About Rise-N-Shine, LLC And Go Away Gray

Rise-N-Shine, LLC was established in 2006 by founder and president, Cathy Beggan. An advocate of all things natural, Cathy's nutritional supplement company is dedicated to providing the highest quality, most effective supplements on the market. Go Away Gray, Rise-N-Shine's best-selling, all-natural cure for graying hair now makes reversing and preventing gray hair as easy as swallowing a pill. And for millions stubbornly resisting the trend of going gray gracefully, this formidable hair supplement is attracting much deserved attention.

Formulated to combat gray hair at the root, this innovative supplement is specially designed with the potent antioxidant enzyme catalase, vitamins, and essential amino acids. According to several scientific studies, the absence of catalase in your body is thought to initiate a chemical chain reaction resulting in gray hair. As we age and our hair cells produce less catalase, less hydrogen peroxide gets broken down. As our catalase levels decrease and our hydrogen peroxide levels increase, the hair slowly turns gray and then gives way to white.

Go Away Gray stops the formation of new gray hairs in as little as 4-8 weeks, helping bring back your natural hair color while promoting thicker, fuller, healthier hair. Results are now accelerated with our new Go Away Gray Shampoo and Conditioner, also containing all-natural, anti-graying ingredients. Get ready to erase years off your looks with this gray fighting combo! The results from Go Away Gray have been amazing, with customers giving excellent feedback regarding its incredible hair color restoring power.

Rise-N-Shine is a vibrant company that continues to focus on developing all-natural products for the anti-gray hair market. Our groundbreaking supplements strive to meet every day needs the natural way, and have been helping masses of people worldwide to help look and feel their best!

About The Founder

The idea for Rise-N-Shine was derived from Cathy Beggan, who took a basic complaint and turned it into a fully functioning supplement. Wake Up On Time, the first of now over twenty all-natural supplements, was created by Beggan out of personal experience. She had trouble waking up in the morning, and noticed that nearly everyone else she spoke with shared the same problem. Set out to conquer the problem-Cathy, being an advocate of all things natural-pooled her knowledge with experts in the field and thus discovered a delayed release caplet. Wake Up On Time is a special time released caplet taken before bedtime and within six to eight hours the body awakens naturally, feeling refreshed and alert. It easily replaces a cup of coffee in the morning!

Along with Wake Up On Time, Rise-n-Shine's exciting line of all natural products includes the best-selling Go Away Gray. Used to combat and get rid of gray hair, it's a pill taken twice per day, and within 6-8 weeks your natural color begins to gradually grow back, replacing the grays! Results are now accelerated with our new Go Away Gray Shampoo and Conditioner, which also contain the magical anti gray ingredients. Get ready to erase years off your looks with this gray fighting combo!

The results from Go Away Gray have been astounding, since being added to the product line in late 2009. Customers are giving excellent feedback in regards to the supplement, and the best part is it's 100% all NATURAL!

Customers LOVE: Go Away Gray for its amazing hair color restoring power, and Wake Up On Time for its abilities to turn you into a morning person overnight!

Rise-N-Shine is a vibrant company that continues to blossom on the basis of meeting everyday needs naturally. Our groundbreaking products have been helping masses of people worldwide to look and feel their best!

I heard about it in Womans World Magazine. I love it. I share the order with a co-worker. she loves it also. I usually only take it when I have to work the next day. It seems to take the fog out of my morning and I can think clearly. Thanks for the help. I also have my own business I am a lia sophia (jewelry) Advisor. Now that my business is really taking off I plan to take it everyday. I want to share it with my friends and family.

This is my reorder. I use it for afternoon alertnessso I take it about 7:30a.m. and so far it is working well. It seems to prevent that 3-4p.m. crash! Thanks again.

Dana S./New York, NY

I have received my order and thank you very much. I have been using your product for some time now and really like it a lot. When I placed this order, it was because I was waiting for my regularly scheduled order to arrive and had run out of product. I didn't want to be caught again without it. Ever since I can remember, I have not been a "morning person" and have always had trouble getting up in the morning. Your product has changed that. I still don't jump up singing, but at least I can get my eyes open and my feet out of bed without major effort and believe me, for ME, that's saying a lot!!

Sharyn G., Gainesville, FL

I read about the product in a magazine. I love it and it works wonders.

