 7 Please take a moment to review CX2119
 8 and let me know when you're finished.
 9 (Exhibit CX2119-001 through 002, a
 10 document bearing Bates Nos. Henry
 11 Schein-001544704 through 705, marked for
 12 identification, as of this date.)
 13 (Document review.)
 14 THE WITNESS: Okay. I've read it.
 15 BY MS. ROSNER:
 16 Q. You have reviewed CX2119?
 17 A. Yes.
 18 Q. The top of CX2119 starts with an
 19 e-mail from Tim Sullivan dated January 14, 2013,
 20 and I'm just going to read his first e-mail,
 21 which is last in time.
 22 "Ahhhh.... This is the Vision Source
 23 people.... Now I remember. This will be
 24 difficult. Let's discuss live."
 25 MR. McDONALD: You should be an

1 CONFIDENTIAL - HAL MULLER
 2 footprint?
 3 A. I would assume that to be correct.
 4 Q. Why would you assume that to be
 5 correct?
 6 A. Because they were growing outside
 7 of -- if they were just working with Burkhart,
 8 as I said, I thought they were dealing with
 9 multiple ones. If they were just dealing with
 10 Burkhart, they're a West Coast distributor. It
 11 would have a tough time going elsewhere.
 12 Q. In the 2000 to -- excuse me, in the
 13 2013-2014 timeframe, Special Markets was willing
 14 to work with Smile Source; is that right?
 15 A. I think I proposed that we could, but
 16 I really didn't want somebody who was then
 17 advertising that they were a DSO competitor.
 18 Q. You understood that some dental
 19 product manufacturers were giving discounted
 20 prices to buying groups; is that right?
 21 A. I had heard that through other people.
 22 Q. P&G and Colgate are dental product
 23 manufacturers?
 24 A. Yes.
 25 Q. P&G was selling direct with special

1 CONFIDENTIAL - HAL MULLER
 2 pricing for buying groups like Smile Source?
 3 MR. McDONALD: Object to the form.
 4 A. That's what I was told by Colgate.
 5 Q. And Colgate wanted to offer the same
 6 buying groups a competitive price on Colgate
 7 items to be offered through HSD?
 8 A. Correct.
 9 Q. In the 2013-2014 timeframe, you
 10 thought Smile Source would be a good customer?
 11 MR. McDONALD: Object to the form.
 12 A. Yes.
 13 Q. In the 2013-2014 timeframe, you
 14 thought it made sense to deal with Smile Source?
 15 MR. McDONALD: Object to the form.
 16 Asked and answered.
 17 A. Yes.
 18 Q. If it was up to you, Schein would have
 19 continued working with Smile Source; is that
 20 right?
 21 MR. McDONALD: Object to the form.
 22 Improper foundation. Mischaracterizes the
 23 record.
 24 A. Yeah, I -- I'd have to have a tough
 25 time making a decision for a different division.

1 CONFIDENTIAL - HAL MULLER
 2 stamp Henry Schein 000043181. Take a moment to
 3 review CX2149 and let me know when you're ready.
 4 (Exhibit CX2149-001, a document
 5 bearing Bates Nos. Henry Schein-000043181,
 6 marked for identification, as of this date.)
 7 (Document review.)
 8 THE WITNESS: I've read it.
 9 BY MS. ROSNER:
 10 Q. You've had an opportunity to review
 11 CX2149?
 12 A. Yes.
 13 Q. This is an e-mail written by you at
 14 the top dated October 2, 2014; is that right?
 15 A. Yes.
 16 Q. You wrote this e-mail as part of your
 17 job?
 18 A. Yes.
 19 Q. It's part of your job to respond to
 20 questions about Schein customers?
 21 A. Yes.
 22 Q. You wrote this e-mail at or near the
 23 time you got this question about Smile Source?
 24 A. Yes; from our lab people.
 25 Q. You wrote this e-mail and maintained

1 CONFIDENTIAL - HAL MULLER
 2 Q. Because Smile Source could have sold
 3 offices, it was HSD's decision whether to work
 4 with Smile Source?
 5 MR. McDONALD: Object to the form.
 6 A. In this --
 7 MR. McDONALD: Mischaracterizes the
 8 evidence.
 9 Go ahead.
 10 A. In this case, yes, because of the
 11 messaging they were giving.
 12 Q. And HSD didn't want to meet Smile
 13 Source's requirements?
 14 MR. McDONALD: Object to the form.
 15 Mischaracterizes the evidence.
 16 A. I have -- what their decision was or
 17 how it didn't work out, I have no idea what the
 18 issues were.
 19 Q. Are you saying that HSD wanted to meet
 20 Smile Source's requirements?
 21 MR. McDONALD: Object to the form.
 22 A. I don't know. I wasn't involved.
 23 Q. Let me hand you a document that was
 24 previously marked for identification as CX2149.
 25 The first page of the document bears the Bates

1 CONFIDENTIAL - HAL MULLER
 2 it in Schein's regular course of conducting
 3 business?
 4 MR. McDONALD: If you're trying to
 5 establish the authenticity, we are not going
 6 to contest the authenticity of Henry
 7 Schein's e-mails that we produced to you.
 8 Okay? It's just silly.
 9 A. This appears to be an e-mail from Hal
 10 Muller to -- or, from me to two of our lab
 11 people, yes.
 12 Q. This is a true and accurate copy of
 13 CX2149?
 14 A. I have no reason to doubt that unless
 15 somebody has changed it or I never -- it was
 16 never sent.
 17 Q. There's nothing about it that looks
 18 changed to you?
 19 A. I would have no idea.
 20 Q. I'm going to read your e-mail at the
 21 top of the page. "As the old expression goes,
 22 'been there - done that.' We used to be SS
 23 supplier. I think they are good, but HSD does
 24 not want to meet their requirements.
 25 Personally, I think it makes sense to deal with

1 CONFIDENTIAL - HAL MULLER
 2 them... but they are solo offices in the end."
 3 Did read that correctly?
 4 A. Yes.
 5 Q. It was your understanding that HSD did
 6 not want to meet Smile Source's requirements?
 7 A. That's what the --
 8 MR. McDONALD: Object to the form.
 9 A. That's what the e-mail says.
 10 Q. Is that what your understanding was?
 11 A. At -- from reading this, yes.
 12 Q. You can put that aside.
 13 At one point, you offered to allow
 14 Special Markets to take Smile Source back; is
 15 that right?
 16 A. I would imagine that if there were
 17 issues that couldn't be resolved and we could, I
 18 thought they would be a good customer.
 19 Q. You raised a possibility of pursuing
 20 Smile Source with Special Markets pricing?
 21 A. This late in the game? In 2014?
 22 Q. Yes.
 23 A. It's possible. Again, I did think
 24 they would be a good customer, but I also had
 25 objections to their marketing.

1 CONFIDENTIAL - HAL MULLER
 2 Smile Source was made up of private customers,
 3 correct?
 4 MR. McDONALD: Object to the form.
 5 A. It's possible.
 6 Q. Special Markets often does business
 7 with companies that are made up of private
 8 customers; is that right?
 9 MR. McDONALD: Object to the form.
 10 A. We do business with offices that
 11 appear to be private.
 12 Q. I want to use the example of a DSO.
 13 A DSO is a corporate entity, correct?
 14 A. Correct.
 15 Q. And as DSOs grow, they often acquire
 16 what were previously independent private
 17 practice dentists; is that right?
 18 A. Correct.
 19 Q. Did you ever get push-back from Tim
 20 Sullivan about the fact that Smile -- the fact
 21 that Schein did business with DSOs?
 22 A. Only at the very beginning.
 23 Q. Why only at the very beginning?
 24 A. Because DSOs were considered the devil
 25 in the industry and, you know, we -- some

1 CONFIDENTIAL - HAL MULLER
 2 Q. You offered to get Smile Source back
 3 through Special Markets' rules of play; is that
 4 right?
 5 MR. McDONALD: Object to the form.
 6 A. It's possible. I'm also referring
 7 back to the e-mail you just had me read where I
 8 basically said it's up to HSD, so...
 9 Q. Special Markets' rules of play refer
 10 to Special Markets' lower priced model; is that
 11 right?
 12 A. It's a lower priced model and a lower
 13 commission model.
 14 Q. For you in the 2013-2014 timeframe,
 15 Smile Source's rapid growth and the fact that it
 16 was with a competitor justified using Special
 17 Markets' lower pricing to win back Smile Source;
 18 is that right?
 19 MR. McDONALD: Object to the form.
 20 A. In my opinion.
 21 MR. McDONALD: We've been going about
 22 an hour and a half, whenever you get to a
 23 good point.
 24 Q. Tim Sullivan pushed back on using
 25 Special Markets pricing for Smile Source because

1 CONFIDENTIAL - HAL MULLER
 2 dentists probably didn't like the fact that
 3 Schein was selling to those corporate entities
 4 that they felt was a threat to their future.
 5 Q. You mentioned you got push-back from
 6 Tim Sullivan only in the beginning.
 7 Is there something that changed?
 8 MR. McDONALD: Object to the form.
 9 A. Yes, the realization that these
 10 weren't going to go away.
 11 Q. What's your understanding of why Mr.
 12 Sullivan no longer complained about DSOs but was
 13 complaining about Smile Source?
 14 MR. McDONALD: Object to the form.
 15 A. Because the account stayed as it was,
 16 so Dr. Smith was still Dr. Smith. Everything
 17 about Dr. Smith was the same, except he could
 18 then buy products from our own company at a
 19 lower price, with nothing else changing but them
 20 signing a piece of paper.
 21 Q. How was that different from the DSO?
 22 A. Dr. Smith is no longer Dr. Smith. Dr.
 23 Smith's billing address is now a corporate
 24 entity.
 25 Q. What's important about the billing

1 CONFIDENTIAL - HAL MULLER
2 address and the corporate entity?

3 MR. McDONALD: Object to the form.

4 A. If somebody joins a DSO, they have in
5 fact sold their practice or a portion of their
6 practice or some part of their practice, where a
7 buying group traditionally -- well, almost
8 always doesn't really own that practice, so
9 there is a difference. There's a difference in
10 the market.

11 Q. And why is that difference important
12 to Schein?

13 A. A lot of it has to do with compliance.
14 Again, in Special Markets' world, we are calling
15 on the corporate entity, not the locations
16 themselves. Thus, it's a lower cost to market
17 strategy.

18 Henry Schein Dental has a high value
19 and a high cost to the market, so it's -- it's
20 two totally -- it's like I ran Chevrolet and Tim
21 ran Cadillac and so there were a lot more
22 features in the Cadillac than there were in the
23 Chevy. So, in this case, you're saying, you
24 know, would we be selling Chevy prices on a
25 Cadillac? So, I'm trying to use examples to

1 CONFIDENTIAL - HAL MULLER
2 help you.

3 Q. This will be sort of my last area of
4 questioning and then we can take a break. I
5 just want to make sure I fully understand it.

6 It sounds like Special Markets no
7 longer got push-back on DSOs because there was a
8 recognition that DSOs could enforce compliance;
9 is that right?

10 MR. McDONALD: Object to the form.

11 A. Yes, they were also solely in Special
12 Markets.

13 Q. Special Markets no longer received
14 push-back on DSOs because DSOs required less of
15 a full service touch?

16 MR. McDONALD: Object to the form.

17 A. Correct.

18 Q. It was your understanding that Smile
19 Source could enforce compliance among its
20 members; otherwise, the franchise fee didn't
21 make sense?

22 MR. McDONALD: Well, object to the
23 form.

24 A. I don't think Smile Source could force
25 compliance. I think the dentists would be

1 CONFIDENTIAL - HAL MULLER
2 foolish not to buy from the distributor partner,
3 no matter who they were.

4 MS. ROSNER: We can take a break.

5 Off the record.

6 THE VIDEOGRAPHER: The time is 9:57
7 a.m. We're off the record.

8 (Recess.)

9 THE VIDEOGRAPHER: The time is 10:12
10 a.m. We're on the record.

11 BY MS. ROSNER:

12 Q. Mr. Muller, before the break, when we
13 were talking about DSOs, you made a comment
14 that, throughout these proceedings, you learned
15 that Schein had something you called lookalikes,
16 companies that you thought were DSOs but
17 actually ended up being buying groups.

18 Do you recall that?

19 A. No, I don't think I've used the term
20 "lookalikes" at all.

21 Q. Do you recall the idea of discovering
22 that companies you thought were DSOs were
23 actually buying groups?

24 A. Yes.

25 Q. What companies are you referring to?

1 CONFIDENTIAL - HAL MULLER
2 A. IDA and one of the groups in Georgia.
3 I'm sorry, I forget the name.

4 Q. Is it Dental Partners of Georgia?

5 A. I think so, yeah.

6 Q. Anyone else?

7 A. Those are the two that come to mind.

8 Q. When did you discover that IDA was a
9 buying group?

10 A. When we were doing the handoff of Mid
11 Market and, you know, the new groups in 2014.

12 Q. When did you discover that Dental
13 Partners of Georgia was a buying group?

14 A. At the same time.

15 Q. I want to return back to talking about
16 some of the push-back that Special Markets
17 received in dealing with Schein and in dealing
18 with Smile Source and maybe some other buying
19 groups.

20 You were hesitant to take on buying
21 group accounts because you didn't want the
22 Sullivan headache?

23 MR. McDONALD: Object to the form.

24 A. I didn't want to take on buying --
25 yes, buying groups, again, it's so broad that if

1 CONFIDENTIAL - HAL MULLER
2 somebody was just putting some offices together
3 and calling themselves a buying group, I didn't
4 think it was really a good idea for Schein to
5 just start discounting, and I didn't want to
6 make decisions for a different division.

7 Q. What does the "Sullivan headache"
8 refer to?

9 MR. McDONALD: Object to the form.

10 A. I'm sure I was just referring to Tim.

11 Q. Why would you be referring to Tim in
12 referencing the Sullivan headache?

13 A. Can you -- I mean, I guess at the
14 timing, this could have been Sullivan dental or
15 Tim. I don't know. It's kind of out of
16 context.

17 Q. I'm going to hand you a document
18 that's been premarked as CX2137.
19 It's an e-mail string. The first page starts with
20 Henry Schein-000192488.

21 Please take a moment and review CX2137
22 and let me know when you're done.

23 (Exhibit CX2137-001 through 018, a
24 document bearing Bates Nos. Henry
25 Schein-000192488 through 494 with

1 CONFIDENTIAL - HAL MULLER
2 attachment, marked for identification, as of
3 this date.)

4 THE WITNESS: What part do you want me
5 to read?

6 BY MS. ROSNER:

7 Q. I'm going to refer you to your e-mail
8 on the bottom of the first page with the
9 CX2137-001. I understand this is a multi-page
10 string, so you can feel free to review as much
11 of it as you like, but I will only focus on your
12 e-mail.

13 (Document review.)

14 A. Okay.

15 Q. You've had an opportunity to review
16 CX2137?

17 A. Yes.

18 Q. The e-mails in CX2137 authored by you
19 were written as part of your job at Henry
20 Schein?

21 A. Yes.

22 Q. Turning to the e-mail at the bottom of
23 CX2137-001 dated February 8, 2015, you're
24 talking about a group called DentMall and you
25 say, "Not sure we should move this back to

1 CONFIDENTIAL - HAL MULLER
2 Elite. I never felt good about the account, and
3 if it's a BG, I don't want the Sullivan
4 headache."

5 Did I read that correctly?

6 A. You did.

7 Q. When you referred to "BG," you're
8 referring to buying group?

9 A. Correct.

10 Q. If DentMall is a buying group, you
11 don't want the Sullivan headache; is that right?

12 A. That's what it says.

13 Q. Was that accurate at the time you
14 wrote it?

15 A. It could have been. It was three
16 years ago.

17 Q. Do you have any reason to suggest that
18 this was not accurate at the time that you wrote
19 it?

20 A. No.

21 Q. Why would you have a Sullivan headache
22 for working with a buying group?

23 MR. McDONALD: Object to the form.

24 A. Again, all buying groups that really
25 affect a different division, you know, is going

1 CONFIDENTIAL - HAL MULLER
2 to cause problems because we're stepping over
3 divisional lines. So I just didn't want to get
4 into that if we were doing fine in the other
5 division.

6 Q. So in this e-mail you're saying you
7 didn't want to appear as if you were dealing
8 with customers that rightfully belonged in HSD?

9 A. Right, as a matter of -- yes, that
10 would characterize the statement.

11 Q. That's because buying groups belonged
12 in HSD?

13 MR. McDONALD: Object to the form.

14 A. No, it depended on what the buying
15 group was. We both had them.

16 Q. So if you both had buying groups, why
17 would HSD complain about Smile Source -- strike
18 that.

19 If both HSD and Special Markets did
20 business with buying groups, why would you get a
21 Sullivan headache from dealing with this buying
22 group?

23 A. Because if this was in their division,
24 this e-mail, then trying to take it back would
25 be moving volume again from division to division

1 CONFIDENTIAL - HAL MULLER
2 as well as the fact that the offices here, which
3 I'm still not, from reading this, sure whether
4 this was a buying group or not, but in either
5 case, it was in their division, and I didn't
6 feel that we needed to, again, try to move a
7 close to a million dollar account from a
8 division to a division.

9 Q. You mentioned you didn't know whether
10 this was in their division or not.

11 You're referencing you didn't know
12 whether the DentMall account was in HSD?

13 MR. McDONALD: Object to the form.
14 Mischaracterizes testimony.

15 A. Right. This -- this is stating that
16 it is in Henry Schein Dental and that we were
17 considering whether we wanted to move this back
18 because of the person that owned this group.

19 Q. You can put that aside.

20 You thought the time was coming for
21 Henry Schein to enter the buying group business
22 in a very announced way in 2014; is that right?

23 MR. McDONALD: Object to the form.

24 If you have a document, you ought to
25 show it to him.

1 CONFIDENTIAL - HAL MULLER

2 A. Did I? I think Henry Schein Dental
3 decided that. That's about the time we were
4 setting up the split division or setting up the
5 new segment, and buying groups were part of
6 that.

7 Q. So Schein was not previously in the
8 buying group business in a very announced way?

9 MR. McDONALD: Object to the form.

10 A. So the reality is buying groups
11 weren't a big thing in the industry. It's
12 important to know that the consolidation of the
13 industry in 2008, before, you know, the economic
14 slowdown, dentists did not accept a lot of PPO
15 business. People stopped going to the dentist.

16 So, coming out of it, dentistry has
17 not been growing, and a way for the dentists to
18 keep his profits is to try to find supplies at a
19 lower cost. As a result of that, buying groups,
20 DSOs, everything that could help dentists save
21 so that he did not lose his income became much
22 more prevalent.

23 So today there's something like four
24 locations a week that move from private practice
25 into a DSO or working with a buying group or

1 CONFIDENTIAL - HAL MULLER
2 something like that because they're seeing that
3 their patient base is not growing. That's why
4 you can see the timing is that it accelerated.

5 Q. Special Markets tried to convince HSD
6 to address buying groups that brought more than
7 price to their members; is that right?

8 MR. McDONALD: Object to the form.

9 A. I believe in doing anything that's
10 changing the marketplace.

11 Q. Is that because HSD did not believe in
12 doing business with buying groups that brought
13 more than price to their members?

14 MR. McDONALD: Object to the form.

15 A. What their philosophies and how they
16 decided to open people up was not part of my
17 world.

18 Q. But you were making suggestions to how
19 HSD should consider changing its business; is
20 that right?

21 A. I make suggestions lots of times.

22 Q. You thought HSD would have to come up
23 with a buying group plan?

24 MR. McDONALD: Object to the form.

25 Vague.

1 CONFIDENTIAL - HAL MULLER

2 A. Right, I believed that -- I think they
3 were there on their own, and I'm sure I was just
4 helping to move it along.

5 Q. What makes you think they were there
6 on their own?

7 A. Because we had assigned a new person
8 to this in Brian Brady came, who from the West
9 Coast, and he had seen very much so that buying
10 groups were part of the business and that they
11 had opened up local ones over the years. And
12 that was then, as I said, the new phenomenon
13 that these things were coming up and growing,
14 and so I think it was the time for them to do it
15 and I think it was a good idea.

16 Q. When did Brian Brady come onboard in
17 this role that you're describing?

18 A. In the 2014-15 period, I believe.

19 Q. In the 2014 period, Tim Sullivan was
20 reticent to doing business with buying groups,
21 is that your understanding?

22 MR. McDONALD: Object to the form.
23 Mischaracterizes the testimony and the
24 evidence.

25 A. I don't know.

1 CONFIDENTIAL - HAL MULLER
 2 Q. You called Tim Sullivan a dying breed;
 3 is that right?
 4 MR. McDONALD: Object to the form.
 5 A. If you have that in writing, I could
 6 have said that.
 7 Q. You don't remember calling Tim
 8 Sullivan a dying breed?
 9 A. Off the top of my head, no, but I can
 10 see myself.
 11 Q. Why can you see yourself saying that?
 12 A. Because Tim likes the concept of the
 13 private practitioner and supporting their
 14 growth, and I believe that things were changing
 15 in the marketplace that he, like a lot of other
 16 people, were hoping wouldn't happen, you know.
 17 So the one thing to realize is when
 18 you take all of these buying groups, even if you
 19 use the broadest definition, it's probably less
 20 than 10 percent of the marketplace. Pure buying
 21 groups, I mean, just people trying to get better
 22 pricing and stuff like that, I would guess is
 23 probably less than 5 percent of the marketplace.
 24 So I think that Tim was the dying
 25 breed saying like, okay, this isn't going to

1 CONFIDENTIAL - HAL MULLER
 2 How do they compete?
 3 A. Every office, dental office, that's
 4 out there is a potential customer for not only
 5 us three, but for everybody. The full-service
 6 model, we are the -- the big -- the biggest, and
 7 now I would say that Benco is national too. So,
 8 you know, the three national players.
 9 Q. Do they also compete on price?
 10 A. Yes.
 11 I also think that, and I don't know
 12 that this has anything to do with this, but
 13 nowhere in the Smile Source thing were we
 14 talking about Benco and Patterson. It was
 15 really Burkhart, and so it just seemed weird
 16 that we were going down that path when it --
 17 so -- so vividly when it has nothing to do with
 18 where -- why we're here, in my estimation,
 19 but...
 20 Q. I want to come back to what you're
 21 saying here, but first I want to hand you a
 22 document that's been premarked for
 23 identification as CX2144.
 24 This is an e-mail chain between you,
 25 Tim Sullivan and Jim Breslawski. The first page

1 CONFIDENTIAL - HAL MULLER
 2 happen, and that's -- that would be a -- would
 3 have been the referral, the reference.
 4 Q. You started your answer by saying that
 5 Tim was the kind who liked the private practice
 6 dentist and helping the private practice dentist
 7 to grow their business model.
 8 How is doing business with buying
 9 groups inconsistent with that philosophy?
 10 MR. McDONALD: Object to the form.
 11 A. Buying groups, traditionally, and
 12 again, that's why I said it's a really broad
 13 thing, if it's just about price, if it's just
 14 about price of merchandise, that is not who we
 15 are. I mean, that is -- that's -- I hate to say
 16 it -- that's who Amazon is. That's who Darby
 17 Dental is.
 18 It's not who Patterson, you know,
 19 Benco, Burkhart and us are. We're full-service
 20 distributors. And so just carving out that
 21 little piece of discounted price is not in the
 22 vision of people who really work for Henry
 23 Schein Dental, including their management team.
 24 Q. Earlier you referenced that Benco,
 25 Patterson and Schein compete fiercely.

1 CONFIDENTIAL - HAL MULLER
 2 of the document is Henry Schein-000195206.
 3 Please take a moment to review that document and
 4 let me know when you have finished.
 5 (Exhibit CX2144-001 through 002, a
 6 document bearing Bates Nos. Henry
 7 Schein-000195206 through 207, marked for
 8 identification, as of this date.)
 9 BY MS. ROSNER:
 10 Q. I apologize. That's the wrong
 11 document.
 12 I can take back that document. I
 13 apologize.
 14 I'm going to hand you CX244. The
 15 first page of this e-mail chain is Henry
 16 Schein-000043192. It is an e-mail chain between
 17 yourself, Tim Sullivan, at some point John
 18 Chatham is also copied.
 19 Please take a moment to review CX244.
 20 (Exhibit CX244.001 through 002, a
 21 document bearing Bates Nos. Henry
 22 Schein-000043192 through 193, marked for
 23 identification, as of this date.)
 24 (Document review.)
 25 MS. ROSNER: I apologize once again.

1 CONFIDENTIAL - HAL MULLER
2 This is not the right document. We're going
3 to look at CX245. I'm positive this is the

5 MR. McDONALD: Third time's a charm.

6 MS. ROSNER: Third time's a charm.
7 I'll take back 244, please.

8 The first page of this e-mail string
9 is Henry Schein-000043184.

10 Please take a moment to review CX245,
11 and let me know when you're finished.

12 (Exhibit CX0245.001 through 003, a
13 document bearing Bates Nos. Henry
14 Schein-000043184 through 186, marked for
15 identification, as of this date.)

16 (Document review.)

17 THE WITNESS: Okay.

18 BY MS. ROSNER:

19 Q. You've had an opportunity to review
20 CX2450?

21 A. Yes.

22 Q. This is an e-mail string. The
23 last-in-time e-mail is October 22, 2014. The
24 subject of the string is "your MSO in a box."
25 In this e-mail chain, the e-mails that

1 CONFIDENTIAL - HAL MULLER
2 you wrote, you wrote these as part of your job;
3 isn't that right?

4 A. Yes.

5 Q. You're referring to a program that HSD
6 is considering putting together, and you say,
7 "Just nervous about this. Don't want to look
8 like we're in competition."

9 I'm sorry. I'm reading at the top of
10 page CX245-002.

11 Is that right?

12 MR. McDONALD: Hang on. He wasn't
13 with you when you were reading, so...

14 Why don't you ask your question again
15 now that he knows where you are.

16 Q. At the top of page CX2450-002 that
17 begins your -- the text of your e-mail, where
18 you say, "Just nervous about this. Don't want
19 to look like we are in competition."

20 Did I read that correctly?

21 A. Yes.

22 Q. You're nervous about a new program
23 that HSD is putting together that you referred
24 to as HSD's MSO in a box; is that right?
25 A. Correct.

1 CONFIDENTIAL - HAL MULLER

2 Q. Is that right?

3 A. Correct.

4 Q. And Tim Sullivan responds, "Like with
5 GPOs, right? Sorry, I couldn't resist."

6 Did I read that right?

7 A. You read it right. Correct.

8 Q. Tim Sullivan is joking there, is that
9 your interpretation of what he's saying?

10 MR. McDONALD: Yeah, I'll represent to
11 you that the "J" in all these e-mails like
12 that is a smiley face.

13 A. Right. Yes.

14 Q. And he's joking that HSD is in
15 competition with Special Markets with GPOs?

16 MR. McDONALD: Object to the form.

17 Q. Is that right?

18 A. This e-mail chain is about competing
19 with dental support organizations. I don't know
20 why Tim jumped into the GPO because it had
21 nothing to do with this, so I really don't know
22 what this thing was meant to -- why he brought
23 that up.

24 Q. You have no understanding of his
25 comment, "Like GPOs, right? Sorry, I couldn't

1 CONFIDENTIAL - HAL MULLER
2 resist"?

3 A. Right. I mean, he's grabbing
4 something from outside the memo just to kid
5 around with me.

6 Q. Did you understand what he meant at
7 the time?

8 MR. McDONALD: Object to the form.

9 A. I understood it enough to write the
10 following e-mail, which said, "You are a dying
11 breed," that we just talked about.

12 Q. So if you understood it enough to
13 write the following e-mail, what is it that you
14 understood Tim Sullivan was saying?

15 MR. McDONALD: Object to the form.

16 To be clear, you're asking him what he
17 understood when he read this e-mail in
18 October of 2014?

19 All right. If you recall what you
20 understood it to mean in 2014, tell her.

21 THE WITNESS: Right. And all I'm
22 doing is reading the same way you are. Tim
23 said a joke, and I came back with a retort.

24 BY MS. ROSNER:

25 Q. And your retort is that Tim is going

1 CONFIDENTIAL - HAL MULLER
2 to be a dying breed soon; that's right?

3 A. That's what I wrote, yes.

4 Q. "We are going to have to come up with
5 a buying plan."

6 Does that mean that Schein did not
7 have a buying group plan?

8 A. We did not have a formal plan, no.

9 Q. You were suggesting in this e-mail
10 that Mr. Sullivan thought that Henry Schein
11 Dental could avoid buying groups?

12 MR. McDONALD: Object to the form.

13 A. I wrote here, "It is hard to think we
14 can avoid." So, yes, I'm saying it's something
15 that I felt we should do.

16 Q. Why was -- what's your understanding
17 of why Henry Schein Dental was trying to avoid
18 buying groups?

19 MR. McDONALD: Object to the form.

20 Mischaracterizes the document.

21 Mischaracterizes his testimony.

22 A. As I've said a few times already, the
23 whole "buying group" term is so broad that I --
24 even I think that defining what a buying group
25 is for something that we could plan to work with

1 CONFIDENTIAL - HAL MULLER
2 needed to be accomplished.

3 I don't think that Henry Schein Dental
4 or Special Markets was anti buying group. We
5 were always questioning the value of a group of
6 whether it was truly a buying group or truly a
7 management company.

8 As I've said a few times, some people
9 just call up and say I have a bunch of people
10 here and we're calling ourselves a buying group.

11 MR. McDONALD: Why don't you pause a
12 second.

13 Move your microphone up because you're
14 hitting it with your hand, I think.

15 There you go.

16 Q. You mentioned that sometimes you would
17 get calls from people saying we want to start a
18 buying group.

19 What was Henry Schein's policy towards
20 those types of calls?

21 A. I don't know what Henry Schein
22 Dental's policy was. My policy would have been
23 you have to be more than that.

24 Q. At the top of this e-mail, you say,
25 "Okay. See you later alliGATOR," with "gator"

1 CONFIDENTIAL - HAL MULLER
2 in all caps.

3 Were you trying to send a message with
4 that response?

5 A. Chances are, and this is probably a
6 very good assumption, that somewhere around this
7 same timing, we were talking about Dental Gator.

8 Q. You can put this e-mail aside.

9 With times changing, you thought
10 Schein might need to start thinking of a buying
11 group strategy; is that right?

12 A. A plan, yes.

13 Q. Are you familiar with the Kois buying
14 group?

15 A. I'm not if they actually got to the
16 point of creating one.

17 Q. Tim Sullivan did not agree with you
18 that Schein needed to start thinking about a
19 buying group strategy; is that right?

20 MR. McDONALD: Object to the form.

21 A. I don't know.

22 Q. Is it your understanding that Tim
23 Sullivan thought that buying groups were a
24 slippery slope?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - HAL MULLER

2 A. I know he put that in an e-mail, yes.

3 Q. Is it your understanding that Tim
4 Sullivan did not plan to take the lead role in
5 doing business with buying groups?

6 MR. McDONALD: Object to the form.

7 A. Sorry. I'm chewing an ice cube.

8 I, you know, the businesses are so
9 different that you're asking me many times over
10 what Tim's thinking is, even if he put it in an
11 e-mail, is and what -- how he's defining buying
12 groups as opposed to how I'm defining buying
13 groups.

14 So you're asking me a lot of questions
15 of what I think Tim Sullivan thinks, even if
16 they're in an e-mail exchange. So my feeling is
17 we both know that buying groups are around, and
18 if we have to start discounting with no value,
19 then we're pretending to be somebody we're not,
20 which is a full-service distributor; that we
21 have a lot of things -- service techs that we
22 need to pay for, and the more we discount, then
23 we have to charge people in other ways.

24 Q. What I'm asking is to understand
25 whether or not there was ever disagreement

1 CONFIDENTIAL - HAL MULLER
2 between you and Tim Sullivan about how to deal
3 with buying groups.

4 Is it your understanding that there
5 was some disagreement between you and Tim
6 Sullivan?

7 A. Tim and I disagree on business
8 principles all the time.

9 Q. I'm asking you purely about buying
10 groups.

11 Did you and Tim Sullivan disagree
12 about the strategy for pursuing buying groups?

13 MR. McDONALD: Object to the form.

14 A. We had a difference of opinion.

15 Q. And what was your opinion?

16 MR. McDONALD: Object to the form.
17 Vague as to time.

18 Go ahead.

19 A. Yeah, depending on the timing of this
20 and depending on the industry, I am somebody who
21 embraces change and wants to do anything to
22 disrupt the industry. That is not who Tim
23 Sullivan is.

24 As a -- as a result, even with buying
25 groups, we had differences of opinion of how

1 CONFIDENTIAL - HAL MULLER
2 quick to get into new business opportunities.

3 Q. When Tim Sullivan says he did not plan
4 to take the lead role in doing business with
5 buying groups, what's your understanding of what
6 he meant?

7 MR. McDONALD: Object to the form.
8 Go ahead.

9 A. Yeah, one of -- that you're asking, I
10 could come up with one or two things. It either
11 means as Henry Schein Dental versus the rest of
12 the community or whether it's Special Markets
13 that should be taking the lead and not Henry
14 Schein Dental.

15 Q. I'm going to hand you a document that
16 has been previously marked as Exhibit CX2130.
17 This is an e-mail chain. The first page is
18 labeled HS-00012399.

19 Please take a moment to look at CX2130
20 and let me know when you have familiarized
21 yourself.

22 (Exhibit CX2130-001 through 002, a
23 document bearing Bates Nos. HS-00012399
24 through 400, marked for identification, as
25 of this date.)

1 CONFIDENTIAL - HAL MULLER
2 (Document review.)

3 THE WITNESS: Are you going to be
4 asking me about the first page or the
5 second? Because they're two totally
6 different subjects.

7 BY MS. ROSNER:

8 Q. I'm not going to refer at all to the
9 e-mail about Kois. I'm going to refer to only
10 CX2130-001.

11 A. Okay.

12 (Document review.)

13 A. Okay.

14 Q. You've had an opportunity to review
15 CX2130?

16 A. Yes.

17 Q. This is an e-mail chain. You have
18 written some responses in the e-mail chain.

19 You wrote these responses as part of
20 your job?

21 A. Yes.

22 Q. And you had knowledge of the contents
23 of these e-mails that you wrote in CX2130?

24 A. Yes.

25 Q. At the bottom of CX2130, you write in

1 CONFIDENTIAL - HAL MULLER
2 the second line from the bottom, "The times are
3 changing. We might need to start thinking of a
4 buying group strategy."

5 Did I read that correctly?

6 A. Yes.

7 Q. Up one e-mail to the Tim Sullivan
8 e-mail at 7:17 p.m., the last -- second-to-last
9 sentence of his e-mail says, "I still believe
10 this is a slippery slope and have yet to see a
11 successful one in dental and don't plan to take
12 the lead role."

13 Did I read that correctly?

14 A. Yes.

15 Q. So Tim Sullivan does not plan to take
16 the lead role in dealing with buying groups, is
17 that what you interpret him as saying?

18 MR. McDONALD: Object to the form.

19 A. That's what he's saying here.

20 Q. What does it mean to not take the lead
21 role?

22 MR. McDONALD: Object to the form.

23 A. I'm guessing that he means not just
24 jumping in with both feet to reach out to a
25 whole bunch of buying groups and -- and go after

1 CONFIDENTIAL - HAL MULLER
 2 them, as traditionally buying groups come to us.
 3 So there have been plenty of buying
 4 groups over the years, so -- and I think, as Tim
 5 says in this e-mail, none of them have really
 6 worked; and so if they're not working, why would
 7 we jump into it?
 8 Q. Is it your understanding that Tim
 9 Sullivan doesn't want to be the first company to
 10 work with buying groups?
 11 MR. McDONALD: Object to the form.
 12 Mischaracterizes the evidence.
 13 A. He doesn't want to take the lead role.
 14 There are plenty of -- by '14, we were very
 15 heavily into buying groups, as were all of our
 16 competitors, as far as I know.
 17 Q. I can take that document back.
 18 You continued to question whether
 19 Schein should do business with buying groups in
 20 the 2014 and 2015 period; is that right?
 21 MR. McDONALD: Object to the form.
 22 A. I don't know if I questioned -- you're
 23 making it sound like it's a negative. I was --
 24 I was pro dealing with buying groups.
 25 Q. You wanted to do business with buying

1 CONFIDENTIAL - HAL MULLER
 2 So if people could prove to us that
 3 they had a method of moving volume, then I
 4 couldn't see why we wouldn't do that.
 5 Q. By saying no to buying group
 6 customers, you feared that Schein was losing
 7 business?
 8 MR. McDONALD: Object to the form.
 9 A. Had the potential to lose business.
 10 And I'm not sure why they said no at Henry
 11 Schein Dental to some groups and yes to others.
 12 Q. You wanted to know how solid a stance
 13 Schein should take on buying groups?
 14 MR. McDONALD: Object to the form.
 15 Vague.
 16 Q. Is that right?
 17 A. You'd have to show me that.
 18 Q. Was Schein taking any sort of stance
 19 on buying groups?
 20 MR. McDONALD: Object.
 21 Q. To your knowledge?
 22 MR. McDONALD: Object to the form.
 23 A. We may have been saying that, but we
 24 never did, as evidenced by we constantly had
 25 more and more buying groups every year.

1 CONFIDENTIAL - HAL MULLER
 2 groups?
 3 A. Yes.
 4 Q. And you wanted to know why Schein kept
 5 saying no to buying groups; is that right?
 6 MR. McDONALD: Object to the form.
 7 A. I wanted to know why we weren't moving
 8 quicker.
 9 Q. Schein was moving slow with buying
 10 groups, in your mind?
 11 A. Yes; because of who I am. Schein, as
 12 an organization, does not move very quickly.
 13 Q. You wanted to see Schein adopt more
 14 buying group customers faster than Schein was
 15 doing?
 16 A. Right, if they were true buying
 17 groups.
 18 Q. What do you mean by "true buying
 19 groups"?
 20 A. Again, I keep coming back to the fact
 21 that many buying groups add absolutely no value
 22 except for lowering price, and what I think the
 23 industry and why Tim has actually said haven't
 24 worked is we don't gain new business. We just
 25 lower price to our current customers.

1 CONFIDENTIAL - HAL MULLER
 2 Q. Why would you have said that Schein
 3 was taking a stance on buying groups?
 4 MR. McDONALD: Object to the form.
 5 Mischaracterizes what he just said.
 6 A. Right, I don't ever remember us taking
 7 a stance and saying no to buying groups if
 8 people came to us.
 9 You were talking about Smile Source
 10 before a lot. They left us, we didn't get rid
 11 of them, and so that showed that we continued to
 12 want to deal with people like them.
 13 Q. Let me hand you a document that's been
 14 previously marked as CX2135, an e-mail string
 15 that's multi-page. The first page begins with
 16 the Bates number Henry Schein-000601936.
 17 Please take a moment to review CX2135
 18 and let me know when you're done.
 19 (Exhibit CX2135-001 through 003, a
 20 document bearing Bates Nos. Henry
 21 Schein-000601936 through 939, marked for
 22 identification, as of this date.)
 23 (Document review.)
 24 THE WITNESS: Go ahead.
 25 BY MS. ROSNER:

1 CONFIDENTIAL - HAL MULLER
 2 Q. You had an opportunity to review
 3 CX2135?
 4 A. Yes.
 5 Q. It's an e-mail chain. The top
 6 latest-in-time e-mail is from Jim Breslawski
 7 dated May 20, 2015. You write a couple of
 8 e-mails throughout the chain.
 9 You wrote these e-mails as part of
 10 your job; is that right?
 11 A. Yes.
 12 I could -- I could say to you that any
 13 e-mail that I write from HenrySchein.com on
 14 these e-mails is something I wrote as part of my
 15 job.
 16 Q. And you had some knowledge of the
 17 information contained in the e-mails?
 18 MR. McDONALD: Well, object to the
 19 form.
 20 Are you talking about his, his
 21 e-mails, or the entire e-mail?
 22 Q. Your e-mails. Anything that you
 23 wrote, you had knowledge --
 24 A. Yes.
 25 Q. -- of the contents?

1 CONFIDENTIAL - HAL MULLER
 2 In your e-mail, which is one down from
 3 Jim Breslawski's e-mail on the first page, in
 4 the second full paragraph that starts "Dental
 5 Gator." The last sentence, I think, is, "The
 6 real question we need to answer (and maybe for
 7 the offsite) is how solid a stance do we want to
 8 have?"
 9 Did I read that correctly?
 10 A. Yes.
 11 Q. You wanted to know how solid a stance
 12 Schein wanted to have on buying groups; is that
 13 right?
 14 MR. McDONALD: Object to the form.
 15 A. Yes.
 16 Q. What kind of stance did Schein have on
 17 buying groups at that time?
 18 MR. McDONALD: Object to the form.
 19 A. I believe the reason I'm saying a
 20 solid, you know, stance is we had -- we didn't
 21 have a formal one way or the other. We were
 22 opening buying groups all the time, and, you
 23 know, I think people were trying to ignore that
 24 we were. I don't know, so I'm just saying here
 25 that I think we need to have a stance to say

1 CONFIDENTIAL - HAL MULLER
 2 that we accept buying groups because we do.
 3 Q. Now, this is in the 2015 period where
 4 Mid Markets should have already been
 5 established.
 6 Why did there need to be clarification
 7 on stance?
 8 MR. McDONALD: Object to the form.
 9 Q. For buying groups?
 10 MR. McDONALD: Object to the form.
 11 A. I don't know why I would have stated
 12 that at this point. This is the -- the start of
 13 really building those buying clubs and groups
 14 and stuff like that. So I don't remember why
 15 I'm saying it that way.
 16 Q. Is there anything that could refresh
 17 your recollection as to why you would say it
 18 that way?
 19 A. No; it's just a topic that just kept
 20 coming up and I think would have been nice just
 21 to say we've always been dealing with buying
 22 groups, let's just state it.
 23 Q. If you have always been dealing with
 24 buying groups, why would you need to state it?
 25 A. Because we have 1,000 to 2,000 people

1 CONFIDENTIAL - HAL MULLER
 2 in the field that I don't know if we ever set a
 3 direction one way or another.
 4 Q. Was Henry Schein trying to hide the
 5 fact that it was dealing with buying groups?
 6 A. I don't think it was being hidden, no.
 7 Q. Why wouldn't you tell your salespeople
 8 that you deal with buying groups?
 9 MR. McDONALD: Object to the form.
 10 A. I think I have said before that
 11 there's certain things that we want to bring up
 12 and that salespeople who are being paid on
 13 commission don't like to hand out sales fliers
 14 sometimes, don't like to acknowledge anything
 15 that would take their gross dollars away from
 16 their pocket.
 17 So coming out with a -- a blanket
 18 statement over something for the national sales
 19 force, I don't know if this is one that we
 20 needed to do, but we did create in this
 21 timeframe positions to deal with more buying
 22 groups, again, because of the knowledge Brian
 23 brought out of the West Coast.
 24 Q. So, with the creation of this group
 25 that was tasked with dealing with buying groups,

1 CONFIDENTIAL - HAL MULLER
2 why wouldn't it be common knowledge that Schein
3 does business with buying groups?

4 MR. McDONALD: Object.

5 A. Well, eventually --

6 I'm sorry.

7 MR. McDONALD: Object to the form.

8 A. Eventually, I believe we did by
9 creating the group. I still don't know if we
10 came out with a formal announcement, but the
11 fact that we have people that this is their
12 full-time job, I would say it was a pretty good
13 statement.

14 Whether we put something out
15 officially, I don't know if we have ever done
16 that.

17 Q. To the extent that you know, at what
18 point did it become common knowledge within
19 Schein that the company did business with buying
20 groups?

21 MR. McDONALD: Object to the form.

22 A. I don't know if it is common. I don't
23 know when -- whether everybody in the
24 organization knows we deal with buying groups or
25 what buying groups are.

1 CONFIDENTIAL - HAL MULLER
2 talk about business with competitors.

3 Q. Why is that?

4 A. Because it's not a good business
5 practice.

6 Q. Do you abide by the business standards
7 of Schein?

8 A. Yes.

9 Q. Do you expect your employees and those
10 who report to you to abide by the business
11 standards of Schein?

12 A. Yes.

13 Q. What do you do when you learn that
14 employees under your watch have violated the
15 business standards of Schein?

16 MR. McDONALD: Object to the form.

17 A. I whip them. No.

18 (Laughter.)

19 A. The -- what do I do? I, you know,
20 just tell them let's, you know, be careful that
21 we're not talking about business. There's many
22 times that we're in an environment where we're
23 sitting with a competitor on a plane with a
24 competitor, and I think we all, you know, try to
25 do our best to talk about the weather and things

1 CONFIDENTIAL - HAL MULLER

2 Q. When we started to talk about this
3 e-mail, you mentioned earlier that there were
4 some within Schein who ignored the fact that
5 Schein did business with buying groups.

6 Who would those people be?

7 MR. McDONALD: Object to the form.

8 A. Did I say "ignored the fact"?

9 MR. McDONALD: Object to the form.

10 Q. You said "ignored the fact."

11 A. I don't know how to characterize what
12 I said.

13 Q. What did you mean by saying there were
14 some within Schein who ignored the fact that
15 Schein did business with buying groups?

16 MR. McDONALD: Object to the form.

17 A. If I said that, the context would be I
18 just think that people, you know, just it was
19 happening and just didn't want to address it.

20 Q. Who would those people be?

21 A. Sales management.

22 Q. I can take back CX2135, please.

23 Does Schein have any rules against
24 speaking with competitors?

25 A. It's in our business standards not to

1 CONFIDENTIAL - HAL MULLER

2 like that. I don't expect people to tell me
3 that they have had that kind of a conversation
4 because it happens in conventions and elevators
5 and whatever that we're cordial to each other.

6 Q. Just to be clear, you don't expect
7 people to tell you when they have what kind of
8 conversations?

9 A. The, "Hi. How are you? How's life"
10 conversations.

11 Q. Do you expect people who report to you
12 to tell you when they have conversation about
13 substantive business with competitors?

14 A. Yes.

15 Q. Why?

16 A. Because it's in our practice. I
17 forget the name of it, but it's -- we have a
18 whole bunch of video trainings that we get and,
19 you know, competition and good ethics is part of
20 that.

21 Q. Is there a consequence for violating
22 the good ethics standards of Schein?

23 A. I have never seen anything to the
24 point of disciplinary action, but it could have
25 happened. I don't know.

1 CONFIDENTIAL - HAL MULLER
 2 Q. You're unaware of consequences when
 3 someone violates the ethical code of Schein?
 4 MR. McDONALD: Object to the form.
 5 A. On the ethical stuff, yes, I have seen
 6 consequences. On the talking to a competitor
 7 about something, I am unaware of any.
 8 Q. Is that because Schein does not have
 9 consequences for employees who talk about
 10 business to competitors?
 11 MR. McDONALD: Object to the form.
 12 A. No, I'm saying I am unaware of any.
 13 Q. Are you aware of any employees that
 14 report to you ever speaking to competitors about
 15 business subjects?
 16 A. I am aware of my team and having
 17 conversations, yes.
 18 Q. What conversations are you aware of?
 19 A. I'm aware that Randy Foley often runs
 20 into somebody in Benco because they fly out of
 21 the same airport. I'm not aware of any, you
 22 know, real business things on that. I think
 23 Randy has spoken -- has heard from people at a
 24 convention about, you know, somebody winning a
 25 customer, not winning a customer after the fact.

1 CONFIDENTIAL - HAL MULLER
 2 Anyone else on your team have
 3 conversations with competitors about substantive
 4 business?
 5 MR. McDONALD: Object to the form.
 6 Mischaracterizes his testimony.
 7 A. I am not aware of. I would imagine
 8 Glenn -- I shouldn't say. People like myself,
 9 Glenn Meltzer and Randy Foley have been in
 10 proximity. I have sat at a table with my
 11 counterpart at Patterson at an event. I'm sure
 12 we both said to each other, How's business? And
 13 we both probably said it's great, whether it was
 14 or not.
 15 So I can't say that those discussions
 16 don't happen all the time. We do talk about the
 17 fact that we will never collude with any of
 18 our -- our competitors, and I think our team is
 19 very, very aware that we wouldn't even entertain
 20 anything about talking with competitors about an
 21 approach to a customer.
 22 Q. Are you familiar with the group
 23 Atlantic Dental Care?
 24 A. I wasn't until I looked at some of the
 25 documents yesterday when I was preparing.

1 CONFIDENTIAL - HAL MULLER
 2 I've heard of things like that.
 3 We're always willing to listen to
 4 people who want to tell us stuff, but we don't
 5 go out there and ask people about things.
 6 Q. Do you think it's okay for your
 7 employees to have conversations with competitors
 8 about substantive business so long as your
 9 employees are not divulging any information?
 10 MR. McDONALD: Object to the form.
 11 A. I don't think we should be probing it,
 12 but if somebody comes up to us and says, hey, I
 13 heard X just won this account, we could be
 14 saying, you know, I don't see any objection to
 15 something like that. I don't know whether that
 16 always has to be reported.
 17 We lost our largest customer to
 18 Patterson. I'm sure that people both in
 19 Patterson and in Schein said: Hey, we just won
 20 this. Did you hear about that? And our people
 21 go: Oh, shit, we lost this account. And to
 22 talking to a Benco person about Heartland
 23 because everybody in the industry knew it.
 24 Q. You mentioned Mr. Foley had some
 25 conversations.

1 CONFIDENTIAL - HAL MULLER
 2 Q. And what is your understanding of what
 3 Atlantic Dental Care is?
 4 MR. McDONALD: Object to the form.
 5 A. I believe it's a buying group, but not
 6 one I remembered, even though I think there was
 7 some e-mails with my name on it.
 8 Q. Benco told -- someone from Benco told
 9 Mr. Foley that Atlantic Dental Care was not a
 10 buying group; is that right?
 11 MR. McDONALD: Object to the form.
 12 A. I only know that through an e-mail,
 13 yes.
 14 Q. Is it strange to you that Mr. Foley
 15 would be speaking with someone from Benco about
 16 Atlantic Dental Care?
 17 MR. McDONALD: Object to the form.
 18 Mischaracterizes the testimony from
 19 yesterday, and you know it. So just don't
 20 misrepresent the record to him. Okay?
 21 Q. Do you understand?
 22 MR. McDONALD: That is improper --
 23 that is improper of you, Jasmine, to
 24 misrepresent the testimony.
 25 Q. If you were to receive an e-mail where

1 CONFIDENTIAL - HAL MULLER
2 Mr. Foley says that he was talking with Benco
3 and Benco told them that Atlantic Dental Care
4 was not really a buying group, what would be
5 your reaction?

6 A. Thank you for letting me know that you
7 had that conversation and who cares.

8 Q. Because you don't care whether or not
9 your direct reports are speaking to competitors
10 about customers?

11 A. No, he did --

12 MR. McDONALD: Object to the form.

13 A. No, he did the right thing in telling
14 me, due to our business standards, that he spoke
15 with somebody and that an account had come up,
16 but what I'm saying is in -- in relevancy
17 whether somebody is a DSO, a buying group or
18 whatever, I don't know if it would have been
19 that important to me.

20 Q. It doesn't raise a red flag for you
21 when one of your direct reports speaks to a
22 competitor about business issues?

23 A. It's always going to happen that
24 somebody says something about business when
25 you're sitting across from somebody. I mean,

1 CONFIDENTIAL - HAL MULLER

2 it's hard not to. I don't care who you are.

3 You know, I'm going to ask, you know,
4 people, hey, I see your stock's up, your stock's
5 down. I mean, it's just -- it's just
6 conversation.

7 There was nothing in that conversation
8 from the way it was reported to me that had any
9 relevance, except what is this? Are they a
10 buying group? Are they a DSO? Are they -- I
11 mean, by the company name, it could be a
12 distributor.

13 Q. When your direct reports have
14 conversations with employees of competitors, do
15 you like to confirm that your direct reports are
16 not revealing information about Schein?

17 A. I trust them that they're not.

18 Q. Did you tell Mr. Foley to cease
19 discussions with Benco after 2013?

20 MR. McDONALD: Object to the form.

21 A. Not that I remember.

22 MS. ROSNER: We've been going for an
23 hour. Do you want to take a quick break
24 before the lunch session?

25 MR. McDONALD: Sure. Let's take a

1 CONFIDENTIAL - HAL MULLER

2 quick break.

3 MS. ROSNER: Off the record.

4 THE VIDEOGRAPHER: The time is 11:13
5 a.m. We're off the record.

6 (Recess.)

7 THE VIDEOGRAPHER: The time is 11:25
8 a.m. We're on the record.

9 BY MS. ROSNER:

10 Q. Before the break, we were discussing a
11 company Atlantic Dental Care, correct?

12 A. Yes.

13 Q. Schein eventually put in a bid for
14 Atlantic Dental Care's business, is that your
15 understanding?

16 A. I don't remember Atlantic Dental Care.

17 Q. You have no recollection of whether or
18 not Schein has ever bid for Atlantic Dental
19 Care?

20 A. No.

21 Q. I'll hand you a document that's been
22 produced and marked as CX2020. This is a e-mail
23 with the first page Bates Henry Schein-001398295
24 and it attaches a document.

25 Please take a moment to review CX2020?

1 CONFIDENTIAL - HAL MULLER

2 (Exhibit CX2020-001 through 007, a
3 document bearing Bates Nos. Henry
4 Schein-001398295 through 301, marked for
5 identification, as of this date.)

6 (Document review.)

7 MR. McDONALD: For the record, he's
8 not on this e-mail.

9 MS. ROSNER: I understand.

10 MR. McDONALD: So, I mean, I'm going
11 to let you show it to him, but I'm going to
12 object to him answering a bunch of questions
13 about it.

14 Since he's a current employee, I'm
15 going let you show this to him, but under a
16 protective order, you shouldn't be showing
17 documents to people that they're not on.

18 THE WITNESS: Okay.

19 BY MS. ROSNER:

20 Q. Based on this document, which is
21 CX2020, is it your understanding that Henry
22 Schein submitted a bid for the Atlantic Dental
23 Care business?

24 A. By this, I don't know whether there
25 was a bid or not.

1 CONFIDENTIAL - HAL MULLER
2 Q. I want to turn to the third page,
3 which is CX2020-003. To the extent you know,
4 what does this represent, starting with page
5 003?

6 MR. McDONALD: Object to the form.
7 Lack of foundation.

8 Q. Let me withdraw the question.
9 Are you familiar with how Henry Schein
10 bids for customers, generally?

11 A. Using the word "bid" to me is a very
12 formal process and it's usually done in my
13 division, so how Henry Schein Dental acquires
14 their customer base, whether it's through
15 personality or price or relationships, I don't
16 know how they get this. Even looking at this, I
17 still don't know whether this -- what Atlantic
18 Dental Care is.

19 Q. Have you ever seen a document drafted
20 by Henry Schein Dental that purports to be a
21 proposal to win business?

22 A. From their Equipment Group that is
23 tied to mine, yes. But, no, I don't see
24 documents traditionally that they would go after
25 a customer.

1 CONFIDENTIAL - HAL MULLER
2 Q. You're not asked to consult about
3 certain large customers within Henry Schein
4 Dental?

5 A. Not usually, no.

6 Q. I'll represent to you that this
7 document CX2020 starting with page 003 is a
8 proposal from Henry Schein Dental to Atlantic
9 Dental Care.

10 I'd like you to turn to the next page,
11 CX2020-004, and I'm going to focus on the last
12 section of that page under the heading
13 Contract/Disclosure.

14 You can take a moment to review that
15 and let me know when you're done reviewing that
16 section.

17 MR. McDONALD: And are you
18 representing to him that this was the actual
19 proposal that was made to Atlantic Dental
20 Care?

21 MS. ROSNER: I'll represent that this
22 was a proposal that was sent to a man named
23 Landy Damsey who represents Atlantic Dental
24 Care, yes.

25 MR. McDONALD: Okay.

1 CONFIDENTIAL - HAL MULLER
2 (Document review.)

3 THE WITNESS: Okay. I've looked at
4 it.

5 BY MS. ROSNER:

6 Q. You have reviewed at the last section
7 on page CX2020-004?

8 A. Yes.

9 Q. I'm going to read from the
10 "Contract/Disclosure" section.

11 "This agreement can be terminated with
12 30 day notice if any of the following occur."
13 The third bullet says, "If this turns out to be
14 purely a buying group, defined as 'pooling
15 individual volume purely to obtain lower prices
16 from suppliers of good and services.'"

17 Did I read that correctly?

18 A. Yes.

19 Q. Why would Schein include this bullet?

20 MR. McDONALD: Object to the form.
21 Lack of foundation.

22 If you know, tell her, but don't
23 speculate.

24 A. I don't. I don't. And it seems to me
25 that the first page of this says that this is --

1 CONFIDENTIAL - HAL MULLER
2 can be passed on to its group. Isn't that
3 saying that this is already almost like a flyer?
4 Not the actual bid?

5 So, anyway, I -- I can't answer why
6 they would have put that in.

7 Q. You drafted this language, correct?

8 MR. McDONALD: Object to the form.

9 A. I drafted what language?

10 Q. You drafted the third bullet point
11 that says, "If this turns out to be purely a
12 buying group, defined as 'pooling individual
13 volume purely to obtain lower prices from
14 suppliers of good and services,'" correct?

15 MR. McDONALD: Object to the form. If
16 you have a document to show him, show him.

17 A. Not that I know of.

18 Q. What do you interpret this third
19 bullet to mean?

20 A. This has nothing to do with me, so
21 you're asking me to -- in Hal Muller's opinion,
22 what does this mean on a document that somebody
23 else wrote? I could read it out loud and assume
24 that that's what it means.

25 Q. You would attach the plain meaning --

1 CONFIDENTIAL - HAL MULLER
 2 plain language meaning to bullet number 3?
 3 MR. McDONALD: Object to the form.
 4 A. What number -- all I can do is read it
 5 and say out loud what it says here.
 6 Q. So you understand it to mean that if
 7 ADC is a buying group, Schein would then have
 8 the right to terminate its agreement with ADC;
 9 is that right?
 10 MR. McDONALD: Object to the form.
 11 A. Under this definition. That's what it
 12 says.
 13 Q. And that's what you understand it to
 14 mean?
 15 A. Yeah, I'm intelligent. I can read
 16 something and understand what it means.
 17 Q. Do you dispute that you wrote the
 18 third bullet on page CX2020-004?
 19 A. This is not a document I would have
 20 written.
 21 Q. Do you dispute that you provided the
 22 language that was used in the third bullet of
 23 CX2020-004?
 24 MR. McDONALD: Are you making a
 25 representation to him that he did and asking

1 CONFIDENTIAL - HAL MULLER
 2 him if he disputes that fact, or are you
 3 asking him if he recalls doing it?
 4 THE WITNESS: I do not --
 5 MR. McDONALD: Don't answer the
 6 question. I made an objection and asked
 7 counsel.
 8 Are you making that representation to
 9 him, or is that a question to him?
 10 BY MS. ROSNER:
 11 Q. Do you understand my question, Mr.
 12 Muller?
 13 A. You're asking me if I supplied that
 14 one sentence to Henry Schein Dental for Atlantic
 15 Dental Care? I don't remember it.
 16 Q. I'm going to hand you a document
 17 that's been previously marked for identification
 18 as CX2021. This is a multi-page e-mail. The
 19 first page begins with Henry Schein-001398309.
 20 Please take a moment to review CX2021.
 21 The relevant language that I'm going to focus on
 22 is on the first page, CX2021-001.
 23 (Exhibit CX2021-001 through 29, a
 24 document bearing Bates Nos. Henry
 25 Schein-001398309 through 337, marked for

1 CONFIDENTIAL - HAL MULLER
 2 identification, as of this date.)
 3 MS. ROSNER: CX2021-001. And I noted
 4 that there was just a beep on the phone.
 5 Did somebody join us?
 6 MS. GOFF: Yes. Sorry. This is Karen
 7 Goff. I got cut off earlier.
 8 THE WITNESS: Instead of me reading
 9 this, is there a place besides that one
 10 comment that says anything?
 11 BY MS. ROSNER:
 12 Q. I'm going to refer you to the first
 13 e-mail on the first page, which is CX2021-001.
 14 There are also e-mails that I would refer you to
 15 on page -006, -012 and -013, but I'll start off
 16 on -001.
 17 And if you would like additional time
 18 before we get to the next sections, I'm happy to
 19 provide it.
 20 (Document review continues.)
 21 A. So you can ask a question.
 22 Q. Have you had an opportunity to review
 23 CX2021?
 24 A. Yes.
 25 Q. On the first page of CX2021-001,

1 CONFIDENTIAL - HAL MULLER
 2 there's an e-mail from Michael Porro.
 3 Do you know who Michael Porro is?
 4 A. Yes.
 5 Q. Who is he?
 6 A. I think at this time he was the
 7 Director of Sales of Henry Schein Dental.
 8 Q. Could he have been the Atlantic Coast
 9 Zone General Manager?
 10 A. If that's what he was, that's what he
 11 was.
 12 Q. Does that sound right to you?
 13 A. Yes; that could be, yes.
 14 Q. The last line before the closing in
 15 his e-mail reads -- the last paragraph of his
 16 e-mail before the closing reads, "I added some
 17 of the fine print at the end -- I'm not a legal
 18 writer," happy face, "so maybe it needs to be
 19 cleaned up. Does the 'buying group' note that
 20 Hal added needed to be softer or is it fine?"
 21 Did I read that correctly?
 22 A. Yes.
 23 Q. So Mr. Porro was attributing the
 24 buying group note to you; is that right?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - HAL MULLER
 2 A. That's what this says.
 3 Q. Does that refresh your recollection
 4 that you wrote the third bullet point in the
 5 Atlantic Dental proposal?
 6 A. Not in the least.
 7 Q. Do you have any reason to dispute the
 8 fact that Michael Porro is saying you wrote
 9 that, that bullet point?
 10 MR. McDONALD: Object to the form.
 11 A. I don't know where this came from or
 12 where it might have been pulled from, so I can't
 13 really attest to anything, but that's what the
 14 sentence says.
 15 Q. Is there anything that would refresh
 16 your recollection to suggest that the language
 17 in bullet 3 came from anywhere else?
 18 MR. McDONALD: Object to the form.
 19 A. No, I don't.
 20 Q. Turning to page CX2021-012. In the
 21 middle of the page, Michael Porro writes a
 22 question at 10:55 p.m. referring to Atlantic
 23 dental saying, "There's still a little bit of
 24 gray on this and how tied together they are...we
 25 Can go this route or just go right to the

1 CONFIDENTIAL - HAL MULLER
 2 formulary...but that is deep."
 3 What's your understanding of what he
 4 means by the "formulary"?
 5 A. The formulary would be prices that I
 6 think were attached to this. Or "formulary" is
 7 just pricing.
 8 Q. Does it refer to a -- does "formulary"
 9 refer to a specific set of pricing?
 10 A. Yes, it does.
 11 Q. What specific set of pricing does
 12 "formulary" refer to?
 13 MR. McDONALD: Object to the form.
 14 A. The set of pricing that would be
 15 attached to the document.
 16 Q. Does "formulary" refer to a standard
 17 set of pricing that's common in Schein?
 18 MR. McDONALD: Object to the form.
 19 Vague.
 20 A. Not in Special Markets. I don't know
 21 what it means in Dental.
 22 Q. You respond to Mr. Porro saying,
 23 "Mike, as you probably know, the big issue is
 24 compliance. That question should be answered
 25 before we know how to quote."

1 CONFIDENTIAL - HAL MULLER
 2 Did I read that correctly?
 3 A. Yes, you did.
 4 Q. You were saying we shouldn't bid until
 5 we figure out whether this is a group that can
 6 force its members to buy from Schein; is that
 7 right?
 8 A. I don't know if I would use the word
 9 "force." That's what my sentence says, is that
 10 the question that we should ask is can they move
 11 the volume.
 12 Q. When you say "move the volume," you
 13 mean move volume to Schein?
 14 A. Correct.
 15 Q. Turning forward a couple of pages to
 16 CX2021-006, I'm going to refer you to Tim
 17 Sullivan's e-mail at the bottom of the page sent
 18 on April 5, 2013 at 4:10 p.m.
 19 Tim writes, "Gut reaction... This
 20 smells bad. I think we have as much to lose for
 21 winning the bid as we do for losing (or not
 22 bidding). Hal's right in that this is Vision
 23 Source all over again. We got plenty of grievance
 24 from FSCs also when we were attempting to work
 25 with them."

1 CONFIDENTIAL - HAL MULLER
 2 Did I read that correctly?
 3 A. Yes.
 4 Q. Did you think that ADC was Vision
 5 Source all over again?
 6 A. First of all, I don't remember
 7 anything about this customer or this buying
 8 group, and any formal buying group is going to
 9 have the same reaction from the field that we
 10 had with Smile Source.
 11 Q. Reading these comments from Tim
 12 doesn't refresh your recollection about ADC?
 13 A. No.
 14 Q. What do you understand Tim to say when
 15 he says, "We have as much to lose for winning
 16 the bid as we do for losing or not bidding"?
 17 MR. McDONALD: Object to the form.
 18 A. I don't know what Tim was thinking.
 19 Q. I don't know what Tim was thinking
 20 either, but how do you interpret what he's
 21 saying?
 22 MR. McDONALD: Object to the form.
 23 Why don't you ask him when you depose him in
 24 a few weeks?
 25 A. This is saying we can win or lose.

1 CONFIDENTIAL - HAL MULLER
 2 Win or lose, I mean, that's what it's saying.
 3 We could -- we could gain something here or we
 4 could lose something here.
 5 Q. What is Schein likely to lose by
 6 winning the ADC bid?
 7 MR. McDONALD: Object to the form.
 8 A. If there's no compliance, we would
 9 lose margin.
 10 Q. Anything else?
 11 A. That's how I would interpret it.
 12 Q. You can put this document aside.
 13 To your knowledge, was ADC getting
 14 pricing from Special Markets?
 15 A. I do not remember ADC.
 16 Q. If ADC was getting pricing from
 17 Special Markets, would you know about it?
 18 A. I should have, but there was a few
 19 layers in here during that time that I may not.
 20 Q. If ADC was getting pricing from
 21 Special Markets and you didn't know about it,
 22 who would know about it within Special Markets?
 23 MR. McDONALD: Object to the form.
 24 A. Our Bid Department. Our -- I mean,
 25 Randy, Collin. Collin Rogers.

1 CONFIDENTIAL - HAL MULLER
 2 themselves.
 3 Q. Why would you put such an agreement
 4 into your contracts with DSOs?
 5 A. Because it would be a
 6 misrepresentation of who they were.
 7 Q. Why does that matter?
 8 A. Because one has to do with compliance
 9 and management and one is just price.
 10 Q. I don't think I'm following.
 11 A. So I'll give you an example. We had a
 12 customer called MB2. They started up a
 13 buying -- a pure buying group called Dental
 14 Gator. They offered the prices that we gave
 15 them that we knew we were getting a minimum of
 16 80 percent of their purchases, as the contract
 17 states, for the offices from MB2.
 18 Offering those prices to customers we
 19 didn't even know and that didn't agree to buy 80
 20 percent of their purchases through Henry Schein
 21 is in violation of the agreement.
 22 So, in this case, and in cases past
 23 that, we tried -- we prevented that by actually
 24 stating it, that these are for your offices; not
 25 that you can go to the corner and offer them to

1 CONFIDENTIAL - HAL MULLER
 2 Q. Anyone else?
 3 A. The person who did the bid. I don't
 4 know who that would have been, but...
 5 Q. Anyone else?
 6 A. Not that I know.
 7 Q. Do you think it's strange that the ADC
 8 bid would have a clause saying that if ADC was a
 9 buying group, Schein could cancel the agreement?
 10 MR. McDONALD: Object to the form.
 11 Mischaracterizes the document.
 12 A. In general terms, I would say if
 13 somebody represented themselves as not a buying
 14 group, in other words, like a dental support
 15 organization, and it wound out that they were,
 16 then I could see why that would be added.
 17 We did have an instance where -- or a
 18 couple of times where people had taken their
 19 agreement with us as a dental support
 20 organization and tried to use it as a buying
 21 group, so we did start adding that verbiage. So
 22 even though I don't remember where this --
 23 writing this clause for this contract, that is a
 24 clause that we put into agreements with DSOs to
 25 make sure that the person wasn't misrepresenting

1 CONFIDENTIAL - HAL MULLER
 2 somebody else.
 3 Q. Why does Henry Schein care who they
 4 offer the lower prices to if that results in
 5 purchases through Henry Schein?
 6 MR. McDONALD: Object to the form.
 7 A. Good business practices. I mean,
 8 you're saying that -- I mean, the way you're
 9 asking the question is kind of like if we sell
 10 to a dentist and the dentist wants to sell all
 11 of his products, all his toothpaste that he's
 12 getting from us to people on the street, that
 13 he's got special dentist pricing for it, he can
 14 sell it to a consumer, that that's okay.
 15 It's the same thing. I mean, you have
 16 to watch where your distribution of products
 17 goes.
 18 Q. Henry Schein is still making the sale
 19 in the first instance, so I'm hoping you can
 20 help me connect why it's a problem.
 21 MR. McDONALD: Object to the form.
 22 Asked and answered.
 23 A. Right, it's -- it's very important.
 24 If I sell products to a customer who then sells
 25 them to Iran, I'm culpable.

1 CONFIDENTIAL - HAL MULLER
 2 Q. That adds a whole lot of other issues,
 3 I'm sure. But in this instance, why does Henry
 4 Schein care if ADC is a buying group if Henry
 5 Schein is interested in winning the volume from
 6 ADC?

7 MR. McDONALD: Object to the form.

8 A. As long as the terms have been written
 9 for a buying group, I don't see any problem. If
 10 ADC represented that they weren't a buying group
 11 and that they were in fact a DSO, then we have
 12 different rules of engagement.

13 Q. So there are different rules of
 14 engagement for DSOs than buying groups?

15 A. Correct.

16 Q. What are the different rules of
 17 engagement for DSOs?

18 MR. McDONALD: Object to the form.
 19 Overly broad.

20 A. I think we discussed this in the first
 21 five minutes, that there are differences.
 22 There's percentage -- again, there's percentage
 23 of compliance, which is a very big thing for us.
 24 It's also how our name is used, how the
 25 partnership is used, how if they have national

1 CONFIDENTIAL - HAL MULLER
 2 conventions, what is our support of those.

3 You know, discounts and restrictions
 4 on certain products that Schein is a -- an agent
 5 of. There's just a list of different things
 6 that say that we just don't ask people -- you're
 7 almost implying reselling or quoting our stuff
 8 that we don't know about, which just isn't --
 9 isn't right.

10 Q. But working with a buying group is not
 11 working with a reseller; is that right?

12 A. Correct; the billing and the shipping
 13 is to us to the individual member, but most, if
 14 not all of our DSOs the billing is done to one
 15 entity. So, I mean, the way we realize that
 16 Dental Gator was part of MB2 is they were using
 17 their contract, but meanwhile, we were billing
 18 other entities, which means that we then have
 19 that whole cost of worrying about receivables of
 20 people we don't even -- that we haven't even
 21 checked out whether they can pay their bills or
 22 not.

23 Q. Was there some aspect of the ADC bid
 24 pricing that was tied to ADC not being a buying
 25 group?

1 CONFIDENTIAL - HAL MULLER

2 A. I don't remember anything about ADC.

3 Q. Schein negotiates with buying group
 4 customers, correct?

5 A. Correct.

6 Q. Why wouldn't Schein, instead of
 7 terminating an ADC contract, not simply
 8 negotiate with ADC if it found out that ADC was
 9 a buying group?

10 MR. McDONALD: Object to the form.
 11 Assumes facts not in evidence. Improper
 12 hypothetical.

13 A. It may terminate this agreement, but
 14 it doesn't say that we couldn't have another
 15 one.

16 Q. After our last break, you wanted to
 17 clarify something about Smile Source, and I
 18 think you tried to clarify that you weren't
 19 aware of Smile Source -- strike that -- you
 20 weren't aware of Schein being in competition
 21 with Patterson and Benco for Smile Source.

22 Did I understand that correctly?

23 MR. McDONALD: I don't think --

24 A. Right, I was asking you if we're here
 25 because of some improprieties of collusion

1 CONFIDENTIAL - HAL MULLER

2 between our three companies that we spent so
 3 much time on Smile Source that Schein was
 4 negotiating with Smile Source, who eventually
 5 went with Burkhart, and there was no mention
 6 anywhere about our competing with the other two
 7 companies, if we ever were.

8 Q. Is it your understanding that you were
 9 competing with Patterson and Benco for Smile
 10 Source?

11 MR. McDONALD: Object to the form.

12 A. After it left Special Markets, I don't
 13 know what it was, but there was nothing in that
 14 we were reading that ever talked about our
 15 competitors.

16 Q. Is that because Patterson and Benco
 17 didn't compete for Smile Source?

18 MR. LAVERY: Objection.

19 A. I have no idea.

20 Q. If you dropped Smile Source as a
 21 customer in the 2010 through 2012 timeframe, you
 22 wouldn't be surprised if they took their
 23 business to Patterson or Benco?

24 MR. LAVERY: Objection.

25 MR. McDONALD: Objection to the form.

1 CONFIDENTIAL - HAL MULLER
 2 Mischaracterizes the evidence.
 3 Mischaracterizes the testimony. It's an
 4 improper question.
 5 THE WITNESS: I would have no
 6 intention of not selling to Smile Source.
 7 BY MS. ROSNER:
 8 Q. There was some push-back. Others
 9 wanted to drop the Smile Source account. We've
 10 already discussed that.
 11 If Schein decided to drop the Smile
 12 Source account, would you have been surprised if
 13 Smile Source then went to Patterson or Benco?
 14 MR. LAVERY: Objection.
 15 MR. YOON: Objection.
 16 MR. McDONALD: Object to the form.
 17 Mischaracterizes the evidence.
 18 Mischaracterizes the testimony.
 19 THE WITNESS: I don't know who they
 20 were going to talk with, if anybody.
 21 BY MS. ROSNER:
 22 Q. I'm not asking you who they were going
 23 to talk with. I'm asking if you would have been
 24 surprised if Smile Source would have gone to
 25 Patterson or Benco?

1 CONFIDENTIAL - HAL MULLER
 2 BY MS. ROSNER:
 3 Q. Including Benco?
 4 A. Including Benco.
 5 Q. You have never heard that Benco
 6 doesn't do business with buying groups?
 7 MR. YOON: Objection.
 8 MS. ROSNER: Basis?
 9 THE WITNESS: No, I have never heard
 10 that.
 11 MR. YOON: To form.
 12 BY MS. ROSNER:
 13 Q. You have never heard that Patterson
 14 didn't do business with buying groups?
 15 MR. LAVERY: Objection.
 16 A. I've never heard that.
 17 MR. McDONALD: So, like yesterday, can
 18 we agree that an objection by one is good
 19 for all?
 20 MS. ROSNER: Yes.
 21 MR. McDONALD: Thank you.
 22 MS. ROSNER: I am agreed.
 23 I was going to switch gears for a
 24 minute. It's just about 12 o'clock. Did
 25 you want to take an early lunch, or should

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: Same objections.
 3 A. Right, I wouldn't have been surprised
 4 if they called every distributor in the country.
 5 Q. Would you have been surprised if
 6 Patterson or Benco accepted Smile Source's
 7 business?
 8 MR. LAVERY: Objection.
 9 A. I wouldn't know if they wanted to deal
 10 with them or not.
 11 Q. You don't know whether they would have
 12 wanted to deal with them or not, but would it
 13 have surprised you if Benco accepted Smile
 14 Source as a customer?
 15 MR. YOON: Objection.
 16 MR. McDONALD: Object to the form.
 17 THE WITNESS: It wouldn't surprise me
 18 if anybody tried to do business with
 19 somebody.
 20 BY MS. ROSNER:
 21 Q. Including Patterson?

1 CONFIDENTIAL - HAL MULLER
 2 we press through?
 3 MR. McDONALD: Why don't we keep going
 4 because I'm not sure lunch is here yet for
 5 us.
 6 BY MS. ROSNER:
 7 Q. So I'm going switch gears to talk a
 8 little bit about Dental Gator.
 9 You're familiar with the entity known
 10 as Dental Gator?
 11 A. Yes.
 12 Q. Dental Gator for a time -- strike
 13 that. Dental Gator is a customer of Henry
 14 Schein's?
 15 A. It was.
 16 Q. When did Dental Gator become a
 17 customer of Henry Schein's?
 18 A. I don't know the dates.
 19 Q. Is Dental Gator no longer a customer
 20 of Henry Schein's?
 21 A. I don't -- I'm not sure that Dental
 22 Gator still really exists. They may, but I'm
 23 not aware of it.
 24 Q. If Dental Gator exists, would you know
 25 it to be a customer of Henry Schein's?

1 CONFIDENTIAL - HAL MULLER
 2 A. It would be a customer of Henry
 3 Schein's, yes.
 4 Q. Dental Gator is the buying group arm
 5 of MB2; is that right?
 6 A. Yes.
 7 Q. MB2 is a Special Markets customer?
 8 A. Yes.
 9 Q. MB2 is a top 50 Special Markets
 10 customer?
 11 A. Yes.
 12 Q. MB2 has an ownership interest in its
 13 affiliate dental practices?
 14 MR. McDONALD: Object to the form.
 15 Q. Let me restate that.
 16 MB2 has an ownership interest in MB2's
 17 affiliate dental practices?
 18 MR. McDONALD: Same objection.
 19 A. It's --
 20 MR. McDONALD: If you know, then tell
 21 her.
 22 THE WITNESS: I'm going to say it's a
 23 different model. They state it's a
 24 different model, but I'm sure there is some
 25 percentage of ownership.

1 CONFIDENTIAL - HAL MULLER
 2 ownership stake in any of its members'
 3 practices; is that right?
 4 MR. McDONALD: I'll object to the
 5 form.
 6 A. Not --
 7 MR. McDONALD: Lack of foundation.
 8 A. Yeah, not that we know of. However,
 9 if they became part of MB2, which we believe the
 10 mission was, then there may have been a point in
 11 time where they had an ownership position.
 12 Q. When you say "they," you're referring
 13 to if an individual member of Dental Gator had
 14 an investment from MB2, an ownership investment,
 15 at that point, the member would become part of
 16 MB2?
 17 A. Correct.
 18 Q. Dental Gator is not a CHC buying
 19 group; is that right?
 20 A. Correct.
 21 Q. Special Markets did not originally
 22 pursue Dental Gator as a customer; is that
 23 right?
 24 MR. McDONALD: Object to the form.
 25 A. Dental Gator did not exist.

1 CONFIDENTIAL - HAL MULLER
 2 BY MS. ROSNER:
 3 Q. MB2 is a DSO?
 4 A. Correct.
 5 Q. Dental Gator was a vehicle for MB2 to
 6 become familiar with private practice dentists
 7 that it could acquire?
 8 MR. McDONALD: Object to the form.
 9 A. That was our assumption, yes.
 10 Q. Dental Gator is a membership-based
 11 organization; is that right?
 12 A. Yes.
 13 Q. Dental Gator's members are independent
 14 private practice dentists?
 15 MR. McDONALD: Object to the form.
 16 A. The list that we have got, yes.
 17 Q. Dental Gator provides group purchasing
 18 opportunities for its members?
 19 MR. McDONALD: Object to the form.
 20 A. They represented lower pricing to
 21 their members, yes.
 22 Q. Dental Gator is not a DSO; is that
 23 right?
 24 A. It is part of a DSO.
 25 Q. But Dental Gator doesn't have an

1 CONFIDENTIAL - HAL MULLER
 2 Q. Special Markets never submitted a bid
 3 for Dental Gator's business; is that right?
 4 MR. McDONALD: Object to the form.
 5 A. Correct.
 6 Q. Dental Gator became a customer of
 7 Schein without Special Markets' knowledge; is
 8 that right?
 9 MR. McDONALD: Object to the form.
 10 A. Yeah, you're asking in a weird way.
 11 It's just easy to say that, as I said a few
 12 minutes ago without knowing you were heading
 13 here, that MB2 developed a buying group arm
 14 without talking to Henry Schein about whether
 15 they could use their agreement to customers that
 16 weren't part of MB2.
 17 Q. So this wasn't a relationship --
 18 strike that.
 19 So Special Markets didn't pursue the
 20 relationship with Dental Gator; it just came
 21 into existence?
 22 A. Correct.
 23 Q. But Special Markets wanted to keep the
 24 Dental Gator relationship; is that right?
 25 A. Yes.

1 CONFIDENTIAL - HAL MULLER
 2 Q. The Dental Gator relationship was
 3 beneficial for Schein?
 4 MR. McDONALD: Object to the form.
 5 A. Our division felt that MB2 -- I don't
 6 even know if there's a true entity called Dental
 7 Gator. I believe it had one employee. So I
 8 don't know if that employee got a paycheck from
 9 Dental Gator. It was a spinoff of one of our
 10 customers of another way of them gaining revenue
 11 and to see under the covers of some other
 12 offices that they may in the future purchase.
 13 Q. Is it your opinion that the Dental
 14 Gator relationship was beneficial for Schein?
 15 A. As a way of keeping MB2, yes. I don't
 16 know whether Dental Gator was big enough on its
 17 own to warrant anything being beneficial.
 18 Q. The Dental Gator relationship resulted
 19 in new customers for Schein; is that right?
 20 MR. McDONALD: Object to the form.
 21 A. I'm not positive of it. It could
 22 have.
 23 Q. Henry Schein was picking up accounts
 24 that it did not previously have through Dental
 25 Gator's buying group; is that right?

1 CONFIDENTIAL - HAL MULLER
 2 would have gotten some customer accounts without
 3 did Dental Gator relationship; isn't that right?
 4 MR. McDONALD: Object to the form.
 5 A. If you're reading my testimony, I
 6 guess that's true.
 7 MR. McDONALD: Well, don't -- don't
 8 assume anything and don't assume that she's
 9 making proper representations to you.
 10 THE WITNESS: Okay.
 11 MR. McDONALD: You're entitled to see
 12 the line and page of your prior testimony
 13 before you adopt it. Unless you have a
 14 clear recollection, I would suggest that you
 15 do that so that you can read it in context.
 16 MS. ROSNER: I would also ask that you
 17 testify from your personal knowledge.
 18 MR. McDONALD: Right. So she's asking
 19 you --
 20 THE WITNESS: Correct. Okay.
 21 MR. McDONALD: -- to forget your IH.
 22 BY MS. ROSNER:
 23 Q. Is it your understanding that some
 24 FSCs admitted that they never would have gotten
 25 some customer accounts without the Dental Gator

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: Object to the form.
 3 Asked and answered. Lack of foundation.
 4 A. Sitting here right now, I'm not sure
 5 if that's true. I would hope it was true.
 6 Q. During your investigational hearing,
 7 you testified that the good news is that they
 8 were picking up accounts that weren't Henry
 9 Schein into their buying group. Because of the
 10 small amount of customers that Dental Gator
 11 actually would get, most of them were not Henry
 12 Schein customers.
 13 Based on that testimony, do you
 14 understand that Dental Gator added new customers
 15 to Henry Schein?
 16 MR. McDONALD: Object to the form.
 17 A. If that's what I said, then I was more
 18 knowledgeable at the time; and, yes, I would
 19 agree with that.
 20 Q. Why were you more knowledgeable at the
 21 time?
 22 A. Because it was a year and a half ago,
 23 and I haven't really talked about Dental Gator
 24 since then.
 25 Q. Some FSCs admitted that they never

1 CONFIDENTIAL - HAL MULLER
 2 relationship?
 3 A. Yes.
 4 Q. The relationship with Dental Gator
 5 brought Henry Schein increased purchase volume;
 6 is that right?
 7 A. Yes.
 8 Q. Some existing Schein customers split
 9 their purchases between Schein and competitors;
 10 is that correct?
 11 MR. McDONALD: Object to the form.
 12 Are you talking about Dental Gator?
 13 Q. In general?
 14 A. In general, many private practice
 15 offices buy from our competitors as well as us.
 16 Q. As a result of joining Dental Gator,
 17 some customers of Schein who previously split
 18 their purchases among other distributors were
 19 able to consolidate their purchases with Schein;
 20 is that right?
 21 MR. McDONALD: Object to the form.
 22 Lack of foundation.
 23 A. Traditionally, that would be true.
 24 Q. Was that true here?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - HAL MULLER
 2 Lack of foundation.
 3 A. Yeah, I'd have to see it.
 4 Q. I'm handing you a document that's been
 5 premarked for identification as CX2140.
 6 The document is a one-page e-mail that attaches an
 7 Excel spreadsheet. The first page of the e-mail is
 8 Bates-stamped Henry Schein-000195352.
 9 Please take a moment to review CX2140
 10 and let me know when you're finished.
 11 (Exhibit CX2140-001 through 004, a
 12 document bearing Bates Nos. Henry
 13 Schein-000195352 through 353, marked for
 14 identification, as of this date.)
 15 MR. McDONALD: While he's looking at
 16 that, Jasmine, our lunch is here, so
 17 whenever you want to break, we can break.
 18 MS. ROSNER: Okay. Okay.
 19 (Document review.)
 20 BY MS. ROSNER:
 21 Q. You've had an opportunity to review
 22 CX2140?
 23 A. I did.
 24 Q. This is an e-mail written by you dated
 25 December 9, 2014. You see that?

1 CONFIDENTIAL - HAL MULLER
 2 record and break for lunch.
 3 THE VIDEOGRAPHER: The time is 12:11
 4 p.m. We're off the record.
 5 (Luncheon recess.)

1 CONFIDENTIAL - HAL MULLER
 2 A. Yes.
 3 Q. I'm just going to read from the
 4 e-mail. "Before we go too far down the road to
 5 cut off Dental Gator --
 6 "So stats --
 7 "There are 24 locations.
 8 "11 of these are new, not Schein
 9 customers.
 10 "Of the 13, they are up in aggregate
 11 at 54 percent of sales per month volume -- there
 12 are some that are not doing as well and others
 13 doing great.
 14 "That 54 percent is without the 20
 15 percent discount, so they are up even more in
 16 volume."
 17 Did I read that correctly?
 18 A. Yes.
 19 Q. Is your understanding from this e-mail
 20 that existing Schein customers who joined Dental
 21 Gator had increased volume with Schein after
 22 joining Dental Gator?
 23 A. Yes.
 24 Q. I can take that document back.
 25 MS. ROSNER: And we can go off the

1 CONFIDENTIAL - HAL MULLER
 2 AFTERNOON SESSION
 3 THE VIDEOGRAPHER: The time is 1:06
 4 p.m. We're on the record.
 5 HAL MULLER, resumed and
 6 testified further as follows:
 7 EXAMINATION BY (Cont'd.)
 8 MS. ROSNER:
 9 Q. Mr. Muller, there were some at Schein
 10 who wanted to cut off Dental Gator; is that
 11 right?
 12 MR. McDONALD: Object to the form.
 13 A. I think there were people that
 14 questioned us of why we were selling to them.
 15 Q. There were people at Schein who wanted
 16 to end Schein's relationship with Dental Gator;
 17 is that right?
 18 MR. McDONALD: Object to the form.
 19 A. We, under the current -- the agreement
 20 where they were misusing our agreement.
 21 Q. Who were those people?
 22 A. Well, even I was upset with the fact
 23 that they were using an agreement that it was
 24 not intended for. I would imagine others were
 25 as well.

1 CONFIDENTIAL - HAL MULLER
 2 Q. You didn't want to cut off Dental
 3 Gator, though; is that right?
 4 A. No, I just wanted to change the
 5 agreement.
 6 Q. But there were others who did want to
 7 cut off Dental Gator?
 8 A. There might have been.
 9 Q. Who might have been someone who wanted
 10 to cut off Dental Gator?
 11 MR. McDONALD: Object to the form.
 12 A. Usually it would be salespeople that
 13 had been losing commission on something that
 14 another division had done.
 15 Q. Anyone else?
 16 A. Sales management in Henry Schein
 17 Dental, possibly.
 18 Q. Tim Sullivan and others within Henry
 19 Schein Dental brought up issues regarding Dental
 20 Gator with you multiple times; is that right?
 21 MR. McDONALD: Object to the form.
 22 A. I've seen those in e-mails, yes.
 23 Q. You grew tired of HSD's calls to shut
 24 down Dental Gator?
 25 A. I thought it was a little ridiculous

1 CONFIDENTIAL - HAL MULLER
 2 for 20 locations that we were having discussions
 3 over a customer of ours?
 4 Q. Why was it ridiculous?
 5 A. No, just of all the things we have to
 6 work on to be worrying about things. Remember
 7 that, as with other things, you know, our
 8 salespeople are needed in the full-service
 9 business and it's important that our management
 10 team protect those salespeople.
 11 Q. You wanted to give it a rest on the
 12 discussions about Dental Gator; is that right?
 13 MR. McDONALD: Object to the form.
 14 A. I think I like a lot of things to --
 15 to give it a break. I don't question what the
 16 way our other division does stuff, but I think
 17 that we got we questioned how we did things, so
 18 I think sometimes it was frustrating.
 19 Q. I want to talk about specifically
 20 Dental Gator.
 21 A. Okay.
 22 Q. You wanted to give it a rest on
 23 discussing Dental Gator?
 24 A. I'm sure I --
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - HAL MULLER
 2 THE WITNESS: I'm sorry.
 3 I'm sure I was like, yes, I've had
 4 enough of comments from the field.
 5 BY MS. ROSNER:
 6 Q. Tim Sullivan didn't appreciate your
 7 telling him to give it a rest on Dental Gator;
 8 is that right?
 9 MR. McDONALD: Object to the form.
 10 A. I don't remember that.
 11 Q. I'm going to hand you a document
 12 that's previously been marked as CX2142. It's a
 13 multi-page e-mail chain. The first page has
 14 been Bates marked Henry Schein-000151635.
 15 Please take a moment to review CX2142
 16 and let me know when you're ready.

 18 document bearing Bates Nos. Henry
 19 Schein-000151635 through 638, marked for
 20 identification, as of this date.)
 21 (Document review.)
 22 THE WITNESS: Okay.
 23 BY MS. ROSNER:
 24 Q. You've had an opportunity to review
 25 CX2142?

1 CONFIDENTIAL - HAL MULLER
 2 A. I have.
 3 Q. This is an e-mail chain where the
 4 last-in-line e-mail is from you on January 18,
 5 2015. I'm going to reference page CX2142-002,
 6 second page of the e-mail chain from the front.
 7 In the middle of the page, you write,
 8 "Can we give it a rest already?"
 9 We have already discussed that, right?
 10 A. Right.
 11 Q. And right after that -- right above
 12 that, I should say, there is an e-mail response
 13 from Tim Sullivan, and Tim Sullivan in the first
 14 line of his e-mail says, "Please don't speak to
 15 the leadership team like this."
 16 Do you see that?
 17 A. I do.
 18 Q. This e-mail is about Dental Gator, and
 19 further in Tim Sullivan's e-mail he says, "No...
 20 we cannot give this a rest while customers and
 21 reps continue to bring it to our attention.
 22 This is an issue that doesn't go away by telling
 23 the team to simply accept it. Until that is our
 24 strategy, we cannot give this a rest."
 25 Did I read that correctly?

1 CONFIDENTIAL - HAL MULLER
 2 A. You did.
 3 Q. So there's a disagreement here between
 4 you and Tim Sullivan?
 5 A. Yes.
 6 Q. What's the nature of that
 7 disagreement?
 8 A. The biggest part of this disagreement
 9 is me talking to his team, which I've done once
 10 in a while, and he doesn't like it.
 11 Q. Is there any other disagreement that's
 12 happening between you and Tim Sullivan in this
 13 e-mail chain?
 14 A. He is bringing to my attention that
 15 customers and his reps are bringing Dental Gator
 16 to their attention.
 17 Q. And how is that a disagreement?
 18 A. That we're selling them and -- and
 19 under our division, and it's going -- it's
 20 affecting customers in his division as well as
 21 his reps.
 22 Q. That's creating a conflict for Tim; is
 23 that your understanding?
 24 A. Right. Again, it's because it's a
 25 reduced commission for the sales team.

1 CONFIDENTIAL - HAL MULLER
 2 DSO customers, the -- you know, using those
 3 contracts for non-DSO customers created a
 4 problem, so what we did is we went back and --
 5 and renegotiated with MB2 on their Dental Gator
 6 business that we would continue to give a
 7 discount, but it couldn't be as deep because we
 8 weren't getting support from the manufacturers.
 9 Q. When did you renegotiate the discounts
 10 for Dental Gator with MB2?
 11 A. I'm not sure of the timing.
 12 Q. Was it after 2014?
 13 MR. McDONALD: Object to the form. If
 14 you know, tell her, but don't guess.
 15 A. No, I don't know.
 16 Q. So after you renegotiated the
 17 discounts with Dental Gator, the discounts that
 18 Dental Gator could offer its members were lower
 19 than what it could offer its members under the
 20 MB2 program; is that right?
 21 A. That is true.
 22 Q. Returning back to CX2142, at the very
 23 top of the e-mail, the last in line, you write,
 24 "I think he didn't like how I talked to his
 25 team. I need to stop e-mailing them like I have

1 CONFIDENTIAL - HAL MULLER
 2 Q. He notes, "This is an issue that
 3 doesn't go away by telling team to simply accept
 4 it. Until that is our strategy, we cannot give
 5 it a rest."
 6 What does that mean?
 7 MR. McDONALD: Objection to form.
 8 Q. What do you understand that to mean?
 9 A. I'm reading to this, until we have a
 10 strategy about what to do with Dental Gator,
 11 they're not going to accept it.
 12 Q. Was there not a strategy about what to
 13 do with Dental Gator?
 14 MR. McDONALD: Object to the form.
 15 Vague as to time.
 16 A. Yeah, I mean, again, I'm -- I'm not
 17 sure of the timing of whether it is the Dental
 18 Gator new program or old program, but they did
 19 have lower prices on those customers than
 20 others.
 21 Q. What do you mean by the Dental Gator
 22 new program versus the old program?
 23 A. Because Dental Gator used our contract
 24 that we get have better compliance and we get
 25 better pricing from the manufacturers for our

1 CONFIDENTIAL - HAL MULLER
 2 some authority. So I will stop. But I am sick
 3 of him thinking the world is flat."
 4 Did I read that correctly?
 5 A. Yeah. Which page are you on? I did
 6 read it so, I...
 7 Q. I'm so CX2142-001.
 8 MR. McDONALD: The front page.
 9 A. The front page.
 10 MR. McDONALD: Maybe you should reask
 11 your question again now that he's in the
 12 same place.
 13 Q. I'll read it again. I'm looking at
 14 the top e-mail the top of that page. It's from
 15 you. "I think he didn't like how I talked to
 16 his team. I need to stop e-mailing them like I
 17 have some authority. So I will stop. But I am
 18 sick of him thinking the world is flat."
 19 Did I read that correctly?
 20 A. You did.
 21 Q. You were sick of Tim Sullivan thinking
 22 the world is flat; is that right?
 23 A. Yes.
 24 Q. What do you mean by that comment?
 25 A. I think, as I've said a couple of

1 CONFIDENTIAL - HAL MULLER
 2 times today, the Henry Schein Dental business
 3 was moving very slowly into new territory, and
 4 again, there's a difference between me wanting
 5 to rush on a smaller business with a lot less
 6 people and Tim's opinion of dealing with, you
 7 know, 50,000 customers and 2,000 salespeople as
 8 opposed to somebody like me who has 8
 9 salespeople.

10 So I viewed the world as round, and
 11 maybe he was in some other shape, where Tim was,
 12 hey, this is a -- our business isn't changing as
 13 fast as you think it is, Hal.

14 Q. You have disagreements with Sullivan
 15 from time to time, I imagine; is that right?

16 A. With Tim or the Sullivan team?

17 Q. I'll withdraw the question.

18 You have disagreements with Tim
 19 Sullivan from time to time? That's only
 20 natural; is that right?

21 MR. McDONALD: Object to the form.

22 A. We have them. I don't know if it's
 23 natural, but we have them.

24 Q. Do you always accuse Tim of thinking
 25 the world is flat?

1 CONFIDENTIAL - HAL MULLER

2 A. No, I don't use that comment very
 3 often. I have used other comments in our
 4 e-mails today that -- that refer that way, but
 5 he's right in the fact that their bus- -- that
 6 the traditional dental business is a very
 7 high-touch business, where I view -- I'm looking
 8 forward, and he knows what he has. He knows the
 9 business is changing, but it's changing slowly.

10 Q. And it's your opinion that he's not
 11 reacting to change in the way that he should be?

12 A. That's Hal Muller's opinion. It's not
 13 necessarily the right way, but it's mine.

14 Q. You can put that document aside.

15 After HSD repeatedly raised concerns
 16 about Dental Gator, Special Markets took steps
 17 to address some of those concerns; is that
 18 right?

19 A. Correct.

20 Q. We just talked about how Special
 21 Markets took Dental Gator off of the MB2 price
 22 plan, right?

23 A. Okay. I need to go back.

24 You asked if we changed it because of
 25 Henry Schein Dental. We changed it because we

1 CONFIDENTIAL - HAL MULLER
 2 found out that they were doing it wrong, and so
 3 it was as much a concern of mine as it was Henry
 4 Schein Dental that they were taking an
 5 agreement, written in a certain way, and using
 6 it another way, where we weren't getting support
 7 from manufacturers that was full commissions and
 8 stuff like that.

9 And that's why that sentence that you
 10 found afterwards was put in all of our
 11 agreements, was to make sure that our agreements
 12 were for DSOs and to be used for DSO businesses.

13 Q. You mentioned the sentence that I
 14 found. What are you referring to?

15 A. You were -- you had questioned
 16 something on if this is purely a buying group,
 17 then the terms of this agreement aren't the
 18 same.

19 Q. You were referring to the ADC
 20 contract?

21 A. Correct.

22 Q. Okay. I just want to make sure I
 23 understand what you're referring to.

24 So when Special Markets found out that
 25 Dental Gator was using the MB2 pricing, Special

1 CONFIDENTIAL - HAL MULLER
 2 Markets wanted to change that?

3 A. Correct.

4 Q. In addition to changing the pricing
 5 for special -- strike that.

6 In addition to changing the pricing
 7 offered to Dental Gator, Special Markets also
 8 put restrictions on how Dental Gator could
 9 advertise those savings; is that right?

10 MR. McDONALD: Object to the form.

11 A. Any of the buying groups that we had
 12 agreements with, we asked not for them to
 13 publicly promote where their discounts were.
 14 And as a matter of fact, most buying groups just
 15 list who they're dealing with in logos under
 16 their pages and stuff like that. So we were
 17 just watching to make sure that they were doing
 18 what most people do.

19 Q. Why do you prefer for customers not to
 20 list the savings that they can get with Schein
 21 by joining the buying group?

22 A. Because we don't have a
 23 one-price-fits-all strategy. Depending on
 24 volumes and locations and stuff like that, we
 25 have multiple things that we wouldn't want

1 CONFIDENTIAL - HAL MULLER
2 everybody to know every different price that was
3 out there.

4 Q. So Dental Gator couldn't be putting on
5 the Web that people could save money on Henry
6 Schein and stating those savings as well?

7 MR. McDONALD: Object to the form.

8 A. They could say that without the
9 percentage number involved. I think that would
10 be much more agreeable.

11 Q. You had a meeting about this very
12 topic; is that right?

13 A. It's possible.

14 Q. Who would you have met with regarding
15 whether Dental Gator could advertise its savings
16 through Schein?

17 A. I don't remember.

18 Q. Let me hand you a document that's
19 premarked as CX2081. It is a multi-page e-mail
20 chain. The first page e-mail is Bates-labeled
21 Henry Schein-000104625.

22 Please take a moment to review CX2081
23 and let me know when you're finished.

24 (Exhibit CX2081-001 through 005, a
25 document bearing Bates Nos. Henry

1 CONFIDENTIAL - HAL MULLER
2 Schein-000104625 through 629, marked for
3 identification, as of this date.)

4 (Document review.)

5 THE WITNESS: Okay.

6 BY MS. ROSNER:

7 Q. You've had an opportunity to review
8 CX2081?

9 A. Yes.

10 Q. This is an e-mail chain. The
11 last-in-time e-mail is from you dated November
12 10, 2014.

13 I'm going to refer you to page 4, so
14 it's CX2081-004. It's the page that begins, "We
15 have to come up with a plan on how to deal with
16 all of this as it is becoming very explosive."

17 Do you see that page?

18 A. Yes.

19 Q. I'm going to refer you to the e-mail
20 at the bottom of the page, which is from you at
21 11:23 a.m. The subject is Dental Gator.

22 The first line of your e-mail reads,
23 "They can't be putting on the Web that people
24 can save money on Henry Schein and stating
25 savings as well. If you look at their website,

1 CONFIDENTIAL - HAL MULLER
2 it doesn't say it, but if you check LinkedIn."

3 And then the last page, the last line
4 of your e-mail reads, "I am in a meeting about
5 this -- help."

6 Did I read that correctly?

7 A. Yes.

8 Q. So you were in a meeting about --
9 scratch that.

10 You were in a meeting where you were
11 discussing whether Dental Gator could advertise
12 the savings that it got through Schein?

13 MR. McDONALD: Object to the form.

14 A. Yes.

15 Q. Who were you meeting with?

16 A. I don't know.

17 Q. Is there anything that would refresh
18 your recollection as to who you were meeting
19 with?

20 A. If you gave me a document that said
21 who I was meeting with, then I would remember.

22 Q. You're sending an e-mail to Randy
23 Foley so it seems likely that you were not in a
24 meeting with Randy Foley at the time, correct?

25 A. Correct.

1 CONFIDENTIAL - HAL MULLER

2 Q. Who would you normally meet with about
3 Dental Gator?

4 MR. McDONALD: Object to the form.

5 A. This could have been any meeting where
6 this was -- had come up in the meeting. I don't
7 remember having Dental Gator meetings, so it
8 came up in a meeting. So I don't know who was
9 in that meeting.

10 Q. Is there a universe of employees at
11 Schein who would generally be involved in
12 discussing things about Dental Gator?

13 MR. McDONALD: Object to the form.

14 A. My team.

15 Q. Is there anyone outside of your team
16 who might be involved in discussing Dental
17 Gator?

18 MR. McDONALD: Object to the form.

19 Calls for speculation.

20 A. Yeah, unfortunately, I can't tell you
21 who was in this meeting.

22 Q. Is there anyone at Schein who wanted
23 to change the way Dental Gator was advertising
24 the savings that it could give its members
25 through Schein?

1 CONFIDENTIAL - HAL MULLER
 2 A. There may have been. I don't know who
 3 it was. This e-mail chain talks about the
 4 buying groups that are in Henry Schein Dental as
 5 a positive thing, and so I'm not really sure
 6 what the issue still was around Dental Gator
 7 when the other ones that are in Henry Schein
 8 Dental seem to be in a positive manner.
 9 Q. I don't understand why you're raising
 10 that.
 11 A. I'm raising it because you're grabbing
 12 one sentence, and I was trying to grab the other
 13 sentences that were in the same e-mail that you
 14 brought up.
 15 Q. So you're saying that there's some
 16 sort of inconsistency happening within HSD?
 17 MR. McDONALD: Object to the form.
 18 Misstates his testimony.
 19 A. Right; I'm saying that this e-mail
 20 basically says, yes -- and I think we've said
 21 it. There are different buying groups of
 22 different fashions, and this e-mail states just
 23 as much that they're doing business with -- they
 24 we're doing business with other buying groups as
 25 much as it does Dental Gator.

1 CONFIDENTIAL - HAL MULLER
 2 Gator to not advertise themselves as a buying
 3 group?
 4 MR. McDONALD: Object to the form.
 5 Asked and answered.
 6 A. Right. Not that I know of.
 7 Q. If that occurred, who would have been
 8 the natural person to have delivered that
 9 message?
 10 MR. McDONALD: Object to the form.
 11 Calls for speculation. That is an
 12 inappropriate hypothetical question. He
 13 just told you he didn't know if it ever
 14 happened.
 15 Don't guess.
 16 A. I don't know.
 17 Q. Who was responsible for the Dental
 18 Gator account?
 19 A. Daniel Hobson.
 20 Q. Did Daniel Hobson have the most
 21 contact with the folks at Dental Gator of anyone
 22 at Schein?
 23 A. Okay. With MB2, yes. There really
 24 wasn't a team at Dental Gator.
 25 Q. Other than Daniel Hobson, did anyone

1 CONFIDENTIAL - HAL MULLER
 2 Q. But you were getting push-back on
 3 Dental Gator?
 4 MR. McDONALD: Object to the form.
 5 A. On Dental Gator, right, on the
 6 messaging.
 7 Q. Did Henry Schein have a conversation
 8 with someone at Dental Gator to stop them from
 9 advertising the savings that their members could
 10 get with Schein?
 11 A. I believe somebody on my team would
 12 have done that.
 13 Q. Did someone from your team tell Dental
 14 Gator that they could no longer advertise
 15 themselves as a buying group?
 16 A. Dental Gator is a buying group.
 17 Q. Did anyone from Schein ever tell
 18 Dental Gator that they could not advertise
 19 themselves as a buying group?
 20 A. Not that I know of.
 21 Q. Who would know?
 22 MR. McDONALD: Object to the form.
 23 A. Well, if they are a buying group, how
 24 can they not tell people they're a buying group?
 25 Q. Did anyone from Schein instruct Dental

1 CONFIDENTIAL - HAL MULLER
 2 have substantive contact with the team at MB2 in
 3 regards to Dental Gator?
 4 A. Probably Randy.
 5 Q. That's Randy Foley?
 6 A. Right.
 7 Q. Anyone else?
 8 A. They -- those were the people involved
 9 with this customer.
 10 Q. Okay. If it weren't for the
 11 relationship with MB2 --
 12 Sorry, you can set the document aside.
 13 If it weren't for the relationship
 14 with MB2, Schein likely would not have done
 15 business with Dental Gator; is that right?
 16 MR. McDONALD: Object to the form.
 17 Inappropriate hypothetical.
 18 A. Right; if somebody had come to us and
 19 said we have ten customers and we would like a
 20 better price for those ten customers, it would
 21 have been tough to just give them better pricing
 22 on the fact that they had ten customers.
 23 Q. Are you trying to suggest that Dental
 24 Gator was some sort of price-only buying group?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - HAL MULLER
 2 A. Yeah, no, I'm not. I'm just saying
 3 that, as I looked at that, it looked like there
 4 were -- in the other document that there were no
 5 more than 20 customers of Dental Gator. So, for
 6 that, it's just the volume more than anything
 7 else.
 8 MR. McDONALD: So pause for a second.
 9 (Discussion off the record.)
 10 Q. You were nervous that -- strike that.
 11 You understood that others within
 12 Schein were nervous that doing business with
 13 Dental Gator would open the floodgates on buying
 14 groups; is that right?
 15 A. At the time of Dental Gator, we had a
 16 lot of buying groups we were selling.
 17 Q. So would it be strange for someone to
 18 fear that doing business with Dental Gator would
 19 open the floodgates on buying groups?
 20 MR. McDONALD: Object to the form.
 21 A. I think there were some people that
 22 were nervous if we sold one buying group that it
 23 would open the floodgates. By this point, we
 24 were selling a lot of them.
 25 Q. Why would someone be nervous that

1 CONFIDENTIAL - HAL MULLER
 2 selling to one buying group would open the
 3 floodgates?
 4 MR. McDONALD: Object to the form.
 5 If you know, tell her.
 6 A. Yeah, I don't --
 7 MR. McDONALD: But don't make
 8 something up.
 9 THE WITNESS: Okay. Thank you.
 10 I won't make something up.
 11 BY MS. ROSNER:
 12 Q. You agree that you didn't want to open
 13 the floodgates on buying groups; is that right?
 14 A. I may have put that in an e-mail.
 15 Q. You put that in an e-mail because you
 16 agreed with it?
 17 A. I think life has proved that opening
 18 up buying groups over the last 20 years hasn't
 19 really opened any floodgates as the fact that
 20 it's still a small part of the business. So I
 21 think we used terms and fears that the sky was
 22 falling on a lot of things that happened in the
 23 industry.
 24 Q. But you had a fear that doing business
 25 with buying groups would open the floodgates?

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: Object to the form.
 3 A. If I have said that, I've said that,
 4 but it just keeps proving that it's not true
 5 whether I said it or not; that selling to buying
 6 groups has not opened up any floodgates for --
 7 for the change in the industry.
 8 Q. We've talked about Jim Breslawski
 9 today.
 10 He was your boss, right?
 11 A. He -- he still is.
 12 Q. When you communicate with Jim
 13 Breslawski, you don't have a habit of making
 14 things up out of whole cloth, right?
 15 A. Right.
 16 Q. You try to be accurate in your e-mails
 17 to Jim Breslawski; that's right?
 18 A. Obviously.
 19 Q. Let me hand you a document that was
 20 previously marked as CX2145. This is a
 21 multi-page e-mail chain. The first page has the
 22 Bates label Henry Schein-000195765.
 23 Take a moment to review CX2145 and let
 24 me know when you're ready.
 25 (Exhibit CX2145-001 through 004, a

1 CONFIDENTIAL - HAL MULLER
 2 document bearing Bates Nos. Henry
 3 Schein-00195765 through 768, marked for
 4 identification, as of this date.)
 5 (Document review.)
 6 THE WITNESS: Okay.
 7 BY MS. ROSNER:
 8 Q. You've had an opportunity to review
 9 CX2145?
 10 A. I did.
 11 Q. I'm going to refer you -- CX25145 is
 12 an e-mail chain. The last-in-time e-mail is
 13 written by Jim Breslawski on January 28, 2015.
 14 I'm going to refer you to the bottom
 15 of the first page, where there's an e-mail from
 16 Jim written at 6:49 a.m.
 17 Jim writes, "Thanks. It is important
 18 that while accommodating for unique reasons
 19 here, we don't help open the floodgates on
 20 buying groups," exclamation point.
 21 Did I read that correctly?
 22 A. You did.
 23 Q. Jim is concerned about opening the
 24 floodgates on buying groups in 2015, is that
 25 your understanding?

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: Objection to the form.
 3 A. That's what he wrote.
 4 Q. Do you understand something different
 5 from what he wrote?
 6 A. No; it's a concern.
 7 Q. At this time in 2015, Schein's already
 8 doing business with buying groups?
 9 A. Correct.
 10 Q. Jim is the president of the business
 11 in Schein dealing with all of dental; is that
 12 right?
 13 A. Correct.
 14 Q. And Jim should know that his business
 15 unit is doing business with buying groups,
 16 right?
 17 A. Yes.
 18 Q. It's part of your job to keep Jim
 19 informed about the types of customers that
 20 Special Markets accepts, right?
 21 A. Correct.
 22 Q. Why is Jim concerned -- what is your
 23 understanding of why Jim doesn't want to open
 24 the floodgates on a customer segment he already
 25 does business with?

1 CONFIDENTIAL - HAL MULLER
 2 If you know tell her, but don't guess.
 3 THE WITNESS: I won't guess on why he
 4 used that term.
 5 BY MS. ROSNER:
 6 Q. You say you agree -- "but I agree,"
 7 you write in all caps in the e-mail right above.
 8 You agree that you don't want to open
 9 the floodgates on buying groups.
 10 MR. McDONALD: Object to the form.
 11 Q. Is that correct?
 12 A. I don't say here I agree with the
 13 floodgate comment.
 14 Q. Is there another comment in Mr.
 15 Breslawski's e-mail that you agree with?
 16 A. Well, he doesn't bring up Darby
 17 either, so I don't -- which I did, so I'm not
 18 sure.
 19 Q. You're agreeing with something. What
 20 are you agreeing with?
 21 MR. McDONALD: If you recall, tell
 22 her.
 23 A. I don't know what I'm agreeing with.
 24 Q. Is there anything that might refresh
 25 your recollection about what you're

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: Object to the form.
 3 A. First of all, I'm confused on your
 4 last questioning because you were asking if I
 5 was concerned about the floodgates and you were
 6 going to prove that I was, and these are Jim's
 7 words, not mine, but -- I shouldn't say "but."
 8 There is -- I'm sure every buying
 9 group that we started doing business with at a
 10 lower cost than we normally would do with
 11 customers kept trickling through, and I can
 12 imagine some people were concerned that buying
 13 groups would become more prevalent, which they
 14 haven't, and they haven't because of us because
 15 we keep opening them. And so he might have been
 16 concerned that the trickling would go faster.
 17 Q. But if Schein is already dealing with
 18 buying groups, he's already accepted that Schein
 19 is going to pay lower prices to some customers;
 20 isn't that right?
 21 A. That's right.
 22 Q. So what's the floodgates? The
 23 floodgate sounds like he's trying to hold
 24 something back.
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - HAL MULLER
 2 enthusiastically agreeing with, in all caps?
 3 MR. McDONALD: Object to the form.
 4 A. No.
 5 Q. You can put this document aside.
 6 We talked about Brian Brady today. He
 7 is the head of the Mid Market Group once it was
 8 formed; is that right?
 9 A. Correct.
 10 Q. When hearing that Schein -- scratch
 11 that.
 12 When hearing that Special Markets was
 13 going to designate someone to be dedicated to
 14 buying groups, that caused you to say "wow";
 15 isn't that right?
 16 MR. McDONALD: Object to the form.
 17 If you have a document, show it to
 18 him. I want don't play games.
 19 A. I don't remember saying "wow," but...
 20 Q. You were worried that Schein might
 21 include buying groups in Mr. Brady's title?
 22 A. I wouldn't have been worried, no.
 23 Q. You would not have been worried if
 24 Schein included buying groups in Mr. Brady's
 25 title?

1 CONFIDENTIAL - HAL MULLER
 2 A. Correct; I would not have been
 3 worried.
 4 Q. I'm going to hand you a document that
 5 has been premarked as CX2129. It is an e-mail
 6 on one page. The first page Bates is Henry
 7 Schein-001386139.
 8 Please take a moment to review this
 9 e-mail and let me know when you finished.
 10 (Exhibit CX20129-001 through 002, a
 11 document bearing Bates Nos. Henry
 12 Schein-001396139 through 140, marked for
 13 identification, as of this date.)
 14 (Document review.)
 15 THE WITNESS: Okay.
 16 BY MS. ROSNER:
 17 Q. You've had an opportunity to review
 18 CX2129?
 19 A. Yes.
 20 Q. I'm going to start at the bottom of
 21 the page, the earliest in time e-mail that's
 22 written from you. The subject matter of the
 23 e-mail is "wow."
 24 "So you have a dedicated person for
 25 buying groups. I guess our stance has changed."

1 CONFIDENTIAL - HAL MULLER
 2 Did I read that correctly?
 3 A. Yes.
 4 Q. What stance are you referring to that
 5 has changed?
 6 A. That we're open to the fact that
 7 buying groups are more prevalent and that we're
 8 dedicating people to work on them.
 9 Q. Tim Sullivan responds, "Brian B,"
 10 question mark. And then above there, you write,
 11 "Yep -- just worried that might be in the
 12 person's title or something."
 13 Did I read that correctly?
 14 A. Yes. Better than I would have written
 15 it, but go ahead.
 16 Q. You were worried that "buying groups"
 17 would be in Brian Brady's title; is that right?
 18 A. Yes.
 19 Q. Why would the word "buying groups" in
 20 Brian Brady's title worry you?
 21 A. Because there were so many more
 22 important things that Brian is leading than
 23 having buying groups in his title. He was
 24 taking over a big part of the business that was
 25 my responsibility, where buying groups was a

1 CONFIDENTIAL - HAL MULLER
 2 small part of it. It was always there, but a
 3 small part of it, but it wouldn't have been in
 4 my title or his title when he was selling DSOs,
 5 community health centers, you know, emerging
 6 different businesses.
 7 So I was just saying I, you know, I
 8 hope "buying groups" isn't in his title because
 9 he was so much more than that.
 10 Q. Tim Sullivan responds, "No way we
 11 would make it part of the title. It's also not
 12 a focus rather a defensive position."
 13 And you respond, "Just want to be
 14 given the same message. See you then. Have a
 15 nice weekend."
 16 Did I read that right?
 17 A. You did.
 18 Q. So you wanted to be giving the same
 19 message that having someone dedicated to buying
 20 groups was a defensive position?
 21 MR. McDONALD: Object to the form.
 22 A. No; for me it wasn't a defensive
 23 position. For Tim it might have been, but it
 24 wasn't for me.
 25 Q. What would it mean to have someone

1 CONFIDENTIAL - HAL MULLER
 2 assigned to buying groups as a defensive
 3 position?
 4 MR. McDONALD: Object to the form.
 5 A. That's Tim's writing, not mine.
 6 Q. You said for you it wasn't a defensive
 7 position. So what would it have meant for you?
 8 MR. McDONALD: Object to the form.
 9 A. For me it would have been that we were
 10 putting buying groups in the same place under
 11 one group. And I was cool with that, but, you
 12 know, I didn't want it to be the major focus
 13 just because it was so small.
 14 Q. What do you understand "defensive
 15 position" to mean?
 16 A. That's --
 17 MR. McDONALD: Object to the form.
 18 Go ahead. If you know, tell her.
 19 THE WITNESS: Huh?
 20 MR. McDONALD: If you know, tell her.
 21 THE WITNESS: I was just starting to
 22 say that's Tim's words, not mine.
 23 BY MS. ROSNER:
 24 Q. Right, but he's communicating to you.
 25 He's not just talking out loud to talk hear

1 CONFIDENTIAL - HAL MULLER
 2 himself talk.
 3 What's your understanding of what he's
 4 trying to communicate to you?
 5 MR. McDONALD: Object to the form.
 6 If you had one, tell her.
 7 THE WITNESS: I don't know why he was
 8 using that term.
 9 MR. McDONALD: Don't guess.
 10 BY MS. ROSNER:
 11 Q. When you receive e-mails and you don't
 12 understand them, do you often not ask to clarify
 13 or follow up?
 14 MR. McDONALD: Object to the form.
 15 A. Many of the times I don't. I get
 16 hundreds of e-mails a day.
 17 Q. You can set this one aside.
 18 Actually, before you do that, is there
 19 anything that we could show you or that could
 20 help you better understand what Tim is referring
 21 to as "defensive position"? I understand you
 22 don't understand what he's saying here today.
 23 A. Right.
 24 Q. Is there anything that we could show
 25 you to help you better understand what he's

1 CONFIDENTIAL - HAL MULLER
 2 trying to say?
 3 A. Not unless he defines what he means.
 4 Q. There's nothing you can look at that
 5 would help you better understand what he's
 6 trying to communicate to you?
 7 A. If you have something that says what
 8 he's -- means, then I'm willing to read it.
 9 Q. There's nothing that you can think of
 10 in this moment?
 11 A. Correct.
 12 Q. We've talked about how Brian Brady was
 13 assigned to work with buying groups among many
 14 other things in his job?
 15 A. Correct.
 16 Q. At the same time, you noted that Brian
 17 Brady doesn't understand why we're not working
 18 with buying groups; is that right?
 19 A. I am not sure how to answer that
 20 question.
 21 Q. Did you ever say Brian Brady doesn't
 22 understand why we're not working with buying
 23 groups?
 24 A. Brian Brady was always pro selling to
 25 buying groups.

1 CONFIDENTIAL - HAL MULLER
 2 Q. I'm going to hand you a document that
 3 has been previously marked as CX2146. It's a
 4 multi-page e-mail. The first page begins with a
 5 Bates Henry Schein-000154121.
 6 Please take a moment to review CX2146
 7 and let me know when you are finished.
 8 (Exhibit CX2146-001 through 004, a
 9 document bearing Bates Nos. Henry
 10 Schein-00015421 through 124, marked for
 11 identification, as of this date.)
 12 (Document review.)
 13 THE WITNESS: Okay.
 14 BY MS. ROSNER:
 15 Q. You've had an opportunity to review
 16 CX2146?
 17 A. I have.
 18 Q. This is an e-mail where the
 19 last-in-line e-mail chain or the last-in-line
 20 e-mail from the e-mail is from Randy Foley on
 21 January 31, 2015.
 22 Going down one e-mail from the
 23 last-in-time e-mail is an e-mail from you at
 24 10:39 a.m. to Randy Foley, and I'll read the
 25 first sentence of your e-mail. It says, "BTW,

1 CONFIDENTIAL - HAL MULLER
 2 Brian Brady doesn't understand why we are not
 3 working with buying groups."
 4 Did I read that correctly?
 5 A. You did.
 6 Q. What did you mean by that statement?
 7 A. I don't remember. It could have meant
 8 a multitude of things why we, meaning Special
 9 Markets, haven't expanded on buying groups. It
 10 could mean why Henry Schein Dental, outside of
 11 the California market that he was in, aren't
 12 dealing with more buying groups.
 13 So, seeing as I wrote that, those
 14 probably would have been the things that came to
 15 my mind.
 16 Q. Did you instruct Brian Brady not to
 17 work with buying groups?
 18 A. Not at all.
 19 Q. Why was Schein not working with buying
 20 groups?
 21 MR. McDONALD: Object to the form.
 22 Mischaracterizes his testimony.
 23 He's told you I don't know how many
 24 times today that they did.
 25 A. Brian was pro buying groups and so was

1 CONFIDENTIAL - HAL MULLER
 2 I, so... I guess I would answer that.
 3 Q. I guess I don't understand then why
 4 you would write "we are not working with buying
 5 groups"?
 6 A. Again, I don't know in the context of
 7 this letter. I can't even fathom what this --
 8 Q. Well, you have the whole e-mail. Take
 9 some time, if you need, to read the entire
 10 chain.
 11 A. Well, I did. The whole chain has
 12 nothing to do with buying groups, so it's just a
 13 sentence in there that I must have run into
 14 Brian and he questioned it, that's all.
 15 Q. Is there anything that could refresh
 16 your recollection about why you would write,
 17 "Brian Brady doesn't understand why we are not
 18 working with buying groups"?
 19 A. I don't remember anything that would
 20 have pointed to which group he was talking about
 21 or which division he was talking about.
 22 Q. Okay. You can put this one aside.
 23 You're familiar with the entity
 24 Breakaway?
 25 A. I am.

1 CONFIDENTIAL - HAL MULLER
 2 Q. In 2015, Mid Markets signed a prime
 3 vendor agreement with Breakaway; are you
 4 familiar with that?
 5 A. I -- yes.
 6 Q. You understood Breakaway to be a
 7 buying group?
 8 A. I was never sure what Breakaway Dental
 9 was.
 10 Q. You questioned whether people were
 11 okay with signing a PDA with a buying group?
 12 A. From some of the e-mails that I've
 13 looked at today where Breakaway has been
 14 mentioned, it's always been mentioned in
 15 defending our position. If Henry Schein Dental
 16 was opening up Breakaway, then why were we
 17 getting questions on some of the other buying
 18 groups.
 19 Q. Let me hand you a document that's been
 20 premarked for identification as CX2133. It is a
 21 multi-page e-mail. The top page is
 22 Bates-stamped Henry Schein-000191298.
 23 Please take a moment to review CX2133
 24 and let me know when you're done.
 25 (Exhibit CX2133-001 through 003, a

1 CONFIDENTIAL - HAL MULLER
 2 document bearing Bates Nos. Henry
 3 Schein-000191298 through 300, marked for
 4 identification, as of this date.)
 5 (Document review.)
 6 THE WITNESS: Okay.
 7 BY MS. ROSNER:
 8 Q. You've had an opportunity to review
 9 CX2133?
 10 A. I have.
 11 Q. This is an e-mail chain with the
 12 last-in-time e-mail written by you on June 30,
 13 2015. I'm going to direct your attention to the
 14 second page of the document, CX2133-002.
 15 The very bottom of that page, you
 16 write about Breakaway: "This is a buying group.
 17 Are people okay with this?"
 18 Did I read that correctly?
 19 A. Yes.
 20 Q. You're questioning whether people
 21 within Schein would be okay with doing business
 22 with Breakaway; is that right?
 23 A. Correct.
 24 Q. You understand Breakaway at this time
 25 to be a buying group; is that right?

1 CONFIDENTIAL - HAL MULLER
 2 A. Correct.
 3 Q. Are there buying -- scratch that.
 4 Why wouldn't people in Schein be okay
 5 with doing business with a buying group?
 6 A. We keep going back to this. It's --
 7 it's -- first of all, this e-mail is really
 8 about why is this in Henry Schein Dental and not
 9 in Special Markets. This one sentence is -- is
 10 asking the question, almost sarcastically, about
 11 why are people okay with this buying group when
 12 they have questioned on smaller buying groups.
 13 Q. Why would you ask a sarcastic question
 14 about whether people would be okay with Schein
 15 dealing with a bigger buying group when it was
 16 not okay dealing with smaller buying groups?
 17 A. This is, again, a divisional struggle
 18 between the two divisions, but right here, this
 19 again proves that Henry Schein Dental was
 20 selling buying groups, and here was just another
 21 one, and yet when we had one that was previously
 22 being discussed with Dental Gator, which was 20
 23 locations at the max, that we got slack for it
 24 when they were -- continued to open buying
 25 groups in their division.

1 CONFIDENTIAL - HAL MULLER
 2 Q. At the top of this page, you write,
 3 "Last I heard about Breakaway, KT was going to
 4 close them down as a buying group."
 5 Did I read that correctly?
 6 A. Yes.
 7 Q. "KT" refers the Kathleen Titus?
 8 A. Correct.
 9 Q. It was your understanding that
 10 Kathleen Titus was going to close down Breakaway
 11 because they were a buying group?
 12 A. Correct.
 13 Q. Okay. You can put this document
 14 aside.
 15 Upon learning that Schein was doing
 16 business with Breakaway, you wanted to alert Tim
 17 Sullivan; is that right?
 18 A. I might have.
 19 Q. I'm going to hand you an e-mail that's
 20 been premarked as CX2132. It is a two-page
 21 e-mail. The first page is Bates-labeled Henry
 22 Schein-000191283.
 23 Please take a moment to review CX2132
 24 and let me know when you're finished.
 25 (Exhibit CX2132-001 through 002, a

1 CONFIDENTIAL - HAL MULLER
 2 document bearing Bates Nos. Henry
 3 Schein-000191283 through 284, marked for
 4 identification, as of this date.)
 5 (Document review.)
 6 THE WITNESS: Okay.
 7 BY MS. ROSNER:
 8 Q. You've had an opportunity to review
 9 CX2132?
 10 A. I have.
 11 Q. The top e-mail in the chain is from
 12 you written on July 1, 2015. Going down to the
 13 bottom e-mail in the chain, you write, "Buying
 14 Groups: Tim, I don't want you to get caught in
 15 saying one thing and the team doing something
 16 else."
 17 Did I read that correctly?
 18 A. You did.
 19 Q. And then in the following two
 20 paragraphs, you go on to describe how Mid Market
 21 is doing business with Dental Gator and
 22 Breakaway; is that right?
 23 A. Okay. The new Dental Gator accounts
 24 were in Mid Market, yes. And Breakaway was in
 25 Mid Market.

1 CONFIDENTIAL - HAL MULLER
 2 Q. And so the team is doing something
 3 different by working with Dental Gator and
 4 Breakaway than what Tim was saying; is that
 5 right?
 6 MR. McDONALD: Object to the form.
 7 A. Tim says in his e-mail that he was
 8 very aware of them. So I was just saying I
 9 wanted to make sure that we were saying what we
 10 were doing.
 11 Q. You were concerned that Tim was saying
 12 one thing and his team was doing something
 13 different; is that right?
 14 A. That was my concern.
 15 Q. And your understanding is the team was
 16 working with Dental Gator and Breakaway,
 17 correct?
 18 A. Correct.
 19 Q. And you wanted to raise that with Tim
 20 because that was contrary to what Tim was
 21 previously saying; isn't that right?
 22 A. He knew who they were, you know. I
 23 just wanted to refer back to something that was
 24 from a meeting. I'm just saying, you know,
 25 where are we with these and what divisions are

1 CONFIDENTIAL - HAL MULLER
 2 they going to be in.
 3 Q. You didn't know that Tim knew about
 4 Dental Gator and Breakaway; that's right?
 5 MR. McDONALD: Object to the form.
 6 A. Well, I knew definitely he knew about
 7 Dental Gator. I didn't know that much about
 8 Breakaway myself, so I just wanted to make sure
 9 he knew who...
 10 Q. You didn't know that Tim knew his team
 11 was working with Breakaway and Dental Gator.
 12 That's why you wrote the e-mail to alert him; is
 13 that right?
 14 MR. McDONALD: Object to the form.
 15 A. No, not necessarily. I'm saying what
 16 he's saying and what is happening, even if he
 17 knows what is happening, are two different
 18 things.
 19 Q. Okay.
 20 MS. ROSNER: I have no further
 21 questions at this time. We can take a break
 22 and go off the record.

 24 p.m. We're off the record.
 25 (Recess.)

1 CONFIDENTIAL - HAL MULLER
 2 THE VIDEOGRAPHER: The time is 2:25
 3 p.m. We're on the record.
 4 EXAMINATION BY
 5 MR. McDONALD:
 6 Q. Mr. Muller, I have a few questions for
 7 you.
 8 We've talked about Patterson and Benco
 9 today several times. Do you recall that?
 10 A. I do.
 11 Q. Are they your competitors?
 12 A. Very much so.
 13 Q. And how would you describe your
 14 relationship with Patterson and Benco?
 15 A. I think they wish that I wasn't on
 16 this earth, and I wish they weren't on this
 17 earth.
 18 Q. Have you ever discussed buying groups
 19 with anyone at Patterson?
 20 A. No.
 21 Q. Have you ever discussed buying groups
 22 with anyone at Benco?
 23 A. No.
 24 Q. Have you ever discussed buying groups
 25 with any of your competitors?

1 CONFIDENTIAL - HAL MULLER
 2 groups?
 3 A. For as long as I remember, yes.
 4 Q. During your 25 years at Special
 5 Markets, have any of your superiors told you to
 6 not do business with buying groups?
 7 A. No.
 8 MR. McDONALD: That's all the
 9 questions I have.
 10 MR. LAVERY: Mr. Muller, I have no
 11 questions.
 12 MR. YOON: Likewise, I have no
 13 questions for you.
 14 THE WITNESS: Thank you.
 15 MS. ROSNER: Mr. Muller, I also have
 16 no followup questions for you.
 17 MR. McDONALD: Okay.
 18 THE WITNESS: Thank you.
 19 MR. McDONALD: So --
 20 MS. ROSNER: Can we go off the record?
 21 MR. McDONALD: Yes, let's go off the

1 CONFIDENTIAL - HAL MULLER
 2 A. No.
 3 Q. The complaint in this case alleges
 4 that Patterson, Benco, and Henry Schein had an
 5 agreement regarding buying groups.
 6 Did you ever have any agreement with
 7 Patterson or Benco regarding buying groups?
 8 MS. ROSNER: Objection. Calls for a
 9 legal conclusion.
 10 A. I have never had a discussion with
 11 anybody having been told that, no.
 12 Q. Do you have any knowledge of the
 13 allegation made by the FTC that there's an
 14 agreement between Patterson, Benco and Henry
 15 Schein regarding buying groups?
 16 A. No.
 17 Q. How long have you worked in Henry
 18 Schein Special Markets?
 19 A. 25 years; since its creation.
 20 Q. During your 25 years in Special
 21 Markets, have you had a policy or practice to
 22 not do business with buying groups?
 23 A. No.
 24 Q. During your 25 years at Special
 25 Markets, have you done business with buying

1 CONFIDENTIAL - HAL MULLER
 2 (This concludes the deposition of Hal
 3 Muller in his individual capacity.)
 4 (Whereupon, the corporate
 5 representative portion of the deposition
 6 commences.)

1 CONFIDENTIAL - HAL MULLER
2 THE VIDEOGRAPHER: The time is 2:32
3 p.m. We're on the record.

4 MR. McDONALD: So do we want to state
5 on the record, Jasmine, that we have
6 concluded Mr. Muller's deposition in his
7 individual capacity and we are now
8 proceeding with his deposition in his
9 corporate representative.

10 And to be clear, as we have discussed
11 in e-mails, Mr. Muller is being designated
12 as the corporate representative for Henry
13 Schein on topic 2 of the Notice of
14 Deposition to Henry Schein to the extent the
15 buying groups dealt in the Special Markets
16 space, and he's being tendered subject to
17 all the objections that we have made to the
18 deposition topic.

19 MS. ROSNER: I agree. And just for
20 clarity, I'll read specification 2 so that
21 everybody is on the same page.

22 Specific 2 says: "Schein's agreements
23 with any buying groups for dental products
24 during the relevant time period, including
25 the identities of the buying groups and the

1 CONFIDENTIAL - HAL MULLER
2 general -- excuse me, the general terms and
3 scope of each agreement, including, but not
4 limited to, general pricing and discounting
5 terms, ways to determine the members of the
6 buying groups, the Schein employees who
7 negotiated and entered in each agreement,
8 and the operative dates of each agreement."

9 That's the text of specification 2.

10 EXAMINATION BY

11 MS. ROSNER:

12 Q. Mr. Muller, you are aware that you
13 have been asked to speak on behalf of Schein as
14 a corporate representative on those topics?

15 A. Yes.

16 Q. And you have educated yourself on
17 those topics with respect to Special Markets
18 customers?

19 A. Yes.

20 Q. Let's start by providing a list of all
21 of the buying groups Schein did business with
22 from 2000 -- let me back up.

23 Let's start with providing a list of
24 all of the buying groups that Special Markets
25 did business with.

1 CONFIDENTIAL - HAL MULLER
2 MR. McDONALD: Well, we have lodged
3 objections. This is not some memory test.
4 We have provided you with tons of documents
5 that identify the buying groups done by
6 Henry Schein, both in Special Markets and
7 Henry Schein Dental.

8 He's not prepared here, he's not
9 some -- going to regurgitate all that again.
10 If you can -- you want to mark the
11 interrogatory answers we have given you, if
12 you want to mark anything else that we
13 provided to you on multiple occasions and
14 ask him which of those are Special Markets
15 and which are Henry Schein Dental, he's
16 prepared to do that.

17 Otherwise, he's not in a position to
18 sit here and identify all the specific dates
19 of all the buying groups that they have done
20 business with. We have lodged objections,
21 appropriate objections, to that topic in
22 doing so.

23 BY MS. ROSNER:

24 Q. Mr. Muller, have you educated yourself
25 on buying groups that Special Markets would have

1 CONFIDENTIAL - HAL MULLER
2 done business with?

3 A. Not enough to remember all of them off
4 the top of my head.

5 Q. Are there any that you remember?

6 A. Yes. The -- I know some of them. I
7 don't know the dates exactly, but I do know --

8 Q. Can you start by telling me the ones
9 you remember?

10 A. Commonwealth, which is a GPO on CHCs.
11 Council Connections, which is a CHC buying
12 group. I remember the easy ones.

13 I believe there's an Illinois Primary
14 and a Texas Primary on CHCs. We obviously have
15 the agreement that included Dental Gator. The
16 original Smile Source agreement I have to go
17 down the -- I would imagine you don't want the
18 list of all DSOs in this case?

19 Q. I'm not interested in the DSOs. I'm
20 just interested in the buying groups.

21 A. Okay.

22 Q. And buying groups as defined by the
23 private practice dentists buying groups?

24 A. Right.

25 MR. McDONALD: You don't have to

1 CONFIDENTIAL - HAL MULLER
 2 necessarily agree with her definition of
 3 "buying group." If there's an entity you
 4 consider to be a buying group and you
 5 recall, then you should tell her.
 6 THE WITNESS: Okay.
 7 We do have IDA.
 8 BY MS. ROSNER:
 9 Q. That Intermountain Dental Associates?
 10 A. Correct.
 11 We have Dental Practices of Georgia.
 12 MR. McDONALD: If you mumble, she's
 13 going to try to write it down, so don't do
 14 that.
 15 THE WITNESS: Correct. Correct.
 16 I'm sorry, I'm blanking on the rest.
 17 BY MS. ROSNER:
 18 Q. Is there anything that would help
 19 refresh your recollection about who some of the
 20 other buying groups might be?
 21 A. Totally, the list. And I can tell you
 22 when ones are Special Markets.
 23 Q. I'm going to hand you a document that
 24 has been premarked as Exhibit Complaint Counsel
 25 Exhibit 220.

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: I don't care. Just as
 3 long as it's clear on the record that that's
 4 not -- that wasn't part of our interrogatory
 5 answer to you.
 6 MS. ROSNER: You're exactly right.
 7 BY MS. ROSNER:
 8 Q. Page 6 and 7 begin where Schein has
 9 responded to the question about identifying all
 10 buying groups that have had agreements with
 11 Schein.
 12 Feel free to take a moment to
 13 familiarize yourself with the list that has been
 14 provided. There is also a separate list of
 15 group purchasers at Appendix A, which begins at
 16 page -- begins after page 18 and it is its own
 17 numbered document.
 18 So feel free to take a moment and let
 19 me know once your recollection has been
 20 refreshed.
 21 (Document review.)
 22 A. What page were you talking in the --
 23 in the appendix?
 24 Q. Appendix A begins after page 18, and
 25 it is its own enumerated document.

1 CONFIDENTIAL - HAL MULLER
 2 Complaint counsel Exhibit 220 --
 3 MR. McDONALD: So is this like CX220
 4 or is this something different, or what are
 5 we doing, Jasmine?
 6 MS. ROSNER: Let me restate the
 7 number. Just for identification purposes,
 8 this is going to be CX2200. 2200 is
 9 Respondent Henry Schein's Objections and

 11 of Interrogatories.
 12 I'm going to direct you to page --
 13 MR. McDONALD: 7.
 14 Q. 6 and 7.
 15 MR. McDONALD: And so, and for the
 16 record, Jasmine, there's handwriting on page
 17 7. I don't know if that's on other stuff
 18 too, but that certainly wasn't in what we
 19 provided to you.
 20 MS. ROSNER: Where do you see the
 21 handwriting on page 7?
 22 (Indicating.)
 23 MS. ROSNER: I apologize. You're
 24 correct. I will provide a separate copy for
 25 the court reporter for the record.

1 CONFIDENTIAL - HAL MULLER
 2 A. Okay. I'll start on the ones on 7,
 3 which are the major ones, unless you --
 4 Q. You've had a moment to refresh your
 5 recollection with CX2200?
 6 A. Correct.
 7 Q. Maybe we can just go down the list
 8 listed on page 7 of CX2200 and you can identify
 9 the customers that were Special Markets
 10 customers for me.
 11 A. Okay. Number 1 -- I mean, Advantage
 12 Dental Group. Arizona Association of Community
 13 Health Centers. Ascension Health. Children's
 14 Hospital Association. Colorado Community Health
 15 Network. Commonwealth Purchasing Group.
 16 Council Connections. Dental Gator. Dental
 17 Partners of Georgia. Illinois Primary
 18 Healthcare Association. Intermountain Dental
 19 Associates. Louisiana Primary Care Association.
 20 MMCAP. OrthoSynetics.
 21 Just so you know, the predecessor of
 22 OrthoSynetics is OCA, which is Orthodontics
 23 Centers of America. Smile Source, the first
 24 part. Texas Association of Community Health
 25 Centers. And the Washington Association of

1 CONFIDENTIAL - HAL MULLER
2 Community and Migrant Health Workers --
3 Healthcare Centers, sorry.

4 Q. Other than the entities that you have
5 named just now, can you think of any other
6 buying groups that Special Markets has done
7 business with?

8 A. There's -- one of our customers -- I
9 can't believe I just blanked out. Sorry.

10 MR. McDONALD: Well, to be clear, he
11 mentioned one in his deposition earlier
12 today. Alpha Omega.

13 THE WITNESS: Right, Alpha Omega.
14 That was not Special Markets. That's been
15 around at Schein before Special Markets.

16 Comfort General is a -- kind of like a
17 franchise model, so it's confusing to what
18 it really is. So I would say that a large
19 part of what they offer their members is a
20 reduced price.

21 BY MS. ROSNER:

22 Q. Are there any other groups -- are
23 there any buying groups that Special Markets has
24 done business with?

25 A. Not that I remember.

1 CONFIDENTIAL - HAL MULLER

2 Q. Are you familiar with the group
3 Premise Health?

4 A. Not in Special Markets, no.

5 Q. Are you familiar with the group Dental
6 Smart?

7 A. No.

8 Q. Are you familiar with the group Dental
9 Associates?

10 A. Do you know where that is? There's
11 Dental Associates in Connecticut. I'm not sure
12 if that's a buying group or not.

13 Q. Does Special Markets have a buying
14 group called Dental Associates in its fold?

15 A. I don't believe so, no.

16 Q. Are you familiar with a group called
17 Ciraden, C-I-R-A-D-E-N?

18 A. No.

19 Q. Are you familiar with a group called
20 Main Street Dental?

21 A. Yes.

22 Q. Is that a Special Markets buying
23 group?

24 A. The Main Street Dental that I know of
25 is no longer in existence.

1 CONFIDENTIAL - HAL MULLER

2 Q. Was Main Street Dental a Special
3 Markets buying group?

4 A. It may have been perceived as one. I
5 think it may be before your timeframe.

6 Q. Are you familiar with a group called
7 Take Care Health?

8 A. No.

9 Q. Are you familiar with any other or can
10 you think of any other Special Markets would
11 have done business with?

12 A. No.

13 Q. I'd like to go through each one of
14 these groups one-by-one --

15 A. Sure.

16 Q. -- you knew that was coming -- and see
17 what you can recall.

18 Do you have personal knowledge of
19 Schien's relationship with Advantage Dental
20 Group?

21 A. I do not.

22 Q. Who would have personal knowledge?

23 A. This is one that's flipped back and
24 forth. Kathleen Titus would and I would think
25 Brian Brady would. This has been around a long

1 CONFIDENTIAL - HAL MULLER

2 time. I'm just not sure which division it was
3 in or out. Sorry.

4 Q. When you say you're not sure which
5 division it was in and out, are you referring to
6 whether it was in Special --

7 A. Henry Schein Dental or Special Markets
8 at the time.

9 Q. Do you know Advantage Dental to be a
10 DSO?

11 A. No; this is one of those that we were
12 questioning which it was.

13 Q. Does Advantage Dental have ownership
14 in its practices?

15 A. Unfortunately, I can't answer that one
16 on Advantage.

17 Q. Is there anything that could refresh
18 your recollection as to whether or not Advantage
19 Dental has ownership in its practice?

20 A. Yes; if I saw the agreement.

21 Q. Do you typically refer to Advantage
22 Dental as a buying group?

23 A. I think we have learned it's a buying
24 group.

25 Q. How many members does Advantage Dental

1 CONFIDENTIAL - HAL MULLER
 2 have?
 3 A. I'm sorry. I'm not familiar enough
 4 with Advantage.
 5 Q. When did Schein enter into an
 6 agreement with Advantage Dental?
 7 A. 2009.
 8 Q. Is that -- what's that knowledge based
 9 on?
 10 A. It says it right here.
 11 Q. Apart from the statement in this
 12 document, do you have any other knowledge --
 13 A. No.
 14 Q. -- as to when Schein entered into an
 15 agreement with Advantage Dental?
 16 A. I'm sorry.
 17 No.
 18 Q. Is the agreement with Advantage Dental
 19 ongoing?
 20 A. Yes.
 21 Q. What type of discount plan is
 22 Advantage Dental on?
 23 A. I wouldn't know without seeing the
 24 agreement.
 25 Q. Have you ever received complaints from

1 CONFIDENTIAL - HAL MULLER
 2 members of HSD about Advantage Dental?
 3 A. No.
 4 Q. Arizona Association of Community
 5 Health Centers, that's a group that represents
 6 CHCs; is that right?
 7 A. Correct.
 8 Q. There are no private practice dentists
 9 that are members of the Arizona Association of
 10 Community Health Centers?
 11 A. The individual offices are not. There
 12 may be dentists that work in the association.
 13 Q. Ascension Health Resource and Supply
 14 Management Group, is that a medical GPO?
 15 A. It is -- it is primarily a medical
 16 GPO, yes, with a dental component.
 17 Q. What is the dental component?
 18 A. The dental component is for Catholic
 19 charities-run facilities. Hospitals, clinics,
 20 things like that.
 21 Q. Is that akin to a CHC?
 22 A. It could be. It could be indigent
 23 care.
 24 Q. Are there private practice dentists
 25 that are members of the dental portion of

1 CONFIDENTIAL - HAL MULLER
 2 Ascension Health resources?
 3 A. There may be. It -- as long as
 4 they're part of the Catholic charities, they
 5 would fall within that.
 6 Q. Children's Hospital Association, is
 7 that akin to a CHC buying group?
 8 A. Akin to, possibly. It really is
 9 hospital-based children's hospitals on the
 10 dental side, so chances are those hospitals have
 11 a number of chairs, dental chairs, within their
 12 facility, within the hospital.
 13 Q. So this -- so Children's Hospital
 14 Association does not represent private
 15 practitioner dentists --
 16 A. True.
 17 Q. -- in independent practice?
 18 A. Correct.
 19 Q. Colorado Community Health Network, is
 20 that a CHC buying group?
 21 A. Yes, it is.
 22 Q. Colorado Community Health Network does
 23 not have among its members private practice
 24 dental practitioners?
 25 A. Correct.

1 CONFIDENTIAL - HAL MULLER
 2 Q. Commonwealth Purchasing Group, that's
 3 a CHC buying group?
 4 A. Correct.
 5 Q. Commonwealth Purchasing Group does not
 6 have among its members private practice dental
 7 practices?
 8 A. Correct.
 9 Q. Council Connections, is that a CHC
 10 buying group?
 11 A. Yes, it is.
 12 Q. Council Connections does not have
 13 among its members private dental practices?
 14 A. Right.
 15 Q. I'm sorry, did you say the Denali
 16 Group was one of your members?
 17 A. No.
 18 Q. Dental Gator is one of your members?
 19 A. Yes.
 20 Q. I'm going to come back to Dental
 21 Gator.
 22 Dental Partners of Georgia is --
 23 A. Yes, those are private practice.
 24 Q. Do you have personal knowledge of
 25 Schein's relationship with Dental Partners of

1 CONFIDENTIAL - HAL MULLER
 2 Georgia?
 3 A. My sales team called on them. I never
 4 visited them myself personally.
 5 Q. Who on your sales team visited them
 6 personally?
 7 A. Randy would have more knowledge about
 8 them, Randy Foley, and whoever our Special
 9 Markets salesperson at the time in that area.
 10 So that revolved a little bit.
 11 Q. Who were some of the SAMs that were
 12 assigned to DPGA?
 13 A. Becky Demers. David Muller. Back in
 14 the day, Rhonda, whatever her last name was this
 15 time.
 16 Q. Durante?
 17 A. Yes, Durante.
 18 Q. Durante?
 19 MR. McDONALD: Hers sounded fancier.
 20 THE WITNESS: Huh?
 21 MR. McDONALD: The way she said it
 22 sounded fancier.
 23 THE WITNESS: Right.
 24 BY MS. ROSNER:
 25 Q. Anyone else?

1 CONFIDENTIAL - HAL MULLER
 2 and it may have other group services, like
 3 insurance, like -- not only insurance, but
 4 provider pay, you know, to be able to negotiate
 5 better rates. As well as malpractice.
 6 Q. Are you familiar with the term "MSO"?
 7 A. Yes.
 8 Q. What is an MSO?
 9 A. An MSO and a DSO could really be said
 10 that they're synonymous. Some people say that
 11 it's just the services without any ownership. I
 12 haven't really seen that to be true in dental.
 13 Q. And you understand an MSO to stand for
 14 management service organization?
 15 A. Service organization.
 16 Q. Is Dental Partners of Georgia an MSO?
 17 A. I don't believe so.
 18 Q. How many members does Dental Partners
 19 of Georgia have?
 20 A. I do not know.
 21 Q. Do you have any personal knowledge
 22 about when Schein entered into an agreement with
 23 Dental Partners of Georgia?
 24 A. At least ten years ago.
 25 Q. Is the relationship with Dental

1 CONFIDENTIAL - HAL MULLER
 2 A. Zach Harrison may have had that for a
 3 time.
 4 Q. Anyone else?
 5 A. Not that I know of.
 6 Q. You mentioned you thought that DPGA
 7 was a group of private practice dentists?
 8 A. Yes.
 9 Q. Does the buying group DPGA have any
 10 ownership in its affiliate offices?
 11 A. I do not believe so.
 12 Q. Does the buying group DPGA have a
 13 separate MSO that it's connected to?
 14 A. I don't believe so.
 15 Q. Does the buying group DPGA contract
 16 with its affiliates for management services?
 17 A. I believe they're -- they do a lot of
 18 group things. Again, like I believe they banded
 19 together for insurance, originally, so this is
 20 one of the groups that was affiliated already.
 21 It hasn't expanded except for internal growth.
 22 Q. Does DPGA offer things like payroll,
 23 accounts receivable, accounts payable, practice
 24 management, any of those things?
 25 A. It definitely has the insurance arm,

1 CONFIDENTIAL - HAL MULLER
 2 Partners of Georgia ongoing today?
 3 A. Yes.
 4 Q. What discount plan is Dental Partners
 5 of Georgia on?
 6 A. I'm not familiar. I, just so you
 7 know, most --
 8 THE WITNESS: Can I just ask this
 9 question? These guys -- I mean, how does
 10 this play in?
 11 MR. McDONALD: It's confidential, so
 12 if you're worried about revealing
 13 confidential information, this deposition is
 14 confidential and they can't tell their
 15 clients about it.
 16 THE WITNESS: Okay.
 17 So most of our programs are similar in
 18 that they're approximately 20 percent off
 19 catalog, and then each of the organizations
 20 gives us what their most popular items are
 21 and we price those separately. So those
 22 items, their most used items, are greater
 23 than 20 percent.
 24 You're going to find that that's
 25 pretty true throughout. We try to stay

1 CONFIDENTIAL - HAL MULLER
 2 pretty constant with that.
 3 BY MS. ROSNER:
 4 Q. So Dental Partners of Georgia has a
 5 baseline discount of 20 percent off --
 6 A. Right, it would be 18 to 20 percent.
 7 It's one of those two, right.
 8 Q. So Dental Partners of Georgia has a
 9 baseline discount of 18 to 20 percent off
 10 everything, and then perhaps some additional
 11 discounts on some of the most used items?
 12 A. Correct.
 13 Q. Did you bid to win the business of
 14 Dental Partners of Georgia?
 15 A. Yes.
 16 Q. When did you last bid to win the
 17 business of Dental Partners of Georgia?
 18 A. You use the word "bid" as if the
 19 we're -- to me that means that other people are
 20 in on that at the same time. I do believe that
 21 with -- with them, we've been pretty constant in
 22 the fact that we've -- they have requested new
 23 pricing at times and we have given it, and but I
 24 don't remember ever bidding against anybody
 25 there.

1 CONFIDENTIAL - HAL MULLER
 2 A. Yes, it is.
 3 Q. The members of Illinois Primary
 4 Healthcare Association are not private dental
 5 practices?
 6 A. Correct.
 7 Q. Intermountain Dental Associates, does
 8 that entity have a DSO?
 9 A. I don't believe so. This is
 10 another -- I hate to say it. This is another
 11 one which we thought was a DSO. I personally
 12 never visited them, and it came out over a
 13 number of years that, oh, by the way, this is,
 14 you know, a buying group, and it didn't change
 15 our relationship with them at all.
 16 Q. So I want to back up for a minute.
 17 A. Go ahead. Sorry.
 18 Q. You don't have personal knowledge of
 19 Intermountain Dental Associates because someone
 20 else was responsible for that account?
 21 A. Right.
 22 Q. Who was responsible for that account?
 23 A. Our regional representative -- our
 24 SAMs in that area. Andrea Hight would have been
 25 the last one. Before that, Kathleen Titus may

1 CONFIDENTIAL - HAL MULLER
 2 Q. You don't recall Dental Partners of
 3 Georgia putting out an RFP or soliciting bids
 4 more broadly?
 5 A. I don't personally.
 6 Q. Were you with Special Markets when the
 7 relationship with Dental Partners of Georgia
 8 started?
 9 A. Yes.
 10 Q. How did that relationship begin?
 11 A. This may have come to us through an
 12 acquisition or through our fields at the Henry
 13 Schein Dental group. This is not something that
 14 Special Markets went out and acquired.
 15 Q. Special Markets inherited the Dental
 16 Partners of Georgia relationship?
 17 A. Correct.
 18 Q. Have you ever received complaints from
 19 anyone at HSD about Special Markets'
 20 relationship with Dental Partners of Georgia?
 21 A. Once -- once in a while. There are
 22 FSCs -- field salespeople attached to this
 23 customer. So we don't get many.
 24 Q. Illinois Primary Healthcare
 25 Association, is that a CHC buying group?

1 CONFIDENTIAL - HAL MULLER
 2 have been involved with that.
 3 Q. Andrea Hight now works for Mid Market,
 4 correct.
 5 A. Correct, as does Kathleen.
 6 Q. Who --
 7 A. I'm sorry. So I should say this. As
 8 of today, Andrea Hight does not work in Mid
 9 Market either. Okay? So she did work in Mid
 10 Market. Prior to that, she worked in Special
 11 Markets. She moved with the customers.
 12 Q. So Intermountain went from special
 13 market to Mid Market; is that what you're
 14 saying?
 15 A. I'm not sure of that, but the
 16 representation did. I don't remember if they
 17 made the top 50.
 18 Q. Okay. Okay. Over than --
 19 A. They were very close, okay.
 20 Q. Okay. Other than Andrea Hight and
 21 Kathleen Titus, are you aware of anyone else who
 22 has personal knowledge of the Intermountain
 23 Dental Associates relationship at Schein?
 24 A. No, I'm not.
 25 Q. You mentioned that at the time that

1 CONFIDENTIAL - HAL MULLER
 2 you were doing business with Intermountain
 3 Dental Associates, Special Markets believed IDA
 4 to be a DSO?
 5 A. Correct.
 6 Q. Special Markets believed IDA had
 7 ownership in its affiliates?
 8 A. Correct.
 9 Q. How many offices are affiliated with
 10 IDA?
 11 A. I do not know.
 12 Q. When did Special Markets enter into an
 13 agreement with IDA?
 14 A. Within the last ten years.
 15 Q. Was there a bid process to win the IDA
 16 account?
 17 A. Not that I remember, but I have a
 18 feeling there was.
 19 Q. And either Andrea Hight or Kathleen
 20 Titus would know more?
 21 A. Correct.
 22 Q. Is IDA on the same Special Markets
 23 plan that is 18 to 20 percent off everything,
 24 with perhaps some additional discounts on --
 25 A. Correct.

1 CONFIDENTIAL - HAL MULLER
 2 Q. -- select items?
 3 A. Sorry. Correct.
 4 Q. Have you ever received any complaints
 5 from HSD on IDA?
 6 A. No.
 7 Q. The Louisiana Primary Healthcare
 8 Association, is that a CHC buying group?
 9 A. Yes, it is.
 10 Q. The members of Louisiana Primary
 11 Healthcare Association are not private dental
 12 practices?
 13 A. Correct.
 14 Q. Minnesota Multi-State Contracting
 15 Alliance for Pharmacy sometimes goes by the
 16 acronym MMCAP; is that right?
 17 A. Yes.
 18 Q. Is MMCAP a CHC buying group?
 19 A. It's more than that. It's any state
 20 facility or state-funded facility amongst
 21 multiple states.
 22 Q. So it caters to a crowd that's more
 23 than just indigent populations?
 24 A. Correct. Correct. It could be
 25 emergency. It could be prisons. It could be

1 CONFIDENTIAL - HAL MULLER
 2 anything like that.
 3 Q. Private dental practices are not
 4 members of MMCAP; is that correct?
 5 A. To my knowledge, there's not. There
 6 may in some of these cases, even in the CHCs and
 7 in real rural areas, you could say it's a -- to
 8 meet the demand, but it wouldn't be a
 9 traditional dental office.
 10 Q. You mentioned Comfort Dental. Do you
 11 have personal knowledge of Schein's relationship
 12 with Comfort Dental?
 13 A. Yes.
 14 Q. Who do you have as a contact at
 15 Comfort Dental?
 16 A. I believe it's still Daniel Hobson.
 17 Q. I'm sorry, is there --
 18 A. I'm sorry.
 19 Q. Is there a person at Comfort Dental
 20 that you view as Schein's primary contact
 21 person?
 22 A. Yes. I mean, the owners of the group.
 23 Q. Do you know someone's name from
 24 Comfort Dental?
 25 A. I should, but I'm drawing a blank

1 CONFIDENTIAL - HAL MULLER
 2 right now.
 3 Q. We won't tell them.
 4 If you remember later --
 5 A. Right.
 6 Q. -- just let me know.
 7 A. Right. Okay.
 8 Q. Does Comfort Dental have ownership in
 9 its affiliate dental practices?
 10 A. It's a -- it has some that it owns
 11 completely and it has a franchise model as well.
 12 Q. So Comfort Dental has two parts?
 13 A. It -- yes.
 14 Q. In one part, it's a DSO; is that
 15 right?
 16 A. Correct.
 17 Q. And in the other part, it has a buying
 18 group; is that right?
 19 A. It has -- it's -- okay, I'll go back
 20 to it's like an MSO, but it -- they consider
 21 themselves a franchise. They can buy the name.
 22 They buy lab services. The offices pay for
 23 things, and they really have to -- just like a
 24 McDonald's or anything else, they have to use
 25 the approved suppliers to maintain the name.

