Re: Proposed Consent Order
In the Matter of Reed Elsevier and ChoicePoint, FTC File No. 081-0133

Dear Mr. Clark:

I'm writing regarding the proposed consent order and acquisition of ChoicePoint by Reed Elsevier. I am an investigator providing services to, attorneys, state and US courts. I rely on services provided by both Reed Elsevier and ChoicePoint and their subsidiaries to assist me in serving these clients.

Over the past several years there has been tremendous consolidation among providers of public records services. This proposed acquisition will further reduce competition in the industry. Although there are several providers of data services in the marketplace, they are resellers of data provided by the respondents.

The Commission's complaint found that this acquisition would be anticompetitive and a violation of antitrust law in the market for the sale of public records information to law enforcement agencies. The same effects would be felt in the market for sale of public records to the private sector.

It is important to have access to data from several suppliers during the conduct of an investigation. Limited resources reduce both the quality and quantity of information available.

I urge that the Commission not approve the acquisition until respondents can divest themselves of public records services provided to private industry as well as to law enforcement.

Unless an appropriate remedy is offered competition will be reduced, incentives for innovation further reduced, prices will rise and service will suffer.

Thank you for your consideration.

Stephanie Pappas
