EXHIBIT B
Exhibit B-1

Introducing iPhone 3G. With fast 3G wireless technology, Maps with GPS, support for enterprise features like Microsoft Exchange, and the new App Store, iPhone 3G puts even more features at your fingertips. And like the original iPhone, it comes with a 3.5-inch display—Sync content from the iTunes library on your Mac or PC. Scroll through songs and playlists with the touch of a finger. Even browse your album artwork using Cover Flow.

Great Widescreen iPod

iPhone is a widescreen iPod with touch controls that shows off your content—including music, videos, podcasts and audiobooks—on a beautiful 3.5-inch display. Sync content from the iTunes library on your Mac or PC. Scroll through songs and playlists with the touch of a finger. Even browse your album artwork using Cover Flow.

**Coverage Area Map**

Your phone’s display does not indicate the rate you will be charged. Please review your coverage map for areas included in and out of plan. Map depicts an approximation of outdoor coverage. Map may include areas served by unaffiliated carriers and may depict their licensed area rather than an approximation of the coverage there. Actual coverage area may differ substantially from map graphics and coverage may be affected by such things as terrain, weather, foliage, buildings and other obstruction, signal strength, customer equipment and other factors. AT&T does not guarantee coverage. Coverage will be based on the location of the site receiving and transmitting the call, not the location of the subscriber. Future coverage, if depicted above, is based on current planning assumptions but is subject to change and may not be relied upon.
