ON SCREEN: Fiber Thin™ Revolutionary Weight Loss System

JEFF RECHTER: Well, Robin, we're here in the Fiber Thin kitchen where you're going to show us how the Fiber Thin System works.

ROBIN CHAMBERLAIN: That's right, Jeff.

JEFF RECHTER: I can't wait to see this.

ROBIN CHAMBERLAIN: Well, Jeff, first we're
going to demonstrate how Fiber Thin expands in your stomach creating that full feeling. We're going to use this glass of water to show you how it works. Now, let's put a single dose of Fiber Thin in the glass. Then we're going to agitate it like your body does naturally. Take a close look. You can already see it expanding.

ON SCREEN: Fiber Thin™ Instant Action!

JEFF RECHTER: Wow, look at that, it works pretty quick. You can already see it working in the bottom there.

ROBIN CHAMBERLAIN: The fat-trapping action takes effect immediately.

Now, I have a glass over here that has been sitting for about 15 minutes. Take a look at this.

ON SCREEN: Fiber Thin™ Exclusive Hunger Satisfying Formula

JEFF RECHTER: I don't believe it. Look how thick it is. No wonder I felt full. But does it have any calories?

ROBIN CHAMBERLAIN: No, it literally contains no calories.

ON SCREEN: Weight Loss Consultant

JIM AYRES

Ayres Weight Management

JIM AYRES: The reason why Fiber Thin is so
effective in reducing appetite and eliminating cravings is because when you take Fiber Thin 30 to 15 minutes prior to a meal, it begins to expand in your stomach, sending signals to your brain that I'm not that hungry --

ON SCREEN: Feel FULL for HOURS!
JIM AYRES: -- I'm full.
ON SCREEN: Weight Loss Consultant

JIM AYRES
Ayres Weight Management

JIM AYRES: So, when you sit down, you're going to eat less food, the biggest challenge in trying to maintain weight.

And because Fiber Thin is all fiber, the body doesn't digest it right away. So, the hunger satisfaction is going to last for hours. That is why Fiber Thin is so successful. That is why it helps so many people reduce appetite and eliminate cravings.

GAIL SCOTT: I would say the bottom line with the Fiber Thin System is you feel satisfied, you eat less and you lose weight.

ROBIN CHAMBERLAIN: Okay, Jeff, now for the really exciting part, the fat-trapping. We're going to use some salad dressing for this demo.

JEFF RECHTER: There's a lot of fat in salad
ROBIN CHAMBERLAIN: Now, watch what happens. I'm going to pour this fatty salad dressing right in. So, now, it's like you've just eaten this fat. Your stomach is naturally going to move around a bit.

**ON SCREEN: Fiber Thin™ Fat Trapping Sponge**

ROBIN CHAMBERLAIN: Look how Fiber Thin is now literally encapsulating the fat so your body doesn't absorb it.

JEFF RECHTER: Wow, you're right. Look at it. It's literally holding on to the fat.

ROBIN CHAMBERLAIN: In fact, let me just put some of this in a glass of water so you can really see its fat-trapping capabilities.

JEFF RECHTER: Look at that. The fat is staying in the fiber sponge.

**ON SCREEN: Double The Weight Loss Power!**

JEFF RECHTER: Now, I don't know about you, but I definitely wouldn't want that sticking to my waist.

ROBIN CHAMBERLAIN: Me either. And with Fiber Thin it won't. That Fiber Thin sponge starts to break up and digest through your system naturally --

**ON SCREEN: For best results/maximum weight loss, follow the Fiber Thin System low-calories diet and exercise plan.**
ROBIN CHAMBERLAIN: -- so the fat doesn't start adding those unwanted inches to your waist.

JEFF RECHTER: Seeing is believing, Robin.

JEFF RECHTER: Now, Robin, there are a lot of other weight loss products out there. So, I want to put Fiber Thin to the test to prove that it's the most amazing weight loss product ever developed.

ROBIN CHAMBERLAIN: No problem, Jeff. First, I'd like to show you something that I'm sure you've seen before. This is a fat-trapping test. Now, fat-trapping type products are very popular because they work. Almost all of them are made of an active ingredient called chitosan, which is made from shellfish.

For The Record, Inc.
Waldorf, Maryland
(301)870-8025
JEFF RECHTER: A lot of people are allergic to shellfish.

ON SCREEN: This is a paid advertisement for Fiber Thin, LLC.

ROBIN CHABERLAIN: That's true. Now, this glass test demonstrates the ability of a product to bind and trap fat. Now, we're going to do a side-by-side demo of chitosan, which is found in most other fat-trapping products versus the Fiber Thin product, which is 100 percent natural fiber from the konjac root.

JEFF RECHTER: Okay, let's do it.

ROBIN CHABERLAIN: Here's some olive oil, which we'll pour into water. This simulates fat entering our body.

JEFF RECHTER: Wow, look at the oil just sitting there.

ROBIN CHABERLAIN: Jeff, the powder you have in front of you is a daily dose of the fat-trapping ingredient called chitosan, and what I have is Fiber Thin.

ON SCREEN: Chitosan FiberThin Fat-trapping demonstration

ROBIN CHABERLAIN: Now, what we're going to do is simultaneously put a single dose of both products into the glasses to see which product works better.
JEFF RECHTER: Wow, Fiber Thin really is a better product. Look at all that fat being trapped and falling to the bottom. Look how big that is compared to the chitosan product.

ROBIN CHAMBERLAIN: But, Jeff, the Fiber Thin System isn't done working yet. You see, the exclusive Fiber Thin Formula will expand 200 times its own size and continues trapping fat as it expands.