Candy Z., Aurora, IL

I love this product! Thanks.

Patricia M., WV

A friend and I started using Go Away Gray on March 11, 2010 (four weeks ago). We had seen a story on it on the local CBS LA news. Unbelievably, it works! This is our second order.

Elaine S., San Clemente, CA

I saw Go Away Gray on the local news. The Consumer Reports News anchor was giving a review and gave good feedback....so I gave it a try. I am seeing less gray than normal - even my wife is asking what is going on (she's the one with the tweezers plucking). I must admit, I missed a few days, but with this order I won't!

Darryl S., Tracy CA

I have been taking Go Away Gray for almost two weeks, and I am starting to notice a difference in my hair. It is coming in fuller, and the roots are darker with color!!!! I hope that I will continue to see results! So far, I am very impressed!! Thank you again!!

Frances C., Newark, DE

I saw your product Go Away Gray on channel 3 Health Alert and made a purchase of 3 bottles for \$59.90 and I must say WOW! This product truly works! Just recently a friend asked what I had done to my hair, and I had to share my secret! I just wanted to say "thank you". I have 1 bottle left and I will be making another purchase very soon!

Tina, Perkasie, PA

After only taking Go Away Gray for a short time, I have noticed not only a change in my hair color, but my skin as well! I get questions all the time on what I'm doing to bring about this change. It's my secret beauty weapon!

Patricia W., New York, NY

I had been taking Go Away Gray for a little over a month, when my barber had told me he noticed my natural hair color coming through at the roots! It was a welcomed shock!

James T., Boston, MA

I notice the gray is coming in lighter and seems to be helping my hair...also I notice my health is quite better than it was!

C. Newton

It's working!!!!

G. Brossey, Frisco, TX

I can see the new growth after 2 weeks. My roots are my natural color, and no longer gray. I posted the link on facebook!

B.Sava, N. Hollywood, CA

I have used this product for one month. I am very satisfied with it. It took away the white in my hair, and made it blonde...the color I was dying my hair!

J.Hamadyk

I have been buying your Go Away Gray product. The product works, because my husband, who is prematurely white haired, is now turning back to black hair. I've also tried the Royal Flush and the Light'N UP products - both wonderful and natural...no harmful side effects. Great company!!

Mary M.

I was referred to you by a news story on Go Away Gray in my area. At first, I was skeptical, but in as little as 3 weeks, I noticed changes to my natural hair color!

Joslyn

Excellent customer service!

Rise-N-Shine Lover

WOW! I couldn't wait for extra money to reorder your products! I would pay for Express shipping if you offered it!

S.C/Taylor, MI

I heard about Go Away Gray on Channell 11 News, so I bought a bottle for my mom. She took it and could tell a difference within the first two weeks, so I ordered more last week!

K.Wood

My hair is growing in at the roots in its dark brown color...approximately 1/2 inch so far. I have been using this product for two months. I did not think it would work because my hair is completely grey all over the crown. I am really amazed with this product, because I used to dye my hair every six weeks to keep color in it but the roots grow very fast. The toxins in the hair dye are very polluting to the body. The results are significant, and I like my natural hair color that is growing back. Also, I noticed that my hair is thicker, and my skin

looks better. Plus, your product is natural, has vitamins, and is non-toxic. Thank you, and keep up the good work!!

J. O'Malley, Lake Forest Park, WA

After the first 3 months of Go Away Gray, I can see my white roots coming in darker. I'm very impressed!

D.Heindl

After hearing and seeing this product on the national news, I thought I would give it a try. I am 60 years old, and about 75% gray. After 2 weeks, I started to notice my hair restoring to its natural color. I am now on my 4th week, and about 60% of my natural color has been restored, and it has been done in a subtle way.

J. Falco

Two months into taking it (Go Away Gray) - twice a day as recommended, and HUGE DIFFERENCE. Yes. After taking this for two months the hair on my head that was completely white, has about 50% dark hair coming in now. Plus, I feel like it has thickened my hair with some new growth coming in now. The NEW growth coming in is definitely my dark natural pre-gray color. Not only that, but my eyebrows have thickened and some hair is coming in there darker too. Go figure. Somehow it is working.

