65% of Grey Defence® Customers in Observational Study Reversed Their Grey!

Grey Defence® Reverses Greying – Detailed Observational Study Proves it!

Key findings of the observational study of existing customers: (1) the longer customers used Grey Defence®, the greater the amount of reversal. (2) Customer current age had no impact on the effectiveness of Grey Defence® – users as young as 36 yrs. and old as 70 yrs. reported reversal (please note the age at which greying started can be meaningful). (3) Customer’s sex had no effect – male and female both reported reversal and finally (4) There were no reports of adverse reaction from using Grey Defence®. Read the Observational Study Report.

If you are greying due to aging then Grey Defence® may be right for you. Grey Defence®Xtreme is best for candidates who started greying in their mid-thirties or later and have been greying for less than 10 years. For those who started greying in their twenties or earlier, or have been greying longer than 10 years, we recommended Grey Defence®GENE JOL Professional Strength. GENE JOL is a more advanced anti-aging/anti-greying product that addresses many of the conditions currently not addressed by Grey Defence®Xtreme and will be publicly available very soon.

What is Grey Defence®

Grey Defence® is a leading anti-aging dietary supplement that reverses grey hair. The body’s antioxidative defensive network consists of antioxidant enzymes Superoxide Dismutase (SOD), Catalase and Glutathione Peroxidase. This network efficiently neutralizes free radicals and hydrogen peroxide protecting both our cells as well as prevents us from greying when we are young. As we get older or due to long term stress, our body’s antioxidant defence system is weaken because of a reduction in the production of these antioxidant enzymes.

Grey Defence® supplements and re-energizes the body’s “antioxidant defence system”, naturally reversing grey hair.

Grey Defence® is a proprietary blend of vitamins, essential amino acids and antioxidants enzymes that has been scientifically shown to play a critical role in the metabolic oxidation of hydrogen peroxide in hair follicles.

Grey Defence® acts as a catalytic force for the metabolic decomposition of hydrogen peroxide within the bloodstream, as well as, the hair bulb. Hydrogen peroxide is a waste by-product created from the neutralization of free radicals (superoxides) by the enzyme Superoxide Dismutase (SOD). Hydrogen peroxide has a tendency to accumulate in the hair bulb, literally bleaching hair follicle as they grow. The active ingredients in Grey Defence® are found naturally in healthy hair follicles but are either deactivated, missing or in very low concentration in white hair follicles.

Each Grey Defence® bottle contains a 30 day supply. We recommend that you purchase a 3 or 6-months supply at a time. The following link will take you to an article discussing the changes that will come about due to your grey hair treatment. Specifically it lets your know what changes to expect within your first 3

The Science Behind Grey Defence®
The capsules that contain the active ingredients pass through the stomach acid undisturbed – unlike most natural supplements that get destroyed by the acidity of the stomach.

This advance dosage delivery capabilities means Grey Defence® enjoys maximum bioavailability; delivering the required therapeutic benefits at the targeted sites in useful dosage amounts.

*Gray Hair Pill Bio-availability: Gastric Acid Test*

Grey Defence® is manufactured in a GMP facility and it serves as an assurance to you the customer that Grey Defence® meets the highest level of safety and efficacy during production.

Grey Defence® is a dietary supplement that reverses grey hair.

COORGA Nutraceuticals Corporation, specializes in the development of science based dietary supplements targeting the anti-aging market. Grey Defence® our flagship brand was born from decades worth of peer-reviewed Gerontology research on aging.

How Grey Defence® Works

Grey Defence® XTREME 2.0 is the next evolution of Grey Defence®. It is a super-premium dietary supplement that is formulated to assist the body in reversing grey hair due to oxidative stress. The process of free radical neutralization by the enzyme Superoxide Dismutase results in the production of massive amounts of hydrogen peroxide. Hydrogen peroxide build-up interferes with melanin production. It impairs the enzymes Tyrosinase and Methionine Sulfoxide Reductase A and B (MSRA, MSRB) causing a rate-limiting condition in the production of melanin. In addition, hydrogen peroxide sits at the base of the hair follicle and bleaches the hair as it grows. Grey Defence® neutralizes hydrogen peroxide on contact helping to slow, stop and reverse grey hair due to oxidative stress.

