DR. VINCE FRAUMENI LOST **

This is the most awesome weight loss program!!! I tried the other programs, and initially they worked for me but I gained the weight back. Dr. Ray TARGETS the areas you need to lose. It transformed my body! I'm not hungry...In 18 days I have lost 21 pounds and I am steamrolling toward my goals...This program is absolutely, and I mean absolutely amazing. If you want to lose weight...You want this program!

Believe me, you will NOT be disappointed!

Gene's Doctors were Absolutely Amazed at his results!! And now his doctors along with many other doctors in the area are referring patients to Dr. Ray for this Amazing Resonant Frequency Technology using the NutriMost Scans, as they watch their patients' lives become transformed!!!

"I OVERCAME DIABETES, FATTY LIVER, HIGH BLOOD PRESSURE AND CHOLESTEROL WITH DR. RAY'S AMAZING SYSTEM USING RESONANT FREQUENCY TECHNOLOGY"

Because of this amazing Technology... Gene's body was able to Overcome Fatty Liver, DIABETES, High Blood Pressure, Cholesterol and Sleep Apnea, and AMAZED His Liver Doctors who now refer patients to Dr. Ray... Gene, lives in West Alexander but decided to come to Dr. Ray after the recommendation from a lady in his church that had great success with Dr. Ray's program. Although he came in looking to lose weight... which he did... at 70 years old, GENE LOST almost 100 pounds!!! But although that is SPECTACULAR, it doesn't come close to some of the other great things that Gene experienced... All because of NRE technology with the NutriMost scan... This is Gene's Liver doctor's assessment (his doctor is a very well respected Liver Doctor).

GENE IS A 71-YEAR OLD GENTELMAN WITH A METABOLIC SYNDROME WHO WAS SENT TO ME FOR MILD ELEVATION IN HIS LIVER FUNCTION TEST AND IMAGING SUGGESTIVE OF FATTY LIVER.

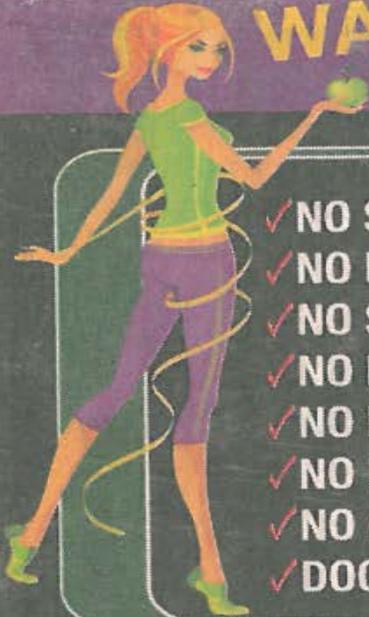

1. Gene has made a truly remarkable turn around over the last year to lose 75 pounds at his age. He attributes most of this to his weight loss program.
2. Since his weight loss, he has been able to stop his diabetes, blood pressure and cholesterol medications, and based on his laboratory studies today, I do not see any need for him to restart them.
3. Equally impressively, the patient underwent an ultrasound today, which showed resolution of his fatty liver.
4. Gene is a true model I think of what can be done in patients with fatty liver. He is one of the few patients I have seen who has had radiographic evidence of resolution in his fat.

DR. VINCE FRAUMENI LOST **37** POUNDS IN **39** DAYS!! **

Dr. Vince Fraumeni struggled with weight his entire life. He stated, "I was spending four or five days at the gym each week, working out on the treadmill or the elliptical machine for 30 or 40 minutes. I would struggle to lose one or two pounds, and then when I did I would break down and reward myself with a pizza or something like that which caused me to gain the weight that I lost back plus more."

"This system is so different...I lost the weight, but I was never hungry. I never had a craving. I can't believe how easy it was, and the best part is that it stayed off!"