J. Samson/USA

I am a seventy year old male with a full head of hair. My hair has started a "salt and pepper" look with some streaks of gray. Tried this stuff (Go Away Gray), and my hair looks darker and has increased in fullness. It has helped me, and in particular, my eyebrows have begun to look much darker. Best of luck using the product!

G. Bedrosian

I'm delighted to say that 6-7 weeks into Go Away Gray, it seems to be working! I am 59 years old and most of my hair usually grows through 100% bright, shiny silver, without a trace of my old color. But now I can say that, within the 3 weeks since my last trip to the salon for the root color, there must be at least 15-20% growing back with full color. I expect that's just going to get better as the weeks go by. It really is amazing, and there seem to be no side effects whatsoever, except that even my skin doesn't seem quite as pale and frail-looking.

Sarah H./ME

Go Away Gray is working for me. My beard was totally gray, and now it is a blend of brown and gray. I can also see the hair on my temples coming in dark. It hasn't changed the gray hairs I already had, but the roots are definitely darker. I have been using this product for 9 weeks, and I just started noticing the change.

Mike/ON, Canada

I always liked the effect of my blond hi-lites on my light brown hair - but lately my roots were looking more gray and my hair was dry looking. I heard about GO AWAY GRAY on the news and bought some at my local health food store. In a few months my roots started growing out brown again and my hair got healthier and thicker. I will continue using GO AWAY GRAY.

Rosemary A., Shingle Springs, CA

I started to notice a difference after 12 days, which only got better. I have been getting gray hair on my sides for the past 8 years. The sides are very hard to dye. This product takes away that expense, and it's natural, so I don't have to worry about polluting my body, and the environment with chemicals. I have never written a review before. This product really, really works!

New & Improved! Now With 50% More Catalase

"After 3 months of Go Away Gray, I can see white roots coming in darker. I'm very impressed!" D. Heindl

Go Away Gray™ is an all natural supplement specially formulated to prevent & reverse gray hair! Based on scientific studies, this anti-gray formula is a unique gray hair treatment that replenishes the enzyme Catalase, which slowly depletes as we age. Hydrogen peroxide is naturally produced by the body and Catalase breaks it down. If you do not produce enough Catalase, the hydrogen peroxide takes over and bleaches your hair from the inside out, causing it to gray. Go Away Gray contains a high concentration of Catalase, along with other special gray hair vitamins and nutrients created to stop gray hair and to help bring back your natural hair color, while also promoting thicker, healthier hair.

Why cover your gray hairs when you can reverse and prevent them altogether? Take Go Away Gray today and watch YOUR GRAY go away.... Naturally!*

"I've taken many other glucosamine supplements on the market. Unfortunately, none of them contained MSM and Chondroitin all in one supplement. It wasn't very cost-effective. I tried Loosen Up and love it because it contains all three of these in one! My joints and wallet are thanking me!"

"I saw Go Away Gray on the local news. The Consumer Reports News anchor was giving a review and gave good feedback...so I gave it a try. I am seeing less gray than normal - even my wife is asking what is going on (she's the one with the tweezers plucking). I must admit, I missed a few days, but with this order I won't!"
Darryl S./Tracy CA

"A friend and I started using Go Away Gray on March 11, 2010 (four weeks ago). We had seen a story on it on the local CBS LA news. Unbelievably, it works! This is our second order.

"My daughter has had a severe problem waking up for many years. This problem was not deliberate or lazy, she would be devastated to realize that she had slept past things that she had looked forward to doing. She went to doctors and even went to a sleep clinic. We both researched any/everything we could but to no avail. WAKE UP ON TIME WAS THE MIRACLE FOR WHICH I HAD PRAYED! Your

product has changed her life. I know she can't be the only person that suffers from this affliction. I want to tell anyone and/or their family who are considering Wake Up On Time: THIS PRODUCT WORKS!! Thank you, thank you, thank you!!

T.P./Pennsylvania

"This product (Wake Up On Time) is amazing. I have to be up by 4:30am and in the car by 6am on weekdays. Since I have started taking this product, I don't feel groggy once I am up. I have never found anything else that works like this. Plus, there is no issue with good sleep all night. I heard about Wake Up On Time through Self Magazine. I am so glad I found this product. Thanks!"

