I. INTRODUCTION

The three largest dental product distributors conspired to sustain elevated prices for dental supplies and equipment by refusing to “recognize, work with, or offer discounts to” buying group customers—groups comprised of dental practitioners who sought to leverage collective purchasing power to obtain lower prices. The dental product distribution market is highly concentrated, consisting of three distributors that together comprise approximately 75% of the distribution market in the United States: Henry Schein, Inc. (“Schein”), Patterson Companies, Inc. (“Patterson”), and Benco Dental Supply Co. (“Benco”) (together, “Respondents” or the “Big Three”). Through unambiguous written communication and a myriad of telephone and in-person exchanges, the Big Three formed an agreement to stamp out buying groups.

The evidence at trial will consist of contemporaneous emails and messages reflecting an agreement to “stay out of” buying groups. High-ranking executives with knowledge of the conspiracy repeatedly referenced the agreement among the Big Three in written communications:

- *“Confidential and not for discussion . . . our 2 largest competitors stay out of these [buying groups] as well If you hear differently and have specific proof please send that to me.”*¹
- *“Schein, Benco, and Patterson have always said no [to buying groups].”*²
- *“Maybe what you should do is make sure you tell [Schein] and [Patterson] to hold their positions as we [Benco] are.”*³

The evidence also reflects recurrent inter-firm communications in which the Big Three openly discussed buying groups and agreed on a coordinated response. These communications

¹ CX0093 at -001 (PDCO00051886) (bold omitted).

² CX0106 at -001 (PDCO00027980).

³ CX0023 at -001 (BDS-FTC00009881).

were not casual or accidental—instead, the evidence consists of numerous private communications in which the leaders of the Big Three contacted each other with the specific purpose of discussing buying groups.

For example, direct evidence will show that Benco and Patterson agreed *in writing* to refuse to “recognize, work with, or offer discounts to buying groups,”⁴ and then confronted each other on suspicions of cheating following that agreement. Similarly, direct evidence will show that Benco and Schein exchanged competitive bidding information regarding buying groups on multiple occasions. Benco’s Managing Director admitted in testimony that { [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] }⁵ Likewise, the evidence will show that Benco attempted to invite the number four distributor, Burkhardt, on at least three separate occasions to join the conspiracy.

The executives knew these communications were unlawful and testified that they made them feel “*uneasy*,” were “*against company rules*,”⁶ and { [REDACTED] }⁷ The only logical explanation for these repeated inter-firm communications is that they were pursuant to a scheme to coordinate competitive activity—there is simply no procompetitive justification, and Respondents have offered none.

These communications with competitors and coordinated conduct occurred against the backdrop of a rising threat: each conspirator understood that the buying group model could result in a significant decline in margins and a dramatic change in the dental distribution model—a fate that befell the medical supply distribution market when buying groups entered the

⁷ { [REDACTED] }

scene. The Big Three feared that if one competitor sold to buying groups, there was a significant risk of “other competitors then following suit” resulting in a “*huge price war*.”⁸ Rather than letting competition run its course, Respondents violated the antitrust laws.

The direct and circumstantial evidence in this case compels the finding of a conspiracy. Respondents “consciously committed to a common scheme” to maintain high prices for dental products by refusing to discount to or compete for buying group customers. As such, this is a price-fixing case subject to *per se* condemnation. But even under an abbreviated rule of reason analysis, the evidence shows that Respondents’ conspiracy resulted in obvious harm in the form of higher prices on dental products. Respondents have not offered any procompetitive justification, and for good reason. No such justification exists.

II. BACKGROUND

A. The Rise of Buying Groups Triggers the Conspiracy.

1. Changes in Dental Industry Give Rise to Buying Groups.

There were approximately 200,000 dentists practicing in the United States in 2017.⁹ The vast majority of those dentists are independent dentists—solo practitioners or small group dental practices with one or a few locations.¹⁰ These dentists are often referred to as “private practices”¹¹ and { }¹² Sales to

¹¹ CX0311 (Sullivan Investigational Hearing (“IH”) Tr.) at 85:16-19; { }

independent dentists are quite profitable to Respondents—{ [REDACTED] }¹³

Respondents also sell dental products to corporate dental practices known as dental service organizations (“DSOs”).¹⁴ DSOs are a growing segment in dentistry and consist of large group practices that have multiple locations combined under a single ownership structure.¹⁵ Respondents also sell to other customer segments including: healthcare clinics for indigent populations known as Community Health Centers (“CHCs”), institutional and government customers, and dental schools.¹⁶

Independent dentists have faced significant challenges over the past decade due to decreasing insurance reimbursements, increased student debt, and the growth of corporate dentistry or DSOs.¹⁷ Buying groups cropped up as a means for independent dentists to combat these challenges by leveraging purchasing power of a group while at the same time remaining independent.¹⁸ Sometimes referred to as “buying clubs,” “group purchasing organizations,” or

¹⁷ { [REDACTED] }

¹⁸ *See, e.g.*, { [REDACTED] }

“GPOs,” the defining characteristic of a buying group is an entity that aggregates negotiating leverage on behalf of *independent dentists*.¹⁹

Buying groups market themselves as a means of helping independent dentists survive. For example, the president of Kois Buyers Group testified that the company was created “to allow the smaller dentists an option to compete with the larger companies, by reducing some of their overhead.”²⁰ [REDACTED]

[REDACTED]²¹

Respondents had a common understanding that a buying group is a collection of independent dentists banding together to negotiate lower prices.²² Importantly, Respondents also understood the distinction between buying groups of independent dentists and other forms of dental entities that aggregated purchasing power, such as CHCs²³ and DSOs.²⁴

2. The Rise of Buying Groups Threatened Respondents’ Margins.

Buying groups began to take hold in the dental industry around 2011.²⁵ Since that time, they have steadily cemented their position in providing value to independent dentists. The rise of

¹⁹ CX0311 (Sullivan IH Tr.) at 115:11-116:3 (buying group and GPO historically used interchangeably); [REDACTED]; CX1156 at -001 (BDS-FTC00017053).

²³ *See, e.g.*, CX8005 (Muller Dep. Tr.) at 278:14-18 (Schein contract clause that prohibits CHC buying groups from extending their negotiated pricing to private practice dentists).

²⁴ *See, e.g.*, CX0158 at -002 (PDCO 00031277) (Special Markets “definition will not include group purchasing organizations (GPOs).”).

²⁵ *See, e.g.*, CX8025 (Sullivan Dep. Tr.) at 66:21-67:15.

buying groups terrified Respondents.²⁶ Each Respondent understood that buying groups could slash margins²⁷—as occurred in the medical supply distribution market when GPOs arrived there.²⁸ Schein feared that if one of the Big Three sold to buying groups, there was a risk of “other competitors then following suit” resulting in a “huge price war.”²⁹ Benco was concerned about { [REDACTED]

{ [REDACTED] }³⁰ Similarly, Patterson identified the { [REDACTED] } as a potential threat.³¹

At the same time that buying groups threatened the full-service distribution model, they also offered growth opportunities to individual distributors. By recruiting members and passing on dental supplies savings, buying groups amassed loyal customers that individual distributors could secure by negotiating with the buying group—a more streamlined and efficient process than negotiating with every individual member. Dental distributors found it profitable to work with buying groups. For example, { [REDACTED]

²⁶ See, e.g., { [REDACTED] }; CX2618 at -001 (HS-0013750); { [REDACTED] }; CX0015 at -001 (BDS-FTC00016083) (referring to buying group Smile Source as “terrifying”); { [REDACTED] }; CX2377 at -001 (Henry Schein-000267660).

²⁷ See, e.g., { [REDACTED] }; CX8003 (Foley Dep. Tr.) at 132:9-133:7 (informing direct reports that buying groups erode margins); CX0054 at -001 (BDS-FTC00003743) (“rise of buying groups, decline of margin, flat market share”); { [REDACTED] }.

²⁸ See, e.g., CX1156 at -001 (BDS-FTC00017053) (“GPOs are why medical works at the margins they do.”); CX0165 at -001 (Henry Schein-000004705) (“Dealing with GPOs is incredibly risky on many fronts . . . as soon as we start doing this we will turn into medical, margins will go down . . .”); CX3419 at -001 (PDCO 00021240) (referring to GPOs in medical as a “necessary evil”).

²⁹ CX2113 at -001 (Henry Schein-000740470).

³⁰ { [REDACTED] }

³¹ { [REDACTED] }

[REDACTED] }³³ Similarly, [REDACTED] { [REDACTED] }³⁴

B. Channels of Distribution of Dental Supplies and Equipment.

There are three main distribution channels for the purchase of dental products: (1) full-service distributors; (2) mail-order or internet distributors; and (3) direct-selling manufacturers. Respondents are the only “full-service” distributors of dental supplies and equipment with a national footprint.³⁵

Full-service distributors offer a comprehensive selection of dental supplies and equipment from a variety of manufacturers.³⁶ Full-service distributors provide dentists with a one-stop shop for supplies, and they typically deliver within a day or two³⁷—this is important because it allows dentists to avoid carrying large inventories in their office space. For this reason, [REDACTED]

[REDACTED] }³⁸ In addition to supplies and equipment, full-service

³² See, e.g., { [REDACTED] }; see also { [REDACTED] }.

³³ { [REDACTED] }.

³⁴ { [REDACTED] }; see also { [REDACTED] }.

³⁷ See, e.g., { [REDACTED] }.

³⁸ { [REDACTED] }.

distributors also offer a variety of value-added services, including sales representatives, equipment servicing, sales professional support, and practice management software.³⁹ The dental distributors are highly consolidated with the Big Three collectively controlling [REDACTED] of the distribution market in 2014.⁴⁰

Dentists can also purchase supplies from mail-order/internet distributors and, to some extent, from direct-selling manufacturers. Unlike the full-service distributors, mail-order or internet distributors do not generally employ sales representatives or service technicians.⁴¹

[REDACTED] }⁴² Finally, dentists can purchase only certain limited supplies from direct-selling manufacturers. Direct-selling manufacturers typically specialize in niche products, such as root canal supplies.⁴³ They do not typically sell the full array of products that a dentist would need to run their business;⁴⁴ instead, many of the products are only available through distributors.⁴⁵

III. ARGUMENT

The evidence at trial will show that Respondents violated Section 5 of the FTC Act by conspiring to prevent the decline of prices in the dental product industry through an agreement

[REDACTED] }.

³⁹ See, e.g., CX0311 (Sullivan IH Tr.) at 45:19-46:6; CX5005 at -006 (Form 10-K for Patterson Companies 2017).

⁴⁰ [REDACTED] }; see also CX2742 -032 (Henry Schein-000067286) (2011-2013 Strategic Plan, “In the United States, the top three distributors have a combined market share of over 80% in the dental supplies and equipment market.”).

⁴¹ [REDACTED] }; CX0305 (Cavaretta IH Tr.) at 48:14-19.

⁴² [REDACTED] }

⁴³ CX8030 (Baytosh Dep. Tr.) at 57:20-58:15; [REDACTED] }
[REDACTED] }

⁴⁴ [REDACTED] }; CX8030 (Baytosh Dep. Tr.) at 57:7-15.

⁴⁵ CX0321 (Kois IH Tr.) at 84:3-15.

not to discount to or otherwise compete for business from dental buying groups. The evidence will show that this conspiracy resulted in higher prices for dental supplies than would have existed absent the agreement and is *per se* unlawful (Count I), and in any event is unlawful under a quick look or inherently suspect rule of reason analysis (Counts II and III). The evidence will also establish that Benco attempted to further restrain trade by colluding with a fourth dental distributor, Burkhart. While that attempt failed, it constitutes an unsuccessful attempt to fix prices in violation of Section 5 of the FTC Act (Count IV).

An agreement under Section 1 of the Sherman Act⁴⁶ is defined as a “unity of purpose or a common design and understanding.”⁴⁷ The Supreme Court has also described an agreement as a “conscious commitment to a common scheme designed to achieve an unlawful objective.”⁴⁸

A “tacit” agreement is just as much an antitrust violation as an “express” agreement.⁴⁹ Further, an inter-firm exchange of competitive information followed by tacit coordination is sufficient to find a violation of Section 1 of the Sherman Act.⁵⁰ Indeed, “[i]t is not necessary to find an express agreement . . . but it is sufficient that a concert of action be contemplated and that defendants conform to the arrangement.”⁵¹

⁴⁶ Section 5 of the FTC Act prohibits unfair methods of competition, including conduct that violates Section 1 of the Sherman Act. A Section 1 violation requires proof of (1) a contract, combination, or conspiracy among two or more separate entities that (2) unreasonably restrains trade. *Realcomp II, Ltd. v. FTC*, 635 F.3d 815, 827 (6th Cir. 2011).

⁵¹ *Esco Corp. v. United States*, 340 F.2d 1000, 1008 (9th Cir. 1965).

A plaintiff need only establish that a defendant violated Section 1 by a preponderance of the evidence.⁵² In other words, a plaintiff need only present evidence that is sufficient to allow the fact-finder “to infer that the conspiratorial explanation is more likely than not.”⁵³

A conspiracy may be established through either direct or circumstantial evidence, or a combination of the two. Because it is unlikely that conspirators will formally sign a written agreement, proof of conspiracies rarely consists of direct evidence of an explicit agreement.⁵⁴ Generally, conspiracies are proven through inferences that may fairly be drawn from the behavior of the alleged conspirators, *i.e.* circumstantial evidence.⁵⁵ Circumstantial evidence is no less persuasive than direct evidence, however.⁵⁶

In evaluating the existence of an antitrust conspiracy, courts must consider the “totality of the evidence.”⁵⁷ When viewing evidence, “[t]he character and effect of a conspiracy are not to be judged by dismembering it and view its separate parts, but only by looking at it as a whole.”⁵⁸

A. Respondents Agreed to Refuse to Offer Discounts or Otherwise Compete for Business from Buying Groups.

As described below, the evidence at trial will establish a conspiracy by the Big Three distributors to refuse to discount to or compete for the business of buying groups. Complaint Counsel will produce powerful evidence of collusion, including direct and circumstantial evidence of an agreement and extensive evidence of additional plus factors.

1. Benco Acted as the Ringleader.

Complaint Counsel will show that the smallest of the Big Three, Benco, orchestrated the conspiracy. [REDACTED] [REDACTED], for the first time joining the likes of Schein and Patterson.⁵⁹ By that year, buying groups began to take hold in dental. As the smallest distributor of the Big Three, Benco had the most to gain by selling to buying groups—buying groups offered the potential upside of a new customer base. Conversely, Benco had the most to lose if its top competitors started discounting to buying groups.⁶⁰

Benco had a longstanding no-buying group policy, which it instituted when buying groups were merely a nascent customer segment.⁶¹ Benco knew that its no-buying group policy was not sustainable if Patterson and Schein began selling to buying groups; and [REDACTED]

[REDACTED] } [REDACTED]
[REDACTED]⁶² [REDACTED]⁶³

⁶⁰ *See, e.g.,* { [REDACTED] }.

