Inside every cell of your body, there is a powerful clock ticking away. It’s telling your body to age, wrinkle, gray, and slow down.

That clock is your telomeres, the caps at the end of each strand of DNA that protect it, like the plastic tips at the end of shoelaces.

Telomeres shorten over time, leaving your DNA vulnerable to damage and causing your cells to age. But now, there is a groundbreaking new way to help slow down, or possibly even reverse, age and lifestyle related telomere shortening.

**Based on Nobel Prize winning science**, TA-65® – a proprietary, all natural plant-based compound – can help maintain or rebuild telomeres.

TA-65® is available from T.A. Sciences® as TA-65MD® nutritional supplements, or in a new skin cream formulation.

“Maintaining good health through the stresses and strains of touring and singing with The Who requires enormous stamina. I was recommended TA-65® by a good friend and decided to try it. After taking TA-65® for one year I noticed considerable improvement in energy levels, cold and winter infections have been a rarity. Recently I took a 6 week break from taking the product, and noticed significant energy drop off.

Although to my knowledge the evidence of benefit to everyone is not proven, I have no doubt that this product works for me. I hope it does the same for you.”

- Roger Daltrey
Lead singer, The Who
