Re: *In the Matter of Google Inc., File No. 1023136, Docket No. C-4336*

Thank you for your comment on the Federal Trade Commission's consent agreement in the above-entitled proceeding. The Commission has placed your comment on the public record pursuant to rule 4.9(b)(6)(ii) of the Commission's Rules of Practice, 16 C.F.R. § 4.9(b)(6)(ii).

You comment states:

“Recently I've found an interesting site &lt;a href="http://www.pskiller.com/"&gt;Photoshopped Image Killer&lt;/a&gt; that can detect fake images. Most image analysis software will be created to recognise shapes and objects. But this software is something which can trace manipulations. It's not much more complex than recognising objects, but almost no one is interested in this kind of software except of course to detect if an image is real or fake...”

After appropriate consideration of your comment, the Commission has determined that the public interest would best be served by issuing the Decision and Order in final form without any modifications. The final Decision and Order and other relevant materials are available from the Commission's website at <http://www.ftc.gov>.

By direction of the Commission.

Donald S. Clark  
Secretary