⁶¹ { [REDACTED] }; CX1372 at -002 (BDS-FTC00013042) (May microblog posting from Chuck Cohen, “Benco does NOT currently recognize as a single customer . . . Any kind of GPO whether they provide additional services or not.”); CX1131 at -001 (BDS-FTC00095338) (Mar. 24, 2011 email from Pat Ryan to Regional Manager: “We do not participate in buying groups. Ever.”); CX1120 at -001 (BDS00403324) (Mar. 2011, Cohen instructed sales representative, “[W]e don’t offer discounts to buying groups or similar groups of dentists . . .).

⁶² { [REDACTED] }.

⁶³ { [REDACTED] }.

Thus, against the backdrop of a changing dental distribution landscape, Benco's Managing Director, Chuck Cohen,⁶⁴ leveraged his close personal relationships with his counterparts at Patterson and Schein to cease competing for buying group business. He did this through repeated email, text, telephone, and in-person communications. Cohen began by first contacting Schein, then Patterson, then Burkhardt. Moreover, [REDACTED]

[REDACTED]⁶⁵

2. **Benco and Schein Communications Prove an Agreement to Refuse to Discount to or Compete For Buying Group Customers.**

The evidence will show that Benco and Schein entered into an agreement to refuse buying group customers in 2011.⁶⁶ Henry Schein Dental ("HSD") President Tim Sullivan and Benco's Cohen had a close relationship—they considered each other friends and spoke regularly. The evidence will show that Cohen initiated contact with Sullivan after he learned that Schein was working with buying groups. Complaint Counsel will present direct evidence that Sullivan and Cohen exchanged competitively sensitive information regarding bidding on buying groups through a series of telephone calls, emails, and text messages. The evidence will also show that Schein abruptly altered its prior pro-buying group position to match Benco's no-buying group policy. Each company sought to ensure that the other upheld its end of the bargain, with evidence of Benco and Schein monitoring each other's behavior toward buying groups and confronting each other upon suspicions of cheating.

⁶⁴ Appendix A to Complaint Counsel's Pre-Trial Brief provides titles for relevant individuals in this action.

⁶⁵ { [REDACTED]

[REDACTED] }.
⁶⁶ The conspiracy started to fall apart in 2015 after Benco entered into a settlement agreement with the Texas Attorney General requiring it to log its competitor communications. CX6004 at -012-013.

a) *Schein and Benco Exchanged Competitive Information Regarding Buying Groups.*

The evidence at trial will establish that Cohen and Sullivan spoke on multiple occasions regarding buying groups, and regularly communicated by telephone and via text message, email, and in person at various industry events.⁶⁷

In September 2011, a buying group, Smile Source, approached Benco explaining that it worked with Schein and offering Benco the opportunity to take business from Schein.⁶⁸ Over the next several weeks and months, Cohen and Sullivan exchanged numerous communications, including dozens of text messages and multiple phone calls.⁶⁹ { [REDACTED]

- b) *Following Communications, Benco Monitored and Confronted Schein On Suspicion of Cheating, Establishing a Conscious Commitment to a Common Scheme.*

The evidence will show that following these initial communications, Benco monitored⁷⁵ and continually confronted Schein on suspicions of cheating. Such evidence is indicative of a conscious commitment to a common scheme.⁷⁶

First, in January 2012, Benco Director of Strategic Markets Patrick Ryan suspected Schein of cheating by working with a buying group called Unified Smiles.⁷⁷ Ryan forwarded an email regarding Unified Smiles to Cohen, and wrote, “*For Timmy [Sullivan] conversation.*”⁷⁸ Cohen responded, “*Talking this AM...*”⁷⁹ In fact, phone and text records establish that Cohen

⁷⁹ CX1052 at -001 (BDS-FTC00092825) (emphasis added); *see also* { [REDACTED] }

and Sullivan spoke that morning for 12 minutes.⁸⁰ The evidence will show that neither Schein nor Benco bid on Unified Smiles.⁸¹

Second, a few months later, in July 2012, Ryan learned that Schein was selling to a different buying group, Smile Source. Ryan’s reaction to the information reflects surprise that Schein would be working with Smile Source, and seeks to confront Schein regarding the cheating. Ryan wrote to his boss (Cohen): “*Better tell your buddy Tim to knock this shit off[.]*”⁸² The evidence will show that the information { [REDACTED] }⁸³ Cohen agreed to confront Sullivan:

*Please resend this e-mail without your comment on top so that I can print & send to Tim with a note. The good news is: perhaps they’re looking to us because Schein told them NO. That works for me.*⁸⁴

{ [REDACTED] }⁸⁵

Indeed, the evidence will reflect multiple occasions in which Cohen mailed notes to Sullivan.⁸⁶

Third, Benco approached Schein regarding cheating again in March 2013. Cohen had received information from a sales representative that Schein was selling to a buying group in Raleigh, North Carolina.⁸⁷ Cohen’s calendar entry and phone records confirm that Cohen and

⁸⁷ CX0061 at -001 (BDS-FTC00009697).

Sullivan spoke regarding “Buying Groups” on March 25, 2013.⁸⁸ Following the call, Cohen texted Sullivan with further details:

{ [REDACTED] }⁸⁹

Fourth, Schein and Benco communicated about Smile Source once more in the fall of 2013 when Smile Source approached both companies regarding potentially working together.⁹⁰

The evidence will show that Ryan again suspected Schein of cheating,⁹¹ and this time, Ryan communicated with Schein directly. { [REDACTED] }

{ [REDACTED] }⁹² Foley (Schein) testified that Ryan (Benco) informed him that Benco would not bid on Smile Source and reiterated Benco’s no-buying group policy.⁹³

{ [REDACTED] }⁹⁴

Written communications confirm what transpired on the call. Ryan wrote:

[Smile Source is] [v]ery familiar. Talked to them three times. Nothing is different. *Randy at Schein and I talked specifically about them. Buh-bye.*⁹⁵

⁸⁸ CX0058 at -001 (BDS00028233) (completed calendar entry “Call Tim Sullivan re: Buying Groups”); CX6027 at -027 (Communications summary exhibit).

⁸⁹ CX6027 at -028 (Communications summary exhibit) (emphasis added); CX0060 at -001 (excerpt of BDS-AZ00040489) (emphasis added); { [REDACTED] } (emphasis added).

⁹⁰ Schein worked with Smile Source prior to the conspiracy, but as discussed in more detail *infra* Section III(A)(2)(c), that relationship ended in early 2012.

⁹¹ CX1158 at -001 (BDS-FTC00024318).

⁹² CX6027 at -036 (Communications summary exhibit); { [REDACTED] }

⁹³ CX0306 (Foley IH Tr.) at 176:17-20, 183:4-7, 185:5-8; CX8003 (Foley Dep. Tr.) at 354:7-355:10 (“I saw Benco come across the screen . . . Pat Ryan . . . he basically was making a statement – it was around the Smile Source time – that they didn’t like working with buying groups and wasn’t going to bid on it.”).

⁹⁴ CX6027 at -036 (Communications summary exhibit); { [REDACTED] }

⁹⁵ CX0019 at -001 (BDS-FTC00002808) (emphasis added).

Foley reported the call within Schein and indicated that he was concerned about collusion:

[R]emind me to tell you about my conversation with Pat Ryan at SM Benco. *They're anti Buying Group and Smile Source recently reached out to them. I'm being careful not to cross any boundaries, like collusion.*⁹⁶

Foley testified that he was “uneasy” about the discussion because it was regarding a potential customer and it is “*against company . . . rules*” to discuss customers with competitors.⁹⁷

This evidence is particularly significant because following these communications, neither Schein nor Benco seriously pursued Smile Source business. The evidence will show that Benco affirmatively denied Smile Source,⁹⁸ { [REDACTED] }⁹⁹ Absent an agreement,¹⁰⁰ it would have been in each Respondent’s interest to gain business from Smile

Source.¹⁰¹ Indeed, internal emails show that Schein recognized the significant revenue it was foregoing by not serving Smile Source.¹⁰²

c) *Following Communications with Benco, Schein Pursued an Anti-Buying Group Strategy Just Like Benco's Strategy.*

Schein had historically worked with some buying groups. For example, Schein had a contract with a buying group called Smile Source from 2008, as well as the Dental Cooperative of Utah from 2007.¹⁰³ The evidence at trial will show that following communications with Benco, Schein did an about face and initiated a no-buying group strategy, providing further evidence of an agreement.¹⁰⁴

By December 2011, Schein's practice of working with buying groups had changed. Schein executive, Foley, turned down a buying group, informing them of Schein's new policy: "[U]nless you have some 'ownership' of your practices Henry Schein considers your business model as a Buying Group, and *we no longer participate in Buying Groups.*"¹⁰⁵ That same month, Sullivan referred to buying groups as a "slippery slope" and indicated that he did not

the lost revenues from the Smile Source account.¹¹⁷ This email is telling because in 2010—prior to the agreement with Benco—Sullivan was concerned about losing Smile Source as an account because “They [we]re \$1 million and growing.”¹¹⁸

3. Benco and Patterson Communications Prove an Agreement to Refuse to Discount to or Compete For Buying Group Customers.

Complaint Counsel will establish that Patterson joined the agreement to refuse to discount to or compete for buying group customers in February 2013. The evidence of an agreement between Benco and Patterson is *direct and unambiguous*: written communications between Benco’s Cohen and Patterson’s then-President, Paul Guggenheim,¹¹⁹ reflect a meeting of the minds to refuse to discount to or compete for buying groups.¹²⁰

a) Patterson and Benco Agreed Not to Compete for Buying Group Customers.

The evidence at trial will establish that in early 2013, Dr. Brent Mason and other dentists in New Mexico created a new buying group called the New Mexico Dental Cooperative (“NMDC”). Dr. Mason sent an email to prospective member dentists informing them that NMDC had “partnered with Patterson Dental.”¹²¹ When Cohen learned of Patterson’s potential involvement with the NMDC from a Benco salesperson, he wrote, “*We don’t recognize buying*

groups . . . I'll reach out to my counterpart at Patterson to let him know what's going on in NM."¹²²

Five minutes later, Cohen forwarded the email chain to his counterpart, Guggenheim:

*Just wanted to let you know about some noise I've picked up from New Mexico. FYI: Our policy at Benco is that we do not recognize, work with, or offer discounts to buying groups (though we do work with corporate accounts) and our team understands that policy.*¹²³

Guggenheim immediately forwarded the email to his VPs of Sales (David Misiak) and Marketing (Tim Rogan), letting them know of Benco's competitive position.¹²⁴ A few hours later, Guggenheim accepted Cohen's invitation to collude:

*Thanks for the heads up. I'll investigate the situation. We feel the same way about these.*¹²⁵

This email chain constitutes direct evidence of a meeting of the minds between Patterson and Benco, specifying the terms of the no-buying group agreement. { [REDACTED]

[REDACTED] }¹²⁶

Notably, Cohen was keenly aware of the potential antitrust violation these communications would raise. Cohen revealed his intent in communicating with Guggenheim about the buying group; he texted: { [REDACTED]

[REDACTED] }¹²⁷

¹²² CX0055 at -001 (BDS00028207) (emphasis added).

¹²³ CX0056 at -001 (BDS-FTC00009442) (emphasis added).

¹²⁵ CX0090 at -001 (PDCO 00010912) (emphasis added).

¹²⁶ { [REDACTED] }.

¹²⁷ { [REDACTED] } (emphasis added).

Just three days after the February 8, 2013 communication between Cohen and Guggenheim, Patterson decided *not* to put in a bid to work with the NMDC as originally expected.¹²⁸ This came as a surprise to Dr. Mason who testified that, prior to February 8, 2013, he understood that Patterson had agreed to be the preferred vendor for the buying group.¹²⁹

b) *Following Communications, Patterson Monitored and Confronted Benco On Suspicion of Cheating, Establishing a Conscious Commitment to a Common Scheme.*

Following the agreement with Benco, Patterson actively monitored and confronted Benco on suspicions of cheating. As discussed in more detail *infra* Section III(A)(5), in June 2013, Guggenheim confronted Cohen when Patterson suspected Benco of working with a buying group in violation of the agreement. Guggenheim wrote: “*Reflecting back on our conversation earlier this year, could you shed some light on your business agreement with Atlantic Dental Care? . . . I’m wondering if your position on buying groups is still as you articulated back in February?*”¹³⁰ In response, Cohen provided a detailed explanation of the basis for Benco’s work with Atlantic Dental Care.¹³¹ This confrontation establishes a conscious commitment to a common scheme.¹³²

c) *Following Communications with Benco, Patterson Pursued an Anti-Buying Group Strategy Just like Benco’s Strategy.*

The evidence will show that following communications with Benco, Patterson pursued an anti-buying group strategy. At the time of Guggenheim and Cohen’s email exchange regarding NMDC, { [REDACTED] }¹³³

¹³³ { [REDACTED] }

Within a few weeks of entering into the agreement, however, Patterson began instructing sales representatives to “stay out” of buying groups.¹³⁴ Indeed, { [REDACTED] }¹³⁵ The evidence will show that Patterson’s salesforce understood the “clear” message that Patterson “steer[ed] clear of all buying groups.”¹³⁶

In 2013, Patterson created a Special Markets division to manage large accounts.¹³⁷ The President of this new division, Neal McFadden, { [REDACTED] }¹³⁸ { [REDACTED] }¹³⁹ { [REDACTED] }¹⁴⁰ To ensure that the salesforce stayed away from buying groups, McFadden and Misiak sent a memo to regional and branch managers that explicitly excluded the possibility of working with buying groups: Special Markets “definition will not include group purchasing organizations (GPOs).”¹⁴¹ In compliance with that directive, Patterson

¹⁴⁰ { [REDACTED] }

¹⁴¹ CX0158 at -002 (PDCO 00031277).

consistently denied buying groups.¹⁴² For example, Patterson turned down Smile Source in 2013 in spite of its members' \$14 million annual spend,¹⁴³ because it was a buying group.¹⁴⁴

4. Respondents' Internal Emails Reflect An Agreement Among the Big Three.

The evidence will show that executives from the Big Three expressed confidence that their top two rivals were not competing for buying groups customers, providing further direct evidence of a conspiracy.

