In the Matter of

BUSINESS & PROFESSIONAL, INC., ET AL.

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION
OF THE FEDERAL TRADE COMMISSION ACT

Consent order requiring Roselle, N. J., collectors of debts on a commission basis in which connection they used a variety of forms to obtain information regarding delinquent debtors, to cease using on post cards such misleading terms as "REGIONAL REGISTRY BOARD" signed "——— Director", printing at the end of demand letters the titles "Legal Department", "Claims Department", and "Credit Manager", and mailing to delinquents printed forms resembling legal summons headed "Final Notice Prior to Suit".

Complaint

Pursuant to the provisions of the Federal Trade Commission Act, and by virtue of the authority vested in it by said Act, the Federal Trade Commission, having reason to believe that Business & Professional, Inc., a corporation, and Thomas Campagna, Salvianne Campagna, and Richard N. Heale, individually and as officers of said corporation, hereinafter referred to as respondents, have violated the provisions of said Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges in that respect as follows:

Paragraph 1. Respondent Business & Professional, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of New Jersey with its principal office and place of business located at 613 St. Georges Avenue in the City of Roselle, State of New Jersey.

Respondents Thomas Campagna, Salvianne Campagna and Richard N. Heale are officers of the corporate respondent. They formulate, direct and control the acts and practices of the corporate respondent, including the acts and practices hereinafter set forth. Their address is the same as that of the corporate respondent.

Par. 2. Respondents are now, and for some time last past have been, engaged in the collection of debts alleged to be due and owing by others, upon a commission basis, contingent upon collection.

Par. 3. In the course and conduct of their business, respondents now cause, and for some time last past have caused, printed forms to be mailed from their place of business in the State of New Jersey
to alleged debtors located in various other states of the United States, and have been, and are now, receiving accounts for collection from persons, firms and corporations and have been collecting accounts due by persons, firms and corporations located outside the State of New Jersey and received by means of the United States mail, letters, checks and documents to and from states other than the State of New Jersey, and maintain, and at all times mentioned herein have maintained, a substantial course of trade in said collection work in commerce, as "commerce" is defined in the Federal Trade Commission Act.

Par. 4. In the course and conduct of their business, respondents frequently desire to obtain information as to the current addresses, places of employment and other pertinent information as to persons whose alleged delinquent accounts the respondents are seeking to collect. For this purpose they use, and have used, certain printed forms and post cards. Typical, but not all inclusive, of said forms is the following, which is printed on a post card:

**REGIONAL REGISTRY BOARD**  
Upon careful investigation of your records we find them incomplete.  
It is urgent that you call—  
HU 6-3562

File #
Not a government agency.
Mr. Russell
Director

Par. 5. Through the use of the designation "Regional Registry Board" and by the wording on said post card, particularly the words at the end "Mr. Russell, Director," respondents represent, directly or by implication, to those to whom the post card is mailed that the respondents are communicating with the addressee in some official capacity, governmental or otherwise, and that the information is required for official purposes.

In truth and in fact, respondents are not acting in any official capacity, governmental or otherwise, but desire the addressee to contact them solely for the purpose of locating the person to whom it is addressed and obtaining his present address, place of employment and other pertinent information.

Therefore, the aforesaid representations were, and are, false, misleading and deceptive.

Par. 6. In the course and conduct of their business as a collection agency, respondents cause to be sent to the persons from whom they seek to collect alleged delinquent accounts, demand letters
at the end of which are printed certain titles. Typical, but not all inclusive, of such designations are the following:

Legal Department
Claims Department
Credit Manager

In truth and in fact, respondents have no Legal Department, Claims Department or Credit Manager, but, on the contrary, respondents' sole business is the collection of alleged delinquent accounts.

Therefore, the aforesaid representations were, and are, false, misleading and deceptive.

Par. 7. In the course and conduct of their business, respondents have mailed to alleged delinquent debtors certain printed forms. Typical but not all inclusive of said forms is the following:

**FINAL NOTICE PRIOR TO SUIT**

To the above named debtor:

First: You will please take notice that the undersigned claims that you are indebted to

in the sum of for goods sold and delivered, together with interest.

Second: This is your final notice, and that unless you appear at the office of the Business & Professional, Inc., located at 613 St. Georges Ave., Roselle, N.J. on or before the day of on or before the day of 19, 19..., before 6:00 p.m. of that day, for payment or adjustment of this claim, suit will forthwith be brought for the total amount, with interest, costs and attorney's fees.

Dated at Roselle, State of New Jersey, this day of 19...

BUSINESS & PROFESSIONAL, INC., Collecting Agents for

per

**AFFIDAVIT**

STATE OF NEW JERSEY,
County of Union:

On this day of, 19..., before me personally appeared A. Armand, who being duly sworn, deposes and says: That he is the manager of the Business & Professional, Inc., collecting agents for, and there is now due from the debtor the sum of, which includes interest.

Further affiant saith naught.

Subscribed and sworn to before me a notary public in and for the County of Union, State of New Jersey.

This is not a court order or process.

(The words in the last line are printed in type which is much smaller than the other type used on said form.)
BUSINESS & PROFESSIONAL, INC., ET AL.

Decision and Order

PAR. 8. By the use of said form set forth in the last preceding paragraph respondents lead alleged delinquent debtors into the belief that such form is a legal summons, notice, writ or other legal process or document and that said form imposes upon the recipient thereof a legal obligation to respond, and that failure to so respond will or may result in the entry of a default judgment, or other legal consequences.

In truth and in fact, said form is not a legal document or process, but, on the contrary, it is a demand for payment before suit is brought.

Therefore, said form is false, misleading and deceptive.

PAR. 9. The use, as hereinbefore set forth, of said representations and said forms has had, and now has, the tendency and capacity to deceive and mislead persons into the erroneous and mistaken belief that said representations and implications are true, and induce the recipients thereof to supply information which they otherwise would not have supplied and the payment of accounts to respondents, by reason of said erroneous and mistaken belief.

PAR. 10. The aforesaid acts and practices of respondents as herein alleged, were and are, all to the prejudice and injury of the public and constituted, and now constitute, unfair and deceptive acts and practices in commerce, in violation of Section 5 of the Federal Trade Commission Act.

DECISION AND ORDER

The Federal Trade Commission having initiated an investigation of certain acts and practices of the respondents named in the caption hereof, and the respondents having been furnished thereafter with a copy of a draft of complaint which the Bureau of Deceptive Practices proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge respondents with violation of the Federal Trade Commission Act; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by the respondents of all the jurisdictional facts set forth in the aforesaid draft of complaint, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by the respondents that the law has been violated as alleged in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having reason to believe that the respondents have violated the Federal Trade Commission Act, and having determined that complaint should issue stating its charges in that
respect, hereby issues its complaint, accepts said agreement, makes
the following jurisdictional findings and enters the following order:

1. Respondent Business & Professional, Inc., is a corporation
organized, existing and doing business under and by virtue of the
laws of the State of New Jersey, with its office and principal
place of business located at 613 St. Georges Avenue, in the city of
Roselle, State of New Jersey.

Respondents Thomas Campagna, Sallianne Campagna and
Richard N. Heale, are officers of said corporation and their address
is the same as that of said corporation.

2. The Federal Trade Commission has jurisdiction of the subject
matter of this proceeding and of the respondents, and the proceeding
is in the public interest.

ORDER

It is ordered, That the respondent, Business & Professional, Inc.,
a corporation, and its officers, and respondents Thomas Campagna,
Sallianne Campagna and Richard N. Heale, individually and as
officers of said corporation, and respondents' representatives, agents
and employees, directly or through any corporate or other device,
in connection with the collection of, or the attempt to collect, alleged
delinquent accounts in commerce, as "commerce" is defined in the
Federal Trade Commission Act, do forthwith cease and desist from:

1. Using, or placing in the hands of others for use, any
forms, letters or any other materials, printed or written, which
do not clearly and conspicuously reveal thereon that the purpose
thereof is to obtain information regarding alleged delinquent
debtors.

2. Using post cards, forms, letters or other material which
represent, directly or by implication, that respondents' business
is other than that of collecting alleged delinquent debts for
themselves or others.

3. Using as a designation to any form, letter or other
material the words "Legal Department", "Claims Department"
or "Credit Manager" or any similar designation of any depart-
ment, branch or division unless the respondents have such
department, branch or division actually in operation as a part
of their organization, or otherwise representing that respond-
ents' business is other than that of an agency for the collection
of debts from alleged delinquent debtors.

4. Using, or placing in the hands of others for use, respond-
ents' present form designated "Final Notice Prior to Suit";
or any other form or material which simulates legal process.
Complaint

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

IN THE MATTER OF

LEEDS WATCH CASE CORPORATION ET AL.

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION
OF THE FEDERAL TRADE COMMISSION ACT

Consent order requiring Jamaica, N. Y., distributors of watchbands, some consisting in whole or in substantial part of components imported from Hong Kong, to cease selling the watchbands—to manufacturers, distributors and wholesalers of watches—with no disclosure of their foreign origin.

COMPLAINT

Pursuant to the Federal Trade Commission Act, and by virtue of the authority vested in it by said Act, the Federal Trade Commission, having reason to believe that Leeds Watch Case Corporation, a corporation, and Harvey S. Dinstman, Joseph Dinstman and Hyman Dinstman, individually and as officers of said corporation, hereinafter referred to as respondents, have violated the provisions of said Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges in that respect as follows:

Paragraph 1. Respondent, Leeds Watch Case Corporation, is a corporation organized, existing and doing business under and by virtue of the laws of the State of New York, with its office and principal place of business located at 80-25 Van Wyck Expressway, Jamaica 85, New York.

Respondents Harvey S. Dinstman, Joseph Dinstman and Hyman Dinstman are officers of the corporate respondent. They formulate, direct and control the acts and practices of the corporate respondent, including the acts and practices hereinafter set forth. Their address is the same as that of the corporate respondent.

Par. 2. Respondents are now, and for some time last past have been, engaged in the offering for sale, sale and distribution of watchbands to manufacturers and distributors of watches as well as to wholesalers for resale to the public.
Complaint

PAR. 3. In the course and conduct of their business, respondents now cause, and for some time last past have caused, their said product, when sold, to be shipped from their place of business in the State of New York to purchasers thereof located in various other States of the United States and in the District of Columbia, and maintain, and at all times herein mentioned have maintained, a substantial course of trade in said product in commerce, as "commerce" is defined in the Federal Trade Commission Act.

PAR. 4. Some of said watchbands consist in whole or in substantial part of components which were manufactured in, and imported from Hong Kong. When offered for sale and sold by respondents, said watchbands do not bear a disclosure showing that they are substantially of foreign origin.

PAR. 5. In the absence of an adequate disclosure that a product, including watchbands, is of foreign origin, the public believes and understands that it is of domestic origin, a fact of which the Commission takes official notice.

As to the aforesaid articles of merchandise, a substantial portion of the purchasing public has a preference for said articles which are of domestic origin, of which fact the Commission also takes official notice. Respondents' failure to clearly and conspicuously disclose the country of origin of said articles of merchandise, or, substantial components thereof, is, therefore, to the prejudice of the purchasing public.

PAR. 6. In the conduct of their business, at all times mentioned herein, respondents have been in substantial competition in commerce, with corporations, firms, and individuals in the sale of watchbands of the same general kind and nature as that sold by the respondents.

PAR. 7. The failure of respondents to disclose the foreign origin of their watchbands or of substantial components of their watchbands, has had, and now has, the capacity and tendency to mislead and deceive purchasers or members of the buying public in the manner aforesaid, and thereby to induce them to purchase respondents' watchbands.

PAR. 8. The aforesaid acts and practices of respondents, as herein alleged, were all to the prejudice and injury of the public and of respondents' competitors and constituted, and now constitute, unfair methods of competition in commerce and unfair deceptive acts and practices in commerce, in violation of Section 5 of the Federal Trade Commission Act.
DECISION AND ORDER

The Federal Trade Commission having initiated an investigation of certain acts and practices of the respondents named in the caption hereof, and the respondents having been furnished thereafter with a copy of a draft of complaint which the Bureau of Deceptive Practices proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge respondents with violation of the Federal Trade Commission Act; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by the respondents of all the jurisdictional facts set forth in the aforesaid draft of complaint, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by the respondents that the law has been violated as alleged in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having reason to believe that the respondents have violated the Federal Trade Commission Act, and having determined that complaint should issue stating its charges in that respect, hereby issues its complaint, accepts said agreement, makes the following jurisdictional findings and enters the following order:

1. Respondent Leeds Watch Case Corporation is a corporation organized, existing and doing business under and by virtue of the laws of the State of New York, with its office and principal place of business located at 89-25 Van Wyck Expressway, Jamaica 35, New York.

Respondents Harvey S. Dinstman, Joseph Dinstman and Hyman Dinstman are officers of said corporation and their address is the same as that of said corporation.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the respondents, and the proceeding is in the public interest.

ORDER

It is ordered, That the respondent Leeds Watch Case Corporation, a corporation, and its officers, and Harvey S. Dinstman, Joseph Dinstman and Hyman Dinstman, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of watchbands or any other products in commerce, as "commerce" is defined
in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing watchbands or similar products which are substantially, or which contain a substantial part or parts, of foreign origin or fabrication without affirmatively disclosing the country or place of foreign origin or fabrication thereof on the products themselves, by marking or stamping on an exposed surface, or on a label or tag affixed thereto, of such degree of permanency as to remain thereon until consummation of consumer sale of the products, and of such conspicuousness as to be likely observed and read by purchasers and prospective purchasers making casual inspection of the products.

2. Offering for sale, selling or distributing any such watchbands or similar products packaged, or mounted in a container, or on a display card, without disclosing the country or place of foreign origin of the product, or substantial part or parts thereof, on the front or face of such packaging, container, or display card, so positioned as to clearly have application to the product so packaged or mounted, and of such degree of permanency as to remain thereon until consummation of consumer sale of the product, and of such conspicuousness as to be likely observed and read by purchasers and prospective purchasers making casual inspection of the product as so packaged or mounted.

3. Placing in the hands of manufacturers, distributors, retailers, and others, means and instrumentalities by and through which they may deceive and mislead the purchasing public concerning the merchandise in the respects set out above.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
Complaint

In the Matter of

GEORGE N. ZOROS ET AL.
TRADING AS GEORGE N. ZOROS

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE
FEDERAL TRADE COMMISSION AND THE FUR PRODUCTS LABELING ACTS

Consent order requiring Chicago manufacturing furriers to cease violating the
Fur Products Labeling Act by failing, on labels on fur products, to show the
true animal name of the fur and to disclose when the fur was artificially
colored, and failing in other respects to comply with labeling requirements.

Complaint

Pursuant to the provisions of the Federal Trade Commission
Act and the Fur Products Labeling Act and by virtue of the
authority vested in it by said Acts, the Federal Trade Commission
having reason to believe that George N. Zoros, and Theodore Zoros,
individually and as copartners trading as George N. Zoros, here-
inafter referred to as respondents, have violated the provisions of
said Acts and the Rules and Regulations promulgated under the
Fur Products Labeling Act, and it appearing to the Commission
that a proceeding by it in respect thereof would be in the public
interest, hereby issues its complaint stating its charges in that
respect as follows:

Paragraph 1. George N. Zoros and Theodore Zoros are individ-
uals and copartners trading as George N. Zoros with their office
and principal place of business located at 336 North Michigan,
Chicago, Illinois. Respondents are manufacturers and retailers of
fur products.

Par. 2. Subsequent to the effective date of the Fur Products
Labeling Act on August 9, 1952, respondents have been and are
now engaged in the introduction into commerce, and in the manu-
facture for introduction into commerce, and in the sale, advertising,
and offering for sale, in commerce, and in the transportation
and distribution, in commerce, of fur products and have manu-
factured for sale, sold, advertised, offered for sale, transported
and distributed fur products which have been made in whole or
in part of furs which have been shipped and received in commerce
as the terms “commerce”, “fur”, and “fur product” are defined
in the Fur Products Labeling Act.

Par. 3. Certain of said fur products were misbranded in that
they were not labeled as required under the provisions of Section
244  FEDERAL TRADE COMMISSION DECISIONS

Complaint 63 F.T.C.

4(2) of the Fur Products Labeling Act and in the manner and form prescribed by the Rules and Regulations promulgated thereunder.

Among such misbranded fur products, but not limited thereto, were fur products with labels which failed:

(a) To show the true animal name of the fur used in the fur product.

(b) To disclose that the fur products contained or were composed of bleached, dyed or otherwise artificially colored fur when such fur products were bleached, dyed or otherwise artificially colored.

Par. 4. Certain of said fur products were misbranded in violation of the Fur Products Labeling Act in that they were not labeled in accordance with the Rules and Regulations promulgated thereunder in the following respects:

(a) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was set forth in abbreviated form, in violation of Rule 4 of said Rules and Regulations.

(b) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was mingled with nonrequired information, in violation of Rule 29(a) of said Rules and Regulations.

(c) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was set forth in handwriting, in violation of Rule 29(b) of said Rules and Regulations.

(d) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was not set forth in the required sequence, in violation of Rule 30 of said Rules and Regulations.

(e) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was not set forth separately on labels with respect to each section of fur products composed of two or more sections containing different animal furs, in violation of Rule 36 of said Rules and Regulations.

(f) Required item numbers were not set forth on labels, in violation of Rule 40 of said Rules and Regulations.

Par. 5. The aforesaid acts and practices of respondents, as herein alleged, are in violation of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder, and constitute

**DECISION AND ORDER**

The Commission having heretofore determined to issue its complaint charging the respondents named in the caption hereof with violation of the Federal Trade Commission Act and the Fur Products Labeling Act, and the respondents having been served with notice of said determination and with a copy of the complaint the Commission intended to issue, together with a proposed form of order; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by respondents of all the jurisdictional facts set forth in the complaint to issue herein, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as set forth in such complaint, and waivers and provisions as required by the Commission’s rules; and

The Commission, having considered the agreement, hereby accepts same, issues its complaint in the form contemplated by said agreement, makes the following jurisdictional findings, and enters the following order:

1. Respondents George N. Zoros and Theodore Zoros are individuals and copartners trading as George N. Zoros with their office and principal place of business located at 336 North Michigan, Chicago, Illinois.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the respondents, and the proceeding is in the public interest.

**ORDER**

*It is ordered, That respondents George N. Zoros and Theodore Zoros, individually and as copartners, trading as George N. Zoros or under any other trade name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the sale, advertising or offering for sale, in commerce, or the transportation or distribution in commerce of any fur products; or in connection with the sale, manufacture for sale, advertising, offering for sale, transportation or distribution, of any fur product which has been made in whole or in part of fur which has been shipped and received in com-*
merce as "commerce," "fur" and "fur product" are defined in the Fur Products Labeling Act do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of Section 4(2) of the Fur Products Labeling Act.

2. Abbreviating information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder.

3. Mingling information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder with nonrequired information.

4. Setting forth information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in handwriting.

5. Failing to set forth the information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in the sequence required.

6. Failing to set forth separately on labels attached to fur products composed of two or more sections containing different animal furs the information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder with respect to the fur comprising each section.

7. Failing to set forth on labels the item number or mark assigned to a fur product.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
Complaint

IN THE MATTER OF

GEMEX PRECISION METALS, INC., ET AL.

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE
FEDERAL TRADE COMMISSION ACT

Docket C-527. Complaint, July 17, 1963—Decision, July 17, 1963

Consent order requiring Union, N. J., distributors of watchbands consisting
wholly or substantially of parts imported from Hong Kong, to cease selling
the watchbands—to manufacturers, distributors, and retailers of watches
—with no disclosure of their foreign origin.

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission
Act, and by virtue of the authority vested in it by said Act, the
Federal Trade Commission, having reason to believe that Gemex
Precision Metals, Inc., a corporation, and Everett L. Ackley in-
dividually and as an officer of said corporation, hereinafter referred
to as respondents, have violated the provisions of said Act, and
it appearing to the Commission that a proceeding by it in respect
thereof would be in the public interest, hereby issues its complaint
stating its charges in that respect as follows:

Paragraph 1. Respondent Gemex Precision Metals, Inc., is a
corporation organized, existing and doing business under and by
virtue of the laws of the State of Delaware, with its office and
principal place of business located at 1200 Commerce Avenue in
the city of Union, State of New Jersey.

Respondent Everett L. Ackley is president of the corporate re-
dondent. He formulates, directs and controls the acts and practices
of the corporate respondent, including the acts and practices herein-
after set forth. His address is the same as that of the corporate
respondent.

Paragraph 2. Respondents are now, and for some time last past have
been, engaged in the advertising, offering for sale, sale and distribu-
tion of watchbands to manufacturers and distributors of watches
as well as to retailers for resale to the public.

Paragraph 3. In the course and conduct of their business, respondents
now cause, and for some time last past have caused, their said
product, when sold, to be shipped from their place of business
in the State of New Jersey to purchasers thereof located in various
other States of the United States and in the District of Columbia,
and maintain, and at all times herein mentioned have maintained,
Complaint

a substantial course of trade in said product in commerce, as "commerce" is defined in the Federal Trade Commission Act.

PAR. 4. Said watchbands consist in whole or in substantial part of components which were manufactured in, and imported from Hong Kong. When offered for sale or sold by respondents, said watchbands do not bear disclosure showing that they are substantially of foreign origin.

PAR. 5. By the aforesaid practices, respondents place in the hands of watch manufacturers, distributors and retailers, means and instrumentalities by and through which they may mislead the public as to the place of origin of said watchbands or the substantial components thereof.

PAR. 6. In the absence of an adequate disclosure that a product, including watchbands, is of foreign origin, the public believes and understands that it is of domestic origin, a fact of which the Commission takes official notice.

As to the aforesaid articles of merchandise, a substantial portion of the purchasing public has a preference for said articles which are of domestic origin, of which fact the Commission also takes official notice. Respondents' failure to clearly and conspicuously disclose the country of origin of said articles of merchandise, or, substantial components thereof, is, therefore, to the prejudice of the purchasing public.

PAR. 7. In the conduct of their business, at all times mentioned herein, respondents have been in substantial competition, in commerce, with corporations, firms and individuals in the sale of metal expansion watchbands of the same general kind and nature as that sold by respondents.

PAR. 8. The use by respondents of the false, misleading and deceptive representations and practices hereinabove set forth, and the failure to disclose the foreign origin of their watchbands or of substantial components of their watchbands, have had, and now have, the capacity and tendency to mislead and deceive purchasers or members of the buying public in the manner aforesaid, and thereby to induce them to purchase respondents' watchbands.

PAR. 9. The aforesaid acts and practices of respondents, as herein alleged, were and are all to the prejudice and injury of the public and of respondents' competitors and constituted, and now constitute, unfair methods of competition in commerce and unfair and deceptive acts and practices in commerce, in violation of Section 5 of the Federal Trade Commission Act.
DECISION AND ORDER

The Commission having heretofore determined to issue its complaint charging the respondents named in the caption hereof with violation of the Federal Trade Commission Act, and the respondents having been served with notice of said determination and with a copy of the complaint the Commission intended to issue, together with a proposed form of order; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by respondents of all the jurisdictional facts set forth in the complaint to issue herein, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as set forth in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having considered the agreement, hereby accepts same, issues its complaint in the form contemplated by said agreement, makes the following jurisdictional findings, and enters the following order:

1. Respondent Gemex Precision Metals, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 1200 Commerce Avenue, in the city of Union, State of New Jersey.

   Respondent Everett L. Ackley is an officer of the said corporation, and his address is the same as that of the said corporation.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the respondents, and the proceeding is in the public interest.

ORDER

It is ordered, That respondents Gemex Precision Metals, Inc., a corporation, and its officers, and Everett L. Ackley individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of watchbands or any other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing any such products which are substantially, or which contain a substantial
Syllabus

part or parts, of foreign origin or fabrication without affirmatively disclosing the country or place of foreign origin or fabrication thereof on the products themselves, by marking or stamping on an exposed surface, or on a label or tag affixed thereto, of such degree of permanency as to remain thereon until consummation of consumer sale of the products, and of such conspicuousness as to be likely observed and read by purchasers and prospective purchasers making casual inspection of the products.

2. Offering for sale, selling, or distributing any such product packaged, or mounted in a container, or on a display card, without disclosing the country or place of foreign origin of the product, or substantial part or parts thereof, on the front or face of such packaging, container, or display card, so positioned as to clearly have application to the product so packaged or mounted, and of such degree of permanency as to remain thereon until consummation of consumer sale of the product, and of such conspicuousness as to be likely observed and read by purchasers and prospective purchasers making casual inspection of the product as so packaged or mounted.

3. Placing in the hands of manufacturers, distributors, retailers, and others, means and instrumentalities by and through which they may deceive and mislead the purchasing public concerning any merchandise in the respects set out above.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

IN THE MATTER OF

DRESSER INDUSTRIES, INC., ET AL.
AND NATIONAL LEAD COMPANY

ORDERS, ETC., IN REGARD TO THE ALLEGED VIOLATION OF SEC. 7 OF THE CLAYTON ACT AND SEC. 5 OF THE FEDERAL TRADE COMMISSION ACT

Orders dismissing, for the reason that the evidence of record does not provide a sufficient basis for divestiture orders, complaints charging the two largest producers of barite in the United States with violation of Sec. 5 of the Federal Trade Commission Act and Sec. 7 of the Clayton Act by reason of their acquisition of the assets of several independent barite producers.
The Federal Trade Commission, having reason to believe that the
parties named in the caption hereof and hereby made respondents
herein, and hereinafter more particularly designated and described,
have been and are using unfair methods of competition and unfair
acts and practices in commerce in violation of Section 5 of the Fed-
eral Trade Commission Act (15 U.S.C. Sec. 45), and have violated
and are now violating the provisions of Section 7 of the Clayton
Act (15 U.S.C. Sec. 18), and it appearing to the Commission that
a proceeding by it in respect thereof would be to the interest of the
public, the Commission hereby issues its complaint, charging as
follows:

**COUNT I**

Charging violations of Section 5 of the Federal Trade Commiss-
ion Act, the Commission alleges:

Paragraph 1. Respondent, Dresser Industries, Inc., hereinafter
referred to as “Dresser,” is a corporation organized and existing
under the laws of the State of Pennsylvania, with its office and prin-
cipal place of business at Republic National Bank Building, Dallas,
Texas.

