AT LAST — NEW HOPE FOR ACNE SUFFERERS!  
**If You Have ACNE — NOW!**  
**Doctor's Special Treatment**  
**For Lasting Help!**

This new treatment is the result of years of experience by Dr. Harvey Glass, M.D., dermatologist and Medical Director of Phase IV Acne Clinics

Let me first explain what acne is. It is a condition in which the skin's pores and the Sebaceous (oil) glands in which the cores of the skin are blocked by unwhipped blackheads, whiteheads, pimples and spots. Sebaceous glands produce a substance called Sebum. Sebum causes irritation and oily inflammation. It is a skin disease that is most prevalent in teenagers and young adults but can also strike at any age.

**Discovered After Years of Treating Acne Patients**

What I discovered in my Acne Clinics is that you can't get rid of acne until you have opened the skin surface and the C-Acne Bacteria beneath the skin surface must be removed. After years of treating acne, I developed a special compress solution. Acne Lotion 22 contains among its ingredients, a mild surfactant that breaks the skin surface and allows for deep action by the products. Included also is a Therapeutic Drawing Mask with sublimed sulfur that dries and quenches the

Acne while the ingredients work to finish the job. With pores open and much of the C-Acne bacteria flushed away, the body's own defenses can then fight off the remaining bacteria. Pimples that are not fully formed are prevented from developing. Redness and irritation is reduced and eliminated. Scar producing peeling is avoided along with the spreading of bacteria to other areas of the skin.

**Why This Special Offer Through The Mail?**

Because all the Acne sufferers in the U.S.A. can't possibly come to my clinics, I have developed this special treatment program for you. I have developed this treatment program because I believe it is the best program available for treatment in the home and will ultimately provide relief and help for almost all cases.

PAR. 6. Through the use of said advertisements and other advertisements referred to in Paragraphs Four and Five, respondents represented, and now represent, directly or by implication that:

a. Use of "Acne Lotion 22" and/or "Acne Masque," either alone or as part of "the Home Acne Kit," will cure acne regardless of the severity of the condition.

b. "Acne Lotion 22" and/or "Acne Masque," either alone or as part of "the Home Acne Kit," can penetrate the pores of the skin to eliminate the bacteria responsible for pimples, blackheads, whiteheads, and other acne blemishes.

c. Several minutes after use of "Acne Lotion 22" the bacteria responsible for acne are flushed out of the pores of the skin and can be easily eliminated from the skin surface.

d. "Acne Lotion 22" and "Acne Masque," either alone or as part of "the Home Acne Kit," have been medically and scientifically proven effective in the treatment of acne by clinical testing.

PAR. 7. In truth and in fact:

a. Use of "Acne Lotion 22" and/or "Acne Masque," either alone or as part of "the Home Acne Kit," will not cure acne.

b. "Acne Lotion 22" and/or "Acne Masque," either alone or as part of "the Home Acne Kit," cannot penetrate the pores of the skin to eliminate the bacteria contributively responsible for pimples, blackheads, whiteheads and other acne blemishes.

c. The bacteria contributively responsible for acne cannot be flushed out of the pores of the skin and easily eliminated from the skin surface.

d. "Acne Lotion 22" and "Acne Masque," either alone or as part of "the Home Acne Kit," are not medically or scientifically proven effective in the treatment of acne by clinical testing.

Therefore, the advertisements referred to in Paragraphs Four and Five were and are misleading in material respects and constituted, and now constitute, false advertisements, and the statements and representations set forth in Paragraph Six, were and are false, misleading or deceptive.

PAR. 8. Furthermore, through the use of the advertisements referred to in Paragraphs Four and Five, respondents represented, and now represent that:

a. Use of "Acne Lotion 22" and/or "Acne Masque," either alone or as part of "the Home Acne Kit," will result in skin free of pimples,

blackheads, whiteheads, other blemishes associated with acne and scarring, regardless of the severity of the disease.

b. "Acne Lotion 22" and/or "Acne Masque," either alone or as part of "the Home Acne Kit," are superior to all prescription and/or over-the-counter acne preparations in the treatment of acne.

c. "The Home Acne Kit" is superior in the treatment of acne to any other treatment, including but not limited to treatments offered by dermatologists other than Dr. Harvey Glass, whose endorsement of "the Home Acne Kit" appears in said advertisements.

PAR. 9. In truth and in fact, there existed at the time of the first dissemination of the representations in Paragraphs Six and Eight no reasonable basis for making them, in that respondents lacked competent and reliable scientific evidence to support each such representation. Therefore, the making and dissemination of said representations as alleged constituted, and now constitute, unfair or deceptive acts or practices in or affecting commerce.

PAR. 10. In the course and conduct of its aforesaid business, and at all times mentioned herein, the respondents have been, and now are, in substantial competition in or affecting commerce with corporations, firms and individuals representing or engaged in the over-the-counter and prescription drug industries.

PAR. 11. The use by respondent of the aforesaid unfair or deceptive representations and the dissemination of the aforesaid false advertisements has had, and now has, the capacity and tendency to mislead members of the consuming public into the erroneous and mistaken belief that said representations were and are true.

PAR. 12. The aforesaid acts and practices of the respondents, as herein alleged, including the dissemination of the aforesaid false advertisements, were and are all to the prejudice and injury of the public and of respondents' competitors, and constituted and now constitute, unfair methods of competition in or affecting commerce, and unfair or deceptive acts or practices in or affecting commerce, in violation of Sections 5 and 12 of the Federal Trade Commission Act.

#### DECISION AND ORDER

The respondents and counsel for the Commission having thereafter executed an agreement containing a consent order, an admission by the respondents of all the jurisdictional facts set forth in the aforesaid draft of complaint, a statement that the signing of such agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as alleged in such complaint, and waivers and other provisions as required by the Commission's Rules; and

The Commission having thereafter considered the matter and having determined that it had reason to believe that the respondents have violated the said Act, and that complaint should issue stating its charges in that respect, and having thereupon accepted the executed consent agreement and placed such agreement on the public record for a period of sixty (60) days, now in further conformity with the procedure prescribed in Section 2.34 of its Rules, the Commission hereby issues its complaint, makes the following jurisdictional findings, and enters the following order:

**AT LAST—NEW HOPE FOR ACNE SUFFERERS!**  
**If You Have ACNE—Now A Doctor's Special Treatment For Lasting Help!**

This new treatment is the result of years of experience by Dr. Harvey Glass, M.D., dermatologist and Medical Director of Phase IV Acne Clinics. Acne, which is responsible for 80% of all skin problems, is a condition involving the skin's pores and the Sebaceous (oil) Glands, in which the pores of the skin are blocked by impurity, blackheads, whiteheads, pimples and spots. The impurities that block the pores are the result of the Sebaceous Glands' failure to function properly. Sebaceous Glands produce sebum, which is the skin's natural oil. It is a skin disease that is most prevalent in teenagers and young adults but can also come at any age.

**Discovered After Years of Treating Acne Patients**  
What I discovered in my Acne Clinics is that you can cure acne by opening the pores and unclogging the skin surface. The pore openings must be cleared, disinfected and opened and the C-Acne Bacteria beneath the skin surface must be removed.

Dr. Glass's Acne Treatment Kit was developed as a special regimen for a home treatment. It includes a very special compress solution, Acne Lotion 22, containing among its ingredients, a mild surfactant that cleanses the skin, a disinfectant that kills the bacteria, and a pore-clogging agent that allows for deep action by the ingredients. Included also is a Therapeutic Drawing Mask with sublimed sulfur that dries and quiets the skin.