- Shortly after Patterson joined the agreement, Misiak (VP of Sales) directed a Regional Manager to refuse a buying group, explaining that Patterson's largest competitors refuse buying groups as well:

*Confidential and not for discussion ... our 2 largest competitors stay out of these as well. If you hear differently and have specific proof please send that to me.*¹⁴⁵

Misiak could not have spoken confidently of Schein and Benco's views regarding competing for buying groups absent knowledge of collusion.¹⁴⁶ That Misiak wanted to keep this message a

¹⁴² See, e.g., CX3086 at -001 (PDCO00021905) ("We have explored this opportunity [with Kois] . . . and decided to pass at this time due to the implications to our margins and therefore our Sales Reps."); CX3031 at -001 (PDCO 00050286) ("Patterson Dental has made the decision not to respond to the [GDA] RFP at this time.").

secret adds further weight to the evidence of conspiracy.¹⁴⁷ [REDACTED]

[REDACTED]¹⁴⁸

- The same day, Misiak wrote to his boss, Guggenheim, “I’ve coached [Regional Manager] on how to stay out of this [buying group] with grace. *I’m concerned that Schein and Benco sneak into these co-op bids and deny it. . . .*”¹⁴⁹ Misiak’s concern regarding cheating is indicative of an agreement.

- In August 2013, Patterson VP of Marketing, Tim Rogan, cautioned McFadden, who was interested in exploring a buying group: “*We don’t need GPO’s in the dental business. Schein, Benco, Patterson have always said no. I believe it is our duty to uphold this and protect this great industry.*”¹⁵⁰ Following this exchange, McFadden did not pursue buying group business.¹⁵¹

- In September 2013, Benco executive, Ryan, wrote to Cohen in response to concern that the number four distributor (Burkhart) was selling to buying groups: “*CHUCK – maybe what you should do is make sure you tell Tim [Sullivan] and Paul [Guggenheim] to hold their positions as we are.*”¹⁵² Shortly after this exchange, as discussed *infra* Section III(A)(7), Cohen approached Burkhart about joining the conspiracy.

- On June 12, 2014, McFadden of Patterson texted a former colleague who was working for a buying group: “[*W*]e’ve signed an agreement that we won’t work with GPO’s.”¹⁵³

¹⁴⁷ *In re Ethylene Propylene Diene Monomer (EPDM) Antitrust Litig.*, 681 F. Supp. 2d 141, 176 (D. Conn. 2009) (finding attempts to conceal communications was indicative of an agreement).

¹⁵³ CX0164 at -002 (PDCO 00062511) (06/12/2014 01:06:37 PM text message) (emphasis added).

- In May 2015, Ryan turned down Dentistry Unchained, a buying group with 226 dentists: “*The best part about calling these [buying groups] is I already KNOW that Patterson and Schein have said NO.*”¹⁵⁴
- On July 13, 2015, Ryan clarified Benco’s position to a sales representative who was concerned about losing \$1 million in “current business” to a buying group: “We don’t allow [volume discount] pricing unless there is common ownership. *Neither Schein nor Patterson do either.*”¹⁵⁵

These emails constitute direct evidence of a conspiracy not to work with buying groups.¹⁵⁶ They are particularly persuasive because they reflect Respondents’ refusal to bid on buying groups based on the assurance that their competitors turned them down as well.¹⁵⁷

5. Conduct Relating to Atlantic Dental Care Group Reflects Respondents’ Conscious Commitment to a Common Scheme.

Complaint Counsel will show that the facts surrounding the group Atlantic Dental Care (“ADC”) reflect a conscious commitment to a common scheme. In February 2013, ADC, a group based on Virginia, approached Schein, Patterson, and Benco seeking to do business with the Big Three. Respondents’ sales representatives wanted to pursue the business with ADC, fearful that by not bidding on ADC, they might lose customers.¹⁵⁸ In spite of that concern, each

¹⁵⁴ CX0012 at -001 (BDS-FTC00003405) (emphasis added).

¹⁵⁵ CX0011 at -003 (BDS-FTC00014984) (emphasis added).

¹⁵⁶ *In re High Fructose Corn Syrup*, 295 F.3d at 662 (evidence that a manager stated there was an “understanding” in the industry not to undercut each other’s prices constituted evidence of an explicit agreement); *Rossi v. Standard Roofing, Inc.*, 156 F.3d 452, 466 (3d Cir. 1998) (“[W]hen the plaintiff has put forth direct evidence of conspiracy, the fact finder is not required to make inferences to establish facts, and therefore the Supreme Court’s concerns over the reasonableness of inferences in antitrust cases evaporate.”).

¹⁵⁷ *Toys “R” Us v. FTC*, 221 F.3d 928, 936 (7th Cir. 2000) (boycott among toy manufacturers who were unwilling to forego profitable sales channels unless assured that competition would do the same).

¹⁵⁸ CX0021 at -002-003 (BDS-FTC00086699); CX0093 at -001 (PDCO 00051886); *see also* CX0198 at -012-013 (Henry Schein-000164441).

Respondent initially took the same tact: believing ADC was a buying group, upper level management directed the sales team not to bid on ADC in compliance with the no-buying group agreement.¹⁵⁹

Following inter-firm communication between Schein and Benco, both decided that ADC was not a buying group, changed course, and bid on ADC. Benco won the bid. Patterson, still believing ADC was a buying group, did not bid on ADC. When Patterson later lost ADC business to Benco, Patterson confronted Benco regarding the cheating. Respondents' conduct in response to ADC is unambiguous evidence of a commitment to a common course of action.¹⁶⁰

- a) *Benco and Schein Communicated Regarding Not Bidding on ADC, Benco Informed Schein That It Would Bid on ADC, and Subsequently Schein Bid on ADC.*

On March 25, 2013, Sullivan and Cohen spoke for 8 minutes and 35 seconds.¹⁶¹

According to the calendar entry produced from Cohen's files, the subject of the call was "Buying Groups."¹⁶² { [REDACTED] }

{ [REDACTED] }¹⁶⁴ { [REDACTED] }

{ [REDACTED] }¹⁶⁵ *Sullivan testified that Cohen informed Sullivan that Benco was not planning to bid on ADC.*¹⁶⁶

¹⁵⁹ CX0198 at -004 (Henry Schein-000164441) (Schein's first reaction was to walk away because it was a buying group); CX1253 at -001 (BDS-AZ00014980) (Benco's Ryan directing his sales representatives not to bid on ADC because it was a buying group); CX0093 (PDCO 00051886) (Misiak directed sales representatives not to bid on ADC).

regional manager “confidential[ly]” that Schein and Patterson do not participate in buying groups.¹⁸² Patterson’s refusal to bid on ADC was against its economic interest, as evidenced by the fact that the sales force was concerned that passing up on ADC would result in lost business.¹⁸³

A few months later, on May 31, 2013, Patterson discovered that Benco had become the supplier for ADC¹⁸⁴ { [REDACTED] }¹⁸⁵ When Guggenheim found out, he located his February 8, 2013 correspondence with Cohen in which the two came to a meeting of the minds regarding the anti-buying group strategy and replied.¹⁸⁶ He asked Cohen to “shed some light on [Benco’s] business agreement with Atlantic Dental Care” and to confirm that Benco’s “position on buying groups [was] still as [Cohen] articulated back in February.”¹⁸⁷

Cohen replied two dates later, setting forth a detailed explanation of why Benco’s agreement with ADC was not cheating.

As we’ve discussed, we don’t recognize buying groups. On the Atlantic Dental Care situation, here’s our understanding after several in-depth conversations...

. . . . [W]e believe this meets our criteria for a large group practice. We’ve asked to see the merger documents once they are completed, to confirm that they’ve really become a legally merged entity, and we’re going to continue monitoring the process to ensure that ADC delivers on their commitment to us. Happy to discuss in more detail, if you’d like.¹⁸⁸

Cohen’s email to Guggenheim describes the criteria that exempted ADC from the no-buying group agreement, further solidifying the meeting of the minds among the two. Following

employees to coordinate { [REDACTED] }¹⁹⁴ The next day, Schein Regional Manager (Glenn Showgren) provided a detailed report of his call with Benco's Fernandez to his supervisor:

-Benco considering suspending all activities with the TDA including pulling out of the state show.

-Chuck Cohen will be reaching out to, or has reached out to, Tim Sullivan to see if HSD would do the same thing.

-Ron wanted to know if I have a relationship with local [Patterson Regional Manager] to see if they would consider pulling out as well.

-I will be having lunch with Ron week after next to discuss concerns and share what we have found out about the program.

-I laid out ground rules that I will NOT discuss a pricing response and any action would have to be cleared by my Legal Team before communicating with the TDA.¹⁹⁵

Later, high-ranking executives at Schein and Patterson communicated about a coordinated response to TDA Perks as well. The evidence will show that in January 2014, Schein VP of Sales (Dave Steck) informed his counterpart at Patterson (Misiak) that Schein was planning to pull out of the TDA meeting.¹⁹⁶ The two spoke on the telephone on January 6, 2014 for 14 minutes.¹⁹⁷ Steck followed up with an email on January 21, 2014, under the subject matter "Texas," saying, "*I'll be calling you to let you know about our decision on the matter we recently discussed in the next couple days.*"¹⁹⁸ Misiak forwarded Steck's email to his colleague

¹⁹⁴ { [REDACTED] } (emphasis added); *see also* CX0178 at -002-003 (Henry Schein-000079098); CX1289 at -001 (BDS00809247); CX0108 at -001 (PDCO 00008903) ("As for Patterson, we have briefly discussed this TDAPerks site . . . with our dealer competitors at the local San Antonio & Houston level . . .").

(Rogan) and wrote, “*He already told me they were out. Full blown!*”¹⁹⁹ Rogan responded, “That sucks. You should call him. ‘Thought I could trust you’ type of conversation.”²⁰⁰

Following these communications, Schein’s Randy Foley explained that the Big Three were on the same page regarding TDA: “*The good thing here is that PDCO, Benco and us are on the same page regarding these buying groups/consortiums. Checking to see if we should join the TDA boycott.*”²⁰¹ Schein withdrew from the TDA meeting in early April.²⁰² Benco pulled out the same day because “Schein & Patterson are as well.”²⁰³

A few weeks before TDA’s annual meeting, Cohen emailed Sullivan and Guggenheim *on the same email chain* about the TDA buying group, forwarding an article promoting the TDA Perks program.²⁰⁴ The evidence will show that Sullivan and Cohen spoke that same day by telephone, and Guggenheim and Cohen spoke on the telephone a few days later regarding the “TDA Perks letter.”²⁰⁵

Schein, Patterson, and Benco engaged in a similar pattern of inter-firm communications regarding the AzDA in July 2014; following the communications the Big Three pulled out of the state dental association meeting.²⁰⁶ The communications between Benco and Schein, and Schein

and Patterson, combined with Respondents' withdrawal from the trade association events they otherwise regularly attend constitute additional direct evidence of the agreement.

7. Benco Invited the Number Four Distributor to Join the Conspiracy.

Further proving Respondents' conspiracy, the evidence will show that Benco invited the number four distributor, Burkhart, to join the agreement to collude. Consistent with Benco's invitations to Schein and Patterson—and its role as ringleader of this conspiracy—Benco reached out to Burkhart to discuss buying groups. In September 2013, Benco's VP of Sales Mike McElaney called his counterpart at Burkhart, Jeff Reece, to discuss buying groups. { [REDACTED]

[REDACTED]
[REDACTED] }²⁰⁷ Following that conversation, McElaney reported to his boss,

Cohen, and other executives at Benco:

*I spoke with Jeff Reece at length late Friday about buying groups.
JEFF DOES NOT GET IT!!! . . . I will be meeting Jeff at the ADA meeting
to continue the discussion.*²⁰⁸

[REDACTED]ing

[REDACTED]}²¹³ Benco thus attempted to expand the conspiracy by inviting Burkhart to institute a no-buying group policy. Unlike Patterson and Schein, Burkhart did not agree to join and continued selling to buying groups. { [REDACTED]}²¹⁴

Benco’s invitation to collude provides further evidence of the overarching conspiracy not to work with buying groups and proves the invitation to collude count against Benco.

8. Respondents Complied with the Agreement.

The evidence at trial will show that following the inter-firm communications discussed previously, Respondents complied with the agreement. As discussed previously, *supra* Sections III(A)(2)(c), III(A)(3)(c), the evidence will show that Respondents instituted no-buying group

210 { [REDACTED] }

211 { [REDACTED] }

212 { [REDACTED] }

213 { [REDACTED] }

214 { [REDACTED] }; see also { [REDACTED] }

[REDACTED] }.

policies and instructed their sales force to refuse buying groups. When approached by buying groups, the evidence will show that the Big Three acted in lock step by affirmatively turning down the buying groups or failing to meaningfully respond. For example, all three Respondents turned down the Kois Buyers Group.²¹⁵ Similarly, the Big Three all failed to bid to supply Georgia Dental Association’s buying group program.²¹⁶ The evidence will show that the Big Three turned down many other groups during the conspiracy period as well.²¹⁷

Despite the substantial evidence to the contrary, Schein²¹⁸ and Patterson²¹⁹ claim to have supported certain buying groups during the conspiracy period. The evidences belies Respondents’ assertion, but even if that were true, such cheating does not negate the existence of the agreement.²²⁰

²¹⁵ CX8007 (Kois Sr. Dep. Tr.) at 37:7-14; CX0321 (Kois Jr. IH Tr.) at 76:1-77:1; CX1125 at -003 (BDS-FTC00004376); CX3086 at -001 (PDCO00021905) (“We have explored this opportunity [with Kois] . . . and decided to pass at this time due to the implications to our margins and therefore our Sales Reps.”).

²¹⁷ See, e.g., CX2062 at -001 (Henry Schein-000176969) (turning down Unified Smiles); CX1144 at -001 (BDS00609252) (indicating Benco turned down Unified Smiles); CX0147 at -001 (PDCO 00021163) (informing Smile Source that Patterson is “currently not interested”); CX0004 (BDS-FTC00006383) (indicating Benco would pass on Smile Source).

²¹⁸ Schein asserts that it worked with several buying groups during the conspiracy period. The groups Schein identifies are not relevant for one or more of the following reasons: (1) they are not buying groups but corporate groups or other institutional customers; (2) they are groups Schein worked with prior to the start of the conspiracy, [REDACTED] and/or (3) they are groups Schein engaged after the conspiracy ended. See, e.g., { [REDACTED]

[REDACTED]; CX2482 at -001 (Henry Schein-000091485 (“Breakaway is a DSO/MSO combo with complete control of the check book.”).

²¹⁹ The groups Patterson points to are not buying groups. See, e.g., { [REDACTED]

[REDACTED] }.

²²⁰ *United States v. Beaver*, 515 F.3d 730, 739 (7th Cir. 2008) (Section 1 of the Sherman Act does not “outlaw only perfect conspiracies to restrain trade” and “certainly . . . a breach of contract does not mean that the parties never entered into the contract in the first place.”); *United States v. Foley*, 598 F.2d 1323, 1333 (4th Cir. 1979) (“Since the agreement itself, not its performance, is the crime of the conspiracy, the partial non-performance of [defendant]. . . does not preclude a finding that it joined the conspiracy.”).