Patricia/Martinsburg, WV

"Hi- I received my first bottle of "Wake Up On Time" about a week ago. It arrived within only three days submitting my order. so far it has worked fantastic for me. Before I had such a hard time getting out of bed, I would hit the snooze button at least three or more times each day. I have always wished I could be a "morning person" and now I actually am! Now I wake up before my alarm goes off- without the urge to just crawl back under the covers and fall asleep. I have also started working out again, because I now have that extra time in the morning to head to the gym before work. "wake up on time" has certainly met my expectations and I have told everyone I know about it! thank you very much."

Brenda/Milllis, MA

" I would wake up every morning so groggy nothing would get me out of bed. I'd just want to stay in bed all day. My sister told me about Wake Up On Time and she begged me to try it and boy am I glad she did. For the first time in my life I can say that I get out of bed the second my alarm clock goes off and I am not groggy! "

Carmela R./Davie, FL

" I heard about your product in a magazine. I think it was a medical or health magazine. Wake Up On Time has been a miracle for me. I used to get up early when I worked full-time, because I had to. Now that I am a stay-at-home mom with two small children, I could not drag myself out of bed any earlier than I had to, which was when the kids woke up. I felt sluggish all morning and unproductive. I tried setting my alarm, going to bed earlier, and reducing my caffiene intake, but nothing worked. Now (since taking Wake Up On Time) I'm getting up at 5 a.m., 3 days a week and working out at the gym. I can't believe how great I feel early in the morning. Some days I take Wake Up On Time so that I can get up early to get other things done. I feel SO GREAT on the days that I take it that I want to take it every day. I don't feel any kind of withdrawl on the days that I don't take it. So I am just thrilled with the product and I've told several people about it so far! Thanks for thinking of this!!! "

Elisabeth S./ Richmond, VA

" I have never been a morning person and always have difficulty getting it together in the A.M. I have two children and a career and was consistently irritable having to get them ready and myself ready each day, even after drinking my coffee.

I started to take Wake Up On Time. I couldn't believe it actually worked the very first time I used it. I noticed a considerable change in my energy level. I actually went on a business trip and forgot to bring my Wake Up On Time and was truly miserable. I can not believe how effective it is and I just can not function without it. Another great thing is that it has vitamins in it that are very good for me so I am putting great stuff into my body as well. "

Filomena P./Wayne, NJ

" For the past few years I have suffered from severe insomnia. I was perscribed one sleeping pill after another from my doctors and found that the only one that worked well was also extremely strong and left me horribly groggy and lethargic in the mornings. I had so much trouble waking up for work that I would often be late and even miss entire days. I was so close to getting fired, which I couldnt afford. Many nights I had to decide if I should take the sleeping pill, and get sleep - or skip it and spend the night tossing and turning watching TV. Neither of these options was great for my mornings. Then I was told about www.wakeupontime.com and while skeptical,I purchased a bottle from your site and hoped for the best. Not only has your product saved my job, but its made me a nicer, more energetic person throughout the day. I don't really know how to thank you guys, but I thought I should share my story. Wake up on time is a wonder pill and theres no other way to describe it. My alarm goes off and I am up and alert immediatley. I have the energy to bounce out of bed and start my day. Since I've been using your product I haven't been late to work once, and people are even noticing I'm more " animated " and in a much better mood. I just want you guys to know how much I appreciate your product. I reccomend it any chance I can and I will continue to use wake up on time to make my work day a whole lot easier. So, THANK YOU! "

Rose A./ Monmouth Junction, NJ

" I read about Wake Up on Time in Woman's World magazine. I have been taking the pills for quite a while now and really love them. I can really tell a difference when I do not take them and when I take them. I wake up much better and am ready to face the day with a smile when I take them. Keep up the good work! Now, if only you could make a weight loss pill that worked as good as Wake Up on Time! Thanks for being interested in my personal progress. It really makes it nice to know there are real people on the other side of this product. "

Robbi H./Odessa, TX

" I heard about Wake up on time from some of the moms at school. I have used it two ways: I have taken it before bedtime and have woke up feeling full of energy and ready to start my day, [and] I have taken it in the morning [so I] have a burst of energy in the mid afternoon when I would normally be ready to crash and take a nap. It is a product that we all need and it is about time something like this is available. "

Lorainne N./Sparta, NJ

" Wake-up On Time has worked wonders for me. Before I started using it, I was constantly feeling groggy in the early morning. Most mornings, I would hit the snooze button on my alarm so many times,

