melting the fat and taking it out of your body. Take a look at what this product scientifically does. What are we looking at, Mark?

MALE HOST: Okay. We have two beakers. In both beakers we put water. The water has been chemically treated to appear to be -- to act as if it were the contents -- the chemical composition of a normal human stomach.

FEMALE HOST: Um-hum.

MALE HOST: We've just added chitosan to that and we're stirring it in.

FEMALE HOST: On the right hand side?

MALE HOST: On the right hand side --

FEMALE HOST: Okay.
MALE HOST: -- as we're watching. It will take these capsules anywhere from two to four hours to begin to work.

ON SCREEN: Capsules Take 2-4 Hours to Work

FEMALE HOST: Oooh.

MALE HOST: To begin to work.

FEMALE HOST: So, you have to plan on what you're going to eat two to four hours ahead of time.

MALE HOST: You have to take -- right.

FEMALE HOST: It's like, oh my gosh.

ON SCREEN: Actual Time: 20 Seconds

MALE HOST: So, at 9:00 in the morning, you have to take it because you may be eating a hamburger at lunch three hours later. Maybe.

FEMALE HOST: See, I'm not -- I don't plan like that.

ON SCREEN: Works Almost Instantly

FTF Absorbs Fat Faster and Quicker

Capsules

MALE HOST: I can't do it. Now, watch this, within 20 seconds -- we did the same thing, we've added drops of the FTF.

FEMALE HOST: Um-hum.

MALE HOST: Watch what happens. It starts clearing at the bottom because what happens is that the FTF works instantly.

FEMALE HOST: Oh, my gosh.

MALE HOST: Within 20 seconds, it has taken the fat and it has made it bio-unavailable. Bio-unavailable, a very important word. What bio-unavailable does to you and your body, it takes the fat that you're eating in your steaks, your pizza, your hamburgers, your cheese, your macaroni and cheese.

FEMALE HOST: Chocolate.
MALE HOST: Chocolate, which I like, too.

FEMALE HOST: Butter.

MALE HOST: Butter, all those --

FEMALE HOST: Bread.

MALE HOST: -- and it makes it so it doesn't stick to your chin, to your stomach, to your derriere, to your thighs. I mean, this is a breakthrough technology, folks.

FEMALE HOST: Um-hum.

MALE HOST: It is not magic, it just appears to work like magic. It is easy, it is fast and you need to order right now.

FEMALE HOST: Oh. If we can see that -- if we can see that one more time because I know a lot of you didn't believe your eyes. If we can rewind that and show that B roll one more time and show you what this is going to do for you.

MALE HOST: Right.

FEMALE HOST: I know a lot of you take chitosan, a lot of you are taking what you're seeing on the right, and that is the capsules.

MALE HOST: And what they --

FEMALE HOST: How many capsules do I need to take in a day,

Mark?

MALE HOST: Well, every time you're going to take maybe 12 to 14 grams of fat, you're going to need to take anywhere from 20 to 24 pills.

Now, there's a couple of problems with this, it takes two to four hours for the capsules to work, two to four hours to work. It's not my words, these are -- this is what the research indicates.

ON SCREEN: Capsules Take 2-4 Hours to Work

FEMALE HOST: Um-hum.
MALE HOST: It also means that your food could be gone by the time you're -- the chitosan is ready, so that there's nothing for it to react to, so it's just pushed through the body, it doesn't actually work.

ON SCREEN: Actual Time: 20 Seconds

MALE HOST: What actually happens with the FTF, because it is a liquid, it instantly binds with the food and within seconds, as you see here in the beaker, it starts clearing from the bottom --

FEMALE HOST: Um-hum.

MALE HOST: -- and works its way up and within 20 seconds or so, it absorbs the fat. It is faster, it is quicker, it is a lot less expensive, it won't irritate your stomach. If you took 24 capsules, I am going to tell you, you have the possibility of having --

FEMALE HOST: I couldn't.

MALE HOST: -- some kind of gastroenterology --

FEMALE HOST: I couldn't take 24 capsules.

MALE HOST: No. Twice a day.

FEMALE HOST: In one sitting? You're kidding.

MALE HOST: In one sitting.

FEMALE HOST: I would imagine that the expense would be enormous in taking that many capsules over the course of a day.

MALE HOST: Absolutely. There is no question. There is absolutely no question. One bottle, one little tiny bottle of FTF has the same fat fighting power as four to six bottles of regular chitosan.

Now, what this is -- what FTF is is they take all the active ingredients
FEMALE HOST: Okay.

MALE HOST: -- they condense them.

FEMALE HOST: Um hum.