B. The Totality of the Evidence Proves an Agreement Among Respondents.

1. Direct and Circumstantial Evidence Establish the Agreement.

The FTC may prove an unlawful restraint on trade among Respondents through either “direct or circumstantial evidence that reasonably tends to prove . . . a conscious commitment to a common scheme designed to achieve an unlawful object.”²²¹ As described above, the evidence at trial will demonstrate that Respondents conspired to refuse buying groups. Multiple written documents reflect an agreement among the Big Three, stating, for example: “Schein, Benco, and Patterson have always said no,”²²² and “Neither Schein nor Patterson do [buying groups] either.”²²³ This is precisely the type of direct evidence pointing to an explicit agreement.²²⁴

Further, the evidence will show that the leaders of the Big Three—Cohen, Sullivan, and Guggenheim—repeatedly exchanged competitive bidding information regarding buying groups,²²⁵ and confronted each other on suspicions of cheating.²²⁶ Additionally, while proof of conspiracies rarely consists of a written agreement,²²⁷ the February 2013 email exchange between Benco and Patterson is tantamount to a written agreement to refuse to discount to buying groups. Likewise, Schein and Patterson high-level executives communicated regarding organizing to refuse to attend the TDA annual meeting in furtherance of the no-buying group agreement.²²⁸ This type of direct evidence is also strong evidence of a horizontal agreement.²²⁹

²²¹ *Anderson News, LLC v. Am. Media, Inc.*, 680 F.3d 162, 184 (2d Cir. 2012).

²²² CX0106 at -001 (PDCO 00027980).

²²⁴ *In re High Fructose Corn Syrup Antitrust Litig.*, 295 F.3d 651, 662 (7th Cir. 2002) (evidence that a manager stated there was an “understanding” in the industry not to undercut each other’s prices constituted evidence of an explicit agreement).

²²⁵ See *supra* Sections III(A)(2)(a), III(A)(3)(a).

²²⁶ See *supra* Sections III(A)(2)(b), III(A)(5)(b). *Beaver*, 515 F.3d at 738 (7th Cir. 2008) (finding existence of agreement based in part on evidence of co-conspirators confronting each other when they believed someone was cheating).

²²⁷ *Esco Corp. v. United States*, 340 F.2d 1000, 1006-07 (9th Cir. 1965).

²²⁸ See *supra* Section III(A)(6).

Following these repeated inter-firm communications, each of the Big Three directed its sales force to stay out of buying groups and repeatedly refused to work with buying groups.²³⁰ The Fourth Circuit affirmed price-fixing convictions based on similar evidence in *United States v. Foley*.²³¹ In that case, Foley announced to a room of competitors that his real estate brokerage firm was planning to raise its commission rate from 6% to 7%, noting that “he did not care what the others did.”²³² The evidence was unclear as to whether the other defendants “expressed an intention or gave the impression” that those firms would adopt a similar change, but following Foley’s communications, each firm raised its rates to 7% for a substantial number (though not all) of listings.²³³ There was also evidence of a number of instances in which members of the conspiracy sought to hold their competitors to the agreement.²³⁴ The Fourth Circuit upheld Foley’s conviction, noting there was ample evidence from which the jury could find guilt.²³⁵

Just like in the *Foley* case, here we have direct and unambiguous evidence that Benco informed the heads of its two main rivals, Patterson and Schein, that it would refuse to bid on or discount to buying groups.²³⁶ Following receipt of that information, all three Respondents instructed their sales force and refused to discount to buying groups.²³⁷ While Schein and Patterson claim that they did business with some buying groups, perfect compliance with the

²²⁹ *Toys “R” Us, Inc. v. FTC*, 221 F.3d 928, 935-36 (7th Cir. 2001) (communications among competitors constitutes direct evidence of an agreement); *PepsiCo, Inc. v. Coca-Cola Co.*, 315 F.3d 101, 110 (2d Cir. 2002) (describing direct evidence of communication among conspirators as “strong evidence of a horizontal agreement.”).

scheme is not required.²³⁸ Additionally, like in *Foley*, there is evidence of members of the conspiracy holding their competitors to the agreement.²³⁹ Thus, the Court here should find an agreement based on similar evidence of inter-firm communication followed by tacit coordination.²⁴⁰

While Respondents attempt to portray the evidence as ambiguous and insufficient to support the inference of conspiracy, the evidence must be viewed as a whole.²⁴¹ Taken as a whole, the repeated inter-firm communications regarding buying groups, internal references to the competitive bidding positions of competitors, and change in behavior toward buying groups all demonstrate an agreement among the Big Three to refuse to discount to or compete for buying group customers. As described below, the additional circumstances, often referred to as “plus” factors further bolster the inference of a conspiracy.

2. **Plus Factor Evidence Further Confirms the Existence of a Conspiracy.**

Plus factors are required when a plaintiff relies solely on parallel conduct to prove an agreement. Here, direct evidence substantiates Respondents’ conspiracy, and plus-factor evidence is not necessary. Nonetheless, available plus-factor evidence further corroborates Respondents’ illegal agreement.

²³⁸ *Foley*, 598 F.2d at 1332-34 (describing various defendants as not having perfectly complied with the agreement, noting one did not comply thirty percent of the time, and stating, “the partial non-performance of [defendant] does not preclude a finding that it joined the conspiracy.”)

²³⁹ See *supra* Section III(A)(2)(b)-(c), III(A)(3)(b)-(c).

²⁴⁰ See *Esco Corp.*, 340 F.2d at 1008 (“It is not necessary to find an express agreement . . . but it is sufficient that a concert of action be contemplated and that defendants conform to the arrangement.”).

²⁴¹ “The character and effect of the conspiracy are not to be judged by dismembering it and viewing its separate parts, but only by looking at it as a whole.” *Cont’l Ore Co. v. Union Carbide & Carbon Corp.*, 370 U.S. 690, 699 (1962).

“The presence of plus factors tends to ensure that courts punish ‘concerted action’—an actual agreement—instead of the ‘unilateral, independent conduct of competitors.’”²⁴² “The most relevant plus factors include: (1) a motive to conspire . . . ; (2) noncompetitive behavior, i.e., evidence that the defendants acted contrary to their economic self-interest; and (3) evidence of a traditional conspiracy, such as a high level of inter-firm communications that would suggest that the defendants consciously agreed not to compete.”²⁴³ Evidence in this case satisfies each of these categories, as well as others (*e.g.*, changes in conduct and past collusive activity). Some of these categories of evidence taken alone are rich enough to support a finding of agreement. And when all of these categories of evidence are considered together, as it must be under Supreme Court precedent,²⁴⁴ there is ample support to find that Respondents agreed not to discount to or compete for buying group customers.

a) Respondents’ Common Motive to Conspire

Respondents had a common motive to enter into the conspiracy. Courts recognize motive to conspire as a crucial plus factor in finding an agreement based on parallel conduct. In *Toys “R” Us v. FTC*, the court found that the advent of low-priced warehouse stores posed a threat to Toys “R” Us, which orchestrated a boycott among toy manufacturers that were otherwise unwilling to forego a profitable sales channel unless assured that their competitor manufacturers would also boycott the warehouse stores.²⁴⁵ This motive to conspire was instructive to the court in finding an agreement, especially where absent an agreement, the manufacturers would not

²⁴² *In re Flat Glass Antitrust Litig.*, 385 F.3d 350, 360 (3d Cir. 2004).

²⁴³ *In re EPDM Antitrust Litig.*, 681 F. Supp. 2d 141, 166-67 (D. Conn. 2009).

²⁴⁵ 221 F.3d 928, 931-32, 935-36 (7th Cir. 2000).

have cooperated in the boycott for fear that their competitors would sell to warehouse stores.²⁴⁶

Buying groups in this case posed the same threat to Respondents as warehouse stores did to the Toys “R” Us defendants.

As discussed previously, *supra* Section II(A)(2), the evidence will show that each of Respondents believed buying groups were a threat²⁴⁷ to their margins.²⁴⁸ Respondents were wary that a full-service distributor partnering with a buying group would “open the floodgates” to lower prices and lower margins,²⁴⁹ much like group purchasing organizations in the medical industry.²⁵⁰ The threat was particularly acute because buying groups were growing in

²⁴⁶ *Id.* at 935-36; *see also Interstate Circuit, Inc. v. United States*, 306 U.S. 208, 222 (1939) (finding a “strong motive for concerted action” where the film distributor defendants sought to set higher minimum ticket prices for first-and second-run theaters, but needed agreement by all distributors to do so because they were otherwise in active competition with one another).

popularity²⁵¹ and could disrupt the independent dentist²⁵² customer segment of Respondents' dental businesses.

Just as in *Toys "R" Us*, while buying groups posed a threat to the industry, they also represented a profitable customer segment for each of the Big Three to serve. Respondents' motivation to enter into an agreement not to provide discounts to or otherwise compete for buying groups was contingent on the other Respondents doing the same.²⁵³ Their shared motive to act collectively against the rise of buying groups is an important plus factor that evinces the illegal agreement.²⁵⁴

b) Respondents' Unexplained Communications with Competitors

Unexplained communications among horizontal competitors is another plus factor that strongly points towards a conspiratorial agreement.²⁵⁵ With ambiguous circumstantial evidence, courts are cautious to infer conspiracy, fearing it may deter procompetitive conduct. But

stay viable and competitive in the IDN space which is 50% of the market. . . . Dental has all the leverage today. Do not buy into the Medical Model.”); CX0070 at -002 (BDS-FTC00016730) (“Buying clubs will turn us into the medical industry.”); CX1149 at -001 (BDS00181723) (“GPOs are what [ruined] (sic) the medical supply business and why they work on single digit margins. If this door is ever opened in dental, it[]’s all over for all of us. . . . [It’s] a race to the bottom.”); CX0016 at -002 (BDS-FTC00015155) (“Once a national dealer opens this door [to buying groups], in less than 5 years, we will turn into medical and be working for 10% over cost.”).

²⁵⁴ See *Interstate Circuit*, 306 U.S. at 222 (“[W]ithout substantially unanimous action . . . there was a risk of substantial loss of business and goodwill . . . , but . . . with it there was the prospect of increased profits.”).

²⁵⁵ *Apex Oil Co. v. DiMauro*, 822 F.2d 246, 253-54 (2d Cir. 1987).

“permitting an inference of conspiracy from direct competitor contacts will not have significant anticompetitive effects.”²⁵⁶ In this case, there is abundant evidence of unexplained competitor communications involving competitively sensitive information. Respondents themselves have testified that their inter-firm communications made them feel “uneasy,” were “against company . . . rules,” may have been { [REDACTED] }²⁵⁷

In *Gainsville Utilities Department v. Florida Power & Light Co.*, the Fifth Circuit found that similar “facts and inferences point[ed] so strongly and overwhelmingly” towards a conspiracy between utility systems not to compete in each others’ territories.²⁵⁸

We cannot ignore the continuous exchange of letters between high executives of Florida Power and P&L prior to the events at Gainsville. . . . Indeed, if solid economic reasons existed for refusing service to these cities, there was no reason for communicating with a competitor about the refusal, and certainly not for expressing such decisions in terms of hopeful, if not expected, reciprocity. . . .²⁵⁹

Just as in *Gainsville*, the unexplained inter-firm communications at issue in this case occurred between high-level executives at Schein, Patterson, and Benco. This is not a case involving idle chatter between low-level sales employees. In many instances, the relevant communications occurred at the highest levels of Respondents’ companies.²⁶⁰ And just as in *Gainsville*, the exchanges involved sensitive business information, divulging Respondents’

general buying group strategies, as well as discussions on specific buying group customers.²⁶¹

The uncharacteristic friendliness between the rival Respondents²⁶² similarly weighs in favor of an agreement.²⁶³

c) Respondents' Actions Against Self-Interest

Respondents' decision not to discount to or to compete for buying group customers was against each of their unilateral self-interest, and is further evidence of their conspiratorial agreement. "Ordinarily, [actions against self-interest] will consistently tend to exclude the likelihood of independent conduct."²⁶⁴ It was against Respondents' self-interest to discuss their bidding strategies and to reveal their no-buying group policies with their competitors.²⁶⁵ In *Ross v. Bank of America*, the court recognized that credit card defendants "arguably acted against their unilateral interests by attending numerous meetings with their competitors and . . . providing competitors with certain sensitive business information" about their plans to change contract

²⁶¹ See, e.g., *supra* Sections III(A)(2)(a)-(b), III(A)(3)(b), III(A)(5), III(A)(6).

²⁶² See, e.g., {

²⁶³ *In re EPDM Antitrust Litig.*, 681 F. Supp. 2d 141, 174-76 (D. Conn. 2009) (finding defendants' "frequent and friendly communications" consistent with an unlawful price-fixing agreement).

LEXIS 29431, at *11 (S.D.N.Y. May 15, 2006) (defendants' sharing of confidential information with competitors was against individual economic self-interest and probative of conspiracy).

arbitration clauses.²⁶⁶ The *Ross* court identified evidence of actions “against unilateral interests” as a plus factor that may support a finding of agreement. The instant case likewise presents plentiful evidence of the Distributors sharing sensitive business information with their competitors.

As discussed previously, the evidence at trial will establish many instances of Benco informing Schein and Patterson of its no-buying group policy,²⁶⁷ as well as its specific bidding plans on multiple customer accounts.²⁶⁸ Moreover, Cohen shared internal or sensitive Benco communications with his counterpart at Schein.²⁶⁹ Similar to Benco, Patterson disclosed its no-buying group policy and responses to specific buying groups to its competitors.²⁷⁰ The evidence

²⁷⁰ *See, e.g.*, CX0090 at -001 (PDCO 00010912) (Guggenheim telling Cohen that Patterson feels the same way about not working with buying groups); CX1289 at -001 (BDS00809245) (Benco’s Ron Fernandez explaining that when he last spoke with Patterson’s Texas Regional Manager, he revealed that Patterson was withdrawing from the TDA annual meeting); CX2757 (Henry Schein-000034707) (Schein internal email reporting past conversations with Patterson that revealed that Patterson was planning on withdrawing from the Arizona Dental Association annual meeting because of AzDA’s buying group); CX3300 at -001 (PattersonDental 00001249) (Patterson disclosing to Benco that it will pull its sponsorship of the AzDA in response to AzDA’s new buying group program).

will also show that on multiple occasions, Schein divulged its anticipated response to specific buying groups to Benco and Patterson.²⁷¹

It is undisputed that Schein, Patterson, and Benco view each other as their biggest competitors. Case law and economic principles instruct that each of these communications sharing sensitive business information was against Respondents' self-interest. Yet, Respondents' *own admissions* demonstrate that they lacked business rationales for these exchanges, which were contrary to their business interests and against company policy.²⁷² A conspiratorial agreement is the only logical context to understand why these profit-seeking companies might engage in a pattern of sharing sensitive business information with their biggest rivals.

