

Dear FTC,

My husband & I found ourselves in quite a bit of debt when we both lost our jobs and were using credit cards and loans to live on for awhile. We were going to file bankruptcy as that seemed our only option and then we found Debt Regret settlement company. We have been with them for 9 months now and they have already settled 2 of our accounts for us. The customer service we receive is excellent and they have been so helpful in our time of need. Debt Regret is invaluable to us and I'm asking that you not regulate debt settlement out of business. I'm not sure where we would be today without them!

Sincerely,
Sarah Clymer
