**FEATURED PRODUCT:** Chlorella Extract
Nutraeuticals International is pleased to bring your this new energy product from Brazil, which represents the perfect replacement for caffeine as a stimulant and weight loss product. For centuries, Chlorella is used for a number of applications, including the treatment of various health conditions and as a dietary supplement. In addition, it is known for its ability to detoxify the body and promote healthy digestion.

For use in products for energy, weight loss, appetite suppression, immune support, and more, Chlorella Extract is the perfect addition. It is used in a number of applications, including the treatment of various health conditions and as a dietary supplement. In addition, it is known for its ability to detoxify the body and promote healthy digestion.

**FEATURED PRODUCT:** Green Lipped Mussels
Green Lipped Mussels is a natural health product grown in New Zealand and approved by the NZ Health Authority. They are grown in clear, clear waters which are frequently monitored to ensure the highest quality product. Regular consumption of green lipped mussels or their extract may help to reduce joint pain, improve flexibility and rebuild lost cartilage, as well as helping to maintain joint health and mobility.

Green Lipped Mussel Extract is the source of the unique New Zealand Green Lipped Mussel, which is found in the clear waters of New Zealand and provides an extract of the highest quality. Mussel parts are known to contain the essential fatty acids. Omega-3 fatty acids are the "good fats". EFAs support the cardiovascular, immunological, immune, and nervous systems. The human body needs EFA's to manufacture and maintain cell membranes, including the cells to maintain optimum nutrition and fight harmful waste products.

**FEATURED PRODUCT:** Hoodia Gordonii
Hoodia Gordonii is a plant known to the indigenous people of Southern Africa. It is used by the San Bushmen for the treatment of appetite at times of hunger. They also say it provides an uplifting mood, improves sexual stamina, and leaves you with a feeling of sustained energy. As if you have taken a pill that made you so confident about your day.

Hoodia Gordonii is being cultivated in large quantities in South Africa for export all over the world and can still be found in parts of the world where it is still wild. The Hoodia Gordonii plant is being cultivated in large quantities in South Africa for export all over the world and can still be found in parts of the world where it is wild. The Hoodia Gordonii plant has been used to treat a variety of conditions, including tiredness, fatigue, and depression. It has also been used to improve sexual performance. In addition, it has been used to treat a variety of conditions, including tiredness, fatigue, and depression. It has also been used to improve sexual performance.