Par. 2. Respondent, Magnet Cove Barium Corporation, herein-
after referred to as “Magnet Cove,” is a corporation organized and
existing under the laws of the State of Arkansas, with its office and
principal place of business at Houston, Texas. Its mailing address
is Post Office Box 6504, Houston, Texas.

Par. 3. Dresser is engaged, among other things, in the produc-
tion and sale of oil and gas field equipment and supplies in commerce,
as “commerce” is defined in the Federal Trade Commission Act.
Dresser owns all, or substantially all, of the common stock of Magnet
Cove, and directs and controls the acts and policies of Magnet Cove.

Par. 4. Magnet Cove is engaged in the production and sale of
barite, a barium mineral, in commerce, as “commerce” is defined in
the Federal Trade Commission Act. It is now, and for several
years prior hereto has been, one of the two principal factors in the
producing, processing, buying and selling of barite. It has acted
for and on behalf of Dresser as well as for and on its own behalf
in doing and performing the acts and practices hereinafter alleged.

Par. 5. The production and sale of barite in the United States
is a highly concentrated industry of rapidly growing importance.
In 1953 the production of crude barite in the United States amounted

---

* Docket No. 7095.
to approximately 920,000 short tons, and by 1956 such production had increased to approximately 1,350,000 short tons. Substantial quantities of crude barite are also imported into the United States, particularly from Canada. In 1953 total sales of crushed and ground barite in the United States amounted to approximately 920,000 short tons having a plant value of approximately $20,400,000. By 1956 such sales had increased to approximately 1,500,000 short tons having a plant value of approximately $41,600,000.

The largest use of barite, and one that takes more than three-fourths of the total output, is as a weighting agent in rotary well-drilling fluids. In this use, because of its high specific gravity, low cost, and other desirable technical factors, barite does not have an economical substitute. Substantial quantities are also used as a raw material in manufacturing various barium compounds; in the production of lithopone, a white pigment used principally in paints and in the production of glass, paint, rubber and other products.

Para. 6. Magnet Cove is the largest producer of barite in the United States, its volume of production and sales having sharply increased in the past few years. In 1953 its production of crude barite was approximately 220,000 tons, and by 1956 it had increased to approximately 435,000 tons; and in 1953 its sales of crushed and ground barite amounted to approximately $5,487,000, and by 1956 they had increased to approximately $18,224,000. During the same period the production and sales of the company which now occupies second position also increased at a rapid rate, but it was not able to maintain first position which it occupied in 1953. Magnet Cove’s share of the total United States production of crude barite increased from approximately 24% in 1953, to approximately 32% in 1956, and its share of the total sales of crushed and ground barite increased from approximately 27% in 1953, to approximately 44% in 1956. The increases in the volume of production and sales of both companies during this period were accompanied by substantial increases in the extent to which the industry was concentrated in them. The two companies combined accounted for approximately 54% of the production of crude barite in the United States in 1953, and approximately 68% in 1956; and they accounted for approximately 74% of the total sales of crushed and ground barite in 1953, and approximately 82% in 1956.

Para. 7. Magnet Cove has acquired, directly or indirectly, and continues to exercise substantial domination and control over the producing, processing, buying and selling of barite by certain corporations, partnerships, and individuals which were formerly sub-
stancial competitors of Magnet Cove and of others in the business of producing, processing, buying and selling barite. Said domination and control was acquired for the purpose or with the effect of lessening or eliminating, suppressing and preventing competition with Magnet Cove by such corporations, partnerships and individuals in the producing, processing, buying and selling of barite, of lessening and suppressing competition generally in the producing, processing, buying and selling of barite, and of tending to create and maintain a monopoly in Magnet Cove. Said domination and control over the producing, processing, buying and selling of barite by such corporations, partnerships and individuals has been acquired by Magnet Cove by and through the use of the methods, acts and practices set out in the following subparagraphs (a) and (b), among others:

(a) Magnet Cove has acquired, directly or indirectly, all, or a substantial part, of the assets of certain corporations, including those described more particularly in the following subsections (1) and (2). Such corporations were formerly independent producers, processors, buyers or sellers of barite, but as a result of said acquisitions, their businesses or assets are now being operated by Magnet Cove or under and subject to its control.

(1) Canadian Industrial Minerals, Limited, is a corporation organized and existing under the laws of the Province of Nova Scotia, Dominion of Canada, with its office and principal place of business at 67 Yonge Street, Toronto, Ontario, Canada. Prior to November 1, 1955, said corporation was engaged in the production and sale of barite. For several years prior to the acquisition of its assets by Magnet Cove, said corporation sold a significant quantity of barite in commerce, as “commerce” is defined in the Federal Trade Commission Act. On or about November 1, 1955, Magnet Cove acquired all the assets of Canadian Industrial Minerals, Limited.

(2) Superbar Company is a corporation organized and existing under the laws of the State of Missouri, with its office and principal place of business at Potosi, Missouri. Prior to February 28, 1957, said corporation was engaged in the producing, processing, buying and selling of barite in commerce, as “commerce” is defined in the Federal Trade Commission Act. For several years prior to the acquisition of its assets by Magnet Cove, said corporation was a significant producer, processor, buyer and seller of barite. On or about February 28, 1957, Magnet Cove acquired all the assets of Superbar Company.
(b) Magnet Cove has acquired, directly or indirectly, all, or a substantial part, of the assets of certain partnerships and individuals, including those described more particularly in the following subsections (1) and (2). Such partnerships and individuals were formerly independent producers, processors, buyers or sellers of barite, but as a result of said acquisitions, their businesses or assets are now being operated by or under and subject to the control of Magnet Cove.

(1) On or about September 8, 1955, Magnet Cove acquired from J. R. Dellinger certain land in Washington County, Missouri, and a mining lease covering certain other land in the same county, which acquired and leased land contained a substantial amount of recoverable barite reserves. On or about the same day, Superbar Company acquired from J. R. Dellinger a washing plant, a magnetic separator, and certain mining equipment which had been used by J. R. Dellinger in connection with the production of barite from the land referred to hereinafore. Thereafter, Magnet Cove acquired the assets of Superbar Company as more particularly set out in subsection (a)(2) of this paragraph 7.

(2) On or about May 2, 1956, Magnet Cove acquired from Howard A. Wolf certain land in Washington County, Missouri, containing a substantial amount of recoverable barite reserves, together with a barite washing plant and barite mining equipment.

Par. 8. The effects of the acts and practices alleged in paragraph 7 of Count I of this complaint, and things done pursuant to them, were and are, or may be, substantially to lessen competition or to tend to create a monopoly in the producing and selling of crude barite; substantially to lessen competition or to tend to create a monopoly in the buying and processing of crude barite and of crushed and ground barite, and in selling it to the well-drilling, chemical, paint and other industries; and otherwise substantially to lessen competition in prices, supply and quality of barite, and to tend to create a monopoly in the producing, processing, buying and selling of barite in commerce, as “commerce” is defined in the Federal Trade Commission Act.

Par. 9. The acts and practices of Dresser and Magnet Cove, as alleged in Count I of this complaint, are to the prejudice of competitors, of consumers, and of the public, and have a dangerous tendency to hinder and prevent, and have actually hindered and prevented, competition in the producing, processing, buying and selling of barite in commerce within the intent and meaning of the Federal Trade Commission Act; have unreasonably restrained such com-
merce in barite and have a dangerous tendency to create in Magnet Cove a monopoly in the producing, processing, buying and selling of barite, and constitute unfair methods of competition and unfair acts and practices in commerce within the intent and meaning of Section 5 of the Federal Trade Commission Act.

COUNT II

Charging violations of Section 7 of the Clayton Act, the Commission alleges:

Paragraphs 1, 2, 3, 4, 5, and 6: The allegations of paragraphs 1, 2, 3, 4, 5 and 6 of Count I of this complaint are incorporated herein by reference and constitute the allegations of paragraphs 1, 2, 3, 4, 5 and 6 of Count II, except that the references in paragraphs 3 and 4 of Count I to the Federal Trade Commission Act are eliminated herein, and references to the Clayton Act are substituted therefor.

PAR. 7. Canadian Industrial Minerals, Limited, is a corporation organized and existing under the laws of the Province of Nova Scotia, Dominion of Canada, with its office and principal place of business at 67 Yonge Street, Toronto, Ontario, Canada. Prior to November 1, 1955, said corporation was engaged in the production and sale of barite. For several years prior to the acquisition of its assets by Magnet Cove, said corporation sold a significant quantity of barite in commerce, as "commerce" is defined in the Clayton Act. On or about November 1, 1955, Magnet Cove acquired all the assets of Canadian Industrial Minerals, Limited.

PAR. 8. Superbar Company is a corporation organized and existing under the laws of the State of Missouri, with its office and principal place of business at Potosi, Missouri. Prior to February 28, 1957, said corporation was engaged in the producing, processing, buying and selling of barite in commerce, as "commerce" is defined in the Clayton Act. For several years prior to the acquisition of its assets by Magnet Cove, said corporation was a significant producer, processor, buyer and seller of barite. On or about February 28, 1957, Magnet Cove acquired all the assets of Superbar Company.

PAR. 9. The effects of the acts and practices alleged in paragraphs 7 and 8 of Count II of this complaint, and things done pursuant to them, were and are, or may be, substantially to lessen competition or to tend to create a monopoly in the production and selling of crude barite; substantially to lessen competition or to tend to create a monopoly in the buying and processing of crude barite and of crushed and ground barite, and in selling it to the well-drilling, chemical, paint and other industries; and otherwise substantially to
Complaint

lessen competition in prices, supply and quality of barite and to
tend to create a monopoly in the producing, processing, buying and
selling of barite in commerce, as “commerce” is defined in the
Clayton Act.

PAR. 10. The acquisitions, acts and practices of Dresser and Mag-
et Cove, as alleged in Count II of this complaint, constitute viola-
tions of Section 7 of the Clayton Act.

Mr. Wilmer L. Tinley, Mr. Raymond L. Hays, Mr. John M. Sie-
mien, Mr. Mark E. Richardson II, and Mr. Ronald A. Kronowitz,
for the Commission.

McAfee, Hanning, Newcomer & Haelett, by Mr. C. F. Taplin,
Jr., Mr. William A. McAfee, and Mr. George D. Kinder, of Cleve-
land, Ohio, for respondents.

COMPLAINT*

The Federal Trade Commission, having reason to believe that the
party named in the caption hereof and hereby made respon-
ent herein, and hereinafter more particular designated and described,
has been and is using unfair methods of competition and unfair
acts and practices in commerce in violation of Section 5 of the Fed-
eral Trade Commission Act (15 U.S.C. Sec. 45), and has violated
and is now violating the provisions of Section 7 of the Clayton Act
(15 U.S.C. Sec. 18), and it appearing to the Commission that a
proceeding by it in respect thereof would be to the interest of the
public, the Commission hereby issues its complaint, charging as
follows:

COUNT I

Charging violations of Section 5 of the Federal Trade Commission
Act, the Commission alleges:

PARAGRAPH 1. Respondent, National Lead Company, hereinafter
referred to as “respondent,” is a corporation organized and existing
under the laws of the State of New Jersey, with its office, and prin-
cipal place of business at 111 Broadway, New York, New York.

PAR. 2. Respondent is engaged, among other things, in the pro-
duction and sale of barite, a barium mineral, in commerce, as “com-
merce” is defined in the Federal Trade Commission Act. Respondent
is now, and for several years prior hereto has been, one of the two
principal factors in the producing, processing, buying and selling
of barite.

PAR. 3. The production and sale of barite in the United States
is a highly concentrated industry of rapidly growing importance.

* Docket No. 7096.
In 1953 the production of crude barite in the United States amounted to approximately 920,000 short tons, and by 1956 such production had increased to approximately 1,350,000 short tons. Substantial quantities of crude barite are also imported into the United States, particularly from Canada. In 1953 total sales of crushed and ground barite in the United States amounted to approximately 920,000 short tons having a plant value of approximately $20,400,000. By 1956 such sales had increased to approximately 1,500,000 short tons having a plant value of approximately $41,600,000.

The largest use of barite, and one that takes more than three-fourths of the total output, is as a weighting agent in rotary well-drilling fluids. In this use, because of its high specific gravity, low cost, and other desirable technical factors, barite does not have an economical substitute. Substantial quantities are also used as a raw material in manufacturing various barium compounds; in the production of lithopone, a white pigment used principally in paints; and in the production of glass, paint, rubber and other products.

Par. 4. Respondent is the second largest producer of barite in the United States, and its volume of production and sales has sharply increased in the past few years. In 1953 its production of crude barite was approximately 278,000 tons, and by 1956 it had increased to approximately 422,000 tons; and in 1953 its sales of crushed and ground barite amounted to approximately $9,700,000, and by 1956 they had increased to approximately $15,900,000. During the same period, however, the production and sales of the company which occupies first position increased at such a rapid rate that respondent was not able to maintain first position which it occupied in 1953. Respondent's large increases in volume resulted in a small increase in its share of the total United States production of crude barite from approximately 30% in 1953, to approximately 31% in 1956, and in a decrease in its share of the total sales of crushed and ground barite from approximately 47% in 1953, to approximately 38% in 1956. The increases in the volume of production and sales of both companies during this period, however, were accompanied by substantial increases in the extent to which the industry was concentrated in them. The two companies combined accounted for approximately 54% of the production of crude barite in the United States in 1953, and approximately 63% in 1956; and they accounted for approximately 74% of the total sales of crushed and ground barite in 1953, and approximately 82% in 1956.

Par. 5. Respondent has acquired, directly or indirectly, and continues to exercise substantial domination and control over the pro-
ducing, processing, buying and selling of barite by certain corporations, partnerships, and individuals which were formerly substantial competitors of respondent and of others in the business of producing, processing, buying and selling barite. Said domination and control was acquired for the purpose or with the effect of lessening or eliminating, suppressing, and preventing competition with respondent by such corporations, partnerships and individuals in the producing, processing, buying and selling of barite, of lessening and suppressing competition generally in the producing, processing, buying and selling of barite, and of tending to create and maintain a monopoly in respondent. Said domination and control over the producing, processing, buying and selling of barite by such corporations, partnerships and individuals has been acquired by respondent by and through the use of the methods, acts and practices set out in the following subparagraphs (a) and (b), among others:

(a) Respondent has acquired, directly or indirectly, all, or a substantial part, of the assets of certain corporations, including those described more particularly in the following subsections (1) and (2). Such corporations were formerly independent producers, processors, buyers or sellers of barite, but, as a result of said acquisitions, their businesses or assets are now being operated by respondent or under and subject to the control of respondent.

(1) L. A. Wood, Inc., is a corporation organized and existing under the laws of the State of Tennessee, with its office and principal place of business at Sweetwater, Tennessee. Prior to May 1956 said corporation was engaged in the producing, processing and selling of barite in commerce, as "commerce" is defined in the Federal Trade Commission Act. For several years prior to the acquisition of its assets by respondent, L. A. Wood, Inc., was a significant producer, processor and seller of barite. On or about May 21, 1956, respondent acquired all the assets, except cash, accounts and notes receivable, of L. A. Wood, Inc.

(2) Barytes Mining Company is a corporation organized and existing under the laws of the State of Georgia, with its office and principal place of business at Potosi, Missouri. Prior to May 1956 said corporation was engaged in the production and sale of barite in commerce, as "commerce" is defined in the Federal Trade Commission Act. For several years prior to the acquisition of its assets by respondent, Barytes Mining Company was a significant producer of barite. On or about May 7, 1956, respondent acquired all the assets, except cash, accounts and notes receivable, of Barytes Mining Company.
(b) Respondent has acquired, directly or indirectly, all, or a substantial part, of the assets of certain partnerships and individuals, including the partnership described more particularly in the following sub-section (1). Such partnerships and individuals were formerly independent producers, processors, buyers or sellers of barite, but as a result of said acquisitions their business or assets are now being operated by or under and subject to the control of respondent.

(1) On or about June 1, 1956, respondent acquired from Finlen & Sheridan Mining Company, a partnership, whose post office address is Butte, Montana, all mineral rights and all real and personal property held or used by said partnership in the conduct of its barite business in Missoula County, Montana.

Par. 6. The effects of the acts and practices alleged in paragraph 5 of Count I of this complaint, and things done pursuant to them, were and are, or may be, substantially to lessen competition or to tend to create a monopoly in the producing and selling of crude barite; substantially to lessen competition or to tend to create a monopoly in the buying and processing of crude barite and of crushed and ground barite, and in selling it to the well-drilling, chemical, paint, and other industries; and otherwise substantially to lessen competition in prices, supply and quality of barite, and to tend to create a monopoly in the producing, processing, buying and selling of barite in commerce, as "commerce" is defined in the Federal Trade Commission Act.

Par. 7. The acts and practices of respondent, as alleged in Count I of this complaint, are to the prejudice of competitors, of consumers, and of the public, and have a dangerous tendency to hinder and prevent, and have actually hindered and prevented, competition in the producing, processing, buying and selling of barite in commerce within the intent and meaning of the Federal Trade Commission Act; have unreasonably restrained such commerce in barite and have a dangerous tendency to create in respondent a monopoly in the producing, processing, buying and selling of barite; and constitute unfair methods of competition and unfair acts and practices in commerce within the intent and meaning of Section 5 of the Federal Trade Commission Act.

COUNT II

Charging violations of Section 7 of the Clayton Act, the Commission alleges:

Paragraphs 1, 2, 3, and 4: The allegations of paragraphs 1, 2, 3, and 4 of Count I of this complaint are incorporated herein by reference and constitute the allegations of paragraphs 1, 2, 3 and 4 of
Count II, except that the reference in paragraph 2 of Count I to the Federal Trade Commission Act is eliminated herein, and reference to the Clayton Act is substituted therefor.

Par. 5. L. A. Wood, Inc., is a corporation organized and existing under the laws of the State of Tennessee with its office and principal place of business at Sweetwater, Tennessee. Prior to May 1956 said corporation was engaged in the producing, processing and selling of barite in commerce, as “commerce” is defined in the Clayton Act. For several years prior to the acquisition of its assets by respondent, L. A. Wood, Inc., was a significant producer, processor and seller of barite. On or about May 21, 1956, respondent acquired all the assets, except cash, accounts and notes receivable of L. A. Wood, Inc.

Par. 6. Barytes Mining Company is a corporation organized and existing under the laws of the State of Georgia with its office and principal place of business at Potosi, Missouri. Prior to May 1956 said corporation was engaged in the production and sale of barite in commerce, as “commerce” is defined in the Clayton Act. For several years prior to the acquisition of its assets by respondent, Barytes Mining Company was a significant producer of barite. On or about May 7, 1956, respondent acquired all of the assets, except cash, accounts and notes receivable of Barytes Mining Company.

Par. 7. The effects of the acts and practices alleged in paragraphs 5 and 6 of Count II of this complaint, and things done pursuant to them, were and are, or may be, substantially to lessen competition or to tend to create a monopoly in the producing and selling of crude barite; substantially to lessen competition or to tend to create a monopoly in the buying and processing of crude barite and of crushed and ground barite, and in selling it to the well-drilling, chemical, paint and other industries; and otherwise substantially to lessen competition in prices, supply and quality of barite and to tend to create a monopoly in the producing, processing, buying and selling of barite in commerce, as “commerce” is defined in the Clayton Act.

Par. 8. The acquisitions, acts and practices of respondent, as alleged in Count II of this complaint, constitute violations of Section 7 of the Clayton Act.

Mr. Wilmer L. Tinley, Mr. Raymond L. Hays, Mr. John M. Sie- mien, Mr. Mark E. Richardson II, and Mr. Ronald A. Kronowitz, for the Commission.

Alexander & Green by Mr. Eugene Z. DuBose, Mr. James D. Ewing, Mr. John B. Heinrich and Mr. J. Kenneth Campbell of New York, N.Y., for respondent.
I. The Complaint

1. The complaint in this proceeding was issued on March 26, 1958. It charges in the first of two counts that Magnet Cove Barium Corporation, hereinafter referred to as Magnet Cove or Magcobar, is the largest producer of barite in the United States, and that, by the purchase in 1956 of the assets of one Canadian corporation and those of one Missouri corporation, augmented by the acquisition of the assets of two individuals, acquired such additional barite resources as to give it substantial domination and control over the production, processing, buying and selling of barite, a mineral used in drilling oil wells, and that such acquisitions tended substantially to lessen competition or to create a monopoly in the sale of barite, in violation of § 5 of the Federal Trade Commission Act. The pertinent part thereof provides, as follows:

§5(a)(1) Unfair methods of competition in commerce, and unfair acts or practices in commerce, are hereby declared unlawful.

The respondent, Dresser Industries, Inc., hereinafter referred to as Dresser, is charged, as the controlling stockholder of Magnet Cove, with being responsible jointly with it for the alleged acts and practices.

2. The second count of the complaint charges that Magnet Cove's acquisition of the assets of the Canadian corporation and the Missouri corporation was made in violation of § 7 of the Clayton Act, of which the pertinent part provides, as follows:

That no corporation engaged in commerce shall acquire, directly or indirectly, the whole or any part of the stock or other share capital and no corporation subject to the jurisdiction of the Federal Trade Commission shall acquire the whole or any part of the assets of another corporation engaged also in commerce, where in any line of commerce in any section of the country, the effect of such acquisition may be substantially to lessen competition, or to tend to create a monopoly.

II. The Answer

3. In their answer, Dresser and Magnet Cove deny substantially all of the material allegations of the complaint, except the fact of the acquisitions, and specifically deny any violation of either § 5 of the Federal Trade Commission Act or § 7 of the Clayton Act. Their answer further affirmatively alleges that the Commission has no jurisdiction over the acquisition of the assets of the Canadian cor-
The principal issues in this proceeding may be stated as follows:

1. What product constitutes the line or lines of commerce here involved?
2. What is the relevant market or “section of the country” in which we must determine the potential effect, if any, of the challenged acquisitions?
3. Is there a reasonable probability that the acquisitions by Magnet Cove of the assets of either of the two corporations, the one located in Missouri and the one located in Canada, may have the effect of substantially lessening competition or tending to create a monopoly in violation of § 7 of the Clayton Act?
4. Did the acquisitions by Magnet Cove of the assets of the two individuals, together with the corporate acquisitions, constitute an unfair method of competition or an unfair trade practice, in violation of § 5 of the Federal Trade Commission Act?
5. Does the Commission have jurisdiction over the acquisition by Magnet Cove of the assets of the Canadian corporation, within the meaning of § 1 and § 7 of the Clayton Act?

IV. Hearings

5. Hearings were held at various times from 1959 to 1962, and the record thereof contains numerous exhibits and approximately 5,000 pages of testimony and other evidence.

V. Proposed Findings

6. Opposing counsel submitted proposed findings as to the facts and proposed conclusions. All proposals have been considered by the hearing examiner, and those not incorporated herein, either verbatim or in substance, are hereby rejected.
7. The proposed findings and conclusions submitted by counsel supporting the complaint required special analysis. At the prehearing conference held herein in January 1959, counsel supporting the complaint moved that this proceeding and the proceeding in Docket 7006, National Lead Company, involving similar charges, be consolidated for purposes of trial. Since the Commission had issued separate complaints in these two proceedings, alleging illegal mergers different in size and apparent significance, against different re-
respondents having different economic backgrounds and histories in the barite industry, and because of the fact that the respondents in these two proceedings were each others chief competitors, the consolidation of the two cases would, in our opinion, have been unfair to the respondents, and a joint trial inadequate to safeguard the public interest. Accordingly, the hearing examiner denied the motion for consolidation. From that denial, counsel did not appeal to the Commission.

8. On several occasions during the trial of this proceeding, counsel supporting the complaint renewed his efforts to have the two cases consolidated. All such requests were denied, for the same reasons upon which the first denial was based. Finally, in his order of January 28, 1962, designating the time for the filing of proposed findings as to the facts, the hearing examiner admonished counsel that:

Although both proceedings are concerned with mergers, and the effect thereof on commerce in the sale of barite, they are separate cases, and the evidence in each varies considerably from that in the other. These various factors require that each case be considered separately, and separately adjudicated.

In apparent disregard of the above directive, counsel supporting the complaint has submitted proposed findings in which he would have the facts in one case used to justify factual findings against the respondent in the other. For example, he states:

• • • The effects of the acquisitions by each Respondent have heighten and reinforced the effects of the acquisitions by the other.

9. The Commission in Foremost Dairies, Inc., Docket 6495, and the Supreme Court in the case of Brown Shoe Co. v. United States, 370 U.S. 294 (1960), interpreted the mandate of § 7 of the Clayton Act to mean that a given merger is prohibited only if there is proof that the effect of that particular merger may be substantially to lessen competition or tend to create a monopoly. Therefore, in our opinion, the adoption of any proposed findings relying upon evidence in one proceeding to prove allegations in another proceeding not conjoined therewith, and not yet adjudicated, would clearly contravene the mandate of § 7 of the Clayton Act as interpreted by the Commission.

VI. Organization and Business of Respondents

10. Respondent Dresser is a corporation organized and existing under the laws of the State of Delaware, and Respondent Magnet Cove is a corporation organized and existing under the laws of the State of Arkansas. The principal office and place of business of
Dresser is in the Republic National Bank Building, Dallas, Texas, and that of Magnet Cove is at 3133 Buffalo Speedway, Houston, Texas. Dresser owns all of the capital stock of Magnet Cove.

11. Dresser, through various subsidiaries and operating divisions, manufactures, and sells to the oil, gas and chemical industries, various products and services, including drilling-mud ingredients, well logging and perforation, drilling bits and oil-well-drilling tools, compressors, engines and turbines, centrifugal and plunger type pumps, pipe compression couplings and fittings, drilling rigs and masts, blowers and exhausters, and seismograph systems. Dresser is not engaged in the domestic barite or drilling-mud business except through the operation of its subsidiaries, Magnet Cove and Superbar Company, a new corporation organized by Dresser in 1957. Dresser functions through sixteen principal operating units. We are here concerned with only two of these, Magnet Cove and Superbar.

12. The business of Magnet Cove is the mining, processing and selling of ingredients used in the compounding of drilling mud used in the drilling of oil and gas wells. The principal mud ingredients are barite and bentonite, which Magnet Cove mines from properties held under lease or mining claims in the United States, Canada, Mexico and Greece, and which it processes at its mills in the United States, Canada and Venezuela.

VII. The Barite Industry

A. The Product Barite

13. Barite, the product with which we are here concerned, is the mineral barium sulphate (BaSO₄). It is found in hardrock formations, in veins, in massive deposits, and in residual deposits throughout clay or other sedimentary formations. It can be mined by various methods, including open-pit mining, underground mining, and even so-called hand mining, which is simply a pick-and-shovel method of securing surface deposits. This latter method has largely been discontinued.