1 CONFIDENTIAL - HAL MULLER
 2 Q. So just so I --
 3 A. And you wouldn't know -- you wouldn't
 4 know the difference between an owned and a
 5 franchise, so that's why it's not really two
 6 different agreements. It's really one
 7 agreement.
 8 Q. As far as the ownership structure
 9 goes, Comfort Dental looks like a DSO plus an
 10 MSO?
 11 A. Correct.
 12 Q. Is that right?
 13 A. Correct, that would be a very good way
 14 of...
 15 Q. How many members does Comfort Dental
 16 have?
 17 A. A few hundred. A couple hundred, I
 18 should say.
 19 Q. When did Schein enter into an
 20 agreement with Comfort Dental?
 21 A. It was in Henry Schein Dental for a
 22 long time, and meaning -- I mean, they probably
 23 have been in Special Markets for ten to twelve
 24 years, and before that, they were purely in
 25 Henry Schein Dental probably for another five or

1 CONFIDENTIAL - HAL MULLER
 2 six years.
 3 Q. Was there a bid process to win the
 4 Comfort Dental business?
 5 A. I don't know how it originally came to
 6 Henry Schein.
 7 Q. Since Comfort Dental has been in the
 8 Special Markets umbrella, has the business ever
 9 gone out for bid?
 10 A. It hasn't gone out to bid, but we
 11 did -- we've had pressure from Benco where we
 12 had to, you know, renegotiate our agreement to
 13 keep it.
 14 Q. Do you recall when it was that you had
 15 pressure from Benco that led you to renegotiate
 16 the Comfort Dental agreement?
 17 A. It was about four or five years ago.
 18 Q. Is Comfort Dental on an 18 to 20
 19 percent discount plan with additional discounts
 20 for certain items?
 21 A. Yes.
 22 Q. Have you ever received any complaints
 23 from HSD on Comfort Dental?
 24 A. No. There are salespeople assigned to
 25 this account.

1 CONFIDENTIAL - HAL MULLER
 2 Q. Do you have personal knowledge of
 3 Schein's relationship with the entity Main
 4 Street Dental?
 5 A. I am not sure we're talking about the
 6 same Main Street, so I'm going to have take a
 7 pass on that.
 8 Q. Do you have personal knowledge of
 9 Schein's relationship with any entity called
 10 Main Street Dental?
 11 A. We did, but I believe the Main Street
 12 that I know about was purchased and wouldn't
 13 have been carrying its own name anymore.
 14 Q. When was the Main Street that you're
 15 thinking about purchased?
 16 A. Probably 12 years ago.
 17 Q. Who was Main Street Dental purchased
 18 by?
 19 A. Dental Care Associates. Well, they're
 20 now Dental Care Associates, but they would have
 21 been Northeast Dental Management, which is a
 22 DSO. That's why I'm questioning whether it's
 23 the same thing.
 24 Q. Northeast Dental Management is a DSO?
 25 A. Uh-huh.

1 CONFIDENTIAL - HAL MULLER
 2 Q. Is General Care Associates a DSO?
 3 A. Uh-huh.
 4 MR. McDONALD: You have to say yes.
 5 THE WITNESS: Yes. I'm sorry. Yes
 6 and yes.
 7 BY MS. ROSNER:
 8 Q. Going on to OrthoSynetics, do you have
 9 personal knowledge of Schein's relationship with
 10 OrthoSynetics?
 11 A. Yes, I do.
 12 Q. Does OrthoSynetics have ownership
 13 interests in its affiliates' practices?
 14 A. No.
 15 Q. Does OrthoSynetics have a management
 16 agreement with its affiliate practices?
 17 A. Yes.
 18 Q. And under that management agreement,
 19 does OrthoSynetics provide services for its
 20 affiliates?
 21 A. Yes.
 22 Q. What types of services?
 23 A. Marketing. Insurance contracts.
 24 These are specialty orth -- these are
 25 orthodontic practices, so it would do -- you

1 CONFIDENTIAL - HAL MULLER
 2 know, it offers, not that everybody does it,
 3 payroll services, supplies, equipment. And it's
 4 not just Schein, because there are specialty
 5 products, orthodontic products, that they also
 6 offer. They also offer a practice management
 7 software program.
 8 Q. Does OrthoSynetics do the ordering on
 9 behalf of its affiliated practices?
 10 A. No --
 11 Q. Let me rephrase. Does OrthoSynetics
 12 order supplies for its affiliate practices?
 13 A. No, the practices order on their own,
 14 and it's billed and shipped to the locations.
 15 Q. Does OrthoSynetics have any means of
 16 enforcing compliance with Schein purchases?
 17 MR. McDONALD: Object to the form.
 18 A. The offices can buy from who they
 19 want. There is more than just Schein in their
 20 system.
 21 Q. Are there some products for which
 22 Schein is the exclusive supplier for
 23 OrthoSynetics' affiliates?
 24 A. Yes, but I do believe that Patterson
 25 has some business there as well.

1 CONFIDENTIAL - HAL MULLER
 2 because we had the OCA business I think before I
 3 got there.
 4 Q. At any point since OrthoSynetics was a
 5 Schein customer, has the OrthoSynetics business
 6 gone out to bid?
 7 A. We have been -- yes, we have competed
 8 against our competitors to keep that business.
 9 Q. Which competitors have you competed
 10 against to keep the OrthoSynetics business?
 11 A. I know at least Patterson. It could
 12 have been others as well.
 13 Q. When was it that you last competed
 14 with Patterson for the OrthoSynetics business?
 15 A. About three years ago.
 16 Q. Are --
 17 A. And constantly, sorry. You know, we
 18 get pressure on different product lines every so
 19 often on an account like this.
 20 Q. So at least three years ago you
 21 competed with Patterson. Since that time, have
 22 you competed with Patterson for the
 23 OrthoSynetics account?
 24 A. I would imagine that the -- I can say
 25 that the Patterson people have been in

1 CONFIDENTIAL - HAL MULLER
 2 Q. Is OrthoSynetics an MSO?
 3 A. Yes.
 4 Q. How many members does OrthoSynetics
 5 have?
 6 A. A couple. About 200.
 7 Q. When did Schein first enter into an
 8 agreement with OrthoSynetics?
 9 A. When Orthodontic Centers of America
 10 went under, which is -- which was in the mid
 11 2000s.
 12 Q. And is the relationship with
 13 OrthoSynetics still in existence --
 14 A. Yes, it is.
 15 Q. -- today?
 16 MR. McDONALD: Let her finish her
 17 question.
 18 THE WITNESS: I know. I just yelled
 19 at myself at the same time.
 20 MR. McDONALD: You're doing well, but
 21 you're getting anxious to get out of here.
 22 BY MS. ROSNER:
 23 Q. Did Schein win OrthoSynetics through a
 24 bid process?
 25 A. We had the -- I can't answer that

1 CONFIDENTIAL - HAL MULLER
 2 OrthoSynetics trying to sell them.
 3 Q. Prior to three years ago, did you also
 4 compete with Patterson for the OrthoSynetics
 5 account?
 6 A. I don't remember who we might have
 7 competed against.
 8 Q. Have you ever competed with Benco for
 9 the OrthoSynetics account, to your knowledge?
 10 A. To their corporate office, not that I
 11 know of.
 12 Q. Have you ever received complaints from
 13 HSD regarding Special Market's relationship with
 14 OrthoSynetics?
 15 A. Once in a while, a salesperson would
 16 say something, yes.
 17 Q. I forget if we have covered this, but
 18 is OrthoSynetics on the discount plan that is 18
 19 to 20 percent off everything with some
 20 additional discounts on select items?
 21 A. Yes. The only difference between --
 22 with OrthoSynetics and Comfort Dental is there's
 23 also a fee paid back to the corporate office.
 24 Q. Schein pays a fee back to the
 25 customer's corporate office?

1 CONFIDENTIAL - HAL MULLER
 2 A. Right. More like a buying group, like
 3 a traditional buying group. So that would be
 4 true on Comfort as well as OrthoSynetics.
 5 Q. Schein typically does not pay fees
 6 back to the customer for DSO customers?
 7 A. Right, because they're enjoying it all
 8 in the price.
 9 Q. Schein typically does not pay fees
 10 back to the customer when they are an MSO
 11 customer?
 12 A. When they're a DSO customer.
 13 Q. Is the same true for MSO customers?
 14 A. No, that's where OrthoSynetics and
 15 Comfort are more of an MSO model.
 16 Q. I got it. Thank you.
 17 For Smile Source, do you have personal
 18 knowledge of Schein's relationship with Smile
 19 Source?
 20 A. Its current relationship, no, I do
 21 not.
 22 Q. Do you have personal knowledge of
 23 Smile Source's relationship with Schein from the
 24 first time Smile Source --
 25 A. Yes.

1 CONFIDENTIAL - HAL MULLER
 2 in its affiliate dentists?
 3 A. Correct.
 4 Q. Smile Source is not a DSO?
 5 A. Correct.
 6 Q. Smile Source is not tied to a DSO in
 7 any way?
 8 A. No.
 9 Q. Smile Source is not an MSO?
 10 MR. McDONALD: Object to the form.
 11 A. They now offer more services than they
 12 did in 2008 to '12, so I'm not familiar with the
 13 new -- what their newest offering is. Back in
 14 that time, their only component -- well, I
 15 shouldn't say their only.
 16 They had connections with labs and
 17 marketing and education, so they were a -- an
 18 MSO-like, and like I said, it was the model that
 19 was a percentage of revenue as opposed to a
 20 percentage back, a percentage pay, or I should
 21 say a dollar paid per month. Sorry.
 22 Q. You referenced "back in that time."
 23 You're referring to the time period 2008 through
 24 2012?
 25 A. Correct.

1 CONFIDENTIAL - HAL MULLER
 2 Q. -- contracted with Schein?
 3 A. Sorry. Sorry.
 4 Yes, I did.
 5 Q. I want to step back. So at
 6 OrthoSynetics who is your contact at the
 7 customer?
 8 A. The purchasing agent, whoever that
 9 might be right now. I don't know. I haven't
 10 called on them in a long time, and I do believe
 11 they have changed the people.
 12 Q. Do you recall past contacts at
 13 OrthoSynetics?
 14 A. No. Sorry.
 15 Q. Who was your contact at Smile Source?
 16 A. Trevor.
 17 Q. Trevor Maurer?
 18 A. Yes. Thank you.
 19 Q. Anyone else?
 20 A. There may have been somebody in 2008.
 21 I just don't remember their name.
 22 Q. Smile Source is an entity whose
 23 members are private dental practices?
 24 A. Yes.
 25 Q. Smile Source does not have ownership

1 CONFIDENTIAL - HAL MULLER
 2 Q. How many members did Smile Source have
 3 when they were under the Special Markets
 4 umbrella?
 5 A. Around 50.
 6 Q. Did that number ever grow?
 7 A. It grew every year. Sorry.
 8 Q. How many members does Smile Source
 9 have today, to the extent you know?
 10 A. I do not know.
 11 Q. What discount plan was Smile Source on
 12 from the 2008 to 2012 time period?
 13 A. It was either 18 to 20 -- 18 or 20
 14 percent.
 15 Q. Are you familiar with the discount
 16 plan that Smile Source is on today?
 17 A. No, I don't believe they're still a
 18 customer of ours today.
 19 Q. Smile Source was a customer of Schein
 20 at a later point in time, but that was not in
 21 Special Markets?
 22 A. Correct.
 23 Q. Texas Association of Community Health
 24 Centers, is that a CHC buying group?
 25 A. Yes, it is.

1 CONFIDENTIAL - HAL MULLER
 2 Q. The members of Texas Association of
 3 Community Health Centers are not private dental
 4 practices; is that right?
 5 A. Correct.
 6 Q. Washington Association of Community
 7 and Migrant Health Centers, is that a CHC buying
 8 group?
 9 A. Yes. The only -- yes.
 10 Q. The members of Washington Association
 11 of Community and Migrant Health Centers are not
 12 private dental practices; is that right?
 13 A. For the most part. Okay? Again, this
 14 is very, very rural. So they do get some
 15 dentists in private practice to help out with
 16 migrant workers.
 17 Q. Are you familiar with contractual
 18 clauses for CHC buying groups?
 19 A. I am.
 20 Q. Does Schein have a contractual clause
 21 with CHC buying groups that requires the
 22 purchase of a certain level of volume?
 23 A. Of their members?
 24 Q. Correct.
 25 A. No.

1 CONFIDENTIAL - HAL MULLER
 2 Q. Can CHC buying groups force their
 3 members to buy Schein products?
 4 A. No.
 5 Q. I want to return to Dental Gator,
 6 which we skipped over earlier.
 7 We talked a lot about Dental Gator
 8 today in your personal capacity, but I just want
 9 to make sure I understand the corporate
 10 representative answers for Dental Gator.
 11 Schein does not have a separate
 12 contract with Dental Gator; is that correct?
 13 A. Schein did enter into a separate
 14 agreement or clauses on Dental Gator after the
 15 formation of Dental Gator.
 16 Q. The separate clauses on Dental Gator
 17 are with the entity MB2; is that right?
 18 A. Correct.
 19 Q. So Schein has a contract with MB2?
 20 A. Correct.
 21 Q. A part of Schein's contract with MB2
 22 addresses Dental Gator?
 23 A. Correct.
 24 Q. When was the agreement that references
 25 Dental Gator signed?

1 CONFIDENTIAL - HAL MULLER
 2 A. I don't have the date of that. It was
 3 probably around --
 4 MR. McDONALD: Well, don't guess.
 5 THE WITNESS: Okay. I can't guess.
 6 MR. McDONALD: We produced it to them.
 7 They have it.
 8 BY MS. ROSNER:
 9 Q. Schein did not separately bid for
 10 Dental Gator's business; is that right?
 11 A. Correct.
 12 Q. Schein did not seek out the Dental
 13 Gator account, that's correct?
 14 A. That's correct.
 15 Q. Dental Gator became a Schein customer
 16 without Schein's knowledge initially?
 17 A. Correct.
 18 Q. The MB2 contract initially included a
 19 "no buying group" clause; is that right?
 20 A. I am not sure of that.
 21 Q. Is there someone who would be familiar
 22 with whether or not the MB2 contract included a
 23 "no buying group" clause?
 24 A. It would be in their contract, but I
 25 would be as knowledgeable as anybody else.

1 CONFIDENTIAL - HAL MULLER
 2 Q. How many members does Dental Gator
 3 have?
 4 A. I'm not sure they have any anymore.
 5 Q. At its height, how many members did
 6 Dental Gator have?
 7 A. Around 20, 25.
 8 Q. Who was your contact at Dental Gator?
 9 A. The people at MB2.
 10 Q. Is Dental Gator a customer of Special
 11 Markets? Was Dental Gator ever transferred to
 12 HSD?
 13 A. No.
 14 Q. Can you describe the different pricing
 15 plans that Dental Gator took Advantage of?
 16 A. This would be a guess, so I should --
 17 I should not tell you.
 18 MR. McDONALD: Don't guess.
 19 THE WITNESS: Okay.
 20 MR. McDONALD: I mean, there are
 21 documents.
 22 THE WITNESS: It is in the documents
 23 that I believe you have. It was a different
 24 percentage than -- than MB2's offices had.
 25 BY MS. ROSNER:

1 CONFIDENTIAL - HAL MULLER
 2 Q. Initially, Dental Gator took Advantage
 3 of the MB2 prices?
 4 A. Correct.
 5 Q. Are the MB2 prices the same 18 to 20
 6 percent range discount with additional discounts
 7 on select items?
 8 A. Correct.
 9 Q. And then Dental Gator's pricing
 10 changed at some point?
 11 A. Correct.
 12 Q. And the discount level offered to
 13 Dental Gator was lower than the discount level
 14 offered to MB2?
 15 A. Right, depending on which way you say
 16 it. The number would be lower, right.
 17 Q. And the current Dental Gator pricing,
 18 or the last in time Dental Gator pricing, is
 19 represented in the contracts, but you just don't
 20 recall that number at this time?
 21 A. Correct.
 22 Q. Are there any other buying groups that
 23 we haven't mentioned that you recalled since we
 24 started this discussion that Schein did business
 25 with --

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: I'll object to the
 3 form. The documents speaks for themselves.
 4 I mean, he's not here to tell you the dates
 5 of every contract. We produced them to you
 6 already, so you have that information.
 7 If you know, tell her; but if you
 8 don't recall, then tell her you don't
 9 recall.
 10 BY MS. ROSNER:
 11 Q. Are you aware of any buying groups
 12 that Special Markets opened in 2013?
 13 A. No, I'm not.
 14 Q. Are you aware of any buying groups
 15 that Special Markets opened in 2014?
 16 A. No. I'm not saying that there aren't;
 17 I just don't know.
 18 Q. You're not aware?
 19 A. Correct.
 20 Q. Are you aware of any buying groups
 21 that Special Markets opened in 2015?
 22 A. No, those would probably have been
 23 opened in market from that period forward.
 24 Q. Fair enough.
 25 MS. ROSNER: We can take a break.

1 CONFIDENTIAL - HAL MULLER
 2 A. The only --
 3 Q. Excuse me. That Special Markets did
 4 business with?
 5 A. The only other one which also falls
 6 into the community health center/institutional
 7 type is Yankee Alliance outside of -- in
 8 Massachusetts.
 9 Q. Does Yankee Alliance have any members
 10 that are private dental practices?
 11 A. They had a few. I'm not sure if they
 12 still do. And I don't know how in Yankee
 13 Alliance they wound up with having some.
 14 So, again, I don't -- I don't know if
 15 it some point some of the members of some of
 16 these centers were allowed to have the discount
 17 for their private practice.
 18 Q. Is Yankee Alliance another one of
 19 those groups that serves a remote population?
 20 A. Yes.
 21 Q. What new buying groups did Special
 22 Markets open in 2011?
 23 A. I have no idea.
 24 Q. What new buying groups did Special
 25 Markets open in 2012?

1 CONFIDENTIAL - HAL MULLER
 2 MR. McDONALD: Yes.
 3 MS. ROSNER: Go off the record.
 4 THE VIDEOGRAPHER: The time is 3:24
 5 p.m. We're off the record.
 6 (Recess.)
 7 THE VIDEOGRAPHER: The time is 3:33
 8 p.m. We're on the record.
 9 BY MS. ROSNER:
 10 Q. Mr. Foley -- excuse me. Mr. Muller, I
 11 apologize, I just want to clarify a couple of
 12 things that we talked about earlier.
 13 Starting with Advantage Dental, you
 14 mentioned that Advantage Dental had two parts, a
 15 DSO part and a buying group part.
 16 Did I understand you correctly that
 17 the DSO fell within Special Markets and the
 18 buying group fell within HSD?
 19 A. No, it would have all been one.
 20 And just to clarify, this is something
 21 that we -- that just because we had inherited it
 22 at some point we thought was a DSO. We then
 23 heard it was a buying group, but it didn't
 24 change our relationship with them.
 25 Q. So it's your understanding that

1 CONFIDENTIAL - HAL MULLER
 2 Advantage Dental is just a buying group; there
 3 is no DSO component?
 4 A. Correct.
 5 Q. But at the time you did business with
 6 Advantage initially, you had thought that it was
 7 a DSO?
 8 A. Right. It was pretty controlled by a
 9 salesperson when we picked it up.
 10 Q. When did your understanding that
 11 Advantage became -- was a buying group and not a
 12 DSO, when did that understanding change?
 13 A. About in 2013.
 14 Q. How did you come to realize that
 15 Advantage was not a DSO?
 16 A. In the change of salespeople. So as a
 17 new sales -- as a new Special Markets person
 18 picked up that customer, they realized what it
 19 was, and it didn't mean anything -- it didn't
 20 change anything with us.
 21 Q. How did the Special Markets
 22 salesperson realize that Advantage Dental was
 23 not a DSO?
 24 A. When they co-called with the field
 25 salesperson from Henry Schein Dental.

1 CONFIDENTIAL - HAL MULLER
 2 Special Markets came to the realization or
 3 understanding that IDA was not a DSO but was a
 4 buying group.
 5 A. Correct. Similar to the Advantage
 6 Dental.
 7 Q. When did that occur?
 8 A. Probably about ten years ago.
 9 Q. Special Markets realized ten years ago
 10 that IDA was not a DSO?
 11 A. Correct.
 12 Q. How did you come to that
 13 understanding?
 14 A. Again, when Special Markets -- when
 15 the account got large enough that it moved into
 16 Special Markets.
 17 Q. So, previously, the account was with
 18 HSD?
 19 A. Correct.
 20 Q. And it was the understanding that
 21 while the account was with HSD it was a DSO?
 22 A. No, we never asked. I mean, I think
 23 that HSD knew Advantage Dental and IDA were
 24 buying groups run locally by the sales teams. I
 25 don't think they ever raised the flag or

1 CONFIDENTIAL - HAL MULLER
 2 Q. There was some realization that there
 3 was no ownership by Advantage Dental?
 4 A. Correct.
 5 Q. You mentioned Dental Partners of
 6 Georgia today. Does Special Markets have an
 7 agreement to supply merchandise to Dental
 8 Partners of Georgia, or just a service
 9 agreement?
 10 A. Oh, no, there's merchandise equipment
 11 and -- our full portfolio.
 12 Q. Is there a separate agreement on
 13 service for Dental Partners of Georgia?
 14 A. You mean technical service for fixing
 15 their equipment?
 16 Q. Correct?
 17 A. In almost all of our customers there's
 18 a separate agreement.
 19 Q. So there are two agreements with
 20 Dental Partners of Georgia, one on the service
 21 side and one for merchandise?
 22 A. Right. They're pretty much pulled
 23 together nowadays, but in the past, they have
 24 always been separate.
 25 Q. We talked earlier about IDA and how

1 CONFIDENTIAL - HAL MULLER
 2 anything like that.
 3 Q. I understand you to say that at some
 4 point Special Markets thought that IDA was a
 5 DSO?
 6 A. Correct; just because it hit our
 7 numbers in volume.
 8 Q. And how did Special Markets come to
 9 realize that IDA was not a DSO?
 10 A. When we went and visited them.
 11 Q. And you had discussions with someone
 12 from IDA?
 13 A. Correct.
 14 Q. And you asked about their ownership
 15 interest?
 16 A. Correct.
 17 Q. You mentioned Main Street Dental and
 18 Comfort Dental as having long-term relationships
 19 at Schein.
 20 When did the Main Street Dental
 21 relationship first start, to the extent you
 22 know?
 23 A. Probably about 2005-ish.
 24 Q. When did the Comfort Dental
 25 relationship start?

1 CONFIDENTIAL - HAL MULLER
 2 A. I'm only aware of when it came in to
 3 Special Markets, which was within the last eight
 4 years.
 5 Q. You mentioned that Yankee has some
 6 private practice dentists that may be part of
 7 its CHC buying group?
 8 A. Correct. It's minimal.
 9 Q. Are private practice dentists allowed
 10 to access the CHC pricing that Special Markets
 11 provides?
 12 A. Not unless they're a member of that
 13 organization.
 14 Q. Are there clauses in CHC buying group
 15 contracts with Schein that prohibit the CHC
 16 buying group from offering Special Markets
 17 pricing to private practice dentists?
 18 A. Yes.
 19 MS. ROSNER: No further questions.
 20 MR. McDONALD: I need to go off the
 21 record and talk to you for just one minute.
 22 MS. ROSNER: Okay. Go off the record.
 23 THE VIDEOGRAPHER: The time is 3:39
 24 p.m. We're off the record.
 25 (Recess.)

1 CONFIDENTIAL - HAL MULLER
 2 deposition. Thank you so much for coming in
 3 today, Mr. Muller. I hope you make your
 4 flight home, and have a nice anniversary
 5 dinner.
 6 THE WITNESS: Okay. We will tomorrow.
 7 THE VIDEOGRAPHER: This concludes
 8 today's deposition. The time is 3:42 p.m.
 9 We're off the record.
 10 (Whereupon, the deposition concluded
 11 at 3:432 p.m.)

1 CONFIDENTIAL - HAL MULLER
 2 THE VIDEOGRAPHER: The time is 3:41
 3 p.m. We're on the record.
 4 EXAMINATION BY
 5 MR. McDONALD:
 6 Q. Mr. Muller, you identified a number of
 7 entities that are buying groups under Special
 8 Markets during the course of your corporate
 9 representative deposition. Do you recall?
 10 A. Correct.
 11 Q. To the extent there were -- there was
 12 equipment sold to these buying groups, was that
 13 under Special Markets?
 14 A. No; equipment is sold through Henry
 15 Schein Dental.
 16 Q. And was equipment sold to or was there
 17 an equipment agreement with these buying groups?
 18 A. Most buying groups have an equipment
 19 and service component of our agreements.
 20 Q. And that would have been under --
 21 A. And that would have been under Henry
 22 Schein Dental.
 23 MR. McDONALD: That's all I have.
 24 MS. ROSNER: Nothing further.
 25 With that, that will conclude your

 7 I, Kathy S. Klepfer, a Registered
 8 Merit Reporter and Notary Public within and
 9 for the State of New York, do hereby
 10 certify:
 11 That HAL MULLER, the witness whose
 12 deposition is herein before set forth, was
 13 duly sworn by me and that such deposition is
 14 a true record of the testimony given by such
 15 witness.
 16 I further certify that I am not
 17 related to any of the parties to this action
 18 by blood or marriage and that I am in no way
 19 interested in the outcome of this matter.
 20 In witness whereof, I have hereunto
 21 set my hand this 3rd day of July, 2018.

 2 JOHN C. KOIS, DMD, MSD,
 3 called as a witness, having first been sworn by
 4 the Certified Shorthand Reporter, was examined
 5 and testified as follows:
 6 -o0o-
 7 MS. BALBACH: Good morning, Mr.
 8 Kois. As we get started I would like to
 9 have the attorneys introduce themselves.
 10 I'm Jeanine Balbach on behalf of
 11 Complainant Counsel from the Federal Trade
 12 Commission. And with me is Danica Noble
 13 also from Complaint Counsel, the Federal
 14 Trade Commission.
 15 MR. GEORGE: I'm Andrew George. I'm
 16 from a law firm called Baker Botts in
 17 Washington, D.C., and we represent
 18 Patterson.
 19 MR. RACOWSKI: Ken Racowski from
 20 Buchanan, Ingersoll & Rooney representing
 21 Respondent, Benco Dental Supply Company.
 22 MR. RYAN-LANG: I'm Nick Ryan-Lang
 23 here for the witness, and I would just like
 24 to say for the record that we regard the
 25 testimony Dr. Kois is about to give as

1 John C. Kois, DMD, MSD
2 confidential pursuant to the protective
3 order.

4 MS. BALBACH: And on the phone we
5 have?

6 MR. FONTECILLA: Good morning
7 everyone. This is Adrian Fontecilla with
8 Proskauer Rose. I represent Henry Schein.
9 I'm calling from Washington D.C., here
10 today.

11 MS. BALBACH: Also in the room with
12 us we have John Kois, Jr., and are all okay
13 with the presence of Mr. John Kois, Jr.,
14 for this deposition of his father.

15 EXAMINATION BY:

16 MS. BALBACH:

17 Q. Could you state your name for the
18 record?

19 A. John C. Kois.

20 Q. Have you ever been deposed before?

21 A. Yes.

22 Q. In what circumstances?

23 A. Malpractice cases.

24 Q. When was your most recent
25 deposition?

1 John C. Kois, DMD, MSD

2 A. I believe two years ago, 2016.

3 Q. So you probably remember some of the
4 ground rules, but I'll go over them again for
5 today. If you answer a question, I'll assume
6 you understood it.

7 A. By the way, it wasn't a malpractice
8 case against me. I was testifying in a
9 malpractice case.

10 Q. Were you the expert witness?

11 A. Yes, expert witness.

12 Q. Back to the ground rules. If you
13 answer a question, I'll assume you understood
14 that; is that okay?

15 A. Yes.

16 Q. And if you don't understand a
17 question, please let me know and I'll be happy
18 to rephrase it. Please let me finish asking a
19 question before you begin to answer, and
20 likewise, I'll do my best to let you finish an
21 answer before I start the next question; is
22 that okay?

23 A. Yes.

24 Q. You must answer audibly. We have a
25 court reporter here today and she can't take

1 John C. Kois, DMD, MSD
2 down nods or shrugs, is that okay?

3 A. Okay.

4 Q. If you need a break at any point,
5 please let me know and I'll be happy to break
6 at the end of my line of questioning, but if
7 there's a question pending I'll hope you can
8 answer it before we take a break. Is that
9 okay?

10 A. Yes.

11 Q. From time to time today attorneys
12 may make objections to a question that's asked.
13 Typically, unless your attorney instructs you
14 not to answer, you will continue to answer the
15 question. Just try to not talk over the
16 objections, so when you get a question -- when
17 I give a question you might pause a little bit,
18 make sure they get their objections in if they
19 have them and then you can answer. Do you
20 understand that?

21 A. Yes.

22 Q. Is there any reason today that --
23 anything that would interfere with your ability
24 to testify under oath today?

25 A. No.

1 John C. Kois, DMD, MSD

2 Q. Dr. Kois, are you currently a
3 practicing dentist?

4 A. I am, yes.

5 Q. When did you start practicing
6 dentistry?

7 A. June of 1977.

8 Q. Did you start in your own practice
9 or were you employed by another practice?

10 A. No, I was in the Air Force for nine
11 years as a dentist.

12 Q. What year did you join the
13 Air Force?

14 A. I joined the Air Force actually as a
15 scholarship program in 1976, and then formally
16 graduated dental school in 1977.

17 Q. How long did you practice dentistry
18 then for the Air Force?

19 A. From 1977, then eight more years.

20 Q. Was that your primary assignment
21 with the Air Force, dentistry?

22 A. Yes, it was.

23 Q. What did you do after the Air Force?

24 A. I started my private practice and I
25 had a half-time teaching position at the

<p style="text-align: right;">Page 10</p> <p>1 John C. Kois, DMD, MSD 2 University of Washington. 3 Q. What year was that that you started 4 your private practice? 5 A. 1985. 6 Q. Were there any dentists in practice 7 with you or was it a solo practice? 8 A. Solo practice. 9 Q. Where was your practice located in? 10 A. In Fife, Washington. 11 Q. You mentioned you had a half time 12 teaching position at University of Washington. 13 What types of courses did you teach at 14 University of Washington? 15 A. I'm a duly trained specialist in 16 both periodontics and prosthodontics, and I 17 taught in the specialty program for 18 prosthodontics at the University of Washington, 19 and I still maintain assistant professor at the 20 University of Washington. 21 Q. Did you teach courses at the 22 University of Washington in this most recent 23 year? 24 A. No. 25 Q. How do you interact -- you mentioned</p>	<p style="text-align: right;">Page 11</p> <p>1 John C. Kois, DMD, MSD 2 you're an assistant professor with the 3 University of Washington. When was the last 4 time you taught a course? 5 A. I don't currently teach at the 6 University of Washington. Graduate students 7 and current students come to the teaching 8 center and I interact with them there. 9 Q. Are those students doing internships 10 with your son or -- 11 A. These are students attending the 12 University of Washington as graduate students, 13 and they come to the teaching center for 14 questions or short answers to cases. 15 Q. Do you continue to practice 16 dentistry in Fife, Washington? 17 A. I do. 18 Q. Today? 19 A. Yes. 20 Q. How many offices do you have where 21 you currently practice dentistry? 22 A. Two offices. 23 Q. I assume one is located in Fife? 24 A. Yes, it is. 25 Q. And where is the other office?</p>
<p style="text-align: right;">Page 12</p> <p>1 John C. Kois, DMD, MSD 2 A. Here in Seattle. 3 Q. On average, how many days a week do 4 you practice dentistry? 5 A. I practice 65 days a year. 6 Q. Are there other dentists who work 7 with you in the Fife office? 8 A. Yes, there are. 9 Q. How many? 10 A. One. They don't work with me 11 personally, they're on premises in a separate 12 practice. Or he doesn't, I should say. 13 Q. Are there other dentists in the 14 Seattle office? 15 A. Yes. 16 Q. How many dentists are in the Seattle 17 office besides yourself? 18 A. Three. 19 Q. Do those three also have separate 20 practices? 21 A. Yes. 22 Q. Are you currently also the director 23 of the Kois Center? 24 A. Yes. 25 Q. Can you tell me briefly what is the</p>	<p style="text-align: right;">Page 13</p> <p>1 John C. Kois, DMD, MSD 2 Kois Center? 3 A. The Kois Center is a teaching center 4 based program for practicing dentists. It is 5 -- the short version would be a graduate 6 program for practicing dentists. You have to 7 already be a dentist before you attend the Kois 8 Center, and we work with dentists from all over 9 the world. 10 Q. How long have you been the director 11 of the Kois Center? 12 A. Since its inception, which was 1994. 13 Q. Were you the sole founder of the 14 Kois Center? 15 A. Yes, I was. 16 Q. Why did you establish the Kois 17 Center? 18 A. I felt there was a need to help 19 practicing dentists get quality continuing 20 education with a curriculum based system, not 21 fragmented continuing education courses. 22 Q. You mentioned this curriculum based 23 system. Does that mean there is like a set 24 number of classes in this full curriculum? 25 A. Yes, it does. And we are approved</p>

Page 14

1 John C. Kois, DMD, MSD
 2 by the American Dental Association and the AGD,
 3 it's the Academy of General Dentistry.
 4 Q. How many courses are in the full
 5 curriculum of the Kois Center?
 6 A. There are nine different courses.
 7 Q. I assume it varies, but each of
 8 these nine courses is there a set number of
 9 days that each course lasts?
 10 A. Yes, there are.
 11 Q. On average, how many days does the
 12 course last?
 13 A. They are either in a three day
 14 format or a five day format where we combine
 15 certain courses to maximize the efficiency of
 16 people traveling from long distances.
 17 Q. You mentioned you have students from
 18 all over the world. Is there a primary
 19 location where your students come from?
 20 A. The dominant amount of students come
 21 from Canada. The second highest outside number
 22 of dentists come from Europe.
 23 Q. So a smaller group of students come
 24 from the United States then from Canada or
 25 Europe?

Page 15

1 John C. Kois, DMD, MSD
 2 A. No, the most students are still in
 3 the United States trained students, but -- I'm
 4 sorry, I may have misunderstood the question.
 5 The students coming from outside the United
 6 States most are from Canada, second most are
 7 from Europe.
 8 Q. If you had to estimate, what
 9 percentage of the students would you say are
 10 from the United States?
 11 A. I would say about two thirds.
 12 Q. And from the U.S. is there like a
 13 region, like the west, where most of your
 14 students would come from?
 15 A. I don't have exact data on that.
 16 We're actually trying to compile that at this
 17 time. I can tell you that we don't advertise
 18 our courses so they typically come from areas
 19 of dentists where they have word of mouth
 20 communication options, that's how the center
 21 grew historically.
 22 Q. Was your goal in establishing the
 23 center of this education program to help dental
 24 patients?
 25 A. Yes.

Page 16

1 John C. Kois, DMD, MSD
 2 Q. And how would you help dental
 3 patients through these courses?
 4 A. By improving the quality of dental
 5 health care.
 6 Q. Once a dentist takes one of the nine
 7 courses would they repeat a course ever or?
 8 A. We have had some dentists repeat a
 9 course, so they come back as an audit
 10 participant. Most of the dentists, once they
 11 take several courses they complete our entire
 12 series.
 13 Q. Do you have an estimate for the
 14 percentage of dentists that have taken a course
 15 that have completed the entire series?
 16 A. I wish I could answer that with
 17 accurate information because some dentists they
 18 have families and children and so it takes a
 19 long time for them to complete courses. Some
 20 dentists have taken nine or ten years to
 21 complete the series, and some dentists have
 22 completed the series within three months, but I
 23 would say the majority of dentists that take
 24 courses at the center complete the series.
 25 Q. Do you know how many dentists over

Page 17

1 John C. Kois, DMD, MSD
 2 the years, since 1949, have completed the
 3 series?
 4 A. I don't have an exact number, but I
 5 believe it's over 600 graduates.
 6 Q. Do you know how many dentists have
 7 taken at least one of the courses?
 8 A. It's in the thousands. Probably a
 9 better answer for my son, who is the CEO of the
 10 company, he has access to that kind of data.
 11 Q. I want to turn to your private
 12 practice right now. You mentioned that you're
 13 practicing 65 days a year now; is that correct?
 14 A. That's correct.
 15 Q. When did you -- I assume when you
 16 started in 1985 you were practicing five days a
 17 week or full time?
 18 A. That's correct.
 19 Q. When did you cut back on your
 20 practice?
 21 A. I first started continuing education
 22 lecturing all over the world, going from
 23 several times a year to up to 50 times a year
 24 around the world until we started to
 25 consolidate the educational process to the

Page 18	Page 19
<p>1 John C. Kois, DMD, MSD 2 center which started in 1994. At that time I 3 still practiced mostly full-time, and we had 4 only 10 or 12 courses per year as the demand 5 started to grow. 6 I would say the practice didn't move 7 to the 65 days a year until about 2003 when the 8 new teaching center opened here in Seattle. 9 But, in essence, my practice time has dwindled 10 and my teaching time has increased. 11 Q. I assume you must use dental 12 supplies in your private dental practice; is 13 that correct? 14 A. I do. 15 Q. Who is your distributor, current 16 distributor for dental supplies? 17 A. Burkhart. 18 Q. And how long have you used Burkhart 19 as your distributor? 20 A. Since the beginning in 1985. 21 Q. Have you ever bought supplies from 22 Henry Schein? 23 A. Yes. 24 Q. What kinds of supplies have you 25 bought from Henry Schein?</p>	<p>1 John C. Kois, DMD, MSD 2 A. I don't recall specific items. Over 3 the years I've purchased from all dental supply 4 companies. 5 Q. So you've purchased dental supplies 6 from Benco Distribution? 7 A. Yes. 8 Q. Have you purchased dental supplies 9 from Patterson Distribution? 10 A. Yes. 11 Q. What about equipment, have you 12 purchased equipment from Burkhart? 13 A. Yes. 14 Q. Have you purchased equipment from 15 Schein? 16 A. I don't recall any specific 17 equipment. Yeah, I don't recall. 18 Q. What about equipment from Benco? 19 A. I don't recall. I haven't purchased 20 equipment for building the practice in quite a 21 while. 22 Q. And purchased -- have you purchased 23 equipment from Patterson, that you recall? 24 A. No, I don't recall. 25 Q. Would you say you've purchased the</p>
Page 20	Page 21
<p>1 John C. Kois, DMD, MSD 2 majority of your supplies from Burkhart over 3 the years? 4 A. Yes. 5 Q. Could you characterize at all when 6 you've had to purchase from Schein, Benco or 7 Patterson? 8 A. When Burkhart would not carry a 9 certain item that I could -- it was a specific 10 item that I could get only through a different 11 supply company. 12 Q. And compared to the volume of 13 supplies you've purchased from Burkhart over 14 the years, what percentage of supplies do you 15 think you've had to turn to Schein, Benco or 16 Patterson to purchase? 17 A. Less than a few percent, ever. 18 Q. Does Burkhart offer full 19 distribution to your office? 20 A. Yes. 21 Q. I assume to both your office in Fife 22 and Seattle? 23 A. Yes. 24 Q. And what is a full service 25 distributor?</p>	<p>1 John C. Kois, DMD, MSD 2 A. They not only are helping me with 3 disposable inventory supplies, they also 4 service all of my equipment. 5 Q. When you say they help you with your 6 inventory of disposable supplies, what 7 specifically does a full service distributor -- 8 what does Burkhart do for you to help with 9 inventory? 10 A. I purchase the majority of the 11 supplies I use for treating patients through 12 Burkhart and a small percentage through direct 13 companies. 14 Q. Does a Burkhart representative come 15 to your office? 16 A. Yes. 17 Q. How often does a Burkhart 18 representative come to your office? 19 A. Every two weeks. 20 Q. When that Burkhart representative is 21 in your office do they inventory your 22 disposable supplies? 23 A. No. 24 Q. Does the Burkhart rep interact with 25 your office to determine that you -- which</p>

Page 22

1 John C. Kois, DMD, MSD
 2 disposable supplies you need to restock on?
 3 A. Yes. Typically a dental assistant
 4 might give the representative a few of the
 5 items that are needed because I don't practice
 6 that much the needs for many of the items are
 7 limited.
 8 Q. Does Burkhart have a distribution
 9 center in your offices in Fife and Seattle?
 10 A. I believe they do.
 11 Q. Do you know where the distribution
 12 center is?
 13 A. Not exactly.
 14 Q. Is the distribution center in the
 15 state of Washington?
 16 A. Yes.
 17 Q. Is the distribution center in the
 18 metropolitan area?
 19 A. I think it's not far from my
 20 practice.
 21 Q. Does the sales rep from Burkhart
 22 deliver supplies to your office?
 23 A. He has.
 24 Q. How fast do you get the supplies
 25 once the service rep has visited your office?

Page 24

1 John C. Kois, DMD, MSD
 2 company?
 3 A. I have not done that because of the
 4 time element. I don't have time or the
 5 employee resources to delegate that
 6 responsibility to a mail order system.
 7 Q. Does that relate to how you said the
 8 rep that comes to your office helps you with
 9 inventory?
 10 A. Yes. He can inform me of new
 11 products and I essentially know what I want and
 12 that's the most seamless way for me to
 13 replenish my inventory.
 14 Q. Do you also use your Benco rep to
 15 help you get your equipment services?
 16 MR. RACOWSKI: Objection to form. I
 17 think you misspoke.
 18 THE WITNESS: I do not have a Benco
 19 rep.
 20 BY MS. BALBACH:
 21 Q. Do you also use your Burkhart rep to
 22 help you with equipment servicing?
 23 A. I do use the rep to help notify when
 24 something is broken to help speed the service.
 25 Q. We've talked about inventory

Page 23

1 John C. Kois, DMD, MSD
 2 A. I would say within a day or two.
 3 Q. Have you ever bought supplies for
 4 your offices from a mail order company like
 5 Darby?
 6 A. I would say maybe historically, but
 7 I can't recall the last time that was ever
 8 done.
 9 Q. Have you -- has your office ever
 10 bought supplies from Amazon or other
 11 Internet-based retailers?
 12 A. I buy household items from Amazon,
 13 and recently a few disposable items from Amazon
 14 have been purchased mostly to try out their
 15 quality.
 16 Q. Other than these few recent
 17 purchases from Amazon -- or why haven't you
 18 bought from an Internet retailer?
 19 MR. FONTECILLA: Objection.
 20 THE WITNESS: I have purchased
 21 disposable items from Amazon because I
 22 thought the pricing was less expensive.
 23 BY MS. BALBACH:
 24 Q. Why haven't you purchased more
 25 supplies from a mail order distribution

Page 25

1 John C. Kois, DMD, MSD
 2 management, delivery that your Burkhart rep may
 3 facilitate, equipment servicing that your
 4 Burkhart rep may help facilitate. Is there
 5 anything else that you rely on your full
 6 service Burkhart representative for?
 7 A. No. I rely on the full service rep
 8 very little. I rely on my staff much more.
 9 Q. But without the full service rep
 10 would your staff have to do more work?
 11 MR. FONTECILLA: Objection.
 12 THE WITNESS: It would be just a
 13 phone call.
 14 BY MS. BALBACH:
 15 Q. I don't understand.
 16 A. In other words, having a direct
 17 person to place the order with they'd have to
 18 use a secondary device, telephone.
 19 Q. To call the distribution company?
 20 A. Yes, yes.
 21 Q. Why have you stayed with Burkhart as
 22 your distributor since 1985?
 23 A. There are a number of reasons.
 24 Number one, I've always liked the
 25 representatives that they've provided for me.

Page 26

1 John C. Kois, DMD, MSD
 2 I have personally treated some of the people
 3 that work in the company, the service has been
 4 excellent throughout my whole career, so I feel
 5 a certain loyalty to the company.
 6 Q. You mentioned that you had recently
 7 purchased a few products from Amazon to try out
 8 the quality. How was the quality?
 9 A. For the items I purchased, which
 10 were micro brushes, I couldn't determine any
 11 compromises in the quality; they were
 12 disposable items.
 13 Q. Are you planning to make a switch to
 14 Amazon to provide some of your supplies?
 15 A. No.
 16 Q. And why not?
 17 A. At the moment, it's not as
 18 convenient.
 19 Q. Why is it not as convenient?
 20 A. Because I have to go on Amazon.
 21 Q. I want to turn to the Kois Buying
 22 Group. How did you come about deciding to set
 23 up a buying group?
 24 A. The concept of the buying group were
 25 based on a few key principles. At the Kois

Page 27

1 John C. Kois, DMD, MSD
 2 Center we also have a research arm to help
 3 determine what might be the best product
 4 choices to use, and once I determined what
 5 would be the best choices and build protocols
 6 for how the product could be used we tried to
 7 go through different companies, the
 8 manufacturing companies, to see if there were
 9 ways to distribute the product throughout the
 10 group, to use the buying power of a collective
 11 group of people, because I deal with most of
 12 the dentists who are solo practitioners or very
 13 small group practices of one, two, maybe three
 14 dentists.
 15 So their way to get discounted
 16 supplies would be typically at dental meetings,
 17 but they'd have to buy too much inventory to
 18 really be able to get the price reduction that
 19 might be available to large group practices, so
 20 the beginning was mostly to have individual
 21 practices be more competitive with large group
 22 practices in buying power because they didn't
 23 have the inventory purchasing power like
 24 Costco. It was the Costco model to use for
 25 dental practice.

Page 28

1 John C. Kois, DMD, MSD
 2 MR. RACOWSKI: Apologies, counsel.
 3 This might be a good time to take a break to
 4 get the real time up and working.
 5 MS. BALBACH: Yes, let's take a
 6 break.
 7 (Break from 9:14 to 9:28 a.m.)
 8 BY MS. BALBACH:
 9 Q. We're back on the record. Dr. Kois,
 10 before I follow up on your last question, I
 11 asked you about the buying group you set up.
 12 Dr. Kois, I understand you wanted to
 13 update one of your answers? I had asked you
 14 how many graduates there were of the full
 15 curriculum at the Kois Center. How many
 16 graduates are there?
 17 A. Yes. I checked the data, it's 800.
 18 Q. Thank you. And I had asked you
 19 about your decision to set up the Kois Buying
 20 Group. You mentioned that you were interested
 21 in helping solo, small dental offices because
 22 they might have to purchase too much inventory.
 23 What would be the problem for a small practice
 24 having to purchase too much inventory, what did
 25 you mean by that?

Page 29

1 John C. Kois, DMD, MSD
 2 A. Well, there's several reasons for
 3 that particular answer. Number one, in a small
 4 practice, if they have to purchase a lot of
 5 inventory it will take a much longer time
 6 before they can run through the inventory and
 7 utilize it for their patients depending on the
 8 need for the practice.
 9 So I wanted to make sure that they
 10 didn't have to buy too much that would sit on
 11 the shelf unused before they get a chance to
 12 use it. Many of the products that we use also
 13 have expiration dates and they're time
 14 sensitive, so practitioners have to be careful
 15 how much inventory they create on the shelf
 16 that might become expired by the time they get
 17 to utilize it for their patients.
 18 The other reason was I wanted to try
 19 to ensure that it's not only the price that was
 20 important, it was also the convenience. So
 21 that we had many of the offices that they would
 22 maybe be able to purchase things because they
 23 would have some idea that these were quality
 24 items.
 25 Q. And you also mentioned you wanted to

Page 30

1 John C. Kois, DMD, MSD
 2 help the solo and small practices compete with
 3 large practices. What did you mean by that?
 4 A. Being able to compete based on how
 5 much time it would take to do all the research
 6 on many of the products, which I could expedite
 7 for them, and trying to ensure that at least
 8 they have competitive prices.
 9 Q. Do large offices get a better price
 10 or a price break?
 11 A. I've heard that from dentists that
 12 come to the center that belong to large groups.
 13 MR. FONTECILLA: I don't know if you
 14 heard my objection to that question.
 15 BY MS. BALBACH:
 16 Q. Did you belong to a buyers group
 17 before you set up KBG?
 18 A. No.
 19 Q. I'm sorry, I may have said -- strike
 20 that.
 21 Where did you get the idea to set up
 22 a buyers group?
 23 A. From a company called ProCare.
 24 Q. And who is ProCare?
 25 A. It's a Canadian company. I don't

Page 32

1 John C. Kois, DMD, MSD
 2 Qadeer?
 3 A. No, other than just trying to work
 4 through companies and helping any way they
 5 could.
 6 Q. And what do you mean by getting
 7 companies to help any way they could?
 8 A. Well, I know people from Benco, I
 9 know the ownership in Benco, I've lectured for
 10 the company, so I've had personal relationships
 11 with many of the dental supply companies, all
 12 good relationships.
 13 Q. Do you remember the approximate year
 14 that you met Qadeer Ahmed?
 15 A. Actually, I didn't meet him until he
 16 lectured at one of our symposiums, which was
 17 the first time I ever met him, and I believe
 18 that was 2015 or 2016, I don't recall the
 19 actual date.
 20 Q. When you say one of your symposiums,
 21 was this a course as part of the curriculum?
 22 A. No. We have an annual event that
 23 meets here in Seattle every July for graduates
 24 and above only.
 25 Q. And what is the purpose of an annual

Page 31

1 John C. Kois, DMD, MSD
 2 know actually much about the company other than
 3 they help facilitate things like this.
 4 Q. Is that company run by Qadeer Ahmed?
 5 A. Yes, it is.
 6 Q. When you say they help facilitate
 7 things like this, what did you mean?
 8 A. Well, turns out that one of our
 9 students who became a graduate knew of Qadeer
 10 and that's the referral, the introduction I
 11 received, that this is someone that has done
 12 things like this before and he might be able to
 13 help.
 14 Q. Do you know if Qadeer had done
 15 things like this before in dentistry?
 16 A. I do not know.
 17 Q. Do you know if he had set up buying
 18 groups for other industries?
 19 A. I don't know that.
 20 Q. Before you met ProCare and Qadeer
 21 Ahmed, had you done anything to start the
 22 process of trying to set up a buying group?
 23 A. No.
 24 Q. Had you talked to Benco about
 25 setting up a buying group before you met with

Page 33

1 John C. Kois, DMD, MSD
 2 symposium?
 3 A. It's an update of all the most
 4 current research that's been published in the
 5 last fiscal year.
 6 Q. What was Qadeer Ahmed's topic at the
 7 symposium he spoke at?
 8 A. It had to do with insurance and
 9 being able to provide better care options
 10 through insurance companies. It had nothing to
 11 do with the buyers club.
 12 Q. But one of your students let you
 13 know that Qadeer had worked with buyers clubs
 14 or buyers groups?
 15 A. No. Just let me know that he was a
 16 very good negotiator and that he might be able
 17 to help. I don't do those kind of things.
 18 Q. Prior to meeting Qadeer Ahmed at
 19 this symposium, do you remember when in
 20 conjunction or in relation to that symposium --
 21 do you remember when the student told you about
 22 Qadeer?
 23 A. I would think probably around 2014,
 24 about four years ago.
 25 Q. And was Qadeer's invitation to your

1 John C. Kois, DMD, MSD
 2 symposium based on that, your discussions with
 3 the student who knew him?
 4 A. Yes. We had exchanged e-mails and
 5 we had some telephone conversations prior to
 6 the symposium, but the symposium decision
 7 happened to turn out to be almost the last
 8 minute decision. We had a 30 minute time slot
 9 to fill at the symposium and he was able to
 10 come and do that.
 11 Q. So you were talking to Qadeer about
 12 buying groups before he appeared at the
 13 symposium?
 14 A. That's correct.
 15 Q. And you just hadn't met him in
 16 person until he was at the symposium?
 17 A. That's correct. That's correct.
 18 Q. When you started talking to Qadeer,
 19 what did he offer to do for Kois?
 20 A. He said that he could make contacts
 21 with many of the companies and reach out to
 22 them and see what he could be able to
 23 accomplish.
 24 Q. And what kind of instructions did
 25 you give to Qadeer about what you wanted?

1 John C. Kois, DMD, MSD
 2 MR. FONTECILLA: Objection.
 3 THE WITNESS: I don't recall the
 4 dates, I'm sorry.
 5 BY MS. BALBACH:
 6 Q. Do you remember if you were copied
 7 on any of the e-mails with either Benco,
 8 Schein, or Patterson that Qadeer had?
 9 MR. RACOWSKI: Objection, form,
 10 foundation.
 11 THE WITNESS: I remember being
 12 copied on many e-mails, but there are a lot
 13 of e-mails I received that I don't read and
 14 so I don't remember any specific e-mails.
 15 BY MS. BALBACH:
 16 Q. What did -- do you know what Qadeer
 17 asked Benco, Schein, or Patterson to do was --
 18 in relation to a buying group, setting up a
 19 buying group for Kois?
 20 MR. RACOWSKI: Objection to form.
 21 MR. FONTECILLA: Objection,
 22 foundation.
 23 THE WITNESS: I believe what he
 24 asked was to try to have dentists buy what
 25 he called at the time the sale price or

1 John C. Kois, DMD, MSD
 2 A. I didn't give him instructions.
 3 Q. Did you relate to him your concept
 4 of what you were looking for in a buying group
 5 that we just talked about?
 6 A. Actually, he was very perceptive
 7 because of the contact, so he was very familiar
 8 with dentistry and I did very little to
 9 influence his ability to reach out to these
 10 companies.
 11 Q. Do you -- so Qadeer made the first
 12 approaches to the distributors on behalf of the
 13 Kois Buyers Group; is that right?
 14 MR. FONTECILLA: Objection.
 15 THE WITNESS: Actually, to my
 16 knowledge, he referenced -- he did all the
 17 initiation of the contact and all the
 18 negotiation. I had nothing to do with any
 19 of that, so I don't actually know what the
 20 conversations were that he had with any of
 21 the companies.
 22 BY MS. BALBACH:
 23 Q. Do you know the dates about when he
 24 was -- this was taking place when he was
 25 talking to the companies?

1 John C. Kois, DMD, MSD
 2 black Friday price. So a dentist could buy
 3 an item at a sale price and not have to buy
 4 too many of the same items or the same item
 5 in order to get the same sale price.
 6 BY MS. BALBACH:
 7 Q. Do you know what the results of
 8 Qadeer's negotiations were with Benco?
 9 MR. RACOWSKI: Same objection.
 10 THE WITNESS: As far as I know, all
 11 of the negotiations with the companies that
 12 he interfaced with were all turned out to
 13 be negative. We had no response or no
 14 interest in the buyers club.
 15 BY MS. BALBACH:
 16 Q. Do you know why the -- all three,
 17 Benco, Schein and Patterson said they had no
 18 interest in the Kois Buyers Club or group?
 19 MR. RACOWSKI: Objection.
 20 MR. FONTECILLA: Objection, the
 21 witness has not testified who Mr. Qadeer
 22 had conversations with.
 23 THE WITNESS: It was my feeling, or
 24 my understanding, that it was because we
 25 were too small. And at the time the buyers

1 John C. Kois, DMD, MSD
2 club didn't even exist, so that many
3 companies would not want to take a risk on
4 engaging with something that isn't going to
5 even turn out to be anything. So we didn't
6 have the ability to negotiate with any of
7 the companies.

8 BY MS. BALBACH:

9 Q. Dr. Kois, I'd like to show you an
10 exhibit that's previously been marked CX4060,
11 and this is also Bates marked FTC-QA-0000001.
12 I'll ask the court reporter to mark that.

13 (Exhibit CX4060, marked.)

14 MR. RACOWSKI: Counsel, just a
15 housekeeping point. I see the Bates on
16 this document QA. I don't believe that's a
17 Bates prefix that's been produced by the
18 Kois Center in this case, and if it is
19 marked confidential, my understanding is
20 that the protective order is that no one
21 other than producing party should be able
22 to see this document without consent.

23 MS. BALBACH: Yes, and you see for
24 the -- that I have -- we have redacted the
25 part that Dr. Kois would not have seen.

1 John C. Kois, DMD, MSD

2 MR. RACOWSKI: So, I'm not aware of
3 an exception in the protective order
4 entered by Administrative Law Judge
5 Chappell in regards to the redaction in
6 this case, but if you can point us to that
7 we'll take a look at that.

8 MS. BALBACH: That's the standard
9 practice we've been using. Do you object
10 to the use of the exhibit at this point?

11 MR. RACOWSKI: Under the terms of
12 the protective order by Judge Chappell,
13 yes.

14 MS. BALBACH: My understanding is
15 this practice of redacting the part of the
16 exhibit that the witness has not seen is
17 acceptable under the protective order.

18 MR. RACOWSKI: Under what section?

19 MS. BALBACH: Under -- I would say
20 it's allowable under Section 7 where,
21 "Materials can be provided to the parties
22 who produced it or the parties whose
23 material it is or was."

24 MR. RACOWSKI: Right. I see that,
25 and it's a Bates stamped that is not the

1 John C. Kois, DMD, MSD
2 Kois Center. Producing party is not Kois
3 Center.

4 MS. BALBACH: If you look at
5 Section 7, point E there, "Any witness or
6 deponent who may have authored or received
7 the information in question."

8 Dr. Kois clearly received the
9 information that has not been redacted in
10 this exhibit.

11 MR. RACOWSKI: Okay. To the extent
12 you show that and have foundation for it.

13 BY MS. BALBACH:

14 Q. Dr. Kois, have you had a chance to
15 review what we've marked as CX4060?

16 A. I've just looked at it at this
17 moment.

18 Q. After the black box -- strike that.

19 Do you recognize this document,
20 CX4060?

21 A. I do not.

22 Q. After the black box, do you see the
23 e-mail header there from
24 qadeerahmed@hotmail.com?

25 A. I do.

1 John C. Kois, DMD, MSD

2 Q. Is that the Mr. Ahmed we've been
3 discussing?

4 A. I believe it is.

5 Q. And do you see the "to" line,
6 "Dr. Kois"?

7 A. I do.

8 Q. Do you have any reason to doubt that
9 that's you?

10 A. I do not.

11 Q. Do you believe that you received
12 this e-mail?

13 A. I do. This e-mail is -- appears to
14 be an update of a meeting that he had
15 previously with Patterson. It says, "Patterson
16 update" in the subject line.

17 Q. Do you see on the first page where
18 he writes, "John, this went out to Patterson
19 this morning"?

20 A. I do.

21 Q. Do you know what he's referring to
22 in that line?

23 A. I do not.

24 Q. Okay. Do you see what's marked as
25 page 5, CX4060-005?

Page 42

1 John C. Kois, DMD, MSD
 2 A. I do now.
 3 Q. Do you know what this document is
 4 from pages 5 to 13?
 5 A. I am familiar with the name
 6 Equalizer ProServices. In 2014 the buyers club
 7 really wasn't a real buyers club, we were just
 8 putting it together as a concept, and so that's
 9 one piece, and I don't know how long even
 10 Equalizer ProServices was in existence, but
 11 this is the beginning of when I became familiar
 12 with this company, around this time.
 13 Q. Do you know if Equalizer ProServices
 14 is Qadeer's company?
 15 MR. FONTECILLA: Objection, form.
 16 THE WITNESS: I don't know if it's
 17 his company, but I know he's involved in my
 18 understanding.
 19 BY MS. BALBACH:
 20 Q. Do you know if -- strike that.
 21 Had Qadeer shown you this part of
 22 the document that's marked -- starting at page
 23 CX4060, before he sent it to Patterson? I'm
 24 sorry, 4060, page 5.
 25 A. To be honest, even though I was sent

Page 43

1 John C. Kois, DMD, MSD
 2 the document, which is obviously what the
 3 e-mail says, I don't actually remember the
 4 document so I don't know the answer to that.
 5 Q. Did you help prepare the document
 6 that starts at page 5?
 7 A. I did not. I have nothing to do
 8 with the document.
 9 Q. Looking again at the first page of
 10 this document, at the e-mail, the e-mail is
 11 dated September 22, 2014. Does that refresh
 12 your memory as to when you were talking to
 13 Qadeer about setting up a Kois Buying Group?
 14 A. It would be consistent with the time
 15 frame of about four years ago.
 16 Q. And does this refresh your memory
 17 that Qadeer would have sent a proposal to
 18 distributor Patterson about the Kois Buying
 19 Group?
 20 MR. GEORGE: Object to form.
 21 THE WITNESS: When I review the
 22 e-mail I'm obviously aware of what was said
 23 in the e-mail, but I didn't keep track of
 24 whatever correspondence he had with any of
 25 the dental supply companies.

Page 44

1 John C. Kois, DMD, MSD
 2 BY MS. BALBACH:
 3 Q. And what was -- do you know the
 4 result of Qadeer's presentation of this
 5 proposal to Patterson -- what did Patterson
 6 say?
 7 MR. GEORGE: Object to form.
 8 THE WITNESS: I do not know the
 9 answer to that specifically.
 10 BY MS. BALBACH:
 11 Q. Would anyone else have kept track or
 12 know the answer to that question?
 13 A. Not to my knowledge. Not on my
 14 side. I just waited for whatever he would tell
 15 me as an outcome. So he would, from time to
 16 time, send me e-mails about the progress of
 17 meetings, and indicated there was some
 18 potential interest, but in the end there really
 19 wasn't enough interest for any of the other
 20 companies to move forward.
 21 Q. So would Qadeer know the outcomes of
 22 his negotiations with Patterson?
 23 MR. GEORGE: Object to form.
 24 THE WITNESS: I would suppose that
 25 would be -- yes.

Page 45

1 John C. Kois, DMD, MSD
 2 MS. BALBACH: I would like to
 3 introduce what we've marked as CX4061.
 4 This is previously also marked, Bates
 5 stamped FTC-QA-0000031. That's, I think,
 6 five zeros and a 31.
 7 (Exhibit CX4061, marked.)
 8 BY MS. BALBACH:
 9 Q. You can have a moment if you'd like
 10 to review what we've marked as CX4061. For the
 11 record, 4061 also contains a section at the top
 12 that's been redacted, and the document starts
 13 with what appears to be an e-mail that was sent
 14 to Dr. Kois. Do you recognize this document?
 15 A. I do.
 16 Q. What is this document?
 17 A. This document was regarding one of
 18 my clinical instructors that is part of the
 19 Kois Center, and some of the responses that he
 20 received I guess when he was looking at trying
 21 to implement the buying group in his practice.
 22 Q. Who is that student of your center?
 23 A. It says, "Dr. Scott Strommer" on the
 24 e-mail.
 25 Q. And what happened when he tried to

1 John C. Kois, DMD, MSD
2 implement the buying group in his practice?

3 A. I have to go back and read the
4 e-mail carefully. I guess part of the e-mail
5 indicates that there was concern on my part
6 that I would be involved in something like
7 this, because the Kois Center is known for not
8 having any commercial support.

9 We're not a foundation. We're a
10 completely private teaching organization and so
11 we don't use any commercial funds or
12 commercially generated funds to help in
13 furtherment of our educational research, so
14 this looked like, to whoever is mentioning this
15 in the e-mail, some conflict of interest.

16 Q. Do you see on page 2 of the
17 document, the bottom third where it says, "Hey,
18 Scott, your wisdom an advice. As this is a
19 long verbal conversation to discover what
20 Patterson Corporate has concluded "we will not
21 be entertaining participating in any buying
22 group of this nature." Did I read that
23 correctly?

24 A. Yes, you did.

25 Q. Do you understand -- is it your

1 John C. Kois, DMD, MSD
2 understanding of this e-mail that Patterson
3 Corporate had let Mr. -- or Dr. Strommer know
4 through some source that Patterson was not
5 likely to participate in the Kois Buying Group?

6 MR. GEORGE: Object to form.

7 THE WITNESS: That's my perception
8 in reading the e-mail.

9 BY MS. BALBACH:

10 Q. And turning back to the first page,
11 Qadeer's e-mail to you, it looks like the to
12 line it says, "Dr. John Kois." Do you believe
13 this e-mail is to you?

14 A. Yes.

15 Q. On October 13, 2014, he writes,
16 "Guys, according to this guy, Guggenheim has
17 already declined." Did I read that correctly?

18 A. Yes.

19 Q. Who is Guggenheim?

20 A. I don't know.

21 Q. Do you know if that's Paul
22 Guggenheim from Patterson?

23 MR. GEORGE: Object to form.

24 THE WITNESS: I have no idea.

25 BY MS. BALBACH:

1 John C. Kois, DMD, MSD
2 Q. Okay. We can put that one aside.
3 I'd like to introduce two more exhibits, and
4 I'll ask the court reporter to mark them
5 simultaneously because they relate to each
6 other. The first one is CX4063, and it has a
7 Bates stamp of FTC-QA-0000063 through 69, and
8 there's a second document, CX4064, which has a
9 Bates stamp of FTC-QA-0000053.

10 (Exhibit CX4063 and CX4064, marked.)

11 BY MS. BALBACH:

12 Q. I'd ask you, Dr. Kois, to take a
13 minute to review both of those documents. And
14 for the record, I will represent that what is
15 marked as CX4064 in our original production was
16 an attachment for what is marked as CX4063,
17 although the e-mail that is on CX4063 is not
18 referenced in the body of the e-mail that it
19 had an attachment. In the form it was produced
20 to the FTC that had an attachment which was
21 4064.

22 Dr. Kois, starting with CX4063 --

23 MR. FONTECILLA: Sorry to interrupt,
24 have you introduced the CX4064? I just
25 want to confirm.

1 John C. Kois, DMD, MSD
2 MS. BALBACH: I thought I did. It
3 was Bates marked FTC-QA-0000053.

4 MR. FONTECILLA: Okay. Thank you.

5 THE WITNESS: Sorry, can you repeat
6 the question?

7 BY MS. BALBACH:

8 Q. Yes. Looking at CX4063, do you
9 recognize this document?

10 A. I see my name in the CC column, but
11 I don't remember the document.

12 Q. What is this document?

13 MR. GEORGE: Object to form.

14 THE WITNESS: It -- just looking at
15 the subject line, it refers to a follow-up
16 call in the Equalizer program. That's all
17 I know.

18 BY MS. BALBACH:

19 Q. Is this an e-mail you received on
20 October 28, 2014?

21 A. It appears that's correct.

22 Q. And you were a CC on this e-mail?

23 A. That's correct.

24 Q. Is the e-mail to Tim Sullivan?

25 A. That's what it says in the e-mail.

Page 50

1 John C. Kois, DMD, MSD
 2 Q. Do you know who Tim Sullivan is?
 3 A. No.
 4 Q. Do you know if Tim Sullivan is
 5 employed with or a representative of Henry
 6 Schein?
 7 MR. RACOWSKI: Object to form.
 8 THE WITNESS: I've never heard that
 9 name.
 10 BY MS. BALBACH:
 11 Q. And is the e-mail from Qadeer Ahmed?
 12 A. Yes.
 13 Q. Do you see on the first page where
 14 it says, "Please find an attached proposal"?
 15 A. Yes.
 16 Q. Okay. Looking at CX4064, do you
 17 recognize this exhibit?
 18 A. I do not.
 19 Q. Do you see at the top where it says,
 20 "Proposal for Henry Schein. Initial Supply
 21 Deal"?
 22 A. I do.
 23 Q. Dated October 28, 2014. Do you see
 24 that?
 25 A. I do.

Page 52

1 John C. Kois, DMD, MSD
 2 this has been redacted, and starting on page 2
 3 there appears to be an e-mail from John Kois.
 4 Have you had a chance to review that?
 5 A. I have.
 6 Q. Do you recognize this document,
 7 CX0290?
 8 A. I do.
 9 Q. What is CX0290?
 10 A. At this time, what we were trying to
 11 do is figure out a way how the buyers club
 12 could actually be run. This was -- the content
 13 of this document was actually prepared by
 14 ProCare, and we were looking at the levels of
 15 different offices in terms of accumulating
 16 three tiers that they potentially would spend
 17 on inventory per month.
 18 And the basis of the document was
 19 trying to come up with a monthly fee, or what
 20 we would ultimately wind up charging for
 21 membership in the buyers club. This ultimately
 22 turned out to be a complete failure. I don't
 23 know where these numbers actually came from,
 24 and they never worked so they were never really
 25 utilized.

Page 51

1 John C. Kois, DMD, MSD
 2 Q. Do you know if this is a proposal
 3 that Qadeer Ahmed prepared for Henry Schein for
 4 the Kois Buying Group?
 5 MR. GEORGE: Object to form.
 6 BY MS. BALBACH:
 7 Q. Let me rephrase that question.
 8 Do you know if this is a proposal
 9 prepared by Qadeer Ahmed asking Henry Schein to
 10 be a distributor for Kois Buying Group?
 11 MR. GEORGE: Object to form.
 12 MR. FONTECILLA: Objection.
 13 THE WITNESS: To be very honest, I
 14 don't remember any of these documents. I
 15 don't pay attention to many documents of
 16 this nature because I don't understand a
 17 lot of data that's on these documents
 18 anyway.
 19 BY MS. BALBACH:
 20 Q. Now I'd like to introduce what we
 21 have marked as CX0290. This has a Bates number
 22 of PDCO00021741.
 23 (Exhibit CX0290, marked.)
 24 BY MS. BALBACH:
 25 Q. For the record, the first page of

Page 53

1 John C. Kois, DMD, MSD
 2 Q. This document is -- seems to be
 3 dated Wednesday, October 8, 2014. Do you see
 4 that?
 5 A. I do.
 6 Q. And it appears to be an e-mail to --
 7 well, first, let me ask. From John C Kois, and
 8 the e-mail address is koistrike@koiscenter.com.
 9 Is that your e-mail?
 10 A. It is not my e-mail.
 11 Q. Whose e-mail is that?
 12 A. Well, it was an e-mail that was set
 13 up to run the buyers club, but not my personal
 14 e-mail.
 15 Q. But the from John C Kois, is that
 16 you?
 17 A. Yes, it is.
 18 Q. This e-mail is sent to Jeff Gray,
 19 jgraydds@aol.com. Who is Jeff Gray?
 20 A. He is also one of our clinical
 21 instructors.
 22 Q. What was your purpose in sending out
 23 this e-mail?
 24 A. At this time we were trying to
 25 survey the upper echelon of our community of

1 John C. Kois, DMD, MSD
 2 dentists that have attended the Kois Center.
 3 Jeff is one of the individuals that has been
 4 involved in the Kois Center for quite a long
 5 period of time, and we trusted his feedback to
 6 be honest. So we were trying to get an idea of
 7 how this program might benefit private
 8 practitioners like himself.

9 Q. Did this e-mail go out to -- or
 10 versions of it go out to more than just Jeff
 11 Gray?

12 A. I don't recall that answer.

13 Q. So you don't know if this was like a
 14 form e-mail?

15 A. I don't -- I honestly don't remember
 16 that.

17 Q. Were you -- strike that.
 18 Did you announce a Kois Tribal
 19 membership program to a broader audience at
 20 this time?

21 A. I'm not sure I understand the
 22 question. You mean to other people at the
 23 center or?

24 Q. Did you communicate with -- well,
 25 strike that.

1 John C. Kois, DMD, MSD

2 Q. Do you see in CX0290, on the page --
 3 what is page 2, the first page of this e-mail?

4 A. I do.

5 Q. Where it says, "Step one: Save
 6 money"?

7 A. Yes.

8 Q. "One: Our data indicates that we
 9 buy \$153 million a year in supplies as a Tribe.
 10 The average office buys under 90,000 a year."
 11 Did I read that correctly?

12 A. You did.

13 Q. Where did those numbers come from?
 14 Where did you get the \$153 million?

15 A. They were put together again by
 16 ProCare and surveying dentists that he's worked
 17 with in his company through the individual that
 18 I was -- that introduced Qadeer to me.

19 And also, we sent out surveys to
 20 dentists, get an idea of what they spend
 21 through different supply companies, so we had
 22 limited resources to do that. I think at the
 23 time we might have surveyed about 100 dentists
 24 in terms of what their inventory spend per year
 25 would be, because we are trying to figure out

1 John C. Kois, DMD, MSD

2 I see references in your document to
 3 the Tribe. Who is the Tribe?

4 A. The Tribe are what we refer
 5 affectionately to the people that have --
 6 represent our community of dentists that take
 7 courses at the center and move on into graduate
 8 and above status, and so we have utilized that
 9 word Tribe from an author Seth Godin in his
 10 book called, "The Tribe." So we're a community
 11 of people to help support each other.

12 Q. What did you, in the fall of 2014,
 13 so like in October of 2014, what did you
 14 announce to the Tribe about setting up a buying
 15 group?

16 A. So at this time we were trying to
 17 come up with some sort of cost, monthly spend
 18 that might be appealing to dentists so that
 19 they could take advantage of the buyers club in
 20 some way, and this basically comes from
 21 ProCare, what they decided. We didn't --
 22 eventually we didn't continue on with ProCare.
 23 It was not consistent with our Tribe and so we
 24 separated our relationship, so this all went
 25 for nothing.

1 John C. Kois, DMD, MSD

2 how we could represent the buyers club also to
 3 other companies so we could become attractive
 4 as a buying group. Because at this time, as I
 5 mentioned, we didn't even exist as a true
 6 buying group, we only existed as a concept.

7 Q. Did you -- when you started working
 8 with Qadeer, did you share that survey
 9 information with him?

10 A. I did.

11 Q. What other types -- what other type
 12 of Kois Center information did you share with
 13 Qadeer when you started working with him?

14 A. We have no financial information at
 15 the Kois Center on any of the practices, so
 16 they had to volunteer data on what they might
 17 spend per month, and many people didn't reply
 18 to the request.

19 Q. How big was the Tribe in 2014?

20 A. I would say roughly in the five
 21 to -- well, I guess it depends on how you
 22 define the Tribe. At the moment, if we're just
 23 looking at the Tribe as graduates and above, I
 24 would say at that time it would be in the 5-600
 25 range.

Page 58

1 John C. Kois, DMD, MSD
 2 Q. For the buying group that you
 3 envisioned, would it -- the Tribe -- would the
 4 dentist you would invite to join have been just
 5 the graduates, or would it have been everybody
 6 who took courses?
 7 A. No. At the time we were even trying
 8 to define the level at which you would be able
 9 to belong to the group, and then it was decided
 10 that anyone that had attended a course could
 11 become part of the group because you would be
 12 exposed to the research that was done at the
 13 center.
 14 Q. And do you have an estimate for, at
 15 that time, how many had taken a course?
 16 A. I would say by that time it was at
 17 least 2,000 dentists.
 18 Q. Looking again at CX0290, under the
 19 paragraph -- so this is page 2 of the exhibit,
 20 the first page of the e-mail. Under the
 21 paragraph, "First the partners," do you see
 22 where it says, "I've been working on this plan
 23 with partners from ProCare Dental Services"?
 24 A. I do.
 25 Q. And then further down in that

Page 60

1 John C. Kois, DMD, MSD
 2 other than ways that he was organizing how
 3 some of the businesses could be set up.
 4 MS. BALBACH: Can we go off the
 5 record for a second?
 6 (Break from 10:21 to 10:23 a.m.)
 7 MS. BALBACH: I'm introducing what
 8 we've marked as CX4062, which has Bates
 9 number of FTC-QA-00000, so that's five
 10 zeros, 42. And it's 42 through 45.
 11 (Exhibit CX4062, marked.)
 12 BY MS. BALBACH:
 13 Q. For the record, CX4062 appears to be
 14 an e-mail dated October 21, 2014, from Qadeer
 15 Ahmed to Dr. John Kois. If you want a minute
 16 to review, Dr. Kois.
 17 A. That's correct.
 18 Q. Do you recognize this document,
 19 CX4062?
 20 A. Now that it's in front of me.
 21 Q. What is CX4062?
 22 A. It says the subject is, "Group
 23 purchase."
 24 Q. And what is this set of e-mails
 25 about?

Page 59

1 John C. Kois, DMD, MSD
 2 paragraph it says, "Their "hit list" includes
 3 multi-billion dollar "wins" in retail
 4 (Wal-Mart, Home Depot, Loblaws, Metro, Best
 5 Buy) media (Sony Music, CanWest) Distribution
 6 (Ingram, Globelle, Office Max) and Technology."
 7 Did I read that correctly?
 8 A. Yes.
 9 Q. Does that refresh your memory about
 10 the background of Qadeer Ahmed?
 11 MR. GEORGE: Object to form.
 12 THE WITNESS: Yes, I'm aware of
 13 this.
 14 BY MS. BALBACH:
 15 Q. What are you aware of?
 16 A. I'm aware of what this says, that he
 17 did engage in other business deals with
 18 companies like this only through what he's told
 19 me.
 20 Q. And do you have an understanding of
 21 were those buying groups he was setting up with
 22 businesses like that?
 23 MR. GEORGE: Object to form.
 24 THE WITNESS: I actually don't
 25 recall it being specifically buyers groups

Page 61

1 John C. Kois, DMD, MSD
 2 A. This appears to be correspondence
 3 with Benco regarding some potential involvement
 4 in the Buyers Group at the time. The only way
 5 that that would really work is if the center
 6 was able to make a group purchase. We didn't
 7 have any other way to do that and we didn't
 8 want to be involved in that way.
 9 I mean, I know Chuck personally.
 10 He's always been a good person for me and I
 11 enjoy his company, and so that's what I think
 12 this was in reference to, to see if they would
 13 have interest in the Buyers Group.
 14 Q. Let me direct your attention to the
 15 last page, CX4062-004, which appears to be an
 16 e-mail dated October 21, 2014. It's from
 17 johnkois@hotmail.com. Is that your e-mail
 18 address?
 19 A. Yes, it is.
 20 Q. The e-mail appears to be to Chuck
 21 Cohen?
 22 A. Yes.
 23 Q. Ccohen@benco.com?
 24 A. Yes.
 25 Q. Who is Chuck Cohen?

1 John C. Kois, DMD, MSD
 2 A. I believe he is the CEO of Benco.
 3 Q. You see on that last page where it
 4 says, "Hi Chuck, I have been approached by a
 5 company to organize our members for group
 6 purchase opportunities." Did I read that
 7 correctly?
 8 A. Yes.
 9 Q. What does that refer to?
 10 A. It refers to the whole concept of
 11 the buying group.
 12 Q. Is that Qadeer's -- the --
 13 A. Yes, it was in reference to Qadeer's
 14 company, Equalizer ProServices.
 15 Q. So in reference to the buying group
 16 that Qadeer was trying to set up for you,
 17 correct?
 18 A. Yes, yes.
 19 Q. And then it continues, "I know we
 20 tried this before, but I wanted you to talk to
 21 him to see if there would be an opportunity to
 22 work with your company." Did I read that
 23 correctly?
 24 A. Yes.
 25 Q. What were you writing about there?

1 John C. Kois, DMD, MSD
 2 A. When we have our annual symposium we
 3 were trying to figure out if we could find any
 4 particular items that we could make a group
 5 purchase, because there could be several
 6 hundred dentists in the audience and if they
 7 were willing to buy a particular product were
 8 we able to get a discounted price. And the
 9 problem was only if it was bought through the
 10 center, and the center could not afford to do
 11 it that way so we never went ahead with
 12 anything like that.
 13 Q. And were you using Qadeer to try to
 14 negotiate with Benco?
 15 A. Well, in the beginning, the way I
 16 remember is Qadeer was first talking to the
 17 companies we've already mentioned, Henry Schein
 18 and Patterson, because they were larger
 19 companies and we have a more global footprint
 20 and we were trying to look at a bigger company
 21 to help us in the buyers club, and then we went
 22 to ask Benco when we were turned down by the
 23 other companies.
 24 Q. And turning back to page 2, and then
 25 continuing on to 3, there's an e-mail that

1 John C. Kois, DMD, MSD
 2 appears to be from Chuck Cohen dated
 3 October 21, 2014, to johnkois@hotmail.com.
 4 And is it says on what is
 5 page 4062-003, the e-mail writes, "So, with
 6 your permission I'm going to politely give
 7 Qadeer our standard answer of thanks, but we
 8 don't do buying groups."
 9 A. Yes, I see that.
 10 Q. Do you understand what -- and then
 11 this e-mail is from Chuck Cohen. Do you
 12 understand what Chuck Cohen is writing there?
 13 MR. RACOWSKI: Objection to form.
 14 THE WITNESS: My understanding was
 15 he essentially is telling us that he's not
 16 going to be able to help in our buying
 17 group.
 18 BY MS. BALBACH:
 19 Q. And would this have been a buying
 20 group that -- where membership was eligible to
 21 the Tribe Members?
 22 A. Yes. It's the same Buyers Group
 23 that we've been talking about all along.
 24 Q. The same Buyers Group where we saw a
 25 proposal to Patterson and we saw a --

1 John C. Kois, DMD, MSD
 2 A. Yes, yes, yes.
 3 Q. -- proposal to Schein?
 4 A. Yes.
 5 Q. So your understanding -- is it your
 6 understanding from this e-mail that Benco said
 7 no then to setting up a Buyers Group with Kois?
 8 A. Yes.
 9 MR. RACOWSKI: Objection to form.
 10 That's not what it says.
 11 BY MS. BALBACH:
 12 Q. Why would a larger distributor be
 13 better for setting up a buying group?
 14 MR. GEORGE: Object to form.
 15 THE WITNESS: The reason that I was
 16 trying to have a larger distributor is that
 17 they would have more reach for servicing
 18 more of the dentists that are members of
 19 the Kois Center.
 20 BY MS. BALBACH:
 21 Q. And by more reach, do you mean for
 22 geographic reach?
 23 A. Yes.
 24 Q. Why is that important to have more
 25 geographic reach?

Page 66

1 John C. Kois, DMD, MSD
 2 A. Because many of the offices depend
 3 on the personal service that the dental supply
 4 companies offer and we were looking for a
 5 company that could have access to as many
 6 practices as possible.
 7 Q. Is this personal service through
 8 having a local representative that they would
 9 come to a dentist office?
 10 A. Yes, it is.
 11 Q. What about the number of SKUs or
 12 items that distributors might have, is that
 13 important?
 14 A. I'm sorry, SKU?
 15 Q. I think it's for shop keeping unit,
 16 you know, the different numbers of types of
 17 tooth brushes or gloves, or different numbers
 18 of products?
 19 A. That part of the business I'm not
 20 familiar with, that's why many of the e-mails
 21 that you're referring to look like a foreign
 22 language to me because I don't participate in
 23 any of that understanding.
 24 Q. This series of e-mails we've been
 25 talking about, would you have forwarded them to

Page 67

1 John C. Kois, DMD, MSD
 2 anybody else at Kois?
 3 MR. RACOWSKI: Objection, form.
 4 Which series?
 5 THE WITNESS: No.
 6 BY MS. BALBACH:
 7 Q. What was the result of Qadeer's
 8 negotiation on your behalf in setting up a Kois
 9 Buying Group?
 10 MR. FONTECILLA: Objection.
 11 THE WITNESS: Well, although I was
 12 very hopeful, because Qadeer is a very
 13 smart businessman, it doesn't result in any
 14 relationships in the companies that he was
 15 talking to at this point.
 16 BY MS. BALBACH:
 17 Q. Who were those companies?
 18 A. That was Henry Schein, Patterson,
 19 and Benco.
 20 Q. And ultimately you set up a buying
 21 group in the fall of 2014 -- or did you set up
 22 a buying group in the fall of 2014?
 23 A. We did set up a buying group. I
 24 believe it didn't happen until 2015, maybe,
 25 because then we asked also Burkhart, which is

Page 68

1 John C. Kois, DMD, MSD
 2 the distributor that I've worked with basically
 3 my whole time and practice to become a partner
 4 with us even though they were a very small
 5 company.
 6 Q. And did Qadeer negotiate with
 7 Burkhart on your behalf?
 8 A. Yes, he did.
 9 Q. What was the result -- you said you
 10 asked Burkhart to be the distributor and what
 11 did -- how did they respond?
 12 A. So at first they actually weren't
 13 very positive to Qadeer. They basically just
 14 responded on my behalf because of the
 15 relationship I had with the company, so it
 16 turned out that in the end we didn't use any of
 17 Qadeer's expertise. We relied more on my
 18 personal relationship and reputation that I
 19 built my whole life in practice and teaching.
 20 Q. Why didn't you start with Burkhart?
 21 A. My thinking at the time was, as I
 22 mentioned, they weren't able to service many
 23 dentists outside just the Pacific Northwest, so
 24 it would only have application to a very small
 25 number of dentists in our Tribe.

Page 69

1 John C. Kois, DMD, MSD
 2 Q. Ultimately, you did set up a buying
 3 group with Burkhart; is that correct?
 4 A. We did.
 5 Q. I would like to introduce what we've
 6 marked as CX1032, which has a Bates number of
 7 BD, so boy, David, FTC0000153, and it's pages
 8 153 through 159. I'll ask the court reporter
 9 to mark that.
 10 (Exhibit CX1032, marked.)
 11 BY MS. BALBACH:
 12 Q. I've introduced what appears to be
 13 an agreement. It says, "ProCare Dental
 14 Services" on the top. It's got an effective
 15 date of November 14, 2014, and it mentions
 16 Parties Burkhart Dental Supply and Dr. John
 17 Kois. Have you had a chance to review this?
 18 A. I have.
 19 Q. Do you recognize this document,
 20 CX1032?
 21 A. I do. Yes, I do.
 22 Q. What is CX1032?
 23 A. This actually is the agreement that
 24 I signed to initiate the relationship with
 25 Burkhart in the buying group.

1 John C. Kois, DMD, MSD
 2 Q. If I could direct your attention to
 3 page 4 of this document, CX1032-004.
 4 A. Yes.
 5 Q. Do you see the paragraph titled,
 6 "Renewal"?
 7 A. Yes.
 8 Q. "The parties will draft and execute
 9 a contract reflecting the terms of this LOI and
 10 any other necessary terms no later than 90 days
 11 from the effective date of this LOI." Did I
 12 read that correctly?
 13 A. Yes.
 14 Q. Do you know if there was a separate
 15 contract executed after this letter of intent?
 16 A. I don't recall.
 17 Q. And then I wanted to direct your
 18 attention to page 2 of the document under the
 19 paragraph marked, "Deferral of Margin and
 20 Written Guarantee of Savings." Do you see
 21 that?
 22 A. Yes.
 23 Q. It reads, "Burkhart agrees to limit
 24 its margins to 25 percent on any and all brand
 25 dental supplies and 36 percent on any Burkhart

1 John C. Kois, DMD, MSD
 2 Private Label dental supplies sold to Tribe
 3 Members." Did I read that correctly?
 4 A. Yes.
 5 Q. What does that sentence mean?
 6 A. I assume it means just what it says,
 7 but what it's referring to I don't actually
 8 know.
 9 Q. So is that paragraph meant to give a
 10 discount to the buying group members and it's
 11 setting out the different discounts on the
 12 different types of supplies, 25 and 36 percent?
 13 MR. RACOWSKI: Objection, form,
 14 foundation.
 15 MR. FONTECILLA: Objection, form.
 16 THE WITNESS: I assume so, but I
 17 think before we go much further we need to
 18 make sure that what's clear is at this
 19 point in time the dentists that are
 20 agreeing to be part of the buying group are
 21 only agreeing to be part of the buying
 22 group to support the Tribe and it had
 23 nothing more than that.
 24 So it was mostly to help support
 25 what we were trying to do, because at this

1 John C. Kois, DMD, MSD
 2 point nobody would have any assurance that
 3 anything would work for them because many
 4 of the dentists that actually even belonged
 5 to the buying group, they don't all use the
 6 buying group, so I don't know -- I don't
 7 really know what happens in the real world
 8 other than I know we have a group of very
 9 supportive people that have tried to create
 10 loyalty for the center.
 11 BY MS. BALBACH:
 12 Q. When you said this was to be for
 13 supporting the Tribe, what did you mean by
 14 support the Tribe?
 15 A. Hopefully, that if they could belong
 16 maybe more people would eventually belong to
 17 the Tribe and maybe that would be helpful
 18 because it would help to fund our research and
 19 our products and product development and
 20 protocols. It was a way to just give back to
 21 the center.
 22 Q. Were you interested in saving
 23 dentists money on their supplies?
 24 A. I was. I was, yes. I am.
 25 Q. And was it your hope that with the

1 John C. Kois, DMD, MSD
 2 savings that the dentist achieved they might be
 3 able to take more courses at the center?
 4 A. That's correct, yes.
 5 Q. Which would support the efforts of
 6 the center?
 7 A. Yes.
 8 Q. And were the dentists themselves,
 9 the Tribe Members interested on saving on their
 10 supplies?
 11 A. I would assume so.
 12 Q. In the first year of the roll out of
 13 the Kois Buyers Group with ProCare Dental
 14 Services, who ran sort of the day-to-day
 15 operations of the buying group?
 16 A. It's a little bit cloudy, so based
 17 on this agreement it was signed November of
 18 2014, but it was really rolling out -- 2015 is
 19 really when it got started, to my recollection.
 20 So all we were doing was tracking the people
 21 that would sign up through the buyers club
 22 through the center. We did that at the center
 23 and then relayed that information to ProCare.
 24 I think there may have been a time
 25 where they were thinking about having dentists

Page 74

1 John C. Kois, DMD, MSD
 2 sign up directly through ProCare, but since our
 3 dentists were not as familiar with that
 4 particular company they were not willing to do
 5 that.
 6 Q. You had said earlier -- you talked
 7 about the program didn't really work. I forget
 8 what you said. What did you mean by that?
 9 A. Well, at the time we initiated a
 10 buyers club we didn't really have the resources
 11 at the center to inventory payment methods and
 12 many of the other things that were necessary to
 13 have this actually work quite well because the
 14 center is burdened by all the education. This
 15 became a total distraction from the core
 16 business model of the center, so that's why
 17 it's a bit cloudy to me because we don't have
 18 the personnel to implement the program such as
 19 this.
 20 Q. Do you mean that the program as was
 21 described in CX1032?
 22 A. Yes, yes. And the way it was to be
 23 implemented it put too much responsibility and
 24 burden on the center to some degree.
 25 Q. Was the program as envision in

Page 75

1 John C. Kois, DMD, MSD
 2 CX1032, was it popular with the Tribe Members?
 3 A. No, it was not.
 4 Q. Why was it not popular?
 5 A. I think in the beginning they
 6 certainly didn't see the value of the program,
 7 because it's not just dental supply companies
 8 that dentists purchase from, it's also direct
 9 companies that they work with, and so until we
 10 enlisted other direct companies to be involved
 11 in our buyers club, then the appeal for the
 12 buyers club option became much greater.
 13 Q. Who do you mean by direct companies,
 14 would those be manufacturers?
 15 A. Yes, that don't actually sell
 16 through dental distributors. If I might add,
 17 dentists are a very unique group. They always
 18 think they have the best way, and when they
 19 have a particular preference for certain
 20 products and we weren't able to offer those
 21 products it tends to devalue the benefits of
 22 the buyers club.
 23 Q. What percentage of a dentists
 24 supplies are -- would you typically get from a
 25 manufacturer direct?

Page 76

1 John C. Kois, DMD, MSD
 2 MR. FONTECILLA: Objection.
 3 THE WITNESS: I don't know the
 4 answer to that. I can tell you in my
 5 practice most of my disposable supplies
 6 come all from Burkhart, that then supply
 7 company, but the major spend on inventory
 8 comes from direct companies. Many of those
 9 companies sell items that are more
 10 expensive, like implant supplies, and
 11 things that are not sold directly through
 12 dental supply companies. So if you're
 13 looking at the number of dollars, I would
 14 say I spend more money from direct
 15 companies today than I spend from the
 16 dental supply company today.
 17 BY MS. BALBACH:
 18 Q. In the first year of 2015, when the
 19 program was rolling out, did you hear
 20 complaints from your Tribe Members about the
 21 buying group?
 22 A. I always heard complaints. They
 23 were complaints, for example, do I have to work
 24 with the supply company that you've listed
 25 because I've been working with my supply

Page 77

1 John C. Kois, DMD, MSD
 2 company and I like my supply representative,
 3 and I don't want to have to force -- I don't
 4 want to be forced to make a change.
 5 And that's why offering direct
 6 companies as an alternative in the Buyers Group
 7 became more appealing so you can maintain your
 8 relationship with your current supply, dental
 9 supply company, and then maybe take advantage
 10 of additional savings through direct companies.
 11 Q. And did they have to work with -- in
 12 that first year, did they have to buy through
 13 Burkhart?
 14 A. They did not.
 15 Q. Did they have to buy a certain
 16 minimum through Burkhart?
 17 A. They did not. There were no
 18 requirements on what they needed to purchase
 19 through the buyers club.
 20 Q. Can I turn your attention back to
 21 what we marked as CX1032.
 22 A. Yes.
 23 Q. And on page 3 of the document,
 24 probably about a third of the way up from the
 25 bottom it says -- there's a paragraph, "Tribe

<p style="text-align: right;">Page 78</p> <p>1 John C. Kois, DMD, MSD 2 Member minimum threshold of purchases with 3 Burkhart." 4 And it reads, "ProCare agrees that 5 Tribe Members must purchase dental supplies 6 from Burkhart above the minimum threshold 7 defined in Schedule 4 to maintain their status 8 as Tribe Members." Did I read that correctly? 9 A. You did. 10 Q. What does that mean? 11 A. So based on what you're saying, that 12 there was some minimum purchase necessary, but 13 we've never utilized that and that's why the 14 relationship with ProCare was disbanded because 15 we -- the dentists were uncomfortable being 16 directed of who they would have to buy from or 17 what they had to purchase and give an amount of 18 what they had to purchase. So that was never 19 something that was a worth while endeavor in 20 the buyers club. It was sabotaging what the 21 buyers club was really intended to do. 22 Q. Now, I'd like to introduce what 23 we've marked as CX4048, which has a Bates stamp 24 of KIOS001712. 25 (Exhibit CX4048, marked.)</p>	<p style="text-align: right;">Page 79</p> <p>1 John C. Kois, DMD, MSD 2 BY MS. BALBACH: 3 Q. I'm introducing CX4048, what appears 4 to be an e-mail from Qadeer Ahmed to John Kois 5 dated November 16, 2015. 6 A. Yes. 7 Q. And I'll give you a chance to review 8 it. 9 A. I have. 10 Q. Do you recognize this document? 11 A. Yes. 12 Q. What is CX4048? 13 MR. GEORGE: Object to form. 14 THE WITNESS: The title of the 15 e-mail says, "Update," and it basically 16 refers to what I've just said, that the 17 Burkhart special pricing alone is not 18 enough to entice new members because they 19 purchase from so many other companies, so 20 many other direct companies. We weren't 21 offering many times, in many cases, enough 22 incentive to be part of the buyers club. 23 BY MS. BALBACH: 24 Q. So I direct your attention to the 25 e-mail from John Kois to Qadeer Ahmed dated</p>
<p style="text-align: right;">Page 80</p> <p>1 John C. Kois, DMD, MSD 2 Monday, November 16, 2015, 6:51 p.m., "Hi Q." 3 Do you see where that is? 4 A. Yes. 5 Q. It then it says, "The center has 6 spoken to several dentists about the program 7 and their three occurring themes." Did I read 8 that correctly? 9 A. Yes. 10 Q. And then it reads, "The current 11 pricing is too high." Did I read that 12 correctly? 13 A. Yes. 14 Q. What do you mean by that? 15 A. The current pricing of the buyers 16 club, to become a member of the buyers club, I 17 was reacting to the artificial way that he set 18 up what it would require to become a member of 19 the buyers club that we've completely disbanded 20 because it didn't work. 21 Q. The next line reads, "No minimum 22 purchase quantity is a huge deal." Did I read 23 that correctly? 24 A. Yes. 25 Q. What did you mean there?</p>	<p style="text-align: right;">Page 81</p> <p>1 John C. Kois, DMD, MSD 2 A. What I referred to earlier, the idea 3 was they didn't have to purchase an item in 4 quantity to get a good competitive price. They 5 could buy one of something to get a competitive 6 price. 7 Q. So that was something the dentists 8 liked about the buyers club? 9 A. That's correct. 10 Q. And then it reads, "3. Burkhart 11 special pricing alone is not enough to" -- 12 A. "To entice new members." 13 Q. "To entice new members." Did I read 14 that correctly? 15 A. Yes, you did. 16 Q. What did you mean there? 17 A. At that point we were struggling 18 with very few -- the adoption rate of the 19 buyers club was very slow, and it was a very 20 small number, and a lot of it is based on what 21 I referred to earlier, there wasn't enough 22 versatility in what they could order. The 23 direct companies weren't participating at that 24 time, so there wasn't enough items that they 25 could purchase.</p>

Page 82

1 John C. Kois, DMD, MSD
 2 Q. In the next paragraph it reads, "Our
 3 tribal membership program is therefore
 4 struggling because we do not have a supply
 5 company that has enough reach to service enough
 6 of our members." Did I read that correctly?
 7 A. Yes.
 8 Q. When did you mean there?
 9 A. That was what we referred to
 10 earlier, to provide better customer service for
 11 equipment. Dentists, many times, are not
 12 always on top of their inventory and sometimes
 13 they need an item the very next day the patient
 14 is about to arrive.
 15 And they prefer to be within an area
 16 where a representative of a given company can
 17 drive a product to their practice in any given
 18 day, so they could not have to cancel the
 19 patient deployment because they weren't
 20 prepared. So that was an important incentive
 21 for dentists that Burkhart couldn't provide
 22 because they didn't have that kind of reach.
 23 Q. And by reach do you mean geographic
 24 reach?
 25 A. Geographic reach.

Page 84

1 John C. Kois, DMD, MSD
 2 already had.
 3 BY MS. BALBACH:
 4 Q. And then continuing on with that
 5 bottom paragraph of the e-mail, it says, "I
 6 want to propose a major change in the strategy
 7 to provide more opportunity even with the
 8 current supply chain." And it goes on on the
 9 next page to say, "We have been able to engage
 10 direct global companies to join in and offer
 11 substantial savings for our members that do not
 12 require service options or significant volume
 13 of product sales.
 14 "In order for that to work, I
 15 want to have a program at a much reduced cost
 16 of \$299 per year. This low fee would make
 17 it -- would make it make sense to many more
 18 people. The following is a list of companies
 19 that have already committed?"
 20 And then there's a list. "Zimmer,
 21 Brasseler, Straumann, Carifree, Keysmile." Did
 22 I read that correctly?
 23 A. Yes.
 24 Q. So what were you telling Qadeer
 25 here?

Page 83

1 John C. Kois, DMD, MSD
 2 Q. And the next sentence, you probably
 3 explained this, "The incentive, therefore, to
 4 join is reduced for those potential members
 5 that can only use it limited to certain
 6 supplies."
 7 A. Yes.
 8 Q. What did you mean there?
 9 A. In other words, basically what they
 10 could order given the timely way that were, for
 11 many practices, inefficient representations of
 12 what their needs would be.
 13 Q. What about the Tribe Members in the
 14 Pacific Northwest, how did they feel about the
 15 buyers club?
 16 A. So they were thrilled --
 17 MR. FONTECILLA: Objection.
 18 THE WITNESS: They were thrilled
 19 with the buyers club because many of them,
 20 or I should say probably most of them,
 21 although I don't know that for sure, were
 22 already purchasing from Burkhart. It's
 23 been one of the dominant dental supply
 24 companies here in the Pacific Northwest, so
 25 for them it just reinforced what they

Page 85

1 John C. Kois, DMD, MSD
 2 A. This is the beginning of the
 3 separation of the ProCare Services, because I
 4 felt that the cost to the dentist was too high.
 5 This was my proposal to try to change the value
 6 of the buyers club, and this is when ProCare
 7 decided to opt out of the buyers club and he
 8 was -- not long after this, I don't remember
 9 exactly, we separated our relationship.
 10 These are the companies that were --
 11 the first companies that I mentioned earlier
 12 that became part of the direct companies that
 13 created more appeal for the buyers club and our
 14 individual Tribe Members.
 15 Q. So today in the Kois Buyers Group
 16 you no longer have a relationship with Qadeer
 17 for the Buyers Group; is that correct?
 18 A. That's correct.
 19 Q. But you still -- are you still in
 20 some business relationship with Qadeer?
 21 A. I am not.
 22 Q. Are you -- did you work with Qadeer
 23 at developing a system to do risk assessment on
 24 dental patients?
 25 A. So the -- the entire teaching center

Page 86

1 John C. Kois, DMD, MSD
 2 has been developing a risk assessment model
 3 from the entire inception of the center, and
 4 it's what I'm known for throughout the world in
 5 building a risk assessment model for dentists
 6 and moving dentists to a medical based
 7 platform.
 8 I only exposed Qadeer to what a risk
 9 assessment model was about so that maybe he
 10 could look into what could be done to improve
 11 dental healthcare, because what we were
 12 interested in is building an outcome model for
 13 dental health care services so dentists could
 14 be compensated based on outcomes rather than
 15 what they advertised they can do.
 16 Real, real outcomes that were
 17 generated by data, and so my whole focus at the
 18 center has been attempting to collect the
 19 necessary data to give credibility to this
 20 whole concept. In other words, very few lay
 21 people, the public doesn't really know how to
 22 choose a dentist other than what they read on
 23 the Internet, which I think in many cases is
 24 irresponsible.
 25 And I'm trying to find a better way

Page 87

1 John C. Kois, DMD, MSD
 2 for dentists to be accountable for what they
 3 provide patients in care, and this is what the
 4 center is built on. It's built on a dentist
 5 being able to establish their worth based on
 6 their outcome, and until that's really going to
 7 be done it's very difficult to really trust the
 8 person that's working on you.
 9 Q. Okay. But you have no formal
 10 business relationship with Qadeer --
 11 A. I do not.
 12 Q. -- involving this risk assessment
 13 today?
 14 A. I do not.
 15 Q. Who runs the Buyers Group today?
 16 A. That would mostly be my son, the CEO
 17 of the company, Johnny Kois.
 18 Q. And by CEO of the company, do you
 19 mean the --
 20 A. Kois Center.
 21 Q. Do you have day-to-day roles with
 22 the buying group today?
 23 A. I do not.
 24 Q. Do you know how many members joined
 25 the buying group in 2015 when it was the

Page 88

1 John C. Kois, DMD, MSD
 2 program described in CX1032?
 3 A. I do not, no.
 4 Q. Do you know how many members there
 5 are in the buying group today?
 6 A. I do not know for sure. That would
 7 be a better question for Johnny Kois.
 8 Q. Do you have any knowledge of the
 9 types of savings that Tribe Members are
 10 realizing today as members of the buying group?
 11 A. Yes.
 12 Q. What do you know about savings?
 13 A. I only hear from the data from
 14 Burkhart. I shouldn't say actually Burkhart.
 15 I hear from dentists that are actually part of
 16 the buyers club that tell me they've saved
 17 money in a given year being part of the buyers
 18 club.
 19 Q. In your opinion, are you happy with
 20 the success or how the buyers club is running
 21 today?
 22 A. To be honest, I'm happy that it's
 23 helping dentists that are part of the buyers
 24 club, but I actually thought maybe we'd have
 25 more involvement, so I'm not thrilled.

Page 89

1 John C. Kois, DMD, MSD
 2 Q. When you say we'd have more
 3 involvement, who do you mean by we?
 4 A. The Tribe.
 5 Q. By more involvement, what do you
 6 mean?
 7 A. Maybe more dentists would be
 8 members.
 9 Q. Do you think if a national full
 10 service distributor was a partner instead of
 11 Burkhart you'd have more members today?
 12 MR. RACOWSKI: Object to form.
 13 MR. GEORGE: Object to form.
 14 THE WITNESS: At this point, I don't
 15 think so.
 16 BY MS. BALBACH:
 17 Q. And why don't you think so?
 18 A. I don't think so, because now we
 19 have so many direct companies that offer
 20 alternatives, because now the center is global.
 21 In fact, we're introducing our global footprint
 22 this year at the symposium and so I feel that
 23 relationships we have with all the current
 24 companies are very equitable, so I don't think
 25 a different supply company would make any

Page 90

1 John C. Kois, DMD, MSD
 2 difference.
 3 Q. By different supply company you mean
 4 a different distributor?
 5 A. Yes, correct.
 6 Q. Would a different distributor make a
 7 difference for Tribe Members who have offices
 8 perhaps on the east coast?
 9 MR. RACOWSKI: Objection to form.
 10 MR. FONTECILLA: Objection.
 11 THE WITNESS: I think for the
 12 offices that require more service that
 13 would definitely be more appealing.
 14 BY MS. BALBACH:
 15 Q. What would be appealing?
 16 A. To have more service. In other
 17 words, more local representation in a given
 18 location for the issues I've mentioned in --
 19 previously. But many of the offices don't seem
 20 to require that kind of service any more. We
 21 live in a new world today. I would add,
 22 dentists use the Internet now and they shop
 23 online, and so having maybe specific local
 24 representation is maybe less critical than it
 25 was when we started the group.

Page 92

1 John C. Kois, DMD, MSD
 2 to be an e-mail from Chuck Cohen to John Kois
 3 dated Saturday, December 26, 2015. Do you
 4 recognize CX1035?
 5 A. I do now.
 6 Q. What is this document?
 7 A. This document is notifying me of a
 8 new group option that Benco was putting
 9 together with Cain Watters at this time.
 10 Q. If I direct your attention to the
 11 second paragraph, "One more note: In addition
 12 to a check-on on how we're doing so far, and
 13 what we could be doing better together, my
 14 objective is to review the new GPO/Buying Club
 15 that we've put together with Cain Watters.
 16 "When I spoke with you guys
 17 previously, I told him that we weren't ready
 18 yet, but would be soon, on a buying club.
 19 We're ready. I remember at the time you were
 20 working with a consultant, whose name I don't
 21 recall, on putting your Tribe offering
 22 together." Did I read that correctly?
 23 A. Yes, you did.
 24 Q. What is the new GPO buying club that
 25 Benco was putting together?

Page 91

1 John C. Kois, DMD, MSD
 2 Q. Do you remember in late 2015 talking
 3 to Benco about a replacement buying group or
 4 doing a new relationship with Benco for a
 5 buying group?
 6 MR. RACOWSKI: Objection to form,
 7 foundation.
 8 THE WITNESS: I only recall the
 9 basis of the e-mail that we already looked
 10 at where I asked -- I reached out to Chuck
 11 to see if his company would be interested,
 12 and at that time he was not interested and
 13 I didn't reach out after that.
 14 MR. LANG: Can I just ask how much
 15 more time you have because I think we're
 16 butting up on your two and a half hours.
 17 MS. BALBACH: I'm basically on my
 18 last topic, my last page.
 19 BY MS. BALBACH:
 20 Q. I would like to introduce what we've
 21 marked as CX1035, and this has a Bates number
 22 of BDS00385252.
 23 (Exhibit CX1035, marked.)
 24 BY MS. BALBACH:
 25 Q. What we've marked as CX1035, appears

Page 93

1 John C. Kois, DMD, MSD
 2 A. As I recall, the details of the
 3 buying club are still fuzzy to me, but I
 4 couldn't engage with any other company at the
 5 time because we had a signed contract with
 6 Burkhart, so I made that clear to Chuck when we
 7 met, but they were working with Cain Watters.
 8 I think that's an investment
 9 company, and trying to work with maybe
 10 enhancing the buyers club option with some
 11 other way of utilizing the financial aspects of
 12 Cain Watters. I don't remember exactly what
 13 the details of that were because at that point
 14 we weren't interested.
 15 Q. Was it your understanding that the
 16 Tribe Members would be invited to join this
 17 buying group?
 18 A. That our Tribe Members would be
 19 invited? I don't remember moving forward with
 20 any relationship with this option.
 21 Q. So you didn't move forward with
 22 this?
 23 A. I did not.
 24 Q. But did you meet with Benco to talk
 25 about this opportunity?

1 John C. Kois, DMD, MSD
 2 A. There was a meeting. You know, I've
 3 also lectured for Benco in several
 4 opportunities, so I've met with Chuck
 5 personally on several occasions, and so from
 6 time to time we may talk about what option may
 7 be available, but after we started the buyers
 8 club there were no other options for us.

9 Q. And there were no other options
 10 because of your exclusive agreement with
 11 Burkhart?

12 A. Yes, and I wanted to honor that.

13 Q. I'd like to introduce CX4042. It's
 14 Bates number KOIS001039.

15 (Exhibit CX4042, marked.)

16 BY MS. BALBACH:

17 Q. CX4042 appears to be an e-mail from
 18 Chuck Cohen to johnkois@hotmail, Johnny Kois,
 19 dated January 8, 2016.

20 MR. RYAN-LANG: Can I just say for
 21 the record that I noticed this document is not
 22 marked confidential and that we produced this
 23 document at a time that we assumed everything
 24 we were giving to the FTC would be
 25 confidential, so even though this document is

1 John C. Kois, DMD, MSD
 2 not labeled that way, we regard it as
 3 confidential.

4 MS. BALBACH: I agree that -- this
 5 document --

6 MR. RYAN-LANG: I'm not blaming you,
 7 I'm just saying.

8 MS. BALBACH: -- is confidential
 9 under the protective order.

10 BY MS. BALBACH:

11 Q. Do you recognize this document?

12 A. Again, I see it now. I don't
 13 remember the document actually.

14 Q. I wanted to call your attention to
 15 the first bullet point there. So there's an
 16 opening. "Based on our conversation, I spoke
 17 with Darrell Cain, and we made the following
 18 changes to the proposal."

19 First bullet, "Assuming that the
 20 Kois Center wanted to participate, we would
 21 open membership to any member of the Tribe;
 22 however, we'd like to discuss potentially
 23 narrowing, if only slightly, the definition of
 24 Tribe Member." Did I read that correctly?

25 A. Yes.

1 John C. Kois, DMD, MSD
 2 Q. Does this e-mail relate to the last
 3 e-mail we were discussing about Benco setting
 4 up a buying group?

5 A. It seems it does.

6 Q. And do you -- is it your
 7 understanding that Benco's buying group, if you
 8 were to join, and I understand the exclusivity
 9 with Burkhart, but that Benco's buying group
 10 would be open to members of the Tribe?

11 MR. RACOWSKI: Objection to form.

12 THE WITNESS: That's what the e-mail
 13 says.

14 BY MS. BALBACH:

15 Q. Did your discussions with Benco
 16 about this buying group, did you have extensive
 17 discussions with him about the buying group?

18 A. I wouldn't say extensive
 19 discussions. I remember Chuck verbally trying
 20 to describe what the relationship would be with
 21 Cain Watters. It was very convoluted and
 22 wasn't clear to me. As I said, that's not my
 23 area of expertise and I was not interested in
 24 moving forward in that regard at all.

25 Q. Do you recall if it would be set up

1 John C. Kois, DMD, MSD
 2 at least in part as a buying group that would
 3 allow the Tribe Members to save money on their
 4 dental supplies?

5 A. I don't remember any details being
 6 discussed at this time other than he was
 7 letting me know their relationship that was a
 8 potential option with Cain Watters. Other than
 9 that, we never discussed any other details.

10 Q. And so how did you ultimately
 11 respond to Benco in early 2016?

12 A. We never went forward with any
 13 agreement and stayed with Burkhart.

14 Q. Did Benco follow up with you at --
 15 after this point, like a year or so later, to
 16 let you know how their buying group was going?

17 A. I don't know the answer to that.

18 Q. I guess I could rephrase it. Have
 19 you had any more recent conversations with
 20 Benco about a buying group -- with doing a
 21 buying group with Benco?

22 A. I don't actually recall when the
 23 last discussion was regarding a buyers club. I
 24 don't know the answer to that.

25 Q. You mentioned earlier that you did

1 John C. Kois, DMD, MSD
 2 have a relationship with Benco, a partnership
 3 that somehow involved the Kois Center. Can you
 4 describe what that agreement was?
 5 A. Yes, and I would assume I still have
 6 a relationship with Benco. They've always been
 7 good to us, and we agreed to do some lecture
 8 opportunities in their facility to help the
 9 dentists that were clients of Benco, and I was
 10 providing education for them and Benco
 11 sponsored the educational opportunity. They
 12 set up the room, they made all the
 13 arrangements. It was a very nice relationship.
 14 Q. Is the relationship limited to
 15 education and you speaking for them and it's
 16 not about supplies?
 17 A. That's correct. It's completely
 18 about education.
 19 Q. And do you still have a formal
 20 contractual relationship with them about the
 21 Kois Center?
 22 A. We do not, it expired.
 23 Q. And when did that relationship
 24 expire, do you know?
 25 A. I'd have to go back and look at the

1 John C. Kois, DMD, MSD
 2 document, but I think I would say probably
 3 September or October of 2016, or somewhere
 4 wherever -- whatever the contract had
 5 stipulated, when that expired it was never
 6 renewed, and I'm speaking of the teaching
 7 contract.
 8 MS. BALBACH: Can we go off the
 9 record?
 10 (Break from 11:22 to 11:29 a.m.)
 11 MS. BALBACH: I think we're going to
 12 stop at this point. We might want to come
 13 back with some redirect as I might have it.
 14 CROSS-EXAMINATION
 15 BY MR. RACOWSKI:
 16 Q. Good morning, Dr. Kois. My name is
 17 Ken Racowski. We've met this morning, I'm a
 18 lawyer for Benco Dental. I'm going to ask you
 19 some questions, and similar to the instructions
 20 and ground rules that you've discussed with
 21 Ms. Balbach, I would encourage you to follow
 22 those same instructions and guidelines. Do you
 23 understand that?
 24 A. I do.
 25 Q. You had testified earlier today that

1 John C. Kois, DMD, MSD
 2 you were the founder of the Kois Center; is
 3 that correct?
 4 A. Yes.
 5 Q. And when was that?
 6 A. Originally, in 1994.
 7 Q. And did you start teaching on a
 8 national level prior to 1994?
 9 A. I did.
 10 Q. Okay. And so at the time you
 11 founded the Kois Center in 1994, you were
 12 already a nationally established lecturer,
 13 teacher?
 14 A. That's correct.
 15 Q. And what was the purpose of founding
 16 the Kois Center?
 17 A. To provide a curriculum -- a
 18 graduate program for practicing dentists; that
 19 didn't exist anywhere in the world at that
 20 time.
 21 Q. It was the first of its kind?
 22 A. Yes, it was.
 23 Q. And since that time in 1994, has the
 24 Kois Center succeeded in meeting that goal?
 25 A. Yes, it has.

1 John C. Kois, DMD, MSD
 2 Q. And sitting here today, could you
 3 describe how the Kois Center has grown either
 4 in scale or scope and prominence?
 5 A. I can tell you in 1994 we would have
 6 no more than a dozen courses per year. There
 7 were only four core courses and we'd have
 8 anywhere from 12 to 16 participants. Now we've
 9 moved to nine core courses, there are
 10 additional auxiliary courses that we offer at
 11 the center.
 12 We have seating capacity for 38
 13 dentists at a time with additional capacity up
 14 to 65, and we've opened up a new facility, so
 15 we've grown enormously in the last 24 years.
 16 In fact, next month we are celebrating our 20th
 17 symposium anniversary; that's only when
 18 graduates come back. It took several years for
 19 students to become graduates.
 20 Q. And sitting here today, is it still
 21 accurate to say that the Kois Center is unique
 22 and that there's nothing like it in the world?
 23 A. I believe that's correct.
 24 Q. Are there other centers like the
 25 Kois Center that offer the same services to the

<p style="text-align: right;">Page 102</p> <p>1 John C. Kois, DMD, MSD 2 dental profession? 3 A. I would say there are other 4 services -- other centers, excuse me, but to my 5 knowledge those other centers are taught by a 6 variety of different people and they don't have 7 a common core philosophy, common core message. 8 In the Kois Center, I'm the core teacher for 9 all the courses. 10 Q. And is it fair to say that in the 11 time since 1994 that your reputation and demand 12 as a speaker and teacher of the dental industry 13 has only grown? 14 A. I believe that's correct. In fact, 15 now most of our new students are coming from 16 the siblings or associates of dentists I've 17 trained 20 years ago. 18 Q. You've mentioned earlier today that 19 you've known Chuck Cohen on the personal level. 20 When did you first meet Chuck Cohen? 21 A. I don't actually recall the original 22 meeting. I don't know the answer to that, but 23 I'm going to say at least five or six years 24 I've known him. 25 Q. Five or six years back from today?</p>	<p style="text-align: right;">Page 103</p> <p>1 John C. Kois, DMD, MSD 2 A. Yes. 3 Q. Okay. At the time of the founding 4 of the center in the '90s, you did not know him 5 at the time? 6 A. No. 7 Q. Did you know Larry Cohen? 8 A. No. I had met him only after I met 9 Chuck Cohen and I was at one of their 10 facilities. He came to one of the courses and 11 we also had a dinner together. You're speaking 12 about Chuck's father; is that correct? 13 Q. Correct. 14 A. Yes, yes. 15 Q. And so then prior to the first 16 meeting with Chuck did you have any 17 relationship with Benco Dental? 18 A. No. 19 Q. Did you have any knowledge of Benco 20 Dental before that meeting with Chuck? 21 A. I've heard of -- I always heard of 22 Benco Dental. 23 Q. If you can think about that time 24 period before you met Mr. Cohen, what is it 25 that you knew about Benco at that time?</p>
<p style="text-align: right;">Page 104</p> <p>1 John C. Kois, DMD, MSD 2 A. That it was primarily an east coast 3 dental supply company. 4 Q. And would you say that that 5 understanding is still true today, that Benco 6 is an east coast supply company? 7 A. I would say in general that's my 8 perception, although I know they branched out 9 to come to the west coast as well. 10 Q. What was the occasion when you first 11 met Chuck Cohen, if you recall? 12 A. I don't recall, I'm sorry. 13 Q. Did there come a time where the Kois 14 Center entered into a business relationship 15 with Benco Dental? 16 A. The only business relationship we 17 had with Benco Dental was the educational 18 opportunities that we had with Benco Dental. 19 And there was another option to see if we can 20 offer courses through their dental sales 21 representative. 22 Q. And when about did that business 23 relationship that you just described begin? 24 A. I'm assuming shortly after my 25 initial meeting with Chuck, so I'm thinking it</p>	<p style="text-align: right;">Page 105</p> <p>1 John C. Kois, DMD, MSD 2 would be prior to any of the buyers club 3 agreements that were established. So I'm 4 thinking also in that six year or five -- or 5 six year ago time frame. 6 Q. Did the Kois Center enter into any 7 written agreement formalizing this 8 relationship? 9 A. Yes, I did. 10 Q. Do you remember the date of that 11 first agreement? 12 A. I do not. 13 Q. Would you have reason to doubt that 14 agreement was first entered in May of 2012? 15 A. No, that's consistent with the time 16 frame that I've already reported. 17 Q. Can you tell me a little bit about 18 the nature of that business relationship? 19 A. The relationship was primarily 20 offering educational opportunities to many of 21 his existing clients, and I lectured in two 22 facilities, one on the east coast, another one 23 on the west coast, and I also did -- I think 24 they called it a spring fling, something like 25 that, where they have a bigger meeting, and</p>

Page 106

1 John C. Kois, DMD, MSD
 2 that was also held on the east coast.
 3 Q. And you understand that pursuant to
 4 this agreement you became what Benco calls a
 5 success partner?
 6 A. That's correct.
 7 Q. Do you know how many success
 8 partners Benco had at that time?
 9 A. I do not.
 10 Q. During the course of negotiating
 11 that agreement did you have discussions with
 12 Mr. Cohen about the agreement?
 13 A. Yes.
 14 Q. Do you recall Mr. Cohen ever telling
 15 you that it was important to have a
 16 relationship with the Kois Center due to Kois
 17 Center and your reputation nationally in the
 18 dental industry?
 19 A. I do.
 20 Q. That was the driving force why Benco
 21 wanted the relationship, correct?
 22 A. Correct.
 23 Q. Do you recall that Benco undertook
 24 marketing and promotion obligations to the Kois
 25 Center as part of the agreement?

Page 107

1 John C. Kois, DMD, MSD
 2 A. Yes.
 3 Q. Do you remember what they did from a
 4 marketing and promotion perspective?
 5 A. I believe they educated their sales
 6 force on what our courses were about, and so
 7 many of the individual sales personnel would
 8 provide opportunities for their clients to get
 9 some understanding of what the Kois Center was.
 10 Especially, at that time we were not
 11 as well known on the east coast, so it was an
 12 option for us to increase our visibility on the
 13 east coast as well because we don't advertise
 14 at all.
 15 Q. Right. You had said that earlier in
 16 your testimony this morning that the Kois
 17 Center didn't advertise and you primarily gain
 18 new students by word of mouth?
 19 A. That's correct.
 20 Q. Is this the first time there was
 21 marketing and promotion of the Kois Center from
 22 coast to coast?
 23 A. Yes.
 24 Q. And --
 25 A. It wasn't done through the Kois

Page 108

1 John C. Kois, DMD, MSD
 2 Center, it was done through what Benco did as a
 3 success partner.
 4 Q. Correct. I understand that. As
 5 part of that agreement, did Benco receive any
 6 compensation?
 7 A. No.
 8 Q. Was there any agreement to pay
 9 commission to Benco for new students that it
 10 drove to the Kois Center?
 11 A. Yes, there was an agreement to try
 12 to compensate their sales personnel for anyone
 13 that they would get to become a student at the
 14 center.
 15 Q. And is it fair to say though that
 16 during the course of the relationship that was
 17 a relatively small number?
 18 A. Yes.
 19 Q. Okay. It was difficult to track
 20 whether the new student came through Benco or
 21 other --
 22 A. Yes, it was very problematic in
 23 terms of the way to implement, so it was not
 24 continued.
 25 Q. But is it also fair to say from May,

Page 109

1 John C. Kois, DMD, MSD
 2 2012, to present, the Kois Center has expanded
 3 in terms of the number of students?
 4 A. Yes.
 5 Q. Earlier today Ms. Balbach showed you
 6 a document that appeared to be sales pitches
 7 from Mr. Ahmed to Patterson and Schein. Do you
 8 recall looking at those documents?
 9 A. I do.
 10 Q. Are you aware of Mr. Ahmed ever
 11 sending any kind of sales pitch similar to that
 12 to Benco?
 13 A. No.
 14 Q. Let's look back at one of the
 15 exhibits you were asked about earlier this
 16 morning. The exhibit number, I believe, is
 17 CX4062-001. It's got a big black box at the
 18 top.
 19 MR. RYAN-LANG: 406?
 20 MR. RACOWSKI: 2-001.
 21 BY MR. RACOWSKI:
 22 Q. The e-mail starting below the black
 23 box is starting from Qadeer Ahmed to Dr. Kois
 24 dated October 21, 2014. Do you have that one
 25 in front of you?

1 John C. Kois, DMD, MSD
 2 A. Yes.
 3 Q. If we go back to the end of the
 4 document, which is the first e-mail in the
 5 thread, that e-mail is dated October 21, 2014.
 6 Do you see that one?
 7 A. I do.
 8 Q. And in this e-mail you're
 9 introducing Qadeer Ahmed to Chuck Cohen; is
 10 that correct?
 11 A. That's right.
 12 Q. Do you have any understanding that
 13 prior to this e-mail that you sent to Mr. Cohen
 14 that Mr. Ahmed had any contact with Kois about
 15 the buying group?
 16 A. I don't believe so.
 17 Q. Why is it you sent this e-mail to
 18 Mr. Cohen, if you remember?
 19 A. Because I was not involved in any of
 20 the negotiations with any of the supply
 21 companies, that's what Qadeer was doing, and so
 22 I was just making the introduction.
 23 Q. And so then if we turn over to the
 24 second page of that document, to the e-mail in
 25 the middle of the page from Chuck Cohen to you,

1 John C. Kois, DMD, MSD
 2 CCing Julie Radzyninski. Do you see that one?
 3 A. Yes.
 4 Q. Mr. Ahmed is not on this e-mail. It
 5 appears Mr. Cohen had dropped Mr. Ahmed and
 6 inserted Julie Radzyninski in this response to
 7 you; is that right?
 8 A. Yes.
 9 Q. And he writes, "Confidentially,
 10 we're looking at buying club options and should
 11 have some ideas to discuss some time in early
 12 2015. That said, whatever we do, I don't think
 13 we'll need to involve an outside company like
 14 Equalizer ProServices or anyone else, they'll
 15 just take a cut of the savings." Did I read
 16 that right?
 17 A. Yes.
 18 Q. What did you understand that e-mail
 19 to be communicating to you?
 20 A. Exactly what it says.
 21 Q. And in the second paragraph, turn it
 22 over to next page, it continues, "So, with your
 23 permission I'm going to politely give Qadeer
 24 our standard answer of thanks, but we don't do
 25 buying groups. And then I'll make a note to

1 John C. Kois, DMD, MSD
 2 reconnect on this issue in early 2015." Did I
 3 read that correctly?
 4 A. Yes.
 5 Q. Did you understand Mr. Cohen to be
 6 saying we're interested in having this
 7 discussion about participating with your buying
 8 group but we don't need this third party
 9 involved?
 10 A. Yes.
 11 Q. And is that response consistent with
 12 your prior dealings and view of Mr. Cohen?
 13 MS. BALBACH: Objection.
 14 THE WITNESS: Yes, subsequent to
 15 this time, or referring from this time
 16 forward.
 17 BY MR. RACOWSKI:
 18 Q. Even before this time period you had
 19 an ongoing relationship with Benco in
 20 continuing education, correct?
 21 A. Yes.
 22 Q. I think you said that you had a
 23 positive relationship with Mr. Cohen, correct?
 24 A. Yes.
 25 Q. And here he's offering to have a

1 John C. Kois, DMD, MSD
 2 discussion with you in saying we don't need a
 3 third party to take a cut, correct?
 4 A. Yes.
 5 Q. That's consistent with everything
 6 you knew about Mr. Cohen and his personality?
 7 A. Absolutely. I never presented it
 8 from the previous time, that's all I'm saying.
 9 Q. Understand. If we look at the top
 10 e-mail in that thread from Mr. Ahmed back to
 11 you, the same date, October 21, 2014, he says,
 12 "Well I guess Chuck knows our secret plans
 13 better than you and I do. Anyway, life is too
 14 short to deal with guys who believe they know
 15 everything. Appreciate the intelligence, we'll
 16 proceed with people who want to make a
 17 difference and make money too." Do you see
 18 that?
 19 A. I'm sorry?
 20 Q. If we go back to the very first page
 21 of the document under the big black box.
 22 A. I see. I got it now. I picked up
 23 on it. Okay.
 24 Q. Sorry, I cut out a step. Let's go
 25 back to page 2. Mr. Cohen had wrote to you

1 John C. Kois, DMD, MSD
 2 dropping Mr. Ahmed, but then you forward the
 3 e-mail individually to Mr. Ahmed, correct?
 4 A. Yes.
 5 Q. Okay. And so then what I was
 6 focusing on and read a moment ago was
 7 Mr. Ahmed's response just to you. Do you see
 8 that now?
 9 A. Yes.
 10 Q. And it says, "Well I guess Chuck
 11 knows our secret plan better than you and I do.
 12 Anyway, life is too short to deal with guys who
 13 believe they know everything. Appreciate the
 14 intelligence, we'll proceed with people who
 15 want to make a difference and make money, too."
 16 Do I read that correctly?
 17 A. Yes.
 18 Q. What is your understanding Mr. Ahmed
 19 is communicating to you there?
 20 A. I don't know. That's the way he
 21 speaks? I don't know what to say.
 22 Q. Did you understand the thrust of
 23 that e-mail to be that Mr. Ahmed did not want
 24 to deal with Mr. Cohen or Benco?
 25 MS. BALBACH: Objection.

1 John C. Kois, DMD, MSD
 2 THE WITNESS: Well, there was an
 3 original e-mail that said they didn't do
 4 buyer buying groups, that was in 2014. But
 5 in early of 2015 there was an opportunity,
 6 that was my understanding as I go back,
 7 because we're going back four years ago,
 8 but I remember the e-mail that we looked at
 9 a couple of hours ago.
 10 BY MR. RACOWSKI:
 11 Q. Right. Apologies, bad question. I
 12 got us confused. Let's go back to the same
 13 document, pages 2 of the e-mail where Mr. Cohen
 14 wrote to you where he dropped Mr. Ahmed.
 15 He said, "Again, in summary, happy
 16 to have this discussion with you. We don't
 17 need a third party, so I'll tell the third
 18 party thanks, but we don't do buying groups."
 19 Do you see that that?
 20 A. Yes, that's correct.
 21 Q. Okay. So he never actually told you
 22 or the Kois Center that he was not interested,
 23 Benco was not interested in having any
 24 discussions about the buying group you were
 25 forming; is that correct? He just didn't want

1 John C. Kois, DMD, MSD
 2 THE WITNESS: It was my
 3 understanding he would not be able to
 4 proceed working with Chuck.
 5 BY MR. RACOWSKI:
 6 Q. And after the date of this e-mail,
 7 October 21, 2014, are you aware of Mr. Ahmed
 8 making any efforts to engage Benco in the
 9 buying group that the Kois Center was forming
 10 at this time?
 11 A. I am not.
 12 Q. Okay. So Mr. Cohen told you, "Happy
 13 to have the discussion, we don't need third a
 14 party." Then Mr. Ahmed, who is the third party
 15 says, "We don't need to talk to Chuck and
 16 Benco," correct?
 17 A. Correct.
 18 MS. BALBACH: Objection.
 19 BY MR. RACOWSKI:
 20 Q. Isn't it correct that at no time did
 21 Benco ever tell you or Mr. Ahmed, to your
 22 knowledge, that they didn't want to participate
 23 with you and the Kois Center in this buying
 24 group in 2014?
 25 MS. BALBACH: Objection, form.

1 John C. Kois, DMD, MSD
 2 to have them with Mr. Ahmed?
 3 MS. BALBACH: Objection, form.
 4 THE WITNESS: I'm a little confused.
 5 I thought -- could we just review this
 6 whole line of questioning again?
 7 BY MR. RACOWSKI:
 8 Q. Of course. Take all the time you
 9 need.
 10 A. I just want to make sure I'm
 11 answering this correctly. So, it is true that
 12 based on the date of this what you're saying is
 13 they were looking at buying club options, but
 14 this is now after the time we signed with
 15 Burkhart so we didn't have any other
 16 opportunities, and they said this would come in
 17 early of 2015, that is correct.
 18 Q. Okay. I think you lost me with that
 19 answer, but let's just try to wrap this up
 20 quickly if we can. So in this e-mail, in the
 21 center of the document, Mr. Cohen to you, he
 22 says to you, his success partner, who he has an
 23 agreement on continuing education with, "Happy
 24 to have this discussion with you and the Kois
 25 Center in 2015, but we don't need a third

<p style="text-align: right;">Page 118</p> <p>1 John C. Kois, DMD, MSD 2 party," correct? 3 A. Yes, yes, that's correct. 4 Q. And he then says in the second 5 paragraph, "I'll tell the third party thanks, 6 but no thanks." Did you understand that to 7 mean that then he could come back to you 8 without Mr. Ahmed in 2015? 9 A. Yeah, yeah, so that is correct. 10 Q. And then in the e-mail above that 11 that Mr. Ahmed wrote to you informative 12 substance he says, "I don't want to deal with 13 Chuck Cohen or Benco anymore," correct? 14 A. Yes. 15 MS. BALBACH: Objection. 16 BY MR. RACOWSKI: 17 Q. And so ultimately, during this time 18 period when Mr. Ahmed and ProCare were running 19 -- or attempting to form the buying group, the 20 supply company that was ultimately chosen was 21 Burkhart Dental, right? 22 A. That's correct. 23 Q. And you've testified earlier today 24 that Burkhart had been your primary supplier 25 since very early in your practice, correct?</p>	<p style="text-align: right;">Page 119</p> <p>1 John C. Kois, DMD, MSD 2 A. Yes. 3 Q. Okay. And you buy the large 4 majority of supplies from Burkhart over your 5 three plus decades in your career as a dentist? 6 A. Yes. 7 Q. Whose decision was it to select 8 Burkhart as the supply company or distributor 9 in late 2014 for the buying group? 10 A. That would be mine. 11 Q. So after Mr. Ahmed had attempted to 12 reach out to Schein and Patterson, and then the 13 attempt that we just looked at with Benco, you 14 stepped in and went to Burkhart, correct? 15 A. That's correct. 16 Q. And that was based on I think you 17 said your long history with them and your 18 personal relationship, right? 19 A. Yes. 20 Q. Earlier today you testified that one 21 of your students at the Kois Center brought 22 Mr. Ahmed and ProCare to your attention; is 23 that right? 24 A. Yes. 25 Q. Who was that student?</p>
<p style="text-align: right;">Page 120</p> <p>1 John C. Kois, DMD, MSD 2 A. Rob Capell (phonetic), Robert 3 Capell. 4 Q. And how did that come about? 5 A. He was a student. He came as a 6 student after attending a course I gave 7 somewhere in Toronto, and then during the 8 course he told me he had a history with this 9 business person and there's a group of dentists 10 that use Qadeer as a consultant for business 11 opportunities, and that's how I learned about 12 Qadeer. 13 Q. Did you first tell Mr. Capell that 14 you and the Kois Center wanted to form a buying 15 group, or was it Mr. Capell that came to you 16 with the idea of Mr. Ahmed to form a buying 17 group? 18 MS. BALBACH: Objection. 19 THE WITNESS: I'm not sure I 20 actually specifically recall that answer, 21 but I think it was my idea. 22 BY MR. RACOWSKI: 23 Q. Okay. And at that time did you have 24 any understanding of Mr. Ahmed's experience in 25 the dental industry?</p>	<p style="text-align: right;">Page 121</p> <p>1 John C. Kois, DMD, MSD 2 A. I did not. To my knowledge, he did 3 not have experience other than working 4 personally with other dentists. 5 Q. In what capacity? 6 A. I don't know. 7 Q. And is that still true today that 8 other than the Kois Buying Group and working 9 personally with other dentists, that your 10 understanding is Mr. Ahmed has no other dental 11 experience? 12 A. I don't know. 13 Q. Okay. Did you or the Kois Center do 14 any due diligence about Mr. Ahmed's background 15 prior to bringing him in to form the buying 16 group? 17 A. I did not. 18 Q. Did you have any discussion with 19 Mr. Ahmed on the phone before you signed an 20 agreement with ProCare? 21 A. I did. 22 Q. And do you recall what the substance 23 of any of those discussions were? 24 A. I thought he was a very bright 25 business person that was very skillful in</p>

1 John C. Kois, DMD, MSD
 2 negotiation. He seemed to be even very
 3 knowledgeable about dentistry even though he
 4 wasn't a dentist. He's very well read and he
 5 was impressive to listen to.
 6 Q. So very positive first impression he
 7 made?
 8 A. Yes.
 9 Q. So sitting here today and looking
 10 back on the course of the relationship between
 11 the Kois Center and the buying group and
 12 Mr. Ahmed, what's your impression of Mr. Ahmed
 13 and his business acumen?
 14 A. He is a very smart businessman.
 15 Q. Do you still believe he's a very
 16 good negotiator that might be able to help the
 17 Kois Center?
 18 A. I do.
 19 Q. Did he help the Kois Center?
 20 A. No. Ultimately.
 21 Q. What's your view of why he didn't
 22 help the Kois Center?
 23 A. I don't think we were big enough.
 24 Q. So is it your view that it wasn't
 25 anything Mr. Ahmed himself did, but that it was

1 John C. Kois, DMD, MSD
 2 the Kois Center's composition or existence
 3 itself at the point in time it was trying to
 4 form this buying group that led to the initial
 5 failure?
 6 MS. BALBACH: Objection, form.
 7 THE WITNESS: So let me think about
 8 that for a minute because it's an
 9 interesting question. I think Kois Center
 10 certainly has the reputation it has for
 11 education, but certainly doesn't have any
 12 track record regarding a buyers club.
 13 So at that point we were very new to
 14 the opportunity, so I think that was not so
 15 positive, and I think it's possible from
 16 maybe what I heard from Burkhart is the
 17 negotiation with Mr. Ahmed is not easy and
 18 so the relationship to the Kois Center was
 19 ultimately becoming the deciding factor.
 20 BY MR. RACOWSKI:
 21 Q. So ultimately the Kois Buying Group
 22 obtained a dental distributor, Burkhart,
 23 through your efforts, correct?
 24 A. That's correct.
 25 Q. And then your son, Johnny Kois,

1 John C. Kois, DMD, MSD
 2 ultimately took over for Mr. Ahmed running the
 3 buying group, correct?
 4 A. Yes.
 5 Q. When was that date, approximately?
 6 A. Johnny became the CEO of the Kois
 7 Center March of 2015, and since then he's taken
 8 care of all the responsibilities regarding the
 9 business aspects of the center, that includes
 10 the buyers club.
 11 Q. And I believe Mr. Kois testified
 12 earlier in this case that around March, 2015,
 13 there were approximately 170 members of the
 14 Kois Buying Group at the time; does that sound
 15 right to you?
 16 A. Yes, it does.
 17 Q. How many members are there today?
 18 A. As I said, I don't know an exact
 19 number. You can probably ask Johnny. I'm
 20 thinking it's around 600.
 21 Q. Fair enough. We will, but is it
 22 fair to say that from the time that Johnny took
 23 over from March of 2015 to present that the
 24 buyers club has been successful?
 25 A. Yes.

1 John C. Kois, DMD, MSD
 2 MS. BALBACH: Objection.
 3 BY MR. RACOWSKI:
 4 Q. Earlier today you testified that the
 5 Kois Center's separation with ProCare was
 6 because it, quote, wasn't consistent with our
 7 Tribe. Do you remember that?
 8 A. Yes.
 9 Q. What did you mean by that?
 10 A. It had too much of a business feel
 11 and not a feel -- a relationship feel that we
 12 have with our Tribe Members, so I was
 13 uncomfortable with the relationship.
 14 Q. Sorry. And isn't it true that one
 15 of the first things that Johnny did when he
 16 took over running the buying club is he slashed
 17 the cost to the dentist members?
 18 A. That's correct.
 19 Q. What were the financial terms of the
 20 relationship between the Kois Center and
 21 ProCare?
 22 A. Originally, I think it was intended
 23 to be a fifty-fifty split in the commission of
 24 the buyers club.
 25 Q. I'm sorry, what do you mean by

1 John C. Kois, DMD, MSD
2 commission of the buyers club?

3 A. In other words, there was --
4 dentists were initially going to pay based on
5 how much -- what level of inventory they were
6 purchasing, and from that relationship they
7 would establish what his company would get
8 versus what our company would get from that and
9 that never worked out.

10 Q. So is what you're describing some
11 type of split between the Kois Center and
12 ProCare of the membership fees that the member
13 dentist brought to the buying group?

14 A. Yes, only membership fees. We had
15 no relationship with any of the companies in
16 any of the products.

17 Q. Was there any other compensation or
18 financial incentives that the Kois Center
19 offered to Mr. Ahmed and ProCare other than the
20 split that you just described?

21 A. No.

22 Q. Ultimately, did the Kois Center wind
23 up paying Mr. Ahmed and ProCare any money?

24 A. Yes.

25 Q. How much?

1 John C. Kois, DMD, MSD

2 A. I'd have to go back and look at the
3 exact amount of money, but we did pay what he
4 was owed.

5 Q. And do you recall, recognizing you
6 don't remember the specific amounts, do you
7 recall whether what the Kois Center paid to
8 Mr. Ahmed and ProCare was substantially the
9 terms that you had agreed to with him up front,
10 the split of the membership fees?

11 A. Yes.

12 Q. And do you know when that payment
13 was made?

14 A. Sorry, I don't.

15 Q. And let's look at another exhibit
16 that you discussed with Ms. Balbach this
17 morning. Actually, it's two exhibits. First
18 one is CX1035 and next one is CX4042. Both are
19 e-mails involving you and Mr. Cohen and others.

20 A. Okay. I have it.

21 Q. The first exhibit, CX1035, that's an
22 e-mail dated December 26, 2015, from Mr. Cohen
23 to you, correct?

24 A. Yes.

25 Q. And so at that time, in December 26,

1 John C. Kois, DMD, MSD
2 2015, Burkhart was the exclusive supplier of
3 dental supplies to the Kois Buying Group,
4 correct?

5 A. The exclusive dental supply company,
6 but not of all the supplies.

7 Q. Right, because you had some direct
8 manufacturers?

9 A. Correct.

10 Q. But in terms of what I call
11 distributors and you seem to be calling supply
12 companies, Burkhart was the exclusive one of
13 those at the time?

14 A. Yes.

15 Q. And the agreement that the Kois
16 Center, the buying Group had with Burkhart
17 prevented the Kois Center and the buying group
18 from adding a second supply company or
19 distributor?

20 A. Correct.

21 Q. And that's why these discussions
22 that Mr. Cohen initiated in December of 2015
23 ultimately ended, correct?

24 A. Yes.

25 MS. BALBACH: Objection.

1 John C. Kois, DMD, MSD

2 BY MR. RACOWSKI:

3 Q. Is it fair to say that these two
4 exhibits show Benco approaching you and the
5 Kois Center with an opportunity, and the Kois
6 Center and Kois Center Buying Group politely
7 informing Benco they were not contractually
8 able to form such a relationship at that time
9 due to the Burkhart contract?

10 A. Correct.

11 Q. Okay. Who is Jerry Ritsema? Is
12 that a name you know?

13 A. Can you put a context around that?

14 Q. No, that's okay. Do you know who
15 Ovinia Gagsits (phonetic) is?

16 A. Yes, that's Linea. That's one of
17 the individuals at the Kois Center that was in
18 management.

19 Q. What role, if any, did she have in
20 the buying group?

21 A. She helped with just relaying
22 correspondence with Chuck or Julie, or any of
23 the folks that we were in contact with at
24 Benco. She was on the e-mail chain.

25 Q. I had asked if she had any role with

<p style="text-align: right;">Page 130</p> <p>1 John C. Kois, DMD, MSD 2 the buying group and I think you answered a 3 different question, so let me go back to the 4 question I asked. 5 A. The answer is no. 6 Q. So she had a role in the 7 relationship that the Kois Center had with 8 Benco regarding continuing education? 9 A. Yes, yes, because she's my outside 10 lecture coordinator. 11 Q. And, you know, just to close the 12 loop where we began with the relationship with 13 Benco, did there come a point in time when the 14 contractual relationship between Benco and the 15 Kois Center ended? 16 A. Yes. 17 Q. Do you recall approximately when 18 that was? 19 A. I don't remember exactly, but I'm 20 thinking in the fall of 2016 or 2017. It 21 probably would be in the fall of 2016 was 22 probably one of my last lectures. 23 Q. Okay. And you testified earlier 24 today that you believe, sitting here today, 25 that you still have a relationship with Benco,</p>	<p style="text-align: right;">Page 131</p> <p>1 John C. Kois, DMD, MSD 2 correct? 3 A. Absolutely. 4 Q. And do you recall Mr. Cohen 5 communicating to you that after the contract 6 ended that Benco was still going to honor their 7 side of the deal and try to direct students to 8 the Kois Center? 9 A. Absolutely. 10 MS. BALBACH: Objection. 11 BY MR. RACOWSKI: 12 Q. And didn't he tell you that's 13 because the Kois Center is unique in the world 14 and that it's a benefit to Benco's customers 15 and sales team to continue to go to courses at 16 the Kois Center? 17 MS. BALBACH: Objection. 18 THE WITNESS: Yes. 19 BY MR. RACOWSKI: 20 Q. Do you know who a Dr. Felipe 21 (phonetic) is? 22 A. Yes, he's one of our students. 23 Q. Do you know if Mr. Felipe was or is 24 a member of the buying group? 25 A. I don't know with certainty.</p>
<p style="text-align: right;">Page 132</p> <p>1 John C. Kois, DMD, MSD 2 Q. Okay. After March of 2015, when 3 Johnny took over running the buying group, what 4 role and involvement, if any, did you have in 5 the buying group? 6 MS. BALBACH: Objection. 7 THE WITNESS: In terms of the 8 implementation, the structure, none. Only 9 involved in what research we'd be doing for 10 the group. 11 BY MR. RACOWSKI: 12 Q. So in terms of the day-to-day 13 management, which dentists were in, which 14 dentist were out, whether it was growing, what 15 the relationships with the vendors were, that 16 was all Johnny and you didn't have any 17 involvement in any of that, correct? 18 A. That's correct. 19 Q. Who's Darrell Cain, if you know? 20 A. I'm assuming just by the last name 21 he's part of Cain Watters, an investment 22 company. 23 Q. Have you ever met Mr. Cain? 24 A. I have not. 25 Q. Have you ever had any discussions</p>	<p style="text-align: right;">Page 133</p> <p>1 John C. Kois, DMD, MSD 2 with Mr. Cain? 3 A. I have not. 4 Q. What's the relationship, if any, 5 between the Kois Center and Seattle Study Club? 6 A. A teaching relationship. I've done 7 many lectures for the Seattle Study Club groups 8 and been involved in many of their symposiums, 9 education only. 10 Q. Do you or the Kois Center have any 11 other business or financial relationship with 12 the Seattle Study Club other than teaching? 13 A. Absolutely not. 14 Q. What's Sinclair Dental Company, LTD? 15 A. That's a Canadian dental supply 16 company, Canadian based dental supply company. 17 Q. And whereas Burkhart is the 18 exclusive U.S. supply company for the buying 19 group, is Sinclair the exclusive Canadian 20 supply company for the buying group? 21 A. Yes. 22 Q. And do you know what role Arjang 23 Nowtash has at Sinclair? 24 A. I believe he's either one of the 25 owners or one of the principals in the company.</p>

1 John C. Kois, DMD, MSD
 2 I've never had any discussions with the
 3 company, that's completely with Johnny.
 4 Q. Do you know Frank Nowtash?
 5 A. The name I don't recall.
 6 Q. Do you have any dealings, you or the
 7 Kois Center, with Arnold Dental Company?
 8 A. I don't know the company.
 9 Q. In the time that you've been in the
 10 dental industry, have you known Patterson,
 11 Schein and Benco to behave as anything other
 12 than fierce competitors?
 13 MS. BALBACH: Objection.
 14 THE WITNESS: I have not.
 15 BY MR. RACOWSKI:
 16 Q. Are you aware that the FTC, in its
 17 complaint in this action, alleges that
 18 Patterson, Schein and Benco entered into an
 19 agreement not to do business with buying
 20 groups?
 21 A. I'm aware now.
 22 Q. Prior to my telling you that, were
 23 you aware of that?
 24 A. I've been aware, yes.
 25 Q. Okay. You don't have any personal

1 John C. Kois, DMD, MSD
 2 knowledge of any such agreement, do you?
 3 A. I do not.
 4 MR. RACOWSKI: Subject to any follow
 5 up questions after Ms. Balbach goes, I cede
 6 my time to Patterson and Schein's counsel.
 7 CROSS-EXAMINATION
 8 BY MR. GEORGE:
 9 Q. I'll be quick, so it probably makes
 10 sense to just keep going. Thank you, Dr. Kois.
 11 My name is Andrew George, again, and I
 12 represent Patterson. Do you understand that
 13 all the same ground rules apply that have
 14 already been discussed today?
 15 A. I do.
 16 Q. Great. You said the Kois Buying
 17 Group didn't exist before October, 2014; is
 18 that right?
 19 A. Correct.
 20 Q. And I believe you said that the
 21 buying group didn't actually start until 2015?
 22 A. I believe that's correct.
 23 Q. It definitely --
 24 A. Physically, yes. I believe that's
 25 correct.

1 John C. Kois, DMD, MSD
 2 Q. As more than a concept?
 3 A. Yes, yes.
 4 Q. With any members?
 5 A. Correct.
 6 Q. And it definitely didn't start in
 7 2013?
 8 A. Correct.
 9 Q. Didn't exist at all in 2013?
 10 A. Correct.
 11 Q. And so the Kois Buying Group didn't
 12 seek a supply contract with Patterson in 2013;
 13 is that right?
 14 A. Yes.
 15 Q. Nor before 2013?
 16 A. Correct.
 17 Q. Okay. I'd like to show you what
 18 we'd mark as Respondent's Kois Exhibit 1.
 19 (Exhibit 1, marked.)
 20 BY MR. GEORGE:
 21 Q. And if you could -- let me tell you
 22 what this is first. You're not on this
 23 document. This was a document that was
 24 submitted by complaint counsel, the FTC, during
 25 this matter. If you could flip to page 9.

1 John C. Kois, DMD, MSD
 2 MS. BALBACH: Can I ask a question?
 3 Is this a public version or?
 4 MR. GEORGE: This is not marked
 5 confidential. I have an extra to the
 6 appendix which was marked confidential.
 7 MS. BALBACH: Thank you.
 8 BY MR. GEORGE:
 9 Q. If you could please refer to the
 10 first full paragraph on the top of page 9. It
 11 starts, "Subject to and without waiving these
 12 objections." Do you see that?
 13 A. Yes.
 14 Q. Okay. And so the second sentence of
 15 that paragraph, I'm going to read it. It says,
 16 "Buying groups that continue to seek supply
 17 contracts with Patterson," end quote, "in 2013,
 18 as alleged in paragraph 51 of the complaint
 19 includes the Kois Buying Group." And then the
 20 sentence goes on to list other entities; is
 21 that correct?
 22 A. Yes.
 23 Q. That's just not true, right?
 24 A. Correct.
 25 Q. You can put that aside, thank you.

1 John C. Kois, DMD, MSD
2 If you could please take out complaint
3 counsel's Exhibit 4062, which is the one with
4 the big black box, and flip to the back side,
5 the last page.

6 Now, we discussed this a little bit
7 earlier. The reference to, quote, "I know we
8 tried this before," end quote. Second
9 sentence?

10 A. I see. Second sentence, okay.

11 Q. When you were referring to having
12 tried this before, this was the effort in which
13 the Kois Center would have itself bought high
14 volumes of inventory for its members; is that
15 right?

16 A. Yes.

17 Q. Okay. And the problem with that
18 approach was that the Kois Center just couldn't
19 afford it; is that right?

20 MS. BALBACH: Objection.

21 THE WITNESS: Yeah, we couldn't
22 implement it. We couldn't make such a
23 large purchase and then have to ship it to
24 all our members. It was not realistic.

25 BY MR. GEORGE:

1 John C. Kois, DMD, MSD
2 Q. Okay. So that would have been a
3 centralized commitment to purchase the
4 inventory on the Kois Center's part and not its
5 individual members; is that right?

6 A. Correct.

7 Q. And that's very different from what
8 ended up becoming the Kois Buying Group?

9 A. That's correct.

10 Q. Because the Kois Buying Group has no
11 buying power; is that right?

12 A. That's correct.

13 Q. And the Kois Buying Group members
14 have no commitment to buy anything, right?

15 A. That's correct.

16 Q. They don't have any commitment to
17 buy anything in any volume?

18 A. Correct.

19 Q. Or to buy exclusively from any
20 distributor or supplier?

21 A. Correct.

22 Q. And the Kois Buying Group members
23 can deal directly with distributors or
24 suppliers?

25 A. Correct.

1 John C. Kois, DMD, MSD
2 Q. And they can join other buying
3 groups?
4 A. Correct.
5 Q. Okay. Sticking with this exhibit
6 for one moment -- excuse me, let's move on from
7 that exhibit and turn to 4060, which is this
8 one. Can you turn to -- well, first of all, on
9 the first page of this exhibit, end of the
10 second paragraph of Qadeer Ahmed's e-mail do
11 you see the sentence, "What you see in this
12 deck is basically a replay of the face-to-face
13 I had with him last week"? Do you see that?

14 A. Yes.

15 Q. Okay. And when you got this e-mail,
16 did you understand this to mean that this was a
17 replay of what was told to Patterson during
18 their meeting -- during Qadeer Ahmed and
19 Patterson's meeting?

20 A. I would assume. Repeat the
21 question, please?

22 Q. Sure. I'm sorry about that. So
23 when you got this e-mail, did this e-mail mean
24 to you that what is included in it is basically
25 a replay of what -- of a face-to-face meeting

1 John C. Kois, DMD, MSD
2 Qadeer Ahmed and a person from Patterson had
3 had?

4 A. Yes.

5 Q. Okay. Can you turn to page -- it's
6 marked as page 007 of the exhibit, which I'm
7 holding up in case you have trouble.

8 A. I'm here.

9 Q. Okay. Great. And looking at the
10 second sentence -- excuse me, third sentence.
11 First bullet point it says, "We invite one
12 distributor to join our pilot program before
13 expansion across the industry." Do you see
14 that?

15 A. Yes.

16 Q. Did I read that correctly?

17 A. Yes.

18 Q. And, to your understanding, was that
19 accurate as far as what the Kois Buying Group
20 originally intended to do?

21 A. Yes.

22 Q. Can you please turn to Exhibit
23 CX0290. Let me know once you've got it.

24 A. Okay.

25 Q. So looking at page 003?

1 John C. Kois, DMD, MSD

2 A. Yes.

3 Q. You see the header in the middle,
4 quote, "How you order," end quote? Do you see
5 that in the middle of the page?

6 A. Yes.

7 Q. Do you see number one reads, "We
8 will pick one distribution partner from between
9 Patterson Dental, Henry Schein, and smaller
10 distributors"?

11 A. Yes.

12 Q. And this is also consistent with
13 your memory of what Kois -- the Kois buying
14 group originally intended to do?

15 A. Yes. I want to make sure what's
16 becoming clear is the name Kois Buyers Club or
17 Group. The only thing that's similar to other
18 groups of the same name, buying group, is the
19 name buying group. This is a very different
20 structure. All of the structures that had to
21 do with the business relationships that you see
22 on many of these forms were not actually what
23 happened because it was a failure in terms of
24 what we were able to implement.

25 So I hope what's becoming clear is

1 John C. Kois, DMD, MSD

2 it was just an opportunity to give dentists
3 another way, that's really what it was. And
4 unfortunately, it has the term buying club or
5 group, which gives it a very different
6 connotation than it was actually intended to be
7 in reality in my mind, and so it's hard for me
8 to look at this -- these papers and understand
9 the relationship that these infer to what the
10 current situation actually is, so I hope that
11 that's becoming very clear.

12 Q. As originally conceived at the time
13 when this e-mail was sent was the phrase, "We
14 will pick one distribution partner," accurate?

15 A. Yes.

16 Q. Could you flip to the previous page
17 of the exhibit. The reference to, "Buying
18 \$125 million per year in supplies as a
19 Tribe" --

20 A. Yes.

21 Q. Do you see that? We talked about
22 that a bit earlier.

23 A. I don't know where that came from.

24 Q. That's just what I was going to ask
25 you.

1 John C. Kois, DMD, MSD

2 A. Yeah.

3 Q. These were Mr. Ahmed's calculations,
4 not yours?

5 A. They have nothing to do with me.

6 Q. Right. And you have no idea whether
7 they're valid?

8 A. That's correct.

9 Q. If you can turn to Exhibit 1032,
10 which is this one, top of the second page, "The
11 exclusivity provision." Do you see that?

12 A. Yes.

13 Q. So, ultimately, the Kois Buying
14 Group went with Burkhart as its exclusive
15 distributor, correct?

16 A. Yes.

17 Q. And that was consistent with the
18 plan to have one distributor all along; is that
19 right?

20 A. Yes.

21 Q. And Kois Buying Group couldn't have
22 worked with another distributor as long as this
23 agreement was in effect?

24 A. Correct.

25 Q. I forgot to ask you one question

1 John C. Kois, DMD, MSD

2 about number 4060. This is the pitch that was
3 made to Patterson by Mr. Ahmed; is that right?

