

I saw Freedom Debt Relief on TV during the morning show on channel 4 in San Antonio. I was a bit nervous at first because of all the things you hear about some of the companies, but Freedom Debt Relief earned my trust. From the first call to the final settlement, they were professional, friendly, and very helpful.

My husband and I were approaching retirement and were soon to be on a fixed income, and we weren't sure how we'd ever get all our credit cards paid off... the best thing I ever did was make that phone call!

There's more happiness in our lives now. We are now retired and have no more credit card debt. Everyone at Freedom Debt Relief was very, very helpful and we were so pleased with the program. The \$12,000 FDR settled our debts for was 69% less than our total debt. That was much more than we ever expected!

I would recommend FDR to anyone who needs similar help. It is a company you can trust. In fact, we told many of our friends about our success, and one of our friends is now a client.