14. The crude barite is generally washed to remove impurities, and then, when intended for use in oil-well drilling, is ground to the fineness of powder. The most common specification for such grinding requires that 90% of the barite must pass through a sieve having 325 holes to the square inch. This grinding process may take place at a grinding mill where the product is mined, but more commonly is done at a grinding mill in the geographical area where the barite is to be used.
15. Barite has a variety of uses. In the past it has been used as a filler in paint, rubber, linoleum, and other products. Although some barite is still used for such purposes, in these uses it has largely been displaced by other substances. It is used today in the manufacture of barium chemicals and as a fluxing agent in the manufacture of glass. Most barite, however, is used in the composition of oil-well-drilling muds. During the years 1954 through 1958, approximately 95% of all barite sold in the United States for all purposes was ground barite for use in oil-well drilling.

16. There are three principal grades of barite: drilling-mud barite, chemical barite, and glass barite. Drilling-mud barite, which is ground barite, must have a barium-sulphate content of from 90% to 92%, with a specific gravity of not less than 4.2 and an iron content of not more than 5%, and should be relatively free of soluble salts. Chemical barite must be in lump form, with at least a 94% barium-sulphate content, and less than 1% of iron. Glass-grade barite must be at least 95% barium sulphate, with an iron content of less than 0.3%.

B. The Function of Barite in Drilling Mud

17. In drilling an oil well today, a variety of materials is mixed at the drilling rig to form what is known as drilling mud. This mixture is pumped into the well and circulated therein during the drilling operations. The drilling mud acts as a lubricant, cools the drill bit, and aids in carrying off the solids torn loose by the bit and in sealing the area drilled through so that the circulating mud will not be lost into adjacent areas. The function of ground barite in the drilling mud is to increase the specific gravity thereof so that it will exert sufficient hydraulic pressure during the drilling operations to control and offset the contravening pressures in the well formation, caused by gas, salt water and oil. Approximately thirty years ago, before barite was used as a weighting agent in drilling mud, “blow-outs” and other expensive damage to the drilling rig and oil-bearing property were of much more frequent occurrence than they are now.

C. Beginning of the Barite Industry

18. The barite drilling-mud industry had its origin in the pioneering experiments with barite as a drilling-mud ingredient in the early 1920s. In 1926 the use of barite in oil-well-drilling mud was sufficiently perfected so that the so-called Stroud Patent was issued thereon to the National Pigment and Chemical Company, a subsid-
FEDERAL TRADE COMMISSION DECISIONS

Initial Decision

During the life of this patent, National, as the owner of the patent, had a legal monopoly on the use of barite as an ingredient of oil-well-drilling mud. National granted licenses under the Stroud Patent the right to use barite in oil-well-drilling mud on the payment of a fee of $13 per ton for all barite so used. By 1940, while National still enjoyed the protection of the Stroud Patent, National's own sales of ground barite for oil-well-drilling purposes amounted to 85.5% of the total sales of ground barite for that purpose in the domestic market. In 1943 the Stroud Patent expired.

19. Three years before the expiration of the patent, Magnet Cove was incorporated in the State of Arkansas, with a capital stock of $25,000, for the purpose of mining barite at Malvern, Arkansas. In 1943, Magnet Cove began the sale of bentonite in addition to barite to the oil-well-drilling industry, and shortly thereafter it began the sale of all chemicals used in the drilling-mud industry. In 1946, Magnet Cove began to purchase barite in Missouri, from Eversole-McClay Company, which operated mines and also small washing plants there.

20. On November 1, 1949, Dresser acquired by purchase all the stock of Magnet Cove. This purchase was made because Dresser was already engaged in selling to the oil industry, and because the officials of Dresser believed that the oil-well-drilling companies would soon be engaged in extensive deep-well drilling, and there would be an increased demand for barite. In 1954 the sales of barite by Magnet Cove, operating as a subsidiary of Dresser, amounted to 46.37% of the market, exceeding the 40.72% market share held that year by National Lead Company, Dresser's foremost competitor.

D. Reserves of Barite

21. Respondents introduced in evidence a geological survey made in 1958 by the United States Department of the Interior, which estimated the "demonstrated" and "inferred" reserves of barite ore throughout the United States. The demonstrated reserves were defined as those that can be readily exploited under present technological and economic conditions. Inferred reserves are defined as the potential amount of ore that must await favorable economic conditions or new techniques of mining. According to that survey, the total reserves of barite in the United States were estimated to be approximately 650,000,000 short tons, of which 285,000,000 were demonstrated reserves, and 365,000,000 were inferred reserves. The same survey estimated the reserves in the State of Missouri as
amounting to more than 30,000,000 short tons, consisting of 20,000,000 demonstrated, and in excess of 10,000,000 inferred reserves. The estimate for the State of Arkansas was 27,600,000 short tons, consisting of 9,600,000 demonstrated and 18,000,000 inferred reserves. The estimate for Georgia, Tennessee, North Carolina and South Carolina was 29,100,000 short tons, consisting of 9,600,000 demonstrated and 19,500,000 inferred reserves.

22. Respondents also placed in evidence, in connection with the testimony of Dr. Garrett A. Muilenburg, a consulting geologist, a report by him covering an investigation of the barite reserves of Washington, Jefferson, and St. Francois Counties of Missouri. This report contains an analysis of the barite reserves of these counties, as follows:

<table>
<thead>
<tr>
<th>Operators</th>
<th>Acreage</th>
<th>Tons of barite ore</th>
</tr>
</thead>
<tbody>
<tr>
<td>Independent operators</td>
<td>22,009</td>
<td>5,281,920</td>
</tr>
<tr>
<td>National, Magnet Cove, and Milwhite Mud, the three largest operators in the industry</td>
<td>52,970</td>
<td>12,718,040</td>
</tr>
<tr>
<td>Open land, not owned nor controlled by any present barite-producing company or individual</td>
<td>38,590</td>
<td>9,326,880</td>
</tr>
<tr>
<td><strong>Totals</strong></td>
<td>113,578</td>
<td>27,321,840</td>
</tr>
</tbody>
</table>

E. Imports of Barite

23. According to the record, during the period from 1954 through 1958, crude barite ore was supplied to the Gulf Coast area from Mexico, Canada, Greece, Yugoslavia, Peru, Italy and, more recently, Spain and Morocco. The Commission’s survey shows foreign ore receipts at Gulf Coast grinding plants as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Tons</th>
</tr>
</thead>
<tbody>
<tr>
<td>1954</td>
<td>295,200</td>
</tr>
<tr>
<td>1955</td>
<td>333,463</td>
</tr>
<tr>
<td>1956</td>
<td>552,213</td>
</tr>
<tr>
<td>1957</td>
<td>822,657</td>
</tr>
</tbody>
</table>

24. In 1958, when well-drilling and barite sales declined generally, the receipts of foreign ore, for well-drilling purposes only, at Gulf Coast grinding plants also declined, to 529,857 tons, which, however, still slightly exceeded the total domestic production of 515,520 tons for all uses in all areas in the United States.

25. The Milwhite Mud Company, hereinafter referred to as Milwhite, a grinder of barite which, during the survey period of 1954 through 1958, cured and ground as much as 98,000 tons of barite in a single year, received most of such barite from foreign sources. Counsel supporting the complaint has stated that this company,
the third-largest engaged in the mud business, "* * * must rely almost wholly on the caprices of import". But Witness Max Miller, president of Milwhite, testified that his reason for relying so heavily on foreign barite ore was as follows:

It can be secured cheaper on a world market. That is, it can be delivered to the ultimate point of use cheaper in buying from the world market than it can from mining any reserves in this country that we know about.

26. Witness Eversole of the Milwhite Mud Company explained that the importation of foreign ore adversely affected and depressed the demand for Missouri ore. When he testified in 1960, his estimate was that foreign ore processed in the Gulf Coast area was being supplied in that area at a cost of from $2.50 to $4.00 per ton less than the laydown cost of Missouri ore.

VIII. The Challenged Acquisitions
A. C.I.M.

27. On November 1, 1955, Magnet Cove purchased for $4,857,000 all of the assets of Canadian Industrial Minerals, Ltd., hereinafter referred to as C.I.M. Among the assets acquired were cash, bonds, receivables and inventory in the amount of $1,170,000. The principal assets acquired, consisting of a 20-to-80 year mineral sublease from the Provincial Government, a washing and grinding plant, machinery, and a loading dock in Hants County, near Walton, Nova Scotia, were purchased for $3,687,000. C.I.M. was a corporation organized and existing under the laws of the Province of Nova Scotia, Canada, and was a wholly-owned subsidiary of Barytin Company, Ltd., a Canadian corporation with its principal place of business at 67 Young Street, Toronto, Ontario, Canada.

28. Prior to the acquisition, C.I.M. was engaged in the business of producing and selling barite from its leased property. In 1953 Magnet Cove became its chief purchaser of crude barite, and from that time until the acquisition in 1955, the amount of barite sold to Magnet Cove and other purchasers in the United States by C.I.M. was as follows:

<table>
<thead>
<tr>
<th></th>
<th>Purchases of crude barite from C.I.M. (gross tons)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1953</td>
</tr>
<tr>
<td>By Magnet Cove</td>
<td>41,770</td>
</tr>
<tr>
<td>By all United States customers for grinding and resale to the oil-well-drilling industry</td>
<td>128,755</td>
</tr>
</tbody>
</table>
Prior to the acquisition in 1955, the barite reserves of C.I.M. were estimated to be 2,055,716 tons.

At the time of the acquisition, C.I.M. had contracts for the supplying of crude barite to Milwhite, Barium Reduction Corporation, and Magnet Cove. The contract between C.I.M. and Milwhite was fulfilled by Magnet Cove through Barymin Company, Ltd., and Barymin Exportation, Ltd. Magnet Cove attempted also to carry out a contract between C.I.M. and Barium Reduction Corporation for the sale of chemical-grade barite, but was unable to do so because its supply of chemical-grade barite had been exhausted.

The contracts between C.I.M. and Milwhite, C.I.M. and Barium Reduction Corporation, and C.I.M. and Magnet Cove provided that title to the crude barite should pass to the purchaser upon delivery of the material to the ship at the loading dock in Nova Scotia.

B. The Old Superbar Acquisition

On February 28, 1957, Magnet Cove acquired by purchase the assets of the Superbar Company, a corporation organized and existing under the laws of the State of Missouri, with its office and principal place of business at Potosi, Missouri. The assets acquired by Magnet Cove included mineral rights, leases, and lands in Washington, Jefferson and St. Francois Counties, Missouri, with an estimated barite reserve of 2,600,000 tons. Subsequently, a new estimate increased the probable reserves to 2,820,287 tons. In addition, the properties included five barite washing plants, one barite grinding mill, one barite beneficiation mill, and all the tangible and intangible assets of Superbar Company, including its trade name, business, and goodwill.

At the time of acquisition, Superbar had one-year contracts with twelve glass companies, each contract being for the delivery of 5,000 tons of glass-grade barite. In addition, there was a one-year contract ending August 31, 1957, with Barium Reduction Corporation, for approximately 2,500 tons of chemical-grade barite per month. Also, at the time of the acquisition Superbar was supplying ground barite for oil-well-drilling purposes to Magnet Cove in substantial quantities. At that time, Superbar had not been a competitor of Magnet Cove because it sold only to corporations who resold the barite for oil-well-drilling use, but did not sell to purchasers who were end users of barite in the oil-well-drilling industry.

Later Superbar (hereinafter sometimes referred to as Old Superbar) was dissolved, and a new sales organization, subsidiary to Magnet Cove, was created under the name of Superbar (sometimes
hereinafter referred to as New Superbar) for the purpose of selling barite to end users in the oil-well-drilling industry to whom Magnet Cove did not sell directly.

35. Magnet Cove purchased Old Superbar because it was estimated that in order to produce 100,000 tons of barite per year from the barite properties which Magnet Cove already owned and leased in Missouri in the same general area as the Superbar properties, it would be necessary to construct five washing plants at a minimum cost of $500,000, and to purchase additional mining equipment at an estimated cost of $1,000,000. Magnet Cove believed that the mining equipment acquired from Old Superbar could be used to recover approximately 1,000,000 tons of barite from properties already controlled by Magnet Cove, without this additional investment in washing plants and other equipment. Also, it was thought more feasible by Dresser's management to purchase reserves of barite from Old Superbar than to purchase ground barite from other producers.

C. The Dellinger Acquisition

36. On September 8, 1955, Magnet Cove acquired from J. R. Dellinger, an individual hereinafter referred to as Dellinger, 1,276.62 acres of land in Washington County, Missouri, together with a mining lease covering other land in the same county. It was estimated that the probable barite reserve underlying the land acquired from Dellinger was approximately 30,000 tons at the time of purchase, and recoverable reserves underlying the leased property were approximately 12,000 tons. Prior to the acquisition Dellinger sold almost his entire production of barite to customers in the glass and chemical industries. Just prior to the acquisition, however, Dellinger had transferred his customers to Old Superbar because the type of barite which he was able to produce was unsuitable for use in these two industries. His production of crude ore in 1954 was 11,358 tons.

37. Prior to the acquisition, Dellinger was engaged in interstate commerce.

D. The Wolf Acquisition

38. On May 2, 1956, Magnet Cove purchased from Howard A. Wolf, an individual hereinafter referred to as Wolf, 534.44 acres of land in Washington County, Missouri, together with a barite washing plant and miscellaneous barite mining equipment. The capacity of the washing plant so acquired was approximately 500 tons of barite per month. At the time of the acquisition, it was estimated that the recoverable barite reserves underlying the land so
acquired were approximately 120,000 tons. In 1958 this estimate was revised to indicate a reserve of only 114,562 tons. Prior to the acquisition, Wolf's production had been as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Tons</th>
</tr>
</thead>
<tbody>
<tr>
<td>1954</td>
<td>6,538</td>
</tr>
<tr>
<td>1955</td>
<td>6,382</td>
</tr>
<tr>
<td>1956, first six months</td>
<td>1,733</td>
</tr>
</tbody>
</table>

39. The barite produced from the Wolf properties was ground at the grinding plant at Mineral Point, Missouri, which Magnet Cove acquired from Old Superbar.
40. Prior to the acquisition, Wolf was engaged in interstate commerce.

IX. The Relevant Market

41. In its recent decision in the Brown Shoe case, supra, the Supreme Court prescribed a formula for determining the "line of commerce", as meant by § 7 of the Clayton Act, which may be adversely affected by a merger. According to that formula, the "line of commerce", or, as expressed by the Court, the "product market";

* * * may be determined by examining such practical indicia as industry or public recognition of the submarket as a separate economic entity, the product's peculiar characteristics and uses, unique production facilities, distinct customers, distinct prices, sensitivity to price changes, and specialized vendors.

42. The Supreme Court, likewise, prescribed a formula for determining the "section of the country" or "geographic market" within the meaning of § 7 of the Clayton Act, as follows:

The criteria to be used in determining the appropriate geographic market are essentially similar to those used to determine the relevant product market. * * * The geographic market selected must, therefore, both "correspond to the commercial realities" of the industry and be economically significant. Thus, although the geographic market in some instances may encompass the entire Nation, under other circumstances it may be as small as a single metropolitan area.

Such commercial realities should include, we believe, all the factors affecting the distribution and sale of the relevant product.

43. In the conduct of its survey of the barite industry and markets, the Commission's staff assembled figures with respect to the sale of barite for a number of end uses. The companies responding to the survey were asked to segregate their sales of barite to oil-well-drilling companies who use only ground barite; their sales to barium chemical manufacturers who use principally crude barite; their sales to glass manufacturers who use principally crushed barite in a size between crude and ground; their sales to lithopone manu-
facturers who use principally crude barite; and their sales to "other users", including crude, crushed and ground barite.

44. The evidence establishes that during the years 1954 through 1958 the sale of ground barite for oil-well-drilling uses represented between 84.4% and 87.7% of all barite in all forms sold in the United States for all purposes.

45. In assembling its statistics on the sale of ground barite for oil-well-drilling uses, the Commission’s staff divided the continental United States into five geographical areas designated as the Gulf Coast area, the Mid-Continent area, the Rocky Mountain area, the West Coast area, and the “Other States” area, and called upon the responding companies to segregate the area in which their sales of ground barite for oil-well-drilling use were made. The Gulf Coast area was defined, for the Commission’s survey purposes, as including the States of Florida, Georgia, Alabama, Mississippi, Louisiana and Texas, except the northern part of Texas and the drillings off-shore from the States named.

46. From all the evidence there emerges the fact that ground barite is an exceptionally important item in the drilling-mud industry in the Gulf Coast area, where geologic conditions produce high-pressure areas requiring the use of large amounts of barite to counteract those pressures in drilling operations. In the Mid-Continent area, the pressures encountered in well-drilling are relatively low, and the use of barite in that area is therefore only a minor factor.

47. The Commission’s survey establishes that sales of ground barite to end users for oil-well drilling, for the period from 1954 through 1958, were distributed as follows:

<table>
<thead>
<tr>
<th>Percent of Total of U.S. Sales Attributable to Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>-------------</td>
</tr>
<tr>
<td>Gulf Coast</td>
</tr>
<tr>
<td>Mid-Continent</td>
</tr>
<tr>
<td>Rocky Mountain</td>
</tr>
<tr>
<td>West Coast</td>
</tr>
<tr>
<td>Other States</td>
</tr>
<tr>
<td>Total</td>
</tr>
</tbody>
</table>

48. The evidence shows that the respondents herein and their leading competitor, National Lead Company, are, and for many years have been, the two foremost sellers of ground barite for oil-well-drilling purposes in the United States, and that in the years 1956, 1957 and 1958, they sold between 93% and 95% of their production of such product in the area along the Gulf Coasts of Louisiana and Texas.
49. There is some evidence in the record relevant to the sale of barite for other purposes than that of oil-well drilling, but such evidence is not of sufficient economic importance to be significant in this proceeding.

50. The evidence shows further that the production and sale of ground barite for oil-well-drilling purposes constitutes in itself a separate, specialized business; that barite ground for oil-well-drilling purposes must have certain characteristics, both as to chemical content and as to size of grind, peculiar to itself; that the product is sold to a distinct class of customers, and at a price depending upon services rendered, as well as quality of product and other factors. We must conclude, therefore, that the sale of ground barite to end users for oil-well-drilling purposes constitutes the appropriate "product market" for the purpose of evaluating the possible effect of the acquisitions involved in this proceeding.

51. Furthermore, as concerns the "geographical market" or "section of the country", we must conclude that, since from 87% to 90% of all ground barite for oil-well-drilling purposes is distributed in the Gulf Coast area, and since that is the area wherein the respondents herein and their leading competitor sold from 93% to 95% of the "line of commerce" in question, the Gulf Coast area is the relevant market economically significant in this proceeding.

52. Counsel supporting the complaint, in his proposed findings as to the facts, does not define "line of commerce" or "section of the country"; yet he asserts, correctly, that barite is used principally in oil-well drilling, barium chemical manufacturing, lithopone manufacturing, and glass manufacturing. Apparently he considers all four uses of barium as constituting four separate lines of commerce relevant herein. He also states that barite for oil-well-drilling purposes is sold in Gulf Coast, Mid-Continent, Rocky Mountain, West Coast and other areas. This would seem to indicate that he considers the entire United States as the relevant market for oil-well-drilling purposes. In connection with such contentions, we must observe that not a single customer or purchaser of barite for any use other than oil-well-drilling purposes was brought to the witness-stand in this proceeding. Furthermore, as far as the oil-well-drilling industry is concerned, almost all the testimony relates to the production and sale of ground barite for oil-well-drilling purposes in the Gulf Coast area. At only one hearing, held in Oklahoma City, Oklahoma, was any testimony heard from witnesses who sold ground barite outside the Gulf Coast area. There, three witnesses gave some testimony concerning their operations in the so-called "Mid-Continent" area, which was, in substance, to the effect that
barite was an unimportant, low-volume, low-profit item in the territory where they did business. Moreover, the statistics in the Commission's survey show that total sales of ground barite for oil-well-drilling purposes in the Mid-Continent, Rocky Mountain, West Coast and "Other States" areas were not "economically significant" within the rule of relevancy laid down in the Brown Shoe case, supra.

X. The Effect of the Challenged Acquisitions on the Sale of Barite in the Relevant Market

A. C.I.M.

53. The only customers in the United States who purchased crude barite from C.I.M. for oil-well-drilling purposes in the year prior to its acquisition by Magnet Cove were Milwhite and Magnet Cove. The record shows that Milwhite found other adequate sources of crude ore, both foreign and domestic, at satisfactory prices, immediately following the acquisition in question, and continued to compete as before, and even substantially to increase its share of the relevant market.

54. The record also shows that the grinding plants located in the relevant market area have, in the years following the acquisition of C.I.M. by Magnet Cove, received more than an adequate supply of crude barite, so that a considerable stockpile has been built up. All ore for oil-well-drilling purposes produced by the C.I.M. plant, both before and after its acquisition by Magnet Cove, has always been shipped to the Gulf Coast area. Accordingly, we must conclude that the acquisition of the assets of C.I.M. by Magnet Cove did not have any adverse effect upon the supply of crude barite to grinding plants capable of serving the relevant market. C.I.M. was never a competitor of Magnet Cove, and there is no evidence to warrant the assumption that it was ever a potential competitor.

B. Old Superbar

55. Prior to Magnet Cove's acquisition of Old Superbar in 1957, it was not in competition with Magnet Cove in the sale of barite to end users in the oil-well-drilling industry. The record shows that Old Superbar sold barite to only three customers engaged in the sale of ground barite to that industry, namely, Magnet Cove, Milwhite, and Bass Sales Company. In 1956 approximately 90% of Old Superbar's production was sold to those three customers, in amounts as follows:

<table>
<thead>
<tr>
<th>Company</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bass Sales Company</td>
<td>3,700</td>
</tr>
<tr>
<td>Milwhite</td>
<td>21,555</td>
</tr>
<tr>
<td>Magnet Cove</td>
<td>67,957</td>
</tr>
</tbody>
</table>
The remaining 10% of Old Superbar's production was sold for uses other than that of oil-well drilling.

56. The testimony of E. D. Schultz indicates that the Bass Sales Company had suffered a net loss in 1956, and was being operated by a creditors' committee in early 1957. Under these circumstances, its going out of business in 1957 cannot be attributed to the acquisition in question.

57. The evidence shows that Milwhite had other sources of supply so abundant that the effect of the acquisition upon its business was negligible. Moreover, the record shows that there was an ample supply of ground barite available in the relevant market, and that sellers of that product, other than respondents herein and National Lead, materially increased their respective shares of the market in the years immediately following the acquisition. The record clearly shows keener competition existing in the sale of ground barite to oil-well-drilling companies in the relevant market since the acquisition, than before it.

C. J. R. Dellinger

58. The property acquired by Magnet Cove from J. R. Dellinger on September 18, 1955, contained in all an estimated 43,000 tons of crude barite reserve. Before the acquisition, Dellinger sold relatively small quantities of barite to National Lead and to Old Superbar. The acquisition of the Dellinger property is of such relative unimportance as scarcely to warrant comment. Mr. Dellinger now holds newly-discovered barite reserves of substantial importance in Georgia.

D. H. A. Wolf

59. The property acquired from H. A. Wolf consists of a barite washing plant and barite reserves of 120,000 tons. The total barite production from the Wolf property during the two years before its acquisition by Magnet Cove was 6,538 tons in 1954 and 6,382 tons in 1955. In 1954, all of its sales were to National Lead, Superbar and Milwhite. Thus the only customers of Wolf for barite to be used ultimately in oil-well drilling were National, Superbar, and Milwhite, and the record shows that no source of supply of crude or ground barite was in fact denied to independent mud companies by reason of the challenged acquisition.

E. General Discussion

60. The substantial changes in the market shares held by respondents and their competitors during the period 1954 through
1958, based upon the Commission's survey, are graphically portrayed by the following tabulation:

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Magnet Cove Barium Corporation</td>
<td>46.37</td>
<td>47.28</td>
<td>45.90</td>
<td>46.85</td>
<td>44.71</td>
</tr>
<tr>
<td>National</td>
<td>40.72</td>
<td>35.94</td>
<td>35.05</td>
<td>36.86</td>

<td>100.00</td>
<td>100.00</td>
<td>100.00</td>
<td>100.00</td>
</tr>
</tbody>
</table>

61. At the request of counsel for respondents, subpoenas were issued and served in January, 1962, on all the companies other than National and Dresser Industries which were known to be selling ground barite for oil-well-drilling purposes in the Texas and Louisiana Gulf Coast areas. Thereafter, pursuant to agreement between counsel, stipulated testimony was received concerning the production of barite for the years 1959 through 1961, subsequent to the Commission’s survey. Based upon this testimony, and upon exhibits showing the sales of National and Dresser Industries in the two areas mentioned, an analysis of the competitive trend in the relevant market subsequent to the Commission's survey reveals that the two oldest sellers of ground barite, National and Magnet Cove, have declined steadily from 1959, and now hold considerably less than the respective market shares they held in the Gulf Coast area as a whole prior to the challenged acquisitions; while the market share of the relatively new independent organizations in the Texas and Louisiana segment of the relevant market has increased more than threefold, from slightly over 6% in 1959 to 20.6% in 1961, as follows:

<table>
<thead>
<tr>
<th></th>
<th>1959</th>
<th>1960</th>
<th>1961</th>
</tr>
</thead>
<tbody>
<tr>
<td>Magnet Cove Barium Corp. (including Superbar Co., Superbar Mud Sales, Inc., and Giljen Oil Field Service, Inc.)</td>
<td>43.250</td>
<td>35.000</td>
<td>31.657</td>
</tr>
<tr>
<td>Independent mud companies</td>
<td>6.138</td>
<td>13.587</td>
<td>20.014</td>
</tr>
<tr>
<td>Total</td>
<td>100.00</td>
<td>100.00</td>
<td>100.00</td>
</tr>
</tbody>
</table>

62. The following tabulation illustrates the changes in market shares which have taken place from 1954 to 1961:
63. Counsel supporting the complaint, in his proposed findings, has presented the facts relative to the respondents' changing share of the market from 1954 through 1958 in a series of tabulations purporting to show that prior to the acquisitions in question and the restriction by Magnet Cove of its consignment distributorships, Magnet Cove's share of the market for ground barite sold to oil-well drillers was nil, and that from 1957 through 1958, Magnet Cove's share of the market rose steadily and substantially. Counsel appears to have reached this conclusion by treating the sales made by Magnet Cove's "consignment dealers" as sales made by independent competitors. Since the evidence clearly shows that Magnet Cove's consignment dealers were agents selling barite for and on behalf of Magnet Cove, never taking title thereto themselves, the conclusion proposed by counsel supporting the complaint is completely unrealistic.