I would wind up being consistently late. As I started taking Wake-up On Time I could feel the effects immediately. I now wake up feeling energized and refreshed, and feel no need to hit the snooze button! I recommend Wake-up On Time to anyone who has a career in which being prompt and focused is a necessity. "

Steve Nagle, Morning Producer
WAQY-FM/Springfield, MA

" I am actually ordering this product for my husband. He loves it. He is not a morning person and has always had a hard time waking up. He heard about this product on the Dallas CBS evening news. He was very excited about it and we read everything on your website and decided to order. It has really helped him. I take it once in a while if I want to get up really early. We both love the product. Thanks! "
Melanie K./Crandall, TX

" I travel a lot and heard it reviewed during a newscast in Los Angeles (I live in Seattle) about 6 months ago. This is my 3rd shipment, I'm very impressed. It works well, i am not a morning person at all, have never been. I like that I wake up feeling like I should...naturally. I have other reasons I should take extra B vitamins so it is a double bonus for me. The product is great- my only suggestion would be to make them more accessible! " :)
Kelly/Seattle, WA

" I read about your product in Woman's World Magazine. I have using it for over six months and I LOVE IT. I am almost always awake before the alarm clock rings. And I can certainly tell the difference if I forget to take it. This product has been a blessing - I am raising my granddaughter who will soon be two years old and when she wakes up, she is ready to go at full speed and now I do too. "
Robin E./Indianapolis, IN

" I am a mother again after 19 years. (I'm 51 now) I have a 20 year old and a 22 month old. Two boys... I knew I would be tired, but never in a million years like this! The worst time of day is the morning. I'm not a morning person and I've always been a " sleep in" kind of person. Those days are over for quite a while. I tried your product because I read about it in Allure (I think). It works so well for me that minutes after taking it I'm fine but not crabby and jittery. I've never been much of a coffee drinker so this is perfect for me. I've thought about ordering your sleep product since it's my 20 year that keeps me
up at night. I may give it a try one of these days. "
DJ F./ Los Angeles, CA

" I love this product! Thanks. "
Patricia M./ WV

" Thanks- I've actually been using the product for about a year now and really like it! "
Candy Z./Aurora, IL

" A friend of mine told me about your products and while I have not used the stay up all day supplements yet, the wake up on time really really work. Particularly after a night out of drinking. I gave a bottle to my friend who is working a trade show in New Orleans and he said they've worked really well for him too. So if they can get you up early in New Orleans, they must work! Haha. "
Shannon T./ Los Angeles, CA

" A friend who just had a baby found your site and she ordered and said that they worked. I have had a lot of trouble waking up in the mornings...I will hit the snooze for sometimes 45 minutes. Ridiculous! But what is worse is if I dont get enough sleep I will turn it completely off. Needless to say, I'm on 60 day probation at my job. It is crazy what the stress of 2 jobs can cause. Not enough time in the day anymore. But I am having to realize that sleep is much more important and what is not completed today will be waiting for me tomorrow. Your pills are helping. I am popping right out of bed with two feet on the floor. I do hear my alarm and even though I continue to hit snooze (out of habit of course) I don't fall back into a coma state and I have not been late to work. Keep your fingers crossed for me. So cheers to your invention....good job. "
Tamra D./ Amarillo, TX

" The product " Wake up on Time " has worked really well for me. I can definitley notice a difference upon waking in the morning. This is the third time I've placed an order for it. Thanks. "
Teresasa M./ Doylestown, PA

" I picked up my order from the post office today, thanks very much as I ran out a week ago and have really been missing them! I first read about your product in a magazine in my doctor's waiting room. I'm not 100% on the title but I think it was a US Instyle magazine. The magazine recommended the product, saying it really does work. Personally, I find I can actually get out of bed without too much effort if I've taken your product. I'm also less groggy. I was hoping for a real kick in the pants with them that would have me springing out of bed. Although they don't give me that, they certainly make enough of a difference to make me want to take them - that's four bottles now! I have three young children who are always standing by my bed before I'm standing by theirs, so thanks so much for making a difference to the start of my day and giving my kids a less grumpy mummy in the morning! Cheers! "
Jacqui S./ Vic, Austrailia

