[Program Announcement 00127]

**Developing a Model System for the Collection, Analysis, and Dissemination of Data on Genetic Tests; Notice of Availability of Funds**

**A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the

availability of fiscal year (FY) 2000 funds for a cooperative agreement program for Developing a Model System for the Collection, Analysis, and Dissemination of Data on Genetic Tests. CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2010," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the focus area of Public Health Infrastructure. For the conference copy of "Healthy People 2010," visit the Internet site: <<http://www.health.gov/healthypeople>>.

The purpose of the program is to develop and evaluate a model system to assess the availability, quality, and usefulness of existing data on DNA-based genetic tests and testing algorithms. These data are needed to facilitate the appropriate transition of genetic tests from investigational settings to clinical and public health practice. By identifying data gaps and needs, this project can influence the way that genetic testing data are collected and analyzed in the future.

**B. Eligible Applicants**

Applications may be submitted by public and private nonprofit organizations and by governments and their agencies; that is, universities, colleges, research institutions, hospitals, other public and private nonprofit organizations, State and local governments or their bona fide agents, and federally recognized Indian tribal governments, Indian tribes, or Indian tribal organizations.

**Note:** Public Law 104-65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.

**C. Availability of Funds**

Approximately \$200,000 is available in FY 2000 to fund one award. It is expected that the award will begin on or about September 30, 2000, and will be made for a 12-month budget period within a project period of up to 3 years. Funding estimates may change.

Continuation awards within an approved project period will be made