64. It should be here observed that we are not now considering the justice or injustice of any hardship which may have been worked upon such dealers by the restriction of their employment as consignment dealers by Magnet Cove. Those who gave up their dealership were not, however, denied access to an adequate supply of barite; they could, and several did, elect to continue purchasing barite from Magnet Cove and from other sources, but as independent operators instead of as Magnet Cove's agents. In fact, far from restraining competition, Magnet Cove's restriction of its consignment dealerships actually created new potential competitors for itself.

XI. Changes in Competitive Techniques Since the Acquisitions

65. Respondents have always followed the practice of selling barite at a price which included both the barite sold and a technical engineering service to aid the well-driller in the efficient use of barite. Following the price reduction by Baroid in May 1958, competitive price concessions have not only continued, but have taken various forms. These price concessions include list prices
lower than Baroid's prices; discounts of from 5% to 10% off list prices; free delivery; discounts up to 15% on sales of barite without engineering service; and additional discounts based upon volume. Of all these practices, the one of selling barite without engineering service seems to have become the most prevalent.

XII. Conclusions

66. The record contains, as we have observed, not only statistics reflecting the market shares of the respective members of the industry, "the primary index of market power", but also evidence of "* * * its structure, history and probable future, * * *" which, together, constitute all the necessary factors "* * * for judging the probable anticompetitive effect to the merger".*

67. We have definitive evidence showing the actual market trend for almost five years immediately following the challenged acquisitions. The evidence shows clearly that the supply of domestic and imported crude barite was more than adequate to supply grinders serving the relevant market. The acquisitions by the respondents of the reserves of Old Superbar and those of Dellinger and Wolf constitute a very small fraction of the total demonstrated and inferred domestic barite reserves available to all purchasers in the relevant market. Moreover, evidence in the record proves conclusively that there exists an ample supply of imported crude barite available at a lower cost than domestic barite to grinders serving the relevant market.

68. Since the acquisitions, a number of new producers of crude barite, conveniently located to serve the relevant market, have availed themselves of the opportunity to enter it. Likewise, a substantial number of new grinders of barite, with a capacity greatly exceeding the current demand for their product, have also entered the relevant market. Clearly, therefore, the acquisitions here in question conferred upon respondents no substantial power to control prices, production, or sales of barite. On the contrary, the record indicates that price competition has grown keener each year since such acquisitions; the production and sales of barite by Magnet Cove's new competitors have increased substantially; and Magnet Cove's customers, particularly the large oil companies, have been buying more and more of their requirements of barite from such new competitors. In consequence, Magnet Cove's sales and share of the market have materially declined, and those of its competitors have proportionately increased.

---

* Footnote 38, Brown Shoe opinion, supra.
69. We must conclude, therefore, that the acquisitions in question have not tended substantially to lessen competition or to create a monopoly in the barite oil-well-drilling industry, and that there is no reasonable probability that they will have such an effect in the future. It follows that the challenged acquisitions have not resulted in any violation of either § 7 of the Clayton Act or § 5 of the Federal Trade Commission Act. Accordingly, It is ordered, That the complaint herein be, and the same hereby is, dismissed.

INITIAL DECISION BY ABNER E. LIPSCOMB, HEARING EXAMINER*

I. The Complaint

1. The complaint in this proceeding, issued on March 26, 1958, charges in the first of two counts that National Lead Company, hereinafter referred to as National, by the purchase in 1956 of the assets of two corporations and those of a partnership acquired substantial domination and control over the production, processing, buying and selling of barite, a mineral used in drilling oil wells, and that such acquisitions tended substantially to lessen competition or to create a monopoly in the sale of barite, in violation of § 5 of the Federal Trade Commission Act. The pertinent part thereof provides, as follows:

§ 5(a)(1) Unfair methods of competition in commerce, and unfair acts or practices in commerce, are hereby declared unlawful.

2. In the second count, the complaint charges that National's acquisition of the two corporations was made in violation of § 7 of the Clayton Act, of which the pertinent part provides, as follows:

That no corporation engaged in commerce shall acquire, directly or indirectly, the whole or any part of the stock or other share capital and no corporation subject to the jurisdiction of the Federal Trade Commission shall acquire the whole or any part of the assets of another corporation engaged also in commerce, where in any line of commerce in any section of the country, the effect of such acquisition may be substantially to lessen competition, or to tend to create a monopoly.

II. The Answer

3. In its answer, National denies substantially all of the material allegations of the complaint, except the fact of the acquisitions, and specifically denies any violation of either § 5 of the Federal Trade Commission Act or § 7 of the Clayton Act.

* Docket No. 7096.
III. Motions to Dismiss The Complaint

4. At the completion of the case-in-chief, counsel for respondent moved that the complaint herein be dismissed, contending that a *prima facie* case had not been established. Ruling on this motion was deferred until the issuance of the initial decision herein. After the presentation of rebuttal evidence, respondent renewed its motion on substantially the same grounds. The hearing examiner again deferred his ruling thereon until the issuance of this initial decision.

IV. The Issues

5. The principal issues progressively arising from the pleading and the provisions of the law invoked in the complaint may be stated as follows:

(1) What product constitutes the line or lines of commerce here involved?

(2) What is the relevant "section of the country" wherein competition in the sale of the product in question may be lessened as a result of the acquisitions herein challenged?

(3) Has the acquisition by respondent of the assets of the two corporations and the partnership here involved hindered and prevented competition, or is there a reasonable probability that it will restrain competition in the buying and selling of barite in commerce, and constitute unfair methods of competition and unfair acts and practices in commerce within the intent and meaning of § 5 of the Federal Trade Commission Act?

(4) Is there a reasonable probability that respondent's acquisition of the two corporations here involved may have the effect of substantially lessening competition or of tending to create a monopoly in the production and sale of barite, in violation of § 7 of the Clayton Act?

V. Hearings

6. Hearings were held at various places from 1959 to 1962, and the record thereof contains numerous exhibits and approximately 5,000 pages of testimony and other evidence.

VI. Proposed Findings

7. Opposing counsel submitted proposed findings as to the facts and proposed conclusions. All proposals have been considered by the hearing examiner, and those not incorporated herein, either verbatim or in substance, are hereby rejected.
8. The proposed findings and conclusions submitted by counsel supporting the complaint required special analysis. At the pre-hearing conference held herein in January 1959, counsel supporting the complaint moved that this proceeding and the proceeding in Docket 7095, Dresser Industries, Inc., et al., involving similar charges, be consolidated for purposes of trial. Since the Commission had issued separate complaints in these two proceedings, alleging illegal mergers different in size and apparent significance, against different respondents having different economic backgrounds and histories, in the barite industry, and because of the fact that the respondents in the two proceedings were each other's chief competitors, the consolidation of the two cases would, in our opinion, have been unfair to the respondents, and a joint trial inadequate to safeguard the public interest. Accordingly, the hearing examiner, in the course of justice, denied the motion for consolidation. From that denial, counsel did not appeal to the Commission.

9. On several occasions during the trial of this proceeding, counsel supporting the complaint renewed his efforts to have the two cases consolidated. All such requests were denied, for the same reasons upon which the first denial was based. Finally, in his order of January 28, 1962, designating the time for the filing of proposed findings as to the facts, the hearing examiner admonished counsel that:

Although both proceedings are concerned with mergers, and the effect thereof on commerce in the sale of barite, they are separate cases, and the evidence in each varies considerably from that in the other. These various factors require that each case be considered separately, and separately adjudicated.

In apparent disregard of the above directive, counsel supporting the complaint has submitted proposed findings in which he makes a further effort to consolidate the two cases and have issued one order, using the facts in one case to justify factual findings against the respondents in the other. For example, he states:

* * * The effects of the acquisitions by each Respondent have heightened and reinforced the effects of the acquisitions by the other.

10. The Commission in Foremost Dairies, Inc., Docket 6495, and the Supreme Court in Brown Shoe Co. v. United States, 370 U. S. 294 (1960), interpreted the mandate of § 7 of the Clayton Act to mean that a given merger is prohibited only if there is proof that the effect of that particular merger may be substantially to lessen competition or tend to create a monopoly. Therefore, in our opinion, the adoption of any proposed findings, relying upon evidence in one proceeding to prove allegations in another pro-
ceeding not conjoined therewith, and not yet adjudicated, would clearly contravene the mandate of § 7 of the Clayton Act as interpreted by the Commission.

VII. Organization and Business of National

11. Respondent National was organized as a New Jersey corporation on December 8, 1891. At that time its principal business was the manufacture of white lead, linseed oil and kindred products. During the years it has become more and more diversified, until at the present time National manufactures over two hundred types of chemicals, metals and other products, which it sells to a number of industries, including railroads, automobiles, aircraft, electronics, paint, paper, plastics, furniture, construction, rubber, glass, chemicals and petroleum.

12. The Baroid Division of National produces and sells principally oil-well-drilling mud and other materials, including barite. Over the years from 1954 to 1958, the sales of the Baroid Division represented from 9% to 12% of the total consolidated sales of National. The net sales, net income, and total assets of National and its consolidated subsidiaries for the years 1950, 1956 and 1958 were as follows:

<table>
<thead>
<tr>
<th></th>
<th>1950</th>
<th>1956</th>
<th>1958</th>

VIII. The Product Barite

14. Barite, the product with which we are here concerned, is the mineral barium sulphate (BaSO₄). It is found in hardrock formations, in veins, in massive deposits, and in residual deposits throughout clay or other sedimentary formations. It can be mined by various methods, including open-pit mining, underground mining, and even so-called hand mining, which is simply a pick-and-shovel method of securing surface deposits. This latter method has largely been discontinued.

15. The crude barite is generally washed to remove impurities, and then, when intended for use in oil-well drilling, is ground to
the fineness of powder. The most common specification for such grinding requires that 90% of the barite must pass through a sieve having 325 holes to the square inch. This grinding process may take place at a grinding mill where the product is mined, but more commonly is done at a grinding mill in the geographical area where the barite is to be used.

16. Barite has a variety of uses. In the past it has been used as a filler in paint, rubber, linoleum, and other products. Although some barite is still used for such purposes, in these uses it has largely been displaced by other substances. It is used today in the manufacture of barium chemicals and as a fluxing agent in the manufacture of glass. Most barite, however, is used in the composition of oil-well drilling muds. During the years 1954 through 1958, approximately 95% of all barite sold in the United States for all purposes was ground barite for use in oil-well drilling.

17. There are three principal grades of barite: drilling-mud barite, chemical barite, and glass barite. Drilling-mud barite, which is ground barite, must have a barium-sulphate content of from 90% to 92%, with a specific gravity of not less than 4.2, and an iron content of not more than 5%; and it should be relatively free of soluble salts. Chemical barite must be in lump form, with at least a 94% barium-sulphate content, and less than 1% of iron. Glass-grade barite must be at least 95% barium sulphate, with an iron content of less than 0.3%.

IX. The Drilling-Mud Industry and National’s History Therein

18. In drilling an oil well today, a variety of materials is mixed at the drilling rig to form what is known as drilling mud. This mixture is pumped into the well and circulated therein during the drilling operations. The drilling mud acts as a lubricant, cools the drill bit, and aids in carrying off the solids torn loose by the bit, and in sealing the area drilled through so that the circulating mud will not be lost into adjacent areas. The function of ground barite in the drilling mud is to increase the specific gravity thereof so that it will exert sufficient hydraulic pressure during the drilling operations to control and offset the contravening pressures in the well formation, caused by gas, salt water and oil. Approximately 30 years ago, before barite was used as a weighting agent in drilling mud, “blow-outs” and other expensive damage to the drilling rig and oil-bearing property were of much more frequent occurrence than they are now.

19. National first acquired an interest in barite in 1923, when it purchased all of the stock of National Pigments & Chemical Com-
pany of St. Louis, Missouri. This purchase was made in order to secure a permanent supply of barite for National's subsidiary, Titanium Pigment Company, which used barite for purposes with which we are not here concerned.

20. In 1926 the so-called Stroud Patent, covering the use of barite as a weighting agent in oil-well drilling, was issued to National's subsidiary, National Pigments & Chemical Company. It appears, however, that no great effort was made to develop a drilling-mud business until in 1929 a Mr. Ratcliffe became president of a California concern by the name of California Talc Company. That company, under Ratcliffe's leadership, began the promotion of a material competitive to barite, consisting of 95% barium sulphate and 5% bentonite (a colloidal clay), which was called "Plastiware".

21. As a result of Ratcliffe's efforts in California to promote his well-drilling mud, a controversy arose between him and National, in which National claimed that Ratcliffe's product infringed its Stroud Patent. The controversy was finally settled by the forming of a new company called "Baroid Sales Company of California", the stock of which was owned jointly by National and California Talc Company. During the depression years there was a further consolidation, and in 1936 the Baroid Sales Division of National was created in lieu of the former jointly-owned company, with Ratcliffe as its general manager. He continued in that position until his retirement in 1956.

22. In 1940, while National still had the protection of the Stroud Patent, its sales of ground barite for oil-well drilling in the United States amounted to 85.5% of the total sales of ground barite for that purpose in the domestic market. In 1943 the Stroud Patent expired, and since that time National's share of the barite market has suffered almost a steady decline.

23. According to the survey conducted by the Commission's staff, National's share of the total domestic market for barite used in oil-well drilling decreased from 41.3% in 1954 to 32.6% in 1958. National's share of that market, over the years, has decreased approximately 52.9% from its 85.5% share while the Stroud Patent was still in force.

24. The oil-well-drilling-mud industry today has become an important adjunct to the petroleum industry. On the Gulf Coast of Texas and Louisiana most wells over 9,000 or 10,000 feet deep require drilling mud containing barite. Drilling-mud technology has become highly specialized, and the respondent and other companies
Initial Decision

offer the services of trained specialists to oil-well drillers in connection with the sale of barite.

25. At the present time, the Baroid Division of National has barite mines in the following places:

- Fountain Farm, Washington County, Missouri;
- Elko County, Nevada;
- Greenough, Montana; and
- Sweetwater, Tennessee.

It also has barite grinding mills located as follows:

- Fountain Farm, Missouri;
- Magnit Cove, Arkansas;
- Merced, California;
- Greenough, Montana;
- Houston, Texas;
- Corpus Christi, Texas (built in 1953);
- Sweetwater, Tennessee (the L. A. Wood plant, acquired in 1956); and
- New Orleans, Louisiana (constructed in 1957).

X. The Challenged Acquisitions

A. L. A. Wood, Inc.

26. In May 1956, the Baroid Division of National acquired the barite properties of L. A. Wood, Inc., a corporation located at Sweetwater, Tennessee, including land, leases, three washers and a grinding plant. National paid to the shareholders of the purchased corporation the equivalent in National Lead stock of $2,000,000. The purchased property had been incorporated for only approximately two years at the time of the acquisition, but it had been operated by Mr. L. A. Wood as a barite mine for many years prior thereto.

27. National acquired the properties of L. A. Wood, Inc., in the expectation that they might have a reserve of available barite of about a million tons. Later prospecting and exploration, however, revealed that the reserve was no more than approximately 400,000 tons.

28. L. A. Wood, Inc., had sold crude barite to such customers as barium chemical manufacturers, glass manufacturers, and local contracting companies, and was engaged in commerce. In addition, it had sold ground barite to only one customer, Milwhite Mud Sales Company, a competitor of National's Baroid Division, engaged in the sale of barite and drilling muds to well-drilling companies.

29. In 1954, two years prior to the acquisition, L. A. Wood, Inc.'s total production was only 8,114 ton of barite, and of that amount
only 3,359 tons consisted of ground barite, all of which was sold to Milwhite Mud Sales Company. In 1955 the total production was 21,847 tons of barite, of which 12,728 tons were sold to Milwhite Mud Sales Company.

30. L. A. Wood, Inc., was not a competitor of National, although it supplied ground barite to one of National's competitors.

31. Barytes Mining Company

In August 1956, National acquired the assets of Barytes Mining Company, a corporation owning 412 acres of land about fifteen miles from Potosi, Missouri, and a small, old washing plant. National paid for this property with its own stock to a value of approximately $334,750. The controlling stockholders of this purchased property were Albert A. Wood and his father, L. A. Wood, who, in effect, had sold the other property previously discussed to National.

32. Barytes Mining Company produced only crude barite, and, with the exception of an insignificant amount sold elsewhere, it sold its entire production of crude barite exclusively to a single customer, Chicago Copper & Chemical Company, for the manufacture of barium chemicals, at a price ranging from $16.50 to $17.00 per ton f.o.b. Potosi, Missouri. It was engaged in commerce. None of its production was sold for ultimate use in well-drilling. The company's 1954 production was 9,067 tons of barite, and its 1955 production was 10,573 tons of barite.

33. Prior to 1956 Finlen & Sheridan Mining Company was a partnership owning and operating a barite mine and grinding mill in Greenough, Montana. Prior to the organization of the mining partnership, Finlen and Sheridan was a firm of contractors in the State of Montana, engaged in heavy construction and in earth-moving work. They discovered a barite deposit in Greenough, Montana, in the early 1950s, and having no experience in the mining and processing of barite, they communicated with the Baroid Division of National in an attempt to secure aid in the development of the discovered deposit. The Baroid Division assisted the partnership in the development of the mine, and subsequently in the design, construction and operation of a small grinding mill erected to produce ground barite. A contractual arrangement was entered into, the details of which are not here important.

34. During the years from 1953 through 1956, the partnership sold its ground barite only to National's Baroid Division, and, in
addition, sold some crude barite to some customers not engaged in the drilling-mud industry. The partnership was engaged in commerce. In June 1956, they sold the mine and mill to National for $400,000. At the time of this acquisition the estimated reserves of barite were only 32,350 tons. In 1954 the partnership produced 10,924 tons of crude barite; in 1955, 14,000 tons; and in 1956, prior to National’s acquisition of the partnership’s assets, 9,964 tons.

XI. The Relevant Market

35. In its recent decision in the Brown Shoe case, supra, the Supreme Court prescribed a formula for determining the “line of commerce,” as meant by § 7 of the Clayton Act, which may be adversely affected by a merger. According to that formula, the “line of commerce,” as expressed by the Court, the “product market,”

* * * may be determined by examining such practical indicia as industry or public recognition of the submarket as a separate economic entity, the product’s peculiar characteristics and uses, unique production facilities, distinct customers, distinct prices, sensitivity to price changes, and specialized vendors.

36. The Supreme Court, likewise, prescribed a formula for determining the “section of the country” or “geographic market” within the meaning of § 7 of the Clayton Act, as follows:

The criteria to be used in determining the appropriate geographic market are essentially similar to those used to determine the relevant product market. * * * The geographic market selected must, therefore, both “correspond to the commercial realities” of the industry and be economically significant. Thus, although the geographic market in some instances may encompass the entire Nation, under other circumstances it may be as small as a single metropolitan area.

Such commercial realities should include, we believe, all the factors affecting the distribution and sale of the relevant product.

37. In the conduct of its survey of the barite industry and markets, the Commission’s staff assembled figures with respect to the sale of barite for a number of end uses. The companies responding to the survey were asked to segregate their sales of barite to oil-well-drilling companies who use only ground barite; their sales to barium chemical manufacturers who use principally crude barite; their sales to glass manufacturers who use principally crushed barite in a size between crude and ground; their sales to lithopone manufacturers who use principally crude barite; and their sales to “other users,” including crude, crushed and ground barite.

38. The evidence establishes that during the years 1954 through
1958, the sale of ground barite for oil-well-drilling uses represented between 84.4% and 87.7% of all barite in all forms sold in the United States for all purposes.

39. In assembling its statistics on the sale of ground barite for oil-well-drilling uses, the Commission's staff divided the continental United States into five geographical areas, designated as the Gulf Coast area, the Mid-Continent area, the Rocky Mountain area, the West Coast area, and the "Other States" area, and called upon the responding companies to segregate the area in which their sales of ground barite for oil-well-drilling use were made. The Gulf Coast area was defined, for the Commission's survey purposes, as including the States of Florida, Georgia, Alabama, Mississippi, Louisiana and Texas, except the northern part of Texas and the drillings off-shore from the States named.

40. From the evidence there emerges the fact that ground barite is an exceptionally important item in the drilling-mud industry in the Gulf Coast area, where geologic conditions produce high-pressure areas requiring the use of large amounts of barite to counteract those pressures in drilling operations. In the Mid-Continent area, the pressures encountered in well-drilling are relatively low, and the use of barite in that area is therefore only a minor factor.

41. The Commission's survey establishes that sales of ground barite to end users for oil-well drilling, for the period from 1954 through 1958, were distributed as follows:

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>

</tbody>
</table>

42. The evidence shows that the respondent herein and its leading competitor, Magnet Cove Barium Corporation, are, and for many years have been, the two foremost sellers of ground barite for oil-well-drilling purposes in the United States, and that in the years 1956, 1957 and 1958, they sold between 93% and 95% of their production of such product in the area along the Gulf Coasts of Louisiana and Texas.
43. There is some evidence in the record relevant to the sale of barite for other purposes than that of oil-well drilling, but such evidence does not develop the economic importance of these other uses sufficiently to be significant in this proceeding.

44. The evidence shows further that the selling of ground barite for oil-well-drilling purposes constitutes in itself a separate, specialized business; that barite ground for oil-well-drilling purposes must have certain characteristics, both as to chemical content and as to size of grind, peculiar to itself; that the product is sold to a distinct class of customers, and at a price depending upon services rendered, as well as quality of product and other factors. We must conclude, therefore, that the selling of ground barite to end users for oil-well-drilling purposes constitutes the appropriate "product market" for the purpose of observing the possible effect of the mergers involved in this proceeding.

45. Furthermore, as concerns the "geographical market" or "section of the country," we must conclude that, since from 87.2% to 92.3% of all ground barite for oil-well-drilling purposes is distributed in the Gulf Coast area, as defined in the Commission's survey, and since that is the area wherein the respondent herein and its leading competitor sold from 93% to 95% of the "line of commerce" in question, the Gulf Coast area is the relevant market economically significant in this proceeding.

46. Counsel supporting the complaint, in his proposed findings as to the facts, does not define "line of commerce" or "section of the country;" yet he asserts correctly that barite is used principally in oil-well drilling, barium chemical manufacturing, lithopone manufacturing, and glass manufacturing. Apparently he considers all four uses of barium as constituting four separate lines of commerce relevant herein. He also states that barite for oil-well-drilling purposes is sold in Gulf Coast, Mid-Continent, Rocky Mountain, West Coast and other areas. This would seem to indicate that he considers the entire United States as the relevant market for oil-well-drilling purposes. In connection with such contentions, we must observe that not a single customer or purchaser of barite for any use other than oil-well-drilling purposes was brought to the witness-stand in this proceeding. Furthermore, as far as the oil-well-drilling industry is concerned, almost all the testimony relates to the production and sale of ground barite for oil-well-drilling purposes in the Gulf Coast area. At only one hearing, held in Oklahoma City, Oklahoma, was any testimony heard from witnesses who sold ground barite outside the Gulf Coast area.
There, three witnesses gave some testimony concerning their operations in the so-called “Mid-Continent” area, and the substance of their testimony was that barite was an unimportant, low-volume, low-profit item in the territory in which they did business. Moreover, the statistics assembled through the Commission’s survey show that total sales of ground barite for oil-well-drilling purposes in the Mid-Continent, Rocky Mountain, West Coast and “other states” areas were not “economically significant” within the rule of relevancy laid down in the Brown Shoe case, supra.

XII. Crude Barite Available To Grinders
Supplying The Relevant Market

A. Domestic Barite

47. The record shows that the grinding plants supplying the Gulf Coast area with barite obtain their ore from various States, including Missouri, Arkansas, Tennessee, Kentucky, Georgia, Texas and New Mexico.

48. In 1958 the Geologic Survey of the United States Department of the Interior estimated the “demonstrated” and “inferred” reserve of barite ore throughout the United States. Demonstrated reserves were defined as those that can be exploited under present technological and economic conditions, while inferred reserves were defined as the potential amount of ore that must await more favorable economic conditions or new techniques of mining. According to that survey, the estimates as of 1958 for the States of Arkansas, Missouri and the Southeaster States, Georgia, Tennessee, North Carolina and South Carolina, all of which are available as sources of supply for the Gulf Coast area, showed demonstrated barite reserves of 39,200,000 tons, and demonstrated and inferred reserves of 86,700,000 tons.

49. Witness Edward Eversole of Milwhite Mud Sales Company, long experienced in Missouri barite production, estimated, or rather, as he termed it, made a “guesstimate”, that the Missouri field contained between 40,000,000 and 60,000,000 tons of reserve barite. In reality, this witness’ “guesstimate” was the considered estimate of an expert in the field.

50. Dr. Garrett A. Muilenburg, another expert in the mining of barite, estimated that the total barite reserves in Missouri were in excess of 27,000,000 tons.
B. Imported Barite

51. The record establishes that during the period from 1954 through 1958, crude barite ore was supplied to the Gulf Coast area from Mexico, Canada, Greece, Yugoslavia, Peru, Italy and, more recently, Spain and Morocco. The Commission's survey shows foreign ore receipts at Gulf Coast grinding plants as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Tons</th>
</tr>
</thead>
<tbody>
<tr>
<td>1954</td>
<td>295,200</td>
</tr>
<tr>
<td>1955</td>
<td>333,463</td>
</tr>
<tr>
<td>1956</td>
<td>552,213</td>
</tr>
<tr>
<td>1957</td>
<td>822,667</td>
</tr>
</tbody>
</table>

52. In 1958, the receipts of foreign ore, for well-drilling purposes only, at Gulf Coast grinding plants declined to 529,857 tons when well-drilling and barite sales declined generally. That amount, however, still slightly exceeded the total domestic production of 515,520 tons for all uses in all areas in the United States.

53. The Milwhite Mud Company, a grinder of barite which, during the survey period of 1954 through 1958, cured and ground as much as 98,000 tons of barite in a single year, received most of such barite from foreign sources. Counsel supporting the complaint has stated that this company, the third-largest engaged in the mud business, "must rely almost wholly on the caprices of import". But witness Max Miller, president of Milwhite, testified that his reason for relying so heavily on foreign barite ore was as follows:

It can be secured cheaper on a world market. That is, it can be delivered to the ultimate point of use cheaper in buying from the world market than it can from mining any reserves in this country that we know about.