4 A. I assume so, because it says,
5 "Patterson update."

6 Q. You don't recall Patterson giving
7 any response to this; is that right?

8 A. I have no knowledge of working
9 specifically with any of the companies. I
10 didn't deal with them at all.

11 Q. And you don't even know what, if
12 any, response they gave to this pitch?

13 A. I do not. Other than what might
14 have been in an e-mail, I was not personally
15 involved.

16 Q. Right. In terms of what you
17 personally remember yourself?

18 A. Yeah, I don't know. I don't know.
19 I don't remember anything about that. I'm
20 not -- yeah, I have no information about that.

21 MR. GEORGE: I have nothing else.
22 Thank you.

23 CROSS-EXAMINATION
24 BY MR. FONTECILLA:

25 Q. Dr. Kois, my name is Adrian

1 John C. Kois, DMD, MSD
 2 Fontecilla. I'm on the phone from DC. As you
 3 know, I represent Henry Schein. Are you okay
 4 to continue?
 5 A. I am.
 6 Q. Or do you need a quick break?
 7 A. No, I'm fine.
 8 Q. Okay. I will endeavor to be quick
 9 and not ask anything that's already been asked;
 10 is that fair?
 11 A. Yes.
 12 Q. And if I can't -- if you can't hear
 13 me at all or I cut out because of the phone
 14 line please just ask me to repeat the question,
 15 okay?
 16 A. Yes.
 17 Q. Okay. Earlier you testified about a
 18 student who told you about Mr. Ahmed in 2014.
 19 Do you remember what month in 2014 that was?
 20 A. I do not. It would have been
 21 consistent with one of the courses he attended.
 22 Q. Okay. And how soon after that did
 23 you meet with Mr. Ahmed or talk -- I guess
 24 talked to him for the first time?
 25 A. I don't remember how long that would

1 John C. Kois, DMD, MSD
 2 be. I do remember we only had e-mail and phone
 3 conversation for -- somewhere between one and
 4 two plus years before we actually met
 5 face-to-face.
 6 Q. Right. When did you -- about how
 7 long after you heard about Mr. Ahmed did you
 8 end up finalizing a deal with his company?
 9 A. I want to say somewhere in the range
 10 of six months. Six, eight months maybe, at the
 11 most. I mean, at the outside. I don't recall
 12 exact dates, but since we signed the agreement
 13 in October of 2014, I would say something
 14 probably began earlier than that, obviously,
 15 and I remember most of it was in the earlier
 16 part of that same year.
 17 Q. Got it. So you signed an agreement
 18 with his company ProCare in October, 2014; is
 19 that right?
 20 A. No, I'm sorry. I signed an
 21 agreement with Burkhart that included the
 22 agreement with ProCare in the relationship in
 23 October of 2014.
 24 Q. Are you referring to the agreement
 25 with Burkhart that we looked at earlier?

1 John C. Kois, DMD, MSD
 2 A. Yes, I am.
 3 Q. And if you -- do you mind pulling
 4 that up just to confirm the date? I want to
 5 make sure you're staying accurate and
 6 consistent with what you've said before. I
 7 believe that is --
 8 MR. RYAN-LANG: CX1032.
 9 BY MR. FONTECILLA:
 10 Q. Yes. 1032, thank you. If you can
 11 flip to the signature page and take a look next
 12 to the signatures, you signed that agreement
 13 November, 2014, right?
 14 A. Yes. November 14th of 2014, that is
 15 correct, sorry.
 16 Q. Right. And so that was the first
 17 agreement you had signed with Mr. Ahmed?
 18 A. Yes.
 19 Q. And this is the agreement that
 20 contains the 50-50 commission split of
 21 membership fees that you referenced earlier?
 22 A. That was -- I don't know if we
 23 actually signed an agreement regarding that or
 24 that was just a verbal agreement regarding
 25 that.

1 John C. Kois, DMD, MSD
 2 Q. Sure. And I guess that's what I'm
 3 trying to get at is when did you and Mr. Ahmed
 4 come to an agreement or an understanding that
 5 you were going to try to turn this idea of a
 6 buying group into a reality?
 7 A. I would say earlier in the same
 8 year.
 9 Q. And that's exactly my question,
 10 about how much earlier before? I think we saw
 11 some e-mails from about September, October,
 12 2014. Does that refresh your recollection?
 13 A. Yes, but I think there could have
 14 been some discussion even in August, maybe.
 15 So, as I said, there was some discussion
 16 earlier on about what the intention was, but
 17 then I don't remember when he actually started
 18 negotiating with many of the individual supply
 19 companies.
 20 Q. But at the earliest, it was late
 21 summer 2014?
 22 A. Yes, that's correct.
 23 Q. And did you give him any
 24 instructions or directions regarding how to
 25 reach out to potential partners that were

1 John C. Kois, DMD, MSD
2 distribution companies?

3 A. No. Actually, he had all the
4 connections for Henry Schein and Patterson.
5 The only connection I made was the Benco
6 connection, and then ultimately the Burkhart
7 connection.

8 Q. Okay. And with regards to the
9 Burkhart agreement that you reached on
10 November 14, 2014, about how long did it take
11 to iron out that contract, if you can recall?
12 Was it a few weeks, a month?

13 A. You mean the one that was ultimately
14 signed?

15 Q. Yeah, the one that you have in front
16 of you.

17 A. That we're looking at in front of
18 us, I would say this did not take very long to
19 iron out once all the parties came together. I
20 think there may have been some early revisions.
21 I would say in the -- within a month this
22 document was completed.

23 Q. Within a month. If you can pull out
24 the stack of the documents next to you, a
25 document that is stamped Exhibit CX4063. Let

1 John C. Kois, DMD, MSD
2 me know when you have that in front of you.

3 A. I have it.

4 Q. Okay. And if you can go to the
5 third page of the document.

6 A. Excuse me, third page?

7 Q. Third page. It should have a stamp
8 at the bottom that ends in 65, and you see the
9 e-mail from Sullivan?

10 A. Tim Sullivan? Yes, I do.

11 Q. And do you see where it says, "I had
12 the initial internal team meeting to explore
13 the opportunity based on our brief
14 introductions last week." Do you see that?

15 A. Yes.

16 Q. And do you recall Mr. Ahmed ever
17 telling you that he had been introduced to
18 folks at Schein to discuss the opportunity?

19 A. I do.

20 Q. And do you recall him telling you
21 that Schein was interested in exploring the
22 opportunity?

23 A. I do.

24 Q. And do you see in the next sentence
25 of Mr. Sullivan's e-mail where he says, "The

1 John C. Kois, DMD, MSD
2 good news is that our interest continues to
3 remain high." Do you see that?

4 A. Yes.

5 Q. Was it your understanding in late
6 October, 2014, that Schein had a high interest
7 in exploring the opportunity of partnering with
8 the core buying group?

9 A. Yes, at that time.

10 Q. Okay. And did you instruct
11 Mr. Ahmed to pursue the opportunity with
12 Schein?

13 A. I was in agreement, yes.

14 Q. And what, if any, follow up
15 discussions do you know of that Mr. Ahmed had
16 with Schein about the opportunity?

17 A. I don't know of follow-up
18 conversations.

19 Q. So you don't know if Mr. Ahmed ever
20 followed up with Schein about their high
21 interest in pursuing an opportunity with the
22 core buying group?

23 A. I do not know what happened after
24 this e-mail.

25 Q. And, in fact, soon after this you

1 John C. Kois, DMD, MSD
2 actually agreed with Burkhart that they would
3 be your sole distributor; is that correct?

4 A. Yes, it is.

5 Q. Okay. After you reached that
6 agreement with Burkhart you never instructed
7 Mr. Ahmed to reach back out to Schein about
8 Mr. Sullivan's high interest in the
9 opportunity?

10 A. That's correct.

11 Q. Who is Terra Kois?

12 A. Terra? That's my daughter-in-law.

13 Q. Yeah, Terra. Does she work for you?

14 A. There was a time where she worked
15 within the practice, but she does not work for
16 me. She works with my son, that's her husband.

17 Q. Got it. And did Ms. Kois'
18 responsibilities when she worked with you at
19 the practice involve ordering dental supplies?

20 A. Never.

21 Q. Would it be possible that an account
22 with Schein would be in her name?

23 A. Yes.

24 Q. And who is Dean Kois?

25 A. That would be her husband, my son.

Page 154

1 John C. Kois, DMD, MSD
 2 Q. Okay. And did Dean also work at the
 3 practice?
 4 A. He works in the same location as the
 5 Seattle office, but has an independent
 6 practice.
 7 Q. Does that practice make purchases on
 8 its own or in coordination with your practice?
 9 A. On its own.
 10 Q. For dental supplies?
 11 A. That's correct.
 12 Q. I'm sorry, did you say on its own?
 13 A. On its own, correct.
 14 Q. And is your practice at 1001
 15 Fairview Avenue, Suite 2000?
 16 A. That is actually for my practice,
 17 the teaching center address, and my actual
 18 clinic practice location is the one at Fife,
 19 Washington, at 5615 Valley Avenue East. So my
 20 dental supplies come through the Tacoma office,
 21 Tacoma address, which is in Fife.
 22 Q. Got it. What dental supplies would
 23 be purchased for the 1001 Fairview Avenue
 24 office?
 25 A. Those would be supplies that ran --

Page 156

1 John C. Kois, DMD, MSD
 2 that building. I think they're also labeled,
 3 A, B, C, D, potentially, but all suite 2200.
 4 Q. And are you aware that those -- both
 5 those suites purchased dental supplies from
 6 Schein?
 7 A. I am.
 8 Q. And do you know if they have a
 9 Schein representative?
 10 A. I believe they do.
 11 Q. And do you have any understanding of
 12 why those suites purchased dental supplies from
 13 Schein?
 14 A. I think they like the dental supply
 15 representative.
 16 Q. And would it be fair to say they get
 17 competitive and fair pricing on the dental
 18 supplies that they purchase?
 19 A. To my knowledge, yes.
 20 Q. And do you have any understanding of
 21 whether the pricing that they get includes a
 22 discount?
 23 A. I have no idea. I would assume my
 24 son's capable of making smart purchases.
 25 Q. Are you aware that Schein offers

Page 155

1 John C. Kois, DMD, MSD
 2 that are used in the teaching center for the
 3 dentists that come as students of the center,
 4 and there may be also supplies that came to the
 5 same address that were used in my son's -- Dean
 6 and Terra's practice.
 7 Q. At that address, 1001 Fairview
 8 Avenue address, who would be responsible,
 9 generally, for purchasing dental supplies and
 10 managing relationships with the vendors?
 11 A. I guess it would depend on the
 12 specific invoice. It would either be from
 13 Dean's practice, that could involve Terra,
 14 which is his wife, could be responsible for
 15 ordering supplies that were used in his
 16 specific practice.
 17 If it was related to supplies used
 18 in the teaching center there would be other
 19 staff members on the teaching side involved.
 20 We have a clinical staff and we have a teaching
 21 staff and they don't really mix.
 22 Q. Sure. And is the clinical center,
 23 do you have two suites in that building,
 24 Suite 2000 and Suite 2200?
 25 A. We have several different suites in

Page 157

1 John C. Kois, DMD, MSD
 2 aggressive discounting to individual dental
 3 practices?
 4 A. Yes.
 5 Q. And have you ever availed yourself
 6 of the discounted pricing that Schein offers to
 7 dentists?
 8 A. I've purchased from Schein.
 9 Q. Okay. I'm just checking my notes to
 10 see if I have anything else.
 11 What is your understanding of the
 12 value that representatives from companies like
 13 Schein, Patterson, and Benco and Burkhart offer
 14 to dental practices and their staff?
 15 A. That's a pretty broad question. The
 16 value that you phrased it -- or framed it as
 17 the value, so my answer to that would be framed
 18 around competitive pricing, ethical business
 19 opportunities, knowledgeable customer service
 20 representatives, timely service, good service.
 21 All of the things that would
 22 normally require anyone from working with a
 23 company, especially companies that I've had
 24 loyalty service with for so many years, I think
 25 that would be standard in the industry.

1 John C. Kois, DMD, MSD
 2 Q. Of course. Sure. I think you
 3 mentioned earlier -- you talked about how
 4 purchasing through a representative would be
 5 more efficient for the practice; is that right?
 6 A. Yes.
 7 Q. And could the representative often
 8 provide consulting or advice beyond just
 9 purchasing supplies?
 10 A. Yes. Avail me of maybe new product
 11 opportunities, you know. I have a very small
 12 staff. I don't have time to be searching the
 13 web, so I rely on the supply representatives.
 14 Q. And, in fact, it's your
 15 understanding that distributor representatives,
 16 sale representatives actually come to the
 17 practice fairly regularly, right?
 18 A. Yes, mine comes once every two
 19 weeks.
 20 Q. And is it your understanding that
 21 these sales representatives, when they visit,
 22 can also offer practice solution services
 23 advising the practice on how to be more
 24 efficient or drive more patients or revenue; is
 25 that right?

1 John C. Kois, DMD, MSD
 2 confusing, because that's what dentists would
 3 do. They would pick one item and say I can get
 4 it cheaper at Schein, or I can get it cheaper
 5 at Patterson at one point in time, which would
 6 tend to devalue the idea, where the essence of
 7 the buyers club was just to have a company or a
 8 representation of what you could feel good
 9 about without having to shop and be competitive
 10 against pennies in the purchase and spend time
 11 devoting an employee to that kind of scrutiny.
 12 Q. Right. And the core buying group
 13 either in its initial phase, idea, form, or
 14 even today, doesn't actually maintain any
 15 central purchasing for its members, right?
 16 A. That's correct, we do not.
 17 Q. And it doesn't require any of its
 18 members and never has a purchase from any one
 19 supplier, right?
 20 A. That's correct. We built the center
 21 on being as generic as we can, so we pride
 22 ourselves on making decisions based on what's
 23 the best opportunities in the market, not based
 24 on just who we have alliances with.
 25 Q. And earlier you mentioned generally

1 John C. Kois, DMD, MSD
 2 A. Yes, they offer that.
 3 Q. Did you or Mr. Ahmed ever do any
 4 analysis of any Kois Tribe Members purchasing
 5 of dental supplies?
 6 A. Analysis in compared to what?
 7 Q. So did you ever, for example, ask a
 8 Tribe Member to submit their, you know,
 9 purchases of dental supplies and the pricing
 10 they had gotten different supplies at from
 11 their different suppliers of vendors and then
 12 compare it to what they were able to get with
 13 the Kois buyers discount for Burkhardt?
 14 A. I can tell you we did look at
 15 specific pricing on items and found it very
 16 difficult at one point in time any other
 17 companies would always have maybe a slightly
 18 more competitive price on a single item.
 19 We were looking for a cumulative
 20 pricing, so we stayed away from being concerned
 21 that one company had an item one dollar
 22 cheaper, or whatever it was, because in the
 23 long run it didn't make any difference.
 24 So we didn't look at -- we didn't
 25 look at specific items because it became very

1 John C. Kois, DMD, MSD
 2 that the pricing about other customers
 3 depending on their size, and I just want to be
 4 absolutely clear about what you have personal
 5 knowledge of.
 6 Do you have any personal knowledge
 7 of what discounts or pricing are offered by
 8 Patterson, Benco or Schein to larger group
 9 practices?
 10 A. No.
 11 MR. FONTECILLA: Okay. I have no
 12 further questions. And thank you for your
 13 time, Dr. Kois.
 14 MS. BALBACH: I have just a couple
 15 of clean up questions.
 16 REDIRECT EXAMINATION
 17 BY MS. BALBACH:
 18 Q. Take you back again to the fall of
 19 2014 when you were --
 20 A. Yes.
 21 Q. -- working at setting up the Kois
 22 Buying Group with Mr. Ahmed. Did you turn to
 23 Burkhardt to be the distributor only after you
 24 found out from Qadeer that Benco, Schein and
 25 Patterson were not willing to do a contract?

Page 162

1 John C. Kois, DMD, MSD
 2 MR. FONTECILLA: Objection,
 3 misstates the testimony.
 4 MR. GEORGE: Object to form.
 5 MR. RACOWSKI: Objection, misstates
 6 testimony.
 7 THE WITNESS: Yes.
 8 BY MS. BALBACH:
 9 Q. If Benco, Schein or Patterson had
 10 agreed to do a contract with ProCare with the
 11 Kois Buying Group would you have ever gone out
 12 to Burkhart?
 13 A. That's a great question.
 14 MR. FONTECILLA: Objection.
 15 THE WITNESS: It's a great question,
 16 because even at that time I was undecided.
 17 I dealt with Burkhart for so many years; I
 18 had such a strong personal relationship; I
 19 was actually very reluctant to move away
 20 from doing business with Burkhart because I
 21 owed them the heritage and the legacy that
 22 we had for -- for me now it's 32 years.
 23 So I actually was resistant on going
 24 to other companies because I didn't want to
 25 break my relationship with Burkhart. For

Page 164

1 John C. Kois, DMD, MSD
 2 manufacturers that sell through dental
 3 supply companies and so we wanted access to
 4 both.
 5 BY MS. BALBACH:
 6 Q. Do the companies that sell direct,
 7 do you know if they also sell through
 8 distributors?
 9 A. They do not.
 10 Q. Could you use a single manufacturer
 11 to supply all the needs of a dental practice?
 12 A. I do not believe so. I think that
 13 would be impossible.
 14 Q. Could you rely on multiple
 15 manufacturers to supply the needs of a dental
 16 practice?
 17 A. Well, if you multiply that number by
 18 enough, I would assume that would be the case,
 19 but it would be really inconvenient.
 20 Q. I'm sorry, what would be
 21 inconvenient?
 22 A. To have to go through so many
 23 different companies for all the inventory that
 24 dentists typically utilize.
 25 Q. So is that why a distributor becomes

Page 163

1 John C. Kois, DMD, MSD
 2 me to go to a buyers club and then not be
 3 able to work with Burkhart was not
 4 appealing to me, personally, but it was
 5 something that we were willing to at least
 6 look at as an opportunity for other members
 7 in the buyers club because of what maybe a
 8 bigger company could offer our members.
 9 BY MS. BALBACH:
 10 Q. Was that because of the full service
 11 national reach of the bigger distributor like
 12 Henry, Schein, or Patterson or Benco?
 13 A. Yes, yes.
 14 Q. Do manufacturers typically offer the
 15 same products directly and through
 16 distributors?
 17 MR. RACOWSKI: Objection to form.
 18 MR. FONTECILLA: Objection.
 19 THE WITNESS: So if I understand the
 20 question, there are companies that do not
 21 sell through dental distributors, they sell
 22 directly to dental practices and so they
 23 have their own sales force and their own
 24 marketing that they utilize to accomplish
 25 that endeavor. And then there are

Page 165

1 John C. Kois, DMD, MSD
 2 more efficient for a dental practice to use?
 3 A. I would say that's why I use a
 4 dental distributor. I don't want to spend
 5 time, as I said, on the Internet, the phone and
 6 searching the web. I work through a more
 7 efficient purchasing system.
 8 Q. Do manufacturers offer same day
 9 service?
 10 A. Manufacturers? Only -- no. There
 11 aren't any manufacturers that I'm aware of that
 12 are in close enough proximity that they
 13 could -- well, I shouldn't say that. Now that
 14 I think about it, yes, there are company reps
 15 that are local that work for direct companies
 16 and they have small inventory, and many times
 17 they can come within the same day, especially
 18 implant companies.
 19 Q. So it depends where the manufacturer
 20 is located and the customer is located?
 21 MR. GEORGE: Object to form.
 22 THE WITNESS: And where their
 23 service representation is.
 24 BY MS. BALBACH:
 25 Q. Do manufacturers offer same day

<p style="text-align: right;">Page 166</p> <p>1 John C. Kois, DMD, MSD 2 service for repairs? 3 A. Manufacturers? I get all my repairs 4 through the dental supply company. 5 Q. So you get all your repairs through 6 Burkhart? 7 A. Yes, I do. They service all my 8 equipment. 9 MS. BALBACH: That's all I have. 10 MR. GEORGE: I have one recross 11 question. 12 RECCROSS-EXAMINATION 13 BY MR. GEORGE: 14 Q. Dr. Kois, you were asked a moment 15 ago did you turn to Burkhart to be the 16 distributor only after you found out from 17 Qadeer that Benco, Schein and Patterson were 18 not willing to do a contract and you answered 19 yes. You told me earlier that you don't know 20 what Patterson's response to Mr. Ahmed was; 21 isn't that right? 22 A. That's correct. 23 Q. So you don't know that -- you never 24 found out from Mr. Ahmed that Benco, Schein and 25 Patterson were not willing to do a contract?</p>	<p style="text-align: right;">Page 167</p> <p>1 John C. Kois, DMD, MSD 2 A. Correct. I didn't have that 3 information with certainty. 4 Q. For all you know Benco could have 5 said it was willing? 6 A. Yes. 7 MR. GEORGE: Nothing further. Thank 8 you. 9 MR. FONTECILLA: I just have one 10 question. 11 RECCROSS-EXAMINATION 12 BY MR. FONTECILLA: 13 Q. Dr. Kois, along the same lines as 14 Mr. George's question, the answer you gave 15 counsel for the FTC about why you turned to 16 Burkhart, we went through the document where it 17 showed that since Kois had expressed high 18 interest on behalf of Schein and the 19 opportunity and you testified that you were 20 unaware of any response from Schein after that 21 or any follow up by Mr. Ahmed with Schein, so 22 just so the record is absolutely clear, when 23 you decided to turn to Burkhart and select 24 Burkhart as the distributor you had not heard 25 back from Schein; is that correct?</p>
<p style="text-align: right;">Page 168</p> <p>1 John C. Kois, DMD, MSD 2 MS. BALBACH: Objection, form. 3 THE WITNESS: That's correct. I did 4 not hear with any certainty. 5 BY MR. FONTECILLA: 6 Q. In fact, you personally didn't hear 7 back from anyone at Schein with regards to 8 whether they were interested in pursuing 9 partnership with the Kois Buying Group? 10 A. I never had any correspondence -- 11 any direct correspondence with any of the 12 dental supply companies. 13 Q. And you had no understanding -- at 14 that time when you selected Burkhart, you had 15 no understanding of whether Schein would 16 actually sign a deal or would not; is that 17 correct? 18 A. Yes, that's correct. Yes. 19 MR. FONTECILLA: Okay. No further 20 questions. Thank you. 21 MS. BALBACH: I have one redirect. 22 FURTHER REDIRECT EXAMINATION 23 BY MS. BALBACH: 24 Q. But, Mr. Kois, you did have some 25 understanding that Mr. Ahmed, who you hired, or</p>	<p style="text-align: right;">Page 169</p> <p>1 John C. Kois, DMD, MSD 2 you engaged to do this relationship, had told 3 you that they -- Benco, Schein and Patterson, 4 were not interested in setting up a buying 5 group with Kois? 6 MR. GEORGE: Objection, he never 7 said that. 8 MR. RACOWSKI: Objection, misstates 9 testimony. 10 MR. FONTECILLA: Objection. 11 BY MS. BALBACH: 12 Q. Let me rephrase. Dr. Kois, do you 13 have some understanding that Mr. Ahmed, whom 14 you hired to engage to set up a buying group, 15 do you have some understanding from him that 16 Benco, Schein and Patterson said they were not 17 interested in doing a buying group with Kois? 18 MR. GEORGE: Same objection. 19 MR. RACOWSKI: Objection to form. 20 Go ahead. 21 THE WITNESS: My understanding was 22 that it didn't look favorable from Ahmed 23 and so at that point we pursued the 24 relationship with Burkhart. 25 MS. BALBACH: Okay. I have nothing</p>

1 John C. Kois, DMD, MSD
 2 further.
 3 MR. RACOWSKI: Adrian?
 4 MR. FONTECILLA: No further
 5 questions. Thank you, Dr. Kois.

SAN FRANCISCO, CALIFORNIA; WEDNESDAY, JUNE 27, 2018;
9:11 A.M.

DARCI WINGARD,

The witness herein, was sworn and testified
as follows:

EXAMINATION

BY MS. GOFF:

Q. Good morning, Miss Wingard. My name is Karen Goff. I'm an attorney with the Federal Trade Commission. And with me are my colleagues Ronnie Solomon, who is an attorney at the FTC as well, and Stella Chang, who is an intern at the FTC this summer.

Have you ever given sworn testimony before?

A. No, I have not.

Q. Okay. So I'll just go over a few ground rules with you. I will be asking you a series of questions, and you will be giving me the answers, and the court reporter will be reporting all that we say here today. Because she can only record our words, please be sure to answer each question with a verbal response. Please do not nod or shake your head. Do you understand?

Page 9

A. I do.

Q. And it is helpful if you allow me to finish my question before you respond, and I will also try to let you finish your answer before I ask another question. Do you understand?

A. I do.

Q. If you don't -- if at any time you don't understand a question, you can ask me to rephrase, and I will attempt to do so. Do you understand?

A. I do.

Q. And if you need a break at any time, please let me know, and we can take one.

So today we are going to be talking about Henry Schein, the organization. It's my understanding that Henry Schein has a medical, dental, veterinarian division and maybe some others. And today when we talk about "Henry Schein" or "Schein," we are only talking about the dental business. Do you understand that?

A. I do.

Q. Is your current title Director of the Alternative Purchasing Channel at Henry Schein Dental?

A. Yes, it is.

Q. And have you had that title since May 2018?

1 A. Yes.
 2 Q. Is the Alternative Purchasing Channel
 3 sometimes called the "APC"?
 4 A. Yes, it is.
 5 Q. And so if I use the acronym APC today, will
 6 you understand what I mean?
 7 A. Yes, I do.
 8 Q. Okay. To whom do you currently report?
 9 A. Joe Cavaretta.
 10 Q. Okay. And do you have any direct reports?
 11 A. Joe Cava- -- oh, to me?
 12 Q. Yes.
 13 A. Direct report to me. Yes, I have one. Her
 14 name is Annika Swenson.
 15 Q. Okay. And what does Annika Swenson do?
 16 A. She is our manager of group strategy and
 17 development.
 18 Q. Okay. And how are you compensated for your
 19 current position as director of the APC?
 20 A. I'm on salary, and then I have an MBO. It's
 21 a bonus structure.
 22 Q. Okay. Do you -- are you paid on commission
 23 at all?
 24 A. No.
 25 Q. So prior to your current position, you were

1 the manager of group strategy and development; is
 2 that correct?
 3 A. That is correct.
 4 Q. And were you in that position from May of
 5 2016 until May of 2018?
 6 A. That is correct.
 7 Q. Okay. And was that position within
 8 Henry Schein Dental as well?
 9 A. Yes, it was.
 10 Q. Okay. It was not within Special Markets?
 11 A. It was not.
 12 Q. And then if I refer to Henry Schein Dental
 13 as "HSD," will you understand what I mean?
 14 A. I will.
 15 Q. So were you hired as manager of group
 16 strategy and development at HSD in May of 2016?
 17 A. Yes, I was.
 18 Q. And then did you officially start your
 19 position in May of 2016, or did you start in June?
 20 A. I started in May.
 21 Q. Okay. And to whom did you report as the
 22 manager of group strategy and development?
 23 MR. McDONALD: Objection to form.
 24 Go ahead.
 25 You need to be specific as to time.

1 MS. GOFF: She was the -- we established
 2 previously the manager of group strategy --
 3 BY MS. GOFF:
 4 Q. You were the manager of group strategy and
 5 development from May 2016 to May 2018; right?
 6 A. That is correct.
 7 MR. McDONALD: Right. But her -- hang on.
 8 Hang on, Karen. I object --
 9 MS. GOFF: I will -- I understand your
 10 objection, and I will rephrase my question.
 11 MR. McDONALD: Great. Thank you.
 12 BY MS. GOFF:
 13 Q. Okay. So when you first started in your
 14 position in May of 2016, to whom did you report?
 15 A. Brian Brady.
 16 Q. Okay. And how long did you report to
 17 Mr. Brady?
 18 A. Respectively, about six months.
 19 Q. What do you mean by "respectively"?
 20 A. So from May to December of 2016, I reported
 21 to Brian Brady.
 22 Q. Okay. And then who did you report to after
 23 that?
 24 A. January 1st, 2017 I reported directly to
 25 Joe Cavaretta.

1 Q. And have you reported to Joe Cavaretta ever
 2 since January 1st, 2017?
 3 A. Yes, I have.
 4 Q. And do you have an understanding of why
 5 your -- the reporting switched from Brian Brady to
 6 Mr. Cavaretta?
 7 A. I do.
 8 Q. What is your understanding?
 9 A. Brian was instrumental in really pioneering
 10 our Mid-Market Group Practice space division within
 11 Henry Schein Dental. So when I came on board, he
 12 was the individual that was going to really foster
 13 me, go through proper training, because a lot of the
 14 structural foundation of that Mid-Market Group
 15 Practice division would be very similar to a lot of
 16 the structure that I would be managing under the APC
 17 division within Schein.
 18 Q. Okay. So you mentioned the Mid-Market --
 19 Mid-Market Group. What is the Mid-Market Group?
 20 A. So we have a Group Practice division within
 21 Henry Schein, and they internally call it our
 22 Mid-Market Division.
 23 Q. And you are not a part of the Mid-Market
 24 Group; correct?
 25 A. I am not.

1 Q. And so am I correct in understanding that
2 you reported to Brian Brady when you first started
3 because he was to train you, and then the reporting
4 structure changed and you started reporting to
5 Joe Cavaretta?

6 A. I mean, yes. I -- part of it, yes, was
7 definitely training. He was my direct report, so he
8 was my manager. But as we developed and the -- you
9 know, the division through the APC division started
10 to grow, we decided I needed a direct report which
11 was a better direct report, Joe Cavaretta.

12 Q. When you say "direct report," you mean you
13 reported to Joe Cavaretta?

14 A. Yes.

15 Q. And why was Joe Cavaretta a better fit than
16 Brian Brady?

17 A. Our agreements and all the partnerships that
18 we would onboard, they have to be signed and
19 executed and approved by a VP or higher.

20 Q. And is -- Mr. Cavaretta is a VP?

21 A. He is.

22 Q. But Brian Brady is not?

23 A. He was not.

24 Q. Okay. And is there any other reason why the
25 reporting structure changed on January 1st, 2017?

1 A. Not to my knowledge.

2 Q. And when you were manager of group strategy
3 and development, did anyone report to you?

4 A. Can you rephrase that question, please.

5 Q. Did you have any direct reports? Did anyone
6 report --

7 A. When I first started in --

8 Q. Sure, yes.

9 A. -- May 2016?

10 Q. Yes. Let me just finish my question. I'll
11 re-ask it so I understand your answer.

12 So in May of 2016 when you first started,
13 did you have any direct reports?

14 A. No, I did not.

15 Q. And at some point as manager of group
16 strategy and development, did you have any direct
17 reports?

18 A. Can you rephrase that again.

19 Q. At any point when you were manager of group
20 strategy and development, did you have any direct
21 reports --

22 A. No, I did not.

23 Q. -- people that reported to you?

24 A. No, I did not.

25 MR. McDONALD: Pause in case I need to

1 object --

2 THE WITNESS: Yes. Sorry.

3 MR. McDONALD: Just slow down.

4 THE WITNESS: My apologies.

5 MR. McDONALD: No more coffee for you.

6 BY MS. GOFF:

7 Q. And when you were a manager of group
8 strategy and development, how were you compensated?

9 A. With salary and bonus.

10 Q. And were you paid on commission at all?

11 A. No, I was not.

12 Q. Okay. And what was your compensation when
13 you first started as manager of group strategy and
14 development?

15 A. Are you asking what my salary was?

16 Q. Yes.

17 A. Around 140K, to my knowledge.

18 Q. And then what was your -- what is your
19 current salary?

20 A. High 140s.

21 Q. Okay. And what about your bonus? Around
22 what amount is your bonus typically?

23 A. 30K.

24 Q. And is that paid annually?

25 A. It is.

1 Q. Other than the positions that we have
2 discussed, have you had any other positions at Henry
3 Schein Dental?

4 A. No, I have not.

5 Q. And let's talk about before you joined Henry
6 Schein. Did you work at Intuit? Is that right?

7 A. I worked for a company called Demandforce
8 that Intuit had acquired.

9 Q. Okay.

10 A. But when I was still there, Intuit had
11 divested Demandforce, and it was purchased by
12 another entity called Internet Brands.

13 Q. Okay. So prior to joining Henry Schein, you
14 worked for Demandforce?

15 A. I worked for a company called Demandforce
16 that was owned by Internet Brands.

17 Q. Okay. And what did you do for Demandforce?

18 A. Can you please be specific to what timing
19 when I was there.

20 Q. Sure. Immediately before you joined Henry
21 Schein, what was your job title at Demandforce?

22 A. I was their business development manager.

23 Q. And how long were you in that position?

24 A. I believe five years.

25 Q. Okay. And what generally were your duties

1 and responsibilities?

2 A. I was responsible for all of our
3 partnerships on the dental side of Demandforce.

4 Q. And was Henry Schein one of the partnerships
5 that you were responsible for?

6 A. Yes, they were.

7 Q. And so what was your role at Demandforce as
8 it related to Henry Schein?

9 A. They were our exclusive distribution
10 partner, so I worked to cultivate and strengthen
11 that relationship, educate their field sales reps on
12 our product, proper training, current development.
13 Sometimes I did co-travels with their reps. I would
14 go to their regional business development meetings,
15 present in front of their teams, again, to educate
16 them on our product, educate them on any new updates
17 with the systems, advancements.

18 I worked closely with the Henry Schein
19 Practice Solutions team as well and then corporate,
20 Henry Schein Dental corporate.

21 Q. And what was the product that you were
22 distributing or working on?

23 A. Demandforce was a software system, so SaaS.
24 It was an online patient communication and marketing
25 platform that integrated in seamlessly with any

1 dental practice managing software.

2 Q. Okay. And who were your contacts at Henry
3 Schein?

4 A. Can you please rephrase that question or be
5 more specific.

6 Q. Sure. So who at Henry Schein did you work
7 with?

8 MR. McDONALD: Object to the form. Vague as
9 to time.

10 BY MS. GOFF:

11 Q. So when you -- I'll rephrase the question.

12 When you were at Demandforce immediately
13 prior to joining Henry Schein, can you give me the
14 names of a few of the individuals at Henry Schein
15 that you worked with the most frequently.

16 A. I mean, I worked with a lot of individuals
17 with Henry Schein from their many different
18 divisions, whether it was their field sales reps to
19 regional managers to their zone managers to their
20 Practice Solutions division --

21 Q. So you did not --

22 A. -- to their upper sales leadership.

23 Q. Okay.

24 A. There is not one person at Henry Schein that
25 I directly spoke to on a daily basis more than other

1 individuals.

2 Q. Okay. Can you name the individuals that you
3 spoke with in their upper sales leadership.

4 MR. McDONALD: Ever? Is that your question?
5 BY MS. GOFF:

6 Q. I want to -- I'm not asking for anything
7 particularly difficult. I just want to know
8 generally who you interacted with the most at Henry
9 Schein.

10 A. Yeah. All their regional sales managers;
11 there's 54 of them. All their zone managers;
12 there's 8 of them at that time. And then on
13 probably a weekly or monthly cadence, I would speak
14 with their director of sales at the time.

15 Q. Okay.

16 A. And whether it was marketing needs or sales
17 education training needs, it just depends on that
18 week or day what we were working on, what we needed
19 to move forward.

20 Q. So there wasn't any particular individual
21 that you worked with more frequently than any
22 others?

23 A. No, there wasn't.

24 Q. Okay. Did you ever speak with Tim Sullivan?

25 A. On occasion.

1 Q. On occasion that you spoke with Tim Sullivan
2 when you were at Demandforce, generally what was the
3 topics?

4 A. I don't recall.

5 MR. McDONALD: Object to the form.
6 BY MS. GOFF:

7 Q. What about Joe Cavaretta? Did you ever
8 speak with him when you were at Demandforce?

9 A. Yes, I spoke with him.

10 Q. Okay. And what about Brian Brady? Did you
11 ever speak with him?

12 A. Yes, I did.

13 Q. And did you work closely with Brian Brady
14 when you were at Demandforce?

15 A. Not more than I worked with other respective
16 individuals within that company.

17 Q. Okay. Did you attend college?

18 A. Yes, I did.

19 Q. And did you go to CSU Chico?

20 A. I did.

21 Q. And did you obtain a degree?

22 A. Yes, I did.

23 Q. In what?

24 A. Business -- business and marketing.

25 Q. So let's discuss your position as manager of

1 group strategy and development at Henry Schein. Who
2 hired you?

3 A. Dave Steck.

4 Q. And what was Mr. Steck's role at the time
5 that you were hired?

6 A. I don't -- VP general manager. I don't
7 recall exact title.

8 Q. Okay. And when you were interviewing for
9 the position, did you interview with any other
10 individuals from Henry Schein?

11 A. I did.

12 Q. Who?

13 A. Kevin Burniston.

14 Q. Okay.

15 A. Brian Brady.

16 Q. Anyone else?

17 A. Not to my knowledge.

18 Q. Okay. And when you were the manager of
19 group strategy and development, you were responsible
20 for identifying and engaging strategic areas of
21 opportunity, including buying groups, MSOs and
22 dental associations; is that correct?

23 A. That's correct.

24 Q. And so let's -- first of all, other than
25 those that I just mentioned -- buying groups, MSOs

1 and dental associations -- were you responsible for
2 identifying and engaging strategic areas of
3 opportunity with any other types of groups?

4 A. Yeah. We call the division that I'm really
5 working with "APCs," which, again, stands for
6 "alternative purchasing channels." And that is a
7 very broad term for many different types of groups,
8 so, like you mentioned, buying groups, co-ops, state
9 associations, dental societies.

10 Q. Any other groups?

11 A. Hybrid DSOs. I mean, it's very hard to -- I
12 mean, it's in the eye of the beholder of the titles
13 of some of these partnerships or groups that I can
14 manage. They are very multifaceted, many different
15 layers, so it's hard to actually label some of these
16 groups.

17 Q. So when you started at Henry Schein, did the
18 term "APC" exist?

19 A. When I initially started in May of 2016, no,
20 it did not.

21 Q. Okay. And so just for when you first
22 started as manager of group strategy and
23 development -- I just want to make sure that I have
24 a clear record -- you were responsible for
25 identifying and engaging strategic areas of

1 opportunity for buying groups, MSOs and dental
2 associations; correct?

3 A. I mean, again, those are very strict titles.
4 I'm responsible for, I think, any type of group
5 that's comprised of individual private practices, so
6 whatever you would like to call that. There's many
7 different definitions depending on who you are. So
8 I don't know how I can better articulate that answer
9 for you.

10 Q. Okay. So --

11 A. I don't think it's --

12 Q. Go ahead.

13 A. Sorry. I just don't think it's fair to just
14 label one or two or three because there could be
15 groups that we're working with that call themselves
16 something different.

17 Q. Okay. So when you were hired as manager of
18 group strategy and development, you were responsible
19 for groups that were comprised of private practices;
20 is that correct?

21 A. Individual private practices.

22 Q. And that's private dental practices?

23 A. Correct.

24 Q. And examples of groups comprised of private
25 dental practices would include buying groups?

1 A. That would be one of them, yes.

2 Q. And dental associations?

3 A. Correct.

4 Q. And what about MSOs? What is an MSO?

5 A. I think the proper definition would be a
6 management service organization.

7 Q. And is a -- does a management service -- is
8 it a management support organization or a management
9 service organization?

10 A. People call them either/or.

11 Q. So is an MSO -- does it provide practice
12 management services to affiliated dentists?

13 A. For the most part, yes.

14 Q. And do MSOs typically have a common
15 ownership structure?

16 MR. McDONALD: Object to the form.

17 BY MS. GOFF:

18 Q. You can answer the question.

19 A. To my knowledge, most of the time, yes.
20 But, again, there's always rare cases and groups
21 that could have, like, a hybrid to where there's not
22 always that main ownership, but most of the time of
23 what we've seen that is usually the case. There are
24 always one-off instances or groups.

25 Q. Okay. And when we talk about "common

1 ownership structure," do you have an understanding
 2 of what that term means?
 3 A. I do.
 4 Q. What is your understanding?
 5 A. My understanding of that term is that the
 6 group would have some sort of equity stake or
 7 ownership within those respective practices.
 8 Q. Okay. And do MSOs typically have a
 9 management contract with their affiliated dentists?
 10 A. To my knowledge, yes.
 11 Q. Okay. And do MSOs typically have
 12 centralized purchasing and procurement on behalf of
 13 the members?
 14 MR. McDONALD: Objection to the form.
 15 THE WITNESS: Most of the time.
 16 BY MS. GOFF:
 17 Q. And do you have an understanding of what
 18 "centralized purchasing" means?
 19 A. I would say that they work together to buy
 20 the same type of supplies or consumables that their
 21 other locations are doing to draw out compliance.
 22 Q. So you're saying that the MSO works together
 23 to buy supplies and consumables on behalf of the
 24 locations?
 25 MR. McDONALD: Object to the form.

1 clinical, efficiencies, trainings, purchasing.
 2 Q. Okay. So that's how you use the phrase
 3 "drive compliance" in your job?
 4 A. Uh-huh.
 5 Q. Okay. So let's talk about buying groups.
 6 Is a buying group a collection of independent
 7 private dentist practices?
 8 A. In most cases.
 9 Q. Okay. Is there any cases where a buying
 10 group is not a collection of independent private
 11 dentist practices?
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: Again, in some cases. The
 14 word "buying group" can be used many different ways.
 15 Many people have a different interpretation of what
 16 an actual buying group is. So, again, when I say
 17 "buying group," yes, there -- I would say the
 18 majority of buying groups are comprised of
 19 individual independent private practicing dentists.
 20 BY MS. GOFF:
 21 Q. Okay. Do you know of any buying groups that
 22 are not comprised of independent private practice
 23 dentists?
 24 A. Yeah. I mean, I can't say for certain, list
 25 names of these groups off, but I know that from time

1 THE WITNESS: Can you restate that question,
 2 please.
 3 BY MS. GOFF:
 4 Q. Sure. You said, "They work together to buy
 5 the same type of supplies and consumables that their
 6 other locations draw out," and I wanted to
 7 understand what you meant by "they work together."
 8 A. The leadership team.
 9 Q. Of the MSO?
 10 A. Of the MSO.
 11 Q. Thank you.
 12 And can MSOs drive compliance?
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: Yes, they have the ability to.
 15 BY MS. GOFF:
 16 Q. Okay. And have you ever used the phrase
 17 "drive compliance" in your job?
 18 A. Yes.
 19 Q. And what does that mean?
 20 A. When we would -- when I would say "drive
 21 compliance," it would be the definition that the
 22 respective locations under one group would all be
 23 able to drive the same type of purchasing --
 24 supplies, consumables -- do the same type of things
 25 within each location to standardize, whether that's

1 to time you will see multiple locations align with
 2 one of these groups.
 3 Q. Okay. So you can't say any examples --
 4 A. Huh-huh.
 5 Q. -- of buying groups that are not comprised
 6 of independent private dentist practices?
 7 A. Can you repeat the question, please.
 8 Q. You are not able sitting here today to
 9 provide any examples of buying groups that are not
 10 comprised of independent private dentist practices?
 11 A. So, again, the majority of your typical
 12 structured buying group are comprised 95 percent of
 13 the time of individual private practices. I'm just
 14 saying in most -- some cases, one-off-situation
 15 scenarios you might come across specialty dentists
 16 in those, group practices in those. So I just -- I
 17 can't say for all that's the way they all are
 18 comprised.
 19 Q. Okay. But, in your experience, the vast
 20 majority are comprised that way?
 21 A. Correct.
 22 Q. Okay. And when you say that there might be
 23 one-off scenarios where there is a dentist in that
 24 group, you're referring to a dentist that might join
 25 a buying group, and that dentist might be affiliated

1 with other dental practices?

2 MR. McDONALD: Object to the form.

3 THE WITNESS: Please rephrase that question.

4 BY MS. GOFF:

5 Q. Sure. So you said -- I'm just trying to
6 make sure I have an understanding of what your
7 testimony was. You testified that there might be
8 some circumstances where -- some scenarios where a
9 specialty dentist in a group practice is not an
10 individual private dentist, and I want to know what
11 those scenarios can be.

12 A. Yeah, that can be correct, meaning you're a
13 dentist and you might own three or four locations or
14 you have equity in those four or another business
15 entity owns your locations and they might be part of
16 a buying group.

17 Q. Okay. But, sitting here today, you can't
18 tell me any specific --

19 A. No, I cannot.

20 Q. -- buying group that has that scenario?

21 A. No, I cannot.

22 Q. Okay. Thank you.

23 MR. McDONALD: Yeah. So -- so pause, let
24 her finish her question. You're still a little
25 quick.

1 THE WITNESS: Sorry.

2 MR. McDONALD: It's okay.

3 BY MS. GOFF:

4 Q. Okay. And then is it correct that buying
5 groups may offer a variety of services to
6 independent dentists?

7 A. Can you please rephrase that question.

8 Q. May buying -- do buying groups offer
9 services to independent dentists?

10 MR. McDONALD: Object to the form.

11 THE WITNESS: That would depend on the
12 group.

13 BY MS. GOFF:

14 Q. Okay. Do some?

15 A. Some do, yes.

16 Q. And do some buying groups offer to -- strike
17 that.

18 Is one service offered by buying groups
19 negotiating lower prices for dental supplies on
20 behalf of their members?

21 A. Yeah. That would be one area.

22 Q. Okay. And is that a common area of service
23 offered for buying groups?

24 A. I would say that's correct.

25 Q. Okay. And buying groups pool together their

1 members' purchasing power to negotiate lower prices?

2 MR. McDONALD: Object to the form.

3 THE WITNESS: That's, for the most part,
4 correct.

5 BY MS. GOFF:

6 Q. Okay. And why did you say "for the most
7 part"?

8 A. Because, again, that is a layer of some
9 groups.

10 Q. Do most groups offer that?

11 A. To my knowledge, yes.

12 Q. Okay. And do you sometimes refer to buying
13 groups as "BGs"?

14 A. I do.

15 Q. Okay. You mentioned dental associations
16 before. Do you work with dental associations in
17 your current position?

18 A. They do fall under my umbrella.

19 Q. Okay. And when we say "dental
20 associations," are we referring to things like state
21 dental associations?

22 A. That would be correct.

23 Q. And state dental associations sometimes
24 create buying groups for their members?

25 A. Some do.

1 Q. Okay. And is Georgia Dental Association an
2 example?

3 A. They would be one.

4 Q. And what about Texas Dental Association?

5 MR. McDONALD: Object to the form.

6 THE WITNESS: I believe they have one as
7 well.

8 BY MS. GOFF:

9 Q. Okay. And is that called "TDA Perks"?

10 MR. McDONALD: Object to the form.

11 THE WITNESS: I don't -- I do not know
12 exactly what they call it.

13 BY MS. GOFF:

14 Q. Is Texas Dental Association's buying group
15 called "TDA Perks"?

16 MR. McDONALD: Object to the form.

17 THE WITNESS: I know they have a perks
18 program. I do not know if that is what they call
19 their actual buying group.

20 BY MS. GOFF:

21 Q. Okay. Thank you.

22 Did you mention the term "co-op" previously?

23 A. I did.

24 Q. And what's a co-op?

25 A. A co-op would be a very similar type of

1 group, like similar to a buying group.
 2 Q. Okay. Do you use the term "co-op" and
 3 "buying group" interchangeably?
 4 A. I would say that's correct.
 5 Q. Okay. Members of co-ops are independent
 6 dentists; right?
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: I would say yes.
 9 BY MS. GOFF:
 10 Q. And members of co-ops pool together their
 11 purchasing power to negotiate lower prices?
 12 A. On some cases, yes.
 13 Q. In most cases?
 14 A. Yes.
 15 Q. Can you think of any co-ops where that's not
 16 true?
 17 A. I cannot.
 18 Q. And what about study clubs? What's a study
 19 club?
 20 A. A study club would be another group of
 21 dentists that join together that are more regionally
 22 focused rather than have a more national pool or
 23 presence.
 24 Q. And members are also independent private
 25 practice dentists?

1 development, were your responsibilities limited to
 2 any particular geographic area?
 3 A. No, they were not.
 4 Q. Okay. So it was the entire United States?
 5 A. It's a national role.
 6 Q. And that's the same in your current position
 7 as director of APC?
 8 A. That is correct.
 9 Q. And as manager of group strategy and
 10 development, did you have any duties and
 11 responsibilities for DSOs?
 12 A. We had named some of our groups, like, a
 13 hybrid DSO, because they had a DSO comp- -- you
 14 know, a small DSO component to them, but I would not
 15 say that I managed true -- like a real DSO.
 16 Q. And so let's just make sure we're on the
 17 same page about what is a DSO. Is that a dental
 18 support organization?
 19 A. Yes. And some people will also call them
 20 "dental service organizations."
 21 Q. Okay. And do DSOs typically have ownership
 22 in their -- in the dental offices?
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: Yes, the majority of them do,
 25 as a standard.

1 A. For the most part, yes.
 2 Q. And can you think of any examples of study
 3 clubs that are not -- that the members are not
 4 independent private practice dentists?
 5 A. I cannot.
 6 Q. And the members of study clubs pool together
 7 their purchasing powers to negotiate lower prices?
 8 MR. McDONALD: Object to the form.
 9 THE WITNESS: Again, that would be one layer
 10 of what they provide to their memberships.
 11 BY MS. GOFF:
 12 Q. Okay. And when you were the manager of
 13 group strategy and development, MSOs fell under your
 14 umbrella?
 15 A. I would say not as much, no. I would say
 16 MSOs respectively usually fall under the Group
 17 Practice Mid-Market Division.
 18 Q. Okay. Did any MSOs fall under your
 19 umbrella?
 20 A. Not that I'm aware of.
 21 Q. And what about in your current position as
 22 director of APC? Do any MSOs fall under your
 23 umbrella?
 24 A. No, not that I'm aware of.
 25 Q. As manager of group strategy and

1 BY MS. GOFF:
 2 Q. And do the majority of DSOs have centralized
 3 purchasing?
 4 MR. McDONALD: Object to the form.
 5 THE WITNESS: For the most cases, yes.
 6 BY MS. GOFF:
 7 Q. DSOs are not typically made up of
 8 independent private practice dentists?
 9 A. That would be an accurate statement.
 10 Q. Okay. And DSOs can drive purchasing
 11 compliance?
 12 A. Most of the time; correct.
 13 Q. And who handles DSOs at Henry Schein
 14 currently?
 15 MR. McDONALD: Object to the form.
 16 THE WITNESS: There's, I think, a few
 17 individuals at the leadership level that oversee
 18 DSOs.
 19 BY MS. GOFF:
 20 Q. Okay.
 21 A. Brian Brady, Jake Meadows, Kim Diamond.
 22 Q. Anyone else?
 23 A. I mean, as a direct report that manage
 24 those -- that division, that's the higher-level
 25 leadership team of Henry Schein Dental.

Page 38

1 Q. Okay. Does Kathleen Titus have any role
 2 with regard to DSOs?
 3 A. Yes, she does.
 4 Q. What's her role, as you understand it?
 5 A. To my knowledge, her current role is
 6 Director of Group Practice of the West.
 7 Q. And so when you say "Group Practice," is
 8 that a reference to the Mid-Market Group, or is
 9 there some distinction between those two?
 10 A. Group Practice and Mid-Market is one and the
 11 same.
 12 Q. How do you determine whether a group is
 13 within the APC, your group, or whether it's within
 14 the Mid-Market Group?
 15 A. I would say any dental practice that has
 16 three or more locations that are owned by the same
 17 entity would be a group practice.
 18 Q. And is that a rule that's written down
 19 somewhere?
 20 A. I can't recall. I don't manage the group
 21 practice space, so I don't know their actual
 22 terminology of what they would have written down or
 23 not.
 24 Q. Okay. But that's your understanding --
 25 A. That is my understanding.

Page 40

1 Q. And is that a community health center?
 2 A. Yes.
 3 Q. And are CHCs federally qualified community
 4 health groups that provide care for indigent
 5 populations?
 6 MR. McDONALD: Object to the form.
 7 THE WITNESS: I don't think --
 8 MR. McDONALD: Hang on.
 9 Object to the form. Lack of foundation.
 10 You need to pause.
 11 THE WITNESS: I don't have that type of
 12 knowledge. I don't manage CHCs.
 13 BY MS. GOFF:
 14 Q. Okay. So you're not responsible for
 15 interfacing with CHC groups?
 16 A. I am not.
 17 Q. And you're not responsible for interfacing
 18 with CHC GPOs or buying groups?
 19 A. I am not.
 20 Q. I mentioned the term "GPO." Are you
 21 familiar with that term?
 22 A. I am.
 23 Q. Does it stand for "group purchasing
 24 organization"?
 25 A. Yes, it does.

Page 39

1 Q. Okay. That's your understanding of how a
 2 buying group that would be within your purview is
 3 distinct from a group that's within the Mid-Market
 4 purview?
 5 A. Can you rephrase that.
 6 Q. Sure. So you said that three or more
 7 locations owned would be a DSO within Mid-Market; is
 8 that correct?
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: In my definition, that is what
 11 I would call a Group Practice Mid-Market account.
 12 BY MS. GOFF:
 13 Q. Okay. If a group has fewer than three or
 14 more locations, then would it be within your
 15 purview?
 16 A. Yes, and also if there is no group ownership
 17 individually owned.
 18 Q. What do you mean by "no group ownership"?
 19 A. Meaning you don't have one doctor owning all
 20 the practices.
 21 Q. So you handle groups where there is no group
 22 ownership?
 23 A. For the most part, yes.
 24 Q. Okay. Have you heard the phrase "CHC"?
 25 A. I have.

Page 41

1 Q. And, in your view, do GPOs exist in the
 2 dental industry?
 3 A. You have groups that will call themselves a
 4 GPO. Again, "GPO" can mean many different things,
 5 and it can be defined many different ways, depending
 6 on who you're speaking with and speaking to. If you
 7 would refer to what a GPO would be in the healthcare
 8 medical space, it's very different than what you
 9 would call a GPO in the dental space.
 10 Q. Okay. So in the medical space do GPOs
 11 typically pool their volume of members to negotiate
 12 discounts with manufacturers?
 13 MR. McDONALD: Object to the form. Lack of
 14 foundation.
 15 THE WITNESS: I don't work in the medical
 16 field, so I don't know for sure. But from terms of
 17 how I would define it, that -- that would be an
 18 accurate statement.
 19 BY MS. GOFF:
 20 Q. Okay. And then have you ever used the
 21 phrase "GPO" to mean a buying group as we've defined
 22 "buying group" today?
 23 A. I have used the acronym or word "GPO" to
 24 define a buying group in dental. Yes, I have.
 25 Q. Okay. And have you seen other people at

1 Schein using "buying group" and "GPO"
2 interchangeably?

3 A. All the time.

4 Q. It's common for people at Schein to refer to
5 buying groups as "GPOs"?

6 MR. McDONALD: Object to the form.

7 THE WITNESS: It's common for, I think,
8 anyone within the dental industry to utilize the
9 word "GPO" and "buying group" interchangeably.

10 BY MS. GOFF:

11 Q. So what are your duties and responsibilities
12 in your current position as director of APC?

13 A. I foster and manage our current
14 partnerships. I will work through discovery to find
15 new potential APC relationships, do the discovery
16 process, the vetting of those to the proposals,
17 creating formularies, executing prime vendor
18 agreements. I'm responsible for the launch,
19 marketing creation and then the on-boarding
20 processes for those APC groups.

21 Q. Okay. Thank you.

22 And was your position -- your move to
23 director of APC a promotion?

24 A. Yes, it was.

25 Q. When you were the manager of group strategy

1 and development, what were your duties and
2 responsibilities?

3 A. It was very similar to the duties that I --
4 I am doing now.

5 Q. Okay. Are there any distinctions between
6 your current position and your prior position as
7 manager of group strategy and development?

8 A. I would say I have an individual reporting
9 to me now, and that would be one of the only
10 differences that I can recall at this time.

11 Q. Okay. Other than yourself and your direct
12 report, Annika Swenson, are there any other
13 employees in the APC group right now?

14 A. No, there's not.

15 Q. And prior to hiring Annika Swenson, were you
16 the only employee of the APC group?

17 A. Yes.

18 Q. When did you hire Annika Swenson?

19 A. January 2nd of 2018.

20 Q. So I think you testified earlier that the
21 term "APC" did not exist when you first started at
22 Schein; is that correct?

23 A. That is correct.

24 Q. When did that term come to exist?

25 A. I would say roughly within 30 to 40 days

1 after my hire date.

2 Q. Okay. Who coined that term?

3 A. It was a group, kind of, decision.

4 Q. Among who?

5 A. Brian Brady, Joe Cavaretta, Jake Meadows and
6 Dave Steck.

7 Q. Okay. And were you involved --

8 A. I was.

9 Q. -- in the decision?

10 And was there a meeting in which the phrase
11 "alternative purchasing channel" was coined?

12 A. Yes. We were at a strategy meeting.

13 Q. And what was the subject matter of the
14 strategy meeting?

15 A. On how to best cultivate and, I guess,
16 discuss strategies on this new division.

17 Q. So the APC was a new division when you first
18 arrived at Henry Schein?

19 A. Correct.

20 Q. Okay. So no one was in the role of group
21 strategy and development prior to you?

22 A. That is correct.

23 Q. That was just a new position?

24 A. That is correct.

25 Q. Okay. And so this strategy meeting that you

1 were talking about was within 30 days of your
2 arrival?

3 A. To what -- to what I can recall.

4 Q. Okay. And the subject matter was how to
5 best cultivate the groups that were within the APC?

6 A. It was -- again, it was more a strategy
7 meeting, a discussion of this role and what that
8 role looked like and the strategy behind it and what
9 type of partnerships that we would feel would align
10 underneath that umbrella.

11 Q. And when you say "this role," you mean your
12 role?

13 A. Correct.

14 Q. Okay. So before the strategy meeting, did
15 you have a sense of what your role at Henry Schein
16 was going to be?

17 A. For the most part, yes.

18 Q. And what was your understanding of what the
19 role was going to be?

20 A. To manage groups comprised of individual
21 private practices.

22 Q. Okay. And it was new for Henry Schein to be
23 working with groups comprised of individual private
24 practices?

25 MR. McDONALD: Object to the form.

1 Mischaracterizes the evidence.
 2 THE WITNESS: I would not say that's an
 3 accurate statement.
 4 BY MS. GOFF:
 5 Q. What is inaccurate about that statement?
 6 A. To my knowledge, Schein had been working
 7 with similar groups that would have a buying group
 8 structure to them before my on-boarding at Schein.
 9 Q. Okay. You started in May of 2016; correct?
 10 A. That is correct.
 11 Q. And so your -- how do you have knowledge of
 12 what occurred at Henry Schein prior to May of 2016?
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: When I on-boarded, there were
 15 some accounts that had been managed by either
 16 individuals in the group practice, mid-market or
 17 special market space that they had educated me on
 18 and gave me examples of groups that they were
 19 working with prior to my on-boarding that fit that
 20 structure.
 21 BY MS. GOFF:
 22 Q. And who is "they" that educated you?
 23 A. Brian Brady, Joe Cavaretta, Jake Meadows.
 24 Q. Okay. And was that education -- did it
 25 occur at the strategy meeting that you were

1 just some; not all.
 2 BY MS. GOFF:
 3 Q. Okay. In June of 2016 when you joined Henry
 4 Schein Dental, it was your understanding that
 5 working with buying groups was new to Henry Schein
 6 Dental; correct?
 7 MR. McDONALD: Object to the form.
 8 Mischaracterizes evidence. Mischaracterizes her
 9 testimony.
 10 THE WITNESS: It was my understanding that
 11 at that time they had not had an individual within
 12 Schein solely focused on those type of partnerships.
 13 It did not mean that Henry Schein was not working
 14 with those groups prior to my role.
 15 BY MS. GOFF:
 16 Q. So it is your understanding that prior to
 17 your role there was no individual within Henry
 18 Schein Dental who was dedicated to working with
 19 buying groups?
 20 A. That's an accurate statement.
 21 MS. GOFF: Okay. And I would like to show
 22 you a document. It has been premarked as
 23 Exhibit CX2183.
 24 (Exhibit CX2183 introduced on the record.)
 25 ///

1 referring to?
 2 A. Portions of it.
 3 Q. Okay. And Jake, Brian Brady, Joe Cavaretta
 4 and Jake Meadows informed you of the groups that
 5 Schein was working with prior to your on-boarding?
 6 MR. McDONALD: Object to the form.
 7 Mischaracterizes her testimony.
 8 Go ahead.
 9 THE WITNESS: I mean, we discussed some
 10 groups. I'm sure it wasn't all of them.
 11 BY MS. GOFF:
 12 Q. But they informed you of the groups that
 13 Schein was working on?
 14 MR. McDONALD: Object to the form. You've
 15 mischaracterized and misstated what she just told
 16 you.
 17 Go ahead.
 18 THE WITNESS: A few of them.
 19 BY MS. GOFF:
 20 Q. They informed you of the few groups that
 21 Henry Schein was working on?
 22 MR. McDONALD: Object to the form.
 23 Mischaracterizes and misstates her testimony.
 24 THE WITNESS: We discussed a handful of some
 25 of the groups that they were working with. Again,

1 BY MS. GOFF:
 2 Q. Have you had a chance to review the email?
 3 A. I'm still reading.
 4 Q. Okay. Have you had a chance to review the
 5 document?
 6 A. I'm just finishing up.
 7 Q. Have you had a chance to review the
 8 document?
 9 A. Yes, I have.
 10 Q. Okay. This is an email chain. The latest
 11 in time is an email from you to Irfan Buddha with --
 12 and a few other individuals with a CC to
 13 Andrea Hight and a Rachele Belloit. It's dated
 14 September 1st, 2016.
 15 This top email is an email that you wrote;
 16 correct?
 17 A. Correct.
 18 Q. And you drafted it, this email, as part of
 19 your job?
 20 A. Yes.
 21 Q. And you have knowledge of the contents of
 22 the email?
 23 A. Yes.
 24 Q. And you drafted the email at or near the
 25 time of the events that occurred in the email?

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: I don't understand.
 3 BY MS. GOFF:
 4 Q. You drafted this email on September 1st of
 5 2016; correct?
 6 A. That's what it says.
 7 Q. Okay. And you kept it in the course of
 8 regularly conducted business?
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: I don't understand what you
 11 mean.
 12 BY MS. GOFF:
 13 Q. Did you maintain this email in your files in
 14 the course of regularly conducted business?
 15 MR. McDONALD: Object to the form.
 16 Karen, as I told you guys, we're not going
 17 to -- if this is a document produced by Henry
 18 Schein, it's a Henry Schein email, we're not going
 19 to contest the authenticity of the email.
 20 MS. GOFF: Okay. Thank you.
 21 BY MS. GOFF:
 22 Q. So, looking at this email, you were writing
 23 to a man or a person named Irfan Buddha; is that
 24 correct?
 25 A. That's what it says.

1 Dental. In fact, HSD working/partnering
 2 with GPOs/BGs is new for the organization
 3 in its entirety."
 4 Do you see that?
 5 A. I do.
 6 Q. So as of September 1st, 2016, you had the
 7 understanding that HSD working and partnering with
 8 buying groups was new for the organization; correct?
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: I think contextually what I
 11 was meaning is there's a division now dedicated to
 12 directly working with these groups.
 13 BY MS. GOFF:
 14 Q. Okay. But you informed Mr. Buddha that HSD
 15 working and partnering with buying groups is new for
 16 the organization in its entirety?
 17 MR. McDONALD: Object to the form. The
 18 document speaks for itself. If you're asking about
 19 what the sentence means, asked and answered.
 20 BY MS. GOFF:
 21 Q. Go ahead. You can answer the question.
 22 A. I mean, again, to the email, what I just
 23 answered is my context to the medical team was
 24 letting them know that we have a division now
 25 dedicated to managing these type of groups.

1 Q. And you were trying to get more information
 2 about a group called MedCost; is that right?
 3 A. That's what seems to be the case.
 4 Q. And MedCost was a GPO; is that right?
 5 A. From the email string and what the other
 6 individuals on here had wrote, that seems to be the
 7 case.
 8 Q. Okay. And do you have an understanding as
 9 you sit here today about what MedCost is?
 10 A. Not really, no.
 11 Q. And Mr. Irfan Buddha is -- was he within the
 12 Henry Schein Medical Division?
 13 A. To the best of my knowledge, yes.
 14 Q. And you informed Mr. Irfan as well as two
 15 other individuals, Heather and Rachele. Just for
 16 the record, it's Heather Davis and Rachele Belloit.
 17 Are those individuals also within the Henry Schein
 18 Medical Division?
 19 A. At that time I believe that to be the case.
 20 Q. Okay. And so as of September 1st, 2016, you
 21 had been in your role as manager of group strategy
 22 and development for at least three months; correct?
 23 A. That seems to be an appropriate timeline.
 24 Q. Okay. And you wrote here:
 25 "I am new in this role with Henry Schein

1 Q. But what you wrote was that HSD working with
 2 buying groups was new to the organization in its
 3 entirety; is that right?
 4 MR. McDONALD: Object to the form. Asked
 5 and answered for the third time now.
 6 MR. KASS: And mischaracterizes the
 7 document.
 8 BY MS. GOFF:
 9 Q. You can answer the question.
 10 A. I would say that's incorrect. That's not
 11 what the context was.
 12 Q. And where in this document did you give the
 13 context that the -- there was a new division
 14 dedicated to managing these types of groups?
 15 MR. McDONALD: Object to the form. The
 16 document speaks for itself.
 17 THE WITNESS: I've already answered that
 18 question three times.
 19 BY MS. GOFF:
 20 Q. No. I'm asking a different question. Where
 21 in the document can you point me to in this document
 22 that says that you gave the context of a new
 23 division?
 24 A. It doesn't say "division." That's what I
 25 was meaning.

1 Q. Okay. And "BG" refers to "buying groups";
2 correct?

3 A. In this email; correct.

4 Q. And "GPO" refers to "group purchasing
5 organizations"?

6 A. Which is the same as a buying group in my
7 context in this email.

8 Q. Okay. So nowhere in the email does it say
9 that there is a new group, a new division; correct?

10 MR. McDONALD: Object to the form. The
11 document speaks for itself.

12 If you want her to re-read it and tell you
13 if she thinks it's in there somewhere, then we can
14 spend the time to do that.

15 BY MS. GOFF:

16 Q. Is that correct?

17 MR. McDONALD: And I suggest you re-read the
18 email before you answer that question.

19 BY MS. GOFF:

20 Q. Do you need to re-read the email to answer
21 my question?

22 MR. McDONALD: She's going to listen to her
23 counsel and the instruction her counsel has given
24 her.

25 MS. GOFF: John, you are being

1 obstructionist. I'm entitled to ask questions.
2 Miss Wingard will give me the answers.

3 MR. McDONALD: You've answered -- you've
4 asked the same question four times. You clearly
5 don't like the answer she gave you, and so you keep
6 asking the same question.

7 And so I'm advising my client if you're
8 asking her if there is anywhere in this four-page
9 email along the lines of what you suggest, then she
10 should read it again before she answers the
11 question.

12 MS. GOFF: Then we can take a break, and
13 she can read it, because --

14 MR. McDONALD: No, we are not going to go
15 off the record and take a break while she reads it
16 again. You just don't like what she said.

17 MS. GOFF: I want to make sure that I have a
18 clean record.

19 MR. McDONALD: The record is clean that
20 she's explained to you what she meant by that
21 sentence.

22 MS. GOFF: Okay.

23 MR. SOLOMON: Do we have an answer to the
24 question before we move on?

25 MR. McDONALD: I don't know what the

1 question is.

2 MR. SOLOMON: I think, Karen, you have an
3 outstanding question, and we didn't get an answer,
4 so...

5 BY MS. GOFF:

6 Q. So where in the document can you point me to
7 that says that there was a new division?

8 MR. McDONALD: Take your time and read it
9 again.

10 BY MS. GOFF:

11 Q. Can you point me to anywhere in the document
12 where it says that you were referring to a new
13 division?

14 A. So there is nowhere in the document that
15 says "division," but in that first paragraph when I
16 write to Heather and Rachelle, that is my context.
17 That is what I was meaning, that we have an
18 individual, which is myself, that is now running a
19 division solely dedicated to these type of groups.

20 Q. Okay. But there's nowhere in there where
21 you mentioned the word "division"?

22 A. I just answered that.

23 MS. GOFF: Okay. I am going to hand you
24 another document. It's been premarked as CX2171.

25 MR. McDONALD: Don't look at the document

1 until she hands it to me and I say it's okay to look
2 at it.

3 (Exhibit CX2171 introduced on the record.)

4 MR. McDONALD: You should --- you should
5 learn something. You should give the document to
6 the lawyer first. That is a protocol that's
7 followed so I can ensure it's a document that's not
8 covered by some protective order and the witness can
9 see it. I would appreciate that courtesy. I will
10 extend you the same thing every deposition we ever
11 take. And don't smirk at me, Karen.

12 You can look at it.

13 You know darn well there are a lot of
14 documents in this case that this witness cannot see.

15 BY MS. GOFF:

16 Q. Have you had a chance to review this very
17 short two emails on one page?

18 A. Another minute, please.

19 Q. Okay.

20 Have you had a chance to read it?

21 A. Yes.

22 Q. You're finished?

23 A. Yes, I am.

24 Q. Thank you.

25 And is this an email chain between you and a

1 Jamie Povlich with a CC to Brad Fine dated
2 September 26, 2016?
3 A. That is what the email shows.
4 Q. Okay. And the latest-in-time email, you
5 drafted that email; is that correct?
6 A. It's what the email shows.
7 Q. And you drafted it as part of your job;
8 correct?
9 A. Yes.
10 Q. Okay. And who is Mr. or Mrs. Jamie Povlich?
11 A. I do not remember.
12 Q. Mr. or Mrs. Povlich worked at Henry Schein;
13 correct?
14 A. It seems to be the case.
15 Q. Okay. And he or she reached out to you and
16 said that they had a meeting with Kingsport Dental
17 Society about their buying group. Do you see that?
18 A. I do.
19 Q. And here she asks you to forward a
20 PowerPoint about the program. Do you see that?
21 A. I do.
22 Q. And then you responded that you did not have
23 a formal presentation to share on GPOs; correct?
24 A. Correct.
25 Q. And in this email were you using the term

1 A. That's what the --
2 MR. McDONALD: Hang on.
3 Object to the form.
4 Go ahead.
5 THE WITNESS: That is what the email states.
6 Again, it's being pulled out of context, saying that
7 this is still a new division within Schein.
8 BY MS. GOFF:
9 Q. Okay. And you did not inform Jamie Povlich
10 that what you meant was a new division; correct?
11 A. I don't remember what our call entailed or
12 discussed.
13 Q. In your email you did not inform Mr. Povlich
14 that what you meant was a new division; correct?
15 MR. McDONALD: Object to the form.
16 THE WITNESS: I mean, again, this was new to
17 the division that I was managing.
18 BY MS. GOFF:
19 Q. It was new to HSD in its entirety; right?
20 A. The division --
21 MR. McDONALD: Hang on.
22 Object to the form. It mischaracterizes the
23 document, her testimony and all the evidence.
24 Go ahead.
25 THE WITNESS: Referring to the APC division

1 "GPO" to refer to buying group?
2 A. Yes, I was.
3 Q. And then you wrote:
4 "As discussed we do not have a formal
5 presentation to share on GPOs and formulary
6 pricing. Working with these groups and
7 Alternate Purchasing Channels (APCs) is
8 still very new to HSD."
9 Do you see that?
10 A. I do.
11 Q. So as of September 26, 2016, you had been in
12 your role as manager of group strategy and
13 development for at least three and a half months;
14 correct?
15 A. It seems to be true.
16 Q. And you were informing a colleague of yours
17 at Henry Schein that working with buying groups was
18 still very new to HSD; correct?
19 MR. McDONALD: Object to the form.
20 THE WITNESS: New to this division that I
21 was running.
22 BY MS. GOFF:
23 Q. So you wrote, "Working with these groups and
24 Alternate Purchasing Channels is still very new to
25 HSD"; correct?

1 being new to the company.
2 BY MS. GOFF:
3 Q. That's what you meant? Sitting here today,
4 that's your understanding of what you meant when you
5 wrote this email?
6 A. Yes.
7 Q. Okay. But nowhere in email did you mention
8 a new division; correct?
9 A. I don't see the word "division" in there.
10 MS. GOFF: Okay. I'm handing you another
11 document. It has been marked as CX2184.
12 (Exhibit CX2184 introduced on the record.)
13 BY MS. GOFF:
14 Q. Please let me know when you have had a
15 chance to finish reviewing this email chain. It's,
16 again, on one page.
17 A. I will.
18 Q. Thank you.
19 Have you had a chance to review the email
20 chain?
21 A. Yes, I have.
22 Q. Okay. So this is an email -- the latest in
23 time is from you to Tim Griffin. It's dated
24 December 27, 2016; is that correct?
25 A. That's what the email says.

1 Q. And is this an email that you wrote?
 2 A. Yes.
 3 Q. And you drafted it as part of your job?
 4 A. Yes.
 5 Q. And you were writing to Tim Griffin. He was
 6 a field sales consultant at Henry Schein Dental at
 7 the time of this email; is that right?
 8 A. That's what the email shows.
 9 Q. And he reached out to you and said he had a
 10 couple doctors interested in forming a buying group.
 11 A. That's what the email shows.
 12 Q. And he asked what Henry Schein could offer
 13 them.
 14 A. That's what he asked.
 15 Q. And then you responded by saying:
 16 "The industry is definitely evolving, and
 17 we are seeing an influx of BGs forming.
 18 Formally Henry Schein has not played in
 19 this space, however we are now starting
 20 to properly assess these groups which we
 21 call Alternate Purchasing Channels
 22 (APCs)."
 23 Do you see that?
 24 A. I do.
 25 Q. So you informed Mr. Griffin that formally

1 Do you see that?
 2 A. I do.
 3 Q. And by "piloting," did you mean testing
 4 before introducing widely?
 5 MR. McDONALD: Object to the form.
 6 THE WITNESS: At this time the role was
 7 still very new, and we had many different structures
 8 that we were looking at to maybe use as a cookie
 9 cutter or standard offering of what we would offer
 10 in initial discussions to some of these groups, and
 11 we had not vetted out a proper process yet.
 12 BY MS. GOFF:
 13 Q. Okay. So as of this time in December 2016,
 14 you were still vetting the processes of working with
 15 these types of buying groups; correct?
 16 A. To what I can remember, correct.
 17 Q. Okay. And then you wrote:
 18 "We are extremely selective in the groups
 19 we will entertain aligning with dependent
 20 on their vision and infrastructure."
 21 Do you see that?
 22 A. I do.
 23 Q. And what did you mean by "extremely
 24 selective"?
 25 A. Meaning that we are going to be picky. We

1 Henry Schein had not played in the buying group
 2 space; correct?
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: No, I wouldn't say that's
 5 exactly what was said.
 6 BY MS. GOFF:
 7 Q. You wrote, "Formally Henry Schein has not
 8 played in this space," correct?
 9 A. In the APC buying group space when it's
 10 managed in a division.
 11 Q. Okay. So Henry Schein had not played in the
 12 APC buying group space?
 13 A. They had not had a formal division dedicated
 14 to managing those type of partnerships.
 15 Q. And you wrote, "Formally Henry Schein has
 16 not played in this space"; correct?
 17 A. That is what I wrote.
 18 Q. And when you wrote "space," you meant buying
 19 group space; correct?
 20 A. Buying group, APCs.
 21 Q. Okay. And then you wrote:
 22 "Currently we are piloting program
 23 offerings with a few APCs. We are still
 24 navigating and exploring how best to work
 25 with them."

1 want to make sure that we align with a partnership
 2 that echos our same sentiment with the vision and
 3 mission of helping these individual private
 4 practices grow and thrive.
 5 Q. Okay. And then you wrote:
 6 "...we do not want to encourage or consult
 7 Dentists on how to form these groups."
 8 Do you see that?
 9 A. I do.
 10 Q. And so you were saying that Schein did not
 11 want to encourage dentists to form buying groups?
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: That's not what that means.
 14 BY MS. GOFF:
 15 Q. What does it mean?
 16 A. It means that right now I did not want to
 17 consult a doctor on how to start or form a group.
 18 That's not our job description, and we're not there
 19 to help these individuals structure one of these
 20 groups.
 21 Q. Why not?
 22 A. Can you --
 23 Q. Sorry. You said, "It means right now I did
 24 not want to consult a doctor on how to start or form
 25 a group. That's not our job description." Why not?

1 MR. McDONALD: Well, that's not her entire
2 answer. Her answer -- her entire answer was,
3 "That's not our job, and we are not there to help
4 these individuals structure one of these groups."

5 MS. GOFF: Sure. Thank you for clarifying.
6 BY MS. GOFF:

7 Q. So why not?

8 A. It's just not something I wanted to do. If
9 you see in that second paragraph, the top of the
10 page, we already had a Connection Program and a
11 formulary created to support these individual
12 private practices, and that program had been around,
13 to my knowledge, years before I came on board into
14 this role.

15 And so we'd much rather present them with a
16 program that we've already created that helps them
17 with every aspect of the practice. And there's no
18 reason they need to reinvent the wheel and start
19 their own group. We already have the tools for
20 them.

21 Q. Okay. So what is the Henry Schein
22 Connection Program?

23 A. So it's a program that outlines every facet
24 of our -- what we call our "Henry Schein Practice
25 Care Wheel" that brings in our supplies, our

1 technology, our practice management systems,
2 equipment, business solutions offerings, pretty much
3 everything that a full service vendor like Schein
4 can provide to these offices to help them with their
5 practice growth, whether it's business, clinical,
6 supplies, whatever it may be.

7 Q. Okay. So the Connection Program was an
8 offering to independent private practice dentists;
9 correct?

10 A. It is an offering.

11 Q. It still exists?

12 A. Yes, it does.

13 Q. Okay. And so you were saying that you would
14 rather have individual private practice dentists buy
15 products and services from Henry Schein through the
16 Connection Program rather than forming a buying
17 group?

18 MR. McDONALD: Object to the form.

19 THE WITNESS: I'm saying that we already
20 have a program created for these doctors and
21 dentists for what these guys are wanting to create.

22 BY MS. GOFF:

23 Q. And so there's no reason to create a buying
24 group?

25 A. That would be correct.

1 Q. Okay. And isn't it true that with a buying
2 group these same dentists could get discounted
3 prices from Henry Schein?

4 MR. McDONALD: Object to the form.

5 THE WITNESS: Can you -- can you please
6 rephrase that question.

7 BY MS. GOFF:

8 Q. Sure. Do -- does Henry Schein's offering to
9 buying groups -- is it -- does it offer lower prices
10 on products than what it offers in the Henry Schein
11 Connection Program?

12 MR. McDONALD: Object to the form.

13 THE WITNESS: It's a very broad statement.
14 There are many different formularies that we have.
15 We don't work with every group the same, so I can't
16 answer that properly.

17 BY MS. GOFF:

18 Q. So it's not standard that the formularies
19 for buying groups are at lower prices than what
20 Henry Schein offers in the Connection Program?

21 A. There's --

22 MR. McDONALD: Object to the form.

23 Go ahead.

24 THE WITNESS: There's three levels within
25 the Connection Program, so I think it really depends

1 on what level these practices are on what
2 formularies they are looking at. So, again, I can't
3 answer that question properly.

4 BY MS. GOFF:

5 Q. Are you familiar with the Henry Schein
6 Connection Program formularies?

7 A. I mean, I'm aware of the levels. When
8 you're asking me what -- if -- the product makeup
9 and the product mix of them detailed, no, I'm not.

10 Q. What are levels?

11 A. There's three levels.

12 Q. What are they called?

13 A. It is Connection Program Level 1, 2 and 3.

14 Q. And which one offers the most significant
15 discount?

16 A. Our Level 3.

17 Q. And are the discounts offered by you to your
18 groups in the APC more significant or steeper than
19 the Level 3 discounts?

20 MR. McDONALD: Object to the form.

21 THE WITNESS: I can't -- again, I can't
22 answer that accurately. We have some groups, APC
23 groups, that are utilizing part of the Connection
24 Program as their offering where their members are
25 enrolled in the Level 3 program. So, again, there

1 are some that are similar. There are some
2 formularies that might be better discounts, more
3 aggressive, and some that aren't.

4 BY MS. GOFF:

5 Q. Okay. The last line -- or the last
6 paragraph of the email, you wrote:

7 "Please keep this email internal and do
8 not share externally."

9 Why were you instructing Mr. Griffin not to
10 share externally?

11 A. Because I would not want Tim Griffin, who is
12 an FSC --

13 Q. Uh-huh.

14 A. -- to share this with his customer.

15 DEPOSITION REPORTER: What was his role?

16 THE WITNESS: He's a field sales consultant,
17 FSC.

18 BY MS. GOFF:

19 Q. So going back to the Connection -- the Henry
20 Schein Connection Program, do you have an
21 understanding of when that program was created?

22 A. I do not.

23 Q. Okay. Was it -- is it fair to say that it
24 was started prior to your arrival at Henry Schein
25 Dental?

1 A. That's correct.

2 Q. And do you have an understanding of who
3 oversees that program?

4 A. It's in our private practice division, so
5 whoever manages at that time, who was ever in the
6 leadership role of the sales division --

7 Q. Okay.

8 A. -- I would assume.

9 Q. Okay. But you don't have personal
10 knowledge?

11 A. I do not.

12 MS. GOFF: Okay. We've been going for about
13 an hour and a half. Is it okay if we take a break
14 now?

15 MR. McDONALD: Sure.

16 (Off the record.)

17 MS. GOFF: Back on the record.

18 BY MS. GOFF:

19 Q. Miss Wingard, when you first started at
20 Schein, did you need to get up to speed on Schein's
21 practice with regard to APC groups?

22 A. Yeah. Absolutely. There was definitely an
23 on-boarding period and helping me -- or them helping
24 me, you know, better understand the space, and,
25 again, that's why I had a strategy meeting.

1 Q. Okay. And so I wanted to ask you some more
2 questions about the strategy meeting. Can you
3 refresh my memory. Who did you say was at that
4 meeting?

5 A. Brian Brady, Joe Cavaretta, Jake Meadows and
6 Dave Steck.

7 Q. Okay. And what did they inform you at that
8 meeting?

9 MR. McDONALD: Object to the form. Overly
10 broad.

11 THE WITNESS: I believe I answered this in
12 the beginning. Again, it was my first initial
13 meeting since taking that role and just getting
14 acquainted with the Henry Schein leadership team and
15 really us working together to understand our
16 strategy for managing the partnerships under the APC
17 umbrella.

18 BY MS. GOFF:

19 Q. Okay. And so the partnerships under the APC
20 umbrella -- strike that.

21 When you first -- sorry. Strike that.

22 So you were not within the Mid-Market Group;
23 is that correct?

24 A. That is correct.

25 Q. Okay. And so the phrase "APC group" did not

1 exist when you first started; is that right?

2 A. I answered it earlier this morning. That is
3 correct.

4 Q. Okay. But you were always -- you were
5 brought on board at Schein to work with these groups
6 that would later become named the APC group --
7 groups?

8 A. That is correct.

9 Q. And I think we talked earlier about what
10 those types of groups were. And it included buying
11 groups; is that correct?

12 A. Yes, that's one group.

13 Q. And dental associations?

14 A. Correct.

15 Q. Study clubs?

16 A. Correct.

17 Q. Co-ops?

18 A. Correct.

19 Q. And were there any others?

20 A. There could -- I mean -- yes, there's always
21 various type of groups: hybrid DSOs, et cetera. I
22 mean, again, that's why we labeled this division
23 APCs because we don't want to just label one group
24 that we would be working with.

25 Q. Okay. But all of the groups, in your

1 understanding, what they have in common is that they
 2 were comprised of independent dental practices; is
 3 that right?
 4 A. That is correct.
 5 Q. Okay. And there was no common ownership?
 6 MR. McDONALD: Object to the form.
 7 Go ahead.
 8 THE WITNESS: For the most part; correct.
 9 BY MS. GOFF:
 10 Q. So then going back to the strategy meeting,
 11 were you informed of groups that Schein -- did you
 12 testify previously that you were informed of groups
 13 that Schein had been working with that would fall
 14 under this APC umbrella?
 15 A. Yes. There was discussions of a handful of
 16 limited groups, not subjective to all, that Henry
 17 Schein was previously working with.
 18 Q. Okay. And what were those -- oh, sorry. Go
 19 ahead.
 20 A. That was it.
 21 Q. Okay. And what were those handful of
 22 limited groups that you discussed?
 23 A. I don't recall. There was many groups
 24 discussed during that meeting.
 25 Q. Okay. Do you recall any of the groups

1 discussed?
 2 A. Yes. Klear Impakt was one of them.
 3 "Klear," K-l-e-a-r; "Impakt" is I-m-p-a-k-t.
 4 You wouldn't have guessed that one if you tried.
 5 Q. And can you think of any other groups that
 6 were discussed at that strategy meeting?
 7 A. Another group discussed -- but, again, not
 8 limited to -- is Breakaway Practice Group.
 9 Q. Any others that you can think of, sitting
 10 here today?
 11 MR. McDONALD: It's "Breakaway."
 12 THE WITNESS: Not to my knowledge. I know
 13 that there were many groups that were discussed, but
 14 those, I think, were the only two that I can really
 15 remember.
 16 BY MS. GOFF:
 17 Q. Were you given any written materials?
 18 A. There were some shared documents that
 19 Brian Brady had created.
 20 Q. And that was -- you were given these shared
 21 documents when you first started as part of your
 22 on-boarding at Schein?
 23 A. Yeah.
 24 Q. Okay. And what shared documents can you
 25 recall right now?

1 A. Just kind of on-boarding processes of what
 2 the on-boarding would look like for these groups.
 3 Some structure processes of what -- again, what we
 4 envisioned some of the approval and vetting
 5 discovery to look like.
 6 Q. Okay. And were you given any other shared
 7 documents that you can think of right now?
 8 A. I can't. I mean, there were other
 9 documents. I can't remember exactly what those
 10 documents entailed.
 11 Q. Okay. And did you maintain those -- those
 12 on-boarding documents anywhere in particular in your
 13 system?
 14 A. I have -- again, they were hard files, hard
 15 file documents that were shared at the meeting, so
 16 I'm sure I still have those documents in binders
 17 somewhere living within my home office. And I'm
 18 sure through the various emails that you pulled,
 19 those attachments are somewhere in my emails.
 20 Q. But you have the binder that you received in
 21 advance of that strategy meeting in your office
 22 somewhere, you believe?
 23 A. I believe. And I don't even recall calling
 24 it a "binder."
 25 Q. Were the documents within the binder?

1 A. I don't remember.
 2 Q. Okay. Do you know if your hard copy
 3 documents were searched as a part of this
 4 litigation?
 5 A. I have no knowledge of that.
 6 Q. Okay. And so can you think of any other
 7 documents that were provided to you in advance of
 8 the strategy meeting or at the strategy meeting?
 9 A. I think there was a document that also
 10 listed, again, groups that we were currently working
 11 with or groups that we had spoken to, like
 12 definitely in the past prior to me coming on board.
 13 Q. And is it your understanding that
 14 Brian Brady created that document?
 15 A. I don't know who created that document.
 16 Q. Okay. And do you have a specific document
 17 in mind, though?
 18 A. Yes, I do.
 19 Q. Okay. And other than speaking with the
 20 individuals at the strategy meeting and reviewing
 21 the documents that we've discussed today, did you do
 22 anything else to get up to speed on Schein's
 23 practice with APC groups when you first arrived?
 24 A. I -- in my first, I think, couple weeks --
 25 or, I should say, first probably four weeks, there

1 were a couple individuals that I had made calls to
2 just to introduce myself, understand their roles
3 currently, how they were working with the company
4 and because I know that I would probably be relying
5 heavily on some of them for their duties to help
6 create a proper structure to vet support from the
7 groups that I would be on-boarding or managing
8 moving forward.

9 Q. Okay. And which individuals were those?

10 A. There were a handful. The best that I can
11 recall, I spoke with Kathleen Titus, director of
12 Group Practice. Scott Graversen, I believe he was
13 the director of equipment for Special Markets. I
14 spoke to Jason Krause. I think at that time he was
15 director of equipment as well -- I mean, director of
16 Group Practice. I think I also spoke to
17 Zach Harrison. I do not remember what his role is
18 at the time. And there were a handful of other
19 individuals that I just can't recall.

20 Q. Okay. But you named the individuals that
21 you can recall sitting here today?

22 A. At this time, yes.

23 Q. Okay. And so I just want to make sure I
24 have an understanding of what you did when you
25 arrived at Schein to get on board. And so you

1 attended the strategy meeting. You spoke with the
2 individuals at the strategy meeting. You received
3 the documents that you mentioned. And you then made
4 a handful of calls to the individuals that we
5 mentioned. Is there anything else that you can
6 think of sitting here today?

7 A. Yeah. The first week that I actually joined
8 with Henry Schein, I attended the California Dental
9 Association Meeting in Anaheim, California. And I
10 had met with Joe there, Joe Cavaretta, and I had a
11 meeting with him.

12 And then I had met with also Kathleen Titus
13 and Andrea Hight, and they had -- they kind of let
14 me -- I guess the proper terminology would be, like,
15 shadow them through the meeting. So they had
16 multiple manufacturer meetings throughout that
17 entire three-day meeting that I sat in on, whether
18 they were lunch meetings, breakfast meetings,
19 meetings throughout the trade show. So that was
20 probably part of that process.

21 Q. Did you meet with any APC groups during
22 that --

23 A. No.

24 Q. -- those days that you --

25 A. No, I did not.

1 MR. McDONALD: Let her finish. You have
2 been doing better, but let her finish.

3 BY MS. GOFF:

4 Q. And when you met with Joe Cavaretta, what
5 was the topic of your discussion?

6 A. It was more of a welcome meeting. We sat
7 down and just said "Welcome" and just kind of --
8 again, just discussed high-level roles of what the
9 division would entail.

10 Q. Okay. And did you attend any training, like
11 formal training, when you first started at Henry
12 Schein?

13 A. No, there is no formal training.

14 Q. And other than what we've discussed here,
15 can you think of anything else sitting here today
16 that you did to get up to speed regarding the APC
17 groups when you first started?

18 A. I mean, I'm sure there were some other
19 things that I just can't recall. It was over two
20 years ago.

21 Q. Okay. And so, sitting here today, are you
22 able to think of any other groups -- APC groups that
23 Schein worked with when you first started other than
24 the ones that you mentioned, Klear Impakt and
25 Breakaway?

1 MR. McDONALD: Object to the form.

2 THE WITNESS: Can you revise that question,
3 restate the question?

4 BY MS. GOFF:

5 Q. I can just ask it. So you mentioned that at
6 the strategy meeting you were informed that Henry
7 Schein worked with Klear Impakt and Breakaway; is
8 that correct?

9 A. So, again, there was many groups discussed
10 at that strategy meeting, many that we had been
11 working with for years past. Breakaway and Klear
12 Impakt were two that I know were discussed that I
13 can recall definitively today that I know that were
14 going to be groups that I was going to inherit
15 directly under my division. So those are the
16 reasons why those two stand out to me.

17 There were many groups that were discussed
18 that -- that would be a quintessential type of
19 buying group that Schein had worked with, like I
20 said, years before me coming into the role.

21 Q. Sitting here today, can you think of any of
22 those other groups that were discussed?

23 A. I can't.

24 Q. Okay. And so in your role you inherited
25 Klear Impakt and Breakaway; is that correct?

Page 82

1 A. That is correct.
 2 Q. And did you inherit any other groups?
 3 A. Can you confirm timeline?
 4 Q. At any point when you were within the APC,
 5 did you inherit any other groups?
 6 A. So, yes, just a month ago they just gave me
 7 another group that had been formerly being managed
 8 by the Special Markets team that is now going to be
 9 put under our umbrella.
 10 Q. Okay. What group is that?
 11 A. OrthoSynetics.
 12 Q. And can you think of any other groups that
 13 you've inherited?
 14 A. There's been a couple other, kind of, study
 15 clubs that we have been managing that have gone back
 16 probably close to ten years that were study clubs
 17 that had been managed at the local level that they
 18 had put under our umbrella as well.
 19 Q. And what are those study clubs?
 20 A. Advantage Dental, Dentists for a Better
 21 Huntington, Corydon Palmer, Stark County. I feel
 22 like I'm missing one, and I just can't recall at
 23 this time.
 24 Q. Did you mention Long Island Dental Society?
 25 A. I did not. That was the other one.

Page 84

1 leadership team is between HSD and the Special
 2 Markets and/or Mid-Market Group Practice. It's a
 3 collaborative effort.
 4 Q. Okay. So who is currently on the sales
 5 leadership team?
 6 A. Can you --
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: Can you be more specific,
 9 please.
 10 BY MS. GOFF:
 11 Q. So you mentioned the word -- the phrase
 12 "sales leadership team." Is that a specific team at
 13 Henry Schein?
 14 A. Of the divi- --
 15 MR. McDONALD: Object to the form.
 16 Go ahead.
 17 THE WITNESS: Of the divisions.
 18 BY MS. GOFF:
 19 Q. And what divisions are you referring to?
 20 A. Special Markets, the Group Practice
 21 Mid-Market and then the Private Practice.
 22 Q. Okay. And so is there a leader of each of
 23 those three --
 24 A. Yes, there is.
 25 Q. -- that you just mentioned?

Page 83

1 Q. Okay. And so it's your understanding that
 2 Schein had worked with those groups for ten years?
 3 A. Again, I'm guessing. I know they were
 4 longstanding relationships. I don't know the time
 5 frames on any of them.
 6 Q. Okay. And who informed you that they were
 7 longstanding relationships?
 8 A. I -- from the documents that I received when
 9 they were transferred over to my division.
 10 Q. Okay. What type of documents did you
 11 receive?
 12 A. Documents that had signatures from mutual
 13 parties outlining what the program entailed of how
 14 we were supporting their group's members.
 15 Q. Do you have an understanding of who prepared
 16 those documents?
 17 A. I don't.
 18 Q. And who transferred them to your division?
 19 A. It was, I think, decided by the overall
 20 leadership with Brian Brady, Joe Cavaretta and
 21 Jake Meadows.
 22 Q. Okay. And so who is responsible for putting
 23 groups under your umbrella? Is it that group of
 24 individuals?
 25 A. It's whoever who the leader- -- sales

Page 85

1 Okay. And so those leaders of those three
 2 are who decides what goes -- what groups go under
 3 your umbrella?
 4 A. For -- for inherited groups that were
 5 transferred, yes.
 6 Q. Okay. What about new groups? Do they also
 7 decide what groups go under your umbrella?
 8 A. It's, again, a collaborative decision, so
 9 for the most part I would say this is what we would
 10 define as an APC, and it should be managed under my
 11 division. And I get buy-in from the sales
 12 leadership team.
 13 Q. Okay. And can you tell me the names of the
 14 sales leadership team.
 15 A. Joe Cavaretta, Glenn Showgren, Jake Meadows,
 16 Brian Brady.
 17 Q. That's the current sales leadership team?
 18 A. Of the multiple divisions under Henry Schein
 19 Dental.
 20 Q. Okay. And so let's just figure out who --
 21 who is in charge of which division. So
 22 Joe Cavaretta?
 23 A. Henry Schein Dental private practice.
 24 Q. And Glenn Showgren?
 25 A. Henry Schein Dental Private Practice.

1 Q. And Jake Meadows?

2 A. Special Markets.

3 Q. And Brian Brady?

4 A. Mid-Market Group Practice.

5 Q. Okay. And this is -- we are talking about
6 current day today; correct?

7 A. That is correct.

8 Q. Okay. And were there different people in
9 the sales leadership team when you first started at
10 Henry Schein?

11 A. It was mostly comprised of the same
12 individuals. They're just in different roles now.

13 Q. Okay. When you say "mostly," is there
14 some -- are there some ways in which it was
15 different?

16 A. So Jake Meadows used to be in sales
17 leadership in Private Practice. He is now Special
18 Markets. Glenn Showgren is -- backfilled that role.
19 We now have some other individuals that are in the
20 sales leadership team with Special Markets,
21 Kim Diamond.

22 Q. But is Kim Diamond one of the people that
23 are responsible for determining what goes under your
24 umbrella?

25 A. She would -- again, collective efforts. She

1 same group, but they were in different roles?

2 A. Correct.

3 Q. And do you make a recommendation to those
4 individuals as to which groups you think fall under
5 your umbrella?

6 A. Yes.

7 Q. And is that recommendation typically in
8 writing?

9 A. Not all the time.

10 Q. Sometimes it's orally?

11 A. Correct.

12 Q. Is there any formal process by which you are
13 supposed to determine which groups go into your
14 umbrella?

15 A. There's no formal process.

16 Q. Okay. And there's no formal process for you
17 to make a recommendation as to which groups go under
18 your umbrella?

19 A. No.

20 Q. At -- at what point did you inherit those
21 groups that had been around Henry Schein for, you
22 mentioned, ten years or more?

23 MR. McDONALD: Object to the form.

24 THE WITNESS: Can you be a little bit more
25 specific.

1 would have a say maybe sometimes.

2 Q. Okay. So I want a -- just a list of
3 everyone that has a say in what goes under your
4 umbrella.

5 MR. McDONALD: Currently?

6 BY MS. GOFF:

7 Q. Currently, yes.

8 A. So that's a very -- again, a very broad
9 statement. It's going to be the foundation of the
10 leadership team, which I just told you. And, again,
11 there can always be one-off case scenarios where we
12 will have a buy-in from maybe, like, Kim Diamond or
13 one of the other directors of Group Practice if they
14 were -- found a group or said, "We've been managing
15 this group. I think this actually -- now that
16 you're in this role, this could be managed under
17 you."

18 Q. Okay. But other than one-off, it's
19 typically Joe Cavaretta, Glenn Showgren,
20 Brian Brady, and who is the last one?

21 A. Jake Meadows.

22 Q. Jake Meadows. Thank you.

23 Is that correct?

24 A. That would be accurate.

25 Q. Okay. And when you first joined, it was the

1 BY MS. GOFF:

2 Q. Sure. The group of organizations that you
3 had mentioned previously, do you refer to those as
4 "legacy groups"?

5 A. Again, can you be more specific.

6 Q. Sure. The groups I'm referring to, you gave
7 me a list earlier: Advantage Dental Care, Corydon
8 Palmer, Dentists for a Better Huntington, Long
9 Island Dental Society and Stark County Dental
10 Society Group.

11 A. I would -- sorry.

12 Q. Do you refer to those as legacy groups?

13 A. I have in the past referred to them, yes, as
14 legacy study groups, club groups.

15 Q. Sitting here today, is there another phrase
16 that you would like to use for those groups?

17 A. No.

18 Q. Okay. So if I call them "the legacy
19 groups," you'll under- -- we'll be communicating and
20 you'll understand what I mean?

21 A. If you say "legacy study club groups."

22 Q. Sure.

23 Okay. So when were the legacy study club
24 groups transferred to -- under your umbrella?

25 A. I can't recall the exact time -- the exact

1 date. I would say it's safe to say within the first
2 six months of me being -- or with me joining Henry
3 Schein.

4 Q. Okay. And do you have an understanding of
5 why those were not under your umbrella, you know,
6 from the get-go, from day one?

7 MR. McDONALD: Object to the form.

8 THE WITNESS: I mean, I had just started
9 with Schein, so I don't think they wanted to
10 overwhelm me and, you know, just throw a bunch of
11 partnerships at me. So I think they just wanted me
12 to get my feet wet and really understand the role
13 and the space before they started handing me over
14 partnerships to manage.

15 BY MS. GOFF:

16 Q. Okay. And did they hand you any
17 partnerships to manage from the start?

18 A. Klear Impakt.

19 Q. Okay. But not Breakaway?

20 A. No.

21 Q. All right. We talked about study clubs, and
22 I know we discussed the definition of a study club
23 earlier. But -- so study clubs are comprised of
24 independent private practice dentists?

25 A. I would say the majority of the time, yes.

1 Q. Okay. And do you have an understanding of
2 whether study clubs offer services to dentists?

3 A. Some do; some don't.

4 Q. Okay. And what types of services might
5 study clubs offer?

6 MR. McDONALD: Object to the form.

7 THE WITNESS: I don't know. It's a very
8 broad question. Again, every study group is going
9 to be a little bit different and offer a different
10 type of value proposition or services to their
11 members, so I don't know. Partly it could be, you
12 know, some sort of structure formulary. Some could
13 be clinical, training, education. Some could be
14 more practice business-related training, education.

15 BY MS. GOFF:

16 Q. Okay. So there are a variety of services, I
17 guess, that different study clubs offer?

18 A. Always.

19 Q. Okay. You mentioned that OrthoSynetics was
20 recently transferred to you just last week. Is that
21 what you said?

22 MR. McDONALD: Object to the form.

23 THE WITNESS: I would definitely say within
24 the last 30 days; that would be an accurate
25 statement.

1 BY MS. GOFF:

2 Q. And it was the sales leadership team that
3 transferred it to you?

4 A. It was Jake Meadows' and Kim Diamond's
5 decision.

6 Q. Okay. Do you have an understanding of why
7 it was transferred to you?

8 A. Yes.

9 Q. Why?

10 A. Because at the structure foundation of
11 OrthoSynetics they are individual private practices.

12 Q. And do you have an understanding of why it
13 was not in your purview previously?

14 MR. McDONALD: Object to the form.

15 THE WITNESS: Can you restate that question
16 or revise, please.

17 BY MS. GOFF:

18 Q. Do you have an understanding of why
19 OrthoSynetics was not put under your umbrella before
20 the last 30 days?

21 A. No.

22 Q. Did OrthoSynetics change their structure
23 recently?

24 A. Not to my knowledge.

25 Q. Okay. But previously where was -- where did

1 OrthoSynetics fall?

2 A. I believe I already mentioned this, and it
3 was under the Special Markets umbrella.

4 Q. Okay. Was Brian Brady the person that
5 you -- Brian Brady is who you reported to when you
6 first started; correct?

7 A. When I first took on this APC role with
8 Henry Schein in May of 2016, Brian Brady was my
9 direct report.

10 Q. When you say "direct report," you mean that
11 you reported to him?

12 A. Correct.

13 Q. And what was his job title when you were
14 hired? Do you know?

15 A. I would say his title was Director of Group
16 Practice, Mid-Market Division, something along that
17 line.

18 Q. Okay. So when you first started, you
19 reported to Brian Brady, and he was in the
20 Mid-Market Division.

21 A. Correct.

22 Q. But you were not within the Mid-Market
23 Division?

24 A. I was not.

25 Q. Okay. But the -- your division was new,

1 so -- is that right? Your division was new;
2 correct?

3 A. So my role was new when I joined Schein.

4 Q. And was the division new as well?

5 A. Yes.

6 Q. Okay. And so do you have an understanding
7 of why you were reporting to Brian Brady even though
8 he was in Mid-Markets?

9 A. Yes. I also answered that earlier this
10 morning. A lot of the APC division and the
11 structure that I believe that we were trying to
12 create was very similar to a lot of the way the
13 structure of the Mid-Market Group Practice division
14 started.

15 Q. So since they were similar, Schein felt that
16 Brian Brady would be a good person for you to report
17 to?

18 MR. McDONALD: Object to the form. Lack of
19 foundation.

20 THE WITNESS: I -- I would assume that to be
21 true.

22 BY MS. GOFF:

23 Q. Okay. And then after about six months, you
24 started reporting to Joe Cavaretta?

25 A. That is correct.

1 Brian Brady's general responsibilities as you --
2 when you first started at Henry Schein?

3 A. No. I mean, I was, again, not part of Group
4 Practice or Mid-Market, so I would not have any
5 knowledge of exactly what his day-to-day duties are
6 and what he did.

7 Q. Okay. So you don't have any understanding
8 of his duties and responsibilities?

9 A. I mean, that's a very broad statement. I
10 have an understanding of that he managed the Group
11 Practice Mid-Market Division. I know he had
12 multiple people that reported to him. I'm sure he
13 worked with customers. He helped, you know -- I
14 don't know what you're really asking.

15 Q. And do you have an understanding of how long
16 Brian Brady was in the position as director of
17 Mid-Markets before you arrived?

18 MR. McDONALD: Object to the form. Lack of
19 foundation.

20 THE WITNESS: I don't.

21 BY MS. GOFF:

22 Q. And is Brian Brady the person who was most
23 knowledgeable about Schein's practice with regard to
24 APC groups prior to your arrival?

25 MR. McDONALD: Object to the form. Lack of

1 Q. Okay. And what was his title at the time
2 that you reported to him?

3 A. He was --

4 Q. Started reporting to him.

5 A. Joe Cavaretta's title at that time was Vice
6 President of Sales for the western area.

7 Q. Okay. Do you have an understanding of why
8 you were reporting to Joe Cavaretta?

9 A. I do. I also believe I answered this
10 earlier. As we were able to develop the APC
11 division and we were on-boarding more partnerships,
12 I felt that it was more of Brian kind of just being
13 a bottleneck. The ultimate approval of a lot of
14 these groups, as I said before, had to have an
15 approval of VP or above, so it was more of I'd go to
16 Brian for approval, and Brian would say, "What did
17 Joe say?"

18 Q. So did you ask to switch reporting?

19 A. I did not.

20 Q. Okay. Do you have an understanding of who
21 made that decision?

22 A. I do.

23 Q. Who?

24 A. Joe Cavaretta.

25 Q. Okay. Do you have an understanding of

1 foundation.

2 THE WITNESS: I mean, I think that's in the
3 eye of the beholder. I would say he's very
4 knowledgeable, but there were other individuals like
5 Joe and Jake that were also very knowledgeable,
6 because Schein has been working with many of these
7 groups prior to my on-boarding with Schein. So I'm
8 sure there are many individuals, team Schein
9 members, that were very knowledgeable about buying
10 groups or APCs or whatever you want to call them.

11 BY MS. GOFF:

12 Q. Okay. And, in your opinion, who had the
13 most knowledge about Schein's practice with regard
14 to APCs?

15 MR. McDONALD: Object to the form. Calls
16 for speculation.

17 Go ahead.

18 THE WITNESS: I mean, again, it's a broad
19 question. Many of these type of buying groups,
20 structure groups, were under Special Markets or
21 Mid-Market before I on-boarded, so I would assume
22 whoever was directly responsible for and is -- still
23 are or still is managing those groups within those
24 respective divisions.

25 ///

1 BY MS. GOFF:
 2 Q. Okay. So have -- do you have your own
 3 opinion about who had the most knowledge of Schein's
 4 practice with regards to the APC sitting here today?
 5 If you don't, that's fine. I just want to know if
 6 you have an opinion.
 7 A. I would say Brian, again, yes. I would
 8 confirm that he was very knowledgeable, but it's not
 9 to say that there were other individuals that were
 10 just as knowledgeable that I had not have spoken
 11 with.
 12 Q. Okay. And you don't have personal knowledge
 13 of Schein's practice with regard to buying groups
 14 prior to May 2016 when you started at Schein?
 15 A. No, I do not.
 16 Q. And you -- prior to the creation of APC,
 17 it's your understanding that Schein did not have any
 18 group dedicated to working with buying groups;
 19 correct?
 20 A. To my knowledge, that's correct.
 21 Q. Okay. For those legacy study groups that
 22 are -- study club groups that are now under your
 23 umbrella, do you have an understanding of who was
 24 responsible for those partnerships before they came
 25 under your umbrella?

1 these buying group structured groups really starting
 2 to become more prevalent within the industry.
 3 BY MS. GOFF:
 4 Q. So did someone inform you that that was why
 5 the new group -- the new APC group was being formed?
 6 A. I mean, again, not directly. There were
 7 conversations that I had when I was being -- you
 8 know, through the interview process with Dave Steck
 9 and conversations when I on-boarded with Brian Brady
 10 and Joe Cavaretta and Jake Meadows where we
 11 discussed that we're seeing a lot more of these
 12 groups starting to form. And then even ones that
 13 had been around for decades, they were just starting
 14 to become a little bit more structured, have a
 15 little bit more formality around them.
 16 Q. Okay. So when you said that there were
 17 groups that had been around for decades that were
 18 starting to become a little bit more structured,
 19 were you referring to the legacy study groups?
 20 A. No.
 21 Q. What were you referring to?
 22 A. Groups that Henry Schein had managed under
 23 the Special Markets and Mid-Market divisions that
 24 had been managed and fostered by individuals before
 25 my on-boarding.

1 MR. McDONALD: Object to the form. Lack of
 2 foundation.
 3 THE WITNESS: I do. They were managed by
 4 the local regional manager for whatever region that
 5 those respective groups fall under in addition to
 6 one of the local field sales consultants. Again,
 7 that fell in that region where those groups were
 8 located.
 9 BY MS. GOFF:
 10 Q. Okay. And what about Klear Impakt? Do you
 11 have an understanding of who managed that before
 12 your arrival, that relationship?
 13 A. I do. Kathleen Titus.
 14 Q. Okay. And you mentioned Breakaway earlier.
 15 Do you know who managed that one?
 16 A. I do. Kathleen Titus, Andrea Hight and
 17 Kip Rowland.
 18 Q. Were you informed by anyone at Henry Schein
 19 of why they needed you or why they needed this new
 20 position that you were in?
 21 MR. McDONALD: Object to the form.
 22 THE WITNESS: I don't think it was actually
 23 discussed verbatim. From my understanding, is -- I
 24 believe, you know, we were seeing kind of a change
 25 within the industry. We were seeing a lot more of

1 Q. Are you thinking of any groups in
 2 particular?
 3 A. I mean, Breakaway would be an example. And
 4 I know, again, there's tons that Schein was working
 5 with and still is to this day.
 6 Q. And you said that there's tons that Schein
 7 is still working with and still is to this day, but
 8 are any of those tons under your umbrella?
 9 A. No, they're not.
 10 Q. Okay. So do you have personal knowledge of
 11 those other groups that are not under your umbrella?
 12 A. I mean, I know of some of them. We have
 13 documents and lists with them. I don't -- I can't
 14 list a bunch of names off for you right now.
 15 Q. Okay. So, sitting here today, you can't
 16 name any of them? Can you name some?
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: I mean, a couple -- like
 19 Council Connections is one that I think, again,
 20 would maybe fall under what we call a "CHC," but
 21 they do have a buying group limit. So
 22 OrthoSynetics, again, that was one actually, like we
 23 just said, that was put under my umbrella that has
 24 a buying group element. There's others.
 25 ///

1 BY MS. GOFF:

2 Q. Okay. But it's your understanding that all
3 of the groups that are comprised of individual
4 private practice dentists are within your umbrella;
5 is that right?

6 MR. McDONALD: Object to the form.
7 Misstates her testimony.

8 THE WITNESS: No. I mean, again, I don't --
9 there's other groups that still have some private
10 practices aligned underneath them that still to this
11 day are probably not under my umbrella yet.

12 BY MS. GOFF:

13 Q. Okay. And which groups are those?

14 A. I don't know.

15 MR. McDONALD: Object to the form.

16 BY MS. GOFF:

17 Q. So how do you know that such groups exist?

18 A. Because I know we have groups that the
19 Special Markets team is still managing.

20 Q. Whose members are individual private
21 practice dentists?

22 A. Not all of them, but some.

23 Q. Can you name any?

24 A. No, I can't.

25 Q. Okay. So how do you know that such groups

1 exist?

2 MR. McDONALD: Object to the form. Asked
3 and answered. She just answered it 30 seconds ago.

4 BY MS. GOFF:

5 Q. Can you please answer the question.

6 MR. McDONALD: Again. Answer it again.

7 THE WITNESS: Yes. I know of these groups
8 that we have because I know people have been
9 managing them.

10 BY MS. GOFF:

11 Q. And who has been --

12 A. I don't know the individuals. I don't work
13 with them on a daily basis.

14 Q. Okay. So you don't know who has been
15 managing them. Do you know -- have you seen these
16 lists that you're referring to?

17 A. Yes, I have.

18 Q. Okay. What is the -- what is the title of
19 the list?

20 A. It's an Excel document. I don't think
21 there's a title.

22 Q. How can I find that list?

23 A. I'm sure Brian Brady has a copy.
24 Jake Meadows has a copy.

25 Q. And you don't know what it's called?

1 A. I don't.

2 Q. And what is on the list exactly?

3 A. It's a list of groups that Special Markets
4 is managing.

5 Q. And does the list identify groups that are
6 comprised of private practice dentists?

7 A. I don't know what's exactly on that list.

8 Q. So how do you know that there are groups
9 comprised of private practice dentists that Special
10 Markets is managing?

11 A. I'm sure that there are some. Like,
12 OrthoSynetics is a prime example. That was managed
13 by Special Markets team, and they do have individual
14 private practices underneath OrthoSynetics. And,
15 again, like, that one was just transferred into me.
16 There could be more like that. I'm not aware of it.

17 Q. So you don't know either way?

18 A. I don't know. There --

19 Q. You're just speculating that there might be
20 some?

21 MR. McDONALD: Object to the form.
22 Mischaracterizes her testimony.

23 BY MS. GOFF:

24 Q. Go ahead.

25 A. There are -- like I said, there are some

1 documents. I don't know what they're called. We
2 don't have a list of every single group that we
3 manage that had this binder structure. I don't even
4 know if something like that exists. I just know
5 there are groups that we have been working with
6 since decades back Special Markets is still
7 managing, and I can't confirm nor deny if some of
8 those are private practices or not.

9 Q. Okay. Can you name, please, all of the
10 groups that you currently manage.

11 A. The groups currently that fall directly
12 under my umbrella that I manage on a daily basis
13 would be Klear Impakt, the Mastermind Group, Dental
14 Success Network, Smile Source. I'm trying to think
15 if there's any other -- OrthoSynetics.

16 And then we have the legacy study groups
17 that fall under my umbrella, the reporting and
18 P&L-wise, but they are still being managed at the
19 local regional level.

20 Q. What about Breakaway?

21 A. We no longer have a partnership with
22 Breakaway.

23 Q. Okay. What happened to Breakaway?

24 A. Dental Whale acquired Breakaway in January
25 of 2018, and Break- -- and Dental Whale was working

1 closely with Darby Dental. And due to that
2 relationship, when they acquired Breakaway, they
3 terminated our relationship.

4 Q. Dental Whale terminated the relationship
5 with Henry Schein?

6 A. When Dental Whale acquired Breakaway, when
7 the acquisition happened, that leadership group of
8 those teams terminated our current standing
9 agreement with Breakaway Practice group.

10 Q. And do you have an understanding of why they
11 terminated it?

12 MR. McDONALD: Object to the form.

13 THE WITNESS: I just answered that question.
14 Because they were working with Darby Dental.

15 BY MS. GOFF:

16 Q. Okay. So because Dental Whale was working
17 with Darby Dental, they no longer wanted to work
18 with Schein?

19 A. We had many, many ongoing discussions to try
20 to keep or retain the Breakaway business when the
21 acquisition happened. And we sent in our proposals,
22 and they decided to move forward and stay with
23 Breakaway.

24 Q. And was there any ability for Schein to work
25 with Dental Whale or Breakaway in addition to

1 Darby -- in other words, for it not to be an
2 exclusive relationship?

3 A. To my knowledge, our relationship with
4 Breakaway was exclusive. Dental Whale's
5 relationship with Darby was exclusive, and that was
6 their business model and structure, to have a sole
7 source entity partner.

8 Q. Did -- so you said that Schein, like,
9 pitched Dental Whale to continue the relationship?

10 A. Yes.

11 Q. And did Schein suggest not having an
12 exclusive relationship?

13 A. I don't have -- I don't have knowledge of
14 that information.

15 Q. Were you involved in the discussions with
16 Dental Whale?

17 A. In some of them. Not at the high leadership
18 level.

19 Q. Did you know what was offered to Dental
20 Whale?

21 A. I do.

22 Q. Okay. What was offered?

23 A. We -- we dropped our formulary current
24 pricing for Breakaway by two points --

25 Q. Okay.

1 A. -- and gave them an equipment and technology
2 rebate, and they needed us to lower pricing again
3 even more.

4 Q. Okay. And that's -- and Darby went, I
5 guess, at a lower pricing than Schein?

6 A. That's what we --

7 MR. McDONALD: Object to the form.

8 THE WITNESS: That's what we assume.

9 BY MS. GOFF:

10 Q. Do you know whether it was discussed with
11 Dental Whale the idea of having both Darby and
12 Schein be suppliers?

13 A. I don't know if that was ever discussed.

14 Q. Okay. Would Schein be open to that kind of
15 a relationship?

16 MR. McDONALD: Object to the form.

17 THE WITNESS: If -- we're open to any
18 relationship or partnership if it makes business
19 sense for us.

20 BY MS. GOFF:

21 Q. Even if it's not exclusive?

22 A. If it makes business sense for us, we'll go
23 into it. We work with Smile Source, and they are
24 what you would also call shared source partnership
25 where they work with three top-tier -- what they

1 call a Tier 1 distribution partner.

2 Q. Okay. So just going back to the list you
3 gave me of the current groups that are under your
4 umbrella, I just want to make sure I had a complete
5 list. I don't think you mentioned Teeth Tomorrow.

6 A. Sorry. Correct. That's another one.

7 Q. Okay. So there's the legacy study groups,
8 Klear Impakt, Smile Source, Mastermind Group, Teeth
9 Tomorrow, and I think you mentioned one other group.

10 A. Dental Success Network.

11 Q. Okay.

12 A. And then OrthoSynetics.

13 Q. And that's a complete list?

14 A. To what I can recall right now.

15 Q. How long have you been working with Dental
16 Success Network?

17 A. I believe our prime vendor agreement is
18 dated for March 2018.

19 Q. And what type of organization structure do
20 they have?

21 A. The Dental Success Network, they call
22 themselves a network in a community.

23 Q. Are they comprised of individual private
24 practice dentists?

25 A. I would say 90 percent of their membership

1 is, yes.
 2 Q. What about the other 10?
 3 A. They have -- there's probably some groups
 4 that are in the Dental Success Network for the
 5 practice where there is one owner, multiple
 6 locations under the DSN umbrella.
 7 Q. Do you know that for sure, or are you just
 8 guessing --
 9 A. I know there are a few. I don't know how
 10 many.
 11 Q. Okay.
 12 MR. McDONALD: Good thing we're not on
 13 video.
 14 MS. GOFF: That is very distracting.
 15 MR. McDONALD: If that's going on, just be
 16 sure that she can hear you. So -- okay.
 17 THE WITNESS: Okay.
 18 BY MS. GOFF:
 19 Q. When you started at Henry Schein, what was
 20 your mandate with regard to the APC groups?
 21 MR. McDONALD: Object to the form. Vague.
 22 THE WITNESS: Yeah, can you please be more
 23 specific with your question.
 24 BY MS. GOFF:
 25 Q. Sure. What were you instructed to do with

1 to align with groups where it's not just the cost
 2 savings?
 3 A. Because we're not just about cheap supplies.
 4 I don't think Henry Schein would ever be the
 5 cheapest when it comes to supplies. There's a value
 6 to doing business with us. We offer much more than
 7 the supplies and consumable component.
 8 Q. And what value are you referring to?
 9 A. Our field sales consultants, our equipment
 10 and our technology consultants, our business
 11 solutions arm, our practice management solutions
 12 arm, our Henry Schein Practice Analytics tools, our
 13 Power Reportings, and the list goes on. A very big
 14 statement.
 15 Q. And how did you determine or how do you
 16 determine which groups offer that value?
 17 A. Through my discovery and exploratory phase.
 18 When I would have calls with the leaderships of
 19 these groups, I would ask them what is their value
 20 prop and what do they offer to members. And if they
 21 explain to me that they're all about pricing and "If
 22 you have the lowest discounted pricing, we'll
 23 partner with you," if they said that they really
 24 didn't have influence over their members and there
 25 was no compliance to be driven through any type of

1 APC groups?
 2 A. To manage, foster and then also hunt, find
 3 new opportunities and bring them on board.
 4 Q. Okay. And were -- was it your mandate or
 5 were you given instructions to find as many new
 6 groups as possible to work with?
 7 A. I think that's a very vague question. I
 8 think, again, what was expected of me is to look for
 9 groups that we felt that we aligned with well or we
 10 could be a better support to their membership. So
 11 if it made business sense, yeah, we would work with
 12 those type of groups all day long.
 13 Q. Okay. So how did you determine which groups
 14 it made business sense to work with?
 15 MR. McDONALD: Object to the form.
 16 Overbroad.
 17 Go ahead.
 18 THE WITNESS: With Henry Schein being a
 19 full-service dealer, you know, we want to make sure
 20 that we're aligning with an APC or a group that
 21 really offers additional value. And they have their
 22 own proposition of why a member would want to join
 23 their group, and it's not just for the cost savings.
 24 BY MS. GOFF:
 25 Q. Why is that the case? Why does Schein want

1 group purchasing, they also would say that they did
 2 not have any other type of services to really offer
 3 their members aside from, again, the discounted
 4 supplies, that's probably not a group I'm interested
 5 in aligning with.
 6 Q. Okay. So if a group says that they're all
 7 about price, that they don't offer other services
 8 and they have no influence or compliance over their
 9 members, you would not want to work with such a
 10 group?
 11 A. I don't think it makes --
 12 MR. McDONALD: Hang on.
 13 Object to the form.
 14 Go ahead.
 15 THE WITNESS: I don't think it would make
 16 proper business sense.
 17 BY MS. GOFF:
 18 Q. Why wouldn't it make business sense?
 19 A. Because there's -- they're not -- they just
 20 told me that they can't drive any type of compliance
 21 through their membership.
 22 Q. Okay. So is the compliance the most
 23 important factor, in your mind?
 24 A. There's many important factors. That's
 25 definitely one of them.

1 Q. Is that the most important?
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: It depends what group I'm
 4 talking with.
 5 BY MS. GOFF:
 6 Q. So if a group said that they're all about
 7 price, they don't offer any other services, but they
 8 do have influence over their members, is that a
 9 group that you would want to work with?
 10 MR. McDONALD: Object to the form.
 11 THE WITNESS: Influence, you know, means
 12 different things, and so -- and I think it's the
 13 compliance side that we would be really interested
 14 in. So, yeah, if a group told me that they had
 15 complete influence and compliance to where they'd be
 16 able to bring over 80 percent of their membership
 17 sales to us, yeah, I would be definitely interested
 18 in that.
 19 BY MS. GOFF:
 20 Q. Okay. And that's because Henry Schein could
 21 get potentially incremental sales from those new
 22 members?
 23 A. Incremental sales, new business, absolutely.
 24 Q. And just going back to groups that say that
 25 they don't have influence over their members, why

1 doesn't it make sense, business sense, to work with
 2 those groups?
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: It would basically -- it would
 5 be them telling me that "We're asking you to heavily
 6 discount supplies in a formulary for us, but yet we
 7 can't promise that we're going to drive any sales
 8 your way." To me, that makes zero business sense.
 9 BY MS. GOFF:
 10 Q. And why doesn't that make business sense, in
 11 your opinion?
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I don't -- I don't know why
 14 anyone would want to align with someone that says,
 15 "Give us the best discounts that you can give us,
 16 but we can't tell you that you're going to get any
 17 of the sales from our membership."
 18 BY MS. GOFF:
 19 Q. So Schein would have to lower its prices,
 20 but wouldn't -- potentially would not get
 21 incremental sales?
 22 A. Yeah. That makes zero business sense.
 23 Q. Okay. And were you told by anyone not to
 24 work with groups where they couldn't offer influence
 25 or compliance?

1 A. No.
 2 Q. That is just your decision and what you
 3 decided to do in the role?
 4 A. I mean, again, we had, like, high-level
 5 discussions, but there's been not one individual at
 6 Schein that told me, "Do not talk or speak or work
 7 with those type of groups."
 8 Q. Right. I'm not actually asking about
 9 talking or speaking. I'm just asking about working
 10 with groups. So --
 11 A. No.
 12 Q. -- I understand you might talk to a whole
 13 bunch of groups, but I want to know who you will
 14 work with. So was -- did anyone instruct you not to
 15 work with groups that didn't bring compliance?
 16 A. No.
 17 Q. Okay. But that is your general policy?
 18 A. Yes.
 19 Q. Okay. How can a group show you that they
 20 have influence over their members?
 21 MR. McDONALD: Object to the form.
 22 Overbroad.
 23 THE WITNESS: I think it's the way, again,
 24 that they're structured and the model of what
 25 they're able to currently provide for their members

1 and how they're working with those groups through
 2 that influence, some of the educational programs
 3 that they achieve too.
 4 BY MS. GOFF:
 5 Q. I mean, I just -- I'm trying to understand
 6 how you know whether a group has the ability to
 7 drive compliance.
 8 A. They will tell me that they can or cannot.
 9 Q. And do you take them at their word?
 10 A. Yeah.
 11 Q. Okay. And which groups have you spoken with
 12 that have said that they can drive compliance?
 13 A. Two individual groups that have told me
 14 that they cannot drive compliance or have influence
 15 over their membership is Synergy as well as
 16 UnifiedSmiles.
 17 Q. So those are groups that have told you that
 18 they don't drive compliance?
 19 A. Correct.
 20 Q. And so you did not want to do business with
 21 those groups?
 22 A. Correct.
 23 Q. Okay. And are there other groups that have
 24 told you that they do have influence over their
 25 members?

1 A. Yeah. I mean, there will be some people
2 that -- I mean, they won't say that "We will drive
3 100 or 80 percent compliance," but there's a lot of
4 groups out there, that, yes, they think they're very
5 influential over their membership and that they can
6 drive some sort of compliance. But there's no
7 accurate statement where they say, "We will drive
8 this much."

9 Q. Have you worked with -- have you engaged
10 a -- sorry. Strike that.

11 Have you worked with every group that has
12 said that they can drive compliance?

13 MR. McDONALD: Object to the form.

14 THE WITNESS: No. We haven't worked with
15 every group that have said that.

16 BY MS. GOFF:

17 Q. And for the ones that you have not worked
18 with, why didn't you work with those groups?

19 MR. McDONALD: Object to the form. Overly
20 broad.

21 THE WITNESS: Broad statement. There's many
22 different reasons as to why. Every group I have an
23 exploratory or discovery discussion with, it can be
24 for different reasons. They all have, you know,
25 maybe something a little bit different with them.

1 A. It makes poor business sense for Schein, in
2 my opinion.

3 Q. Okay. And then for the groups that tell you
4 that they can drive compliance, then do you do a
5 little bit of additional digging to determine
6 whether they can drive compliance? Is that how it
7 works?

8 A. Of course.

9 Q. And how do you determine whether they can
10 drive compliance?

11 A. So from my initial statement just five
12 minutes ago, like I said, there's many other reasons
13 why we have not aligned with other groups that I've
14 had discovery calls with that say, "Yeah, we have
15 influence over our membership," but they're -- it's
16 very hard for them to prove that.

17 And another reason, they say they would have
18 influence, but then they say they have 950 members,
19 and I ask them "Who" -- you know, "Who else are you
20 partnered with? What other value-add services do
21 you have," and they say they don't have anything,
22 so, to me, that makes zero sense right there.

23 Q. Okay. So let's talk about the value-add
24 services. Why is it important to you that these
25 companies have value-add services?

1 For an example, one reason would be
2 infancy. They are newer, and they just -- from the
3 structure that they explained to me, I didn't feel
4 that they had real compliance that they could drive
5 because they were not working with any other type
6 of partners.

7 BY MS. GOFF:

8 Q. So previously I thought that you had said
9 that you just take the -- you take the buying group
10 or the APC group at its word as to whether it can
11 drive compliance.

12 A. Well, I do.

13 Q. Is that true?

14 A. They tell me --

15 Q. Okay.

16 A. -- "We have influence over our membership,"
17 or they say they do not. And the ones that can
18 firmly tell me -- that will tell me "Our members
19 don't look to us for influence or guidance. They
20 just want us to provide the best and cheapest-most
21 pricing for them," those I can tell you are
22 groups -- they're telling me that point-blank. I
23 can tell you right there that's not a group at that
24 time that we're interested in aligning with.

25 Q. Okay.

1 A. I feel like it's important because, as I
2 stated in my testimony earlier, is we want to align
3 with groups that are truly helping these individual
4 private practices thrive and increase production and
5 grow their practices. And if all you're offering is
6 cost and cheap supplies, that's not helping a
7 practice grow.

8 Q. And why is it important to you that these
9 groups help the practice grow? Why does it matter
10 to Schein whether the practices grow or not?

11 A. That's our entire business and everything we
12 stand for. It's our entire culture. We're there --
13 that's why we have a field sales consultant team.
14 They're not in there just taking orders. They're in
15 there to really understand the practices and the
16 dentists' business, their goals, their vision, and
17 we want to copilot to their success.

18 Q. So if a group says that they're adding these
19 value-added services and they're helping dentists,
20 why, then, would Schein need to do that as well?
21 Wouldn't it be the case that the buying group itself
22 can offer those value-added services and so Schein
23 does not need to offer those services?

24 A. Not on -- not all cases. Sometimes there is
25 very limited other type of things that they offer,

1 basically just like on CEs or education, and we are
2 able to fill every other gap, whether it's OSHA
3 training, HIPAA, again, the business solution tools
4 that we offer, analytics, purchase analytics
5 reporting, helping them buy smarter, helping them
6 drive compliance.

7 Again, we have our equipment specialists,
8 our technology specialists. We have professionals
9 that can actually go in there and offer other
10 associated business services to these groups.

11 Q. For the groups that have told you that they
12 are price-only, have they said that they
13 affirmatively do not want Schein to offer these
14 other services to the members?

15 A. For Unified and Synergy, they said, you
16 know, at the time I don't think it's something
17 they're willing to explore. They were just firmly
18 interested in our supplies and our equipment.

19 Q. For the member -- the dentists that become
20 members of a price-only-type buying group, is there
21 any reason why Schein can't go in and still offer
22 the other services to those members?

23 MR. McDONALD: Object to the form.

24 THE WITNESS: So in most cases the way that
25 we work with buying groups or, I would say, other

1 distribution companies work with buying groups, the
2 agreement is between the distribution partner and
3 the group. There's no agreement that that
4 individual private practice is signing with those
5 preferred manufacturing partners that the leadership
6 of those groups have put forth.

7 So even if you're a doctor and you're
8 working with Synergy and you're under that buying
9 group or whatever, at the end of the day, you're a
10 private practice. That buying group has no say over
11 what you can and cannot do. You have the full
12 autonomy and freedom to buy from whomever you want.

13 Q. You can buy from whoever you want, and you
14 can get equipment and servicing from whoever you
15 want?

16 A. Correct.

17 Q. And you can get education from whomever you
18 want?

19 A. Correct.

20 Q. You can get any, like, HIPAA health from
21 whomever you want?

22 A. Correct.

23 Q. So the fact that an individual dentist is a
24 member of a buying group does not prevent them from
25 going to Schein to get all those other services?

1 A. It does not.

2 Q. Okay. So I'm still trying to understand,
3 then, why Schein wouldn't want to work with such a
4 buying group that's price-only if Schein can still
5 offer all their services to those individual
6 dentists.

7 MR. McDONALD: Object to the form. Asked
8 and answered.

9 THE WITNESS: Yeah. I have already said
10 that, but I think the other thing is too is if we're
11 still able to get their business, why do we need to
12 cannibalize our pricing.

13 BY MS. GOFF:

14 Q. Okay. So if Schein can still get the
15 business from those individual dentist practices,
16 why would Schein lower the prices for supplies?

17 A. Yeah. It makes zero business sense.

18 MR. McDONALD: Hang on.

19 Object to the form.

20 Please pause.

21 BY MS. GOFF:

22 Q. Okay. So is there any other reason why you
23 wouldn't want to work with the price-only buying
24 groups other than that you don't want to lower your
25 prices?

1 MR. McDONALD: Object to the form.

2 THE WITNESS: Again, we want to work with
3 groups that have influence over their membership
4 that offer true value.

5 BY MS. GOFF:

6 Q. Okay. And we've explored, I think, what you
7 mean by "true value." It's these extra services
8 that you've mentioned, a whole list of extra
9 services; is that correct?

10 A. Correct.

11 Q. Okay. And compliance is getting members to
12 buy from Schein?

13 A. Yes.

14 Q. Okay. I'm sorry if it seems like the
15 questions are repetitive, but I just need to make
16 sure for my purposes that the record is clear and
17 that I have a specific question and a specific
18 answer. So I'm sorry. I understand that you've
19 answered questions, in your mind, many times, but it
20 may have been a slightly different question from my
21 perspective, so...

22 Okay. So just going back to the price-only
23 buying groups, is it a hard-and-fast rule in your
24 practice not to work with price-only buying groups?

25 A. My --

1 MR. McDONALD: Hang on. Hang on.
2 Object to the form. Mischaracterizes her
3 testimony.

4 Go ahead.

5 THE WITNESS: In my opinion, within the
6 division that I'm running, I don't feel that it
7 makes proper business sense for Henry Schein Dental
8 to align with buying groups that are all about
9 discounted price that have zero influence over their
10 membership. I've stated that multiple times. I
11 don't even know what else I -- you need me to say.

12 Q. And so you wouldn't recommend those types of
13 groups to your superiors for Schein to work with?

14 A. No, I would not.

15 Q. Okay. When deciding which buying groups to
16 align with, do you consider how much incremental
17 business a group can bring?

18 A. Of course.

19 Q. That's important?

20 A. Very important.

21 Q. How do you assess how much incremental
22 business a group can bring?

23 A. It's always going to be a guess and a gauge
24 and an estimate. You're never going to know. But
25 we will -- there's multiple ways that we look at it,

1 and a lot of them is just testing out. "Let's put a
2 partnership together and agree. I have your word.
3 This is what you're going to offer. This is what
4 we're going to offer. Let's see if it works."
5 There's no guarantees.

6 Q. Okay. Is there anything that in the
7 exploratory discovery phase you ask for to get a
8 sense for how much incremental business a group
9 might bring?

10 A. I mean, yeah. I will ask leadership of how
11 many members they have. Out of their members, do
12 you know if they're currently working with Schein
13 today? Are they working with other dental
14 distribution companies?

15 Q. And is it important to know whether certain
16 members are already purchasing from Schein today?

17 A. I mean, it's always a good idea just to have
18 a better understanding, but, again, the leadership
19 team doesn't know. Again, the members that are
20 reporting to these buying groups, they don't have,
21 again, the full authority to tell them who to
22 purchase and where to purchase from. So they will
23 just be guessing from a sense from -- I would
24 assume, from speaking with their members who they're
25 hearing that they're purchasing mostly from.

1 Q. I see.

2 And do you make an effort to get a list of
3 potential members in the buying -- or members in the
4 buying group and then compare it to see who's
5 actually purchasing from Schein?

6 A. Yes, we do.

7 Q. Okay. And if a group -- if a group of
8 members are already in large part purchasing from
9 Schein, is that a group that you would want to work
10 with?

11 A. Yes.

12 Q. Why?

13 A. Because we have opportunity to win even more
14 business with them once we're partnered.

15 Q. Even more business from that particular
16 member?

17 A. Correct.

18 Q. Okay. Is it -- is it always the case that
19 you would want to work with one -- with that type of
20 group?

21 MR. McDONALD: Object to the form.

22 THE WITNESS: If it makes proper business
23 sense to me, yes.

24 BY MS. GOFF:

25 Q. And when you are deciding whether to

1 recommend to work with a group or not, do you write
2 down why you want to work with that individual
3 group?

4 A. I have a -- I mean, I will outline the --
5 pretty much the structure and the group's, I guess,
6 claim to fame or value proposition of what they say
7 and who they are and then, yeah, kind of outline the
8 mutual conversation of what we say that we're going
9 ourselves, Henry Schein, accountable to bring to the
10 table to best support those members.

11 And then, in turn, the group leadership of
12 these groups will also say this is what they're
13 going to be holding, you know, themselves
14 accountable in their membership, and they will do
15 everything in their power to influence and endorse
16 Henry Schein to their members at the local level.

17 Q. And do you -- so is it your practice to make
18 notes of your, like, conversations with buying
19 groups?

20 A. Yeah. I don't make notes of every
21 conversation, but as a best practice, I try to jot
22 down some notes so I can always refer to them
23 post-conversations.

24 Q. And where do you maintain those notes?

25 A. I jot them down if I have a tablet nearby or

1 a piece of paper.

2 Q. So it's, like, hard copy?

3 A. Uh-huh.

4 Q. And do you ever, like, type up those notes
5 and provide them to your superiors?

6 A. Absolutely.

7 Q. Okay. And would that be by email?

8 A. Yes, it would.

9 Q. Always by email?

10 A. I would say 80 percent of the time, but I,
11 again, can't on any one off-case basis. But, yes,
12 for the majority of the time, I usually type up a
13 one-pager draft of my recommendation of what these
14 groups are and how they're structured and why I
15 think we need to do business with them.

16 Q. Okay. So is it possible that a buying
17 group -- just going back to the incremental
18 business, is it possible that a group could bring
19 you enough incremental business to offset the
20 discounted prices that Schein would need to give
21 that group?

22 A. Absolutely.

23 Q. Have you talked to any groups that you
24 considered to be these price-only groups?

25 A. Yes. I actually just answered that

1 question, I believe, like, ten minutes ago.

2 Q. So I think you gave me a couple of examples.
3 Can you give me a few more examples.

4 A. Those are the only two that I have -- that I
5 can recall right now that I have spoken to where in
6 the conversation the leadership teams of those
7 groups point-out blank said, "Our membership align
8 with us for our aggressive discounts and discounts
9 only. They don't care to hear from us. We don't
10 have any influence over what they do."

11 Q. So that was Synergy and UnifiedSmiles?

12 A. Correct.

13 Q. And you can't, sitting here today, think of
14 any other examples of buying groups that you talked
15 to that said that?

16 A. I mean, I'm sure there are some others, but
17 I can't think of them off the top of my head.

18 Q. Okay. So I think we've talked about this a
19 little bit here and there, but I just want to get a
20 clear record of the process involved for determining
21 whether to work with an APC group. Is the first
22 step that you speak with or meet with an APC group?

23 A. As a standard, correct.

24 Q. Okay. And do you speak with or meet with
25 anyone that -- any group that reaches out to you or

1 only certain groups?

2 A. I will set up a call with anyone that has
3 interest in aligning with us.

4 Q. Okay. And then after the call what is the
5 next step that occurs?

6 A. After that call I will take inventory of
7 what was discussed and understand the structure and
8 see if those things align with my -- with Henry
9 Schein's vision mission and, again, the things that
10 I think make proper business sense.

11 Q. Okay. And is there anything -- any part of
12 your analysis of what makes proper business sense
13 that we have not already discussed today?

14 MR. McDONALD: Object to the form.

15 THE WITNESS: Not that I can recall.

16 BY MS. GOFF:

17 Q. Okay. And then is the next step that you
18 would make a recommendation to your superior?

19 A. Yeah. We would have a discussion about the
20 new opportunity and that, "Yeah, I think this is a
21 great group to do business with, and this is the
22 potential, you know, incremental business that we
23 can expect."

24 Q. Okay. So the potential incremental business
25 is, like, one of the things that you would discuss

1 when presenting an opportunity?

2 A. Uh-huh, correct.

3 Q. And then for groups that you decide, you
4 know, "We don't want to work with this group," do
5 you need to inform anyone of that fact?

6 A. Can you please clarify that question.

7 Q. Do you need to tell your superior, "I met
8 with this group, but I decided we should not work
9 with them"?

10 A. It's not, like, a standard. I don't have to
11 report to them on every discussion I have, but when
12 I do have, like, a weekly tag-up call with my
13 superior manager, usually those are things we
14 discuss. "Here are the groups in the pipeline, on
15 my radar. Here are the ones that we're working on
16 putting, you know, a proposal out to. And here is
17 maybe someone we talked to, and I don't think it's a
18 good fit and here's why."

19 Q. Okay. And then when we're talking about
20 your superior for present day, we are talking about
21 Joe Cavaretta? Is he the one that you would make
22 these recommendations to?

23 A. Correct.

24 Q. Okay. Anyone else?

25 A. Glenn Showgren.

1 Q. Okay. Anyone else?
 2 MR. McDONALD: Currently?
 3 BY MS. GOFF:
 4 Q. Yeah. Currently.
 5 A. I mean, no. That's probably it.
 6 Q. Okay. And then if you're -- if
 7 Joe Cavaretta or Glenn Showgren gives you approval
 8 to move forward with a group, then what happens
 9 next?
 10 A. I contact our legal department, and we start
 11 drafting up our prime vendor agreement.
 12 Q. And the prime vendor agreement is the
 13 agreement with the APC group; correct?
 14 A. Correct.
 15 Q. Is it sometimes called a "PVA"?
 16 A. Yes, it is.
 17 Q. And are there any other steps after that?
 18 A. Yeah. Then we would have to solidify the
 19 entire on-boarding process: launch date, marketing
 20 materials, internal education, making sure our
 21 internal organization from zone managers to the
 22 regional managers, top down all the way to field
 23 sales are educated of this new group that we would
 24 be forming in a partnership or an alliance with.
 25 Q. Okay. For the marketing materials, is Henry

1 the word out to, you know, sales reps at Schein that
 2 there's a new group that Schein is working with?
 3 A. There's various different ways. Again, it's
 4 not a solid structure. Monthly our regions, they
 5 have what they call a "business development
 6 meeting," or they have their business development
 7 workshop presentations. It's the same presentation
 8 content that is delivered and cascaded down to all
 9 of the respective regions, and so we have an APC
 10 component within that deck that shows who our
 11 current APC partners are and any new APC partners
 12 that we launched.
 13 We do work for -- when we do put a launch in
 14 place, there is an email that I create and send that
 15 goes out to Henry Schein Dental Private Practice
 16 corporate leadership, so Tim Sullivan, Dave Steck,
 17 Glenn Showgren, Joe Cavaretta, all of those
 18 individuals that would comprise of a VP or higher
 19 role. And our zone managers are on that email and
 20 then every single regional manager, operations
 21 manager, directors of equipment, technology. Anyone
 22 that you would call a leadership level status
 23 receives an email with the announcement of the
 24 launch.
 25 I create what we call a "group profile

1 Schein involved in preparation of marketing
 2 materials that go to the buying group members or the
 3 APC group members?
 4 A. Sometimes. Yeah, like drafting a welcome
 5 letter is standard process for us. We internally
 6 will draft a welcome letter that would be
 7 member-facing or customer-facing for that group's
 8 members that outlines the Henry Schein benefit
 9 package and what they can expect and the discounts
 10 they would receive as well as services that Schein
 11 would be providing to them because they are part of
 12 that group.
 13 Q. Is there any requirement placed on the APC
 14 groups that they show Schein their marketing before
 15 they market it to members?
 16 A. No. I mean, it's not written anywhere that
 17 says we have to see it, but it is obviously
 18 something that's discussed that it would be helpful
 19 for you to share with me anything that you -- before
 20 you do put it in front of your members.
 21 Q. Why would that be helpful to you?
 22 A. Just to make sure whatever information
 23 they're putting in front of their members is
 24 accurate and correct.
 25 Q. Okay. And then so internally how do you get

1 document" that's a one-pager that outlines who the
 2 group is, what they're made up of, what their value
 3 prop is, their structure, their website, any type of
 4 service that they offer. It also outlines what the
 5 Henry Schein benefit package is and what it entails.
 6 I also draft up another document that we
 7 call an "FAQ," which is just frequently asked
 8 questions that a sales rep or FSC might have, and we
 9 answer and outline questions on that. So, again,
 10 these are internal resource documents to better --
 11 that I created to better educate our -- our team
 12 Schein members.
 13 So that would be one way. And then
 14 sometimes when we have -- whether it's our national
 15 sales meetings that happen annually or manager
 16 meeting, sometimes I have a breakout, and I will
 17 present anyone that we have launched through there.
 18 My first year with Henry Schein in this
 19 role, there used to be what they called career
 20 development trainings, where they would have --
 21 anyone on the career development track, they would
 22 jump zone to zone to cover the entire country. And
 23 I would be on that track to discuss and present on
 24 our alternative purchasing channels and what this
 25 division is and who we are and the groups that we're

1 working with.

2 Q. Okay. So that was a long list of things
3 that you would do to get the word out to Schein
4 employees about new groups. Is it your
5 understanding that prior to your arrival at Henry
6 Schein that no such information was provided?

7 MR. McDONALD: Object to the form. Lack of
8 foundation.

9 THE WITNESS: I -- I wouldn't have any other
10 knowledge of that type of information.

11 BY MS. GOFF:

12 Q. Okay. So you only know what you -- what is
13 your practice to do. You don't know what was done
14 before you arrived?

15 A. That is correct.

16 Q. Okay. You mentioned Tim Sullivan. Have you
17 ever -- since joining Henry Schein, have you had any
18 conversations with Tim Sullivan?

19 A. Yeah. I mean, when we are at our national
20 sales meeting or I'm at one of the large trade show
21 meetings or if I'm actually in the office, yeah,
22 sometimes I'll see him and we chat.

23 Q. Okay. Other than sort of informal that you
24 see him at something and chat, have you had any
25 sit-down meetings specifically between you and

1 Mr. Sullivan to discuss your role at Henry Schein?

2 A. No, not to discuss my role.

3 Q. Is there anything that you're thinking of
4 that you had discussions with Mr. Sullivan about?

5 A. I mean, no. Sometimes he'll ask, like, "How
6 is this partnership going," and we'll discuss that.

7 Q. Which partnerships has he asked about?

8 A. Smile Source.

9 Q. Any others?

10 A. (Witness nods.)

11 MR. McDONALD: You need to say an answer.
12 You shook your head.

13 THE WITNESS: Oh, sorry. Not to my
14 knowledge.

15 BY MS. GOFF:

16 Q. Thank you.

17 Has Mr. Sullivan ever called you on the
18 phone?

19 A. Yes.

20 Q. In your current position has he ever called
21 you?

22 A. Yes.

23 Q. How frequently does Mr. Sullivan call you?

24 MR. McDONALD: Object to the form.

25 THE WITNESS: To my knowledge, I think I've

1 only -- he's only called me once.

2 BY MS. GOFF:

3 Q. And the entire time you've been at Schein?

4 A. To my knowledge.

5 Q. And when did he call you?

6 A. I don't recall.

7 Q. Was it -- I'll strike that.

8 What was the conversation about?

9 A. I don't think it had to do with anything in
10 particular. I think it was just to check in. "How
11 is everything going? Anything that I can help you
12 with?"

13 Q. Was that shortly after your arrival at
14 Schein?

15 A. That is correct.

16 Q. Okay. And did Mr. Sullivan give you any
17 direction about how to interact with APCs?

18 A. No, he did not.

19 Q. Did he ask you in that conversation about
20 any particular APCs?

21 A. Not that I can recall.

22 Q. Do you have an understanding of why he
23 called you?

24 A. I --

25 MR. McDONALD: Object to the form.

1 THE WITNESS: I think I just answered that.
2 I think it was just check in to see how everything
3 was going and if he could offer assistance or
4 guidance in any way.

5 MS. GOFF: So it's 12:17. Should we take a
6 break now? Or I can start on a new topic.

7 MR. McDONALD: Let's just go off the record.
8 (Luncheon recess.)

AFTERNOON SESSION

* * *

MS. GOFF: Miss Wingard, I'm handing you a document that has been marked as CX2202. (Exhibit CX2202 introduced on the record.)

BY MS. GOFF:

Q. It's an email with two attachments. The email is from you to Annika Swenson. It's dated December 27th, 2017, and the subject is "APC Presentation." And the email simply says, "Attachment forms."

If you can take a minute to familiarize yourself with the two documents that are attached, and I'm going to ask you a few questions about them.

Have you had a chance to review the first attachment?

A. I have.

Q. Okay. So it's titled BG and APC Discovery Questions. Is this something that you drafted?

A. Yes, it is.

Q. Okay. And when did you draft this document?

A. I would say respect- -- probably a couple months into my role with Schein when I started.

Q. Okay. And you prepared it as part of your job?

A. Uh-huh.

Q. "Yes"?

A. Yes. Sorry.

Q. And what is this document?

A. This is what we call, like, an APC discovery questionnaire. It's just something I use when I initially first started when I was having exploratory calls with potential APC partners, just a kind of a skeleton outline of questions that I would ask to better understand their model and structure and makeup.

Q. So you were sending this to Ms. Swenson in December of 2017. Do you have any understanding of why you were sending it to her then?

A. Yes. We had already extended her offer letter with her coming on board to the APC Division, so these were -- I was giving her just a couple documents for her to review before she formally started so just so she can better familiarize herself with some of the, you know, discovery questions, some of the training decks that I provided for -- or presented to at our career development trainings that year.

Q. Okay. And then so you mentioned the training decks. Is the second attachment, which is

a PowerPoint presentation titled "Alternate Purchasing Channels" -- is that a training presentation that you prepared?

A. Yes. This is a presentation deck that I used during the career development training facilitated by Henry Schein Career Development.

Q. And to whom did you present this to?

A. In my earlier statement right before I broke for lunch, I said part of the on-boarding process was educating our respective field sales teams, our regional managers of this APC division and what it's made up of and what do APCs look like. And so this was that deck that I presented in that career development presentation where we got in front of all of our eight zones throughout the country.

Q. And was that in person?

A. It was.

Q. Where was it?

A. We call it, like, a road show. We traveled throughout the entire year of 2017 to those actual zones or regions, so they were in a different location every time.

Q. Okay. Thank you.

But this was the same presentation that you provided or presented to all eight zones?

A. Correct.

Q. Okay. And then going back to the discovery questions, so you prepared this document. Was it based on any other documents?

A. Yes. When I first came on board in May of 2016 with Schein, Kathleen Titus had formed a couple of questions of her own that she used when she was managing discovery through potential groups. And so I used her document as a basis, and then I worked off of that to create what you see right now.

Q. Okay. And so did she -- did Miss Titus send you her questions by email, do you recall, or did she tell them to you orally?

A. I don't recall.

Q. Okay. And are you aware of any other document like this discovery questions for APC groups other than the one that you created?

A. I mean, there is another document that we utilized in the beginning that our legal prepared, which was much more higher level that actually talks about -- like, sets proper -- or proper structures when it comes to Sunshine Act, Anti-Kickback, just making sure that we understood if groups were dentist-owned, non-dentist-owned.

There is a lot of stuff when we have to

1 create our prime vendor agreement with these APCs,
2 just that we need to make sure that legal
3 understands fully their proper structure. So there
4 is another document that legal created that I use to
5 go along with this one.

6 Q. Other than that one that legal prepared,
7 were there any -- and the list of questions from
8 Miss Titus, was there anything else that you used to
9 prepare this discovery questions document?

10 A. Not that I'm aware of.

11 Q. Okay. A think a lot of the discovery
12 questions on this list we've already discussed, but
13 I just wanted to ask you a couple questions.

14 No. 8, it says, Influence/Members/
15 Compliance." Do you see that? Do you see that?

16 A. Yes, I do.

17 Q. Okay. Is there a difference, in your mind,
18 between influence and compliance?

19 A. Yeah. There's influence -- again, this is
20 my own personal definition -- of where some of these
21 groups will have influence saying, like, "We endorse
22 or we support our partner vendors that we have
23 negotiated and brought on your behalf." And then
24 you have compliance, which is where it's actually
25 when it comes down to driving purchasing power.

1 Q. Okay. And, in your understanding, how can a
2 group drive purchasing power?

3 MR. McDONALD: Object to the form. Asked
4 and answered.

5 THE WITNESS: This is exactly what we
6 discussed right before break. It is where they're
7 able to have their members come together
8 collectively and say they will buy 80 percent or
9 more of their merchandise supply spend through their
10 preferred manufacturers or distribution partners.

11 BY MS. GOFF:

12 Q. And does Schein ever put a clause in the PVA
13 that would require the members to purchase, you
14 know, say, 80 percent or more?

15 A. I believe there is some sort of terminology
16 in the PVA. I'm not confident in that. But I think
17 there is something in there when it talks about --
18 in Exhibit A with all the legality, that it says
19 that we are the prime or exclusive, sole partner and
20 that you will have your members purchase through
21 Schein.

22 Q. Okay. And is the PVA that you use for your
23 various groups within APC is it generally the same
24 PVA, or can the terms differ from PVA to PVA?

25 A. The Exhibit A respectively always pretty

1 much stays the same. And if we did have a change,
2 it would be due to legal, and then we would utilize
3 that updated or revised Exhibit A for all other PVAs
4 moving forward. The first page that outlines kind
5 of more, I would call it, marketing terms or
6 benefits that we would provide, though those change
7 all the time.

8 Q. Okay. That's helpful. Thank you.

9 So would you work with -- you know, earlier
10 we were talking about which groups you would work
11 with, and we talked about compliance and influence,
12 and I just want to make sure I understand. Would
13 you work with a company that could influence members
14 but couldn't drive compliance?

15 MR. McDONALD: Object to the form.

16 THE WITNESS: I mean, again, if it makes
17 good business sense for us, we would work with
18 anyone. So when I say there's influence, the
19 influence usually comes from those groups that are
20 extending type -- value-added type of services aside
21 from just the consumables and discounted pricing.
22 And usually when there is that influence, there is
23 trust and they are already buying into that group's
24 model and vision, so that usually does elicit some
25 sort of compliance component.

1 But, again, it's a very broad question, and
2 that won't happen in all cases, but in some cases it
3 does.

4 BY MS. GOFF:

5 Q. No. 14 on the list, it says, "What is it
6 like for" -- "What does it look like for us to win
7 together?"

8 What does that mean?

9 A. This would be something -- it would be more
10 of just, again, to understand their value prop and
11 what do you call a successful partnership. I want
12 to know from them and hear from them what they're
13 looking for in a distribution partner so I can
14 understand if it's a probable fit.

15 Q. And what are examples of responses that you
16 hear from potential APC customers?

17 A. I mean, a very broad question. I don't even
18 know if I used this question on my calls that I have
19 had, but I think a response would be anything that
20 would be complementing their groups of what they're
21 looking for. And every group is looking for
22 something a little bit different, so I can't provide
23 to you an example. I don't have anything like that
24 that I can just hand over to you.

