To a mother - grand mother
or great grand mother I
beg you to please stop the
food industries from putting
I had to resist unhealthy
advertising of junk foods
and drinks in front of our
kids - if sick & damaged
kids don't seem important
to some what about a
growing population of sick
& damaged adults
existing minds as well as
bodies as well as \$\$\$
in remedies -

We allow big business to
control our laws

Someone has to care enough
to fight this

I hope its you

Thank

Fabricea Barrie O'Neil