The Basics: The body's anti-oxidative defensive network includes antioxidant enzymes Catalase and Glutathione Peroxidase, these enzymes efficiently neutralizes hydrogen peroxide when we are young. Grey Defence® was formulated to support this natural grey hair defense system, reversing grey hair naturally. Grey Defence® is most effective for those who started greying after age 28.

Grey Defence® does not work for genetic malfunctions or greying due to illness such as a Thyroid condition. To determine if this

Grey Defence® AE Review

Observational Study Results: 65% Reported Reversing Grey Hair!

Please note Grey Defence® is a dietary supplement formulated for healthy individuals. If you have health issues or are on medication we recommend you consult your physician before using Grey Defence®.

Does it work? How long will it take to turn back my grey? Is Grey Defence® safe? Do you have any testimonials? These are just a few of the questions our customer service representatives get asked each day – even though answers to those and many more can be found throughout our website and especially on the FAQ portion of the What's Grey Defence® section of the website.

While other websites have testimonials up, in our opinion these testimonials appear suspect at best and totally contradicted at worse (if you read those testimonials and expect to reverse your grey in 6 – 8 weeks, please do not use Grey Defence®, because you will be disappointed).

**OBSERVATIONAL STUDY RESULTS & DISCUSSIONS:**

To participate in this observational study to determine users experience vis-a-vis the safety and efficacy of Grey Defence®Xtreme, 100 individuals were randomly selected on the basis of how long they used Grey Defence®Xtreme and whether they were still using Grey Defence®Xtreme at the time of the data collection. Ten questions were asked (see survey questions below). Initially the questioning was administered via email, then followed by a taped telephone interviews of those that did not respond to the.

Survey Questions:

1. Have you had any adverse reaction from using Grey Defence®?
2. What percentage, if possible to estimate, of your grey hair do you estimate has reverted to normal coloring (e.g. 1%, 5%, 20%, etc.)?
3. What is your age?
4. What is your sex (male, female)?
5. At what age did you start greying?
6. Is there a history of premature greying in your family (greying before 25th birthday)?
7. Do you have a history of thyroid illness?
8. Have you ever been diagnosed as Vitamin B12 deficient?
9. Would you recommend Grey Defence® to a friend or family member?
10. Would you be willing to share your responses, with attribution, publicly on our website (i.e., first initial and last name)?

**Brief Discussion of The Results:** customers report reversals as low as zero (no results) to as high
as 75%. Of those that responded, 65% saw reversal of their grey hair. A couple customers with grey reversals none-the-less report being disappointed at the pace, as a result would not recommended the product to a friend or loved one. It is reasonable to assume that signs of reversals are strong indicators of the cessation of greying, essentially that greying has effectively stopped. For those who just started greying this cessation is a valuable outcome, even more valuable than the reversal process itself.

**Summarized Findings and Statistical Analysis**

In the study, 100 customers were contacted after using Grey Defence for at least 5 months and asked to participate in a product impact study. No compensation was promised or given to the participants. The survey had a 20% response rate. Of the 20 respondents 13 (65%) indicated that they saw grey hair reversal. This varied according to how long they had been on the product starting as low as 5% and going as high as 75%.

An effective treatment is defined as a statistically significant positive, non-zero percentage reversal outcome (in percentage of grey reversed) set against time at a confidence level of 95%. The Null Hypothesis (H0) and Alternate Hypothesis (H1) are succinctly expressed below.

- H0: $\mu = 0$ (Null Hypothesis)
- H1: $\mu > 0$ (Alternate Hypothesis)

A T-Test was conducted to determine the significance of the outcomes (essentially are they meaningful), the outcomes were deemed meaningful at 99.99% level of confidence, Grey Defence was found to effectively reverse grey hair.
As a potential new users please keep the following facts in mind:

1. Grey Defence®Xtreme is formulated specifically for those with normal graying.
2. Using Grey Defence®Xtreme to reverse your grey may take up to 18 months for maximum results.
3. It's possible that 100% reversal is not achievable for some, especially if there is melanocyte stem cell death.
4. The grey hair that is currently on your head took about 2 – 5 years to develop, so once your grey is fully reverse it should last for at least that long before greying returns.
5. During the risk free 6-month trial period, if Grey Defence®Xtreme is working you should expect only a 1% to 3% reversal, and this may not be visible for someone with only a few greys or who has more pepper than salt.
Shipping & Refund Policy

The following policies represent the company's new blanket warranty program for all purchases of Grey Defence® Xtreme.