MALE HOST: They make it super-powerful and then they put it in this little bottle just for you.

FEMALE HOST: How long will this bottle last me?

MALE HOST: About a month.

FEMALE HOST: This is a good -- this is a good two fluid ounces.

MALE HOST: Yes. It is -- it will last about a month. We recommend that you take it, as I said, lunch and dinner.

FEMALE HOST: Um-hum.

MALE HOST: We don't recommend you take it three times a day because it does take -- what it does do is it takes fat, all fats out. So, we want you to take a multiple vitamin in the morning. we want you to be over the age of 16, we don't want you to be pregnant or a nursing mom.

MALE HOST: No, this is one of the things that's so interesting. With the regular old-fashioned powdered capsule chitosan, you have to take this in advance.

FEMALE HOST: Okay.

MALE HOST: But with the FTF, you take it before lunch, before dinner, during dinner or after dinner. It does not matter. I prefer taking it just after dinner. I don't know why I do it, but that's how I take it.

FEMALE HOST: Um-hum.

MALE HOST: And at lunchtime I take it either during or just after. It's my personal preference. It works quickly, fast. It is safe. There are no medical interactions. You know, there are some medical drugs that are available now.

FEMALE HOST: Oh -- I mean, who put the chocolate in front of me?
MALE HOST: Yeah, exactly.

FEMALE HOST: Who did this? Who did -- see, this is mine. Some people, it's the chips and the salt and the fat. Me, it's the chocolate chip cookies.

MALE HOST: I can't believe I'm eating again.

FEMALE HOST: I'm never giving these up and FTF will allow me to not have to ever. Now, this is scientific fact. We're just going to briefly put up two studies on the screen for you. There are two studies that have proven that this concept works. Anything that is chitosan based, all right, is going to help to escort the fat out of your body.

It's not going to change what happens to you over the course of the day other than the elimination of the fat, which is fabulous, and I'll tell you right here, it's proven, look at that, from 15 to 5 pounds.

MALE HOST: Exactly. What happened is --

FEMALE HOST: Oooh.

MALE HOST: -- that the chitosan worked. It does work. And in the control group or the placebo group, they only lost five pounds. FTF takes the same fat fighting power that is found in chitosan and superfies it if you will, and the fat rolls off just like magic. It's very, very interesting.

MALE HOST: It's a real big thing in this country and I'm going to tell
you it is all fat. Well, I'm going to tell you also, fried chicken, a great staple of the
Southern part of this country, it's popular throughout the country. FTF will remove
the fat in that chicken before it sticks to your thunder thighs, your big derriere or your
chin.

FEMALE HOST: Um-hum, wherever, wherever.

MALE HOST: And it will push the fat through, it will bio-unavailable
and you will lose weight because you are reducing your fat calorie intake.
FEMALE HOST: If we could, guys, I'd love to get a two-minute clock on the screen. When that two-minute clock runs out, we're going to show you another set of testimonials, and then when we come back, we're going to talk about alleviating pain.

Because chances are, if you're over 30, over 35, over 40, and in addition to having turned that milestone have been a little overweight, let me tell you, the effects of gravity have probably caused a little bit of creakiness, a little bit of aches and pains, I'm talking anywhere from my shoulder, from carrying my two-year old around all day long, to the knees, to the elbows, depending on what you do for a living and what you've done over the course of your life, we are going to help to alleviate pain. For those of you that have really suffered from osteoarthritis over the course of the years, we have a dream product for you next.

But right now, take it into your own hands, don't wait to have someone else tell you what diet you need to be on, what food you need to -- I mean, I've got a two-year old, I've got a husband that travels a lot, he's in sales, I work full-time and I'm a full-time mom, I haven't had time to get through this diet book that I want to, let alone plan out the meals, count the calories, count the fat. There's no counting involved here.

MALE HOST: And you don't have to do it.

FEMALE HOST: Except for counting drops, right?

MALE HOST: Counting drops. And listen, this is not a diet. This is not a diet at all. This is a way of life.

FEMALE HOST: Um-hum, absolutely.

MALE HOST: Okay. If you are on a diet, it doesn't matter if you're on a high protein diet, I don't care if you're on a -- whatever kind of diet you're on.

FEMALE HOST: It works with it?

MALE HOST: It works with it. So, if you're on any other kind of diet
program or diet system, you can use FTF -- you could cheat a little, if you will, and you can use FTF alongside any other regimen that you're doing and you will lose weight faster, quicker, and I might say healthier as well.

Let me tell you one other thing about the capsule chitosan.

FEMALE HOST: Please.