54. Witness Eversole of the Milwhite Mud Company explained that the importation of foreign ore adversely affected and depressed the demand for Missouri ore. When he testified in 1960, his estimate was that foreign ore processed in the Gulf Coast area was being supplied in that area at a cost of from $2.50 to $4.00 per ton less than the laydown cost of Missouri ore.

C. Production of Barite by the Acquired Companies, Compared to the Total Supply Available for the Relevant Market

55. We find that the reserves of barite acquired by the respondent from L. A. Wood, Inc. were approximately 400,000 tons, and those acquired from Barytes Mining Company were approximately
195,000 tons. We conclude, therefore, that the L. A. Wood, Inc. acquisition was equal to approximately 1.02% of the total demonstrated domestic reserves available for the relevant market, and 0.46% of the total inferred and demonstrated reserves available for that market. Similarly, we conclude that the Barytes Mining Company acquisition was equal to 0.49% of the total demonstrated domestic reserves available for the relevant market, and 0.22% of the total demonstrated and inferred reserves for that market.

56. A comparison of the respective production of L. A. Wood, Inc. and Barytes Mining Company with the total barite production in Arkansas, Missouri, Tennessee and Georgia (the principal states supplying the relevant market), plus foreign barite ore received at the Gulf Coast grinding plants in 1954 and 1955, the two years immediately preceding the acquisitions, shows the following:

<table>
<thead>
<tr>
<th></th>
<th>1954</th>
<th>1955</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total barite production in Arkansas, Missouri, Tennessee, and Georgia</td>
<td>779,245</td>
<td>947,998</td>
</tr>
<tr>
<td>Foreign crude barite ore received at Gulf Coast grinding plants</td>
<td>295,200</td>
<td>333,413</td>
</tr>
<tr>
<td>Totals</td>
<td>1,074,446</td>
<td>1,281,411</td>
</tr>
<tr>
<td>Barite production of L. A. Wood, Inc.</td>
<td>8,114</td>
<td>21,847</td>
</tr>
<tr>
<td>Barite production of Barytes Mining Co.</td>
<td>9,067</td>
<td>30,379</td>
</tr>
</tbody>
</table>

57. Barytes Mining Company supplied no crude ore to any grinding plants. L. A. Wood, Inc., supplied its own grinding plants with 3,359 tons of crude ore in 1954 and 12,768 tons in 1955. The total receipts of ore at grinding plants serving the Gulf Coast were 918,093 tons in 1954 and 1,105,248 tons in 1955. L. A. Wood, Inc., thus supplied 0.37% in 1954 and 1.16% in 1955 of all crude ore received at such grinding plants in those two years.

58. The evidence of record compels the factual conclusion that the relatively small amount of barite produced by the two corporations acquired by respondent was not enough to have a substantial or significant effect on the economic situation in the relevant market. Furthermore, since the property acquired from the partnership, Finlen & Sheridan Mining Company, was sold outside the scope of the relevant market, no further reference will be made to it.

D. Availability of Barite Ore to New Entrants to the Relevant Market

59. Since 1956, the date of the challenged acquisitions, nine new grinders have entered the barite industry in the relevant market.
The evidence shows that all but two of these grinders have established for themselves some adequate domestic source of crude ore, the other two new entrants being engaged in custom grinding only. The survey returns of five of these new entrants, namely, Hayes-Sammons, International Minerals, Arcobar, Oil Bar, and American Colloid Oil, established that during the survey period, 1954 through 1958, each of them, without exception, obtained more crude ore than was ground by or for it during the period for which it reported. In other words, they did not suffer any shortage of domestic crude barite ore.

60. Witnesses from two of the new-entrant grinders, Hayes-Sammons and International Minerals, testified to difficulty in obtaining supplies of domestic crude barite. Their testimony, however, indicates that their chief problem was not inability to procure crude barite, but inability to procure it at the price they wanted to pay. We believe that this latter fact with respect to price largely nullifies the significance of this testimony.

61. According to the Commission’s survey, from 1956 through 1958 fifteen companies entered the industry as barite producers in States available to supply the relevant market.

62. Over the past few years, independent producers in both Missouri and Tennessee have had crude ore which they have been unable to sell, and some producers have had to maintain stockpiles.

63. We must, therefore, conclude that the acquisitions here in question have had no appreciable adverse effect upon the supply of crude barite available in the relevant market.

XIII. Effect of Merger on Sources of Ground Barite for Relevant Market

64. All ground barite used in oil-well drilling in the Gulf Coast area during the period covered by the Commission’s survey (1954-1958) was, with insignificant exceptions, supplied by grinding plants located in the States of Arkansas, Georgia, Louisiana, Mississippi, Missouri, New Mexico, Tennessee and Texas.

65. Prior to 1940, there were two barite-grinding companies capable of supplying sellers of ground barite in the relevant market: Respondent herein, and Thomas, Weinman & Company. By 1956, eight companies, operating nineteen grinding plants, were supplying the relevant market’s demand of 1,344,000 tons of ground barite. By 1958, the number of barite-grinding companies had increased to twelve, with 29 grinding plants, supplying a decreased demand of less than 950,000 tons. In 1961, three new companies entered.
this market, making fifteen companies, operating 32 grinding plants, supplying a demand of 906,345 tons of ground barite in the relevant market.

66. One of the corporations acquired by respondent, Barytes Mining Company, was not a barite grinder. Accordingly, in determining the importance of the acquired corporations as sources of ground barite for the relevant market, consideration need be given only to L. A. Wood, Inc., the other corporation acquired by respondent.

67. L. A. Wood, Inc., supplied ground barite to one customer only: Milwhite Mud Sales Company. In 1955, one year before the challenged acquisition, L. A. Wood’s sales of ground barite to its single customer amounted only to 12,768 tons, which represents only an approximate 1% of the total tonnage of ground barite (1,102,765 tons) sold in the relevant market in 1955.

68. At the time of its acquisition of L. A. Wood, respondent offered to contract with Milwhite Mud Sales for a continued supply of barite from the L. A. Wood properties. Milwhite Mud Sales, however, declined this offer, and thereafter procured its barite from other sources.

69. The foregoing facts compel the conclusion that there has been active and increasing competition in the sale of ground barite in the relevant market since the challenged acquisitions, despite the fact that the demand for this product in this market has substantially decreased year by year. The acquisitions, therefore, can obviously have had no adverse effect upon competition in the sale of ground barite in the relevant market.

XIV. Sale of Ground Barite in the Relevant Market—Effect of the Acquisitions

70. In 1940, while National, the industry’s pioneer in the use of barite for oil-well-drilling purposes, still held its protective patent on that product, it had 85% of all the sales of ground barite for oil-well-drilling purposes. Following the expiration of the patent rights in 1943, National experienced a steady decline in its share of the market. This early decline was related to the eminence of Magnet Cove Barium Corporation, the whollyowned subsidiary of Dresser Industries, and Milwhite Mud Sales Company.

71. The substantial changes in the market shares held by the respondent and its competitors during the period 1954 through 1956, based upon the Commission’s survey, are graphically portrayed by the following tabulation:
72. At the request of counsel for National, subpoenas were issued and served in January 1962, on all the companies other than National and Dresser Industries which were known to be selling ground barite for oil-well-drilling purposes in the Texas and Louisiana segment of the Gulf Coast area, the portion of the relevant market wherein approximately 90% of all sales of that product had been made. Thereafter, pursuant to agreement between counsel, stipulated testimony was received concerning the production of barite during 1959 through 1961, subsequent to the Commission's survey. Based upon these stipulations and upon exhibits showing the sales of National and Dresser Industries in the Texas and Louisiana segment of the Gulf Coast area, an analysis of the competitive trend reveals that in that area, since 1950, the sales of the two oldest producers of ground barite, National and Magnet Cove, have declined steadily, and these two companies now hold considerably less than the respective market shares they held in the Gulf Coast area as a whole in 1956, the year of the challenged acquisitions; while the market share of the independent, relatively new entrants in the Texas and Louisiana segment of the relevant market has increased more than threefold, from slightly over 6% in 1959 to 20.6% in 1961, as follows:

<table>
<thead>
<tr>
<th></th>
<th>1959</th>
<th>1960</th>
<th>1961</th>
</tr>
</thead>
<tbody>
<tr>
<td>Magnet Cove Barium Corp. (including Superior Co., Superior Mud Sales, Inc., and Gillen Oil Field Services, Inc.)</td>
<td>43,220</td>
<td>35,070</td>
<td>31,357</td>
</tr>
<tr>
<td>National Lead Company</td>
<td>26,782</td>
<td>29,223</td>
<td>28,025</td>
</tr>
<tr>
<td>Milwite Mud Sales Co</td>
<td>21,032</td>
<td>21,830</td>
<td>18,764</td>
</tr>
<tr>
<td>Independent mud companies</td>
<td>16,125</td>
<td>18,587</td>
<td>20,014</td>
</tr>
<tr>
<td>Total sales</td>
<td>100,000</td>
<td>100,000</td>
<td>100,000</td>
</tr>
</tbody>
</table>

73. The record establishes that as of 1961, there were thirteen companies, exclusive of the three largest companies in the field, National, Magnet Cove and Milwite Mud, selling ground barite in the combined Texas and Louisiana Gulf Coast areas, only one of which had made any direct sale of ground barite anywhere in
the entire Gulf Coast area prior to 1957. Taken as a group, these
new entrants into the market had sold not a single ton of ground
barite in 1956, but their aggregate sales, by 1961, had reached a
total of 186,831 tons, or approximately 20.6% of the relevant
market.

74. The following tabulation illustrates the approximate changes
in market shares which have taken place from 1954 to 1961:

<table>
<thead>
<tr>
<th></th>
<th>Entire gulf coast area</th>
<th>Louisiana-Texas segment of gulf coast area—1961</th>

<td>46.57</td>
<td>46.50</td>
</tr>
<tr>
<td>Malwhite Mad</td>
<td>10.49</td>
<td>14.27</td>
</tr>
<tr>
<td>Independent mud companies</td>
<td>2.61</td>
<td>2.15</td>
</tr>
</tbody>
</table>

75. Counsel supporting the complaint has presented the facts
relative to respondent's changing share of the market through the
years 1954 to 1958 very differently from the findings made above.
In a series of tabulations in his proposed findings, he purports
to show that prior to the acquisitions in question and the cancellation
by National of its consignment distributorships, National's share
of the market for ground barite sold to oil-well drillers was nil, and
that from 1957 through 1958, National's share of the market rose
steadily and substantially. Counsel appears to have reached this
conclusion by treating the sales made by National's "consignment
dealers" as sales made by independent competitors. Since the
evidence clearly shows that National's consignment dealers were
agents selling barite for and on behalf of National, never taking
title thereto themselves, the conclusion proposed by counsel sup-
porting the complaint is completely unrealistic.

76. It should be here observed that we are not now considering
the justice or injustice of any hardship which may have been worked
upon such dealers by the discontinuance of their employment as
consignment dealers by National. They were not, however, denied
access to an adequate supply of barite; they could, and several
did, elect to continue purchasing barite from National and from
other sources, but as independent operators instead of as National's
agents. In fact, far from restraining competition, National's dis-
continuance of its consignment dealerships actually created new
potential competitors for itself. More detailed discussion of this
factual situation follows.
XV. Changes in Competitive Techniques Since the Acquisitions

77. In 1956, 1,843,986 tons of ground barite were sold in the relevant market, more than in any year before or since. In 1956 a “seller's market” prevailed. By 1958, however, reduced activity in oil-well drilling had resulted in a decline in the demand for barite to 934,182 tons, or 400,000 tons less than the peak year.

78. According to the testimony of officials of respondent, National, in an effort to meet rising competition and in order to justify the lowering of its price for barite, announced in May of 1958, that it would terminate its consignment-distributor arrangement by which it had previously sold its barite in the relevant market, and would institute a system of “Baroid-owned” stores and warehouses through which direct sales would be made to oil-well drillers. National's distributors were permitted, at their option, either to terminate their contracts immediately, or to continue them in force for as long as six or seven months. At least four of these distributors subsequently became independent competitors of respondent.

79. Respondent has always followed the practice of selling barite at a price which included both the barite sold and a technical engineering service to aid the well-driller in the efficient use of barite. Following the price reduction by Baroid in May, 1958, competitive price concessions have not only continued, but have taken various forms. These price concessions include list prices lower than Baroid's prices; discounts of from 5% to 10% off list prices; free delivery; discounts up to 15% on sales of barite without engineering service; and additional discounts based upon volume. Of all these practices, the one of selling barite without engineering service seems to have become the most prevalent. This practice, and the resulting difference of price between respondent’s price, which included such service, and certain of its competitors’ prices, which did not, is shown by the following tabulation:

<table>
<thead>
<tr>
<th>Baroid competitor</th>

298  FEDERAL TRADE COMMISSION DECISIONS

Initial Decision 63 F.T.C.

80. It appears that the “sales without service” technique employed by the new barite companies, together with National’s refusal to adopt that technique itself and lower its sales prices accordingly, far from lessening competition in the relevant market, has actually stimulated and even generated it.

XVI. Conclusions

81. The record contains, as we have observed, not only statistics reflecting the market shares of the respective members of the industry, “* * * the primary index of market power;* * *”, but also evidence of “* * * its structure, history and probable future,* * *”, which, together, constitute all the necessary factors “* * * for judging the probable anticompetitive effect of the merger.”

82. These statistics reveal that respondent, as a result of its pioneer efforts in developing a much-needed drilling mud, was granted a patent on barite for this use, which, for seventeen years, secured to respondent a legal monopoly. Upon the expiration of the patent, in 1943, respondent’s share of the market began to decline, and has since consistently and steadily continued to decline, as new companies availed themselves of the opportunity to enter the barite market. Clearly, therefore, the acquisitions here in question conferred upon respondent no substantial power to control prices, production, or sales of barite. On the contrary, the record indicates that price competition has grown keener each year since the mergers; that the production and sales of barite by National’s new competitors have increased substantially; and that National’s customers particularly the large oil companies, have been buying more and more of their requirements of barite from such new competitors, and, in consequence, National’s sales and share of the market have materially declined, and those of its competitors have proportionately increased.

83. We must conclude, therefore, that the acquisitions in question have not tended substantially to lessen competition nor to create a monopoly in the barite oil-well-drilling mud industry, and that there is no reasonable probability that they will have such an effect in the future. Therefore, the challenged acquisitions have not resulted in any violation of either § 7 of the Clayton Act or § 5 of the Federal Trade Commission Act, and the Respondent’s motions to dismiss the complaint should be granted. Accordingly,

*Footnote 35, Brown Shoe opinion, supra.
ORDER DISMISSING COMPLAINTS AND VACATING INITIAL DECISIONS

These two, separate matters are before the Commission on the appeal of counsel supporting the complaints from the hearing examiner’s initial decisions dismissing both complaints.

The complaints charged the respondent barite producing and selling corporations with having made acquisitions of other corporations and companies in the barite industry in violation of Section 5 of the Federal Trade Commission Act and Section 7 of the Clayton Act. Both complaints were issued on March 26, 1958. After extensive hearings, the hearing examiner filed initial decisions dismissing both complaints on October 26, 1962, concluding (1) that the acquisitions had not tended substantially to lessen competition or to create a monopoly in the line of commerce consisting of the production and distribution of barite for use in the oil-well-drilling industry and, (2) that there is no reasonable probability that the acquisitions will have such an effect in the future.

The Commission has reviewed the evidence and considered the arguments of the parties and has concluded that dismissal of both complaints is proper. The Commission, however, does not consider the hearing examiner’s initial decisions appropriate in all respects and does not adopt them as the decisions of the Commission.

The Commission is keenly aware of, and very much concerned about, the very high degree of concentration in the barite industry demonstrated by the evidence of record in these proceedings. In this connection, the records reflect that in 1961 respondents and the third largest competitor had a combined market share of 70.4 percent of ground barite sold in the Texas and Louisiana Gulf Coast area, a significant section of the country. The records reveal the shares of Dresser-Magnet Cove and National Lead in this section in 1961 were 31.6 percent and 28 percent, respectively.

The degree of concentration in the barite industry was pronounced when these acquisitions took place, and the fact that there has been some decline occasioned by new entrants since the acquisitions has not reduced the Commission’s concern over the future trend of competition in this industry. In an industry as concentrated as this, the importance of preventing even slight increases in concentration is great. See United States v. Philadelphia National Bank, et al., 374 U.S. 321, 365, n. 42 (1963).

With only three firms accounting for 79.4 percent of the market in 1961, concentration in the barite industry has reached impressive proportions strongly suggesting that any future acquisitions in this industry would raise questions of utmost gravity.
The Commission has determined that the evidence of record in these proceedings does not provide a sufficient basis for issuance of divestiture orders with respect to the acquisitions challenged in the complaints. The Commission, however, believes that the public interest requires that it exercise close scrutiny of any similar future acquisitions made in this industry. Accordingly:

It is ordered, That the initial decisions of the hearing examiner be, and they hereby are, set aside.

It is further ordered, That the complaints be, and they hereby are, dismissed.

IN THE MATTER OF

VOGUE FURRIERS, INC., ET AL.

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE FEDERAL TRADE COMMISSION AND THE FUR PRODUCTS LABELING ACTS

Consent order requiring Asheville, N.C., furriers to cease violating the Fur Products Labeling Act by failing, in labeling, invoicing and advertising, to show the true animal name of fur, when fur was artificially colored and when “natural”; failing, in labeling and invoicing, to show the country of origin of imported furs; failing to use the term “Persian Lamb” in invoicing and advertising as required; in advertising in newspapers, falsely representing prices as reduced from so-called usual prices which were, in fact, fictitious, and misrepresenting the fur products as from the “Jay Thorpe collection”; failing to keep adequate records as a basis for pricing claims; and failing in other respects to comply with requirements of the Act.

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act and the Fur Products Labeling Act and by virtue of the authority vested in it by said Acts, the Federal Trade Commission having reason to believe that Vogue Furriers, Inc., a corporation, and Charles Grand and Reuben Grand, individually and as officers of said corporation, hereinafter referred to as respondents, have violated the provisions of said Acts and the Rules and Regulations promulgated under the Fur Products Labeling Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges in that respect as follows:

Paragraph 1. Respondent Vogue Furriers, Inc., is a corporation organized and doing business under and by virtue of the laws of the State of North Carolina.
Complaint

Respondents Charles Grand and Reuben Grand are officers of the corporate respondent and formulate, direct and control the acts, practices and policies of the said corporate respondent including those hereinafter set forth.

Respondents are retailers of fur products with their office and principal place of business located at 42 Haywood Street, Asheville, North Carolina.

Par. 2. Subsequent to the effective date of the Fur Products Labeling Act on August 9, 1952, respondents have been and are now engaged in the introduction into commerce, and in the sale, advertising and offering for sale in commerce, and in the transportation and distribution in commerce, of fur products; and have sold, advertised, offered for sale, transported and distributed fur products which have been made in whole or in part of furs which have been shipped and received in commerce, as the terms "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act.

Par. 3. Certain of said fur products were misbranded in that they were not labeled as required under the provisions of Section 4(2) of the Fur Products Labeling Act and in the manner and form prescribed by the Rules and Regulations promulgated thereunder.

Among such misbranded fur products, but not limited thereto, were fur products with labels which failed:

1. To show the true animal name of the fur used in the fur product.

2. To disclose that the fur contained in the fur product was bleached, dyed, or otherwise artificially colored, when such was the fact.

3. To show the country of origin of the imported furs contained in the fur product.

Par. 4. Certain of said fur products were misbranded in violation of the Fur Products Labeling Act in that they were not labeled in accordance with the Rules and Regulations promulgated thereunder in the following respects:

(a) The term "natural" was not used on labels to describe fur products which were not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored, in violation of Rule 19(g) of said Rules and Regulations.

(b) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was set forth in handwriting on labels, in violation of Rule 29(b) of said Rules and Regulations.
Complaint

Par. 5. Certain of said fur products were falsely and deceptively invoiced by the respondents in that they were not invoiced as required by Section 5(b)(1) of the Fur Products Labeling Act and the Rules and Regulations promulgated under such Act.

Among such falsely and deceptively invoiced fur products, but not limited thereto, were fur products covered by invoices which failed:

1. To show the true animal name of the fur used in the fur product.
2. To disclose that the fur contained in the fur product was bleached, dyed, or otherwise artificially colored, when such was the fact.
3. To show the country of origin of imported furs used in fur products.

Par. 6. Certain of said fur products were falsely and deceptively invoiced with respect to the name of the country of origin of imported furs used in such fur products, in violation of Section 5(b)(2) of the Fur Products Labeling Act.

Among such falsely and deceptively invoiced fur products but not limited thereto, were fur products covered by invoices which disclosed the name of the country of origin of the furs contained in such fur products as the United States, when the country of origin of such furs was, in fact, Russia.

Par. 7. Certain of said fur products were falsely and deceptively invoiced in violation of the Fur Products Labeling Act in that they were not invoiced in accordance with the Rules and Regulations promulgated thereunder in the following respects:

(a) Information required under Section 5(b)(1) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was set forth on invoices in abbreviated form, in violation of Rule 4 of said Rules and Regulations.

(b) The term “Persian Lamb” was not set forth on invoices in the manner required by law, in violation of Rule 8 of said Rules and Regulations.

(c) The term “natural” was not used on invoices to describe fur products which were not pointed, bleached, dyed, tip-dyed or otherwise artificially colored, in violation of Rule 19(g) of said Rules and Regulations.

(d) Information required under Section 5(b)(1) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was not set forth separately on invoices with respect to each section of fur products composed of two or more sections.
containing different animal furs, in violation of Rule 36 of said Rules and Regulations.

(e) Required item numbers were not set forth on invoices, in violation of Rule 40 of said Rules and Regulations.

Par. 8. Certain of said fur products were falsely and deceptively advertised in violation of the Fur Products Labeling Act in that certain advertisements intended to aid, promote and assist, directly or indirectly, in the sale and offering for sale of such fur products were not in accordance with the provisions of Section 5(a) of the said Act.

Among and included in the aforesaid advertisements but not limited thereto, were advertisements of respondents which appeared in issues of the Asheville Citizen Times, a newspaper published in the city of Asheville, State of North Carolina.

Among such false and deceptive advertisements, but not limited thereto, were advertisements which failed:

1. To show the true animal name of the fur used in the fur product.

2. To show that the fur contained in the fur product was bleached, dyed, or otherwise artificially colored, when such was the fact.

Par. 9. By means of the aforesaid advertisements and others of similar import and meaning not specifically referred to herein, respondents falsely and deceptively advertised fur products in violation of the Fur Products Labeling Act in that the said fur products were not advertised in accordance with the Rules and Regulations promulgated thereunder in the following respects:

(a) The term “Persian Lamb” was not set forth in the manner required, in violation of Rule 8 of the said Rules and Regulations.

(b) The term “natural” was not used to describe fur products which were not pointed, bleached, dyed, tip-dyed or otherwise artificially colored, in violation of Rule 10(g) of the said Rules and Regulations.

(c) Information required under Section 5(a) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was not set forth separately with respect to each section of fur products composed of two or more sections containing different animal fur, in violation of Rule 36 of the aforesaid Rules and Regulations.

Par. 10. By means of the aforesaid advertisements and other advertisements of similar import and meaning not specifically referred to herein, respondents falsely and deceptively advertised fur products in that said advertisements represented that the prices
of fur products were reduced from regular or usual prices and that the amount of such price reductions afforded savings to the purchasers of respondents' products, when the so-called regular or usual prices were, in fact, fictitious in that they were not the prices at which said merchandise was usually sold by respondents in the recent regular course of business and the represented savings were not thereby afforded to the purchasers, in violation of Section 5(a) (5) of the Fur Products Labeling Act and Rule 44(a) of the Rules and Regulations promulgated under said Act.

Par. 11. By means of the aforesaid advertisements and others of similar import and meaning not specifically referred to herein, respondents falsely and deceptively advertised fur products in that said advertisements represented through such statements as: "Below is a partial listing of the many wonderful values you will find in this Jay Thorpe collection" that the fur products listed were a part of the Jay Thorpe collection when in truth and in fact part of the fur products thus listed, advertised and offered for sale were not part of such Jay Thorpe collection, in violation of Section 5(a)(5) of the Fur Products Labeling Act.

Par. 12. In advertising fur products for sale, as aforesaid, respondents made pricing claims and representations of the types covered by subsections (a), (b), (c) and (d) of Rule 44 of the Regulations under the Fur Products Labeling Act. Respondents in making such claims and representations failed to maintain full and adequate records disclosing the facts upon which such pricing claims and representations were based, in violation of Rule 44(e) of the said Rules and Regulations.

Par. 13. The aforesaid acts and practices of respondents, as herein alleged, are in violation of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder and constitute unfair and deceptive acts and practices and unfair methods of competition in commerce under the Federal Trade Commission Act.

DECISION AND ORDER

The Commission having heretofore determined to issue its complaint charging the respondents named in the caption hereof with violation of the Federal Trade Commission Act and the Fur Products Labeling Act, and the respondents having been served with notice of said determination and with a copy of the complaint the Commission intended to issue, together with a proposed form of order; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admis-
Decision and Order

It is ordered, That respondents Vogue Furriers, Inc., a corporation, and its officers, and Charles Grand and Reuben Grand, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product; or in connection with the sale, advertising, offering for sale, transportation or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing in words and in figures plainly legible all of the information required to be disclosed by each of the subsections of Section 4(2) of the Fur Products Labeling Act.

2. Failing to set forth the term "Natural" as part of the information required to be disclosed on labels under the Fur Products Labeling Act and the Rules and Regula-
tions promulgated thereunder to describe fur products which are not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

3. Setting forth information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in handwriting on labels affixed to fur products.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed in each of the sub-sections of Section 5(b)(1) of the Fur Products Labeling Act.

2. Misrepresenting in any manner, directly or by implication, the country of origin of the fur contained in fur products.

4. Failing to set forth the term “Persian Lamb” in the manner required where an election is made to use that term instead of the word “Lamb”.

