DOES GREEN COFFEE BEAN REALLY CAUSE WEIGHT LOSS?

WHAT IS GREEN COFFEE? HOW MUCH SHOULD I TAKE? HOW DOES GREEN COFFEE WORK? BUY TODAY!

Lose Weight Without Diet Or Exercise!

Have you heard about the amazing new superfood discovery? Green coffee beans – the raw, unroasted form of coffee beans – have been found to **block carb calories**, **increase fat burning** and **reduce appetite** naturally! Are you ready to lose over a pound a week without diet or exercise? Taking green coffee bean extract can produce the same results as diet pills, but without the negative side effects!

- Blocks carb calories!
- Increases fat burning!
- Cuts cravings and decreases appetite!
- Increases energy!
- Supports a healthy body weight and metabolism!
- Contains very little caffeine so it won't make you feel jittery or keep you up at night!

Dr. Lindsey Duncan, superfood expert, is featured in the July 23rd issue of Woman's World magazine and will be appearing on *The Dr. Oz Show* on Monday, July 30th to tout the amazing benefits of green coffee beans.

What is Green Coffee Bean and is it Effective?

Very simply put, Green Coffee Beans are Coffee Beans that are fresh and have not been roasted; the coffee we brew in the morning has been roasted and this is why it is brown, rather than green. Raw Coffee Beans naturally contain a compound called Chlorogenic Acid, which is the active weight loss compound in