" Just thought that I would let you know that I received my order about a week ago, and I LOVE this stuff!!! I was skeptical at first, but I am soooo happy that I purchased this product!! I am truly amazed!! I will be ordering again soon, and I think I will even try some of your other products!! Thanks so much for the quick shipment and for the email follow ups!! "
Heather D./ Liberty, MO

" I placed an order a while ago - I originally heard about the product on CBS news and then I looked it up online. The product works wonders! Totally worth it! Amazing results - just as stated. My first order was for only 3 bottles so I've been without it for months. I'm so excited to get my order & get back into

an easy morning wake up routine, which gets me to work on time thanks to Wake Up on Time. I love your product and can't wait to get my order! I signed up for the auto shipment....

Thank you! "

Heather N./ East Setauket, NY

" Hello, I am very satisfied with the results of your product I have told everyone I know, and I am eager to try more!

Thank you, "

Krystina S./Houston, TX

" I heard about it on a local radio station (KRSN) and have been using it for over a year and I can really tell the difference. My husband has to get up at 4:00am each day and it has helped him to be alert at that early hour. "

Vicki D./South Jordan, UT

" I love this product. It consistently helps me wake up clear-headed and ready to embrace the day. No sluggish mornings anymore. Thanks! "

Jennifer H./ Sherman Oaks, CA

" I heard about your product on TV originally. I have been using Wake Up On Time for months now, and have been impressed with the difference it makes. I am able to awaken much more alert and ready to go. I ran out of the product about two weeks ago, and within a few days I began to tell a distinct difference. It would be harder for me to get going, and then I would start losing energy by around 9am and basically stay tired and sleepy much of the day. I am anxious to receive my order and see how quickly the alertness returns. I have recommended it to several of my friends. "

Randall T./Burlison, TN

" I am not sure how I heard about it. I think a Parenting magazine or maybe www.red-tricycle.com (not sure!). I think it works great though I take it in the morning so I don't crash in the afternoons, instead of overnight. I ordered two so a friend could try them. Thanks for a great product. "

Rebecca M/Seattle, WA

" Thanks for taking time to make a personal non-automated reply. I love your products. Please don't ever stop selling them! Thanks, "

Emma C.

" I do love this product. I was very apprehensive when I purchased it the first time. I think I saw it in " In Style Magazine. " But, I am over 50 and all of a sudden I couldn't get out of bed! I use to be at work by 6:30 to 7 am every day with no problems. Over the years, I've had more trouble getting to work. It was 9 or 10 in the morning. I was willing to try

anything. Wake up on time does just that. It wakes me up right on time every morning. And I feel good taking it because it's all natural. Now I'm going to try the sleep all night. Again, it's all natural and hopefully it will work. Thank you for great products.

Holly G./, Riverside, CA

" I am so glad I found your product! I have been taking it for 6 days and what a difference it is making in my life. I quit coffee cold turkey and I have not had any withdrawal symptoms. I am happy, content, focused and awake all day long. Thank you so much for making a product that really does work from the first day you take it. I am encouraging all of my friends to try your product. "

Mindy B.

" I just received my WAKE UP ON TIME and used it for the first time last night - LOVE IT! That was very kind to sign the order report; a very nice personal touch. I heard about you in the IN STYLE magazine. "

Jan J./Villa Park, IL

" I heard it on the local NBC news station here in Chicago, and this is my 2nd time that I'm ordering it. It has really helped my problem of not getting on time in the morning, so I DEFINETLY recommend it to people who have trouble waking up in the morning. It's worked wonders for me. I actually feel pretty refreshed when I wake up in the morning. Very happy that this product is on the market. Would love to do a paid endorsement for your company, I can certainly vouch for Wake up on Time. Thanks guys.... "

John A./Chicago, IL

" I read about your product in Women First Magazine. I am on a blood thinner and need to be very careful with my supplements. (I take a boatload everyday) When I read about your product and the ingredients in it...I knew I could safely take this product. Most people would love my problem...I can sleep 24 hours...however I need to be up bright and early. " Wake Up On Time " arrived yesterday. I took 2 pills just before I went to sleep at 12:30 a.m (Olympics - can't stop watching them). At 6:30 this morning I awoke with energy, not feeling groggy or thinking " just another hour " . It looks as if I am going to sign up for your autoship. This product is amazing!!! Belief In Abundance, "

Eileen P./Lake Worth, FL

" I have ordered previously, and had finished my bottle. I do believe that Wake Up On Time works. I do not take it continuously, but when I do take it, I believe I can tell a difference. I heard about this product on Steve & D.C. Radio Show. Thank you!