²⁷¹ See, e.g., CX0019 at -001 (BDS-FTC00002808) (Patrick Ryan reporting that he and Schein's Randy Foley specifically talked about Smile Source, allowing him to arrive at the ominous pronouncement: "Buh-bye"); CX0205 at -001-002 (Henry Schein-000005360) ("Guys, I have to get back to PDCO on whether or not we are attending the TDA. . . . I just wanted to be double sure before telling PDCO anything."); CX1331 at -001 (BDS00020270) (Benco internal email reporting that Schein, Patterson, and Benco have all exchanged assurances that they will not support the Arizona Dental Association meeting in response to AzDA's buying group program).

²⁷² {

}; CX0306 (Foley IH Tr.) at 178:11-18 ("Q. And why did the call from Mr. Ryan make you think about those annual trainings? A. Because immediately he was talking about a customer, a prospect, and it's against our company . . . rules for me to discuss customers and trade secrets and what we're dealing with customers. Q. You mentioned you felt uneasy; is that right? A. Yes.").

d) *Respondents' Changes in Conduct*

The evidence of Respondents' coordinated changes in conduct provides further evidence of their illegal agreement. In *Toys "R" Us*, the Seventh Circuit found the toy manufacturers' abrupt shift from dealing with warehouse clubs to boycotting warehouse clubs to be indicative of an agreement and inconsistent with independent action.²⁷³ Similarly here, the evidence will provide many instances of Respondents significantly shifting their conduct in a manner that is consistent with an agreement and inconsistent with the notion of independent action.

Schein. As discussed previously, Schein had a practice of working with buying groups, while Benco chose not to do so. After a series of communications between Cohen and Sullivan in 2011, Schein radically changed its policy on buying groups: Sullivan and his team began instructing Schein's sales force to avoid selling to buying groups; Schein began to explain to new groups that it had a policy against working with buying groups; and Schein began to terminate existing buying group customers.²⁷⁴ This drastic change in conduct make Schein's conduct analogous to the toy manufacturers in *Toys "R" Us*, and is indicative of an agreement.

Patterson: When Cohen emailed Guggenheim in February 2013, { [REDACTED] }²⁷⁵ Following Guggenheim's acceptance to join the conspiracy, Patterson instructed its sales team to turn down buying groups.²⁷⁶ For example,

²⁷³ 221 F.3d 928, 936 (7th Cir. 2000); *see also In re Domestic Drywall Antitrust Litigation*, 163 F. Supp. 3d 175, 255-56 (E.D. Pa. 2016) (defendants' decision to eliminate job quotes, which were a feature in the drywall industry for decades, was a radical and abrupt shift in behavior sufficient to qualify as "traditional conspiracy evidence" pointing towards an agreement); *United States v. Apple Inc.*, 952 F. Supp. 2d 638, 690 (S.D.N.Y. 2013) ("An abrupt shift from defendants' past behavior and near-unanimity of action by several defendants may also strengthen the inference. For instance, a 'complex and historically unprecedented change in pricing structure made at the very same time by multiple competitors, and made for no other discernible reason,' may provide sufficient evidence of an illegal conspiracy.") (internal citations omitted).

²⁷⁴ *See supra* Section III(A)(2)(c).

²⁷⁵ { [REDACTED] }

²⁷⁶ *See supra* Section III(A)(3)(c).

Patterson was negotiating with the NMDC in 2013. Dr. Mason from the NMDC believed a partnership with Patterson was imminent.²⁷⁷ After Cohen emailed Guggenheim about this buying group,²⁷⁸ Patterson did not submit a bid for the NMDC and instructed its salesforce not to pursue buying group customers.²⁷⁹ After the February 2013 exchange, Patterson regularly rejected potential buying group customers.²⁸⁰

Atlantic Dental Care: The ADC example represents multiple course changes indicative of a conspiracy. From the start, Respondents' sales teams wanted to bid on the account. The first change in conduct occurred when management stopped each sales team from submitting a bid. More telling, the second change in conduct occurred after consultation among Respondents about whether ADC fit the conspiracy target definition. After Benco and Schein consulted and determined that it was not a buying group, both companies bid on ADC.²⁸¹ Similarly, after Patterson and Benco consulted, Patterson directed its salesforce to { [REDACTED] }²⁸² These coordinated changes in conduct immediately trailing inter-firm communications are highly probative of Respondents' agreement.

Post-Conspiracy: Respondents will argue that any decision not to provide discounts to or otherwise compete for buying groups was based on each company's assessment of its business interests and made independent of its competitors. That all three Respondents began competing

for buying groups after the conspiracy ended belies their claim. After the conspiracy, Schein returned to pursuing buying group customers. { [REDACTED]

[REDACTED]}²⁸³ Indeed, while Smile Source was blocked out from the Big Three due to the conspiracy, upon conclusion of the conspiracy, Smile Source returned to Schein. Similarly,

{ [REDACTED] [REDACTED]
[REDACTED] [REDACTED]
[REDACTED]
[REDACTED]}²⁸⁶

That each Respondent changed course again and found it in their interests to work with buying groups after the conspiracy calls into question whether their previous no-buying group stances were based on independent, self-interested decision-making.

Taken together, Respondents’ radical course changes throughout the conspiracy cannot be mere coincidence. Especially when placed into context with unexplained competitor communications, Respondents’ changes in conduct are more probative of agreement than they are of independent conduct.

²⁸³ See { [REDACTED] }; see also { [REDACTED] }.

²⁸⁶ { [REDACTED] }.

3. **Respondents Are Not Immune From Liability By Asserting Unsubstantiated Independent Business Justifications In the Face of Direct Evidence of Conspiracy.**

In the face of overwhelming evidence of a conspiracy to refuse to compete for business from buying groups, Respondents each claim that they cannot be liable under Section 1 because they acted out of their own self-interest in refusing buying groups. These arguments ignore the wealth of direct evidence reflecting an agreement. Independent business justifications are irrelevant where, as here, there is direct evidence of an agreement.²⁸⁷ Further, while the Supreme Court in *Matsushita* cautioned against an inference of conspiracy from evidence that is equally consistent with independent conduct as an illegal conspiracy,²⁸⁸ a plaintiff need not “exclude or dispel the possibility that defendants acted independently.”²⁸⁹

Here, the record of unambiguous direct and circumstantial evidence of an agreement belies the assertion that Respondents’ behavior was consistent with independent business interests. In *United States v. Apple, Inc.*, the court rejected Apple’s similar claim that it acted for independent business reasons, noting there was strong evidence of a conscious commitment to a

²⁸⁷ Areeda & Hovenkamp ¶1413 (independent business justifications are irrelevant where there is direct evidence of an agreement); *Rossi v. Standard Roofing, Inc.*, 156 F.3d 452, 466 (3d Cir. 1998) (“[W]hen the plaintiff has put forth direct evidence of conspiracy, the fact finder is not required to make inferences to establish facts, and therefore the Supreme Court’s concerns over the reasonableness of inferences in antitrust cases evaporate.”).

²⁸⁸ *Matsushita Elec. Indus. Co. v. Zenith Radio Corp.*, 475 U.S. 574, 596-97 (1986).

The Supreme Court has consistently held that “price-fixing agreements are unlawful per se . . . and [] no showing of so-called competitive abuses or evils which those agreements were designed to eliminate or alleviate may be interposed as a defense.”³⁰⁰ In other words,

²⁹⁹ [REDACTED]

³⁰⁰ *United States v. Socony-Vacuum Oil Co.*, 310 U.S. 150, 218 (1940).

agreements that restrain price are unlawful *per se*.³⁰¹ Respondents' conspiracy could be viewed as either an agreement to eliminate a form of customer discounting, which has the effect of heightening prices, or an agreement to boycott a type of customer, both of which are subject to *per se* treatment.

“Price fixing includes more than the mere establishment of uniform prices.”³⁰² “Under the Sherman Act a combination formed for the purpose and with the effect of raising, depressing, fixing, pegging, or stabilizing the price of a commodity in interstate or foreign commerce is illegal *per se*.”³⁰³ A conspiracy need not literally fix prices to be a *per se* illegal restraint on price.³⁰⁴

“[A]n agreement to eliminate discounts” is one such type of agreement that “falls squarely within the traditional *per se* rule against price fixing.”³⁰⁵ Respondents' conspiracy to eliminate discounts to buying groups is similar the agreement in *Catalano* to eliminate interest free credit—both the credit terms and the discount are an “inseparable part of the price.”³⁰⁶

Moreover, it is well-established that an agreement by competitors to boycott a particular customer is illegal *per se*. “[A]ny agreement by a group of competitors to boycott a particular

³⁰¹ *Catalano, Inc. v. Target Sales, Inc.*, 446 U.S. 643, 647 (1980).

³⁰³ *Id.* at 223.

³⁰⁴ *Id.* (agreement among competitors to stabilize gasoline prices by buying excess supply on spot market is *per se* unlawful).

³⁰⁵ *Catalano*, 446 U.S. at 648; see also *United States v. Stop & Shop Cos.*, Crim. No. B 84-51, 1984 U.S. Dist. LEXIS 22103, at *1-2 (D. Conn. Nov. 9, 1984) (“[A]s a matter of substantive law, a conspiracy to discontinue double coupons is a form of price-fixing and therefore a *per se* violation of the Sherman Act.”); *Areeda & Hovenkamp* ¶2022c (per se rule governs “agreements eliminating or restricting discounts or rebates.”).

³⁰⁶ *Catalano*, 446 U.S. at 648.

buyer or group of buyers is illegal *per se*.”³⁰⁷ “[T]he Sherman Act makes it an offense for [businessmen] to agree among themselves to stop selling to particular customers.”³⁰⁸

In *FTC v. Superior Court Trial Lawyers Association*, the Supreme Court addressed an agreement by a group of lawyers who refused to offer court-appointed legal services to indigent criminal defendants.³⁰⁹ The Court noted that “[p]rior to the boycott, [the] lawyers were in competition with one another, each deciding independently whether and how often to offer to provide services.”³¹⁰ The lawyers implemented a “concerted refusal to serve an important customer in the market for legal services.”³¹¹ The Court held that such a concerted refusal to supply was the essence of a price-fixing scheme to which the *per se* standard applied.³¹² Here, the horizontal agreement among Respondents was a similar concerted refusal to serve a particular customer in the dental market, the buying group. Absent the agreement, Respondents would have competed vigorously with each other for buying group business, as they competed for the business of independent dentists and corporate practices.³¹³ Indeed, Respondents have not offered a shred of a procompetitive benefit for their conspiracy that would warrant treating this case as anything but *per se* unlawful.³¹⁴

Kahn*, 522 U.S. 3, 10 (1997) (“Some types of restraints . . . have such predictable and pernicious anticompetitive effect, and such limited potential for procompetitive benefit, that they are deemed unlawful *per se*.”); *see also In re Polygram Holding, Inc.*, Docket No. 9298, 2003 FTC LEXIS 120, at *30 (Comm’n Op. July 24, 2003), *aff’d by Polygram Holding, Inc. v. FTC*, 416 F.3d 29 (D.C. Cir. 2005) (distinguishing *per se* restraints from those that promote attainment of efficiencies).

D. Respondents' Agreement is Unlawful Under the Rule of Reason.

As discussed above, Respondents' agreement is a price-fixing agreement that should be condemned as a *per se* Section 1 violation. If the Court does not apply *per se* liability, Respondents should still be liable under a rule of reason analysis. Where anticompetitive effect is relatively obvious and procompetitive justifications are nonexistent, horizontal conduct violates the Sherman Act under the inherently suspect or truncated rule of reason standards.³¹⁵ The inherently suspect and truncated rule of reason (or quick look rule of reason) analyses begin by examining the likely effect from the alleged restraint. Where the likely effect would obviously restrict competition or decrease output, a plaintiff has met its burden without proving actual anticompetitive effects.³¹⁶ In examining whether the conduct had an anticompetitive effect, "the essential inquiry remains the same—whether or not the challenged restraint enhances competition."³¹⁷ Here, the harm from Respondents' agreement is self-evident. An agreement to

³¹⁵ *NCAA v. Bd. of Regents*, 468 U.S. 85, 109-10 n.39 (1984) ("[T]he rule of reason can sometimes be applied in the twinkling of an eye."); *Polygram Holding, Inc. v. FTC*, 416 F.3d 29, 35-36 (D.C. Cir. 2005) ("First, the Commission must determine whether it is obvious from the nature of the challenged conduct that it will likely harm consumers. If so, then the restraint is deemed 'inherently suspect' and, unless the defendant comes forward with some plausible (and legally cognizable) competitive justification for the restraint, summarily condemned."); *In re Polygram Holding, Inc.*, Docket No. 9298, 2003 FTC LEXIS 120, at *52 (Comm'n Op. July 24, 2003) ("A plaintiff may avoid full rule of reason analysis . . . if it demonstrates that the conduct at issue is inherently suspect owing to its likely tendency to suppress competition. . . .").

³¹⁶ *FTC v. Ind. Fed'n of Dentists*, 476 U.S. 447, 461-62 (1986) ("A concerted and effective effort to withhold (or make more costly) information desired by consumers . . . is likely enough to disrupt the proper functioning of the price-setting mechanism of the market that it may be condemned even absent proof that it resulted in higher prices . . . than would occur in its absence."); *id.* (noting that showing higher prices resulting from the conspiracy was "not an essential step"); *Polygram Holding*, 416 F.3d at 32-33 ("[C]onduct inherently suspect as a restraint of competition—that is, conduct that appears likely, absent an efficiency justification, to restrict competition and decrease output—is presumed unreasonable."); *In re Polygram Holding, Inc.*, Docket No. 9298, 2003 FTC LEXIS 120, at *35-36 (Comm'n Op. July 24, 2003) ("Sometimes a restraint's competitive harm is evident after an abbreviated rule of reason analysis, obviating elaborate proof under the full rule of reason. '[W]hen there is an agreement not to compete in terms of price or output, no elaborate industry analysis is required to demonstrate the anticompetitive character of such an agreement.'") (internal citations omitted).

³¹⁷ *NCAA*, 468 U.S. at 104.

refuse to provide discounts to buying groups is facially anticompetitive and does not enhance competition.³¹⁸

Once likely anticompetitive effect is presumed, the burden of production shifts to the defendant to provide a plausible procompetitive justification.³¹⁹ Where no justification exists, the restraint is condemned.³²⁰ Here, Respondents can advance *no* offsetting procompetitive efficiencies and cannot meet their burden. Where the anticompetitive effect of challenged conduct is well-established by the evidence, Respondents cannot escape liability by claiming no actual effect. Dr. Marshall will present at trial evidence of the harm stemming from Respondents' conduct, which corroborates the anticompetitive effect of Respondents' agreement. Under an abbreviated rule of reason standard, the Court should find Respondents liable even before reaching the harm calculated by Dr. Marshall.