5. Failing to set forth the term “Natural” as part of the information required to be disclosed on invoices under the Fur Products Labeling Act and Rules and Regulations promulgated thereunder to describe fur products which are not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

6. Failing to set forth separately information required under Section 5(b)(1) of the Fur Products Labeling Act and Rules and Regulations promulgated thereunder with respect to each section of fur products composed of two or more sections containing different animal furs.

7. Failing to set forth on invoices the item number or mark assigned to fur products.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale of any fur product, and which:

1. Fails to set forth in words and figures plainly legible all the information required to be disclosed by each of the
subsections of Section 5(a) of the Fur Products Labeling Act.

2. Fails to set forth the term “Persian Lamb” in the manner required where an election is made to use that term instead of the word “Lamb”.

3. Fails to set forth the term “Natural” as part of the information required to be disclosed in advertisements under the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder to describe fur products which are not pointed, bleached, dyed, tip-dyed or otherwise artificially colored.

4. Fails to separately set forth in advertisements relating to fur products composed of two or more sections containing different animal furs the information required under Section 5(a) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder with respect to the fur comprising each section.

5. Represents, directly or by implication, that any price, when accompanied or unaccompanied by any descriptive language, was the price at which the merchandise advertised was usually and customarily sold by the respondents unless such advertised merchandise was in fact usually and customarily sold at such price by respondents in the recent past.

6. Misrepresents in any manner the savings available to purchasers of respondents’ fur products.

7. Falsely or deceptively represents in any manner that prices of respondents’ fur products are reduced.

8. Misrepresents the source or supplier of such fur products.

D. Making claims and representations of the types covered by subsections (a), (b), (c) and (d) of Rule 44 of the Rules and Regulations promulgated under the Fur Products Labeling Act unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
In the Matter of
WESCO PRODUCTS COMPANY ET AL.

Consent Order, etc., in regard to the alleged violation of the Federal Trade Commission Act

Consent order requiring Chicago distributors of universal joints, their "Mighty Press" for the assembly and disassembly of universal joints, and other automotive products, to cease disseminating to their distributors for use in reselling such products, catalog insert sheets which designated an excessive "Regular cost" price and a lower "Dealer cost", represented falsely as affording a substantial saving to purchasers; falsely represented that products described could be obtained without any cash investment by dealers; and misleadingly represented their universal joints as unconditionally guaranteed.

Complaint

Pursuant to the provisions of the Federal Trade Commission Act, and by virtue of the authority vested in it by said Act, the Federal Trade Commission, having reason to believe that Wesco Products Company, a corporation, and Herbert A. Horwitz and Donald A. Horwitz, individually and as officers of said corporation, hereinafter referred to as respondents, have violated the provisions of said Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges in that respect as follows:

Paragraph 1. Respondent Wesco Products Company is a corporation organized, existing and doing business under and by virtue of the laws of the State of Illinois, with its principal office and place of business located at 2300 South Parkway, Chicago 16, Illinois.

Respondents Herbert A. Horwitz and Donald A. Horwitz are individuals and officers of the above said corporate respondent. They formulate, direct and control the acts and practices of the corporate respondent, including the acts and practices hereinafter set forth. Their address is the same as that of the corporate respondent.

Paragraph 2. Respondents are now, and for some time last past have been, engaged in the advertising, offering for sale, sale and distribution of universal joints, a press for the assembly and disassembly of universal joints, called the "Mighty Press", and other automotive parts and products, to wholesalers, jobbers and distributors for resale to dealer users of said merchandise and products.
Complaint

PAR. 3. In the course and conduct of their business, respondents now cause, and for some time last past have caused, their said universal joints, “Mighty Press”, and other automotive parts and products, when sold, to be shipped from their place of business in the State of Illinois to purchasers located in various other States of the United States, and maintain, and at all times mentioned herein have maintained, a substantial course of trade in said universal joints, “Mighty Press”, and other automotive parts and products in commerce as “commerce” is defined in the Federal Trade Commission Act.

PAR. 4. In the course and conduct of their business, and at all times mentioned herein, the respondents have been in substantial competition, in commerce, with corporations, firms and individuals engaged in the sale of universal joints, presses for the assembly and disassembly of universal joints, and other automotive parts and products.

PAR. 5. In the course and conduct of their business, respondents have disseminated and caused to be disseminated catalog insert sheets, advertising and packaging describing and promoting the sale of said press and universal joints to their distributors for use in selling respondents’ said products to dealer users. The respondents have made certain statements and representations on said insert sheets and advertising, and on their packaging with respect to their said products, of which the following are typical, but not all inclusive:

<table>
<thead>
<tr>
<th>Regular cost of SK2GB</th>
<th>$30.30</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regular cost of SIX-1</td>
<td>17.70</td>
</tr>
<tr>
<td>Regular cost of MIGHTY PRESS</td>
<td>45.95</td>
</tr>
</tbody>
</table>

**TOTAL** 93.95

Dealer Cost of TD3000 79.38

**MIGHTY PRESS + $15.15 IN CASH WITHOUT ANY INVESTMENT**

WESCO gives you a Stock of — GOLDEN 500 SERIES

**SUPER UNIVERSAL JOINTS 24KT. GOLD PLATED AND UNCONDITIONALLY GUARANTEED FOR THE LIFE OF THE VEHICLE with NO INVESTMENT**

PAR. 6. Through the use of the above said statements and representations, and others of similar import, but not specifically set out herein, respondents have represented, directly or by implication, that:

1. The prices designated as “Regular cost” are the prices at which the products referred to are usually and regularly sold by
wholesalers, jobbers and distributors to dealer users; and that the
difference between the said "Dealer Cost of TD3000" and the said
"TOTAL Regular cost" represents a saving from the usual and
regular price at which said products are sold to dealer users.

2. The products described and depicted can be obtained without
any cash investment or outlay by dealer users desiring to handle
the respondents' said products.

3. The respondents' universal joints are unconditionally guaran-
teed for the life of the vehicle upon which they are installed.

PAR. 7. In truth and in fact:

1. The prices designated as "Regular cost" are not the prices
at which the products referred to are usually and regularly sold
by wholesalers, jobbers and distributors to dealer users but are
in excess of the price at which said products are generally sold
to dealer users in the trade area where the representations are
made and the difference between said "Dealer Cost of TD3000" and
the said "TOTAL Regular Cost" does not represent a saving from
the usual and regular price at which said products are sold to
dealer users.

2. The products described and depicted can not be obtained
without any cash investment or outlay by dealer users desiring
to handle the respondents' said products. Said dealer users are
obligated to pay for said products regardless of whether or not
the said products are subsequently sold or used by the dealers.

3. The respondents' universal joints are not unconditionally
guaranteed for the life of the vehicle upon which they are installed;
the said guarantee is only for the time the original consumer owns
the vehicle and is subject to conditions and limitations not disclosed.

Therefore, the statements and representations referred to in
paragraphs 5 and 6 are false, misleading and deceptive.

PAR. 8. By the aforesaid practices, respondents place in the
hands of wholesalers, jobbers, distributors and others the means
and instrumentalities by and through which they may mislead
dealer users and the public as to the aforesaid false representations
of said products.

PAR. 9. The use by respondents of the aforementioned false,
misleading and deceptive statements, representations and practices
has had, and now has, the capacity and tendency to mislead mem-
bers of the purchasing public and the dealer users into the errone-
ous and mistaken belief that said statements and representations
were, and are, true and into the purchase of substantial quantities
of respondents' products by reason of said erroneous and mistaken
belief.
WESCO PRODUCTS CO. ET AL.

Decision and Order

Par. 10. The aforesaid acts and practices of respondents, as herein alleged, were, and are, all to the prejudice of the public and of respondents' competitors and constituted, and now constitute, unfair methods of competition in commerce and unfair and deceptive acts and practices in commerce in violation of Section 5(a)(1) of the Federal Trade Commission Act.

DECISION AND ORDER

The Commission having heretofore determined to issue its complaint charging the respondents named in the caption hereof with violation of the Federal Trade Commission Act, and the respondents having been served with notice of said determination and with a copy of the complaint the Commission intended to issue, together with a proposed form of order; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by respondents of all the jurisdictional facts set forth in the complaint to issue herein, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as set forth in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having considered the agreement, hereby accepts same, issues its complaint in the form contemplated by said agreement, makes the following jurisdictional findings, and enters the following order:

1. Respondent Wesco Products Company is a corporation organized, existing and doing business under and by virtue of the laws of the State of Illinois, with its office and principal place of business located at 2300 South Parkway, in the city of Chicago, State of Illinois.

   Respondents Herbert A. Horwitz and Donald A. Horwitz are officers of said corporation and their address is the same as that of said corporation.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the respondents and the proceeding is in the public interest.

ORDER

It is ordered, That respondents, Wesco Products Company, a corporation, and its officers, and Herbert A. Horwitz and Donald A. Horwitz, individually and as officers of said corporate respond-
ent, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of presses for assembling and disassembling universal joints, universal joints, or any other products, do forthwith cease and desist from:

1. Representing, directly or by implication that:
   (a) Any amount is the usual and customary price of merchandise in a trade area or areas when such amount is in excess of the price at which said merchandise is usually and customarily sold in the trade area or areas where the representation is made.
   (b) Any savings are afforded in the purchase of respondents' products from the usual and regular price in a trade area or areas unless the price at which such merchandise is offered constitutes a reduction from the price at which the merchandise is usually and customarily sold in the trade area or areas where the representation is made.
   (c) Said products can be stocked, obtained or otherwise acquired by dealer users without any cash investment, or with a nominal cash investment, or without incurring any other financial obligations.
   (d) Any of respondents' products are guaranteed unless the nature, extent and duration of the guarantee, the manner in which the guarantor will perform thereunder and the name and address of the guarantor are clearly and conspicuously disclosed and respondents do in fact fulfill all of their requirements under the terms of said guarantee.

2. Placing in the hands of wholesalers, jobbers, distributors, or others the means and instrumentalities by and through which they may deceive and mislead the purchasers of respondents' products in the respects set out above.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
Complaint

IN THE MATTER OF

FERNBACHER-LOBE INC. OF SAN FRANCISCO
(FORMERLY FERNBACHER-LOBE CO., INC.) ET AL

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE
FEDERAL TRADE COMMISSION AND THE FUR PRODUCTS LABELING ACTS

Consent order requiring San Francisco furriers to cease violating the Fur Products Labeling Act by failing to use the term "natural" on labels and invoices of fur products which were not artificially colored; failing to disclose on invoices the true animal name of furs and the country of origin of imported furs, and when fur was artificially colored; substituting nonconforming labels for those attached by the manufacturer or distributor and, in connection therewith, failing to preserve the required records; and failing in other respects to comply with labeling and invoicing requirements.

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act and the Fur Products Labeling Act, and by virtue of the authority vested in it by said Acts, the Federal Trade Commission, having reason to believe that Fernbacher-Lobe Inc. of San Francisco, a corporation, formerly Fernbacher-Lobe Co., Inc., and Selwyn Sachs and William A. Colsky, individually and as officers of said corporation and Irwin S. Cohen individually and as a stockholder of said corporation, hereinafter referred to as respondents have violated the provisions of said Acts and the Rules and Regulations promulgated under the Fur Products Labeling Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges in that respect as follows:

PARAGRAPH 1. Respondent, Fernbacher-Lobe Inc. of San Francisco, formerly Fernbacher-Lobe Co., Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of California.

Respondents Selwyn Sachs and William A. Colsky are officers of the corporate respondent and Irwin S. Cohen is a stockholder of the said corporation. They formulate, direct and control the acts, practices and policies of the said corporate respondent including those hereinafter set forth.

Respondents are wholesalers of fur products with their office and principal place of business located at 154 Sutter Street, San Francisco, California.
Complaint

Par. 2. Subsequent to the effective date of the Fur Products Labeling Act on August 9, 1952, respondents have been and are now engaged in the introduction into commerce, and in the sale, advertising, and offering for sale in commerce, of fur products; and have sold, advertised, offered for sale, transported and distributed fur products which have been made in whole or in part of furs which have been shipped and received in commerce as the terms “commerce”, “fur” and “fur products” are defined in the Fur Products Labeling Act.

Par. 3. Certain of said fur products were misbranded in violation of the Fur Products Labeling Act in that they were not labeled in accordance with the Rules and Regulations promulgated thereunder in the following respects:

(a) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was set forth on labels in abbreviated form, in violation of Rule 4 of the said Rules and Regulations.

(b) The term “natural” was not used on labels to describe fur products which were not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored, in violation of Rule 19(g) of said Rules and Regulations.

(c) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was mingled with non-required information, in violation of Rule 29(a) of said Rules and Regulations.

(d) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was not completely set out on one side of labels, in violation of Rule 29(a) of said Rules and Regulations.

(e) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was set forth in handwriting on labels, in violation of Rule 29(b) of said Rules and Regulations.

(f) Required item numbers were not set forth on labels in violation of Rule 40 of said Rules and Regulations.

(g) Information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder was not set forth in the required sequence, in violation of Rule 30 of said Rules and Regulations.

Par. 4. Certain of said fur products were falsely and deceptively invoiced by the respondents in that they were not invoiced as
Complaint

required by Section 5(b)(1) of the Fur Products Labeling Act and the Rules and Regulations promulgated under such Act.

Among such falsely and deceptively invoiced fur products, but not limited thereto, were fur products covered by invoices which failed:

1. To show the true animal name of the fur used in the fur product.

2. To disclose that the fur contained in the fur product was bleached, dyed, or otherwise artificially colored when such was the fact.

3. To show the country of origin of imported furs used in fur products.

Par. 5. Certain of said fur products were falsely and deceptively invoiced in violation of the Fur Products Labeling Act in that they were not invoiced in accordance with the Rules and Regulations promulgated thereunder in the following respects:

1. The term “natural” was not used on invoices to describe fur products which were not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored, in violation of Rule 19(g) of said Rules and Regulations.

2. Required item numbers were not set forth on invoices, in violation of Rule 40 of said Rules and Regulations.

Par. 6. Respondents in introducing, selling, advertising, and offering for sale, in commerce, and in processing for commerce, fur products; and in selling, advertising, offering for sale and processing fur products which have been shipped and received in commerce, have misbranded such fur products by substituting thereon labels which did not conform to the requirements of Section 4 of the Fur Products Labeling Act, for the labels affixed to said fur products by the manufacturer or distributor pursuant to Section 4 of said Act, in violation of Section 3(e) of said Act.

Par. 7. Respondents in substituting labels as provided for in Section 3(e) of the Fur Products Labeling Act, have failed to keep and preserve the records required, in violation of Section 3(e) and Rule 41 of the Rules and Regulations promulgated under the said Act.

Par. 8. The aforesaid acts and practices of respondents as herein alleged, are in violation of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder and constitute unfair and deceptive acts and practices and unfair methods of competition in commerce under the Federal Trade Commission Act.
Decision and Order

The Commission having heretofore determined to issue its complaint charging the respondents named in the caption hereof with violation of the Federal Trade Commission Act and the Fur Products Labeling Act, and the respondents having been served with notice of said determination and with a copy of the complaint the Commission intended to issue, together with a proposed form of order; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by respondents of all the jurisdictional facts set forth in the complaint to issue herein, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as set forth in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having considered the agreement, hereby accepts same, issues its complaint in the form contemplated by said agreement, makes the following jurisdictional findings, and enters the following order:

1. Respondent, Fernbacher-Lobe Inc. of San Francisco, formerly Fernbacher-Lobe Co., Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of California, with its office and principal place of business located at 154 Sutter Street, in the city of San Francisco, State of California.

   Respondents Selwyn Sachs and William A. Colsky are officers of said corporation. Respondent Irwin S. Cohen is a stockholder of said corporation. Their address is the same as that of said corporation.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the respondents, and the proceeding is in the public interest.

ORDER

It is ordered, That respondents Fernbacher-Lobe Inc. of San Francisco, a corporation, formerly Fernbacher-Lobe Co., Inc., and its officers and Selwyn Sachs and William A. Colsky, individually and as officers of said corporation, and Irwin S. Cohen, individually and as a stockholder of said corporation, and respondents' representatives, agents and employees, directly or through any corporate
or other device, in connection with the introduction into commerce, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product; or in connection with the sale, advertising, offering for sale, transportation or distribution, of any fur product which is made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act do forthwith cease and desist from:

A. Misbranding fur products by:
   1. Setting forth information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in abbreviated form on labels affixed to fur products.
   2. Failing to set forth the term "natural" as part of the information required to be disclosed on labels under the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder to describe fur products which are not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.
   3. Setting forth information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder mingled with non-required information on labels affixed to fur products.
   4. Failing to completely set out information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations thereunder on one side of the labels affixed to fur products.
   5. Setting forth information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in handwriting on labels affixed to fur products.
   6. Failing to set forth on labels the item number or mark assigned to fur products.
   7. Failing to set forth information required under Section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder on labels in the sequence required by Rule 30 of the aforesaid Rules and Regulations.

B. Falsely or deceptively invoicing fur products by:
   1. Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the in-
information required to be disclosed in each of the subsections of Section 5(b)(1) of the Fur Products Labeling Act.

2. Failing to set forth the term “natural” as part of the information required to be disclosed on invoices under the Fur Products Labeling Act and Rules and Regulations promulgated thereunder to describe fur products which are not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

3. Failing to set forth on invoices the item number or mark assigned to fur products.

It is further ordered, That respondents Fernbacher-Lobe Inc. of San Francisco, a corporation, formerly Fernbacher-Lobe Co., Inc., and its officers and Selwyn Sachs and William A. Colsky, individually and as officers of said corporation, and Irwin S. Cohen, individually and as a stockholder of said corporation, and respondents’ representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, sale, advertising or offering for sale, in commerce or the processing for commerce, of fur products; or in connection with the selling, advertising, offering for sale, or processing of fur products which have been shipped and received in commerce do forthwith cease and desist from:

A. Misbranding fur products by substituting for the labels affixed to such fur products pursuant to Section 4 of the Fur Products Labeling Act, labels which do not conform to the requirements of the aforesaid Act and the Rules and Regulations promulgated thereunder.

B. Failing to keep and preserve the records required by the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in substituting labels as permitted by Section 3(e) of the said Act.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
Complaint

IN THE MATTER OF

ALLEN CARPET SHOPS, INC., ET AL.

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE
FEDERAL TRADE COMMISSION ACT

Docket C-531. Complaint, July 26, 1963—Decision, July 26, 1963

Consent order requiring Jamaica, Long Island, retailers of floor carpeting and
rugs to cease representing falsely in advertisements in newspapers that
they were offering their products at half price and less, when such prices
were actually bait offers; that the offers applied to all their stock, and
that they had a sufficient quantity on hand to meet the demand; and that
sales were limited to specified periods.

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission Act,
and by virtue of the authority vested in it by said Act, the Federal
Trade Commission, having reason to believe that Allen Carpet
Shops, Inc., a corporation, and Jack Allen, Irving Allen, Edward
Allen and William Snyder, individually and as officers of said cor-
poration, and Martin Herman, individually and as General Man-
ger of said corporation, hereinafter referred to as respondents, have
violated the provisions of said Act, and it appearing to the Com-
mision that a proceeding by it in respect thereof would be in the
public interest, hereby issues its complaint stating its charges in
that respect as follows:

PARAGRAPH 1. Respondent Allen Carpet Shops, Inc., is a cor-
poration organized, existing and doing business under and by virtue
of the laws of the State of New York, with its principal office and
place of business located at 90-28 Van Wyck Expressway, Jamaica,
Long Island, New York.

Respondents Jack Allen, Irving Allen, Edward Allen, and Will-
iam Snyder are individuals and are officers of the corporate respond-
ent. Respondent Martin Herman is an individual and is the general
manager of the corporate respondent. Said individuals formulate,
direct and control the policies, acts and practices of said corporate
respondent, including the acts and practices hereinafter set forth.
Their address is the same as that of the corporate respondent.

Par. 2. Respondents are now, and for some time last past have
been, engaged in the advertising, offering for sale, sale and distribu-
tion of floor carpeting, rugs and other merchandise to the purchas-
ing public.

Par. 3. In the course and conduct of their business, respondents
now cause, and for some time last past have caused, their said
merchandise, when sold, to be shipped from their places of business in the State of New York to purchasers thereof located in various other States of the United States, and maintain, and at all times mentioned herein have maintained, a substantial course of trade in said merchandise in commerce as "commerce" is defined in the Federal Trade Commission Act.

Par. 4. In the course and conduct of their business, and for the purpose of inducing the purchase of said merchandise, respondents have made numerous statements and representations in advertisements inserted in newspapers of general circulation respecting the price, savings, bona fide character of offers to sell, and the availability of said merchandise.

Typical and illustrative of said statements and representations, but not all inclusive thereof, are the following:

**ALLEN’S 1/4 PRICE BROADLOOM SALE. NEVER SO MUCH 1ST QUALITY BROADLOOM FOR SO LITTLE AT ALLEN CARPET SHOPS!**

**PARTIAL LISTING OF BROADLOOM SALE PRICED AT 50% SAVINGS.**

**RUGS! SAVE 1/2 ON THOUSANDS OF ROOM SIZE RUGS!**

ALL WOOL PILE DESIGNER LOOP—5.99 sq. yd.
100% NYLON PILE VELVET PLUSH—6.99 sq. yd.
CONT. FILAMENT NYLON PILE LOOP—7.99 sq. yd.

Par. 5. By and through the use of the aforesaid statements and representations, and others of similar import and meaning, not specifically set out herein, respondents represent and have represented, directly or by implication:

a. Through the use of the terms and expressions, "50% SAVINGS", "1/4 PRICE BROADLOOM SALE", "SAVE 1/2" and "REDUCED 20% to 60%", that said carpeting and rugs have been usually and customarily sold by respondents at retail in the recent, regular course of business at prices higher than the presently offered prices by the percentage or fractional
amounts stated and that purchasers of said carpeting and rugs would realize savings equal in amount to the difference between said alleged regular selling prices and the prices at which said carpeting and rugs were offered.

b. That the prices set out in said advertisements in connection with the terms “SALE”, “SALE PRICED” and “LOWEST . . . PRICES THIS YEAR” were reductions from and lower than the prices at which the carpeting and rugs referred to had been usually and regularly sold by respondents in the recent, regular course of business and that the difference between the prices at which said carpeting and rugs were now offered for sale and the prices at which respondents sold said carpeting in the recent, regular course of business represented savings to the purchasers thereof.

c. That said offers to sell carpeting and rugs at the aforesaid reduced prices were genuine, bona fide offers to sell the carpeting and rugs at the prices advertised.

d. That said offers to sell rugs and carpeting at the aforesaid reduced prices were applicable to all or a substantial part of respondents’ general stock or to all or a substantial part of designated kinds or styles of rugs or carpeting.

e. That there was a sufficient quantity of the advertised merchandise on hand to meet the reasonably anticipated demand.

f. That certain of the said sales at alleged reduced prices were limited to specified days or periods of time.

Par. 6. In truth and in fact:

a. Said carpeting and rugs offered for sale at “50% SAVINGS”, “3 PRICE BROADLOOM SALE”, “SAVE 1”, “REDUCED 20% to 60%” had not been usually and customarily sold by respondents at retail in the recent regular course of business at prices higher than the presently offered prices by the percentage or fractional amounts stated and purchasers of said carpeting and rugs did not realize savings equal in amount to the difference between said alleged regular selling prices and the prices at which said carpeting and rugs were now offered.

b. The prices set out in said advertisements in connection with the terms “SALE”, “SALE PRICED” and “LOWEST . . . PRICES THIS YEAR” were not reductions from or lower than the prices at which the carpeting and rugs referred to had been sold by respondents in the recent, regular course of business and purchasers of said carpeting and rugs did not realize savings equal in amount to the difference between said alleged higher selling prices and the prices at which said carpeting and rugs were now offered.

c. Said offers to sell carpeting and rugs at the aforesaid reduced prices were not genuine, bona fide offers to sell the carpet-
ing and rugs at the prices advertised. On the contrary respondents' said offers were made for the purpose of developing leads as to prospective purchasers of respondents' merchandise at respondents' higher regular prices.

d. Said offers to sell rugs and carpeting at the aforesaid reduced prices were not applicable to all or a substantial part of respondents' stock or to all or a substantial part of designated kinds or styles of rugs or carpeting.

e. There was not a sufficient quantity of the advertised merchandise on hand to meet reasonably anticipated demands.

f. Said sales at the alleged reduced prices were not limited to certain days or certain periods of time.

Therefore, the statements and representations as set forth in paragraphs 4 and 5 hereof were and are false, misleading and deceptive.

Par. 7. In the conduct of their business; at all times mentioned herein, respondents have been in substantial competition, in commerce, with corporations, firms and individuals in the sale of carpeting and rugs of the same general kind and nature as those sold by respondents.

Par. 8. The use by respondents of the aforesaid false, misleading and deceptive statements, representations and practices has had, and now has, the capacity and tendency to mislead members of the purchasing public into the erroneous and mistaken belief that said statements and representations were and are true and into the purchase of substantial quantities of respondents' merchandise by reason of said erroneous and mistaken belief.

Par. 9. The aforesaid acts and practices of respondents, as herein alleged, were and are all to the prejudice and injury of the public and of respondents' competitors and constituted, and now constitute, unfair methods of competition in commerce and unfair and deceptive acts and practices in commerce, in violation of Section 5 of the Federal Trade Commission Act.

DECISION AND ORDER

The Federal Trade Commission having initiated an investigation of certain acts and practices of the respondents named in the caption hereof, and the respondents having been furnished thereafter with a copy of a draft of complaint which the Bureau of Deceptive Practices proposed to present to the Commission for its consideration and which, if issued by the Commission, would charge respondents with violation of the Federal Trade Commission Act; and
The respondents and counsel for the Commission having there-
after executed an agreement containing a consent order, an admis-
sion by the respondents of all the jurisdictional facts set forth
in the aforesaid draft of complaint, a statement that the signing
of said agreement is for settlement purposes only and does not
constitute an admission by the respondents that the law has been
violated as alleged in such complaint, and waivers and provisions
as required by the Commission's rules; and
The Commission, having reason to believe that the respondents
have violated the Federal Trade Commission Act, and having
determined that complaint should issue stating its charges in that
respect, hereby issues its complaint, accepts said agreement, makes
the following jurisdictional findings and enters the following
order:

1. Respondent Allen Carpet Shops, Inc., is a corporation organ-
ized, existing and doing business under and by virtue of the laws
of the State of New York, with its office and principal place of
business located at 90–28 Van Wyck Expressway, Jamaica, Long
Island, New York.

