Analysis of Proposes Consent Order To Aid Public Comments

The Federal Trade Commission has accepted an agreement to a proposed consent order from Riley Manufactured Homes, Inc., and its president, Dennis Ohnstad ("respondents").

The proposed consent order has been placed on the public record for thirty (30) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement and take other appropriate action or make final the agreement's proposed order.

The Commission's complaint alleges that respondents' credit advertisements violated section 144 of the Truth in Lending Act, ("TILA"), 15 U.S.C. 1664, and Section 226.24 of Regulation Z, 12 CFR 226.24. Congress established statutory disclosure requirements for credit advertising under the TILA and directed the Federal Reserve Board ("Board") to promulgate a regulation implementing such statute—Regulation Z. See 15 U.S.C. 1601-1667e; 12 CFR part 226.

According to the complaint, respondents' advertisements stated a rate of finance charge for financing the purchase of manufactured homes but did not properly disclose the rate as an annual percentage rate, as required by Regulation Z. The complaint also alleges that respondents' credit advertisements stated a monthly payment amount or other "triggering" terms (the amount or percentage of any downpayment; the number of payments or the period of repayment; the amount of any payment;

or the amount of any finance charge), but failed to disclose the following information required by Regulation Z: the amount or percentage of the downpayment; the terms of repayment; and the annual percentage rate.

The proposed consent order contains provisions designed to remedy the violations charged and to prevent the proposed respondents from engaging in similar acts in the future. In particular, Part I of the proposed order prohibits respondents from: (A) Stating a rate of finance charge without disclosing the APR; (B) using triggering terms without providing the additional disclosures required by Regulation Z; and (C) failing to comply with TILA and Regulation Z. Part II of the proposed order requires respondents to maintain and make available records of compliance for five years. Part III requires respondents to distribute copies of the order to company personnel. Part IV requires respondents to notify the Commission of changes in corporate structure that may affect compliance obligations under the proposed order. Part V requires the individual respondent to notify the Commission of changes in his employment status for three years. Part VI requires respondents to file compliance reports. Finally, Part VII sunsets the proposed order after twenty years.

The purpose of this analysis is to facilitate public comments on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

By direction of the Commission.

Donald S. Clark,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Program Announcement 00122]

Prevention and Control Micro-Nutrient Malnutrition; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC), Division of Nutrition and Physical Activity (DNPA) announces the availability of fiscal year (FY) 2000 funds for a sole source cooperative agreement program with the World Health Organization (WHO), Geneva, Switzerland, for the prevention and control of micro-nutrient malnutrition.

B. Eligible Applicant

Single Source

Assistance will be provided only to the World Health Organization (WHO) in Geneva, Switzerland. No other applications are solicited.

WHO is the most appropriate and qualified agency to conduct the activities under this cooperative agreement because; WHO (a) has demonstrated the necessary expertise and experience in technical, policy, and

program issues relating to micro-nutrient malnutrition; (b) maintains relationships with officials of ministries of health and other policy makers throughout the region; and (c) serves as the source of international standards for nutritional status, including micro-nutrient status.

1. WHO supports micro-nutrient malnutrition intervention programs throughout the Eastern Mediterranean region. In the past 10 years WHO through WHO/EMRO has made progress in working towards the prevention of iron deficiency anemia (IDA) and the elimination of iodine deficiency disorders (IDD). WHO through WHO/EMRO identified flour fortification with iron and folate as the best preventive and most sustainable strategy for IDA, as bread and other wheat-flour products are widely consumed in the countries of region. Through regional workshops, WHO through WHO/ERMO has helped countries write action plans for flour fortification with iron and folate and at present six countries have either begun or are in the process of beginning flour fortification. Additionally, WHO through WHO/EMRO supports country-based salt iodization programs throughout the region which has had a significant impact on reducing the burden of iodine deficiency disorders.

2. The proposed program is strongly supportive of, and directly related to, the achievement of WHO through WHO/EMRO and the CDC/Micro-nutrient Malnutrition Program objectives for the prevention and control of micro-nutrient malnutrition.

3. WHO is the only organization within the Eastern Mediterranean Region that has demonstrated the experience and maintains relationships with officials of ministries of health throughout the region in order to coordinate micro-nutrient malnutrition programs.

C. Availability of Funds

Approximately \$250,000 is available in FY 2000 to fund one award. It is expected that the award will begin on or about September 30, 2000 will be made for a 12-month budget period within a project period of up to two years.
