Re: Indoor Tanning Association – Consent: FTC File #. 0823159

Dear Sir:

Thank you so much for your support for the consent order barring the tanning association from continuing to make false and deceptive claims about the health and safety benefits of indoor tanning. Hopefully, this will help initiate a behavior change with respect to UVA radiation exposure particularly in our young population and prevent skin cancers in the future.

Thank you for your efforts.

Sincerely,

Avis B. Yount, M.D.