25 Q. So you can't think of any examples of what

1 buying groups or APC groups have said to you?
 2 A. Yeah. So, I mean, I think -- we have had
 3 discussions with, like, Dental Success Network, for
 4 example. They are one of our newest groups that we
 5 just launched earlier this spring. And, for them,
 6 they wanted a full-service dealer, someone that can
 7 really offer their members every portion of what
 8 they would call building a successful practice.
 9 Q. Okay. And is that one of the reasons why
 10 they wanted to partner with Schein?
 11 A. I would assume so.
 12 Q. Okay. And the next -- and also in No. 14 it
 13 says, "How does your group complement HSDs GTM
 14 strategy?" Is "GTM" "go to market"?
 15 A. It is.
 16 Q. And what are some responses that you
 17 received to that question?
 18 A. I think it's, again, everything that we just
 19 discussed here today about being a full-service
 20 dealer and having a full service offering. It's not
 21 just about supplies and consumables. It's much more
 22 than that. So, again, when I say, "How does your
 23 group complement HSD's strategy," it's making sure
 24 that we are working with them to give their members
 25 the best tools that they can to grow a profitable

1 it varies from each partnership we're working with.
 2 Q. So are there any hard-and-fast rules that
 3 you can tell me today that if a group does not have
 4 a particular characteristic you will absolutely not
 5 work with them?
 6 A. Again, what has been stated, I believe,
 7 multiple times today is if a group I'm talking to is
 8 all about aggressive discounted pricing that cannot
 9 drive any sort of compliance within their group and
 10 that is all they're looking for in a vendor partner
 11 or distribution partner, that is, yes, probably a
 12 hard "I'm not" -- hard "no" to "I'm not interested
 13 in doing business with that partnership."
 14 Q. And do you have an understanding if that
 15 policy has always been in practice at Schein?
 16 MR. McDONALD: Object to the form.
 17 Mischaracterizes the testimony.
 18 THE WITNESS: Again, which I also have
 19 already answered, is this is my own opinion of when
 20 I go to our leadership and say, "This is a
 21 partnership I think would be -- makes great business
 22 sense for us," or would not. That is my opinion.
 23 No one has told me that we would not work with
 24 groups that did not have compliance.
 25 ///

1 practice.
 2 Q. Are there any groups that have offered, you
 3 know, infl- -- you think they have -- going back to
 4 the compliance-versus-influence thing, are there any
 5 groups that you think have offered compliance but
 6 not influence?
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: I mean, I would say, you know,
 9 I think there's -- that could be true for some of --
 10 most of the partners we are working with today. We
 11 evolve; they evolve. We -- the longer we work with
 12 them, the more compliance we see.
 13 BY MS. GOFF:
 14 Q. But so initially when you first start
 15 working with the group or when you first make a
 16 recommendation to work with the group, how do you
 17 test that compliance?
 18 A. I think if we rule out -- I mean, that's,
 19 again, a very broad question. I don't know that we
 20 have specific examples. It's all about, again, a
 21 partnership of working together to launch proper
 22 programs that perk the members' needs and what their
 23 interests are. And that can go, again, from any
 24 type of a value-added program to any of the
 25 consumables or supplies, but, again, I mean, I think

1 BY MS. GOFF:
 2 Q. So it has never occurred where someone from
 3 Schein told you that that is Schein's policy?
 4 A. As I answered earlier today, no.
 5 Q. Okay. Okay. Turning to the PowerPoint
 6 presentation. Just to be clear, so you prepared
 7 this training; correct?
 8 A. Correct.
 9 Q. And you prepared it as part of your job?
 10 A. Correct.
 11 Q. Thank you. Okay.
 12 So turning to CX2202-005.
 13 MR. McDONALD: And for people on the phone,
 14 you may want to tell them the Bates number if they
 15 are trying to find it, because they don't have your
 16 CX numbers, Karen.
 17 MS. GOFF: Oh, good point. So it's -- this
 18 document is Henry Schein -- it's Bates-stamped
 19 Henry Schein 00172401. And I'm referring to the
 20 second page of the PowerPoint presentation
 21 attachment.
 22 BY MS. GOFF:
 23 Q. So it says, "What is an alternate purchasing
 24 channel (APC)?" And then it lists some different
 25 types of organizations.

1 And I believe we've discussed most of these
 2 today, but I see the term "Franchises," which I
 3 don't know that we've discussed. What is a
 4 franchise?
 5 A. A franchise would be, again, another type of
 6 group that we have seen within the industry that we
 7 would say would probably fall underneath this APC
 8 umbrella. Smile Source, who is our current partner,
 9 they call themselves a franchise DSO. If you asked
 10 them what they are, if you had to label them, that
 11 is what they call themselves.
 12 Q. Other than Smile Source, have you ever heard
 13 of any other groups call themselves a franchise?
 14 A. From groups that I have done any discovery
 15 or exploratory with personally, no, I have not.
 16 Q. So basically when you -- here in this
 17 PowerPoint presentation when you are referring to
 18 "franchises," you are talking about Smile Source?
 19 MR. McDONALD: Object to the form.
 20 THE WITNESS: No, I wouldn't say I was just
 21 speaking to Smile Source. I was just saying that
 22 would be another type of group that would be -- that
 23 would fall into an APC under this umbrella or
 24 division.
 25 ///

1 the APCs.
 2 Q. Okay. But the common characteristics of all
 3 the APCs is that they're comprised of private
 4 practice dentists?
 5 A. The majority, a foundation of the groups;
 6 correct.
 7 Q. So talking about Breakaway, I know you said
 8 that they have multiple layers. Can you tell me
 9 about those layers.
 10 A. Yeah. They had a membership arm that they
 11 actually had equity in. They owned some of their
 12 member offices.
 13 Q. Okay. And was that the largest arm or --
 14 A. It's their smallest arm.
 15 Q. Their smallest arm.
 16 And what was the largest arm?
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: Their largest arm would have
 19 been their support members. They call them their
 20 support members, which was similar to, like, a
 21 buying group arm.
 22 BY MS. GOFF:
 23 Q. Okay. And you said, I think, there were
 24 three arms. What is the other arm?
 25 A. The other one would have been their -- I'm

1 BY MS. GOFF:
 2 Q. Okay. In the notes at the bottom, it says,
 3 "Groups are complex and hard to label," and in
 4 parentheses, "DSO, MSO, BG components."
 5 Do you see that?
 6 A. I do.
 7 Q. So what did -- what does Schein do with
 8 groups that are hard to label?
 9 A. So, just for the record, just so you
 10 understand, these are notes that I just typed in
 11 before my presentations just so I could get a
 12 feeling of what my overall context and flow would be
 13 like.
 14 And what I think we've also stated earlier
 15 today is that is why we coined "APCs" and put
 16 together that acronym, is because we are seeing a
 17 lot of groups that have some sort of buying group
 18 arm or a cost savings plan component, and they don't
 19 all go by a buying group or a GPO title or even a
 20 franchise title.
 21 We used to work with Breakaway. I would
 22 call them, like, a hybrid DSO. They had various
 23 member layers. So a lot of these, as I say, they
 24 are hard to compartmentalize. We don't want to
 25 label something wrong, so we just put them under

1 not 100 percent clear on the exact name. They
 2 either called them their -- I think they were their
 3 affiliates and de novos, which were their startup
 4 practices. They had some members that would sign a
 5 contract with Breakaway to help them expand and grow
 6 and actually build practices from the ground up.
 7 Q. And did Breakaway have an ownership interest
 8 in those practices, do you know?
 9 A. No, they did not.
 10 Q. Turning to the next slide, slide 3, it says,
 11 "What does the ultimate APC look like?" And it is
 12 CX2202-006, and it's with a Bates stamp ending in
 13 404.
 14 MS. GOFF: Oh, I guess is -- this must have
 15 been a native produced document, for those that are
 16 on the phone.
 17 BY MS. GOFF:
 18 Q. So I think that, again, we talked about some
 19 of these characteristics earlier, but I wanted to
 20 ask a few follow-up questions. So am I correct in
 21 understanding from this slide that the ultimate APC
 22 for you would be value focus and not price focus?
 23 A. That's an accurate statement. I think it
 24 supports everything we discussed today.
 25 Q. And aren't all buying groups price-focused?

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: Again, all these groups that
 3 we're calling an APC, they all have some sort of
 4 cost savings program arm, so, again, that's an
 5 opinion in the eye of the beholder.
 6 BY MS. GOFF:
 7 Q. Whether they're price-focused or not?
 8 A. Uh-huh. Yes.
 9 Q. But if a group is price-focused, you don't
 10 want to work with them?
 11 A. So, again, that's one layer. This is --
 12 again, I'm trying to teach our team of what these
 13 groups look like and some of the ones that we would
 14 use as a basis when we're looking to do business
 15 with these type of groups.
 16 I mean, this is not verbatim saying we want
 17 it. This is just me training and giving education
 18 to our sales members on what the basis of these
 19 groups look like and the ones that right off the bat
 20 would be someone we would be very interested. It
 21 doesn't mean we would be or we wouldn't, just a
 22 foundation.
 23 Q. So for ones that are not price-focused,
 24 would you be interested in doing business with them?
 25 A. I answered this many times already. If it's

1 THE WITNESS: It just depends. We've gone
 2 over this, like, so many times. There are so many
 3 groups that have different types of structures.
 4 They offer different types of components. I don't
 5 know how you want me to answer this any differently.
 6 BY MS. GOFF:
 7 Q. So you can't give any specifics about what
 8 are the components?
 9 MR. McDONALD: Object to the form. Asked
 10 and answered.
 11 THE WITNESS: No. I have -- everything I
 12 told you has been my answer. I have nothing else to
 13 say.
 14 BY MS. GOFF:
 15 Q. It says in the third bullet point down that
 16 "HSD will NOT," and "not" is in all capital letters,
 17 "be a fulfillment service." Do you see that?
 18 A. I do.
 19 Q. What does that mean?
 20 A. Meaning that we are not just going to take
 21 orders on cheap supplies. We're not going to be
 22 just fulfillment. We are full-service. We offer
 23 more than just being an order-taker.
 24 Q. And wouldn't being a fulfillment-only allow
 25 Schein to lower its costs by eliminating the need

1 just about price and there was no compliance, we're
 2 probably not interested in aligning with that type
 3 of group.
 4 Q. Okay. So the price-focused ones are the
 5 ones you are not interested in doing business with?
 6 MR. McDONALD: Object to the form.
 7 BY MS. GOFF:
 8 Q. Oh, you can answer that question.
 9 A. I'm sorry. I didn't know that was a
 10 question. Please repeat.
 11 Q. Sure. The price-focused ones are the ones
 12 that you're not interested in doing business with?
 13 MR. McDONALD: Object to the form. Asked
 14 and answered.
 15 THE WITNESS: Yeah. I mean, again, it
 16 depends. There could be other variables. But most
 17 likely if that is all that they're about and that's
 18 the only value that they would offer their members,
 19 is just the aggressive low discounts, it's probably
 20 not a group we would be excited about doing business
 21 with.
 22 BY MS. GOFF:
 23 Q. And what are the other variables?
 24 MR. McDONALD: Object to the form. Asked
 25 and answered.

1 for FSCs or sales consultants?
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: Then probably, yeah. But we
 4 are not fulfillment. We are full-service, and we do
 5 have FSCs and other specialists that bring the great
 6 additional value to our customers.
 7 BY MS. GOFF:
 8 Q. And so why is it important to Henry Schein
 9 not to be just a fulfillment service?
 10 A. Because it's not --
 11 MR. McDONALD: Object --
 12 Hang on.
 13 Object to the form.
 14 Go ahead.
 15 THE WITNESS: Because that is not who Henry
 16 Schein is.
 17 BY MS. GOFF:
 18 Q. Okay. But we established earlier, I
 19 think -- but I just want to make sure I'm clear --
 20 that for buying groups that have member -- strike
 21 that.
 22 Henry Schein could go in to buying groups
 23 that just wanted to negotiate a discounted price and
 24 still offer the additional value-added services to
 25 the members of those buying groups; correct?

1 A. Yeah.
 2 MR. McDONALD: Object to the form.
 3 Go ahead.
 4 THE WITNESS: Yes.
 5 BY MS. GOFF:
 6 Q. Okay. So why is it that Henry Schein didn't
 7 want to do business with groups -- with buying
 8 groups that were fulfillment-only when Henry Schein
 9 could still continue to go in and provide those
 10 value-added services to the members?
 11 MR. McDONALD: Object to the form. Asked
 12 and answered. You went over this a lot already.
 13 MS. GOFF: There have been a lot of
 14 different answers, so I just want --
 15 MR. McDONALD: You know what? You've asked
 16 the same question about three different times, and
 17 if her answer wasn't exactly the same every time,
 18 you know, it's substantively the same. This will
 19 now be at least the third time she's answered the
 20 question.
 21 BY MS. GOFF:
 22 Q. Can you please answer the question.
 23 A. Can you please repeat it again.
 24 Q. Yes. So for groups that were
 25 fulfillment-only -- for groups that were price-only,

1 Henry Schein could continue to service those
 2 members, you know, offer the value-added services
 3 that it wanted to; correct?
 4 A. Yes.
 5 Q. Okay. And so why is it that Henry Schein
 6 did not want to do business with those price-only
 7 groups?
 8 MR. McDONALD: Object to the form.
 9 MR. KASS: Mischaracterizes her testimony.
 10 MR. McDONALD: Asked and answered.
 11 THE WITNESS: Again, as I --
 12 MR. McDONALD: Go ahead.
 13 THE WITNESS: Again, which I mentioned
 14 multiple times, is we -- I don't feel that that is
 15 great business that we would want -- or a great way
 16 that we would want to do business. That does not
 17 make business sense to me.
 18 BY MS. GOFF:
 19 Q. Why not?
 20 A. Which I've explained multiple times. We are
 21 not going to discount our supplies and consumables
 22 and cannibalize pricing from customers that we're
 23 already getting when a buying group or an APC has no
 24 compliance to drive purchasing through their
 25 membership.

1 Q. What do you mean by "cannibalize pricing"?
 2 A. What I mean by "cannibalize" is from
 3 customers that we're already doing business with.
 4 Q. Right. Customers that you're already doing
 5 business with, you don't want to cannibalize the
 6 pricing. But what do you mean by "cannibalize"?
 7 MR. McDONALD: Object to the form. Asked
 8 and answered.
 9 Go ahead.
 10 THE WITNESS: So, again, as discussed before
 11 lunch, is we're not going to -- it would not make
 12 proper business sense to align with the group that's
 13 all about aggressive discounted pricing.
 14 BY MS. GOFF:
 15 Q. So when you say "cannibalize," is that what
 16 you mean, discounting --
 17 A. Well --
 18 Q. -- discounting prices?
 19 A. Sorry. If they're members -- yes, if we
 20 already had customers that were part of those groups
 21 and they were saying, "We can't really drive more
 22 influence, but just give us more aggressive
 23 discounts, that makes zero business sense."
 24 Q. Okay. Right. What about customers that
 25 were not already buying from Schein?

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: So, again, already answered.
 3 If these were not customer -- or if these were
 4 customers that were aligned with the group that was
 5 not buying from Schein and we still were giving them
 6 supplies at a discount and there was no compliance
 7 to drive purchasing power between their members,
 8 again, it does not make much business sense.
 9 BY MS. GOFF:
 10 Q. But how would you know -- okay.
 11 So in a situation where a group comes and
 12 they say that they do offer compliance and they do
 13 offer influence to members, then would you be
 14 interested in working with that type of group?
 15 A. Through the exploratory and discovery phase,
 16 yes, I would probably be interested.
 17 Q. Even if they were price-only?
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: No. Sorry. I guess I didn't
 20 understand your question.
 21 MR. McDONALD: She changed the question.
 22 BY MS. GOFF:
 23 Q. Okay. So in no circumstances -- if a
 24 group comes to you and they are price-only, in no
 25 circumstances are you interested in working with

1 them?

2 MR. McDONALD: Object to the form.

3 MR. KASS: It mischaracterizes his
4 testimony.

5 THE WITNESS: Yeah, I would never say -- I
6 have never said in any circumstances -- I have said
7 multiple times Henry Schein is always willing to do
8 business with any type of group or customer, for
9 that matter, if it makes business sense.

10 What I've also mentioned multiple times is a
11 group that is just about aggressive, discounted
12 pricing and that is all they are offering to their
13 members and they cannot drive any type of
14 compliance, I don't think it makes great business to
15 do business with those type of groups.

16 BY MS. GOFF:

17 Q. Okay.

18 A. I do not know how more detailed I can get
19 for you.

20 Q. There is a possibility that a group that is
21 only price-focused could bring Henry Schein new
22 customers; correct?

23 A. Yeah. In some cases that could be correct.

24 Q. Okay. Because they could bring a customer
25 that was previously purchasing from a Patterson or a

1 Benco to Schein; correct?

2 A. That could be the case.

3 Q. And is that something that you consider when
4 determining whether to do business with an APC
5 group?

6 A. Yes, we determine everything. We look at
7 everything.

8 Q. Okay. Let's turn to page CX2202-009. And I
9 want to ask you about this reference on this page to
10 "Formulary Selling." Do you see that? It's, like,
11 the fourth bullet point down. It says, "Formulary
12 Selling," exclamation mark.

13 A. Yes, I do.

14 Q. Okay. Does Schein offer formulary selling
15 to APC groups?

16 A. Yes, they do.

17 Q. Okay. And how does it work?

18 A. By definition, formulary is where we create
19 a product mix of supplies, consumables, goops and
20 goos, and it's a contracted, like, some mix of those
21 products, that are set at various discounts.

22 Q. Okay. So it's a list that Schein offers of
23 various consumables and then the associated discount
24 with that consumable?

25 A. Correct.

1 Q. Okay. Is it a list of specific price, or is
2 it just a percentage discount?

3 A. It's a percentage blended discount.

4 Q. And what -- what do you mean by "blended"?

5 A. So it's not the same discounts on every
6 single item.

7 Q. For every product. Okay.

8 And what is it a discount off of?

9 A. The discount would always be off our catalog
10 pricing.

11 Q. Okay. And for the entire period that you've
12 been at Schein, is this how Schein offers its
13 discounts to buying groups, through a formulary?

14 A. I would say as a standard best practice,
15 yes, most of the time.

16 Q. Okay. In the notes at the bottom of the
17 page -- so you said that these are notes that you
18 typed up for just, like, kind of talking points for
19 each slide; is that right?

20 A. They're internal-facing notes.

21 Q. In other words, only you can see them?

22 A. Correct.

23 Q. Okay. So it says, "Leverage service to grow
24 business."

25 Do you see that? It's the fourth bullet

1 down.

2 A. Yes, I do.

3 Q. What did you mean by that?

4 A. Meaning leverage parts of our other
5 value-added solutions -- as you see, that's part of
6 that practice care wheel above -- to leverage our
7 pro repair and pro service.

8 Q. This is service on equipment?

9 A. Repair, service, large, small.

10 Q. Okay. And how does Schein leverage service
11 to grow business?

12 A. So, again, just the supplies, that's
13 supplies. We have found that our best customers and
14 the customers that buy the most supplies from us are
15 the customers that leverage other portions of our
16 wheel.

17 Q. That also use Henry Schein for its service,
18 for example?

19 A. That would be one example.

20 Q. Okay. And does Schein, do you know,
21 prioritize service to those dentists who buy
22 supplies from Schein?

23 MR. McDONALD: Object to the form. Lack of
24 foundation.

25 THE WITNESS: So, to my knowledge, some of

1 our most loyal customers, they will get discounts on
2 service -- expedited service if they are buying more
3 supplies than someone that's not a customer.

4 BY MS. GOFF:

5 Q. So, to your knowledge, dentists who don't
6 buy from Schein don't get the priority service?

7 A. Correct.

8 Q. Okay. So -- sorry. I was trying to find
9 what I was looking for.

10 So under -- also in your notes under
11 "Formulary Selling," there is -- the second hash tag
12 down, it says "Buying Power."

13 Do you see that?

14 A. Yes, I do.

15 Q. Okay. It says:

16 "HSD negotiates the pricing with the
17 vendors on your behalf and consolidate
18 purchases."

19 What does that mean?

20 A. So when you want to talk about real buying
21 power, Schein, I believe, in my opinion, we are the
22 largest buying group. You will get all the
23 customers that we have been selling to and are
24 customers, and if they are all in any type of
25 formulary where that's -- right there you're able to

1 see the hundreds, thousands of supply sales that
2 we've been able to bring in.

3 So for a better explanation, we will be able
4 to go back and negotiate with our manufacturer
5 partners and say we have X amount of customers
6 buying within this type of formulary, and it helps
7 us lower down pricing.

8 Q. Okay. And then the manufacturers give
9 Schein a discount on those products?

10 A. Correct.

11 Q. And that's based on the volume that Schein
12 promises the people will purchase?

13 A. Correct.

14 Q. And turning to the next page, it's
15 CX220-010. Again, looking at your notes, it says:

16 "Dentists join for the discounts...and
17 stay for the support/camaraderie."

18 Do you see that?

19 A. Yes.

20 Q. So as of the time that you gave this
21 presentation, was it your understanding that
22 dentists joined APC groups for the discounts?

23 A. In my opinion, from being within the space
24 and what I have learned, in my experience, the APC
25 groups that we're working with or the ones that we

1 are not, I have noticed that groups that -- that are
2 comprised just for the discounts, those don't seem
3 to be sustainable.

4 There's other things that those members will
5 need and want. They're always going to expect more.
6 You're always going to be able to find a lower price
7 somewhere else, always. So, in my opinion, the only
8 real sustainable model that an APC or a buying group
9 would have is if they offer something aside from
10 just a cost savings program component.

11 Q. Okay. Specifically to the first part,
12 "Dentists join for the discounts," so in your vast
13 experience dealing with APCs, is it your
14 understanding that that's the reason why dentists
15 typically join the buying group?

16 DEPOSITION REPORTER: Please repeat the
17 first part, "Dentists join for..." You were
18 reading.

19 BY MS. GOFF:

20 Q. Okay. So in -- in the notes you wrote,
21 "Dentists join for the discounts." And then I asked
22 whether in your experience that you have as the
23 leader of the APC group -- is it your understanding
24 that dentists join APCs for the discounts?

25 MR. McDONALD: Object to the form.

1 THE WITNESS: In my experience, I feel that
2 no matter how the groups are made up, no matter what
3 they offer, that's like the luster and the glitter.
4 That is what -- the first thing that draws, in my
5 opinion, any dentist to even look at a group, is
6 what kind of discounts is there.

7 BY MS. GOFF:

8 Q. Okay. And you mentioned that the buying
9 groups that you think are successful offer other
10 services other than just the discounts; is that
11 correct?

12 A. That is what I said.

13 Q. And are you aware of buying groups that have
14 been -- that have not been successful, that have
15 failed?

16 A. Not to my knowledge.

17 Q. Okay. Are you aware -- so how is it that
18 you're able to say that the one -- the buying groups
19 that are successful offer more than just discounts?

20 A. I -- from the groups that we've worked with,
21 my experience, they have a higher retention of their
22 membership if they offer other services to their
23 members aside from just the cost savings program
24 arm.

25 Q. Okay. Thank you.

1 And how are you aware of the retention rate?
2 Is that something that the APC group tells you, or
3 are you able to monitor that yourself somehow?

4 A. I don't think it's one specific example. I
5 think there's many different cases and things that I
6 have looked at to come to that conclusion or
7 assumption on my own.

8 I think it's dealing with the partners that
9 we have today that offer the true value proposition
10 to their members, and you see those groups continue
11 to grow their membership and flourish. And then,
12 again, just -- they told me that their members are
13 happy and they stay because of this, so there's --
14 there's many sources to why I have come to that
15 conclusion in my opinion.

16 Q. Okay. And when you wrote they stay --
17 "Dentists stay for the support/camaraderie," just
18 for the record, what did you mean by
19 "support/camaraderie"?

20 A. I think community. I think these private
21 practices right now, it's been very competitive with
22 them, or it's a very competitive time for them. And
23 they're looking for a group and a community and
24 support where they can talk amongst peers, discuss
25 best practices, and I think that's another big part

1 of why these buying groups are so attractive.

2 Q. And then turning to the next slide, which is
3 CX2202-011, it says, "Active APC Partners." So is
4 this a complete list of the active APC partners as
5 of December 2017?

6 A. No.

7 Q. Okay. What's missing?

8 A. Mastermind Group and Teeth Tomorrow.

9 Q. And did -- did Schein work with those two
10 groups in December of 2017?

11 A. Yes, they did.

12 Q. Do you have an understanding of why they're
13 not included on this list?

14 A. Because this deck was made in the beginning
15 of 2017, the -- I should say, the beginning half of
16 that year.

17 Q. And did Schein work with Master Mind and
18 Teeth Tomorrow at the time that you prepared the
19 deck in the beginning of -- or the first half of
20 2017?

21 A. No, they did not.

22 Q. So, talking about Breakaway -- I know we
23 mentioned them earlier -- but so far at least some
24 of Breakaway's dental practice members, there is
25 centralized ownership for at least some of them; is

1 that true?

2 A. That is -- correct. That's correct.

3 Q. And why was it within APC as opposed to
4 Mid-Markets or Special Markets?

5 A. So prior to me coming on board with Henry
6 Schein, this was being managed under Andrea Hight,
7 Kathleen Titus and Kip Rowland in the Mid-Market
8 Group Practice Division.

9 Q. And why did it get switched over to you, in
10 your understanding?

11 A. Because there was now a division and a
12 person dedicated to manage these type of
13 partnerships.

14 Q. But why was it -- since it has a element of
15 centralized ownership, why was it moved over to APC
16 as opposed to staying in Mid-Market?

17 MR. McDONALD: Object to the form.

18 THE WITNESS: The majority of Breakaway's
19 membership were individual private practices.

20 BY MS. GOFF:

21 Q. So is it your understanding that that is why
22 it was moved over to APC?

23 A. Yeah. I would say that's correct.

24 Q. Do you have personal knowledge of that, of
25 why it was moved over to APC?

1 A. No one told me that's exactly why, but I
2 would assume that there's now a dedicated individual
3 to manage these type of groups that don't fit in a
4 direct market that we cover, which would be Special
5 Markets, Group Practice or Private Practice. These
6 are hybrids, and they have multifaceted layers. So
7 if they do not fall into those divisions as a
8 standard, then they usually give them over to the
9 APC division.

10 Q. Okay. When did Schein start working with
11 Breakaway? Do you know?

12 A. I do not.

13 Q. It was sometime before you arrived?

14 A. Correct.

15 Q. Do you know whether it was, like, right
16 around the time you arrived?

17 MR. McDONALD: Object to the form.

18 If you know, tell her, but don't guess --

19 THE WITNESS: I don't know.

20 MR. McDONALD: -- if you don't know the
21 date.

22 THE WITNESS: I don't know.

23 BY MS. GOFF:

24 Q. Do you know for the -- the arm of Breakaway
25 that the members are composed of independent private

1 dental practices, with regard to that arm, do you
2 know whether they offer any value-added services?

3 A. For their support members and all their
4 members, yes, they offered a handful of value-added
5 services.

6 Q. What services were those?

7 A. I don't know them all, but I know for a fact
8 they offered marketing programs, IT support, call
9 centers, insurance verifications and other various
10 programs. Those are the only ones I can think of
11 top of mind.

12 Q. Okay. And then for Breakaway, for the time
13 that you worked with Breakaway, so after you
14 started, was it an exclusive relationship, a sole
15 partnership?

16 A. Yes, it was.

17 Q. Okay. And do you know whether Breakaway was
18 able to drive compliance?

19 A. From my experience in managing that
20 partnership, yes, they -- they did drive compliance.

21 Q. And how did they drive compliance?

22 A. They would always influence their members to
23 buy from Henry Schein as their supported
24 distribution partner. We worked really closely with
25 the Breakaway leadership to partner with other

1 manufacturers. That way their members were buying
2 their cements or goops and goops from one or two
3 manufacturers rather than from five or ten different
4 ones. So, yes, they did work with us, and it was an
5 ongoing process that kept on evolving to offer
6 compliance.

7 Q. So is it common for you to work with an APC
8 group to ensure further compliance once they've been
9 brought on board?

10 MR. McDONALD: Object to the form.

11 THE WITNESS: Yeah. I mean, I say as a
12 mutual partner it's a two-way street. We want to
13 make sure we are working with them and helping them
14 to better support their member needs.

15 BY MS. GOFF:

16 Q. Okay. So you mentioned that you worked with
17 manufacturers to help offer Breakaway members
18 discounts with manufacturers. Is that -- do I
19 understand that correctly?

20 A. We would -- yeah, I mean, we would work with
21 Breakaway, and if there were certain manufacturing
22 partners that they thought that their membership was
23 interested in, we would include those in the
24 formulary -- those manufacturers in the formulary,
25 and/or if they're already included, some of those

1 items, we would broaden their breadth of their
2 product mix to help drive compliance within that
3 manufacturer, again, to bring down pricing.

4 Q. Okay. "To help drive compliance" meaning to
5 ensure that the members of the buying group would
6 purchase from Schein?

7 A. Correct.

8 Q. Okay. Then turning to the Klear Impakt,
9 which is another listed active APC partner.

10 MR. McDONALD: Are you talking on the same
11 page?

12 MS. GOFF: Yeah. On the same page. I mean,
13 I actually -- oh, sorry. I have a couple more
14 questions about Breakaway.

15 BY MS. GOFF:

16 Q. Do you know who paid the bills on behalf of
17 the practices?

18 A. That's going to be a very broad question. I
19 believe, to my knowledge, what I've been told, was
20 when Breakaway first emerged they paid the bills on
21 behalf of their members. To my understanding, very
22 recently to right around the same exact time that I
23 came on board with Schein, Breakaway had changed
24 that model.

25 Q. And so they stopped paying on behalf of the

1 members?

2 A. To my knowledge, right around the time that
3 I started with Schein, in that time are -- that
4 specific time, Breakaway no longer paid their supply
5 orders on behalf of their members.

6 Q. Okay. So for the entire time that you
7 managed the Breakaway relationship, Breakaway was
8 not paying the supply orders --

9 A. On their individual private practice support
10 members, no.

11 Q. Okay. And so then the individual private
12 members paid Schein directly?

13 A. They were set up just like every other
14 private practice of ours; correct.

15 Q. Okay. And then did Breakaway order supplies
16 on behalf of the members?

17 MR. McDONALD: Object to the form.

18 THE WITNESS: Again, to my --

19 MR. McDONALD: Hang on.

20 Are you talking about the individuals, the
21 individual members?

22 MS. GOFF: So I'll rephrase the question.

23 BY MS. GOFF:

24 Q. Did Breakaway order supplies on behalf of
25 the individual members, to your knowledge, during

1 the time period when you managed the relationship?

2 A. When I managed the relationship, no, they
3 never placed any orders or POs on behalf of their
4 support members.

5 Q. And prior -- do you have an understanding of
6 whether prior to your arrival at Schein they placed
7 orders on behalf of their support members?

8 A. I don't have knowledge of that.

9 Q. Okay. Now, turning to Klear Impakt. I'm
10 referring you to the Klear Impakt on the slide, but
11 I really am just wanting to know your information
12 that you have separate and apart from this slide.

13 Do you have an understanding of whether
14 Klear Impakt has centralized ownership of its
15 practices?

16 A. Can you clarify that question.

17 Q. Does Klear Impakt have equity ownership in
18 its practices?

19 A. No, they do not.

20 Q. Okay. And does Klear Impakt offer
21 value-added services, in your opinion?

22 A. Yes, they do.

23 Q. And what do they offer?

24 A. They offer marketing. They align with
25 various other type of vendor partners to offer

1 financial assistance. I believe they're aligned
2 with -- I'm trying to think offhand. They have an
3 array of other services and vendor partners that
4 they work with. I know, like, one is a bank. They
5 help with financial loans. I know marketing is one
6 of them.

7 Q. And does Schein offer any of the value-added
8 services to Klear Impakt?

9 A. Yeah. We offer a ton. In our entire
10 portfolio of benefits that we created for Klear
11 Impakt members, there's a lot of other things that
12 we offer aside from just the formulary pricing.

13 Q. Okay. And has it always been the case since
14 you managed the Klear Impakt relationship that
15 they've offered these value-added services to
16 members?

17 A. Yes.

18 Q. And is Klear Impakt -- is Schein's
19 relationship with Klear Impakt sole source?

20 A. It is.

21 Q. Meaning it's exclusive?

22 A. Yes.

23 Q. Okay. And does Klear Impakt drive
24 compliance, in your opinion?

25 A. Yeah.

1 Q. And how do they do that?

2 A. Again, through the influence of -- they
3 influence their members to work with Schein. The
4 more that their members work through Schein, the
5 more that they buy through Schein, the better
6 discounts, in turn, that we'll get.

7 Q. The more members buy from Schein, the higher
8 discounts Schein offers?

9 A. Yeah. I mean, again, they influence their
10 members to buy from Schein. They know if more of
11 their membership buys more through Schein we will be
12 able to, in turn, get better pricing through the
13 formulary.

14 Q. Okay. Do you update the pricing in the
15 formulary on some periodic basis?

16 A. There's no standard structure. But, as I
17 mentioned multiple times, these partnerships are
18 always evolving. The way we work with them is
19 always changing. So, yeah, formularies can always
20 be revised at any set time.

21 Q. And is there language in the PVA or
22 otherwise that states that if Klear Impakt members
23 buy a certain percentage of product or a certain
24 amount of product that Schein will offer an even
25 greater discount?

1 A. Not to my knowledge.

2 Q. Okay. So how -- you mentioned that that --
3 that Klear Impakt knew that if they offered more
4 members buying more products from Schein then Schein
5 would offer a greater discount. How would you know
6 that?

7 A. I said that -- you asked me how they're
8 driving compliance, and I said through their
9 influence and through their members. And they know
10 through our various discussions if we can truly see
11 compliance happen through their membership, we're
12 able to see growth in an incremental way, then, as a
13 standard, yes, we would revise the formulary.

14 Q. So is that something that you relayed to
15 Klear Impakt?

16 A. It's been in discussion a couple times
17 verbally.

18 Q. Okay. And when you said if you're able to
19 see growth in an incremental way, is that, again,
20 just referring to incremental sales?

21 A. Yes.

22 Q. Next on the list of active APC partners is
23 Smile Source. Smile Source, as we discussed, they
24 refer to themselves as a "franchise DSO."

25 A. That is correct.

1 Q. And they do not have ownership of the dental
2 practices; is that right?

3 A. They do not.

4 Q. Do you consider Smile Source to be a buying
5 group?

6 A. Smile Source has a cost savings program arm.
7 That's an opinion. I mean, everyone has an opinion.
8 They have a buying group cost savings program arm.
9 They have franchise agreements with their
10 membership, so I would call them a franchise DSO, is
11 what they call themselves.

12 Q. Do they have value-added services?

13 A. Yes, they do. They offer education to their
14 membership, various education, bring in other
15 keynotes, KOLs, which is a key opinion leader, CEs.
16 They host annual meetings and an annual exchange
17 where they have their members all come together and
18 they offer CE credits.

19 Q. Any other value-added services that you can
20 think of, sitting here?

21 A. I mean, they -- to my understanding, they
22 work with, I believe, like, a hundred-plus different
23 type of partners. I don't know what they all
24 entail, but I know a lot of them are aside from just
25 supply or manufacturing partners, so that's all I

1 can say.

2 Q. When you're assessing whether to work with a
3 buying group, are you looking for particular
4 value-added services that a group has to offer?

5 A. No. I just want to know that a group is
6 offering something aside from just the aggressive
7 discounts.

8 Q. But it could be anything that they would be
9 offering?

10 A. It could be anything.

11 Q. And does it matter whether it's something
12 that Henry -- whether the value-added service is
13 something that Henry Schein can offer or not?

14 A. It does not.

15 Q. Okay. So, in your mind, the benefit of the
16 value added service is because it helps drive
17 compliance?

18 A. Yes. As I already stated earlier, we have
19 found that our best customers and the customers that
20 buy the most from us are leveraging to other
21 portions of that value added practice care wheel.

22 Q. They are leveraging the other portions of
23 Schein's practice care wheel?

24 A. Correct.

25 Q. So it doesn't matter whether in your -- when

1 we are talking about customers, we are talking about
2 APC customers?

3 A. I'm talking about APC customers. I'm
4 talking about customers -- at the end of the day,
5 whether they are a customer aligned with the APC or
6 a Group Practice or Special Markets, they are a
7 customer. At the end of the day, they're our
8 customer, and so I'm referring to all customers.

9 Q. Okay. So I'm wondering about buying groups
10 driving compliance. And that's compliance to
11 Schein, driving sales to Schein; right?

12 A. Is that a question?

13 Q. Yes.

14 MR. McDONALD: Why don't you restate it.

15 THE WITNESS: Can you restate it. That
16 seems more like a statement.

17 BY MS. GOFF:

18 Q. Okay. So I just want to make sure. Why
19 don't you tell me what you mean by "driving
20 compliance."

21 A. We have found within just our -- any of our
22 customers -- if you want me to say just the
23 customers we are working with that are related
24 directly to these APC groups -- that if they are
25 using Schein for other areas outside of the

1 supplies, we do see a greater growth in those
2 supplies spend.

3 Q. Okay. The agreement with Smile Source is
4 not exclusive; correct?

5 A. Correct.

6 Q. It's shared with Darby and Burkhart?

7 A. Correct.

8 Q. And so why did Schein decide to do business
9 with Smile Source, even though it did not offer an
10 exclusive agreement?

11 A. We felt it made business sense.

12 Q. And did you personally feel that way?

13 A. We felt it made good business sense.

14 Q. Did you personally feel that way?

15 A. I personally felt that way.

16 Q. Okay. And so why did it make good business
17 sense, in your mind?

18 A. Because Smile Source is a very influential
19 group, and we know that their members were looking
20 for -- Smile Source as well as their members were
21 looking to align with a full-service distribution
22 partner. Darby and Burkhart could not offer their
23 members everything that Schein could and also have
24 that national presence.

25 Q. And so did you think they could bring

1 incremental sales?

2 A. Absolutely.

3 Q. Okay. Am I correct that Smile Source
4 negotiated rebates directly with several supply
5 partners?

6 A. That's correct.

7 Q. And "supply partners," does that refer to
8 manufacturers?

9 A. I would say they are one and the same.

10 Q. And are those manufacturers ones that also
11 sell through Schein, or are they ones that would go
12 directly to the buying group member?

13 MR. McDONALD: Object to the form.
14 Compound.

15 THE WITNESS: So Smile Source, again, they
16 do a lot of negotiations direct with manufacturer
17 partners or supplier partners, whatever you want to
18 call them. Some of those suppliers may be direct to
19 where they don't go through a distribution chain,
20 and others do go through a distribution chain.

21 BY MS. GOFF:

22 Q. Okay. So Smile Source does at least offer
23 discounts of manufactured products direct to the
24 customer, to the independent dental practice.

25 A. Can you clarify your question, please.

1 Q. Sure. So I just want to make sure I'm
2 understanding that Smile Source offers discounts
3 from Schein, and they, in addition, offer discounts
4 from manufacturers, like a buying group member could
5 buy directly from the manufacturer. Is that your
6 understanding?

7 MR. McDONALD: Object --

8 THE WITNESS: That's still --

9 MR. McDONALD: Hang on. Hang on. Hang on.
10 Object to the form. Lack of foundation. If
11 you know, tell her.

12 THE WITNESS: Well --

13 MR. McDONALD: Don't guess.

14 THE WITNESS: No, I'm not. But you're
15 just -- the way that you're asking the question,
16 it's very broad, and it's, like, three questions
17 into one, and --

18 BY MS. GOFF:

19 Q. Do you have an understanding -- I'll
20 rephrase.

21 Do you have an understanding of whether
22 Smile Source offers its members the ability to
23 purchase directly from a manufacturer?

24 A. So if a manufacturer is a direct
25 manufacturer, then, yes, they could purchase

1 directly. If it is not a direct manufacturer and
2 they have to purchase through distribution, the
3 Smile Source members would have to pick a
4 distribution partner to purchase that merchandise.

5 Q. Okay. Are you aware of which Smile Source
6 direct manufacturer partners that they have?

7 A. No.

8 Q. Let's go through the Legacy Groups on
9 CX2202-011. For Advantage Care Dental do they offer
10 value-added services, in your opinion?

11 A. Yes. I'm not too familiar with this group,
12 as this was a study -- like study club, study group
13 of sorts that was managed at the local level by the
14 regional manager at the time, so I personally have
15 not been involved in actual the management of this
16 partnership.

17 Q. Okay.

18 A. So a lot of my questions regarding their
19 infrastructure, makeup, how we work with them, I'm
20 not going to be able to give you proper answers.

21 Q. Okay. So --

22 A. I'm just not informed on those processes.

23 Q. So they're with- -- these groups fall within
24 your umbrella, but you don't directly manage them?

25 A. Yes.

1 Q. Do you know who manages Advantage Care
2 Dental?

3 A. It would be the regional manager for that
4 region. That would be Steve Gunson.

5 Q. And does he report to you?

6 A. He does not.

7 Q. Do you have an understanding of whether
8 Advantage Care Dental's relationship with Schein is
9 an exclusive relationship?

10 A. I don't know that.

11 Q. You don't know if it's still sole --
12 sole-sourced? No?

13 A. I don't know.

14 Q. And do you know whether it can drive
15 compliance?

16 A. I don't know.

17 Q. Okay. Is your answer the same for the other
18 legacy groups listed?

19 A. It would be, yes.

20 Q. Do you know who manages the Corydon Palmer
21 relationship?

22 A. Not -- I mean -- no, I don't.

23 Q. But it's managed at the local level?

24 A. Yes, it is.

25 Q. And do you know who manages the Dentists for

1 a Better Huntington relationship?
 2 A. I do not.
 3 Q. And what about Long Island Dental Society?
 4 A. I do not.
 5 Q. And Stark County Dental Society Group?
 6 A. I do not.
 7 Q. So why are they identified as APC partners
 8 if you don't directly manage them?
 9 A. Again, these were legacy groups that we had
 10 been working with, to my knowledge, years before I
 11 came on board with Schein to manage this division,
 12 and they're regional-based groups, meaning they do
 13 not have a national presence, so they are being
 14 managed at that local level. And it was our intent
 15 and best practice not to change up the way that
 16 they've been managed.
 17 Q. Okay. Were you informed of these legacy
 18 groups when you first -- of the existence of the
 19 legacy groups when you first started at Schein?
 20 A. This we discussed earlier this morning.
 21 Yeah, these -- this was -- this group of study clubs
 22 was something that was discussed with me within the
 23 first six months of me on-boarding with Schein.
 24 Q. Okay. And who discussed it with you?
 25 A. Brian Brady.

1 A. He came on board while he was a RAM, which
 2 is a regional account manager under the mid-market
 3 space back in 2017, and he assisted with the Smile
 4 Source partnership when it comes to fostering and
 5 managing the day-to-day needs.
 6 Q. Does he still play that role?
 7 A. No, he does not.
 8 Q. So are you the only one that manages that
 9 relationship now?
 10 A. No, I am not.
 11 Q. Who does besides you?
 12 A. Annika Swenson.
 13 Q. Is it your understanding that Matt Woodend
 14 managed the Smile Source relationship before you
 15 started?
 16 MR. McDONALD: Object to the form.
 17 THE WITNESS: It was mutually. When we had
 18 the official launch with Smile Source, him and I
 19 worked together. I was more of the back-end
 20 processes, and he was more of the member-facing and
 21 Smile-Source-facing account manager.
 22 BY MS. GOFF:
 23 Q. Okay. And Smile Source launched while you
 24 were at Schein; right?
 25 A. That is correct.

1 Q. And what did he say about that?
 2 A. That "these are groups that we had been
 3 working with and fostering for years back. Now that
 4 we have a dedicated division to work with groups
 5 that are structured similarly, we are going to put
 6 them under your umbrella, but still let them be
 7 managed by who's been managing them."
 8 Q. And so are you aware of whether any of these
 9 groups offer value-added services?
 10 A. I don't know.
 11 Q. Who is Matt Woodend?
 12 A. Matt Woodend, I believe currently he is a
 13 SAM.
 14 Q. What's a SAM?
 15 A. Special -- I don't -- I don't know what the
 16 actual abbreviation is. I think "special accounts
 17 manager" or "select accounts manager."
 18 Q. Is he with the Mid-Market Group?
 19 A. He is.
 20 Q. The reason why I ask is his name is listed
 21 at the last page of this presentation. It's
 22 CX2202-019.
 23 A. Yes.
 24 Q. And I was just wondering why he was listed
 25 here.

1 MS. GOFF: I think we can put that document
 2 aside.
 3 MR. McDONALD: If you're switching
 4 documents, do you want to take a break? We have
 5 been going for a while.
 6 MS. GOFF: Oh, have we?
 7 MR. McDONALD: Yeah.
 8 MS. GOFF: Okay. Sure.
 9 (Off the record.)
 10 BY MS. GOFF:
 11 Q. Miss Wingard, we have been talking today
 12 about various groups that are within the APC
 13 channel, and I would like to know which of those
 14 groups that are within the APC channel you consider
 15 buying groups.
 16 A. Again, I think I stated earlier today all of
 17 them have some sort of a cost savings arm or
 18 buying-group type of arm, so all APCs that we're
 19 working with today in my division have sort of a
 20 buying group arm to them.
 21 Q. So would you consider them all to be buying
 22 groups?
 23 MR. McDONALD: Object to the form.
 24 Mischaracterizes her testimony.
 25 THE WITNESS: That's not what I said. I

1 said every APC group that we were working with today
 2 has some sort of a cost savings program buying group
 3 arm.
 4 BY MS. GOFF:
 5 Q. Okay. So do you consider Breakaway to be a
 6 buying group?
 7 A. So, again, I consider them to fall under my
 8 APC umbrella. They have a buying group arm. I
 9 would not classify or call them a buying group.
 10 Q. Okay. What about Klear Impakt?
 11 A. They have a cost savings program, a buying
 12 group arm.
 13 Q. Do they have any other arms?
 14 A. Yeah. They have the educational component.
 15 They also offer other value-added services to their
 16 members.
 17 Q. Would you call them a buying group?
 18 A. They have a buying group structure to them.
 19 Q. So you are the head of the APC; right?
 20 A. Yes.
 21 Q. So as part of your duties, is it necessary
 22 for you to have an understanding of what the term
 23 "buying group" means?
 24 A. So, again, "buying group," again, to whoever
 25 you are talking to will have a different definition.

1 form to their structure, but I wanted to know just
 2 more specifically: Do you consider them a buying
 3 group?
 4 MR. McDONALD: Object to the form.
 5 Are you asking are they only a buying group?
 6 BY MS. GOFF:
 7 Q. Do you understand my question?
 8 A. No.
 9 MR. McDONALD: Object to the form.
 10 BY MS. GOFF:
 11 Q. I asked you: Is Smile Source a buying
 12 group?
 13 A. That is --
 14 MR. McDONALD: Object to the form.
 15 THE WITNESS: That is --
 16 MR. McDONALD: Asked and answered.
 17 THE WITNESS: That is -- they have a buying
 18 group component. It is not all that they are.
 19 BY MS. GOFF:
 20 Q. Are you able to answer my question "yes" or
 21 "no"?
 22 MR. McDONALD: Object to the form. She just
 23 answered your question.
 24 BY MS. GOFF:
 25 Q. So Smile Source has a buying group

1 Q. I'm asking just you. You're the only one
 2 that's here today, so I'm just asking for you -- for
 3 your understanding, your definition of a buying
 4 group.
 5 A. Yeah. I would say a true definition of a
 6 buying group is a group that comprises private
 7 practices together or brings members together to
 8 get, you know, better discounts on pricing through
 9 group -- through any type of group purchasing power,
 10 compliance, et cetera.
 11 Q. Okay. And so would you consider
 12 Klear Impakt to be a buying group, using that
 13 definition?
 14 A. Yes. It's a part of their structure.
 15 Q. And Smile Source? Would you consider Smile
 16 Source to be a buying group?
 17 A. They have that part to their group
 18 structure.
 19 Q. So would you consider them to be a buying
 20 group?
 21 MR. McDONALD: Object to the form. Asked
 22 and answered.
 23 THE WITNESS: I just answered that.
 24 BY MS. GOFF:
 25 Q. You said that they would have part of that

1 component?
 2 A. Every APC group today that is under my
 3 umbrella that I manage has some sort of buying group
 4 component.
 5 Q. Okay. So -- and we've identified the APCs
 6 that you manage. Are there other groups that you're
 7 aware of at Schein that are buying groups?
 8 MR. McDONALD: Object to the form. Asked
 9 and answered.
 10 THE WITNESS: We work with many different
 11 groups and partnerships that have buying groups
 12 components -- buying group components.
 13 BY MS. GOFF:
 14 Q. Can you name any sitting here today other
 15 than the ones that you manage?
 16 MR. McDONALD: Object to the form. Asked
 17 and answered. She's identified them earlier today.
 18 THE WITNESS: Yeah.
 19 BY MS. GOFF:
 20 Q. Sorry. But you still have to answer my
 21 question.
 22 A. Yes. I've already said --
 23 MR. McDONALD: Well -- hang on.
 24 Object to the form. Asked and answered.
 25 ///

1 BY MS. GOFF:

2 Q. You still need to answer my question.

3 A. I answered all those earlier today.

4 Q. So let's go through and name the buying
5 groups -- the groups of buying group components that
6 you're in charge of. Breakaway, Klear Impakt,
7 Smile Source --

8 A. We no longer work with Breakaway. They're
9 not a -- we're not partnered with them anymore.

10 Q. Okay.

11 A. They terminated our agreement.

12 Q. Okay. So currently today -- well, why don't
13 you name them all for me.

14 A. Klear Impakt, Mastermind Group, Dental
15 Success Network, Teeth Tomorrow, OrthoSynetics and
16 then those legacy study groups.

17 Q. And are you aware of any other groups that
18 you can name, sitting here today, with -- that are
19 buying groups that Schein works with?

20 MR. McDONALD: Object to the form. Asked
21 and answered.

22 THE WITNESS: So I have already answered
23 this earlier today, and it's been asked so many
24 different times. Other groups that are managed
25 under Group Practice or Mid-Market or Special

1 Markets I know have some sort of a buying group
2 component to them. I don't know them all. I cannot
3 list for you all the ones that we currently work
4 with today.

5 I mentioned Council Connections earlier,
6 which is a CHC. I know that's one. But, again, I
7 don't -- I can't list off all the other groups that
8 have buying group components or which would be like
9 a buying group that we are managing outside of my
10 umbrella today.

11 BY MS. GOFF:

12 Q. Can you name any others?

13 MR. McDONALD: Object to the form. Asked
14 and answered.

15 THE WITNESS: No.

16 BY MS. GOFF:

17 Q. Okay. So let's talk about Teeth Tomorrow.
18 What type of a group is Teeth Tomorrow?

19 A. They are -- they would be almost kind of
20 similar to like a franchise model as well to the
21 fact that their value prop is to help these dentists
22 train on same-day dentistry, so it's like -- if
23 you're familiar with ClearChoice, that would be,
24 like, one of their probably -- not their
25 competitors, but the members or the private

1 practices that are aligned with Teeth Tomorrow would
2 be the same type of dentistry as, like, that
3 corporate chain.

4 Q. I'm not familiar with ClearChoice. What
5 type of dentistry is that?

6 A. Same-day dentistry.

7 Q. What does that mean?

8 A. For implants patients come in and can get
9 mouth reconstructive dentistry done in one day.

10 Q. Okay. And so does Teeth -- I am correct
11 that Teeth Tomorrow has a buying group component?

12 A. Yes, they do.

13 Q. And what value-added services do they have?

14 A. Just what I was saying to you. They have an
15 educational arm that teaches best practices on
16 certain clinical needs through full mouth arch
17 restoration, same day dentistry.

18 Q. And can they drive compliance?

19 A. In certain ways, but it evolves every day.
20 But yes.

21 Q. How do they drive compliance?

22 A. By supporting and endorsing our partnership.
23 They, you know, educate and influence their members
24 to purchase within their preferred partnering
25 channel.

1 Q. And how does that drive compliance? How
2 does that drive business to Schein?

3 A. In my opinion, I feel if they're able to
4 trust the leadership of Teeth Tomorrow and the
5 education, the programs that they are extending to
6 their membership, they will also look and lean to
7 Teeth Tomorrow on leadership of where to buy their
8 supplies from and other dental practice needs.

9 Q. Can you describe the buying group component
10 of Teeth Tomorrow. How does it work?

11 A. Can you -- their buying -- can you repeat
12 the question?

13 Q. Sure. So is Teeth Tomorrow a buying group?

14 A. They have a buying group component.

15 Q. Okay. Do they have any other components
16 other than a buying group component?

17 A. I've just answered that three times in the
18 last five minutes.

19 Q. Well, I'm sorry, but you'll have to answer
20 it --

21 A. They have -- they have an education
22 component. That is their -- to my knowledge, that
23 is their main value proposition and value that they
24 offer to their membership, is education and clinical
25 training.

1 Q. Okay. So what is the buying group
2 component? What does the buying group component
3 offer?
4 A. We offer a formulary to their members --
5 Q. So the buying --
6 A. -- on discounts on consumables and supplies.
7 Q. Okay. And do you know how many members
8 Teeth Tomorrow has?
9 A. Respectively, I would say around 45 to 50.
10 I don't know what their current count is right now.
11 Q. Did you recommend that Henry Schein work
12 with Teeth Tomorrow?
13 A. I directly did not launch that partnership.
14 Q. Who did?
15 A. Matt Woodend.
16 Q. And why, then, is it under your umbrella?
17 A. Because, again, it had a buying group
18 component.
19 Q. Okay. Do you -- are you happy with the
20 relationship?
21 A. I have not been solely responsible for
22 driving a lot of the partnership. It's one that
23 Annika Swenson now is starting to manage more of.
24 So, yeah, there's definitely room to grow.
25 Q. Do they bring in incremental sales?

1 component, yes.
2 BY MS. GOFF:
3 Q. And do they offer value-added services?
4 A. Yes. Their main value proposition is their
5 consulting and analytics that they offer their
6 membership.
7 Q. Okay. And do they drive compliance?
8 A. Yes, they do.
9 Q. How do they drive compliance?
10 A. Through the consulting and analytics that
11 they offer. They are able to dive in. They look at
12 the practice numbers. They look at inventory.
13 There's a lot of things through the analytics that
14 they look through. They say, "We're working with
15 Schein to help with overhead. You should buy within
16 formulary" --
17 Q. Okay.
18 A. -- "and the negotiated prices that we have
19 negotiated onto your behalf."
20 Q. And are you responsible for the Mastermind
21 Group?
22 A. Yes, I am.
23 Q. Did you bring that group into the APC?
24 A. Yes, I did.
25 Q. And why did you decide to work with

1 A. Yes, they do.
2 Q. And how do you know that?
3 A. Because we run a monthly report. We call it
4 an "APC snapshot report," that's ran every month
5 with every group that is under the APC umbrella, and
6 it shows their year-to-date sales, their previous
7 year sales, their member count and the variants on
8 merchandise as well as equipment technology.
9 Q. And what about the Elite Practice Mastermind
10 Group? What are they?
11 A. The Mastermind Group?
12 Q. Yeah.
13 A. They are -- I would call them a consulting
14 group.
15 Q. What's a consulting group?
16 A. They are -- the Mastermind Group offers
17 heavy consulting and analytics for practice growth
18 needs.
19 Q. Are they like a study club?
20 A. I would say they're like -- I don't know. I
21 would say they are more like a consulting group.
22 Q. Are they a buying group?
23 MR. McDONALD: Object to the form.
24 Go ahead.
25 THE WITNESS: They have a buying group

1 that group?
2 A. Because of their heavy education and
3 consulting.
4 Q. Why was that important to you?
5 A. It was very important because their vision
6 was aligned directly with ours of helping these
7 independent practices thrive and grow their
8 businesses.
9 Q. Do you have an understanding of how many
10 members they have?
11 A. Yes. They have 85.
12 Q. Okay. Do you have an understanding of
13 whether they brought incremental sales?
14 A. Yes, they have.
15 Q. The Smile Source relationship has -- have
16 they brought incremental sales to Henry Schein?
17 A. Yes, they have.
18 Q. Would you consider it to be a profitable
19 relationship for Henry Schein?
20 A. Yes, I would.
21 Q. What about Klear Impakt? Have they brought
22 incremental sales?
23 A. Yes, they have.
24 Q. And would you consider it to be a profitable
25 relationship?

1 A. Yes.

2 Q. Would you consider the legacy study clubs to
3 be profitable, or do you have knowledge of that?

4 A. I have not been looking at those numbers, so
5 I can't tell you if we've grown incremental business
6 on the legacy study club groups or not.

7 Q. Are they included in the reports that you
8 get?

9 A. Yes, they are.

10 Q. Okay. But how come you haven't been looking
11 at the numbers?

12 A. I just -- right now I can't tell you what --
13 the last report I had and what their growth was.

14 Q. Okay. Do FSCs get commissions on APC
15 accounts?

16 A. They do.

17 Q. And how do the commissions work?

18 A. To my knowledge, our field sales team are on
19 a commission structure. There's different tiered
20 commissions based upon the -- the GP, the margin,
21 gross margin of their sales, overall sales.

22 Q. Okay. So the FSC earns commission on the
23 margin?

24 A. So this is outside of my field. I don't
25 manage our sales team. I don't really understand

1 the way their commission works. I do know that
2 there's multiple tiers of commission structure, and
3 the higher their GP of their sales, the top or the
4 more commission that they get.

5 Q. Okay. And "GP" means --

6 MR. McDONALD: Hang on. Hang on.

7 Only tell her what --

8 BY MS. GOFF:

9 Q. -- "gross profit"?

10 MR. McDONALD: Hang on. I'm talking to my
11 witness. Okay?

12 Only tell her what you know. Don't guess.

13 There are many people being deposed that know about
14 this, so do not guess. But if you know, tell her.

15 THE WITNESS: Yeah. Again, I'm not
16 knowledgeable in the space. It's not my wheelhouse.
17 But I do know that there are multi-tiered commission
18 levels for FSCs.

19 BY MS. GOFF:

20 Q. And it's your understanding that it's based
21 on GP?

22 A. It's based on margin. The higher their
23 margins are, that's their top commission tier.

24 Q. Okay. And "GP" -- I just want to make sure
25 for the record -- is "gross profit"?

1 A. I don't know.

2 Q. Oh, okay. It is not a term that you use
3 regularly, I take it?

4 A. No.

5 Q. But it's a term that is used within Henry
6 Schein Dental?

7 MR. McDONALD: Object to the form.

8 BY MS. GOFF:

9 Q. "GP"?

10 A. Yes.

11 Q. Do you have an understanding of who might
12 know the definition of that term?

13 A. Anyone in sales leadership.

14 MS. GOFF: Okay. I'm handing you what has
15 been previously been marked as Exhibit 2168.

16 (Exhibit CX2168 introduced on the record.)

17 BY MS. GOFF:

18 Q. It is an email chain. The Bates stamp is
19 Henry Schein 00037220. It's dated -- the latest in
20 time is dated June 9th, 2016. The latest in time is
21 from you to Nick Barenz and Brian Brady. There are
22 several emails in the chain, and I'm actually going
23 to be asking you about the first email in the chain,
24 which is dated June 8th.

25 Have you had a chance to review this

1 document?

2 A. I have.

3 Q. Okay. So is this -- directing your
4 attention to the June 8th, 2016 email that's at
5 4:29 p.m., is this an email that you wrote?

6 A. That's what it looks like.

7 Q. Any reason to dispute that you wrote it?

8 A. Nope.

9 Q. And you drafted this email as part of your
10 job?

11 A. It seems to be so.

12 Q. And this was shortly after you started at
13 Schein; correct?

14 A. Yes.

15 Q. And so you're asking Nick Barenz to provide
16 you with the member count for active buying groups
17 and CHC buying groups; is that right?

18 A. Yep. That's what it looks like.

19 Q. And this was for -- you're compiling this
20 information for presentation slides for the managers
21 meeting at the NSM?

22 A. That's what the email states.

23 Q. And the NSM, is that the national sales
24 meeting?

25 A. Yes.

1 Q. And so you write that you were listing the
2 known active buying groups and the CHC buying
3 groups; correct?

4 A. That's what it seems.

5 Q. And the buying groups that you listed were
6 Klear Impakt and Breakaway?

7 A. Yes.

8 Q. Okay. And then the other groups that are
9 listed here, are they all CHC buying groups?

10 A. I can't answer that properly. I don't know.
11 I would say some are, but I don't know. That's not
12 my wheelhouse.

13 Q. Okay. But you -- when you drafted this
14 email, it was your understanding that the other
15 groups were CHC BGs?

16 A. From what I can remember, there was this
17 on-boarding snapshot which we just talked about that
18 I get monthly. This ongoing snapshot was being ran
19 prior to me coming to Henry Schein, so the members
20 that I listed here was from that actual on-boarding
21 snapshot at that time.

22 Q. Okay. So this on-boarding snapshot, have
23 you received -- is this a report that you receive?

24 A. We pull it monthly.

25 Q. And has that occurred since you started

1 at Schein?

2 A. Every month.

3 Q. And who pulls it?

4 A. It's pulled by whoever our main analyst is
5 at the time in our Special Markets division in
6 New York.

7 Q. Okay. And is it distributed to other
8 individuals other than just you?

9 A. Yes. It's distributed to Annika Swenson and
10 Brian Brady.

11 Q. Okay. And what types of groups are included
12 in the on-boarding snapshot?

13 A. It's the groups that are managed under the
14 APC division.

15 Q. So are CHCs included on the on-boarding
16 snapshot?

17 A. Not anymore.

18 Q. Okay. But at the time you wrote this email,
19 they were?

20 A. At that time, yes, they were.

21 Q. And at any point since you started at Henry
22 Schein, were you responsible for managing CHCs?

23 A. No, I was not.

24 Q. Okay. So at what point were they taken off
25 the on-boarding report?

1 A. I don't recall the exact time. Probably
2 within the first six months of me on-boarding.

3 Q. Okay. Because you aren't responsible for
4 them, so why would they be on the report. Correct?

5 A. Correct.

6 Q. When -- at what time of the month is the
7 report pulled?

8 A. Usually anywhere from two weeks post the
9 previous month, so the close of the month, usually
10 two weeks into the new month.

11 Q. And so you think that you pulled the
12 information for this email from the May --
13 May 2016's on-boarding snapshot report?

14 A. As I already answered, to the best of my
15 knowledge, that's where I would have gotten this
16 list, because I wouldn't have known otherwise. I
17 wouldn't have just made up this list.

18 MS. GOFF: Okay. You can put that one
19 aside.

20 Okay. I'm handing you another document that
21 was marked as CX2189.

22 (Exhibit CX2189 introduced on the record.)

23 BY MS. GOFF:

24 Q. Have you had a chance to review the
25 document?

1 A. I'm just wrapping up. Another minute,
2 please.

3 Q. Okay.

4 A. I'm finished.

5 Q. Okay. Thank you.

6 So this is an email chain. The latest in
7 time is from you to Michael Herrin and
8 Randall McLemore dated May 10th, 2017, and it's
9 Bates-stamped Henry Schein-001666376.

10 Is this an email that you wrote?

11 A. That's what it looks like.

12 Q. Any reason to dispute that you wrote it?

13 A. Nope.

14 Q. And did you write it in the course of your
15 duties at Henry Schein?

16 A. Yes.

17 Q. And who's Michael Herrin?

18 A. Michael Herrin is a regional manager in the
19 state of Texas.

20 Q. Okay. And so he was asking you about a
21 group called Synergy; is that right?

22 A. Synergy Dental Partners.

23 Q. Okay. And we discussed Synergy today
24 already; correct?

25 A. Yes, we have.

1 Q. So you wrote about Synergy, "This is a TRUE
 2 buying group," and "true" is in all caps, "focused
 3 strictly on discounts and driving buying power."
 4 Do you see that?
 5 A. I do.
 6 Q. And so it was your understanding, as I think
 7 you testified earlier, that Synergy was a price-only
 8 buying group?
 9 A. Correct.
 10 Q. And so why -- and so you did not want to
 11 work with Synergy Dental; correct?
 12 A. So, I mean, can you rephrase that question?
 13 Q. Sure. So you wrote in the next sentence:
 14 "From my initial conversations with their
 15 leadership there was not too much value
 16 they provide aside of aggressive price
 17 cuts and discounts. This is NOT a group
 18 I feel I would make a positive alliance
 19 with." [As read.]
 20 So am I correct in understanding that you
 21 did not want to work with Synergy Dental?
 22 A. From my initial discovery of the group, that
 23 is correct.
 24 Q. At any point did that change?
 25 A. It hasn't yet.

1 Q. Okay. And the reason why you didn't want to
 2 work with them was because they were a true buying
 3 group?
 4 MR. McDONALD: Object to the form.
 5 Misstates her prior testimony.
 6 THE WITNESS: Yeah. I mean, as I testified
 7 earlier, groups that are -- you know, their only
 8 value to their membership is the aggressive
 9 discounts that cannot drive compliance, it's not,
 10 you know, a proper group that I think would be worth
 11 good business or someone that we would want to
 12 partner or align with.
 13 BY MS. GOFF:
 14 Q. So is it possible that such a group might
 15 have members that are not already purchasing from
 16 Schein?
 17 A. We already discussed this earlier. Yeah,
 18 that's a true statement.
 19 Q. And so isn't it true that Schein could
 20 potentially get incremental sales from a price-only
 21 buying group?
 22 MR. McDONALD: Object to the form.
 23 THE WITNESS: As also we've discussed
 24 multiple times is -- yeah.
 25 ///

1 BY MS. GOFF:
 2 Q. So why wouldn't that be a positive
 3 relationship for Henry Schein?
 4 MR. McDONALD: Object to the form.
 5 BY MS. GOFF:
 6 Q. I'm just trying to understand.
 7 MR. McDONALD: Object to the form. Asked
 8 and answered. Tell her again for maybe the third or
 9 fourth time.
 10 THE WITNESS: I've already discussed
 11 multiple times when you have a group that cannot
 12 drive compliance there is no way that we would feel
 13 that we would be able to get any type of incremental
 14 business from their influence at that level due to
 15 them -- the way their membership is structured or
 16 their partnership is structured.
 17 BY MS. GOFF:
 18 Q. And how did you -- so focusing on synergy
 19 specifically, how did you assess that they were not
 20 able to drive compliance?
 21 MR. McDONALD: Object to the form. Asked
 22 and answered.
 23 THE WITNESS: As mentioned earlier today, I
 24 have had multiple calls with their leadership team,
 25 and verbatim told me they do not have influence over

1 the membership. They told me that, which I said
 2 earlier in our discussions.
 3 BY MS. GOFF:
 4 Q. Okay. Is it the case that as a general rule
 5 you don't want to work with what you would consider
 6 true buying groups?
 7 MR. McDONALD: Object to the form.
 8 MR. KASS: Mischaracterizes testimony.
 9 THE WITNESS: So as mentioned many times
 10 today, in my opinion, I don't think it is good
 11 business to align with a group that is only -- that
 12 only offers their members aggressive discounts with
 13 no other value-added services that also cannot drive
 14 compliance or influence.
 15 BY MS. GOFF:
 16 Q. Did you ever meet -- you can put that one
 17 aside.
 18 Did you ever speak with Georgia Dental
 19 Association?
 20 A. Yes.
 21 Q. When was that?
 22 A. I cannot recall the actual date. If I had
 23 to say a timeframe, I would say anywhere from
 24 June 2016 to spring of 2017.
 25 Q. And who did you speak with at Georgia

1 Dental?

2 A. An individual named Frank.

3 Q. Do you recall his last name?

4 A. I do not.

5 Q. Was it Capaldo?

6 A. That sounds correct.

7 Q. And did you -- and was that conversation
8 regarding Schein potentially working with GDA?

9 A. We had a discovery, exploratory discussion
10 so I could better understand what he was trying to
11 put together.

12 Q. And what was the result of that discussion?

13 A. We just -- we -- I think we had a couple
14 discussions and never formalized anything.

15 Q. Why not?

16 MR. McDONALD: Object to the form.

17 THE WITNESS: Again, the best that I can
18 recall -- that was close to two years ago -- I just
19 didn't think that they had a model that would make
20 proper sense for us from the conversations that we
21 did have. I also felt that it was very unorganized
22 and there was nothing that they were going to be
23 able to do to really drive compliance with the
24 direction they were going.

25 ///

1 BY MS. GOFF:

2 Q. And so what specifically did Mr. Capaldo
3 tell you that gave you the impression that they
4 could not drive compliance?

5 A. That they were going to be working with
6 multiple manufacturer partners or distribution
7 partners.

8 Q. Okay. So it would not be an exclusive
9 relationship?

10 A. From what I recall, that was my
11 understanding.

12 Q. Okay. And so because it was not an
13 exclusive relationship, you felt that they could not
14 drive compliance?

15 A. I just think --

16 MR. McDONALD: Object to the form.

17 THE WITNESS: In my opinion, I just think
18 that's very challenging. It completely muddies --
19 muddies the message of driving any type of
20 compliance through members. I don't know how you
21 can have half of your members going through one
22 distribution partner and half going through another.

23 BY MS. GOFF:

24 Q. And did Mr. Capaldo tell you anything else
25 about GDA that gave you the impression that they

1 could not drive compliance?

2 A. Again, this conversation happened two years
3 ago. I do not recall the details of that
4 conversation. I just know that after our
5 discussions I did not feel that this was a
6 partnership that made great business sense to me.

7 Q. And did you document anywhere why you felt
8 that it was not a good business partnership for you?

9 A. To what I can recall, I don't think I
10 actually wrote anything that said, "I don't want to
11 do business with this individual," or, "I don't see
12 it viable." Again, that's the best I can recall.
13 This was two years ago. I'm sure I wrote down notes
14 on something, but I don't know if it specifically
15 outlined why.

16 Q. Do you know whether you have those notes
17 today?

18 A. I would assume I have them in one of my
19 notebooks.

20 Q. Is it your practice to maintain those notes?

21 A. When I have calls, exploratory calls with
22 people, I will always jot down notes.

23 Q. And you maintain them?

24 A. For the most part, yes.

25 MS. GOFF: I am going to hand you an exhibit

1 that was marked as CX2179.

2 (Exhibit CX2179 introduced on the record.)

3 BY MS. GOFF:

4 Q. Have you had a chance to review this
5 document?

6 A. I'm just wrapping up. I'm finished.

7 Q. Okay. So this is a document with the Bates
8 stamp Henry Schein-001670472. The latest email in
9 time is from you to Ted Dreifuss, and it's dated
10 July 29th, 2016, and the subject is "Mari's List
11 Buying Group." Do you see that?

12 A. I do.

13 Q. Did you write this email?

14 A. I did.

15 Q. And did you write it in the course of your
16 duties at Henry Schein?

17 A. I did.

18 Q. Who is Ted Dreifuss?

19 A. I believe he is -- I don't know his exact
20 title, but I believe he's high-up top leadership,
21 corporate, some level VP or above, of Henry Schein
22 Ortho.

23 Q. Okay. And so in the earlier emails in the
24 chain, it looks like Joe Cavaretta asked you to look
25 into Mari's List; is that right?

1 A. That's what it looks like.
 2 Q. And at this point, July 2016, was
 3 Mr. Cavaretta your boss?
 4 A. No, not yet.
 5 Q. Okay. Did you take direction from Joe at
 6 this point?
 7 A. I did not.
 8 Q. But he asked you to look into it, and you
 9 did?
 10 A. Yeah.
 11 Q. And you wrote in your email to Joe,
 12 "Interesting BG." That stands for "buying group"?
 13 A. Yes, it does.
 14 Q. Okay. So is Mari's List a buying group?
 15 A. Yeah. I had just started, so, yes, that's
 16 what I was referring to them. As you can tell, I
 17 did not do much research. I just pulled stuff off
 18 online. So in this email I was referring to them as
 19 just a buying group.
 20 Q. Do you know, sitting here today, anything
 21 more about Mari's List?
 22 A. Mari and I have had a couple of calls to
 23 better understand her model and to see if this was a
 24 potential partner we were interested in playing
 25 with.

1 there any kind of informal partnership with Mari's
 2 List?
 3 A. We had a relationship, and as you state, it
 4 wasn't formal. She reached out to us to see if we
 5 would be interested in offering her members a
 6 discount on an M11, which is, like, a sterilizer
 7 unit, for her members. She said that she had some
 8 that were really interested in it if we could get an
 9 aggressive price, if we would be interested if she
 10 could get enough members to make a purchase.
 11 Q. And did you end up offering a discount on
 12 that particular product?
 13 A. I worked with Scott Graversen and
 14 Rob Hulick, who manage our equipment.
 15 Scott Graversen, again, Special Markets; Rob Hulick
 16 was on the private practice side for equipment.
 17 And, yeah, I worked with them to get this program
 18 launched.
 19 Q. And so why did it make sense from a business
 20 standpoint for you to offer a discount on the M11 to
 21 Mari's List members?
 22 A. Mari told us that she would be able to get
 23 many members, probably over 20, to purchase this
 24 unit sterilizer M11 if we were able to get it down
 25 to an appropriate price. And we figured let's try

1 Q. And what was the result of those calls?
 2 A. Confirmed a lot of what's on here. They are
 3 heavily focused on the ortho specialist, and she
 4 works with a handful of manufacturing partners as
 5 well as other distribution partners. And, again,
 6 it's -- her, I think, main claim to fame -- she
 7 offers some other type of services, but -- is the
 8 low-cost, aggressive discounts that these vendors
 9 would be able to provide to her membership.
 10 Q. So was Mari's List a group that you wanted
 11 to work with?
 12 A. After vetting them out, it sounded like she
 13 had a -- kind of an already full breadth of
 14 manufacturer partners and distributor partners that
 15 they were already aligned with, and I didn't see
 16 value or business sense of formalizing any type of a
 17 partnership with her members or her group.
 18 Q. Okay. And so did you recommend that Schein
 19 not do business with Mari's List?
 20 A. Yeah. I talked to our upper leadership and
 21 told them that I just don't feel that this is a
 22 group that makes much business sense.
 23 Q. You mentioned that you didn't think it made
 24 sense, business sense, to formalize any type of
 25 partnership with the members of that group. Is

1 it. Let's see if it works and if it makes business
 2 sense.
 3 Q. And did it work?
 4 A. She was not able to bring us as much
 5 business as she told us she probably would. I do
 6 not recall how many units were actually sold through
 7 that small-lived promotion that we did for her or
 8 her members.
 9 I do know from talking with Rob Hulick and
 10 Scott Graversen -- we debriefed after this promotion
 11 was over -- that it did take a lot of hard work and
 12 heavy lifting internally to execute on it, and we
 13 just didn't feel that it was worth the heavy lifting
 14 for the outcome.
 15 Q. And have you done any similar type of
 16 informal discounting for buying group organizations?
 17 A. Not to my knowledge.
 18 Q. Okay. And did the program end?
 19 A. Yes. It was for a limited time. Again, I
 20 don't recall how long that was. I remember that we
 21 did put this promotion -- this one-time promotion
 22 centered around the AAO meeting, which is the large
 23 annual orthodontic meeting, so it was going to be
 24 also a show special that she could pitch it to her
 25 members at the ortho meeting. But it was a limited

1 time, and I don't remember how long it was for.

2 Q. So at the time that you negotiated with
3 Mari, you set up a time limit for -- like, the
4 discount expired at some point?

5 A. Correct.

6 Q. Okay. Turning to your -- the latest-in-time
7 email at the top, you forwarded, it looks like, your
8 email from -- to Joe Cavaretta to Ted Dreifuss; is
9 that right?

10 A. That's what it looks like, yes.

11 Q. And you asked him whether he had heard of
12 Mari's List, and you said, "I was told about this BG
13 from FSCs in Nevada. Apparently they lost a pretty
14 good-size account due to them joining Mari's List."

15 Do you see that?

16 A. I do.

17 Q. Have you -- so is it your understanding that
18 Schein lost a customer due to them joining Mari's
19 List?

20 A. From -- from just the contents of this email
21 and what was told to me by the FSC and the regional
22 manager on here, that's what it seems.

23 Q. Okay. And Mari's List, you wrote in the
24 next sentence, was "partnered with Darby and Benco";
25 is that right?

1 A. No, we did not.

2 Q. Do you know who are Schein's competitors for
3 buying group relationships?

4 MR. McDONALD: Object to the form. Vague as
5 to time.

6 THE WITNESS: Can you repeat that.

7 BY MS. GOFF:

8 Q. Sure. In your current job do you compete
9 with other entities for buying group relationships?

10 A. Let me rephrase. Are you asking: Today
11 does Henry Schein compete against buying groups that
12 we are not aligned with?

13 Q. No. I'm asking: Are there other companies
14 that pitch these buying groups, that they want to
15 work with these buying groups as well in addition to
16 Schein, and you and these other groups are competing
17 to win the buying group business?

18 A. To the best of my knowledge, yes, on certain
19 cases.

20 Q. And can you name some of those competitors?

21 A. Of who would be up for the same --

22 Q. Buying group business.

23 A. -- buying group business?

24 From my knowledge and the experience within
25 this APC division, for most groups that I am

1 A. That's what it says.

2 Q. And is it your understanding that that's
3 accurate?

4 A. To the best of my knowledge, that is -- to
5 the best of my knowledge, that is what I believe to
6 still be true.

7 Q. Okay. And so Schein lost business due to a
8 customer going to Mari's List, which was supplied by
9 a competitor?

10 A. That's, again, I guess, what it looks like.

11 Q. Any reason to dispute that?

12 A. Nope.

13 Q. And did Schein want to compete for that lost
14 business?

15 A. That's -- I mean, that's a very broad
16 statement. Yes, anytime we lose business, I think
17 we will always do whatever we can to compete to try
18 to get that business back.

19 Q. Okay. What did Schein do to try to get the
20 business that it lost in Nevada back?

21 A. In this instance?

22 Q. Yeah.

23 A. I don't know.

24 Q. Okay. But Schein then never partnered with
25 Mari's List in a formalized way, as you said before?

1 speaking with, usually it is Darby. They usually
2 are already working with that group or they're
3 competing against us to win that group's
4 endorsement.

5 Q. Okay. What about Benco?

6 A. I've heard their name a few times as well.

7 Q. And Patterson?

8 A. I have heard their name a few times as well,
9 but I will say I've not heard their name come up as
10 much as a Darby or Benco or a Burkhardt.

11 Q. Okay. Do you have an understanding of
12 whether Patterson partners with buying groups?

13 MR. McDONALD: Object to the form. Lack of
14 foundation.

15 THE WITNESS: Yeah, I wouldn't -- I wouldn't
16 know that.

17 BY MS. GOFF:

18 Q. You don't have any understanding?

19 A. I don't.

20 Q. Okay. And do you have an understanding of
21 whether Benco partners with buying groups?

22 MR. McDONALD: Object to the form. Lack of
23 foundation.

24 THE WITNESS: Again, I don't know. From,
25 you know, group-to-group research when I'm looking

1 into these, sometimes their name is there. Like in
2 this exhibit right here, it shows that Mari's
3 aligned with Benco and Darby, so Benco obviously
4 plays with Mari's List.

5 BY MS. GOFF:

6 Q. Got you.

7 And is it important for you to have an
8 understanding of what your competitors are doing
9 with regard to buying groups to do your job?

10 MR. McDONALD: Object to the form.

11 THE WITNESS: No.

12 BY MS. GOFF:

13 Q. Why not?

14 A. Because a lot of our competitors are not
15 offering what we offer. Again, we are a
16 full-service, national-footprinted distribution
17 partner. So, to me, it doesn't really bother or I
18 don't need any understanding of how these groups are
19 working with some of these other -- or how some of
20 these distribution companies are working with these
21 groups today.

22 Q. Do you ever go up against manufacturers to
23 earn buying group relationships?

24 A. In my experience in this role, I have yet to
25 go head-to-head with any type of direct

1 manufacturer.

2 Q. Would you potentially want to go after
3 buying group business that one of your competitors
4 has won?

5 MR. McDONALD: Object to the form.

6 THE WITNESS: That's a broad statement. I
7 don't think that would be my target audience. If
8 they're already aligned with a distribution partner,
9 that's probably not the first groups that I would go
10 after to see if we could work on a relationship. I
11 would go off what I would call low-hanging fruit and
12 try to align with a group that is currently not
13 working with any distribution partner at that time.

14 BY MS. GOFF:

15 Q. And why wouldn't you want to go after one
16 that was already working with a distribution
17 partner?

18 A. I didn't say I wouldn't. That's just not my
19 target audience. That probably wouldn't be the
20 first group that I would go after.

21 Q. It's not your priority?

22 A. Correct.

23 Q. Why not?

24 MR. McDONALD: Object to the form.

25 THE WITNESS: As I just said, they're

1 already aligned and have an established relationship
2 with our competitor.

3 BY MS. GOFF:

4 Q. So -- but isn't it possible that Schein
5 could win incremental business by, you know, taking
6 a buying group business from your competitor and
7 bringing it over to Schein?

8 A. Yeah. Absolutely. Again, it's just I would
9 rather go after a group that is not aligned or does
10 not have an actual signed contract with another
11 distribution company.

12 Q. Is that just because you think it would be
13 an easier win, an easier group to get onboard at
14 Schein?

15 A. Yeah. I would say that's probably accurate.
16 I think it's much easier to get a group to drive
17 compliance and increase incremental business with a
18 group of doctors that are not currently aligned or
19 partnered or endorsed by any other type of APC or
20 buying group rather than align with a buying group
21 that was already working with one of our competitors
22 and then having to get them to switch from working
23 with that distribution partner that they have
24 endorsed for so long and say, "Never mind. We were
25 kidding. Schein's a better company. Now I'll go

1 work with Schein." I'm not saying it wouldn't
2 happen and we -- it wouldn't make profitable
3 business sense. That's just not the direction that
4 I would go at this point in time.

5 Q. And has anyone given you direction on that,
6 or is that just your personal opinion?

7 A. That's my personal opinion.

8 Q. Okay. Do you have an understanding of
9 whether competition for buying group business is the
10 same as competition for private practice dental
11 business?

12 MR. McDONALD: Object to the form. Lack of
13 foundation.

14 THE WITNESS: Can you be a little bit more
15 specific with your question, please.

16 BY MS. GOFF:

17 Q. Yeah. In private -- do you have an
18 understanding of who Schein's competitors are for
19 private practice dentist business?

20 MR. McDONALD: Object to the form. Lack of
21 foundation.

22 THE WITNESS: So, I mean, again, I would
23 call -- any private practice customer that we're not
24 getting 80 percent or more of their business, I
25 would call it they're working probably with one of

1 our competitors, and every day we will work at the
2 local level with our field sales team to try to win
3 a majority of their business.

4 BY MS. GOFF:

5 Q. So Schein always wants to win the majority
6 of business from any customer?

7 A. Always.

8 Q. Whether that's an individual dentist or a
9 buying group?

10 A. Correct.

11 MS. GOFF: Okay. I have another document to
12 show you. It's been marked as CX2172.

13 (Exhibit CX2172 introduced on the record.)

14 MR. McDONALD: Okay.

15 Karen, this is a really long email. She's
16 already talked about this M11 situation. Do you
17 want to direct her to something to speed this along?

18 MS. GOFF: Oh, yes. Sure. Thank you for
19 pointing that out. Sure.

20 BY MS. GOFF:

21 Q. The email that I'm going to be referring you
22 to is CX2172-002 to 003. It's an August 24th, 2016
23 email, and it starts "Hi, Scott and Team." It's
24 from you. And, for the record, the beginning Bates
25 number of this document is Henry Schein-000162811.

1 Have you had a chance to review?

2 A. Yes.

3 Q. So this is an email chain, again, referring
4 to about Mari's List; correct?

5 A. Yes.

6 Q. And so in this August 24th, 2016 email at
7 12:01 p.m., you are writing to Scott and team, and I
8 think you're responding to an email from
9 Scott Graversen. Does that look correct to you?

10 A. I don't know which -- I can't find the
11 12:01. I thought you told us to look at 002 and
12 003.

13 Q. Yeah, I did.

14 A. And I'm not seeing the proper --

15 Q. It's at the very bottom of 002.

16 A. Oh, there it is. Sorry. I didn't see that.
17 Yes.

18 Q. Okay. So I think you're responding to
19 Scott Graversen. Does that look right to you?

20 A. Correct.

21 Q. And you wrote that "We have an opportunity
22 to win some equipment business with this buying
23 group." And I believe you're referring to Mari's
24 List; is that right?

25 A. From reading this email just now, that's

1 what it appears to be.

2 Q. Okay. And you say:

3 "And at the very least win referral
4 business from Mari's List members which
5 Benco can't fulfill when it comes to region
6 support, or equipment needs."

7 And you go on to say:

8 "At this point it is still too soon to
9 know if this would be a positive
10 relationship for us to align with.

11 Definitely don't want to cannibalize
12 existing business."

13 Do you see that?

14 A. I do.

15 Q. So is it -- you're expressing in this email
16 that you did not want to cannibalize existing
17 business by partnering with Mari's List?

18 A. I don't know what I was meaning in this
19 email when it was written. All I can tell you is we
20 were still going through a vetting process and
21 discovery, so I don't...

22 Q. So talking about the not wanting to
23 cannibalize existing business in this email, you
24 don't have an understanding of what you meant when
25 you wrote that?

1 A. I would assume at that time what I was
2 meaning is I was aware of some business that Mari's
3 List already had that was our business, and we
4 didn't want to lower discounts on the business we
5 were already getting.

6 Q. Okay. And that assumption is based on your
7 understanding of what you wrote in this email,
8 sitting here today?

9 A. Correct.

10 Q. It's your understanding of the term
11 "cannibalize" in this email is that you didn't want
12 to offer lower discounts to business you were
13 already getting?

14 A. That seems to be the case in this email,
15 yes.

16 Q. Okay. And meaning that Schein's profit
17 margins would decline on that existing business?

18 A. If we lower pricing on products that we were
19 already getting, yes, that's what would probably
20 happen.

21 Q. Okay. You can put that one aside.

22 Do you know of an internal code "BG"? I
23 think it's a field within the Henry Schein Dental
24 system.

25 A. Yeah, I'm very aware of it.

1 Q. Were you involved in the creation of that
 2 code?
 3 A. That's a very broad question.
 4 Q. Let me -- then let me ask a different
 5 question. Do you know when that particular code was
 6 first -- started being used at Henry Schein?
 7 A. I do not.
 8 Q. Was it before your arrival?
 9 A. Unknown. I don't know.
 10 Q. So you don't know whether the BG code was
 11 used before you started at Schein?
 12 A. I do not know. I am not confident.
 13 Q. Okay.
 14 A. I can say with confidence that BG code has
 15 been heavily used since this division started, but I
 16 do not know for sure if that BG code was used before
 17 or after my -- I came on with Schein. I don't -- I
 18 do not know.
 19 Q. Do you know who would know the answer to
 20 that question?
 21 A. Brian Brady.
 22 Q. Going back to Klear Impakt, that
 23 relationship started before your arrival at Schein;
 24 correct?
 25 A. That is correct.

1 whose decision it was?
 2 A. I don't know everyone that was involved. I
 3 am confident that this relationship was managed by
 4 Kathleen Titus.
 5 Q. Okay. And do you have any understanding of
 6 when Schein started doing business with Klear
 7 Impakt?
 8 A. I believe I answered that earlier today. I
 9 don't know the exact dates, but I do believe it was
 10 close to the time that I was on-boarding. But
 11 I'm -- again, I'm not certain of the actual
 12 timeframe.
 13 Q. Okay. Were you involved in negotiating a
 14 PVA with Klear Impakt?
 15 A. I was not.
 16 Q. Who -- who was involved?
 17 MR. McDONALD: Object to form.
 18 BY MS. GOFF:
 19 Q. Was that Kathleen Titus as well?
 20 A. Again --
 21 MR. McDONALD: Hang on.
 22 Object to the form. Lack of foundation.
 23 THE WITNESS: Again, this was before my
 24 time. I am not aware of the specifics and what was
 25 discussed in those initial partnership discussions.

1 Q. And do you have any understanding of why
 2 Schein started doing business with Klear Impakt?
 3 A. I was not --
 4 MR. McDONALD: Hang on.
 5 Object to form. Lack of foundation.
 6 Go ahead.
 7 THE WITNESS: I was not involved in any of
 8 those discussions or partnership discussions,
 9 discovery, so I do not know the foundational
 10 elements of what was discussed by the people that
 11 put that agreement together of what their exact
 12 reasons were for aligning with Klear Impakt.
 13 BY MS. GOFF:
 14 Q. Okay. And so do you have any understanding
 15 of what any of the reasons were why Schein aligned
 16 with Klear Impakt?
 17 MR. McDONALD: Object to the form. Lack of
 18 foundation.
 19 THE WITNESS: I just answered that.
 20 BY MS. GOFF:
 21 Q. Well, you said you don't know what the exact
 22 reasons were, so I wanted to just make sure that you
 23 just didn't -- you don't know any reasons.
 24 A. I don't know the reasons why.
 25 Q. Okay. And do you have any understanding of

1 Kathleen Titus was the account manager or the
 2 individual managing and fostering the Klear Impakt
 3 relationship.
 4 BY MS. GOFF:
 5 Q. Okay. Earlier we talked about the Henry
 6 Schein Connection Program. Do you know -- is
 7 that -- am I correct in understanding that that's a
 8 program that's offered to individual private
 9 practice dentists?
 10 A. That's correct.
 11 Q. And do you know -- I know you said that
 12 there's three levels. Do you know what the
 13 percentage off catalog are for each of the three
 14 levels?
 15 MR. McDONALD: Object to the form. Vague as
 16 to time.
 17 THE WITNESS: Without having a document in
 18 front of me, I would have to guess. I know the top
 19 tier is 12 percent off non-formulary for the
 20 non-formulary items. I do not know the actual
 21 discount percentages. Again, I already said it's a
 22 blended discount within -- in contract formulary
 23 items, and I don't know what that is because it's
 24 different for every item within formulary.
 25 ///

1 BY MS. GOFF:

2 Q. When you said the top-level discount is
3 12 percent, is that -- are you saying that that's
4 the best discount that a private practitioner can
5 get?

6 A. So there's three levels, as stated, in the
7 Connections program with Schein. There is Level 1,
8 2 and 3. Level 3, as I've already stated multiple
9 times, is the top tier level where it gives the best
10 discounts off formulary. The off-formulary discount
11 is 12 percent.

12 Q. Thank you.

13 And is that -- got you.

14 And then for the on-formulary discount, it
15 just depends on the product?

16 A. Correct.

17 Q. But there is presumably a list somewhere of
18 all of the discounts offered in all of the various
19 levels for the Connection Program?

20 A. That would be correct.

21 MR. McDONALD: Object to the form.

22 THE WITNESS: That would be correct. It
23 would be managed under whoever our pricing analytics
24 managers are in New York.

25 ///

1 BY MS. GOFF:

2 Q. Do you know, is the Connection Program
3 offered to all dentists that Schein works with?

4 A. I'm not knowledg- --

5 MR. McDONALD: Hang on.

6 Object to the form. Lack of foundation.

7 THE WITNESS: I'm not knowledgeable of that.
8 I can tell you with confidence the Connections
9 Program, as I stated multiple times today, was
10 created for the private practice dentist.

11 BY MS. GOFF:

12 Q. Okay. But you don't know whether the
13 Connection Program is offered to all of the dentists
14 that Schein works with?

15 A. Correct.

16 Q. And you don't know, then, what a dentist
17 needs to do to become -- to have the Connection
18 Program discounts available to him or her?

19 A. They would work with their FSCs to get onto
20 that formulary pricing plan and enroll in the
21 Connections Program.

22 MS. GOFF: I would like to take a break. I
23 may have a few more questions, but I think that,
24 from our perspective, we are going to be able to
25 wrap up soon.

1 THE WITNESS: Great.

2 (Off the record.)

3 MS. GOFF: Back on the record.

4 So I don't have any more questions for you
5 at this time. I would like to reserve my time for
6 rebuttal if your counsel or anyone on the phone has
7 questions.

8 MR. McDONALD: Someone on the phone?

9 MR. FLAHERTY: This is Scott Flaherty. I
10 have no questions.

11 EXAMINATION

12 BY MR. YOON:

13 Q. Miss Wingard, my name is Eric Yoon. I
14 represent Benco. I only have a few questions for
15 you.

16 But before getting to them, just one
17 clarification question for you. I think you've
18 answered it previously, but for purposes of having a
19 clean record, I'm going to ask it again. You
20 yourself do not know, as a matter of fact, whether
21 or not Benco does or does not do business with
22 buying groups; correct?

23 A. Correct.

24 Q. Have you talked to anyone at Benco about
25

1 agreeing not to doing business with any APC or
2 buying groups?

3 A. No.

4 Q. Are you aware of any agreement between
5 Schein and Benco not to do business with any APC or
6 buying group?

7 A. No.

8 Q. You testified that for business reasons
9 Schein has sometimes chosen not to do business with
10 certain APC or buying groups. In such instances,
11 did Benco have any influence on Schein's decision?

12 A. No, not to my knowledge.

13 MR. YOON: That's all the questions I have.
14 Thank you.

15 THE WITNESS: Thank you.

16 MR. McDONALD: I have no questions. Thank
17 you.

18 MS. GOFF: Okay. I don't have any
19 follow-up, so I think we can close the deposition.
20 (Ending time: 4:11 p.m.)

1 I, JANIS JENNINGS, CSR No. 3942, Certified
2 Shorthand Reporter, certify:

3 That the foregoing proceedings were taken
4 before me at the time and place therein set forth, at
5 which time the witness was duly sworn by me;

6 That the testimony of the witness, the
7 questions propounded, and all objections and statements
8 made at the time of the examination were recorded
9 stenographically by me and were thereafter transcribed;

10 That the foregoing pages contain a full, true
11 and accurate record of all proceedings and testimony.

12 Pursuant to F.R.C.P. 30(e)(2) before
13 completion of the proceedings, review of the transcript
14 [x] was [] was not requested.

15 I further certify that I am not a relative or
16 employee of any attorney of the parties, nor financially
17 interested in the action.

18 I declare under penalty of perjury under the
19 laws of California that the foregoing is true and
20 correct.

21 Dated this 10th day of July 2018.

ERRATA SHEET

DEPOSITION OF: Darci Wingard

DATE DEPOSITION: June 27, 2018

CASE NAME: In the Matter of Benco Dental, Inc., et al., Docket No. D09379

The following are the corrections which I have made to my transcript:

PAGE	LINE #	CORRECTION	REASON FOR CORRECTION
14	7	Change "my direct report" to "who I reported to"	Clarification
14	10-11	Change "I needed a direct report which was a better direct report" to "I should report to Joe Cavaretta"	Clarification
28	4	Change "Uh-huh" to "Yes"	Clarification
74	23	Change "was" to "were"	Typographical error
80	13	Change "is" to "was"	Typographical error
101	21	Change "limit" to "element"	Typographical error
105	3	Change "this binder structure" to "a buying group structure"	Typographical error
105	6	Change "back Special Markets" to "back that Special Markets"	Typographical error
118	25	Change "with" to "about"	Typographical error/clarification
137	17	Change "anyone" to "any group"	Typographical error/clarification
151	22	Change "perk" to "meet"	Clarification
184	6	Change "that we'll get." to "that they will get."	Clarification
205	7-8	Change "look and lean to Teeth Tomorrow on leadership of" to "look to and lean on Teeth Tomorrow leadership for"	Typographical error/clarification
207	4	Change "ran" to "run"	Typographical error
219	11	Change "good business" to "doing business with"	Typographical error/clarification
220	25	Change "verbatim told me" to "verbatim they told me"	Typographical error/clarification
224	12	Change "it viable." to "it as viable."	Typographical error

I, Darci Wingard, declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

EXECUTED this 2nd day of August, 2018.

at Dublin, CA.

4
5 KATHLEEN TITUS,
6 having been duly sworn, testified as follows:
7 EXAMINATION
8 BY MS. GOFF:
9 Q Good morning, Ms. Titus. My name is
10 Karen Goff. I am an attorney with the Federal
11 Trade Commission. With me here today is
12 Michelle Lee, who's an intern at the Federal
13 Trade Commission. I expect that my colleague,
14 Ronnie Solomon, will join us shortly.
15 MS. GOFF: If I could just have all of
16 the counsel state their appearance for the
17 record, please.
18 MR. McDONALD: John McDonald with
19 Locke Lord on behalf of Henry Schein and the
20 witness.
21 MR. KASS: Colin Kass from Proskauer
22 Rose Henry Schein.
23 MR. FLAHERTY: Scott Flaherty with
24 Briggs & Morgan for Patterson companies.
25 MS. GOFF: Counsel on the phone?

1 MR. MANNING: Yes, Thomas Manning from
2 Buchanan Ingersoll & Rooney for Benco Dental
3 Supply.
4 MS. GOFF: Anyone else on the phone?
5 Okay. Thank you.
6 BY MS. GOFF:
7 Q Ms. Titus, have you ever given sworn
8 testimony before?
9 A No.
10 Q So I would just like to go over a few
11 ground rules.
12 A Sure.
13 Q I'll be asking you a series of
14 questions and you will be providing me with the
15 answers. As you can see, the court reporter is
16 recording all that we say here today. Because
17 she can only record our words, please be sure to
18 answer each question with a verbal response.
19 Please don't shake your head or say m-hm or
20 anything like that. Do you understand?
21 A I do.
22 Q And it is helpful if you allow me to
23 finish my question before you start your answer
24 and I'll also try to let you finish your answer
25 before I start my next question.

Page 10

1 Do you understand?

2 A I do.

3 Q If at any time you do not understand a

4 question, please let me know and I will attempt

5 to rephrase, okay?

6 A Thank you.

7 Q If you need a break at any time,

8 please let me know and we can take one.

9 A Thank you.

10 Q Okay. So today we're going to be

11 talking about Henry Schein, the organization,

12 and as I understand it, Henry Schein has a

13 medical, a dental, a veterinarian division. And

14 today we're only going to be talking about the

15 dental business. Do you understand that?

16 A I do.

17 Q Am I correct that you worked at Henry

18 Schein since 1994?

19 A Yes.

20 Q So I just want to run through your

21 work history at Schein. I understand that

22 you've probably had several different positions.

23 So if we could start with your current position

24 and then we'll work backwards in time.

25 So what is your current position?

Page 12

1 Mr. Cavaretta in your current position?

2 A Until 2017, December.

3 Q Okay. So it was about May 2014 to

4 December 2017 that you reported to

5 Mr. Cavaretta?

6 A Correct.

7 Q Then you started reporting to

8 Mr. Brady?

9 A Correct.

10 Q Do you have any understanding of why

11 you currently report to Mr. Brady and previously

12 you reported to Mr. Cavaretta?

13 A I do.

14 Q What is your understanding?

15 A My understanding is Mr. Cavaretta

16 accepted a position as vice president of the

17 eastern area for Henry Schein Dental. Formerly

18 he was in the west and a new vice president of

19 special markets, Jake Meadows, stepped into

20 play. A reorganization.

21 Q Understood. So when you said a new

22 vice president of special markets, Jake Meadows,

23 stepped into play, are you saying that

24 Mr. Meadows became the vice president of special

25 markets?

Page 11

1 A Currently I'm director of group

2 practice for the western area of the United

3 States.

4 Q Okay. And how long have you been in

5 that position?

6 A Four years.

7 Q So did you start in that position in

8 roughly 2014?

9 A Correct.

10 Q What month in 2014?

11 A May.

12 Q And who do you report to?

13 MR. McDONALD: Currently?

14 MS. GOFF: Yes.

15 A Brian Brady.

16 BY MS. GOFF:

17 Q Have you reported to Mr. Brady the

18 entire that you've been in your current

19 position, director of group practice for the

20 western area?

21 A I have not.

22 Q Did you report to Mr. Cavaretta before

23 that?

24 A Correct.

25 Q At what point did you report to

Page 13

1 A Correct.

2 Q And what is Mr. Brady's position?

3 A Senior director of group practice.

4 Q And is he in charge of group practice

5 for the entire country?

6 A He is, yes.

7 Q And so you're in charge of group

8 practice for the western area. Is there someone

9 who's in your same position for the eastern

10 area?

11 A There is.

12 Q Who is that?

13 A Marcy Roy.

14 Q Is your current position within Henry

15 Schein Dental or special markets?

16 A As of January 2018, special markets.

17 Q Prior to that, it was with Henry

18 Schein Dental?

19 A Correct.

20 MR. McDONALD: Well, object to the

21 form. To be clear, for a period of time she

22 was Henry Schein Dental.

23 THE WITNESS: Can I clarify?

24 BY MS. GOFF:

25 Q Sure, please do.

1 A In 2014 I transferred from special
 2 markets to Henry Schein Dental to accept the
 3 directorship.
 4 Q And was that in May of 2014?
 5 A Approximately.
 6 Q Was there a period of time before you
 7 transferred that -- before you officially
 8 transferred that you were working for Henry
 9 Schein Dental?
 10 MR. McDONALD: Object to the form,
 11 vague.
 12 BY MS. GOFF:
 13 Q I can rephrase the question.
 14 So you transferred in May of 2014 from
 15 special markets to Henry Schein Dental; correct?
 16 A Correct.
 17 Q Was there a period leading up to that
 18 May 2014 transfer that you were doing some work
 19 for Henry Schein Dental even though you were
 20 technically within special markets?
 21 A That's difficult to define because our
 22 businesses do overlap to some degree.
 23 Q Okay. When did you -- okay. So let's
 24 go to your prior position before May of 2014.
 25 What was your role then?

1 markets?
 2 A I'm not sure.
 3 Q Can you give me an approximate time
 4 frame?
 5 A I can't.
 6 Q Was it for many years?
 7 A Less than five.
 8 Q Okay. So some time in -- in or around
 9 2010 to 2014, is that when you were reporting to
 10 Mr. Randy Foley?
 11 A I would be guessing as to when he
 12 stepped into his role.
 13 Q Okay. Can you -- what was the role
 14 that you're referring to?
 15 A He was the national director of sales
 16 or vice president of sales.
 17 Q And when Mr. Foley stepped into that
 18 role, that's when you began reporting for him?
 19 A Correct.
 20 Q And then was there a time -- so you
 21 were within special markets for 15 years, then
 22 you were transferred to Henry Schein Dental.
 23 Before you were within special markets, what was
 24 your role before that?
 25 A I was a field sales consultant for

1 A I was the zone manager for special
 2 markets.
 3 Q Was that a national position or was it
 4 for a particular area?
 5 A For regional.
 6 Q Which region?
 7 A Western.
 8 Q How long were you in that position?
 9 A Fifteen years.
 10 Q So did you start in that position in
 11 the late '90s?
 12 A Correct.
 13 Q And when you were transferred from
 14 Henry Schein Dental to special markets,
 15 immediately prior to the transfer who was your
 16 supervisor?
 17 A Matt Maceri.
 18 Q Sorry, let me rephrase my question. I
 19 meant to ask you, when you were transferred from
 20 special markets to Henry Schein Dental in May of
 21 2014, immediately prior to that transfer who was
 22 your supervisor?
 23 A Randy Foley.
 24 Q Thank you. And how long did you work
 25 for Mr. Foley as zone manager of special

1 Henry Schein Dental.
 2 Q So you started your career in HSD,
 3 then you switched to special markets, then you
 4 went back to HSD. And as I understand it,
 5 you've recently switched back to special
 6 markets?
 7 A Correct.
 8 Q Okay. And when I say HSD, do you
 9 understand that I mean Henry Schein Dental?
 10 A I do.
 11 Q So let's talk about your duties and
 12 responsibilities when you were the director of
 13 group practice for the western area, which I
 14 understand is your current position?
 15 A Correct.
 16 Q First of all, when you were recently
 17 transferred back to special markets, have your
 18 duties and responsibilities changed at all?
 19 A They have.
 20 Q In what way have they changed?
 21 A One of our business units was assigned
 22 to a new director.
 23 Q What business unit is that?
 24 A Community health centers.
 25 Q Okay. So you're no longer responsible

1 for community health centers?

2 A Correct.

3 Q Who were they assigned to?

4 A We created a position with salespeople
5 that covered the United States and were
6 collaboratively with HSD and they report to Pam
7 Reece.

8 Q Other than that change, are your
9 duties and responsibilities as director of group
10 practice for the western area generally the same
11 as your current position?

12 A Generally.

13 Q So from May of 2014 to the present,
14 can you just tell me generally what your duties
15 and responsibilities are or were at Henry
16 Schein?

17 A From 2014?

18 Q Yes.

19 A To?

20 Q To the present.

21 A Okay. Knowing there is a change in
22 2018, so 2014 I had responsibility for the
23 western area community health centers, our
24 business unit, vocational schools and hygiene
25 schools, and group practice from three to 30

1 locations.

2 In 2018 we changed the size of the
3 group practice from three to 99.

4 Q Okay. Thank you.

5 You're referring to dental locations?

6 A Correct.

7 Q And so you were responsible for CHC's
8 vocational schools, hygiene schools and group
9 practice all within the western area?

10 A Correct.

11 Q How do you define group practice? Is
12 it anything beyond the number of locations?

13 A That's the identifier, three locations
14 or more.

15 Q So it's any type of organization that
16 has three or more locations, any type of
17 dental --

18 A Any type of dental office, yes.

19 Q And then prior to May of 2014, in your
20 previous position as zone manager in special
21 markets, can you tell me generally your duties
22 and responsibilities in that position?

23 A In addition to everything I had
24 responsibility in 2014, I also had
25 responsibility for national accounts. That

1 would be the key differentiator.

2 Q So in your position as zone manager
3 for special markets, you also had responsibility
4 for national accounts?

5 A I did.

6 Q Okay. Were you responsible for
7 national accounts for the entire time that you
8 were zone manager for special markets?

9 A I was.

10 Q And what is a national account?

11 A What do you mean what are national
12 accounts?

13 Q Can you just explain to me what a --

14 A Dental service organizations that have
15 a national footprint.

16 Q Are dental service organizations
17 sometimes called DSOs?

18 A They are.

19 Q So when you were zone manager for
20 special markets, did you also have
21 responsibility for the CHC vocational school,
22 hygiene school and group practice?

23 A I did.

24 Q And in addition to that, you had
25 responsibility for the DSOs?

1 A National DSOs.

2 Q Okay. Thank you for that
3 clarification.

4 Are there some DSOs that are more
5 regional?

6 A Yes.

7 Q Can you name an example for me?

8 A You mean name the actual DSO brand?

9 Q Yes.

10 A Gosh. Absolute Dental.

11 Q Okay. And what is the region that
12 that one is in?

13 A Southern Nevada.

14 Q And so who would be responsible for
15 regional DSOs?

16 A The same, I would.

17 Q Okay. So you were responsible for
18 both national DSOs and regional DSOs?

19 A Correct.

20 Q You were responsible for all DSOs?

21 A Correct.

22 MR. McDONALD: To clarify, Karen, I'll
23 kind of cut to the chase. I think the
24 difference was group practice was limited
25 from three to 30 locations, if that will

1 help you out, which she was zone in special
2 markets but you can ask her that. I'm
3 trying to speed this along.

4 MS. GOFF: Thank you.

5 BY MS. GOFF:

6 Q So your counsel stated that when you
7 were zone manager, group practice was not
8 limited to three to 30 locations; is that
9 correct?

10 A That's correct.

11 Q Okay. What was it at that point?

12 A It was everything that would be
13 considered a dental service organization or
14 group practice.

15 Q And how is group practice defined?

16 A They do not have a legal DSO entity.

17 Q What do you mean by that?

18 A You would have to ask a lawyer.

19 Q So your understanding in your
20 position, how do you distinguish between a DSO
21 and a group practice?

22 A There's very little distinction.

23 Q So for your day-to-day
24 responsibilities, there is no distinction?

25 A The larger the DSO becomes, they drive

1 their business operations nonclinical into a
2 corporate platform who manages the locations,
3 the regional locations, all nonclinical business
4 operations.

5 Q So is that the distinction between the
6 legal DSO and a nonlegal DSO as you understand
7 it?

8 A Not necessarily.

9 Q So what is the distinction as you
10 understand it?

11 A The distinction would be a legal
12 entity created with a law firm.

13 Q Okay. So going back to your transfer
14 from special markets to HSD in May of 2014, do
15 you have an understanding of why you were
16 transferred?

17 A To help address the growing emerging
18 group practice market. In fact, we called our
19 division mid-market.

20 Q Was mid-market a new division at the
21 time?

22 A It was a trend and a label that was
23 applied to the trend we were seeing in the
24 marketplace of consolidation.

25 Q And so was the mid-market division

1 within Henry Schein Dental?

2 A Can you clarify when you mean that?

3 Q Sure. At the time that you were
4 transferred in the May of 2014 period?

5 A Yes, the mid-market was then with
6 Henry Schein Dental.

7 Q What about today?

8 A Today it's back with special markets.

9 Q And when did that change occur?

10 A January of 2018.

11 Q And so are you within the mid-market
12 division currently?

13 A Special markets, mid-market.

14 Q Okay. And before that you were within
15 mid-market Henry Schein Dental?

16 A Correct.

17 Q And was the mid-market division
18 created in or around May of 2014?

19 A Can you clarify the question?

20 Q Sure. Was there a time when there was
21 no mid-market division at Henry Schein?

22 A There was a time when we did not make
23 a distinction between mid-markets emerging size
24 practices from three to 30 locations to national
25 accounts.

1 Q And at what point was that distinction
2 started to be made?

3 A In 2014 when we launched the Henry
4 Schein Dental mid-market division.

5 Q Okay. Thank you. And so were you
6 brought in to work in that new division?

7 A Correct.

8 Q Okay. And who do you know who
9 requested or placed you in that role as sort of
10 heading up the growing emerging group practice
11 market?

12 A Joe Cavaretta.

13 Q Why did Mr. Cavaretta place you in
14 that role?

15 MR. McDONALD: Object to the form. If
16 you know, tell her.

17 BY MS. GOFF:

18 Q Do you have an understanding?

19 MR. McDONALD: Object to the form. Go
20 ahead.

21 THE WITNESS: Based on my experience
22 working with groups, and as a response to
23 the trend in the marketplace, we needed to
24 bring expertise to Henry Schein Dental and
25 work collaboratively with our Henry Schein

1 Dental field sales force.
 2 BY MS. GOFF:
 3 Q And you felt that you had that
 4 expertise?
 5 A I did.
 6 Q And so why was the, you know,
 7 mid-market group put within the Henry Schein
 8 Dental organization rather than special markets?
 9 MR. McDONALD: Object to the form.
 10 BY MS. GOFF:
 11 Q Do you have an understanding of why
 12 that occurred?
 13 A I do.
 14 Q What is your understanding?
 15 A Special markets was formed to serve
 16 national DSOs as part of its business unit.
 17 National DSOs typically do not require nor do
 18 they want field salespeople calling on their
 19 stores or their offices. All of the sales
 20 compliance for sales -- initiatives for sales
 21 were driven from corporate headquarters.
 22 Mid-market was very different. They
 23 required a more holistic approach to selling to
 24 them. They wanted field sales consultant
 25 support and the tools and resources that we had

1 MR. McDONALD: So be sure to pause and
 2 let her finish.
 3 THE WITNESS: Okay.
 4 MR. McDONALD: You've been doing
 5 pretty well, but just pause.
 6 BY MS. GOFF:
 7 Q Did Mr. Cavaretta hire you for that
 8 position when you transferred in May of 2014 to
 9 Henry Schein Dental?
 10 A Yes.
 11 Q Did you interview for the position?
 12 A Yes.
 13 Q Did you interview with Mr. Cavaretta?
 14 A Yes.
 15 Q Anyone else?
 16 A No.
 17 Q And did you think it was a good idea
 18 to move over to Henry Schein Dental and work in
 19 this new mid-market group?
 20 A Yes.
 21 Q Why was that?
 22 A We needed to develop more
 23 infrastructure to support the emerging groups.
 24 We also needed to bring experience and expertise
 25 to our regional management team and our field

1 at Henry Schein Dental were appropriate for an
 2 emerging group.
 3 Q Why were the tools and resources that
 4 you had at Henry Schein Dental appropriate for
 5 the emerging group?
 6 A National DSOs had in-house HR,
 7 in-house counsel. Many of the tools and
 8 resources that would be required were in-house
 9 for national accounts. Due to their size it was
 10 a requirement. However, emerging groups would
 11 pull from the portfolio of business solutions
 12 that were sold through Henry Schein Dental.
 13 Q What particular portfolio of business
 14 solutions are you referring to?
 15 A PPO negotiation, credentialing, HR,
 16 marketing, equipment, technology. That's --
 17 Q Okay. And so the -- what you refer to
 18 as the emerging groups required that portfolio
 19 of business solutions?
 20 A One more time.
 21 Q The emerging groups that you've been
 22 referring to, they required the portfolio
 23 business solutions?
 24 A Correct. They weren't large enough to
 25 procure those services in-house.

1 sales force to understand the changing
 2 marketplace and what the new face of the
 3 customer looked like.
 4 Q What do you mean by the new face of
 5 the customer?
 6 A Henry Schein Dental sold primarily and
 7 still does sell primarily to a single-location
 8 private practice doctor. That was changing.
 9 Q And changing in what way?
 10 A Changing in that the single-location
 11 doctor was buying additional offices, becoming a
 12 group.
 13 Q Was there a period of time -- well,
 14 when did you interview for the position with
 15 Mr. Cavaretta?
 16 A Probably February, March, April of
 17 2014.
 18 Q Okay. And were you hired for the job
 19 right after the -- shortly after the interview?
 20 A I think our official launch was in
 21 late April or early May.
 22 Q Prior to the official launch, were you
 23 doing some work for Mr. Cavaretta?
 24 A No.
 25 Q So you did not report to Mr. Cavaretta

Page 30

1 at all prior to the official launch?
 2 A No.
 3 Q Okay. So were you reporting to
 4 Mr. Foley?
 5 A Foley.
 6 Q When you were reporting to Mr. Foley,
 7 did you ever have occasion or reason to work
 8 with Mr. Cavaretta?
 9 A I did.
 10 Q And what occasion would that be?
 11 A As I stated earlier, there is a lot of
 12 overlap in our business. So if you take group
 13 practice, for example, they may be tapping into
 14 operational resources like supply chain
 15 management and preferred product assortments,
 16 formularies and pricing through the special
 17 markets operations department. However, they
 18 would be maintained and called on by Henry
 19 Schein Dental.
 20 Q So what types of things would you need
 21 to work with Mr. Cavaretta on?
 22 A Coordinating how we went to -- how we
 23 engaged with those customers.
 24 Q Is there a name for those types of
 25 customers?

Page 32

1 Schein field sales teams to serve the customers.
 2 Q Okay. When you joined the Henry
 3 Schein Dental group in May of 2014, did you have
 4 direct reports?
 5 A We were just starting to hire the
 6 position in, so yes, I had two almost
 7 immediately and then we started adding
 8 positions.
 9 Q Who were the two that you had
 10 immediately?
 11 A Kip Rowland and Nicole Lena.
 12 Q So when you switched from special
 13 markets to HSD in 2014, were you responsible for
 14 any different entities when you switched?
 15 A No.
 16 Q It was the same entities, it's just
 17 you were working now in a different division?
 18 A Correct.
 19 Q Okay. And so did your job duties
 20 change at all when you switched?
 21 A They did.
 22 Q And in what way did they change?
 23 A My job was much more collaborative
 24 with the HSD teams.
 25 Q What do you mean by much more

Page 31

1 A Group practice.
 2 Q That's what you would refer to those
 3 customers as?
 4 A Correct.
 5 Q So this is group practice customers
 6 that require services that are only offered on
 7 the Henry Schein Dental side?
 8 A Primarily.
 9 Q And are those services, do they
 10 include like field sales consultants?
 11 A Partially.
 12 Q Are there other things?
 13 A The things that I had mentioned to you
 14 earlier.
 15 Q Okay. Thanks.
 16 Do you have -- as director of your
 17 practice, do you have any direct reports, people
 18 that report to you?
 19 A I do.
 20 Q How many?
 21 A Seven.
 22 Q And generally what are their duties
 23 and responsibilities?
 24 A To work collaboratively with the field
 25 sales consultants and other members of the Henry

Page 33

1 collaborative?
 2 A We worked with the regional managers
 3 at each of the centers, we worked with the zone
 4 general -- I worked with the zone general
 5 managers, we work with the equipment sales
 6 specialist, the digital technology specialist
 7 and the Henry Schein practice solutions
 8 specialist to holistically serve the emerging
 9 market.
 10 Q When you say emerging market, what are
 11 you referring to?
 12 A Emerging meaning that they were in a
 13 process of growing their number of locations.
 14 So one group may start off at three and end up
 15 at 15 in two years.
 16 They had a vision, a mission and a
 17 business plan to grow the number of locations
 18 and their footprint.
 19 Q And was this -- why do you refer to
 20 this as emerging?
 21 A It's a common business term.
 22 Q And what does that mean to you in this
 23 context?
 24 A If I looked it up in the dictionary, I
 25 think it would mean it's emerging, it's rising

1 up out of the status quo. It's a changing
 2 dynamic in the landscape of dentistry.
 3 Q So the -- when did this emerging
 4 market start to -- when did you start seeing
 5 this emerging market?
 6 A Me personally?
 7 Q Yes, you personally.
 8 A Seven years ago.
 9 Q And what occurred around seven years
 10 ago?
 11 MR. McDONALD: Object to the form. Go
 12 ahead.
 13 BY MS. GOFF:
 14 Q You can answer.
 15 A Consolidation of the dental industry.
 16 Q What do you mean by consolidation?
 17 A Individual businesses collaborating
 18 and becoming partnered, growing number of
 19 locations, businesses buying businesses,
 20 acquisitions.
 21 Q And so you noticed -- sorry. Was
 22 there anything else?
 23 A I don't think so.
 24 Q You noticed this trend started about
 25 seven years ago?

1 started to accelerate. We could measure it
 2 if they were starting to accelerate.
 3 BY MS. GOFF:
 4 Q Did Henry Schein in some way measure
 5 this acceleration?
 6 A I'm sure they did.
 7 Q Were you involved in that?
 8 A No.
 9 Q Have you seen any reports?
 10 A No.
 11 Q Why are you sure that they did?
 12 A Looking at our customer base, we were
 13 setting up new accounts for these group
 14 practices. They were calling Henry Schein and
 15 asking us to consolidate and acquisition, add a
 16 new location. Field sales consultants who were
 17 calling on one office discovered that that
 18 office had two more or three more and we were
 19 connecting the dots, understanding that they
 20 were actually part of one organism.
 21 Q Have you heard of the term "buying
 22 group"?
 23 A I have.
 24 Q Is it a collection of independent
 25 private practice dentists?

1 A It started to accelerate seven years
 2 ago.
 3 Q Okay. And was there -- sorry, strike
 4 that.
 5 Do you remember the first time that
 6 you noticed this consolidation in the dental
 7 industry?
 8 A No.
 9 Q But sitting here today, you recall
 10 that it was around seven years ago?
 11 MR. McDONALD: Object to the form,
 12 misstates her testimony.
 13 BY MS. GOFF:
 14 Q I'm just wondering -- the only reason
 15 why I'm asking is you answered the question that
 16 it was around seven years ago. And I just was
 17 wondering if there's some memory that you have
 18 approximately seven years ago that -- of this
 19 consolidation, if there's something specific.
 20 MR. McDONALD: Object to the form,
 21 misstates her testimony. Go ahead.
 22 THE WITNESS: We started to see an
 23 increased trend around seven years ago.
 24 There were always groups that were small
 25 groups and forming and acquisitions, but it

1 MR. McDONALD: Object to the form. Go
 2 ahead.
 3 THE WITNESS: It could be.
 4 BY MS. GOFF:
 5 Q And when you started seeing this
 6 consolidation in the dental industry, were
 7 buying groups starting to be formed around that
 8 time?
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: No.
 11 BY MS. GOFF:
 12 Q And why not?
 13 MR. McDONALD: Object to the form.
 14 BY MS. GOFF:
 15 Q Sorry. Why is it your understanding
 16 that they were not starting to be formed around
 17 that time?
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: I'm not sure what to do.
 20 MR. McDONALD: You can answer the
 21 question if you understand it.
 22 THE WITNESS: Okay.
 23 MR. McDONALD: Do you need her to
 24 restate it?
 25 THE WITNESS: Yes.

1 BY MS. GOFF:

2 Q Okay. Let's just step back.

3 We've been talking about consolidation
4 in the dental industry and you mentioned that
5 you saw that increasing around seven years ago;
6 is that right?

7 A Correct.

8 Q Okay. And was one of the things that
9 you saw around seven years ago an increase in
10 the number of buying groups?

11 A Based on your definition of a
12 collection of private practice offices?

13 Q Yes.

14 A No.

15 Q Okay. And what is your understanding
16 of the term "buying group"?

17 MR. McDONALD: Object to the form. Go
18 ahead.

19 THE WITNESS: It's many different
20 types of companies, it's many different
21 types of organisms. They cover more than
22 just a collection of private practice
23 dentists. They could be a gatekeeper
24 organization, membership group.

25 I have not seen the collection of -- I

1 have not seen buying groups start to emerge
2 or become a trend until approximately five
3 or so years ago.

4 BY MS. GOFF:

5 Q Okay. Is the one thing that buying
6 groups have in common -- I know there can be
7 different types of buying groups. Is the one
8 that they have in common that they are made up
9 of independent private practice dentists?

10 MR. McDONALD: Object to the form,
11 mischaracterizes her testimony.

12 THE WITNESS: No.

13 BY MS. GOFF:

14 Q That's not the one thing they have in
15 common?

16 A No.

17 Q Are most buying groups made up of
18 independent private practice dentists?

19 MR. McDONALD: Object to the form.

20 THE WITNESS: I could not answer that
21 question with any authority.

22 BY MS. GOFF:

23 Q You don't think that -- you don't have
24 an understanding of whether buying groups are
25 made up of independent private practice

1 dentists?

2 MR. McDONALD: Object to the form.

3 THE WITNESS: They don't limit their
4 membership to private practice dentists.

5 BY MS. GOFF:

6 Q Okay. Have you seen any buying groups
7 in the course of your job duties at Henry
8 Schein?

9 A Yes.

10 Q Have you seen many of them, have you
11 interacted with many of them?

12 MR. McDONALD: Object to the form,
13 vague.

14 THE WITNESS: What do you define as
15 many?

16 BY MS. GOFF:

17 Q More than ten.

18 A Yes.

19 Q And are -- more than 20?

20 A No.

21 Q Okay. And the buying groups that
22 you've seen, are most of them collections of
23 independent private practice dentists?

24 MR. McDONALD: Object to the form.

25 THE WITNESS: I could not state their

1 membership profiles.

2 BY MS. GOFF:

3 Q You're not aware?

4 A Generally, no.

5 Q And if -- when you say generally, no,
6 what do you mean by that?

7 A Unless I have knowledge of their
8 member base, which I don't, I could not say with
9 any authority if they are a private practice
10 dentist.

11 Q Do you ever use the term "buying
12 group" in your job at Henry Schein?

13 A Yes.

14 Q You put it in emails sometimes?

15 A Sure.

16 Q What do you mean by it when you put it
17 in the email?

18 MR. McDONALD: Object to the form,
19 vague.

20 BY MS. GOFF:

21 Q You can answer.

22 MR. McDONALD: Same objection. Go
23 ahead.

24 THE WITNESS: It would have -- you
25 would have to help me understand in context

1 what I mean by it. I have to know if you're
2 talking about a specific buying group rather
3 than a general statement.

4 BY MS. GOFF:

5 Q So in your position as director of
6 group practice, are you responsible for buying
7 groups?

8 A No.

9 Q You're not responsible for buying
10 groups?

11 A No.

12 Q Are you responsible for group
13 purchasing organizations?

14 MR. McDONALD: Object to the form.

15 THE WITNESS: The terminology is used
16 interchangeably. So the answer would be the
17 same.

18 BY MS. GOFF:

19 Q Were you ever responsible for buying
20 groups or group purchasing organizations?

21 A I was.

22 Q At what point?

23 A In my role with -- during my tenure
24 with HSD, I was responsible for Council
25 Connections, Washington Association of Community

1 Health Centers, Community -- Colorado Community
2 Health Network. I think that's it.

3 Q Okay. So when you said during your
4 tenure with HSD, do you mean when you were the
5 director of group practice in HSD from May of
6 2014 until sometime in 2018?

7 A Until 2017, December of 2017. As I
8 stated earlier, in January of 2018, we did a
9 reorg and I divested of the community health
10 centers and the schools.

11 Q So from May of 2014 until the end of
12 2017, you were responsible for the Council
13 Connections, Washington Association of Community
14 Health Centers and Colorado Community Health
15 Network; is that right?

16 A Correct.

17 Q Are those all CHCs?

18 A They are not CHCs.

19 Q What are they?

20 A They are buying groups.

21 Q What is a CHC?

22 A A community health center is more
23 properly termed as a safety net clinic that's
24 mission is to serve underserved populations
25 regardless of their ability to pay.

1 So it could be one clinic, one dental
2 clinic. It could be a community health center
3 with -- they call them delivery sites -- five
4 dental clinics. It could be a free clinic in an
5 urban center. They have a variety of different
6 identities, but they are dental offices.

7 Q And the Washington, Colorado and
8 Council Connections group that you just said
9 that you're responsible for do not fit within
10 that definition of a CHC?

11 MR. McDONALD: Objection, form.

12 THE WITNESS: They are not CHCs.

13 BY MS. GOFF:

14 Q Are they groups or buying groups whose
15 members are CHCs?

16 A They're an association whose members
17 are CHCs or safety net clinics, yes.

18 Q Okay. And do you consider them to be
19 buying groups?

20 A I do.

21 Q Do you consider them to be GPOs?

22 A If it's an interchangeable word, as I
23 stated earlier, is pretty common, yes.

24 Q Do you use the term "buying group" and
25 "GPO" interchangeably sometimes in your emails?

1 A Sometimes I do.

2 Q So the Washington, Colorado and
3 Council Connection groups, the members are not
4 independent private practice dentists; is that
5 right?

6 MR. McDONALD: Object to the form.

7 THE WITNESS: Can you define
8 independent private practice?

9 BY MS. GOFF:

10 Q In your job, do you ever refer to
11 independent private practice dentists?

12 A I'm not sure what your question is.

13 Q I'm just wondering if you're able to
14 define that term for me since you're in the
15 business?

16 A A solo provider, a solo practitioner
17 would be considered a private practice dentist
18 that does not receive any state, local or
19 government funds to help defray operating cost.

20 Q So using that definition, are the
21 Washington, Colorado and Council Connection
22 groups, are the members of those groups the solo
23 practitioners or solo providers that you
24 referred to?

25 A No.

1 Q If we use the term "independent
2 private practice dentists" today, can we define
3 it in the way that you just did, solo
4 practitioners or solo providers?

5 A Solo practitioners.

6 Q I'll try to use the term "solo
7 practitioners" if that's helpful. But if I ever
8 say "independent private practice dentists,"
9 will you understand that that's what I mean?

10 A Yes.

11 Q So let's go back to the term "buying
12 group" as you understand it. Can a buying group
13 sometimes be a collection of solo practitioners?

14 A It can.

15 Q Okay. And do you understand -- do you
16 have an understanding that it may be a
17 collection of -- it may be a collection of
18 members who are not solo practitioners?

19 A Correct.

20 Q And what are the types of memberships
21 that you understand a buying group could
22 include?

23 MR. McDONALD: Object to the form,
24 asked and answered. Go ahead.

25 THE WITNESS: It's up to the buying

1 group. I don't think that they put those
2 requirements on their member applications.
3 However, you would have to look at their
4 member list to verify that.

5 BY MS. GOFF:

6 Q Are you familiar with any buying
7 groups whose members are not solo practitioners?

8 A I am.

9 Q And can you name them?

10 A Breakaway.

11 Q Okay. Any others?

12 MR. McDONALD: Well, asked and
13 answered. You're excluding the CHCs that
14 she just told about you for ten minutes;
15 right? I assume you don't want her to name
16 all of those again.

17 BY MS. GOFF:

18 Q Can you name any others?

19 MR. McDONALD: Okay. Name all the
20 CHCs again. We'll play this game.

21 THE WITNESS: Okay. Washington
22 Association of Migrant & Community Health
23 Centers, Colorado Community Health Network,
24 Council of Community Clinics. Actually
25 there's one more, Louisiana Primary Care

1 Association. And Texas Association of
2 Community Health.

3 BY MS. GOFF:

4 Q So that was -- are there any others,
5 just to make sure I have the complete list?

6 A Going by my memory, yes. Those are
7 the ones.

8 Q Okay. So you added a few additional
9 groups that you had not mentioned previously.
10 Were you responsible -- were you in charge of
11 CHCs, were you responsible for those groups as
12 well?

13 A My territory shifted. I couldn't give
14 you the timeline, but at some point I was, yes,
15 responsible for that. In 2014, when I still had
16 the community -- responsibility for the
17 community health centers, I was responsible for
18 Louisiana, thus I had engagement with Louisiana
19 Primary Care Association.

20 Also for the same period of time
21 before 2018, I had responsibility for Texas,
22 thus I had engagement with Texas Association of
23 Community Health Centers.

24 Q Okay. Thank you.

25 So you mentioned that you were

1 responsible -- in the beginning when you were
2 describing your duties as the director of group
3 practice, you mentioned that at one point you
4 were responsible for CHCs. And then recently I
5 think those were --

6 A In 2018 we reorganized.

7 Q When you said you were responsible for
8 CHCs, what groups were you referring to?

9 A What do you mean what groups?

10 Q Which specific groups do you consider
11 CHCs that you had responsibility for?

12 A Can you define groups?

13 Q You were responsible for CHCs; right?

14 A Correct.

15 Q Okay. What CHCs were you responsible
16 for?

17 A There were hundreds of them.

18 Q You were responsible for all hundreds
19 of them?

20 A Not me personally. I was responsible
21 for the business unit and how we served that
22 business unit.

23 Q Okay.

24 A The distinctive offering that we had
25 for that business unit.

1 Q Okay. And do the Washington,
2 Colorado, Council of Community Clinics, Texas
3 Association, do those groups fall within the CHC
4 umbrella?

5 A Yes, those are gatekeeper
6 organizations that exist to support their member
7 group. And while buying groups -- a buying
8 component is part of their offering to their
9 member group, that's not the only thing that
10 they provide to their membership.

11 Q And their membership is CHCs?

12 A It could be any nonprofit safety net
13 clinic. So CHC is used again very
14 interchangeably with safety net clinics is the
15 safer terminology, meaning that these were
16 clinics that were designed to serve uninsured or
17 poverty populations with disregard for their
18 ability to pay.

19 Q Thank you. That's helpful.

20 You mentioned Breakaway. At one point
21 did you have responsibility for the group
22 Breakaway?

23 A I did.

24 Q What is Breakaway?

25 A Breakaway is a buying group. However,

1 that's only one component of who Breakaway is
2 and what they offer to their members.

3 For lack of a better term, they are a
4 virtual DSO, meaning they offer a corporate
5 platform for dentists, both groups and
6 individual dentists, to outsource their
7 nonclinical business services.

8 Q And Breakaway was an example of a
9 group whose members were not solo practitioners?

10 A Some were.

11 Q And some were not?

12 A That's right.

13 Q And the ones that were not, what type
14 of organizations were they?

15 A Small groups, two, three, four
16 locations.

17 Q At what point were you responsible for
18 Breakaway?

19 A In 2014 when I accepted the position
20 for the director for the area, I inherited our
21 territory. Anything that was not a national DSO
22 fell into my purview and Breakaway was on that
23 list.

24 Q Were there other groups that you
25 inherited that were on the list?

1 A Other groups, what do you mean?

2 Q You said that in 2014 you accepted a
3 position in the area and that you inherited some
4 groups?

5 A Many, yes. I mean, we made a
6 distinction between -- as I had stated earlier,
7 we had national groups. You asked about what
8 those looked like. They had a national
9 footprint, corporate headquarters, a single
10 point of contact driving compliance from a
11 corporate headquarters.

12 My new job, my division, took
13 everything else, everything between three and 30
14 locations.

15 Q So approximately how many new groups
16 did you inherit?

17 A I couldn't answer that.

18 Q Is it fair to say it was too many to
19 name?

20 A Too many to name.

21 Q And did you keep any of the groups
22 that you were previously responsible for?

23 A Yes, because we took business that had
24 originally fell under the P&L for the division
25 called special markets and we moved those

1 customers over to HSD. So, yes, they were part
2 of that.

3 You could almost call it divesting of
4 those customers and moving them over to HSD,
5 those business units. We made distinctions
6 internally and then we moved everything that fit
7 that profile over to the new emerging group
8 mid-market team.

9 Q Okay. So when you made the switch in
10 2014, there were some groups that you were
11 previously responsible for that you no longer
12 were responsible for?

13 A That's right.

14 Q There were some that you had
15 previously had responsibility for and you kept
16 those groups when you moved over to HSD?

17 A That's right.

18 Q And then there was some new groups
19 that you got when you moved over to HSD that you
20 were not previously responsible for in special
21 markets?

22 A Only if the geography changed, and it
23 did. My geographic responsibility changed.

24 Q Okay.

25 A It grew.

1 Q Okay. So previously you were the zone
2 manager for which zone again?
3 A The west.
4 Q Okay. And you were director of group
5 practice also for the west; right?
6 A Area, rather than region.
7 Q So the western area is bigger than the
8 western region?
9 A It's half the United States versus a
10 region within that area.
11 Q Okay. But -- okay. So talking about
12 the groups that you had previous responsibility
13 for in special markets and then you maintained
14 when you moved over to HSD, approximately how
15 many groups fit in that category?
16 A Couldn't answer that question.
17 Q You don't recall?
18 A There are too many to count.
19 Q Okay. And how was it determined which
20 groups would be placed within this new
21 mid-market division and which ones would remain
22 within special markets?
23 A So previously I stated to you that the
24 national accounts which had national footprints
25 had a corporate location that drove compliance

1 A Ask the question.
2 Q You would ask that question?
3 A Sure.
4 Q Of the group?
5 A Sure.
6 Q Is there any other way that you would
7 make that determination?
8 MR. McDONALD: Object to the form.
9 BY MS. GOFF:
10 Q Would you do any of your own research
11 or anything like that?
12 A Sure, look at their website, look at
13 branding, look for a full C-suite.
14 Q And if you looked at their website,
15 what would you be looking for?
16 A I would look for their C-suite about
17 us, I would look for a C-suite. I would also
18 call and talk to the field sales consultants
19 that were intimate with these customers.
20 Q What would you ask the field sales
21 consultant?
22 A Do they have a corporate headquarters,
23 are they driving compliance?
24 Q What do you mean by driving
25 compliance?

1 throughout all their stores. Those accounts
2 were kept in special markets and the bulk of the
3 group practices that were being maintained by
4 special markets were moved over, anything that
5 didn't fall into that national account category.
6 Q And so was it groups that could not
7 drive compliance?
8 A Many of them were.
9 Q It was -- was it groups that wanted
10 local FSCs to call on them?
11 A Correct.
12 Q Were there other characteristics of
13 these groups?
14 A Size.
15 Q What size?
16 A Three to 30.
17 Q Okay. Other characteristics?
18 A Emerging. I mean, they were in
19 evolution process of growing their business.
20 They did not have a firmly established corporate
21 headquarters that drove compliance throughout
22 their organization.
23 Q And how would Henry Schein determine
24 whether a group had a corporate headquarters
25 that drove compliance?

1 A So every office would be standardized
2 doing essentially the same things. And the
3 corporate office would be responsible for
4 billing, hiring, HR, credentialing PPO
5 negotiations, reimbursement, e-claims, software,
6 standardized equipment selections. They would
7 be run like a real company rather than a
8 collection of individual offices.
9 Q So the ones that could not drive
10 compliance as you defined it were moved over to
11 this mid-market group?
12 MR. McDONALD: Object to the form,
13 mischaracterizes her testimony. Go ahead.
14 THE WITNESS: There were both included
15 in the move.
16 BY MS. GOFF:
17 Q Some that could drive compliance and
18 some that could not?
19 A Correct.
20 Q So how -- I'm trying to understand how
21 did you determine which ones got moved and which
22 ones did not? What was the rule?
23 A I'm not sure that -- you're asking
24 that question probably for the fourth time.
25 Three to 30 locations.

1 Q That's -- that was the rule?
 2 A Whether they drove compliance from a
 3 corporate headquarters or not.
 4 Q I see. Okay. Thank you. That's
 5 helpful.
 6 So more than 30 locations, they stayed
 7 in special markets?
 8 A Generally.
 9 Q Going back to just sort of defining
 10 our terms, so you mentioned DSO, and I know it
 11 stands for dental service organization. Are
 12 there characteristics of DSOs that you can
 13 describe for me?
 14 A My opinion?
 15 Q Sure.
 16 A Okay. More highly evolved business
 17 acumen, C-suite, so they would hire a CEO. More
 18 sophisticated business professionals helping to
 19 run the business.
 20 Again, there is a process that they go
 21 through with a law firm to create a DSO entity
 22 and I believe that is the distribution of
 23 ownership allowing them to create affiliate
 24 contracts and such.
 25 Q Okay. So DSOs typically own the

1 Q Are you familiar with the Texas Dental
 2 Association?
 3 A No.
 4 Q Have you ever heard of the term
 5 "co-op"?
 6 A Yes.
 7 Q What is a co-op to you?
 8 A It's a term that I heard in
 9 association with an entity in Utah.
 10 Q Other than in association with the
 11 entity in Utah, have you ever heard of the term
 12 "co-op" generally?
 13 A No.
 14 Q Okay. What about a study club, have
 15 you ever heard of that term?
 16 A Yes.
 17 Q And what does that term mean to you?
 18 A A think tank for dentists that have a
 19 shared interest in a specific part of dentistry
 20 like implantology, periodontology or
 21 endodontics.
 22 Q Are the members typically solo
 23 practitioners?
 24 A I have no idea.
 25 Q What about an MSO, have you heard of

1 dental practices; correct?
 2 MR. McDONALD: Object to the form.
 3 BY MS. GOFF:
 4 Q That they --
 5 A I cannot answer that question.
 6 Q Why not?
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: I don't know the
 9 legal --
 10 BY MS. GOFF:
 11 Q Have you ever heard of dental
 12 associations?
 13 A Dental associations?
 14 Q Yes. I'll be more specific, state
 15 dental associations?
 16 A Of course.
 17 Q And do state dental associations
 18 sometimes create groups of buying associations
 19 for their members?
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: I know of one.
 22 BY MS. GOFF:
 23 Q Which one is that?
 24 A It's a division of California Dental
 25 Association called TDSC.

1 that term?
 2 A I have.
 3 Q Is that a management service
 4 organization?
 5 A Yes.
 6 Q And what does an MSO do in your view?
 7 A MSO, DSO interchangeable word.
 8 Q Okay.
 9 A Or acronym.
 10 Q Okay. I just want to make sure I have
 11 a correct understanding of your understanding of
 12 the definition of buying group. So can a buying
 13 group in some cases be comprised of solo
 14 practitioners?
 15 A Yes.
 16 Q In your view, is that true in all
 17 cases?
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: No.
 20 BY MS. GOFF:
 21 Q You're familiar with the group called
 22 Steadfast Dental?
 23 A I am.
 24 Q And so going back to 2014, did you
 25 start doing discovery on a group called

1 Steadfast Dental?
 2 A I did.
 3 Q And was that around the time that you
 4 were moved from special markets to HSD?
 5 A That's correct.
 6 Q And were you doing discovery on
 7 Steadfast Dental as part of your job for HSD?
 8 A Yes.
 9 Q So Steadfast Dental was not a group
 10 that you were responsible for when you were
 11 within special markets?
 12 A I was not responsible for Texas, so
 13 no.
 14 MR. McDONALD: So, Karen, you're
 15 moving on to Steadfast now, which is kind of
 16 a change in topic.
 17 MS. GOFF: I did change topics.
 18 MR. McDONALD: We've been going about
 19 an hour. Before you get into the meat of
 20 Steadfast that I suspect is going to take a
 21 little while, why don't we take a break. I
 22 think she wants a break too.
 23 MS. GOFF: Okay. Sure.
 24 (Recess taken.)
 25 BY MS. GOFF:

1 that group?
 2 A Correct.
 3 Q Dental Co-op of Utah was also a buying
 4 group?
 5 A They were, they had a buying group
 6 component in their organization, yes.
 7 Q Okay. And at some point you elevated
 8 the issue of whether to shut down Dental Co-op
 9 to your superiors?
 10 A Correct.
 11 Q After it was elevated, you got
 12 permission to shut down the Dental Co-op of
 13 Utah?
 14 A I didn't personally, no.
 15 Q You didn't get permission?
 16 A I did not personally shut them down.
 17 I made a recommendation that that happen, and
 18 someone else in the organization did. I don't
 19 know who.
 20 Q Okay. And -- but you do know that the
 21 issue of whether to shut down the Dental Co-op
 22 of Utah was elevated to your superiors?
 23 A Correct.
 24 Q And do you know that at some point it
 25 was shut down?

1 Q So we were talking about Steadfast
 2 Dental prior to the break. And you testified
 3 that you started doing some discovery on
 4 Steadfast Dental after you were transferred to
 5 HSD; is that right?
 6 A That's right.
 7 Q And then after you did some research,
 8 you determined that there is no question that
 9 Steadfast Dental was a buying group; is that
 10 right?
 11 A Yes, those were my official findings,
 12 yes.
 13 Q And eventually, you sought permission
 14 from your superiors to shut down Steadfast
 15 Dental; is that right?
 16 A I did.
 17 Q You got permission to shut it down;
 18 correct?
 19 A I did.
 20 Q And then you did shut it down?
 21 A Correct.
 22 Q Are you familiar with the group Dental
 23 Co-op of Utah?
 24 A I am.
 25 Q In 2014 you also did some discovery on

1 MR. McDONALD: Object to the form. Do
 2 you mean we stopped doing business with
 3 them?
 4 THE WITNESS: We stopped doing
 5 business with them.
 6 BY MS. GOFF:
 7 Q So it's your testimony that at some
 8 time Schein stopped doing business with the
 9 Dental Co-op of Utah?
 10 A That's right.
 11 Q Did you sometimes in your emails use
 12 the phrase "shut down" to refer to buying
 13 groups?
 14 MR. McDONALD: Object to the form.
 15 THE WITNESS: I may have.
 16 BY MS. GOFF:
 17 Q And if you used that phrase, what
 18 would that mean?
 19 A It would mean that it was no longer
 20 clear that the relationship was healthy in that
 21 we had no access to our customers, they were not
 22 acting as our advocate, they were not promoting
 23 Henry Schein. And in fact, we discovered that
 24 they had opened up a number of direct
 25 manufacturers and were redirecting Henry

1 Schein's business to those direct manufacturers.
 2 Q Okay. So it sounds like you're
 3 referring to a particular group right now?
 4 A I'm referring to the groups that you
 5 mentioned, Steadfast and Dental Co-op.
 6 Q Okay. And when you wrote in emails
 7 shut it down, does that mean stop doing business
 8 with those groups?
 9 A Yes, it does.
 10 Q And just to make sure I have a clear
 11 understanding, so you did not personally shut
 12 down the Dental Co-op of Utah?
 13 A That's correct.
 14 Q But you know that someone else in the
 15 organization did?
 16 A I do not know. I did not receive
 17 confirmation, but that was my recommendation.
 18 Q And you know that at some point Schein
 19 stopped doing business with Dental Co-op of
 20 Utah?
 21 A That's my understanding.
 22 Q Okay. Do you have an understanding
 23 of -- strike that.
 24 So who did you make a recommendation
 25 to that the Dental Co-op of Utah be shut down?

1 BY MS. GOFF:
 2 Q And which superiors did you seek
 3 permission from?
 4 A Joe Cavaretta.
 5 Q Anyone else?
 6 A It was a consensus and other people
 7 would take a look and verify that the research
 8 that I did was correct. So it would be Randall
 9 McLemore who covered Texas, Joe Cavaretta, those
 10 two primarily.
 11 Q Did you seek permission from Randy
 12 Foley?
 13 A Yes.
 14 Q He was the director of special markets
 15 at the time, is that right?
 16 A He was; however, this was so soon
 17 after the mid-market was created, we were still
 18 sharing a lot of P&L information with our
 19 special markets division.
 20 So it required that all stakeholders
 21 agree with my assessment, looked at the facts to
 22 verify and we reached a consensus that it was
 23 not a healthy relationship and ultimately we had
 24 repeatedly asked for an opportunity to sit down
 25 and negotiate a more healthy relationship with

1 A Those management -- members of the
 2 management, Henry Schein dental management team
 3 that would have been responsible for the
 4 geography that Dental Co-op resided in.
 5 Q Who specifically was that?
 6 A Kevin Upchurch, Jeff Harmon and Joe
 7 Cavaretta.
 8 Q And with regard to Steadfast Dental,
 9 you sought permission from your superiors to
 10 shut it down; correct?
 11 A After initially doing discovery to
 12 understand who they were, I went in thinking
 13 that we would optimize the relationship and
 14 continue to grow the relationship. However, the
 15 discoveries that I made subsequent to that led
 16 me to believe -- not just led me to believe, but
 17 I was able to verify that they were redirecting
 18 existing Henry Schein business to a competitor.
 19 Q Okay. I just want to make sure I have
 20 an answer to the question. So with regard to
 21 Steadfast Dental, am I correct that you sought
 22 permission from your superiors to shut it down?
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: Correct.
 25

1 the vice president; however, he went radio
 2 silent. He stopped responding to my request for
 3 an appointment.
 4 Q Did you shut down any other groups
 5 during the time that you were director of group
 6 practice within HSD?
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: The word "shut down,"
 9 can you explain the context? Can you
 10 explain your intended meaning of shut down?
 11 BY MS. GOFF:
 12 Q Sure. I'll rephrase the question.
 13 Did you seek to stop doing business
 14 with any other groups at any point when you were
 15 group practice director for HSD?
 16 A No.
 17 Q Just those two?
 18 A M-hm.
 19 MR. McDONALD: You need to say yes.
 20 You need to say yes.
 21 THE WITNESS: Yes.
 22 MR. McDONALD: As opposed to m-hm.
 23 THE WITNESS: Gotcha.
 24 BY MS. GOFF:
 25 Q Thank you.

1 A Thank you.

2 Q Those two groups, Steadfast and Dental
3 Co-op of Utah, you recommended that Schein cease
4 doing business with them within the first few
5 months of coming over to HSD?

6 A Correct.

7 Q Was it within the scope of your job
8 duties to recommend that Schein stop doing
9 business with those two groups?

10 A It was not.

11 Q So you were doing something outside of
12 the scope of your job?

13 A No, I was addressing information that
14 resided in my sales data and identifying the
15 customers that existed, building a profile on
16 who and what they were and what they did.

17 Once I discovered that, it was my
18 intention to enhance those relationships, to
19 grow them and create a healthy sustainable
20 program that served all of the constituents.

21 However, in my discovery, I was able
22 to identify that business was being redirected
23 to our competitors and we were losing business
24 year over year from the same membership that
25 were Henry Schein customers prior to the buying

1 group coming on board.

2 Q And when you say the buying group
3 coming on board, you're referring to Steadfast
4 Dental?

5 A Correct.

6 Q And also the Dental Co-op of Utah?

7 A Also the Dental Co-op of Utah.

8 Q Did any of your superiors ask you to
9 look into Steadfast Dental?

10 A They did not.

11 Q Did any of your superiors ask you to
12 look into the Dental Co-op of Utah?

13 A Yes.

14 Q Which superior?

15 A Joe Cavaretta.

16 Q What did he ask you to do?

17 A Evaluate the business. There were
18 some things that we had discovered that the
19 Dental Co-op had not informed us of where they
20 had opened up Henry Schein competitors and were
21 promoting Henry Schein competitors to their
22 member base.

23 Q You mentioned competitors a few times.
24 What do you mean by competitors?

25 A Competitors in the context of

1 Steadfast. I don't know who the competitors
2 were, but I do know that our business was down
3 45 percent year over year for the same group of
4 membership.

5 Q So let's just stick with Steadfast.

6 So you did some discovery into
7 Steadfast and you discovered that business was
8 down 40 percent year over year?

9 A M-hm.

10 Q And you did not -- am I correct in
11 understanding that you did not confirm whether
12 that meant that business was going to
13 competitors?

14 A I did.

15 MR. McDONALD: Object to form. Hang
16 on. Object to the form. Go ahead.

17 THE WITNESS: I did confirm.

18 BY MS. GOFF:

19 Q Okay. And how did you confirm that?

20 A I asked the question of the Steadfast
21 staff.

22 Q And did they inform you that the
23 business was going to competitors?

24 A They did.

25 Q Did they inform you which competitors?

1 A I don't remember.

2 Q And did you ask?

3 A Probably. But I don't remember.

4 Q Do you have an understanding of
5 whether it was other distributors?

6 A I don't.

7 Q You mentioned direct selling
8 manufacturers earlier. Is it your understanding
9 that they were directing business -- they being
10 Steadfast was directing business to direct
11 selling manufacturers?

12 A I don't have any intimate knowledge of
13 that or I can't remember if I was told who they
14 were.

15 Q So you don't know -- you don't know
16 where the business was going, you just know that
17 Schein had lost 40 percent year over year?

18 A What the Steadfast staff told me is
19 they would receive the order from the customer,
20 they had an algorithm or software that would
21 look at the items on the list from the customer.

22 They had a variety of fulfillment
23 partners that would look at those items or they
24 would look at the items from the variety of
25 their partners and they would break up the order

1 and send items that were cheaper with company A
2 or company B and then Henry Schein would be left
3 with the ones that we had the best price on.

4 Q And just to confirm about which other
5 companies they were being sort of directed to, I
6 just want to make sure I understand. You're not
7 sure whether it was other distributors or direct
8 selling manufacturers?

9 A That's right.

10 Q And do you know whether the customers
11 could have gotten those same products from Henry
12 Schein?

13 A I do.

14 Q And could they have?

15 A They could have.

16 Q Okay. And did you, when you spoke
17 with -- who did you speak with at Steadfast?

18 A I don't remember the name of the
19 person that was in charge of the procurement
20 software.

21 Q But you spoke with the person who was
22 in charge of the procurement software?

23 A Correct.

24 Q And did you -- you mentioned earlier
25 that you attempted to make the business

1 relationship more healthy; is that correct?

2 A Yes. I wanted to find a way to
3 overcome the challenges that we were
4 experiencing and sit down with the vice
5 president and perhaps come up with better
6 pricing for the buying group or explain more
7 thoroughly some of the added benefit that we
8 brought to the table so that they would be
9 inclined to send those very same orders to Henry
10 Schein.

11 Q And did you ever, in fact, sit down
12 with the vice president?

13 A I did not. He stopped responding at a
14 certain point.

15 Q Who was the vice president?

16 A Jon -- I can't remember his last name.
17 I think it was Jon Staples.

18 Q And so you reached out to Mr. Staples
19 by email?

20 A Many times and by phone.

21 Q Okay. And when did you do this, this
22 reaching out to Mr. Staples?

23 A I'm going to say it was in May of
24 2014.

25 Q But it was some time around when you

1 transferred from special markets to HSD?

2 A Correct.

3 Q And so with regard to Steadfast, am I
4 correct in understanding that you were not
5 instructed by any of your superiors to look into
6 Steadfast?

7 A You're correct.

8 Q Okay. So Mr. Cavaretta never told you
9 to look into Steadfast?

10 A He did not.

11 Q And what prompted you to start doing
12 discovery on Steadfast?

13 A I was doing my job in understanding
14 who our customers were. This customer appeared
15 on my regional territory and they were in our
16 database and they were doing business with us.
17 So it was my job to understand who they were.

18 Essentially they were anonymous until
19 I made contact with them, with the intention of
20 fully understanding their business so we could
21 better serve them.

22 Q Was there anyone who was in charge of
23 the Steadfast relationship before you?

24 A Formerly it had been a special markets
25 customer, but it had moved over with the

1 nonnational accounts, the nonnational accounts
2 that were part of the mid-market.

3 Q And when it was a special markets
4 customer, was there any particular individual
5 who was in charge of it?

6 A I couldn't comment.

7 Q What about Rick Heysquierdo?

8 A Very likely.

9 Q It's very likely he was in charge of
10 it?

11 A Correct.

12 Q Do you think that at the time you
13 would have known who was in charge of this
14 relationship?

15 A I would have had to have an identity
16 for Steadfast, I would have had to have heard
17 the word "Steadfast" or somebody call out to me
18 that there was a customer called Steadfast and I
19 had no knowledge of them whatsoever until I saw
20 them on a territory run and wanted to know about
21 them and build a better relationship with them.

22 Q And why did you -- when you came over
23 to HSD, I think you mentioned that you had
24 hundreds of customers; right?

25 A Right.

1 Q Why were you focused on Steadfast?
2 MR. McDONALD: Object to the form,
3 mischaracterizes her testimony. Go ahead.

4 THE WITNESS: I believe it was one
5 that was a higher volume customer.

6 BY MS. GOFF:

7 Q Okay. And by higher volume you mean
8 that they did more business with Schein?

9 A Correct.

10 Q And so did you start doing discovery
11 on any other higher volume customers?

12 A I did.

13 Q And approximately how many others?

14 A I wouldn't be able to estimate. I
15 covered half of the United States. So it would
16 be difficult to say.

17 I would say that I would use a -- if I
18 could identify the parent corporation was doing
19 \$250,000 a year with Henry Schein, that would
20 qualify as an important customer to us. And it
21 would be my job to make sure that we know our
22 important customers and that we're serving them
23 well.

24 So as director, I wanted to know who
25 those people were not just in Texas, but in all

1 of my -- the states I was responsible for.

2 Q Did you look into all of -- did you
3 start doing discovery in all of the groups that
4 were \$250,000 or more?

5 A Either myself or members of my team.

6 Q And at the time your team was Kip and
7 Nicole?

8 A In 2014, yes.

9 Q Did anyone -- when you switched from
10 special markets to Henry Schein Dental, did
11 anyone ask you to start looking into buying
12 groups?

13 A No.

14 Q Did anyone give you marching orders to
15 shut down buying groups?

16 A Absolutely not.

17 Q When you first transferred from
18 special markets to HSD, did you have any
19 meetings with your new boss, Joe Cavaretta,
20 regarding what your new duties would look like?

21 I'll retract that question.

22 Did Mr. Cavaretta ever give you
23 instruction on what to do when you first started
24 with him at HSD?

25 A Grow the business.

1 Q Grow the business meaning?

2 A Meaning build on the foundation of the
3 customers that were currently part of my
4 responsibility, work collaboratively with our
5 field sales consultants, our regional managers
6 and other members of the sales team to sell
7 deeper into the customer environment, and sell
8 them holistically based on their needs.

9 Q Did you ever, prior to moving over to
10 Henry Schein Dental, when -- back when you're in
11 special markets, did you ever terminate a
12 relationship with any groups?

13 A No.

14 Q So other than these two groups,
15 Steadfast and the Dental Co-op of Utah, in your
16 entire career at Henry Schein, have you ever
17 terminated any other groups?

18 A No, not me personally.

19 Q Okay. So why don't we look at a
20 document just to orient ourselves.

21 I'm handing you what has been
22 premarked as Exhibit CX0171.

23 (Exhibit CX0171 was marked.)

24 MS. GOFF: This is a document that
25 bears the Bates stamp Henry

1 Schein-000003341. It's an email from you
2 to -- the email that's the latest in time is
3 from you to Joe Cavaretta and Randall
4 McLemore dated March 25th, 2014.

5 BY MS. GOFF:

6 Q Did you write this email?

7 A Yes.

8 Q And did you write it as part of your
9 job?

10 A Part of my job was communicating my
11 findings to the management team, the relevant
12 management team at HSD.

13 Q And the email that we're looking at
14 reflects your findings that you're communicating
15 to the relevant management team?

16 A No, not my findings because it clearly
17 states I'm still in discovery.

18 Q Well, it communicates your findings as
19 of the date of this email?

20 A There's not much here that would
21 suggest that I had any relevant information. I
22 just state that they did \$150,000 last year and
23 Rick H. was asked repeatedly to deal with it.

24 Q And you have knowledge of the content
25 of this email; right?

1 A Yes.
 2 Q And at the time that you wrote this
 3 email, were you reporting to Mr. Cavaretta?
 4 A I was.
 5 Q So this was in March 2014 and I think
 6 you testified earlier that you switched from
 7 special markets to HSD in May of 2014?
 8 A I think I was confused on the date. I
 9 misstated. I think it was March.
 10 Q Okay. And then what was
 11 Mr. McLemore's role at this time?
 12 A Regional manager for Texas where this
 13 particular parent organization was located.
 14 Q Okay. So it's fair to say that at the
 15 time of this email, Steadfast Dental was a
 16 customer of Schein's?
 17 A Correct.
 18 Q And so you wrote that they did
 19 \$150,000 last year?
 20 A Correct.
 21 Q Does that mean that they did \$150,000
 22 worth of business with Henry Schein?
 23 A That's right.
 24 Q So would you consider that to be a
 25 large client for Henry Schein?

1 A Correct.
 2 Q Then you forwarded that email on to
 3 Mr. Cavaretta and Mr. McLemore?
 4 A M-hm.
 5 Q Yes?
 6 A Yes.
 7 Q Thank you.
 8 Then you changed the subject matter
 9 from support to support-buying group Steadfast
 10 Dental, do we shut this down, question mark?
 11 A Right.
 12 Q So you were asking Mr. Cavaretta
 13 and Mr. McLemore whether to shut down Steadfast
 14 Dental?
 15 A Based on some very preliminary
 16 findings, the question is, was this actually a
 17 DSO that I was responsible for. And I said we
 18 think it's a DSO, so I hadn't completed my
 19 discovery yet.
 20 Q Okay. So at this point you did not
 21 know whether this was a group that you were
 22 responsible for?
 23 A Again, I was trying to identify who
 24 they were and what they were. Just by nature of
 25 their title, Steadfast Medical does not sound

1 A I would.
 2 Q And do you have an understanding of
 3 what year Schein started selling to Steadfast
 4 Dental?
 5 A I don't.
 6 Q You were not involved in the decision
 7 to start Steadfast?
 8 A I wasn't.
 9 Q And I think you already testified to
 10 this, but prior to the switch to certain
 11 customers becoming mid-market customers in 2014,
 12 this group Steadfast was within special markets;
 13 is that right?
 14 A Yes.
 15 Q And at the time that you wrote this
 16 email, you were responsible for Steadfast
 17 Dental, it was one of your customers; is that
 18 right?
 19 A It was part of my responsibility. In
 20 my role I didn't have face-to-face
 21 responsibility, but I was responsible for
 22 knowing who they were and making sure that we
 23 were serving them appropriately.
 24 Q So you received an email from Emily
 25 Kerr?