" I first read about " Wake up on Time " in the magazine " Woman's World " I have been taking at least 8 months just not sure exactly when I started. There is nothing better. I have been out for this last week, I forgot to order, anyway I have felt terrible, tired, sluggish not wanting to get out of bed, so I now have full proof that this vitiman is just the best thing I have ever taken. It gets me up and helps me to take a 2 mile walk on cool morning. It's just great. Can give it enough praise.Thanks so much! "

I tried " Wake up on time " , i was vey impressed on how this worked.....i am always a sucker for reading ads, ordering product, and nothing never seems to work for me.....needless to say, i am glad i was a sucker for reading this ad...because it did not let me down. It works....thanks for making this great pill. "

Beth H./Mt. Holly, NC

" I was having a hard time getting up to go to work and especially on weekends I would sleep in until 10:00 11:00AM and still would feel sluggish. I noticed it started working for me right away. I take two every night before I go to be. I only wish a bottle had 60 pills in it. I did not know it was not a month supply. I still have some left. I would recommend it to anyone who has a hard time getting up in the mornings like I did. "

Jennifer G./Ravenna, OH

" I tried it last night for the first time and could hardly stay in bed past the 7 hours just I jumped up and got busy. Too bad I can't take it in the morning, too, so I can keep going all through the afternoon and evening. "

" I initially heard about the product via a newspaper article in the NY Daily News last year. I have ordered twice before and was pleased so thats why Im ordering again. I hope it has the same effect especially now since I have to get up earlier for work. I only take one at night and that seemed to do just fine. I look forward to getting it. "

Dorian A/Brooklyn, NY

" I have received my order and thank you very much. I have been using your product for some time now and really like it a lot. When I placed this order, it was because I was waiting for my regularly scheduled order to arrive and had run out of product. I didn't want to be caught again without it. Ever since I can remember, I have not been a " morning person " and have always had trouble getting up in the morning. Your product has changed that. I still don't jump up singing, but at least I can get my eyes open and my feet out of bed without major effort and believe me, for ME, that's saying a lot!! "

Sharyn G./Gainsville, FL

GO AWAY GRAY COMMERCIAL

CATHY BEGGAN: Hi, my name is Cathy Beggan, founder and president of Rise-N-Shine. Do you have a full head of gray hair or is your hair just starting to turn gray? We can help. Go Away Gray is an all-natural supplement designed to reverse gray hair from the root. Simply take two capsules per day and watch the gray go away.

In just eight to ten weeks, your hair will start to grow its natural color right from the root. Sound too good to be true? Well, the way it works is quite simple. Our bodies produce hydrogen peroxide which draws the pigment out of our hair, turning it gray. We also produce an enzyme called catalase that counteracts this. In time, we stop producing enough catalase and the peroxide takes over.

Go Away Gray puts the catalase back into your body and begins to break down the peroxide and brings your natural hair color back.

Go Away Gray is 100 percent natural and has other benefits as well. It contains vitamins and herbs that also promote thicker, healthier hair. Customers all over the world are amazed with the results.

1 UNIDENTIFIED FEMALE: It definitely is working.
2 I notice a difference and I'm going to continue with it.

3 UNIDENTIFIED FEMALE: You look on the calendar
4 and it's like only three weeks or four weeks, but you
5 have a special occasion and you don't want any gray
6 showing. So, should I get my hair colored earlier or
7 later? But if I do it later, that week, it won't look
8 good. You know, now you don't have that pressure.

9 UNIDENTIFIED MALE: At the roots, it was coming
10 back in the natural color. I noticed. I said, well,
11 it's -- something's going on here. You know, this is
12 nice. I like that.

13 UNIDENTIFIED FEMALE: You won't believe this
14 product, it really works. I've been taking this. You
15 feel good, but your hair is like dancing.

16 UNIDENTIFIED MALE: I'm happy. Just happy as
17 all get out, you know. I'm going to keep taking it.

18 CATHY BEGGAN: Try Go Away Gray today and watch
19 your gray go away.