Coorga Nutraceutical Corporation announces the following changes to its warranty program for Grey Defence® Xtreme. Purchases of Grey Defence® Xtreme (all version numbers) made or shipped on or after January 1, 2014 will be covered by this new warranty regime.

This warranty modification is put in place so that the company will have a unified program covering purchasers of Grey Defence® Xtreme (all version numbers) regardless where that purchase was made, be it directly from the company's online store, a healthcare professional or from a third party retailer.

Effective January 1, 2014 all refunds will take the form of online store credit that can be applied (with certain percentage restrictions) to the purchase of our newer more advanced grey hair supplement Grey Defence® GENEJOLT! Professional Strength. GENEJOLT! is a more advanced anti-aging/anti-greying product that addresses many of the conditions currently not addressed by Xtreme.

GENEJOLT! will be available in the first quarter of 2014.

In addition to the change above, we are also extending the warranty claim period from 6 months to 12 months from the date of shipment.

If you purchase Grey Defence® Xtreme from our online store then please follow instructions below to claim your refund credit. If you purchase Grey Defence® Xtreme from a healthcare professional or third party retailer, please follow the instructions contained on the information insert found inside the Grey Defence® Xtreme bottle. Please note, this insert contain valuable information without which your claim

Grey Defence® GENEJOLT! Professional Strength is an experimental dietary supplement designed to reverse greying due to cell damage, hydrogen peroxide bleaching, nutrient deficiency and stress. While we have tested it internally and believe it to demonstrate a more powerful impact and wider effectiveness band as compared to Grey Defence® Xtreme, due to the extremely high cost of production Grey Defence® GENEJOLT! Professional Strength does not come with a refund warranty. You agree to assume 100% of the financial risk of using Grey Defence® GENEJOLT! Professional Strength. We strongly recommend that you review the details of this dietary supplement including the nature and action of the listed ingredients to make sure it is right for you.

Shipping Policy:
Orders are generally shipped within 3-4 business days. All orders are shipped via USPS.
6 Month Refund Policy: (expires Dec 31, 2013)

Applies only to orders placed on this website or via our telephone order line.

Please note, the primary reason for this generous refund policy is to allow our valued customer the luxury of time; we do not believe you should be rushed, therefore we provide you a full half-year over which you can evaluate the effectiveness of Grey Defence®. Figuring out whether your grey can be reverse takes time and 60 or 90 days is just not enough time to do so. To prevent abuse of this generous refund policy, households are limited to a single lifetime refund.

Short refund windows are engineered to reduce the number of refund request to around 2% – 3%. We believe this to be an unfair gimmick and you deserve better. Incidentally, this distaste for “engineered gimmicks” is why we do not have an auto-refill policy. We trust that if Grey Defence® is working for you, you’ll return and buy more, no need to force stuff on you that you didn’t expressly ordered.

Extending the refund window as much as we did would be a folly if we sold the kinds of products our competitors sell. However, as a result of the quality and effectiveness of Grey Defence®, the increased financial exposure is minimal, this is why we are the only ones offering you a 6-month money back guarantee. For those few that are outside the targeted greying profile (Grey Defence was not formulated for greying due to genetic malfunction or illnesses), we believe you deserve a reasonable time period over which to request a refund. This is not only the moral and ethical thing to do, but when you have the best grey reversing pill on the market, it’s just good business.

Unlike our competitors – who have a penchant for hyperbole and marketing hype – we have focused on the science behind greying and have systematically improved Grey Defence® to the point that during a recent customer impact study, a full 66% of customers surveyed reported grey hair reversal.

If another grey hair pill vendor claims to have a better refund policy, please ask them how long is their refund coverage period. If they claim to have a better or even comparable quality product to Grey Defence®, definitely ask them for details on their customer impact study – just don’t settle for a few marketing videos featuring friends and family pretending to be customers, and/or pictures with people who have obviously dyed their hair.

