GHS Debt Solutions

Attention: Mark Donohue

Dear Mr. Donohue,

I wanted to tell you how much the GHS Debt solution program has helped me get out of debt and avoid bankruptcy. After starting my own business in 2003, I had accumulated thousands of dollars of debt in order to maintain my company and stay in business. When the market crashed a couple years ago, I started to suffer financial hardship and could not keep up with my credit card payments. I was referred to your company by another family member whom you've also helped. Your company has helped me settle \$22,000.00 dollars of debt for just under \$8,000.00 dollars. Thanks to GHS and their excellent customer service representatives and debt negotiators, I am officially debt free and am able to regain control of my finances. Since then, I have referred all of my friends and family to join the program to get on the right track to a debt free lifestyle. I hope that GHS debt settlement continues helping people get out of debt for many years to come.

Again, I would like to thank everyone at GHS who has worked with me and played a part in helping become debt free.

Sincerely,

Lloyd Singh