1. **Respondents' Agreement Resulted in Harm.**

A "quick-look analysis carries the day when the great likelihood of anticompetitive effects can easily be ascertained."³²¹ Here, the conspiracy is based on an agreement not to provide discounts to or otherwise bid for a certain customer segment. "An observer with even a

³¹⁸ *In re Polygram Holding, Inc.*, Docket No. 9298, 2003 FTC LEXIS 120, at *63 (Comm'n Op. July 24, 2003) ("The anticompetitive nature of the agreement not to discount is obvious. [T]his is simply a form of price fixing, and is presumptively anticompetitive.").

³¹⁹ *In re Polygram Holding, Inc.*, Docket No. 9298, 2003 FTC LEXIS 120, at *52-53 (Comm'n Op. July 24, 2003) ("If the challenged restrictions are of a sort that generally pose significant competitive hazards and thus can be called inherently suspect, then the defendant can avoid summary condemnation only by advancing a legitimate justification for those practices."); *id.*, at *59 ("If the plaintiff satisfies its initial burden of showing that the practices in question are inherently suspect, then the defendant must come forward with a substantial reason why there are offsetting procompetitive benefits.").

³²⁰ *In re Mass. Bd. of Registration in Optometry*, Docket No. 9195, 1988 FTC LEXIS 159, at *124 (Comm'n Op. June 13, 1988) ("But if it is inherently suspect, we must pose a second question: Is there a plausible efficiency justification for the practice? That is, does the practice seem capable of creating or enhancing competition (e.g., by reducing the costs of producing or marketing the product, creating a new product, or improving the operation of the market)? Such an efficiency defense is plausible if it cannot be rejected without extensive factual inquiry. If it is not plausible, then the restraint can be quickly condemned.").

³²¹ *Cal. Dental Ass'n v. FTC*, 526 U.S. 756, 770 (1999).

rudimentary understanding of economics could conclude that the arrangement[] in question would have an anticompetitive effect on customers and markets.”³²² In *Polygram Holding, Inc. v. FTC*, the D.C. Circuit held that the defendants’ agreement to prohibit discounting was “inherently suspect because such restraints by their nature tend to raise prices and to reduce output.”³²³ Similarly, in *Massachusetts Board of Registration in Optometry*, the Commission found a restraint on advertising discounts “especially pernicious” because it eliminated a form of price competition.³²⁴ The alleged restraint here is no different. Indeed, Respondents’ conduct is particularly egregious because they agreed not to provide discounts to or compete for buying groups—a customer segment whose intrinsic purpose is to aggregate purchasing power to achieve discounted prices for their member dentists.³²⁵ This type of harm is precisely what is contemplated by the inherently suspect and truncated rule of reason standards.

The inquiry into Complaint Counsel’s burden should end with evidence of Respondents’ agreement not to discount to buying groups—a facially anticompetitive agreement. Nonetheless, Dr. Marshall will offer evidence corroborating the harm resulting from Respondents’ conspiracy.

The evidence compiled by Dr. Marshall confirms that Respondents’ agreement not to discount to or compete for buying groups had an anticompetitive effect. Dr. Marshall’s harm calculations are not necessary to find liability under an abbreviated rule of reason review, but further support the need to find a violation of Sherman Act Section 1 and FTC Act Section 5.

326 { [REDACTED] }

327 *See* { [REDACTED] }

328 { [REDACTED] }

329 { [REDACTED] }

2. There are No Procompetitive Benefits from Respondents' Conspiracy.

The second step of the quick look rule of reason analyses is to assess whether any procompetitive benefits offset the likely harm. If not, the conduct is condemned without further review. Here, Respondents offer no procompetitive justification for their agreement, as they know none exist. Tellingly, testimony from Respondents' executives reveal that instead of having a procompetitive rationale for communications that established and maintained the conspiracy, they had no business justification whatsoever, and may even have had a "counter-business reason" that may have been "improper."³³⁰ Lacking *any* justification for their agreement, Respondents cannot meet their burden.

E. **Benco's Invitation to Collude Violates Section 5.**

The evidence will establish that Benco's invitation to collude violates Section 5 of the FTC Act. The Commission has long held that an invitation to collude is the "quintessential example of the kind of conduct that should be . . . challenged as a violation of Section 5."³³¹ The Supreme Court has explained that Section 5 is not confined to the unfair methods of competition identified in the Sherman Act.³³² "[A]n unsuccessful attempt to fix prices . . . [is] pernicious conduct with a clear potential for harm and no redeeming value whatever."³³³ "Solicitation to a conspiracy is dangerous to competition even if it cannot be shown that an 'offer' has been 'accepted'."³³⁴ An invitation to collude is unlawful where a respondent explicitly or implicitly

³³⁰ See *supra* note 272.

³³¹ *In re McWane, Inc.*, Docket No. 9351, 2012 FTC LEXIS 155, at *50-51 (Comm'n Op. Sept. 14, 2012).

³³² *FTC v. Motion Picture Adver. Serv. Co.*, 344 U.S. 392, 394 (1953) (unfair methods of competition which are condemned by section 5 of the FTC act are not confined to those that were illegal at common law or that were condemned by the Sherman Act); see also *FTC v. Brown Shoe Co.*, 384 U.S. 316, 321 (1966).

³³³ *Liu v Amerco*, 677 F.3d 489, 494 (1st Cir. 2012) (explaining the policy justification behind making invitations to collude illegal).

³³⁴ *Areeda & Hovenkamp* ¶1419d.

proposes to a competitor terms of coordination that, if accepted by the competitor, would constitute a violation of the Sherman Act.³³⁵ “The invitation may appear ambiguous, such as when a competitor merely complains to its rival about the latter’s ‘low price.’ Yet, the ‘objective’ meaning of such a statement to the reasonable observer seems clear: the only business rationale for complaining is to induce a higher price.”³³⁶

In *Liu v. Amerco*, the First Circuit addressed an alleged invitation to collude under the Massachusetts unfair competition statute, which is substantially similar to Section 5 of the FTC Act.³³⁷ There, defendant allegedly contacted its competitors and encouraged them to take certain pricing actions.³³⁸ The court found that encouraging a competitor to match prices was an “*express proposal*[] to a competitor to raise prices.”³³⁹ The court explained that such a proposal is “dangerous” and “serve[s] no proper purpose.”³⁴⁰

Likewise, in this case, the evidence will show that Benco contacted its competitor, Burkhart, on three separate occasions to encourage Burkhart to stop discounting to buying groups, claiming that such discounting was counter to Burkhart’s business interests.³⁴¹ There was no procompetitive business rationale for these repeated communications.³⁴² Indeed, if

³³⁵ See *In re U-Haul Int’l Inc.*, FTC File No. 081 0157, published at 75 Fed. Reg. 35033, 35034-35 (June 21, 2010); *In re Valassis Commc’ns, Inc.*, Docket No. C-4160, 2006 FTC LEXIS 25, at *5 (Compl. Benco were to be believed, Burkhart’s business would be harmed by working with buying groups—something Benco, as a competitor, should have desired. The only conceivable business rationale for Benco’s complaining was to induce Burkhart to stop working with buying groups.³⁴³ Had Burkhart accepted the request, the agreement would have been *per se* unlawful,³⁴⁴ and thus, Benco’s invitation to collude is unlawful.

F. Remedy

The Court has “wide discretion” in its choice of remedy where there is “a reasonable relation to the unlawful practices found to exist.”³⁴⁵ Further, the Court is not limited to prohibiting the illegal practices in the precise form in which it finds they existed in the past. Instead, the Court “must be allowed effectively to close all roads to the prohibited goal, so that its order may not be by-passed with impunity.”³⁴⁶

The evidence introduced at trial will support the Court entering an order consistent with the Notice of Contemplated Relief, issued with the Complaint, which enjoins Respondents from engaging in the conduct challenged by the Complaint. The remedies identified in the Notice of Contemplated Relief issued with the Complaint are reasonably necessary to ensure Respondents’ future compliance with the antitrust laws of the United States.

Complaint Counsel’s Notice of Contemplated Relief requests an order that requires Respondents to cease and desist from the conduct alleged in the Complaint, and to prevent recurrence of such practices. The Notice of Contemplated Relief also requests an order that prohibits Respondents from refusing to provide discounts to or compete for any customer, as

³⁴³ Areeda & Hovenkamp ¶1419a.

³⁴⁴ See *supra* III(C).

³⁴⁵ *Jacob Siegal Co. v. FTC*, 327 U.S. 608, 611-13 (1946).

³⁴⁶ *In re Polygram Holding, Inc.*, Docket No. 9298, 2003 FTC LEXIS 120, at *105 (Comm’n Op. July 24, 2003) (internal quotation omitted).

well as prohibiting Respondents from punishing or threatening any customer or any other entity that wants to do business with any customer. Given Respondents' pattern of inter-firm communications, the Notice of Contemplated Relief requests that Respondents establish an antitrust compliance program and document all communications with competitors. To ensure compliance with the Court's order, Complaint Counsel recommends the appointment of an independent monitor and a requirement that Respondents submit annual compliance reports to the Commission.

IV. CONCLUSION

For the foregoing reasons, the evidence at trial will establish that Respondents have violated Section 5 of the FTC Act as alleged in the Complaint, and will justify entry by the Court of an Order granting the relief sought by the Notice of Contemplated Relief.

Respectfully submitted,

/s/ Lin W. Kahn

First of all, these kinds of things are coming fast and furious.

Smells like a GPO to me, but are they if they are in control of purchasing? Or does the fact that the individual office paying negate that?

Hi Doctor,

Thanks for the response. I don't actually have an attachment on here. Also, I personally will not be at the ADA

May I ask a few clarifying questions about your organization?

1. Smile Source has no ownership stake in the offices, is that correct?
2. Can Smile Source control and direct the who the offices purchase from?
3. Who places the orders?
4. Who pays the bills?

Ryan-

Thanks for reaching out.

We are a network of independent dentists that have formed together to shop together, learn together and share practice management tips. We are

Based off a model from Vision Source. Vision Source has 2500 locations and 4,400 doctors in North America. We plan to be larger and have very aggressive strategies in place to reach that goal. Presently we have 40 offices and will be at 50 by the end of the year.

We need a new distributor that can give us great pricing and service that we can grow with and build a long-term relationship with. I have attached an example of the pricing we get now. Please take a look at it and give me an idea of what Benco can do for our doctors. We can discuss in detail at the ADA. Thanks and make it a great day!

Andy

Depends on how it's structured. We have one in Blue Ridge where all the practices "sold" themselves to a new corporation. Now all 40 former practice owners own the corporation.

After seeing and vetting their incorporation papers, we decided it met our requirements.

From: Patrick Ryan
Sent: Thursday, August 14, 2014 7:09 PM
To: Mitchell Huber; Patrick Ryan
Subject: Conversation with Mitchell Huber

Patrick Ryan [9:47 AM]:

I think we need to stop talking about Amazon and start talking about Smile Source
And we need to start pressuring the vendors

Mitchell Huber [9:48 AM]:

That was exactly my thought when I watched the Youtube video this morning

Patrick Ryan [9:48 AM]:

They are terrifying

Mitchell Huber [9:48 AM]:

If Dentsply is offering their deal on the side, and they would offer the same deal to a Benco customer, then that's different. But if this is a Smile Source exclusive, then that is a real problem.

Patrick Ryan [9:49 AM]:

I don't know. Midmark has a deal with them too

Who is doing their fulfillment in MI? Nashville?

Mitchell Huber [9:49 AM]:

I don't know. I will try to find out.

Mitchell Huber [10:03 AM]:

Amy Mutch says that Burkhardt, Darby, and some internet dealers are fulfilling

Patrick Ryan [10:03 AM]:

Shit. I know Burkhardt got Nashville and Atlanta involved

If it's just Darby, I don't care as much....but when full service guys get in...

Mitchell Huber [10:05 AM]:

Yeah, the last thing we want is reliable service for these groups

Is Mac in today?

Patrick Ryan [10:05 AM]:

no. He's off till Monday

Mitchell Huber [10:06 AM]:

Great, I guess I won't get a response to my question.

Patrick Ryan [10:06 AM]:

I think maybe he and JRad are off somewhere.

Does she still work here?

Mitchell Huber [10:07 AM]:

Oh, ok. Well then you make the call. Can I share the Midwest market share data with the whole team, or should I break it down and send out slivers so that an RM can only see their own region?

Patrick Ryan [10:08 AM]:

I would say send it all. Pretty soon they may have access to SDM site anyway

Plus public shaming is often useful

Mitchell Huber [10:09 AM]:

Ok, that makes it a lot easier on me.

I've shared it before, but they seem to have been a little protective

Patrick Ryan [10:09 AM]:

We're getting the access first, then it may trickle down to them

That's the culture here. Knowledge is power

Mitchell Huber [10:09 AM]:

Mac sent a message saying it would be in Qlikview

Patrick Ryan [10:10 AM]:

That's why Brecher made a play for Kolanowski and his crew

Mitchell Huber [10:10 AM]:

ridiculous

Patrick Ryan [10:10 AM]:

It's worse...they now have a committee of Brecher, Jackson, and Barrett to "manage analylitcs"

Mitchell Huber [10:11 AM]:

Good. We need more committees

Patrick Ryan [10:11 AM]:

Brecher and Barrett both constantly attempt land grabs

Brecher also made play for Finance to set promo goals

Mitchell Huber [10:13 AM]:

Brecher wants it all. We've known that. He thinks he should be COO or maybe CEO.

Patrick Ryan [10:17 AM]:

If you simply land grab and ACT as the COO and no one stops you, you ARE the COO regardless of what your card

Mitchell Huber [10:19 AM]:

Good point

Mitchell Huber [3:03 PM]:

Do we need to book a room for ADA, or has that been handled?

Patrick Ryan [3:04 PM]:

Handled I think...but Mac has to decide if we're having an DOS meeting there

Mitchell Huber [3:04 PM]:

He told me last week that we are

Patrick Ryan [3:07 PM]:

Well, then he needs to decide what day.

Mitchell Huber [3:07 PM]:

We could use more than 1

But I agree, I would like to nail down travel dates

Patrick Ryan [3:08 PM]:

Well, he needs to understand I need to be at the DGPa some too

Mitchell Huber [3:08 PM]:

Same time and place?

Patrick Ryan [3:08 PM]:

It's the day and a half before the ADA

Mitchell Huber [3:08 PM]:

Oh that makes it tough

Patrick Ryan [3:08 PM]:

Yes. Same place

I could skip the 2nd day, which is a half day, but I kind of need to be there for the full day

Mitchell Huber [3:09 PM]:

Maybe we should meet the 9th and 10th

Patrick Ryan [3:09 PM]:

I gotta run

Mitchell Huber [3:09 PM]:

C ya

Subject: DirectDentalSales-Possible new Buying Club

Pat,

Declined opportunity in 2014 with SSC and Ole' Study Club last year- Buying Club-not National Acct.