1 like a dental DSO.
 2 Q So at the time that you wrote this
 3 email, you were not sure whether you were
 4 responsible for this group?
 5 A I was doing inquiry to make sure.
 6 Q And you said something about Steadfast
 7 Dental, but in your email subject you wrote
 8 Steadfast Dental?
 9 MR. McDONALD: Object to form.
 10 BY MS. GOFF:
 11 Q Sorry. You said something about
 12 Steadfast Medical, but in your email you wrote
 13 Steadfast Dental?
 14 A I think it was just an error.
 15 Q Okay. Is it your understanding that
 16 the group is called Steadfast Medical?
 17 A It is.
 18 Q But did they have a dental arm?
 19 MR. McDONALD: Object to the form.
 20 BY MS. GOFF:
 21 Q Did they, at the time you wrote this
 22 email, have -- were they purchasing dental
 23 supplies from Schein?
 24 A They were serving the traditional
 25 dental market; however, the dental market they

1 were serving, the specialists they were serving
2 could be categorized as medical, oral,
3 maxillofacial surgery and periodontic surgery as
4 well as some implants. So that falls into a
5 little bit of a medical/dental area, thus the
6 name, I'm sure.

7 Q Gotcha. So you wrote -- as you
8 pointed out, you wrote: We think it's a DSO
9 called OMSP.

10 What is OMSP?

11 A Oral maxillofacial surgery partners.

12 Q What is that?

13 A DSO buying group.

14 Q And was -- is it your understanding
15 that Steadfast Medical is a subsidiary of some
16 kind of OMSP or what is the relationship?

17 A It is not. There is no relationship
18 whatsoever.

19 Q Why were you writing this email about
20 OMSP?

21 A Primarily because their customer base
22 or member base were all oral maxillofacial
23 surgeons.

24 Q Okay. I see. And then you wrote:
25 But there is no question this is a buying group.

1 Do you see that?

2 A Meaning that the private practice
3 offices that were part of their member group
4 were wholly owned private practice offices and
5 Steadfast Medical had no equity stake in the
6 individual offices, they were acting as agent,
7 procurement agent for their member base.

8 Q So the members of Steadfast were the
9 solo practitioners that we discussed earlier?

10 A I don't know if they had multiple
11 offices, but essentially even if they had two
12 offices, they would fall into the private
13 practice realm.

14 Q So why did you feel it was relevant to
15 inform Mr. Cavaretta and Mr. McLemore that this
16 is a buying group?

17 A Well, part of my job was reporting
18 back to my boss what my findings were with the
19 customer in the field and this Steadfast Medical
20 was a mystery and I was giving clarity to the
21 teams, again, so that we could serve them
22 relevantly with our field sales force.

23 Q Did you think that Mr. Cavaretta and
24 Mr. McLemore would think it was important that
25 this was a buying group?

1 MR. McDONALD: Object to the form.

2 THE WITNESS: I thought they would
3 think it was important that we were serving
4 the customer appropriately.

5 BY MS. GOFF:

6 Q But why specifically was it relevant
7 to write that it was a buying group, why was it
8 specifically relevant to inform Mr. Cavaretta
9 and Mr. McLemore that it was a buying group?

10 MR. McDONALD: Object to the form. Go
11 ahead.

12 THE WITNESS: Because we were
13 attempting to establish standards and
14 understanding of how the buying group went
15 to market so that they were aligned with
16 Henry Schein to help us grow our business,
17 to act as a marketing arm on our behalf and
18 not to redirect our business to a
19 competitor.

20 BY MS. GOFF:

21 Q So at this time you were trying to
22 establish standards with regard to buying
23 groups?

24 A Making sure that the business was not
25 only healthy for all stakeholders, especially

1 the end user and their patients, but that we
2 were also able to gain greater access to the
3 member base, access greater access and sell
4 holistically to their member base.

5 Q And did someone at Henry Schein
6 instruct you to do that?

7 A I think that was just good business
8 that we were making sure that since a lot of
9 thought and strategy wasn't giving -- given to
10 open these accounts, it was a mission to fully
11 understand who they were and how we could
12 complement each other.

13 Q By these accounts, do you mean buying
14 group accounts?

15 A This one in particular and Dental
16 Co-op.

17 Q And so what raised a flag for you
18 about Steadfast Dental in particular that made
19 you want to look into it further?

20 MR. McDONALD: Object to the form.

21 THE WITNESS: What raised a flag is
22 the year-over-year business was down
23 45 percent and the individual member groups
24 had no field sales consultants assigned to
25 each of the locations.

1 BY MS. GOFF:
 2 Q How did you know that the business was
 3 down?
 4 A I ran a report.
 5 Q Did you look into every group where
 6 the business was down year over year?
 7 A Every group?
 8 Q So after you ran the report --
 9 A Every office or every group?
 10 Q Let me ask a different question.
 11 When you ran a report to determine
 12 that business was down 45 percent, did you run a
 13 report to find out if any other offices were
 14 down in business, any other groups or customers
 15 were down in business?
 16 A I guess it's vague. I don't
 17 understand the relevancy.
 18 Q Okay. So you ran a report to find out
 19 that Steadfast was -- business was down; right?
 20 A Steadfast business wasn't down, the
 21 office -- the member base offices were down year
 22 over year.
 23 Steadfast business was \$150,000 a
 24 year, but when we looked at their member base,
 25 they had formerly had account numbers under the

1 business within that organization.
 2 BY MS. GOFF:
 3 Q Did you run reports for all of the new
 4 customers that you picked up when you went over
 5 to HSD?
 6 A We received reports, sales reports on
 7 all of them and we would look at the parent
 8 organization and look at the year-over-year
 9 reports. And certainly we had reports. Those
 10 that were down, we would take a harder look at,
 11 yes.
 12 Q Okay. And so were there other ones --
 13 when you transferred over to HSD, were there
 14 other accounts that were down?
 15 A Certainly.
 16 Q And did you look into those?
 17 A Of course.
 18 Q And were -- can you name the ones that
 19 were down that you looked into?
 20 A They are too numerous. This one had
 21 many, many members, so this one I would look at
 22 more -- with more of an intention of finding out
 23 why because they had so many locations, they
 24 should have been performing way over this
 25 \$150,000.

1 HSD umbrella with FSCs calling on them. New
 2 accounts were opened up and the FSCs weren't
 3 carried with them, nor was their former history.
 4 So when we looked at the history when
 5 they were a Henry Schein Dental account from
 6 when they migrated over to Steadfast as the
 7 parent with new account numbers, we found that
 8 they were down 45 percent year over year and our
 9 field sales consultants were not visiting those
 10 offices as they formerly had.
 11 Q What prompted you to do the -- run all
 12 those reports that you just mentioned?
 13 MR. McDONALD: Object to the form. Go
 14 ahead.
 15 THE WITNESS: Again, it was my job to
 16 understand what the business was and whether
 17 there was a starting point for a discussion
 18 with Steadfast.
 19 The goal was I went in with the
 20 intention of finding ways to work with the
 21 VP to enhance the relationship that we
 22 currently had, have more of a presence in
 23 their corporate office and find ways to work
 24 strategically together not only to serve the
 25 member group better but also to grow our

1 Q And so Schein was still making money
 2 off of these accounts; correct?
 3 MR. McDONALD: Object to the form.
 4 BY MS. GOFF:
 5 Q So even though you said that business
 6 was down year over year, Schein was still making
 7 money from these accounts?
 8 A Schein was losing significantly on
 9 these accounts, up to 45 percent of the
 10 business. And that 45 percent of the business,
 11 as I discovered from speaking to their director
 12 of procurement, was being redirected to the
 13 variety of vendors they had brought on board.
 14 In fact, what they did was they took
 15 an order, let's say they had 25 items, and they
 16 would divvy that order up to whatever vendor
 17 offered the cheapest price on that product.
 18 Q What about the other 55 percent? So
 19 you said the 45 percent of the business you were
 20 losing; right?
 21 A M-hm.
 22 Q But Schein was still able to sell
 23 products to some customers through the Steadfast
 24 relationship; right?
 25 A Yes.

1 Q And so Schein was still making money
2 off of those products that it was able to sell?

3 A We were not selling at a loss.

4 Q Going back to whether this was a
5 buying group, were you concerned that Steadfast
6 Dental was a buying group?

7 A I was not. I was concerned that it
8 was a buying group that had not been properly
9 negotiated, that we did not have a clear
10 understanding of each other's expectations and
11 that instead of enhancing not only the business
12 that Henry Schein had but was also enhancing the
13 service that they were providing to their member
14 group.

15 Q Okay. So at this point -- let's refer
16 back to your March 25th, 2014 email -- you were
17 still in discovery on the buying group; correct?

18 A Correct.

19 Q But you wrote: Do we shut this down?
20 So you're asking to shut it down?

21 MR. McDONALD: Object to form,
22 mischaracterizes her testimony.

23 THE WITNESS: At this point, no. I
24 mean, it was just -- I don't know. I
25 misspoke.

1 I don't know what I meant by that
2 because I wouldn't make that recommendation
3 unless I had done all of the research
4 necessary and provided a report back to the
5 leadership that this was a relationship we
6 wanted to continue to grow and empower.

7 BY MS. GOFF:

8 Q Did you have the impression that
9 Mr. Cavaretta wanted to shut down buying groups?

10 A I did not.

11 Q Is there any other reason why you
12 might have asked at this point when you're still
13 doing discovery on the group whether to shut it
14 down?

15 MR. McDONALD: Object to the form,
16 mischaracterizes her testimony.

17 THE WITNESS: I was alarmed that the
18 sales were down. I was alarmed that there
19 were no field sales consultants on the
20 account. Those two things alone were a
21 concern to me that demanded exploration.

22 BY MS. GOFF:

23 Q So why didn't -- did you write in your
24 email to Mr. Cavaretta or Mr. McLemore that
25 sales were down?

1 A I did.

2 Q Where is that?

3 A It's not in here.

4 Q It's not in this email?

5 A Correct.

6 Q You think it's in another email?

7 A Probably.

8 Q What makes you think that?

9 A I would have reported the sales. They
10 would want to know that.

11 Q Do you think that this is the first
12 email that you wrote to Mr. Cavaretta about
13 Steadfast?

14 A It's early, March 25th. But I would
15 be guessing.

16 Q But this was early in your reporting
17 to Mr. Cavaretta?

18 A Clearly. I'm still in discovery would
19 indicate such.

20 Q And then you also said that you were
21 alarmed that there were no field sales
22 accountants on the account.

23 Did you write that on your email to
24 Mr. Cavaretta and Mr. McLemore?

25 A I did not, but by virtue of forwarding

1 the copy, I let them know that.

2 Q That's because Ms. Kerr wrote that?

3 A That's right.

4 Q Did you write to Mr. Cavaretta that
5 you were concerned about the no FSCs assigned?

6 A I don't remember.

7 Q In this email that we're looking at,
8 did you write that you were concerned about the
9 lack of FSCs being assigned?

10 A I don't think so, no.

11 Q You wrote: Rick H. was asked
12 repeatedly to deal with it but nothing ever
13 happened.

14 Is Rick H., do you believe you're
15 referring to Rick Heysquierdo?

16 A Correct.

17 Q And do you know what his job title
18 was?

19 A He was a regional account manager for
20 special markets.

21 Q And what makes you say that Rick H.
22 was asked to deal with it?

23 A He was opening new accounts for the
24 Steadfast member group and not bringing over our
25 field sales consultants with them.

1 Q How did you know that?
 2 A Because I asked Emily Kerr.
 3 Q Who is Emily Kerr?
 4 A She was the inside sales rep -- she
 5 was assigned and responsible for taking care of
 6 the orders that came in from Steadfast.
 7 Q You wrote that Rick H. was repeatedly
 8 asked to deal with it.
 9 What was he asked to deal with?
 10 A Work across the aisle with Henry
 11 Schein Dental and bring the field sales
 12 consultants into the mix so that we were not
 13 losing the opportunity to sell directly to the
 14 end user.
 15 Q And who informed you that it was --
 16 was it Emily Kerr that informed you of the --
 17 that Rick H. was asked to deal with it?
 18 A I don't recall.
 19 Q Okay. Do you have an understanding of
 20 who asked Rick H. to deal with it?
 21 A I don't recall.
 22 Q So do you recall discussing Steadfast
 23 Dental with Rick H. yourself?
 24 A No.
 25 Q And do you know who Rick H.'s boss

1 doing business with that were Henry Schein
 2 customers.
 3 Q Is it possible that after -- that if
 4 Schein stopped doing business with Steadfast,
 5 that it could lose those customers all together?
 6 A Possibly.
 7 Q Was that a concern of yours at the
 8 time?
 9 A Yes.
 10 Q But you still recommend it be shut
 11 down?
 12 A I recommended that we reengage our
 13 field sales consultants with the member group,
 14 the offices. We had a record of all of their
 15 account numbers and we had field sales reps that
 16 were assigned to each of those accounts.
 17 So I recommend that we reengage that
 18 dynamic, that relationship with the field sales
 19 consultant and the actual end user.
 20 Q And after Schein shut down Steadfast,
 21 do you know whether Schein was successful in
 22 reengaging with the end user?
 23 A I do not.
 24 Q Why not?
 25 A Because it's no longer my

1 was?
 2 A Randy Foley.
 3 Q Do you think that it was Mr. Foley
 4 that asked Rick H. to deal with it?
 5 A I don't know.
 6 Q Okay. What did you mean by nothing
 7 ever happened?
 8 A There were still accounts set up in
 9 the system without FSCs and their account
 10 numbers that had formerly been set up in Henry
 11 Schein Dental were disabled.
 12 Q If Schein was doing \$150,000 worth of
 13 business with Steadfast, why did you want to
 14 shut it down?
 15 MR. McDONALD: Object to the form,
 16 asked and answered.
 17 THE WITNESS: For the reasons I
 18 stated, they were down 45 percent year over
 19 year.
 20 BY MS. GOFF:
 21 Q Is it possible that continuing to work
 22 with Steadfast could have brought new customers
 23 to Schein?
 24 A It's possible, however, we wanted to
 25 address the customers that they currently were

1 responsibility. It goes back to being a Henry
 2 Schein core dental customer.
 3 Q So after it was shut down, Steadfast
 4 was no longer your responsibility?
 5 A That's right.
 6 Q And the customers of Steadfast were no
 7 longer your responsibility?
 8 A Yes.
 9 Q And did you ever follow up to see
 10 whether Schein retained any of those customers?
 11 A I did not.
 12 Q It was not important for you to know
 13 that?
 14 MR. McDONALD: Hang on. Object to the
 15 form. Go ahead.
 16 THE WITNESS: It was not my
 17 responsibility.
 18 BY MS. GOFF:
 19 Q Would it have been within Joe
 20 Cavaretta's responsibility?
 21 A Yes, indirectly. He had people
 22 between him that would.
 23 Q So is it possible that Schein lost all
 24 of those customers that it previously had when
 25 it was working with Steadfast?

1 MR. McDONALD: Object to the form,
2 calls for speculation. She's told you she
3 doesn't know.

4 BY MS. GOFF:

5 Q Is it possible?

6 MR. McDONALD: Object to the form,
7 calls for speculation.

8 BY MS. GOFF:

9 Q You can answer the question.

10 MR. McDONALD: Object to the form,
11 calls for speculation.

12 THE WITNESS: I have no idea.

13 BY MS. GOFF:

14 Q Okay. So you said in your email when
15 you wrote "Do we shut this down," question mark,
16 that you misspoke. Is that right?

17 A I presented a question that was not
18 intended to be answered at the moment I wrote
19 it.

20 I presented the question as just food
21 for thought because I was still doing discovery
22 and still trying to understand who they were and
23 whether they were -- whether we were able to
24 work with their vice president and their
25 director to create a strategy that was a win/win

1 for all the stakeholders, Schein, Steadfast, the
2 customer and their patients.

3 Q At this point you're saying you were
4 still doing discovery?

5 A Yes.

6 Q And do you have an understanding of
7 when your discovery was completed?

8 A I could estimate.

9 Q Okay.

10 A Three months.

11 Q And what happened at the end of three
12 months?

13 MR. McDONALD: Object to the form. Go
14 ahead.

15 THE WITNESS: As I stated prior, the
16 vice president stopped responding to my
17 phone calls and my emails.

18 BY MS. GOFF:

19 Q And eventually you recommended to shut
20 down Steadfast?

21 A Correct.

22 Q And why did you make that
23 recommendation?

24 A After repeated attempts to get
25 Mr. Staples to meet with our vice president, Joe

1 Cavaretta, to find a way to make it a healthy
2 relationship, and being shut out, we had no
3 choice then to say if you're not open to
4 renegotiating the relationship and how -- and
5 the redirection of Henry Schein existing
6 business, we're going to assume that that's not
7 in your -- you don't desire that.

8 Q So you tried to reach out to
9 Mr. Staples, you did not get any response, so
10 you assume that he did not want to, as you said,
11 make it a healthy relationship?

12 A I did not assume anything. I could
13 not assume anything. He would not reply.

14 I made verbal attempts, unwritten
15 attempts in my communication that we were very
16 open to creating a healthy relationship and
17 wanted to sit down with him to find ways to find
18 winnable strategies to work with our collective
19 audience.

20 Q And so what would have been your -- if
21 Mr. Staples had been willing to engage, what
22 would you have wanted to see from Mr. Staples?

23 A I would have liked to have known why
24 they were taking existing Henry Schein business
25 and redirecting it to competitors. Whether they

1 were direct or distribution, I have no idea.

2 Q Anything else you would have liked to
3 know?

4 A How we could make Henry Schein more
5 central and a preferred partner perhaps, even an
6 exclusive partner.

7 Q One more question about this email and
8 then we can put it aside.

9 When you wrote "Do we shut this down,"
10 question mark, what did you mean to say instead
11 of that if you misspoke?

12 MR. McDONALD: Object to the form,
13 asked and answered. Go ahead.

14 THE WITNESS: I meant -- the intention
15 behind the statement was can you please look
16 at this and give this some thought as I
17 complete my discovery.

18 BY MS. GOFF:

19 Q And do you think that Mr. Cavaretta
20 and Mr. McLemore understood that was your
21 meaning?

22 A I do.

23 Q What makes you say that?

24 A Because there were many engagements
25 posted where Mr. Cavaretta had offered multiple

1 dates to come and meet with the vice president.

2 MS. GOFF: Okay. I'll hand you
3 another document that's been marked as
4 CX2216.

5 (Exhibit CX2216 was marked.)

6 THE WITNESS: Okay.

7 MS. GOFF: So just for the record,
8 this is a document with the Bates stamp
9 Henry Schein-00034704. The latest in time
10 email is from Joe Cavaretta to you and
11 several other individuals dated June 10th,
12 2014, subject Steadfast Medical GPO.

13 BY MS. GOFF:

14 Q And there are prior emails from you to
15 various individuals.

16 Did you write these emails?

17 A Yes.

18 Q And you drafted them as part of your
19 job at Henry Schein?

20 A Yes.

21 Q You acknowledge the contents of the
22 emails?

23 A Yes.

24 Q I guess why don't we start with the
25 email to Mr. Jon Staples dated June 10th, 2014

1 at 3:01 p.m.

2 A Okay.

3 Q So in this email, are you informing
4 Mr. Staples that -- basically are you
5 terminating the relationship with Steadfast?

6 A Yes.

7 Q And you wrote to Mr. Staples that:
8 After examination of your GPO business model, we
9 have concluded that continuation of our current
10 relationship is counter to our business
11 practices.

12 Do you see that?

13 A I do.

14 Q Did I read it correctly?

15 A M-hm.

16 Q And what did you mean by counter to
17 our business practices?

18 A So in context to his specific
19 Steadfast Medical business model, we have
20 concluded that continuation of the current
21 relationship is counter to our business
22 practices in that they were either unwilling to
23 talk or connect with us in regards to
24 redirection of existing Henry Schein business to
25 competitors.

1 And I wanted to let him know that also
2 if he would reconsider, we would welcome
3 revisiting a mutually beneficial partnership.

4 Q Specifically I'm wondering what you
5 meant by the relationship is counter to your
6 business practices. I'm focused on the business
7 practices part.

8 What business practices are you
9 referring to?

10 MR. McDONALD: Object to the form,
11 asked and answered. Go ahead.

12 THE WITNESS: Business practices would
13 be to qualify a mutually beneficial
14 partnership to all of the stakeholders,
15 meaning that we wanted to have an identity
16 to the member base, we preferred an
17 exclusive partnership if possible.

18 We wanted to be able to rely on the
19 partner to promote Henry Schein. We wanted
20 to align our philosophy about serving our
21 customers holistically, meaning that they
22 would visit -- they would have access to
23 your surgical sales consultants, our field
24 sales consultants, our dental technology
25 consultants, our software consultants, our

1 equipment specialists consultants.

2 This was purely procurement and
3 redirecting existing business.

4 BY MS. GOFF:

5 Q So was it a policy of Henry Schein
6 that any groups that Schein would work with were
7 required to have that set of characteristics
8 that you just explained?

9 MR. McDONALD: Object to the form.

10 THE WITNESS: We did not have a
11 requirement as we were still trying to
12 understand the landscape; however, we wanted
13 to sit down with our potential partners and
14 discuss what that would look like so all
15 parties could win.

16 BY MS. GOFF:

17 Q So there is no specific requirements
18 at this point; is that your testimony?

19 MR. McDONALD: Hang on. Object to the
20 form, asked and answered. Go ahead.

21 THE WITNESS: Strategically speaking,
22 we wouldn't take all-comers, we would
23 identify each of the entities on a
24 one-by-one basis and we would evaluate by
25 sitting down with them, looking at our

1 mutual goals and finding a way that they
2 could increase our scope of influence,
3 perhaps act as a third-party endorser, but
4 also carry a marketing mission forward to
5 their member group so that we could grow our
6 business collectively together.

7 BY MS. GOFF:

8 Q So right now you're speaking about
9 buying groups, or what type of groups are you
10 referring to?

11 A Buying groups.

12 Q Okay.

13 A GP, group purchasing, buying groups,
14 yes.

15 Q You mentioned that as of the time of
16 the email that we've previously looked at, the
17 March 25th, 2014 email, that you were still
18 doing discovery on Steadfast but you referred to
19 it as a buying group.

20 At any point did your understanding of
21 whether Steadfast was a buying group change?

22 A I would call them less a buying group
23 and more a procurement service.

24 Q What is a procurement service?

25 A There is an anonymity for where the

1 products come from so that they were fulfillment
2 neutral.

3 Their fulfillment of the client's
4 orders was neutral. They took the supplier out
5 of the equation and also took our field sales
6 consultants out of the equation.

7 Q That's your understanding of what a
8 fulfillment or what a procurement service is?

9 A It's a very small distinction but an
10 important one, yes.

11 Q When you say a very small distinction,
12 a distinction between what?

13 A We want customers to be exposed to
14 Henry Schein. We want an opportunity to build
15 our brand and to sell that customer.

16 We are a full-service supplier,
17 distributor. We want access to those customers
18 and exposure to those customers and we want our
19 brand to be represented appropriately to those
20 member groups.

21 Q Is the distinction that you're making
22 between a procurement service and buying group?

23 A Is that the where -- when the customer
24 sent their order in, it was completely anonymous
25 how it would be fulfilled.

1 Q Meaning the -- well, what do you mean
2 by it would be completely anonymous?

3 A They would receive the order from the
4 customer, and then they would direct the
5 order -- if I ordered ten Pepsis, ten 7Ups and
6 ten Dr. Peppers, they would send the Dr. Peppers
7 to company A, the 7Ups to company B and the
8 Coke's to company C. But their member would not
9 express a preference or even know where that
10 business was going.

11 Q Okay. Are you aware of any other
12 entities that you would refer to as a
13 procurement service?

14 A No.

15 Q Just Steadfast?

16 A M-hm.

17 Q And are the members of Steadfast
18 generally dental offices?

19 MR. McDONALD: Object to the form.

20 THE WITNESS: They are generally
21 specialty offices that have a stake in
22 medical procedures that are performed in a
23 dental environment.

24 BY MS. GOFF:

25 Q Okay. So then turning to your

1 June 10th, 2014 email at 5:46 p.m., you sent
2 your email to Jon Staples to a group of people
3 internally at Schein. Is that correct?

4 A Is this my meeting to Jon or the one
5 on the front page?

6 Q Sorry, it's the one on the front page.

7 A Okay.

8 Q CX2216-001, and I'm looking at the
9 5:46 p.m. email that starts "Greetings, folks."

10 MR. McDONALD: Are you with her?

11 THE WITNESS: M-hm.

12 BY MS. GOFF:

13 Q So here you referred to Steadfast
14 Medical as a GPO; correct?

15 A It's a group purchasing, yes.

16 Q Okay. And then you say that they are
17 cannibalizing existing business.

18 Do you see that?

19 A I do.

20 Q And what did you mean when you wrote
21 cannibalizing?

22 A So they were taking the business that
23 was formerly being sent directly to Henry Schein
24 through our field sales force and our eCommerce
25 site and they were reallocating that business to

1 our competitors. The very same products were
2 being reallocated to Henry Schein's competitors.

3 Q So do you have -- was there a change
4 at some point within Steadfast where previously
5 the -- all of the orders that were placed
6 through Steadfast were being directed to Schein
7 and then at some point some of them were being
8 directed to other competitors?

9 A No.

10 Q So the entire time of the
11 relationship, it was this relationship where
12 some of the goods were being directed to
13 competitors?

14 A Correct.

15 Q You said earlier you don't know when
16 the relationship started?

17 A I don't know when the relationship
18 started; however, when we ran a year-over-year
19 report, using the private practice accounts that
20 had been set up under Henry Schein Dental, we
21 looked at the business and then looked at the
22 Steadfast business for the same time period of
23 time for the following year and they were down
24 45 percent.

25 Q And then turning to the top email from

1 Joe Cavaretta to you.

2 A M-hm.

3 Q So Joe Cavaretta was your boss at this
4 point; right?

5 A Yes.

6 Q And he wrote that: GPOs are popping
7 up like crazy, so it is nice when we can shut
8 one down.

9 Do you see that?

10 A I do.

11 Q So he was praising you for shutting
12 down a GPO; correct?

13 MR. McDONALD: Object to the form,
14 mischaracterizes the document, incomplete
15 reading of it.

16 BY MS. GOFF:

17 Q You can answer the question.

18 MR. KASS: I'm going to do a fairness
19 designation because you cut off the
20 sentence.

21 It says: GPOs are popping up like
22 crazy, so it's nice when we can shut one
23 down and still keep the business from the
24 individual customers.

25 MS. GOFF: Okay. Sir, with regard to

1 Henry Schein, I believe that there's one
2 attorney representing Henry Schein. I
3 believe it is Mr. McDonald.

4 MR. McDONALD: If you want me to do
5 it, I'll do it. So I'll do it. I'll do it.

6 Object to the form, mischaracterizes
7 the document. I will make a complete
8 designation and read the sentence in
9 totality.

10 "GPOs are popping like crazy, so it's
11 nice when we can shut one down and still
12 keep the business from the individual
13 customers."

14 BY MS. GOFF:

15 Q My question, Ms. Titus is: One of the
16 things that Mr. Cavaretta was saying in this
17 email was that it was nice when Schein could
18 shut down a GPO; correct?

19 MR. McDONALD: Object to the form.

20 Again, mischaracterizes the document and
21 reads a half of a sentence.

22 BY MS. GOFF:

23 Q You can answer the question.

24 A When he says "nice when we can shut
25 one down," what he's referring to is that we are

1 still able to keep the business from the
2 individual customer.

3 So you can't read just the "shut one
4 down" because it's completely out of context and
5 changes the intent of his statement.

6 Q How do you know the intent of
7 Mr. Cavaretta's statement?

8 A Because he said "and still keep the
9 business from the individual customers."

10 Q He was saying two things, he was happy
11 that you shut down a GPO; correct?

12 MR. McDONALD: Object to the form,
13 mischaracterizes the document.

14 BY MS. GOFF:

15 Q He was happy that you shut down a GPO?

16 A He was happy --

17 MR. McDONALD: Hang on. Hang on.
18 Object to the form, asked and answered,
19 mischaracterizes the document.

20 BY MS. GOFF:

21 Q Go ahead.

22 MR. McDONALD: You can't just make
23 this stuff up, Karen.

24 BY MS. GOFF:

25 Q You can answer the question.

1 MR. McDONALD: You can answer it
2 again. So give her the same answer you gave
3 two minutes ago.

4 THE WITNESS: He was happy that we
5 were keeping the business.

6 BY MS. GOFF:
7 Q Okay. That is the second part of his
8 statement to you; correct?

9 MR. McDONALD: Object to the form,
10 mischaracterizes the document.

11 Unless you wrote it, then you can't
12 tell her what it means. She's telling you
13 what it means to her and you can't testify
14 for her. You just don't like her answer.

15 So ask her for a third or fourth time
16 if you want to. The clock is ticking.

17 BY MS. GOFF:
18 Q Ms. Titus, I'm going to ask you this
19 question one more time.

20 MS. GOFF: I would appreciate it if
21 counsel would stop with the speaking
22 objections.

23 MR. McDONALD: I'm going to object
24 however I feel I need to object. I asked
25 you to please ask one question one time and

1 not four or five times because you don't
2 like the answer.

3 BY MS. GOFF:
4 Q Ms. Titus --

5 MR. McDONALD: It's abusive of the
6 witness.

7 BY MS. GOFF:
8 Q Ms. Titus, are you aware of what
9 Mr. Cavaretta was thinking when he wrote this
10 email?

11 A No.

12 Q Okay. And Mr. Cavaretta wrote: It is
13 nice when we can shut one down and still keep
14 the business from the individual customers.

15 That's correct?

16 A You read what he said.

17 Q Let's turn to the Dental Co-op.
18 Actually, I have one more question, actually,
19 separate and apart from this email.

20 But since we're talking about
21 Mr. Cavaretta, was Mr. Cavaretta -- you worked
22 for him for several years; right?

23 A I worked for him for three years, yes.

24 Q And is it your understanding that he
25 was email weary?

1 MR. McDONALD: Object to the form.

2 THE WITNESS: I have no idea what
3 you're talking about.

4 BY MS. GOFF:
5 Q Was he nervous about putting things in
6 email?

7 MR. McDONALD: Object to the form.

8 THE WITNESS: If he was, he never
9 expressed that to me at any time.

10 BY MS. GOFF:

11 Q Okay.

12 A Are we finished with that one?

13 Q You can put that aside, yes.

14 MS. GOFF: I'm handing you what has
15 been marked as Exhibit CX2206.

16 (Exhibit CX2206 was marked.)

17 BY MS. GOFF:

18 Q Have you had a chance to review it?

19 A M-hm.

20 MS. GOFF: For the record, I'll just
21 say it bears the Bates stamp Henry Schein,
22 then 000003359.

23 BY MS. GOFF:

24 Q And the top email, the latest in time
25 is from you to Mr. Cavaretta dated April 16th,

1 2014.

2 And then do you see that you wrote in
3 this email: I know you are email weary.

4 Do you see that?

5 A I do.

6 Q Do you have an understanding as you
7 sit here today of what you meant by that?

8 A I thought you said email wary. It
9 sounded like you said email wary. Did you?

10 Q I was using this term, "email weary."

11 A Okay.

12 Q So what I'm asking you right now is:

13 Do you have an understanding of what you meant
14 by that?

15 A I do.

16 Q What is it?

17 A There are a lot of communication
18 emails that take a lot of time out of people's
19 workday. And I was empathizing with the fact
20 that a lot of the information that was coming at
21 him was additional to his normal
22 responsibilities and perhaps he was getting
23 weary of reading lots and lots of email, as we
24 all are.

25 Q Okay. Thank you.

1 Before I switch to Dental Co-op --
2 MR. KASS: So one thing just for the
3 realtime record, it says -- your answer was:
4 I thought you said email wary.

5 It sounded like you said email wary,
6 but it shows up in the realtime as "weary,"
7 so I just want to make sure that you're
8 actually getting what she said on the
9 record.

10 MS. GOFF: As you know, Ms. Titus will
11 have the opportunity to review the
12 transcript and --

13 MR. KASS: I have --

14 MS. GOFF: Thank you for noting that,
15 Mr. Kass.

16 MR. KASS: I have every right to make
17 sure that the record that's being created as
18 we sit here today is accurate.

19 BY MS. GOFF:

20 Q Just one more question about Steadfast
21 before we move on.

22 Mr. Foley, was he one of the
23 individuals that you spoke with about
24 Steadfast -- I'm not referring to a document, so
25 you can actually put that document aside.

1 Was Mr. Foley one of the individuals
2 that you spoke with about Steadfast?

3 A Yes.

4 Q And about shutting it down?

5 A And about whether it was a
6 strategically sound partner for Henry Schein.
7 Not specifically with the end goal of shutting
8 it down. About the strategic partnership that
9 existed for Henry Schein.

10 Q Did you seek permission from Mr. Foley
11 to end the relationship with Steadfast?

12 A I don't remember.

13 Q Do you have an understanding of
14 whether Mr. Foley was okay with Schein ending
15 the relationship with Steadfast?

16 A I think Mr. Foley wanted to do his own
17 research or at least verify mine.

18 Q Do you know whether he eventually
19 approved of ending the relationship at
20 Steadfast?

21 A I believe he did.

22 Q Thank you.

23 Okay. The Dental Co-op of Utah, let's
24 talk --

25 A Do we need this any more?

1 Q No, you can put that one aside. Thank
2 you.

3 MS. GOFF: Why don't we start with a
4 document. I'm going to hand you a document
5 that has been marked as CX2227-1. I'm
6 sorry, could you hand one of those to your
7 counsel?

8 (Exhibit CX2227-1 was marked.)

9 BY MS. GOFF:

10 Q Have you had a chance to review the
11 email?

12 A I have.

13 MS. GOFF: For the record, I will note
14 that it bears the Bates stamp Henry
15 Schein-000173088. The latest in time email
16 is from Hal Muller to you and Mr. Foley
17 dated February 10th, 2014.

18 I would actually like to look at an
19 earlier email in the chain first, though, so
20 it's on page that has the stamp CX2227-004.

21 BY MS. GOFF:

22 Q It starts with -- it's at the top of
23 this page. It starts with, "Peripherally
24 aware."

25 Do you see that?

1 A M-hm.

2 Q Is this an email that you wrote?

3 MR. McDONALD: Take your time to read
4 it.

5 Are you done?

6 THE WITNESS: Do you want me to read
7 it?

8 MR. McDONALD: Yes, you should read it
9 before you answer her questions.

10 THE WITNESS: Okay.

11 BY MS. GOFF:

12 Q So is this an email you wrote?

13 A M-hm.

14 Q And are you knowledgeable of the
15 content?

16 A Yes.

17 Q So just referring to your sentence
18 where you said: The decision of HSD to treat
19 them as a GPO is a legacy decision that I do not
20 believe, if presented with the same
21 circumstances today, HSD would have embraced.

22 Did I read that correctly?

23 A You did.

24 Q And are you talking about in this
25 sentence the Dental Co-op of Utah?

1 A I am.

2 Q And what did you mean by if presented
3 with the same circumstances today, you do not
4 think that HSD would have embraced?

5 A I think the HSD team did not have a
6 clear understanding of what would constitute a
7 healthy relationship between a GPO like Dental
8 Co-op and our company.

9 At the time that they put the program
10 in place for this -- for Dental Co-op, there
11 were no discussions regarding existing Henry
12 Schein business. In this case we have an
13 exclusive relationship to distribute Colgate.
14 Colgate is a very large part of our customer
15 business. It's toothbrush, floss and paste and
16 other preventives.

17 What we discovered -- and again, this
18 was a surprise to all of the stakeholders at
19 Henry Schein -- was that Dental Co-op was --
20 were going to Henry Schein customers and taking
21 them off the Colgate plan that they were
22 receiving from Henry Schein and redirecting them
23 to Procter & Gamble to buy their preventives at
24 below our cost.

25 Q And did Mr. Cavaretta ask you to look

1 into the Dental Co-op relationship?

2 A I don't think it was Joe Cavaretta, I
3 think it was the regional manager that was
4 managing the relationship.

5 Q Who would that be?

6 A Jeff Harmon.

7 Q But when you moved over to HSD in
8 2014, someone asked to you look into the Dental
9 Co-op relationship?

10 A They asked me to evaluate the Dental
11 Co-op relationship and help to create a
12 healthier, more win/win relationship with the
13 co-op.

14 Q And what did you -- what would a more
15 healthy win/win relationship look like?

16 A One was there was a tacit
17 understanding from the Henry Schein Dental folks
18 that the Dental Co-op was only promoting Henry
19 Schein.

20 However, when we were alerted by our
21 partner that there were over 300 offices in the
22 Utah market that were on a Colgate plan and they
23 were being taken off that Colgate plan by Dental
24 Co-op and redirected to Procter & Gamble, I was
25 asked to go in and negotiate with the general

1 co-op leadership to first address why and how we
2 could start bringing that business back. And in
3 the spirit of our relationship of reciprocity,
4 keep that business that we had established with
5 Henry Schein.

6 Q And were you successful in doing that?

7 A No.

8 Q Why not?

9 A Because the -- I guess he was the VP
10 of Dental Co-op refused to keep Schein exclusive
11 and had made commitments to direct sellers to
12 move business towards them.

13 Q And so then at some point the
14 relationship with the Dental Co-op of Utah
15 ended; correct?

16 A I'm assuming that is correct; however,
17 I was not a part of the process because the
18 offices that were enrolled in the Dental Co-op
19 were all private practice offices with field
20 reps again.

21 Q So did you make a recommendation to
22 anyone to end the relationship with the Dental
23 Co-op of Utah?

24 A I believe I did.

25 Q And who were those people again?

1 A It would be Kevin Upchurch, it was his
2 own manager, Jeff Harmon, and Joe Cavaretta.

3 Q But you don't know what happened
4 following your recommendation?

5 A I don't.

6 Q And the Dental Co-op, was that within
7 your area of responsibility when you switched
8 over to HSD?

9 A Technically, no, but my expertise was
10 needed to put a critical eye to the relationship
11 and act as a chief negotiator to bring the
12 relationship back to a healthy place.

13 Q Why was it technically not in your
14 area of responsibility?

15 A Because, again, the offices were
16 private practice offices.

17 Q But didn't you have other entities
18 that were within your area of responsibility
19 where the offices were private practice offices?

20 A The only time it was specifically my
21 responsibility is if they had been opened under
22 the special markets flag and I inherited them
23 with the launch of mid-market. This one always
24 resided with HSD.

25 Q But it had more than three offices;

1 correct?
2 MR. McDONALD: Object to the form.
3 BY MS. GOFF:

4 Q The Dental Co-op of Utah, did it have
5 more than three --

6 A Three members?

7 Q Three members, yes.

8 A It did.

9 Q But that would not fall within your
10 purview?

11 A They didn't own the offices. Members
12 and ownership are two completely different
13 things.

14 Q Thank you for the clarification.

15 So you said that you brought your --
16 you were asked to bring your expertise to
17 address the Dental Co-op situation?

18 A To negotiate with Dental Co-op.

19 Q Who asked you to do that?

20 A I think it was Jeff Harmon.

21 Q Okay. What was your expertise that he
22 was asking you to bring as you understood it?

23 A Looking at a parent organization who
24 has influence over Henry Schein business and
25 making sure that we're strategically aligned not

1 only with their mission and message but also
2 that there is a certain degree of assurance that
3 Henry Schein's brand will be promoted, that we
4 would have access to their members and that we
5 would have an opportunity to grow our business,
6 helping our customers thrive and bring quality
7 dentistry to their patient base.

8 Q Was the Dental Co-op a profitable
9 relationship for Schein?

10 A Not in my estimation.

11 Q Why not?

12 A They were doing a million dollars
13 worth of business collectively with their member
14 group. However, there were 400 members. That's
15 not a healthy ratio.

16 Q What do you mean by that's not a
17 healthy ratio?

18 A So if I took 400 members and divided
19 by a million and just assigned a number for each
20 location, that would be a pretty poor
21 representation of the potential of a single
22 dental office volume if they were treating Henry
23 Schein as their primary supplier.

24 Q If a DSO was doing a million dollars
25 worth of business with Henry Schein, would you

1 consider that to be profitable?

2 MR. McDONALD: Object to the form.

3 THE WITNESS: That's not the
4 measurement that we would look at. We would
5 look at their number of locations and how
6 deep we were selling into the environment.

7 BY MS. GOFF:

8 Q So I just want to make sure I have an
9 answer to the question.

10 So if a DSO is doing a million dollars
11 worth of business, would you consider that to be
12 profitable?

13 MR. McDONALD: Object to the form,
14 asked and answered.

15 THE WITNESS: It depends on the number
16 of locations.

17 BY MS. GOFF:

18 Q And if there were 400 locations for a
19 DSO, would you consider that to be profitable?

20 MR. McDONALD: Object to form.

21 THE WITNESS: No.

22 BY MS. GOFF:

23 Q Did anyone at Schein -- did you ever
24 hear anyone at Schein say that they thought the
25 relationship with the Dental Co-op of Utah was

1 profitable?

2 A No.

3 Q You never heard that --

4 A I never heard anybody weigh either way
5 on it.

6 Q And did you ever tell anyone that you
7 didn't think that the relationship was
8 profitable?

9 A I don't think I said those words, but
10 what I said was they were redirecting existing
11 established Henry Schein business to a direct
12 seller that we couldn't compete with in two
13 major categories for our organization.

14 And the leadership at Dental Co-op
15 refused to reconsider their practices.

16 Q Why couldn't Henry Schein compete with
17 the direct selling manufacturer?

18 A We're a distributor, so there is a
19 profit margin that's worked in for distribution.
20 Direct sellers don't have that middleman. So
21 buying direct puts us at a disadvantage.

22 If you take Procter & Gamble, for
23 example, Oral-B, they sell both direct and they
24 sell to the professional trade through
25 distribution. If you buy from Procter & Gamble

1 direct, they are buying at below our cost.
 2 Q So Henry Schein couldn't compete
 3 because Henry Schein couldn't afford to lower
 4 its prices enough to compete with Procter &
 5 Gamble in that circumstance?
 6 A No, we could not.
 7 Q Turning back to the email, you wrote:
 8 As I see it, this portends the empowerment of
 9 the GPO infiltration in the dental space. And
 10 as this scenario illustrates, the dilution of
 11 the influence of distribution.
 12 Do you see that?
 13 A I do.
 14 Q So what did you mean by the dilution
 15 of the influence of distribution?
 16 A The GPO and their member base as a
 17 third party that is essentially standing between
 18 us and their customer and promoting a certain
 19 product list, goods, vendors, et cetera, they
 20 have the power to redirect our business by
 21 virtue of their -- the captive audience they
 22 have with their member group.
 23 Q And was this concerning to you?
 24 A It was concerning to me if we did not
 25 have a well negotiated agreement with them.

1 THE WITNESS: I have no idea.
 2 BY MS. GOFF:
 3 Q The members of the co-op were getting
 4 lower prices for the Procter & Gamble supplied
 5 products that Henry Schein could offer those
 6 members?
 7 A That's correct.
 8 Q Okay. So going back to what a well
 9 negotiated agreement would be from Schein's
 10 perspective, what were you looking for?
 11 MR. McDONALD: Object to the form,
 12 asked and answered. Go ahead.
 13 THE WITNESS: Ideally, exclusivity
 14 within reason, the ability to engage, reach
 15 and sell deeper into the member base, an
 16 opportunity to grow our scope of influence
 17 within the dental landscape, so as they add
 18 members, we want to be able to engage with
 19 those members.
 20 The ability to sell more holistically
 21 to their member base, meaning software
 22 equipment, dental technology, business
 23 solutions.
 24 BY MS. GOFF:
 25 Q So with regard to the Dental Co-op

1 Q And what would be a well negotiated
 2 agreement in your mind?
 3 A One that's mutually beneficial to all
 4 the stakeholders, the GPO, Henry Schein, the end
 5 user and the patients.
 6 Q And is it your understanding that the
 7 relationship between Henry Schein and the Dental
 8 Co-op of Utah was not mutually beneficial for
 9 all of the stakeholders?
 10 A Correct.
 11 Q It was beneficial for the co-op,
 12 though, wasn't it?
 13 MR. McDONALD: Object to the form.
 14 BY MS. GOFF:
 15 Q You can answer the question if you're
 16 able to.
 17 A I'm not sure what you mean.
 18 Q Well, it was beneficial to the members
 19 of the co-op; correct?
 20 MR. McDONALD: Object to the form.
 21 BY MS. GOFF:
 22 Q I'll ask a different question.
 23 The members of the co-op were getting
 24 the lowest possible price for goods; correct?
 25 MR. McDONALD: Object to the form.

1 relationship specifically, I understand that
 2 there was not an exclusive relationship, but
 3 were you able to offer all of the other things
 4 that you just mentioned to the Dental Co-op of
 5 Utah?
 6 A We never got that far.
 7 Q I mean in the relationship that Schein
 8 had with the Dental Co-op of Utah before you
 9 were involved?
 10 MR. McDONALD: Object to the form.
 11 BY MS. GOFF:
 12 Q Why don't I go through.
 13 Before you were involved, is it your
 14 understanding that Schein was able to reach and
 15 sell into the member base of Dental Co-op?
 16 A I have no knowledge of what that
 17 looked like.
 18 Q Okay. But you did research on the
 19 Dental Co-op of Utah and the relationship before
 20 you recommended that it be shut down; right?
 21 A I was only asked to come and address a
 22 red flag that was popping up where we had over
 23 300 dental plans existing, established dental
 24 plans with Henry Schein customers, and that
 25 member base and those dental plans were being

1 redirected by the co-op to our competitor.

2 Q So you were only asked to address that
3 one specific part of the relationship?

4 A I was asked to act as a negotiator to
5 help bring the relationship back to a healthy
6 place.

7 Q And so did you ask the co-op for an
8 exclusive relationship?

9 A I did.

10 Q And they said no?

11 A They did.

12 Q Was the co-op offering the ability for
13 Henry Schein's FSCs to call on the members of
14 the co-op?

15 A We did not have that discussion.

16 Q You don't know?

17 A I think they were, but we didn't have
18 that discussion.

19 Q Okay. That wasn't relevant to you?

20 MR. McDONALD: Object to the form,
21 mischaracterizes her testimony.

22 BY MS. GOFF:

23 Q Go ahead, you can answer.

24 A That wasn't part of the discussion.

25 Q Other than exclusivity, was there

1 anything else that you discussed with the Dental
2 Co-op of Utah?

3 A Not that I would recollect.

4 Q Then in the next paragraph, you wrote:
5 This needs to get on the radar of HSD leadership
6 (Joe Cavaretta and Dave Steck and Hal Muller)

7 A.S.A.P. Would you be okay with me sending them
8 an alert, question mark. Perhaps there is
9 something we can do to derail this gaining more
10 momentum.

11 Do you see that?

12 A I do.

13 Q Did I read it right?

14 A M-hm.

15 Q You're writing this email to Francis
16 Keefe?

17 A M-hm.

18 Q Who is Francis Keefe?

19 A Francis Keefe is the national sales
20 manager for Colgate.

21 Q Okay. And what did you want to get on
22 the radar of HSD leadership?

23 A That we had 300 preventative plans
24 with Henry Schein clients, because it's an
25 exclusive product, that were being redirected.

1 In essence the Dental Co-op, in conjunction with
2 P&G, Palmolive, was -- were going to our
3 customers and redirecting established business
4 to P&G.

5 Q How did you know that the business was
6 established?

7 A We had records of dental plans, of
8 preventive plans. The person that's writing
9 this has a list of contracts.

10 Q The Francis O'Keefe?

11 A M-hm.

12 Q So then you wrote: Perhaps there is
13 something we can do to derail this gaining
14 momentum.

15 Were you referring to the Dental Co-op
16 gaining momentum?

17 MR. McDONALD: Object to the form.

18 THE WITNESS: No.

19 BY MS. GOFF:

20 Q What were you referring to?

21 A The redirection of our Colgate plans
22 to our competitor.

23 Q And at this point are you aware of how
24 long the plans had been redirected? In other
25 words, was this a recent change as of the date

1 that you wrote this email?

2 A I have no idea.

3 Q Okay. So you don't know whether the
4 plans had been buying from P&G for a long period
5 of time or not?

6 MR. McDONALD: Object to the form,
7 asked and answered.

8 THE WITNESS: This was brought to our
9 attention by Colgate, so clearly it was
10 something that had just started happening.

11 BY MS. GOFF:

12 Q But this issue was brought to your
13 attention from people within Schein as well;
14 right?

15 A No. This particular situation here
16 with the dental plans was brought to my
17 attention by our channel partner at Colgate.

18 Q Okay. I guess this was dated February
19 2014, so were you within special markets at this
20 time?

21 A Yes.

22 Q So were you working for Joe Cavaretta?

23 A No.

24 Q But then at some point when you did
25 move over to HSD, your testimony is that

1 Mr. Harmon asked you to look into the Dental
 2 Co-op?
 3 A He asked for my assistance.
 4 Q And that was because of this Colgate
 5 issue?
 6 MR. McDONALD: Object to the form. Go
 7 ahead.
 8 THE WITNESS: The Colgate issue but as
 9 well the expertise that I brought in
 10 negotiating with business entities like the
 11 Dental Co-op and others.
 12 BY MS. GOFF:
 13 Q Okay. And are there any other
 14 groups -- when you switched over to HSD, are
 15 there any other groups that anyone asked you
 16 specifically to look into?
 17 A No.
 18 MR. McDONALD: We've been going like
 19 an hour and 45 minutes.
 20 MS. GOFF: Okay.
 21 MR. McDONALD: So find a breaking
 22 point and we'll take a break.
 23 MS. GOFF: Okay. Why don't we take a
 24 break now then. Can we do our lunch -- off
 25 the record.

1 group?
 2 A Correct.
 3 Q And did you -- you were in favor of
 4 Henry Schein working with PGMS; is that right?
 5 A I was in favor of exploring a
 6 relationship with them to possibly create a
 7 buying arm for their consulting group.
 8 Q Did you feel that that could be a
 9 potentially profitable relationship for Schein?
 10 A I did.
 11 Q Did you think it could bring
 12 incremental sales?
 13 A I did.
 14 Q Did you negotiate an exclusive
 15 relationship with PGMS, between Schein and PGMS?
 16 A Unfortunately, they would not accept
 17 an exclusive relationship.
 18 Q So you were not able to negotiate an
 19 exclusive relationship for Schein?
 20 A I was not.
 21 MR. McDONALD: Pause. Let her finish.
 22 BY MS. GOFF:
 23 Q You were not?
 24 A I was not.
 25 Q So when you use the term "exclusive,"

1 (Recess taken.)
 2 BY MS. GOFF:
 3 Q Ms. Titus, switching gears now, are
 4 you familiar with a group called PGMS?
 5 A I am.
 6 Q And was that another group that you
 7 dealt with within the first few months of being
 8 transferred from special markets to HSD in 2014?
 9 A It was.
 10 Q Was that a buying group based in
 11 California?
 12 A It was not a buying group.
 13 Q What would you call it?
 14 A Consulting group that had aspirations
 15 to be a buying group.
 16 Q Okay. What is a -- what is your
 17 definition of a consulting group?
 18 A They would come in to an organization
 19 and assess the efficacy of their operations and
 20 make suggestions and work side by side with them
 21 to make improvements in their organization to
 22 increase revenue, to improve their operational
 23 efficiencies, et cetera.
 24 Q Okay. But it was your understanding
 25 that PGMS had aspirations to become a buying

1 what do you mean?
 2 A That as supply distribution goes,
 3 there are a handful of them that fit the profile
 4 of Henry Schein which would be full service,
 5 meaning that we have a full suite of field sales
 6 consultants, technicians, specialists, subject
 7 matter experts, specialists. And that we would
 8 not want to have another competitor also share
 9 that space with us.
 10 Q Okay. But even though it was not --
 11 even though it's your testimony that it was not
 12 an exclusive relationship, you were interested
 13 in working with PGMS?
 14 MR. McDONALD: Object to the form,
 15 mischaracterizes her testimony.
 16 THE WITNESS: I was interested in
 17 negotiating a possibility of creating a
 18 relationship.
 19 BY MS. GOFF:
 20 Q Was the decision of whether to work
 21 with PGMS eventually elevated to Tim Sullivan?
 22 A No.
 23 Q Let's look at some documents.
 24 MS. GOFF: I handed you what's been
 25 marked as CX2235.

1 (Exhibit CX2235 was marked.)
 2 BY MS. GOFF:
 3 MS. GOFF: It's a document with the
 4 Bates stamp Henry Schein-001453275. There
 5 is a cover email and then attachment and the
 6 email is from you to Glenn Showgren and
 7 Kevin Upchurch that's dated July 17th, 2014.
 8 BY MS. GOFF:
 9 Q Have you had a chance to look over the
 10 email?
 11 A Uh-huh.
 12 Q I don't think I'll be asking you any
 13 specific questions about the attachment, or the
 14 attachments rather. But if I do and you feel
 15 the need to review it, obviously feel free.
 16 A Okay.
 17 Q So you wrote in this email: We had a
 18 GPO prospect called PGMS.
 19 Is that the PGMS that we've been
 20 talking about today?
 21 A It is.
 22 Q You wrote: Very intriguing, willing
 23 to be exclusive.
 24 So in this email you were informing
 25 Mr. Showgren and Mr. Upchurch that PGMS was

1 Schein umbrella, but I was the mid-market
 2 business unit, they were the core private
 3 practice business unit, but we had overlap and
 4 collaboration.
 5 Q Okay. But were they superior -- were
 6 they your superiors at Henry Schein?
 7 A I would not call them superiors, no.
 8 Q Okay. In any event, they are your
 9 colleagues at least?
 10 A Colleagues is a good word.
 11 Q Okay. And you told them that PGMS was
 12 willing to be exclusive as of the date you sent
 13 this email?
 14 A That's correct.
 15 Q And you attached an agreement. Was
 16 this an agreement that you had negotiated with
 17 PGMS?
 18 A This was the agreement that I had sent
 19 to PGMS for signature.
 20 Q And you wrote: I created this and
 21 sent to Joe for review.
 22 Do you see that?
 23 A Yes.
 24 Q Is Joe Joe Cavaretta?
 25 A It is.

1 willing to be exclusive?
 2 A I was.
 3 Q And are you saying that this was
 4 inaccurate?
 5 A Post sending the attached agreement,
 6 the founding doctor, Dr. Juan Luque, could not
 7 assure that he would be exclusive with Henry
 8 Schein, nor could he assure their ten members
 9 would agree to as well.
 10 Q As of the time you wrote this email on
 11 July 17th, 2014 at 12:21 p.m., you believed that
 12 the PGMS entity was willing to be exclusive; is
 13 that correct?
 14 A At that point, yes.
 15 Q Before we continue, just to confirm,
 16 you did write this email; correct?
 17 A You did.
 18 Q You have knowledge of the contents?
 19 A I do.
 20 Q And Mr. Showgren and Mr. Upchurch,
 21 were they on the org chart above you?
 22 A Correct. Well, yes. They were, yes.
 23 Q They were your superiors?
 24 A They worked for Henry Schein Dental,
 25 not mid-market were both underneath the Henry

1 Q And then you said: It went to Tim and
 2 he shot it down.
 3 Is this a reference to Tim Sullivan?
 4 A I'm assuming that is the case.
 5 Q Okay. So you wrote this email; right?
 6 A I did.
 7 Q So sitting here today, are you able to
 8 tell me whether or not this Tim that you meant
 9 in this email is Tim Sullivan or not?
 10 A I'm sure it was.
 11 Q And so you're saying that Tim Sullivan
 12 shot down an agreement with PGMS?
 13 A Yes.
 14 Q And then you wrote: I think the meta
 15 message is officially GPOs are not good for
 16 Schein.
 17 Did I read that correctly?
 18 A I did.
 19 Q MSG is an abbreviation in this
 20 sentence for message; correct?
 21 A Correct.
 22 Q On the date you wrote this email, you
 23 felt that the message from above was that GPOs
 24 are not good for Schein?
 25 MR. McDONALD: Object to the form.

1 THE WITNESS: Yes, and that statement
 2 was not -- I did not have intimate
 3 knowledge, it was what I was thinking it
 4 meant.
 5 BY MS. GOFF:
 6 Q You were thinking it meant that the
 7 message from Tim is Sullivan was that GPOs are
 8 not good for Schein?
 9 A At least this one.
 10 Q But you wrote GPOs are not good
 11 Schein, it wasn't specific to this one?
 12 MR. McDONALD: Object to the form,
 13 mischaracterizes the document and her
 14 testimony.
 15 BY MS. GOFF:
 16 Q Did you write GPOs are not good for
 17 Schein?
 18 MR. McDONALD: Hang on. Object to the
 19 form. You're reading half a sentence. Go
 20 ahead.
 21 THE WITNESS: The context is PGMS
 22 agreement.
 23 BY MS. GOFF:
 24 Q So is it your testimony that at some
 25 point -- well, let me just back up.

1 A I don't know the timeline. I can't
 2 testify to the timeline.
 3 Q Well, in your email you wrote willing
 4 to be exclusive; right?
 5 A Yes, verbally, yes.
 6 Q And what you sent to Joe was the
 7 attachment that we see here; is that right?
 8 A Right.
 9 Q And that's what you sent to Joe for
 10 review?
 11 A Correct.
 12 Q So do you have an understanding of
 13 what Mr. Sullivan said about the PGMS agreement?
 14 A I do not.
 15 Q How did you come to understand that
 16 Tim shot it down?
 17 A I believe that the agreement that I
 18 had sent was not -- was not something that was
 19 appropriate for a ten-member group.
 20 Q So my question was: How did you come
 21 to understand that Tim rejected the PGMS
 22 agreement? Did someone inform that, did someone
 23 tell that to you?
 24 A I don't remember. It wouldn't have
 25 been anybody except for my boss. I never went

1 So as of the time that you wrote this
 2 email, it was your understanding that Tim
 3 Sullivan had shot down a PGMS agreement?
 4 A Yes.
 5 Q And as of the date of this email, it
 6 was your understanding that the agreement
 7 between Schein and PGMS would be an exclusive
 8 agreement?
 9 A No, because there was no signature,
 10 there was no final sit-down with the customer to
 11 discover the terms of the attached agreement.
 12 And when they did review and verbally we
 13 reviewed them, first and foremost, they could
 14 only assure us ten of their consulting members
 15 and none of those ten would commit to
 16 exclusivity or even compliance with the
 17 agreement, nor would the founding doctor,
 18 Dr. Juan Luque.
 19 Q Okay. I understand that at some point
 20 after you wrote this email, you came to the
 21 understanding that PGMS was not willing to be
 22 exclusive; is that right?
 23 A That's right.
 24 Q But when you wrote this email, you
 25 thought that they were willing to be exclusive?

1 over -- I never jumped rank over Joe. That
 2 would be as high as I would go.
 3 Q So you never personally had a
 4 conversation with Mr. Sullivan about this?
 5 A Never.
 6 Q But you think Joe would be the person
 7 that informed you that Tim was not in favor of
 8 it?
 9 A I think so.
 10 Q So did you have any understanding of
 11 the reasons why Tim was not in favor of it?
 12 A I may have, but at this moment in
 13 looking at this document, I'm not even sure why
 14 I sent it to these two gentlemen.
 15 Q So at this moment, you're not -- you
 16 don't recall the reasons why Tim shot down this
 17 agreement?
 18 A I don't.
 19 Q Is there anything that would refresh
 20 your recollection?
 21 A Maybe a timeline on the initial
 22 negotiations with PGMS.
 23 Q Did you maintain a timeline?
 24 A No.
 25 Q Okay. Is there any document that is

1 in existence today that would help refresh your
2 recollection of the reasons why Tim rejected the
3 PGMS agreement?

4 MR. McDONALD: Object to the form.

5 BY MS. GOFF:

6 Q That you're aware of?

7 A I have no idea.

8 Q Did you have an understanding of
9 whether Tim knew that as of at least July 17th,
10 2014, PGMS was willing to be exclusive?

11 MR. McDONALD: Object to the form.

12 THE WITNESS: I do not.

13 BY MS. GOFF:

14 Q So you don't know whether Tim thought
15 that this was an exclusive arrangement or not?

16 A No idea.

17 Q So the meta -- the next sentence where
18 you wrote, "The meta message is officially GPOs
19 are not good for Schein," was that a message
20 that you thought was coming from Tim Sullivan?

21 MR. McDONALD: Object to the form,
22 mischaracterizes the document.

23 THE WITNESS: I don't know.

24 BY MS. GOFF:

25 Q Where did you think the meta message

1 was coming from?

2 A I think this particular GPO was not a
3 good fit for the company based on some of the
4 things that we discovered. I was negotiating
5 with Nick Azar and Kathy Khalik, and Juan Luque
6 was the gentleman that needed to sign the
7 agreement and he was unwilling to commit to even
8 buying from Henry Schein, much less bringing
9 their ten members on board.

10 Q So the meta message about GPOs not
11 being good for Schein, where did you think that
12 message was coming from who did you think was
13 directing that message?

14 MR. McDONALD: Object to the form.

15 THE WITNESS: I have no idea.

16 BY MS. GOFF:

17 Q When you said in your email GPOs are
18 not good for Schein, what is your understanding
19 of what you meant there?

20 A Poorly crafted GPOs where there is no
21 commitment from the customer for exclusivity or
22 for compliance with their member base.

23 Q So it's your testimony that what you
24 meant was poorly crafted GPOs?

25 A Yes.

1 Q Not GPOs in general?

2 A Not GPOs in general.

3 Q But you did not write that in your
4 email?

5 A I did not.

6 Q At some point did PGMS give you the
7 impression they were willing to be exclusive?

8 A I think they considered it.

9 Q I'm going to --

10 MR. McDONALD: Are you done with this?

11 MS. GOFF: Yes, you can put that one
12 aside.

13 I'm going to hand you another document
14 that was marked as CX2219.

15 (Exhibit CX2219 was marked.)

16 MS. GOFF: Okay. For the record, this
17 Bates stamp is Henry Schein-000082883. The
18 latest in time email is dated July 16th,
19 2014 from you to Glenn Showgren, Brian Brady
20 with a cc to Nicole Lena and Joe Cavaretta.

21 BY MS. GOFF:

22 Q Did you write this latest in time
23 email?

24 A I did.

25 Q Do you have knowledge of its contents?

1 A I do.

2 Q So you wrote: I S/W Joe today about
3 the agreement.

4 Is S/W "spoke with"?

5 A Spoke with.

6 Q Is that a term that you use in your
7 emails from time to time?

8 A It is.

9 Q And could it be referring to a
10 conversation on the phone or in person?

11 A As I stated earlier, I never spoke
12 with Tim.

13 Q Sorry. I'm talking about the "I S/W
14 Joe today."

15 A Yes, I spoke with Joe.

16 Q Would that be on the phone or in
17 person?

18 A Probably on the phone.

19 Q And then you wrote Tim -- "about the
20 agreement," and is the agreement that we're
21 talking about here the PGMS agreement?

22 A M-hm.

23 Q Yes?

24 A Yes.

25 Q Thank you.

1 Then you wrote: Tim was not in favor
2 of it.

3 Do you see that?

4 A I did.

5 Q So this is a another place where
6 you're informing your colleagues that Tim was
7 not in favor of the PGMS agreement; correct?

8 A I'm sharing with them what I spoke to
9 Joe about, yes.

10 Q Do you have an understanding of why
11 Tim Sullivan was involved in the decision of
12 whether or not to do business with PGMS?

13 A Additional context on this, Dr. Luque
14 had already started two of his dental projects
15 with our competitor and was unwilling to
16 reconsider Schein.

17 Q Sorry. Dr. Luque had already started
18 two dental projects with a competitor?

19 A Two complete builds from the ground
20 up. He was building surgical centers with our
21 competitor.

22 Q So do you have an understanding of why
23 Tim Sullivan was involved in the decision of
24 whether or not to do business with PGMS?

25 A That would be key. He wasn't voting

1 with his dollars, he was taking his business to
2 a competitor and yet talking to us about putting
3 a GPO together.

4 Q But why was Tim Sullivan involved in
5 this decision about whether or not to do
6 business with PGMS at all?

7 MR. McDONALD: Objection to form.

8 BY MS. GOFF:

9 Q Do you have any understanding?

10 A No, only that we were taking the --
11 each of the GPOs as they came up on our radar,
12 slowly, crafting them more carefully than we had
13 in the past and making sure that it met a
14 formalized criteria that created a healthy
15 sustainable relationship where Henry Schein
16 could promote and market itself to the member
17 base.

18 Q So was the fact that PGMS was a GPO
19 the reason why it got on Tim Sullivan's radar?

20 MR. McDONALD: Object to form. Go
21 ahead.

22 THE WITNESS: The fact was that it was
23 an unusual agreement that we were
24 formalizing. Prior to this we had not
25 formalized our agreement, thus, we weren't

1 giving expectations in writing to our GPO
2 partners on what the requirements were in
3 order for us to continue to support their
4 member base through their GPO.

5 BY MS. GOFF:

6 Q Okay. So the reason why this got on
7 Tim Sullivan's radar in your understanding is
8 that it was a formalized agreement with the GPO?

9 A It was a formalized agreement that did
10 not meet the standard that we were creating.

11 Q But it was a formalized agreement with
12 a GPO?

13 MR. McDONALD: Object to the form.

14 MS. GOFF: Specifically.

15 MR. McDONALD: Object to the form,
16 mischaracterizes her testimony.

17 BY MS. GOFF:

18 Q If this -- I'll ask a different
19 question.

20 If this company was not a GPO, do you
21 think it would have gotten on Tim Sullivan's
22 radar?

23 MR. McDONALD: Object to the form,
24 lack of foundation.

25 THE WITNESS: I don't know.

1 BY MS. GOFF:

2 Q Was it the fact that this was a GPO
3 that in your understanding was the reason why it
4 got on Tim Sullivan's radar?

5 MR. McDONALD: Object to the form,
6 lack of foundation.

7 THE WITNESS: I don't know.

8 BY MS. GOFF:

9 Q So when I asked you about why this got
10 on Tim Sullivan's radar, you said that prior to
11 this we had not formalized any agreements,
12 therefore we were not giving expectations in
13 writing to our GPO partners on what requirements
14 were in order for us to continue to support the
15 member base through their GPO.

16 So prior to this PGMS agreement, in
17 your understanding, Schein was not formalizing
18 in writing relationships with GPO partners; is
19 that correct?

20 MR. McDONALD: Objection to form, lack
21 of foundation.

22 BY MS. GOFF:

23 Q I'm just asking for your
24 understanding.

25 MR. McDONALD: Same objection.

1 THE WITNESS: From my experience, no.
 2 BY MS. GOFF:
 3 Q So in your experience, prior to this
 4 PGMS company, Schein had not been formalizing
 5 any agreements with GPOs?
 6 MR. McDONALD: Same objection, lack of
 7 foundation.
 8 THE WITNESS: Define formalized.
 9 BY MS. GOFF:
 10 Q So you mentioned the word "formalized"
 11 and I'm just --
 12 A Establishing a healthy expectation
 13 from the stakeholders, meaning that one of the
 14 things that we had discovered with some of the
 15 other ones that I had done discovery on is that
 16 they were not strategic. They redirected Henry
 17 Schein existing business, our business was being
 18 eroded and we did not have access to the member
 19 base.
 20 The intention was to carefully and
 21 strategically create a formalized type of
 22 conversation so that the expectations were
 23 clearly defined with both parties.
 24 Q So using that definition of
 25 formalized, in your understanding, was this the

1 BY MS. GOFF:
 2 Q Is it your understanding that this
 3 particular agreement was put on Tim Sullivan's
 4 radar because it was the first time that Schein
 5 was putting in writing an agreement to work with
 6 a GPO?
 7 A I don't know why it was put on Tim's
 8 radar. I do know that the standards were
 9 perhaps below expectations and that there
 10 were -- it was a consulting group, which I call
 11 out in this email.
 12 It was a consulting group that had
 13 aspirations to be a buying group. So they were
 14 not a fully formed GPO.
 15 And there was no expectation on our
 16 part that they would give us either exclusivity
 17 or compliance from their ten consulting members.
 18 Q As of -- turning back to the prior
 19 exhibit, which is dated July 17th, 2014.
 20 A This one?
 21 Q Yes. It's CX2235.
 22 A Okay.
 23 Q As of the date of this email, you
 24 thought that PGMS was willing to be exclusive?
 25 MR. McDONALD: Object to the form,

1 first time that anyone at Schein was formalizing
 2 an agreement with a GPO?
 3 MR. McDONALD: Object to the form,
 4 lack of foundation.
 5 THE WITNESS: I don't have direct
 6 knowledge of any written agreements other
 7 than the ones that I was involved with with
 8 Council Connections, Washington Association
 9 of Community Health Centers, Colorado
 10 Community Health Network.
 11 BY MS. GOFF:
 12 Q So you were not involved in putting
 13 any other GPO relationships in writing?
 14 A Not that I can think of.
 15 Q And prior to this PGMS agreement,
 16 you're not aware of any that were ever, you
 17 know, put in writing?
 18 A Again --
 19 MR. McDONALD: Hang on. Object to the
 20 form, lack of foundation. Go ahead.
 21 THE WITNESS: Again, we came across
 22 them so seldomly. And when we did, we found
 23 out that they were more on a handshake with
 24 a lack of understanding of the expectations
 25 for both parties.

1 asked and answered. If you need to read the
 2 agreement, read the agreement.
 3 BY MS. GOFF:
 4 Q I'm just looking at your -- nevermind.
 5 I'm going to withdraw that question.
 6 MR. McDONALD: Hang on.
 7 MS. GOFF: I withdraw my question.
 8 I'm going to ask another question. You
 9 don't need to look at that document.
 10 MR. McDONALD: So you actually don't
 11 want the truth and you're not going to allow
 12 her to correct her prior testimony, then
 13 I'll do it. But then fine.
 14 If you don't want her -- she saw
 15 something in this document that clearly
 16 refreshed her recollection. If you don't
 17 want to know about it and you want to burn
 18 all your time, then I'll fix it. Go for it,
 19 Karen. Up to you.
 20 BY MS. GOFF:
 21 Q Ms. Titus, I'm going to withdraw my
 22 last question and I'm going to ask you a
 23 different question.
 24 Prior to this PGMS agreement that you
 25 were working to craft, are you aware of whether

1 Schein had previously put any agreements with
2 GPOs in writing?

3 MR. McDONALD: Object to the form,
4 lack of foundation.

5 THE WITNESS: I have told you that
6 before. You've asked the question and I
7 answered it and I suggested to you that I
8 was personally involved with Council
9 Connections, Washington Association of
10 Migrant Health Workers, or health centers,
11 and Colorado Community Health Network.

12 They were no different than the
13 agreement that you're looking at that is
14 attached to this document.

15 BY MS. GOFF:

16 Q Thank you for that clarification and
17 for refreshing my recollection.

18 So other than that group that you just
19 mentioned, are there any others that you're
20 personally aware of -- I know you can only speak
21 to what you're aware of that were in writing.

22 A What date range? Prior to the July
23 2014 date?

24 Q Yes.

25 A I'm not sure of the timeline, but we

1 do have other ones that did promise us
2 exclusivity access to their member base that we
3 put in place during this period.

4 Q What ones?

5 A Clear Impact.

6 Q Okay. Any others?

7 A I think at that point we actually --
8 it was -- I was -- I had many other
9 responsibilities and so we actually needed to
10 hire somebody to give this their full attention.

11 So we hired someone for an alternative
12 purchasing channel because they -- all the GPOs
13 don't fit into the same bucket and we hired
14 somebody to be able to manage those exclusively.

15 Q Is that Darci Wingard?

16 A It is.

17 Q But sitting here today, other than
18 what you've named so far, can you think of any
19 others that have been -- any other agreements
20 with GPOs that have been reduced to writing
21 other than the ones that you testified to
22 already?

23 A No. Can I correct that?

24 Q Sure. Do you need a break?

25 A So Breakaway, we did sign an agreement

1 with Breakaway.

2 Q Okay.

3 A Before Darci Wingard's employment.

4 MS. GOFF: I'm going to hand you
5 another document. You can put the other two
6 away if you like. It's been marked as
7 Exhibit CX2220.

8 (Exhibit CX2220 was marked.)

9 MS. GOFF: This is a document that
10 bears the Bates stamp Henry
11 Schein-000003664. The latest in time is
12 from you to Joe Cavaretta and it's dated
13 August 29th, 2014.

14 BY MS. GOFF:

15 Q Have you had a chance to review this
16 email chain?

17 A M-hm.

18 Q And is this an email that you wrote?

19 A It is.

20 MR. McDONALD: Object to the form.
21 Are you talking about the top one because
22 there's some in here that she did not write.

23 MS. GOFF: Let me clarify.

24 BY MS. GOFF:

25 Q Let's first turn to -- I guess it's

1 the August 29th, 2014 at 10:48 a.m. email. It
2 appears as though it's written to Kristi
3 Tomlinson-Edstrom.

4 Do you see which one I'm talking
5 about?

6 A I do.

7 Q Did you write this email?

8 A I did.

9 Q You have knowledge of the contents?

10 A I do.

11 Q And you were writing to Kristi
12 Edstrom. Was she an employee of Henry Schein?

13 A She was.

14 Q Did she report to you?

15 A She does not.

16 Q She did not at the time of this email
17 either?

18 A No, she didn't.

19 Q Do you know what her position was?

20 A Field sales consultant.

21 Q Kristi was asking you for information
22 about the Denali Group; is that right?

23 A That's correct.

24 Q You said they were a consulting group?

25 A That's right.

1 Q And you wrote: Meaning that they sell
2 a suite of services to solo providers.

3 Do you see that?

4 A Correct.

5 Q So is that what you meant by
6 consulting group?

7 A As I previously stated, consulting
8 groups are common in the dental landscape. They
9 come into an individual office, they assess
10 their operations, their productivity, and they
11 come on site and coach and train the staff to
12 improve their operations and their efficiencies.

13 Q And then the members of the consulting
14 groups are solo dental providers generally?

15 A I could not comment on Denali.

16 Q I'm talking about your definition of
17 consulting group.

18 A Again, they could also consult with a
19 group.

20 Q Okay. So either solo providers or --

21 A Any dental entity they could consult
22 with.

23 Q Okay. And you then wrote: I don't
24 have any direct experience, but most of these
25 groups are attempting to bring a client list to

1 Schein or others to secure discounted pricing on
2 supplies/equipment.

3 Do you see that?

4 A I do.

5 Q And this is what a consulting group --
6 when you said most of these groups, are you
7 referring to consulting groups?

8 A Yes, in that the consulting groups --
9 the distinction on the consulting groups is that
10 their member base is extremely low.

11 Q Is a consulting group a buying group?

12 A No.

13 Q Could a consulting group be a buying
14 group?

15 A A consulting group could -- with
16 enough members and with some infrastructure
17 behind it could definitely develop a purchasing
18 arm within their organization.

19 Q And become a buying group?

20 A Sure.

21 Q And then a few sentences later you
22 write: This model is prevalent but very
23 unhealthy for distribution.

24 What model are you referring to?

25 A The consulting group model.

1 Q And you wrote: They erode our margin
2 on business we may already have.

3 Do you see that?

4 A I do.

5 Q So are you explaining that consulting
6 groups erode margin on customers who are already
7 buying from Schein?

8 A Correct.

9 Q Meaning when they join a consulting
10 group, they get a steeper discount?

11 MR. McDONALD: Object to form.

12 BY MS. GOFF:

13 Q On products; is that right?

14 A It would depend on the group.

15 Q How do they erode margin?

16 A They would erode margin by asking for
17 their consulting clients to receive some special
18 discount consideration.

19 Q And then you write: They compete with
20 us on business solutions sales.

21 Business solutions, is that a service
22 that Schein provides to dentists?

23 A It is.

24 Q Do some of these consulting groups
25 also provide business solutions to their

1 members?

2 A They do.

3 Q So Schein and the consulting groups
4 would compete for that business solutions work?

5 A In some areas.

6 Q Then you wrote a few sentences later:
7 I could give you a dozen reasons, but you get
8 the point.

9 What do you mean by "I could give you
10 a dozen reasons"? Reasons about what?

11 A It's dramatic flare and nothing more
12 and perhaps misspoke in that I was trying to
13 drive a point home.

14 Q What was the point?

15 A The point is is that they are not
16 loyal, the consulting groups have very little
17 influence over their members.

18 Q Okay. So the point was that you did
19 not think that Schein should do business with
20 consulting groups?

21 MR. McDONALD: Object to the form.

22 THE WITNESS: I actually don't believe
23 that. I believe to the opposite. I believe
24 it depends on the consulting group.
25

Page 174

1 BY MS. GOFF:
 2 Q So in some cases it could be good for
 3 Schein to do business with consulting groups?
 4 A Sure.
 5 Q And what cases would those be?
 6 A Cases where there is a mutually
 7 beneficial relationship that allows us access to
 8 the member base to sell deeply into that
 9 business. It's good for the customer, it's good
 10 for the consulting group and that's good for
 11 their patients.
 12 Q So consulting groups could potentially
 13 bring Schein incremental sales?
 14 A I would say depending on the
 15 consulting group, that answer would be yes.
 16 Q In the next sentence you write: If it
 17 makes you feel better, PDCO is not on board for
 18 these type of GPO relationships either.
 19 Do you see that?
 20 A I do.
 21 Q Did I read that correctly?
 22 A You did.
 23 Q Okay. PDCO is that Patterson?
 24 A It is.
 25 Q And then GPO relationships, are you

Page 176

1 business with GPOs if it's a healthy business
 2 relationship?
 3 A I am.
 4 Q Okay. And so here you are informing
 5 Ms. Kristi Edstrom that Patterson is not on
 6 board for these type of GPO relationships
 7 either; correct?
 8 MR. McDONALD: Object to the form.
 9 The document speaks for itself.
 10 THE WITNESS: That's the statement.
 11 BY MS. GOFF:
 12 Q Why would it make Kristi feel better
 13 to know that Patterson was not on board for
 14 these type of GPO relationships either?
 15 A I said "if it makes you feel better."
 16 And when I say "Patterson is not on board for
 17 these types of relationships," I have never run
 18 across them in my conversations with the
 19 consulting or GPO groups.
 20 So I'm generally stating that I am not
 21 seeing Patterson in there as our competitor.
 22 Q Okay. Let me make sure I have an
 23 answer to my question and we can circle back to
 24 that.
 25 So why would it make Kristi feel

Page 175

1 using the terms "consulting group" and "GPO
 2 relationship" synonymously in this email?
 3 MR. KASS: Objection, mischaracterizes
 4 the document.
 5 MR. McDONALD: Object to the form,
 6 mischaracterizes the document and her
 7 testimony.
 8 THE WITNESS: I'm referring to GPO's
 9 where there is an unhealthy relationship
 10 between the GPO and the distribution
 11 partner.
 12 BY MS. GOFF:
 13 Q And what would make that relationship
 14 unhealthy?
 15 A For the reasons that I have stated
 16 multiple times, it would have to be a
 17 sustainable healthy relationship that offered us
 18 an opportunity to sell into their member base,
 19 to impact the end user and their patients, and
 20 create a win/win for the GPO, the distribution
 21 partner and, most importantly, the customer.
 22 Q That would be a healthy GPO
 23 relationship in your mind?
 24 A That's right.
 25 Q And you're supportive of Schein doing

Page 177

1 better to know that Patterson is not on board
 2 for these types of GPO relationships?
 3 MR. McDONALD: Object to the form,
 4 mischaracterizes the documents.
 5 THE WITNESS: I don't know. I was
 6 just making maybe a misstatement.
 7 BY MS. GOFF:
 8 Q Was -- if Patterson was not going
 9 after these types of GPO relationships, would
 10 that be beneficial to Kristi in some way?
 11 MR. McDONALD: Object to the form. Go
 12 ahead.
 13 THE WITNESS: Actually, I have no idea
 14 if Patterson is going after the GPO
 15 relationships. I had no intimate knowledge.
 16 BY MS. GOFF:
 17 Q I'm asking --
 18 A My statement was cursory in that I did
 19 not add these details. But I was not running
 20 into Patterson in my discussions as these
 21 discussions came up with a variety of GPOs like
 22 the ones I mentioned to you earlier. I had
 23 never run into Patterson before.
 24 Q So why did you even mention Patterson
 25 to Kristi Edstrom?

1 A In case she felt that we were
2 competing with Patterson for the same client.

3 Q So you wanted her to feel comforted
4 that Schein was not competing with Patterson for
5 the same clients?

6 MR. McDONALD: Object to form.

7 THE WITNESS: I wanted her to feel
8 comfortable that the fact that I had not run
9 into Patterson in these environments meant
10 that her business -- she could continue to
11 compete for her business at an FSC level.

12 BY MS. GOFF:

13 Q She didn't need to be worried about
14 not competing for the Denali Group business?

15 A That I don't know.

16 Q How does this relate to Denali Group?
17 That's what were talking about here; correct?

18 A I was making a general statement.

19 Q Was Ms. Edstrom -- did she indicate to
20 you that she wanted to work with Denali Group?

21 A She was just asking a question.

22 Q And were you telling her the reasons
23 why you did not think it would be a great idea
24 for her to work with Denali Group?

25 MR. KASS: Objection, mischaracterizes

1 the document.

2 THE WITNESS: Not at all.

3 BY MS. GOFF:

4 Q But you were giving her a list of
5 reasons why you felt that GPO relationships were
6 unhealthy for distribution?

7 MR. McDONALD: Object to the form,
8 mischaracterizes the document and her
9 testimony. Go ahead.

10 THE WITNESS: As I saw the consulting
11 group, Denali, I saw it as a consulting
12 group. I didn't see it as a GPO.

13 And when I use the word labeled "GPO,"
14 it wasn't in context to Denali Group but
15 only to help to communicate to Kristi what I
16 was talking about, where there is a list of
17 members or a group of members that come
18 together and present themselves as a group,
19 as someone who has a common link between all
20 of them. Consulting groups being very
21 different than a GPO.

22 BY MS. GOFF:

23 Q Okay. But that's what you meant by
24 GPO relationships?

25 A GPO being -- pointing to the

1 consulting group.

2 Q Okay. And so you were saying that
3 Patterson was not on board for that type of GPO
4 relationship?

5 MR. McDONALD: Object to the form.

6 THE WITNESS: Again, I have no
7 knowledge specific other than I had not run
8 into them in the past.

9 BY MS. GOFF:

10 Q Okay. So have you ever spoken with
11 anyone at Patterson about whether they are on
12 board with GPO type relationships?

13 A I have not.

14 Q Have you ever spoken with anyone at
15 Patterson whether they are on board with
16 consulting group relationships?

17 A I have not.

18 Q Have you ever spoken with anyone at
19 Patterson about whether they are on board with
20 buying group relationships?

21 A I have not.

22 Q So what is the basis for your
23 statement in this email that PDCO is not on
24 board for these types of relationships?

25 MR. McDONALD: Object to form, asked

1 and answered. Answer it again.

2 THE WITNESS: Only an observation that
3 I don't come across -- that I had not come
4 across them.

5 BY MS. GOFF:

6 Q Okay. So you had not come across PDCO
7 when you were doing what?

8 A In any of my discussions with any of
9 these either prospect consulting groups or GPOs.

10 Q Would you have expected to come across
11 them if they were doing business with GPOs?

12 A I don't know that I had an
13 expectation.

14 Q So you did not have an expectation
15 either way as to whether you would have come
16 across Patterson in your dealings with GPOs?

17 A It's just generally a question that
18 every salesperson asks when they are having a
19 conversation with a potential client or aspect.

20 Q What is the question?

21 A The question would be: Who are you
22 doing business with?

23 Q Did you ask that question of GPOs?

24 A Typically.

25 Q And what was the response?

1 A The response is that we asked for
2 exclusivity -- well, the statement is we asked
3 for exclusivity, do you see any problem with
4 that.

5 And we may even go a bit further and
6 ask them for some surveys to their member base
7 on, A, who are they buying from, who's their
8 business distribution partner; and, B, would
9 they be able to influence compliance or assure
10 compliance and also exclusivity.

11 Q So would the -- how did you know then
12 that PDCO was not on board for these types of
13 GPO relationships?

14 MR. McDONALD: Object to the form,
15 asked and answered.

16 THE WITNESS: So I did not have
17 intimate knowledge, but only an observation
18 that in the discovery process with other
19 GPOs, Patterson's name did not come up.

20 BY MS. GOFF:

21 Q And it did not come up in terms of the
22 that these GPOs were not working with Patterson?

23 A Correct.

24 Q Okay.

25 MR. McDONALD: I'm going to object to

1 the form to your last question. Double
2 negatives, so I'm not really sure what it
3 meant.

4 BY MS. GOFF:

5 Q Did you ever ask any GPOs whether they
6 were working with Patterson?

7 A I'm sure I did.

8 Q What about Benco, did you ever ask
9 whether the GPOs were working with Benco?

10 A No.

11 Q Why not?

12 A I considered them a small regional
13 player.

14 Q So do you have any understanding of
15 whether Benco was on board for these types of
16 GPO relationships?

17 A I don't.

18 MR. McDONALD: Hang on. Object to the
19 form. Go ahead.

20 THE WITNESS: I don't.

21 BY MS. GOFF:

22 Q So did you have an understanding that
23 Patterson was not competing for GPO customers?

24 MR. McDONALD: Object to the form,
25 asked and answered.

1 THE WITNESS: No.

2 BY MS. GOFF:

3 Q That was not your understanding?

4 MR. McDONALD: Object to the form.

5 THE WITNESS: As I said, I had never
6 come across them, so I made an assumption.

7 BY MS. GOFF:

8 Q So you had assumed that they were not
9 competing for GPO relationships?

10 A Yes, I assumed.

11 Q Okay. And did other people at Schein
12 have the same understanding that Patterson was
13 not doing business with GPOs?

14 A I have no idea.

15 MR. McDONALD: Object to the form,
16 lack of foundation.

17 BY MS. GOFF:

18 Q Did you view Denali as a GPO?

19 A No.

20 Q Did you view it as a buying group?

21 A I viewed it as a consulting group.

22 Q Did you view it as a buying group?

23 A I did not have an opinion on whether
24 they were a buying group or not. I viewed it as
25 a consulting group.

1 Q What about others at Schein, do you
2 have an understanding of whether others at
3 Schein thought that Denali was a GPO?

4 MR. McDONALD: Object to the form,
5 lack of foundation.

6 THE WITNESS: I don't have any
7 knowledge of that.

8 BY MS. GOFF:

9 Q Okay. In what ways are consulting
10 groups different from buying groups?

11 MR. McDONALD: Object to the form.
12 Overly broad, vague.

13 THE WITNESS: So I think I've answered
14 that question. Consulting is a very
15 different animal. Consulting groups work
16 with customers, with clients one at a time.
17 Usually their relationship takes months and
18 usually the consultant will go on site.

19 Consulting groups don't have hundreds
20 of members. They literally have a handful
21 of members.

22 BY MS. GOFF:

23 Q And in your experience, do buying
24 groups have hundreds of members typically?

25 A They do.

1 Q And GPOs as well?

2 A Buying groups and GPOs, I consider
3 that an interchangeable term.

4 Q Okay. Turning to the top email in
5 this email chain, it looks like you forwarded
6 your conversation with Kristi Edstrom to Joe
7 Cavaretta. Do you see that?

8 A M-hm.

9 Q You asked him to make an inquiry on
10 your behalf. Do you see that?

11 A I do.

12 Q You wrote: I think if the inquiry
13 comes from you, it might give pause to the
14 people, and then in parentheses, SM, question
15 mark, question mark, who are empowering these
16 consulting groups.

17 Do you see that?

18 A I do.

19 Q So was it your understanding that
20 someone was empowering consulting groups,
21 someone at Schein?

22 A No.

23 Q So why did you write that?

24 A I discovered -- and I'm extrapolating
25 here. I discovered that Denali was opened under

1 the special markets umbrella and I was
2 disappointed that we opened up a consulting firm
3 rather than a real buying group.

4 Q Okay. So special markets had started
5 doing business with Denali Group?

6 A Apparently.

7 Q And then you wrote: It doesn't help
8 to have a GPO policy when SM is opening up these
9 consulting firms.

10 Do you see that?

11 A I do.

12 Q An SM means special markets?

13 A It does.

14 Q And then what did you mean by GPO
15 policy?

16 A GPO policy being that we agree that
17 there are a set of standards and those standards
18 are spelled out, either verbally or in writing,
19 that in order to apply to Henry Schein for
20 account numbers for the GPO and all of its
21 members, they would have to meet certain
22 criteria, which going back to my original
23 statement would have to be a healthy strategic
24 relationship that is a win for Henry Schein, a
25 win for the buying group and a win for its

1 members and their patients.

2 That would mean that we would ideally
3 like a certain amount of exclusivity, if not
4 complete exclusivity, and we would like access
5 to their member base in order to market our full
6 complement of products and services, as well as
7 promotion from the buying group to their members
8 that we're their trusted partner.

9 Q So the policy that you're referring to
10 in this statement is that Schein will only do
11 business with healthy GPO relationships; is that
12 correct?

13 MR. McDONALD: Object to the form,
14 mischaracterizes her testimony.

15 THE WITNESS: Can you reask the
16 question.

17 BY MS. GOFF:

18 Q Sure. I just want to understand what
19 GPO policy you were referring to here?

20 A Didn't I just say -- didn't I just
21 repeat that back to you?

22 MR. McDONALD: Yes, she did.

23 BY MS. GOFF:

24 Q You gave me a very long answer, and I
25 just want to make sure I understand what that

1 long answer was.

2 So the GPO policy, as you understood
3 it as of the date you wrote this email, was that
4 Schein would only do business with GPOs where
5 there was exclusivity access to member base and
6 promotion from the group?

7 MR. McDONALD: Object to the form to
8 the extent you mischaracterized her
9 testimony.

10 THE WITNESS: What I was stating is
11 that we were building the infrastructure
12 around what composed or comprised a good
13 healthy GPO relationship where all
14 stakeholders understood the expectations and
15 there was a reciprocity in the partnership.

16 The partnership would include those
17 things that you read back to me that I
18 stated.

19 BY MS. GOFF:

20 Q So was there a written GPO policy --

21 A No.

22 Q -- at Henry Schein as of the date you
23 wrote this email?

24 A No.

25 Q But you had an understanding that

Page 190

1 there was some GPO policy?
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: I did not have an
 4 understanding that there was a GPO policy.
 5 I understood that we were building a GPO
 6 policy so that we could vet each GPO that
 7 approached us to determine whether they were
 8 a good fit for our company.
 9 BY MS. GOFF:
 10 Q So why in this email did you write
 11 that it doesn't help to have a GPO policy?
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I'm not referring to any
 14 written document or anything official that
 15 came from corporate, but rather the process
 16 that we were going through when we were
 17 meeting face forward with these GPOs and the
 18 conversations that pursued after.
 19 BY MS. GOFF:
 20 Q Aside from a written policy, did you
 21 have an understanding that there was a GPO
 22 policy, written or not, at Schein as of the date
 23 that you wrote this email to Mr. Cavaretta?
 24 MR. McDONALD: Object to the form.
 25 Asked and answered.

Page 192

1 up an account with us.
 2 BY MS. GOFF:
 3 Q Why did you want Mr. Cavaretta to make
 4 an inquiry on your behalf about the Denali
 5 Group?
 6 A Mr. Cavaretta's title gave him access
 7 to information faster and got him answers
 8 quicker than if I went to special markets and
 9 asked myself.
 10 Q Did you think that Denali Group did
 11 not fit within this GPO policy that we've been
 12 discussing?
 13 MR. McDONALD: Object to the form. Go
 14 ahead.
 15 THE WITNESS: I asked for the inquiry
 16 so that I would learn more.
 17 BY MS. GOFF:
 18 Q Did Mr. Cavaretta ever tell you that
 19 there was a GPO policy at Henry Schein?
 20 A No.
 21 Q Have you ever spoken with anyone at
 22 Henry Schein about a GPO policy?
 23 A No.
 24 Q So when you wrote GPO policy to
 25 Mr. Cavaretta, did he ever correct you and say,

Page 191

1 THE WITNESS: I had an understanding
 2 and that understanding was building the
 3 identity of our GP -- giving an avenue to
 4 GPOs to apply to Henry Schein for an account
 5 for themselves and their members as long as
 6 it fit certain standards and expectations
 7 from both parties.
 8 BY MS. GOFF:
 9 Q And did the policy, as you understood
 10 it, include certain standards?
 11 MR. McDONALD: Object to the form.
 12 THE WITNESS: You're calling it the
 13 policy, but it was not anything that I would
 14 pick up a document and show you this is my
 15 policy. The policy was we were evolving how
 16 we interfaced with GPOs so that we could
 17 create healthier relationships.
 18 In fact, pointing back to some of the
 19 earlier GPOs that I was part of like Council
 20 Connections and Washington Association and
 21 Council of Community Clinics, using those as
 22 an example, those were standards that we
 23 wanted to at least verbally apply to the
 24 face forward meetings that we were having
 25 with GPOs that approached us wanting to set

Page 193

1 we don't have a GPO policy?
 2 A No.
 3 Q Okay. Just to make sure I understand
 4 your testimony about your knowledge of Patterson
 5 not being on board for GPO relationships, did
 6 anyone at Schein ever tell you that Patterson
 7 was not on board for GPO relationships?
 8 A They did not.
 9 MR. McDONALD: Objection.
 10 MR. KASS: Objection, mischaracterizes
 11 the document, mischaracterizes her prior
 12 testimony.
 13 BY MS. GOFF:
 14 Q Go ahead.
 15 A They did not.
 16 Q As of the date you wrote this email,
 17 August 29th, 2014, you had an understanding,
 18 though, that Patterson was not on board for
 19 these types of GPO relationships?
 20 MR. McDONALD: Object to the form.
 21 Mischaracterizes her testimony.
 22 THE WITNESS: Karen, you keep asking
 23 me the same question over and over again and
 24 I keep clarifying that I had no intimate
 25 knowledge of Patterson whatsoever, that my

1 observation was that I wasn't running into
2 them in my particular job description
3 interfacing with any of the customers that I
4 interfaced with.

5 BY MS. GOFF:

6 Q I understand. I will apologize if it
7 seems that I'm asking the same questions.

8 For purposes of my job, I need to get
9 a very clear record. If I don't have a clear
10 record where I ask a question and you give an
11 answer, it is not useful to any of us.

12 So I just want to make sure that I
13 have clear answer to this question, which is
14 that: When you wrote this email -- I'm going to
15 be very careful with my words, okay?

16 A Okay.

17 Q On August 29th, 2014, when you wrote
18 this email, you had an understanding that
19 Patterson was not on board for these type of GPO
20 relationships?

21 A No, I did not.

22 Q Okay. Why did you write that in your
23 email then?

24 MR. McDONALD: Object to the form.
25 Karen, you have asked this question at

1 least five times. It's abusive of the
2 witness. And you know darn well if we were
3 in front of a judge, he would shut down.

4 MS. GOFF: All right.

5 MR. McDONALD: If you're not trying to
6 be abusive, then go on. She'll give you the
7 same answer again.

8 BY MS. GOFF:

9 Q Okay. Ms. Titus, when you write
10 things in emails, is it your practice to try to
11 be truthful when you write them in emails?

12 A Of course.

13 Q Let's move on.

14 MS. GOFF: Have we been going for a
15 little while? Is now a good time to take a
16 break?

17 MR. McDONALD: We've been going an
18 hour, so if you want to take a break, we
19 can.

20 THE WITNESS: I'm okay.

21 BY MS. GOFF:

22 Q Let's start -- you mentioned the
23 entity Clear Impact --

24 A M-hm.

25 Q -- previously. Do you have an

1 understanding or recollect -- were you involved
2 in discussions with Clear Impact?

3 A I was.

4 Q And do you have a recollection or
5 understanding of when those discussions started
6 taking place?

7 A I'm going to say September of 2015.

8 Q Why don't I give you an email to
9 orient you.

10 A That would be very helpful. Thank
11 you.

12 MS. GOFF: I'm handing you what's been
13 marked as CX2208.

14 (Exhibit CX2208 was marked.)

15 MS. GOFF: Let me state for the record
16 that this is Bates stamped Henry
17 Schein-000003980 and the top email, the
18 latest in time is from Brian Brady to you
19 with a cc to Joe Cavaretta. And then the
20 email I would like us to focus on is dated
21 January 22nd, 2015 at 10:54 a.m. and it's
22 from you.

23 BY MS. GOFF:

24 Q Do you see that?

25 A I do.

1 Q Was that email to Mr. Cavaretta and
2 Mr. Brady as you understand it?

3 A I'm assuming so.

4 Q That's because in the reply from
5 Mr. Brady, it has it's to you and to
6 Mr. Cavaretta?

7 A Correct.

8 Q Did you write this email?

9 A I did.

10 Q And you have knowledge of the
11 contents?

12 A I do.

13 Q So this is January 22nd, 2015 and it
14 looks like as of this date you were speaking
15 with Clear Impact; is that right?

16 A Uh-huh, yes.

17 Q And if you'd like to look at the prior
18 email, it's on CX2208-002.

19 A Is that the one on the back side of
20 this document?

21 Q Exactly.

22 It appears that you had met with Clear
23 Impact the day before, January 22nd. Am I
24 understanding that correctly?

25 A Yes.

1 Q So you met with Clear Impact and you
2 were impressed with them?
3 A I was.
4 Q And then you forward it up to
5 Mr. Brady and Mr. Cavaretta?
6 A Correct.
7 Q And you wanted to talk to them about
8 it?
9 A Yes, I did.
10 Q Okay. Now, why were you -- were you
11 in favor of working with Clear Impact?
12 A I was.
13 Q Why were you in favor of that
14 relationship?
15 A Those reasons are stated -- I've
16 stated those to you previous before and they are
17 also restated in the email body where it's 1, 2,
18 3.
19 Q Okay. So you're referring to here
20 where it says: Exclusive Schein will promote
21 our BS portfolio and members will be expected to
22 comply with prime vendor.
23 Is that what you're referring to?
24 A Correct.
25 Q Okay. And prime vendor, is that a

1 had not entered into any agreements with Clear
2 Impact; right?
3 A Correct.
4 Q Did you have an exploratory meeting
5 with them?
6 A Correct.
7 Q And when you were first negotiating
8 with Clear Impact, did they have any members?
9 A They did.
10 Q How many?
11 A 190.
12 Q Okay. So in January of 2015, is it
13 your understanding that they had that many
14 members?
15 A Yes.
16 Q So it's your understanding that they
17 came to you and said, we have 190 members?
18 A That's my recollection.
19 Q Okay. Did you get that information
20 from Clear Impact?
21 A As I recall, yes.
22 Q And did you think Clear Impact could
23 bring incremental business to Schein?
24 A I did.
25 Q And then do you recall whether at some

1 prime vendor agreement?
2 A That means that they choose us as
3 their primary supply partner, their members
4 will.
5 Q And you wrote: With penalties for
6 noncompliance?
7 A Correct.
8 Q Does that mean that members would be
9 penalized for noncompliance?
10 A That means that admin fees would be
11 reduced greatly.
12 Q So you're in favor of the Clear Impact
13 relationship because it had these three things
14 that you've listed in your email?
15 A Yes.
16 MS. GOFF: I think we're going to look
17 at a few other documents on this topic.
18 Let's take a break. My colleague just
19 stepped out, so let's take a break.
20 (Recess taken.)
21 MS. GOFF: Back on the record.
22 BY MS. GOFF:
23 Q Going back to your discussion about
24 Clear Impact and CX2208, at the time you wrote
25 this email to Mr. Brady and Mr. Cavaretta, you

1 point you entered into -- Schein entered into an
2 agreement with Clear Impact?
3 A We did.
4 Q Do you recall when that agreement was
5 entered into?
6 A Somewhere towards the end of summer or
7 early fall.
8 Q Of 2015?
9 A M-hm.
10 Q Okay. Did you seek approval from Tim
11 Sullivan regarding Clear Impact?
12 A I did not personally, but I'm assuming
13 that our vice president did.
14 Q Why is that your assumption?
15 A Because these are important
16 relationships and we were fairly new at signing
17 a formal agreement with an entity like this.
18 Q And what vice president are you
19 talking about?
20 A Joe Cavaretta.
21 Q So you did not personally speak with
22 Mr. Sullivan, but you assume that Mr. Cavaretta
23 did?
24 A Correct.
25 Q Did Mr. Cavaretta ever tell you either

1 way whether he spoke to Mr. Sullivan about Clear
2 Impact?

3 A I don't recall.

4 MS. GOFF: Okay. I would like to hand
5 you another document, it's marked CX2205.
6 (Exhibit CX2205 was marked.)

7 THE WITNESS: Are we done with Clear
8 Impact?

9 MS. GOFF: We're done with that
10 document, yes. Thank you.

11 So the email chain we're looking at
12 bears the Bates stamp Henry
13 Schein-000002111. The latest in time email
14 is from Randall McLemore to you dated
15 July 15th, 2014.

16 And then there is several other emails
17 below that.

18 BY MS. GOFF:

19 Q Referring to the email that you wrote
20 on July 15th, 2014 at 6:49 p.m. Do you see
21 that? It's like the second email down.

22 A M-hm.

23 Q Okay. You are responding to
24 Mr. McLemore who asked: Have you heard of this
25 buying group?

1 Do you see that?

2 A I do.

3 Q And what buying group was he referring
4 to?

5 A It's in the title called subject:
6 Unified Smiles.

7 Q Okay. And is Unified Smiles, what
8 kind of group is that in your view?

9 A No idea.

10 Q Did you ever deal with Unified Smiles?

11 A Not that I recollect.

12 Q But Mr. McLemore was asking you -- was
13 referring to Unified Smiles as a buying group,
14 is that your understanding?

15 MR. McDONALD: Object to the form.
16 The document speaks for itself.

17 THE WITNESS: That's how he's
18 describing them in the email time stamped
19 2:37 p.m.

20 BY MS. GOFF:

21 Q 12:37 p.m.?

22 A 12:37 p.m., yes.

23 Q Thank you.

24 Then you wrote -- you said that you
25 were not familiar with that group and you

1 offered to do a bit of digging; is that right?

2 A M-hm.

3 Q You wrote: Interestingly, these are
4 coming out of the woodwork.

5 When you said "these," is that a
6 reference to buying groups?

7 A Any variation of, yes consulting,
8 buying groups GPOs, you have it.

9 Q And then you wrote: They are on Tim's
10 radar and I believe we are working to establish
11 a policy as it applies to buying groups.

12 Did I read that right?

13 A You did.

14 Q Are you referring to Tim Sullivan in
15 this sentence?

16 A I'm referring to Tim Sullivan, yes.

17 Q And so you're saying to Mr. McLemore
18 that buying groups are on Tim's radar?

19 MR. McDONALD: Object to the form.
20 Mischaracterizes her testimony.

21 THE WITNESS: I'm saying they are on
22 Tim's radar.

23 BY MS. GOFF:

24 Q And "they" refers to buying groups?

25 MR. McDONALD: Object to the form.

1 THE WITNESS: "They" refers to Unified
2 Smiles.

3 BY MS. GOFF:

4 Q But "they" -- in this email, sitting
5 here today, it's your understanding that "they"
6 refers to Unified Smiles?

7 A Correct.

8 Q How did you know that Unified Smiles
9 was on Tim's radar?

10 A I can't remember.

11 Q And then what makes you say, sitting
12 here today, that the "they" refers to Unified
13 Smiles?

14 A Because he specifically is asking a
15 question, have you heard of this buying group,
16 and my reply is: They are on Tim's radar.

17 Q Okay. Then you wrote: And I believe
18 we are working to establish a policy as it
19 applies to buying groups.

20 Do you see that?

21 A I do.

22 Q So was it your belief as of the date
23 that you wrote this email that Schein was
24 working to establish a policy as it applied to
25 buying groups?

1 A As I recall, our intention was to grow
2 that segment of the business, the buying group
3 segment, and working on a policy would certainly
4 be part of that.

5 In addition to that, having resources
6 by which we would assign certain individuals
7 that worked at Henry Schein or would be hired at
8 Henry Schein to specifically handle this segment
9 of business.

10 Q So -- okay. I'll withdraw my
11 question.

12 Unified Smiles, were they a Schein
13 customer, are you aware?

14 A I have no idea. I don't recall.

15 Q And did Tim want to work -- Tim
16 Sullivan want to work with Unified Smiles?

17 A I have no idea.

18 Q But you -- how do you know then they
19 were on Tim's radar?

20 A As I said, I don't recall.

21 Q And how do you -- referring to PGMS --

22 A Should I pick up the document from
23 PGMS?

24 Q Sorry. I'll withdraw my question for
25 right now.

1 Is there anything that you can think
2 of that would refresh your recollection as to
3 how you knew at the time you wrote this email
4 that, quote, they are on Tim's radar?

5 A I'm sorry.

6 MR. McDONALD: Hang on. Object to the
7 form. Go ahead.

8 THE WITNESS: I'm sorry, I don't.

9 BY MS. GOFF:

10 Q You don't know of anything --

11 A There's nothing that I can think of.

12 Q Let's turn back to CX2235.

13 A I'm not finding that document.

14 Q Let's look at 2219 instead.

15 A That's way back.

16 Q So just turning back to this email
17 chain that was CX2219, I have a couple more
18 questions.

19 So in the first paragraph, this email
20 chain --

21 MR. McDONALD: Hang on. She was on
22 the wrong page.

23 MS. GOFF: Sorry.

24 MR. McDONALD: That's okay.
25

1 BY MS. GOFF:

2 Q The top email, July 16th, 2014, from
3 you and it starts: Hello, guys.

4 Do you see that?

5 A I do.

6 Q Are we on the same page?

7 A Yes.

8 Q And you wrote: I spoke with Joe today
9 about the agreement.

10 Is the agreement you're referring to,
11 just to reorient ourselves, the PGMS agreement?

12 A Correct.

13 Q And you said: Tim was not in favor of
14 it?

15 A Okay.

16 Q You said: I get that. We all had
17 similar reservations.

18 What were the reservations that you're
19 referring to here?

20 A So if you turn the page in the
21 following page, at the top of the page in that
22 email, I explained that there was a time in the
23 future that if they become an MSO, they would
24 demonstrate compliance. We would be pleased to
25 revisit. I offered her the compromise Tim

1 suggested and enroll them in a fully owned
2 location program, special markets program. She
3 is going to discuss it with her team and circle
4 back soon.

5 So the decision not to pursue the
6 agreement with PGMS was that they could not
7 provide us with compliance, not even for their
8 founding doctor that would be the signatory on
9 the document that you looked at. So no
10 exclusivity, no compliance.

11 Q And so were those the reservations you
12 were referring to here?

13 A Yes, we were beginning to get hints of
14 things that were disturbing about the
15 discussions.

16 Q And what is your understanding of why
17 Tim was not in favor of this agreement, if you
18 have one? Do you have any understanding of why
19 Tim was not in favor of the agreement?

20 A So I did not speak with Tim
21 personally. But when I passed on this
22 information, that they were unable to
23 demonstrate compliance and Dr. Luque, the
24 founding doctor, was actually doing his two
25 build-out projects with our competitor and was

1 unwilling to commit to exclusivity, those were
2 two red flags that put a stop to the
3 negotiations and a stop to signing any kind of
4 agreement with them.

5 Q So you did not speak with Mr. Sullivan
6 directly?

7 A As I said, I did not.

8 Q So do you have any understanding of
9 why he was not in favor of the agreement?

10 MR. McDONALD: Object to the form.
11 Asked and answered.

12 THE WITNESS: I thought I just read to
13 you that they were unable to demonstrate
14 compliance and the founding doctor, Dr. Juan
15 Luque, was building two build-outs with our
16 competitor and was unable to commit to
17 exclusivity.

18 BY MS. GOFF:

19 Q So is it your understanding that
20 that's why Tim was not in favor of it or that's
21 why you were not in favor of it?

22 A That would have been a poor start to a
23 healthy sustainable relationship that served all
24 of its stakeholders, yes.

25 Q So that's --

1 A That would be my assumption.

2 Q Thank you.

3 Further down in that email that you
4 just directed me to actually, CX2219-002, you
5 write: For what it's worth, I'm completely
6 comfortable with yours and Tim's decision.

7 Do you see that?

8 A I do.

9 Q Then you write: In fact, it's the
10 first time we have had the opportunity of having
11 Tim's input on something of this nature.

12 Do you see that?

13 A Yes.

14 Q So was it the first time that you had
15 had the opportunity of having Tim's input on a
16 GPO written agreement?

17 MR. McDONALD: Hang on. Object to the
18 form. Go ahead.

19 THE WITNESS: Anything that I was
20 personally involved in and my information
21 regarding Tim's input was by proxy through
22 my direct supervisor, Joe Cavaretta.

23 BY MS. GOFF:

24 Q So you're not aware either way of
25 whether Tim had given his input to Mr. Cavaretta

1 previously on other GPOs?

2 A No.

3 Q But just to make sure I understand,
4 but it was -- you're expressing in this email
5 that it was the first time that you were aware
6 of having Tim's input on something of this
7 nature?

8 A Anything that I was personally
9 involved in.

10 Q Did Joe Cavaretta ever inform you of
11 the reasons why he was not in favor of the PGMS
12 agreement?

13 A There would be a handful of reasons of
14 which that I just shared with you several times.
15 And that would be that it wasn't a healthy start
16 to a relationship with a lack of exclusivity, a
17 lack of compliance for their member group.

18 Q Those were -- in your understanding,
19 those were Joe's concerns about PGMS?

20 A Correct.

21 Q And did he express those concerns to
22 you?

23 A Yes.

24 Q You, though, at least at one point,
25 were in favor of doing an agreement with PGMS;

1 right?

2 MR. McDONALD: Object to the form.

3 THE WITNESS: All negotiations follow
4 a certain path or process. In the earliest
5 discussions, I was encouraged. As the
6 discussions proceeded, I became more and
7 more concerned.

8 BY MS. GOFF:

9 Q Okay. At some point, though, did you
10 recommend that Schein do business with PGMS?

11 A At some point I thought that there was
12 a cooperation on behalf of PGMS to comply with
13 our requirements.

14 Q And so was it at that point when you
15 thought there was cooperation to comply with
16 your requirements that you elevated it to Joe?

17 A I don't remember at what juncture it
18 was.

19 Q When you elevated it to Joe, were you
20 asking for his permission to enter into an
21 agreement or were you asking for his permission
22 to not enter into an agreement?

23 A I was asking for his insight into the
24 negotiations as they proceeded, or a better
25 explanation would be keeping him informed of the

1 process as it evolved.

2 Q Did it surprise you that he elevated
3 it to Tim Sullivan?

4 A I had just started working for Joe
5 very recently, so I don't know what his rapport
6 or process was with Tim.

7 I know he worked very close with our
8 headquarters in Wisconsin, Henry Schein Dental
9 headquarters in Wisconsin. So that may have
10 been part of his process. I would not have had
11 any exposure to that before 2014.

12 Q Were any other agreements elevated to
13 Tim Sullivan, to your knowledge?

14 A I have no idea.

15 Q So other than this PGMS agreement
16 during the 2014 period when you started working
17 for Joe until the period when you stopped
18 working for Joe, are you aware of any other
19 times when an agreement was elevated to Tim
20 Sullivan?

21 MR. McDONALD: Object to the form.
22 Mischaracterizes testimony.

23 THE WITNESS: Not personally aware,
24 no.
25

1 BY MS. GOFF:

2 Q And are you aware of any other times
3 when a decision about whether to work with a
4 customer was elevated to Tim Sullivan?

5 MR. McDONALD: Object to the form.
6 Asked and answered.

7 THE WITNESS: No idea.

8 BY MS. GOFF:

9 Q So what makes you say that the PGMS
10 was not willing to be exclusive?

11 A They told me.

12 Q Okay. But at some point at least you
13 thought that they were willing to be exclusive?

14 A There were three people that were part
15 of the negotiations, Nick Azar, Kathy Khalik and
16 Juan Luque.

17 Q At some point you had the impression
18 that PGMS was willing to be exclusive?

19 A Potentially, I thought there was a
20 partnership. But there had to be a consensus
21 among their own stakeholders and those three had
22 not come together to discuss the terms of our
23 agreement.

24 When they did, there was -- the word
25 came down from Dr. Luque that that was a

1 nonstarter, that they couldn't provide us with
2 any assurance of compliance or exclusivity.

3 Q Okay. You're looking at
4 Exhibit CX2219; correct?

5 A Yes, I am.

6 Q And that exhibit is dated July 16th,
7 2014?

8 A On the cover?

9 Q Yes.

10 A Yes.

11 Q Okay. And then do you also have
12 CX2235 somewhere? If you wouldn't mind handing
13 me that pile of documents, I can find it for
14 you.

15 Thank you. Here it is.

16 This email is dated -- CX2235 is dated
17 the day after, it's July 17th, 2014; right?

18 A M-hm.

19 Q And in this email you wrote that PGMS
20 was willing to be exclusive?

21 A I'm confused about my statement
22 because clearly I had already had a discussion
23 with Kathy Khalik where she declined our request
24 to be exclusive.

25 Q Why is that clear to you?

1 A On document number CX2219 or
2 000082883, in the email to Joe Cavaretta on
3 July 16th at 11:06 a.m., I spoke to the -- I
4 guess I spoke to both Kathy Khalik -- I guess
5 just to Kathy Khalik and explained there was a
6 time in the future that they would be an MSO
7 that they could demonstrate compliance. At that
8 point I had been told that they would not be
9 able to demonstrate compliance.

10 Q Okay. So you're confused why the
11 following day you informed her colleagues that
12 they were willing to be exclusive?

13 A Yes, I'm confused.

14 Q And do you think there's anything that
15 would refresh your recollection as to why you
16 wrote that in the email?

17 A No, I don't recall.

18 Q There's nothing that you can think of
19 right now?

20 A There's nothing I can think of.

21 Q Okay. Let me show you another
22 document. You can put those two aside.

23 MS. GOFF: Let me hand the court
24 reporter back all the exhibits.

25 I've handed you what's been marked as

1 Exhibit CX2234.
 2 (Exhibit CX2234 was marked.)
 3 THE WITNESS: Okay.
 4 MS. GOFF: This is an email chain that
 5 bears the Bates stamp Henry Schein, and then
 6 the last two digits are 34.
 7 BY MS. GOFF:
 8 Q Let me know when you have had a chance
 9 to review the document.
 10 A The entire document?
 11 Q I can tell you that I am going to be
 12 asking you about Mr. Cavaretta's email on
 13 November 12th, 2014 at 10:40 a.m., to you and a
 14 few other people. But if you want to
 15 familiarize yourself with the rest of the email,
 16 please feel free.
 17 A Okay.
 18 Okay.
 19 Q Mr. Cavaretta is responding to an
 20 email regarding Kois; is that right?
 21 A Correct.
 22 Q And he wrote to you and some others:
 23 I have not heard anything, but at this point we
 24 are not playing in the GPO space.
 25 Do you see that?

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: I'm not surprised. I
 3 don't know what it means exactly.
 4 BY MS. GOFF:
 5 Q Do you think you had an understanding
 6 of what it meant at the time you received this
 7 email?
 8 MR. McDONALD: Object to the form.
 9 THE WITNESS: No.
 10 BY MS. GOFF:
 11 Q Do you recall ever asking
 12 Mr. Cavaretta what he meant by "we are not
 13 playing in the GPO space"?
 14 A I don't.
 15 Q Would it have been important for you
 16 to know what he meant by that?
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: I don't know.
 19 BY MS. GOFF:
 20 Q If it was Schein's policy not to play
 21 in the GPO space, would that have been relevant?
 22 A That wasn't our policy.
 23 Q To your understanding, that was not
 24 Schein's policy?
 25 A It was not.

1 A M-hm.
 2 Q Did I read it correctly?
 3 A You did.
 4 Q And Mr. Cavaretta was your boss when
 5 he wrote this email? You reported to him?
 6 A Correct.
 7 Q So he was informing you and
 8 Mr. Jacklin that Schein did not play in the GPO
 9 space?
 10 MR. McDONALD: Object to the form.
 11 THE WITNESS: I'm not certain if he
 12 meant this specific Kois Group and he was
 13 asking a question about it or even referring
 14 to Kois being a consulting group.
 15 BY MS. GOFF:
 16 Q So sitting here today, you don't have
 17 an understanding of what he meant by "At this
 18 point we are not playing in the GPO space"?
 19 A I don't because we had been working
 20 diligently to provide an avenue for these types
 21 of organizations to come to Henry Schein and
 22 have conversations about the appropriateness of
 23 a fit.
 24 Q So sitting here today, does it
 25 surprise you that Mr. Cavaretta wrote that?

1 Q Okay. Let me show you another
 2 document about Kois as well.
 3 A Okay.
 4 MS. GOFF: So this is another email.
 5 The Bates stamp is Henry Schein and then
 6 ending in 3828, and it's CX2230.
 7 BY MS. GOFF:
 8 Q So the email that's latest in time is
 9 from you to Dave Jacklin check dated
 10 October 18th, 2014. Do you see that?
 11 A M-hm.
 12 Q And Mr. Jacklin was in the other email
 13 as well. Who is Mr. Jacklin?
 14 A He is a regional manager for the
 15 Seattle area.
 16 Q Did you supervise him?
 17 A No.
 18 Q Do you know who did supervise him?
 19 A Kevin Upchurch.
 20 Q Okay. What was Mr. Upchurch's
 21 position in this time period?
 22 A Zone general manager for the
 23 northwest.
 24 Q Do you know what Kois is?
 25 A As I understand it, it was a

1 consulting group, is a consulting group.

2 Q And what makes you say that Kois is a
3 consulting group?

4 A As I recall checking their website,
5 they had the earmarks or characteristics of a
6 consulting group.

7 Q When did you check their website?

8 A It would have been when we were
9 conversing via email on this topic.

10 Q And did -- when you did some research
11 on Kois, did you learn that they had a lot of
12 members?

13 A The nature of consulting groups is
14 once they finish their period of consulting,
15 that customer is finished and they move on to
16 the next consulting client.

17 So they could be rotating through or
18 they are rotating through, but there is a finite
19 period where consulting clients finish and move
20 on.

21 Q Did you have an understanding that
22 Kois also had a buying group component?

23 A Based on what I'm seeing on my emails,
24 I must have, yes.

25 Q So is it possible that a group could

1 be a consulting group and have a buying group
2 component?

3 A Sure.

4 MR. McDONALD: Object to form.

5 BY MS. GOFF:

6 Q So turning to the email you wrote --
7 let's see if I can find it. It was towards the
8 end of the email. You wrote: This trend of
9 consulting groups trying to squeeze revenue out
10 of the distribution chain is not unique.

11 Do you see that?

12 A I do.

13 Q What did you mean by that?

14 A I mean that those consulting groups
15 that have a finite number of members and don't
16 offer ongoing support of services or member
17 benefits that are subscription based and
18 continual, they didn't offer those types of
19 members.

20 Q But Kois buying group did have
21 services that they offered members; right?

22 MR. McDONALD: Object to the form.

23 THE WITNESS: I don't know. I never
24 spoke to them.

25

1 BY MS. GOFF:

2 Q But you did research on them?

3 A I just looked at their website.

4 Q And so in this sentence you're
5 referring to consulting groups trying to squeeze
6 revenue out of the distribution chain. And I'm
7 still unclear of what you meant by trying to
8 squeeze revenue out of the distribution chain.

9 A So consulting groups as an entity
10 coming to a distribution company or distribution
11 companies and leveraging a discount of which
12 they want to take an administrative fee on the
13 back end for the volume.

14 Q So the consulting group leveraging the
15 members of the group, the buying power of the
16 members of the group to get a discount?

17 MR. McDONALD: Object to the form.

18 THE WITNESS: Correct.

19 BY MS. GOFF:

20 Q When you say out of the distribution
21 chain, would Schein be a member of the
22 distribution chain?

23 A We are.

24 Q And then you wrote: We are getting
25 better at shutting them down before they get

1 traction with our assets.

2 Are you referring to getting better at
3 shutting down buying groups?

4 MR. McDONALD: Object to form.

5 THE WITNESS: Getting better at
6 discerning those that have the opportunity
7 for healthy relationship for all of the
8 stakeholders.

9 BY MS. GOFF:

10 Q But you wrote "getting better at
11 shutting them down."

12 MR. KASS: That mischaracterizes the
13 document.

14 MR. McDONALD: Objection,
15 mischaracterizes the testimony,
16 mischaracterizes the document. Go ahead.

17 BY MS. GOFF:

18 Q So what did you mean by "shutting them
19 down"?

20 MR. McDONALD: Asked and answered.
21 You can tell her again.

22 THE WITNESS: Looking with a strategic
23 critical eye at relationships and making
24 sure that the relationship was beneficial to
25 all of the stakeholders.

1 BY MS. GOFF:

2 Q And then stopping doing business with
3 ones that you did not feel were beneficial?

4 MR. McDONALD: Object to the form.

5 THE WITNESS: It had nothing to do
6 with my feelings but more about whether we
7 had the minimal requirements in order to
8 make it beneficial for Henry Schein, meaning
9 access to their client base, promotions from
10 the buying group, exclusivity, compliance
11 amongst their members, other added value
12 services, being able to sell deeper into
13 their member base and have access and
14 promotion to their member base.

15 BY MS. GOFF:

16 Q So you were getting better at ending
17 business with the groups that did not meet those
18 minimal requirements that you've expressed?

19 MR. McDONALD: Hang on. I object to
20 the form. Go ahead.

21 THE WITNESS: Not necessarily ending
22 relationships. However, there were
23 circumstances where we did that. But not
24 going down the path with them if they did
25 not meet our minimum requirements for a

1 partnership.

2 BY MS. GOFF:

3 Q Not starting new relationships if they
4 didn't meet the minimum requirements?

5 A Correct. There would be people within
6 the organization that might choose to have a
7 conversation, but before we had random
8 conversations amongst the 875 field reps that
9 are out in the -- engaged with the dental
10 landscape, to make sure that we were having
11 someone who understood what a healthy
12 relationship looked like, having a conversation
13 with the parent entity.

14 Q Who would be the person that
15 understood what having a healthy relationship
16 looked like?

17 A We were forming up that process.
18 Myself, my counterparts were helping with the
19 process.

20 So we had a national footprint. I was
21 in the west, we had someone in the central and
22 someone in the east and all of us would --
23 ultimately the field reps would direct those
24 conversations to us so that we could vet that
25 entity for a viable relationship or pursuing the

1 possibility of a viable relationship.

2 Q I asked you your understanding of what
3 you meant by "shutting them down" in this email.

4 Then you stated -- my question was:
5 So you were getting better at ending business
6 with the groups that did not meet those minimal
7 requirements that you've expressed?

8 And you said: Not necessarily ending
9 relationships; however, there were circumstances
10 where we did that.

11 I just want to make sure I understand
12 the circumstances where you did that, that was
13 the Breakaway and the Dental Co-op of Utah?

14 MR. McDONALD: Objection to form,
15 mischaracterizes her testimony. She never
16 said anything about Breakaway.

17 BY MS. GOFF:

18 Q I'm so sorry. The Steadfast and the
19 Dental Co-op of Utah?

20 A Steadfast would be the one I had
21 intimate knowledge of the outcome. Dental
22 Co-op, I'm unsure what the outcome was.

23 Q Okay. But were those the two that you
24 were referring to?

25 A Yes.

1 Q Okay. Thank you.

2 You can put that document aside.

3 Talking about -- going back to your
4 CHC group relationships, the groups that you
5 mentioned, the Texas group, the Washington
6 group, the Colorado group, the Council
7 Connection group.

8 A M-hm.

9 Q Do those groups guarantee exclusivity?

10 A They do.

11 Q They do. Is that written in their
12 contract?

13 A It is.

14 Q And what is -- do you have a
15 recollection off the top of your head of what
16 the language in the contract says about
17 exclusivity?

18 MR. McDONALD: If you know, tell her,
19 but don't guess because they've got the
20 contracts.

21 THE WITNESS: No, I don't know.

22 BY MS. GOFF:

23 Q Okay. Did you -- talking about the
24 groups that -- the healthy relationship that
25 you've mentioned several times for groups that

1 you would want to work with, which groups fall
2 into that category of having a healthy
3 relationship between Schein and the group that
4 you wanted to work with? Can you name the
5 groups that fall into that category?

6 I'm talking about during the time that
7 you became -- that you started in HSD until the
8 present.

9 A Not including the community health
10 centers; correct?

11 Q Sure, yes.

12 A You do or do not want me to include
13 them?

14 Q You don't need to include the
15 community health centers.

16 A So Breakaway would be the first one.
17 And we have -- we signed a primary supply
18 partnership agreement with them. And they do
19 have a very large buying group component to
20 their business, meaning that they have certain
21 equity stake in some of the locations that their
22 DSO serves or their DSO platform serves.
23 However, the majority of their member base are
24 on retainer or subscription and they are not --
25 financially Breakaway is not -- does not have a

1 financial stake in those offices. That was the
2 buying group component.

3 So that was the first one that we
4 crafted and carefully and strategically put
5 language in the agreement that assured us of
6 those things that I mentioned to you earlier,
7 exclusivity, compliance, a sell-through for all
8 of our other products and services, promotion of
9 Henry Schein as their trusted supply partner and
10 their only supply partner, use of our eCommerce
11 site, including certain exclusive commerce
12 portal called Clixon, et cetera. That was
13 probably the largest agreement that we had.

14 MR. McDONALD: Let me interrupt you,
15 Kathleen. I'm trying to help her out. She
16 just asked you for the names. She is
17 running out of time. She's got 20 minutes
18 left.

19 If you want her to ramble on about
20 this, that's fine. But I think you just
21 asked her --

22 THE WITNESS: Okay. Do you just want
23 the names?

24 BY MS. GOFF:

25 Q For now, yes, could you provide me

1 with the names?

2 A Clear Impact and Breakaway.

3 Q Okay. Thank you.

4 And then are there groups that have
5 approached you that you've discussed that you
6 determined did not fall in this category of the
7 healthy relationship that you wanted to work
8 with and you said, no thank you, we don't want
9 to work with you?

10 A Beyond the ones we've discussed today
11 like PGMS, Dental Co-op.

12 Q Right.

13 A Steadfast.

14 Q Any others?

15 A No.

16 Q What about CDA, did you ever have
17 discussions with them?

18 A We did.

19 Q Did you decline to work with them?

20 A We wanted to work with them.

21 Q And there are no other groups, just
22 those three that you mentioned, that you have an
23 understanding that Schein declined to work with,
24 it was PGMS, Dental Co-op and Steadfast?

25 A Yes.

1 Q Okay. And are there any others that
2 fall in the category where you wanted to work
3 with the group but they did not want to work
4 with you?

5 A No.

6 Q You mentioned CDA. Is it your
7 understanding that Schein put in a bid to do
8 work for CDA?

9 A Again, we wanted an exclusive
10 partnership or primarily exclusive partnership.
11 We had a very large percentage of the business
12 in California.

13 The proposal from the CDA was for us
14 to have a finite number of products on their
15 formulary, which would have eroded the business
16 that we already had. So we declined their bid,
17 their product mix.

18 MS. GOFF: Okay. I would like to take
19 a short break and look over my notes and
20 then come back?

21 THE WITNESS: Okay.

22 MS. GOFF: Thanks.

23 (Recess taken.)

24 BY MS. GOFF:

25 MS. GOFF: I just wanted to show you

1 one final document. It's CX2211 and it's
2 Bates stamped Henry Schein 11417. The
3 latest in time email is from Jeff Harmon to
4 Joe Cavaretta and Kevin Upchurch with a cc
5 to you. It's dated July 18th, 2014.

6 Q Have you had a chance to review it?
7 (Exhibit CX2211 was marked.)

8 THE WITNESS: Do you want me to review
9 the entire document?

10 BY MS. GOFF:

11 Q I can direct you to the email that we
12 will be discussing, but I want you to feel free
13 to review as much as you need to.

14 A Okay.

15 Q I'll have questions about a couple of
16 emails. The first one is Mr. Upchurch's email,
17 it's CX2211-002 at the very top.

18 MR. KASS: Read the whole document.

19 MR. McDONALD: Take a second. It
20 starts there.

21 MS. GOFF: Sure.

22 THE WITNESS: Okay.

23 BY MS. GOFF:

24 Q So is this email chain discussing the
25 Dental Co-op of Utah?

1 A Are you asking is this discussing the
2 Dental Co-op of Utah?

3 Q Yes.

4 A It is, yes.

5 Q Thank you.

6 And so Mr. Cavaretta was asking
7 Mr. Upchurch and you and Mr. Harmon --

8 MR. McDONALD: Hang on. She's not
9 looking at what you're looking at, I don't
10 think. Do you want to direct her to where
11 you are, Karen?

12 MS. GOFF: Sure. Okay. So going to
13 CX2211-002.

14 BY THE WITNESS: Okay.

15 Q Mr. Upchurch is responding to some
16 questions from Mr. Cavaretta. Does that look
17 correct to you?

18 MR. McDONALD: At the top of the page.

19 THE WITNESS: But she said responding
20 to questions; right? Are these the
21 questions you're asking?

22 MR. McDONALD: She's asking about
23 Kevin's email at the top. I know you're
24 getting tired. That's responding to Joe's
25 email at the bottom.

1 THE WITNESS: I was reading the
2 question so I could see the context.

3 BY MS. GOFF:

4 Q Thank you.

5 Mr. Upchurch writes: The Co-op is
6 turning into a GPO.

7 Do you see that? It's the last
8 sentence of Mr. Upchurch's email.

9 A I do.

10 Q So I'll read the whole thing. The
11 co-op is turning into a GPO, in parentheses,
12 even if they don't think they are one now,
13 unparentheses, from what KT has observed in
14 Texas, NM, and from Tim S., HSD does not want to
15 enter the GPO world.

16 Do you see that?

17 A I do.

18 Q Did I read it correctly?

19 A You did.

20 Q Is KT in this sentence a reference to
21 you as you understand it?

22 A It is.

23 Q You're referred to as KT in emails
24 from time to time?

25 A Correct.

1 Q And Mr. Upchurch is saying that Tim
2 Sullivan does not want to -- HSD to enter the
3 GPO world, is that your understanding?

4 MR. McDONALD: Object to the form.

5 THE WITNESS: I have no idea what was
6 in his mind.

7 BY MS. GOFF:

8 Q When you read this email, do you think
9 you have an understanding of what he meant?

10 MR. McDONALD: Object to the form.

11 THE WITNESS: I don't think I
12 understood what he meant because the Dental
13 Co-op is a buying group or GPO, not turning
14 into one.

15 BY MS. GOFF:

16 Q So you think that Mr. Upchurch was
17 incorrect when he wrote that the co-op was
18 turning into a GPO?

19 A I think he's uninformed about what a
20 GPO is and perhaps put Dental Co-op in another
21 category. However, I don't know what he meant.
22 I was not in his mind.

23 Q But from your understanding, the
24 Dental Co-op was a GPO?

25 A Yes, or buying group, yes.

1 Q And then what -- he wrote: From what
 2 KT has observed in Texas, NM.
 3 Do you have an understanding of what
 4 he meant by that?
 5 MR. McDONALD: Object to the form.
 6 THE WITNESS: I understand that in
 7 Texas and New Mexico, they were promoting to
 8 Henry Schein customers, selling direct to
 9 Komet, which makes rotary instruments. It's
 10 a very large category for any dental
 11 distributor, and Procter & Gamble, which was
 12 diverting established preventative plans
 13 from existing customers and there were, as I
 14 recall, flyers to that effect.
 15 BY MS. GOFF:
 16 Q So that was happening in Texas and New
 17 Mexico?
 18 A Correct.
 19 Q Was that problematic for Schein?
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: It was against the
 22 spirit of our partnership.
 23 BY MS. GOFF:
 24 Q Why was it against the spirit of the
 25 partnership?

1 A Because we were exclusive as their
 2 exclusive distributor partner for a number of
 3 years prior to this, so they had taken a
 4 completely different direction.
 5 Q Okay. And have you ever heard
 6 individuals at Schein say that Tim S. does not
 7 want to enter the GPO world?
 8 A Not that I recall.
 9 Q Did it surprise you that Mr. Upchurch
 10 wrote that Tim S. did not want to enter the GPO
 11 world?
 12 MR. McDONALD: Object to the form.
 13 BY MS. GOFF:
 14 Q If you recall?
 15 A I don't recall.
 16 Q Sitting here today, does that surprise
 17 you?
 18 A No.
 19 Q Why not?
 20 A Because I don't think he understands
 21 the GPO or buying group as well as he's
 22 presenting himself here.
 23 Q So it does not surprise you because
 24 you think Mr. Upchurch does not know what he's
 25 talking about?

1 A I'm sure that he has a great base of
 2 knowledge at this point. But the Dental Co-op
 3 existed for a number of years within Henry
 4 Schein and it was, by all intents and purposes
 5 and characteristics, a buying group.
 6 Q Have you ever heard, outside of this
 7 email, anyone say that Tim S. did not want to do
 8 business with GPOs?
 9 A I did not.
 10 Q Have you ever heard anyone say that
 11 Tim S. did not want to do business with buying
 12 groups?
 13 A No, I have not.
 14 Q Have you ever spoken directly to Tim
 15 Sullivan about GPOs or buying groups?
 16 A I have not.
 17 Q Have you ever spoken with him in
 18 person or on the phone about buying groups?
 19 A I have not.
 20 Q Have you ever communicated with him
 21 via email about GPOs or by in groups?
 22 A I don't think so. I don't recall. I
 23 don't think so.
 24 Q Okay. Have you ever heard anyone at
 25 Schein say that GPOs are a threat to Schein?

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: It's too broad of a
 3 statement in that some GPOs would be.
 4 BY MS. GOFF:
 5 Q Some GPOs might be a threat to Schein?
 6 MR. McDONALD: Object to the form.
 7 THE WITNESS: Some GPOs might present
 8 a threat in that they would redirect
 9 established customers and established
 10 business to competitors or direct sellers.
 11 BY MS. GOFF:
 12 Q Could GPOs be a threat because they
 13 lower Schein's margins?
 14 MR. McDONALD: Object to the form.
 15 THE WITNESS: No.
 16 BY MS. GOFF:
 17 Q Is it your understanding that GPOs or
 18 buying groups can lower Schein's margins?
 19 MR. McDONALD: Object to the form.
 20 THE WITNESS: The nature of GPO
 21 pricing is that the collective buying power
 22 of its member base qualifies the customer,
 23 the end user for a better price.
 24 BY MS. GOFF:
 25 Q Meaning a lower price?

1 A Correct.

2 Q Have you ever said that GPOs are a
3 threat to Henry Schein?

4 MR. McDONALD: Object to the form.

5 THE WITNESS: Not in a broad scope,
6 only poorly negotiated, poorly crafted
7 agreements where there is a lack of
8 understanding of expectations.

9 BY MS. GOFF:

10 Q Okay. So in -- referring back to
11 Mr. Upchurch's statement that HSD does not want
12 to enter the GPO world, did you ever respond to
13 Mr. Upchurch and tell him you did not understand
14 that statement?

15 A I did not.

16 Q Okay. Turning then to the next email
17 in time, it's from Mr. Cavaretta, it's on the
18 first page of the document. So it's CX2211-001.

19 So here Mr. Cavaretta is asking about
20 what happens to the customers of the Dental
21 Co-op if Henry Schein stopped doing business
22 with the Dental Co-op; is that correct?

23 MR. McDONALD: Take your time and read
24 it.

25 THE WITNESS: Ask your question again,

1 Karen please.

2 BY MS. GOFF:

3 Q Sure. Just to orient you, I'm talking
4 about the sentence where Mr. Cavaretta said:
5 Basically I want to have more confidence in the
6 plan we have with our customers after we cut
7 ties with the co-op.

8 So is Mr. Cavaretta asking about what
9 would happen after Schein cuts ties with the
10 co-op to Schein's relationships with its
11 customers?

12 A Yes.

13 Q And was he expressing concerns that
14 those customers might continue buying through
15 the co-op and not buying through Schein?

16 MR. McDONALD: Object to the form.

17 The document speaks for itself.

18 THE WITNESS: Yes. He says in here:
19 Whoever they align with.

20 BY MS. GOFF:

21 Q Sorry, were you finished?

22 A M-hm.

23 Q So is it possible that if Schein
24 stopped working with the Dental Co-op, that the
25 customers might go to a competitor?

1 A It's possible in every scenario that
2 the customer might go to a competitor, which is
3 why Joe is asking his managers, do you have a
4 plan in place for robust engagement with the
5 members of Dental Co-op?

6 Q When you say his managers, do you mean
7 Kevin Upchurch and Jeff Harmon?

8 A I do.

9 Q But they don't -- those two
10 individuals report to Joe Cavaretta?

11 A Correct.

12 Q Did you ever talk to Mr. Upchurch and
13 inform him that Tim Sullivan said that HSD does
14 not want to enter the GPO world?

15 A I did not.

16 Q Okay. And so do you have any
17 understanding where Mr. Upchurch got that
18 impression from?

19 A I do not.

20 MS. GOFF: Okay. So I'm going to
21 reserve the remainder of my time for
22 questions that I may have after your counsel
23 may have questions as well.

24 THE WITNESS: Okay.

25 MR. McDONALD: Let's just go off the

1 record for a minute.

2 (Recess taken.)

3 EXAMINATION

4 BY MR. McDONALD:

5 Q Ms. Titus, would you pull out
6 Exhibit 2235?

7 Do you have that in front of you?

8 A Yes.

9 Q This is a document that we looked at
10 earlier today regarding PGMS?

11 A Correct.

12 Q I want to focus on the attachment to
13 your email. What is this attachment?

14 A This would be terms of our agreement
15 with the parent entity.

16 Q Okay. I want you to look at the
17 second paragraph on page CX2235-002 and I want
18 you to read into the record the second sentence
19 of the second paragraph that begins: Schein
20 acknowledges.

21 A Schein acknowledges that PGMS cannot
22 guarantee that its members will purchase from
23 Schein, however PGMS will use its best efforts
24 to move this business over to Schein.

25 Q What does it mean when it's referring

1 to members?

2 A Consulting members. They are
3 consulting clients.

4 Q How many members did PGMS have?

5 A Ten.

6 Q So what does this sentence mean in lay
7 terms?

8 MS. GOFF: Objection to form.

9 BY MR. McDONALD:

10 Q Go ahead.

11 A This sentence means that the members
12 that would be identified as ^PGSM members would
13 not -- that PGMS as the parent entity would not
14 be able to guarantee that its members would buy
15 from Schein.

16 Q Does this have anything to do with
17 compliance?

18 A It does. It is compliance.

19 Q So what is this -- what does this mean
20 in regards to compliance?

21 A That they are lacking a key component
22 of a healthy relationship.

23 Q Is there compliance?

24 A No compliance.

25 Q That's all I have on that. If you'll

1 look at CX2211.

2 A Okay.

3 Q And I want to focus on CX2211-002,
4 this email.

5 MS. GOFF: Sorry, could you just give
6 me a second? I want to make sure. 22 --

7 MR. McDONALD: 2211, it's the last
8 thing you looked at with her, Karen.

9 MS. GOFF: Thank you.

10 MR. McDONALD: Are you ready?

11 MS. GOFF: Yes.

12 BY MR. McDONALD:

13 Q I want to focus, Ms. Titus, on this
14 email that you had discussions with Ms. Goff
15 about from Kevin Upchurch. It's on
16 Page CX2211-002. Are you with me?

17 A Okay.

18 Q You were asked a number of questions
19 about the second sentence in the second
20 paragraph. I want to focus on the last phrase:
21 HSD does not want to enter into the GPO world.
22 Do you see that?

23 A I do.

24 Q As of the date of this email,
25 July 18th, 2014, was HSD doing business in the

1 buying group world?

2 A They were.

3 Q Can GPO refer to entities like in
4 medical that negotiate directly with
5 manufacturers?

6 MS. GOFF: Objection, form.

7 THE WITNESS: In the medical world,
8 GPO is a different type of buying group or
9 different type of entity in that they, like
10 a distributor, would go directly to the
11 manufacturer and negotiate pricing.

12 BY MR. McDONALD:

13 Q Okay.

14 A And that pricing would then be
15 presented to the distributor and the distributor
16 would have to agree to that pricing in order to
17 apply to become a supplier to the GPO
18 membership.

19 Q Are there such entities in dental?

20 A There are not.

21 Q Is that type of GPO different than
22 what you have been referring to as a GPO
23 throughout your testimony today?

24 A It is.

25 Q That's all I have on that.

1 Have you ever had conversation with
2 anyone -- and when I say conversation,
3 telephonically, in person, by email, by text
4 message, anything, with anyone at Benco
5 regarding buying groups?

6 A I have not.

7 Q Using the same definition of
8 conversation, have you ever had any
9 conversations with anyone at Patterson regarding
10 buying groups?

11 A I have not.

12 Q The FTC alleges in its complaint
13 that's filed in this action that Henry Schein,
14 Patterson and Benco had an agreement to not do
15 business with buying groups.

16 Do you have any knowledge of such an
17 agreement?

18 A I do not.

19 MR. McDONALD: That's all I have.

20 MS. GOFF: Is anyone else planning to
21 ask any questions?

22 MR. FLAHERTY: I have no questions.

23 MR. McDONALD: Sorry, I cut you off.
24 Did you say you have no questions or you
25 have a question?

1 MR. MANNING: On the phone it's Thomas
2 Manning. I have no questions.

3 MS. GOFF: I have some follow-up.
4 REDIRECT EXAMINATION

5 BY MS. GOFF:

6 Q Turning back to the first document
7 that you looked at with your counsel, CX2235,
8 the language from the agreement that you read
9 into the record, it's the second paragraph,
10 CX2235-002. Are you with me?

11 A I am.

12 Q Is this language the same language
13 that is used in CHC agreements?

14 A Generally the terms are different with
15 CHCs.

16 Q Is there a paragraph similar to this
17 one in the CHC agreements?

18 MR. McDONALD: Object to form. If you
19 know, tell her.

20 THE WITNESS: I don't know.

21 BY MS. GOFF:

22 Q Were you responsible for negotiating
23 CHC agreements during your time at Schein at one
24 point?

25 A I was.

1 Q So did you at one point know the
2 answer to my question but you just cannot recall
3 as you sit here today?

4 A Most of our relationships are legacy
5 relationships and those relationships have
6 rolled over multiple times with just a
7 signature. So they are old enough that I would
8 not recall specifics of what's in the agreement.

9 Q Okay. So you did not negotiate the
10 relationships with the legacy groups that you're
11 referring to?

12 A I did.

13 Q Oh, you did, okay. So at one point
14 you had an understanding of what was in those
15 agreements?

16 A I did.

17 Q Today you just can't recall?

18 A I can't recall.

19 Q Okay. And then turning to this
20 language again, it says: Schein acknowledges
21 that PGMS cannot guarantee that its members will
22 purchase from Schein; however, PGMS will use
23 best efforts to move this business over to
24 Schein.

25 Do you see that?

1 A I do.

2 Q What does it mean that PGMS will use
3 best efforts to move the business to Schein?

4 A That was yet to be defined. The PGMS
5 group at the time of this conversation were ten
6 consulting clients.

7 A lot of work would have went in to
8 putting this agreement in place and getting it
9 all set up and the amount of effort that it
10 would have taken to do this with no guarantee
11 that those offices would bring their business to
12 Schein wasn't worth the investment.

13 Q Okay. That's your opinion that you're
14 giving me?

15 A That's the opinion of myself and my
16 superior.

17 Q That's Joe Cavaretta?

18 A Correct.

19 Q And you understand his opinion and
20 you're able to testify about his opinion because
21 he told it to you?

22 MR. McDONALD: Object to the form.

23 THE WITNESS: As I recall, but I think
24 there were somewhere in this email that I
25 stated that I spoke with Joe and --

1 BY MS. GOFF:

2 Q So is this agreement that we're
3 looking at, the attachment to CX2235, is that
4 the agreement that you negotiated with PGMS?

5 A It's the agreement that we verbally
6 negotiated; however, we did not present this to
7 them.

8 Q Your testimony is that you did not
9 present this agreement to PGMS?

10 A If we presented it, that's when we
11 were told by Kathy Khalik that they were unable
12 to comply and we offered them an alternative
13 option.

14 Q What was the alternative option?

15 A It's in here.

16 Q Okay.

17 MR. McDONALD: Karen, she's not done
18 answering your question. You asked her what
19 was the alternative option.

20 BY MS. GOFF:

21 Q Sorry, go ahead.

22 A I'm not sure it's in either one of
23 these documents.

24 MR. McDONALD: I'm not testifying for
25 you, but go ahead.

1 THE WITNESS: Should I find it?
 2 BY MS. GOFF:
 3 Q At one point today did you read into
 4 the record the alternative arrangement you were
 5 referring to?
 6 A Yes.
 7 Q So I still just want to make sure I'm
 8 on the same page. This agreement that we're
 9 looking at in CX2235 is one that Henry Schein
 10 drafted and sent to PGMS?
 11 MR. McDONALD: Mischaracterizes
 12 testimony.
 13 THE WITNESS: I'm not sure how it was
 14 presented, whether it was electronically
 15 sent or whether we reviewed it in a
 16 telephone call or in person. I don't
 17 recall.
 18 BY MS. GOFF:
 19 Q You testified that this is -- your
 20 counsel asked you, is there compliance, and you
 21 said no.
 22 Do you recall that testimony?
 23 A Correct.
 24 Q What did you mean by compliance?
 25 A Compliance in it reads: In this

1 agreement, PGMS cannot guarantee its members
 2 will purchase from Schein.
 3 Q Okay. And in other words, there was
 4 no compliance in your view because PGMS stated
 5 that they could not guarantee their members
 6 would purchase from Schein?
 7 A Correct.
 8 Q And so for there to be compliance in
 9 your mind, must there be a language in the
 10 contract that states that the members will
 11 purchase from Schein?
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: Yes.
 14 BY MS. GOFF:
 15 Q And are you aware of contracts that
 16 Schein has where the contract states that the
 17 members must purchase from Schein?
 18 A With a certain percentage of their
 19 projected volume, within a certain threshold of
 20 their projected volume.
 21 Q Okay. And are you thinking of any
 22 particular agreements?
 23 A DSO agreements, 80 percent of the
 24 supply business must come through Henry Schein
 25 exclusivity as Henry Schein being their primary

1 supply partner. Virtually every one of our
 2 agreements call out Henry Schein as the primary
 3 supply partner.
 4 Q Other than DSO agreements, are there
 5 agreements with GPOs or buying groups that
 6 you're aware of that require a certain
 7 percentage of volume purchased from Schein?
 8 A It's a difficult -- it's difficult to
 9 police that. It's difficult to police that.
 10 But if all of the other benefits and features
 11 are worked into the agreement and agreed upon by
 12 its members, it's probable.
 13 Q Okay. So it's difficult to police
 14 whether members will, in fact, buy from Schein?
 15 A Will treat Schein as their primary
 16 supply partner, meaning giving Schein the
 17 majority of their business.
 18 Q Okay. Is there language in any
 19 contracts with any GPOs or buying groups that
 20 you're familiar with that requires members to
 21 purchase from Schein?
 22 A I can't recall.
 23 Q And is that the only way in your mind
 24 to get compliance?
 25 MR. McDONALD: Object to the form.

1 THE WITNESS: I don't know.
 2 BY MS. GOFF:
 3 Q But in your view, this language in
 4 this contract, the PGMS contract, the best
 5 efforts language, that's not compliance in your
 6 mind?
 7 A It is not.
 8 MR. McDONALD: Object to the form.
 9 BY MS. GOFF:
 10 Q It would need to be something stronger
 11 than that?
 12 A It was inefficient to justify the
 13 offer that we had made to them.
 14 Q What do you mean by that?
 15 A Meaning that we were very generous in
 16 what we were offering them; however, it would
 17 have been a tremendous amount of work for ten
 18 locations, no guarantee that they would grow
 19 their member base and no assurance that their
 20 members would treat Henry Schein as their
 21 primary supply partner or even bring their
 22 business to us as new customers.
 23 Q When you say the offer you had was
 24 very generous, what did you mean? Is it the
 25 discounts you were offering?

1 A The discounts as well as some other
2 benefits.
3 Q If PGMS was able to offer compliance,
4 would you have -- would Schein have done
5 business with PGMS?
6 MR. McDONALD: Object to the form.
7 THE WITNESS: I'm not certain.
8 BY MS. GOFF:
9 Q Would you have recommended it?
10 A I believe so.
11 Q And is that because then Schein would
12 get incremental sales?
13 A They showed a certain amount of
14 promise. They exhibited a quality that I was
15 impressed with. And their focus on very high
16 end digital dentistry was intriguing.
17 Q Did you draft this agreement that
18 we're looking at here?
19 A Based on a template, yes.
20 Q What was the template?
21 A Just something in our library that
22 we've used as standard language.
23 Q Used as standard language for what
24 types of organizations?
25 MR. McDONALD: Object to the form. If

1 you recall, tell her.
2 THE WITNESS: I don't recall.
3 BY MS. GOFF:
4 Q So this agreement you drafted based on
5 some agreement that Schein had entered into
6 previously?
7 MR. KASS: Objection, vague.
8 THE WITNESS: I don't know.
9 BY MS. GOFF:
10 Q Okay. But you said that it was based
11 on a template that you found?
12 A Right, which we could customize
13 certain things within the customers' names,
14 rebate amounts, certain discount structures.
15 Q Was the language in the second
16 paragraph pulled from the template?
17 MR. McDONALD: Object to the form.
18 THE WITNESS: I don't recall.
19 BY MS. GOFF:
20 Q Do you think that you drafted that
21 language in the second paragraph yourself?
22 A I don't recall.
23 Q So you're not aware of whether this
24 language in the second paragraph was included in
25 the template that you used?

1 A I do not.
2 Q Is there anything that would refresh
3 your recollection?
4 A No.
5 Q Is there anything that would refresh
6 your recollection as to what template you used?
7 A It would be one that we had in a
8 library from special markets.
9 Q Okay. So it's your recollection that
10 the template you used would have been something
11 that was used by special markets?
12 A Correct.
13 Q And would it have been for like a DSO
14 customer?
15 A Possibly.
16 Q Maybe a CHC customer?
17 MR. McDONALD: Objection to form.
18 THE WITNESS: A CHC GPO.
19 BY MS. GOFF:
20 Q A CHC GPO customer?
21 A M-hm.
22 Q Okay. It could have been either of
23 those two organizations?
24 A It could be.
25 MR. McDONALD: Object to form.

1 BY MS. GOFF:
2 Q And then do you have an understanding
3 of why you included that provision?
4 A This was a consulting group that did
5 not own their offices, their client offices.
6 And in our discussions, there were first and
7 foremost exclusivity, but also their ability to
8 move that business to Henry Schein.
9 Q Why did you include this provision if
10 you felt that this provision was unhealthy for
11 Schein?
12 A I would attribute that to I wanted to
13 move forward with hopes that we could help them
14 enlist or -- collaboratively with them to enlist
15 the business from their member groups and they
16 could exhibit great influence on them.
17 Q So you thought that PGMS could
18 influence the members?
19 A Certainly.
20 Q And you were hopeful that they would
21 be able to influence them to direct business to
22 Schein?
23 A That's right.
24 Q And so at the time that you drafted
25 this agreement, you were hopeful that Schein

1 would do business with PGMS?

2 A I was. There were some things that
3 were revealed that were disturbing like
4 Dr. Luque not willing to do business with Henry
5 Schein in his new builds.

6 I think that threw a red flag down
7 because he was the founding doctor and he would
8 be the signatory of this agreement.

9 Q Do you recall whether you passed on
10 that information to Mr. Cavaretta?

11 A I'm certain I did, but I don't recall
12 if it was verbal or written.

13 Q So at the time when you drafted this
14 agreement, did you think that the language in
15 the second paragraph was adequate to address
16 Schein's needs?

17 A It was not ideal.

18 Q Did you draft it in this way because
19 that was the agreement that you came to with
20 PGMS?

21 A As I recall.

22 Q Okay. Did you think it was adequate
23 enough to then send up the chain to your
24 supervisors?

25 A I clearly did because I did send it up

1 to my supervisors.

2 Q Was it only after you heard back from
3 your supervisors that you felt that this
4 language was no longer adequate?

5 MR. McDONALD: Object to the form.
6 Mischaracterizes her prior testimony.

7 THE WITNESS: In a vacuum, that would
8 have been one of the red flags, but the
9 other red flag was Dr. Luque's unwillingness
10 to move his own business to Henry Schein.

11 BY MS. GOFF:

12 Q Did your supervisors ever tell you
13 that they thought that this language was
14 inadequate?

15 MR. McDONALD: Object to the form.
16 Asked and answered.

17 THE WITNESS: I don't recall.

18 BY MS. GOFF:

19 Q Are you aware of whether your
20 supervisors reviewed this agreement that you
21 drafted?

22 A It's my impression they did.

23 Q And when we're talking about your
24 supervisors, who are we talking about?

25 A Joe Cavaretta.

1 Q Are we also talking about Tim
2 Sullivan?

3 MR. McDONALD: Object to the form.

4 THE WITNESS: I have no direct
5 knowledge of that.

6 BY MS. GOFF:

7 Q Okay. Do you have any direct
8 knowledge of the basis for Tim's decision not to
9 work with PGMS?

10 A Only through my direct supervisor
11 telling me that this was not the type of healthy
12 relationship we wanted to enter into.

13 Especially in consideration of some
14 additional facts that became clear as we
15 continued to talk with PGMS, i.e., Dr. Luque
16 doing two new builds with our competitor.

17 Q Okay. And at any point do you recall
18 expressing all of -- all or any of your concerns
19 about PGMS to Mr. Cavaretta by email?

20 A I don't recall.

21 Q Okay. Is there -- the template that
22 you may have used to create this, is there a
23 database somewhere of those templates or would
24 you need to have requested that someone send you
25 the template?

1 A There was a database somewhere.

2 Q Okay. Do you think that you pulled
3 the template from the database?

4 A Perhaps used one that existed or got
5 one from my colleague or counterpart.

6 Q And who would your colleague or
7 counterpart be?

8 A In this case I think it was Andrea
9 Hight.

10 Q Okay. Andrea Hight was your colleague
11 at Schein?

12 A Both in special markets and in the
13 Henry Schein Dental mid-market.

14 Q Okay. Did she come over from special
15 markets to Henry Schein Dental market at the
16 same time as you?

17 A She did.

18 Q Let's look at the other document that
19 your counsel directed you to. I guess it was
20 CX2211.

21 MS. GOFF: Am I correct?

22 MR. McDONALD: Yes.

23 MS. GOFF: Thank you.

24 BY MS. GOFF:

25 Q CX2211. So your counsel asked you to

1 look at the language Mr. Upchurch wrote ^from
2 Tim: HSD does not want to enter the GPO world.
3 Is that correct?

4 A That's correct.

5 Q And do you have any reason to believe
6 that when Mr. Upchurch was using the word "GPO,"
7 he was referring to medical GPOs?

8 A I do.

9 Q On what basis do you have to believe
10 that?

11 A If you look at the paragraph above
12 that starts with the first sentence: With their
13 newest decision to add partnerships with
14 companies like P&G and Komet and their desire to
15 develop competitive relationships to HSD.

16 Both of those companies were direct
17 sellers that they went directly to and
18 negotiated the pricing with, which is a very
19 different dynamic than going to a distributor.

20 Q Okay. So at the time that you
21 received this email, did you have an
22 understanding of what Mr. Upchurch said -- meant
23 when he wrote "HSD does not want to enter the
24 GPO world"?