Please follow these steps when completing a refund request:

1. Contact us via our support email (found on the packing slip accompanying your order) or use the online Help Desk to submit a refund request and obtain a Return Merchandise Authorization (RMA) for your unopened bottles.
2. Mail your package(s) to the address indicated in the email response received.
3. Include a copy of the packing slip that arrived with your order, it contains important information required by the refund processing department.
4. Mail back the return package PROMPTLY.

IMPORTANT

* Returns are only for orders delivered within 6 months from the date of refund requested.
* Please remember shipping and handling charges are not refunded only the actual amounts paid for the product itself.

The following transcript was produced from a digital file provided to For The Record, Inc. on June 9, 2014.
FEMALE ANNOUNCER: Welcome. This is an introductory overview of the Grey Defence dietary supplement.

ON SCREEN: You Will Learn About:
- What Grey Defense is NOT
- What Grey Defense is
- The Ingredients in Grey Defence
- The Science Behind Grey Defence
- How Grey Defence Works

FEMALE ANNOUNCER: In this video, you will learn about what Grey Defence is not, what Grey Defence is, the ingredients in Grey Defence, the science behind Grey Defence and how Grey Defence works.

ON SCREEN: More detailed scientific information is provided on the Grey Defence website
- http://www.greydefence.com

FEMALE ANNOUNCER: This introductory video only superficially touches on the key scientific basis for Grey Defence. More detailed scientific information is
provided on the Grey Defence website. The website can be found at http://www.greydefence.com.

ON SCREEN: What Grey Defence is NOT

FEMALE ANNOUNCER: In this segment, you will learn what Grey Defence is not.

ON SCREEN: What Grey Defence is NOT

Grey Defence is NOT a miracle cure for greying hair.

FEMALE ANNOUNCER: One, Grey Defence is not a miracle cure for greying hair. It does not cure the underlying causes of greying. Put simply, Grey Defence seeks to address the visible symptom which is, of course, the lack of pigmentation. If your body no longer receives or produces on its own the active ingredients supplied by Grey Defence, it is very likely that the lack of pigmentation may reassert itself and greying will return.

ON SCREEN: Grey Defence is NOT

Grey Defence is NOT based on traditional herbal medicines - Chinese or otherwise

FEMALE ANNOUNCER: Two, Grey Defence is new. It represents current advances in scientific knowledge as to what causes premature greying. The ingredients in Grey Defence are not based on traditional herbal medicine, Chinese or otherwise. Grey Defence is based on
new breakthroughs in the understanding of greying.

ON SCREEN: What Grey Defence is NOT

Grey Defence is NOT a universal solution

FEMALE ANNOUNCER: Three, finally, Grey Defence

is an amazing product designed to slow, stop and reverse the sign of greying. And though it pains us to say it, the truth is Grey Defence is not a universal solution. It will not work for everyone. Having said that, our analysis leads us to expect that it will work for the vast majority of users. However, if you’re one of the unlucky few that it does not work for, simply contact us for a no hassle refund.

ON SCREEN: What Grey Defence Is

FEMALE ANNOUNCER: In the previous segment, you learned what Grey Defence was not. In this segment, you’ll learn about what it is.

ON SCREEN: What Grey Defence Is

Grey Defence is a dietary supplement that assists the body in slowing, stopping and reversing the signs of greying hair.

FEMALE ANNOUNCER: One, Grey Defence is a dietary supplement that assists the body in slowing, stopping and reversing the signs of greying hair.

ON SCREEN: What Grey Defence Is

Grey Defence is an effective enzyme
replacement therapy for greying

FEMALE ANNOUNCER: Two, Grey Defence is an effective enzyme replacement therapy for greying.

ON SCREEN: What Grey Defence Is

Grey Defence is safe

FEMALE ANNOUNCER: Three, Grey Defence is safe.

ON SCREEN: What Grey Defence Is

Grey Defence uses advanced time release technology for enhanced intestinal track absorption

FEMALE ANNOUNCER: Four, Grey Defence uses advance time release technology for enhanced intestinal track absorption.

ON SCREEN: What Grey Defence Is

Grey Defence is supplied in capsule form, containing 6 active ingredients used by the body in its daily defense against premature greying.

FEMALE ANNOUNCER: Five, Grey Defence is supplied in capsule form, containing six active ingredients used by the body in its daily defense against premature greying.

ON SCREEN: What are the Ingredients in Grey Defence?