Could clarify Benco's stance on Buying groups? As of 1 year ago, I approached Brad about Priveer Sharma, DDS wanting to put together a buying group for Ole' Study Club. Ole' is a Seattle Study Club member. At that time, the answer was No. The result was they signed a contract with Burkhardt Dental. Do we know the results of that decision? Do we know volume of product of product ordered by SSC members thru Burkhardt? Orders by region of USA? I would imagine higher % in Northeast.

DirectDentalSales- Buying Club Opportunity

Last Thursday, I was approached by Jim Corcoran, an Endodontist at Pinehurst Endodontics in Pinehurst, NC about a new Buying club-DirectDentalSales. They have a website DirectDentalSales.com that is not active yet. There is a Directdental-not the same company. Dr Corcoran is listed on his card as Director of Operations. He plans for this company to be a nationwide company and also in Canada. He plans attending all the major shows with booth space. He says this website will be all encompassing covering aspects of Dentistry. He already has agreements with Bank of America, Staples and a Dental Mgmt company. Each company will have an icon to redirect the potential customer to that company. (A search engine?) He approached me about Benco being the supplier for Dental products. He has already had discussions with Darby Dental. They are offering 17% off list Internet price and a 3% kickback to Dr Corcoran's company. He says that all rebate revenue will initially be put back into Marketing of Website and company. Would Benco Dental be interested in this type of arrangement? He told me if we matched Darby's offer- he would ally with Benco.

Concerns

1. Pinehurst Endodontics is my largest account (92107878) in my territory. They switched to me about two years ago after 2 years of cold calling and then the departure of their Schein rep. I beat out new Schein Rep from Raliegh, NC. In Equipment purchases, they bought 4 Kodak sensors in 2014 and a new 3D Kodak machine in 7/2015. Concerned about the loss of this account. I currently sell them most products on a 10% discount, either in person or by Fax. They prefer to order in person instead of on Painless. Interesting
2. I would think Benco is concerned about loss of commission for 400 reps from Buying clubs compared to national acct. (Aspen, Adpi) Compared to Darby who just hurts Schein reps based on Internet Sales and possible pct ownership by Schein?

Your thoughts on buying clubs and in particular- Pinehurst Dental would be greatly appreciated. Joseph

Hi Dr Goldsmith,

Your email below was forwarded to me in my capacity as the head of special markets here at Benco. I actually believe you and I spoke briefly last year. If I recall correctly, and please correct me if I am wrong, Smile Source, for the purposes of dental supplies and equipment, is essentially a group purchasing organization.

If this indeed how Smile Source functions (management/purchasing services with no ownership stake in the individual practices), Benco Dental doesn't recognize GPOs as a single customer.

As far as Dr Byrne's project in Maryland is concerned, we are pleased he has chosen Benco. Our team in Maryland is terrific and will do a great job for him. As far as pricing and terms go, they will be whatever is agreed between Dr Byrne and Benco's sales team there. As far as Benco is concerned, Dr Byrne is a solo practitioner like any other.

If I am mistaken about any of my information on Smile Source, please let me know and we can see if there is a basis to move forward.

Subject: RFP for ADC, PLC

Dear Zhao,

We, the members of Atlantic Dental Care, PLC, are formally submitting a Request For Proposal (RFP) to you in electronic form. This is for your review, completion, and submission back to us in electronic form. Please explore the guidelines specified in the attached RFP as this will facilitate comparison between vendors. The contact information and email address you are to use are specified in the attached RFP. The second attachment is an Excel spreadsheet listing highly specific common products our members routinely use. It is important that you note columns D and E. We are asking for your "Catalog Price" in column D and the "Extended ADC Price" in column E.

Our goal is to secure a one year contract that allows our 53+ dentists members to benefit from significant savings, while all parties enjoy a solid trusting business relationship and steady predictable volume. ADC, PLC is composed of 32 select practices that display high standards, solid business management, and is currently in a controlled growth phase. A recent review found our members' supply orders were in excess of \$3.5 million.

We will be comparing the multiple vendors' responses April 5, 2013 and are hoping you will give us the privilege of adding your figures to this process.

Respectfully,

ADC, PLC Procurement Board

Importance: High

Would you take just a few minutes today and give me some bullet point responses to the following questions:

- What is working well on the team? → Focus on strategy, right people on the bus, sense of urgency, embrace of change
- What is not working well? → We've changed the rhythm of the meetings, and we're still adjusting to those changes. Also, even with a focus on change, we need to move faster.
- If you could snap your fingers and immediately have the team do something mission critical very well that it has only done in a mediocre fashion what would it be? → Get the strategy groups operating at a higher level. We're only in the first inning of this new process, so this will take time.
- What help do you need from the team that you are not getting already? → leadership of the strategy groups.
- What are you most worried about with respect to Benco and where the industry is today? → Amazon's entry, rise of buying groups, decline of margin, flat market share, relevance to the market.

Subject: NOTE FROM J KOCHALKA*** Five minutes of pre work for Tuesday senior team meeting
Importance: High

Hello Benco team,

It seems like forever since I have seen you. I look forward to the day. **Would you take just a few minutes today and give me some bullet point responses to the following questions:**

- What is working well on the team?
- What is not working well?
- If you could snap your fingers and immediately have the team do something mission critical very well that it has only done in a mediocre fashion what would it be?

- What help do you need from the team that you are not getting already?
- What are you most worried about with respect to Benco and where the industry is today?

You know the drill. I will use your comments to create our day on Tuesday. Just respond to me without copying your colleagues.

Thanks!

Jim

Subject: New Mexico Dental Cooperative purchasing.

To All,

Frank Montoya, Jason Chapman and I are in the process of starting a dental Cooperative. Thus we are working together with our local private practice dental office owners to compete with the national large corporations in the dental field. We as small businesses are well aware of the studies showing the corporate dentistry role over the next 10 years. Furthermore, Walmart has provided us with a case study to evaluate the survival of the independent dental offices. Thus we have partnered with Patterson Dental to provide the individual office the same opportunities as the larger corporations. We as a group of 17 offices currently are expanding on weekly basis; Furthermore, we have doctors in our group from every specialty participating in the co op.

We are inviting all dental manufactures and representative to a our vendors meeting March 13, 2013 at 6:00 pm. The location is Patterson Dental Branch in Albuquerque, NM. During this meeting we will do the following:

- I) explain our philosophies
- II) Have an open forum question and answer, I will take any and all questions and be available however long needed.
- III) Explain our bid seeking for the next 12 months.

April 1st our co op will start to formulate the Preferred Vendor list for dental supplies. Our Preferred Vendor list will be update annually following our annual vendor meeting. We highly encourage our co op members to support the manufactures whom best support our co op. At the present moment we have begun formulating the Preferred Vendor list for all aspect of running a dental office. Upon conclusion of this process we will have a Preferred Vendor List for everything from cotton rolls to credit card processing fees to janitorial services and everything in the middle.

Our goal was 50 dental offices. However, that will have to change, we just started this co op and have added 17 offices without any effort. We have changed our goal to 75 dental offices in Albuquerque and then will expand to all areas of New Mexico. Furthermore, we are putting together a doctors meeting to have a discussion about the co op to increase our current enrollment.

If you have any questions please feel free to contact me at this email (personal email address) or my office, 505-821-1430. If you call the office I will need to set up a time to have a phone conversation due to patient care. As many of you know from the past, I have not been easy accessible b/c of the amount of sales persons that have wanted to work with our 3 to 5 offices. For the Co-op I will be 100% available to anyone wishing communicate and our personal corporations will only purchase with Preferred CO-OP Vendors.

Chuck,
Received a call from Mark Rowe today on the TDA.
PDCO and HSIC have pulled out of the convention because of Perks.
Mark, Ron Fernandez and Dunn feel we should also pull out.
John from Kavo/Kerr asked if we are pulling out then they would also.
It is Mark's belief in addition to Kavo/Kerr, Air Tech and others will follow.

If we pull out we will not get our money back but can move it forward to next year.

I feel we should pull out. Comments??????

I have to get back to Mark today.

Thanks for the response.

A agree, we looked at this some time ago and realized that there is not a true measurement of new business. Typically they want more than we can do for them and is best for them to commit with our Elite BluChip arrangement... especially with these guys located all over the east coast.

Pat, if you have anything to add, I'm open. Otherwise I will let them know what the best option for them is.

Thanks again,

RV

Subject: New Mexico Dental Cooperative purchasing.

To All,

Frank Montoya, Jason Chapman and I are in the process of starting a dental Cooperative. Thus we are working together with our local private practice dental office owners to compete with the national large corporations in the dental field. We as small businesses are well aware of the studies showing the corporate dentistry role over the next 10 years. Furthermore, Walmart has provided us with a case study to evaluate the survival of the independent dental offices. Thus we have partnered with Patterson Dental to provide the individual office the same opportunities as the larger corporations. We as a group of 17 offices currently are expanding on weekly basis; Furthermore, we have doctors in our group from every specialty participating in the co op.

We are inviting all dental manufactures and representative to a our vendors meeting March 13, 2013 at 6:00 pm. The location is Patterson Dental Branch in Albuquerque, NM. During this meeting we will do the following:

- I) explain our philosophies
- II) Have an open forum question and answer, I will take any and all questions and be available however long needed.

III) Explain our bid seeking for the next 12 months.

April 1st our co op will start to formulate the Preferred Vendor list for dental supplies. Our Preferred Vendor list will be update annually following our annual vendor meeting. We highly encourage our co op members to support the manufactures whom best support our co op. At the present moment we have begun formulating the Preferred Vendor list for all aspect of running a dental office. Upon conclusion of this process we will have a Preferred Vendor List for everything from cotton rolls to credit card processing fees to janitorial services and everything in the middle.

Our goal was 50 dental offices. However, that will have to change, we just started this co op and have added 17 offices without any effort. We have changed our goal to 75 dental offices in Albuquerque and then will expand to all areas of New Mexico. Furthermore, we are putting together a doctors meeting to have a discussion about the co op to increase our current enrollment.

If you have any questions please feel free to contact me at this email (personal email address) or my office, 505-821-1430. If you call the office I will need to set up a time to have a phone conversation due to patient care. As many of you know from the past, I have not been easy accessible b/c of the amount of sales persons that have wanted to work with our 3 to 5 offices. For the Co-op I will be 100% available to anyone wishing communicate and our personal corporations will only purchase with Preferred CO-OP Vendors.

--

BCC : Guggenheim, Paul

Anthony,

Let's have Chesapeake be a beta branch for the Game Changer program. It's a new, aggressive program to help the Drs. grow their business with new patients and increased cases acceptance in return for incremental merchandise business. Please call Jenny McNamara and set up a 90 minute webinar for you and Devon with Tim Rogan. He will review the program then you and Devon can launch it in the branch. It's a lucrative program for the office and leadership and accountability are the keys for it to work.

These co op situations can be very challenging so stay connected. You may have to help him at the meeting communicate our position verbally to the reps. It's in their best interest long term as well not to take our business in that direction. When I get these calls directly I politely say that I appreciate the opportunity, but currently we do participate with group purchasing organizations. Be cautious so that reps don't miss communicate our position.

Continue to help Devon stay out of this with grace. Adding value is the absolute key. Regarding his concern, Devon will be judged very kindly if he leads through this and helps the customers and reps grow their business.

Confidential and not for discussion ..our 2 largest competitors stay out of these as well. If you hear differently and have specific proof please send that to me.

Dave

I have attached an RFP that the GPO in Chesapeake will be sending out. I have had numerous discussions with Devon about our position and what it could mean if we set a precedent of offering lower prices to groups such as this. Devon is on board and understands our position. His concern was more of how he would be judged if we lost a big chunk of business. I assured him we were behind his efforts to maintain our Value Add strategy and to use this as an opportunity to deliver the best service, sundries and equipment to our customers that are aligned with our "Why".

If you can think of any guidance I can offer it would be appreciated. We will continue to tell our story and focus on profitable growth in our region. Thanks

Paul,
I enjoyed the opportunity to speak with you this morning in the Q&A session.
Just a heads up on a situation in Chesapeake, VA, Benco recently responded to and won a bid proposal with a buying group called Atlantic Dental Care. They are composed of 55 local dentists being led by a consultant, most of which are good Patterson offices.

Greetings, Paul...

Thanks for reaching out, I was at a board meeting yesterday & couldn't respond.

As we've discussed, we don't recognize buying groups. On the Atlantic Dental Care situation, here's our understanding after several in-depth conversations...

1. There are 32 practices that have legally merged together.
2. The new company is owned by the former practice owners.
3. They are in the process of rebranding all the offices Atlantic Dental Care.
4. They have a board of directors made up of some of the stakeholders that makes the decisions.

Although they're in the early stages of the process, we believe this meets our criteria for a large group practice. We've asked to see the merger documents once they are completed, to confirm that they've really become a legally merged entity, and we're going to continue monitoring the process to ensure that ADC delivers on their commitment to us. Happy to discuss in more detail, if you'd like.

Meanwhile, glad to hear that all's well with you & the family, and that you're enjoying the summer in Minnesota. As we speak, my folks are on a cruise across the Atlantic to celebrate their 50th anniversary; hopefully, one of them won't throw the other off the side of the ship... ☺

All's good here, keep in touch, talk soon...

Chuck,

I hope all is going well with you and the Family. Summer is upon us although in Minnesota it still seems like winter was in California. Reflecting back on our conversation earlier this year, could you shed some light on your business agreement with Atlantic Dental Care? I understand they are a group of 55 dentists in and around Chesapeake Va. being led by a practice management consultant that your team has signed a supply agreement with. I'm wondering if your position on buying groups is still as you articulated back in February?

Let me know your thoughts.... Sometimes these things grow legs without our awareness!

Best to you, Rick and Larry.

Sincerely,

Paul.

Subject: GPO Request

Hi Neal,

First off let me congratulate you on your new position! We met just over a year ago with Alain Carles at the Dental Branch in Fort Lauderdale (he was nice enough to let us deliver some equipment there for University of Miami) I now work with the National Accounts department in Patterson Medical and was told you would be a good contact to reach out to when I get request from my large groups within a GPO. Just this week I was meeting with a customer in Ashville NC. called the Western North Carolina Health Network and they are under the GPO Premier.

Tim Bugg is their SVP of contracting and during my meeting the subject of Dental was brought up, he claims they have a large amount of dentist in their group and currently are doing business with Patterson. He would like to have a contact that he can reach out to and setup a formal agreement as Henry Schein has been in his office looking to sign an agreement with them. His contact information is below. Please let me know if you have any questions and congratulations again!!