MALE HOST: And that is that there's a lot of heavy metals in there. Those are unhealthy.

FEMALE HOST: Really?

MALE HOST: There's lead, there's mercury.

FEMALE HOST: Why?

MALE HOST: Because it's a natural product.

FEMALE HOST: Fillers?

MALE HOST: It's not -- this is all removed in the FTF, and yes, you're right -- the fillers -- when you buy a bottle of chitosan, over 50 percent, over half in some brands are filler.

FEMALE HOST: Is filler, yeah.

MALE HOST: That's amazing. This is 99 percent pure. One percent is used -- is ascorbic acid. That's Vitamin C.

FEMALE HOST: If we can show you the value page one more time and then we'll get into the testimonials. Here's what happened. On our single bottles of FTF, over half sold out. We're looking at only about 100 bottles remaining and that is all.

Here's what I recommend that you do, right here on your screen, C-17357, a two pack. If you get the two pack, one bottle is about one month's supply, all right. If you get the two pack, you will never have any excuses, because you've got one bottle in your purse or guys one bottle in your briefcase.

Fight the Fat 2-Pack

1 bottle of FTF  $34.95

FTF 2-Pack  $65.95

(that's just $32.98 a bottle)

You save  $3.95

MALE HOST: Right.

FEMALE HOST: And you've got one bottle at home. And you've got
a two month's supply. Not only are you going to have it, but you are going to have it
at $32.98 a bottle rather than $34.95 a bottle and whether you choose the single bottle
or the double pack, the shipping and handling is the same. So, we're saying, I think,
some extra dollars on the shipping and handling, $4 or so if you get the two pack
today.

Do this for yourself, do it for your sanity. I mean, we all get so
stressed out about our weight and -- I mean, I've been totally stressed over the last
couple of months.

MALE HOST: Oh, absolutely.

FEMALE HOST: I come home and my husband is like, did you get
that diet ready yet, I need to start eating right. I'm like, yeah, right, you know, next
week sometime.
MALE HOST: It is hard to lose weight

FEMALE HOST: It is --

MALE HOST: It is hard to lose weight when you have to be
controlled, if you will, okay?

FEMALE HOST: Oh, forget about it.

MALE HOST: But with FTF, you've got two times -- two times a day.
Can you afford to give us ten seconds twice a day? Twenty seconds a day, the pounds
are going to start dropping off. Six to 12 drops in your drink and I am telling you,
you're going to feel better because you're going to look better.

FEMALE HOST: Um-hum.

MALE HOST: Get up and walk around the house a little bit. Get up
and walk around the block. Start a little bit of an exercise routine, it's going to help.

FEMALE HOST: Um-hum.

MALE HOST: You're going to drop weight because you're going to be
reducing your fat calorie intake because the fat is now bio-unavailable. Give us a call
now. Order the product. It's going to change your life, I guarantee it.

FEMALE HOST: Once at lunch, once at dinner. It's tasteless, it's
odorless, you're not even going to know it's there except for by your pants size fitting
you a little bit better.

MALE HOST: That's right.

FEMALE HOST: Which is great.

Now, here's what I want to do, I'm going to show you some more
testimonials, and when we come back, how many of you have been feeling the affects
of gravity and have some aches and pains? We're going to take care of that, too, when
we come back.

ON SCREEN: Barbara K. Individual Results May Vary
BARBARA K.: It's great. It melted the last five pounds away. I've
been trying for months and FTF did it. It's great. I love it. I'm happy. I'll recommend
it to all my friends. It's great.

ON SCREEN: Robbie D.

ROBBIE D.: If you have any type of fat problem at all, I would
recommend you use FTF. It will make you lose weight. That's it. I don't have any
big scientific explanation for it except I was a 16, eight weeks later I am a 14 going
toward a 12. It works.

FEMALE HOST: All right. What happens to that fat after the product
takes hold of it and escorts it out of your body? Well, the only way I know of it
escorting out of your body is in waste. Does it come out in your waste?

MALE HOST: That's it. Yeah, you --

FEMALE HOST: You don't sweat it out, right?

MALE HOST: No, you don't sweat it out. You kind of poop it out.

FEMALE HOST: You poop it out.

MALE HOST: You poop it out.

FEMALE HOST: It's as simple as that.

MALE HOST: But it's not a big ton and it's not going to -- it doesn't --

no, I mean, you know, you're asking the question, I'm going to tell you.

FEMALE HOST: Yeah.
MALE HOST: You know, you're not going to get diarrhea from this, you won't get the runs. It's not going to happen all of a sudden. It just -- it flows.

Trust me, folks, it's easy. It's very, very easy.
