Effect of Konjac Mannan on 1, 2-Dimethyldrazine-induced Intestinal Carcinogenesis in Fischer 344 Rats
What is included in the Fiber Thin System?
Fiber Thin Tablets. These tablets are 100% all natural Fiber that expand in your stomach making you feel full.
Metabo-Up Tablets. These tablets are a blend of all natural herbs that are scientifically proven to increase your metabolism by 40%.
We are including the Guide to healthy living with your order. As with any diet program, the right diet and exercise plan can accelerate your results. This guide will outline different ways you can supplement the Fiber Thin tablets with diet and exercise to lose weight even faster.

How much weight will I lose?
Weight loss varies depending on each individual. Fiber Thin guarantees you'll lose up to 20 pounds in 30 days if you use the Fiber Thin System, which is what you are looking for, right?

Is the product natural?
Fiber Thin products are all natural.

Can you take this product with medications?
The products are natural; we do recommend that you consult your health care provider if you are taking medications at the time you would like to use the Fiber Thin.

Can you take this product if you are pregnant?
We recommend you consult your health care provider.

Can you take this product if you have heart disease or high cholesterol/blood pressure?
Fiber Thin can help normalize cholesterol and triglyceride levels in many people, however, we do still recommend you consult with your health care provider.

How many times a day do you take each product?
Fiber Thin: 3 capsules before each high fat meal.
Metabo Up: up to 2 tablets per day.

What is in each of the products offered?
Fiber Thin contains, Glucomannan, which is a 100%, all-natural fiber from the Konjac Root. Metabo-up contains, Green Tea, Chromium, Kola-nut, Bitter Orange and Vitamins B6 and B12.

How does each product work?
Fiber Thin creates a fiber sponge that makes you feel full. Fiber Thin traps and binds some of the fat in the foods you eat so that it is not absorbed into your system. As a result, Fiber Thin reduces caloric intake from fat and adds healthy fiber into your diet. Metabo Up contains Green Tea. Green Tea is proven to increase your metabolism safely so you burn more calories.

Are there any side effects?
We are not aware of any side effects from taking the Fiber Thin or Metabo-Up as directed.

Does Fiber Thin have an expiration date?
Yes, it has a shelf life of 2 years. The expiration date is stamped on the bottle.

Does Metabo Up have an expiration date?
Yes, it has a shelf life of 2 years. The expiration date is stamped on the bottle.
Where is Fiber Thin manufactured?
In the U.S.A.
Fiberthin™ LLC. in cooperation with others has developed an eating plan that will help your body use fats, carbs, and proteins more efficiently. This in turn will help you lose unwanted body fat.

When used in combination with the supplements provided, subjects in an in-house study lost as much as 40 pounds of unwanted body fat in only 12 weeks.