Respondents Jack Allen, Irving Allen, Edward Allen, and Wil-
liam Snyder are officers of the corporate respondent. Respondent
Martin Herman is the general manager of the corporate respondent.
Their address is the same as that of the corporate respondent.

2. The Federal Trade Commission has jurisdiction of the subject
matter of this proceeding and of the respondents, and the proceed-
ing is in the public interest.

ORDER

It is ordered, That respondents, Allen Carpet Shops, Inc., a
corporation, and its officers, and Jack Allen, Irving Allen, Edward
Allen and William Snyder, individually and as officers of said
corporation, and Martin Herman, individually and as General
Manager of said corporation, and respondents' agents, representa-
tives and employees, directly or through any corporate or other
device, in connection with the offering for sale, sale and distribution
of carpeting, rugs or other articles of merchandise in commerce,
as "commerce" is defined in the Federal Trade Commission Act,
do forthwith cease and desist from:

1. Representing, directly or by implication, through the
use of the expressions "½ PRICE BROADCORE SALE," "50% SAVINGS",
"SAVE ½", "REDUCED 20% to 60%", or any other words, terms or
expressions of similar import or meaning, that merchandise has
been sold by respondents in the recent, regular course of their business at a price which is in excess of the price at which said merchandise has been usually and regularly sold by respondents at retail in the recent, regular course of their business; or otherwise misrepresenting the respondents' usual and customary retail selling price of such merchandise.

2. Representing, directly or by implication, that the prices at which merchandise is offered for sale are a reduction from or offer savings from the respondents' usual and customary regular selling price unless the prices at which said merchandise is offered in fact constitute a reduction from or savings from respondents' usual and customary retail selling price of the said merchandise in the recent, regular course of their business.

3. Misrepresenting in any manner the savings available to purchasers of respondents' merchandise.

4. Representing, directly or by implication, that carpeting, rugs or other articles of merchandise are offered for sale when such offer is not a bona fide offer to sell the merchandise so, and as, offered.

5. Representing, directly or by implication, that certain prices, terms or conditions of sale are applicable to all or a substantial part of respondents' stock of merchandise or to all or a substantial part of certain kinds or styles of rugs, carpeting or other articles of merchandise when such prices, terms or conditions of sale are restricted to lesser quantities or amounts of said merchandise.

6. Advertising limited quantities of said carpeting, rugs or other articles of merchandise for sale without clearly and conspicuously revealing that quantities of said merchandise are inadequate to meet reasonable demands.

7. Representing, directly or by implication, that the sale of carpeting, rugs or other merchandise at certain prices, terms or conditions is limited to specified days or periods of time, when said limitation is not actually observed.

*It is further ordered,* That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
Complaint

IN THE MATTER OF

JUVENILE FURNITURE MANUFACTURING COMPANY ET AL.

CONSENT ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE
FEDERAL TRADE COMMISSION ACT

Consent order requiring Louisville, Ky., retailers of children's and youth's
furniture to cease representing falsely, through use of the word "manufacturing" in their corporate name and such statements in advertising as
"Get Down to Earth Prices From The Factory", that they were manufacturers of the merchandise; and advertising falsely in newspapers, by
use of a higher "Reg." and a lower "Now" price, that their usual prices
were reduced by the difference, and that they had "Stores From Coast to
Coast" when they actually had only two.

COMPLAINT

Pursuant to the provisions of the Federal Trade Commission
Act, and by virtue of the authority vested in it by said Act, the
Federal Trade Commission, having reason to believe that Juvenile
Furniture Manufacturing Company, a corporation, and Mary
Deen Gerstle, Irvine Gerstle and Joseph F. Lusk, individually
and as officers of said corporation, hereinafter referred to as re-
spondents, have violated the provisions of said Act, and it appear-
ing to the Commission that a proceeding by it in respect thereof
would be in the public interest, hereby issues its complaint stating
its charges in that respect as follows:

PARAGRAPH 1. Respondent Juvenile Furniture Manufacturing
Company is a corporation organized, existing and doing business
under and by virtue of the laws of the State of Kentucky, with
its principal office and place of business located at 810 E. Broadway
in the city of Louisville, State of Kentucky.

Respondents Mary Deen Gerstle, Irvine Gerstle, and Joseph
F. Lusk are officers of the corporate respondent. They formulate,
direct and control the acts and practices of the corporate re-
spondent, including the acts and practices hereinafter set forth.
The address of Mary Deen Gerstle is the same as that of the
corporate respondent; the address of Irvine Gerstle is 3909 Reading
Road, Cincinnati, Ohio; and, the address of Joseph F. Lusk is 1191
E. Broadway, Louisville, Kentucky.
Par. 2. Respondents are now, and for some time last past have been, engaged in the advertising, offering for sale, sale and distribution of children's and youth's furniture to the public.

Par. 3. In the course and conduct of their business, respondents have caused their said products, when sold, to be shipped from their places of business in the States of Kentucky and Ohio to purchasers thereof located in various other States of the United States, and maintain, and at all times mentioned herein have maintained, a substantial course of trade in said products in commerce, as "commerce" is defined in the Federal Trade Commission Act.

Par. 4. In the course and conduct of their business and for the purpose of inducing the sale of the aforesaid articles of merchandise, respondents now use, and for some time last past have used, the word "manufacturing" in their corporate name in advertising and promotional literature, and the statement "Get Down to Earth Prices From The Factory".

Par. 5. Through the use of the aforesaid word "manufacturing" in their corporate name, standing alone, or through the use of the statement "Get Down to Earth Prices From The Factory" and others similar thereto, but not set out herein separately or in connection with said corporate name, respondents have represented, and are now representing, that they own, operate or control a factory or factories wherein their said articles of merchandise are manufactured, and that they are the manufacturers of said articles of merchandise.

Par. 6. Said statements and representations are false, misleading and deceptive. In truth and in fact, said respondents do not own, operate or control a factory or factories wherein said articles of merchandise are manufactured, and do not manufacture any of said products.

Par. 7. There is a preference on the part of members of the purchasing public for dealing directly with manufacturers of products, rather than with outlets, distributors, jobbers or other intermediaries, such preference being due in part to a belief that by dealing directly with the manufacturers, lower prices and other advantages may be obtained, a fact of which the Commission takes official notice.

Par. 8. In the course and conduct of their business, and for the purpose of inducing the purchase of their furniture, the respondents have made numerous other statements in advertisements inserted in newspapers of general circulation and in circulars distributed by
Complaint

them through the United States mail. Among and typical, but not all inclusive, are the following:

<table>
<thead>
<tr>
<th>CRIB MATTRESSES</th>
<th>BUNK BEDS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Reg.</strong></td>
<td><strong>Now</strong></td>
</tr>
<tr>
<td>$19.95</td>
<td>$14.88</td>
</tr>
</tbody>
</table>

America's Largest Juvenile Chain-Stores From Coast to Coast.

Par. 9. Through the use of the aforesaid statements and representations and others similar thereto, not included herein, respondents represent and have represented directly or by implication that:

a. The higher stated prices set out in said advertisements in connection with the terms "Reg.—Now" and "Was—Now" were the prices at which the advertised merchandise had been usually and customarily sold by respondents at retail in the recent regular course of business and that the differences between the higher and lower prices represented savings to purchasers from respondents' usual and customary retail prices.

b. Their operations are national in scope.

Par. 10. In truth and in fact:

a. The higher prices set out in said advertisements in connection with the terms "Reg.—Now" and "Was—Now" were in excess of the prices at which the advertised merchandise had been usually and customarily sold by respondents in the recent regular course of business and the differences between the higher and lower prices did not represent savings to purchasers from respondents' usual and customary prices.

b. Respondents' operations are not national in scope. Respondents have had two stores, one in Ohio and the other in Kentucky.

Therefore, the statements and representations as set forth in paragraphs 8 and 9 hereof were and are false, misleading and deceptive.

Par. 11. In the conduct of their business, and at all times mentioned herein, respondents have been in substantial competition, in commerce, with corporations, firms and individuals engaged in the sale of articles of merchandise of the same general kind and nature as those sold by respondents.

Par. 12. The use by respondents of the aforesaid false, misleading and deceptive statements, claims and representations, has had, and now has, the capacity and tendency to mislead members of the purchasing public into the erroneous and mistaken belief that said statements, claims and representations were and are true and into the purchase of substantial quantities of respondents' furniture by reason of said erroneous and mistaken belief.
DECISION AND ORDER

The Commission having heretofore determined to issue its complaint charging the respondents named in the caption hereof with violation of the Federal Trade Commission Act, and the respondents having been served with notice of said determination and with a copy of the complaint the Commission intended to issue, together with a proposed form of order; and

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by respondents of all the jurisdictional facts set forth in the complaint to issue herein, a statement that the signing of said agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as set forth in such complaint, and waivers and provisions as required by the Commission's rules; and

The Commission, having considered the agreement, hereby accepts same, issues its complaint in the form contemplated by said agreement, makes the following jurisdictional findings, and enters the following order:

1. Respondent Juvenile Furniture Manufacturing Company is a corporation organized, existing and doing business under and by virtue of the laws of the State of Kentucky, with its office and principal place of business located at 810 E. Broadway, in the city of Louisville, State of Kentucky.

   Respondent Mary Deen Gerstle is an officer of said corporation and her address is the same as that of said corporation.

   Respondent Irvine Gerstle is an officer of said corporation. His address is 3909 Reading Road, Cincinnati, Ohio.

   Respondent Joseph F. Lusk is an officer of said corporation. His address is 1191 E. Broadway, Louisville, Kentucky.

2. The Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the respondents, and the proceeding is in the public interest.
ORDER

It is ordered, That respondents, Juvenile Furniture Manufacturing Company, a corporation, and its officers, and Mary Deen Gerstle, Irvine Gerstle and Joseph F. Lusk, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of children's and youth's furniture or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "manufacturing", or any other word or words of similar import or meaning, as part of respondents' trade or corporate name or representing, directly or by implication, in any other manner, that they own or operate a factory or manufacture the merchandise sold by them.

2. Using the words "Reg.—Now" and "Was—Now", or words of similar import, to refer to any amount which is in excess of the price or prices at which such merchandise has been usually and regularly sold by respondents at retail in the recent, regular course of their business.

3. Representing, directly or by implication, that:
   a. Any amount is respondents' usual and customary retail price of merchandise when it is in excess of the price or prices at which such merchandise is usually and customarily sold by respondents at retail in the recent, regular course of their business.
   b. Any saving from respondents' usual and customary retail price is afforded to the purchasers of respondents' merchandise unless the price at which it is offered constitutes a reduction from the price or prices at which said merchandise has been usually and customarily sold by respondents in the recent, regular course of their business.

4. Misrepresenting, by means of comparative prices, or in any other manner, the savings available to purchasers of respondents' merchandise.

5. Representing, directly or by implication, that their operations are national in scope; or misrepresenting in any manner the size or scope of their business.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.
Complaint

IN THE MATTER OF

ZELIS HAND MOLDED DYNAMIC SHOES, INC., ET AL.

ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE FEDERAL TRADE COMMISSION ACT

Order dismissing—it appearing that the individual respondent was deceased—complaint charging a manufacturer of molded shoes with falsely claiming orthopedic and reducing qualities for his shoes, among other things.

Complaint

Pursuant to the provisions of the Federal Trade Commission Act, and by virtue of the authority vested in it by said Act, the Federal Trade Commission, having reason to believe that Zelis Hand Molded Dynamic Shoes, Inc., a corporation, and Walter Zerner, individually and as an officer of said corporation, hereinafter referred to as respondents, have violated the provisions of said Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges as follows:

Paragraph 1. Respondent Zelis Hand Molded Dynamic Shoes, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of Connecticut, with its principal place of business located at 880 Broadway, New York, New York. Said corporation conducts its business under the above-mentioned corporate title and also the assumed names, Zelis and Zely.

Respondent Walter Zerner is an officer of said corporate respondent. He formulates, directs and controls the acts and practices of the corporate respondent, including the acts and practices hereinafter set forth. His address is the same as that of the corporate respondent.

Par. 2. Respondents are now, and for some time last past have been, engaged in the manufacturing, sale and distribution of molded shoes, that is, custom-made shoes constructed over plaster or wooden casts of the customer's feet, which said shoes come within the classification of devices, as "device" is defined in the Federal Trade Commission Act. Such shoes are designated as "Zelis Molded Dynamic Shoes" and "Zely Dynamic Molded Shoes."

Par. 3. Respondents have caused and are now causing such shoes, when sold, to be transported from their place of business in the State of New York to purchasers thereof located in various other States of the United States, and at all times mentioned herein have maintained a course of trade in said products in commerce, as "commerce" is
defined in the Federal Trade Commission Act. The volume of business in such commerce is, and has been substantial.

Par. 4. In the course and conduct of their said business, respondents have disseminated, and caused the dissemination of, certain advertisements concerning the said shoes by the United States mails and by various means in commerce, as “commerce” is defined in the Federal Trade Commission Act, including, but not limited to, advertisements inserted in newspapers, pamphlets, circulars and other advertising media, for the purpose of inducing and which were likely to induce, directly or indirectly, the purchase of said shoes; and have disseminated, and caused the dissemination of, advertisements concerning said shoes by various means, including but not limited to the aforesaid media, for the purpose of inducing and which were likely to induce, directly or indirectly, the purchase of said shoes in commerce, as “commerce” is defined in the Federal Trade Commission Act.

Par. 5. Among and typical of the statements and representations contained in said advertisements disseminated as hereinabove set forth are the following:

After 35 years experience as an orthopedic shoemaker Zely has developed a NEW EXCLUSIVE DYNAMIC CASTING OF THE FOOT IN MOTION.
* * * the special support you need to walk properly.
New breakthrough in preventing foot trouble.

* * *  
Guaranteed to fit, to relieve, to please.

* * *  
LABOR DAY has shown to the world the self contained power of 200,000 marching Union Members! How many of them had tired, aching, ailing feet? Nobody counted them! But we want to do something about it * * * . Protect your feet with our guaranteed Zelis Molded Dynamic Shoes.

* * *  
There are certainly more people than you think who need orthopedic shoes to walk, to move, to earn their livelihood. 80% of them have ruined their feet with badly fitting shoes. I think that all professionals who stand on their feet a long part of the day should have special handmade shoes fitted for them just as people with bunions, calluses, and hammertoes. No machine made shoe, corrective as it may be called, can help them.

* * *  
Guarantees you perfect fitting shoes that will relieve you from pain and foot trouble.
I give FULL GUARANTEE of satisfaction to my clients * * *

* * *  
We specialize in weight regulating molded shoes * * *.
PAR. 6. Through the use of said advertisements and other similar thereto not specifically set out herein, respondents have represented and are now representing, directly and by implication:

1. That the Zelis Molded Dynamic Shoe is an orthopedic device;
2. That Zelis Molded Dynamic Shoes will furnish the support necessary to enable any person to walk properly;
3. That the wearing of said shoes will correct, prevent or relieve tiredness, bunions, calluses, hammertoes, pain caused by foot trouble, discomfort of people who must stand or walk for long periods at a time, and all other foot trouble;
4. That the wearing of said shoes will help regulate a person's weight;
5. That respondents' shoes are, and are a substitute for, corrective shoes;
6. By use of the words "Guaranteed" and "Full Guarantee" in the advertising of their said product, that the entire product is guaranteed by them in every respect.

PAR. 7. In truth and in fact:

1. The Zelis Molded Dynamic Shoe is not an orthopedic device;
2. Zelis Molded Dynamic Shoes will not furnish the support necessary to enable all persons to walk properly;
3. The wearing of said shoes will not correct or prevent tiredness, bunions, calluses, hammertoes, pain caused by foot trouble, discomfort of people who must stand or walk for long periods at a time, or any other foot trouble. The only possible benefit which might be afforded the wearers thereof is relief from discomfort due to ill-fitting shoes;
4. The wearing of said shoes will not help regulate a person's weight;
5. Respondents' shoes are not, and are not a substitute for, corrective shoes;
6. The terms, conditions and extent to which said guarantee applies, and the manner in which the guarantor will perform thereunder are not disclosed in the aforesaid advertisements.

Therefore, the aforesaid advertisements set forth and referred to in paragraph 5 above were and are misleading in material respects and constituted, and now constitute, "false advertisements" as that term is defined in the Federal Trade Commission Act.

PAR. 8. The dissemination by the respondents of the false advertisements, as aforesaid, constituted, and now constitutes, unfair and deceptive acts and practices in commerce, in violation of Sections 5 and 12 of the Federal Trade Commission Act.
Mr. Bruce J. Brennan supporting the complaint. No answer or appearance for respondents.

**INITIAL DECISION by John B. Poindexter, Hearing Examiner**

Zelis Hand Molded Dynamic Shoes, Inc., a corporation, and Walter Zerner, individually and as an officer of said corporation, are charged with false advertising in connection with the manufacture, sale, and distribution of molded shoes, advertised as “Zelis Molded Dynamic Shoes” and “Zely Dynamic Molded Shoes.”

The complaint was issued on August 14, 1962, but service thereof was never effected on either the corporate or individual respondent.

By motion filed on May 28, 1963, and supplemental motion filed June 27, 1963, Commission counsel states, upon information and belief, that the individual respondent is dead and that, since his death, the said corporate respondent has not done any business. Therefore, counsel moves that the complaint be dismissed without prejudice.

It appearing that the individual respondent is now deceased and, upon his death, the corporate respondent ceased doing business, no useful purpose would be served in further prosecution of the complaint herein. Therefore, the motion to dismiss should be granted.

**ORDER**

*It is ordered, That the complaint herein be, and the same hereby is, dismissed, without prejudice.*

**DECISION OF THE COMMISSION**

Pursuant to Section 4.19 of the Commission’s Rules of Practice, effective June 1, 1962, the initial decision of the hearing examiner did, on the 29th day of July 1963, become the decision of the Commission.

**IN THE MATTER OF**

THE SESSIONS COMPANY ET AL.

**ORDER, ETC., IN REGARD TO THE ALLEGED VIOLATION OF THE FEDERAL TRADE COMMISSION ACT**

Docket 7655. *Complaint, Nov. 9, 1958—Decision, Aug. 1, 1963*

Order requiring Dallas, Tex., sellers to retailers, jobbers and individual customers of a variety of merchandise including watches, billfolds, jewelry, cameras, small appliances and sporting goods, to cease representing falsely that they sold at wholesale prices by referring to themselves as wholesalers and their
prices as wholesale prices in advertising and by use, in their catalog mailed to individuals, of two prices: one a so-called coded selling price stated to be "wholesale" and the other a higher price designated as "retail".

**COMPLAINT**

Pursuant to the provisions of the Federal Trade Commission Act, and by virtue of the authority vested in it by said Act, the Federal Trade Commission, having reason to believe that The Sessions Company, a corporation, and Hoyt Sessions and Kim Cashion, individually and as officers of said corporation, hereinafter referred to as respondents, have violated the provisions of said Act, and it appearing to the Commission that a proceeding by it in respect thereof would be in the public interest, hereby issues its complaint stating its charges in that respect as follows:

**Paragraph 1.** Corporate respondent The Sessions Company is a corporation organized, existing and doing business under and by virtue of the laws of the State of Texas, with its office and principal place of business located at 1800 Good-Latimer Expressway, Dallas, Texas.

Individual respondents Hoyt Sessions and Kim Cashion are officers of said corporation. They formulate, direct and control the policies, acts and practices of the corporate respondent. The address of the individual respondents is the same as that of the corporate respondent.

**Par. 2.** Respondents are now, and for some time last past have been, engaged in the sale of various articles of merchandise, including such items as watches, billfolds, jewelry, cameras, small appliances, sporting goods and others to retailers, jobbers and individual customers throughout the United States.

Respondents cause, and have caused, their said products, when sold, to be transported from their place of business in the State of Texas to purchasers thereof located in various other States of the United States, and at all times mentioned herein have maintained a course of trade in said products in commerce, as "commerce" is defined in the Federal Trade Commission Act. Respondents' volume of business in such commerce is, and has been, substantial.

**Par. 3.** Respondents, in the course and conduct of their business, are, and have been, engaged in substantial competition in commerce with individuals, corporations, and firms selling similar merchandise in commerce.

**Par. 4.** Respondents, in the course and conduct of their business, and for the purpose of inducing the purchase of their products, have advertised the same by means of catalogs and other advertising mat-
The Sessions Co. et al. 335

Complaint

ter circulated by the United States mails in various States and by means of advertisements inserted in newspapers and magazines of general circulation.

Par. 5. Respondents in all of their said advertising refer to themselves as wholesalers and to their prices for their merchandise as wholesale prices. While respondents do sell to retailers and jobbers, in recent years they have made substantial retail sales to individual consumers, both in Texas and in various other states of the United States.

Among and typical, but not all inclusive, of the statements appearing in respondents' catalog, and in magazine and newspaper advertisements, are the following:

NOW YOU CAN BUY WHOLESALe. INDIVIDUALS, ALL GOVERNMENT EMPLOYEES, FIRMS, UNIONS, ORGANIZATIONS, CHURCHES, AND PROFESSIONAL PEOPLE! LOWEST WHOLESALe "MASS MARKETING" PRICES AT ALL TIMES ON ALL MERCHANDISE!

* * * * * *

Your wholesale cost is coded and always follows the letter "C" which is on the same line as retail price.

* * * * * *

NO EXTRAS ADDED TO YOUR COST. ALL ITEMS CLEARLY PRICED SHOWING BOTH RETAIL AND YOUR LOW WHOLESALE COST * * *

YOUR WHOLESALE COST IS IN CODE.

Par. 6. Respondents in referring to the various articles of merchandise, set forth in their catalog which is mailed to individuals, use two prices; one a so-called coded price which is stated to be the wholesale price at which the merchandise is offered for sale, and the other a higher price which is designated as "retail". By means of such pricing method, the aforesaid quoted statements, and others of like import not specifically set out herein, respondents represent, directly or by implication, that they sell all of their merchandise at wholesale prices; that the so-called coded prices, set out in their catalog, at which the merchandise referred to is offered for sale, are wholesale prices; that the prices designated as "retail" in their catalog are the prices at which the merchandise referred to is usually and regularly sold at retail; and that the difference between said prices represent savings from the usual and regular retail prices of said merchandise.

Par. 7. The aforesaid statements, representations and implications arising therefrom are false, misleading and deceptive. In truth and in fact, respondents do not offer to sell, or sell, many of their articles of merchandise at wholesale prices, but, to the contrary, in excess of wholesale prices. The coded prices of many articles of merchandise set out in respondents' catalog are not wholesale prices but
are in excess thereof, and the prices designated as "retail" prices for many articles of merchandise are in excess of the prices at which said merchandise is usually and regularly sold at retail. The differences between such prices do not represent savings from the prices at which said merchandise is usually and customarily sold at retail.

Par. 8. The use by the respondents of the aforementioned false, misleading and deceptive statements and practices has had, and now has, the capacity and tendency to mislead and deceive a substantial portion of the purchasing public into the erroneous and mistaken belief that such statements were true and into the purchase of substantial quantities of respondents' products because of said mistaken and erroneous belief. As a result thereof, trade in commerce has been, and is being, unfairly diverted to the respondents from their competitors and injury has thereby been, and is being, done to competition in commerce.

Par. 9. The aforesaid acts and practices of respondents, as herein alleged, were, and are, all to the prejudice and injury of the public and of respondents' competitors, and constituted, and now constitute, unfair and deceptive acts and practices and unfair methods of competition, in commerce, within the intent and meaning of the Federal Trade Commission Act.

Mr. Garland S. Ferguson, supporting the complaint.

Mr. Dan Rogers, of Thompson, Knight, Wright & Simmons, Dallas, Tex., for respondents.

Initial Decision by John B. Poindexter, Hearing Examiner

The complaint herein, issued on November 9, 1959, charges The Sessions Company, a corporation, Hoyt Sessions and Kim Cashion, individually and as officers of said corporation, hereinafter called respondents, with false advertising, in violation of Section 5 of the Federal Trade Commission Act.

Hearings have been held and proposed findings of fact, conclusions of law, and order have been submitted by respective counsel. Subsequent to the filing of proposed findings, upon motion filed by counsel for respondents, the record was reopened for the receipt of additional evidence which had occurred since the conclusion of hearings. After receipt of this evidence, the record was again closed, and the matter is now before the undersigned hearing examiner for initial decision. All proposed findings of fact and conclusions of law not found or concluded herein are denied. Upon the basis of the entire
record, the hearing examiner makes the following findings of fact and conclusions of law, and issues the following order:

FINDINGS OF FACT

1. The Sessions Company is a corporation organized and doing business under the laws of the State of Texas, with its office and principal place of business located at 1800 Good-Latimer Expressway, Dallas, Texas.

2. The individual respondent Hoyt M. Sessions, named in the complaint as Hoyt Sessions, is Chairman of the Board and Executive Officer of said corporation. Mr. Sessions is and has been active in the day-to-day operations and management of the corporate respondent.

3. The individual respondent K. M. Cashion, Jr., named in the complaint as Kim Cashion, is President and Manager of the corporation. Mr. Cashion also has actively participated with Mr. Sessions in the day-to-day operations and management of the corporation. The individual respondents are brothers-in-law. When the corporation was first incorporated in 1957, Mr. Sessions owned 50 percent, the individual respondent Cashion, 10 percent, Mr. Sessions' wife, 30 percent, and Mr. Sessions' father, 10 percent. The only change in the percentage of stock ownership since that time was caused by the death of Mr. Sessions' wife. It is clear from the testimony of Messrs. Sessions and Cashion that these two individual respondents were and have been in active charge of the operations of the corporate respondent, including its advertising, and are responsible for the acts and practices complained about, as hereinafter found.

4. Since its incorporation in 1957, the corporate respondent has been engaged in the sale of a general line of merchandise, including jewelry, watches, cameras, electric appliances, household goods, stoves, refrigerators, toys, sporting goods, leather goods, radios and television receivers, to retailers, jobbers and individual consumers in Dallas, Texas, and other States of the United States. Respondents are and have been engaged in substantial competition in commerce with individuals, corporations, and firms selling similar merchandise in commerce.

