General description of report: This information collection is voluntary (12 U.S.C. sections 225a and 353 *et seq.*) and the data collected will no longer be treated as confidential.

Abstract: This report collects information on the monthly volume of medium-term notes issued by corporations. The Federal Reserve Board obtains the data from a universe of issuers (currently 424 corporations). The survey is conducted monthly, quarterly, or semiannually, depending on the reporter's level and frequency of issuance activity. In addition, once a year, all reporters report the amount of medium-term notes outstanding. The information collected on the report is used to estimate the volume of new securities issuance by U.S. corporations that is published in the *Federal Reserve Bulletin* and to construct estimates of corporate securities outstanding that are used in the flow of funds accounts.

Board of Governors of the Federal Reserve System, January 27, 1997.