Catalase (Enzyme)

Folic Acid (Vitamin)

L-Methionine (Essential Amino Acid)
Selenium Amino Acid Complex (which is a cofactor for the enzyme Glutathione Peroxidase)
Vitamin B6 (in the form of Pyridoxine Hydrochloride)
Vitamin B12 (in the form of Methylcobalamin)

FEMALE ANNOUNCER: You now know what Grey Defence is. Now you will learn what the active ingredients in Grey Defence are. They are, one, Catalase, which is an enzyme; two, Folic Acid, which is a vitamin; three, L-Methionine, which is an essential amino acid; four, Selenium Amino Acid Complex, which is a cofactor for the enzyme Glutathione Peroxidase; five, Vitamin B6, in the form of Pyridoxine Hydrochloride; and six, Vitamin B12, in the form of Methylcobalamin.

ON SCREEN: The ingredients were selected as a result of an exhaustive review of the scientific literature dealing with the multiple causes of greying.

FEMALE ANNOUNCER: The ingredients discussed in the previous segment were not randomly added to the Grey Defence formula, but were selected as a result of an exhaustive review of the scientific literature dealing with the multiple causes of greying. The ingredients selected were selected to assist the body’s native mechanisms to produce melanin and fight both the ravages of free radicals, as well as neutralize hydrogen
peroxide.

In this segment, you will learn the specific scientific pathways by which Grey Defence achieves its objectives.

ON SCREEN: Step 1: Melanin Synthesis

Melanin is the pigment found in hair and skin that gives them their color.

FEMALE ANNOUNCER: Step one, melanin synthesis.

Melanin is the pigment found in hair and skin that gives them their color. The process by which melanin is produced is called melanin synthesis. This process is akin to assembly line manufacturing where the body utilizes various vitamins, minerals and enzymes to synthesize melanin. Unfortunately, if one of the key ingredients required for melanin production becomes missing, then the assembly line screeches to a halt.

ON SCREEN: Step 1: Melanin Synthesis

Melanin is the pigment found in hair and skin that gives them their color.

FEMALE ANNOUNCER: Two of the key ingredients scientists have found lacking in patients with problems producing melanin are Vitamin B12 and folic acid.
Grey Defence provides a massive boost of these vitamins to the body in a readily absorbable form, promoting smooth, continuous melanin production.

ON SCREEN: Step 2: Free Radical and Hydrogen Peroxide Neutralization

SOD Superoxide Dismutase Free Radicals

Free radicals are formed as a result of various conditions including environmental pollution, smoking and stressful lifestyle.

FEMALE ANNOUNCER: Step two, free radical and hydrogen peroxide neutralization. Free radicals are a major cause of premature greying as well as generalized cell damage. Free radicals are formed as a result of various conditions including environmental pollution, smoking and a stressful lifestyle. The body has powerful antioxidant enzymes called superoxide dismutase, SOD for short, that efficiently neutralizes free radicals.

ON SCREEN: Step 2: Free Radical and Hydrogen Peroxide Neutralization

Hydrogen Peroxide

The side effects of free radical neutralization is the production of Hydrogen Peroxide.

FEMALE ANNOUNCER: One of the side effects of free radical neutralization is the production of hydrogen peroxide. Under normal production volumes, the amount of
hydrogen peroxide is quickly and easily broken down by the body’s store of the enzymes, Catalase and Glutathione Peroxidase.

Unfortunately, under prolonged conditions of enhanced free radical production, such as long-term stress, the resulting high concentration of hydrogen peroxide --

ON SCREEN: Step 2: Free Radical and Hydrogen Peroxide Neutralization

L-Methionine Hydrogen Peroxide

Vitamin B6

Reduces hydrogen peroxide concentration, promoting cell damage repair and prevents hair bleaching. Grey Defence scavenges and bonds with excess hydrogen peroxide molecules thereby neutralizing them.

FEMALE ANNOUNCER: -- overwhelms and deactivates the Catalase enzyme and leads to hair follicle damage and bleaching. Grey Defence rebalances the concentration of hydrogen peroxide by employing L-Methionine as a collation compound to scavenge and bond with excess hydrogen peroxide molecules, thereby neutralizing it and removing it from the body with the help of Vitamin B6.

