Understanding the Aging Clock within your Cells.
www.elephantjournal.com

The good news is that there are ways that you can slow, stop or even reverse the telomere shortening that happens as we age.

Instituto Dr. Beut and David J Laurie like this.

David J Laurie Thanks for the post. Its always nice and inform...to hear his take on telomeres. Interesting humanity's gains in knowledge in these areas, in a short time. Hope it accelerates.

Visiting Spain any time soon? Check out T.A. Sciences®' exclusive Spanish Distributor, Salengei! For information on how you can order TA-65® from them, email info@tasciences.com or info@salengei.com today!

#Healthierliving at the #cellularlevel #TA65
Not only have age-related disorders been tied to shorter telomeres, but more and more research is showing how all kinds of illnesses and infections may be linked to them as well.

Test subjects with shorter immune cell telomeres faced an increased risk of catching a cold, researchers wrote Tuesday in JAMA (abstract here.)

It doesn't really matter what time of day you take your TA-65. Here are a few things our customers have reported to us:

Taking TA-65 in the morning: Customers have reported having more energy throughout the day, being more productive, and having more endurance.

Taking TA-65 at night: Customers have reported having more vivid dreams, remembering their dreams better, sleeping more restfully, dreaming more vividly, and having a more regulated sleep cycle.

T.A. Sciences is proud to be exhibiting at three shows for healthcare professionals in the next couple of weeks:

- American Academy of Anti-Aging Medicine (Las Vegas)
- Integrative Healthcare Symposium (New York City)
- American Academy of Dermatology (Miami Beach)

If you're in attendance, come by and check us out!

(event details can be found on our website at http://www.tasciences.com/about/events/)