5. The evidence shows that The Sessions Company was in operation and distributed a catalog (CX 1) as early as 1955. A catalog (CX 2) was also issued by The Sessions Company in 1956. The evidence does not show whether the business at that time was operated as a partnership, a joint venture, or the exact legal type of ownership. However, in respondents' proposed findings of fact, it
is stated that The Sessions Company was operated as a partnership until it was incorporated in 1957. In any event, The Sessions Company was in operation at 1800 Good-Latimer Expressway, Dallas, Texas, in 1955, according to the catalog No. 559, issued for the year 1955 (CX 1), prior to its incorporation in 1957. In the early years of its operation, The Sessions Company sold substantial amounts of merchandise to retailers and jobbers, on the one hand, and to individual consumers on the other. However, respondents' selling prices were the same to all purchasers, a so-called "wholesale" price. Commission Exhibits 9A–Q purport to show a breakdown of total sales by The Sessions Company for the years January 1, 1956, through March 31, 1960. The exhibits show the total amount of sales made to retailers and jobbers, as distinguished from individual consumers, both within and outside the State of Texas. These exhibits, as well as the testimony of Messrs. Sessions and Cashion, disclose that respondents' sales of merchandise to purchasers both within and outside the State of Texas in the early years of operation were substantial. However, since 1959, the sales by The Sessions Company to purchasers located outside the State of Texas have diminished until, at the time of hearings, the larger percentage of sales were made over-the-counter in respondents' showroom in Dallas to consumer-customers located within the State of Texas. Messrs. Session and Cahion explained the decrease in sales to purchasers outside the State of Texas as being due to competition from discount houses which had begun business in other States during recent years. Nevertheless, the volume of merchandise continued to be sold and shipped to customers outside the State of Texas, including the New Orleans, Louisiana, trade area, is, and has been, substantial. Invoices which reflect sales to individual consumers in the State of Louisiana were offered and received in evidence as CX 40A through 70B, inclusive. Accordingly, it is found that the respondents have maintained a course of trade in commerce as "commerce" is defined in the Federal Trade Commission Act, and that such volume of trade in commerce is and has been substantial.

6. For the purpose of inducing the sale of respondents' merchandise, respondents prepared and distributed through the United States mails, and by other means, a yearly catalog. These catalogs are marked CX 1, 2, 3, 4, 5, 6, 7, and 71, respectively. CX 8 purports to show a breakdown of The Sessions Company catalogs printed and their delivery to persons both within and outside the State of Texas during the years 1956–57, 1957–58, 1958–59, and 1959–60, respectively. This exhibit shows that the 1956–57 catalog (CX 2) and 1957–58 catalogs (CX 3, 4) received the largest printing and
circulation both within and outside the State of Texas. For the period 1956-57, approximately 764,000 copies of that year's catalog were printed, of which number approximately 518,000 copies were distributed within the State of Texas, and approximately 246,000 were mailed to persons outside the State of Texas. For the period 1957-58, 1,000,000 catalogs were printed, of which approximately 616,000 were distributed within the State of Texas, and approximately 384,000 were mailed to persons outside the State of Texas. In 1958-59, 500,000 catalogs were printed, of which approximately 387,000 were distributed within the State of Texas, and approximately 113,000 were mailed to persons outside the State of Texas. Respondents also placed advertising on radio and television stations, in addition to the advertising in its catalogs. Some of the radio and television advertising was received in evidence as CX 14-19, inclusive. It is respondents' representations contained in the catalogs (CX 1, 2, 3, 4, 5, and 6) and the radio and television advertising (CX 14-19) which constitute the basis of the complaint in this proceeding.

7. The corporate respondent's catalogs and broadcasts emphasize that its selling prices for all merchandise were "wholesale" prices. Various exhibits containing some of respondent's advertising copy were received in evidence, including respondent's catalogs, CX 1, 2, 3, 4, 5, 6, and 7, and some of its broadcast scripts, CX 14-19. On the front and back cover of respondent's catalog for 1955, CX 1, are printed the words "WHOLESALE ONLY". On the front and back cover of CX 2, 3, 4, 5, and 6 is the word "WHOLESALE". Some of the representations contained in respondent's catalogs are the following:

NOW YOU CAN BUY WHOLESALE. INDIVIDUALS, ALL GOVERNMENT EMPLOYEES, FIRMS, UNIONS, ORGANIZATIONS, CHURCHES, AND PROFESSIONAL PEOPLE! LOWEST WHOLESALE "MASS MARKETING" PRICES AT ALL TIMES ON ALL MERCHANDISE!

Your wholesale cost is coded and always follows the letter "C" which is on the same line as retail price.

NO EXTRAS ADDED TO YOUR COST. ALL ITEMS CLEARLY PRICED SHOWING BOTH RETAIL AND YOUR WHOLESALE COST • • • YOUR WHOLESALE COST IS IN CODE.

(The above quotations are taken from CX 3, 4, 5, and 6.)

8. The corporate respondent purchases all of the merchandise which it offers for sale either from the manufacturer, a jobber-distributor, or importer. The corporate respondent has made it a practice, when listing the price of merchandise advertised in its catalogs, to use two prices: One, a coded price, which respondents represent to be the "wholesale" cost to the purchaser of the article.
advertised for sale, and the other, a higher price, which is designated as “RETAIL”. For example, on Page 26 of CX 4, an Argus camera and kit, identified as “A301, Argus C4-35mm Camera Kit”, is pictured, followed by a brief description of the camera and kit. Underneath the picture and description of the camera, the two prices are listed as follows: “C7695 * * * RETAIL $99.50”. Mr. Sessions explained respondents’ method of catalog pricing and testified that “C7695” represents corporate respondent’s price of the camera to the customer-purchaser, to wit, $76.95 (which respondents represent in their catalogs and radio and television advertising as “wholesale” price); and “RETAIL $99.50” is the regular retail price of this camera. This method of pricing is also explained in the catalogs. Mr. Sessions testified that he arrived at the “retail” prices listed in his company’s catalogs by using the manufacturer’s “list” price or suggested list price. If the manufacturer did not suggest a list price for the item, Mr. Sessions arrived at the “retail” price by what the particular merchandise was selling for by his competitors, “what it is normally retailing for in the better stores”. Mr Sessions further testified that, “If there is no other way of setting it up as to the retail price, you would base it on what the item cost. What we paid for the item.” It is clear from Mr. Sessions’ testimony that the “RETAIL” price shown in the catalogs is not the price the corporate respondent sells the article for. The Sessions Company sells it at a lower, discounted price, listed in the catalog in code.

9. Counsel supporting the complaint offered the testimony of employees of various wholesale and retail stores to show that the prices for particular items of merchandise advertised in respondents’ catalogs as “wholesale” prices were not, in fact, wholesale prices for the particular merchandise, and that the prices advertised in said catalogs as “RETAIL” prices for particular items were not the regular retail prices for particular articles or merchandise then prevailing in the Dallas area and the New Orleans, Louisiana, area, respectively. Some of the testimony of some of the witnesses offered by counsel supporting the complaint pertained to certain merchandise advertised in respondents’ catalogs which in the opinion of this hearing examiner were not definitely identified as being merchandise identical with and of the same quality as that then being sold in retail stores in Dallas and New Orleans, respectively, about which the witness testified. For instance, an employee in the men’s department of a retail store was requested to examine a picture of “Mens’ Nylon Stretch Socks” shown in one of respondents’ catalogs. The picture and description in the catalog did not
identify the brand name, if any, of the socks advertised, other than the general description "first quality, full fashioned, heavy rib stay-up tops." The witness did not actually see nor examine the socks advertised in respondents' catalog. He only saw the picture and the above quoted brief description of the socks. With this limited information, the witness was not in a position to testify that the socks advertised in respondents' catalog were identical with the socks sold in his store. Another example is the testimony of a retail store employee who was asked to examine the picture and brief description of a one-carat diamond ring or a diamond watch advertised in one of respondents' catalogs. Without actually seeing and examining the ring or diamond watch pictured in the catalog, the witness could not adequately compare the quality of that diamond ring or watch with the quality and prices of one-carat diamond rings or diamond watches sold in the store where the witness was employed. The hearing examiner has not given any probative weight to this type of testimony. However, there is an abundance of testimony by other witnesses concerning various items of merchandise capable of definite identification so that a comparison as to prices can be made. Some of this testimony will now be discussed.

10. Mrs. Iona Buck, a longtime employee of McKesson & Robbins, a wholesale drug company, with an office in Dallas, testified concerning the prices charged by McKesson & Robbins to its retail drug customers for certain items of merchandise sold by McKesson & Robbins during the period 1957-58. Mrs. Buck identified such items as being identical with similar items advertised in respondents' catalogs for the same period of time, 1957-58, but at different prices from those shown in respondents' catalogs. Mrs. Buck testified: In 1957-58, McKesson & Robbins carried in stock a "Vest Bend Bean Pot Set priced and sold to retailers at $6.43. This same set is pictured on Page 72 of respondents' 1957-58 Mail Order Catalog (CX 4) at the following prices, "C840 * * * RETAIL $12.95." According to the instructions in the catalog and the testimony of Mr. Sessions, the "C840" is respondents' "wholesale" cost price to the purchaser, or $8.40, and the "RETAIL $12.95" was the then

---

1 This same bean set is also pictured on Page 72 of respondents' 1957-58 Showroom Catalog (CX 3) at "C740 * * * RETAIL $12.95." The coded price "C740" is one dollar less than respondents' coded "wholesale" cost price quoted in the 1957-58 Mail Order Catalog (CX 4). Mr. Sessions explained that the higher "wholesale" cost price quoted for some of the articles pictured in their Mail Order Catalogs was due to the fact that corporate respondent paid the shipping charges on all except C.O.D. shipments. Therefore, the "wholesale" cost prices quoted in the Mail Order Catalogs for the heavier or more weighty items were increased so as to include the shipping charges. Thus, the coded wholesale price "C840" quoted in corporate respondent's Mail Order Catalog was $1.00 higher than the coded wholesale price "C740" quoted in the Showroom Catalog.
current retail price of this bean pot set. According to the testimony of Mrs. Buck, McKesson & Robbins' "wholesale" price of this bean set was $6.43, as against respondents' advertised "wholesale" price of $8.40.

11. Mr. Aaron Eldridge Childers, a buyer for Cullum & Boren, a wholesale jobber of sporting goods and which also operates a retail sporting goods store in Dallas, testified, among other things, to the following: In 1957-58, Cullum & Boren handled a Chrome Universal Vacuum Pitcher Set which they sold to retailers for $12.60 during that season. In other words, $12.60 was Cullum & Boren's wholesale price for this pitcher set. This same set is advertised and pictured on Page 83 of respondents' catalogs CX 3 and 4 at the following prices: "C1450 * * RETAIL $19.95." Thus, Cullum & Boren's wholesale price was $12.60 and respondents' advertised "wholesale" price was $14.50. Mr. Childers also testified that Cullum & Boren sold a toy gun, pictured on Page 65 of CX 3 and 4, identified as "P1020, Mattel Thunderburp", to its retail store customers at $1.90 each. In other words, $1.90 was Cullum & Boren's wholesale price. This same gun is pictured on page 65 of respondents' catalogs CX 3 and 4 at the following prices: "C200 * * RETAIL $3.00". Mr. Childers further testified that Cullum & Boren handled the identical alarm clock pictured on page 39 of CX 5 and 6, identified as item "8G902, Fortune Electric Alarm", priced in respondents' catalogs at "C525 * * RETAIL $6.95." (CX 5 is respondents' 1958-59 Showroom Catalog, and CX 6 is respondents' 1958-59 Mail-Order Catalog.) Cullum & Boren sold this same alarm clock during the period 1958-59 to its retail customers at $4.57 each. In other words, $4.57 was Cullum & Boren's wholesale price for this clock.

12. Cullum & Boren also operates a retail sporting goods store in Dallas, in addition to its wholesale-jobber operation. Mr. Childers also testified with respect to Cullum & Boren's retail prices on certain merchandise, in addition to its wholesale prices for the same merchandise. On page 40 of CX 5 and 6, there is pictured, among other things, a tennis racket, identified as item "8S111", Davis Cup, "C1525 * * RETAIL $23.00". Mr. Childers testified that Cullum & Boren sold this identical tennis racket to retail stores at a price of $12.48 each, and to customers in its Dallas retail store at $14.40 each. In other words, Cullum & Boren's wholesale price on this racket was $12.48 each, and its retail price was $14.40. (Cullum & Boren's retail price was 85 cents less than respondents' advertised "wholesale price.) On the same page of respondents' catalog, item "8S162", a Comet, Wright & Ditson Tennis Racket, is priced at "C745 * *"
RETAIL $10.95". Thus, respondents represented that their price of $7.45 was the "wholesale" price and $10.95 was the "retail" price for this tennis racket. Mr. Childers testified that Cullum & Boren sold this identical tennis racket to retail stores at $6.39 each, and its price to consumer-purchasers in its Dallas retail sporting goods store was $7.50 each.

13. Mr. Charles F. Pierce, group supervisor and former buyer of heavy housewares and small electrical appliances from October, 1958, to May 9, 1960, at Sanger Brothers, a large department store in Dallas, testified concerning the cost to Sanger Brothers for certain items of merchandise, including mailboxes and coffee makers, purchased from the manufacturer, and Sanger's retail selling price for the same articles. On page 46 of CX 5 and 6, a mailbox, among other merchandise, is pictured and identified as item "SH114, Mail Box, Jumbo size ** C560 ** RETAIL $8.95." Mr. Pierce testified that, during the period 1958-59, Sanger Brothers sold this same mailbox at retail for $5.99. Sanger purchased this mailbox direct from the manufacturer, Southern Fabricators Corporation, Shreveport, Louisiana, at a wholesale price of $3.60 each. Mr. Pierce identified another mailbox pictured on the same page of CX 5 and 6, listed as item "SH109, C350 ** RETAIL $6.95." Mr. Pierce testified that Sanger Brothers also purchased this mailbox from Southern Fabricators at a wholesale price of $2.40 each, and that Sanger's retail selling price for the same mailbox was $3.99 each, during the period 1958-59. Mr. Pierce also testified concerning a coffee maker pictured on page 67 of CX 5 and 6. The coffee maker is described in CX 5 and 6 as item "SF363, West Bend 24-cup Automatic Coffee Maker, C1995 ** RETAIL $29.95." Mr. Pierce testified that Sanger's handled this same coffee maker during the period 1958-59, and that Sanger's cost price was $13.81, and its retail selling price was $19.90.

14. Mr. Harold Joseph Bourne, a drug buyer at Schwegmann Brothers' Giant Supermarkets, New Orleans, Louisiana, testified that his employer carried in stock and sold the "New Norelco Speed-shaver" identified as item "B126", pictured on page 23 of CX 4 and priced at "C1387 ** RETAIL $24.95." Mr. Bourne testified that Schwegmann Brothers sold this same razor during the period 1957-58, at a retail price of $14.44, and that Schwegmann's cost price for this razor was $12.86. Mr. Bourne further testified: Schwegmann carried the Remington Rollectric Shaver identified as item "B100", "C1850 ** RETAIL $31.50", shown on page 24 of CX 4; that Schwegmann sold this same razor at a retail price of $19.93 dur
the period 1957-58, and that the cost to Schwegmann was $17.83. Mr. Bourne also testified concerning a Norelco Razor shown on page 23 of CX 6, identified as item "8B126 New Norelco Speedshaver," "C1447 ** RETAIL $24.95". Mr. Bourne testified that: Schwegmann carried this same razor in stock during the period 1958-59 and sold it to the retail trade at a price of $13.44; and Schwegmann's cost on this razor was $12.86 each. Mr. Bourne also testified that Schwegmann's sold the GE portable mixer pictured on page 66 of CX 6, item "8F467", priced at "C1385 ** RETAIL $19.95". Mr. Bourne further testified that Schwegmann sold this same mixer at a retail price of $14.38 during the period 1958-59, and that its cost on this mixer was $13.07. Mr. Bourne also testified concerning Schwegmann's selling price of the GE Rotisserie Oven, item "8F480", pictured and priced on page 67 of CX 6, at "C0230 ** RETAIL $89.95". Mr. Bourne further testified as follows: Schwegmann sold this same oven during the period 1958-59; Schwegmann's cost on this oven was $58.90, and Schwegmann's sold the oven at a retail price of $84.79.

15. Employees from other retail stores in Dallas and New Orleans also testified concerning their stores' costs and retail selling prices of various articles of merchandise sold by their stores, which articles of merchandise were identified as being comparable with merchandise advertised and pictured in respondents' catalogs. The testimony of each of these witnesses will not be discussed in detail because, to do so, would unduly prolong the length of this decision. The evidence and testimony which have been detailed and discussed above are sufficient to indicate that respondents' "coded" prices for merchandise which they have advertised and represented in the catalogs and on radio and television stations as being "wholesale" prices, are not, in fact, wholesale prices, but are in excess of the wholesale prices for the particular merchandise advertised. Also, respondents' use of the word "retail" to designate articles of merchandise listed for sale in their catalogs constitutes a representation to the public that these prices are the generally prevailing retail prices for the articles of merchandise in the trade area or areas where the representation is made. Leeds Travelwear, Inc., Docket No. 8410, July 20, 1962 [61 F.T.C. 152]. See also, In the Matter of Baltimore Luggage Company, Docket No. 7683 (1961) [58 F.T.C. 451], 296 F. 608 (4th Cir., 1961) [7 S&D. 251]. However, the evidence shows that the prices advertised in respondents' catalogs as "retail" prices for certain articles of merchandise are, in many instances, in excess of the prices at which said merchandise is usually
and regularly sold at retail in the Dallas, Texas, and New Orleans, Louisiana, trade areas, respectively. Furthermore, the difference between respondents' advertised "wholesale" and "retail" prices do not represent savings from the prices at which said merchandise is usually and customarily sold at retail. Said statements and representations, herein found, are false and misleading, in violation of Section 5 of the Federal Trade Commission Act.

16. Respondents urge, among other things, that they have not distributed any catalogs or other advertising outside the State of Texas since 1958, and that there is no proof in the record that respondents used the term "wholesale" with respect to prices in their catalogs after 1958, when respondents entered into a Stipulation and Agreement with the Federal Trade Commission to cease and desist from using the words "wholesale", "wholesaler", or comparable terminology in their advertising and catalogs; that, since the execution of this Stipulation and Agreement on August 5, 1958, respondents have complied in all respects with this agreement and have discontinued use and reference to the term "wholesale" or "wholesaler" with respect to prices set forth in respondents' catalogs and other advertising, including radio and television broadcasts and, therefore, say respondents, there is a total absence in the record of any evidence to support the charge that respondents falsely represented in their catalogs and advertising that merchandise could be purchased from them at "wholesale" prices. The Stipulation and Agreement above referred to is in evidence as CX 13A–C.

17. In answer to this contention, it is noted that the Stipulation and Agreement does not proscribe respondents' use of the terms "wholesale" or "wholesaler" in their catalogs or other advertising. Under the terms of the Stipulation and Agreement, The Sessions Company agreed to cease and desist from: (1) Representing as the retail or regular price of an article of merchandise any amount which is in excess of the price at which such article was customarily and regularly sold at retail; (2) Comparing its own coded selling prices with quoted "Retail" prices for articles subject to a Federal Excise Tax, without clearly and conspicuously disclosing that such tax is reflected in the latter price and that its coded prices are exclusive of such tax; and (3) Using the unqualified term "gold" or a similar term to describe watchcases or related articles unless they are composed throughout of fine (24-Karat) gold; etc. It is seen, therefore, that respondents' use of the words "wholesale" or "wholesaler" was not the subject of the Stipulation and Agreement entered into in 1958. Also, even if it should be assumed as true, as respond-
ents contend, that they did discontinue (beginning with their 1959-60 catalog (CX 7)), referring to their coded selling prices as "whole-
sale" prices, this did not validate the false representations as to
prices contained in their earlier catalogs and broadcasts (CX 1, 2,
3, 4, 5, 6, and CX 14-19) or make them any the less false, misleading
and deceptive. Respondents may not, as in Argus Cameras, Inc.,
Docket 6199 [51 F.T.C. 405], and Bell & Howell Co., Docket 6729
[54 F.T.C. 108], successfully contend that the complaint should be
dismissed on the theory that respondents have voluntarily abandoned
the practices complained about and will not be resumed in the future
because respondents have not shown any unusual circumstances pre-
sent in this case which would justify dismissal of the complaint.

18. Respondents also argue that they discontinued the distribu-
tion of catalogs after CX 7 was distributed in 1959-60 because re-
spondents' mail-order business had ceased to be profitable. Although
the evidence indicates that respondents' volume of sales had begun
to decline in 1959, nevertheless, respondents continued to issue a
catalog after CX 7 was issued in 1959-60. The evidence shows that
respondents issued a catalog (CX 71) for the period 1960-61. This
line of argument is unavailing. Besides, the complaint is not directed
toward respondents' distribution of catalogs. The complaint is di-
rected toward respondents' false and deceptive representations as to
the prices of merchandise advertised in their catalogs and on radio
and television broadcasts.

19. Respondents also argue that the sales of The Sessions Com-
pany are composed almost exclusively of "over-the-counter" sales
made in Dallas and, therefore, its trade area is limited to the Dallas
trade area and does not include the New Orleans, Louisiana, trade
area; therefore, say respondents, the testimony of the employees of
the five New Orleans retail firms as to retail prices of merchandise
in the New Orleans trade area does not establish the customary and
usual retail prices of this merchandise in the Dallas trade area, where
The Sessions Company was doing business. This line of argument
ignores the facts established in the record that over a period of years,
the respondents have distributed a substantial number of their cat-
alogs outside the State of Texas, some, presumably in the State
of Louisiana, and have made a substantial number of mail-order
sales of merchandise to customers located in New Orleans and other
towns in the State of Louisiana. This merchandise was shipped by
The Sessions Company from its place of business in Dallas to these
customers located in Louisiana. Even disregarding the testimony of
the employees of the New Orleans stores as to the regular retail
prices of merchandise which prevailed in the New Orleans trade area, there is still an abundant amount of testimony from employees of Dallas stores with respect to the retail prices of some of the articles of merchandise advertised in respondents' catalogs to establish the allegations in the complaint that many of the prices of merchandise advertised in respondents' catalogs were false and deceptive.

20. The respondents also argue that, despite respondents' affirmative representations in their catalogs as to the retail price for an article of merchandise, such as “RETAIL $12.50”, there is, in fact, no regular and usual retail price for certain specified articles of merchandise listed in respondents' catalogs for the Dallas trading area. This is an anomalous argument. It is based on the testimony by Mr. Cashion to the effect that specified articles of merchandise listed in his company's catalog had no usual and regular retail selling prices in the Dallas trading area. Mr. Cashion gave this testimony notwithstanding the listing in each of respondents' catalogs of a "retail" price for each article of merchandise, in addition to the coded "wholesale" price. According to the testimony of Mr. Cashion's partner, the individual respondent Hoyt M. Sessions (Paragraph 8 hereof), the "retail" prices listed in the catalog were either the manufacturer's list price for the merchandise or the price at which the article was selling for by his competitors. If Mr. Cashion's testimony should be taken at face value, then it is clear that the "retail" prices listed in respondents' catalogs for the specific articles referred to by Mr. Cashion in his testimony are false and deceptive because, according to Mr. Cashion, the specified article, as a matter of fact, did not have any regular retail price. Additional contentions are made by respondents, but their merit does not warrant further discussion.

21. The use by the respondents of the false and deceptive statements and representations as found herein have had and now have the capacity and tendency to mislead a substantial portion of the purchasing public into the erroneous and mistaken belief that such statements are true and into the purchase of substantial quantities of respondents' merchandise because of said erroneous and mistaken belief. As a result thereof, trade in commerce has been unfairly diverted to the respondents from their competitors and injury has been done to competition in commerce.

22. After the original closing of the reception of evidence herein and, subsequent to the filing of proposed findings of fact, conclusions of law and order by respective counsel, upon the motion of counsel for respondents, the record of this proceeding was reopened
for the reception in evidence of a certified copy of the Adjudication of Bankruptcy of The Sessions Company, No. BK-3-63-3, before Elmore Whitehurst, Referee in Bankruptcy, United States District Court for the Northern District of Texas, on January 30, 1963. Since The Sessions Company is now an involuntary bankrupt, no useful purpose would be served in issuing an order against that respondent. However, an order will be directed toward the individual respondents Hoyt M. Sessions and K. M. (Kim) Cashion, Jr., who, the evidence shows, have at all times controlled and directed the acts and practices of the involuntary bankrupt corporate respondent. Pati-Port, Inc., et al. v. F.T.C., 313 F. 2d 103 [7 S&D. 639 (4th Cir., 1960)].

CONCLUSIONS

The aforesaid acts and practices of respondents, as herein found, were and are to the prejudice and injury of the public and of respondents' competitors and constituted, and now constitute unfair and deceptive acts and practices and unfair methods of competition, in commerce, within the intent and meaning of the Federal Trade Commission Act.

ORDER

It is ordered, That the individual respondents Hoyt M. Sessions and K. M. (Kim) Cashion, Jr., their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of merchandise in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication:
   (a) Through the use of the word "wholesale" or any other word or words of similar import, or in any other manner, that any merchandise is offered for sale or sold at wholesale prices unless the price at which it is offered is, in fact, the price at which said merchandise is usually and customarily sold at wholesale, in the trade area or areas in which the representation is made.
   (b) That any amount is the wholesale price of an article of merchandise when such amount is in excess of the price at which said merchandise is usually and customarily sold at wholesale, in the trade area in which the representation is made.
   (c) That any amount is the usual and customary retail price of merchandise when such amount is in excess of the
price at which such merchandise is usually and customarily sold at retail in the trade area or areas where the representations are made.

(d) That any saving is afforded in the purchase of merchandise from the usual and customary retail price in the trade area or areas in which the representation is made unless the price at which the merchandise is offered constitutes a reduction from the price at which said merchandise is usually and customarily sold at retail in the trade area or areas where the representation is made.

2. Misrepresenting, in any manner, the amount of savings available to purchasers of respondents' merchandise or the amount by which the price of said merchandise has been reduced from the price at which it is usually and customarily sold at retail in the trade area or areas where the representations are made.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to the corporate respondent The Sessions Company, an involuntary bankrupt.

DECISION OF THE COMMISSION AND ORDER TO FILE REPORT OF COMPLIANCE

This matter having been considered by the Commission pursuant to its order of June 19, 1963, placing the case on its docket for review, and the Commission having now determined that the initial decision of the hearing examiner is adequate and makes an appropriate disposition of this proceeding:

It is ordered, That the initial decision be, and it hereby is, adopted as the decision of the Commission.

It is further ordered, That the respondents Hoyt M. Sessions and K. M. (Kim) Cashion, Jr., shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist contained in the initial decision.
