DR. OZ: A staggering, newly released study reveals that the coffee bean, in its purest raw form, may hold the secret to weight loss that you’ve been waiting for.

The study presented at a meeting of the world’s largest scientific society triggered unprecedented excitement for a weight-loss study. It showed women and men who took green coffee extract lost an astounding amount of fat and weight, 17 pounds --

22 weeks

DR. OZ: -- in 22 weeks by doing absolutely nothing extra in their day. Could this be the magic weight-loss bean to help melt away unwanted pounds that you’ve been waiting for?

(Applause and cheers.)

DR. OZ: Naturopathic Doctor and Certified Nutritionist Lindsey Duncan is here with the findings.

So, Dr. Lindsey, you love this bean.

DR. DUNCAN: Yeah.

DR. OZ: Why is that?

DR. DUNCAN: You know, I usually don’t recommend weight-loss supplements --

TEXT ON-SCREEN: For The Record, Inc.
DR. DUNCAN: -- but this one has got me really, really excited. So, and the medical community, the weight-loss community is all buzzing about this, and here’s why. The recent study that you were talking about earlier, they -- the participants took the capsules and they did nothing else, they didn’t exercise, they didn’t change their diet. They actually consumed 2,400 calories a day. They burned only 400 calories. Now, that’s weight gain, not weight loss.

DR. OZ: Yeah.

DR. DUNCAN: And they lost over 10 percent of their total body weight.

DR. OZ: Ten percent?

DR. DUNCAN: Ten percent. They lost 16 percent of their total body fat, and they lost about 17 pounds per participant, and they had no side effects, zero side effects.

DR. OZ: And how long did they have to take the pills for?

DR. DUNCAN: They did it for 12 weeks only.

DR. OZ: That’s remarkable.
MONDAY ON THE DR. OZ SHOW

THE TOP HEALTH BOOSTERS TO TURBOCHARGE YOUR METABOLISM

DR. DUNCAN: Yes.

DR. OZ: Are you guys interested in this?

AUDIENCE: Yeah.

(Applause and cheers.)

DR. OZ: So, this is the raw material for --

for coffee that we drink. Why wouldn’t just drinking

coffee do this?

DR. DUNCAN: Yeah, because when the coffee that

we drink is roasted, and when they roast it they roast it

at 475 degrees Fahrenheit.

DR. OZ: Hmm.

DR. DUNCAN: So, it changes the color, it turns

brown. It changes the aroma. It changes the taste. It

changes everything. But the most important thing it does

is it removes the chlorogenic acid. That’s the key to

what we’re talking about today.

DR. OZ: So, how does it work?

DR. DUNCAN: Well, it’s amazing. It’s what we

call a triple threat. Okay, and it’s the chlorogenic

acid that causes the effect, and it works three ways.

The first way is it goes in and it causes the body to

burn glucose or sugar and burn fat, mainly in the liver.

The second way, and the most important way, is it slows
the release of sugar into the bloodstream, so when you
don’t have sugar building up in the bloodstream you don’t
have fat building up because sugar turns to fat. And
everybody must remember that.

DR. OZ: Right.

DR. DUNCAN: When the two are combined
together, you get this synergistic effect that basically
burns and blocks and stops fat, but it also is natural
and safe.

DR. OZ: So, how much do folks have to take in
order to get the benefit?

TEXT ON-SCREEN:
THE DR. OZ SHOW
MIRACLE TO BURN FAT FAST
GREEN COFFEE BEAN EXTRACT
TAKE 800MG TWICE PER DAY

DR. DUNCAN: Eight hundred milligrams twice a
day, and you want to take it before meals, about 30
minutes before with a large glass of water.

DR. OZ: And I’m just going to -- it looks like
this, right? So --

DR. DUNCAN: It’s capsules.

DR. OZ: Capsules.

DR. DUNCAN: Mm-hmm.

DR. OZ: So you’re not going to take the actual
bean; you’re not having a coffee variant.

DR. DUNCAN: No.

DR. OZ: It probably wouldn’t taste that great anyway, so the capsules you can buy where?

DR. DUNCAN: You buy it online.

DR. OZ: Mm-hmm.

DR. DUNCAN: You want to make sure, and this is important, that it’s pure. So, you go to your web browser, you type in pure green coffee beans or pure green coffee bean extract.

DR. OZ: Hmm.

DR. DUNCAN: And you make sure that it doesn’t have all the additives, the excipients, the binders, the cellulose, and the silica and all the other stuff. So, look under other ingredients to make sure that it’s a pure product.

DR. OZ: Okay. Now, I always pride myself on having the smartest TV audience out there.

DR. DUNCAN: Mm-hmm.

DR. OZ: And, so, I’m hoping some of you are skeptical about this, because I was certainly skeptical about it. Am I speaking for a couple of you anyway?

AUDIENCE: Yeah.

DR. OZ: It does seem a little too good to be true. So, I gave the supplements to two viewers five...
days ago. And Kendra and Omyra are here to join us.
Welcome both of you to the show.

(Applause.)

TEXT ON-SCREEN:
THE DR. OZ SHOW
STILL AHEAD...
ALL-NATURAL CURES TO
BEAT YOUR BELLY BLOAT

KENDRA: Thank you.
DR. OZ: So, I’m going to preface this by saying I gave all the information we could find on this product to our medical unit. They did diligent work, but we still wanted to see what would happen in real life.
So, Kendra, you want to go first? Well, how did it work for you?

KENDRA: It gave me more energy than I usually have. It made me less hungry than I usually am, you know, in the beginning stages of trying to lose weight.
And I seemed to get fuller faster when I was eating.

DR. OZ: Okay, and did you exercise while you were on the program?

KENDRA: Not anything different that I don’t usually do.

DR. OZ: Okay. And, Omyra, how was it for you?

OMYRA: I did get a lot more energy. I didn’t
change my diet. Everything was the same. I was fuller,
and I was fuller longer, and I was excited with my
results, so . . .

DR. OZ: You were, she’s excited, okay, let’s
find out. Are you ready for the moment of truth?

OMYRA: Yes.

DR. OZ: Because we weighed you before and we
weighed you after. Kendra, we’ll take you up first.
Kendra started off at 176 pounds, and in five days, five
days with nothing else changing, you lost two pounds.

KENDRA: Mm-hmm.

(Appause.)

DR. OZ: Which is good. And to highlight this,
you didn’t do any physical activity whatsoever, so, I
mean, we always tell people to do activity and to be
smart about what they’re eating, but independent of all
that, you lost two pounds, which is what the studies had
sort of shown in that regard as well.

Omyra, your numbers, okay, again, five days ago
you were 255 pounds. Less than a week later, Omyra has
lost six pounds.

(Appause.)

DR. OZ: That’s more than a pound a day of
weight loss. I mean, I got to say, Lindsey, if I can
find things to help people lose a pound a day --
DR. DUNCAN: Yeah.

DR. OZ: -- I’d be talking about it a lot on the show. So, you guys going to keep taking it?

KENDRA: Yeah.

OMYRA: Absolutely.

DR. OZ: All right, now, we’ve conquered your fat, but what if your big belly is caused by bloating? I’ve got the all-natural cures to get your belly flat again. So, stay with us.

(Applause.)

(Whereupon, the talk show segment concluded.)