ON SCREEN: Step 3: Rebuild Catalase activity and boost the level of Glutathione Peroxidase
Boosts the concentration of Catalase and Glutathione Peroxidase - the body's weapons of mass destruction where hydrogen peroxide is concerned.

Boosted Concentration

Catalase

Selenium (Glutathione Peroxidase)

Grey Defence also provides a boost of Selenium that primes the production pumps for the enzyme Glutathione Peroxidase.

FEMALE ANNOUNCER: Step three, rebuild Catalase activity and boost the level of Glutathione Peroxidase. Next, very high dosages of Catalase are provided to replace the body's deactivated supply. Grey Defence also provides a boost of selenium that primes the production pumps for the enzyme Glutathione Peroxidase. With both Catalase and Glutathione Peroxidase in full and active concentration, the damage caused by an overproduction of hydrogen peroxide is gradually repaired and hair follicle bleaching ends.

ON SCREEN: Step 4: Promote Maximum Bio-availability

Grey Defense capsules include the time release technology that protect the capsule.

FEMALE ANNOUNCER: Step four, promote maximum bio-availability. The final piece of science employed in
Grey Defence is one not generally seen in a dietary supplement and rarely seen applied to hard capsules. This is time-release technology that protects the capsule through its journey inside the stomach. While our choice of ingredients have been delivered and informed by science, even the best and most expensive ingredients mean nothing if they are not available to the body. This is referred to as bio-availability.

ON SCREEN: Step 4: Promote Maximum Bioavailability

Maximum Bioavailability so that the active ingredients get into the blood stream where they can actually work - instead of being digested in the stomach.

FEMALE ANNOUNCER: Enzymes such as Catalase are very delicate stands of protein that must maintain their shape to be effective. Enzymes are not tolerant of acidic environments, such as the stomach, and if not protected, will be denatured and rendered useless by the digestion process.

Grey Defence capsules feature 100 percent advance enteric coating that allows the capsule to pass easily and undisturbed through stomach acid. It then gets to the small intestines where the coating disintegrates and releases the active ingredients that are then readily absorbed by the body. Since these
enzymes are macro-molecules, they utilize the same
transport vessels the body uses to bring nutritional
proteins into the bloodstream. This is why we recommend
taking Grey Defence on an empty stomach, at least 90
minutes before your next meal to limit the competition
for space on these transport vessels.

ON SCREEN: How Grey Defence Works

Grey Defence employs a multi-dimensional
approach starting with the most scientifically
appropriate high quality ingredients

FEMALE ANNOUNCER: As you have learned in the
previous segments, Grey Defence employs a multi-
dimensional approach to addressing grey, starting with
the most scientifically appropriate, high quality
ingredients.

ON SCREEN: How Grey Defence Works

These ingredients are then wrapped in a
protective coated time release capsule able to pass
through the stomach’s acidic environment

FEMALE ANNOUNCER: These ingredients are then
wrapped in a protective coated time-release capsule able
to pass through the stomach’s acidic environment on its
way to the small intestines where the active ingredients
are absorbed into the body.

Once in the body, these ingredients supplement
the body’s store of key melanin making ingredients while simultaneously diluting the concentration of hydrogen peroxide --

ON SCREEN: Repair Hair Follicle Damage, Stop Hair Bleaching

FEMALE ANNOUNCER: -- repair hair follicle damage, stop hair bleaching and restock the major weapons used by the body to break down hydrogen peroxide, namely Catalase and Glutathione peroxidase. The final result of this multi-dimensional science-centric approach is the gradual reversal of grey hair over time.

ON SCREEN: In the preceding presentation you learnt about:

What Grey Defence is NOT
What Grey Defence is
What the ingredients in Grey Defence are
The science behind Grey Defence
and How Grey Defence works

FEMALE ANNOUNCER: Thank you for spending the time to watch this introductory overview on the Grey Defence dietary supplement. In the preceding presentation, you learned about, one, what Grey Defense is not; two, what Grey Defence is; three, what the ingredients in Grey Defence are; four, the science behind Grey Defence; five, and how Grey Defence works.
In the video, we briefly touched on key aspects of the science behind Grey Defence. More detailed scientific background on all the topics in this video can be found on the Grey Defence website at http://www.greydefence.com.

ON SCREEN:  http://www.greydefence.com

(The recording was concluded.)
