Final approval under OMB delegated authority of the implementation of the following report:
Report title: Recordkeeping Requirements Associated with Limitations on Interbank Liabilities.
Agency form number: Regulation F. OMB control number: 7100–NEW.
Frequency: On occasion.
Reporters: State member banks and insured domestic branches of foreign banks.
Estimated annual reporting hours: 6,808 hours.
Estimated average hours per response: 8 hours.
Number of respondents: 851.
General description of report: This information collection is mandatory pursuant to section 23 of the Federal Reserve Act, as added by section 308 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) (12 U.S.C. 371b–2). Because the Federal Reserve does not collect any information, no issue of confidentiality normally arises. However, if a compliance program becomes a Board record during an examination, the information may be protected from disclosure under exemptions (b)(4) and (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(4) and (b)(8)).

Abstract: Pursuant to FDICIA, the Federal Reserve is required to prescribe standards to limit the risks posed by exposure of insured depository institutions to the depository institutions with which they do business (correspondents). Regulation F generally requires banks to develop and implement internal prudential policies and procedures to evaluate and control exposure to correspondents. Section 206.3 of Regulation F stipulates that a bank shall establish and maintain written policies and procedures to prevent excessive exposure to any individual correspondent in relation to the condition of the correspondent. In these policies and procedures, a bank should take into account credit and liquidity risks, including operational risks, in selecting correspondents and terminating those relationships. The policies and procedures should be reviewed and approved by the bank’s board of directors at least annually.

Current Actions: On July 20, 2010, the Federal Reserve published a notice in the Federal Register (75 FR 42089) requesting public comment for 60 days on the implementation of the Recordkeeping Requirements Associated with Limitations on Interbank Liabilities. The comment period for this notice expired on September 20, 2010. The Federal Reserve did not receive any comments. The recordkeeping requirements will be implemented as proposed.

Jennifer J. Johnson,
Secretary of the Board.

Analysis of Agreement Containing Consent Order to Aid Public Comment

The Federal Trade Commission has accepted, subject to final approval, a consent agreement with US Search, Inc., and US Search, LLC (collectively “US Search”).

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and comments received, and decide whether it should withdraw from the agreement and take appropriate action or make final the agreement’s proposed order.

US Search operates an online data broker service and sells publicly available information about consumers to other consumers through its website, (www.ussearch.com). This publicly available information includes name, age, address, phone numbers, email addresses, aliases, maiden name, death records, address history, information about friends, associates, and relatives, marriage and divorce information, bankruptcies, tax liens, civil lawsuits, criminal records, and home values. In conjunction with this service, since June 2009, US Search has offered and sold a PrivacyLock service, which purportedly allows consumers to “lock their records” on the US Search website and prevent their names from appearing on US Search’s website, in US Search’s search results. Until recently, US Search charged most consumers a $10 fee to place a PrivacyLock, and almost 5,000 consumers paid to have their information removed from the US Search site.

The complaint alleges that, in truth and in fact, the PrivacyLock service did not prevent consumers’ information from appearing on the US Search website in many instances. The complaint alleges that US Search has engaged in deceptive acts or practices, in violation of Section 5 of the FTC Act, by misrepresenting that the purchase or use of its PrivacyLock service will prevent a consumer’s name and address from appearing on US Search’s website, US Search’s advertisements, and in US Search’s search results.

The proposed consent order includes injunctive relief that enjoins US Search from misrepresenting the effectiveness of its PrivacyLock service or any other service offered to consumers that will allow consumers to remove publicly available information from US Search’s search results, websites, and advertisements. Also included in the order are redress provisions that require US Search to refund any money consumers paid for the PrivacyLock service. Under the proposed order, US Search would be required to credit consumers’ credit and debit card accounts and notify consumers via email that such credits were made. Part I of the proposed order prohibits US Search from misrepresenting, in any manner, the effectiveness of its “PrivacyLock” service or any other service offered to consumers that will allow consumers to remove publicly available information from US Search’s search results, websites, or advertisements.

Part II of the proposed order prohibits US Search from making any representations concerning the effectiveness its “PrivacyLock” service or any other similar service offered to consumers that will allow consumers to remove publicly available information from US Search’s search results, websites, or advertisements, unless US Search discloses, clearly and prominently, any material limitations regarding such service, including but not limited to (1) any limitations on the duration of the removal; and (2) any circumstances under which information about the consumers will not be removed or will reappear.

Part III of the proposed order requires US Search to provide full refunds to any consumer who requested “PrivacyLock” and was assessed a charge for such service, by crediting the consumer’s credit or debit card used to purchase the service. US Search must also provide notice of the refund through an email message sent to affected consumers. The message must include an address and a toll-free number for consumers to use to contact US Search regarding the refund. US Search must display a notice about its refund program clearly and prominently on its website for a period of one year. Any amounts not refunded to consumers must be deposited with the U.S. Treasury as disgorgement. The proposed order further requires US Search, within one year of issuance of this order, to provide the Commission with an accounting of all refunds paid to consumers, as well as any amounts that were deposited with the U.S. Treasury as disgorgement.

Parts IV through VIII of the proposed order are reporting and compliance provisions. Part IV of the proposed order requires US Search to retain for a period of five (5) years from the last date of dissemination of any representation covered by the order all advertisements and promotional materials containing the representation; complaints and refund requests, and any responses to such requests; and all records and documents necessary to demonstrate full compliance with each provision of the proposed order.

Part V of the proposed order requires dissemination of the order now and in the future to principals, officers, directors, and managers having responsibilities relating to the subject matter of the order. Part VI requires notification to the FTC of changes in corporate status. Part VII mandates that
US Search submit an initial compliance report to the FTC and make available to the FTC subsequent reports. Part VIII is a provision “sunsetting” the order after twenty (20) years, with certain exceptions.

The purpose of the analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed order or to modify its terms in any way.

By direction of the Commission.

Donald S. Clark
Secretary.

Proposed Project: The Nursing Education Loan Repayment Program Application (OMB No. 0915–0140)—[Revision]

This is a request for revision of the Nursing Education Loan Repayment Program (NELRP) application and participant monitoring forms. The NELRP is authorized by 42 USC 297n(a) (section 846(a) of the Public Health Service Act, as amended by Public Law 107–205, August 1, 2002 and Public Law 111–148, March 23, 2010).

Under the NELRP, registered nurses are offered the opportunity to enter into a contractual agreement with the Secretary to receive loan repayment for up to 85 percent of their qualifying educational loan balance as follows: 30 percent each year for the first 2 years and 25 percent for the optional third year. In exchange, the nurses agree to serve full-time for a minimum of 2 years as a registered nurse at a health care facility with a critical shortage of nurses or as nurse faculty at an eligible school of nursing. The NELRP forms provide information that is needed for selecting participants, repaying qualifying loans for education, and monitoring compliance with service requirements. The NELRP forms include the following: The NELRP Application, the Loan Information and Verification form, the Employment Verification form, the Authorization for Release of Employment Information form, the Authorization to Release Information form, the Certification Regarding Debarment, Suspension, Disqualification and Related Matters form, the Certification of Accreditation Status for School of Nursing Education Programs form, and the NELRP Application Checklist and Self-Certification form.

The program is expecting the number of applications to increase to approximately 8,000 annual respondents. This is an increase of 2,500 respondents for registered nurses at health care facilities and 500 respondents for nurse faculty at eligible schools of nursing.