25 MR. McDONALD: Object to the form,

1 asked and answered.

2 THE WITNESS: I don't.

3 BY MS. GOFF:

4 Q Sitting here today, do you know what
5 Mr. Upchurch was thinking when he wrote: HSD
6 does not want to enter the GPO world?

7 A I would be guessing.

8 Q Okay. But it is your guess sitting
9 here today that he was referring to medical
10 GPOs?

11 A That makes the most sense.

12 Q Okay. And the reason why that makes
13 the most sense to you sitting here today is why?

14 A Because both of the companies in
15 question mentioned in the former paragraph in
16 the first sentence are both direct negotiations.

17 Q Okay. And a medical GPO in your
18 understanding, how does that relate to direct
19 negotiations?

20 A In the medical world, the GPO entity
21 will go directly to the manufacturers, negotiate
22 prices and those prices would then be offered to
23 their member group.

24 Q Okay. Was Dental Co-op of Utah a
25 medical type GPO?

1 A It was not.

2 Q Okay. And this email chain was about
3 the Dental Co-op of Utah; right?

4 MR. KASS: Objection, mischaracterizes
5 the document.

6 THE WITNESS: This email chain is
7 about the Dental Co-op of Utah, yes.

8 BY MS. GOFF:

9 Q And today we have discussed buying
10 groups and GPOs repeatedly. And other than the
11 discussion you had with your counsel -- when you
12 used the term "GPO" during all of your testimony
13 today, were you referring to a synonym with a
14 buying group?

15 A Yes.

16 Q You mentioned -- you can put this
17 document aside.

18 You mentioned that Dr. Luque, going
19 back to PGMS, was doing a build-out with a
20 competitor; is that right?

21 A Correct.

22 Q Did Schein -- what was the build-out
23 that you're referring to?

24 A He was building an implant center in
25 San Francisco.

1 Q Okay. And what competitor was that
2 with?

3 A I don't know. I don't recall.

4 Q How did you come to learn that they
5 were doing a build-out with a competitor?

6 A He told me.

7 Q And did Schein work with Dr. Luque's
8 group in special markets?

9 A No.

10 Q Did anyone at Schein, any group at
11 Schein work with Dr. Luque's group?

12 A We wanted to, but I don't think we
13 ultimately were able to.

14 Q Okay. When you said we wanted to,
15 what were you referring to?

16 A We were giving him quotes, you know,
17 getting in front of him to talk about his
18 project, talking about our enhanced services or
19 offering, that kind of thing.

20 Q And what -- are we still talking about
21 the build-out project?

22 A We are.

23 MS. GOFF: I don't have any other
24 questions for you. And I think that --

25 MR. McDONALD: Give me a minute to

1 talk to her and I think we'll be done.
 2 MS. GOFF: Okay. Thank you.
 3 MR. McDONALD: No further questions.
 4 MS. GOFF: Thank you.

125	1, 13	Change “M-hm” to “Yes”	Clarification
139	14, 17	Change “M-hm” to “Yes”	Clarification
140	11	Change “M-hm” to “Yes”	Clarification
145	7	Delete “, specialists”	Typographical error/clarification
146	11	Change “Uh-huh” to Yes”	Clarification
147	17	Change “You did” to “I did”	Typographical error/clarification
152	5	Delete “, verbally, yes”	Clarification/misspoke
167	5	Change “Clear Impact” to “Klear Impakt”	Typographical error
168	17	Change “M-hm” to “Yes”	Clarification
177	14	Change “is” to “was”	Typographical error/clarification
181	19	Change “aspect” to “prospect”	Typographical error
186	8	Change “M-hm” to “Yes”	Clarification
190	18	Change “pursued” to “ensued”	Typographical error/clarification
195	24	Change “M-hm” to “Yes”	Clarification
201	9	Change “M-hm” to “Yes”	Clarification
202	22	Change “M-hm” to “Yes”	Clarification
204	8	Change “have” to “name”	Typographical error/clarification
219	1	Change “M-hm” to “Yes”	Clarification

221	11	Change "M-hm" to "Yes"	Clarification
223	19	Change "members" to "services"	Typographical error/clarification
229	8	Change "M-hm" to "Yes"	Clarification
232	2	Change "Clear Impact" to "Klear Impakt"	Typographical error
243	22	Change "M-hm" to "Yes"	Clarification
257	12	Change "inefficient" to "insufficient"	Typographical error
260	21	Change "M-hm" to "Yes"	Clarification
261	6	Change "were" to "was"	Typographical error/clarification

I, Kathleen Titus, declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

EXECUTED this 8th day of August, 2018.

at Roseville, CA.
(City) (State)

Kathleen Titus

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 JAMES BRESLAWSKI, called as a
 3 witness, having been duly sworn by a Notary
 4 Public, was examined and testified as
 5 follows:
 6 EXAMINATION BY
 7 MS. ROSNER:
 8 Q. Good morning, Mr. Breslawski. How are
 9 you?
 10 A. Good morning. Well, thanks.
 11 Q. Great. I understand that you have
 12 taken a deposition -- you've been at a
 13 deposition before; is that right?
 14 A. Yes, that's correct.
 15 Q. You're familiar with how these things
 16 work?
 17 A. Yes.
 18 Q. I'm just going to review the two most
 19 important rules of the deposition today. The
 20 first one is that I want you to tell the truth;
 21 and if I ask a question and you don't know, you
 22 can just tell me that you don't know the answer
 23 to it.
 24 A. Uh-huh.
 25 Q. And everything else I presume you're

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 going to be telling me is the absolute truth.
 3 Do you understand that?
 4 A. Agreed. Yes.
 5 Q. And then the second rule is that we
 6 have a court reporter here who is recording
 7 everything that we say. Let's try to make her
 8 job easiest by not talking over each other and
 9 making sure all of our answers are verbal.
 10 A. I will do my best. I'm learning.
 11 Q. From time to time, your counsel may
 12 speak up, so try also not to talk over him.
 13 A. I will, again, I will do my best. I'm
 14 from New York from the Bronx, so there's a whole
 15 rhythm, but we'll try to work on it. Okay.
 16 MR. McDONALD: Just pause.
 17 THE WITNESS: Okay.
 18 BY MS. ROSNER:
 19 Q. Great. So we're here today to talk
 20 about Henry Schein's dental business. You
 21 understand that; is that correct?
 22 A. Yes.
 23 Q. We'll be talking about a couple of
 24 different types of customer segments in the
 25 dental business, and just to make sure we're on

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 the same page, I want to review some of the
 3 dental customer segments. Okay?
 4 Schein's largest dental customer
 5 segment by revenue and by number is Independent
 6 Private Practices; is that right?
 7 A. In the United States, the largest
 8 revenue segment in our dental business in the
 9 United States is Private Practice.
 10 Q. Is that also the largest dental
 11 segment by number of customers?
 12 A. Yes, it is.
 13 Q. What percentage of Schein's dental
 14 revenues come from Independent Private Practice?
 15 MR. McDONALD: Object to the form.
 16 A. I'm not sure.
 17 Q. Do you have a guesstimate? Is it more
 18 than half? Less than half?
 19 MR. McDONALD: Object to the form.
 20 A. So let me estimate. I would say, and
 21 again, I can get this information very
 22 specifically, but I would say that it is
 23 probably about two-thirds.
 24 Q. What is Schein's profit margin on the
 25 independent dental practice customer segment?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. Depends on how you define "profit
 3 margin."
 4 Q. How do you define "profit margin"?
 5 A. Well, I'm not sure what your question
 6 is.
 7 Q. What's Schein's profit margin on the
 8 independent dental practice customer segment for
 9 merchandise?
 10 MR. McDONALD: Object to the form.
 11 A. We don't calculate Private Practice as
 12 a separate P&L. We have, in our United States
 13 dental business, we have three major segments.
 14 We have a segment that we call Special Markets,
 15 which is the most significant large customer,
 16 dental support organizations, government and
 17 other customers, and then we have Private
 18 Practice combined with large group practices
 19 that are not large dental support organizations.
 20 So we don't have a separate P&L just for our
 21 Private Practice.
 22 Q. Can you describe for me what are those
 23 large group practices that you combine with the
 24 Private Practice segment?
 25 A. So it's everything that is outside of

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 what we define as, first of all, Special
 3 Markets, which includes the largest dental
 4 support organizations, or DSOs, and those
 5 organizations -- again, I don't have these --
 6 I'm giving you my -- off the top of my head what
 7 I believe the splits are, but those
 8 organizations are typically central
 9 decision-making across many different locations,
 10 and then included in that Special Market segment
 11 is the federal government, dental schools, state
 12 and local institutions, and also such customers
 13 as community health centers. That defines the
 14 Special Markets segment.
 15 Within our Henry Schein Dental,
 16 non-Special Market segment in the United States
 17 we have carved out a separate team that focuses
 18 on large group practices that may be as small as
 19 just a few offices, but are under common control
 20 all the way up, perhaps, to dozens, a couple of
 21 dozen offices, maybe that's -- maybe a little
 22 bit less than that, that are under common
 23 control, and that segment of the business, the
 24 middle kind of market, is the fastest growing
 25 overall organic segment in the marketplace.

Page 10

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. Do you track the margins of that
 3 Middle Market segment?
 4 A. We don't track --
 5 MR. McDONALD: Hang on.
 6 Object to the form.
 7 Go ahead.
 8 A. We don't track the overall
 9 profitability of that particular segment. We
 10 track the profitability of a combined segment of
 11 Private Practice and the Middle Market, for lack
 12 of a better term, the Middle Market segment ex
 13 Special Markets.
 14 Q. How much in revenues does Schein
 15 generate in the independent and Mid Market
 16 segment of its business?
 17 MR. McDONALD: Object to the form.
 18 You're referring to the North America,
 19 United States?
 20 MS. ROSNER: North America.
 21 Everything we talk about today --
 22 THE WITNESS: I assumed that the scope
 23 was U.S.
 24 BY MS. ROSNER:
 25 Q. Sorry. Everything that we talk about

Page 12

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. So you have no idea what your profit
 3 margin is for a particular customer segment?
 4 A. Again, define what "profit margin" is.
 5 Q. How do you define "profit margin"?
 6 A. So profitability at the pretax level
 7 is for our Henry Schein Dental business. It
 8 would include all of the costs of all of our
 9 direct operating costs of our U.S. dental
 10 business, plus all of the infrastructure that
 11 actually services not only the dental business,
 12 but also services our medical business as well
 13 as our animal health business. So that's how we
 14 would, you know, define the profit margin.
 15 And again, this information is not
 16 public information.
 17 Q. I understand this information is not
 18 public information, but using your definition of
 19 "profit margin," what is Henry Schein's profit
 20 margin with respect to its HSD business?
 21 MR. McDONALD: Object to the form.
 22 That's a different question than you just
 23 asked him.
 24 THE WITNESS: I just want to
 25 understand what -- so this is actually not

Page 11

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 today will be U.S., yes.
 3 A. Okay.
 4 MR. McDONALD: And the timeframe? You
 5 want to tell him the timeframe?
 6 BY MS. ROSNER:
 7 Q. Today what is Schein's revenues in the
 8 independent and Mid Market Division?
 9 A. Again, off the top of my head, I would
 10 say it's north of \$2 billion.
 11 Q. What is the profit margin in the
 12 independent and --
 13 A. Please define "profit margin."
 14 Q. Does Schein report its profit margin?
 15 A. No. We report -- we're a public
 16 company, so we report our profit margin for the
 17 company. We don't report this level of
 18 information.
 19 Q. What is Schein's profit margin for
 20 independent and Mid Market dentists with respect
 21 to merchandise sales?
 22 MR. McDONALD: Object to the form.
 23 A. Perhaps I'm not being clear, but we
 24 don't report or we don't track our P&L by these
 25 customer segments.

Page 13

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 public information. It's not something that
 3 we disclose on a regular basis.
 4 We have segment reporting that does
 5 include the Special Markets and we have
 6 reporting that includes the HSD business.
 7 MR. McDONALD: So why don't we take a
 8 second. Let me talk to him.
 9 MS. ROSNER: Let's go off the record.
 10 MR. McDONALD: Because he's clearly
 11 wanting to discuss this.
 12 (Pause in the Proceedings. Time
 13 Noted: 9:25 a.m.)
 14 (Time Noted: 9:29 a.m.)
 15 MS. ROSNER: Could you read back my
 16 last question?
 17 (Record read.)
 18 MR. McDONALD: Object to the form.
 19 Vague as to time.
 20 THE WITNESS: Our net income from our
 21 combination of Private Practice and Mid
 22 Market business is approximately 6 percent.
 23 BY MS. ROSNER:
 24 Q. Has that number changed over time?
 25 A. Of course.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. What has been the highest and what has
 3 been the lowest net income for HSD?
 4 A. During what period of time?
 5 Q. During the last ten years.
 6 A. It has likely stayed within that
 7 relevant range, up and down, depending upon
 8 performance in any given year.
 9 Q. And you mentioned the net income
 10 includes some of the infrastructure that is used
 11 to serve veterinary business and maybe some
 12 other businesses?
 13 A. The infrastructure costs, such as
 14 distribution that has the warehousing for all of
 15 the businesses, is allocated based upon a
 16 methodology to each of the businesses.
 17 Q. What is Schein's approximate market
 18 share in the independent dental practice
 19 segment?
 20 MR. McDONALD: Object to the form.
 21 Vague as to time.
 22 A. We have no information that would
 23 really allow us to determine what that is.
 24 Q. You don't track Schein's market share?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I believe the question was about what
 3 is Schein's market share in Independent Private
 4 Practice.
 5 Q. Do you track Schein's market share at
 6 all?
 7 A. We use limited available information
 8 that's out there about the overall dental
 9 market, and we have a rough sense, it's very
 10 imprecise, and we believe that we have a leading
 11 market share in the U.S. dental business for
 12 consumable products.
 13 Q. What do you believe your percentage
 14 market share is in the U.S. business for
 15 consumable products?
 16 MR. McDONALD: Object to the form.
 17 Asked and answered.
 18 A. Again, it's an estimate because there
 19 really is no good independent information that's
 20 available, so I would estimate that it's in the
 21 mid 30s, mid 30 percent.
 22 Q. What is the market share of your
 23 competitors in the U.S. dental consumables
 24 market?
 25 A. I don't have access to that

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 information.
 3 Q. You mentioned that Schein is somewhere
 4 in the mid 30s. Who else makes up the rest of
 5 the pie chart?
 6 MR. McDONALD: Object to the form.
 7 A. So the dental market in the U.S. is
 8 served by many different distributors along with
 9 manufacturers that also sell their products
 10 directly.
 11 The collection of full service
 12 distributors, which includes ourselves along
 13 with Patterson, Benco and maybe 25 other
 14 full-service dealers that service various
 15 regions in the country, collectively make up the
 16 largest percentage, the full service channel, if
 17 you will, and then there are an untold number of
 18 other companies that are selling consumable
 19 products primarily through various methods:
 20 Direct marketing, catalog, telesales, Internet
 21 marketing, and other methods.
 22 Q. What percentage of the market is made
 23 up of the full service group that you mentioned?
 24 MR. McDONALD: Object to the form.
 25 A. I don't have a precise answer. I

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 think it's the largest share, definitely the
 3 largest share by -- I would be guessing. It's a
 4 meat -- it's by far the largest share of all the
 5 channels.
 6 Q. Are we talking 90 percent?
 7 A. That's high.
 8 MR. McDONALD: Object to the form.
 9 Q. Three-quarters of the market?
 10 MR. McDONALD: Object to the form.
 11 A. Possible.
 12 Q. How do you calculate market share?
 13 You mentioned you consult a variety of
 14 sources. How do you go about doing it?
 15 A. There have been some independent
 16 reports that include certain distributor
 17 information that's confidentially submitted that
 18 allows us to see for that particular report how
 19 our market share would compare, and that report
 20 has changed quite a bit over the course of the
 21 last I'm not sure how many years, but a major
 22 contributor to that report no longer provides
 23 information, which, in my opinion, renders that
 24 report very ineffective and not reliable.
 25 Q. What is the name of that report?

CONFIDENTIAL - JAMES BRESLAWSKI

A. It was the Strategic Dental Marketing Report, SDM.

Q. Other than the SDM Report, are there other sources that Schein uses to calculate its market share?

A. Anecdotal information that we may receive from time to time from manufacturers that we -- whose products we represent. They provide us with information as to how we're doing with their business, and that's just their business. So it's not a picture of the market; it's just their business.

Q. Anything else?

A. Public -- well, not really. That's it as far as the whole market. There's -- it's very, very difficult to determine market share in the United States dental market. There just isn't good information that's available, independent information.

Q. Going back to the Private Practice segment, you understand Independent Private Practice dentists to be for-profit dentists?

MR. McDONALD: Object to the form.

A. Independent -- generally speaking,

CONFIDENTIAL - JAMES BRESLAWSKI

Independent Private Practice dentists are in business to be a successful business.

Q. Private Practice dentists typically are small business owners?

A. Yes.

Q. They are dentists who maintain ownership in their practice?

A. Yes.

Q. Independent dental practices typically are not affiliated with larger corporate dentistry chains?

A. Independent, by definition of independence, the way that we're using "private practice" means their private. Now, what their form of ownership is I don't know, but they're, typically, they're in one location, maybe two locations, a doctor, perhaps an associate that are working together. Those people that went to school to learn how to be a healthcare professional, and they find themselves not only looking to provide the best healthcare possible, but also they find themselves in business. So one of our goals is to help our customers actually be successful in business.

CONFIDENTIAL - JAMES BRESLAWSKI

Q. And of your customers who are Private Practice dentists, they typically do not have an affiliation with a DSO?

MR. McDONALD: Object to the form.

A. A Private Practice dentist typically is a Private Practice dentist, an independent private practitioner without group affiliation.

Q. We talked about DSOs today.

What are DSOs?

A. I'm sorry. Repeat the question, please.

Q. What is a DSO?

A. A DSO is a dental support organization that provides services in support of practices that are part of their organization. There is a network of locations providing dentistry, and the dental support organization provides typically a lot of the administrative support for their network of practices, and it varies depending upon who the DSO is.

Some of the DSOs have common branding for all of their locations. So Aspen Dental is a very large DSO that has maybe 700 or so locations throughout the country, and they are

CONFIDENTIAL - JAMES BRESLAWSKI

all branded Aspen Dental, and they provide the infrastructure allowing the local dentists to really focus on practicing dentistry.

Q. DSOs are distinct from Independent Private Practice dentists?

A. DSOs distinguish themselves from Private Practice Dentists.

Q. Approximately what percentage of Schein's U.S. dental revenues are made up of DSO customers?

MR. McDONALD: Object to the form.

A. I would be estimating. I have that information that I could provide, but right now, I would estimate that that is approximately between 12 and 15 percent, something like that.

Q. DSOs generate approximately how much in revenue for Schein's U.S. dental business?

MR. McDONALD: Object to the form.

Vague as to time.

A. Please repeat the question.

MS. ROSNER: Could you read the question?

(Record read.)

MR. McDONALD: Same objection.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 THE WITNESS: Again, I would be
 3 estimating. I would say that it's probably
 4 about a half a billion dollars.
 5 BY MS. ROSNER:
 6 Q. What is Schein's profit margin on the
 7 DSO customer segment?
 8 MR. McDONALD: Object to the form.
 9 A. We also don't -- well, so it's higher
 10 than our Private Practice business because the
 11 cost to serve for a DSO, typically, some of what
 12 the DSO does for the dental practices allows us
 13 to, for the very large ones especially, allows
 14 us to have less costs associated with serving
 15 those practices. They feel sales consultants in
 16 many of those customers is not necessary. We
 17 have more of a corporate-to-corporate management
 18 program or customer care model.
 19 So I don't have that number, but it
 20 would be north of that number that I mentioned
 21 for the Private Practice --
 22 Q. You previously mentioned --
 23 A. -- which was the net income of
 24 approximately 6 percent.
 25 Q. How far north? Are we talking 7

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 large customers. Very large customers
 3 today, the largest of them, call themselves
 4 DSOs. Over the years, they have changed
 5 their nomenclature, so that has changed
 6 quite a bit over time, but back more than 20
 7 years ago, we created a separate business
 8 within our business just to focus on this
 9 aspect of the industry.
 10 By doing that, during that 20 years,
 11 we were really invested in helping that
 12 segment be successful and those customers be
 13 successful, and many of those that we
 14 compete with were not as focused as we are.
 15 So we have a very meaningful share.
 16 It's very hard to measure exactly what that
 17 share is. I would say that we clearly have
 18 the largest share in the United States.
 19 BY MS. ROSNER:
 20 Q. When you say it's the largest share,
 21 are we talking 90 percent? 60 percent? 30
 22 percent?
 23 MR. McDONALD: Again, object to the
 24 form. Vague as to time.
 25 A. I'll answer as of today.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 percent? Are we talking about 12 percent?
 3 Double?
 4 MR. McDONALD: Object to the form.
 5 A. I'm not sure. I would say it could be
 6 double. It could be double.
 7 Q. What is Schein's approximate market
 8 share in the DSO segment?
 9 MR. McDONALD: Object to the form.
 10 Vague as to time.
 11 Are you asking him currently?
 12 Well, Jasmine, you need to clarify the
 13 question.
 14 Currently?
 15 BY MS. ROSNER:
 16 Q. Do you understand the question?
 17 MR. McDONALD: Object to the form.
 18 You should give him a timeframe.
 19 Then just answer as vague and as
 20 broadly as you want to answer if she's going
 21 to be ridiculous and not give you timeframe.
 22 THE WITNESS: So let me -- sorry. I
 23 keep talking over you. Sorry.
 24 So we have been, for more than 20
 25 years, we have been a leader in serving very

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 As of today, we certainly don't have
 3 90 percent share. Also, the DSOs continue to
 4 grow as a segment of the marketplace. There are
 5 more -- it's a very competitive segment of the
 6 business. There are more and more dealers, both
 7 full service and other kinds of dealers, that
 8 are doing business with that overall segment,
 9 and I would say that our share is less today
 10 than it was five years ago. It is substantially
 11 higher than our share in Private Practice, but
 12 very difficult to put a number on.
 13 Q. You mentioned your share in Private
 14 Practice was somewhere in the 30s.
 15 Are we talking 50s, 60s for today's
 16 market share in the DSO segment?
 17 MR. McDONALD: Objection.
 18 Q. Is it double?
 19 MR. McDONALD: Objection to the form.
 20 A. It's substantially higher, so I would
 21 be comfortable saying probably -- probably 50
 22 percent, but it's hard to say because in the
 23 Middle Market that I described, that's part of
 24 the same business team that's looking after
 25 Private Practice, there are small group

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 practices that are calling themselves DSOs.

3 In that segment we believe we're doing
4 well, but our share in that segment is not
5 nearly as large as our share in the largest of
6 the DSOs, the national DSOs, because we have
7 been there for so long.

8 Q. Would you say that your share in the
9 Mid Market DSO segment is more in line with your
10 share in the HSD customer segment overall?

11 MR. McDONALD: Object to the form.

12 Vague as to time.

13 A. The H -- I'm not sure what you mean by
14 the HSD segment.

15 Q. You previously mentioned that your
16 share in the HSD segment is somewhere in the
17 30s. Would you --

18 A. I mentioned that our share in Private
19 Practice is about -- is approximately in the mid
20 30s, and this is my estimation -- there's no
21 good information -- on consumable products, and
22 that the Mid Market is part of that group. So
23 it's in the same business, we report it the
24 same, but in that larger group practice that's
25 not in our Special Markets I would say that we

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 have a higher share than the 30 percent.

3 Q. How do you go about measuring market
4 share for the DSO segment? You mentioned --

5 A. Again, there's a list. In the very
6 large DSOs and Special Markets, there's a pretty
7 discrete list of the largest of those, so we
8 know who we're doing business with. We know
9 those customers that we believe we have the
10 leading share.

11 Even in those large DSOs, many other
12 distributors, both full service distributors and
13 also all kinds of other distributors that are
14 selling products, are also doing business in
15 those DSOs. But we believe that we have the
16 largest share. So, in that segment, we can take
17 a look and see we're still doing business with
18 most of those very large DSOs, so we feel we
19 have a very strong position.

20 Q. Are there --

21 A. When it comes -- you asked me about
22 the -- so when it comes to the smaller DSOs or
23 the Middle Market, it's very difficult to
24 determine how we're doing specifically compared
25 to others because there isn't such a

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 discreteness. It's a much bigger list. My
3 feeling, my feeling is that we're to doing
4 better than others and better than we're doing
5 in Private Practice. I could be wrong.

6 Q. Does Schein consult third-party
7 resources to get a sense of its market share in
8 the DSO segment?

9 A. Please repeat. I couldn't understand
10 your question.

11 (Record read.)

12 A. To the best of my knowledge, the only
13 third party that we're still working with is the
14 SDM business, and we're concerned about the
15 usefulness of that service.

16 Q. Are you familiar with the term "buying
17 group"?

18 A. Yes.

19 Q. In dental, buying groups are made up
20 of Independent Private Practice dentists; is
21 that right?

22 MR. McDONALD: Object to the form.
23 Mischaracterizes the record.

24 A. The "buying group" definition, the
25 term "buying group" is used in many different

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 ways, and sometimes the "buying group"
3 definition is used to include the terminology of
4 GPO, and sometimes even in our own company, in
5 our own team, these teams are used
6 interchangeably.

7 I believe that they're actually quite
8 different. And a buying group within the dental
9 business can come in many, many different forms.
10 It can come in a form that it's just a
11 collection of customers that are looking to ban
12 together just to focus on getting a price from
13 someone to other organizations that are actually
14 aligned with what we're trying to do in helping
15 provide value to the dentists to help the
16 dentists be successful.

17 So there's more to their offering than
18 just a discount on price, and so the "buying
19 group" definition, there isn't a simple
20 definition of what a buying group may mean in
21 the dental marketplace.

22 Q. Is it your understanding that buying
23 groups are typically made up of independent
24 private practice dentists?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Mischaracterizes the record.
 3 A. I don't know what's typical. We've
 4 been doing business with buying groups for a
 5 very long time, and we have a long list of
 6 buying groups that have different structures and
 7 have different membership affiliations, and I
 8 would say that it's more likely than not that
 9 private practitioners are involved in buying
 10 groups. And DSOs, by the nature of the DSO
 11 organization, is typically not connected with a
 12 buying group, but that's not completely accurate
 13 because there are some DSOs that are -- that
 14 look to spin off some other efforts around the
 15 buying group.
 16 Q. Buying groups typically do not have an
 17 ownership interest in their members' practices;
 18 is that right?
 19 MR. McDONALD: Object to the form.
 20 A. Buying groups do not typically have an
 21 ownership interest. That's probably right. I
 22 don't know, but that's probably right.
 23 Q. You understand the initials "BG" to be
 24 shorthand for the term "buying group"?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I don't know that.
 3 Q. Have you ever used the initials "BG"
 4 to refer to "buying group"?
 5 A. I have never, not that -- not that I
 6 can recall. I would never in conversation just
 7 talk to my colleagues about the BGs. That's not
 8 something I would do.
 9 Q. If someone were to in conversation
 10 refer to "BGs" to you or in an e-mail, would you
 11 understand that that meant buying group?
 12 A. I would have to understand the context
 13 of the communication. It could be a person they
 14 are referring to. It could be -- I don't know.
 15 Q. Is "buying club" another term meaning
 16 buying group?
 17 MR. McDONALD: Object to the form.
 18 A. It could. Could be.
 19 Q. Schein has different pricing programs
 20 for buying groups than it does for DSOs; is that
 21 right?
 22 A. Every customer has a negotiated term
 23 that they're doing business with. It could
 24 include a pricing program. It could include
 25 value added services. Could include our terms

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 for our equipment service. It's very -- there's
 3 no standard. It's, you know, one customer is
 4 one customer.
 5 Q. Are there certain formularies that
 6 apply to DSOs that Schein would not offer to
 7 buying groups?
 8 MR. McDONALD: Object to the form.
 9 A. I'm trying to understand the question.
 10 Q. Do you understand what formulary is?
 11 A. A formulary is a list of products that
 12 a customer has available to them at special
 13 pricing that typically, customer-by-customer, is
 14 discussed and agreed upon, and also, we would be
 15 working closely with manufacturers to have
 16 appropriate pricing for a particular customer, a
 17 particular segment of customers.
 18 So that formulary is something that a
 19 customer can buy from, doesn't have to buy from,
 20 and it's accustomed to each customer. So, in
 21 working with any customer, we would look to
 22 develop a relevant list of products that are
 23 important to them that may or may not be similar
 24 products that are on a DSO buying group, but by
 25 definition, we don't have a policy that says

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 something that the DSO is doing is not available
 3 to a buying group.
 4 Q. On the whole, is pricing to DSOs lower
 5 than pricing to buying groups?
 6 A. I don't know that. I don't know. We
 7 have business with many -- I'm not familiar with
 8 all of the terms that we have with the many
 9 buying groups that we're doing business with and
 10 how that matches up to the pricing that we may
 11 have for various DSOs. Because again, DSOs come
 12 in many, many different sizes from, you know,
 13 700 offices to maybe 50 offices, and their
 14 pricing is different based upon each customer's
 15 situation.
 16 Q. What percentage of Schein's dental
 17 revenues come from buying groups?
 18 MR. McDONALD: Object to the form.
 19 A. I don't know.
 20 Q. Does Schein track its revenues from
 21 buying groups?
 22 A. During what period of time?
 23 Q. Does Schein track its revenues from
 24 buying groups today?
 25 A. We have created a new discipline

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 within the company, a new functional
 3 responsibility within the company, and some team
 4 members that are responsible for us for a
 5 particular segment of customers that are other
 6 than a private practice, other than DSO, but
 7 they're alternate kinds of entities that come in
 8 many, many different sizes and flavors that are
 9 looking to do business with us, and that person
 10 is responsible for helping us in a uniform way
 11 evaluate how each of those entities' businesses
 12 fit with what our overall value goal is in
 13 helping our customers grow and run a business
 14 and have value as elements of their offering,
 15 and it's not just about price and us being just
 16 a box-mover for a lower price.

17 And so today, and going forward, we
 18 have a team that's responsible for that, which
 19 would include a certain amount of reporting as
 20 to, you know, the scope of that business and
 21 what's in that business.

22 Q. Are you referring to the Alternate
 23 Purchasing Channel?

24 A. I am.

25 Q. And the Alternate Purchasing Channel

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 is tracked by the Mid Market group; is that
 3 right?

4 A. No.

5 Q. Who tracks the Alternate Purchasing
 6 Channel?

7 A. There's a leader. Her name is Darci
 8 Wingard. I'm not sure exactly how to spell her
 9 name.

10 Q. Prior to Darci --

11 A. But Darci reports to a leader who is
 12 part of the HSD with the Private Practice
 13 business as well, his name is Joe Cavaretta, and
 14 those two know the most about how that, you
 15 know, the reporting is actually working within
 16 our U.S. dental businesses.

17 Q. So buying group reporting goes through
 18 Darci Wingard to Joe Cavaretta?

19 A. Yes.

20 Q. Prior to Darci starting at Schein, did
 21 anybody else systematically conduct reporting
 22 for buying groups?

23 A. It was --

24 MR. McDONALD: Object to the form.
 25 Go ahead.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. It was distributed across our Private
 3 Practice Management Team and Mid Market and also
 4 within our Special Markets business as well,
 5 because, as I mentioned before, we've been doing
 6 business with buying groups for many years in
 7 all kinds of different forms.

8 So some of those customers found
 9 themselves in the Private Practice and Mid
 10 Market area and some of those customers found
 11 themselves in our Special Markets area based
 12 upon whatever their operating model was.

13 So, over the years, we've had a lot of
 14 internal dialogue about where should certain
 15 customers go, should they be in Special Markets,
 16 should they be in the Private Practice and the
 17 Mid Market area, and because there has been an
 18 increased level of the emergence of different
 19 kinds of entities that are looking to do
 20 business with us, we said we need to have
 21 someone that's totally focused on the whole
 22 segment of Alternate Purchasing Channels.

23 Q. Do you have any sense of Schein's
 24 profit margin with respect to the buying group
 25 customer segment?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I do not.

3 Q. Do you have any sense of Schein's
 4 approximate market share in the buying group
 5 customer segment?

6 A. I do not.

7 Q. There are no third-party resources
 8 that Schein could use to evaluate its market
 9 position for buying groups?

10 A. None that I'm aware of.

11 Q. You mentioned earlier that you
 12 distinguish between buying groups and GPOs.
 13 Can you tell me a little bit more
 14 about that?

15 A. So the "GPO" terminology -- and again,
 16 we, even internally, there's some interchange
 17 that is utilized. Sometimes people utilize the
 18 term "GPO" in a way where they're really
 19 referring to a buying group or a buying club,
 20 but GPOs emerged in the Henry Schein world
 21 actually outside of our dental business and they
 22 have been resident in our medical business for
 23 many, many years.

24 The group purchasing organization,
 25 separate entities were borne out of the dynamic

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 of the acute care hospitals and manufacturers
 3 making contracts actually with the group
 4 purchasing organization itself is a separate
 5 entity, and that dynamic of manufacturers having
 6 contract pricing for classes of customers is
 7 something that has been in place in the medical
 8 industry for quite some time.

9 So whenever I'm asked about a GPO, I'm
 10 automatically thinking of that model that's
 11 resident within the medical business. If
 12 someone asks me about GPO and dental, to the
 13 best of my knowledge, GPO of that kind of model
 14 is not very prevalent, if prevalent at all, in
 15 the dental business based upon my knowledge.

16 Q. Does Schein have any GPO customers in
 17 the dental segment today?

18 And I'm using "GPO" as the way you
 19 defined GPO.

20 A. Not in any meaningful way that I'm
 21 aware of.

22 Q. When you say "not in any meaningful
 23 way," does that suggest that there are --

24 A. I don't know, because there could be
 25 somebody discovered something and something is

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 there that I'm not aware of.

3 Q. I understand that you're the CEO of
 4 Schein's dental business; is that right?

5 A. No longer.

6 Q. What is your current title?

7 A. I'm the vice chairman now of Henry
 8 Schein, and I'm also, and have been for a number
 9 of years, the president of Henry Schein, and
 10 recently, within the last two months, a new
 11 executive has joined our team, his name is John
 12 Koch, K-O-C-H, and John Koch is the global CEO
 13 for our Dental Distribution business.

14 Q. Was your move a promotion?

15 A. So John reports to me. I don't think
 16 of it as a promotion, but I'm -- could be.

17 Q. Was --

18 A. I'm still responsible through John
 19 now, so I'm no longer the CEO of the Global
 20 Dental Distribution business.

21 Q. Was your move something that you were
 22 happy about?

23 A. We are all responsible for succession
 24 planning. I have been with Henry Schein for 38
 25 years. We have a great team of people, and we

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 have people that have grown from within as we
 3 transition the company over those 38 years from
 4 one location and 150 people when I joined the
 5 company that was totally focused on just
 6 consumable products selling mail order to
 7 becoming a full service dental company, not only
 8 in the United States, but around the world, and
 9 many of my colleagues have been able to grow
 10 within but sometimes need to recruit from the
 11 outside in succession planning, and now we have
 12 someone who is capable to take what my job. So
 13 it's really a product of succession planning,
 14 given my years of experience.

15 Q. Was Tim Sullivan considered for your
 16 prior job?

17 A. Tim Sullivan was not considered nor
 18 was he interested.

19 Q. Tim Sullivan used to be one of your
 20 direct reports?

21 A. Tim Sullivan was one of my direct
 22 reports up until John Koch joined the
 23 organization.

24 Q. Is Tim Sullivan still the president of
 25 Henry Schein Dental?

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 A. Tim Sullivan is the president of our
 3 Henry Schein North American Distribution
 4 business, so Canada is also part of his
 5 responsibility. Tim Sullivan does not have
 6 direct responsibility for the Special Markets
 7 business, which reports to Hal Muller.

8 Q. While you were still CEO of the Dental
 9 business, what were the differences in duties
 10 between you and Mr. Sullivan?

11 A. So Tim Sullivan is a business unit
 12 leader who is responsible for the largest
 13 business unit of Henry Schein, and he's directly
 14 responsible for strategy, for operations, for
 15 budgeting, for performance, and, of course,
 16 reporting to me, I'm accountable for his
 17 performance.

18 So what I also do is I also, as the
 19 CEO, when I was the CEO of the Global Dental
 20 business, I was responsible for the Global
 21 Dental business outside of North America as well
 22 with regions of Europe, APAC, and also we had a
 23 business in Brazil.

24 Q. When you were CEO of Henry Schein's
 25 Dental business, did you regularly consult on

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 individual customer accounts?
 3 MR. McDONALD: Object to the form.
 4 Vague.
 5 A. Not often.
 6 Q. Did you consult on opportunities to
 7 bid?
 8 MR. McDONALD: Object to the form.
 9 A. Not part of my job normally.
 10 Q. Did you know about each RFP or
 11 customer price quote?
 12 A. No.
 13 Q. Did you set pricing for customers?
 14 A. No.
 15 Q. Did you approve responses to RFPs or
 16 customer price quotes?
 17 A. No.
 18 Q. Did you have to approve decisions not
 19 to bid?
 20 A. No.
 21 Q. Was there a threshold customer account
 22 size that would have required your approval in
 23 any way?
 24 A. Not specifically.
 25 Q. I presume that a team of people at

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Schein come up with a business strategy for HSD?
 3 A. Yes.
 4 Q. Are you a member of that team or were
 5 you a member of that team?
 6 A. That would be Tim's team, and I'm
 7 responsible for -- I was responsible for Tim's
 8 team.
 9 Q. And Tim's team would come up with a
 10 strategy, and you would ultimately approve it?
 11 A. Yes.
 12 Q. Do you monitor whether the strategy
 13 that you approve for HSD is being followed?
 14 A. We monitor performance of all of our
 15 business units, including progress towards
 16 strategic goals.
 17 Q. Do you personally monitor whether
 18 strategic goals are being met?
 19 A. I'm personally involved as part of the
 20 executive team that would monitor that, yes, and
 21 I'm direct -- I would have been directly
 22 accountable given Tim reported to me.
 23 Q. How did you monitor whether or not
 24 there was progress on strategic goals?
 25 A. Through periodic reporting of status

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 of the team; providing input back to Tim;
 3 evaluating their course correction plans, if in
 4 fact they were off-plan; and supporting them as
 5 best as I could.
 6 Q. Anything else?
 7 A. Not that I can think of.
 8 Q. You relied on others to provide you
 9 information to help you determine whether or not
 10 progress was being made on strategic plans?
 11 A. I have a team that also would include
 12 a CFO on the global basis and also some
 13 administrative colleagues that would help with
 14 the overall administration of the worldwide
 15 Global Dental business, which would have
 16 included more than 6,000 direct team members and
 17 probably \$6 billion or something like that in
 18 business, and so our team would work with all of
 19 the business unit leaders in all of the
 20 different countries and we would work with them,
 21 understanding how they're performing through
 22 their plans, and we would help them where we
 23 could help them with regard to ideas as to how
 24 to improve, should that be required.
 25 Q. Have you ever discovered an instance

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 where a strategy set for HSD was not being
 3 followed?
 4 And I want to be clear that my
 5 question relates not to a problem of execution,
 6 but actions that are inconsistent with an
 7 approved strategy.
 8 MR. McDONALD: Object to the form.
 9 A. Not that I can think of.
 10 Q. If you had discovered such an
 11 instance, what would be your recourse? What
 12 would you do?
 13 MR. McDONALD: Object to the form.
 14 A. Depends on what the particular
 15 strategy is. Some of our strategies are
 16 long-term in nature, and some of those
 17 strategies really require nurturing over a good
 18 number of years. They are long-term priorities,
 19 and sometimes short-term urgencies and things
 20 that are important from a short-term performance
 21 point of view has a team delaying some of the
 22 longer term strategies, and I would either
 23 support that or not or ask them to, you know,
 24 find a way to focus on those longer term
 25 strategies as well.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Q. Has Schein ever had a policy on
3 whether and when to work with buying groups?

4 A. No.

5 Q. Does Schein work with buying groups?

6 A. Yes.

7 Q. How does it determine what buying
8 groups to work with?

9 MR. McDONALD: Object to the form.

10 A. The responsibility for determining
11 which customers to work with and how to work
12 with those customers resides at the business
13 unit operating level, and our overall business
14 model and our strategy is one of high value for
15 our customers, recognizing that our customers,
16 again, as we mentioned before, are in business,
17 and we want to help them to be successful in
18 their business. And so we provide a lot of
19 resource related to helping them understand how
20 to be successful in the business, and it's much
21 more than -- it's much more about value than it
22 is about a specific price for consumable
23 products and us just being a distributor.

24 We have to be a good distributor, but
25 what our focus is is on high value. So our

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 teams would be looking to align with entities
3 that have some alignment with high value, and
4 it's not just about price. That decision to
5 work with those businesses or those entities is
6 delegated to the various operating team leaders.

7 Q. How does Schein identify which buying
8 group entities are aligned with high value?

9 MR. McDONALD: Object to the form.

10 A. It's delegated to the business unit
11 leaders. So --

12 Q. You don't have an understanding of how
13 you identify high value buying groups?

14 MR. McDONALD: Object to the form.

15 A. The essence of it is that our business
16 model of high value and not just price is the
17 most important thing for us to understand what
18 the goals are of any of those customers, and we
19 would expect that our team is learning and
20 understanding about what that entity is looking
21 to do for the members that might become part of
22 their group, and are they about helping those
23 members in ways that are just beyond getting the
24 cheapest price for any particular product.

25 Q. Is there some manual or cheat sheet or

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 guidance that Schein has issued to help its team
3 members identify which buying group entities are
4 aligned with high value?

5 A. In what time period?

6 Q. In any time period.

7 A. So, therefore, the answer is yes and
8 no. So there's no formal program or policy or
9 document that I could point to over the 20 years
10 that we've been involved with buying groups that
11 provided that very specific guidance.

12 Today there is, because we have
13 created this alternate purchasing channel
14 leadership and team within our team, and Darci
15 and her team have articulated the kinds of
16 things we want to make sure that we see are part
17 of that decision-making process.

18 Q. When did Darci and her team articulate
19 the particular characteristics that would apply
20 to APCs who are aligned with high value?

21 MR. McDONALD: Object to the form.

22 A. So Darci has probably been with us in
23 this leadership position for a year or two, so
24 within that window of time.

25 Q. Prior to a year or two ago, did Henry

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Schein have any formal guidance for its team to
3 help identify entities aligned with high value
4 in the buying group segment?

5 A. The guidance was focused on alignment
6 with our value proposition. We have never
7 wanted to stray from our overall value
8 proposition with the customers, and we feel that
9 to the extent that -- and we'll talk to anybody.
10 So if anybody is out there that's looking to do
11 business in the dental business, we'll listen to
12 them, and to the extent that they are also about
13 value -- and that's what the conversation has
14 been about before it's been more, for lack of a
15 better term, codified by Darci, that's what the
16 team would have been focused on.

17 Q. So, prior to Darci coming onboard,
18 there was guidance, but it wasn't codified, is
19 that what you're saying?

20 A. Yeah, there was guidance and we were
21 all driving to high value and looking to work
22 with partners that were also aligned, and we
23 could feel that it was fitting within our
24 overall business model and that the teams that
25 we -- or the businesses that we might be working

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 with would also be able to demonstrate to us
3 that the members that would be considering
4 becoming part of that organization would feel
5 value so that they would actually be loyal to
6 that organization, and therefore, business would
7 naturally inure to us if we were aligned with
8 them or come to us if we were aligned with them.

9 Q. How has the guidance about aligning
10 with entities focused on high value in the
11 buying group segment conveyed to Schein's
12 operations teams?

13 MR. McDONALD: Object to the form.

14 A. Again, this would have been delegated
15 through the business unit leaders and through
16 the dialogue and the planning that Tim would
17 have had with his team and, in the United
18 States, the dialogue and the planning that Hal
19 would have had with his team.

20 Q. Is it your understanding that it was
21 codified orally?

22 MR. McDONALD: Object to the form.

23 A. I'm sure oral was part of it. I'm
24 sure from time to time they were writing to each
25 other. I'm sure from time to time they were

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 also talking to each other about these entities
3 that were in Special Markets, and were they in
4 Tim's business and should one be in one area and
5 one be in another area.

6 This whole area of buying groups and
7 alternate purchasing entities has been around
8 for us and we've been doing business with them
9 for many, many years, and figuring out how to
10 have it best fit with us and be aligned with our
11 business model has been a pretty active
12 conversation, I would say, leading up to the
13 point to say that we need to actually put -- it
14 would be good for us to put more structure
15 around it and ownership. That's why we created
16 Darci's leadership.

17 Q. Has Schein's definition of what
18 constitutes these value added buying groups
19 changed over time?

20 MR. McDONALD: Object to the form.

21 A. I don't think so.

22 Q. Is it Schein's policy to do business
23 with all value added buying groups?

24 MR. McDONALD: Object to the form.

25 A. Each entity is case-by-case, and the

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 decision-making is delegated to the operating
3 unit leaders.

4 Q. So there may be value added buying
5 groups that Schein has decided not to do
6 business with?

7 MR. McDONALD: Object to the form.

8 A. I don't know.

9 MR. McDONALD: Go ahead.

10 A. I don't know.

11 Q. When would Schein not work with a
12 value added buying group?

13 MR. McDONALD: Object to the form.

14 Vague. Overly broad.

15 A. I don't know. I could speculate that
16 if a mission to be value added was articulated,
17 but there wasn't evidence that there are value
18 added components, that the team would say, okay,
19 they're claiming to be value added, but there's
20 no evidence of it, so it doesn't make sense for
21 us to move right now. But that's speculation.

22 Q. If there was evidence that a buying
23 group was a value added buying group, would it
24 be your expectation that Schein would do
25 business with that buying group?

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 MR. McDONALD: Object to the form.

3 A. Would --

4 MR. McDONALD: Overbroad. Vague.
5 Go ahead.

6 A. If our teams, to include Hal's team
7 and also, separately, Tim's team, if they were
8 engaged with an entity that they felt was
9 interesting because it seemed that they were
10 going to be a good value for the members and be
11 able to have the members be loyal to the buying
12 group, I would expect that Tim would and Hal
13 would expect that their teams would look to see
14 if there's a possibility of doing business.
15 Because doing business is always also a
16 negotiation.

17 Q. Have you heard the term "price-only
18 buying group"?

19 A. Not specifically in the way that you
20 just said it, but I have -- I would distinguish
21 between the buying groups that I've been talking
22 about, the buying groups that have more to their
23 overall proposition to their members beyond
24 price, and then there are others that may be
25 focused only on price.

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 I may not have heard the term exactly
3 the way you said it, but that's -- but there may
4 be dynamics of that out there that...

5 Q. Does Schein have a policy against
6 working with buying groups that are focused only
7 on price?

8 MR. McDONALD: Object to the form.

9 A. We don't have a policy. I would say
10 that our team, in their judgment, they would
11 lean towards buying groups that actually have
12 value that fit with our model that also provide
13 us with comfort that their members are also
14 going to be loyal to the group, and there's some
15 mechanisms that help bring that about, and there
16 are other value added elements associated in the
17 buying group.

18 Q. So Schein's team shies away from doing
19 business with buying groups that are focused
20 only on price?

21 MR. McDONALD: Object to the form.

22 Mischaracterizes his testimony.

23 A. Again, we could very well have active
24 dialogue with any kind of buying group that
25 presents itself to us or alternate purchasing

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 entity, and we would evaluate whether or not it
3 makes sense and it fits and is aligned with our
4 overall value propositions and there are
5 elements associated with it that would lead to
6 loyalty within the group itself.

7 The likelihood of us pursuing buying
8 entities that don't have a value proposition and
9 are only focused on price is not something that
10 our team would spend a lot of time on. They
11 would spend time on the other opportunities that
12 we have with different kinds of buying groups
13 that do have this value.

14 Q. In setting HSD's strategic goals, if
15 Tim Sullivan were to approach you and say that
16 he wanted to add a focus on buying groups that
17 focused only on price, what would be your
18 reaction?

19 MR. McDONALD: Object to the form.

20 Improper hypothetical.

21 A. I would ask my -- it would be
22 inconsistent for Tim to be focused on changing
23 our overall model, and I would ask him has
24 something changed in the marketplace that has
25 you thinking differently and let's analyze it,

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 and maybe there's something here I don't
3 understand that we need to learn more about, and
4 we would -- we would talk it through.

5 Q. Can price-focused buying groups also
6 be beneficial for Schein?

7 MR. McDONALD: Object to the form.

8 Vague. Overly broad.

9 A. I would say that price-only buying
10 groups are just not aligned with our business
11 model and would not -- we are extremely focused
12 and putting a tremendous amount of investment
13 into the broad-based, full-service elements of
14 what we provide our customers. So price only
15 is -- it's just very inconsistent with what we
16 do.

17 Q. If a price-only buying group brought
18 new customers to Schein, is it possible that
19 that relationship could increase Schein's
20 revenues?

21 MR. McDONALD: Object to the form.

22 A. By definition, if someone brought a --
23 if there was a buying group that we weren't
24 working with -- not saying that we are -- that
25 brought incremental business, if we had gone

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 away from our policy, it could bring incremental
3 business at a low level, yeah. Could.

4 Q. If a price-only buying group brought
5 new customers to Schein, is it possible that
6 that relationship could increase Schein's
7 profitability?

8 MR. McDONALD: Object to the form.

9 A. It's complex. I don't know. I would
10 have to really look at all of the circumstances
11 and the context and what the impact would be,
12 where the area of business is being done and why
13 that value proposition might make sense for us
14 because it's inconsistent with the business
15 model that we have. It could be negative
16 effects elsewhere. I don't know.

17 Q. I'm just asking whether or not a
18 buying group that brought new customers to
19 Schein could increase profitability?

20 MR. McDONALD: Object to the form.

21 A. I don't know.

22 MR. McDONALD: Hang on. Object to the
23 form. Asked and answered.

24 Go ahead.

25 A. It -- without really understanding the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 complete circumstances about that opportunity,
 3 every opportunity has to be looked at as a
 4 separate customer, potential customer or
 5 potential entity that we're going to do business
 6 with, and we would have to make a decision based
 7 upon -- alignment is the overriding thing that
 8 we think about, and we look to make sure that we
 9 are, you know, not losing our focus on that; and
 10 so if a price-only buying group came to us, we
 11 don't really want to be just a fulfillment house
 12 and not -- not really being in a position to
 13 work directly with those customers, you know,
 14 helping them grow their business.

15 Q. If a price-only buying group were to
 16 bring new customers to Schein, would that take
 17 away from Schein's profitability?

18 MR. McDONALD: Object to the form.

19 Asked and answered. I mean, you have asked
 20 this --

21 A. It's possible.

22 MR. McDONALD: Hang on.

23 THE WITNESS: Okay. Sorry.

24 MR. McDONALD: You have asked a
 25 similar question about five times now. So

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 move along or we'll stop. This is your last
 3 shot at this question.

4 Can you repeat it for him, please?

5 (Record read as follows:

6 "Q. If a price-only buying group were to
 7 bring new customers to Schein, would that take
 8 away from Schein's profitability?")

9 MR. McDONALD: Same objections.

10 (Record read.)

11 THE WITNESS: Not necessarily.

12 BY MS. ROSNER:

13 Q. Why does Schein choose to do business
 14 with buying groups?

15 A. Again, we have to pay attention to all
 16 trends that are in the marketplace. We have to
 17 understand all possibilities of doing business
 18 with potential customers, and we feel that as
 19 long as our local teams that are responsible for
 20 their different business units feel that it fits
 21 within their overall current plans, that that
 22 business can work for us. And so, therefore, we
 23 have been doing business with buying groups of
 24 all kinds for a really long time.

25 Q. What benefits does Schein get from

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 doing business with buying groups?

3 MR. McDONALD: Object to the form.

4 Overly broad. Vague.

5 A. We get the -- assuming that the buying
 6 group is a buying group that has value elements
 7 associated with it, where the members appreciate
 8 the value brought by the buying group, it gives
 9 us an opportunity to be introduced to that
 10 customer, also adding the additional opportunity
 11 for us to convince those customers to buy even
 12 more of our value-added services, perhaps buy
 13 practice management technology.

14 It's a door-opener for us in some
 15 respects, and if the local team has determined
 16 that there's enough potential in that value, it
 17 could really work for us.

18 Q. Have you ever seen the benefits that
 19 you're describing actually manifest in any of
 20 your buying group relationships?

21 A. I'm sure that they have. I can't
 22 point to any specific examples.

23 Q. Are there any drawbacks to doing
 24 business with buying groups?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Overly broad. Vague.

3 A. Buying groups that our team has
 4 determined for the various reasons that I have
 5 mentioned before, we believe by moving ahead
 6 with them that they can work for us because of
 7 the value elements associated with those buying
 8 groups.

9 It could work out that that buying
 10 group doesn't actually achieve their goals and
 11 their members become dissatisfied, and being
 12 that we're not directly in control of what the
 13 buying group directly is doing with the other
 14 value elements that are their responsibility,
 15 there could be a negative impact.

16 MR. McDONALD: If you're moving on,
 17 let's take a break.

18 MS. ROSNER: Last question before the
 19 break.

20 BY MS. ROSNER:

21 Q. If there are potential negative
 22 impacts to doing business with buying groups,
 23 then why does Schein do business with buying
 24 groups?

25 MR. McDONALD: Object to form. Overly

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 broad. Vague. Improper hypothetical.
 3 A. It's important for us to always
 4 understand what's happening in the marketplace
 5 with various customer segments, new customer
 6 models that might be developing, and again, as
 7 long as we adhere to our high value standards
 8 and our business model and don't lose track of
 9 that, we believe we can do business and have
 10 done business with business models without
 11 hurting our ability to achieve our overall goals
 12 of high value service providers to our customers
 13 and we have actually proven it out in our
 14 performance.
 15 MS. ROSNER: Let's go ahead and take a
 16 break. Off the record.
 17 (Recess; Time Noted: 10:27 a.m.)
 18 (Time Noted: 10:50 a.m.)
 19 BY MS. ROSNER:
 20 Q. Mr. Breslawski, you're familiar with
 21 the group Smile Source?
 22 A. I am familiar with the -- to a certain
 23 extent, I'm familiar with Smile Source.
 24 Q. Smile Source is a buying group of
 25 independent private practice dentists?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I'm familiar somewhat. I am not that
 4 familiar with the complete structure of Smile
 5 Source and what all of their customers base is,
 6 but I am aware of Smile Source.
 7 Q. What do you know Smile Source to be?
 8 A. I know Smile Source to be an entity
 9 that is a customer today, was a customer years
 10 ago, stopped being a customer, and is back
 11 working with us. So I just don't know all of
 12 the structure of their business.
 13 Q. You don't know whether Smile Source
 14 has an ownership interest in its affiliate
 15 dentists?
 16 A. I do not.
 17 Q. Do you know that Smile Source is a
 18 franchise model?
 19 A. I don't know -- I do not know Smile
 20 Source's business structure virtually at all.
 21 Q. Do you know any of the benefits that
 22 Smile Source provides to its members?
 23 A. I do not. That is something that Tim
 24 Sullivan and his team would be much more
 25 familiar with than me.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. Do you know that Smile Source was
 3 modeled off of a buying group in a division
 4 industry?
 5 MR. McDONALD: Object to the form.
 6 A. I heard that there was some history in
 7 the division business, but I don't know much
 8 about that either.
 9 Q. Do you have any views, either positive
 10 or negative, about Smile Source's business
 11 structure?
 12 A. The only thing I would know is that
 13 our team is interested in doing business with
 14 Smile Source, so assuming Tim and his team have
 15 gone through their overall evaluation process as
 16 to whether or not this makes sense for us, I
 17 would be supportive.
 18 Q. Is it your understanding that Smile
 19 Source is a value-added buying group?
 20 MR. McDONALD: Object to the form.
 21 A. Again, I don't know that much about --
 22 I am relying on Tim and his team and, at this
 23 point, Darci being part of that and Joe
 24 Cavaretta making their decisions.
 25 Q. You mentioned that at various points

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 in time Smile Source has been a Schein customer.
 3 I want to focus on the time from the sort of mid
 4 2000s to the 2012 timeframe.
 5 For the majority of that time, Smile
 6 Source --
 7 A. The mid- -- please, the mid 2000s to
 8 2012?
 9 Q. Yes.
 10 A. Okay.
 11 Q. For the majority of that time, Smile
 12 Source was a customer in Schein's Special
 13 Markets division; is that right?
 14 MR. McDONALD: Object to the form.
 15 A. I don't know. I don't know which
 16 business group they were working with. I don't
 17 recall. I may have known at one time.
 18 Q. Do you recall any disagreements
 19 between Tim Sullivan and Hal Muller regarding
 20 Smile Source in the 2010-2012 timeframe?
 21 A. Could be, in that anytime that our
 22 team is looking to determine how we're going to
 23 work with a particular entity, given that our
 24 U.S. Dental business is split between Special
 25 Markets and the rest of the business, that Tim

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 and Hal would have had frequent conversations
3 about, whether it's Smile Source or any other
4 customers, as to the appropriate placement of a
5 customer or a potential customer in either our
6 Special Markets business or within Tim's scope.

7 Q. I'm asking you specifically whether
8 you recall a disagreement between Tim and Hal
9 regarding Smile Source.

10 A. I don't recall details of any specific
11 disagreements with Hal and Tim.

12 Q. Do you recall whether there was a
13 disagreement between Hal and Tim on Smile
14 Source?

15 MR. McDONALD: Object to the form.

16 A. It's not something that's been on my
17 mind in any significant way.

18 Q. Do you understand that in the 2010 to
19 2012 timeframe, Hal Muller wanted to continue
20 doing business with Smile Source?

21 MR. McDONALD: Object to the form.

22 A. I don't recall the details of any
23 conversation between Tim and Hal regarding Smile
24 Source.

25 Q. Do you recall whether Tim Sullivan

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 wanted to end Schein's relationship with Smile
3 Source?

4 MR. McDONALD: Object to the form.

5 A. I don't recall that.

6 Q. Do you recall whether Mr. Muller told
7 Mr. Sullivan that Smile Source could bring more
8 volume to Schein?

9 MR. McDONALD: Object to the form.

10 A. I don't recall details of conversation
11 and debate between Hal and Tim on a detailed
12 level with regard to Smile Source or any other
13 specific customer. This is something that is
14 delegated to the president of Special Markets
15 and the president of the balance of our U.S.
16 Dental business, and typically they work these
17 things out.

18 Q. Mr. Sullivan's understanding was that
19 Smile Source did not have ownership in its
20 members' practices.

21 If Smile Source had ownership in its
22 members' practices, would Schein have been
23 amenable to working with Smile Source?

24 MR. McDONALD: Object to the form.
25 Improper hypothetical.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 A. Again, I'm not familiar with those
3 details. We work with all kinds of entities
4 where there's ownership, where there's not
5 ownership. I don't -- don't understand the
6 context of the conversation Tim may have been
7 having with Hal.

8 Q. Is it your testimony that if a group
9 does not have an ownership interest in its
10 member practices, then Schein will not work with
11 those members?

12 MR. McDONALD: Object to the form.

13 A. No, that's not my testimony.

14 Q. I'm going to show you a document
15 that's been previously marked as Exhibit CX2111.
16 (Complaint Counsel Exhibit CX2111-001
17 through011, an e-mail chain bearing Bates
18 Nos. Henry Schein-000866230 through 240,
19 marked for identification, as of this date.)

20 BY MS. ROSNER:

21 Q. This is a multi-page e-mail string.
22 The Bates number on the first page is Henry
23 Schein-000866230.

24 Please take a moment to review this
25 document and let me know when you're done.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 (Document review.)

3 THE WITNESS: Okay.

4 BY MS. ROSNER:

5 Q. You've had an opportunity to review
6 CX2111?

7 A. Yes.

8 Q. I'm going to refer you to the bottom
9 of page CX2111-003.

10 A. Yes.

11 Q. There's an e-mail from Tim Sullivan at
12 the bottom of that page at 3:01 p.m. to you and
13 Lynne McHugh.

14 Who is Lynne McHugh?

15 A. Lynne McHugh was an executive who had
16 certain operating responsibility but also had
17 certain general administrative responsibility
18 working directly for me.

19 Q. In this e-mail, Mr. Sullivan says,
20 beginning with the second sentence, "Hal seems
21 to feel confident with this group and wants to
22 support this. It feels like a buying club to
23 me. Yes, they do a lot more, but part of their
24 approach is better pricing on supplies. Not
25 good."

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Did I read that correctly?

3 A. "Feels like a buying club to me. Yes,
4 they do have" --

5 Yep, you read it correct. Yes.

6 Q. What do you understand him to mean by
7 saying, "Yes, they do a lot more"?

8 MR. McDONALD: Object to the form.

9 A. Well, I think this communication is
10 indicative of our teams, the two leaders of the
11 major parts of our business, sorting through and
12 evaluating whether or not this entity actually
13 fits and where it fits. And so it looks like a
14 good debate or discussion between the two of
15 them as to the level of value beyond just price
16 that this entity provides to its membership, and
17 they're searching for agreement amongst
18 themselves as to how we might want to move
19 forward with this entity.

20 Q. I think you just answered a different
21 question. I want you to focus on my specific
22 question, which is the language, "Yes, they do a
23 lot more."

24 What's your understanding of what that
25 means?

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 MR. McDONALD: Object to the form.

3 A. I would be speculating.

4 MR. McDONALD: Well, don't speculate.

5 You're not here to speculate. You're here
6 to tell the truth and give your answers. So
7 if you don't know, tell her you don't know.

8 A. I don't know.

9 Q. You receive e-mails from Tim Sullivan
10 on a regular basis, right?

11 A. Of course.

12 Q. And when he writes something to you
13 that you don't understand, do you ask him for
14 clarification?

15 A. If -- from time to time.

16 Q. So are you saying that he wrote this
17 to you, you didn't understand what he meant, and
18 you didn't ask him for clarification?

19 MR. McDONALD: Object to the form.

20 Vague. The e-mail is from eight years ago.

21 A. When this e-mail was received by my
22 colleague Lynne McHugh is the person that I
23 would have relied on typically what her role is
24 to help shepherd these conversations across our
25 business unit leaders, and it's highly unlikely

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 that I would have done anything with this
3 specific e-mail.

4 Q. If you could turn to page CX2111-05.
5 I'm going to refer you to the Tim Sullivan
6 e-mail at the bottom of that page from September
7 2, 2010 at 12:58 p.m.

8 Do you see that?

9 A. Yes.

10 Q. In the middle of his e-mail, he's
11 referring to Smile Source, and he says, "This
12 becomes a buying group. If they buy a practice
13 and own it... no problem. That's how it works."

14 Did I read that correctly?

15 A. Yes.

16 Q. What do you understand him to mean by
17 saying, "If they buy a practice and own it... no
18 problem. That's how it works"?

19 MR. McDONALD: Object to the form.

20 A. Not sure what he means by that.

21 Q. Does Schein have a policy that they
22 only do business with groups in 2010 that own
23 practices?

24 A. We do not have that policy. Did not
25 have that policy. I believe that Tim was

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 talking about whether or not -- I think they
3 were debating whether it's in Hal's business
4 group or it's in Tim's.

5 Q. Where do you understand the debate
6 was?

7 A. Well, I shouldn't speculate. I was
8 reading into it, so I don't know.

9 Q. So if there was ownership, are you
10 saying that the group would be in Special
11 Markets at this time?

12 A. Generally, Special Markets accounts,
13 with exceptions, are accounts where there is
14 ownership, generally, but there's exceptions.

15 Q. Does Henry Schein Dental have a
16 limitation that its customer segments have to
17 have ownership?

18 MR. McDONALD: Object to the form.

19 Vague as to time.

20 A. No.

21 Q. I'm going to refer you to CX2111-007.
22 It's an e-mail from Hal Muller, August 31, 2010,
23 at 9:12 p.m.

24 Do you see that?

25 A. Yes.

CONFIDENTIAL - JAMES BRESLAWSKI

Q. He starts this e-mail, "After Randy's call, I do think we continue the relationship with Smile Source. They are going to expand and they just have a slightly different model, but they are not by far the first group that we have had that doesn't own the offices."

Did I read that correctly?

A. Yes.

Q. So Mr. Muller is telling the group in that e-mail that he wants to continue the relationship with Smile Source; is that right?

MR. McDONALD: Object to the form.

For the record, the witness is not on that e-mail.

(Pause.)

THE WITNESS: I'm sorry, was there a question for me?

MS. ROSNER: Can you repeat the question?

(Record read.)

MR. McDONALD: Same objections.

THE WITNESS: His first sentence appears to be saying that.

BY MS. ROSNER:

CONFIDENTIAL - JAMES BRESLAWSKI

Q. And in the e-mail from Tim Sullivan on page 2111-005, the e-mail that we just looked at, Mr. Sullivan appears to disagree with Mr. Muller; is that right?

MR. McDONALD: Object to the form.

A. Which e-mail?

Q. The e-mail that we just looked at on September 2, 2010 at 12:58 p.m. Mr. Sullivan appears to disagree with Mr. Muller about whether Schein should continue doing business with Smile Source?

MR. McDONALD: Object to the form.

A. It's clear they are debating this issue. I don't have the full context of their conversation.

Q. You just spent a moment reading the full e-mail; is that right?

MR. McDONALD: Well, and for the record, as you very well know, there's many other e-mails about this issue, and the company did do business with Smile Source for another year and a half. I think this is a colossal waste of time, but go ahead.

Q. I'm just trying to better understand

CONFIDENTIAL - JAMES BRESLAWSKI

that, "If they buy a practice and own it... no problem. That's how it works" comment?

A. Again, I don't know --

MR. McDONALD: Objection. Asked and answered.

Go ahead.

A. I don't know what Tim is referring to.

Q. Does this seem contrary to your understanding of Schein's strategy with respect to buying groups?

MR. McDONALD: Object to the form.

A. Every decision about an entity that we're either doing business with or considering doing business with stands on its own, and some of those decisions are made within Hal Muller's business and some of those decisions are made in Tim's business. And sometimes there is a discussion as to whether or not the customer's in the right place and it's a complex matter, and so there's some dialogue here between Hal and Tim, where they're looking to understand what the best next steps are with Smile Source.

Q. So I understand that every customer decision is independent of that customer for

CONFIDENTIAL - JAMES BRESLAWSKI

that customer.

Tim seems to be suggesting a broader rule, which is if they buy a practice and own it, no problem. Is that your understanding --

A. There is no --

MR. McDONALD: Hang on. Hang on. Object to the form. Asked and answered.

MS. ROSNER: Can I finish my question?

MR. McDONALD: Well, sure, why don't you go ahead.

MS. ROSNER: Can you repeat what I said before?

MR. McDONALD: Well, you're reading the question. Why don't you just read it again.

(Record read.)

MR. McDONALD: Are you done?

MS. ROSNER: I'll pose that same question.

MR. McDONALD: Object to the form. Asked and answered.

He already told you this was a debate between whether it's in Special Markets or

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 HSD, but tell her that again.
 3 THE WITNESS: This is a debate that
 4 Hal and Tim are having as to the right the
 5 appropriate placement of this customer in
 6 either Hal's business or Tim's business.
 7 BY MS. ROSNER:
 8 Q. You do not understand this e-mail
 9 chain to be a debate about whether Schein should
 10 do business with Smile Source?
 11 A. No.
 12 MR. McDONALD: Object to the form.
 13 A. No.
 14 Q. You can put that document aside.
 15 In late 2010, Schein was considering
 16 dropping Smile Source as a customer; is that
 17 right?
 18 A. I don't know.
 19 Q. In late 2010, Schein was considering
 20 discontinuing Smile Source's discount; is that
 21 right?
 22 MR. McDONALD: Objection.
 23 A. I didn't hear the question.
 24 Q. In late 2010, Schein was considering
 25 discontinuing Smile Source's discount?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I don't know.
 4 Q. The president of Smile Source
 5 requested a meeting to explain why Schein should
 6 not drop Smile Source as a customer; is that
 7 right?
 8 MR. McDONALD: Object to the form.
 9 A. From my point of view, this is
 10 primarily delegated to the leaders of our U.S.
 11 Dental business, Hal Muller and Tim Sullivan,
 12 and I --
 13 Q. You met --
 14 A. Go ahead.
 15 Q. I'm sorry. I cut you off. Please
 16 continue.
 17 A. No.
 18 Q. You met with the owners of Smile
 19 Source in October 2010; is that right?
 20 MR. McDONALD: Object to the form.
 21 A. I actually don't recall meeting the
 22 owners of Smile Source in person. I may have
 23 participated on a phone call.
 24 Q. After the meeting with Smile Source,
 25 you thought that Smile Source was much more than

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 simply a buying group, right?
 3 MR. McDONALD: Object to the form.
 4 A. I don't recall the details of that
 5 phone call.
 6 Q. Do you recall whether or not you
 7 considered Smile Source to be much more than a
 8 buying group?
 9 A. I don't recall when, but over time,
 10 I've learned more that Tim and Hal, and Tim in
 11 particular, believes that Smile Source is a
 12 value-added entity that it would be good for us
 13 to be doing business with.
 14 Q. Has Smile Source's business model
 15 changed over time, to your knowledge?
 16 A. I don't know.
 17 Q. In the 2010 timeframe, you guessed
 18 that Smile Source's volume with Schein would
 19 grow over time?
 20 MR. McDONALD: Object to the form.
 21 A. I didn't think of it.
 22 Q. What do you mean?
 23 A. You're asking me in 2010 what was I
 24 thinking about Smile Source and their business
 25 with Schein. I wasn't thinking about it. That

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 was, again, something I delegated to Hal and to
 3 Tim.
 4 Q. You never said that Smile Source's
 5 volume with Schein would grow over time?
 6 MR. McDONALD: Object to the form.
 7 If you've got a document, show him.
 8 If you recall, tell her.
 9 A. I don't recall. I don't recall saying
 10 that, but maybe I did. I don't recall it.
 11 Q. You believe that working with Smile
 12 Source in 2010 would be a win-win situation for
 13 Schein and Smile Source?
 14 MR. McDONALD: Object to the form.
 15 If you recall, tell her.
 16 A. I don't recall. I don't recall.
 17 (Complaint Counsel Exhibit CX2298-001
 18 through 003, an e-mail chain bearing Bates
 19 Nos. Henry Schein-000735259 through 261,
 20 marked for identification, as of this date.)
 21 BY MS. ROSNER:
 22 Q. Let me hand you a document that's been
 23 previously marked as CX2298. It's an e-mail

 25 Schein-000735259.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Please take a moment to review this
 3 document and let me know when you've finished.
 4 (Document review.)
 5 THE WITNESS: Okay.
 6 BY MS. ROSNER:
 7 Q. You've had an opportunity to review
 8 CX2298?
 9 A. Yes.
 10 Q. CX2298 is an e-mail chain. The top
 11 e-mail on the chain is dated October 18, 2010.
 12 If you look to page CX22 --
 13 A. I'm sorry, which page?
 14 MR. McDONALD: She's at the very first
 15 page.
 16 THE WITNESS: On the top?
 17 MR. McDONALD: Yes.
 18 BY MS. ROSNER:
 19 Q. And now I'm going to refer you to page
 20 CX2298-003.
 21 A. Okay.
 22 Q. At the top of that page.
 23 MR. McDONALD: Slow down. Slow down,
 24 Jasmine.
 25 Q. It's an e-mail written by you on

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 October 15, 2010 at 4:05 p.m.
 3 Do you see that e-mail?
 4 A. I do.
 5 Q. You drafted this e-mail as part of
 6 your job; is that right?
 7 A. I'm sorry? Say again.
 8 Q. You drafted this e-mail as part of
 9 your job?
 10 A. I'm sure I did, yes.
 11 Q. It's part of your job to communicate
 12 about customer inquiries when they rise to your
 13 level; is that right?
 14 A. I didn't understand every word you
 15 said. Can you please say that again?
 16 Q. Is it part of your job to respond to
 17 customer inquiries when they rise to your level?
 18 A. It's part of my job to respond to
 19 customer inquiries, but also, this is an
 20 employee, Scott, who I believe was an FSC, who
 21 wrote to me, and I'm pretty accessible to
 22 people, so if a -- a team member writes to me, I
 23 will typically either do something myself to
 24 follow up or delegate it to someone to follow
 25 up.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. You had knowledge of the contents of
 3 this e-mail at the time you drafted it; is that
 4 right?
 5 A. At the time I drafted it, I'm sure I
 6 did. I wrote it.
 7 Q. And you drafted this e-mail at or near
 8 the time you looked into the Smile Source
 9 question that Scott was raising to you?
 10 MR. McDONALD: Object to the form.
 11 Don't nod your head at him, trying to
 12 suggest an answer. It may be a tick, but
 13 don't do it, please.
 14 Did you hear her question?
 15 THE WITNESS: I'm sorry. Repeat the
 16 question, please.
 17 (Record read.)
 18 BY MS. ROSNER:
 19 Q. I'm simply asking about --
 20 A. All of this is in a relevant
 21 timeframe.
 22 MR. McDONALD: Jasmine, I've told you
 23 guys I don't know how many times we're not
 24 going to object to the authenticity. If an
 25 e-mail is from him, he did it in his

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 capacity as an employee of Henry Schein.
 3 The date is what it is. You know, I mean,
 4 come on.
 5 MS. ROSNER: There are a variety of
 6 reasons why it's important to establish this
 7 as a business record, and that's all that
 8 I'm trying to do.
 9 THE WITNESS: But I thought I said
 10 that this is my e-mail, and I wrote this
 11 e-mail.
 12 BY MS. ROSNER:
 13 Q. And you wrote it near the time that --
 14 A. People don't write e-mails for me. I
 15 write my own.
 16 Q. I'm trying to establish the timing of
 17 when you wrote this e-mail, and that simply you
 18 wrote it near the time that this issue bubbled
 19 up for you?
 20 MR. McDONALD: The record speaks for
 21 itself.
 22 A. It appears that way.
 23 Q. You maintained this e-mail in the
 24 course of Schein's regularly conducted business;
 25 is that right?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I maintained this e-mail -- say it
 4 again.
 5 Q. This e-mail was maintained in Schein's
 6 regularly conducted course of business?
 7 A. Sure.
 8 Q. And this is a true and correct copy of
 9 CX2298?
 10 A. I assume so.
 11 Q. In CX2298, you say that you, Tim and
 12 Hal met with the owners of Smile Source earlier
 13 this week. You learned a lot more about their
 14 model in this meeting. They are really much
 15 more than simply a buying group.
 16 Do you see that?
 17 A. I do.
 18 Q. You are referring to Smile Source as
 19 more than simply a buying group; is that right?
 20 A. I have learned a lot more about their
 21 model in this meeting. They're really much more
 22 than simply a buying group, yes.
 23 Q. What do you mean by Smile Source being
 24 more than simply a buying group?
 25 A. I don't recall all the details of this

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 meeting. I don't actually recall meeting them
 3 in person. It could have been on the phone.
 4 But I believe what they showed is more services
 5 that they provide as sort of a management
 6 services group to help customers beyond just
 7 getting a better price on consumable supplies.
 8 Q. What were some of the services that --
 9 A. I don't recall.
 10 Q. Why is it significant that Smile
 11 Source is more than simply a buying group?
 12 MR. McDONALD: Object to the form.
 13 A. Smile Source is more, as I mentioned
 14 before, as we evaluated whether or not doing
 15 business with entities makes sense for us,
 16 aligning with value for customers, and it is
 17 important to us, and so that would be an
 18 important element of us feeling comfortable
 19 doing business with Smile Source.
 20 Q. If Smile Source was just a buying
 21 group, would Schein consider working with them?
 22 MR. McDONALD: Object to the form.
 23 A. I would rely on Hal and with -- and
 24 Tim. This is something that they would be
 25 responsible for, and to the extent that an

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 entity is not aligned with our model, it's more
 3 likely than not that we wouldn't do business
 4 with them.
 5 Q. The second-to-last sentence of your
 6 e-mail on CX2298-003 reads, "My guess is that
 7 we'll see their overall volume with us grow,
 8 thereby making this a win/win."
 9 Did I read that correctly?
 10 A. Yes. Yes.
 11 Q. You expected that volume from Smile
 12 Source was going to increase?
 13 MR. McDONALD: Object to the form.
 14 Mischaracterizes the document.
 15 A. My conclusion here is that their
 16 members would appreciate the value of Smile
 17 Source, and thereby they would be -- that
 18 membership support would also provide us with
 19 access to these customers to also sell beyond
 20 what Smile Source services may be for the full
 21 value of what it is that we could provide to
 22 those customers.
 23 Q. What do you mean by "win/win"?
 24 A. That it would be good for Henry Schein
 25 and it would be good for our customer.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. Going back up your e-mail, in the
 3 middle of your e-mail you say, "That said, I
 4 need to circle back with Tim and Hal to find the
 5 right balance."
 6 Do you see that?
 7 A. Yes.
 8 Q. If Smile Source is a win/win, why do
 9 you need to circle back with Tim and Hal?
 10 MR. McDONALD: Object to the form.
 11 A. I believe this relates to, again, as I
 12 had mentioned before, who would be the primary
 13 owner of the relationship, whether it be Tim or
 14 Hal.
 15 Q. Did you ever actually circle back with
 16 Tim and Hal?
 17 A. I don't recall specifically doing
 18 that. Again, primarily delegating and relying
 19 on Hal and Tim to work out what's next with this
 20 customer.
 21 Q. Okay. You can put CX2298 aside.
 22 In 2011, Smile Source received private
 23 equity investments and hired some new
 24 executives; is that right?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I don't know.
 3 Q. The CEO of Smile Source reached out to
 4 Schein to schedule an opportunity to introduce
 5 these new executives; is that right?
 6 MR. McDONALD: Object to the form.
 7 A. Again, I don't recall.
 8 Q. You definitely thought Schein should
 9 meet with Smile Source --
 10 MR. McDONALD: Object to the form.
 11 Q. -- to meet these new executives?
 12 MR. McDONALD: Object to the form.
 13 A. Could be.
 14 Q. Why would you be interested in meeting
 15 Smile Source's new executives?
 16 A. Relying on Tim and Hal's
 17 recommendation, I would be supportive of
 18 learning more about this -- this business would
 19 be logical for me.
 20 Q. Did Tim Sullivan ever express to you
 21 any concern about Smile Source's business model?
 22 MR. McDONALD: Object to the form.
 23 A. I don't recall specifics.
 24 (Complaint Counsel Exhibit CX2299-001
 25 through 002, an e-mail chain bearing Bates

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Nos. Henry Schein-000183494 through 495,
 3 E-mail chain, marked for identification, as
 4 of this date.)
 5 BY MS. ROSNER:
 6 Q. I'm going to hand you a document
 7 that's been previously marked as CX2299. This
 8 is an e-mail string. The top page of the e-mail
 9 is marked Henry Schein-000183494.
 10 Please take a moment to familiarize
 11 yourself with CX2299.
 12 A. Okay. I read it.
 13 Q. You've had an opportunity to review
 14 CX2299?
 15 A. Yes.
 16 Q. At the top of the e-mail string is an
 17 e-mail from you dated October 1, 2011. This
 18 e-mail you drafted as part of your job; is that
 19 right?
 20 A. Yes.
 21 Q. And it's part of your job to
 22 communicate about customer opportunities that
 23 arise?
 24 MR. McDONALD: Object to the form.
 25 A. It's part of my responsibility to

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 respond to e-mails that I get.
 3 Q. You have knowledge of the contents of
 4 this e-mail?
 5 MR. McDONALD: Object to the form.
 6 A. I have just read this e-mail.
 7 Q. At the time that you drafted your
 8 response, you had knowledge of the contents?
 9 A. I would have read the e-mail.
 10 Q. You drafted this e-mail and Schein
 11 kept it in the ordinary course of its regularly
 12 conducted business?
 13 A. I'm sure --
 14 MR. McDONALD: Hang on.
 15 Object to the form. He drafted the
 16 top e-mail.
 17 Q. This is a true and correct copy of the
 18 e-mail that you drafted?
 19 A. I'm sure it is.
 20 Q. In the e-mail below, Tim Sullivan
 21 responds to a request from Smile Source for a
 22 meeting saying, "Interesting... these guys
 23 certainly aren't going away, but their model
 24 does concern me."
 25 Tim Sullivan is telling you that the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Smile Source model concerned him. Is that how
 3 you read that e-mail?
 4 MR. McDONALD: Object to the form.
 5 A. I read that Tim Sullivan has open
 6 questions, yes.
 7 Q. Do you agree with Mr. Sullivan that
 8 the Smile Source model is concerning?
 9 A. I wouldn't know.
 10 Q. What about the Smile Source model
 11 concerns --
 12 A. I don't know.
 13 Q. Were you curious about why the Smile
 14 Source model caused concern for Mr. Sullivan?
 15 A. I --
 16 MR. McDONALD: Hang on.
 17 Objection to form.
 18 A. It is very usual for me to encourage
 19 spending time with people and meeting people and
 20 understanding, and so that's why I would have
 21 encouraged a meeting.
 22 Q. About a year prior to this, you
 23 mentioned that the Smile Source relationship was
 24 going to be a win/win.
 25 Did you remind Mr. Sullivan of your

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 impression of that?
 3 MR. McDONALD: Object to the form.
 4 Mischaracterizes the document.
 5 A. Not that I recall directly.
 6 Q. Was there anything that changed about
 7 the Smile Source model from October 2010 to
 8 September 2011 that would change a win/win into
 9 something that caused concern?
 10 MR. McDONALD: Object to the form.
 11 A. Not aware directly.
 12 Q. You can put aside Exhibit CX2299.
 13 I want to move forward in time. At
 14 some point in time around 2011 or 2012, the
 15 relationship between Schein and Smile Source
 16 ended.
 17 Is it your understanding that Smile
 18 Source eventually formed a supplier relationship
 19 with Burkhart?
 20 A. Yes.
 21 Q. In the fall of 2014, do you recall
 22 asking your direct reports whatever happened to
 23 Smile Source?
 24 A. I think I did ask them that.
 25 Q. Why would you ask them about Smile

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Source?
 3 A. Just curious about Smile Source.
 4 Q. Why would you be curious about Smile
 5 Source?
 6 A. When we lose a customer, every now and
 7 then, I remember customers that we have lost,
 8 and I may have just asked, so what's up with
 9 Smile Source?
 10 Q. Do you recall that Mr. Muller informed
 11 you that Smile Source was growing and doing well
 12 at that time?
 13 A. I don't recall those details.
 14 Q. Mr. Muller mentioned to you that Smile
 15 Source would love to get back with Schein.
 16 Does that sound familiar to you?
 17 MR. McDONALD: Object to the form.
 18 A. I don't recall that specifically.
 19 Q. Would you be interested in knowing
 20 whether or not Smile Source was delivering for
 21 Burkhart?
 22 MR. McDONALD: Object to the form.
 23 A. Would I be -- can you please restate
 24 the question?
 25 (Record read.)

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Same objection.
 3 THE WITNESS: I would be interested to
 4 know what the latest developments were of a
 5 customer who fired us, sure.
 6 BY MS. ROSNER:
 7 Q. Why would you be interested to know
 8 what the latest developments were from a
 9 customer that you are no longer working with?
 10 MR. McDONALD: Object to the form.
 11 You just mischaracterized what he just said.
 12 Go ahead.
 13 A. If it made sense for us, if we had an
 14 opportunity to speak with a former customer
 15 about current circumstance and whether or not it
 16 made sense for us to see if there's a way to
 17 continue to do business, that would not be
 18 unusual.
 19 Q. Is it your understanding that Mr.
 20 Sullivan also thought that Smile Source was a
 21 successful group?
 22 A. I don't recall that.
 23 Q. Is it your understanding that Mr.
 24 Sullivan was still not willing to work with
 25 Smile Source, despite them being a successful

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 group?
 3 MR. McDONALD: Object to the form.
 4 A. I don't, don't recall that.
 5 Q. Is it your understanding that Mr.
 6 Sullivan didn't want to be the first in the game
 7 with buying groups?
 8 MR. McDONALD: Object to the form.
 9 A. I don't know what that means.
 10 (Complaint Counsel Exhibit CX2309-001
 11 through 003, an e-mail chain bearing Bates
 12 Nos. Henry Schein-001544812 through 814,
 13 marked for identification, as of this date.)
 14 BY MS. ROSNER:
 15 Q. Let me hand you a document that's been
 16 previously marked as CX2309. It is a multi-page
 17 e-mail string, with the first e-mail bearing the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. Yes.
 3 Q. There are multiple e-mails in this
 4 chain and some e-mails are drafted from you.
 5 You drafted these e-mails in CX2309 as
 6 part of your job?
 7 A. Any e-mail from me I would have
 8 drafted as part of my job.
 9 Q. You had knowledge of the contents of
 10 the e-mails at the time that you drafted them?
 11 A. Yes; they're my e-mails, yes.
 12 Q. You drafted the e-mails in CX2309 at
 13 or near the time of the events described
 14 therein?
 15 MR. McDONALD: Object to the form.
 16 A. I drafted these e-mails as indicated.
 17 Q. You drafted the e-mails in CX2309 and
 18 kept them in the course of Schein's regularly
 19 conducted business?
 20 A. Yes.
 21 Q. CX2309 is a true and correct copy of
 22 the e-mails that you drafted?
 23 A. They appear to be.
 24 Q. I want to start on page CX2309-002.
 25 Hal Muller is forwarding an e-mail at

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 6:11 p.m. referring to the Kois Group. The
 3 second sentence of his e-mail reads, "The times
 4 are changing we might need to start thinking of
 5 a buying group strategy."
 6 Did I read that correctly?
 7 A. Yes, you did.
 8 Q. Mr. Muller is a president of a major
 9 division within Schein Dental, right?
 10 MR. McDONALD: Object to the form.
 11 A. Yes.
 12 Q. He is --
 13 A. Actually, no longer, but he was at
 14 this time.
 15 Q. He is saying that "we need to start
 16 thinking of a buying group strategy."
 17 Does Schein not have a buying group
 18 strategy at this time?
 19 MR. McDONALD: Object to the form.
 20 A. I'm not sure what he's referring to
 21 there because we were doing buying -- we were
 22 doing business with buying groups for many, many
 23 years.
 24 Q. What was Schein's buying group
 25 strategy at this time?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. On a case-by-case basis, an entity
 3 would approach us. The individual business unit
 4 leaders would determine whether or not it made
 5 sense for us to do business with them, and they
 6 would make that decision and either begin doing
 7 business or not.
 8 Q. Is it strange to you that he's saying
 9 Schein needs to start thinking about a strategy
 10 for buying groups?
 11 MR. McDONALD: Object to the form.
 12 A. I'm not sure what he is specifically
 13 thinking about with that statement.
 14 Q. Did you respond to him and say, "Hal,
 15 what are you thinking about? We have a
 16 strategy?"
 17 MR. McDONALD: Object to the form.
 18 The document speaks for itself.
 19 A. I don't recall responding directly to
 20 Hal in that way.
 21 Q. The e-mail above that comes from Tim
 22 Sullivan at 7:17 p.m. In the second paragraph,
 23 Mr. Sullivan says, "I forwarded to a few
 24 internally for discussion also. I still believe
 25 this is slippery slope and have yet to see a

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 successful one in dental and don't plan to take
 3 the lead role."
 4 Did I read that correctly?
 5 A. Yes.
 6 Q. What's your understanding of what Mr.
 7 Sullivan is calling a slippery slope?
 8 MR. McDONALD: Object to the form.
 9 A. I believe what he is referring to is
 10 starting to do business with buying groups that
 11 are just really focused on a price without
 12 the -- without the other elements that would
 13 help us, you know, be aligned with our overall
 14 business model.
 15 Q. What leads you to the conclusion that
 16 he's referring to price-only buying groups?
 17 A. Because up until this point in time,
 18 we had been doing business with buying groups,
 19 and we had gone through the process to make
 20 decisions about which groups to work with. I
 21 think that he was concerned about possibly
 22 changing that direction and moving away from our
 23 model and do we want to do that, and at this
 24 time, he's expressing concern that it doesn't
 25 feel right for us to go down that road right now

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 to change the approach that we have taken so
 3 far.
 4 Q. Is this something in the e-mail that
 5 makes you think he's referring to price-only
 6 buying groups?
 7 MR. McDONALD: Object to the form.
 8 A. I'm not -- I'm not sure. I would have
 9 to know more about the details of -- of what
 10 this group was offering myself, but I think that
 11 that's what Tim was referring to.
 12 Q. So Tim was responding to an e-mail
 13 from Hal saying that we need to start thinking
 14 of a buying group strategy.
 15 Is Hal then recommending that Schein
 16 participate with price-only buying groups?
 17 MR. McDONALD: Object to the form.
 18 A. I think Hal is encouraging us to, as
 19 we have been, continuing our overall internal
 20 dialogue to understand how we best participate
 21 with buying groups going forward as we have in
 22 the past, but also making sure we're learning as
 23 much about what's happening in the marketplace
 24 as more and more different types of entities
 25 have been emerging; and so, therefore, maybe we

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 need to think more about devoting some specific
 3 resource to it and really talk it through, is
 4 there something more we should be doing than we
 5 have been doing up to that point.
 6 Q. Sorry. I didn't quite follow.
 7 Are you suggesting that Hal is
 8 referencing the need to potentially work with
 9 price-only buying groups?
 10 MR. McDONALD: Object to form.
 11 A. No, I'm -- what I'm saying is Hal is
 12 encouraging further internal dialogue about
 13 buying groups and our history of having worked
 14 with them for a long time and what's currently
 15 happening in the marketplace.
 16 Q. You're referring to buying groups
 17 generally?
 18 A. Generally.
 19 Q. Not necessarily value-added versus
 20 price-only buying groups?
 21 A. Again, I don't know exactly what Hal
 22 is referencing here.
 23 Q. But you think that Tim is specifically
 24 referencing price-only buying groups in the
 25 "slippery slope" comment?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I believe that's so.
 3 Q. And is there anything in the e-mail
 4 that leads you to believe that the "slippery
 5 slope" comment is directed only towards
 6 price-only buying groups?
 7 MR. McDONALD: Object to the form.
 8 Asked and answered.
 9 A. I think I did answer that question.
 10 MR. McDONALD: You did.
 11 Q. Mr. Sullivan says he does not plan to
 12 take the lead role.
 13 What do you understand him to mean
 14 there?
 15 MR. McDONALD: Object to the form.
 16 A. I'm not sure what he's referring to
 17 there.
 18 Q. Did you ask him to clarify?
 19 A. I don't recall asking him to clarify.
 20 Q. When your direct reports talk about a
 21 direction or strategy for their business and you
 22 don't understand what they're saying, is it
 23 common practice for you not to ask for
 24 clarification?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. If it's very material, I would likely
 3 follow up.
 4 Q. Would deciding whether to take the
 5 lead role on a customer segment be a material
 6 direction?
 7 A. In this case, I didn't recall treating
 8 that as a material item. I thought that he -- I
 9 don't recall following up specifically with him
 10 on that.
 11 Q. Does it surprise you that you didn't
 12 follow up with Tim on that?
 13 MR. McDONALD: Object to the form.
 14 A. No.
 15 Q. At the very top of the e-mail string,
 16 the e-mail from Tim Sullivan at 9:25 p.m. in
 17 CX2309, in his second paragraph, he says, "I'm
 18 open to discussing this topic, but I don't think
 19 we want to be the first in the game. We can
 20 always be second to the party and win in the
 21 long run if this truly becomes a major trend and
 22 threat."
 23 Did I read that correctly?
 24 A. Yes.
 25 Q. What do you understand Mr. Sullivan to

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 mean he doesn't want to be first in the game?
 3 A. The same thing as -- similar to the
 4 "slippery slope" comment.
 5 Q. That he doesn't want to be first to
 6 deal with price-only buying groups?
 7 A. I think that he wants to maintain our
 8 model, our business model of high value, and be
 9 aligned with entities and customers that are
 10 also aligned in value and is not ready to
 11 compromise that. That's the way I read this.
 12 Q. The second sentence is, "We can always
 13 be second to the party and win in the long run
 14 if this truly becomes a major trend and threat."
 15 Is that to say if a Patterson or
 16 Burkhart or Benco or someone else were to start
 17 dealing with price-only buying groups, Schein
 18 might consider entering price-only buying
 19 groups?
 20 MR. RACOWSKI: Objection to form.
 21 MR. McDONALD: Object to form.
 22 A. That's to say that it's always -- my
 23 read of this is to say it's always important for
 24 us to be paying attention to what's happening in
 25 the marketplace and to how the landscape is

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 changing and how we need to make sure that we
 3 understand how our customers are moving in
 4 whatever direction that they may be moving, and
 5 at some point in time in the future maybe
 6 something like this might make sense, but right
 7 now, we're dedicated to our high value approach.
 8 We think that it's our business model that's
 9 worked for us for a long time. It still holds
 10 true today, and I think that's what Tim was
 11 talking about.
 12 Q. I want to back up one sentence. Tim
 13 is actually talking about Smile Source.
 14 He says, "Yes, I believe they are a
 15 successful group. I actually like these guys
 16 too. We did work for them for a while and it
 17 just caused too many issues. I'm open to
 18 discussing this topic, but I don't think we want
 19 to be the first in the game."
 20 Why wouldn't Schein want to be the
 21 first to work with Smile Source?
 22 MR. McDONALD: Object to the form.
 23 Mischaracterizes the document.
 24 A. I'm not sure what Tim is referring to.
 25 I think he -- my assumption is that he is

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 looking to understand more about what the Smile
 3 Source model is, and depending upon what it is
 4 and how it fits with our value model, he may or
 5 may not be supportive of it.
 6 Q. We've already discussed today how you
 7 thought that Smile Source would be a win/win,
 8 and in this e-mail in particular, Tim actually
 9 says, "I believe they are a successful group."
 10 What's stopping Schein from being
 11 first in the game with Smile Source if they're a
 12 successful group and a win/win?
 13 MR. McDONALD: Object to the form.
 14 Mischaracterizes the document.
 15 Mischaracterizes the testimony.
 16 If you understand the question, answer
 17 it.
 18 A. I'm not sure exactly what Tim is
 19 saying in his statement.
 20 Q. Did you ever follow up with Tim to ask
 21 what he meant by being first in the game?
 22 A. Not specifically as to his words in
 23 this statement.
 24 Q. Did you ever follow up with Tim about
 25 the idea of Schein not being first to work with

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 buying groups?
 3 MR. McDONALD: Object to the form.
 4 Mischaracterizes the evidence and his
 5 testimony.
 6 A. I don't recall specifically following
 7 up with Tim in that particular manner, but also
 8 frequently following up with Tim on the
 9 importance and the consistency of our business
 10 model and how it's important for us to continue
 11 to be open and listen to everyone about what's
 12 happening in the marketplace and possibly have
 13 new entities that we might work with to add to
 14 the buying groups that we had been working with
 15 that fit with our overall model.
 16 Q. So one thing I don't understand about
 17 CX2309 is that Schein already worked with Smile
 18 Source; is that right?
 19 A. Years prior to this.
 20 Q. Schein had a relationship with Smile
 21 Source.
 22 Why is it that Tim is now saying he
 23 doesn't want to be the first in the game if you
 24 have already worked with Smile Source?
 25 A. I'm not sure --

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Hang on.
 3 Object to the form. Mischaracterizes
 4 the document. Asked and answered.
 5 A. I'm not sure what he's referring to.
 6 Q. You have no understanding of what he's
 7 referring to.
 8 Why don't you simply remind Mr.
 9 Sullivan that you have already worked with Smile
 10 Source?
 11 MR. McDONALD: Object to the form.
 12 A. I don't recall doing that.
 13 Q. You can put CX2309 aside.
 14 MR. McDONALD: Let's take a break.
 15 We've been going an hour.
 16 MS. ROSNER: Off the record.
 17 (Luncheon Recess; Time Noted: 11:54
 18 a.m.)
 19
 20
 21
 22
 23
 24
 25

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 AFTERNOON SESSION
 3 (Time Noted: 12:49 p.m.)
 4 JAMES BRESLAWSKI, resumed and
 5 testified further as follows:
 6 EXAMINATION BY (Cont'd.)
 7 MS. ROSNER:
 8 Q. Mr. Breslawski, before the break, we
 9 were talking about some of the e-mail chains
 10 between you and Mr. Sullivan, and in particular,
 11 there were some comments from Mr. Sullivan about
 12 not wanting to be first in the game, not wanting
 13 to take a lead role, and you weren't sure what
 14 those referred to; is that right?
 15 A. That's correct.
 16 Q. Is there anything that could refresh
 17 your recollection as to what that refers to?
 18 A. Not that I'm aware of.
 19 Q. I want to continue talking about Smile
 20 Source.
 21 Is it your understanding that even
 22 after you met with the executives of Smile
 23 Source, that Mr. Muller and Mr. Sullivan
 24 continued to disagree about whether to work with
 25 Smile Source?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I don't recall the details of what Hal
 4 and Tim were debating about Smile Source.
 5 Q. Upon hearing that Smile Source was
 6 continuing to grow, do you recall Mr. Muller
 7 suggesting attempting to win back Smile Source
 8 business?
 9 A. I don't recall specifically Hal having
 10 a particular position that would be different to
 11 Tim's. I'm just not sure.
 12 Q. You don't recall Mr. Muller asking to
 13 win back Smile Source as a Special Markets
 14 customer?
 15 MR. McDONALD: Objection. Asked and
 16 answered.
 17 A. I believe -- well, we are now doing
 18 business with Smile Source. So at some point in
 19 time Hal and Tim, in their responsibilities,
 20 found a way for us to start to do business again
 21 with Smile Source.
 22 (Complaint Counsel Exhibit CX2310-001
 23 through 002, an e-mail chain bearing Bates
 24 Nos. Henry Schein-000605589 through 590,
 25 marked for identification, as of this date.)

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 BY MS. ROSNER:
 3 Q. I'm going to hand you a document
 4 that's been previously marked as Exhibit CX2310.
 5 This is an e-mail chain that's on multiple sides
 6 of the one page, and the first Bates number is
 7 Henry Schein-000605589.
 8 Please take a moment to familiarize
 9 yourself with CX2310 and let me know when you're
 10 done.
 11 (Document review.)
 12 THE WITNESS: Okay.
 13 BY MS. ROSNER:
 14 Q. You've had an opportunity to review
 15 CX2310?
 16 A. Yes.
 17 Q. This is an e-mail chain. The top
 18 e-mail in the chain is from you dated October
 19 26, 2014.
 20 You wrote this e-mail as part of your
 21 job?
 22 A. I'm sorry, what was it?
 23 Q. You wrote the e-mail in CX2310 as part
 24 of your job?
 25 A. Yes.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. It's part of your job to respond to
 3 e-mails that you receive?
 4 A. Yes.
 5 Q. You have knowledge of the contents of
 6 this e-mail at the time that you wrote it?
 7 A. Yes.
 8 Q. You drafted CX2310 at or near the time
 9 these questions were --
 10 A. Sorry, your words are coming together
 11 on me. Just slow down a little bit.
 12 Go ahead.
 13 Q. You drafted CX2310 at or near the time
 14 the issue described therein arose?
 15 MR. McDONALD: Object to the form.
 16 A. October -- three days later.
 17 Q. You drafted the e-mail in CX2310 and
 18 maintained it in the course of regularly
 19 conducted business at Schein?
 20 A. Yes.
 21 Q. CX2310 is a true and accurate copy of
 22 your e-mail correspondence?
 23 A. I believe so.
 24 Q. Going to the second page, CX2310-002,
 25 it starts with an e-mail from Hal Muller saying,

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 "Are we sure we don't want to let SM to try to
 3 get this business back under SM rules of play?"
 4 And he attaches or pasted in a blurb
 5 about Smile Source; is that right?
 6 A. Yes.
 7 Q. "SM" refers to Special Markets?
 8 A. Correct.
 9 Q. And Mr. Muller is recommending trying
 10 to win back Smile Source under SM rules of play?
 11 A. That's what I read.
 12 Q. What are Special Markets rules of
 13 play?
 14 MR. McDONALD: Object to the form.
 15 A. I'm not sure exactly what he's
 16 referring to.
 17 Q. Is it your understanding that he's
 18 referring to Special Markets pricing?
 19 A. No.
 20 MR. McDONALD: Object to the form.
 21 A. I'm not sure what he's -- what he's
 22 referring to.
 23 Q. If you turn the page to the first
 24 page, CX2310-001, Mr. Sullivan responds, and you
 25 are CC'd on this e-mail, "What's the difference

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 between now and then? What do we do when a Priv
 3 customer joins their GPO?"
 4 You understand "Priv" to mean private
 5 customer?
 6 MR. McDONALD: Object to the form.
 7 A. I'm not sure. It could be privileges
 8 customer. It's a loyalty program, but I'm not
 9 sure.
 10 Q. So Mr. Muller is suggesting that
 11 Schein win back Smile Source under Special
 12 Markets rules of play, and Mr. Sullivan is
 13 disagreeing; is that right?
 14 MR. McDONALD: Object to the form.
 15 The document speaks for itself.
 16 A. Looks like they're just having a
 17 conversation.
 18 Q. In their conversation, does it seem
 19 like they're in agreement?
 20 MR. McDONALD: Object to the form.
 21 The document speaks for itself.
 22 A. Tim's asking a question.
 23 Q. Mr. Muller then responds to Tim's
 24 question, "They are all private customers. What
 25 do we do when we have over 1,000 offices? Just

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 throwing it out there." Smiley face.
 3 A. Uh-huh.
 4 Q. What's your understanding of what Mr.
 5 Muller is trying to say?
 6 A. I believe it's important that Hal's
 7 looking to continue the dialogue with Tim as to
 8 what to do about this entity and should this be
 9 a customer for Henry Schein.
 10 Q. In trying to continue the dialogue
 11 with Tim, what kind of message is Hal trying to
 12 send to Tim, at least your understanding of it?
 13 MR. McDONALD: Object to the form.
 14 A. I don't -- I don't know.
 15 Q. Mr. Sullivan responds, "Then we wave
 16 flag and commit."
 17 What's your understanding of what Mr.
 18 Sullivan is saying there?
 19 MR. McDONALD: Object to the form.
 20 A. Again, I'm not sure exactly what Tim
 21 is referring to there.
 22 Q. In the first e-mail, in the earliest
 23 e-mail in the string, Mr. Muller is referencing
 24 a blurb that says that Smile Source had opened
 25 252 offices, and now in his most recent e-mail

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 he's saying, "What do we do when they open over
 3 1,000 offices?"
 4 Does Henry Schein have some threshold
 5 number of offices that it would require when
 6 working with a group purchaser?
 7 A. We do not. Not that I'm aware of.
 8 Q. Mr. Sullivan seems to object to
 9 working with Smile Source when they have 250
 10 offices, but is willing to wave flag and commit
 11 when Smile Source has over 1,000 offices.
 12 Is that based on guidance that you
 13 gave to Mr. Sullivan?
 14 A. No.
 15 MR. McDONALD: Hang on.
 16 Object to the form. Mischaracterizes
 17 the document.
 18 Go ahead.
 19 A. No.
 20 Q. Where would Mr. Sullivan get guidance
 21 that a buying group with 250 affiliates was not
 22 enough, but 1,000 affiliates would be enough?
 23 MR. McDONALD: Object to the form.
 24 Mischaracterizes the document.
 25 A. We have no guidance. No such

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 guidance.
 3 Q. Did you inform Mr. Sullivan that there
 4 was no such rule with respect to the number of
 5 offices that a group purchaser must have to work
 6 with Schein?
 7 MR. McDONALD: Object to the form.
 8 Mischaracterizes the document.
 9 A. There's no such policy.
 10 Q. Did you ever inform Mr. Sullivan that
 11 there was no such policy?
 12 MR. McDONALD: Object to the form.
 13 A. I don't recall specifically talking to
 14 him about number of offices, but we have no such
 15 policy.
 16 Q. Can you name any buying groups that
 17 Schein did business with at the time of this
 18 e-mail on October 2014?
 19 A. So there's a list of buying groups
 20 that we did business with that includes --
 21 there's a whole host of them.
 22 You want me to give you the names? I
 23 don't know if I can remember the names off the
 24 top of my head.
 25 Q. Do you personally remember any of the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 groups that you did business with in 2014?
 3 A. In 2014, there's -- let's see, the
 4 Alpha Omega group is a group we have done
 5 business with for a long period of time.
 6 There's the Council Connections Group. I don't
 7 really know much about these -- these detailed
 8 buying groups, their ownership structure or
 9 their size, but I know there's quite a number of
 10 them.
 11 Q. You mentioned that you don't
 12 necessarily know all the details, including the
 13 size.
 14 Any sense of how many offices Alpha
 15 Omega has?
 16 MR. McDONALD: Object to the form.
 17 A. No, I don't.
 18 Q. Any sense of how many offices Council
 19 Connections has?
 20 A. I don't.
 21 Q. In 2014, did Schein have any buying
 22 group customers that had more than 250 offices?
 23 MR. McDONALD: Object to the form.
 24 A. Please repeat the question.
 25 (Record read.)

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 THE WITNESS: I don't know.
 3 MS. ROSNER: Did someone just join?
 4 MS. GOFF: Yes. This is Karen. I got
 5 cut off.
 6 BY MS. ROSNER:
 7 Q. At any point in time, who has been
 8 Schein's largest buying group customer?
 9 MR. McDONALD: Object to the form.
 10 A. I don't know.
 11 Q. Going back to the e-mail CX2310, you
 12 respond to this disagreement between Mr.
 13 Sullivan and Mr. Muller by saying, "Can we
 14 brainstorm a little about this during our off
 15 site time together? This is not just about
 16 Smile Source."
 17 Did I read that correctly?
 18 A. Yes.
 19 Q. What do you mean when you say, "This
 20 is snot just about Smile Source"?
 21 A. My recollection of what I was talking
 22 about here is that the overall dynamic of the
 23 development of different purchasing entities and
 24 possible customers of Henry Schein was changing
 25 and that there are entities that might be

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 similar to Smile Source that are out there, and
3 it would be good for us to talk about it in a
4 broader sense rather than just focusing on this
5 particular issue.

6 Q. When you say it's not just about Smile
7 Source, you're referencing other buying groups
8 that may be in the market?

9 MR. McDONALD: Object to the form.

10 A. I'm referencing that there may be
11 other buying groups in the market; what our
12 current status is with the current groups that
13 we're doing business with; which ones may be
14 resident within Special Markets; how we're
15 making decisions; if they were in Special
16 Markets; are they in Tim's business; how the
17 FSCs are involved; are they not involved.

18 There's a whole host. It's a very
19 complex matter. So it's easier to talk and
20 brainstorm about different things if we're all
21 together.

22 Q. These issues that you're talking about
23 are where to put group customers and whether
24 FSCs should be involved?

25 A. Yes.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Q. These are not new issues for Schein,
3 right?

4 A. It's always an outstanding issue
5 that's evolving over time, because as customers
6 are changing, generally speaking, customers that
7 are the largest customers in our Special Markets
8 group actually do not require the FSC to have
9 the same kind of contact that the customers in
10 Tim Sullivan's group require, but overall,
11 customers are becoming more and more complex and
12 there are likely certain customers in Hal
13 Muller's group that have certain FSC involvement
14 and certain customers in Tim's group that are
15 also now starting to not have FSC involvement,
16 so it's a complex matter.

17 Q. Are you aware of FSCs raising
18 complaints up the chain when their customer
19 accounts join buying groups?

20 A. I am aware of questions that are on
21 FSCs' minds about what may happen with customers
22 they're currently assigned with that are working
23 directly with Henry Schein that may at some
24 point not be working directly with Schein but
25 through another entity, and how that might

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 affect their involvement with that customer.

3 Q. And how do you become aware of these
4 instances?

5 A. In various ways. Sometimes, like we
6 saw, there was a message from that FSC in
7 earlier documents, or there may just be
8 conversation that Tim would have with us at a
9 particular meeting, saying that this topic may
10 be coming up, some of the complications that
11 exist with signing on a buying group.

12 Q. And is there some sort of conflict
13 that needs to be resolved when these issues
14 arise?

15 MR. McDONALD: Object to the form.

16 A. Sometimes.

17 Q. Does this conflict also arise when a
18 private customer joins a Schein DSO customer?

19 MR. McDONALD: Object to the form.

20 A. Sometimes.

21 Q. And is there a discussion about how to
22 resolve the conflict when a private customer
23 joins a Schein DSO customer?

24 A. Hal and Tim would typically work
25 through that together. They and their teams

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 would decide how to handle that.

3 Q. So you're not involved in those
4 conversations?

5 A. Typically, I would not be involved in
6 those detailed level of conversations as a
7 matter of course.

8 Q. You can put aside CX2310.

9 At some point in time, Schein did win
10 back the Smile Source account, is that your
11 understanding?

12 A. Yes.

13 Q. Was that approximately in 2016?

14 A. I don't recall.

15 Q. Do you know anything about the terms
16 of the 2016 agreement with Smile Source?

17 A. I do not.

18 Q. You don't know the discount rate?

19 A. I do not.

20 Q. You don't know whether there was a
21 volume commitment?

22 A. I do not.

23 Q. Has Smile Source changed its business
24 model in any way since Schein first started
25 dealing with Smile Source?

<p style="text-align: right;">Page 126</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 MR. McDONALD: Object to the form. 3 Lack of foundation. 4 A. I wouldn't be aware of those details. 5 Q. Is Smile Source a current customer of 6 Schein today? 7 A. I believe so. 8 Q. Who manages the Smile Source 9 relationship today? 10 MR. McDONALD: You mean individual or 11 the group? 12 Q. To the extent you know. To the extent 13 you know. 14 A. So, to the extent I know, I believe 15 Tim Sullivan is the lead relationship manager 16 with the leadership of Smile Source. I'm not 17 sure exactly where the accounts reside. 18 Q. I want to switch gears right now and 19 talk a little bit about Dental Gator. 20 You're familiar with Dental Gator? 21 A. I am somewhat familiar with Dental 22 Gator. 23 Q. How are you somewhat familiar with 24 Dental Gator? 25 A. It is, as I recall, it is something</p>	<p style="text-align: right;">Page 127</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 that is connected to a very large DSO customer 3 of ours, and it was an initiative that that 4 customer was looking to undertake with our 5 involvement. That was outside of their normal 6 business operations as a DSO. 7 Q. The DSO you're referring to is MB2? 8 A. MB2. 9 Q. MB2 has an ownership interest in its 10 affiliated dental practices; is that right? 11 A. I'm not sure of what MB2's ownership, 12 overall ownership structure is, but MB2 is a DSO 13 customer that's part of our Special Markets 14 business, part of Hal's business. 15 Q. Dental Gator does not have an 16 ownership interest in its affiliated members 17 practices; is that right? 18 MR. McDONALD: Object to the form. 19 A. I believe that's correct. 20 Q. MB2 planned to use Dental Gator as a 21 way to be introduced to and to recruit potential 22 new MB2 affiliates? 23 MR. McDONALD: Object to the form. 24 A. I have heard that. 25 Q. Do you have any reason to doubt that</p>
<p style="text-align: right;">Page 128</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 might be true? 3 A. I have just heard that. 4 Q. Dental Gator was not a price-only 5 buying group; is that right? 6 MR. McDONALD: Object to the form. 7 A. I'm not aware of the details of the 8 offering of Dental Gator. 9 Q. You're not aware of any of the 10 services that Dental Gator provided its members? 11 A. Not that I can think of. Not that I'm 12 aware of. 13 Q. MB2 opened Dental Gator without 14 Schein's knowledge; is that right? 15 MR. McDONALD: Object to the form. 16 A. I'm not sure. I don't know for sure. 17 Q. MB2 allowed Dental Gator access to its 18 Schein discounts without Schein's knowledge; is 19 that right? 20 MR. McDONALD: Object to the form. 21 A. I believe, based upon my recollection, 22 I believe that that is accurate. 23 Q. Schein eventually found out about 24 Dental Gator, right? 25 A. Yes.</p>	<p style="text-align: right;">Page 129</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 Q. And Schein wanted to stop Dental Gator 3 from accessing MB2's negotiated prices? 4 MR. McDONALD: Object to the form. 5 A. Again, I'm not sure what the level of 6 communication and detail was with MB2 related to 7 going outside of our relationship with them. 8 MB2 had a deal with us for them and 9 their structure as MB2, and those -- those terms 10 were for that group of offices, and the best of 11 my recollection, again, were not extended, 12 available beyond what our deal was with MB2. 13 Q. And that would include those prices 14 were not extended to Dental Gator? 15 A. Again, I'm not sure how the Dental 16 Gator question and complication was resolved, 17 but it was not our intention when we created a 18 deal with MB2 that those prices and the deal 19 that we had would go outside of the deal that we 20 made with them. 21 Q. Are you aware that Mr. Muller wanted 22 to continue working with Dental Gator as long as 23 it was part of the MB2 DSO customer? 24 A. I don't recall all of the details of 25 Hal's point of view, but certainly MB2 was a</p>

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 very important customer, and really
3 understanding what that customer was looking to
4 accomplish and finding a way to continue to have
5 a complete and good relationship with MB2 would
6 naturally be in Hal's interest.

7 Q. If Dental Gator was not affiliated
8 with MB2, Schein likely would not have supported
9 Dental Gator on its own?

10 MR. McDONALD: Object to the form.
11 Improper hypothetical.

12 A. I don't know enough about the details
13 of Dental Gator to conclude that.

14 Q. You were willing to accommodate Dental
15 Gator for unique reasons; is that right?

16 MR. McDONALD: Object to the form.

17 A. I don't recall all of the details of
18 what my involvement may have been, but I could
19 understand how it would be important for us,
20 with a very large DSO customer, to continue to
21 maintain a good relationship with that DSO
22 customer.

23 Q. Had it not been for the relationship
24 with this important DSO customer, would you have
25 been in favor of working with Dental Gator?

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 MR. McDONALD: Object to the form.

3 A. I wouldn't have enough information to
4 determine that and would expect that the team
5 that evaluates entities on a case-by-case basis
6 would be making that decision.

7 Q. And the same time that you were
8 willing to accommodate Dental Gator because of
9 its relationship with MB2, you didn't want to
10 open the floodgate on buying groups; is that
11 right?

12 MR. McDONALD: Object to the form.

13 A. Buying groups, again, have been a part
14 of our business for a very long time. We have
15 done business with many different buying groups,
16 and I believe that it has been important for us
17 to have the buying groups be aligned with the
18 value model that we -- that we drive, and if in
19 fact it is a price-only with no other value and
20 not fitting with our model, most likely would
21 not be supportive.

22 Q. Did you ever say you didn't want to
23 open the floodgates on buying groups?

24 MR. McDONALD: Object to the form.

25 If you have a document, you ought to

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 show it to him.

3 A. It's possible if in the context of
4 going outside of our value proposition.
5 (Complaint Counsel Exhibit CX2311-001
6 through 004, an e-mail chain bearing Bates
7 Nos. Henry Schein-000762037 through 040,
8 marked for identification, as of this date.)

9 BY MS. ROSNER:

10 Q. I'm going to hand you a document
11 that's been previously marked as CX2311. This
12 is a document with a first page Bates number of
13 Henry Schein-000762037.

14 Please take a moment to review CX2311
15 and let me know when you're finished.

16 THE WITNESS: Okay.

17 BY MS. ROSNER:

18 Q. You've had an opportunity to review
19 CX2311?

20 A. Yes.

21 Q. CX-2311, the very top is an e-mail
22 from you dated January 28, 2015 at 6:58 in the
23 morning.

24 And throughout the e-mail string,
25 there are e-mails from Mr. Muller, Mr. Sullivan

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 and yourself.

3 The e-mails that you drafted you
4 drafted as part of your job; is that right?

5 A. Yes.

6 Q. It's part of your job to respond to
7 e-mails that you get regarding the business?

8 A. Yes.

9 Q. You had knowledge of the contents of
10 your e-mails at the time that you drafted them?

11 A. Yes.

12 Q. And you drafted the e-mails in CX2311
13 at or near the time of the events therein
14 described arose?

15 A. I don't understand --

16 MR. McDONALD: Object to the form.

17 A. I don't understand that question.

18 Q. You drafted the e-mail --

19 A. As indicated here. One is at 6:58
20 after the 7:53.

21 MR. McDONALD: Obviously there's a
22 different time zone because he didn't go
23 back in time.

24 THE WITNESS: Okay. Well, I don't
25 understand that question, though, but

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 these -- as you see the e-mails, that's how
 3 I drafted them.
 4 BY MS. ROSNER:
 5 Q. I just wanted to understand that you
 6 draft these e-mails while you were having these
 7 discussions with Mr. Sullivan and Mr. Muller;
 8 this wasn't years later that you went back and
 9 drafted these e-mails?
 10 A. Oh, no. Yes, they're contemporaneous
 11 with the time.
 12 Q. You drafted these e-mails and
 13 maintained them in Schein's course of regularly
 14 conducted business?
 15 A. Yes.
 16 Q. And CX2311 is a true and correct copy
 17 of your e-mail correspondence?
 18 A. I believe so.
 19 Q. I'm going to refer you to CX2311-002.
 20 At the top of the e-mail, page 002 is
 21 an e-mail from Mr. Muller, it's on January 28,
 22 2015, at 7:36 in the morning?
 23 A. Uh-huh. Yes.
 24 Q. He's discussing Dental Gator, and in
 25 his second paragraph, he begins, "This is not a

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 pure buying group -- they have 12 services they
 3 offer -- as an example, recently offices have
 4 joined Dental Gator and stayed with their
 5 current supplier and did not use the product
 6 savings plan."
 7 Did I read that correctly?
 8 A. Yes.
 9 Q. So is Mr. Muller trying to tell you
 10 that this is not a -- Dental Gator is not a
 11 price-only buying group?
 12 A. He's mentioning that they have
 13 additional services, yes.
 14 Q. Do you have any reason to doubt what
 15 Mr. Muller is telling you?
 16 A. No.
 17 Q. And then if we could turn to the first
 18 page, CX2311-001, at the very bottom of that
 19 page, you write, "Thanks. It is important that
 20 while accommodating for unique reasons here, we
 21 don't help open the floodgates on buying
 22 groups."
 23 What do you mean by "don't help open
 24 the floodgates on buying groups"?
 25 A. Specifically, they're really referring

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 to price-only groups that are not adding
 3 additional value.
 4 Q. Where in CX2311 do you use the words
 5 "price-only buying groups"?
 6 A. I'm sorry, you see my -- the e-mail
 7 there. That's -- I'm not sure what -- what is
 8 your question?
 9 Q. Where does the term "price only" come
 10 into play in CX2311?
 11 MR. McDONALD: Objection to form. You
 12 asked him what he meant and he told you.
 13 A. Yeah, I don't understand. You asked
 14 me what I meant by that, not what I wrote.
 15 Q. I'm asking whether or not you wrote
 16 "price only" anywhere in CX2311?
 17 MR. McDONALD: Object to the form.
 18 The document speaks for itself.
 19 A. I don't see that specifically written.
 20 Q. Did anybody else in CX2311 write
 21 "price-only buying groups"?
 22 MR. McDONALD: Well, the documents
 23 speak for themselves, but do you really want
 24 him to spend the time to see if those words
 25 are in there, Jasmine?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Yes? If you do, then he'll read it.
 3 Okay. It's your time.
 4 THE WITNESS: Please repeat the
 5 question.
 6 (Record read.)
 7 THE WITNESS: Anyone else? I didn't
 8 see those words.
 9 BY MR. McDONALD:
 10 Q. But Mr. Muller specifically mentions a
 11 buying group that is not a pure buying group,
 12 but offers additional services, correct?
 13 MR. McDONALD: Object to the form.
 14 A. He's written that.
 15 MR. McDONALD: Asked and answered.
 16 Q. So why are you responding to Mr.
 17 Muller about price-only buying groups when he's
 18 telling you about a value-added buying group?
 19 A. It's not unusual for me to think more
 20 broadly than just the specific message that I
 21 might be sent on any topic, and it's important
 22 for me to periodically remind our team of our
 23 model and the importance of us continuing to
 24 adhere to our model while at the same time
 25 learning and understanding everything that's out

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 in the marketplace.
 3 Q. So what you're telling your team is
 4 you don't want to open the floodgates on
 5 price-only buying groups?
 6 MR. McDONALD: Object to the form.
 7 Asked and answered.
 8 A. I think that price-only buying groups
 9 do not align naturally with our value
 10 proposition, and that's what I've said here.
 11 Q. You can put aside CX2311.
 12 It's your understanding that Mr.
 13 Sullivan reluctantly agreed to continue to do
 14 business with Dental Gator assuming Dental Gator
 15 could no longer have access to MB2 pricing?
 16 A. I believe that Hal and Tim reached an
 17 agreement as to how to move forward with Dental
 18 Gator and MB2.
 19 Q. Are you familiar with any of the terms
 20 of the agreement?
 21 A. I'm not. I am not.
 22 Q. Did Mr. Sullivan ever warn you that
 23 doing business with Dental Gator would mean that
 24 Schein was in on approving buying groups?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I don't recall that specifically.
 3 (Complaint Counsel Exhibit CX2144-001
 4 through 002, an e-mail chain bearing Bates
 5 Nos. Henry Schein-000195206 through 207,
 6 E-mail chain, marked for identification, as
 7 of this date.)
 8 BY MS. ROSNER:
 9 Q. I'm going to hand you a document
 10 that's been previously marked as CX2144, with an
 11 e-mail string with the first page of the e-mail
 12 string bearing the Bates stamp Henry
 13 Schein-000195206.
 14 Please take a moment to review CX2144
 15 and let me know when you're finished.
 16 (Document review.)
 17 THE WITNESS: Okay.
 18 BY MS. ROSNER:
 19 Q. You've had an opportunity to review
 20 CX2144?
 21 A. Yes.
 22 Q. I want to refer you to the top e-mail,
 23 last in time, dated January 28, 2015. The
 24 date -- the time is marked as 6:33 a.m. from Tim
 25 Sullivan to just you regarding Dental Gator.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Mr. Sullivan writes, "Just us. I'm
 3 going to approve moving forward with his
 4 proposal, but we are then 'in' on approving
 5 buying groups. This won't stop with Dental
 6 Gator."
 7 Did I read that correctly?
 8 A. Yes.
 9 Q. What did you understand Mr. Sullivan
 10 to mean when he said that, "We are then 'in' on
 11 approving buying groups"?
 12 A. I believe Mr. Sullivan was concerned
 13 that Dental Gator may not on its own, without
 14 the relations with MB2, meet all of the
 15 different criteria that he would be interested
 16 in in terms of value alignment with a buying
 17 group.
 18 Q. Is there anything in this e-mail
 19 string that leads you to believe that?
 20 A. You asked me what I thought Tim meant
 21 by this sentence, and I thought that I just said
 22 that.
 23 Q. So your answer is that --
 24 A. What I believe Tim was referencing.
 25 Q. And Tim would not believe that Schein

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 would work with Dental Gator absent the MB2
 3 relationship?
 4 MR. McDONALD: Object to the form.
 5 Mischaracterizes the testimony.
 6 A. I believe that Tim, as with any entity
 7 that's approaching us, would want to make sure
 8 he understood the value proposition of Dental
 9 Gator and whether it would fit with our model,
 10 and then he and his team would make their
 11 decision.
 12 Q. Wasn't Schein already, quote, "in" on
 13 approving buying groups?
 14 A. There had been many buying groups that
 15 Tim and his team, and also separately Hal and
 16 his team, had determined that they were going to
 17 do business with over the years.
 18 Q. Here Mr. Sullivan is expressing some
 19 idea that doing Dental Gator would create this
 20 change that would enable Schein to be in on
 21 buying groups.
 22 What is it that's changing with
 23 accepting Dental Gator?
 24 MR. McDONALD: Object to the form.
 25 You're testifying and characterizing the

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 document and so mischaracterizing the
3 document.

4 A. I don't think that Tim would want and
5 still today, going forward, is very dedicated to
6 staying to working with groups that align with
7 value in addition to price, and he would be
8 concerned if we moved away from that, and
9 possibly because of the connection with MB2 and
10 a buying group that might not come up to that
11 standard, he's concerned that that might set a
12 precedent.

13 Q. So we just previously looked at an
14 e-mail where Mr. Muller was saying that Dental
15 Gator's members aren't taking full advantage of
16 the MB2 pricing and that Dental Gator offers 12
17 services to its members.

18 Why wouldn't you correct Mr. Sullivan
19 to say that Dental Gator is not a price-only
20 buying group?

21 MR. McDONALD: Object to the form.

22 A. I don't recall what further
23 conversation I may have had with Tim after this.

24 Q. Mr. Sullivan ended the e-mail with,
25 "This won't top with Dental Gator."

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 What did you understand him to mean by
3 that?

4 A. Didn't think much of it, so I don't
5 know what he meant.

6 Q. Did you want Dental Gator to be the
7 last buying group that Schein would work with?

8 A. No.

9 Q. Is it a concern that working with
10 buying groups would not stop with Dental Gator?

11 MR. McDONALD: Object to the form.

12 A. No.

13 Q. Did you tell Mr. Sullivan that Schein
14 would continue to do business with buying groups
15 after Dental Gator?

16 A. I don't recall specifically any of the
17 specific conversations.

18 Q. You can put aside CX2144.

19 I want to return to this idea of
20 Schein's practice with respect to buying groups.

21 You have stated that there was no
22 formal policy, but there certainly was a
23 practice to deal with buying groups that made
24 business sense for Schein; is that right?

25 A. Yes.

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 Q. In January 2010, going back in time,
3 you received an e-mail directly from an FSC
4 about the Pugh Dental Alliance.

5 Do you recall that?

6 MR. McDONALD: Object to the form.

7 A. I don't specifically recall. It could
8 be possible. I don't specifically recall it.

9 Q. Do you know what the Pugh Dental
10 Alliance is?

11 A. I do not.

12 (Complaint Counsel Exhibit CX2296-001
13 through 003, an e-mail chain bearing Bates
14 Nos. Henry Schein-000737600 through 602,
15 marked for identification, as of this date.)

16 BY MS. ROSNER:

17 Q. I'm going to hand you a document
18 that's been previously marked as CX2296. It is
19 a multi-page e-mail string. The first page
20 bears the Bates number Henry Schein-000737600.

21 Please you take a moment to
22 familiarize yourself with CX2296 and let me know
23 when you're done.

24 (Document review.)

25 THE WITNESS: Okay.

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 BY MS. ROSNER:

3 Q. You've had an opportunity to review
4 CX2296?

5 A. Yes.

6 Q. The top e-mail on the first page
7 latest in time is from you dated January 6,
8 2010.

9 You drafted this e-mail as part of
10 your job; is that right?

11 A. Yes.

12 Q. It's part of your job to respond to
13 e-mails that you get from the business?

14 A. Yes.

15 Q. You had knowledge of the contents of
16 the e-mail when you drafted it?

17 A. Yes.

18 Q. You drafted the e-mail at or near the
19 time the events therein bubbled up to you?

20 A. Yes.

21 Q. You drafted CX2296, the e-mail at the
22 top, and maintained it in the course of Schein's
23 regularly conducted business?

24 A. Yes.

25 Q. CX2296 is a true and correct copy of

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 the e-mail correspondence?
 3 A. I believe so.
 4 Q. I want to go to the last -- the
 5 earliest-in-time e-mail. It expands from page
 6 CX2296-002 to 003. This is an e-mail from Scott
 7 Schenker.
 8 Do you know who Scott Schenker is?
 9 A. I believe he's an FSC. I don't really
 10 know him very well.
 11 Q. And Mr. Schenker is complaining about
 12 one of his larger customers joining the Pugh
 13 Dental Alliance. Is that your understanding?
 14 A. Yes.
 15 Q. Pugh Dental Alliance was a Special
 16 Markets customer at the time; is that right?
 17 MR. McDONALD: Object to the form.
 18 A. I believe in reading this, yes.
 19 Q. And in this instance, if Mr.
 20 Schenker's customer was to join Pugh, his
 21 customer would then be transferred to the
 22 Special Markets division?
 23 MR. McDONALD: Object to the form.
 24 A. I'm not sure exactly how Tim and Hal
 25 would have -- would have worked out or resolved

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 issue with the customer.
 3 Q. Is it your understanding that Mr.
 4 Schenker is reaching out to you because he's
 5 afraid he's going to lose his customer and any
 6 commissions that he earns from that account?
 7 MR. McDONALD: Object to the form.
 8 A. He's definitely -- he's concerned
 9 about what's going to happen to his involvement
 10 with the account if in fact the doctor joins the
 11 program.
 12 Q. He's also concerned that Pugh could
 13 take others of his accounts; is that right?
 14 MR. McDONALD: Object to the form.
 15 The document speaks for itself.
 16 A. He references other customers that
 17 could be interested.
 18 Q. Mr. Schenker also says, "I am sure HS
 19 would not allow this to occur."
 20 I'm reading from the end of the first
 21 line on page CX2296-003. Do you see that?
 22 A. I'm sorry, 003?
 23 Q. Yes. How the end of the first line
 24 reads "...I'm sure HS would not allow this to
 25 occur."

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I see that.
 3 Q. "HS" refers to Henry Schein?
 4 A. I'm not sure. I think so. I don't --
 5 I'm not sure.
 6 Q. In the last line of Mr. Schenker's
 7 e-mail, he tells you that this is a potentially
 8 cancerous situation?
 9 A. That's what I see having been written
 10 here.
 11 Q. If Schein had a practice of working
 12 with buying groups at the time, why didn't this
 13 FSC, Mr. Schenker, know about it?
 14 MR. McDONALD: Object to the form.
 15 A. I don't know.
 16 Q. If Mr. Schenker did not know about
 17 Schein's practice in dealing with buying groups,
 18 why didn't someone simply explain that to him?
 19 MR. McDONALD: Object to the form.
 20 A. I don't know.
 21 Q. Is it common that FSCs are not aware
 22 that Schein has a practice of doing business
 23 with buying groups?
 24 MR. McDONALD: Object to the form.
 25 A. Some may know. Some may not. I don't

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 know.
 3 Q. And when you come across an FSC who
 4 doesn't know about Schein's practice of doing
 5 business with buying groups, what do you
 6 typically do?
 7 MR. McDONALD: Object to the form.
 8 A. Again, these issues are the
 9 responsibility of Tim and Hal and their teams,
 10 and to the extent any customers that are part of
 11 a buying group are also connected with the FSC
 12 team, they would be responsible for the
 13 communication to the team.
 14 Q. Would you expect Tim and Hal to inform
 15 their teams that Schein does business with
 16 buying groups?
 17 A. I'm not sure what specifically they
 18 would communicate, but certainly that's
 19 possible.
 20 Q. I'm just speaking generally. Is it
 21 your expectation that Mr. Muller and Mr.
 22 Sullivan keep their teams in the dark about the
 23 fact that Schein does business with buying
 24 groups?
 25 MR. McDONALD: Object to the form.

CONFIDENTIAL - JAMES BRESLAWSKI

A. No.

Q. So the question that Mr. Schenker raises to your attention is an easy problem to fix because someone could just tell him that Schein does business with buying groups; is that right?

MR. McDONALD: Objection to form.

A. It's not as simple as that. Depending on what the nature of the, as I've mentioned many times before, the nature of the particular buying group.

Q. In this instance, Schein has already decided to do business with Pugh Dental Alliance. It is a current customer at the time of this e-mail, that's right, right?

MR. McDONALD: Object to the form.

A. I'm not aware of the details of all of the history of the Pugh Dental Alliance and how it was working with our Special Markets team, but it was a customer.

Q. And if the Pugh Dental Alliance was a customer of your Special Markets team, does that tell you then that it must have been some sort of value-added buying group?

CONFIDENTIAL - JAMES BRESLAWSKI

A. It tells me that Hal and his team would have been responsible to determine that it fit our operating model.

Q. Would you be surprised to know or would you be surprised to find out if Pugh Dental Alliance did not fit within the broader strategy of Schein to work with value-added buying groups?

MR. McDONALD: Object to the form.

A. Again, I'm not familiar with the Pugh Dental Alliance and how far back the relationship goes because we've been doing business with buying groups for a very long period of time, and as, you know, time has gone on, the criteria that the team is using to determine the alignment that buying groups have with our operating model continues -- has continued to evolve. So I just don't have enough information to know what Pugh was.

Q. I believe I asked you earlier today if the criteria for value-added buying groups had changed over time with Schein, and I believe your testimony was no.

Are you amending that testimony to say

CONFIDENTIAL - JAMES BRESLAWSKI

that it has changed over time?

MR. McDONALD: Object to the form.

Mischaracterizes the testimony.

A. We've been doing business with buying groups for over 20 years, and I think now, today, when we actually take a look at what the methodology the teams are using to determine whether or not a buying group is a good fit could definitely be -- could be different to what was done 20 years ago, which I don't recall all of what those details were, as we were working with those buying groups in the early years.

Q. When you talk about the methodology, are you talking about the process by which you determine, or are you talking about the individual characteristics of a particular buying group?

A. Could be both.

Q. What are some of the characteristics of the buying group that have changed over time that would change the definition of whether or not the buying group was a value-added buying group?

CONFIDENTIAL - JAMES BRESLAWSKI

A. So today I think the team is looking more to ensure that the buying group is working closely with its members to stay in touch with its members as a group that is taking advantage of the scope of offerings within that particular buying group, and that there's more of an involvement rather than just making a price list available should they be, you know, signing up to be a member of a buying group, that there's a real relationship management element associated with the buying group.

Q. Anything else?

A. I'm sure there are other things that relate to it. The kinds of services that might be provided helping the customers with different aspects of their business.

Q. Anything else?

A. I'm sure there are other things that I can't think of right now.

Q. These are the characteristics that Schein looks at today to determine whether or not a group is a value-added buying group.

How have these characteristics changed over time? Were some of these characteristics

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 less important? Were there other
3 characteristics?

4 MR. McDONALD: Object to the form.

5 A. Twenty years ago. I'm really not
6 sure. So what -- I wouldn't know 20 years ago
7 what the buying group criteria, the details of
8 the buying group criteria were that the team was
9 utilizing back then.

10 Q. What about five years ago?

11 MR. McDONALD: Object to the form.

12 A. I think, in a less formal way, now
13 with Darci having been added and more of the
14 formal process being put in place. I think the
15 basic fundamental elements of this would have
16 been true; that we're looking for -- that we
17 were looking for buying groups that were
18 actually going to be able to have loyal members
19 that would actively participate in the buying
20 group and actually take advantage of the
21 products and services offered through the buying
22 group.

23 Q. And you wanted buying groups five
24 years ago that offered a variety of services to
25 its members?

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 MR. McDONALD: Object to the form.

3 A. Variety of services to its members and
4 also ongoing engagement in nurturing the
5 relationship with its members.

6 Q. I'm just trying to understand were
7 there any differences between today and five
8 years ago with respect to the types of buying
9 group Schein would want to do business with.

10 It doesn't sound like there were any
11 actual differences. It sounds like Schein has
12 codified those characteristics now through Darci
13 Wingard; is that right?

14 MR. McDONALD: Object to the form.

15 A. I believe that now there is greater
16 codification of it. There are a larger number
17 of entities out there to be put through a
18 process to screen to determine the fit with our
19 business model than there were five years ago,
20 and there's more discipline to make sure that
21 those decisions -- all of those decisions about
22 whether to work or not work with a buying group
23 are going through this process, where five years
24 ago, there might not have been that level of
25 discipline associated with it.

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 Q. But the characteristics of the buying
3 groups themselves that are attractive today have
4 been attractive to Schein in the past?

5 A. Generally speaking, I would say yes.

6 Q. Returning back to CX2296, Mr. Schenker
7 raises an issue about Pugh Dental Alliance with
8 you. You understand Pugh Dental Alliance to be
9 an existing Schein customer.

10 There's a disagreement between Mr.
11 Muller and Mr. Sullivan about whether to
12 continue working with Pugh Dental Alliance, is
13 that your understanding?

14 A. It's my understanding, yes, that they
15 were discussing what to do here.

16 Q. It's also your understanding that Mr.
17 Muller is aware of Schein's policy to do
18 business with value-added buying groups and not
19 price-only buying groups, right?

20 A. Please repeat the question.
21 (Record read.)

22 THE WITNESS: I would say so.

23 BY MS. ROSNER:

24 Q. So if Mr. Muller had decided to do
25 business with Pugh Dental Alliance, we can

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 assume that it is a value-added buying group.

3 Why would Mr. Sullivan object?

4 MR. McDONALD: Object to the form.

5 Mischaracterizes the evidence. Unless
6 you're testifying about what the facts are.

7 A. I'm not sure of exactly what the
8 nature of Tim's understanding of what Pugh had
9 been and what it was going to be.

10 Q. Are you saying that you suspected Tim
11 thought that Pugh might be a price-only buying
12 group?

13 A. I think he felt he needed more
14 information.

15 Q. In the second e-mail down from the top
16 on page CX2296-001, an e-mail from Mr. Sullivan
17 at 11:27, he says, "We need to chat live. I do
18 not support us opening buying clubs."

19 By "buying clubs," you understand him
20 to mean buying groups?

21 MR. McDONALD: Object to the form.

22 A. I believe he was referring there to
23 price-only buying clubs.

24 Q. Why do you think he's referring to
25 price-only buying clubs?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. Because that's what he's supporting.
 3 He's not in support of price-only buying clubs,
 4 and that's what he's saying here.
 5 Q. Does he use the words "price only" in
 6 his response?
 7 A. No, he doesn't use that.
 8 Q. At the top e-mail, the last in line,
 9 you respond, "Should we separate the discussion
 10 about buying groups?" And then in parentheses
 11 you write, "I fundamentally agree with Tim
 12 without better info to feel otherwise."
 13 Did I read that correctly?
 14 A. Yes.
 15 Q. So you fundamentally agree with Tim
 16 about not supporting buying clubs?
 17 MR. McDONALD: Objection to form.
 18 Mischaracterizes his testimony.
 19 A. Fundamentally agree in our value model
 20 and making sure we're going through a process
 21 that's a careful process and not just supporting
 22 price-only buying clubs.
 23 Q. You mentioned that with better info
 24 you might feel otherwise. So are you opening
 25 the door to potentially supporting price-only

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 buying groups if you had better information?
 3 A. I needed more information. They're
 4 always looking for more information to
 5 understand completely what the nature of this
 6 particular group is and so, you know, want to
 7 have a dialogue.
 8 Q. And if you received more information,
 9 could you be convinced to work with price-only
 10 buying groups?
 11 MR. McDONALD: Object to the form.
 12 A. As of right now, again, price-only
 13 buying groups do not fundamentally fit with our
 14 business model.
 15 Q. Tim mentions the need to chat live.
 16 Did you ever chat live about this
 17 account?
 18 A. I actually don't recall.
 19 Q. You can put aside CX2296.
 20 I want to fast forward in time a
 21 little bit to 2015. We talked a little bit
 22 about MB2 and Dental Gator earlier today.
 23 In 2015, do you recall that MB2 was
 24 planning to visit with Adec?
 25 A. I don't recall that.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. Who is Adec?
 3 A. Adec is a manufacturer of dental
 4 equipment.
 5 Q. Do you recall there being a concern
 6 that Adec would learn about Dental Gator?
 7 MR. McDONALD: Object to the form.
 8 A. I don't recall that in particular.
 9 Q. Do you recall there was a concern that
 10 Adec would learn that buying groups had received
 11 discounts on Adec supplies without Adec's
 12 knowledge?
 13 A. I don't recall that in particular.
 14 (Complaint Counsel Exhibit cx2135-001
 15 through 003, an e-mail chain bearing Bates
 16 Nos. Henry Schein-000601936 through 938,
 17 marked for identification, as of this date.)
 18 BY MS. ROSNER:
 19 Q. I'm going to provide you with a
 20 document that's been previously marked as
 21 CX2135. It's a multi-page e-mail string. The
 22 first page of the document bears a Bates stamp
 23 Henry Schein-000601936.
 24 Please take a moment to review CX2135
 25 and let me know when you're finished.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 (Document review.)
 3 THE WITNESS: Okay.
 4 BY MS. ROSNER:
 5 Q. Have you had an opportunity to review
 6 CX2135?
 7 A. Yes.
 8 Q. It's an e-mail string. The top e-mail
 9 is from you dated May 20, 2015 at 11:47 a.m.
 10 The e-mail string is between you, Mr. Sullivan,
 11 and Mr. Muller. I believe there are e-mails
 12 throughout.
 13 You drafted the e-mails in this string
 14 as part of your job?
 15 A. Yes.
 16 Q. It's part of your job to respond to
 17 e-mails that you get in business?
 18 A. Yes.
 19 Q. You have knowledge of the contents of
 20 CX2135?
 21 A. Yes.
 22 Q. You drafted the e-mails in CX2135 at
 23 the time the events arose?
 24 A. Yes.
 25 Q. You drafted the e-mails in CX2135 and

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 maintained them in Schein's ordinary course of
 3 business?
 4 A. Yes.
 5 Q. CX2135 is a true and correct copy of
 6 the e-mail correspondence?
 7 A. I believe so.
 8 Q. Turning to pages 2135-002 ending with
 9 003, you see there's a discussion about MB2
 10 visiting Adec?
 11 A. Yes.
 12 Q. And Mr. Sullivan raises a concern
 13 about Adec learning about Dental Gator?
 14 A. He's raising a question about Dental
 15 Gator and the visit of -- in relation to the
 16 visit of Adec, yes.
 17 Q. Would it be a problem for Schein if
 18 one of its manufacturers found out that Schein
 19 was doing business with a buying group?
 20 MR. McDONALD: Object to the form.
 21 A. Not necessarily.
 22 Q. Do you think it would be a problem
 23 here if Adec learned that Schein was doing
 24 business with Dental Gator?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. Adec and other manufacturers would
 3 have special pricing that would have been part
 4 of the role that we played in between the
 5 manufacturer and our DSO customer MB2, so Adec
 6 would have had an understanding of how they fit
 7 into that.
 8 Dental Gator is now different, and how
 9 does that affect how Adec sells or if they sell.
 10 That's up to them, to Dental Gator, at what
 11 price. It's a different thing. So that
 12 probably is what Tim was talking about.
 13 Q. And Tim wanted to ensure that Adec
 14 didn't hear about Schein doing business with
 15 Dental Gator and getting Adec special pricing to
 16 Dental Gator?
 17 MR. McDONALD: Object to the form.
 18 A. I don't think that's so. I don't
 19 think that's so.
 20 Q. Mr. Muller proposes an easy solution
 21 to the Adec problem and simply said that they
 22 would talk to MB2 before the trip; is that
 23 right?
 24 Let me refer you to the first page,
 25 CX- --

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I'm sorry. Please repeat the
 3 question. What e-mail are we referring to?
 4 Q. I'm going to refer you to page
 5 CX2135-001.
 6 A. Okay.
 7 Q. In the middle of the page, there's an
 8 e-mail from Mr. Muller at 11 a.m., and he
 9 proposes a solution to the problem by saying,
 10 "We could have a talk with MB2 before the trip";
 11 is that right?
 12 MR. McDONALD: Object to the form.
 13 A. Okay.
 14 Q. Mr. Muller then goes on to change the
 15 topic a little bit, and he says that, "Dental
 16 Gator is just one of the many buying groups that
 17 we're engaged with, I just think it is more
 18 obvious -- it's funny as we are discussing this,
 19 I got the following from Randy and I am passing
 20 it on -- the real question we need to answer
 21 (and maybe for the off-site) is how solid a
 22 stance do we want to have?"
 23 Did I read that correctly?
 24 A. Yes.
 25 Q. And then below that, do you understand

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 that he's pasted part of an e-mail from Randy?
 3 A. I'm sorry, where is the Randy
 4 reference?
 5 Q. I believe it begins with the quotation
 6 marks, "One thing I have noticed," and then it
 7 ends that paragraph with the name Randy.
 8 A. "I got the following from Randy."
 9 Okay. Got it.
 10 Q. Is that your understanding, that he's
 11 just pasted in one paragraph from Randy?
 12 A. It appears that way.
 13 Q. And you understand Randy to be Randy
 14 Foley?
 15 A. Yes.
 16 Q. And Mr. Foley works with Mr. Muller,
 17 or did, in the Special Markets group at this
 18 time?
 19 A. Correct.
 20 Q. Before we get to Randy's e-mail, Mr.
 21 Muller says, "The real question we need to
 22 answer (and maybe for the off-site) is how solid
 23 a stance do we want to have?"
 24 This is with regards to buying groups,
 25 is that your understanding?

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 A. I'm not sure exactly what he's
3 referring to.

4 Q. Well, you tell him that he's proposing
5 a very relevant topic at the top e-mail,
6 "Definitely not for e-mail, but a very relevant
7 topic."

8 What is it that you think he's
9 referring to?

10 A. My e-mail relates to his
11 second-to-last paragraph.

12 Q. Okay.

13 A. Where he says, "I am looking into
14 creating a real GPO as a new corporation and
15 what that would entail -- so we could have that
16 in our back pocket should a real GPO..."

17 So that whole aspect of the e-mail,
18 you know, prompted me to say this is relevant.
19 It's complicated, this whole situation is
20 complicated, and it's best for us to have a
21 conversation about it.

22 Q. So up above in Mr. Muller's e-mail,
23 his second full paragraph that begins, "Dental
24 Gator is just one of many buying groups," he
25 ends that paragraph with, "The real question we

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 need to answer (and maybe for the off-site) is
3 how solid a stance do we want to have?" And so
4 he's suggesting this topic be discussed at the
5 off-site.

6 In your e-mail you say, "If we choose
7 to discuss at the off-site, let's do whatever
8 homework necessary to utilize time as best as
9 possible."

10 What's the question that's being
11 discussed at the off-site?

12 MR. McDONALD: Objection to form.

13 Asked and answered.

14 A. That particular sentence, "if we
15 choose to discuss at the off-site" and the
16 "homework," I was referring to the brainstorming
17 idea about creating something in a new
18 corporation that doesn't exist, which is very
19 complicated and didn't want to get to the
20 off-site without having some real homework done
21 about it.

22 Q. So you're not responding at all to Mr.
23 Muller's question about how solid a stance
24 should Schein have in its buying groups?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Asked and answered twice now.

3 A. I'm telling you what my -- my
4 recollection of what my e-mail was about.

5 Q. Going into the paragraph that Mr.
6 Muller pastes from Randy's e-mail, Mr. Foley's
7 e-mail, he says, "One thing I've noticed getting
8 back into my in inbox is the volume of questions
9 on BGs."

10 You understand "BGs" to mean buying
11 groups?

12 A. I believe so.

13 Q. Mr. Muller then asks, "Can we come up
14 with some type of plan, either from us or from
15 HSD?"

16 Do you understand Mr. Foley to be
17 asking for some type of plan on buying groups?

18 A. I'm not exactly sure what he's asking
19 for.

20 Q. Would it surprise you to hear Mr.
21 Foley asking for some type of plan on buying
22 groups?

23 MR. McDONALD: Object to the form.

24 A. Based upon what Randy has written,
25 it's indicative of the fact that there is, over

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 this window of time and a little bit before,
3 there has been an acceleration of all kinds of
4 new entities out there, and it would be
5 beneficial for us to really understand this as
6 best as possible and how it actually fits with
7 Henry Schein today and going forward, and I
8 think that's what he was looking for.

9 Q. Henry Schein already has a practice at
10 this point about how and whether to engage with
11 buying groups, right?

12 MR. McDONALD: Object to the form.

13 Asked and answered.

14 A. Yes.

15 Q. Would there be any reason to change
16 how Henry Schein engages and when Henry Schein
17 engages with buying groups?

18 A. The marketplace is always changing.
19 The level of activity of different kinds of
20 entities taking on all different kinds of forms
21 is constantly changing, and so we have to make
22 sure that we're paying attention to what's
23 happening in the marketplace, and this, I
24 believe, and this issue of there being a lot
25 more activity of various kinds and in various

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 forms further led us to creating a more
3 structured and functionally resourced team to
4 focus on what we call this alternate purchasing
5 channel group.

6 Q. After the e-mail from Mr. Foley that's
7 pasted in, Mr. Muller goes on to say, "Brian
8 Brady tells me that the West Coast is busting
9 with groups that are looking for purchasing
10 deals and Schein is losing out."

11 Is it your understanding that Schein
12 is losing out on these West Coast purchasing
13 deals because it's not bidding on buying groups?

14 MR. McDONALD: Object to the form.

15 THE WITNESS: I'm not sure exactly
16 what Brian is referring to.

17 Q. By "losing out," does that mean that
18 Schein is not winning volume from these
19 customers?

20 MR. McDONALD: Object to the form.

21 He just told you he's not sure what it
22 means.

23 A. Yeah, I'm not sure.

24 Q. In the top e-mail where you respond,
25 "Definitely not for e-mail," why is this a topic

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 not for e-mail?

3 A. Because it's, again, this is, in
4 particular, related to -- so, at the conclusion,
5 related to something creating a GPO that doesn't
6 exist, a new corporation, something totally
7 different. It's a very complex topic,
8 impossible, in my view, to dialogue about on
9 e-mail.

10 So I said we should not talk about
11 this on e-mail, let's have a meeting, but let's
12 be prepared for the meeting. Do the homework.

13 Q. Did you ever have the meeting?

14 A. We had our off-site meeting, and the
15 concept of our creating our own GPO and a new
16 corporation did not go very far, and there
17 really wasn't much in the way of preparation
18 done, and so it really -- it's not something
19 that has, at that time, it's not something that
20 had much in the way of legs.

21 Q. When you say that it didn't go very
22 far, what was the discussion at the meeting
23 regarding creating your own GPO?

24 A. I don't recall the details of that.
25 It didn't turn out to be a very significant

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 agenda item because the team was not very well
3 prepared, as I recall.

4 Q. Who was involved in the discussion
5 about creating Schein's GPO?

6 A. The off-site meeting would have been
7 the leadership team of -- it would have included
8 the people on this e-mail and a few other of the
9 senior executives responsible for the U.S.
10 Dental business and possibly even people from
11 some other markets.

12 Q. Who would have been some of those
13 people that you're referencing?

14 A. So it would have been likely -- I
15 don't recall the exact list of those who would
16 have attended the off-site, but it would have
17 included the direct reports of mine and it would
18 have included some of our other colleagues that
19 support the business, like our IT director and a
20 Human Resource colleague and things of that
21 nature. So it was a list of maybe ten or so
22 people, but the primary commercial people would
23 have been my direct reports.

24 Q. You can put that document aside.

25 MR. McDONALD: Would you like to take

1 CONFIDENTIAL - JAMES BRESLAWSKI
2 a break?

3 MS. ROSNER: Sure.

4 (Recess; Time Noted: 2:10 p.m.)

5 (Time Noted: 2:30 p.m.)

6 BY MS. ROSNER:

7 Q. Mr. Breslawski, you report to Stanley
8 Bergman; is that right?

9 A. Yes, I do.

10 Q. What is Mr. Bergman's reaction to the
11 Dental business?

12 MR. McDONALD: Objection to form.

13 Vague.

14 A. Well, Stanley is our CEO, so Stan --
15 and our Dental business is our largest business
16 of Henry Schein, and so he is involved with
17 periodic reporting to him as to the status and
18 performance of business, and he would also
19 periodically visit various locations and
20 participate in different meetings, such as our
21 national sales meeting.

