I am a firefighter for the City of Los Angeles and have been for many years. Because they state is so in debt, they have taken away all overtime which is almost 30% of my income. It was getting to the point where we couldn't even afford to buy groceries after we paid our mortgage and our credit cards. After 2 months of draining my bank account I decided that I could no longer afford to pay my credit cards and I contact a bankruptcy attorney. I was just about to sign up with him and I received a call from Square One. They told me all about their program and that there is a possibility I don't have to file bankruptcy which I did not want to do. The program that square one signed me up for relieved so much stress for me and my wife. The phone calls have drastically gone down and we finally we like we are making progress to get ourselves out of debt. We haven't felt this way in years.

Because we signed up for this program, it has allowed us to afford our mortgage and keep our son in an after school learning program. The knowledge of the agents over at square one blew us away. They told us all the good and the bad that go with the industry and I even looked it up after to make sure he was telling us everything. He was so we signed up.

Thank you square one for saving me!! We were so stressed and now we can finally sleep knowing we have a great honest company working for us and we are getting ourselves out of debt.

Thank you,
