PAR. 5. Through the use of the advertisements set forth in Paragraph Four, and others similar thereto but not specifically set forth herein, each of the respondents directly or indirectly invites and induces persons seeking to lose weight to attend its respective clinics and purchase its respective treatments to achieve this purpose. Said advertising fails to disclose the following material facts to prospective consumers:

1. The treatment offered by each respondent involves injections of the drug HCG;
2. The drug HCG is not approved by the Food and Drug Administration as safe and effective for the treatment of obesity or weight control.

Therefore, each respondent's advertisements were and are misleading in material respects and constituted, and now constitute "false advertisements" as that term is defined in the Federal Trade Commission Act; and the aforesaid advertisements were, and are, false, misleading, deceptive and unfair.

PAR. 6. The drug laws of the United States have been established by Congress to protect consumers from being subjected to certain drugs before such drugs have been approved by the Food and Drug Administration as both safe and effective for specific uses. Each respondent's advertising, promotion and marketing has the capacity to induce potentially large numbers of persons who desire to lose weight to be subjected to its respective treatments. Said treatments include numerous injections of the prescription drug HCG, which has not been approved by the Food and Drug Administration as safe and effective for the treatment of obesity or weight control, as provided for in the Federal Food, Drug and Cosmetic Act. Furthermore, the total cost of said treatments to each patient is substantial. Therefore, each respondent's advertising, promotion and marketing of a costly treatment which involves the use of a prescription drug prior to approval by the Food and Drug Administration as both safe and effective for its intended use is unfair.

PAR. 7. The aforesaid acts and practices of respondents as herein alleged, including the dissemination of "false advertisements," were and are all to the prejudice and injury of the public and constituted, and now constitute, unfair or deceptive acts or practices in violation of Sections 5 and 12 of the Federal Trade Commission Act.

INITIAL DECISION BY JOSEPH P. DUFRESNE, ADMINISTRATIVE LAW
JUDGE AS TO J. WILLIAM BYRD, MEDICAL WEIGHT LOSS, INC.,
AND DARREL P. SIMPSON JANUARY 7, 1975

PRELIMINARY STATEMENT

[2] In a complaint issued on October 15, 1974, in accord with its Rule 3.11, the Federal Trade Commission instituted a proceeding charging respondents with false, misleading, deceptive and unfair advertising for their weight reduction clinics where the "Simeon" or "Simeons" Method is used.

In the complaint it was alleged (1) that the method includes numerous injections of the prescription drug human chorionic gonadotropin (HCG) which has not been approved by the Food and Drug Administration (FDA) as safe and effective for the treatment of obesity or for weight control (complaint, Pars. Two and Six), and (2) that the total cost of the treatments per patient is substantial (complaint, Par. Six).

Therefore, it was alleged, it is unfair and violative of Sections 5 and 12 of the Federal Trade Commission Act (15 U.S.C. §§45 and 52) for respondents to advertise, promote and market their method prior to FDA approval of HCG as being both safe and effective for its use in treating either obesity or weight control (complaint, Pars. Six and Seven).

[3] Commission records show that respondent J. William Byrd received a copy of the Complaint on November 21, 1974 (pp. 9 and 10, transcript of prehearing conference). Respondents Medical Weight Loss, Inc., and Darrel P. Simpson received their copies on October 21, 1974 (p. 8, transcript of prehearing conference). However, none of these three respondents filed an answer to the complaint within the thirty (30) days allowed under Commission Rule 4.3, nor have they done so to date. The other respondents in this matter have filed answers to the allegations.

The failure by the three respondents to file an answer constitutes a waiver of their right to appear and contest the allegations. This is noted in the notice section* of the complaint (pp. 6 and 7). The same section also alerts respondents to the fact that failure to answer authorizes the administrative law judge to find the facts as alleged and to enter an initial decision (see also Commission Rule 3.12(c)).

On the basis of the allegations, it is clear that this proceeding is concerned with risks to which members of the public are exposed, particularly if they contract with respondents for obesity or weight

control treatments in accord with the Simeon Method. Such proceedings are within the purview of Sections 12 and 13 of the Federal Trade Commission Act (15 U.S.C. §§ 52 and 53) which, in pertinent part, have to do with bringing an end, as promptly as possible, to the false advertising of drugs; and HCG is a drug (complaint, Par. Two).

Consequently, I am of the opinion that my initial decision in this matter, insofar as the three nonanswering respondents are concerned, should be rendered as promptly as possible, consistent with their being accorded due process. My view that the decision should be rendered as promptly as possible is buttressed by the fact that the Commission sought to obtain a preliminary injunction in the United States District Court for the Northern District of California (C74-2226 WHO) to bring an end to the offensive practices pending litigation of the allegations made in the complaint.

[4] With regard to their rights to due process, deferral of the rendition of this decision as to these three respondents until after the prehearing conference, which none of the three attended, has accorded them more than the right to due process requires. They have had ample notice both of the charges and of their opportunity to contest them. 5 U.S.C. §554(b) and (c), (formerly the Administrative Procedure Act); *United States v. San Juan Lumber Co., Inc.*, 313 F. Supp. 703 (U.S. Dist. Ct. Colo. - 1969); *Goldberg v. Kelly*, 397 U.S. 254 (1970); *Golden Grain Macaroni Company v. Federal Trade Commission*, 472 F.2d 882 (9th Cir. 1972), *cert. denied*, 412 U.S. 918 (1973).

Accordingly, complaint counsel's motion that these three respondents be declared in default and that an initial decision, conclusion and order against them should issue, which motion was made to me at the prehearing conference (p. 7, transcript of prehearing conference), is granted.

Complaint counsel's motion for a summary decision against respondents Harvey J. Lobelson and Weight Reduction Clinic (p. 44, transcript of prehearing conference) is denied because those respondents have amended their answer to deny the key charge in Paragraph Six of the complaint which formed the primary basis for that motion.

Any motions not heretofore or herein specifically ruled upon, either directly or by the necessary effect of the conclusions in the initial decision, are hereby denied. The findings of fact made herein are based on the failure to answer, on a review of the allegations made in the complaint and on an examination of the transcript of the prehearing conference which was held in San Francisco on December 2, 1974.

In accord with Rule 3.12(c), the undersigned hereby makes the following findings of fact, conclusions and order.

FINDINGS OF FACT AS TO RESPONDENTS J. WILLIAM BYRD,
MEDICAL WEIGHT LOSS, INC., AND DARREL P. SIMPSON.

(1) Respondent J. William Byrd is, or when the complaint was filed was, an officer of said corporate respondent Simeons Weight Clinics Foundation.