22 And he also is very actively involved
23 in supporting the profession that we serve in
24 the Dental business and helping us stay very
25 well connected to the profession, understanding

<p style="text-align: right;">Page 174</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 what the profession's goals and needs are, and 3 helping to align the resources of Henry Schein 4 to help our customers achieve those goals. 5 Q. Is Mr. Bergman involved on individual 6 dental customer accounts? 7 A. Not as a matter of a regular course. 8 Q. Would Mr. Bergman be aware of Schein's 9 practice of working with buying groups? 10 A. Not to any detail. 11 Q. Would he know the general practice 12 that Schein engages with buying groups? 13 A. Absolutely. 14 MR. McDONALD: Object to the form. 15 A. Absolutely. He would know that we 16 have been working with buying groups for a very 17 long time. He also would have a good 18 understanding of what our Special Markets 19 business is about and how we work with large 20 customers in that respect. 21 Q. Would Mr. Bergman have to approve 22 Schein's practice of working with buying groups? 23 A. Typically, he would not. 24 Q. I want to go back to something you 25 mentioned earlier today when we were talking</p>	<p style="text-align: right;">Page 175</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 about value-added buying groups over time. 3 You mentioned that there's more 4 discipline now than there was in the past. 5 What do you mean by that statement? 6 A. What I was referring to is that today 7 a level of activity in the marketplace with 8 regard to different kinds of entities that are 9 representing that they can pull together 10 customers to be part of an affiliation or a 11 group is greater than it used to be, and we felt 12 that it would be important for us to create a 13 separate group of resources internally to 14 understand that space as best as possible and to 15 put more structure and process and procedure 16 around managing that aspect of the business. 17 Q. As Schein has more discipline today 18 than it did in the past, is that to say that in 19 the past Schein said yes to buying groups that 20 it should have said no to? 21 MR. McDONALD: Object to the form. 22 A. I'm not sure. I know that we have 23 been working with many different buying groups 24 over the years, and I'm not aware of all of the 25 attributes of all of those different buying</p>
<p style="text-align: right;">Page 176</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 groups and how they would match up specifically 3 to the discipline or the new structural process 4 that Darci and the team are working today. I 5 just don't know. 6 Q. Is that to say that Schein in the past 7 said no to buying groups that it should have 8 said yes to? 9 MR. McDONALD: Object to the form. 10 A. I don't know. I don't know. 11 Q. Who would know? 12 MR. McDONALD: Object to the form. 13 A. I'm not sure who would know. 14 Q. Does Mr. Bergman have knowledge about 15 each of Schein's buying group customers? 16 MR. McDONALD: Object to the form. 17 A. I don't believe so. 18 Q. Would Mr. Bergman have any reason to 19 be aware of the Dental Co-op of Utah? 20 MR. McDONALD: Object to the form. 21 A. I don't know. I don't know myself, 22 and I don't know if he would. 23 Q. Are you familiar that the Dental Co-op 24 of Utah as a buying group? 25 A. I'm really not familiar with them.</p>	<p style="text-align: right;">Page 177</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 Q. Do you recall whether Schein did 3 business with the Dental Co-op of Utah? 4 A. I can't think of any details right 5 now. I can't recall anything in particular 6 about the -- a dental buying group in Utah. 7 Q. Do you recall Mr. Bergman learning 8 about the Dental Co-op of Utah and Schein's 9 relationship with them and saying that it did 10 not feel right? 11 MR. McDONALD: Object to the form. 12 A. I don't recall. 13 (Complaint Counsel Exhibit CX2315-001 14 through 004, an e-mail chain bearing Bates 15 Nos. Henry Schein-000110472 through 475, 16 marked for identification, as of this date.) 17 BY MS. ROSNER: 18 Q. I'm going to hand you a document 19 that's been previously marked as CX2315. This 20 is a multi-page e-mail string. The first page 21 is Bates-labeled Henry Schein-000110472. 22 Please take a moment to review CX2315 23 and let me know when you're finished. 24 (Document review.) 25 THE WITNESS: Okay.</p>

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 BY MS. ROSNER:
 3 Q. You've had an opportunity to review
 4 CX2315?
 5 A. Yes.
 6 Q. This is an e-mail string. The
 7 latest-in-time e-mail at the top of the first
 8 page is from you dated October 20, 2015. There
 9 are some other e-mails in the string that were
 10 authored by you.
 11 You drafted the e-mails in 2315 as
 12 part of your job?
 13 A. Yes.
 14 Q. It's part of your job to respond to
 15 e-mails that you get at this business account?
 16 A. Yes.
 17 Q. You have knowledge of the contents of
 18 CX2315?
 19 A. Yes.
 20 Q. You drafted the e-mails in CX2315 at
 21 or near the time the events therein arose for
 22 you?
 23 A. Yes.
 24 Q. You drafted e-mails in CX2315 and
 25 maintained them in the course of Schein's

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 regularly conducted business?
 3 A. Yes.
 4 Q. CX2315 is a true and correct copy of
 5 your e-mail correspondence?
 6 A. I believe so.
 7 Q. Okay. At the bottom of CX2315-001,
 8 Mr. Cavaretta is talking about the Dental Co-op
 9 of Utah, the group that we were just mentioning,
 10 and mentions that at one point in time Schein
 11 did business with the Dental Co-op of Utah and
 12 then Schein terminated the contract when the
 13 Dental Co-op of Utah started to negotiate
 14 directly with manufacturers.
 15 Do you have any reason to discount
 16 that telling of Schein's history with the Dental
 17 Co-op of Utah?
 18 A. I really don't know myself anything of
 19 the history, so I'm reading what you're reading.
 20 Q. Going after that e-mail chain up the
 21 page towards Stanley Bergman's e-mail --
 22 A. Yes.
 23 Q. -- at 6:42 p.m.
 24 A. Yes.
 25 Q. He says, "Hi, JB. Can you please

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 look."
 3 And "JB" refers to you?
 4 A. That's me, yes.
 5 Q. "Does not feel right. Am concerned
 6 that this could have ripple effects."
 7 What is your understanding of what
 8 does not feel right?
 9 A. What I believe Stanley is referring to
 10 here and what I responded to is the overall take
 11 of the author of the CR newsletter and the
 12 reference that Stanley is concerned about that
 13 they may not really understand the value that we
 14 provide and that it would be important for us to
 15 find ways to help make sure that CR and Gordon
 16 Christiansen, who is the principal at CR, really
 17 does understand it, and so I said I'll follow up
 18 on that. That's what that was related to.
 19 Q. So it's your understanding that Mr.
 20 Bergman's e-mail doesn't relate to the
 21 information about the Dental Co-op of Utah,
 22 specifically?
 23 A. I don't believe so.
 24 Q. You think he's referring to the CR
 25 Newsletter article?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I took it as the subject, "CR
 3 Newsletter - October 2015," and his concern that
 4 overall this doesn't feel right. Doesn't feel
 5 right that they don't understand what our total
 6 value proposition is, and it would be important
 7 for us to follow up on that.
 8 Q. What do you interpret Mr. Bergman is
 9 saying when he says, "Am concerned that this
 10 could have ripple effects"?
 11 A. I'm not sure exactly what he meant by
 12 that, but responded more specifically to him
 13 feeling that this doesn't feel right. So when
 14 Stanley says something doesn't feel right to him
 15 and he asked me to look into it, that's what I
 16 do.
 17 Q. Did you look into it?
 18 A. Yes, we worked with a number of team
 19 members and I -- and I believe, I'm not sure if
 20 I have the dates right, but I believe we were
 21 able to spend some time with them to better
 22 understand our total value proposition around
 23 the education we provide for customers, the
 24 training and technical service that we provide
 25 for customers, the relationships that are

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 critical as part of a full-service dealer, and
 3 helping dealers become effective in adopting
 4 digital dentistry in their practice, and I think
 5 that was valuable to have him understand that.
 6 Q. You can set CX2315 aside.
 7 What is --
 8 A. I'm sorry, what did you say?
 9 Q. You can set aside that document.
 10 A. Okay. I'm sorry. My ears aren't the
 11 best. I'm an older man. Okay.
 12 Q. What is an off-site planning meeting?
 13 A. Twice a year, the team that I work
 14 with, and throughout the company, there's, you
 15 know, we have more than 22,000 team members in
 16 the company, so there are lots of leaders that
 17 have off-site meetings, but with my team, twice
 18 a year we go to the local hotel or we go to
 19 another site and we do some short-range and
 20 long-range planning with each other.
 21 Primarily, the attendees, as I
 22 mentioned before, would be my direct reports and
 23 the senior colleagues from the other functional
 24 areas in the business that we have to partner
 25 with.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 happened at the meeting.
 3 Q. And why is it important to have a
 4 writing of some of the dialogue from the
 5 planning meeting?
 6 MR. McDONALD: Object to the form.
 7 A. It allows us to keep continuity in the
 8 ongoing running dialogue that we have with each
 9 other. This is a team of people that works very
 10 closely together, so it just helps keep some
 11 continuity in our conversation with each other.
 12 Q. Do you ever refer back to the planning
 13 meeting notes?
 14 A. Ever? Of course.
 15 Q. For what purpose?
 16 A. Not always.
 17 Sometimes to do some followup.
 18 Certainly on the action items, there's followup
 19 on the action items. Sometimes on the
 20 documented notes, looking back on the notes is
 21 done and sometimes not.
 22 Q. So you mentioned there are these two
 23 sets, the notes and the followup action items.
 24 Are these two separate documents?
 25 A. It's very informal. Sometimes it's

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. You make it a practice of yours to
 3 attend these off-site planning meetings?
 4 A. Up until very recently, the planning
 5 meetings that I'm referring to, the global
 6 dental planning meetings, they were my meetings.
 7 Q. Does Mr. Bergman generally attend the
 8 planning meetings?
 9 A. No.
 10 Q. What is the purpose of off-site
 11 planning meetings?
 12 A. As I mentioned, the purpose of the
 13 planning meeting is short-term planning and
 14 long-term planning for the business.
 15 Q. Does someone regularly take notes
 16 during the planning meeting?
 17 A. Usually at the off-site planning
 18 meetings we will have some notes and some
 19 followup actions.
 20 Q. Starting with the notes, what's the
 21 purpose of someone taking the notes during the
 22 planning meeting?
 23 MR. McDONALD: Object to the form.
 24 A. The notes that would be circulated
 25 represent some of the dialogue that would have

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 all on one document. Sometimes it relates,
 3 depending upon where we are, it could relate to
 4 a strategic planning document. There could be
 5 multiple documents.
 6 Q. What's the purpose of having followup
 7 action items?
 8 MR. McDONALD: Object to the form.
 9 A. To give us a good chance of running a
 10 good business.
 11 Q. For HSD planning meetings, is there
 12 someone in particular who is designated as the
 13 note-taker?
 14 MR. McDONALD: Object to the form.
 15 Vague as to time.
 16 A. Sometimes there are different people
 17 that do it. There's probably one person over
 18 the course of the last handful of years that did
 19 it more than others.
 20 Q. Is that Jim Huether?
 21 A. Jim Huether, yeah.
 22 Q. H-U-E-T-H-E-R?
 23 A. That's correct.
 24 Q. Have you ever known Graham Stanley to
 25 be the note-taker for HSD planning meetings?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. It's not usual that Graham would be
 3 the designated note-taker. It would -- Jim
 4 Huether reports to Graham Stanley, so Jim
 5 Huether is more the administrative note-taker
 6 and record keeper.
 7 Q. If Jim Huether did not attend an HSD
 8 planning meeting, who would be the next natural
 9 person to be the note-taker?
 10 A. Could be anyone.
 11 MR. McDONALD: Object to form.
 12 A. Could be anyone.
 13 Q. Do you ever share planning meeting
 14 notes with Mr. Bergman?
 15 A. Rarely.
 16 Q. Do you ever share planning meeting
 17 notes with anyone who doesn't attend the
 18 meeting?
 19 A. Again, not usually.
 20 Q. Is it important that planning meeting
 21 notes are accurate?
 22 MR. McDONALD: Object to the form.
 23 A. It's important that, topically, that
 24 the topics are captured. Oftentimes, there's a
 25 lot of conversation, and the notes are not

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 necessarily specifically accurate, but the
 3 topics that are identified are usually on point
 4 as to the topics that were discussed.
 5 Q. I just want to make sure I understand
 6 what you're saying. You're saying that the
 7 topics are accurate, but it's not as important
 8 that the specifics on those topics are not
 9 accurate?
 10 MR. McDONALD: Object to the form.
 11 Misstates the testimony.
 12 THE WITNESS: Can you please repeat,
 13 not this question, but the question before
 14 that?
 15 (Record read as follows:
 16 "Q Is it important that planning meeting
 17 notes are accurate?")
 18 THE WITNESS: So my answer to the
 19 question of is it important that they are
 20 accurate, my answer was that it's important
 21 that the topics are represented in the
 22 notes, but sometimes because there's so many
 23 aspects of any kind of a dialogue, the
 24 actual details may not be all the specific
 25 accurate details, but the topic is something

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 that we would expect to actually see.
 3 BY MS. ROSNER:
 4 Q. Would you like it for the details to
 5 also be accurate?
 6 MR. McDONALD: Object to the form.
 7 A. Again, it depends on the detail. Some
 8 of them that find their way into the notes are
 9 not that material, and it doesn't matter if it's
 10 accurate as long as the topic is covered.
 11 Q. What's the purpose of taking notes if
 12 it doesn't matter if some of them are not
 13 accurate?
 14 A. I think I --
 15 MR. McDONALD: Object to the form.
 16 Asked and answered. So.
 17 Tell her again.
 18 A. I think I did answer that question.
 19 It helps us keep our running -- we're with each
 20 other very frequently, and it just helps us keep
 21 our conversation with each other going.
 22 The more important thing is action
 23 items and owners and commitments to dates to
 24 follow up on specific things that might have
 25 come out of any particular meeting.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. So if the purpose of the notes is to
 3 keep the dialogue running, you would want to
 4 have some confidence that the dialogue
 5 represented in the notes is accurate so you
 6 could continue on the right direction; is that
 7 right?
 8 MR. McDONALD: Object to the form.
 9 You have asked him essentially the
 10 same question half a dozen times now, and I
 11 got to tell you, I mean, at this rate, I'm
 12 not going to agree to give you a minute over
 13 your time period. You're just wasting time.
 14 Go ahead. Answer again.
 15 THE WITNESS: Can I hear the question?
 16 (Record read.)
 17 MR. McDONALD: Objection. Asked and
 18 answered.
 19 THE WITNESS: Our notes are not
 20 perfect. Generally, we look for notes to
 21 contain the most important topics. At
 22 times, there's a lot of perhaps other
 23 details that are not that important, and if
 24 those details are not accurate but the topic
 25 is relevant, then it's important that that

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 topic stays in the conversation.
 3 BY MS. ROSNER:
 4 Q. You attended an HSD planning meeting
 5 on November 2, 2015; does that sound right?
 6 A. It's possible. Off the top of my
 7 head, I'm not sure what the dates of our
 8 meetings were.
 9 Q. Sure.
 10 (Complaint Counsel Exhibit CX2316-001
 11 through 003, an e-mail chain bearing Bates
 12 Nos. Henry Schein-000537458 through 460,
 13 marked for identification, as of this date.)
 14 BY MS. ROSNER:
 15 Q. I'm going to hand you a document
 16 that's been premarked as CX2316. It's a
 17 multi-page e-mail. The first Bates number is
 18 Henry Schein-000537458.
 19 Please take a moment to review CX2316
 20 and let me know when you've had a chance to
 21 familiarize yourself with the document.
 22 (Document review.)
 23 THE WITNESS: Okay.
 24 BY MS. ROSNER:
 25 Q. You've had an opportunity to review

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 CX2316?
 3 A. Yes.
 4 Q. This is an e-mail. The last-in-time
 5 e-mail chain at the top of the first page was
 6 sent by you on November 4, 2015.
 7 You wrote this e-mail as part of your
 8 job?
 9 A. Yes.
 10 Q. It's part of your job to respond to
 11 e-mails about off-site planning meetings?
 12 A. Yes.
 13 Q. You had knowledge of the contents of
 14 this e-mail?
 15 A. Yes.
 16 Q. You drafted the e-mail on CX2316 at or
 17 near the time that you got the notes from the
 18 planning meeting?
 19 A. Yes.
 20 Q. You drafted and maintained the e-mails
 21 in CX2316 as part of Schein's regularly
 22 conducted business?
 23 A. Yes.
 24 Q. And CX2316 represents a true and
 25 correct copy of your e-mail correspondence?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I believe so.
 3 Q. Below your e-mail is an e-mail from
 4 Graham Stanley, and Mr. Stanley is forwarding
 5 notes from an off-site planning meeting; is that
 6 right?
 7 A. I'm not sure. The reason why I say
 8 that is that, in looking at this, it doesn't
 9 strike me as one of our off-site planning
 10 meetings. It might have been a different
 11 meeting that we had. It could have been.
 12 Because some of the people that are copied here,
 13 I'm just not sure. I'm not sure if it was an
 14 off-site planning meeting. It was definitely a
 15 meeting amongst this group of people, but it
 16 might not have been one of those two meetings
 17 that I referred to where we have a two-day
 18 session each, you know, twice a year.
 19 Q. Mr. Sullivan has previously testified
 20 that these were notes from an off-site planning
 21 meeting.
 22 Do you have any reason to think that
 23 he might have been mistaken?
 24 A. That may --
 25 MR. McDONALD: Hang on.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Object to the form.
 3 A. That may have been -- this could be an
 4 off-site meeting that perhaps was actually held
 5 in Wisconsin. I'm just saying that the meetings
 6 that I have just -- to be clear, the meetings
 7 that I was referring to we have twice a year.
 8 They're typically two-day long meetings.
 9 The Global Dental business, just
 10 looking at the addressees, this would indicate
 11 to me that this meeting, and it could have been
 12 off-site, I'm not saying Tim's wrong, but it's
 13 not the meeting that I was referring to.
 14 Q. The people that are included in the
 15 addressee line of Mr. Graham -- Stanley
 16 Graham -- Graham Stanley's e-mail, who are these
 17 people?
 18 A. So these are people that are involved
 19 in the U.S. Dental business, primarily Tim's
 20 team, looks like. Primarily Tim's team.
 21 Q. And --
 22 A. So, again, this is not that off-site
 23 meeting that I was referring to before the
 24 Global Dental planning meetings.
 25 Q. And it appears that Mr. Stanley took

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 notes at this meeting that occurred with Tim's
 3 team?
 4 A. He took notes, and he asked whether or
 5 not there were other things that others would
 6 like to add, but I don't know if people did add
 7 notes or not.
 8 Q. But you added notes? Your e-mail at
 9 the top of the -- chain offers some amendments?
 10 A. Okay.
 11 Q. -- to Mr. Stanley's notes?
 12 A. Yeah; that's my comment, right.
 13 Q. You suggested a correction on the
 14 reinvented loyalty program, right?
 15 A. Right.
 16 Q. You also noted that Mr. Stanley forgot
 17 to mention the long-term plan structure?
 18 A. Yes.
 19 Q. These were topics that you pointed
 20 out, because when you reviewed Mr. Stanley's
 21 notes, they jumped out at you as being
 22 inaccurate?
 23 A. I don't know if they jumped out at me.
 24 Just when I read Graham Stanley's notes, it
 25 occurred to me to write this e-mail with this

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 content.
 3 Q. You made these suggestions to Mr.
 4 Stanley and provided this content because you
 5 wanted his notes to be accurate?
 6 MR. McDONALD: Object to the form.
 7 Asked and answered.
 8 A. I wanted my thoughts at that moment,
 9 and if I spent some more time, I might have had
 10 other thoughts, but I wanted these particular
 11 thoughts to also be recognized by Graham.
 12 Q. Did anybody tell you to write this
 13 e-mail to Mr. Stanley?
 14 A. Not that I recall.
 15 Q. Did anybody tell you what to say in
 16 your e-mail to Mr. Stanley?
 17 A. Not that I recall.
 18 Q. Looking at Mr. Stanley's e-mail,
 19 turning to the second page, CX2316-002, about
 20 three-quarters down the way of that page, he has
 21 a heading that says "Buying Groups," and then
 22 under that heading it says, "Tim clearly set out
 23 that HS should not be first to cooperate with
 24 GPOs, but also don't want to be the last."
 25 Did I read that correctly?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. Yes.
 3 Q. When he refers to Tim, he's referring
 4 to Tim Sullivan?
 5 A. I believe so, yes.
 6 Q. And "HS" refers to Henry Schein?
 7 A. I think so, yes.
 8 Q. And so at the meeting on November 2,
 9 Tim said that Henry Schein should not be the
 10 first to cooperate with GPOs?
 11 MR. McDONALD: Object to the form.
 12 A. Again, I believe this particular
 13 reference, in context, has to do with GPOs as
 14 compared to what we were talking about before
 15 with regard to, in the medical world, the
 16 separate structure of GPOs as opposed to buying
 17 groups, and there is no real presence of a
 18 traditional medical like GPO in the Dental
 19 business, and I think that Tim is -- I believe
 20 that's what Tim was referencing.
 21 Q. You attended the meeting. Do you
 22 recall this statement?
 23 A. No.
 24 Q. When in the notes it refers to GPOs,
 25 you're referring -- you think that Tim is

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 referring to a medical GPO, is that your
 3 testimony?
 4 A. My recollection is that this comment
 5 specifically relates to the medical form of GPO.
 6 That is my recollection.
 7 Q. Sorry. You just said that you don't
 8 remember Tim making this statement?
 9 A. No, this is what I believe that this
 10 refers to. I can't recall his statement.
 11 Q. The heading is "Buying Groups."
 12 Is it the case that sometimes people
 13 confuse GPOs and buying groups or use those
 14 terms interchangeably?
 15 A. I believe I mentioned that earlier in
 16 my testimony that internally within the company
 17 that there is sometimes utilization of buying
 18 groups and GPOs and buying clubs that are used
 19 in an interchangeable way.
 20 I personally, whenever speaking about
 21 GPOs, specifically focus on the GPO model, as I
 22 understand it, on the medical side of the
 23 business.
 24 Q. Is it possible that this reference of
 25 GPOs actually means buying groups?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 Asked and answered.
 4 A. I don't think so. I think it relates
 5 to the medical. That's my take on it.
 6 Q. Underneath this bullet, underneath
 7 this sentence, there's a bullet that says "CDA
 8 bid likely soon."
 9 Is CDA a GPO?
 10 MR. McDONALD: Object to the form.
 11 A. That is a -- I believe that that is a
 12 reference to the California Dental Association.
 13 I believe. I could be wrong, but I think that's
 14 what that is.
 15 Q. Is the California Dental Association a
 16 GPO?
 17 A. No.
 18 Q. Was the California Dental Association
 19 starting a buying group?
 20 MR. McDONALD: Object to the form.
 21 A. The California Dental Association was
 22 starting some form of a group, yes. I believe,
 23 I'm not sure, again, of the timing, but I
 24 believe that that's true.
 25 Q. The next bullet is, "Possible solution

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 could be redefinition of loyalty program."
 3 Does Schein have a GPO loyalty program
 4 in the Dental unit?
 5 A. No.
 6 Q. Does Schein have a buying group
 7 loyalty program?
 8 A. We have an overall loyalty program for
 9 customers, and sometimes the loyalty program is
 10 baked into the unique deal that a customer or an
 11 entity, a buying group or whatever, may have as
 12 part of their overall offering.
 13 Q. This isn't the first time today we
 14 have seen this idea of Tim saying Schein should
 15 not be the first to cooperate, but also don't
 16 want to be the last.
 17 Is there some Schein policy about not
 18 being the first in the market and waiting for
 19 others to enter first?
 20 MR. McDONALD: Object to the form.
 21 A. There's no broad-based policy as you
 22 referenced.
 23 Q. Does it seem strange to you that
 24 someone from Schein would be advocating not
 25 being the first in a market?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I think that Tim is very focused, as
 4 his team, as am I, on the overall value
 5 proposition and strategy that we have in the
 6 business model of high value, helping our
 7 customers grow their business, focusing across a
 8 broad array of products and services beyond
 9 merchandise to include all of their technical
 10 service, business consulting services, practice
 11 management and on and on and on, and I think
 12 that Tim wants to not lose sight of that as our
 13 primary high-value focus, and so to stray from
 14 that, I think Tim just wants to be very
 15 cautious.
 16 Q. Would being first in a market
 17 necessarily mean you'd have to stray from your
 18 value-focused proposition?
 19 A. It depends on what that activity would
 20 be.
 21 Q. Tim says that he also doesn't want to
 22 be the last.
 23 What would be so bad about being the
 24 last in any market?
 25 A. Markets are always changing. Things

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 are happening on a regular basis in a market,
 3 and if there is some particular trend that, for
 4 whatever reason, we didn't participate in soon
 5 enough and we were very late to market, it could
 6 be something that we would regret.
 7 Q. Do you agree that Schein should not be
 8 the first to welcome medical GPOs in Dental?
 9 MR. McDONALD: Object to the form.
 10 A. I believe that there's a natural
 11 reason that exists on the medical side of the
 12 business as to how GPO structures were created,
 13 as I believe I testified to before, coming out
 14 of the acute care space.
 15 I believe that, generally speaking, we
 16 play, in large part, a role of a GPO with our
 17 customers and the value that we provide to the
 18 manufacturers we represent, and also the
 19 products and services that we provide our
 20 customers. So inserting another entity for us
 21 in the Dental business doesn't seem needed.
 22 Q. So would you agree with Tim then that
 23 you don't want to be the group that introduces
 24 GPOs to Medical -- excuse me. You don't want to
 25 be the group that introduces GPOs to Dental?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I believe that it's very important for
 4 us to pay close attention to what's happening
 5 with regard to GPO development on the medical
 6 side of the business; continue to, you know,
 7 identify how, if at all, a medical GPO model is
 8 moving into dentistry, if it is or not; and make
 9 prudent decisions based upon what we see
 10 happening in the marketplace.
 11 Q. You can put that document aside.
 12 Schein has Worldwide Business
 13 Standards that address communications with
 14 competitors; is that right?
 15 A. We do have Worldwide Business
 16 Standards, yes, training, compliance, in all
 17 kinds of forms.
 18 Q. And is there some component of your
 19 compliance training that addresses
 20 communications with competitors?
 21 A. Yes.
 22 Q. Schein executives are required to
 23 undergo these trainings on Worldwide Business
 24 Standards on a regular basis?
 25 A. Yes.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. Do you attend those trainings?
 3 A. Yes, I do.
 4 Q. Does Stanley Bergman attend those
 5 trainings?
 6 A. Yes, he does.
 7 Q. Do your direct reports attend these
 8 trainings?
 9 A. Yes, they do.
 10 Q. What do those trainings say about
 11 communications with competitors?
 12 A. You should not have them.
 13 Q. Why is there a standard against
 14 communicating with competitors?
 15 MR. McDONALD: Object to the form.
 16 A. It's important for us to make sure
 17 that we're actively competing in the
 18 marketplace, that we are focused on our
 19 business, and really recognizing that it's
 20 important for us to compete with our
 21 competitors.
 22 Q. Does Schein take that guidance
 23 seriously?
 24 A. Of course.
 25 Q. What's the consequence for having a

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 communication with a competitor that would
 3 violate Schein's Worldwide Business Standards?
 4 MR. McDONALD: Object to the form.
 5 A. So it depends on the circumstance and
 6 it depends -- and on a case-by-case basis, I'm
 7 sure that would be addressed.
 8 Q. What are some of the consequences that
 9 could result from improper communications with
 10 competitors?
 11 MR. McDONALD: Object to the form.
 12 A. Someone could be terminated.
 13 Q. Anything else?
 14 MR. McDONALD: Object to the form.
 15 A. Certainly someone could be counseled
 16 in terms of not adhering to compliance standards
 17 and, you know, be provided ongoing training and
 18 coaching to make sure that compliance is adhered
 19 to.
 20 Q. Anything else?
 21 MR. McDONALD: Object to the form.
 22 A. I'm not sure of any other specific
 23 consequential details -- consequential detail,
 24 and so I'm not aware of it. It could be
 25 happening, but I don't know.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 Q. Has anyone suffered such consequences
 3 for these -- for such communications that you're
 4 aware of?
 5 MR. McDONALD: Object to the form.
 6 A. I actually don't know specifically off
 7 the top of my head. I don't know.
 8 Q. If someone had suffered consequences
 9 for improper communications with competitors,
 10 who would know?
 11 MR. McDONALD: Object to the form.
 12 A. Our HR and Legal team for sure would
 13 know.
 14 Q. How do you identify when a
 15 communication violates Schein's Worldwide
 16 Business Standards?
 17 MR. McDONALD: Object to the form.
 18 Calls for a legal conclusion.
 19 THE WITNESS: Please repeat the
 20 question.
 21 (Record read.)
 22 MR. McDONALD: Same objection.
 23 THE WITNESS: It depends on what the
 24 content of that communication may be.
 25 BY MS. ROSNER:

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Q. You've been trained on not having
3 improper communications with competitors.

4 What are the telltale signs that you
5 try to avoid?

6 A. Well, I try to avoid communicating
7 with competitors, generally speaking.

8 Q. Are there instances in which you find
9 yourself in a situation where you have to
10 communicate with someone at a competitor?

11 A. Over time, I'm sure that I've had some
12 connections with competitors -- communications
13 with competitors that involved in the dental
14 trade association. There might be some
15 association business.

16 Sometimes what happens also is a
17 competitor becomes part of a company over time,
18 and we, you know, we've grown our business in a
19 combination of organic growth internally, but
20 also through a host of joint ventures and
21 various M&A activities and acquisitions. And in
22 fact, that's how Tim Sullivan became part of the
23 Henry Schein organization, as we acquired his
24 company back in 1997.

25 Q. So when you have communications or you

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 find yourself in a situation that would require
3 you to have communications with competitors, are
4 there topics that you personally try to avoid so
5 as not to violate Schein's Worldwide Business
6 Standards?

7 MR. McDONALD: Object to the form.

8 A. Sure.

9 Q. What are some of those topics?

10 MR. McDONALD: Object to the form.

11 A. I really wouldn't talk about our
12 business with our customers, with our pricing or
13 any kind of things that we, you know, clearly
14 should not be talking about.

15 Q. Anything else?

16 A. We keep whatever conversation totally
17 separate to competing with each other in the
18 marketplace.

19 Q. Anything else?

20 A. Not that comes to mind.

21 Q. Would that include aspects that might
22 give Schein a competitive advantage such as its
23 deals with manufacturers?

24 A. Yeah, we would not -- I would not be
25 talking with my competitors about deals with

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 manufacturers.

3 Q. What about other aspects that keep
4 Schein competitive, such as its hiring terms for
5 FSCs?

6 MR. McDONALD: Object to the form.

7 A. Typically wouldn't be talking to my
8 competitors about that either.

9 Q. Why is that?

10 A. Just --

11 MR. McDONALD: Object to the form.

12 A. Just not appropriate.

13 Q. Have you ever witnessed communications
14 with competitors that you think may violate
15 Schein's Worldwide Business Standards?

16 A. Per se violations of our Worldwide
17 Business Standards, not that I recall.

18 Q. Have you ever personally spoken to
19 anyone about violating or their violating
20 Schein's Worldwide Business Standards with
21 respect to competitor communications?

22 A. Not that I recall right now.

23 Q. Has anyone ever spoken to you about
24 your violating Schein's Worldwide Business
25 Standards with respect to --

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 A. No, not that I recall.

3 Q. Have you ever witnessed Stanley
4 Bergman having conversations with competitors
5 that violated Schein's Worldwide Business
6 Standards?

7 A. No.

8 Q. Have you ever witnessed Stanley
9 Bergman encourage others to have conversations
10 with competitors that might violate Schein's
11 Worldwide Business Standards?

12 A. No.

13 Q. Would calling on a competitor and
14 proposing a, quote, full-blown war or ceasefire
15 constitute an improper competitor communication?

16 MR. McDONALD: Object to the form.

17 A. I don't know what the context of that
18 is.

19 Q. Is there a context in which directing
20 someone to call a competitor and propose a
21 full-blown war or ceasefire would not violate?

22 A. I don't understand what -- sorry.

23 MR. McDONALD: Object to the form.

24 A. Repeat the question.

25 Q. Is there an instance in which

<p style="text-align: right;">Page 210</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 directing someone to call a competitor and 3 proposing a, quote, "full-blown war or a 4 ceasefire" would not violate Schein's Worldwide 5 Business Standards? 6 MR. McDONALD: Object to the form. 7 A. Again, I don't know what the topic is. 8 I don't -- I just don't know the context. I 9 don't know the topic. I don't know what it's 10 about, what you're referring to. 11 Related to a particular business 12 matter? Related to something unrelated to 13 business? I don't know. 14 Q. Would it be appropriate -- 15 A. I don't know. 16 Q. -- for someone to call a competitor 17 related to a business matter and propose either 18 a full-out war or a ceasefire? 19 MR. McDONALD: Objection to the form. 20 Asked and answered. 21 A. Again, I don't know the context of -- 22 I can't envision that, that circumstance. 23 (Complaint Counsel Exhibit CX2320-001 24 through 003, an e-mail chain bearing Bates 25 Nos. Henry Schein-001243322 through 325,</p>	<p style="text-align: right;">Page 211</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 marked for identification, as of this date.) 3 BY MS. ROSNER: 4 Q. I'm going to hand you a document that 5 has been previously marked as CX2320. It is a 6 multi-page e-mail string. The first page is 7 marked Henry Schein-001243323. 8 Please take a moment to review the 9 document and let me know when you're finished. 10 I apologize. I handed you the wrong 11 document. I'm going to hand you a separate 12 document. You can put that one aside. 13 CX2332. 14 The Bates on this is Henry 15 Schein-001119026. 16 Please take a moment to review CX2332 17 and let me know when you are done. 18 (Complaint Counsel Exhibit CX2332-001 19 through 003, an e-mail chain bearing Bates 20 Nos. Henry Schein-001119026 through 028, 21 marked for identification, as of this date.) 22 (Document review.) 23 THE WITNESS: Okay. 24 BY MS. ROSNER: 25 Q. You've had an opportunity to review</p>
<p style="text-align: right;">Page 212</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 CX2332? 3 A. Yes. 4 Q. It's a multi-page e-mail string. The 5 last-in-time e-mail, the top of the first page 6 is an e-mail from you dated December 12, 2010. 7 There are a couple of e-mails that you 8 have written throughout this chain. 9 You drafted the e-mails in CX2332 as 10 part of your job? 11 A. Yes. 12 Q. It's part of your job to respond to 13 e-mails at work? 14 A. Yes. 15 Q. You have knowledge of the contents of 16 CX2332? 17 A. Yes. 18 Q. You drafted the e-mails in CX2332 at 19 or near the time that the events unfolding were 20 discussed? 21 A. Yes. 22 Q. You drafted and maintained e-mails in 23 CX2332 in Schein's regularly conducted business? 24 A. Yes. 25 Q. CX2332 is a true and correct copy of</p>	<p style="text-align: right;">Page 213</p> <p>1 CONFIDENTIAL - JAMES BRESLAWSKI 2 your e-mail correspondence? 3 A. I believe so. 4 Q. I want to turn your attention to the 5 last page, CX2332-003. It starts with an e-mail 6 from Stanley Bergman at 11:15 a.m. He 7 enumerates a couple of points to Tim and the 8 team, and you are one of the folks on the team. 9 In point (B) he says, "Do we have any 10 major Benco FSC players to go after at this 11 time? If yes, let's be aggressive. If no, then 12 Tim should call Chuck to tell him 'we could have 13 a full-blown war' or we can have a ceasefire. 14 We have the resources and he has to understand." 15 Did I read that correctly? 16 A. Yes. 17 Q. Mr. Bergman is instructing Chuck to -- 18 excuse me, Mr. Bergman is instructing Tim to 19 call Chuck, is that your understanding? 20 MR. McDONALD: Object to the form. 21 A. Yes. 22 Q. "Tim" is Tim Sullivan? 23 A. Tim Sullivan. 24 Q. "Chuck" is Chuck Cohen? 25 A. I believe so, yes.</p>

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Q. Chuck Cohen works at Benco?

3 A. Yes.

4 Q. And Mr. Bergman is directing Mr.
5 Sullivan to tell Benco we can have a full-blown
6 war or we can have a ceasefire.

7 What does he mean by "ceasefire"?

8 MR. McDONALD: Object to the form.

9 A. I'm not sure of exactly what was on
10 Stanley's mind at the time.

11 Q. Would you interpret "ceasefire" to be
12 the opposite of a full-blown war?

13 MR. McDONALD: Object to the form.

14 A. The way it's written here, it's the --
15 looks like the opposite, yeah.

16 Q. Tim responds to Mr. Bergman's e-mail
17 that, "We are far from sitting." If you go down
18 one, two, three, four bullet points in his
19 e-mail from 11:47 on page CX2332-002, he says,
20 "We can discuss non-hire agreement with them.
21 I've been thinking about the same thing."

22 Do you see that?

23 A. Yes.

24 Q. What's the non-hire agreement?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 A. I believe there was a period of time
3 during which there was some kind of -- I don't
4 recall all of the details, but some kind of an
5 understanding that should someone move from
6 Benco to us or us to Benco, that there would be
7 a window of time within which that
8 representative would be out of territory. I
9 think there was -- it was an agreement related
10 to that.

11 Q. You respond to Mr. Sullivan's e-mail
12 saying, "Thanks, Stan and Tim, for both
13 energizing this topic. Tim, team and I will
14 keep all informed about what we are doing and
15 brainstorm with colleagues regarding additional
16 options."

17 So you support Tim reaching out to
18 Benco about the non-hire agreement?

19 MR. McDONALD: Object to the form.

20 Mischaracterizes the document.

21 A. The topic that I'm referring to is
22 Benco going national and for us to make sure
23 that we're doing the best we possibly can to
24 compete with Benco.

25 Q. Do you disagree with the advice that

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Tim should reach out to Benco about the non-hire
3 agreement?

4 MR. McDONALD: Object to form.

5 A. I think it's -- I think it's not
6 something I would do.

7 Q. Would you --

8 A. It's not something I would naturally
9 do; pick up the phone and call Chuck.

10 Q. Why not?

11 A. I just wouldn't. Just wouldn't pick
12 up the phone, typically, and call Chuck. It's
13 not -- it's not something that I would do.

14 Q. Would it make you feel --

15 A. Tim is in a different position with
16 running that sales force, the U.S. dental sales
17 force, and --

18 Q. If you were in Tim's position running
19 the U.S. sales force, would you feel more
20 comfortable calling Chuck Cohen to talk about a
21 non-hire agreement?

22 MR. McDONALD: Object to the form.

23 A. Back in 2010, I know that there was
24 some dialogue about the aggressive hiring and
25 competing that was happening for sales reps, and

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 perhaps I would have called, but I don't -- I
3 don't know for sure.

4 Q. You understand that --

5 A. I was --

6 Q. -- there was a formal agreement
7 between Schein and Benco involving not hiring of
8 FSCs?

9 A. I don't recall the exact nature of
10 what that agreement was. My recollection is
11 that the agreement was not about not hiring. I
12 don't think there was an agreement related to
13 not hiring, but should there be hiring, that
14 there was an understanding that for certain
15 window of time, that those reps were not to work
16 in the territories that they came from.

17 Q. Is that the 120-day sit-out period?

18 MR. McDONALD: Object to the form.

19 A. I don't recall those details. It
20 could be.

21 Q. In that agreement, were there any
22 limitations on the number of representatives
23 that could be hired from the competitor in a
24 given quarter?

25 A. I don't recall the details.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Hang on.
 3 Object to the form.
 4 Go ahead.
 5 A. I don't recall the details of that
 6 particular agreement from back at that time.
 7 Q. Did Mr. Sullivan ever face
 8 consequences for his communications with Benco
 9 on the non-hire agreement?
 10 MR. McDONALD: Object to the form.
 11 MR. RACOWSKI: Object to the form.
 12 Foundation.
 13 A. I actually don't know what -- what
 14 communication Tim actually had or didn't have
 15 directly himself with Chuck.
 16 Q. Did Mr. Bergman ever face consequences
 17 for encouraging Mr. Sullivan to negotiate a
 18 non-hire agreement with Benco?
 19 MR. McDONALD: Object to the form.
 20 A. After this communication here, I'm not
 21 sure exactly how any communications between
 22 Benco or Benco's counsel, you know, took place.
 23 I don't know who spoke to who.
 24 Q. You're not aware of any consequences
 25 that Mr. Bergman faced as a result of this

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 e-mail?
 3 MR. McDONALD: Object to the form.
 4 Asked and answered.
 5 He just told you he wasn't even sure
 6 it happened. I'm not even sure how he can
 7 answer that question.
 8 MS. ROSNER: I'm not asking about
 9 whether it happened. I'm asking about were
 10 there any consequences from this e-mail.
 11 MR. McDONALD: Were there any
 12 consequences for something that may or may
 13 not have happened? That's absurd.
 14 Object to the form.
 15 THE WITNESS: I'm not, from just
 16 writing this e-mail, I'm not aware of any --
 17 I'm not aware of any consequences.
 18 BY MS. ROSNER:
 19 Q. Did you ever communicate with Benco on
 20 other sensitive business topics?
 21 You can put this e-mail aside.
 22 A. I don't believe so.
 23 Q. Did you ever communicate with
 24 Patterson on other sensitive business topics?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I don't believe so.
 3 Q. How do you know Paul Guggenheim?
 4 A. Paul Guggenheim I know from back in
 5 the early 1990s, probably. He was with
 6 Guggenheim Dental, a family business, and he was
 7 also involved in the trade association. So he
 8 was the leader of the distributor section of the
 9 trade association at the time, and Paul was --
 10 and his business was one of the businesses that
 11 we were at one point thinking about possibly
 12 becoming part of Henry Schein.
 13 Ultimately, he and his family sold the
 14 business to Patterson, and then he became a
 15 leader in various levels in Patterson over time.
 16 Q. Are you friendly with Mr. Guggenheim?
 17 A. I wouldn't say so. I know Paul.
 18 Paul, if I saw Paul, I would greet Paul.
 19 Q. Do you interact with Mr. Guggenheim
 20 socially?
 21 A. No.
 22 Q. Have you ever given Mr. Guggenheim
 23 reason to think that he could call you directly
 24 on a business issue?
 25 A. Please repeat that question.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 (Record read.)
 3 THE WITNESS: He knew me so he knew my
 4 number. He could call me. I never said,
 5 Paul, anytime, you would -- you know, please
 6 call me anytime you want on a business
 7 issue. I never opened that up.
 8 BY MS. ROSNER:
 9 Q. Did you regularly speak with Mr.
 10 Guggenheim about business issues?
 11 MR. McDONALD: Object to the form.
 12 A. Definitely not.
 13 Q. Did you ever speak with Mr. Guggenheim
 14 about a business issue?
 15 A. The only contact I ever had with Paul
 16 that I can recall related to business after --
 17 this was after, you know, knowing him from the
 18 trade association -- was a number of years ago
 19 he gave me a call to ask me if I knew about the
 20 fact that Amazon was coming into the business.
 21 I received one phone call from him.
 22 Q. This was in December 2013?
 23 A. I don't know exactly what the date is.
 24 It would have been close to when Patterson --
 25 sorry, when Amazon would have been joining the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 trade association, whenever that exactly
 3 happened, and I told him that I didn't know much
 4 about it and never really followed up. There
 5 was no followup conversation.
 6 Q. I want to back up a little bit.
 7 You were the one who actually called
 8 Mr. Guggenheim; is that correct?
 9 MR. McDONALD: Object to the form.
 10 A. No. Incorrect.
 11 Q. Mr. Guggenheim called you and left a
 12 message --
 13 A. Ah.
 14 Q. -- and you called him back?
 15 A. Okay. That could be true, right.
 16 Right. Mr. Guggenheim reached out to me. I did
 17 not reach out to Mr. Guggenheim. I returned his
 18 call. That's correct.
 19 Q. How did you get Mr. Guggenheim's
 20 number?
 21 A. I don't know. I don't recall. My
 22 secretary might have gotten it. I don't have
 23 his number in my, to the best of my knowledge,
 24 in my phone.
 25 Q. How did he get your number?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. Pretty easy to find. I worked for
 4 Henry Schein.
 5 Q. What number did you call Mr.
 6 Guggenheim from?
 7 MR. McDONALD: Object to the form.
 8 A. I believe I called him when I was
 9 driving in my car, so it would have been from my
 10 cell phone.
 11 Q. Were you driving home from work?
 12 A. Probably.
 13 Q. How long did that take, usually?
 14 A. Driving home from work? About 40
 15 minutes or something like that, 45 minutes.
 16 Q. Your cell phone, is that a phone that
 17 you carry on your person?
 18 A. Usually.
 19 Q. Does anybody else have access to your
 20 cell phone?
 21 A. Not normally.
 22 Q. Do you let your wife or your kids make
 23 phone calls from your cell phone?
 24 A. Not normally.
 25 Q. Would there be any reason for your

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 wife or kids or anyone else to call Patterson?
 3 A. Not that I'm aware of.
 4 Q. Is there anyone else who might have
 5 access to your cell phone?
 6 A. The only -- I usually have my cell
 7 phone all the time, but, you know, sometimes
 8 it's -- the tech people take it at work and they
 9 do something with it. So, other than that, I
 10 would have it.
 11 Q. Any reason you would think that tech
 12 people at work might call someone at Patterson?
 13 A. Not that I can think of.
 14 Q. What is your cell phone number?
 15 A. It's 631-662-6788.
 16 Q. When you called Mr. Guggenheim back,
 17 what did he say to you?
 18 A. I don't recall exactly. It was
 19 something to the effect, Did you hear that
 20 Amazon was coming into the business?
 21 Q. Anything else?
 22 A. That's actually all that I really
 23 recall.
 24 Q. Did he say that he was afraid about
 25 Amazon coming into the business?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I don't recall him being afraid.
 3 Q. Did he say that the dental companies
 4 needed to ban together or against Amazon coming
 5 into the business?
 6 A. Absolutely not. He asked me what I
 7 knew about it from what I recall.
 8 Q. So he mentioned to you that Amazon was
 9 coming into the business. He asked you what you
 10 knew about it?
 11 A. He said, "Did you hear" -- I think he
 12 said, I believe he said, "Did you hear that
 13 Amazon was coming into the business?" And I
 14 believe that in November, around that time, they
 15 might have entered the business.
 16 Q. What else did he say?
 17 A. I don't recall much of that
 18 conversation other than what I've told you.
 19 Q. What did you say in response to what
 20 he was asking you about Amazon?
 21 A. I recall telling him that I've heard
 22 they have entered the business, and that's about
 23 it.
 24 Q. Did you --
 25 A. There was really no conversation about

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 what -- beyond that, really. It would have been
 3 a pretty short phone call, I think.
 4 Q. Did you elaborate where you heard the
 5 information from? Who told it to you?
 6 A. There's a chance that I could have
 7 said that I saw them at the New York show and
 8 that may have said something relative to, They
 9 might be joining the trade association, which
 10 would be fine, so that was about it.
 11 Q. Anything else?
 12 A. Not that I can recall.
 13 Q. Did he respond to your mentioning them
 14 at the New York show or wanting to join the
 15 trade association?
 16 MR. McDONALD: Object to the form.
 17 He said he may have said that. He
 18 didn't say he actually did.
 19 A. I'm sorry, say that again.
 20 Q. Did, to the extent that you mentioned
 21 that Amazon might be joining the New York trade
 22 association -- or, excuse me, might be attending
 23 the New York show or joining the trade
 24 association, did Mr. Guggenheim have any
 25 reaction?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I don't recall.
 3 Q. Was there anything else said on the
 4 call?
 5 A. So the only other thing that I can
 6 think of that Paul and I do know each other from
 7 a long time ago, and so I could have asked him
 8 how his family's doing.
 9 I know that at a point in time he
 10 enjoyed playing hockey, so I could have asked
 11 him about his hockey. Could have, you know, had
 12 a little bit of personal conversation before he
 13 asked me the question about Amazon.
 14 Q. Do you specifically recall whether you
 15 asked him about any of those topics?
 16 A. I don't recall.
 17 Q. Is there anything else you could have
 18 talked about?
 19 A. I don't recall. I didn't follow up
 20 with him on that. What I did was I, you know,
 21 just did not connect with him. I haven't really
 22 connected with him except seeing him maybe once
 23 since then at an industry event.
 24 Q. How did it make you feel for Mr.
 25 Guggenheim to be asking you about Amazon?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 A. I actually didn't think much about it,
 4 so I wanted to, you know, just make sure that
 5 when -- I didn't want to get involved in a
 6 discussion with him about a competitor or
 7 potential competitor, so I really didn't want to
 8 be on the call for long and in talking about
 9 that, so -- and therefore, I also didn't want to
 10 follow up.
 11 Q. You didn't want to extend the call in
 12 any way to continue talking about Amazon?
 13 A. No.
 14 Q. How did you end the call?
 15 A. Again, I don't exactly remember how I
 16 ended the call. I just don't recall exactly how
 17 I ended the call.
 18 Q. How long did the call last? Are we
 19 talking about five minutes? Are we talking
 20 about half hour? Was this like the duration of
 21 your commute?
 22 A. No. No. Couldn't -- I would be
 23 shocked if it was -- it was a relatively -- my
 24 recollection, it was a relatively short call.
 25 Q. What does "relatively short" mean?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MR. McDONALD: Object to the form.
 3 It's five years ago.
 4 A. I don't know. Five, ten minutes.
 5 Five minutes, ten minutes. I really don't,
 6 don't recall, but my recollection is that it was
 7 relatively short, short. My commute home is
 8 maybe 35, 40 minutes, and I don't recall being
 9 on the phone with Paul for the length of my
 10 commute, for sure.
 11 Q. You mentioned you were uncomfortable
 12 talking about Amazon with Mr. Guggenheim.
 13 Did you report the call?
 14 A. I mentioned the call to my counsel.
 15 Q. Who?
 16 A. That I believe at the time I mentioned
 17 to Stanley Komaroff at the time.
 18 Q. Was that an in-person discussion, was
 19 that by phone, or was that an e-mail?
 20 MR. McDONALD: You can tell her the
 21 form, but don't tell her what you discussed.
 22 A. I actually don't remember the form,
 23 but I remember that --
 24 MR. McDONALD: Don't tell her the
 25 contents.

CONFIDENTIAL - JAMES BRESLAWSKI

A. I remember the form. Sorry. I remember that I notified Stanley Komaroff. I believe it was Stanley Komaroff.

Q. How long after the call with Mr. Guggenheim did you report this call?

A. I believe it was the next morning. I was busy when I went home. That's my recollection.

Q. You mentioned just the two things you recall discussing: That Amazon was in the business and that potentially you had heard about them attending the New York trade show or joining the trade association.

How long do you think that took?

MS. SEIDL: Object to form.

MR. McDONALD: Objection. Asked and answered.

A. I really don't know. It could have been other -- as I said, I know Paul, and there could have been some personal conversation. We could have talked about, you know, his, as I mentioned, his interest in hockey, and he knows that I have an interest as well. It could have been some personal things, but I don't believe

CONFIDENTIAL - JAMES BRESLAWSKI

that the -- the substance of our conversation relating to Amazon I recall as being very short. I didn't really want to be in a detailed conversation about that with him.

MS. ROSNER: Let's take a break.

Off the record.

(Recess; Time Noted: 3:43 p.m.)

(Time Noted: 4:04 p.m.)

BY MS. ROSNER:

Q. We talked a lot about buying groups today, but I want to now focus on the medical-based GPOs that we have touched on a little bit.

And it's your understanding that the medical GPOs tend to be different entities than the buying groups in Dental, correct?

A. Correct.

Q. GPOs are very common in the medical industry; is that right?

A. Correct.

Q. Approximately what percentage of Schein's medical customers are members of GPOs?

A. I don't know.

Q. In Schein's medical group, is there a

CONFIDENTIAL - JAMES BRESLAWSKI

large representation of GPOs?

A. I would say it's a good representation of GPOs. We work with a good number of the GPOs.

Q. Why does Schein's medical division work with GPOs?

MR. McDONALD: Object to the form.

A. So the medical business is very different to the dental business, and the GPOs originated in the acute care business were very large hospitals, very large volumes. GPOs were borne in that space where manufacturers created contract pricing for certain groups of customers.

The medical business has changed quite a bit over the course of the last ten years, where many hospitals now have actually acquired physician offices. Before that happened, the medical business that we were in, because we're not in the acute care business, we don't sell to the hospitals, where we sell to the alternate sites to the hospital: Ambulatory surgery centers, urgent care centers, and physician offices.

CONFIDENTIAL - JAMES BRESLAWSKI

As those physician offices became more connected with overall what's known as IDNs, more and more of the GPOs created offerings beyond the hospital setting and moved the same contracts but at different levels of pricing for the ambulatory and non-acute settings, and so that's how GPOs have really grown up in the medical business.

Q. Does Schein choose to do business with GPOs because they can bring volume to Schein?

A. We choose to do business with GPOs in the medical space because, in large part, the medical customers have been signed up by the GPOs into these contracts, and so in order for us to really be an effective player in the medical distribution business, we have to be involved more so with the GPOs because of the current structural dynamic that exists in the medical business.

Q. So Schein really doesn't have an option to not deal with GPOs in medical?

A. I would say that's true.

Q. Is it your understanding that the mission of a GPO is to provide a range --

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 A. Can you please speak a little bit more
3 slowly? I just want to make sure I follow.

4 Q. Is it fair to say that the mission of
5 a GPO is to provide a range of products and
6 services for their members?

7 MR. McDONALD: Object to form.

8 A. I'm not that familiar with all the
9 details of the medical GPOs, but I believe that
10 some of the GPOs or the GPOs provide contract
11 pricing and also some form of services, and
12 really I'm not familiar with the details of
13 those kinds of services.

14 Q. Through GPO contracts, the average
15 price of medical customers pricings has come
16 down; is that right?

17 MR. McDONALD: Object to the form.

18 A. I don't know enough about where
19 pricing was and where it is, but generally
20 speaking, contract pricing is lower than where
21 we are selling off-contract. Because we do have
22 a certain amount of business that flows through,
23 locally, without GPO contracts. So GPO
24 contracts are typically lower pricing.

25 Q. And in Schein's medical business, the

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 aggregate gross profit percentage is lower than
3 the aggregate gross profit percentage of
4 Schein's Dental business?

5 MR. McDONALD: Object to the form.

6 A. So I don't think those comparisons are
7 relevant because the businesses are so starkly
8 different in that, on the medical side of the
9 business, we don't have the level of investment
10 and cost associated with the FSC networks. We
11 have also very limited support for equipment and
12 technology services.

13 On the dental side of the business,
14 there is a substantially higher cost in
15 providing the full-service model to the
16 dentists, which includes not only the field
17 sales consultant but then also a series of other
18 field-based specialists that are specialists in
19 equipment, in technology, in practice
20 management, in financial service.

21 So there's a lot of costs associated
22 with providing our overall offering to the
23 dental marketplace that doesn't exist in the
24 medical side of our business. So I don't think
25 that that comparison is a relevant comparison.

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 Q. Regardless of whether Schein, in its
3 ordinary course, compares the gross profit of
4 its dental versus medical businesses, is one
5 higher or lower than the other?

6 MR. McDONALD: Object to the form.

7 A. On average, the medical business gross
8 profit would be lower than the dental business
9 gross profit.

10 Q. Has Schein ever contemplated what
11 would happen if medical GPOs started to enter
12 the dental space?

13 MR. McDONALD: Object to the form.

14 He's not here as a corporate
15 representative.

16 A. When we think about our dental
17 business and we think about the role that we
18 play and the services and value that we provide
19 both for suppliers and also for the customers,
20 we actually see the role of a GPO in large part
21 being played by us.

22 So we don't necessarily see how it's
23 easy for a GPO to make a value argument in the
24 dental business. So we don't really, within
25 running our dental business, we're not spending

1 CONFIDENTIAL - JAMES BRESLAWSKI

2 a lot of time thinking about the medical GPO
3 model. That's not something that is high on our
4 list of priorities to spend a lot of time on.

5 Q. Are you aware that Schein is engaged
6 with talks with Premier?

7 MR. McDONALD: Object to the form.

8 Vague.

9 A. I'm not sure exactly what you're
10 talking about.

11 Q. Do you know Premier as a medical GPO?

12 A. I know of Premier. I do not know the
13 people at Premier, and I'm not in detail aware
14 of any specific discussion that we may be having
15 that I can recall in any meaningful way with
16 Premier.

17 Q. Would it be surprising to you to learn
18 that the Schein Dental business is discussing
19 doing business with Premier, a medical GPO?

20 MR. McDONALD: Object to the form.

21 Vague as to time.

22 A. It wouldn't surprise me that our team
23 is talking to anyone about possibilities. And
24 there may be desires of medical GPOs to look at
25 the possibilities of doing business in the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 dental space, and if our teams are talking to
 3 them and evaluating whether or not that makes
 4 any sense for us, I wouldn't be surprised about
 5 that.
 6 Again, I don't think that is a very
 7 significant aspect of our activity today.
 8 Q. Has Schein ever created a strategy or
 9 plan around how it would respond if GPOs entered
 10 dental?
 11 A. I go back to fundamentally believing
 12 that the role that we currently play today fills
 13 a space of value that minimizes the need for
 14 another party to be involved as a structural
 15 part of the dental marketplace.
 16 Periodically, our team is looking at
 17 all kinds of options for us to fortify that
 18 value proposition. For instance, from time to
 19 time, and I think we referred to this later --
 20 sorry, earlier, when Hal in particular was
 21 mentioning maybe we should have our own GPO and
 22 maybe we should more formalize what that means
 23 and create a separate business.
 24 We haven't really developed that to
 25 any significant extent, but that is something

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 that we could do in the future.
 3 Q. So today there is no specific plan,
 4 but there has been some discussions about how
 5 Schein would respond to GPOs in dental?
 6 MR. McDONALD: Object to the form.
 7 Mischaracterizes his testimony.
 8 A. There has been some discussion about
 9 GPOs and the role that they play in medical and
 10 how, again, we see our role in dental being
 11 different, but also, we want to keep our eyes
 12 open and continue to think about how do we, you
 13 know, further strengthen our value proposition
 14 so there's actually no need for the -- for
 15 another entity to enter the marketplace between
 16 ourselves and our customer because we believe
 17 that if we are directly connected with our
 18 customer, without being -- having some other
 19 entity in the middle, it gives us the best
 20 chance to tell our full value story.
 21 Q. Would Schein prefer that medical GPOs
 22 stay out of dental?
 23 MR. McDONALD: Objection to form.
 24 A. I think that we don't see a need. We
 25 fill, in large part, that need, both for the

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 manufacturers and for the customers.
 3 Q. Bringing a medical GPO into the dental
 4 world would risk the camel's nose being allowed
 5 into the tent; is that your understanding?
 6 MR. McDONALD: Objection to the form.
 7 Why don't you show him the document
 8 and not play games at this late hour.
 9 THE WITNESS: Please repeat the
 10 question.
 11 (Record read.)
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: If a medical GPO were
 14 brought in by us, without really thinking
 15 through the value of doing that, how that
 16 would fit with our business model could be
 17 irresponsible.
 18 BY MS. ROSNER:
 19 Q. The phrase "bringing the camel's nose
 20 into the tent" is a figure of speech; is that
 21 right?
 22 MR. McDONALD: Object to the form.
 23 A. Yeah, I've heard that's a figure of
 24 speech.
 25 Q. It generally means to allow a small

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 act that opens the door to greater undesirable
 3 things?
 4 MR. McDONALD: Object to the form.
 5 Q. Is that your understanding of the
 6 figure of speech?
 7 MR. McDONALD: Object to the form.
 8 A. I don't know. The figure of speech
 9 "the camel's nose in the tent" doesn't have a
 10 positive connotation.
 11 MS. ROSNER: I have no further
 12 questions at this moment.
 13 Do you like to take a break or do you
 14 want to --
 15 MR. McDONALD: Do you have questions?
 16 MS. SEIDL: I was going to see what
 17 you were going to cover.
 18 MR. McDONALD: Okay.
 19 EXAMINATION BY
 20 MR. McDONALD:
 21 Q. Mr. Breslawski, how are you?
 22 A. I'm okay. How are you?
 23 Q. Good.
 24 Has Henry Schein ever had a policy
 25 about working with buying groups?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. No.
 3 Q. Have you ever had a communication --
 4 and I mean that in the broadest sense,
 5 telephone, in person, text, whatever, okay --
 6 with anyone at Patterson regarding buying
 7 groups?
 8 A. No, absolutely not.
 9 Q. Have you ever had a communication,
 10 again, in the broadest sense -- with anyone at
 11 Benco regarding buying groups?
 12 A. No, I have not.
 13 Q. The FTC alleges in this action that
 14 Henry Schein had an agreement with Patterson and
 15 Benco to not do business with buying groups.
 16 Do you have any knowledge of such an
 17 agreement?
 18 A. I do not.
 19 Q. Would such an agreement be contrary to
 20 Henry Schein's business practices about working
 21 with buying groups?
 22 A. It would.
 23 Q. How long have you known Tim Sullivan?
 24 A. For 21 years.
 25 Q. And during that 21 years, have you

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 been, for the most part, Mr. Sullivan's boss?
 3 A. Correct.
 4 Q. Do you believe that Mr. Sullivan would
 5 have ever had an agreement with a competitor to
 6 not do business with any customer?
 7 A. Absolutely not.
 8 Q. Is Benco a competitor of Henry Schein?
 9 A. Yes.
 10 Q. Does Henry Schein compete against
 11 Benco?
 12 A. Aggressively.
 13 Q. Is Patterson a competitor of Henry
 14 Schein?
 15 A. Absolutely.
 16 Q. Does Henry Schein compete against
 17 Patterson?
 18 A. Aggressively.
 19 MR. McDONALD: That's all the
 20 questions I have at this time.
 21 EXAMINATION BY
 22 MS. SEIDL:
 23 Q. Hi. My name is Jana Seidl. I'm here
 24 representing Patterson. I just have a few
 25 questions.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. Sure.
 3 Q. So you testified that you were not
 4 aware of anyone at Schein entering into an
 5 agreement with anyone at Patterson to refuse to
 6 deal with buying groups, correct?
 7 A. Correct.
 8 Q. And you certainly didn't enter into an
 9 agreement with anyone at Patterson not to deal
 10 with buying groups, correct?
 11 A. That's correct.
 12 Q. And are you aware of anyone at Schein
 13 entering into an agreement or arrangement or
 14 understanding of any kind with someone from
 15 Patterson regarding any customer?
 16 A. I'm not aware of any arrangement.
 17 Q. And you did not enter into an
 18 agreement with anyone at Patterson regarding any
 19 customer?
 20 A. That's correct.
 21 Q. Do you know of anyone at Schein
 22 communicating with anyone at Patterson about
 23 whether or not Schein was going to offer
 24 discounts for any specific customer?
 25 A. Please repeat that.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 MS. SEIDL: Could you read back the
 3 question?
 4 (Record read.)
 5 THE WITNESS: I am not aware of that.
 6 BY MS. SEIDL:
 7 Q. And do you know of anyone at Schein
 8 communicating with anyone at Patterson to learn
 9 whether or not Patterson would be competing for
 10 any customers or offering discounts to any
 11 particular customer?
 12 MS. ROSNER: Objection to form.
 13 A. I am not.
 14 Q. You can go ahead.
 15 MR. McDONALD: Do you have the
 16 question?
 17 THE WITNESS: One more time.
 18 (Record read.)
 19 MS. ROSNER: Objection. Form.
 20 THE WITNESS: Okay. I am not aware of
 21 that.
 22 BY MS. SEIDL:
 23 Q. And did you ever speak with anyone at
 24 Patterson about whether or not any particular
 25 customer is a buying group?

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I have never spoken to anyone at
 3 Patterson about that.
 4 Q. And do you know if anyone at Schein
 5 coordinating their conduct with anyone at
 6 Patterson regarding any customer?
 7 MS. ROSNER: Objection. Form.
 8 A. I am not aware of any of that.
 9 MS. SEIDL: That's all I have.
 10 EXAMINATION BY
 11 MR. RACOWSKI:
 12 Q. Good afternoon, Mr. Breslawski. I'm
 13 Ken Racowski representing Benco. I just have a
 14 couple of questions for you.
 15 A. Okay.
 16 Q. If you could pull out an exhibit that
 17 you looked at earlier today. It's labeled
 18 CX2332.
 19 A. Got it.
 20 Q. And if we turn over to page 3 of that
 21 document, you testified at length in response
 22 to --
 23 A. Yeah.
 24 Q. -- questions from Complaint Counsel
 25 regarding an alleged suggestion by Mr. Bergman

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 to Mr. Sullivan about reaching out to Benco, do
 3 you remember that testimony?
 4 A. Yes.
 5 Q. I just wanted to make sure it's
 6 absolutely crystal clear for the record. You
 7 don't have any knowledge that Mr. Sullivan
 8 actually made the phone call or the
 9 communication that Mr. Bergman was suggesting in
 10 this e-mail, do you?
 11 A. I do not, no.
 12 Q. And you're not aware of any
 13 communications that Mr. Sullivan may have had
 14 directly with Mr. Cohen about the topic in this
 15 e-mail, are you?
 16 MS. ROSNER: Objection. Leading.
 17 A. I am not aware of that, no.
 18 Q. And then I think the last question,
 19 your counsel may have already cleared that up,
 20 but again, so we have a clear record, you don't
 21 have any personal knowledge of any agreement
 22 between Henry Schein and Benco not to do
 23 business with or to give discounts to buying
 24 groups, do you?
 25 MS. ROSNER: Objection. Leading.

1 CONFIDENTIAL - JAMES BRESLAWSKI
 2 A. I have no such knowledge.
 3 Q. And you're not aware of anyone at
 4 Schein having ever formed or made such an
 5 agreement with Benco, are you?
 6 MS. ROSNER: Objection. Leading.
 7 A. I am not aware of any such agreement.
 8 MR. RACOWSKI: That's all I have.
 9 Thank you for your time.
 10 MS. ROSNER: Can we take a quick
 11 break?
 12 (Recess; Time Noted: 4:24 p.m.)
 13 (Time Noted: 4:25 p.m.)
 14 MS. ROSNER: Mr. Breslawski, I don't
 15 have any other questions for you today.
 16 Thank you for appearing for this deposition.
 17 Do you have any questions for me?
 18 (Continued on the next page to include
 19 the jurat.)

ERRATA SHEET

DEPOSITION OF: James Breslawski

DATE DEPOSITION: July 10, 2018

CASE NAME: In the Matter of Benco Dental, Inc., et al., Docket No. D09379

The following are the corrections which I have made to my transcript:

PAGE	LINE #	CORRECTION	REASON FOR CORRECTION
10	12-13	Delete "ex Special Markets"	Typographical error/clarification
28	3	Delete "to"	Typographical error
29	11	Change "ban" to "band"	Typographical error
34	4	Delete "for us"	Typographical error/clarification
38	4	Change "is a separate" to "as a separate"	Typographical error
38	10-11	Change "that's resident" to "that's a resident"	Typographical error
40	10	Change "sometimes need to recruit" to "sometimes we need to recruit"	Typographical error
40	12	Change "to take what" to "to take over"	Typographical error
56	12	Change "putting" to "put"	Typographical error/clarification
64	7	Change "division" to "vision"	Typographical error
123	22	Change "assigned with" to "assigned to"	Typographical error
137	21	Change "sent on" to "sending on"	Typographical error/clarification
159	3	Change "They're" to "I'm"	Typographical error/clarification
163	18-19	Delete "I don't think that's so."	Typographical error/clarification
188	19	Change "keep our running" to "keep our running dialogue"	Typographical error/clarification
206	12	Delete "connections with competitors—"	Clarification/misspoke
206	13	Delete "in"	Typographical error

I, James Breslawski, declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

EXECUTED this 10th day of August, 2018.

at St. James New
(City) (State)

James Breslawski

CONFIDENTIAL - JAKE MEADOWS
THE VIDEOGRAPHER: This begins media labeled number 1 of the video-recorded deposition of Jake Meadows in the matter of In re Benco Dental Incorporated, et al. This deposition is being held at 11 Times Square in New York, New York, on July 13, 2018 at approximately 8:31 a.m.

My name is Matthew Smith from TSG Reporting, Incorporated. I'm the legal video specialist. The court reporter is Kathy Klepfer, in association with TSG Reporting.

All appearances have been noted for the record.

Will the court reporter please swear in the witness.

JAKE MEADOWS, called as a witness, having been duly sworn by a Notary Public, was examined and testified as follows:

EXAMINATION BY

MS. ROSNER:

Q. Good morning, Mr. Meadows. How are

1 CONFIDENTIAL - JAKE MEADOWS
 2 you?
 3 A. Good.
 4 Q. Good.
 5 My name is Jasmine Rosner. I'm with
 6 the Federal Trade Commission. You understand
 7 that you're here today pursuant to a subpoena to
 8 take your deposition?
 9 A. Yes.
 10 Q. Have you ever sat for a deposition
 11 before?
 12 A. I have not.
 13 Q. Okay. I'm just going to go over some
 14 ground rules so that everyone is on the same
 15 page about what a deposition is.
 16 We are here to take your sworn
 17 testimony. You just took an oath from the court
 18 reporter. So everything you say should be
 19 truthful, to the best of your recollection.
 20 A. Uh-huh.
 21 Q. If at any point you recall testimony
 22 that would enhance the accuracy of your
 23 recollection or what you previously testified
 24 to, just please let me know and I'll let you
 25 amend prior answers.

1 CONFIDENTIAL - JAKE MEADOWS
 2 The questions I'm going to be asking
 3 you today I really want you to answer from your
 4 personal knowledge, so if there's something that
 5 you don't know, just tell me that you don't
 6 know; is that okay?
 7 A. Uh-huh. Yes.
 8 Q. Great. From time to time, I may have
 9 documents that I'm going to show you that may
 10 help refresh your recollection. Some of the
 11 things that I may be asking you about may come
 12 from those documents or they may not, I may not
 13 have any documents, but the point is really to
 14 exhaust your personal memory.
 15 If you plan on speculating to any
 16 answer, just let me know that you're
 17 speculating. That way I can know it's not based
 18 on personal knowledge. Is that okay?
 19 A. Yes.
 20 Q. Is there any reason why you can't
 21 testify truthfully and accurately today?
 22 A. No.
 23 Q. Are you impaired in any way or taking
 24 any medication?
 25 A. No. I am taking medication, but

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. Uh-huh.
 3 Q. I'm going to be asking you questions
 4 today. Hopefully, you'll be responding to
 5 questions. From time to time, your attorney may
 6 object. I would recommend that after I ask a
 7 question, take a quick breath, allow your
 8 attorney to say something, so that we're not
 9 speaking over each other at any point in time.
 10 A. Uh-huh.
 11 Q. I would ask that you allow me to
 12 finish my questions before you begin your
 13 answer, and likewise, I will wait for you to
 14 finish an answer before I begin my next
 15 question.
 16 Does that sound okay?
 17 A. Uh-huh.
 18 Q. Great. As you can see, we have a
 19 court reporter here who is transcribing
 20 everything that we're saying. To make her job
 21 easiest, I know we're also on the video, but it
 22 would be most if helpful if you could give
 23 verbal answers.
 24 A. Yes.
 25 Q. Great.

1 CONFIDENTIAL - JAKE MEADOWS
 2 nothing that would impair my ability to testify.
 3 Q. Can you start by telling me where
 4 you're employed and what your title is?
 5 A. I'm employed at Henry Schein Inc., and
 6 my title is Vice President of Sales, Special
 7 Markets.
 8 Q. How long have you held that role?
 9 A. Ten months, approximately.
 10 Q. And what are your responsibilities in
 11 that role?
 12 A. I'm responsible for DSO sales, school
 13 sales, education, institutional and federal
 14 government sales.
 15 Q. Do you lead a team of people that also
 16 manage those types of sales?
 17 A. Yes.
 18 Q. Do you share your role of VP of Sales
 19 in Special Markets with anyone else?
 20 A. No, I do not.
 21 Q. Is that an acting title?
 22 A. No, that is my title.
 23 Q. Prior to being VP of Sales of Special
 24 Markets, what was your title?
 25 A. Vice president of Sales, Eastern area.

CONFIDENTIAL - JAKE MEADOWS

Q. Was that within the Henry Schein Dental Division?

A. Yes.

Q. You understand sometimes people refer to Henry Schein Dental as "HSD"?

A. Yes, I do.

Q. How long were you VP of Sales for the Eastern area?

A. Approximately two years.

Q. What were your roles and responsibilities as VP of Sales of Eastern area?

A. I was responsible for the execution of the sales strategy and the personnel management of the teams within the Eastern area that reported in to Henry Schein Dental.

Q. Did you also have responsibility for setting of sales strategy?

A. I have responsibilities for influencing strategy.

Q. You didn't have ultimate approval authority for strategy, but you contributed to sales strategy?

A. I contributed to sales strategy.

Q. Did you have authority for approving

CONFIDENTIAL - JAKE MEADOWS

pricing to customers in the Eastern area?

A. Yes.

Q. Did you have authority for responding to bids for customers in the Eastern area?

A. Yes.

Q. Prior to being VP of Sales for the Eastern area, what was your title?

A. Eastern Area Sales Director.

Q. What was your territory as the Eastern Area Sales Director?

A. Smaller than my prior role. It was the Northeast zone, the Southeast zone, and the Atlantic Coast zone.

Q. I'm trying to quickly figure out my geography.

What areas of the Eastern United States were not included in your territory as Eastern Area Sales Director?

A. So it was Maine, Vermont, New York -- portions of New York -- Rhode Island, Connecticut, New Jersey, Maryland, Virginia, DC, Pennsylvania -- portions of Pennsylvania -- North Carolina, South Carolina, Georgia, Florida, and Louisiana.

CONFIDENTIAL - JAKE MEADOWS

I believe -- did I forget anything there? States?

Q. You named a lot, a number of states. Just so I'm clear, these are the

states -- the states that you listed are the states that you had responsibility for?

A. At that time, yes.

Q. How long were you Eastern Area Sales Director?

A. Approximately a year and a half.

Q. What was your title prior to being Eastern Area Sales Director?

A. Northwest Zone General Manager.

Q. Going back to your time as Eastern area of Sales Director, were your responsibilities the same as when you were the VP of Sales for the Eastern area?

A. No.

Q. How did they differ?

A. My geography was expanded and my influence within sales strategy was increased.

Q. As Eastern Area Sales Director, did you still have authority to approve pricing to customers?

CONFIDENTIAL - JAKE MEADOWS

A. Yes.

Q. Did you approve responses to RFPs to customers?

A. I do not recall approving a formal RFP, but yes, I would approve a -- an offer that was verbally explained to me.

Q. How long were you the Northwestern zone general manager?

A. Approximately three years.

Q. What was your territory as Northwestern zone general manager?

A. Alaska, Washington State, Idaho, Montana, Oregon, Northern California, portions of Nevada.

Q. What were your roles and responsibilities as Northwestern Zone General Manager.

A. I was responsible for executing sales strategy and personnel management.

Q. Did you have any hand in setting sales strategy as a zone manager?

A. No.

Q. What was your title before Northwestern Zone General Manager?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Director of Career Development.

3 Q. Was that a sales position?

4 A. It's a sales training position.

5 Q. How long were you in the role as
6 Director of Career Development?

7 A. Approximately two years.

8 Q. Do you hold any other positions prior?

9 A. Yes. Regional Manager, Kentucky and
10 West Virginia. Prior to that role, I was an
11 Equipment Sales Specialist -- oh, and that was
12 about two years. Equipment Sales Specialist,
13 approximately a year and a half, and then Field
14 Sales Consultant for approximately four and a
15 half years.

16 Q. Your first job at Schein was as a
17 field sales consultant?

18 A. In 2001, yes.

19 Q. Prior to joining Schein, did you work
20 in the dental industry anywhere else?

21 A. I did not.

22 Q. Prior to joining Schein, had you just
23 graduated from college from somewhere?

24 A. No, I was in a different industry in
25 sales and in the military.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. I'm going to be asking you today some
3 questions about various Schein customer
4 segments, but first, I just want to make sure
5 you understand when I say the word "Schein," you
6 understand that I'm referring to Henry Schein,
7 Inc.; is that right?

8 A. Yes; I would ask you to clarify Henry
9 Schein Special Markets and Henry Schein Dental.

10 Q. Happy to do that.

11 A. There's times where that's necessary.

12 Q. Happy to do that.

13 And we understand that Schein has a
14 lot of different business, it has a medical
15 business, a veterinarian business, a dental
16 business, maybe some others.

17 Today I'm going to focus on Schein's
18 dental business.

19 A. Okay.

20 Q. What is a buying group?

21 A. Do you want my definition?

22 Q. Your definition of a buying group,
23 please.

24 A. Okay. My definition of a buying group
25 is an organized leadership model that negotiates

1 CONFIDENTIAL - JAKE MEADOWS

2 purchasing power on behalf of an individual or a
3 group of individuals.

4 Q. In the dental space, do you understand
5 buying groups to be made up of independent
6 private practice dentists?

7 MR. McDONALD: Object to the form.

8 A. No.

9 Q. What's your understanding of the types
10 of entities that are members of buying groups in
11 Dental?

12 A. Private practice dentists, community
13 health centers, group practices.

14 Q. I want to take --
15 Any others?

16 A. Not that I can think of right now.

17 Q. I want to take each of those in turn.

18 So let's start from the back of your
19 list. Group practices. Can you explain to me
20 or provide an example of a buying group that was
21 made up of group practices?

22 A. I can't. My example is that there are
23 somewhat I would define as group practices
24 within buying groups.

25 Q. I'm sorry, I don't think I understand.

1 CONFIDENTIAL - JAKE MEADOWS

2 Can you say that again?

3 A. My definition of group practice, I
4 would suggest that there's group practices
5 within buying groups.

6 Q. So, under your definition, there would
7 be a larger buying group structure and then,
8 within that buying group structure, one member
9 could potentially be a group practice, is that
10 what you're saying?

11 A. I'm saying that within a -- any given
12 buying group, it is very possible that there
13 could be a practice that's a member of that
14 buying group that would be considered a group
15 practice in my definition.

16 Q. Got it. And when you refer to group
17 practice, what's your definition of group
18 practice?

19 A. More than one dentist practicing.

20 Q. In your definition of group practice,
21 is there any ownership structure or affiliation
22 that you would use to define group practice?

23 A. Not generally. It would be a broad
24 discussion and it is case-by-case within each
25 practice.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. And just so I'm clear, you can't think
3 of any buying groups that have group practices
4 as members sitting here today?

5 A. No, I can't. I -- I can't think of
6 one. Doesn't mean there's not one. I just
7 don't have that information in front of me.

8 Q. That's fine.
9 Going to your example of CHCs?

10 A. Uh-huh.

11 Q. What is a CHC?

12 A. A community health center.

13 Q. Do community health centers typically
14 serve indigent populations?

15 A. I believe that definition is
16 appropriate.

17 Q. Are community health centers made up
18 of independent private practices?

19 MR. McDONALD: Object to the form.
20 Lack of foundation.

21 A. I'm not sure I understand the
22 question.

23 Q. Who typically staffs a community
24 health center?

25 MR. McDONALD: Object to form. Lack

1 CONFIDENTIAL - JAKE MEADOWS
2 of foundation.

3 Go ahead. If you know, answer.

4 A. Do you mean a dentist?

5 Q. What types of dentists typically --

6 A. Every type of dentist.

7 Q. Do dentists who have their own private
8 practice enter in business for themselves
9 typically work at CHCs?

10 MR. McDONALD: Object to the form.

11 Lack of foundation.

12 A. I wouldn't be able to establish that.
13 I don't know enough detail.

14 Q. Do you in your role as direct --
15 scratch that.

16 In your role as VP of Sales of Special
17 Markets, do you interact with community health
18 centers at all?

19 A. I have not yet, but part of my
20 responsibilities would be.

21 Q. Do you have any understanding of the
22 CHC space, given your role as VP of Sales in
23 Special Markets?

24 A. I have some understanding.

25 Q. Is it your understanding that staff of

1 CONFIDENTIAL - JAKE MEADOWS
2 community health centers typically do not
3 include independent private practice dentists?

4 MR. McDONALD: Object to the form.

5 Asked and answered.

6 A. I can't speak to what typically --
7 who's staffed at a CHC, typically.

8 Q. Is there someone else on your team who
9 might be more familiar with CHCs and their
10 makeup?

11 A. Brian Brady or Kathleen Titus.

12 Q. You mentioned that CHCs can be members
13 of buying groups; is that right?

14 A. Yes.

15 Q. When CHCs are members of buying
16 groups -- scratch that.

17 For CHC buying groups, do you ever see
18 private practice dentists being members of those
19 same buying groups?

20 A. I personally have not.

21 Q. Are you familiar with any buying
22 groups that are made up of independent private
23 practice dentists?

24 A. Yes.

25 Q. Can you give me some examples?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Smile Source.

3 Q. Any others?

4 A. KlearImpakt.

5 Q. Any others?

6 A. Alpha Omega Dental Associates or
7 Dental prac- -- Dental Members, National
8 Dental -- Dental Association Members.

9 Q. Has Schein ever had a policy on
10 whether and when to work with buying groups?

11 A. There's -- since I came in the company
12 in 2001, I started working with buying groups as
13 one of my first, the Alpha Omega group, and the
14 National Dental Association both had rebates
15 back to the association for purchases that their
16 members made and discounts to their members, and
17 that was part of my responsibilities in 2001.
18 So, from my perspective, there has always been a
19 policy to work with buying groups.

20 Q. Can you tell me what that policy is
21 and how you learned about it?

22 A. Again, as I said, my policy that I
23 learned was, on my first day or first months of
24 my position, when I was assigned to work with
25 that group by Steve Kess and another -- yeah,

1 CONFIDENTIAL - JAKE MEADOWS
 2 Steve Kess was National Dental Association,
 3 which was Dr. Hazel Harper, and the Alpha Omega,
 4 which was Dr. Steve Guttenberg, and I was
 5 responsible to present to their membership. So
 6 the -- I learned about the policy within my
 7 first few months.

8 Q. What is the National Dental
 9 Association?

10 A. It's a dental association that's
 11 focused on the education and promotion of
 12 African-American dentists.

13 Q. Are the members of the National Dental
 14 Association independent private practice
 15 dentists?

16 A. Yes.

17 Q. You mentioned that the National Dental
 18 Association receives a rebate and its members
 19 receives a discount; is that right?

20 A. I can't speak to what they get today.
 21 I can only speak to my experience from an FSC
 22 through the zone general manager, which is when
 23 I interacted with members and leadership of
 24 those organizations.

25 Q. Fair enough.

1 CONFIDENTIAL - JAKE MEADOWS

2 The discount that the members of the
 3 National Dental Association received, was that
 4 the same discount across the members, or was the
 5 situation where some members had a better
 6 discount than others?

7 A. It was case-by-case, depending -- it
 8 really depends on the purchasing power of that
 9 particular individual or what products they
 10 would choose.

11 Q. So you're saying there was not a
 12 single discount that applied to the entire
 13 group, the National Dental Association?

14 A. I don't recall.

15 Q. Is it common that, when working with a
 16 buying group, the members of the buying groups
 17 would have different levels of discounts?

18 MR. McDONALD: Object to the form.

19 A. Is it common within Henry Schein or is
 20 it common within my experience?

21 Q. Is it common within your experience of
 22 working with buying groups that when Henry
 23 Schein does business with a buying group, the
 24 buying group members would receive a different
 25 level of discount from one another?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. It's common with -- within those
 3 groups, yes, that depending on what they
 4 purchased, because every dentist would purchase
 5 a different type of gloves than the other
 6 dentist, that some gloves, for example, would be
 7 discounted more heavily than other brands of
 8 gloves.

9 Q. I see what you're saying. I see what
 10 you're saying.

11 Assuming members of a buying group
 12 that worked with Schein purchased the same
 13 products, would it be the case that those
 14 members would receive the same level of
 15 discount, or is there a special discount or
 16 different discount attributed to one member
 17 versus another for the exact same product?

18 A. It's so case-by-case based on the
 19 amount of products that they would spend or the
 20 day that they would buy that product that it
 21 would be difficult for me to affirm that they
 22 would all get the same price or they wouldn't
 23 get all the same price on a particular day.

24 Q. I understand that pricing can change.
 25 Maybe let me ask my question differently.

1 CONFIDENTIAL - JAKE MEADOWS

2 Is it the case that members of a
 3 buying group that work with Schein receive the
 4 same level of discount on the same items?

5 MR. McDONALD: Object to the --

6 A. It would depend --

7 MR. McDONALD: Hang on.

8 Object to the form.

9 Go ahead.

10 A. It would depend on their purchasing
 11 level and what type of products they purchased.

12 Q. When Schein negotiates with buying
 13 groups for discounts, is it your understanding
 14 that Schein negotiates a single discount for a
 15 formulary?

16 A. When you say "Schein," do you mean
 17 Henry Schein Special Markets or do you mean
 18 Henry Schein Dental?

19 Q. Let's start with Henry Schein Dental.

20 A. Within Henry Schein Dental and my time
 21 there, it was case-by-case.

22 Q. What do you mean it was case-by-case?

23 A. Can you repeat your question?

24 Q. My question is whether or not when
 25 Schein negotiates with a buying group for

1 CONFIDENTIAL - JAKE MEADOWS
2 discounts on a formulary, is it the case that
3 discounts on the formulary apply equally to all
4 of the members of the buying group?

5 A. That would depend on case-by-case from
6 buying group to buying group that's negotiated
7 with that particular -- that group of leaders of
8 that buying group, and then, as a sub,
9 case-by-case, based on what those members of the
10 buying group were purchasing and their
11 purchasing levels.

12 Q. Can you give me an example of a Schein
13 buying group customer where formulary discounts
14 differ by individual members?

15 A. It's difficult for me to go down into
16 that kind of detail. What I can say is we had a
17 policy within our FSCs where they could discount
18 items off formulary individually. So I would
19 say I'm confident that if there was a particular
20 item that a -- that a practice said, I really
21 believe -- you know, I'm going to buy a certain
22 level of this, I'd like a deeper discount based
23 on the fact that I'm going to increase my level
24 of purchasing, the FSCs is empowered to change
25 that price on the formulary and set it through a

1 CONFIDENTIAL - JAKE MEADOWS
2 process we call custom quote.

3 Q. I understand that FSCs have separate
4 pricing authority outside of contracts that are
5 negotiated with buying groups. I want to focus
6 on the negotiation of contracts with the buying
7 groups themselves.

8 A. Uh-huh.

9 Q. When Schein negotiates contracts with
10 buying groups, does it ever negotiate a discount
11 off the formulary that is different for
12 different members?

13 A. When you say "Schein," do you mean
14 Schein Special Markets or Henry Schein Dental?

15 Q. Henry Schein Dental.

16 A. I've only been involved in the
17 negotiation of the -- sitting at the table
18 negotiating items with Smile Source.

19 Q. And in your experience with
20 negotiating with Smile Source -- let me back up.

21 You understand Smile Source to be a
22 buying group?

23 A. Yes.

24 Q. And in negotiating the agreement with
25 Smile Source, was it the case that different

1 CONFIDENTIAL - JAKE MEADOWS
2 members of Smile Source received different
3 levels of discount off formulary?

4 A. I don't remember the details of our
5 offer exactly, but I do not believe at the
6 beginning of our agreement that there was that
7 case, and then we had some one-off based on
8 large purchasing that was done within the group
9 as an accommodation.

10 Q. You mentioned earlier that within your
11 first day or maybe even first few months of
12 working at Schein, you understand that there was
13 a policy to work with buying groups.

14 What's your understanding of when
15 Schein would engage with buying groups at the
16 time that you began working at Schein?

17 MR. McDONALD: Object to the form.

18 Vague.

19 You can answer if you understand it.

20 A. My understanding from, as I said in my
21 first few months, this was presented to me by
22 Steve Kess as Henry Schein -- at the time,
23 Sullivan Schein Dental -- as, one, our policy;
24 and, two, a great opportunity that they wanted
25 me to take advantage of.

1 CONFIDENTIAL - JAKE MEADOWS

2 And I actually look back on my
3 experience with Alpha Omega and the National
4 Dental Association because that's where I was
5 exposed to Dave Steck and Tim Sullivan as part
6 of -- part of my being promoted into higher
7 levels of a responsibility based on my success
8 with those two groups.

9 Q. You mentioned that buying groups
10 provide a great opportunity for Schein.

11 Why is that?

12 A. Expanding market share. Helping us
13 fulfill our mission. Retaining business.

14 Q. Anything else?

15 A. I think that's general.

16 Q. What do you mean by expanding market
17 share?

18 A. Sales that we did not have yesterday
19 we have today. Things that someone would buy
20 from a competitor they would buy from us.

21 Q. How does working with buying groups
22 help Schein to retain its business?

23 A. The private practice, community
24 health, or group practice is incentivized
25 through the offering of that particular buying

1 CONFIDENTIAL - JAKE MEADOWS
 2 group, whether that's the education or the
 3 comradery or if there's some other service that
 4 they provide that Henry Schein doesn't that
 5 complements our offering so the customer feels
 6 or recognizes the value of the two organizations
 7 partnering, and there are times where we work
 8 with organizations like Alpha Omega or the
 9 National Dental Association that line up with
 10 our values, and we get to focus on non-profit
 11 efforts and those members get to focus on those
 12 non-profit efforts through that group as well.

13 Q. Do you find that members of buying
 14 groups have longer lasting relationships with
 15 Schein as a result of being a member of a buying
 16 group that Schein works with?

17 MR. McDONALD: Object to the form.
 18 Overly broad.

19 A. So you're asking my opinion?

20 Q. Yes. In your experience, have you
 21 found that members of buying groups that work
 22 with Schein stay Schein customers for longer?

23 MR. McDONALD: Object to the form.
 24 Overly broad.

25 A. I don't think it would be appropriate

1 CONFIDENTIAL - JAKE MEADOWS
 2 for me to answer because I would want to see
 3 some former reporting, generally, that would
 4 track that.

5 Q. So you just don't know one way or the
 6 other?

7 A. No.

8 Q. You mentioned earlier that working
 9 with buying groups also helps Schein to fulfill
 10 its mission.

11 What do you mean by that?

12 A. Our mission is to focus on practice
 13 care so that our customers can focus on patient
 14 care, and as I said, when there are times where
 15 we work with groups that are providing services
 16 and offerings to our customers that help them
 17 run a better practice or help them be more
 18 successful in accomplishing their mission,
 19 that's part of our mission. So that's one of
 20 the ways that it helps us.

21 In addition to that, buying groups
 22 often help us market and profile and expose the
 23 other things that Henry Schein does that
 24 oftentimes we can't get communicated to our --
 25 to the marketplace through traditional

1 CONFIDENTIAL - JAKE MEADOWS
 2 marketing.

3 Q. I've heard reference to the Henry
 4 Schein "wheel."

5 A. Yes.

6 Q. Is that what you're referring to?

7 A. Yes.

8 Q. Focusing on the time when you first
 9 started at Henry Schein and when you first
 10 learned of the policy to work with buying
 11 groups, was it your understanding at that time
 12 that Henry Schein worked with all buying groups,
 13 or was there some categorization between the
 14 types of buying groups Henry Schein would want
 15 to work with versus the types of buying groups
 16 that it would not want to work with?

17 A. That was a long time ago, so I'm not
 18 sure I could speak to that. I just do remember
 19 working with the National Dental Association and
 20 Alpha Omega within my geography, and I was in
 21 Washington, D.C., and as I said, I was rewarded
 22 and acknowledged for our success with those
 23 groups.

24 Q. In your time as an FSC, you never came
 25 across a buying group where someone said, no,

1 CONFIDENTIAL - JAKE MEADOWS
 2 no, no, we don't do business with that type of
 3 group?

4 A. I don't recall that ever.

5 Q. You mentioned as an FSC you worked
 6 with the National Dental Association and the
 7 Alpha Omega buying groups.

8 Did you work with any other buying
 9 groups?

10 MR. McDONALD: Object to the form.
 11 Overly broad as to time and vague as to
 12 time.

13 A. I don't recall.

14 Q. Did you pursue business from any other
 15 buying groups outside of National Dental
 16 Association and Alpha Omega while you were an
 17 FSC?

18 A. I don't recall.

19 Q. Has Schein's buying group policy ever
 20 changed since you first joined Schein?

21 A. From my experience, it only enhanced,
 22 but that might have been based on my increase in
 23 responsibility.

24 Q. Can you tell me about when you learned
 25 the first time that Schein's buying group policy

1 CONFIDENTIAL - JAKE MEADOWS
2 was enhanced?

3 A. I think there's a few times within our
4 strategy -- I wouldn't necessarily say policy --
5 that we were continuing to get better at
6 building tools and ways to partner with buying
7 groups. So --

8 Q. I'm going to interrupt you right there
9 really quickly. I apologize.

10 I want to talk about each of those
11 times separately, if that's all right.

12 A. Okay.

13 Q. If it's okay for you to organize your
14 thoughts in that way.

15 So can you tell me about the first
16 time you became aware of the strategy or the
17 practice being enhanced with respect to buying
18 groups?

19 A. When -- when I was a regional manager
20 in Kentucky and I interacted with -- I cannot
21 remember if she was the past president or the
22 current president or incoming president -- Dr.
23 Carrie Brown, who is a dentist in Lexington,
24 Kentucky of the National Dental Association, and
25 I went out and worked with her to expand and

1 CONFIDENTIAL - JAKE MEADOWS
2 worked with the sales team I was responsible for
3 to go -- and Alpha Omega to go introduce
4 ourselves to those members and expose them to
5 the partnership that we have with Henry Schein.

6 My boss at the time, who was the zone
7 general manager, Jeff Chatham, helped me --
8 helped me bring that to life. So I would
9 consider that, from my perspective, an
10 enhancement in the fact that -- that I was
11 involved in bringing that relationship into
12 Kentucky where I was.

13 Q. So you were expanding an existing
14 buying group relationship?

15 A. It was already available to, you know,
16 members of the dental associations across the
17 United States. It was that, as a regional
18 manager, and this was in my experience, as a
19 regional manager, I was proactively dispatching
20 the sales -- I was finding dentists that we
21 didn't have business with and partnering that up
22 with sales people and going with them, and we
23 were creating promotion materials.

24 Q. Is it your understanding that, prior
25 to that time, regional managers did not have the

1 CONFIDENTIAL - JAKE MEADOWS
2 authority to help the growth of Schein's buying
3 group customers?

4 MR. McDONALD: Object to the form.

5 A. No, that was not my experience at all.

6 Q. I guess I'm just -- I'm trying to
7 understand what's the change that you
8 experienced with respect to Schein's practices
9 or procedures?

10 A. From my experience, my manager -- and
11 I was one of 30 people in the DC area -- didn't
12 necessary -- he was not -- I worked with Steve
13 Kess, right, to work there. And it wasn't that
14 my manager wasn't excited about it, as I said, I
15 believe I got promoted because of my work, or my
16 management team wasn't excited, it was more that
17 I paved the way in some new strategies for us to
18 go and gauge the market.

19 Q. Was that more of a Jake Meadows taking
20 an initiative, or was it actually a change
21 within Henry Schein's practices or policies?

22 And I'm referring to your experience
23 as regional manager in Kentucky.

24 A. I saw it as an enhancement because my
25 work there was then duplicated in other regions.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. What was the next time you saw an
3 enhancement to Henry Schein's practices with
4 respect to working with buying groups?

5 A. As I can recall sitting here today, it
6 was when we created the G Plan, which is a
7 formulary -- the "G" stands for "group," from my
8 understanding -- and that was somewhere in the
9 range of 2001.

10 Q. Who created the G Plan?

11 A. I don't recall.

12 Q. Is the G Plan a discount off a set of
13 products?

14 A. It's a formulary.

15 Q. What do you mean by "formulary"?

16 A. It's a listing of products that are
17 discounted ahead of time.

18 Q. Does the G Plan have a particular
19 discount level associated with it or is it just
20 the listing of products?

21 A. No, it's a listing of products, and
22 it's typically coupled with a discount.

23 Q. Is there a standard discount that
24 accompanies the G Plan?

25 MR. McDONALD: Object to the form.

CONFIDENTIAL - JAKE MEADOWS

A. Not that I can recall.

Q. Why did you see the formulation of the G Plan as an enhancement in Henry Schein's practice with respect to working with buying groups?

A. I felt as if it was a way to make it easier for us to be in front of leadership and say we already have discounted so your members don't have to individually go discount these particular items, and it was a way to make it administratively easier for the sales team to work with groups.

Q. In the 2001 timeframe when the G Plan was introduced, did you personally negotiate with any groups using the G Plan?

A. You said 2001? I would say approximately 2011 --

Q. Thank you for that correction.

A. -- is my understanding around the G Plan, and I did not personally involve -- at the time, and actually, within my management roles outside of Kentucky, in each role, I had a lot of -- when I said personnel management is part of my responsibilities, I had a lot more focus

CONFIDENTIAL - JAKE MEADOWS

on personnel management than I did interacting with customers.

It was not often -- it was not often that I interacted with customers in those roles. I was very much more general manager, and in those times of 2011, I had six regional managers and I think I turned over six of them. So I was doing a lot of hiring and a lot of performance management during that time.

Q. You mentioned that you weren't involved with customers on a regular basis.

How frequently did you get involved on customers' specific issues?

A. Often. Daily.

Q. After the G Plan, when was the next time there was an enhancement to Schein's practice or procedures with respect to doing business with buying groups?

A. Well, there were many enhancements that I felt that we continued each day to build or each month to build.

Are you looking for me to define more watershed moments or moments that I would say are -- I'm struggling to understand how to

CONFIDENTIAL - JAKE MEADOWS

subjectively answer that question.

Q. Sure.

A. Or objectively.

Q. I'm not looking for customer-specific developments. I'm more looking for if there was a change to the practice or procedures that you thought were significant.

A. Yeah, I thought some of the changes that we made within our Henry Schein practice analysis offering, we started to make changes within the way that that program was executed so that we could offer that to multiple practices and had a lot of discussions about how to go to leadership of those groups and offer the elements of practice care.

In addition to that -- so this is all around, if I would summarize it, it's the formation of our Business Solutions Group, where we expanded within products like dental marketing and really looked to, as I said, amplify some of the ways that we partnered with groups.

Q. When did Schein start the formation of its Business Solutions Group?

CONFIDENTIAL - JAKE MEADOWS

A. Henry Schein Dental?

Q. Yes.

A. 2007 is when we informally began, and then formally, approximately 2011.

Q. When was the next enhancement to Schein's practice for procedures with respect to doing business with buying groups?

A. Again, I'm looking for that watershed moment like you talked about or described.

I believe it was when, and again, I don't remember the exact dates, but it was after, right in that range of 2013-11, because I was in the Northwest zone, where we started to proactively promote relationships that we had with a Dental Gator or a -- I don't specifically remember promoting Dental Gator, so I'm giving an example there. But I do remember talking to our equipment sales and technology sales groups about equipment and technology offerings that were available to memberships of groups.

So I would say we, again, proactively started to talk to our equipment and technology team and considered that to be a watershed moment.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. So, prior to the 2011-2013 period, it
3 was not your experience that the equipment and
4 technology sales teams were heavily consulted
5 with respect to buying groups?

6 A. No. That -- I'm disagreeing with what
7 you said.

8 It was my experience. What it wasn't
9 my experience that that particular dialogue
10 moved from priority -- and I'm making this up --
11 F to priority C.

12 Q. It became more of a focus?

13 A. Correct.

14 Q. Any other enhancements to Schein's
15 practices or --

16 A. Yes. The formation of the Mid Market
17 Group and the Project Pyramid, which was -- and
18 that was over the period of from 2013, roughly,
19 when we started discussions on that to all the
20 way up until ten months ago. As we formed the
21 Mid Market Group, we have developed the
22 Alternative Purchasing Channels Group.

23 We had some, over that period of time,
24 a lot of back and forth with the Special Markets
25 group about who would lead the way within buying

1 CONFIDENTIAL - JAKE MEADOWS
2 groups and defining or refining the definition
3 between what Special Markets saw as a buying
4 group and how we recognized the buying group.
5 And when I say "we," I mean Henry Schein Dental.

6 Q. Any other enhancements with how Schein
7 did business with buying groups?

8 A. Yes. In September of 2017 when I took
9 my position and was responsible -- or, am now
10 responsible for decision-making, I went through
11 a process to define which groups would be seen
12 as buying groups and moved those groups into the
13 Alternate Purchasing Channels Group.

14 Q. Any other enhancements to Schein's
15 practice or policies with respect to working
16 with buying groups?

17 A. As I'm sitting here today or this
18 morning, I can't think of one, but if I think of
19 one later today, I'll let you know.

20 Q. I appreciate that.

21 I want to ask a couple of general
22 questions about each of these various
23 enhancements that you listed.

24 With respect to the creation of the G
25 Plan formulary in 2011, was that announced to

1 CONFIDENTIAL - JAKE MEADOWS
2 the sales force or made public in some way?

3 A. Yes.

4 Q. How was it announced?

5 A. Over e-mail, I would assume. I don't
6 recall. And at sales meetings.

7 Q. Is that how you found out about it?

8 A. I don't recall.

9 Q. With respect to the formation of
10 Schein's Business Solutions Group, was that
11 announced publicly to the sales force?

12 A. Where I talked about it was announced
13 informally, yes; and when it was announced
14 formally, yes.

15 Q. What kind of announcements was made
16 about the formation of the Business Solutions
17 Group?

18 A. I don't recall exactly.

19 Q. Who would have received such an
20 announcement?

21 A. It's an announcement that, if I were
22 to -- well, the entire sales team, the entire
23 sales management team, service teams.

24 Q. You mentioned that in the 2011 to 2013
25 timeframe, there was a reorganization of

1 CONFIDENTIAL - JAKE MEADOWS
2 priorities with respect to talking to the
3 equipment sales and technology sales groups
4 about Schein working with buying groups.

5 Was there any announcement about that
6 change?

7 A. I wouldn't refer to it as a
8 reorganization of priorities.

9 Is that how you referred to it?

10 Q. How would you refer to it?

11 A. Just a continued change in priorities.

12 Our priorities, because the
13 marketplace is fluid, could and would change
14 from day-to-day to month-to-month to
15 year-to-year to quarter-to-quarter.

16 Q. So was this continual change of
17 priorities with respect to engaging with the
18 equipment sales and technology sales personnel
19 about buying groups, was that announced in a
20 formal way?

21 A. I don't recall.

22 Q. How did others know that they needed
23 to engage with the equipment sales and
24 technology sales in a more proactive way when
25 dealing with buying groups?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Specifically, the buying groups, I
3 can't speak to that, but I can say at the time
4 we were very focused on growing our equipment
5 and technology sales and were looking at every
6 opportunity that we had to grow those, and I
7 recall speaking to my management team about it
8 and being -- and hearing from the equipment and
9 technology sales marketing team about groups and
10 opportunities that were out there to make sure
11 that we leverage them and go for it.

12 Q. You mentioned the creation of the Mid
13 Markets Group and the Project Pyramid?

14 A. Uh-huh.

15 Q. What is the Project Pyramid?

16 A. So we took our marketplace that
17 Special Markets is responsible for and Henry
18 Schein Dental is responsible for and built a
19 segmentation project and where we defined
20 different segments in a group that required a
21 different sales approach, and then were, over
22 the period of -- and it took a while -- over the
23 period of forming Project Pyramid and forming
24 Mid Market, which was fluid and has been fluid
25 up until I took my role ten months ago, was

1 CONFIDENTIAL - JAKE MEADOWS

2 about bringing together Special Markets and
3 Henry Schein Dental together.

4 Q. With the launch of the Mid Markets
5 Group, was there some sort of announcement to
6 the sales team about this new group?

7 A. Yes.

8 Q. Was it a formal announcement?

9 A. Yes.

10 Q. With the launch of the Project
11 Pyramid, was there an announcement to the sales
12 team?

13 A. The sales team would not have known
14 what project -- if I said Project Pyramid, they
15 would not have referred to it as Project
16 Pyramid, but our sales team would be familiar
17 with the pyramid because we have put it up in
18 national sales meetings, field management
19 meetings for the last five years.

20 Q. You mentioned there was this project
21 in September of 2017 where Special Markets would
22 define which groups would be seen as buying
23 groups, and those groups would be moved into the
24 APC group?

25 A. Uh-huh.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Was there a name for that project or
3 initiative, or --

4 A. No; that was my prerogative.

5 Q. Was that project initiative
6 prerogative announced to members of your team?

7 A. Yes.

8 Q. Who made the announcement to your
9 team?

10 A. I did.

11 Q. Was that announced to members outside
12 of your team?

13 A. I did not make an announcement outside
14 of my team, so I'm not familiar if someone else
15 announced somewhere outside of my team.

16 Q. We've talked about some of these
17 various milestones and how they were announced
18 to various teams.

19 Why is it important to announce
20 changes or developments in Schein's practice or
21 protocols in dealing with buying groups?

22 MR. McDONALD: Object to the form.

23 A. Henry Schein Dental or Henry Schein
24 Special Markets?

25 I can't -- if you're talking about

1 CONFIDENTIAL - JAKE MEADOWS

2 whatever timeframe that it's important, I'm not
3 sure what you mean.

4 Q. Henry Schein Dental. Let's leave off
5 your September 2017 --

6 A. Okay.

7 Q. -- project.

8 Let's talk about the G Plan, the
9 formation of the Business Solutions Group and
10 Mid Markets.

11 Why was it important to announce to
12 the sales team the creation of some of these
13 developments?

14 A. It's everyday business. Doing
15 business with these groups would be equal to us
16 announcing a new product that we have from a
17 manufacturer. So I wouldn't call those
18 moments -- they're watershed moments within us
19 specifically today targeting our strategies
20 around buying groups, but for the sales team and
21 for our company, I wouldn't say that we would
22 define those as watershed moments because it's
23 part of everyday business. So we communicate to
24 our sales team consistently and constantly.

25 Q. Why do you communicate with your sales

1 CONFIDENTIAL - JAKE MEADOWS
 2 team consistently and constantly?
 3 A. So that they're aware of the products
 4 and offerings that we have for our customers to
 5 enhance our business with our customers,
 6 increase our market share, retain business and
 7 bring our mission to life, as I've talked about,
 8 or be aware of market trends or conditions, or
 9 we would communicate to our sales team around
 10 their results, we would communicate to our sales
 11 team around performance management, we could
 12 keep going. Benefits changes, anything
 13 associated with an employee would need.
 14 Q. Is it important for the sales team to
 15 be on the same page with respect to Schein's
 16 practices or procedures for a certain customer
 17 segment?
 18 A. I can only -- well, again, we're
 19 talking about in my previous role, Henry Schein
 20 Dental?
 21 Q. Yes.
 22 A. It's important that the sales team be
 23 aligned with what Henry Schein Dental's strategy
 24 is and policies and procedures, our offerings to
 25 customers.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. Have you ever heard the term
 3 "price-only buying group"?
 4 A. No, not that I can recall.
 5 Q. Have you ever heard the term "value
 6 added buying group"?
 7 A. I can make sense of the word, I think,
 8 in a definition, but not that I recall.
 9 Q. Is it your understanding that Henry
 10 Schein, either Special Markets or Henry Schein
 11 Dental, does business with buying groups that
 12 focus only on price?
 13 MR. McDONALD: Object to the form.
 14 A. Is it my understanding that Henry
 15 Schein Special Markets or Henry Schein Dental
 16 only does --
 17 Q. Is it your understanding that Henry
 18 Schein, and I'm including both Special
 19 Markets --
 20 A. Okay.
 21 Q. -- and Henry Schein Dental, does
 22 business with buying groups who focus only on
 23 price?
 24 MR. McDONALD: Object to the form.
 25 A. I understand Henry Schein, both

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. Why is that?
 3 A. So that they can grow and retain our
 4 business and bring our mission to life and be
 5 aware of what our offerings are to put them in
 6 front of customers, or, like I said, if it's
 7 performance management and we want to change
 8 their behavioral habits, or if there's something
 9 associated with being an employee and there's a
 10 benefits change or something that's associated
 11 to them personally.
 12 Q. If you find an instance where an
 13 employee is acting contrary to Schein's set
 14 strategy or -- or generally accepted practices,
 15 how do you respond?
 16 A. That's case-by-case; it really would
 17 be.
 18 Q. Is it ever the case that you ignore
 19 the fact that the employee is acting contrary to
 20 Henry Schein's strategies or practices?
 21 MR. McDONALD: Object to the form.
 22 Overly broad. Vague.
 23 A. It wouldn't be typical, but I can't
 24 speak to instances -- me, personally, it
 25 wouldn't be typical.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Special Markets and Henry Schein Dental, to do
 3 business with all forms of buying groups and to
 4 listen to opportunities from buying groups that
 5 have opportunity for us to grow our market
 6 share, retain our business, or bring our mission
 7 to life.
 8 Q. Are there any drawbacks to doing
 9 business with buying groups?
 10 MR. McDONALD: Object to the form.
 11 Overly broad.
 12 A. Is there anything in particular? Just
 13 generally?
 14 Q. Are you aware of any drawbacks to
 15 doing business with buying groups?
 16 MR. McDONALD: Same objection.
 17 A. I'm not sure I would use the word
 18 "drawback." I would say that within any segment
 19 or any group of business there's risk.
 20 Q. What types of risks are involved in
 21 doing business with buying groups?
 22 MR. McDONALD: Object to the form.
 23 A. To generalize? Do you want me to
 24 generalize?
 25 Q. Yes.

1 CONFIDENTIAL - JAKE MEADOWS
2 A. Generalizing is we offer something to
3 a group and we don't get the results that we
4 wanted from offering that to the group, and we
5 waste effort.

6 Q. So, for example, offering a discount
7 and members of a buying group don't take
8 advantage of the discount, you have wasted
9 effort?

10 A. Yes.

11 Q. Any other risks of doing business with
12 a buying group?

13 MR. McDONALD: Object to the form.
14 Overly broad.

15 A. Within a particular -- we could have
16 an agreement within a geography and a strategy
17 within a geography that we're already running,
18 and one buying group might be counter to the
19 effort that we have already committed to or a
20 strategy that we're already running.

21 Q. Any other risks?

22 MR. McDONALD: Same objection. Overly
23 broad.

24 A. That we -- a particular customer
25 within that group based on the fact that we're

1 CONFIDENTIAL - JAKE MEADOWS
2 discounting on volume doesn't -- I mean, I think
3 it's the first answer that I gave.

4 Q. Any other risks?

5 A. Risk that we lose the buying group and
6 they take that influence that they have to a
7 competitor.

8 Q. Any other risks?

9 MR. McDONALD: Same objection.

10 A. Broadly, not right now that I can
11 think of.

12 MS. ROSNER: We've been going for
13 about an hour. Would you like a break?

14 THE WITNESS: I'm fine.

15 MS. ROSNER: John?

16 MR. McDONALD: If you want to go a
17 little longer, or I'm fine --

18 Are you switching topics?

19 MS. ROSNER: I was going to switch
20 topics.

21 MR. McDONALD: Then let's take a
22 break.

23 THE VIDEOGRAPHER: The time is 9:33
24 a.m. We're off the record.

25 (Recess.)

1 CONFIDENTIAL - JAKE MEADOWS
2 THE VIDEOGRAPHER: The time is 9:48
3 a.m. We're on the record.

4 BY MS. ROSNER:

5 Q. Mr. Meadows, I meant to ask you
6 earlier, when you were VP of Sales for the
7 Eastern area, who did you report to?

8 A. Dave Steck.

9 Q. Did you also report to Tim Sullivan?

10 A. I report directly to Dave Steck.

11 Q. Does Dave Steck roll up to Tim
12 Sullivan?

13 A. Yes.

14 Q. Did you have a dotted line reporting
15 to anyone else?

16 A. No.

17 Q. When you were Eastern Area Sales
18 Director, who did you report to?

19 A. Dave Steck.

20 Q. Did you have dotted line reporting to
21 anyone else?

22 A. I did not.

23 Q. When you were a Northwest zone general
24 manager, who did you report to?

25 A. Dave Steck and Joe Cavaretta.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. I'm noticing a pattern here.

3 Now that you are the VP of Sales for
4 Special Markets, who do you report to?

5 A. A.J. Caffentzis.

6 MR. McDONALD: You want to spell that
7 for the court reporter?

8 THE WITNESS: C-A-F-F -- he's going to
9 laugh -- E-N-T-Z-I-S.

10 Q. Do you report to anyone else?

11 A. No.

12 Q. Do you dotted line report to anyone
13 else?

14 A. No.

15 Q. Have you ever reported directly to Tim
16 Sullivan?

17 A. I have not.

18 Q. Do you have interactions with Tim
19 Sullivan?

20 A. I do.

21 Q. Can you describe the nature of your
22 interactions with Tim Sullivan?

23 A. In which role?

24 Q. Starting with your VP of Sales for the
25 Eastern area.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I would inform Tim of instances that
3 customer issues that or personnel issues that
4 Dave Steck would direct me to do that or would
5 interact with Tim in the regular course of a
6 meeting discussing an issue or setting budget.

7 Q. Any other types of interactions with
8 Mr. Sullivan?

9 A. Professionally?

10 Q. Yes.

11 A. Normal course of business meetings,
12 personnel issues and customer issues, and I
13 think that's about it.

14 Q. Would you interact with Mr. Sullivan
15 on a daily basis? A weekly basis? How
16 frequently?

17 MR. McDONALD: Object to the form.

18 A. It would depend because we all travel
19 so much that it could be a three-week timeframe
20 once and see him twice in a day another time.

21 Q. Did you mostly interact with Mr.
22 Sullivan over e-mail? In person? By telephone?

23 A. All of that.

24 Q. Did you have a direct line to Mr.
25 Sullivan, or would you seek permission from Mr.

1 CONFIDENTIAL - JAKE MEADOWS

2 Steck to engage with Mr. Sullivan?

3 A. When you say "direct line," I'm not
4 sure what you mean.

5 MR. McDONALD: Like the red phone, do
6 you mean?

7 Q. Did you have a red phone? No, strike
8 that.

9 Did you feel comfortable reaching out
10 to Mr. Sullivan directly without first getting
11 Mr. Steck a heads-up?

12 A. No.

13 And when you say "feel comfortable,"
14 it wasn't because Tim didn't make me feel
15 comfortable; it was out of respect for my
16 reporting to Dave Steck to make sure he was
17 informed of all my business matters.

18 Q. Did you engage with Mr. Sullivan
19 outside of the professional relationship?

20 A. No, we had -- we were talking about
21 working in -- we, as a group of people from
22 work, ran a Tough Mudder, things of that nature,
23 but nothing where it was Tim and myself
24 personally off doing something.

25 Q. Are you friends with Tim Sullivan

1 CONFIDENTIAL - JAKE MEADOWS

2 outside of work?

3 A. I don't know if we could define it as
4 friendship. We're friendly and have a good,
5 strong professional relationship.

6 Q. Do you hang out with Tim Sullivan
7 outside of work?

8 A. No.

9 Q. You mentioned the buying group Alpha
10 Omega earlier today.

11 What is Alpha Omega?

12 A. Alpha Omega is a dental association
13 that's focused on educating and supporting
14 dentists of Jewish decent.

15 Q. Does Schein have a contract that
16 provides discounts to Alpha Omega's memberships?

17 A. I can't speak to what we have alive in
18 existence today. When I've dealt with Alpha
19 Omega, and the last time I dealt with Alpha
20 Omega was when I left the Northwest, we had an
21 agreement in existence, but today I'm not
22 familiar with what their agreement is.

23 Q. Can you describe in broad strokes what
24 the agreement was with Alpha Omega when you last
25 dealt with it?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. That we would compile the sales
3 dollars of the membership and generate a rebate
4 back to the dental society their efforts as a
5 percentage of the -- percentage of sales that
6 the membership had, and we would build in
7 discounted incentives on some of our business
8 solutions offerings, like our Henry Schein
9 Practice Analysis or particular items that we
10 would go try to sell to those groups.

11 Q. When you say particular items, did
12 Henry Schein offer Alpha Omega members discounts
13 on dental products?

14 A. Yes.

15 Q. Were the discounts that Henry Schein
16 offered to Alpha Omega members the same level of
17 discount across the board for all of the
18 members?

19 A. I don't recall.

20 Q. Before the break, we also talked a
21 little bit about Schein's practice or procedures
22 with respect to doing business with buying
23 groups.

24 Are there any types of buying groups
25 that Schein would not consider doing business

1 CONFIDENTIAL - JAKE MEADOWS
2 with?

3 MR. McDONALD: Object to the form.

4 A. Not that I'm aware of. Everything is
5 case-by-case.

6 Q. Is there a line somewhere in the sand
7 where Schein can say, looking at this buying
8 group on its face, I know I'm not going to deal
9 with it?

10 MR. McDONALD: Object to the form.

11 A. When you say "Schein," do you mean
12 Henry Schein Dental during the time I was with
13 Henry Schein Dental, or today?

14 Q. Let's start with Henry Schein Dental.

15 A. Can you ask your question again?

16 Q. Is there a line in the sand somewhere
17 where Henry Schein Dental would say this is the
18 type of buying group we would not do business
19 with on its face?

20 MR. McDONALD: Object to the form.

21 A. No; we would evaluate each buying
22 group case-by-case.

23 Q. Are there buying groups that Henry
24 Schein Dental declines to do business with?

25 A. We would evaluate each buying group

1 CONFIDENTIAL - JAKE MEADOWS
2 case-by-case.

3 Q. Has Henry Schein Dental ever declined
4 to do business with a buying group?

5 A. Yes.

6 Q. Can you give me some examples of
7 buying groups that Henry Schein Dental has
8 declined to do business with?

9 A. Direct Dental Sales.

10 Q. Any others?

11 A. Blue Chip.

12 Q. Any others?

13 A. Off the top of my head, no.

14 Q. When did Henry Schein Dental decline
15 to do business with Direct Dental Sales?

16 A. Approximately 2016.

17 Q. Why did Henry Schein Dental decline to
18 do business with Direct Dental Sales?

19 A. I just want to be very clear, when
20 you're saying Henry Schein Dental, I made the
21 decision not to do business with Direct Dental
22 Sales solely.

23 Q. In your capacity as VP of Sales of the
24 Eastern area, you made the decision not to do
25 business with Direct Dental Sales?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Correct. Correct. And Blue Chip.

3 Q. What was your reasoning for not doing
4 business with Direct Dental Sales?

5 A. I had two reasons. One was, from a
6 marketing perspective, the title, their name,
7 Direct Dental Sales, although "DDS" is
8 attractive for -- in the market, in the dental
9 market space. Direct dental sales is counter to
10 our business model. Therefore, I thought there
11 was conflict. That's not in order of
12 importance, but that was one of the major
13 reasons.

14 The second was in their model, in
15 describing their model to me, they were going to
16 dispatch -- start dispatching sales teams to
17 launch their model in Boston, and we had already
18 had a buying group, and they were -- they said
19 they were going after the entire dental market,
20 so it was not specific to private practice or
21 group practice or CHCs. And they were going to
22 start in Boston, was one of the areas, and we
23 already had an agreement with Commonwealth
24 Purchasing Group, and I thought that that would
25 run counter to our strategy and potentially

1 CONFIDENTIAL - JAKE MEADOWS
2 create conflict in an existing agreement that we
3 had.

4 Q. Any other reasons you declined to do
5 business with Direct Dental Sales?

6 A. No.

7 Q. When did you decline to do business
8 with Blue Chip?

9 A. Approximately that same year, same
10 timeframe.

11 Q. What were your reasons for declining
12 to do business with Blue Chip?

13 A. When I interacted with the gentleman
14 who was -- and I don't recall his name -- was
15 starting Blue Chip, I didn't feel as if he had a
16 compelling concept that would be -- that would
17 complement us in the market, and when I asked
18 for business plans, those weren't available, he
19 didn't have those.

20 He then went and built a business
21 plan, and then, after evaluating it, I didn't
22 feel as if that was a group that could help us
23 grow.

24 Q. What about his business plan suggested
25 that Blue Chip could not help Schein grow?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. There were some basic questions that
3 were -- that he couldn't answer that were
4 incomplete. So...

5 Q. Can you give me an example?

6 A. An example would be when I asked would
7 the membership be held to any minimum purchasing
8 levels, and again, I'm -- I'm -- I'm recalling
9 as much as I can, I remember the answer being,
10 "I don't know." So, for me, I felt that that
11 group was not -- or that gentleman was not
12 representing a refined or an organization that I
13 felt was established or able to bring value to
14 us retaining our business, growing our business,
15 or bringing our mission to life.

16 Q. Any other aspects of the business plan
17 or your interactions with the gentleman from
18 Blue Chip that would lead you to believe that a
19 relationship with Blue Chip would not help
20 Schein grow?

21 A. Not that I recall.

22 Q. You mentioned that Blue Chip didn't
23 have a compelling concept.

24 What did you mean by that?

25 A. Meaning what value were they going to

1 CONFIDENTIAL - JAKE MEADOWS

2 bring to their members. As I talked about, I
3 was very interested, and I would say in Henry
4 Schein Dental we're always interested in
5 partnering with any groups, not just buying
6 groups, but any groups who can amplify our
7 offering and help us move forward in the market
8 in growing our business, retaining our business,
9 and bringing our mission to life.

10 Q. The idea of a buying group bringing
11 value to its members, is that something that you
12 created on your own? Is that the Jake Meadows
13 test for buying groups, or is there some broader
14 philosophy at Henry Schein about working with
15 buying groups who bring value to their members?

16 A. My first responsibility in my Vice
17 President of Sales role and all my other roles
18 was to create value for Henry Schein, grow the
19 business, retain our business, and bring our
20 mission to life, so as far as what value a
21 particular organization would bring to the
22 customers, that was not for me to decide.

23 I'm more focused on could their
24 offering to their membership amplify and
25 complement Henry Schein Dental's offering, and

1 CONFIDENTIAL - JAKE MEADOWS

2 then we could grow and partnership together.

3 Q. When you talk about a buying group
4 providing value to its members, what are some of
5 the telltale signs of that happening?

6 A. Examples or telltale signs? Because
7 I'm not sure I could -- I'm not an authority on
8 buying groups since I've never run a buying
9 group, and it's a segment -- a segment -- of our
10 business, so I don't think that I could say, oh,
11 all -- the buying groups that do this, this and
12 this are -- that's the telltale buying group.

13 So if you want examples, I could
14 probably give you some examples.

15 Q. Examples would be great.

16 A. Examples of how a buying group would
17 create value for its members, I talked about
18 Alpha Omega and the National Dental Association
19 through education. I think comradery, bringing
20 dentists together so that they can share best
21 practices with one another. Pooling their --
22 their purchasing power with other entities like
23 Henry Schein, or marketing a buying group that
24 actually has staff that would do marketing or
25 would assist or educate.

1 CONFIDENTIAL - JAKE MEADOWS

2 I think a buying group that would have
3 a meeting or a large meeting to promote that
4 comradery and that education or expose dentists
5 to new technologies and new offerings. A buying
6 group that would educate dentists on market
7 trends, clinical trends. And probably not
8 limited to that list, but that's what I can
9 think of right now.

10 Q. Is it valuable or important to Schein
11 for a buying group to allow Schein FSCs to
12 engage with a buying group's members?

13 A. Yes.

14 Q. Why is that?

15 A. Because FSCs are an important
16 component for us to grow our business, retain
17 our business, and to bring our mission to life.

18 Q. Is it important for Schein or valuable
19 to Schein that a buying group promote some of
20 Schein's offerings other than discounts on
21 dental products?

22 A. It's valuable.

23 Q. Why is that?

24 A. Because those buying groups and part
25 of a decision, you know, case-by-case to do

1 CONFIDENTIAL - JAKE MEADOWS
2 business would be, as I said, does this group
3 amplify our offering for us to achieve our
4 mission, to grow our business, retain our
5 business, and bring our mission to life.

6 Q. If a buying group approached you in
7 your capacity as VP of Sales or as Sales
8 Director, but lacked all of the elements that
9 you just listed, would you be inclined to work
10 with them?

11 A. Since that list is the list I came up
12 with today sitting here, there might be
13 something else that they have that would be
14 valuable to us to help us grow our business,
15 retain our business, or bring our mission to
16 life that I would definitely entertain and,
17 case-by-case, make a decision about whether to
18 do business with them or not.

19 Q. Going back to the Blue Chip group that
20 you mentioned earlier, was Blue Chip willing to
21 commit to a minimum volume of purchases?

22 A. I don't recall.

23 Q. You can't say one way or the other?

24 A. I don't recall.

25 Q. Is a minimum volume commitment one of

1 CONFIDENTIAL - JAKE MEADOWS
2 the characteristics that Schein looks for when
3 partnering with buying groups?

4 A. There was never any policy or
5 procedure for me. It's a case-by-case basis,
6 and part of the decision process that I used
7 because of the amount of effort that we needed
8 to put into working with a buying group, we had
9 to make sure that it -- that effort equaled the
10 results that we would get.

11 So, as I said earlier this morning,
12 that in some -- defining some of the risks of
13 doing business, part of any job is to minimize
14 risk for the company, so there were times where
15 I had to make decisions to minimize risk.

16 Q. And having a volume commitment might
17 be one way to minimize risk in doing business
18 with a buying group?

19 A. It would be case-by-case basis.
20 There's no generalized, I think, thought around
21 it.

22 Q. Does Schein require its buying groups
23 to have an ownership interest in its members'
24 practices?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Henry Schein Dental specifically?

3 Q. Henry Schein Dental.

4 A. No, not that I'm aware of.

5 Q. Does Henry Schein Special Markets
6 require its buying groups to have an ownership
7 interest in its members' practices?

8 A. I can only speak to the time that I've
9 been Vice President of Sales of Special Markets,
10 and I would say no.

11 Q. Have you ever heard of anyone within
12 either Henry Schein Dental or Henry Schein
13 Special Markets requiring ownership of member
14 practices in order to deal with buying groups?

15 A. Not that I can recall.

16 Q. When you are encountered -- strike
17 that.

18 When you encounter a buying group, you
19 mentioned that you review the potential of that
20 buying group on a case-by-case basis?

21 A. Uh-huh.

22 Q. So when you talk about buying groups
23 generally, you're not referring to specific
24 buying groups' characteristics or segments?

25 A. When I -- can you repeat your

1 CONFIDENTIAL - JAKE MEADOWS
2 question?

3 Q. Sure. If in an e-mail you were to use
4 the term "buying groups," it sounds like to me
5 you don't characterize buying groups in
6 different categories because you review them on
7 a case-by-case basis; is that right?

8 A. I would say, over the period of years,
9 we struggled with nomenclature to call something
10 a buying group or a GPO or a co-op, and so there
11 was a little bit of confusion and the definition
12 changed. We attempted to segment maybe in
13 discussions, but never were able to really
14 figure that out.

15 And now I forgot your question.

16 Q. Did you ever use the term "buying
17 group" to refer to a GPO?

18 MR. McDONALD: Object to the form.

19 A. Maybe. I mean, that -- that --
20 looking back, I have -- I could have used "GPO"
21 to describe a buying group, I could have used
22 "buying group" to describe a GPO because of not
23 understanding what that particular organization
24 is.

25 Q. And you view GPOs and buying groups as

1 CONFIDENTIAL - JAKE MEADOWS
 2 distinct groups?
 3 MR. McDONALD: Object to the form.
 4 Currently?
 5 A. I would say, currently, because, as I
 6 said, my education within that nomenclature is I
 7 got exposed to more groups, I started to
 8 understand more what a GPO is compared to what a
 9 buying group is, and I would say in my times, in
 10 my roles, I can think back to, wow, I didn't
 11 even know an organization like this existed.
 12 Q. You've never heard anyone at Schein
 13 tell you that Schein doesn't do business with
 14 buying groups?
 15 MR. McDONALD: Object to the form.
 16 Q. Let me rephrase so that there's not a
 17 double negative.
 18 Have you ever heard anyone at Schein
 19 tell that you Schein does not do business with
 20 buying groups?
 21 A. I have had subordinates who have made
 22 that generalized statement to me that I've
 23 corrected.
 24 Q. Why have you corrected subordinates
 25 when they tell you that Schein does not do

1 CONFIDENTIAL - JAKE MEADOWS
 2 business with buying groups?
 3 A. Very similar to the example I gave you
 4 when I was in Washington, D.C. I wasn't exposed
 5 to the entire strategy of Henry Schein in
 6 regards to buying groups. I was just exposed to
 7 my geography. There are some salespeople that,
 8 within their territory or their friend's
 9 territory, don't do business with buying groups
 10 just based on they don't have any membership by
 11 chance who make a generalized assumption or,
 12 back to those issues of nomenclature, they may
 13 not realize that it's a buying group and see it
 14 as a group practice or understand the ownership
 15 model.
 16 Q. Why is it important to you to correct
 17 subordinates when they misunderstand Schein's
 18 position with respect to buying groups?
 19 A. I want to make sure that if our sales
 20 team sees any opportunities out there, that they
 21 would know to take advantage of all the
 22 opportunities in the market; and if they believe
 23 that we have, you know -- at Henry Schein Dental
 24 we don't do business with automotive stores,
 25 right? But I want them to know that we do

1 CONFIDENTIAL - JAKE MEADOWS
 2 business with buying groups or any other
 3 example.
 4 Q. Have you ever heard any higher-ups,
 5 someone up the food chain from you, say that
 6 Schein does not do business with buying groups?
 7 A. Not that I recall.
 8 Q. Have you heard anyone ever say that
 9 buying groups are a slippery slope?
 10 MR. McDONALD: Object to the form.
 11 A. That particular statement, no, not
 12 that I recall.
 13 Q. What does "slippery slope" mean to
 14 you?
 15 A. Risk.
 16 Q. Have you ever said that Schein does
 17 not do business with buying groups?
 18 A. Not that I recall.
 19 Q. Have you ever said that Schein --
 20 scratch that.
 21 Have you ever said that doing business
 22 with buying groups would lower Schein's margin?
 23 MR. McDONALD: Object to the form.
 24 If you have got a document, you should
 25 show it to him.

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. Not that I recall.
 3 Q. Have you ever heard anyone else say
 4 that doing business with buying groups would
 5 lower Schein's margin?
 6 MR. McDONALD: Same objection.
 7 If you have got a document, show it to
 8 him.
 9 A. Not that I can recall that statement.
 10 Q. Is it your understanding that buying
 11 groups lower Schein's margin?
 12 A. No.
 13 Q. What is your understanding?
 14 A. That buying groups are a great way for
 15 us to grow our business, retain our business,
 16 bring our mission to life, and if executed
 17 properly, just like every other strategy, we
 18 would grow.
 19 Q. Would that --
 20 A. Make money.
 21 Q. Would that include growing your profit
 22 margin?
 23 A. Yes.
 24 Q. Have you ever said that buying groups
 25 are a threat?

1 CONFIDENTIAL - JAKE MEADOWS

2 MR. McDONALD: Object to the form.

3 A. Not that I recall.

4 Q. Are you familiar with a SWOT analysis?

5 A. Yes.

6 Q. What is a SWOT analysis?

7 A. Strengths, weaknesses, opportunities
8 and threats.

9 Q. How does Henry Schein use SWOT
10 analyses?

11 MR. McDONALD: Object to the form.

12 Overly broad.

13 A. Henry Schein Dental and the sales
14 team?

15 Q. Yes.

16 MR. McDONALD: Same objection.

17 A. We use the SWOT analysis in -- with
18 our sales team as a feedback tool with our sales
19 team to get a -- to get information back.

20 Q. How often do you personally draft SWOT
21 analyses?

22 A. Personally that I take the box and I
23 write strengths, weaknesses, opportunities and
24 threats?

25 Q. Yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Not often. Maybe once a year and not
3 formally. I wouldn't say it's a formal business
4 model that my management team would ask me to
5 build a SWOT analysis or that I would ask my
6 team to build a SWOT analysis.

7 Q. How often do you come across SWOT
8 analyses in your various roles at Schein?

9 MR. McDONALD: Object to the form.

10 A. Formally, when we have SWOT meetings,
11 we call it our SWOT team, and it's a play on
12 SWAT with the police officers, and the
13 strengths, weaknesses, opportunities. It's
14 meant to communicate to the sales team members
15 that they are part of influencing strategy from
16 their position.

17 Q. How often do your SWOT meetings occur?

18 A. Face-to-face, traditionally -- I can't
19 speak to the last few national sales meeting,
20 but face-to-face traditionally, we've had SWOT
21 meetings at our national sales meetings, and
22 there would be efforts that they would break
23 into small groups and work on it.

24 Q. Is that an annual meeting?

25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. In the SWOT analysis, what is meant by
3 "threat"?

4 MR. McDONALD: Object to the form.

5 A. In the -- I've never read a book on
6 analysis, so I couldn't tell you exactly on
7 that.

8 Q. What's your understanding of the word
9 "threat" as used in the SWOT analysis?

10 A. Risk.

11 Q. Why is it important to identify risks
12 or threats?

13 MR. McDONALD: Object to the form.

14 A. In business, my mission is to grow
15 business, retain business, and bring our mission
16 to life, and it's important that I know what
17 potential market conditions or what potential
18 pieces of business are that could make it
19 difficult to do that.

20 Q. Who's Stanley Bergman?

21 A. He's CEO of Henry Schein Inc.

22 Q. How often do you get to interact with
23 Mr. Bergman?

24 A. In my new role or in these previous
25 roles?

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. In any of your roles.

3 MR. McDONALD: Overly broad.

4 A. Do you want me to list out by role?

5 Q. Let's start with your VP of Sales, the
6 Eastern area, how often did you interact with
7 Mr. Bergman?

8 A. Personally, I would interact with him
9 or if I was at a meeting and he would be in the
10 meeting?

11 Q. Let's start with you personally.

12 A. Twice a year.

13 Q. In what context?

14 A. He would be working a room at the
15 national sales meeting and would ask me how
16 things are going, and I would say "good," and he
17 would give me a pat on the shoulder and then
18 move on.

19 Q. That was the extent of it?

20 A. Yes. Personally, yes.

21 Q. How often would you be in meetings
22 with Mr. Bergman?

23 A. Usually two to three times a year, a
24 budget meeting or -- and it is typically
25 videoconference.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. Do you correspond with Mr. Bergman
3 directly?

4 MR. McDONALD: Object to the form.
5 Overly broad.

6 A. In my role today?

7 Q. In your role as VP of Sales of the
8 Eastern area, did you respond -- did you
9 correspond with Mr. Bergman directly?

10 A. There might have been an instance or
11 two that I would update Stanley, but it would
12 have been related to a personnel issue or a
13 large customer issue.

14 Q. Is it fair to say then that you met
15 with Mr. Bergman infrequently while you were VP
16 of Sales of the Eastern area?

17 A. Very infrequently.

18 Q. Did you take your interactions with
19 Mr. Bergman seriously?

20 A. Very.

21 Q. Why is that?

22 A. This is the CEO of our company, and I
23 enjoy and respect when Stanley speaks and the
24 direction that he gives from the podium.

25 Q. Would you ever knowingly feed Mr.

1 CONFIDENTIAL - JAKE MEADOWS
2 Bergman false information?

3 A. No.

4 Q. Would you make an attempt to be
5 accurate in any presentations that you give to
6 Mr. Bergman?

7 A. Yes.

8 Q. Why?

9 A. That's how I communicate.

10 Q. You don't want it to reflect poorly on
11 you if you're inaccurate in your presentations
12 to Mr. Bergman?

13 A. All my presentations to Mr. Bergman I
14 would make an effort to make them as accurate as
15 I could.

16 Q. Do you recall being part of a dinner
17 meeting with Mr. Bergman in July 2015?

18 A. No.

19 Q. Do you recall Mr. Bergman asking for
20 the team to do a presentation for him in July
21 2015?

22 A. I don't remember a meeting with Mr.
23 Bergman in 2015.

24 Q. Do you recall presenting a SWOT
25 analysis or preparing a SWOT analysis for Mr.

1 CONFIDENTIAL - JAKE MEADOWS
2 Bergman?

3 A. I do not.

4 Q. I'm going to show you a document
5 that's been premarked as CX2377. The first page
6 of the document bears the Bates stamp Henry
7 Schein-0002627660.

8 Please take a moment to review this
9 document and let me know when you're finished.

10 (Complaint Counsel Exhibit CX2377-001
11 through 005, an e-mail bearing Bates Nos.
12 Henry Schein-000267660 through 664, marked
13 for identification, as of this date.)

14 MR. McDONALD: Is there more to this
15 e-mail?

16 MS. ROSNER: No, my understanding is
17 that the e-mail begins with Mr. Bergman's
18 message on page CX2377-005, and his e-mail
19 consisted of just the subject line with no
20 text in the body.

21 MR. McDONALD: Got it.

22 Which doesn't show up in his e-mail.

23 MS. ROSNER: Correct.

24 MR. McDONALD: Okay.

25 MS. ROSNER: But you can see the

1 CONFIDENTIAL - JAKE MEADOWS
2 subject line in the chain.

3 MR. McDONALD: Yes. Got it.

4 THE WITNESS: Okay.

5 BY MS. ROSNER:

6 Q. You've had an opportunity to review
7 CX2377?

8 A. I have.

9 Q. CX2377 is an e-mail string. The
10 last-in-time e-mail is from Mr. Cavaretta dated
11 July 13, 2015.

12 A. Uh-huh.

13 Q. You have written some e-mails in this
14 string; is that right?

15 A. Yes.

16 Q. You wrote them as part of your job?

17 A. Yes.

18 Q. It's part of your job at Schein to
19 write and respond to e-mails regarding requests
20 from Mr. Bergman?

21 A. Yes.

22 Q. You wrote the e-mails in CX2377 at or
23 near the time you understood Mr. Bergman was
24 asking for a presentation?

25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You wrote and Schein maintained CX2377
3 in the ordinary course of Schein's business?

4 A. Yes.

5 Q. CX2377 is a true and accurate copy of
6 your e-mail correspondence?

7 A. I suppose.

8 Q. You have any reason to doubt?

9 A. No, I have no reason to doubt.

10 Q. I'm going to refer you to the bottom
11 of the first page, CX2377-001.

12 A. Uh-huh. Uh-huh.

13 Q. There's an e-mail from you at 8:35
14 a.m., and it looks like you have listed out a
15 SWOT analysis?

16 A. Uh-huh.

17 Q. The bottom line of your e-mail reads,
18 "T," which I understand to mean "threat"; is
19 that right?

20 A. Yes.

21 Q. And within threat, you have listed
22 "Buying Groups, Sirona, Margin Decline/Pricing
23 Pressure."

24 Did I read that correctly?

25 A. Correct.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You're identifying buying groups as a
3 threat; is that right?

4 MR. McDONALD: Object to the form.

5 A. I don't recall, so I'd have to make an
6 assessment about -- but, yes, it says, "T:
7 Buying Groups," if that's what you're asking.

8 Q. So your intention was to indicate here
9 that buying groups would be a threat?

10 A. No. What I would say is, Sirona -- if
11 I were to make this today, there would be Sirona
12 would be a strength, there would be things about
13 loyalty that I would put down in "threats."

14 My assumption, just because it was
15 part of our normal business, that there was some
16 component of something that was happening where
17 I was generalizing with the word "buying
18 groups," but there was something in particular
19 within that effort that was a threat. Could be
20 a particular customer that we didn't have. This
21 is -- these are -- these is very general, very
22 general topics.

23 Q. Do you recall this e-mail sitting here
24 today?

25 A. No.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. But you recall at the time that -- or,
3 you understand now upon seeing this e-mail that
4 this was something that was going to go to Mr.
5 Bergman?

6 MR. McDONALD: Object to the form.

7 A. No, I don't -- as I said, I don't
8 remember this meeting happening, so I'm not sure
9 if this meeting ever occurred. I can't recall.

10 Q. Is it your understanding looking at
11 CX2377 that the reason you put the SWOT analysis
12 together was because Mr. Bergman was looking for
13 a presentation from you?

14 A. I don't know if Mr. Bergman was
15 looking for a presentation to me, and I don't
16 know if this was a presentation that -- or a --
17 if we were building the concepts, and that very
18 easily could be stricken from the final
19 outcome and Mr. Bergman very possibly.

20 So I don't, in reading this, I don't
21 see where it says, Jake, you are going to
22 present this to Mr. Bergman, because in the --
23 where I see is that I was to present talent
24 management and recruiting on the first document.

25 Q. Let me refer you to the bottom of

1 CONFIDENTIAL - JAKE MEADOWS
2 CX23777-003.

3 A. Okay.

4 Q. There's an e-mail from Mr. Steck, who
5 you have testified --

6 A. Yes.

7 Q. -- was your boss?

8 A. Yes.

9 Q. And Mr. Steck says, "Team, please see
10 the e-mail below from Stan. It's Saturday night
11 as I write this and we have one whole day to put
12 together a deck to present at Tuesday night's
13 dinner."

14 Did I read that correctly?

15 A. Yes.

16 Q. Is it your understanding that Mr.
17 Steck is asking for your help to put together a
18 presentation for the Tuesday night dinner?

19 A. Yes.

20 Q. And you wanted -- and he is also
21 asking for everyone to stay very high level; is
22 that right?

23 A. Yes.

24 Q. Is it your understanding then that you
25 responded with high level thoughts on what would

1 CONFIDENTIAL - JAKE MEADOWS
2 make up a SWOT analysis?

3 MR. McDONALD: Object to the form.

4 A. Is it my understanding -- I'm sorry,
5 can you ask that question again?

6 Q. That your contribution to this
7 presentation was the SWOT analysis?

8 A. Reading this e-mail, it looks like
9 that one of my contributions in this e-mail
10 chain to Joe, not to Dave Steck or Stanley, was
11 a listing of a SWOT analysis.

12 Q. Why would you have sent an e-mail to
13 Joe on this chain? Were you trying to
14 coordinate the message that the two of you would
15 present to Mr. Bergman?

16 A. That looks -- assume that.

17 Q. Why would buying groups be a threat to
18 Schein?

19 A. In particular to this list?

20 Q. Yes.

21 A. Again, I -- buying groups aren't a
22 threat to Henry Schein. There are certain
23 components within the buying group strategy that
24 create risk or a particular buying group itself
25 could create risk.

1 CONFIDENTIAL - JAKE MEADOWS
2 responsible for what would go in front of Mr.
3 Bergman.

4 Q. What additional detail regarding
5 buying groups is a threat should have been
6 included in your SWOT analysis?

7 MR. McDONALD: Object to the form.

8 He keeps using the word "risk" and you
9 keep saying "threat" because you want that
10 little soundbite of a threat because you
11 think it's bad, and he keeps telling you he
12 used it as risk.

13 Object to the form.

14 Q. Do you understand the question?

15 A. Can you ask it again?

16 (Record read.)

17 MR. McDONALD: Same objection.

18 A. So with this particular moment in this
19 particular time about what should have been
20 included, since I don't remember exactly what we
21 were discussing, and because I believe that
22 buying groups, just like I gave another example
23 that all of these -- all of these items would
24 have a strength, a weakness, an opportunity and
25 a threat in them, I would only make the

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You're listing a SWOT analysis to
3 coordinate with Mr. Cavaretta on how to put
4 points together for a presentation for Mr.
5 Bergman. We've already talked about how it's
6 important that any information that you funnel
7 to Mr. Bergman is accurate?

8 A. Yes.

9 Q. Is there anything inaccurate in the
10 SWOT analysis that you're seeing here?

11 MR. McDONALD: Object to the form.

12 A. Are you saying in particular to put in
13 front of Mr. Bergman?

14 Q. Yes.

15 A. I'm not even clear if this got in
16 front of Mr. Bergman. In this chain -- and I
17 don't remember the meeting that you're
18 discussing. In this chain, this looks like this
19 is Joe and I collaborating on what we would
20 think should go in front of Mr. Bergman at the
21 time, and I don't know the detail behind why
22 buying groups is there, and I'm suggesting to
23 you there's more detail to that. And
24 ultimately, it would be Tim or Dave, I don't
25 know within how they work, that would be

1 CONFIDENTIAL - JAKE MEADOWS

2 assumption that there was some component of a
3 particular relationship that would pose a risk
4 to us.

5 Q. Sitting here today, you don't recall
6 what that particular component --

7 A. I don't.

8 Q. -- of a relationship was that you were
9 referring to?

10 A. I don't.

11 Q. Is there anything that you could
12 review to refresh your recollection as to what
13 that particular component of a relationship is
14 that you're referring to?

15 A. Is there anything I could review? Not
16 that I'm aware of.

17 Q. In the e-mail that you write to Mr.
18 Cavaretta on CX2377 you don't specify any
19 particular component of any relationship; you
20 just use the word "buying groups"; is that
21 right?

22 A. Well, I didn't specify anything about
23 buying groups or Sirona or margin decline or
24 pricing pressure or even with strengths,
25 merchandise, Adec or Mid Market. Those are all

CONFIDENTIAL - JAKE MEADOWS
equally as broad in strengths, weaknesses,
opportunities and threats.

Q. You can put aside CX2377.

By mid 2015, my understanding is that
different people at Schein were discussing how
to address buying groups. Is that also your
understanding?

A. I don't remember the exact timeframe.

Q. Was Brian Brady ever working on a
program that he called the VIP Program?

A. Yes.

Q. What was the VIP Program?

A. The VIP Program was an enhancement of
our Loyalty Program.

Q. What effect would the VIP Program have
on Schein's practices or procedures with respect
to doing business with buying groups?

A. Since we never launched or brought
that group to life and it was a concept, I'm not
sure -- I don't recall what evaluation we did on
that.

Q. You don't recall the intended effect?

A. For me, the intended effect was to
grow our business, retain our business, and

CONFIDENTIAL - JAKE MEADOWS
bring our mission to life, and for me it was a
component of strengthening our Loyalty Program.

Q. Do you recall how specifically it
would have strengthened the Loyalty Program?

A. I do, actually. And I was a proponent
of that I felt as if our Loyalty Program was not
as strong as it could be to do those things I
talk about in the marketplace -- grow, retain,
bring our mission to life -- and that I felt our
Loyalty Program was, when I talked about -- and
I'll say specifically to buying groups, that our
Loyalty Program was not as strong as I wanted it
to be in collaborating with groups in that way.

Q. You thought that Mr. Brady's proposed
VIP Program needed more discussion?

A. Yes.

Q. Why is that?

A. Because I thought it was a concept, a
very broad concept.

Q. And you believe that Schein needed to
get very clear on the direction of his VIP
Program?

MR. McDONALD: Object to the form.

A. It's very often that concepts -- that

CONFIDENTIAL - JAKE MEADOWS
we'll work on concepts over the period of weeks
or months that eventually get abandoned, so --
and it's often that, within our culture, that
people will have a good idea and we'll say,
"Well, why don't you go spend some time and go
work on that idea," and then they will bring
that idea to life and we'll know, "Nah," or
we'll go, "That's great," and we implement it
and it becomes part of everyday business.

Q. While you were discussing the VIP
Plan, you wanted to keep the discussion among a
small group of people?

A. I don't recall, but more than likely,
yes. We wouldn't have included our SWOT teams,
salespeople, or regional managers.

Q. While you were discussing the VIP
Program, you wanted to hold the line in private
practice accounts?

A. Are you telling me that or are you
asking me a question?

Q. Is that right? Is it right that you
wanted to hold the line in private practice
accounts while discussion of the VIP Program was
ongoing?

CONFIDENTIAL - JAKE MEADOWS
MR. McDONALD: Object to the form.

A. I would say every single day I wanted
to grow our business and retain our business and
bring our mission to life.

Q. Have you ever used the words "hold the
line"?

MR. McDONALD: Object to the form.

A. Not that I recall.

Q. I understand "hold the line" to be a
phrase that comes from combat. It means to
remain steadfast in one's position while keeping
something away.

A. Uh-huh.

Q. Is that your understanding as well?

A. Yes.

Q. I'm going to show you a document
that's been previously marked as CX2378. The
first page of this document bears the Bates
stamp Henry Schein-001695339.

Please take a moment to review CX2378
and let me know when you're finished.

(Complaint Counsel Exhibit CX2378-001
through 003, an e-mail bearing Bates Nos.
Henry Schein-001695339 through 341, marked

1 CONFIDENTIAL - JAKE MEADOWS
2 for identification, as of this date)
3 THE WITNESS: Okay. Wait. Excuse me.
4 I didn't read Brian's.

5 Okay.

6 BY MS. ROSNER:

7 Q. You've had an opportunity to review
8 CX2378?

9 A. Yes.

10 Q. 2378 is an e-mail chain. The
11 last-in-time e-mail is from Mr. Brady on July
12 30, 2015.

13 You have drafted some e-mails in this
14 e-mail chain; is that right?

15 A. Yes.

16 Q. One e-mail.

17 You drafted the e-mail on July 30,
18 2015 at 8:23 in the morning as part of your job?

19 A. Yes.

20 Q. It's part of your job to write e-mails
21 about potential programs at Schein?

22 A. At this time, yes. For this
23 particular effort, yes.

24 Q. You had personal knowledge of the
25 contents of the e-mail when you wrote it?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I can't say that I opened the
3 attachment, because there's an attachment, so
4 I'm not familiar if I opened the attachment or
5 not.

6 Q. But otherwise, the words that you
7 wrote, you had personal knowledge of the bases
8 for whatever it is that you wrote?

9 A. I'm not sure I understand what you're
10 trying to clarify.

11 Q. The --

12 A. Did I write this?

13 Q. You wrote this based on your personal
14 knowledge? You didn't write -- someone else
15 didn't dictate this to you?

16 A. No.

17 Q. You wrote this at the time that you
18 were discussing the VIP Program?

19 A. It must have been.

20 Q. You wrote this e-mail and Schein
21 maintained it in its ordinary course of
22 business?

23 A. Yes.

24 Q. And this is a true and accurate copy
25 of your e-mail correspondence?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I have to assume so.

3 Q. So, referring you to your e-mail in
4 the middle of page CX2378-001.

5 A. Yes.

6 Q. In the middle of the paragraph, you
7 say, "I believe this group needs to remain small
8 until we have the structure in place for what we
9 think will win this business and hold the line
10 in private practice."

11 Did I read that correctly?

12 A. Yes.

13 Q. What did you mean by "hold the line in
14 private practice"?

15 A. I can only assume because this is
16 2015. So do you want me to assume what I meant?

17 Q. Are you saying you don't recall this
18 e-mail?

19 A. I don't re- -- I write thousands and
20 thousands of e-mails, so I don't recall e-mails
21 I wrote yesterday.

22 Q. Sitting here today, you don't recall
23 this e-mail?

24 A. I don't recall -- I recall us working
25 on the VIP Club Program, but I don't recall this

1 CONFIDENTIAL - JAKE MEADOWS

2 particular e-mail, like this one stands out, if
3 that's what you're asking.

4 Q. Is there anything that could refresh
5 your recollection about this e-mail that you can
6 think of?

7 A. No.

8 Q. No, okay. Great.

9 You also say, "I realize this is
10 coming at us, but I want to understand how much
11 of our efforts will accelerate it, and I want us
12 to decide what a buying group is required to
13 look like in order for us to partner."

14 Did I read that correctly?

15 A. Yeah.

16 Q. So at this time was there a set
17 criteria for what a buying group should look
18 like for Schein to partner with it?

19 A. Everything is case-by-case and has
20 always been case-by-case even today for buying
21 groups. We evaluate buying groups based on
22 their ability to help us grow our business,
23 retain our business, and bring our mission to
24 life.

25 Q. At this time, you're advocating some

1 CONFIDENTIAL - JAKE MEADOWS
2 set of criteria that will help you to identify
3 what a buying group is supposed to look like.

4 Did those criteria ever get set?

5 MR. McDONALD: Object to the form.

6 A. Where am I advocating that?

7 Q. My understanding is when you say, "I
8 want us to decide what a buying group is
9 required to look like in order for us to
10 partner," you're advocating some set of
11 characteristics?

12 A. I have to assume this is in particular
13 to the VIP Club Program.

14 Q. Okay.

15 A. So not broadly is how I would
16 understand this.

17 Q. Were those characteristics or set of
18 criteria ever defined?

19 A. I don't recall. That was a program
20 that we never brought to life.

21 Q. What's the value of setting criteria
22 or characteristics for a set of customers to be
23 eligible for a Schein program?

24 A. What is the value for Henry Schein to
25 set parameters to do business with it?

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Why would Henry Schein set parameters
3 such as the ones you are advocating in CX2378?

4 MR. McDONALD: Object to the form.

5 Mischaracterizes his testimony and the
6 document.

7 A. Yeah, again, I'm not sure I'm
8 advocating for anything other than a discussion
9 particular to the VIP Club Program, so if you're
10 asking me in particular why it would be good for
11 Henry Schein to be -- have alignment within
12 leadership, I can discuss that one, but if
13 you're asking me why it would be important for
14 Henry Schein to have alignment within the VIP
15 Club Program, I can't answer that because that
16 program never was brought to life.

17 Q. You're advocating some set of
18 parameters or criteria. I just want to know why
19 you would advocate that.

20 MR. McDONALD: Object to the form.

21 Mischaracterizes his testimony.

22 A. In particular to the VIP Club Program,
23 again, without reviewing that document or
24 bringing me back to this moment that we were
25 discussing this particular program, I don't

1 CONFIDENTIAL - JAKE MEADOWS
2 recall exactly what I'm speaking to.

3 Q. Is it your understanding that the VIP
4 program was going to be discussed with field
5 managers in August 2015?

6 A. I don't recall that.

7 Q. What is the Area/Zone General Manager
8 Monthly Conference Call?

9 A. The Area/Zone...

10 I believe --

11 MR. McDONALD: Object to the form.

12 Go ahead.

13 A. I believe that's, because we change
14 names of calls over the period of years and
15 within months, or sometimes it's the same
16 meeting but it's called something different, I
17 believe that's the call where Joe Cavaretta,
18 myself, Dave Steck and the zone managers get on
19 a -- have a meeting.

20 Q. What type of information is presented
21 on that meeting?

22 A. Typically outcomes of sales strategies
23 results, market trends, issues, things
24 associated with the company.

25 Q. Would you have raised the VIP Program

1 CONFIDENTIAL - JAKE MEADOWS

2 on such a call?

3 A. I don't believe -- again, since I'm
4 not familiar with the timing or not familiar how
5 far we got with the VIP Program as I'm sitting
6 here, there was many concepts that we would go
7 through a process like this with, and the zone
8 managers would never know, because we never
9 brought it to life, that it was brought up.

10 Q. So you can't recall whether or not the
11 VIP Program was discussed one way or the other?

12 A. Yeah, I can't.

13 Q. Would you view the VIP Program as a
14 good offense?

15 A. As I've said, we built so many
16 concepts and so many programs over a period of
17 years; I don't think I could describe the VIP
18 Program to you.

19 Q. Do you recall ever saying the best
20 defense is a good offense with respect to the
21 VIP Program?

22 MR. McDONALD: Object to the form.

23 A. I don't recall ever saying that about
24 the VIP Program.

25 Q. I'm going to hand you a document

1 CONFIDENTIAL - JAKE MEADOWS
2 that's been previously marked as CX2380. It is
3 an e-mail chain. The first page of the e-mail
4 chain has been Bates-stamped Henry
5 Schein-000280154.

6 Please take a moment to review CX2380
7 and let me know when you're finished.

8 (Complaint Counsel Exhibit CX2380-001
9 through 003, an e-mail chain bearing Bates
10 Nos. Henry Schein-000280154 through 156,
11 marked for identification, as of this date.)

12 (Discussion off the record.)

13 THE WITNESS: Okay.

14 BY MS. ROSNER:

15 Q. You've had an opportunity to review
16 CX2380?

17 A. I have.

18 Q. This is an e-mail string. The
19 last-in-time e-mail is written by you on August
20 25, 2015. You have a couple of e-mails in this
21 string.

22 You wrote the e-mails in CX2380 as
23 part of your job?

24 A. Yes.

25 Q. It's part of your job to discuss

1 CONFIDENTIAL - JAKE MEADOWS
2 topics for the Area/Zone GM Monthly Conference
3 Call?

4 A. Yes.

5 Q. You had personal knowledge of the
6 contents of the e-mail at the time that you
7 wrote it?

8 A. Yes.

9 Q. You wrote the e-mail that's in CX2380
10 at or near the time that the conference call was
11 to take place?

12 A. Let me see. It doesn't -- I'm looking
13 for the appointment. So, Tuesday, 9 a.m.

14 Yes, I wrote this e-mail 13 minutes,
15 it looks like, before the -- the call started.

16 Q. You wrote this e-mail and maintained
17 it in Schein's ordinary course of business?

18 A. Yes.

19 Q. And this is a true and accurate copy
20 of your e-mail correspondence?

21 A. I assume so.

22 Q. I'm going to refer you to the top
23 e-mail on the string from you at 8:47 a.m.

24 A. Uh-huh.

25 Q. 13 minutes before the call.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Uh-huh.

3 Q. You write in your second sentence --
4 on the second line, rather, "As far as names,
5 I'm leaning towards 'partnership' versus 'VIP'
6 since 'VIP' suggests one customer is more
7 important than the next."

8 Did I read that correctly?

9 A. Yes.

10 Q. Is it your understanding that you're
11 referring to the VIP Program that Brian Brady
12 was working on?

13 A. I'm not sure. Do we reference that?

14 Yes, I would assume so because Dave
15 has here, "Just want them prepared for the VIP
16 Program," yes.

17 Q. It's your understanding that on this
18 call the leadership was going to present to the
19 zone managers the VIP Program?

20 A. No.

21 Q. What's your understanding?

22 A. My understanding is that we would not
23 still be deliberating about, in normal course of
24 business, about the title of a program that we
25 were about to launch 13 minutes before a

1 CONFIDENTIAL - JAKE MEADOWS
2 meeting.

3 So I believe this is just other
4 dialogue associated with evaluating the VIP
5 Program that is not related to the call in
6 particular.

7 Q. When you say "the best defense is a
8 good offense," what's your understanding of that
9 statement?

10 A. I don't know.

11 Q. Sitting here today, you don't recall
12 this e-mail at all?

13 A. No, I do not.

14 Q. Is there anything that could refresh
15 your recollection as to what you meant by "best
16 defense is a good offense"?

17 A. No.

18 Q. Going down to the third bullet in your
19 e-mail.

20 A. Uh-huh.

21 Q. You write, "Happening very quickly do
22 not make commitments on HSD behalf."

23 A. Uh-huh.

24 Q. What are you referencing there?

25 A. I don't know.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. Is there anything that could refresh
 3 your recollection as to what you were
 4 referencing?
 5 A. No.
 6 Q. That line continues, "Important that
 7 we choose partnerships that make long-term sense
 8 for HSD."
 9 A. Uh-huh.
 10 Q. "Bring these opportunities to Joe and
 11 I then will involve DGP."
 12 Did I read that correctly?
 13 A. Yes.
 14 Q. What are you referring to there?
 15 A. I don't know.
 16 Q. Is there anything that could refresh
 17 your recollection as to what you meant there?
 18 A. No.
 19 Q. What is "DGP"?
 20 A. Director of Group Practice.
 21 Q. What are the types of things that you
 22 would bring to DGP's attention?
 23 A. Many things related to growing sales
 24 within the group practice space and the Mid
 25 Market.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Please take a moment to review CX2389
 3 and let me know when you're finished.
 4 (Complaint Counsel Exhibit CX2389-001
 5 through 003, an e-mail chain bearing Bates
 6 Nos. Henry Schein-000045087 through 089,
 7 marked for identification, as of this date.)

 9 BY MS. ROSNER:
 10 Q. You've had an opportunity to review
 11 CX2389?
 12 A. I have.
 13 Q. This is an e-mail chain. The
 14 last-in-time e-mail is from you dated November
 15 2, 2011.
 16 A. Uh-huh.
 17 Q. You wrote this e-mail as part of your
 18 job?
 19 A. I did.
 20 Q. It's part of your job to respond to
 21 requests about buying groups?
 22 A. Yes.
 23 Q. You have personal knowledge of the
 24 e-mail at the time that you wrote?
 25 A. I have to assume so, yes.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. Is buying groups one of those things?
 3 A. Yes.
 4 Q. You can --
 5 A. At this time, 2015, I believe so. I'm
 6 unsure.
 7 Q. You can put CX2380 to the side.
 8 We've been going for another hour.
 9 Let's take a break.
 10 MR. McDONALD: Sure.
 11 THE VIDEOGRAPHER: The time is 10:52
 12 a.m. We're off the record.
 13 (Recess.)
 14 THE VIDEOGRAPHER: The time is 11:15
 15 a.m. We're on the record.
 16 BY MS. ROSNER:
 17 Q. Mr. Meadows, when you were the
 18 Northwestern zone general manager, was there a
 19 period of time where you started to see more and
 20 more buying groups in dental?
 21 A. Not that I recall.
 22 Q. I'm going to show you a document
 23 that's been previously marked as CX2389. It's
 24 an e-mail string. The first page of the e-mail
 25 has been Bates-stamped Henry Schein-000045087.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. You wrote this e-mail at or near the
 3 time you got this request from Ron Brown?
 4 A. Yes.
 5 Q. You wrote this e-mail and Schein
 6 maintained it in the ordinary course of Schein's
 7 business?
 8 A. Correct.
 9 Q. And this is a true and accurate copy
 10 of your e-mail correspondence?
 11 A. I assume so, yes.
 12 Q. In the first line of your e-mail at
 13 35:51 p.m., you say, "I'm seeing more and more
 14 buying groups in the Pacific Northwest"; is that
 15 right?
 16 A. Yes.
 17 Q. This is while you were the Northwest
 18 zone general manager?
 19 A. Correct.
 20 Q. Do you have any reason to doubt why
 21 that statement would be true?
 22 MR. McDONALD: Object to the form.
 23 That's a double negative.
 24 A. Doubt why -- do I have any reason to
 25 doubt that I would not have been seeing more and

1 CONFIDENTIAL - JAKE MEADOWS
 2 more buying groups?
 3 Q. Let me rephrase.
 4 Based on this e-mail, is it your
 5 understanding that at this point in time you
 6 were seeing more and more buying groups in the
 7 Pacific Northwest?
 8 A. Since I don't recall this e-mail and I
 9 have noted that my definition of "buying groups"
 10 at the time might have been incorrect, I'm not
 11 sure that what I am writing here today -- or,
 12 what I'm reading today and what I wrote here is
 13 related to the same definition of "buying
 14 groups" that we established at the beginning of
 15 the day.
 16 Q. At the time of this e-mail, you
 17 noticed more prevalence of buying groups, as you
 18 defined it at that time; is that right?
 19 A. Again, I'm not sure when I wrote this
 20 that that generalized statement could be true.
 21 Q. Would you have written something
 22 incorrect in an e-mail to Mr. Brown that you
 23 thought was incorrect at the time?
 24 A. I wrote --
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. No, that's not the case. Actually,
 3 one of the things that I do remember John
 4 Chatham helping me with was I had performance
 5 management issues related with Ron Brown, and
 6 John would advise me in those particular types.
 7 I eventually demoted Ron Brown for
 8 decisions that he had made in the marketplace
 9 that I didn't feel helped us grow our business,
 10 retain our business, and bring our mission to
 11 life. So this e-mail could be related to that.
 12 Q. Is your testimony that this e-mail is
 13 related to John Brown's performance or that's
 14 one possible thing this e-mail could be about?
 15 A. It's one possible. Meaning I don't
 16 recall this e-mail. What I recall about Ron, my
 17 dealings with Ron Brown that sticks out in my
 18 memory is that I had difficulties with Ron in
 19 decisions that he would make as a regional
 20 manager associated with business.
 21 Q. You don't recall specifically what you
 22 meant by the phrase "this is not the way I want
 23 to see the business go"?
 24 A. I don't.
 25 Q. Is there anything that could refresh

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. I wrote that to John Chatham.
 3 Q. Thank you for the clarification.
 4 A. Sure.
 5 Q. Who is John Chatham?
 6 A. At the time, John Chatham was Vice
 7 President of Sales Development, Global Sales
 8 Development, more in that Business Solutions
 9 concept.
 10 I reported to him prior to -- in my
 11 Director of Career Development position.
 12 Q. Was John Chatham senior to you at this
 13 time?
 14 A. Yes.
 15 Q. Would you have attempted to be
 16 accurate in your e-mails to Mr. Chatham?
 17 A. Yes.
 18 Q. At the end of the first line of your
 19 e-mail, you say, "This is not the way I want to
 20 see the business go."
 21 Did I read that correctly?
 22 A. Yes.
 23 Q. So you didn't want to see the business
 24 trend towards more and more buying groups?
 25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAKE MEADOWS
 2 your recollection as to what you meant?
 3 A. No, not that I can think of.
 4 Q. You can put CX2389 aside.
 5 You don't like buying groups very
 6 much, do you?
 7 MR. McDONALD: Object to the form.
 8 A. That's not true at all.
 9 Q. Have you ever said that you hate
 10 buying groups?
 11 MR. McDONALD: Object to the form.
 12 A. I don't recall that I have ever said
 13 that.
 14 Q. Okay. I'm going to show you a
 15 document that's been previously marked as
 16 CX2350. This is a multi-page e-mail string.
 17 The first e-mail page has been Bates-stamped
 18 Henry Schein-001518102.
 19 Please take a moment to review CX2350
 20 and let me know when you're finished.
 21 (Complaint Counsel Exhibit CX2350-001
 22 through 003, an e-mail chain bearing Bates
 23 Nos. Henry Schein-001518102 through 104,
 24 marked for identification, as of this date.)
 25 THE WITNESS: Okay.

1 CONFIDENTIAL - JAKE MEADOWS

2 BY MS. ROSNER:

3 Q. You've had an opportunity to review
4 CX2350?

5 A. I have.

6 Q. CX2350 is an e-mail string. The
7 last-in-time e-mail is from you on November 27,
8 2012.

9 A. Uh-huh.

10 Q. You have written a couple of e-mails
11 in this string.

12 Did you write those e-mails as part of
13 your job?

14 A. Yes.

15 Q. It's part of your job to respond to
16 customer inquiries from your field sales
17 representatives?

18 A. Yes.

19 Q. You wrote the e-mails in CX2350 at or
20 near the time that these issues described
21 therein arose?

22 A. Yes.

23 Q. You had personal knowledge of the
24 e-mails that you wrote?

25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You wrote these e-mails in CX2350 and
3 Schein maintained them in the ordinary course of
4 its business?

5 A. Yes.

6 Q. CX2350 is a true and accurate copy of
7 your e-mail correspondence?

8 A. Yes.

9 Q. I'm going to refer you to the
10 last-in-time e-mail from you at 4:30.

11 You write in the middle of your
12 e-mail, "I hate buying groups."

13 A. Uh-huh.

14 Q. Did I read that correctly?

15 A. Yes.

16 MR. McDONALD: Object to the form.

17 Q. Why are you saying you hate buying
18 groups?

19 A. In this particular context, I don't
20 know.

21 Q. Is there -- you don't recall this
22 e-mail?

23 A. No, and that would be -- if that
24 statement is a general statement, that would be
25 an incorrect statement. I have clarified that,

1 CONFIDENTIAL - JAKE MEADOWS

2 even at this time, I was dealing with buying
3 groups and prior to that time had been
4 successful within the organization.

5 Q. You're writing an e-mail to Dave
6 Jacklin.

7 Who is Mr. Jacklin?

8 A. Dave Jacklin was Ron Brown's
9 replacement after I demoted Ron.

10 Q. Dave Jacklin reported to you?

11 A. Yes.

12 Q. He's someone who relied on you for
13 guidance?

14 A. Correct.

15 Q. You wouldn't knowingly give Mr.
16 Jacklin a false impression?

17 A. Not knowingly.

18 Q. Is there anything that could refresh
19 your recollection as to why you would tell Mr.
20 Jacklin you hate buying groups?

21 A. As I said, nothing that I can think of
22 that would refresh my memory, but I can't be
23 confident that the definition that we agreed on
24 this morning is the same definition that, at the
25 moment that I wrote this, I had an understanding

1 CONFIDENTIAL - JAKE MEADOWS

2 of it.

3 Q. What other possible definitions would
4 you have meant by "buying group"?

5 A. One of the things that we had in
6 Washington was sales team members going out and
7 gathering up their customers and organizing
8 their customers for their own offering. So if I
9 had -- if I'm a salesperson, an employee of
10 Henry Schein, I potentially could grab five of
11 my customers and say, hey, if you guys all put
12 your sales together, I'll give you -- the
13 salesperson would say I'll give you a deeper
14 discount. And that was not our strategy.

15 So, in Washington, that's where Ron
16 had proactively done that. And that was not the
17 reason for his demotion, but Ron had done that
18 with some salespeople, and so that's -- I'm
19 assuming that's what I'm referring to, in
20 particular, Ron.

21 Q. In CX2350, Mr. Jacklin is asking you
22 about a potential group for Dr. Craig Jolley; is
23 that right?

24 A. That's the subject line, so I would
25 assume, yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Is Mr. Jolley's group one of these
3 groups that you mentioned that Ron set up that
4 was him on his own putting dentists together for
5 discount that you're aware of?

6 A. It looks like Dr. Jolley is a part of
7 the Giesy Group or Giesy [different
8 pronunciation] Group.

9 "For 2010, this account was still part
10 of Giesy Group and received an 8 percent credit
11 on his account."

12 Q. Are you reading from CX2350-002?

13 A. Yes.

14 Q. Okay. Do you know the Giesy Group to
15 be one of these groups that Mr. Brown put
16 together?

17 A. I have never heard of the Giesy Group,
18 and the discussion is more about after he left
19 that group. Because it says for 2011 this
20 account was separate, for 2012 this account was
21 separate. So I'm not familiar with the Giesy
22 Group. I was not in the Northwest in 2010.

23 Q. Was there anything about this e-mail
24 string that references some of these groups that
25 Mr. Brown put together with the -- him creating

1 CONFIDENTIAL - JAKE MEADOWS

2 groups of his individual customers?

3 A. Not that I see here that I'm familiar
4 with.

5 Q. Okay. You can put aside CX2350.
6 Have you ever said that you're not a
7 fan of buying groups?

8 A. Not that I recall.

9 Q. I'm going to hand you another document
10 that's been premarked as CX2353. This is an
11 e-mail string on one page. The first and only
12 page of CX2353 is Bates-stamped Henry
13 Schein-0045541.

14 Please take a moment to review CX2353
15 and let me know when you're finished.

16 (Complaint Counsel Exhibit CX2353-001,
17 an e-mail string bearing Bates Nos. Henry
18 Schein-000045541, marked for identification,
19 as of this date.)

20 THE WITNESS: Okay.

21 BY MS. ROSNER:

22 Q. You've had an opportunity to review
23 CX2353?

24 A. Yes.

25 Q. The last-in-time e-mail is from Jason

1 CONFIDENTIAL - JAKE MEADOWS

2 Krause --

3 A. Uh-huh.

4 Q. -- on October 1, 2014. Right below
5 his e-mail is an e-mail from you at 12:01 p.m.

6 A. Uh-huh.

7 Q. Did you write this e-mail as part of
8 your job?

9 A. Yes.

10 Q. It's part of your job to correspond
11 with Mr. Krause on customer opportunities?

12 A. Yes.

13 Q. Did you write the e-mail in CX2353 at
14 or near the time of the events described inside
15 of it?

16 A. Yes.

17 Q. You had personal knowledge of the
18 events that you're describing to Mr. Krause?

19 A. Today I don't.

20 Q. At the time that you wrote it, you had
21 previously spoken with Susan Byrd Harvey and had
22 personal knowledge of that conversation?

23 A. I don't recall, but it's obvious I say
24 I told her there, so I would assume she and I
25 had a conversation.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You wrote and maintained this e-mail
3 in the course of Schein's ordinary business?

4 A. Yes.

5 Q. And CX2353 is a true and accurate copy
6 of your e-mail correspondence?

7 A. Yes.

8 Q. Who is Susan Byrd Harvey?

9 A. She was an FSC in the DC area.

10 Q. Did she report up through you
11 eventually?

12 A. Yes.

13 Q. Who is Jason Krause?

14 A. At the time, Jason was the Director of
15 Group Practice, the DGP.

16 Q. You're telling Mr. Krause about a GPO
17 opportunity?

18 A. Yes.

19 Q. By "GPO," do you mean buying group?

20 A. I don't know.

21 Q. Are you aware of any GPOs that Ms.
22 Susan Byrd Harvey would have worked with?

23 A. I don't recall.

24 Q. Do you refer GPO customers to the DPG
25 group?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Jason reported to me, so I would
3 have -- if there was an opportunity I thought
4 either he would have to review, I would report
5 it to him or give it to him.

6 Q. When I use the word "GPO," I'm
7 referring to GPOs that exist in the medical
8 field.

9 Is that your understanding of GPO?

10 A. Today that's my understanding. At the
11 time, as I've talked about with nomenclature,
12 there -- it would be often that we would use
13 these terminologies before we even learned about
14 whatever this particular entity was and would go
15 find that out, basically.

16 Q. So it's possible by saying "GPO" you
17 mean buying group?

18 MR. McDONALD: Object to the form.

19 A. I would assume it could be possible.

20 Q. In the third sentence of your e-mail
21 on CX2353, you write, "I told her I'm not a fan
22 of the GPOs, but I'm not sure they get stopped."

23 Did I read that correctly?

24 A. Yes.

25 Q. The "her" that you're referring to,

1 CONFIDENTIAL - JAKE MEADOWS

2 that's Susan Byrd Harvey?

3 A. I would assume so.

4 Q. And you're telling Mr. Krause that you
5 told Ms. Harvey you're not a fan of GPOs?

6 A. No. Actually, the way this sentence
7 is written, I don't think I -- it looks like I
8 did not spell correctly or left out some words,
9 so the fact that I say "I'm not a fan of the
10 GPOs," could have possibly been "the GPO," the
11 particular one. I could have added an "S" on
12 for no purpose.

13 "But I'm not sure they get stopped,"
14 again, that doesn't make sense to me, so I can't
15 recall exactly what I intended.

16 Q. Is there anything that you could look
17 at to refresh your recollection about what you
18 intended in the e-mail in 2353?

19 A. Yes. The thing I would look at is the
20 subject line that says "GPO opportunity," and I
21 was very focused on the fact that we had
22 opportunities with GPOs or buying groups or
23 overall. So I chose the subject line as that
24 since I started this e-mail.

25 Q. I just want to make sure I understand

1 CONFIDENTIAL - JAKE MEADOWS

2 your testimony.

3 Is it your testimony that you told
4 Susan Byrd Harvey that you were not a fan of the
5 particular GPO that she was bringing to you?

6 A. I don't recall. What I'm saying is I
7 don't believe that this e-mail, that I can
8 clearly describe exactly what I was intending to
9 say because it's a fragmented sentence; that the
10 terminology of "GPO" was something that there
11 was oftentimes that I misused during this time;
12 and that I saw the GPO as an opportunity, and
13 that's why I defined it in the subject line.

14 Q. What do you mean by the statement "I'm
15 not sure they get stopped"?

16 A. I have no idea. It doesn't even make
17 sense to me, because like I said, it's a
18 fragmented sentence.

19 Q. Do you have any -- is there anything
20 you could use to refresh your recollection as to
21 what you meant by "I'm not sure they get
22 stopped"?

23 A. No.

24 Q. Why doesn't it make sense to you?

25 A. It's a fragmented sentence.

1 CONFIDENTIAL - JAKE MEADOWS

2 There's -- if we add some words and put a comma
3 in there, then we can potentially make that
4 sentence make sense, but it's obvious that I was
5 not grammatic -- I either left a word out or
6 this is a new sentence or something got erased.
7 It just grammatically doesn't make sense.

8 Q. Sitting here today, do you have any
9 sense of what word you left out or --

10 A. No idea.

11 Q. You can put CX2353 aside.

12 Can you think of anything that you
13 have done that might lead others outside of
14 Schein to believe that you don't like buying
15 groups?

16 A. No.

17 Q. Can you think of anything you have
18 said that might lead others outside of Schein to
19 believe that you don't like doing business with
20 buying groups?

21 A. No.

22 Q. Would you be surprised to learn that
23 folks at Benco believe that you don't like doing
24 business with buying groups?

25 MR. McDONALD: Object to the form.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I have no thought about what my
3 competitors think about what I think about.

4 Q. Would you be surprised to learn if
5 others at Patterson believe that you do not like
6 working with buying groups?

7 MR. McDONALD: Object to form.

8 MS. SEIDL: Object to form.

9 THE WITNESS: I have no thoughts about
10 what my competitors think about me.

11 BY MS. ROSNER:

12 Q. Why is that?

13 A. I assume competitors are normal course
14 of business, and I focus on my responsibilities
15 to grow, retain, bring the mission to life, and
16 their -- their actions in the marketplace are
17 purely market conditions.

18 Q. Who is Patty Delikat?

19 A. An FSC in Washington.

20 Q. Did she ever report up through you?

21 A. Yes; when I was the Northwest zone
22 manager.

23 Q. Who are Ron Brown and Dave Stalford?

24 A. Ron Brown was that regional manager
25 that I referenced here, and Dan Stalford -- I

1 CONFIDENTIAL - JAKE MEADOWS

2 think it's "Stafford," but is, or was at the
3 time, the regional operations manager, and I
4 believe now is a service technician with us.
5 I'm not sure he's still with the company.

6 Q. Did -- we talked about Mr. Brown
7 already.

8 Did Mr. Stalford report up to you
9 while you were the Northwest zone manager?

10 A. No; he reported to Ron Brown.

11 Q. But --

12 A. And dotted-lined to John Micheli, who
13 reported to me.

14 Q. At the time that you were the
15 Northwest zone general manager, did Ron Brown
16 and Dan Stalford have authority to do business
17 with buying groups?

18 A. In the normal course of doing
19 business, yes, they could do business with
20 buying groups.

21 Q. Do you recall discovering from Ms.
22 Delikat that she was creating a buying group
23 with approval from Mr. Brown and Mr. Stalford?

24 A. No, I don't.

25 Q. I'm going to show you a document

1 CONFIDENTIAL - JAKE MEADOWS
2 that's been premarked as CX0170. It is an
3 e-mail chain that the first page of the e-mail
4 chain has been Bates-stamped Henry
5 Schein-000045132.

6 Please take a moment to review CX170
7 and let me know when you're finished.

8 (Complaint Counsel Exhibit CX0170.001
9 through 002, an e-mail string bearing Bates
10 Nos. Henry Schein-000045132, marked for
11 identification, as of this date.)

12 THE WITNESS: Okay.

13 BY MS. ROSNER:

14 Q. You've had an opportunity to review
15 CX107?

16 A. Yes.

17 Q. This is an e-mail chain. The
18 last-in-time e-mail is written by you on July
19 17, 2012. You have a couple of e-mails in this
20 chain.

21 Did you write these e-mails as part of
22 your job?

23 A. Yes.

24 Q. It was part of your job to respond to
25 questions from FSCs?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes.

3 Q. You -- what you wrote in CX170 was
4 based on your personal knowledge?

5 A. Yes.

6 Q. You wrote CX170 at or near the time
7 that Ms. Delikat reached out to you about this
8 opportunity she wanted to discuss?

9 A. Correct.

10 Q. You wrote the e-mails in CX170 and
11 Schein maintained it as part of its ordinary
12 course of business?

13 A. Yes.

14 Q. CX170 is a true and accurate copy of
15 your e-mail correspondence?

16 A. Yes.

17 Q. I want to refer you down to the middle
18 of the first page, CX170-001. There's an e-mail
19 from Ms. Delikat at 4:01 p.m.

20 Do you see that?

21 A. I do.

22 Q. She's talking about a potential group
23 that's looking for discounts, and she says, "The
24 discounts were approved by Ron Brown and Dan
25 Stalford."

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Uh-huh.

3 Q. Did I read that correctly?

4 A. Yes.

5 Q. Going up the page to your e-mail at
6 10:19 a.m., you write, "Patty, we can talk about
7 this. I have to tell you Ron and Dan made a
8 decision that is against what Tim Sullivan has
9 directed us to do in regards to supporting
10 buying groups. We do not want our customers
11 organizing and creating what are known as GPOs.
12 It takes the value away from the distributor."

13 Did I read that correctly?

14 A. You read that correctly.

15 Q. So you are telling Ms. Delikat that
16 Ron and Dan approved her buying group in error;
17 is that right?

18 MR. McDONALD: Object to the form.

19 A. The fact that Ron and Dan were the
20 only approval would have been incorrect and --
21 and out of my -- out of what I would have wanted
22 in business.

23 Q. So earlier I asked you whether Ron and
24 Dan had the authority to approve buying
25 groups --

1 CONFIDENTIAL - JAKE MEADOWS

2 A. That's not what you asked me.

3 Q. Maybe you can describe for me then
4 what is -- you meant by "Ron and Dan made a
5 decision that is against what Tim Sullivan has
6 directed us to do"?

7 A. Earlier you asked me if Ron and Dan
8 could work with buying groups in the normal
9 course of business, and I agreed, yes, they
10 could work with buying groups.

11 What I'm clarifying here is that, at
12 the time, where Ron Brown -- I was not
13 comfortable with him making decisions about what
14 we were doing with buying groups because Ron
15 Brown was responsible for the geography within
16 Washington, and he could potentially make
17 decisions about buying groups that would grow
18 outside of his sphere of influence and
19 potentially be making business decisions that
20 would impact other regional managers or other
21 geographies.

22 So what I'm calling out here, and it
23 would -- probably missing a comma, as you can
24 see, in many of my e-mails, I'm not the most
25 grammatically correct person. "I have to tell

1 CONFIDENTIAL - JAKE MEADOWS

2 you Ron and Dan," comma, which I don't have
3 there, "made a decision that was against what
4 Tim Sullivan has directed us to do regarding
5 supporting buying groups."

6 So I don't remember the direction that
7 I got from Tim, but I do remember a direction
8 from my leadership that we wanted to keep those
9 decisions out -- outside of particular small
10 geographies to prevent decisions that create a
11 conflict for us outside of geographies.

12 Q. You are referencing a direction that
13 Tim Sullivan has given in regards to supporting
14 buying groups.

15 Would you have heard the direction
16 from Tim Sullivan directly?

17 A. At this time, probably not.

18 Q. Where would you have heard Tim
19 Sullivan's directions regarding what to do in
20 supporting buying groups, if you can recall?

21 A. I -- I -- Dave.

22 Q. Dave Steck?

23 A. Yes, excuse me, Dave Steck.

24 Q. Would you have heard about Tim
25 Sullivan's direction regarding supporting buying

1 CONFIDENTIAL - JAKE MEADOWS

2 groups from anyone else?

3 A. I don't believe so.

4 Q. What did Dave tell you?

5 A. I don't recall. I believe what I'm
6 referencing in this sentence is the fact that
7 Ron made the decision about a particular buying
8 group within -- without getting authorization
9 from me.

10 Q. In your e-mail to Patty, do you
11 mention to her anywhere that Ron didn't have
12 appropriate authorization?

13 A. Looking at this e-mail, I believe
14 that's what I was referencing, but I clarified
15 "we can talk about this" and then finished my
16 e-mail with, "Let's talk."

17 So I would imagine that if I got on
18 the phone with Patty, I would have clarified for
19 Patty that there were some decisions that were
20 made.

21 Because I want to just check a date.
22 The e-mail for Dave Jacklin to see if Dave
23 Jacklin was in place at the time and Ron was
24 removed. So I'm a little unclear on the
25 timeframe here.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. Sorry, the e-mail that you just
 3 referenced with Dave Jacklin, you just looked
 4 back at CX2353?
 5 A. I didn't look for it, but I was
 6 looking for the date. This is July 17 of 2012.
 7 So I don't know if at the time that I am writing
 8 this e-mail if Ron is still the regional manager
 9 of that geography. So this could have been
 10 something that was -- and it looks like she's
 11 bringing something up to me that was undone, and
 12 as you can see, when she brings it up to me, I
 13 start to work to understand what it is about
 14 this group: How many offices? Has it been
 15 presented? What service discounts? How much
 16 can each office buy? Who's the leader? And I
 17 show interest in doing business with the group
 18 that she described in the first e-mail.
 19 Q. Do you know if you ultimately approved
 20 business with this group?
 21 A. No idea. No idea.
 22 Q. I want to focus on the sentence in
 23 your e-mail that says, "We do not want our
 24 customers organizing and creating what are known
 25 as GPOs."

1 CONFIDENTIAL - JAKE MEADOWS
 2 MR. McDONALD: Object to the form.
 3 A. Is it my understanding that they
 4 take --
 5 No. I talked about the value that --
 6 where we amplify or work together.
 7 Q. Do you have any understanding of what
 8 you meant in the last line of your e-mail where
 9 you said, "It takes the value away from the
 10 distributor"?
 11 A. No, because I don't really understand
 12 how I was using the definition of GPOs.
 13 Q. Is there anything that you could use
 14 to refresh your recollection as to what you
 15 meant by, "It takes the value away from the
 16 distributor"?
 17 A. No.
 18 Q. You mention you don't ever recall
 19 hearing Mr. Sullivan say that he didn't want
 20 customers organizing buying groups.
 21 Is that the type of thing Mr. Sullivan
 22 would say?
 23 MR. McDONALD: Object to the form.
 24 A. I have no idea what the type of thing
 25 Mr. Sullivan would say to me. We talked about

1 CONFIDENTIAL - JAKE MEADOWS
 2 What do you understand that to mean?
 3 A. Again, since I don't know the
 4 definition of how I was using "GPOs" at the
 5 time, I -- I can't clarify what that means.
 6 Q. So sitting here today, you have no
 7 understanding of what you meant there?
 8 A. I don't, because I'm unclear of what
 9 my definition of "GPOs" was at the time because
 10 I think we were misusing a lot of nomenclature.
 11 Q. Is there anything you could use to
 12 refresh your recollection as to what you meant
 13 by your statements in CX170?
 14 A. No.
 15 Q. Did Tim Sullivan ever say that he
 16 didn't want customers organizing buying groups
 17 or GPOs?
 18 A. Not that I recall.
 19 Q. Did Tim Sullivan ever say that he
 20 didn't want to accelerate the trend of buying
 21 groups or GPOs?
 22 A. Not that I recall.
 23 Q. Is it your understanding that buying
 24 groups and GPOs take value away from the
 25 distributor?

1 CONFIDENTIAL - JAKE MEADOWS
 2 normal course of business, and as I said, from
 3 the start of my experience at Sullivan Schein
 4 Dental, I was rewarded for my efforts in
 5 partnering with groups.
 6 Q. You mentioned that you don't recall
 7 ever hearing Mr. Sullivan say that he didn't
 8 want to accelerate the trend of buying groups or
 9 GPOs.
 10 Is that the type of thing that Mr.
 11 Sullivan would say?
 12 MR. McDONALD: Object to the form.
 13 A. I can't comment on what the types of
 14 things Tim would say.
 15 Q. Would a statement --
 16 A. I don't understand.
 17 Q. Would a statement such as not wanting
 18 to accelerate the rise of buying groups be out
 19 of character for Tim Sullivan?
 20 MR. McDONALD: Object to the form.
 21 A. I don't have judgments about
 22 statements that -- I mean, it sounds
 23 hypothetical to me that I would be guessing what
 24 Tim Sullivan would say. I'm not sure I can
 25 answer that question.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. Did you ever hear from Mr. Sullivan
3 that buying groups or GPOs take value away from
4 the distributor?

5 A. Not that I can recall.

6 Q. Do you recall ever having a followup
7 call with Ms. Delikat?

8 A. I do not.

9 Q. Did you ever have a followup call with
10 Mr. Brown about this topic?

11 A. Not that I recall.

12 Q. What about with Mr. Stalford?

13 A. No. No.

14 Q. Did you have responsibility to let Mr.
15 Brown and Mr. Stalford know that they didn't
16 have authority to approve discounts with buying
17 groups?

18 A. Yes.

19 Q. In your normal course of dealing,
20 would you have reached out to them after
21 receiving this e-mail from Ms. Delikat?

22 A. That's where I was asking about
23 whether or not Ron was still in his position,
24 because if I would have gotten an e-mail like
25 this from Patty directly to me, one, it's very

1 CONFIDENTIAL - JAKE MEADOWS
2 rare that an FSC would send me an e-mail without
3 the regional manager like this. So my first
4 response was to help and learn about the group,
5 and then after she described -- I think what
6 really was disturbing here is the discounts were
7 approved by Ron and Dan, and I wasn't familiar
8 with it.

9 So I don't -- I don't recall following
10 up with Ron or Dan because I don't really
11 remember this instance, but I do remember
12 broadly that this was one of the things that I
13 had to speak to Ron about because it was on
14 multiple occasions that he had shared other
15 things within the marketplace.

16 Q. You can put CX170 aside.

17 Who is Jeff Reichardt?

18 A. Reichardt.

19 Q. Reichardt.

20 A. Jeff was the zone general manager of
21 the Southwest. No. No. Excuse me. I'm sorry.
22 Southeast. Then Jeff was the Director of
23 Equipment for the Eastern area, and now Jeff is
24 Director of Equipment within Special Markets.

25 Q. While you were Eastern area director,

1 CONFIDENTIAL - JAKE MEADOWS
2 how often did you interact with Mr. Reichardt?

3 A. Jeff reported to me for the first year
4 and a half, I believe it was, in the Eastern
5 area.

6 Q. Were you responsible for his
7 performance reviews during that time?

8 A. Yes.

9 Q. As part of your job, you would give
10 guidance to Mr. Reichardt?

11 A. Yes.

12 Q. You may have informed Mr. Reichardt of
13 Henry Schein Dental strategy?

14 A. Yes.

15 Q. If Henry Schein Dental had an approved
16 strategy about how to engage with a certain
17 customer segment, you might relay that
18 information to Mr. Reichardt?

19 A. I might.

20 Q. Would you expect Mr. Reichardt to
21 ignore any of your guidance or direction?

22 A. At the time?

23 MR. McDONALD: Object to form.

24 A. At the time, no.

25 Q. And you wouldn't make up false

1 CONFIDENTIAL - JAKE MEADOWS
2 guidance or direction to lead Mr. Reichardt
3 astray?

4 A. No.

5 Q. Do you recall telling Mr. Reichardt
6 that HSD was not participating in any GPOs
7 regardless of what they promised to bring
8 Schein?

9 A. I don't recall saying that.

10 Q. I'm going to hand you a document
11 that's been premarked as CX2354. This is a
12 one-page e-mail string that had been Bates
13 stamped Henry Schein-001518597.

14 Please take a moment to review CX2354
15 and let me know when you're finished.

16 (Complaint Counsel Exhibit CX2354-001,
17 an e-mail string bearing Bates Nos. Henry
18 Schein-001518597, marked for identification,
19 as of this date.)

20 THE WITNESS: Okay.

21 BY MS. ROSNER:

22 Q. You've had a moment to review CX2354?

23 A. I have.

24 Q. The top e-mail in this chain is from
25 Mr. Reichardt on October 27, 2014. Below that

1 CONFIDENTIAL - JAKE MEADOWS
2 is an e-mail from you.

3 You wrote the e-mail in CX2354 as part
4 of your job?

5 A. Yes.

6 Q. It's part of your job to provide
7 instruction to Mr. Reichardt?

8 A. Yes.

9 Q. You had personal knowledge of the
10 contents of the e-mail in CX2354?

11 A. Yes.

12 Q. You wrote the e-mail in CX2354 at or
13 near the time you felt you needed to give
14 instruction to Mr. Reichardt?

15 A. Yes.

16 Q. CX2354 was drafted and maintained in
17 Schein's ordinary course of business?

18 A. Yes.

19 Q. CX2354 is a true and accurate copy of
20 your e-mail correspondence?

21 A. Yes.

22 Q. The e-mail in CX2354 that you write at
23 9:07 in the morning starts, "Do not forward.
24 Quick note. I've received a few FSC phone calls
25 over the last few weeks regarding group

1 CONFIDENTIAL - JAKE MEADOWS
2 purchasing organizations," in parentheses,
3 "(GPO). Just for clarity, we are not
4 participating in any GPOs regardless of what
5 they promise to bring us. We can discuss on
6 Monday EA call."

7 Did I read that correctly?

8 A. Yes.

9 Q. So you're telling Mr. Reichardt that
10 you have received some phone calls about group
11 purchasing organizations; is that right?

12 A. Yes.

13 Q. And we've talked about earlier today,
14 by group purchasing organizations, that could
15 possibly mean buying groups?

16 A. Yes.

17 Q. Then you tell Mr. Reichardt that, "We
18 are not participating in any GPOs," and you see
19 that you have capitalized --

20 A. "Not."

21 Q. -- "not."

22 What do you mean by telling Mr.
23 Reichardt we're not participating in any GPOs?

24 A. So I don't recall writing this e-mail.
25 There's obviously more to it since I call it

1 CONFIDENTIAL - JAKE MEADOWS
2 "quick note." So there was discussion after
3 this, so...

4 Q. You don't recall the e-mail in CX2354?

5 A. No, I do not.

6 Q. Is there anything that could refresh
7 your recollection as to what you meant by the
8 words you used in CX2354?

9 A. Not that I can think of.

10 Q. You go on to say that, "We're not
11 participating in any GPOs regardless of what
12 they promise to bring us."

13 What's your understanding of that
14 statement?

15 A. I think it's -- again, I'm back to
16 2014. This is when I, I believe, had and
17 probably within -- or, I don't know what my
18 definition of GPO at the time. It could have
19 been the incorrect definition.

20 Q. You don't know the definition that
21 you're trying to use in CX2354?

22 A. Correct. At the time, we were doing
23 business with buying groups in the Eastern area,
24 so I think if I was talking in particular to
25 buying groups, I more than likely would have

1 CONFIDENTIAL - JAKE MEADOWS
2 said "buying groups."

3 Q. Sitting here today, can you think of
4 any reason why you would say, "We don't work
5 with a customer regardless of what they bring
6 us"?

7 A. No, I can't. And I can't clarify
8 whether "we" is Jeff and I or Henry Schein
9 either.

10 Q. And just to be clear, in this e-mail
11 you're not telling Mr. Reichardt that the FSCs
12 need to bring buying groups to your attention
13 because you were the only one with authority to
14 approve their pricing; is that right?

15 A. I could have clarified for that on the
16 Monday Eastern area call whose authority it was
17 and how I wanted or we wanted to get that done.
18 It's very within the group that reported to me
19 at the time, who I had Jeff Blair, Michael Porro
20 and Jeff Reichardt that reported to me.

21 There were instances that -- that I
22 would allow one zone manager to approve certain
23 things and not allow another zone manager to
24 approve certain things based on performance, and
25 I -- I read this tone to Jeff Reichardt as that

1 CONFIDENTIAL - JAKE MEADOWS
2 there's going to be followup and that's the
3 purpose of "do not forward." Because it's not a
4 complete message, and I wouldn't want Jeff to
5 send a message that's not complete and doesn't
6 have information, so that's why I said, "Do not
7 forward" and clarify, "Quick note."

8 Q. Did you have that followup with Mr.
9 Reichardt?

10 A. I don't recall.

11 Q. Is there anything that could refresh
12 your recollection about whether you did?

13 A. I do not, no.

14 Q. How did you find out that Schein was
15 not participating in any GPOs regardless of what
16 they promised to bring? Is that something Jake
17 Meadows just created out of anywhere?

18 MR. McDONALD: Object to the form.

19 Mischaracterizes his testimony.

20 A. One, Schein, I believe, does
21 participate with GPOs on the medical side, as we
22 define them today; and, two, as I stated, I'm
23 not sure if I'm referring to the company or Jeff
24 and I.

25 Q. If you are referring to just Jeff and

1 CONFIDENTIAL - JAKE MEADOWS

2 you --

3 A. Uh-huh.

4 Q. -- is that a decision you can make on
5 your own, or does someone like Dave Steck have
6 to give you that direction?

7 A. At that particular time in 2014, Dave
8 Steck I believe would have had to get involved
9 because I was, I believe at this time, an area
10 director, and as I said, in regards to
11 authority, I could be referencing that Jeff and
12 I are not participating and that those decisions
13 would have to go above us.

14 I don't -- I'm speculating about the
15 content of the e-mail because it is so short,
16 and it does reference some other discussion that
17 we had and that it's a quick note and there's
18 obviously much more to this than what's written.

19 Q. Okay. You can put aside CX2354.

20 Who is Robert Anderson III?

21 A. He is a re- -- Bobby, and he's a
22 regional manager in Richmond, Virginia.

23 Q. Bobby reported directly to you?

24 A. No, he reported to Michael Porro, who
25 reported to me, and then Jeff Chatham, who

1 CONFIDENTIAL - JAKE MEADOWS
2 replaced Michael Porro.

3 Q. How much did you interact with Mr.
4 Anderson?

5 A. Every other month.

6 Q. What was the nature of your
7 interaction?

8 A. E-mails or a discussion on a topic on
9 a conference call.

10 Q. As part of your job, did you give
11 guidance to Mr. Anderson?

12 A. Indirectly.

13 Q. Did you inform Mr. Anderson of HSD
14 strategy?

15 A. Indirectly. Maybe directly.

16 Q. If HSD had an approved strategy about
17 how to engage with a certain customer segment,
18 you might relay that information to Mr. Anderson
19 or to his direct supervisors?

20 A. More than likely, I would communicate
21 with the zone manager, who would communicate
22 with the regional manager, unless there was some
23 memo or presentation or something that I was
24 communicating something broad, but I wouldn't
25 reach out and particularly grab Bobby to

1 CONFIDENTIAL - JAKE MEADOWS

2 communicate or a regional manager to say, by the
3 way, you know, we do X or Y, proactively.

4 Q. If you were to communicate an HSD
5 strategy to Mr. Anderson, would you expect him
6 to follow it?

7 A. I would.

8 Q. You wouldn't expect Mr. Anderson to
9 ignore your guidance or direction?

10 A. No, I would not.

11 Q. And you wouldn't make up false
12 guidance or direction to lead Mr. Anderson
13 astray?

14 A. No.

15 Q. We talked about Michael Porro.

16 He reported directly to you?

17 A. Yes.

18 Q. How often did you interact with Mr.
19 Porro?

20 A. Weekly.

21 Q. Are you responsible -- were you
22 responsible for Mr. Porro's performance reviews?

23 A. Yes.

24 Q. And as part of your job, you gave
25 guidance to Mr. Porro?

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. Yes.
 3 Q. You informed Mr. Porro of HSD
 4 strategy?
 5 A. Yes.
 6 Q. If HSD had an approved strategy about
 7 how to engage with a certain customer segment,
 8 you might relay that information to Mr. Porro?
 9 A. Yes.
 10 Q. If you communicated an HSD approved
 11 strategy to Mr. Porro, you would expect him to
 12 follow it?
 13 A. I would.
 14 Q. You wouldn't expect Mr. Porro to
 15 ignore your guidance or direction?
 16 A. I would not expect him to.
 17 Q. And you wouldn't make up false
 18 guidance or direction to lead Mr. Porro astray?
 19 A. No, I would not.
 20 Q. Do you recall telling Mr. Porro and
 21 Mr. Anderson that Schein did not currently
 22 participate with GPOs, nor did it want to?
 23 A. No, I do not.
 24 Q. I'm going to hand you a document
 25 that's been premarked as CX2358. This is a

1 CONFIDENTIAL - JAKE MEADOWS
 2 multi-page e-mail string. The first page of
 3 CX2358 has been Bates-stamped Henry
 4 Schein-000109225.
 5 Please take a moment to review CX2358
 6 and let me know when you've finished.
 7 (Complaint Counsel CX2358-001 through
 8 003, an e-mail string bearing Bates Nos.
 9 Henry Schein-000109225 through 227, marked
 10 for identification, as of this date.)
 11 THE WITNESS: Okay.
 12 BY MS. ROSNER:
 13 Q. You've had an opportunity to review
 14 CX2358?
 15 A. I have.
 16 Q. This is an e-mail string with the
 17 last-in-time e-mail from you dated November 5,
 18 2014. You have written two e-mails in this
 19 string.
 20 You wrote these e-mails as part of
 21 your job?
 22 A. I did.
 23 Q. It's part of your job to communicate
 24 about potential customers?
 25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. You had personal knowledge of the
 3 contents of this e-mail when you wrote it?
 4 A. Yes.
 5 Q. You wrote the e-mail at or around the
 6 time that this issue about Atlantic Dental Care
 7 was raised for you?
 8 A. Yes.
 9 Q. You wrote the e-mails in CX2358 and
 10 maintained them in Schein's ordinary course of
 11 business?
 12 A. Yes.
 13 Q. CX2358 is a true and accurate copy of
 14 your e-mail correspondence?
 15 A. I assume so, yes.
 16 Q. Going to the second e-mail, which is
 17 in the middle of page CX2358-001, you see that
 18 this is an e-mail that you are writing to Mr.
 19 Anderson; is that right?
 20 A. Yes.
 21 Q. You have copied Mr. Steck, Mr.
 22 Sullivan and Michael Porro; is that right?
 23 A. No, Bobby did. Bobby put them on the
 24 string. I just replied to all.
 25 Q. And when you replied to all, it

1 CONFIDENTIAL - JAKE MEADOWS
 2 included Mr. Steck, Mr. Sullivan and Mr. Porro?
 3 A. Yes.
 4 Q. In the middle paragraph of your e-mail
 5 to Bobby, you write, "We do not currently
 6 participate with GPOs nor do we want to."
 7 Did I read that correctly?
 8 A. Yes.
 9 Q. Why are you telling Bobby that "we do
 10 not currently participate with GPOs"?
 11 A. Probably my misinformation on what a
 12 GPO is or my misunderstanding of what group
 13 Bobby is talking about.
 14 Q. If you turn to the next page,
 15 CX2358-002?
 16 A. Uh-huh.
 17 Q. Bobby is referring to this group
 18 called Atlantic Dental Care, or ADC?
 19 A. Yes.
 20 Q. Are you familiar with that group?
 21 A. I'm familiar that they -- I couldn't
 22 tell you about their business model, but I'm
 23 familiar with the term, the name.
 24 Q. You've heard of the ADC Group?
 25 A. Yes. Yes.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. Do you understand them to be a group
 3 of dentists?
 4 MR. McDONALD: Object to the form.
 5 Q. ADC?
 6 MR. McDONALD: Object to the form.
 7 A. I understand, yes, I understand them
 8 to be a group. I'm not sure what their business
 9 model is, how many dentists are involved, or who
 10 owns what practices or anything.
 11 Q. You don't know anything about the
 12 ownership structure?
 13 A. Correct.
 14 Q. But you understand ADC as a group is
 15 looking to partner with a distributor?
 16 A. Yes.
 17 Q. And at the time, did you understand
 18 that Benco was offering pricing to ADC?
 19 A. At the time, I -- I would have read
 20 this e-mail that said, "ADC recruits with
 21 stating," but I wouldn't understand that they
 22 actually had this, whether that's a true
 23 statement about what Benco does with them.
 24 Q. You understood that Bobby was trying
 25 to tell that you Benco was trying to offer

1 CONFIDENTIAL - JAKE MEADOWS
 2 pricing to ADC, but you had no independent way
 3 to verify --
 4 A. No.
 5 Q. -- that information?
 6 A. No.
 7 Q. So given that Bobby is telling you
 8 about this group ADC that Benco is trying to
 9 win, how do you understand your statement, "We
 10 do not currently participate with GPOs nor do we
 11 want to"?
 12 A. I particularly remember this group and
 13 other groups in Virginia that we continued to
 14 give to Hal Muller and Randy, Randy --
 15 I forget his last name.
 16 Q. Is it Randy Foley?
 17 A. Randy Foley, yes.
 18 -- Randy Foley in the Special Markets
 19 Group, and there were times where, again, if
 20 this is -- this is during our Project Pyramid
 21 timeframe, where I think we were going back and
 22 forth about who was going to handle these
 23 different groups.
 24 So it's very possible that I'm
 25 referring to "we" as Bobby and myself and

1 CONFIDENTIAL - JAKE MEADOWS
 2 Michael, not Henry Schein Inc. Because I do --
 3 and I'm not sure if it's Atlantic Dental Care or
 4 Midatlantic Dental Care, which I think -- I
 5 always get these two groups confused, but I do
 6 know that there were a lot of groups like that
 7 in Virginia where, in this moment of time, I
 8 think we had either decided that Special Markets
 9 was going to handle these and we were -- we were
 10 pushing them to Special Markets.
 11 Q. In this period of time while you were
 12 pushing groups to Special Markets, were you also
 13 encouraging the FSCs to compete locally for the
 14 individual buying group members?
 15 A. The ones that we didn't have contracts
 16 with, yes.
 17 Q. Does it seem inconsistent to try to
 18 win the overall business while syphoning away
 19 the individual accounts at the same time?
 20 A. No, because in this particular case --
 21 or, actually, I can't speak to this. I'll just
 22 answer your question generally.
 23 We would not hold off doing business
 24 with a particular dentist until a contract was
 25 completed with a group above them. So, even

1 CONFIDENTIAL - JAKE MEADOWS
 2 across customers that we don't have agreements
 3 within their buying group and they're part of a
 4 group, they call us for service, we still send a
 5 service tech there. If they want to buy a
 6 product that -- that they have an agreement with
 7 some group, like, for instance, this group is
 8 with Benco and Benco doesn't deal the 3Shape
 9 TRIOS Scanner, we would proactively go in and
 10 try to sell them the 3Shape Scanner as part of
 11 that.
 12 So it's a normal course of business
 13 for us to, every single door, pull every single
 14 door -- or, excuse me, let me use a better
 15 term -- for us to attempt to sell to every
 16 dentist.
 17 Q. If Schein has an agreement with a
 18 buying group to do business with the group, does
 19 Schein still have its FSCs attempt to sell to
 20 the buying group members at greater discounts?
 21 A. Can you ask that one one more time? I
 22 missed the first part.
 23 Q. If Schein has an agreement with a
 24 buying group in place?
 25 A. Yes.

CONFIDENTIAL - JAKE MEADOWS

Q. Is it the practice of Schein to also have the FSCs go into the member accounts to try to sell them at a lower -- at a greater discount?

A. I think it's case-by-case, and if you're generalizing for all of Schein, I think we could say it's case-by-case.

Our strategy that we built in Henry Schein Dental was the FSCs would go in, as we discussed this morning, and we would present or agree to a formulary price and a list of offerings. Go in to get an agreement with a buying group, go out and clarify that agreement that we made on behalf of the buying group, or the buying group would do that, and then the FSCs would work their way through the offering of products that that particular customer would buy and would discount accordingly on top of the formulary that was made at that larger agreement.

Q. I'm going to refer you back to CX2358. Thank you for that explanation. That was helpful. Referring you back to CX2358 to your

CONFIDENTIAL - JAKE MEADOWS

sentence, "We do not currently participate with GPOs nor do we want to."

A. Yeah.

Q. Why wouldn't you want to participate with GPOs?

A. In particular, I believe that I'm referring -- because, again, this timeframe, and I can't necessarily put the dates down -- that the "we" is the Henry Schein Dental field structure versus Hal and Randy's group, who also had some buying groups that they were responsible for.

At this time, and actually, over the course of the last few years, our two groups have been bumping into one another and at times found ourselves to be competing with one another, which would -- not knowingly competing with one another, that would undermine our relationships and we would look like idiots in front of customers.

So there were times where we were clarifying, and I was pulling my team back saying, no, no, no, we are not going to go deal with this customer, and then we would go get the

CONFIDENTIAL - JAKE MEADOWS

Special Markets Group involved.

And then the fights, right, were actually internal fights amongst Randy and myself and Pam Reece, who reported to Randy and myself, and then Hal and myself and Hal and us and others. So there were there was a good amount of infighting on who would get sales credit for some of these groups, and then we had some people -- and it's very possible with Bobby we had some people, in order to pad their own sales results, would not necessarily present it as -- as what it was to make sure it stayed on their P&L and not in Special Markets and vice-versa.

Q. So is it your testimony that it's your understanding that this e-mail is about the internal struggle between Special Markets and HSD for the ADC account?

A. I would -- I would have to assume so because, again, if we use this definition of GPOs synonymous with buying groups, we do business with buying groups, and we want to do business with buying groups. And at the time in 2014 and before we've proactively wanted to do

CONFIDENTIAL - JAKE MEADOWS

business with buying groups and done business with buying groups.

So I would have to assume that these are part of that Project Pyramid, you know, which I'm summarizing with that, but part of this discussion internally.

Q. I guess my question is is this based on a specific memory of this e-mail, or are you speculating?

A. No. No. Timeframe, one, it's based on the fact that the statement -- if you take that segment of the sentence that says, "We do not currently participate with GPOs nor do we want to," that said to someone outside of Henry Schein would not make sense because it would sound like Henry Schein doesn't want to do business with GPOs.

But if you said that to an internal group of people in management, it could be interpreted as Henry Schein Dental versus Henry Schein Special Markets, and that's why this morning I asked you for that clarity and all day have asked you for that clarity. Because it's a very important part of where we struggled with

1 CONFIDENTIAL - JAKE MEADOWS
2 our Project Pyramid and bringing this all
3 together.

4 Q. So the middle e-mail on page
5 CX2358-001 is a response to Bobby that copies
6 Michael Porro. You then forward that e-mail --

7 A. Yes.

8 Q. -- to just Tim Sullivan and Dave
9 Steck. Do you see that?

10 A. Yes.

11 Q. You have dropped off Bobby and Mr.
12 Porro?

13 A. Yes.

14 Q. And you tell Mr. Sullivan and Steck,
15 "I've got this. Another GPO fight."

16 A. Yes.

17 Q. What are you referring to there?

18 A. I don't recall necessarily on this
19 particular one, but I do recall discussions with
20 3M about letting us have the same Special
21 Markets pricing, the charge-backs in Henry
22 Schein Dental that Hal Muller's group had so
23 that we could go compete within or better
24 compete within the, again, GPO or buying group
25 space.

1 CONFIDENTIAL - JAKE MEADOWS
2 So, again, that's -- that to me is
3 around us wanting to engage our manufacturers so
4 that we could be better in the buying group and
5 GPO space.

6 Q. You end your e-mail with, "Unless
7 there is another dialogue you would like to see
8 from me to the team, we're forging ahead,"
9 Exclamation point.

10 A. Yes.

11 Q. Did you ever -- what did you mean by
12 "forging ahead"?

13 A. I don't know when I wrote this e-mail
14 what in particular I'm referencing.

15 Q. Did you ever hear from Mr. Sullivan or
16 Steck about a different dialogue they wanted you
17 to deliver to the team?

18 A. I don't recall.

19 Q. Going back to Mr. Anderson's e-mail on
20 CX2358-002 on the next page?

21 A. Uh-huh.

22 Q. He's telling you that Benco is
23 potentially competing for the ADC account.

24 Do you have any reason to doubt
25 whether Benco would be competing for a buying

1 CONFIDENTIAL - JAKE MEADOWS
2 group?

3 MR. McDONALD: Object to the form.

4 A. Do I have any reason to doubt that
5 Benco would be competing for a buying group?

6 MR. McDONALD: Object to the form.

7 A. It's -- it's -- I really don't put a
8 lot of thought to what my competitors are doing
9 to compete with anyone.

10 Q. Upon reading this e-mail, did it
11 strike you as odd that Benco was going after a
12 buying group?

13 A. I don't recall receiving this e-mail
14 or what I thought when I received this e-mail.

15 Q. Have you ever heard that Benco doesn't
16 work with buying groups?

17 A. I don't recall ever hearing that.

18 Q. You can put CX2358 aside.

19 Are you familiar with a group
20 KlearImpakt?

21 A. I am.

22 Q. What is KlearImpakt?

23 A. A buying group out of Reno, Nevada
24 that has -- headed by two dentists that do
25 education on implantology, and their members I

1 CONFIDENTIAL - JAKE MEADOWS
2 think are regularly educated by that group, and
3 then Joe and Kathleen, I think, are the ones
4 that found this group and negotiated and brought
5 them to us. That's about what I know.

6 Q. "Joe" is Joe Cavaretta?

7 A. Yes. And "Kathleen" is Kathleen
8 Titus.

9 Q. How do you know about KlearImpakt?

10 A. Joe informed me. Joe Cavaretta
11 informed me.

12 Q. Why did Schein agree to work with
13 KlearImpakt?

14 A. I have -- I don't recall and don't
15 know. That was based out of Reno, Nevada, and I
16 was not involved in that decision-making.

17 Q. What benefit does Schein get from a
18 partnership with KlearImpakt?

19 MR. McDONALD: Object to the form.
20 He just told he doesn't know about
21 them.

22 A. I don't know KlearImpakt well enough
23 to talk about that.

24 Q. Who at Schein approved working with
25 KlearImpakt?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I don't know who approved it.

3 Q. Do you ever recall a time when
4 KlearImpakt was starting to enroll accounts in
5 your area while you were the VP of Sales of the
6 Eastern area?

7 A. I'm sorry, what was the question?

8 Q. Do you ever recall a time when
9 KlearImpakt was starting to enroll accounts in
10 your area while you were the VP of Sales for the
11 Eastern area?

12 A. I don't recall the exact time, but I
13 believe there was something in Philadelphia or
14 Kentucky.

15 Q. Involving KlearImpakt?

16 A. Involving KlearImpakt, but I don't
17 remember the exact instance.

18 Q. Do you remember having a sentiment of
19 not wanting to spread the word on KlearImpakt?

20 A. No, I don't recall that.

21 Q. I'm going to show you a document
22 that's been premarked as CX2387. It's a
23 multi-page e-mail chain. The first e-mail has
24 been Bates-stamped Henry Schein-001518966.

25 Please take a moment to review CX2387

1 CONFIDENTIAL - JAKE MEADOWS

2 and let me know when you're finished.

3 (Complaint Counsel CX2387-001 through
4 003, an e-mail string bearing Bates Nos.
5 Henry Schein-001518966 through 68, marked
6 for identification, as of this date.)

7 THE WITNESS: Okay.

8 BY MS. ROSNER:

9 Q. You've had an opportunity to review
10 CX2387?

11 A. I have.

12 Q. This is an e-mail. The last-in-time
13 e-mail is from Mr. Anderson dated October 20,
14 2015. You have one e-mail in this string on the
15 middle of CX2387-001.

16 Did you write this e-mail as part of
17 your job?

18 A. Yes.

19 Q. It's part of your job to respond to
20 requests about potential customers?

21 A. Yes.

22 Q. You wrote the e-mail in CX2387 at or
23 near the time this inquiry about KlearImpakt
24 arose?

25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You have personal knowledge of the
3 contents of your e-mail?

4 A. I'm reading it. Yes.

5 Q. You wrote and maintained the e-mail in
6 CX2387 in the course of Schein's ordinary
7 business?

8 A. Yes.

9 Q. CX2387 is a true and accurate copy of
10 your e-mail correspondence?

11 A. Yes.

12 Q. I'm going to refer you to your e-mail
13 on CX2387-001. In the second line of your
14 e-mail at 7:45 a.m., you say, "There's more that
15 we should discuss with Patrick about not
16 spreading this and how to work the formulary for
17 this account."

18 A. Right.

19 Q. Who's Patrick that you're referring
20 to?

21 A. Patrick Eavey. He's the first person
22 who started the string. He's an FSC in
23 Virginia.

24 Q. And Patrick Eavey would report --

25 A. To Bobby; and Bobby reports to Jeff

1 CONFIDENTIAL - JAKE MEADOWS

2 Chatham and Jeff Chatham reports to me.

3 Q. What do you mean by saying that you
4 need to discuss with Patrick about not spreading
5 KlearImpakt?

6 MR. McDONALD: Object to the form.

7 He just -- you just made up a word in
8 this e-mail that says about spreading
9 "this."

10 Q. Do you understand "this" to refer to
11 KlearImpakt?

12 A. No, I don't.

13 Q. What do you refer -- what do you
14 understand the word "this" to refer to?

15 A. I don't know.

16 Q. What's your understanding of the
17 direction, "We should discuss with Patrick about
18 not spreading this"?

19 A. It could be the link that Patrick has
20 here. It could be the details about the
21 Louisville Dental School with Dr. -- that
22 particular person.

23 I don't remember the instance, but I
24 think that's where I call out -- I mean, we
25 would have -- "There's more that we should

1 CONFIDENTIAL - JAKE MEADOWS
 2 discuss," so we probably would have had a
 3 followup phone call with Patrick to clarify.
 4 Q. Do you recall this e-mail at all?
 5 A. No.
 6 Q. Is there anything that could refresh
 7 your recollection about what you were trying to
 8 convey in this e-mail?
 9 A. No.
 10 Q. Do you have any understanding of what
 11 you mean by "how to work the formulary for this
 12 account"?
 13 A. Yes.
 14 Q. What does that mean?
 15 A. How to get the most for the customer
 16 out of the formulary and sell the most.
 17 Q. Why is it that you have an
 18 understanding of what that phrase means?
 19 A. That terminology, "work the
 20 formulary," I'm not sure that's a common
 21 language that I would use, but it's something
 22 that around this time we were making sure that
 23 every FSC that ended up getting a customer
 24 within a buying group that we used a formulary
 25 with understood how to help the customer take

1 CONFIDENTIAL - JAKE MEADOWS
 2 advantage of the discount that we would
 3 negotiate with the buying group and how to show
 4 the customer the benefits of the formulary items
 5 versus the items that were not on formulary.
 6 So there were certain things that FSCs
 7 would have had the opportunity to do to create
 8 value around the relationship we created with a
 9 buying group that we needed to make sure Patrick
 10 was aware of.
 11 Q. Did all FSCs need to know how to work
 12 the formulary?
 13 A. Yes.
 14 Q. Was there generalized trainings for
 15 FSCs on how to work the formulary?
 16 MR. McDONALD: Object to the form.
 17 A. There were times that regional -- I'm
 18 generalizing. Regional managers would do
 19 formulary training at sales meetings that
 20 happened monthly, and at our national sales
 21 meetings we would talk about and celebrate the
 22 fact that we've built formularies for buying
 23 groups and try to get the team engaged.
 24 Q. Is there some reason why you think
 25 that Mr. Eavey needs particularized training on

1 CONFIDENTIAL - JAKE MEADOWS
 2 the KlearImpakt formulary?
 3 A. Yes, he has a -- he has a KlearImpakt
 4 customer, it seems like, and we would want to
 5 make sure that Patrick would reflect the value
 6 that we promised to the buying group that we
 7 would create.
 8 Q. Did you have some understanding that
 9 Mr. Eavey didn't know how to work with
 10 formularies?
 11 A. No.
 12 Q. You can put CX2387 aside.
 13 I have potentially one more document
 14 to review with you, if that's okay, before we
 15 break for lunch.
 16 A. Yeah.
 17 Q. Who is Dave Panaro?
 18 A. Regional -- formerly, a regional
 19 manager in northern Virginia. Now not with the
 20 company.
 21 Q. Did Mr. Panaro report directly to you?
 22 A. No; he reported to Michael Porro and
 23 then Jeff Chatham and up to me.
 24 Q. How often did you and Mr. Panaro
 25 interact?

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. As much as I interacted with Bobby.
 3 You know, once a month or, you know, in a group
 4 setting.
 5 Q. Did you have to sign off on Mr.
 6 Panaro's performance reviews?
 7 A. I would be the -- I'm not sure in the
 8 system. I don't remember if I would have been
 9 an approver of his -- I believe I would have.
 10 Q. As part of your job, you would have
 11 given guidance to Panaro, either directly or
 12 indirectly?
 13 A. Yes.
 14 Q. You would have informed Mr. Panaro of
 15 HSD's strategy, either directly or indirectly?
 16 A. Yes.
 17 Q. If HSD had an approved strategy about
 18 how to engage with a certain customer segment,
 19 you might relay that information to Mr. Panaro?
 20 A. Yes.
 21 Q. If you communicated an HSD approved
 22 strategy to Mr. Panaro, you expected him to
 23 follow it?
 24 A. Yes.
 25 Q. You wouldn't expect Mr. Panaro to

1 CONFIDENTIAL - JAKE MEADOWS
 2 ignore your guidance or direction?
 3 A. I would not expect him to.
 4 Q. And you wouldn't make up false
 5 guidance or direction to lead Mr. Panaro astray?
 6 A. No.
 7 Q. Who is Susan Byrd Harvey?
 8 A. Formally an FSC in northern Virginia.
 9 Q. Ms. Byrd Harvey reported up through
 10 you?
 11 A. She reported to Dave Panaro. Dave
 12 Panaro reported to Michael Porro or Jeff
 13 Chatham, who reported to me.
 14 Q. How often did you interact with Ms.
 15 Byrd Harvey?
 16 A. Once or twice a year.
 17 Q. Is it often that FSCs would reach out
 18 to you directly while you were the VP of Sales
 19 for the Eastern area?
 20 A. Not often.
 21 Q. Do you recall Ms. Byrd Harvey
 22 e-mailing you about the Potomac Valley Dental
 23 Group?
 24 A. No.
 25 Q. Do you know anything about the Potomac

1 CONFIDENTIAL - JAKE MEADOWS
 2 Valley Dental Group?
 3 A. I know Potomac Valley is the northern
 4 Virginia area, Maryland area. I don't know.
 5 Q. Do you know what services Potomac
 6 Valley were going to provide its members?
 7 A. Today I don't know.
 8 Q. Do you know whether Potomac Valley was
 9 going to be exclusive with its selected
 10 distributor?
 11 A. You keep saying "was." I'm not even
 12 sure if they exist or don't exist. So I'm not
 13 sure if you're referring to a timeframe of
 14 whether or not they were going to do something.
 15 I'm just focused on making sure I'm
 16 understanding you correctly.
 17 Q. Sure.
 18 So did you understand that Ms. Byrd
 19 Harvey reached out to you in October of 2015
 20 about the Potomac Valley Dental Group?
 21 A. I don't --
 22 MR. McDONALD: Object to form.
 23 A. I don't recall that.
 24 Q. I'm going to show you a document
 25 that's been previously marked as CX2393. This

1 CONFIDENTIAL - JAKE MEADOWS
 2 is an e-mail string. The first page of the
 3 e-mail has been Bates-stamped Henry
 4 Schein-000046912.
 5 Please take a moment to review CX2393
 6 and let me know when you're finished.
 7 (Complaint Counsel CX2393-001 through
 8 002, an e-mail string bearing Bates Nos.
 9 Henry Schein-000046912 through 913, marked
 10 for identification, as of this date.)
 11 THE WITNESS: Okay.
 12 BY MS. ROSNER:
 13 Q. You've had an opportunity to review
 14 CX2393?
 15 A. Yes.
 16 Q. It's an e-mail with the top e-mail
 17 from you dated November 4, 2015. You have a
 18 couple of e-mails in this string.
 19 You wrote the e-mails in CX2393 as
 20 part of your job?
 21 A. Yes.
 22 Q. It's part of your job to communicate
 23 about potential customers?
 24 A. Yes.
 25 Q. You wrote this e-mail at or near the

1 CONFIDENTIAL - JAKE MEADOWS
 2 time that Ms. Susan Byrd Harvey was referencing
 3 to you the Potomac Valley Dental Group?
 4 A. Yes, but I am unclear since there
 5 seems to be a segment of this e-mail missing.
 6 The "to" and "from" -- or, at least it looks to
 7 me the "to" and "from" from Susan Byrd Harvey at
 8 6:26 a.m., all of the "from," "sent," "to" and
 9 subject line are missing, so I can't speak to
 10 whether I copied and paste that from another
 11 string into this e-mail or it was something that
 12 was forwarded to me.
 13 That seems odd, and I'm unclear about
 14 what could have happened between that.
 15 Q. That's fair enough.
 16 A. Or the time stamp. That could have
 17 been -- you know, again, without all that there,
 18 I'm not real comfortable saying that I
 19 understand this string.
 20 Q. I'll represent to you that what you
 21 see in 2393 was exactly how Schein produced this
 22 document.
 23 A. Okay.
 24 Q. And that I agree that you can't see
 25 who Ms. Susan Byrd Harvey was actually

1 CONFIDENTIAL - JAKE MEADOWS
 2 responding to in her e-mail on page 2393 --
 3 A. Okay.
 4 Q. -002, so I'll grant you that.
 5 But it's your understanding that --
 6 A. I can speak for the dialogue that
 7 happens that I created and after.
 8 Q. Great.
 9 And the dialogue that you created,
 10 which appears on page CX2393-001, for the most
 11 part, was written at or near the time you got
 12 this e-mail from Ms. Susan Byrd Harvey?
 13 A. That I cannot speak to because, again,
 14 all that stuff is missing. So it looks like
 15 November 4, 2015 there was some dialogue with
 16 Susan Byrd Harvey and that, I mean, there could
 17 have been something personal. I knew Susan
 18 personally because she and I were FSCs together
 19 in DC, so there could have been something
 20 personal within the string about her family or
 21 her personal situation that I didn't want to
 22 include there. So I can't speak to this "good
 23 morning" piece and when that happened without
 24 that information.
 25 Q. I'll just simply represent to you that

1 CONFIDENTIAL - JAKE MEADOWS
 2 you did not copy and paste this e-mail. You
 3 were simply forwarding on an e-mail.
 4 Did you draft the e-mails in CX2394?
 5 A. Yes.
 6 Q. Based on your own personal knowledge?
 7 A. Yes. Yes.
 8 MR. McDONALD: I got to tell you I
 9 don't know about your representation. I
 10 mean, you can't represent whether or not he
 11 took something out of that e-mail. Unless
 12 you have the original e-mails from him.
 13 MS. ROSNER: Fair enough.
 14 BY MS. ROSNER:
 15 Q. Is there any reason to suspect that
 16 the e-mails in 2393 that you wrote are not true
 17 and accurate copies of your e-mail
 18 correspondence?
 19 A. No, I can't say that, because like I
 20 said, this line is odd. This whole e-mail to me
 21 just -- the way it's laid out compared to the
 22 other e-mails that we looked at just looks odd
 23 to me. You can ask me some questions.
 24 Q. Okay.
 25 A. It just looks odd. That's all.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. So in the bottom e-mail of 2393-001,
 3 you direct Dave Panaro, "This is the type of
 4 dialogue you need to get in front of"?
 5 A. Uh-huh.
 6 Q. You are referencing the dialogue that
 7 Susan Byrd Harvey has sent to you; is that
 8 right?
 9 A. I don't know.
 10 Q. Is there anything that could refresh
 11 your recollection?
 12 A. No.
 13 Q. In the top e-mail of CX2393-001, you
 14 write, "We're going to do that but it's
 15 important you guys have plans to win in the
 16 Market without buying groups."
 17 Do you see that?
 18 A. Yes.
 19 Q. Why is it important to win in the
 20 market without buying groups?
 21 A. Because not every private practice
 22 will choose to associate themselves with a
 23 buying group.
 24 Q. To the extent a customer is associated
 25 with a buying group, would Schein have a

1 CONFIDENTIAL - JAKE MEADOWS
 2 strategy of trying to win the customer without
 3 the buying group?
 4 MR. McDONALD: Object to the form.
 5 A. Can you ask that question again?
 6 (Record read.)
 7 A. No; if we were in -- well, let me
 8 clarify. If we were in agreement with the
 9 customer -- or, excuse me, with a buying group,
 10 if it were a buying group that we had a contract
 11 with and we were participating in, then we would
 12 not try to convince that customer not to --
 13 like, for instance, if they were an Alpha Omega
 14 customer, as I referenced earlier, we wouldn't
 15 go say, hey, you don't need Alpha Omega or don't
 16 work with Alpha Omega.
 17 If it were a customer where we did not
 18 have that agreement of the buying group, as I
 19 explain in the example that you asked about
 20 whether -- why would we go try to sell to this
 21 customer before an agreement whereas if we
 22 didn't have the agreement, we would want to go
 23 proactively pull every door, as I said, and call
 24 on every dentist.
 25 Q. If there's an opportunity to win in

1 CONFIDENTIAL - JAKE MEADOWS
2 the market with a buying group, would you
3 instruct your team to try to win in the market
4 without the buying group?

5 MR. McDONALD: Object to the form.

6 A. That would be a case-by-case basis and
7 a region-by-region basis and a
8 territory-by-territory basis. That is so
9 case-by-case.

10 Q. Is there some reason you wanted your
11 team to know that they could not assume that
12 Schein would do business with Potomac Valley
13 Dental Group?

14 A. I can't speak in particular to Potomac
15 Valley Dental Group, but what I would always
16 reinforce to the management team is that before
17 they go and make commitments or dispatch our
18 sales team towards certain activities, that they
19 did a full evaluation of that particular group,
20 or we as a company did a full evaluation of a
21 group.

22 So if in this string you're suggesting
23 that we're discussing a potential group, then I
24 would have suggested, hey, let's do our due
25 diligence and see what the opportunities are

1 CONFIDENTIAL - JAKE MEADOWS
2 with this group and how they fit in in regards
3 to complementing our strategy to grow, retain,
4 and bring our mission to life.

5 Q. I'm going to refer you to the last
6 sentence of your top e-mail on CX2393-001.

7 The last sentence reads, "But don't
8 assume we're doing business with this group."

9 A. Yes.

10 Q. "This group" refers to Potomac Valley
11 Dental Group?

12 A. Again, I'm not -- if -- if we're not
13 missing any e-mails or -- I -- I can't speak to
14 that.

15 Q. Is there --

16 A. Because this -- this could be, I mean,
17 if there are e-mails missing here, we could be
18 talking about a group practice.

19 Q. Is there any reason that you would
20 direct your team to not assume Schein would do
21 business with a buying group?

22 A. Yes.

23 Q. Why might that be?

24 A. If we didn't know enough about that
25 particular group.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Assuming you knew everything about a
3 group and it was attractive, is there any reason
4 why you would instruct your team not to assume
5 that Schein would do business with a buying
6 group?

7 MR. McDONALD: Object to the form.

8 A. There is -- if -- to use your word
9 "attractive," if there was a business and a
10 partnership that I felt could help us grow,
11 retain, and bring our mission to life, and was
12 not -- yes, the answer to the question is I
13 think -- I think I'm answering your question
14 correctly -- or, not correctly, but that I have
15 clarity on your question.

16 If there was an organization that was,
17 from a business standpoint, attractive to do
18 business with, we would do business with that
19 organization, and have done business with that
20 organization.

21 Q. Was the Potomac Valley Dental Group an
22 attractive business to do -- excuse me. Strike
23 that.

24 Was the Potomac Valley Dental Group an
25 attractive group to do business with?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I have -- I could not tell you
3 anything about the Potomac Valley Dental Group
4 besides the Potomac Valley is like that northern
5 Virginia, Maryland area.

6 MS. ROSNER: We can go off the record.
7 Take a break.

8 THE VIDEOGRAPHER: The time is 12:44
9 p.m. We're off the record.

1 CONFIDENTIAL - JAKE MEADOWS

2 AFTERNOON SESSION

3 THE VIDEOGRAPHER: The time is 1:43

4 p.m. We are on the record.

5 JAKE MEADOWS, resumed and

6 testified further as follows:

7 EXAMINATION BY (Cont'd.)

8 MS. ROSNER:

9 Q. Mr. Brady, welcome back from lunch.

10 A. Meadows.

11 Q. Excuse me. Mr. Meadows. I apologize.

12 A. That's fine.

13 Q. Sincere apologies.

14 A. I'm helping.

15 Q. Welcome back from lunch, Mr. Meadows.

16 A. Thank you.

17 Q. I would like to talk about Dental
18 Gator.

19 Are you familiar with Dental Gator?

20 A. Yes.

21 Q. What is Dental Gator?

22 A. A -- a buying group and an affiliation
23 model for MB2.

24 Q. Dental Gator for a period of time was
25 a Special Markets customer; is that right?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes, I -- yes. I'm -- I'm under the
3 impression it still is today.

4 Q. And MB2, which you mentioned, was --
5 is also a member -- strike that.

6 MB2, the entity that you mentioned, is
7 also a Special Markets customer?

8 A. Yes.

9 Q. MB2 is an elite DSO?

10 A. That definition is fine, yes.

11 Q. MB2 does more than \$2 million in
12 merchandise with Schein?

13 A. Off the top of my head, I don't
14 remember, but I believe that's appropriate.

15 Q. MB2 opened Dental Gator as a way to
16 recruit new MB2-owned affiliates?

17 MR. McDONALD: Object to the form.

18 A. I'm not sure exactly what their intent
19 in doing it. I only can describe the model as I
20 described it, from my knowledge.

21 Q. Do you have any sense of whether MB2
22 has had success with recruiting new affiliates
23 through the Dental Gator model?

24 A. My understanding is that they have had
25 success.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Is it your understanding that Dental
3 Gator was opened without Schein's knowledge?

4 A. When you say "Schein," do you mean
5 Henry Schein Dental and Henry Schein Special
6 Markets?

7 Q. Yes.

8 A. Both?

9 Q. Yes.

10 A. I don't -- I don't know.

11 Q. Is it your understanding that Dental
12 Gator provides a variety of services to its
13 membership?

14 MR. McDONALD: Object to the form.

15 A. Is it my understanding that -- I'm
16 sorry. Is it my understanding that? Can you
17 say it again?

18 Q. Is it your understanding that Dental
19 Gator provides a variety of services to its
20 membership?

21 A. Yes.

22 Q. Did you ever consider Dental Gator as
23 raising a bad issue for Schein?

24 MR. McDONALD: Object to the form.

25 A. I don't --

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Let me strike the question and reask
3 it.

4 Did you ever characterize Dental Gator
5 as a bad issue for Schein?

6 A. Not that I recall.

7 Q. I'm going to hand you a document
8 that's been previously marked as CX2362. This
9 is an e-mail string.

10 CX2362 bears the Bates stamp on the
11 first page Henry Schein-000045633.

12 Please take a moment to review CX2362
13 and let me know when you're ready.

14 (Complaint Counsel Exhibit CX2362-001
15 through 003, an e-mail string bearing Bates
16 Nos. Henry Schein-000045633 through 635,
17 marked for identification, as of this date.)

18 THE WITNESS: Okay.

19 BY MS. ROSNER:

20 Q. You've had an opportunity to review
21 CX2362?

22 A. Yes.

23 Q. This is an e-mail string. The last
24 e-mail in the string is by Russ Baker on
25 November 16, 2014.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes.

3 Q. You have some e-mails in the string.
4 You wrote the e-mails in CX2362 as
5 part of your job?

6 A. Yes.

7 Q. It's part of your job to respond to
8 e-mails about customer accounts?

9 A. Yes.

10 Q. You had personal knowledge of the
11 contents of this e-mail when you wrote it?

12 A. I've read it, yes.

13 Q. You wrote the e-mail near or at the
14 time that you received information about the
15 customer account that's discussed therein?

16 A. Yes.

17 Q. You wrote and Schein maintained this
18 e-mail in the ordinary course of business?

19 A. Yes.

20 Q. Is e-mail 26 -- strike that.
21 CX2362 is a true and accurate copy of
22 your e-mail correspondence?

23 A. It appears to be.

24 Q. I'm going to refer you to the second
25 e-mail from the top of the page on CX2362-001.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Uh-huh.

3 Q. It's from 3:18, and you write,
4 "Thanks. I need as much info as possible
5 because I'm presenting the GPO issue to
6 leadership next week. I know how bad of an
7 issue Dental Gator is."

8 Did I read that correctly?

9 A. Yes.

10 Q. What did you mean when you say, "I
11 know how bad of an issue Dental Gator is"?

12 A. To my earlier point about who was
13 getting sales credit for these customers, the
14 issue with Dental Gator was I felt as if it
15 should have been part of the Henry Schein Dental
16 sales results versus the Henry Schein Special
17 Markets sales results.

18 Q. And so the fact that Dental Gator was
19 assigned to Special Markets was creating an
20 issue for you and Henry Schein Dental?

21 A. It was presenting an issue for the --
22 the issue it was presenting was the
23 inconsistency of results for us to reach budget
24 internally.

25 Q. And you mention that you're going to

1 CONFIDENTIAL - JAKE MEADOWS
2 present the GPO issue to leadership next week?

3 A. Yeah.

4 Q. Would that include this Dental Gator
5 issue?

6 A. I don't recall what presentation I'm
7 referring to.

8 Q. You don't -- sitting here today, you
9 don't have a recollection of any of the topics
10 you were going to discuss with leadership?

11 A. No.

12 Q. Who is leadership that you refer to?

13 A. I don't know who I'm referring to
14 here.

15 Q. Is there anything that could refresh
16 your recollection about what you presented or
17 who you presented it to?

18 A. Not that I can think of.

19 Q. Okay. You can put CX2362 aside.

20 To the extent you did have a meeting
21 with leadership, would you have presented or
22 brainstormed questions to present to the
23 meeting?

24 A. I'm not -- would I have prepared for
25 the meeting is the question?

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Yes.

3 A. I couldn't -- I couldn't say.

4 Q. Okay. I'm going to show you a
5 document that's been premarked as CX2364. This
6 is an e-mail string. The first page Bates is
7 Henry Schein-001589713.

8 Please take a moment to review CX2364
9 and let me know when you're done.

10 (Complaint Counsel Exhibit CX2364-001
11 through 002, an e-mail string bearing Bates
12 Nos. Henry Schein-001589713 through 714,
13 marked for identification, as of this date.)

14 THE WITNESS: Okay.

15 BY MS. ROSNER:

16 Q. You had an opportunity to review
17 CX2364?

18 A. I have.

19 Q. This is an e-mail string. The
20 last-in-time e-mail is from you on November 19,
21 2014. There are a couple of e-mails from you
22 throughout this string.

23 You wrote the e-mails in CX2364 as
24 part of your job?

25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. It's part of your job to prepare for
3 meetings with senior leadership?

4 A. It is.

5 Q. You had personal knowledge of the
6 contents of the e-mails at the time you wrote
7 the e-mails in CX2364?

8 A. There's an attachment that appears to
9 be part of this e-mail. I'm not clear if I
10 looked at that attachment or not.

11 Q. Okay. Beyond the attachment, the
12 e-mails that you wrote personally, did you have
13 personal knowledge of what you wrote?

14 A. I would assume, yes.

15 Q. And you wrote these e-mails around the
16 time that you were putting together an agenda or
17 topics for meeting -- for this meeting?

18 A. I'm not -- is that referenced? And
19 are we -- and I'm not confident if -- what
20 meeting this was prepping for.

21 Q. Would you have written this close in
22 time to a meeting or is it likely you would have
23 written it sort of months later or --

24 A. There's some meetings that we prep for
25 over the course of a month and there's some

1 CONFIDENTIAL - JAKE MEADOWS

2 meetings we prep for minutes before we walk into
3 a meeting, so I cannot really be clear what
4 meeting this would be -- that we would be
5 prepping for.

6 Q. Okay.

7 A. Or type of meeting, honestly, because
8 I don't remember meetings from November of 2014.

9 Q. Did you draft this e-mail and maintain
10 it in Schein's ordinary course of business?

11 A. Yes.

12 Q. And CX2364 appears to be an accurate
13 copy of your e-mail correspondence?

14 A. Appears to be.

15 Q. So I'm going to refer you to the
16 bottom e-mail on the page of CX2364-001.

17 A. Uh-huh.

18 Q. It's from you. You write to Rodi.
19 Who is Rodi?

20 A. Rodi Rozin, he is Director of Business
21 Analytics.

22 Q. Does he report to you?

23 A. No.

24 Q. Does he provide information that's
25 useful for you?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes.

3 Q. You write, "This," and you're
4 attaching an Excel spreadsheet, "in addition to
5 the brochure that I shared with you should be
6 part of the information presented at the
7 off-site."

8 Does that refresh your recollection as
9 to what meeting was taking place?

10 A. No, and I'm not sure that I have
11 attached an attachment to my e-mail.

12 Q. Then you in the e-mail ask -- I'll
13 just continue reading, "In addition, I believe
14 we need to craft critical questions to present
15 to the group: How can we stop the progression?
16 How can we compete with existing GPOs? Which
17 competitors are embracing these relationships?
18 What else?"

19 Did I read that correctly?

20 A. Yes.

21 Q. Is it your understanding that you're
22 asking how can we stop the progression of GPOs?

23 A. That's not clear to me.

24 Q. What's your understanding of the
25 question, "How can we stop the progression?"

1 CONFIDENTIAL - JAKE MEADOWS

2 A. I don't have any understanding of
3 the -- the progression, because there's some
4 attachment and some brochure that I'm
5 referencing to Rodi that could be not related to
6 GPOs.

7 Q. I only have one copy of this. I'm
8 going to give it to your counsel first to
9 review.

10 Just to refresh your recollection, I'm
11 going to note that this has been Bates-stamped
12 Henry Schein-000045661.

13 If you can review this document, which
14 I will represent to you is the e-mail from Joe
15 Cavaretta that appears at the very beginning or
16 the last page of the chain of CX2364-002.

17 MR. McDONALD: My only request,
18 Jasmine, is that if you're going to show
19 this to him, then you ought to mark it as an
20 exhibit so we have a record later of what he
21 produced --

22 MS. ROSNER: Okay.

23 MR. McDONALD: -- or what he was
24 shown.

25 MS. ROSNER: We will then mark this as

1 CONFIDENTIAL - JAKE MEADOWS
2 CX2500.

3 MR. McDONALD: Okay.

4 (Complaint Counsel CX2500, an e-mail
5 with attachment bearing Bates Nos. Henry
6 Schein-000045661 through 662, marked for
7 identification, as of this date.)

8 BY MS. ROSNER:

9 Q. Mr. Meadows, I would like for you to
10 look at CX2500 to see if it refreshes your
11 recollection at all about what the discussion in
12 CX2364 could be about.

13 A. What could it be about?

14 Q. I'd like you to look at CX2500 to see
15 if it refreshes your recollection about the
16 subject that's discussed in CX2364.

17 A. No, it doesn't. It looks like a
18 listing of known GPOs, like the subject line
19 suggests, in the e-mail exchange.

20 Q. You've had a moment to look at CX2500?

21 A. Uh-huh.

22 Q. It does not refresh your recollection
23 as to what you were discussing in CX2364?

24 A. Not in detail, no.

25 Q. You can put CX2500 aside.

1 CONFIDENTIAL - JAKE MEADOWS

2 Sitting here today you have no
3 understanding of what the question means, "How
4 can we stop the progression?"

5 A. No. I can't guarantee because I,
6 again, I think the piece is one on the brochure
7 that's not there, and then within that
8 attachment that you just showed me it had the
9 listing of the division responsible. So I have
10 to assume the issue that I've represented a few
11 times in regards to which division is
12 responsible for GPOs is potentially the
13 progression that I'm talking about.

14 Q. Why would you want to stop the
15 progression of which division is responsible for
16 the GPOs?

17 A. I don't think I would want to stop any
18 progression of GPOs or buying groups, if that's
19 the question. It's more about if we had an
20 initiative to grow buying groups and Special
21 Markets had an initiative to grow buying groups,
22 that we were going to run into one another in
23 the marketplace and continue to be in conflict.

24 Q. Is that based on your personal
25 knowledge of what you have written here, or are

1 CONFIDENTIAL - JAKE MEADOWS
2 you speculating as to what this means?

3 A. I'm speculating to what this means
4 based on the attachment that you showed me.

5 Q. Is there -- do you have any knowledge
6 or memory of what particularly and specifically
7 you meant by, "How can we stop the progression?"

8 A. I do not.

9 Q. You then ask, "How can we compete with
10 existing GPOs?"

11 What do you mean by that?

12 A. I would only speculate on that
13 question as well.

14 Q. Sitting here today, you have no memory
15 of what you meant by, "How can we compete with
16 the existing GPOs?"

17 A. Sitting here today, looking at an
18 e-mail from 2014, I would only be speculating
19 about this e-mail because I have not seen this
20 e-mail since I wrote it in 2014.

21 Q. Does Schein typically compete with
22 GPOs?

23 MR. McDONALD: Object to the form.

24 A. I don't think that we compete with the
25 GPO. I think we compete with the dealer that --

1 CONFIDENTIAL - JAKE MEADOWS

2 and again, back to nomenclature and GPOs, I
3 can't speak for Henry Schein broadly on GPOs and
4 how the medical team would explain what they do
5 within their business of GPOs. So I can't speak
6 for all of Henry Schein.

7 Q. I just want you to speak with respect
8 to Dental today and your experience within
9 Dental.

10 In your experience, do you know of an
11 instance where Henry Schein Dental was competing
12 with a GPO?

13 A. A GPO? In the definition I know GPOs
14 to be today?

15 Q. In the definition that you understand
16 GPOs at the time that you wrote this e-mail in
17 CX2364.

18 A. If there was a GPO in language or
19 however we defined it in 2014 that had an
20 agreement with a competitor and was proactively
21 marketing to an existing customer of Henry
22 Schein to not do business with Henry Schein, to
23 do business with another dealer, I think that we
24 would have then be seen as competing with that
25 group, with the assumption that they had a

1 CONFIDENTIAL - JAKE MEADOWS
2 former relationship with another dealer.

3 Q. In the time period of 2014, were you
4 aware of any GPOs in Dental that were aligned
5 with your competitors?

6 A. I can't speak to that moment in 2014,
7 that list.

8 Q. Sitting here today, are you aware of
9 any GPOs that have ever entered Dental and
10 aligned with Schein's competitors?

11 A. The -- again, back to the definition
12 of GPOs, it's so broad, it would be difficult
13 for me to answer that question.

14 Q. I want to use the definition of GPOs
15 that you were just using. You mentioned that in
16 2014, you couldn't think of any.

17 Using that same definition, looking
18 back across your entire time at Schein, are you
19 aware of any GPOs that have entered Dental and
20 aligned with Schein's competitors?

21 A. Using the definition that I think was
22 very loosely used during this timeframe, and
23 again, I'm -- I can't think back to when we
24 signed our agreement with Smile Source, so Smile
25 Source might be a customer considering the fact

1 CONFIDENTIAL - JAKE MEADOWS
2 that they did business with Burkhart and Darby,
3 Nashville Dental, some of the other competitors.

4 Q. Looking at the bottom e-mail on page
5 CX2364-001, you're telling Mr. Cavaretta and
6 Rozin that you need to craft critical questions
7 to present to the group, and then there are the
8 three questions listed below.

9 If you go above that one e-mail, do
10 you see there's an e-mail from Mr. Cavaretta at
11 3:44 p.m.?

12 A. Yes.

13 Q. Mr. Cavaretta adds to your list of
14 questions?

15 A. Uh-huh.

16 Q. And he asks, "What is our strategy if
17 we don't want to work with GPOs?"

18 A. Uh-huh.

19 Q. Did I read that right?

20 A. You read it correctly.

21 Q. It your understanding that he's adding
22 this question to your list of questions?

23 A. No.

24 Q. If you go back to your e-mail at the
25 bottom of 2364-001, and you turn the page, you

1 CONFIDENTIAL - JAKE MEADOWS
2 end your e-mail with the question, "What else?"

3 That appears at the top of 2364-002?

4 A. "What else?" Yes.

5 Q. Given the "what else," are you
6 understanding Mr. Cavaretta to add his question,
7 "What is our strategy if we don't want to work
8 with GPOs?" to your critical questions to
9 present to the group?

10 A. Based on my response, "Can you turn
11 that into two or three questions that are more
12 direct and less broad?" I think that's more than
13 likely -- I -- it looks as if I made that
14 assumption.

15 Q. Do you recall whether you asked these
16 questions at any meeting?

17 A. No, I do not.

18 Q. Okay. You can put CX2364 aside.

19 A. And 2500?

20 Q. And CX2500.

21 Do you ever recall communicating with
22 Mr. Cavaretta and Kam Gantos about this same
23 meeting on GPOs?

24 A. Kam Gantos, no.

25 Q. Who is Kam Gantos?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Kam is a zone general manager of
3 the -- I'm trying to remember. We changed the
4 name of his zone a few times -- the Midwest
5 area. So I'm not sure of the exact name of it.
6 It was at one time the North Central zone. I'm
7 not familiar with what the name of it is today.

8 And he was also, prior to Joe and I's
9 role as Vice Presidents of Sales of the East
10 area and West area, there were three areas, an
11 Eastern area, and that was that first geography
12 I explained to you, a Central area, and a
13 Western area.

14 Q. And you were in charge of the Eastern
15 area?

16 A. Yes.

17 Q. And Mr. Cavaretta was in charge of the
18 Western area?

19 A. Correct.

20 Q. And Kam Gantos was in charge of the
21 Central area?

22 A. Correct.

23 Q. I'm going to hand you a document
24 that's been previously marked as CX2365.

25 CX2365 is a multi-page e-mail chain.

1 CONFIDENTIAL - JAKE MEADOWS
 2 The top page of the document has been
 3 Bates-stamped Henry Schein-000108258.
 4 Please take moment to review CX2365
 5 and let me know when you are finished.
 6 (Complaint Counsel Exhibit CX2365-001
 7 through 003, an e-mail chain bearing Bates
 8 Nos. Henry Schein-000108258 through 60,
 9 marked for identification, as of this date.)
 10 THE WITNESS: Okay.

11 BY MS. ROSNER:

12 Q. You've had an opportunity to review
 13 CX2365?

14 A. I have.

15 Q. CX2365 is an e-mail. The last e-mail
 16 in time is from Joe Cavaretta on November 20,
 17 2014. Just below that e-mail is an e-mail
 18 written by you at 2:20 p.m.

19 Did you write this e-mail in CX2365 as
 20 part of your job?

21 A. Yes.

22 Q. It's part of your job to draft e-mails
 23 regarding potential meetings; is that right?

24 A. Yes.

25 Q. You had personal knowledge of the

1 CONFIDENTIAL - JAKE MEADOWS
 2 contents of this e-mail when you wrote it?

3 A. Yes.

4 Q. This e-mail was written near or at the
 5 time that there was a discussion about this
 6 particular off-site meeting?

7 A. I'm sorry?

8 Q. You wrote the e-mail in CX2365 around
 9 the time that you were discussing what to
 10 present at a meeting?

11 A. Yes.

12 Q. You wrote the e-mail in CX2365 and it
 13 was maintained in Schein's ordinary course of
 14 business?

15 A. Yes.

16 Q. CX2365 is a true and accurate copy of
 17 your e-mail correspondence?

18 A. Yes.

19 Q. I'm going to take you back a couple of
 20 pages to CX2365-002 and 003. It appears at the
 21 bottom of CX2365-002 Mr. Cavaretta is forwarding
 22 an e-mail to you and Kam Gantos.

23 Do you see that?

24 A. Uh-huh. Yes.

25 Q. He's forwarding you an e-mail about

1 CONFIDENTIAL - JAKE MEADOWS
 2 Smile Source, and he says, "I'm going to add
 3 Smile Source to the GPO list for the off-site
 4 meeting discussion. Even though we do not
 5 support them, it seems fair to give examples of
 6 GPOs that we don't support who are taking
 7 business from us."

8 Did I read that correctly?

9 A. Yes.

10 Q. Is it your understanding that Smile
 11 Source was taking business from Schein?

12 A. Is it my understanding that Smile
 13 Source was taking business from Schein? Is that
 14 your question?

15 Q. Yes.

16 A. It's my understanding that Darby and
 17 Burkhart, who are in partnership with Smile
 18 Source, was taking business from Schein.

19 Q. Is it your understanding that because
 20 of their partnership with Smile Source, Darby
 21 and Burkhart were taking business from Schein?

22 A. And the fact that I did not have a
 23 partnership, yes. We. Excuse me.

24 Q. Do you recall adding Smile Source to
 25 the GPO list for the off-site meeting?

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. I don't recall adding it to the list.

3 Q. I'm going to go up one e-mail in time,
 4 the e-mail from Kam Gantos at 11:40 a.m.

5 Do you see that?

6 A. I do.

7 Q. Kam opens the e-mail by saying,
 8 "Thanks for sharing. Just do your best to keep
 9 this crap in the West."

10 Did I read that correctly?

11 A. You did.

12 Q. What is Kam referring to in saying,
 13 "Just do your best to keep this crap in the
 14 West"?

15 MR. McDONALD: Object to the form.

16 A. I can't -- I have no idea why -- what
 17 Kam wrote. This is the first I've seen this
 18 e-mail since 2014.

19 Q. Sitting here today, you have no
 20 understanding or no knowledge of what Kam meant
 21 when Kam said "keep this crap in the West"?

22 A. No. We had a very jovial relationship
 23 between the three of us, so I imagine it's just
 24 an attempt to dig on anything.

25 Q. Is there anything that could refresh

CONFIDENTIAL - JAKE MEADOWS

your recollection about what Kam was referring to when Kam mentioned "crap"?

A. No.

Q. If you go to the last paragraph of Kam's e-mail, Kam writes, "At the end of the day, I think that we need to spend time on a common message as we move through 2015. I know that we all have more than we can deal with already, but this could be like Ebola (controlled and squashed, at least in U.S.) or it could be much worse (I won't draw an analogy here)."

A. Uh-huh.

Q. Did I read that correctly?

A. Yes.

Q. What is Kam referring to in that paragraph that the three of you need to align on?

MR. McDONALD: Object to the form.

A. I would only be speculating today.

Q. You have, sitting here today, you have no memory or personal knowledge about what Kam is referring to?

A. Only in the context of reading the

CONFIDENTIAL - JAKE MEADOWS

e-mail would I speculate. I don't remember this e-mail.

Q. Is there anything that could refresh your recollection as to what Kam is referring to?

A. No.

Q. Going up in time, there's an e-mail from Joe Cavaretta at 3:03 p.m.

Do you see that?

A. Yes.

Q. Mr. Cavaretta says, "I agree. This is getting worse and will continue to get worse unless we act on the action items we discussed with Tim during our last meeting. You guys are going to have to make this a big issue at the off-site."

A. Uh-huh.

Q. Did I read that correctly?

A. Yes.

Q. What is Mr. Cavaretta referring to that is getting worse and worse?

A. The -- again, I'm going -- I would speculate here based on what I have read because I don't remember at this particular instance,

CONFIDENTIAL - JAKE MEADOWS

but I do remember around this time, again, over the course of 2014 and 2015, where the situation associated with Dental Gator and where we had customers that bought from us that we received sales credit for that would sign up for -- or, excuse me, for Smile Source that would sign up -- forgive me. It is Dental Gator and then I'll reference back to Smile Source. But customers that would sign up for existing buying groups that we had would -- those sales credits would move over into the Special Markets Group and not be part of the Henry Schein Dental sales credit in regards to hitting our budgets.

So the issue that, at this timeframe, that we were talking to Tim about and wanted to represent to Jimmy Breslawski, who is responsible for Special Markets and Henry Schein Dental and for Graham Stanley, who has oversight of Special Markets and Henry Schein Dental, was that we had budget concerns and that there were inconsistencies in how we were going to the market based on the fact that we were all going to the market to the same groups, and that was causing conflict.

CONFIDENTIAL - JAKE MEADOWS

Q. Did you ever analogize that conflict to something akin to Ebola?

A. I don't.

Q. Do you have an understanding as to why Kam Gantos would say that this conflict you mentioned is like Ebola?

A. I cannot.

Q. Did you understand how this conflict that you mentioned could be controlled and squashed?

A. Do I understand how it could be controlled and squashed?

I think by this conflict I'm describing, not the conflict Kam is describing, the one that I represented about the Special Markets Group getting sales credit versus the Henry Schein Dental group getting sales credit, the way I believe that issue could be squashed is either Special Markets runs the strategy and the execution of buying groups and GPOs, the language that we used then, or Henry Schein Dental runs the strategy on buying groups.

Q. The issue that Kam Gantos is referring to in the e-mail at 11:40 a.m., do you think

1 CONFIDENTIAL - JAKE MEADOWS
 2 that that's separate from this issue of
 3 assigning credit that you have just discussed?
 4 A. Do you want my -- you're asking me if
 5 I think, like what I'm -- after reading it here
 6 today?
 7 Q. What's your understanding?
 8 A. I -- I don't remember this e-mail
 9 exchange. What I was referencing in regards to
 10 the off-site and my memory around talking with
 11 Tim and talking with Jim Breslawski and Graham
 12 Stanley was around bringing the issue of that
 13 this is more prevalent and that there are more
 14 and more conflicts coming about in the
 15 marketplace between Henry Schein Dental and the
 16 Special Markets team.
 17 Q. In the e-mail that Joe Cavaretta
 18 writes on 3:03 p.m., he mentions, "The issue
 19 will get worse and worse unless we act on the
 20 action items we discussed with Tim during our
 21 last meeting."
 22 Do you recall the meeting that you had
 23 with Tim that he is referring to?
 24 A. No, I do not.
 25 Q. Do you recall the action items that

1 CONFIDENTIAL - JAKE MEADOWS
 2 were discussed with Tim?
 3 A. I do not.
 4 Q. Is there anything that could refresh
 5 your recollection as --
 6 A. Not that I can think of.
 7 Q. Do you recall meeting with Mr.
 8 Sullivan about Dental Gator at any point in time
 9 in 2014 or 2015?
 10 A. I don't recall.
 11 Q. I'm going to ask you to turn to the
 12 front page, CX2365-001, and refer you to your
 13 e-mail, the second half of the page at 2:20 p.m.
 14 In the second line of your e-mail, you
 15 write, "I went through this with Tim. He wants
 16 me to bring up all of the issues so that Jimmy
 17 and Graham can hear them and the team talks
 18 about them."
 19 I read that correctly?
 20 A. Yes.
 21 Q. You mentioned you went through this
 22 with Tim.
 23 That's Tim Sullivan?
 24 A. I assume so.
 25 Q. Do you recall when you met with Tim

1 CONFIDENTIAL - JAKE MEADOWS
 2 Sullivan?
 3 A. I do not.
 4 Q. Do you recall what you said or what
 5 was discussed?
 6 A. I do not.
 7 Q. You mentioned Jimmy.
 8 That's Jim Breslawski; is that right?
 9 A. Yes.
 10 Q. And "Graham" is Graham Stanley?
 11 A. Yes.
 12 Q. Do you recall actually having this
 13 meeting where you put forward the known GPO, the
 14 picture of Dental Gator, and the GPO brochure
 15 that you mention here?
 16 A. I remember sitting in the room in the
 17 meeting. I don't think I remember like the
 18 exact agenda and some of the discussion. I
 19 remember points of the discussion.
 20 Q. What was the purpose of the meeting?
 21 A. It was an overview of everything that
 22 we were doing in the Henry Schein Dental
 23 business. I was not included at the time as
 24 director of -- or Eastern area director. I was
 25 not included in the entire meeting, only

1 CONFIDENTIAL - JAKE MEADOWS
 2 portions of the meeting because there were
 3 certain things that I was either not privy to, I
 4 suppose, or that they wanted to have discussions
 5 without me.
 6 So I remember the -- I remember,
 7 again, moments or parts of the meeting that I
 8 assume that we're referring to.
 9 Q. Do you remember whether Dental Gator
 10 was discussed at the meeting?
 11 A. I don't remember.
 12 Q. Do you remember whether Smile Source
 13 was discussed at the meeting?
 14 A. I do remember.
 15 Q. What was said about Smile Source?
 16 A. I remember John Chatham describing
 17 that we had had Smile Source at another time and
 18 that we have continued to try to -- and again,
 19 I'm -- I'm paraphrasing and remembering, like I
 20 said, I remember -- I remember being in that
 21 room, and I'm reflecting on the kind of my
 22 takeaways from what I remember.
 23 I remember John making a case for why
 24 Henry Schein Dental could do a good job in
 25 partnering with buying groups, and Hal Muller

1 CONFIDENTIAL - JAKE MEADOWS
 2 was sitting to my left, and this whole
 3 discussion was about making the case for why
 4 Henry Schein Dental versus Special Markets, and
 5 that's why I remember it. Because it was -- it
 6 was not necessarily a tense moment, but as
 7 somebody who didn't necessarily always sit at a
 8 board room table with the presidents and Jim
 9 Breslawski and Graham Stanley, that was our big
 10 prep and our big moment to make the case for it.

11 So I remember Smile Source being an
 12 example of us saying we think we could go get
 13 Smile Source and win that versus Hal and his
 14 group.

15 Q. Did you make the same case with
 16 respect to Dental Gator?

17 A. I don't remember if we discussed
 18 Dental Gator at that meeting, but I do
 19 remember -- not at that meeting -- that being an
 20 ongoing case that I was trying to make to Randy
 21 Foley and Hal Muller that Henry Schein Dental
 22 could -- we could do a better job if, one, we
 23 were the sole -- we were solely responsible and
 24 had a unified strategy.

25 Q. Was there any change that came about

1 CONFIDENTIAL - JAKE MEADOWS
 2 as a result of the meeting?

3 A. I don't think any -- I don't recall,
 4 actually, to be honest.

5 Q. Turning back to Dental Gator, do you
 6 recall that Dental Gator initially was offering
 7 members pricing from the MB2 pricing plan?

8 A. I remember it that way.

9 Q. Did that bother you?

10 A. Yes.

11 Q. Why?

12 A. Because my understanding at the time
 13 was that that pricing was built specifically
 14 around committed -- contractually committed
 15 business on behalf of MB2 and that we had given
 16 rebates or discounts however to MB2, and that
 17 that exposure of pricing to customers that we
 18 did not have, Henry Schein Dental did not have a
 19 contractual agreement with, potentially made us
 20 look dishonest within our customers.

21 Q. At some point in time did Special
 22 Markets agree to ensure that Dental Gator had
 23 separate pricing apart from MB2?

24 A. I don't recall.

25 Q. At any point in time did you want to

1 CONFIDENTIAL - JAKE MEADOWS
 2 stop Schein's relationship with Dental Gator?

3 A. I don't recall, but I don't believe I
 4 would have. We had good business with them. We
 5 would have been walking away from business.

6 Q. I want to show you a document that's
 7 been premarked as CX2370.

8 A. Can I move this one aside?

9 Q. Yes. You're done with all prior
 10 documents.

11 Handing you a document that's been
 12 premarked as CX2370.

13 A. Uh-huh.

14 Q. The first page bears the Bates stamp
 15 Henry Schein-000209007.

16 Please take a moment to review CX2370
 17 and let me know --

18 A. Okay.

19 Q. -- when you're done.

20 (Complaint Counsel Exhibit CX2370-001
 21 through 002, an e-mail chain bearing Bates
 22 Nos. Henry Schein-000209007 through 008,
 23 marked for identification, as of this date.)

24 THE WITNESS: Okay.

25 BY MS. ROSNER:

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You've had an opportunity to read
 3 CX2370?

4 A. Yes.

5 Q. The last e-mail in the chain is from
 6 you on January 26, 2015.

7 You wrote this e-mail as part of your
 8 job?

9 A. Yes.

10 Q. It's part of your job to communicate
 11 about Schein's customers?

12 A. Yes.

13 Q. You have personal knowledge of the
 14 contents of your e-mail?

15 A. Yes.

16 Q. You wrote an e-mail in CX2370 at or
 17 near the time that there was a discussion about
 18 Dental Gator?

19 A. This looks like a new chain around
 20 Dental Gator in 2015.

21 Q. It's a chain started between Hal and
 22 Tim; is that right?

23 A. Correct.

24 Q. And Tim is asking for your thoughts,
 25 correct?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Correct.

3 Q. And you respond to Tim near in time
4 that he's asking for your thoughts?

5 A. Yes.

6 Q. You drafted and maintained this e-mail
7 in Schein's ordinary course of business?

8 A. Yes.

9 Q. CX2370 is a true and accurate copy of
10 your e-mail correspondence?

11 A. Yes.

12 Q. I'm going to refer you to the third
13 paragraph, if you will, of your e-mail at 2:03
14 p.m.

15 You write, "I understand that we're
16 drawing new lines with them, but the lines I was
17 expecting we would stop this GPO."

18 Did I read that correctly?

19 A. Yes.

20 Q. This is an e-mail chain about Dental
21 Gator, correct?

22 A. Correct.

23 Q. And at this time, you're saying you
24 understand that Schein is drawing new lines with
25 Dental Gator?

1 CONFIDENTIAL - JAKE MEADOWS

2 Gator to me, I thought they were
3 misrepresenting -- they were either
4 misrepresenting what we as a company, Henry
5 Schein Dental, could deliver on, or I felt that
6 they were violating confidentiality by exposing
7 pricing that we contractually agreed with them
8 through this effort.

9 Q. Is it your testimony that Schein does
10 not offer discounts in the range of 30 to 50
11 percent to its group customers?

12 A. No, I couldn't say -- I couldn't say
13 that because I think there are some items within
14 those offerings because it's from item to item
15 that we do offer 30 percent or even 60 percent
16 discount. There are some items we sell at cost.

17 Q. Is it your testimony that "I was
18 expecting we would stop this GPO" refers to
19 stopping Dental Gator from advertising its
20 discounts?

21 A. My testimony is that this statement is
22 potentially an incomplete statement, and even,
23 again, the way that I wrote it doesn't make
24 sense. The sentence doesn't flow. So it seems
25 fragmented to me.

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes.

3 Q. And you're saying the lines you
4 expected to be drawn with Dental Gator was that
5 we would stop this GPO?

6 A. I'm sorry. What's your question?

7 (Record read.)

8 A. That's what the sentence reads. "The
9 lines I was expecting we would stop this GPO,"
10 but again -- and this looks like an incomplete
11 sentence. The subject around Dental Gator was
12 that they were expanding into our current base
13 and they had YouTube videos up saying we can
14 save -- save you 30 to, you know, 50 percent on
15 dental supplies with Henry Schein, which I
16 didn't think was possible or correct within the
17 Special Markets offering, and just like I said
18 earlier, I was concerned that our customers that
19 were not part of Dental Gator would be exposed
20 to that pricing without that contractual
21 agreement and therefore would feel as if we were
22 either gouging them or treating them unfairly.

23 So I'm not sure that's a complete
24 sentence, but that was -- that was my issue
25 around Dental Gator. This particular Dental

1 CONFIDENTIAL - JAKE MEADOWS

2 I was more describing what my overall
3 concern with Dental Gator was that I believe Tim
4 and Hal were discussing.

5 Q. And just to be clear, this e-mail you
6 sent was going to Tim Sullivan and Dave Steck,
7 right?

8 A. And Kam Gantos, but I'm not sure why
9 Kam Gantos is on -- why I would add Kam Gantos
10 there.

11 Q. And you report to Dave Steck and --

12 A. Correct.

13 Q. -- Tim Sullivan, directly or
14 indirectly?

15 A. Dave Steck I report to.

16 Q. And indirectly you report to Tim
17 Sullivan?

18 A. Yes.

19 Q. It's important for you to be accurate
20 in your e-mails to Mr. Sullivan?

21 A. Yes.

22 Q. It's important for you to be accurate
23 in e-mails to Mr. Steck?

24 A. Yes, and I -- I'm -- in my -- little
25 embarrassing, but over the course of years, Mr.

1 CONFIDENTIAL - JAKE MEADOWS
2 Steck and Mr. Sullivan, because, as you can see,
3 in some of my e-mails I have fragmented
4 sentences or misspellings, have talked to me
5 about that and pushed me towards reading
6 glasses.

7 Q. Did anybody ever talk to you about
8 this e-mail in particular?

9 A. I -- I don't recall.

10 Q. Is there anything that could refresh
11 your recollection about what specifically you're
12 referring to or anybody having questions about
13 what you're referring to in CX2370?

14 A. No. All I can speak to is the subject
15 of Dental Gator, not this particular e-mail.

16 Q. You can put CX2370 aside.

17 I want to talk quickly about Smile
18 Source.

19 Who is John Nathan?

20 A. I do not know. I don't recall. I
21 can't place that name right now.

22 Q. Do you know John Nathan to work with
23 Smile Source in any capacity?

24 A. I don't know that name, John Nathan.

25 Q. We've talked about Smile Source

1 CONFIDENTIAL - JAKE MEADOWS
2 earlier today; how at one point in time Smile
3 Source was a customer of Henry Schein's; is that
4 right?

5 A. Yes.

6 Q. And then there was a period of time
7 where Smile Source was no longer a customer of
8 Henry Schein?

9 A. Yes.

10 Q. And then there was a further period of
11 time when Schein won back Smile Source as a
12 customer?

13 A. That's my -- yes. I mean, I can speak
14 to the second piece. Everything else is how I
15 understand it.

16 Q. Did you ever learn that Schein chose
17 to stop doing business with Smile Source in the
18 2012 timeframe?

19 MR. McDONALD: Object to the form.

20 A. Did I ever learn? I believe I
21 remember -- I don't remember doing business with
22 Smile Source during the time I think I was a
23 zone manager, and I remember out West we had,
24 because Burkhart is primarily in that geography,
25 that we had some Smile Source issues.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Do you ever recall telling Michael
3 Porro that it was more Schein's choice to stop
4 doing business with Smile Source?

5 A. No, I don't recall that.

6 Q. I'm going to hand you a document
7 that's been previously marked as CX2349. It is
8 an e-mail string, and the first page bears the
9 Bates number Henry Schein-000530282.

10 (Complaint Counsel Exhibit CX2349-001
11 through 002, an e-mail string bearing Bates
12 Nos. Henry Schein-000530282 through 283,
13 marked for identification, as of this date.)

14 BY MS. ROSNER:

15 Q. Please take a moment to review CX2349
16 and let me know when you're done.

17 A. Okay.

18 Q. You've had an opportunity to review
19 CX2394?

20 A. I have.

21 Q. It's an e-mail string. The
22 last-in-time e-mail is from you dated January
23 26, 2012. You have a couple of e-mails in this
24 string.

25 Did you write these e-mails as part of

1 CONFIDENTIAL - JAKE MEADOWS
2 your job?

3 A. Yes.

4 Q. It's part of your job to correspond
5 with your direct reports about potential
6 customers?

7 A. Yes.

8 Q. You had personal knowledge of the
9 e-mail at the time that you wrote it?

10 MR. McDONALD: Object to the form.

11 A. I would assume so.

12 Q. You wrote this e-mail close in time to
13 this inquiry about Smile Source?

14 A. Again, that question you keep asking
15 me. I'm just trying to get clarity on that.

16 We're discussing in 2012, January 26,
17 we're discussing Smile Source; is that the
18 question you're asking me?

19 Q. Yes.

20 A. Yes.

21 Q. And you wrote your e-mails around the
22 time that you had that discussion?

23 A. Yes.

24 Q. You didn't write this e-mail like a
25 year later after the discussions is the point?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. No. No. No.

3 Q. You drafted and maintained this e-mail
4 in the course of Schein's regular business?

5 A. Correct.

6 Q. And CX2349 is a true and accurate copy
7 of your e-mail correspondence?

8 A. Yes.

9 Q. In the e-mail correspondence, do you
10 understand Mr. Porro in the middle of the first
11 page, CX2349, to be proposing ways to win back
12 the Smile Source account?

13 A. Yes.

14 Q. And you respond, "That's if we want
15 the Smile Source group. John Nathan was working
16 closely on this, and it was more our choice I
17 believe to stop doing business with the group.
18 It's closer to a GPO."

19 A. Uh-huh.

20 Q. Did I read that correctly?

21 A. There's two sentences there, right?

22 MR. McDONALD: There's actually three.

23 A. Yeah, so --

24 Q. There is three.

25 A. -- I just --

1 CONFIDENTIAL - JAKE MEADOWS

2 MR. McDONALD: You need to up your
3 reading glasses.

4 A. Is there three sentences?

5 Yes, you read it correctly.

6 Q. Thank you.

7 So you're questioning whether or not
8 Schein would want to win back the Smile Source
9 group; is that right?

10 A. Yes.

11 Q. And you mentioned that it was more
12 Schein's choice to stop doing business with the
13 group; is that right?

14 MR. McDONALD: Object to the form.

15 Mischaracterizes and misstates the document.

16 A. I don't remember who John Nathan is.
17 This is from 2012, six and a half years ago. So
18 I can't speak to whether or not, because Michael
19 Porro and I were in the same office at this
20 time, whether or not he and I had a discussion
21 with one another and this is a followup to a
22 discussion. Because it would have been very
23 common that Michael, because he was an office
24 away from me, that I would go talk to him. So
25 I'm not sure how much clarity I can give around

1 CONFIDENTIAL - JAKE MEADOWS

2 this, this e-mail chain.

3 Q. Do you -- do you remember this e-mail
4 chain at all?

5 A. No.

6 Q. Is there anything that could refresh
7 your recollection about why you wrote the words
8 here?

9 A. No.

10 Q. Okay. You can put CX2349 aside.

11 Have you ever heard anyone from Schein
12 say that Henry Schein should not be first to
13 cooperate with buying groups?

14 A. Not that I recall.

15 Q. I'm going to show you a document
16 that's been previously marked as CX0189.

17 Please take a moment to review CX0189.
18 The first page bears the Bates number Henry
19 Schein-000088519.

20 (Complaint Counsel Exhibit CX0189.001
21 through 002, an e-mail chain bearing Bates
22 Nos. Henry Schein-000088519 through 520,
23 marked for identification, as of this date.)

24 THE WITNESS: Okay.

25 BY MS. ROSNER:

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. You've had an opportunity to review
3 CX0189?

4 A. I have.

5 Q. This is an e-mail from Graham Stanley
6 dated November 3, 2015. I understand this to be
7 meeting notes from a November 2, 2015 meeting.
8 Is that your understanding?

9 MR. McDONALD: Object to the form.

10 A. It appears to be based on the subject
11 line.

12 Q. You were copied on -- or, you are in
13 the "to" line of this e-mail.

14 Is that because you attended this
15 meeting?

16 A. As I said, I believe -- I don't know
17 about the timeframe. I would -- sounds like I
18 did or it's possible I didn't. I'm not really
19 sure about which meeting this was.

20 Q. Do you often attend meetings with Mr.
21 Breslawski and Mr. Sullivan and others?

22 A. No, not with Mr. Breslawski.

23 Q. Would you recall this meeting if you
24 attended it?

25 A. I believe so, yes. I would have

1 CONFIDENTIAL - JAKE MEADOWS
2 recalled that we had a meeting. A lot of the
3 dates for me, because in the last ten months, as
4 I said, I've taken on this new role, a lot of
5 the dates over this timeframe of going from Area
6 Director to Vice President of Sales, and then
7 after, it's just -- it's all kind of mashed
8 together, so it's hard for me to go, oh, well,
9 this one was first and that one was second.

10 Q. Sure. I'm going to refer you to the
11 second page, CX0189-002.

12 A. Uh-huh.

13 Q. In the middle of the second page,
14 there's a heading that says "Buying Groups."

15 Do you see that?

16 A. Yes.

17 Q. And underneath the heading "Buying
18 Groups" it reads, "Tim clearly set out that HS
19 should not be the first to cooperate with GPOs,
20 but also don't want to be last."

21 Did I read that correctly?

22 A. Yes.

23 Q. Do you recall this at the --

24 A. I do not. I do not recall that.

25 Q. Is there anything that could refresh

1 CONFIDENTIAL - JAKE MEADOWS
2 your recollection about what this could mean?

3 A. No.

4 Q. Does it surprise you to see something
5 that indicates Tim was suggesting that Henry
6 Schein should not be first to cooperate with
7 GPOs?

8 MR. McDONALD: Object to the form.
9 Mischaracterizes the document and the
10 evidence and the other testimony in this
11 case about this document.

12 You can answer.

13 A. It doesn't make sense to me since our
14 definition of "GPO" is we already do business
15 with GPOs at this time and many years before.
16 So -- or buying groups. The -- it just doesn't
17 make sense to me.

18 Q. Would you ever echo Mr. Sullivan's
19 sentiment that Schein should not be first?

20 MR. McDONALD: Object to the form.
21 Vague.

22 A. I have -- I don't know if I would
23 ever. I don't recall ever doing that.

24 Q. Does that sound like something you
25 would also say, that Schein should not be first

1 CONFIDENTIAL - JAKE MEADOWS
2 to participate with GPOs?

3 MR. McDONALD: Object to the form.

4 A. I don't recall ever saying that.

5 Q. I'm going to hand you a document
6 that's been previously marked as CX2284. Please
7 take a moment to review the document.

8 The first page bears the Bates stamp
9 Henry Schein-000036701.

10 A. Uh-huh.

11 (Complaint Counsel Exhibit CX2284-001
12 through 009, an e-mail chain bearing Bates
13 Nos. Henry Schein-000036701 through 709,
14 marked for identification, as of this date.)

15 BY MS. ROSNER:

16 Q. Have you had an opportunity to review
17 CX2284?

18 A. Yes.

19 Q. CX2248 is an e-mail chain. The
20 last-in-time e-mail is from you on March 26,
21 2016.

22 A. Uh-huh.

23 Q. There are a couple of e-mails from you
24 throughout.

25 You wrote the e-mails in CX2284 as

1 CONFIDENTIAL - JAKE MEADOWS
2 part of your job?

3 A. Yes.

4 Q. It's part of your job to communicate
5 about potential customers?

6 A. Yes.

7 Q. You had personal knowledge of the
8 contents of your e-mails?

9 A. Yes.

10 Q. You wrote the e-mails near in time
11 that you were discussing this potential customer
12 opportunity?

13 A. Yes.

14 Q. You wrote the e-mails in CX2284 and
15 maintained them as part of Schein's ordinary
16 course of business?

17 A. Yes.

18 Q. CX2284 is a true and accurate
19 representation of your e-mail correspondence?

20 A. Yes.

21 Q. I want to refer you to the bottom
22 e-mail on the first page, CX2284-001 --

23 A. Yes.

24 Q. -- from you at 10:50 a.m.

25 Do you see that?

CONFIDENTIAL - JAKE MEADOWS

A. I do.

Q. Your e-mail reads, "We all agreed we wouldn't be first but we would be a strong second."

Did I read that correctly?

A. Yes.

Q. What do you understand or what are you saying there?

A. In regards to Premier and the Georgia Dental Association, we knew that we would not be the lowest priced competitor, and so we thought we would be their second choice.

Q. I just want to make sure I understand.

Are you referring to an opportunity to bid for Premier's and GDA's business?

A. GDA's business.

Q. And in your e-mail, you say, "We all agreed we wouldn't be first."

Was there some plan or agreement not to be first?

A. No, there was never -- we always competed to win. I think it was when we built the bid, it's referencing our confidence in whether or not we would be the lowest bid.

CONFIDENTIAL - JAKE MEADOWS

Q. How did you know that Schein was not going to be the lowest bid for GDA?

A. Just guessing. We don't know. The feedback that we received from the marketplace was that, in that Georgia area, that we were too expensive.

Q. Who was going to be the lowest bid for GDA?

A. I don't know.

Q. Who else was bidding for GDA?

MR. McDONALD: Object to the form.

A. I don't know. I don't recall, I would say.

Q. Was it possible that Schein was the only entity submitting a bid for GDA?

A. I'm not sure what's possible. I'm only familiar with our interactions with GDA.

Q. What did the interactions with GDA tell you about this bidding event?

A. That's a lot to unpack in that question. Can you be more specific?

Q. You had some interactions with GDA?

A. Yes.

Q. In interacting with GDA, did they

CONFIDENTIAL - JAKE MEADOWS

discuss who they anticipated was going to bid for their business?

A. I don't recall them discussing with me who else was bidding on the business.

Q. Did you have any feeling that you were bidding against another entity for GDA's business?

A. We always assumed competitive -- competitive offers in all of our dealings, so then we present competitive offers. I think there was speculation between Scott Garringer, who was the regional manager at the time, and Michael Porro, who was the zone manager, about who was in and who wasn't.

Q. Going back to your e-mail on CX2284.

A. Uh-huh.

Q. In the second paragraph of your e-mail at the bottom of the page, you write, "Execute Order 66"?

A. Uh-huh.

Q. Is that right?

A. Yes.

Q. That's a "Star Wars" reference?

A. Yes.

CONFIDENTIAL - JAKE MEADOWS

Q. Comes from "Revenge of the Sith"?

A. Yes.

Q. My understanding of that reference is that Darth Sidious issues Order 66; is that right?

A. Yes.

Q. And Order 66 tells the Clone Troopers to kill the Jedi; is that right?

A. Yes. Execution of the Jedi, right.

Q. So it's kind of a reference about someone who's partnered with someone killing off their partner, right?

MR. McDONALD: Object to the form.

A. I -- I wouldn't clarify it that way.

Q. What did you mean when you said, "Execute Order 66"?

A. I don't know exactly what I meant, but it wouldn't be -- it wouldn't be out of character for Brian and I to be having two different discussions or two different references. I could have finished a phone call with him with something else that we were chuckling about, and I just included that as a chuckle.

1 CONFIDENTIAL - JAKE MEADOWS
 2 But there's no -- there's no
 3 representation here that that's -- that I'm
 4 referring to, and I'm not sure how I would even
 5 refer to, considering I'm talking about what a
 6 great opportunity it is to do business with a
 7 CDA and a GDA up here, why I -- this would be
 8 counter to -- to the message.

9 And his even "Laugh out loud. I know
 10 it," it just -- it just doesn't make sense that
 11 I would be talking about executing that, so I'm
 12 confident it's something else.

13 Q. Sitting here today, you have no
 14 understanding as to why you would include a
 15 reference to "execute Order 66"?

16 A. No.

17 Q. Is there anything that you could look
 18 at to refresh your recollection as to what you
 19 meant?

20 A. No.

21 Q. You can put aside CX2284.

22 MS. ROSNER: We've been going about an
 23 hour. I have just a couple of documents to
 24 show you, but we can take a break if you
 25 would like.

1 CONFIDENTIAL - JAKE MEADOWS

2 MR. McDONALD: I'm fine.

3 How much time has gone?

4 THE VIDEOGRAPHER: Four hours and 50
 5 minutes, I believe.

6 MR. McDONALD: Do you want to just use
 7 the last of your ten minutes?

8 MS. ROSNER: Let's do it.

9 BY MS. ROSNER:

10 Q. We talked about KlearImpakt today,
 11 right?

12 A. KlearImpakt?

13 Q. Yes.

14 A. Yes.

15 Q. Have -- and we've also talked about
 16 your interactions with Tim Sullivan, correct?

17 A. Yes, we've talked about a few of
 18 those.

19 Q. Do you attend Special Markets budget
 20 meetings?

21 A. I did last year.

22 Q. Prior to last year, have you ever
 23 attended a Special Markets budget meeting?

24 A. I don't recall ever being -- I recall
 25 being in budget meetings. I don't recall being

1 CONFIDENTIAL - JAKE MEADOWS
 2 specifically just in a Special Markets budget
 3 meeting.

4 Q. Do you recall in any budget meetings
 5 Tim Sullivan taking a hard stance about Schein
 6 not doing business with buying groups?

7 A. I don't recall that.

8 Q. I'm going to hand you a document
 9 that's been previously marked as CX2392. This
 10 is a document that bears the Bates label on the
 11 first page Henry Schein-000280726.

12 Please take a moment to review the
 13 document and let me know when you're finished.

14 (Complaint Counsel Exhibit CX2392-001
 15 through 002, an e-mail chain bearing Bates
 16 Nos. Henry Schein-000280726 through 727,
 17 marked for identification, as of this date.)

18 THE WITNESS: Okay.

19 BY MS. ROSNER:

20 Q. You've had a moment to review CX2392?

21 A. I have.

22 Q. It's an e-mail chain with the last
 23 e-mail in time dated November 3, 2015 from you.
 24 There are two e-mails in this chain from you.

25 You wrote the e-mails in 2392 as part

1 CONFIDENTIAL - JAKE MEADOWS
 2 of your job?

3 A. Yes.

4 Q. It's part of your job to respond to
 5 e-mails from Tim Sullivan?

6 A. Yes.

7 Q. You have personal knowledge of the
 8 contents of your e-mail?

9 A. Yes.

10 Q. You drafted the e-mails in 2392 near
 11 the time of the e-mail that Tim Sullivan sent
 12 you an e-mail?

13 A. Yes.

14 Q. You drafted and maintained e-mails in
 15 CX2392 as part of Schein's regularly conducted
 16 business?

17 A. Yes.

18 Q. CX2392 represents a true and accurate
 19 copy of your e-mail exchange?

20 A. Yes.

21 Q. I'm going to refer you to the top
 22 e-mail from you on the first page at 5:42 p.m.
 23 Actually, strike that.

24 I'm going to refer you to the last
 25 e-mail in the e-mail chain from Tim Sullivan on

1 CONFIDENTIAL - JAKE MEADOWS
2 page CX2392-002.

3 He writes to you, "Jake, you slipped
4 me a note about this group during the SM budget
5 meeting. I had just informed Hal (and team)
6 that we do not have plans to open up new buying
7 groups, but have a plan ready to roll if needed.
8 Did we just include KlearImpakt? If so" --
9 scratch that.

10 "Who are they, where, et cetera.
11 Tim."

12 A. Yes.

13 Q. Do you recall sliding Mr. Sullivan a
14 note about KlearImpakt?

15 A. I do.

16 Q. Why did you do that?

17 A. I don't remember exactly what Tim was
18 saying, you know, word for word, but this was
19 around that time that we were discussing who was
20 going to open -- who was going to be the group
21 that was going to open up the buying groups and
22 negotiate the formularies and the pricing and
23 everything that they were doing with them, and I
24 believe Tim made a statement about the fact that
25 the Special Markets Group would be the ones that

1 CONFIDENTIAL - JAKE MEADOWS
2 would be opening them up or that we were
3 allowing or letting them do it, and I was
4 sliding a note to him letting him know that I
5 wanted him aware, even though he just made a
6 commitment, that I wanted to inform him that he
7 made a commitment that we potentially, because I
8 didn't know where we were with KlearImpakt, that
9 we potentially couldn't live up to. Because Tim
10 was saying, fine, the Special Markets Group will
11 handle buying groups.

12 Q. It was your impression that Tim
13 Sullivan was taking a hard stance with respect
14 to not doing buying groups in HSD?

15 A. No.

16 MR. McDONALD: Object to the form.

17 A. No. It was my understanding that Tim
18 was misspeaking about the fact that we were
19 currently not, like right in that moment, having
20 any pending buying group discussions.

21 Q. I want to refer you to your e-mail at
22 the top of the chain on the first page of
23 CX2392.

24 A. Uh-huh.

25 Q. 001.

1 CONFIDENTIAL - JAKE MEADOWS
2 What I think you're trying to say is,
3 "I really think" -- "I really did think he was
4 aware and I only said something" --

5 A. Yes.

6 Q. -- "because he was taking such a hard
7 stand in front of everyone."

8 A. Yes.

9 Q. When you say he was taking such a hard
10 stand in front of everyone, you're referring to
11 Tim?

12 A. I believe so.

13 Q. And it was your impression that Mr.
14 Sullivan was taking a hard stand in front of
15 everyone at this meeting?

16 A. Yes.

17 Q. You can put aside 2392.

18 A. Okay.

19 Q. Is it also your understanding that Mr.
20 Sullivan was soapboxing about his views on
21 buying groups at this meeting?

22 A. I don't remember that. What I do
23 remember about this meeting is there was a lot
24 of conflict between the Henry Schein Dental
25 group and the Henry Schein Special Markets group

1 CONFIDENTIAL - JAKE MEADOWS
2 about who was going to handle buying groups, and
3 the hard stand that I'm referencing is whether
4 or not Henry Schein Dental would be the ones
5 that would lead the way, and I disagreed.

6 Q. Is it your understanding that,
7 particularly with the creation of the Mid
8 Markets Group, that Henry Schein Dental would
9 bring buying groups in-house to its division?

10 A. I think that we, when we created that,
11 we did not have clarity on that decision, and
12 the segments of the market started to cross over
13 one another, just like that example within
14 Dental Gator, where we didn't -- is this a DSO
15 or is it a buying group? We weren't -- we were
16 so unsure about what things were that we moved
17 the buying group towards that effort to go
18 proactively sell to buying groups, or the Mid
19 Market Group towards buying groups, and at the
20 same time, the Special Markets Group continued
21 to drive buying group relationships, and that's
22 where the conflict came up.

23 Q. Let me ask you, what does it mean to
24 be soapboxing?

25 A. Standing up on a -- I reference it as

1 CONFIDENTIAL - JAKE MEADOWS
 2 standing up on a -- standing up at a higher
 3 position and talking about a particular subject.
 4 Q. Does it typically involve sort of
 5 speaking passionately about a subject?
 6 A. Yes.
 7 Q. Have you ever known Tim to soapbox
 8 about whether Henry Schein Dental does business
 9 with buying groups?
 10 A. I don't recall.
 11 Q. I'm going to hand you a document
 12 that's been premarked as CX176. This is an
 13 e-mail chain. The first page Bates is Henry
 14 Schein-00004474.
 15 Please take a moment to review CX176
 16 and let me know when you're done.
 17 (Complaint Counsel Exhibit CX0176.001
 18 through 002, an e-mail chain bearing Bates
 19 Nos. Henry Schein-00004474 through 475,
 20 marked for identification, as of this date.)
 21 THE WITNESS: Okay.
 22 BY MS. ROSNER:
 23 Q. You've had an opportunity to review
 24 CX176?
 25 A. Yes.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. This is an e-mail dated November 3,
 3 2015. The top e-mail is from you.
 4 Again, you wrote the e-mails in this
 5 chain. You wrote the e-mails in CX176 as part
 6 of your job?
 7 A. Yes.
 8 Q. It's part of your job to communicate
 9 about -- to communicate with Tim Sullivan when
 10 he asks you a question?
 11 A. Yes.
 12 Q. You wrote this near in time to the
 13 question that Tim Sullivan posed to you?
 14 A. Near in time that Tim questioned me?
 15 I don't -- yes.
 16 Q. You wrote -- you had personal
 17 knowledge of the contents of your e-mails in
 18 CX176?
 19 A. Yes.
 20 Q. CX176 was drafted and maintained in
 21 Schein's course of regular business?
 22 A. Yes.
 23 Q. CX176 is a true and accurate copy of
 24 your e-mail correspondence?
 25 A. Appears to be, yes.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. At the very top of the chain at 5:14
 3 p.m., you write, "I had to. He was going off
 4 about how we do not have any buying group
 5 agreements and that we will not do them.
 6 Soapboxing about HSD and buying groups."
 7 Did I read that correctly?
 8 A. You did.
 9 Q. This is an e-mail in response to Mr.
 10 Cavaretta asking whether you slid the note about
 11 KlearImpakt to Tim Sullivan?
 12 A. Yes.
 13 Q. And it was your impression at the time
 14 that Tim Sullivan was going off about how Schein
 15 doesn't have any buying group agreements?
 16 A. No.
 17 Q. What did you mean by he was going off
 18 about how we do not have any buying group
 19 agreements?
 20 A. You asked the question if Schein,
 21 specifically Henry Schein Dental. This was the
 22 discussion about whether Henry Schein Dental
 23 should have any of the buying group agreements
 24 or whether Henry Schein Special Markets should
 25 have the buying group agreements.

1 CONFIDENTIAL - JAKE MEADOWS
 2 Q. So I read your e-mail to refer to a
 3 subject as past tense, "we do not have," as
 4 opposed to future tense, "we will not have."
 5 Is that mistaken?
 6 MR. McDONALD: Object to the form.
 7 A. Could you repeat your question?
 8 Q. Sure. You mentioned that Tim Sullivan
 9 was "going off about how we do not have any
 10 buying group agreements," so that suggests that
 11 it's Tim Sullivan's impression that Henry Schein
 12 Dental did not at that time have any buying
 13 group agreements; is that right?
 14 MR. McDONALD: Object to the form.
 15 A. That would be an -- if -- no, I don't
 16 think that, because Tim at this time is well
 17 aware of buying group -- current buying group
 18 agreements that we had and were executing.
 19 So if Tim would have said we don't
 20 have any buying group agreements, one, that
 21 would have been incorrect for Schein; and, two,
 22 this whole discussion that we were having was
 23 about whether or not Henry Schein Dental or the
 24 Henry Schein Special Markets, which at the time
 25 was a completely different division, should be

1 CONFIDENTIAL - JAKE MEADOWS
2 getting sales credit or leading the way on
3 growing and working with buying groups in the
4 marketplace.

5 Q. Why would you have written then that
6 Tim was going off about how we do not have any
7 buying group agreements?

8 A. The "we" that I believe I'm referring
9 here is Henry Schein Dental team and whether or
10 not we have current -- we're in talks with
11 groups.

12 Q. Is there somewhere in your e-mail you
13 can point me to this idea of being in current
14 discussions?

15 A. That I can point you to that we are in
16 current discussions with?

17 Q. Yeah, where do you get the idea
18 that -- where do you get the understanding that
19 this e-mail references not just agreements that
20 have been done, but agreements that are in
21 negotiation?

22 MR. McDONALD: Object to the form.

23 A. I'm familiar with this timeframe that
24 we were in discussions with Henry Schein Special
25 Markets about who would be responsible for

1 CONFIDENTIAL - JAKE MEADOWS
2 buying groups and for -- and that's the way that
3 it's written.

4 If Tim Sullivan were to in a meeting
5 represent that Henry Schein Dental has zero
6 buying group agreements, everyone in the room
7 would have had an example to say that's not
8 true.

9 So that's why I'm confident that we're
10 talking about existing groups, and the fact that
11 I slid him KlearImpakt on a piece of paper,
12 because I do remember doing that, was about a
13 group that we were in active discussion with.
14 Because I didn't slide across every other buying
15 group that we do business with which in 2015 I
16 was aware of, or I didn't say I'm going to send
17 you a list of every buying group so that you can
18 see this list, and KlearImpakt would be on that
19 list.

20 And the reason that -- where I said "I
21 had to, I'm sorry" to Joe is Joe was not sure
22 that we were actually going to win it or not
23 because we were competing for it, and I
24 potentially set Joe up to have to have a deeper
25 discussion about something that may not come

1 CONFIDENTIAL - JAKE MEADOWS
2 about.

3 Q. Is it your understanding that at this
4 time Schein already had a signed PVA with
5 KlearImpakt?

6 A. I don't recall my knowledge, but as I
7 said, I remember sliding that across to Tim in
8 reference to say we're in discussions with them.

9 Q. You can put this document aside.
10 I'm just going to ask you a couple of
11 last questions.

12 We've mentioned a group Premier today?

13 A. Yes.

14 Q. Premier is a medical GPO; is that
15 right?

16 A. Yes.

17 Q. And Premier has been a customer of
18 Henry Schein Medical for some time?

19 A. Yes.

20 Q. Has Premier ever reached out to you on
21 the Dental side?

22 A. I recall having one interaction with
23 Premier, and I was invited to a conference call
24 with the GDA. I might have -- with the GDA
25 leadership, and we got on the conference call

1 CONFIDENTIAL - JAKE MEADOWS
2 and Premier Dental was on the conference call at
3 the same time. And I did not know who Premier
4 was, and I was upset at the time that we had had
5 an intent on having a discussion with the GDA, I
6 did not understand the relationship between the
7 GDA and Premier, and I saw it as extremely
8 unprofessional and I felt as if that the GDA and
9 Premier were trying to surprise us or that
10 Premier was trying to listen in on a phone call
11 without our knowledge.

12 And at that time, as soon as I found
13 out, because I hit star pound -- if you do that
14 on a conference call, it will tell you how many
15 people -- there was five participants when we
16 thought there were four, and I said there was a
17 fifth, maybe I said there was a sixth, I don't
18 remember exactly how many people were on the
19 call, but I remember finding out that they were
20 on the call.

21 And I told the group that -- I asked
22 Premier if this -- if you were the same Premier
23 that we have an agreement with, because I think
24 I Googled it while we were on the conference
25 call that we had an agreement with in Henry

1 CONFIDENTIAL - JAKE MEADOWS
2 Schein Medical, or they might have said it, and
3 they said, "No, we're not that group."

4 And at that point, I had this -- this
5 gut feeling that I was being treated
6 dishonestly, and I communicated to the
7 leadership of the GDA that I am not -- I must
8 not understand your model if Premier is here and
9 that I felt that it was unprofessional that they
10 brought in a second or a third group into a
11 discussion and didn't prepare us.

12 I called out for non-disclosures for
13 us in order to move forward to have a discussion
14 because this other entity, that was Premier at
15 the time, in my experience, I felt approached me
16 and Henry Schein Dental extremely
17 unprofessional, and I found it to be extremely
18 unprofessional of the GDA as well.

19 Q. Approximately when did this occur?

20 A. I don't remember. I don't remember
21 the date. I just remember it was during -- it
22 was during our discussions with the GDA over the
23 summer period before -- before we decided not to
24 move forward with them or they declined our
25 offer. I forget which one it was.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. In the last six months, have you dealt
3 with anyone from Premier who's wanted to partner
4 with Schein on the dental business?

5 A. Yes.

6 Q. Can you tell me about that?

7 MR. McDONALD: Well, hang on. Hang
8 on.

9 Jasmine, so I don't know what in the
10 world it has to do with this case, but
11 you're out of time. You're well over your
12 five hours. So I would ask you to wrap this
13 up quick and think about -- I'm not going to
14 give you a lot more time because you're over
15 by probably ten minutes. I'm sitting here
16 patiently letting you do that because I'm
17 not ever going to hold you to the second,
18 but you're now going on a topic that doesn't
19 have anything to do with your lawsuit. It's
20 in the last six minutes. It's after you
21 filed your action. I can't imagine how this
22 is even remotely relevant.

23 So if you want this to be your last
24 question, then go for it. Otherwise, I
25 suggest you figure out how you're going to

1 CONFIDENTIAL - JAKE MEADOWS
2 wrap this up in the last couple of minutes.

3 BY MS. ROSNER:

4 Q. Are you currently entertaining
5 potentially doing business with Premier on the
6 Dental side?

7 A. Well, I'm -- I'm Vice President of
8 Sales of Special Markets, so I can't
9 necessarily -- I'm not authorized to make
10 decisions about Henry Schein Dental and what
11 Henry Schein Dental does.

12 I'm exploring because there are some
13 other GPOs that we do business with in Special
14 Markets, like Acruity, I'm going to explore,
15 because I got it from the Medical side, some
16 opportunities with that group.

17 MS. ROSNER: That's all my questions.

18 We can take a break and go off the record.

19 MR. McDONALD: Thanks.

20 THE VIDEOGRAPHER: The time is 3:18
21 p.m. We're off the record.

22 (Recess.)

23 THE VIDEOGRAPHER: The time is 3:36
24 p.m. We're on the record.

25 EXAMINATION BY

1 CONFIDENTIAL - JAKE MEADOWS

2 MR. McDONALD:

3 Q. Mr. Meadows, you were shown a number
4 of e-mails today by counsel for the FTC, and
5 they showed you snippets of e-mails in an
6 attempt to suggest that you may be against or
7 anti buying group or GPOs, and I want to give
8 you the opportunity to state what your belief is
9 or how you feel about buying groups and GPOs.

10 So will you tell the Administrative
11 Law Judge your feelings or your beliefs about
12 doing business with buying groups?

13 A. Since -- since I joined Henry Schein
14 in 2001, within, as I described, the first few
15 months or days of being part of Henry Schein,
16 one, I was asked by my company and senior
17 leaders of my company to go make the most of
18 existing relationships and agreements with the
19 buying groups that existed, and I personally
20 feel that my success with those groups helped
21 propel my career within Henry Schein.

22 My own experience is that, by working
23 with, specifically -- and I did focus a lot of
24 my business on that Alpha Omega early in my
25 career, and I was a commission paid salesperson

1 CONFIDENTIAL - JAKE MEADOWS
2 that I actually had increased commissions from
3 partnering with those groups and had a positive
4 experience with partnering with those groups.

5 And then when I moved in my next
6 position, continued to expand our partnership
7 with an existing buying group, and I would say
8 throughout my career at Henry Schein have always
9 seen, generally, buying groups as a positive way
10 for Henry Schein to achieve our mission, grow
11 our business, retain our business, and bring our
12 mission to life.

13 And I believe that there is probably
14 instances that have been represented today that
15 are more about case-by-case basis for a
16 particular either situations or buying groups
17 that didn't make sense for us to grow our
18 business, retain our business, or bring our
19 mission to life.

20 Q. Thank you.

21 Are Benco and Patterson competitors of
22 Henry Schein?

23 A. Yes.

24 Q. And do you compete with them for
25 business?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes.

3 Q. Do you try to take business away from
4 Benco?

5 A. Yes.

6 Q. Do you try to take business away from
7 Patterson?

8 A. Yes.

9 Q. Does Benco and Patterson try to take
10 business away from you?

11 A. Yes.

12 Q. Aside from recruiting, have you ever
13 had any conversations or communications, and I
14 want you to use that broadly -- in person,
15 telephone, e-mail, letter, text message, however
16 you want to define that -- have you ever had a
17 communication, outside of recruiting, with
18 anyone from Benco other than to simply say hello
19 or have small talk?

20 A. No.

21 Q. Again, outside of recruiting, have you
22 ever had a communication, in the broadest sense,
23 with anyone from Patterson other than to say
24 hello or have small talk?

25 A. No.

1 CONFIDENTIAL - JAKE MEADOWS

2 Q. Have you ever had a communication with
3 anyone from Benco about buying groups or GPOs or
4 any other type of customer?

5 A. No.

6 Q. Have you ever had a communication with
7 anyone from Patterson about buying groups, GPOs,
8 or any other type of customer?

9 A. No.

10 Q. So have you personally ever reached
11 any kind of agreement or understanding with
12 anyone from Benco or Patterson about buying
13 groups, GPOs, or any other type of customer?

14 MS. ROSNER: Objection.

15 A. No.

16 MS. ROSNER: Calls for a legal
17 conclusion.

18 A. I --

19 MS. ROSNER: You can answer.

20 A. I personally never had that.

21 Q. And you would know if you did, right?

22 A. I would.

23 Q. The FTC alleges in this case that
24 Henry Schein had an agreement with Benco and
25 Patterson to not do business with buying groups

1 CONFIDENTIAL - JAKE MEADOWS

2 or offer them discounts.

3 Do you have any personal knowledge of
4 such an agreement?

5 A. No.

6 Q. Would such an agreement be consistent
7 or inconsistent with your knowledge of the
8 business practices of Henry Schein Dental?

9 A. Very --

10 MS. ROSNER: Objection. Legal
11 conclusion.

12 A. Very inconsistent.

13 Q. You've talked today a number of times
14 about the conflict between Henry Schein Dental
15 and Henry Schein Special Markets about who gets
16 responsibility for buying groups?

17 A. Uh-huh.

18 Q. Can you explain what was the conflict
19 between Henry Schein Dental and Henry Schein
20 Special Markets?

21 A. Every year each group is given a quota
22 or a budget to reach that we have to grow our
23 business a particular amount. Buying groups are
24 within this conflict that we were talking about.
25 Buying groups were an area that both divisions,

1 CONFIDENTIAL - JAKE MEADOWS
 2 that both have different presidents and
 3 different sales teams, were attractive to both
 4 groups to do business with to grow their
 5 business to meet or beat quota, and the conflict
 6 that -- that I explained today was a conflict
 7 between the sales teams in the marketplace, the
 8 Henry Schein Special Markets sales team and the
 9 Henry Schein Dental sales teams, which are
 10 completely different HR teams, sales roles, pay
 11 structures, were continuing to try to beat one
 12 another to -- to introduce Henry Schein and win
 13 the buying groups, which caused conflict for and
 14 misrepresentation of our brand to the buying
 15 group. And so, therefore -- I can speak for
 16 myself -- I continued to raise to Dave Steck and
 17 then in meetings that conflict because I felt as
 18 if that we could meet or beat quota if we
 19 were -- if we, Henry Schein Dental, were the
 20 lead on the buying groups initiative.

21 So there was a lot of dialogue back
 22 and forth about who should lead that.

23 Q. If a buying group, a particular buying
 24 group, was a Special Markets customer, would
 25 Henry Schein Dental FSCs continue to call on

1 CONFIDENTIAL - JAKE MEADOWS
 2 those customers, individual customers?

3 MS. ROSNER: Objection. Form.

4 A. It was case-by-case on whether or not
 5 the FSCs would call on -- continue to call on a
 6 Special Markets buying group, but there were
 7 two -- two scenarios that were always likely.

8 One is that whenever a customer was a
 9 Special Markets customer, the FSC's commission
 10 was more than cut in half as part of that
 11 division's policy, which would de-incentivize
 12 the FSC from interacting with that customer
 13 proactively on a regular basis to -- to the
 14 level that we wanted, and therefore, we felt as
 15 if, one, if the commission was decreased, then
 16 that FSC would not be able to -- or would not be
 17 incentivized to continue to represent our value
 18 and retain that customer, grow that customer,
 19 and bring our mission to life within that
 20 customer without the FSC, who in Henry Schein
 21 Dental was -- that was our strategy, an FSC
 22 strategy; or if an FSC was unassigned to that
 23 customer, we as a company, and Henry Schein
 24 Dental, who was responsible for equipment and
 25 technology across the entire U.S., would lose

1 CONFIDENTIAL - JAKE MEADOWS
 2 the ability to have someone proactively
 3 presenting new technologies, equipment and
 4 technology -- or, equipment to that customer
 5 because the Special Markets Division was only
 6 responsible for merchandise sales to those
 7 customers and only got sales credit for
 8 merchandise sales. Never got credit for
 9 equipment and technologies, so therefore, they
 10 were not incentivized to sell equipment and
 11 technology.

12 So I felt as if it was undermining our
 13 ability to grow our business, retain our
 14 business, and bring our mission to life.

15 Q. Do -- I'm switching topics a little
 16 bit.

17 Do FSCs have the ability to discount
 18 merchandise to their customers?

19 A. Yes.

20 Q. Can you explain how that happens?

21 A. The FSCs are commission-based and paid
 22 on gross profit, total gross profit of the
 23 customer's purchases within a certain timeframe.
 24 So, with that as more of the governor for our
 25 FSCs, we allowed them to discount product in an

1 CONFIDENTIAL - JAKE MEADOWS
 2 individual basis on a particular item, sometimes
 3 below cost, in the spirit of winning and keeping
 4 the entire customer and having access so they
 5 can bring our mission to life.

6 MR. McDONALD: Thank you. That's all
 7 the questions I have at this time.

8 EXAMINATION BY

9 MS. SEIDL:

10 Q. Mr. Meadows, my name is Jana Seidl. I
 11 represent Patterson. I just have a few
 12 questions.

13 A. Okay.

14 Q. You testified that Schein and
 15 Patterson competed for customers, correct?

16 A. Correct.

17 Q. Would you classify that competition as
 18 intense?

19 A. Yes.

20 Q. So there was never a time in any of
 21 your roles at Schein where Schein did not
 22 compete against Patterson for customers?

23 MS. ROSNER: Objection. Leading.

24 A. I've never had an experience where we
 25 did not compete for every dental office that was

1 CONFIDENTIAL - JAKE MEADOWS
2 out there specific to Patterson or any other
3 competitor.

4 MS. SEIDL: That's all the questions I
5 have. Thank you.

6 EXAMINATION BY

7 MR. YOON:

8 Q. Mr. Meadows, my name is Eric Yoon and
9 I represent Benco Dental Supply. I just have a
10 couple of questions.

11 Earlier you were asked about Atlantic
12 Dental Care and given a document from Ms. Rosner
13 that's Bates-labeled -- not Bates-labeled,
14 that's pre-labeled CX2358. I don't think you
15 will need the document. I just said that just
16 to bring up the Atlantic Dental Care.

17 Do you know for a fact whether or not
18 Benco actually made an offer to or, you know,
19 tried to do business with Atlantic Dental Care?

20 A. No, I don't know for a fact.

21 Q. Do you know for a fact whether
22 Benco -- whether Benco does or does not do
23 business with buying groups, including Atlantic
24 Dental Care?

25 A. I do not know for a fact.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. So would it be fair to say that you do
3 not know Benco's policy, if it existed, about
4 buying groups?

5 MS. ROSNER: Objection. Leading.

6 A. I have no idea what their policy is.

7 MR. YOON: That's all the questions I
8 have.

9 Thank you.

10 MS. ROSNER: Could we take a
11 five-minute break?

12 THE VIDEOGRAPHER: The time is 3:48
13 p.m. We're off the record.

14 (Recess.)

15 THE VIDEOGRAPHER: The time is 3:55
16 p.m. We're on the record.

17 FURTHER EXAMINATION BY

18 MS. ROSNER:

19 Q. Mr. Meadows, your attorney was asking
20 about the documents that we reviewed today and
21 noted that those documents had particular
22 instances where it appeared that you did not
23 support buying groups and perhaps suggested that
24 that was not representative of your view; is
25 that right?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. That's correct.

3 Q. In any of those documents today did
4 you ever caveat that you generally support
5 buying groups, but on this case-by-case basis,
6 you didn't support going forward with a
7 particular group?

8 A. Can you rephrase? I'm not sure I
9 understand your question.

10 Q. In the documents that we reviewed
11 today there was some language that cast out on
12 whether or not you approved of doing business
13 with buying groups, and my question is whether
14 or not in those documents you ever provided a
15 caveat that, while you did not want to do
16 business with a particular group, you generally
17 support buying groups?

18 A. Did I provide any documents to that?

19 Q. Did you provide any caveats in the
20 documents that we reviewed today?

21 A. Yes, I felt I did.

22 Q. Do you recall specifically which ones?

23 A. I think I represented in multiple of
24 the documents that we reviewed where I was
25 asking questions about -- asking questions about

1 CONFIDENTIAL - JAKE MEADOWS
2 the particular group, represented that I had
3 interest in doing business with the groups, and
4 there were a few subject lines like the GPO
5 opportunity that I feel like that I represented
6 that I was very interested and very proactive in
7 doing business with and positive about doing
8 business with GPOs as we defined them then and
9 buying groups.

10 Q. I want to make sure that your
11 testimony on these documents is crystal clear.

12 Can you list out for me the documents
13 that you are describing where you believe you
14 have shown your interest in doing business with
15 buying groups?

16 A. I don't remember all of the documents
17 that we reviewed today. It's been a long day,
18 but you asked me if I could generalize, and I
19 generalized. So I can generalize and say I -- I
20 do remember today seeing questions that I asked
21 particular -- about particular buying groups, as
22 we reviewed them, where I was asking about how
23 many locations, which I think you would find in
24 the document, or who was the leader or what's
25 their offer or, you know, what are we offering

1 CONFIDENTIAL - JAKE MEADOWS
2 them that represents my interest in growing with
3 buying groups.

4 I think there were also, when we
5 talked about the VIP Club, my questions were all
6 to get to an end, which was develop some sort of
7 program or some sort of concept that would allow
8 us to do better with buying groups than we did.

9 And in my testimony today I also
10 represented multiple what I referred to as
11 watershed moments that I felt were evolutions in
12 the advancement of, a positive advancement, of
13 us doing business with Henry Schein. And we
14 didn't discuss today the formation of the
15 Alternate Purchasing Channel Group, which was
16 part of -- which solely is even a more
17 refinement, sole focus on buying groups and us
18 taking advantage of it.

19 Q. Can you name for me the buying groups
20 that you have advocated for and wanted to work
21 with since 2011?

22 A. I don't think I can name them all. I
23 could do -- one, I can say generally I was
24 interested in doing business with buying groups,
25 as I've said, and I would have go through

1 CONFIDENTIAL - JAKE MEADOWS
2 records or look at a list of buying groups to
3 see which ones that I particular, in person,
4 advocated for.

5 I can say Smile Source. I can say the
6 Georgia Dental Association. I can say some of
7 the ones where, like said, where Joe Cavaretta
8 exposed to me where it was KlearImpakt, and I
9 said, yeah, let's go. But as far as those --
10 those are the ones that are top of mind today
11 because we have seen those in the documents
12 today.

13 Q. Any other buying groups you recall
14 advocating for wanting to work with since 2011?

15 MR. McDONALD: Object to the form.

16 Asked and answered.

17 A. I'm confident there's a list that I
18 could provide if I were to go back and do
19 research within the buying groups that we've
20 listed out, but off the top of my head today, I
21 can't think of any considering, you know, today
22 we've gone through a lot of information.

23 Q. I'm going to refer you to the CX2500,
24 which I believe the court reporter has.

25 A. Oh, that was that one copy.

1 CONFIDENTIAL - JAKE MEADOWS
2 Q. Take a moment. There are some buying
3 groups listed on that sheet.

4 That's the only list of buying groups
5 that I'm aware of. I want to see if any of that
6 refreshes your recollection.

7 A. I don't think this is probably a
8 complete list, but I definitely made a case for
9 the Louisiana Primary Care Association, the
10 Continued Growth, and -- I mean, if you're
11 asking about ones that came to be or ones that I
12 promoted within the organization, I'm not sure
13 which -- which ones do you want to hear about?

14 Q. I'm asking about buying groups that
15 you supported, you supported working with either
16 growing or entering into contracts with since
17 2011.

18 A. So, generally, all buying groups that
19 we had contracts with and, generally, all
20 activities that were associated with evaluating
21 whether or not a buying group would be someone
22 who would complement growing our business,
23 retaining our business, and bringing our mission
24 to life.

25 If you're looking for names,

1 CONFIDENTIAL - JAKE MEADOWS
2 specifically, I would say Breakaway, Dental
3 Gator after we resolved our issues,
4 Commonwealth, Council Connections, Illinois
5 Primary Health Assoc- -- yeah, Primary Health
6 Association, Louisiana Primary Care. And I'm
7 just going off of this list that we're focused
8 on today. Teeth Tomorrow, which is one that I
9 was actually involved in from inception, meaning
10 did preliminary meetings with the two owners of
11 those -- or, I don't know if they're owners, but
12 the executives that represented Teeth Tomorrow,
13 and got into a lot of detail with that one.

14 Again, off the top of my head, I'm
15 looking at this list and I'm just going off of
16 what's on this list to give you some examples
17 besides what we talked about today.

18 Q. Is there any other company that comes
19 to mind?

20 A. Again, after a long day, I can't think
21 of another one, but I'm confident that there
22 were.

23 Q. You mentioned GDA --

24 A. Yes.

25 Q. -- as one company that you supported?

1 CONFIDENTIAL - JAKE MEADOWS

2 A. Yes.

3 Q. Did Schein ultimately submit a bid for
4 GDA's business?

5 A. I do not recall whether or not we
6 submitted a formal bid. I don't remember.

7 Q. Do you recall sending GDA a letter
8 saying that Schein was not going to submit a bid
9 for its business?

10 A. I don't recall. I don't remember that
11 exactly. I remember we communicated with them
12 that we were -- that basically either
13 negotiations or our dialogue with them was going
14 to stop, but I don't remember how we
15 communicated that to them.

16 Q. What do you mean you communicated that
17 your negotiations or dialogue was going to stop?

18 A. Meaning the -- that instance that I
19 described to you with Premier and that back and
20 forth, that I had reached out to Frank Caputo --
21 I might have slaughtered his name, I apologize
22 for that -- whoever the Frank was -- I think the
23 person responsible, I reached out to him
24 multiple times, with no return phone call,
25 because, like I said, I wanted to engage them

1 CONFIDENTIAL - JAKE MEADOWS

2 without that entity Premier that I didn't know
3 anything about, I wanted to follow up on were we
4 going to get non-disclosures, were we going to
5 have discussions to proactively reach out. I
6 interacted with their incoming president. I
7 don't remember that doctor's name, but it was
8 someone of the GDA. And I had conversations
9 with her about -- and I -- and I was looking to
10 communicate with the GDA -- I had a really bad
11 experience, and I didn't think that that's the
12 experience they wanted me to have -- so that we
13 could kind of bring our relationship back to
14 life. And Frank never reached out back to me,
15 and in that e-mail that you showed me today
16 where the GDA or Premier is trying to get to
17 somebody within Henry Schein, it's basically
18 that they didn't get a positive response based
19 on their dealings with me so they, from the way
20 I interpret that, they were looking to go to a
21 different place to see if they could get a
22 different one when ultimately they needed to
23 respond to me.

24 So, based on the fact that I could not
25 engage the leadership, based on the fact of my

1 CONFIDENTIAL - JAKE MEADOWS
2 unprofessional experience, I didn't feel that it
3 was appropriate for us to mislead the GDA at
4 that time as if we were going to continue to be
5 in discussions. I wasn't going to keep calling
6 them.

7 Q. And you ended the further negotiations
8 with GDA?

9 A. I'm sorry.

10 Q. You ended further negotiations with
11 GDA?

12 MR. McDONALD: Object to the form.

13 Q. Let me rephrase.

14 Negotiations between Schein and GDA
15 stopped?

16 MR. McDONALD: Object to the form.
17 Mischaracterizes the evidence.

18 A. I actually don't believe that that's
19 the case. I believe that I said that I, or I
20 might have called out that we were going to
21 stop, but we continued to reach out to the GDA
22 after -- after that, and I did as well.

23 MS. ROSNER: I have no further
24 questions.

25 FURTHER EXAMINATION BY

1 CONFIDENTIAL - JAKE MEADOWS
2 MR. McDONALD:

3 Q. Mr. Meadows, did you keep your
4 feelings about buying groups a secret?

5 A. No.

6 Q. So did you think it was necessary to
7 tell everyone that you were pro buying group?

8 A. No.

9 Q. Do you think people knew that?

10 (Continued on the next page to include
11 the jurat.)

1 CONFIDENTIAL - JAKE MEADOWS
 2 A. I think people knew that based on the
 3 fact that, as I said, I've made a case for why
 4 we should handle buying groups and speaking to
 5 the strength of the FSC and what we could do for
 6 buying groups.

7 MR. McDONALD: Thank you. That's all
 8 I have.

9 THE VIDEOGRAPHER: This concludes
 10 today's deposition. The time is 4:07 p.m.
 11 We're off the record.