Date: 10/23/2013 03:36 PM
Subject: Re: Fw: Texas Supply Grey market and the TDA

Dave & Tim,

Just an FYI on the TDA "selling supplies" website. This has caused a big distraction locally as the TDA has flooded the market with advertisements offering 35% savings. Upon further research, a few of our major manufacturers are listed as selling on this site:

SybronEndo
 Axis
 Ivoclar Vivadent
 Hu-Friedy
 Coltene Whaledent
 & some others (full list at the bottom of my email)

I have contacted the ones listed above (except Coltene), and asked them for perspective on their selling through this TDA site. None approved and only SybronAxis was aware. SybronAxis (Matt Hansen and Todd Lester) have been very aggressive in finding out information. Since my bringing it up, Hu Friedy and Ivoclar has also been researching this. What we all have found out is that the source is a company called One Source Dental (<http://www.sourceonedental.com>) that is based in Arizona. The TDAPerks website and One Source are identical. One Source is not an authorized dealer but is an "eCommerce site". SybronAxis, Ivoclar, nor Hu Friedy have agreements with this company.

Each manufacturer is trying to find out who is selling to One Source. I was told "confidentially" by SybronAxis that it looks to be SmartPractice (<http://www.smartpractice.com/>) &/or a company called Arnold Dental (<http://www.arnold-dental.com/>). They said that once confirmed, they will discontinue their distribution agreements. *I will stay on them about that.*

As for Patterson, we have briefly discussed this TDAPerks site (not the source) with our dealer competitors at the local San Antonio & Houston level and unofficially with some TDA customers. I have yet to contact the TDA formally as we are still gathering information, however our payment for the TDA booths is due by the end of October/early November. I am

committed to pulling from the TDA if they do not discontinue competing with us via TDAPerks. We will not pay until this is resolved.

I will keep you all updated, but please let me know if you have any information, advice, or perspective.

- Clint

 Subject: Fw: Texas Supply Grey market and the TDA

Guys,

While at the DFW branch for PattStrat this "storefront" with low pricing reflective of grey mkt. was a hot topic from the TR's.

Let's discuss with these mfgs. at the DTA meeting this week.

Dave

 Subject: Texas Supply Grey market and the TDA

Dave,

This is the one that has the storefront and is selling grey market in Dallas area:
<http://txdentalsupply.3dcartstores.com/>

This site is one out of New York that sells grey market into DFW:
<http://www.dental4savings.com/>

A good test for both of these is to enter TPH and look at the pricing. From both items have been confirmed grey market in the past.

One big recent issue if with the TDA (Texas Dental Association) - TDA Perks. Last week (October 1st) they opened a website and a line of supplies with "over 40,000 products". The promise is to "save more than 35%". They are aggressively marketing this in direct competition with all dealers. I am just finding out about it and have talked to Tim Wagstaff and will talk to John Hyden next week. Once we address the TDA, an outcome may be no longer supporting the TDA meeting:
<http://www.tda.org/displaycommon.cfm?an=1&subarticlenbr=109>

Subject: Fw: GPO/Burkhart Relationship

I would not currently classify these as a big threat to the business but the GPO noise has been pretty loud from the field. We have said no at every turn, including to Delta dental. Benco has also crept into few of these.

My guidance has been to politely say no and whether the storm with these.

Incredible to me how Burkhardt bit this apple and that they are broadcasting it. Proves they have no other value to add for customers.

Thanks Bill - - I cannot believe Burkhart is joining with a GPO like this - -It seems they are cutting off their nose to spite their face?? Offering ancillary services like lower cell phone bills, medical gasses, etc while dropping merchandise prices does not benefit them nor their reps..... We are choosing to forgo this route as its both anti rep, manufacturer and distributor.

Thanks

Subject: GSA and Special Markets accounts

Hello Dave,

I'm George Lennon the Executive Director of the North American Integrated Dental Society based in San Antonio. We represent a group of independent dentists who have formed a buying group to compete with the lower prices the large group practices get.

My background is in Dental Special Market Sales with Kodak and Danaher. With Kodak I was the National Government Account Manager and with Danaher I was the NW Regional Manager covering 10 states. While working for these two companies I worked 100% with Henry Schein to sell our product lines, and they sold them like crazy. I and many of us don't understand why the second largest dental dealer has decided not to get into this market that generates millions of dollars in x-ray film sales alone. Schein has established a core group of manufacturers that work together for mutual benefit, most are also Patterson manufacturers. What this has done is to put other manufacturers on the outside looking in, and they're just starting to realize it. At one time I spoke with the Patterson Institutional rep Susan Yamashita who said Patterson didn't plan on getting into the Special Markets area like Schein has.

The reason for this note is to explore if you would be interested in talking about establishing a stronger special markets groups to cover GSA, public health and Indian Health. I had a call today from a past customer at the Northern Valley Indian Health Center who isn't getting much support from Schein or Kavo and we could move them to Patterson if we had

a network to cover the area. This is a huge account that I sold 57 Diagnodents to and they are growing. The opportunity for growth in this area has no limit and I would like to help Patterson become a major dealer in this market.

Please let me know what you think,

Best regards,

George Lennon

Neal-
I was referred to you by Mike Smurr.
I represent a group called Smile Source®. We have a unique business proposition whereby we have a federal franchise and offer marketing, training, education and buying power for practices but we allow them to remain autonomous. We currently work with Burkhart and have a great relationship with them. Unfortunately, they do not have a national footprint and we are growing rapidly. We have added 87 locations in the last 10 months. I would love to have some sort of conversation with you about possibilities for a partnership.

Let me know if we can schedule a time to discuss in the next few weeks – preferably before the ADA.

Thanks!

Andy

FROM: NEAL MCFADDEN, PRESIDENT, SPECIAL MARKETS; DAVE MISIAK, VICE PRESIDENT, SALES

RE: PATTERSON SPECIAL MARKETS (PSM) DEFINITION

In June we announced the formation of our new Patterson Special Markets (PSM) Division. While we are still in the process of building out the infrastructure, we wanted to give you some guiding principles around our definition of this "special market" and how it will affect current and future business.

Effective immediately, current dental corporations with 15 or more owner operated/affiliated locations and a minimum of \$600,000 in potential merchandise will qualify. Government, institutions and schools could also qualify to work with PSM. These high volume accounts are asking for a single-source contact for all of their needs, including reporting, rebates and formulary updates. It is our goal to accommodate these requests and aggressively grow our business within this space. This definition will not include group purchasing organizations (GPOs).

While all new business will flow directly through PSM, we understand that several branches have current relationships with dental entities inside this definition. It is our desire to keep that business within the branches for the foreseeable future. A deviation from this may occur if the existing customer chooses to work with PSM.

We are aware that some territory representatives have relationships within a few of these current accounts, in which case all current business will continue to flow through the branches as stated. If a current account chooses to do business with PSM for reasons indicated above, merchandise commissions to the assigned territory representative may be reduced. A new commission matrix is being developed to manage this arrangement.

PSM may request the assistance of a local equipment specialist regarding equipment and technology sales. In this case we will pay commission rates based on gross margins via commission adjustment. No commission will be paid to the territory representative on equipment or technology for new Special Markets business.

(Continued on next page)

When a service technician is requested for repairs or installs, PSM will supplement the branch service department at the gold rate per hour on new accounts only (current accounts remain the same for now). The branch must submit an invoice at the proper billing rate to the customer, then email that invoice to PSM through

Tammy.Brand@pattersondental.com with the subject line "Special Markets Invoice" to receive the rebate via journal entry. Ultimately, our intention is to automate this process.

We are excited about PSM and look forward to growing and protecting our core business within this space. The development of this new business will ultimately create growth and opportunity for the entire dental organization. Please communicate this definition at your next region and branch meeting. It's important that you lead and set expectations for these successful partnerships as we move into this space.

Communication is paramount so do not hesitate to contact us with any questions.

Hey Bret,

Dealing with GPOs is incredibly risky on many fronts. We can discuss live but as soon as we start doing this we will turn into medical, margins will go down and commissions of course will follow. This is a bad deal all the way around. This is the very abbreviated version and if you would like to talk live please let me know. Thanks.

Hey Bret,

Wow... the world is changing isn't it?

I can tell you that with authority that is not something SM would be interested in. The participants are Private Practice customers which rules SM out. Food for thought though... their targets are invariably going to be existing HSD customers. I think we have to stick with our core competencies and this is not one of them.

I'm copying Joe Cav... perhaps he will have a different take, but SM declines.

Many Thanks!

Subject: Business Intelligence Group

Good morning Kathleen and Tom,

I have a marketing and consulting group called Business Intelligence Group that is interested in forming a buying group for dentists. They

have over 150 Dental clients and run different marketing campaigns for these clients. For example, if they want to run a whitening campaign for \$49.00 through Groupon or another Social Media Platform they may get 20 new patients in each of their clients practices. (These are probably conservative numbers considering I have a client that ran a Groupon ad 6 months ago and got 150 patients in 2 days.) Each of the dental practices will need to get their supplies from somewhere. Their goal is to supply the whitening product to the dentists and/or any other product for any campaign they run.

Do we have any interest in opening an account for a group like this? As I mentioned they have 150 clients and they plan on growing to 500 clients by year end. I met with their founder and CEO last week and he is very interested in setting up a meeting with us to discuss his ideas. Please let me know if we would like to pursue something with this company.

Thank you,

Bret McCarroll

Subject: RE: Nov. AGD meeting in Vegas

Hey Tom,

Of course this email is written in a way that only you can write it.

I will talk to Michele Penrose who is organizing this event for us about having Dentrix there for 2 days. If they are unable to send someone we will have our local DTS on sight.

As for the AGD buying group....I haven't heard anything about this but I doubt this will happen. Once the buying groups entire our market the dental model as we know it will change. I will ask John or Dave about our progress but I would assume at this point that nothing is going to happen.

I'm going back to ignoring you now so leave me alone!

Subject: Nov. AGD meeting in Vegas

Joe,

I hope you're doing well. I left a message for you earlier today which you can now continue to ignore.

A doctor I call on in Charleston WV is the chair for the practice management meeting you will be attending in November. He called me last night to ask if Henry Schein would also provide a Dentrax Demo out side the meeting rooms during the entire two days of meetings. His thoughts are during breaks or when doctors step out of the panel discussions to have someone there to show the doctors what they just heard discussed. He is also inviting eagleshit and crapdent to display as well. He is a Dentrax customer personally but feels those other two lack luster vendors need to be there to be fair and seem unbiased.

He asked for you to call him on his cell if you have any questions or to discuss this in more detail. Dr. Steven Ghareeb 304-610-9973 his email is sstevenamos@aol.com

On another note: This doctor is a part of a group practice with 4 offices currently and do very well. They are obviously big into the AGD and will not switch their business to Schein because the AGD is trying to negotiate a deal for members of the AGD to get discounts (a buying group in other words) I know they have approached Schein. Is this going to happen? If so what are the discounts? Joe Gurskey and I approached them with Special Markets pricing and they're still holding out pending an AGD deal. Any insight there would be greatly appreciated. This group is worth a couple hundred thousand a year.

Best regards,

Tom Gadd – KY44

Subject: Intermountain Dental Associates RFP

Hi,

I took a stab at the written response for IDA today.
Here it is along with the RFP for your reference. We are definitely competing against Benco. I don't know what they will do though. I therefore asked Rich (with the help of Lisa Page) to price out the 56 items on the pricing file aggressively as

CX0169-001

these will be compared to Benco's pricing. The fact is a lot of the items on the RFP are low volume so if pricing is a little lower it will not hurt us. Farish gave me the service rates so those are good.

Note: I also defined what qualifies for IDA as a member.

We need to make sure they are clear we don't do GPOs as that subject keeps coming up. Especially note what was said in the second paragraph of the RFP about who they want to include.

Action Items:

1. Rich is going to price a file I sent to him today to show IDA what they pay for what they buy. He will include the items on the rfp at the rfp prices we established.
2. Randy K. please do your equipment pricing and then in areas labeled for equipment on the draft document, add your piece.
3. Please everyone review what I had to say and please, please make any recommendations. I want this response to be very strong.
4. Especially please think of any value adds that make sense.

Thanks,

A

Subject: RE: Co-Op summary of conference call

Jeff will present to Andy face to face, letting him know that although we have had a long relationship with each other with their newest decision to add partnerships with companies like P&G and Komet and their desire to develop competitive relationships to HSD that at this time it looks as if we are going down two different paths. " I'm hoping that we will learn that our dentists will continue to change their buying habits as currently demonstrated with our short term agreements with Komet and P&G." (KT asked Andy if they were willing to sign an exclusive with HSD and the answer was a definitive No, they have full expectation to seek competitive companies to HSD to bring to their group.)

They are probably going to align with a Darby over a PDCO but Benco might also jump at the opportunity. The Co-Op is turning into a GPO (even if they don't think they are one now), from what KT has observed in Texas, NM and from Tim S, HSD does not want to enter the GPO world.

OK...the team will not to act with urgency on this. How are we presenting to Andy?

The formal arrangement will end and seems like we are lining up to compete against each other? After 8 years of working together I'm not sure how healthy it is for either party to talk poorly about this other.

Will they go to Darby or is this something PDCO or Benco will jump on?

Joe

We had a good call today with Jeff and KT about the Utah (soon to be multi state) Co-Op and here are the bullet points:

- We will no longer be a part of the Utah Co-Op (KT will send Andy from the Co-Op a note letting him know that we are discussing the proposal at an executive level, this should buy us a few days to get our ducks in a row)
- Jeff will work on a separation letter (KT provided one that we used to separate from the Texas Co-Op last month), he will send it to KT and I to review once he has completed it.
- We are going to Grandfather the existing Co-Op accounts on the VPA they are currently on which gives them a 8%/9%/10% rebate back each quarter depending on supply purchase volume.
- Before Jeff has a face to face with Andy letting him know of our decision not to be aligned with the Co-Op we will have a plan and information ready for each FSC to take into their accounts.

It was a good call, KT is awesome to have on our team.

KT or Jeff please add on if you feel I missed anything.

Subject: Ron Fernandez Call

Call was mostly about the TDA Merch Program. The bullet points for Joe are below:

- Benco considering suspending all activities with the TDA including pulling out of the state show.
- Chuck Cohen will be reaching

out to, or has reached out to, Tim Sullivan to see if HSD would do the same thing.

- Ron wanted to know if I have a relationship with local PDCO RM to see if they would consider pulling out as well.

- I will be having lunch with Ron week after next to discuss concerns and share what we have found about the program

- I laid out ground rules that I will NOT discuss a pricing response and any action would have to be cleared by my Legal Team before communicating with the TDA.

On a side note, he did mention that he is now the manager over Houston as well as South Texas and they intend to keep operations "streamlined" with just one larger region.

Subject: Re: Dental Gator

Dental Gator is owned by our EDSO, MB2 Dental. MB2 is a \$2M plus merchandise customer and recently became Dentrax Enterprise's largest software purchase. Similar to Heartland Dental, MB2 goes after offices by setting them up as "consultant practices" to win them eventually as MB2 owned offices. In the last few months, 10 practices have joined Dental Gator and 3 of them have converted to full MB2 ownership. Thus their model is working.

In our prime vendor agreement we spelled out specific terms and restrictions about these consulting offices to prevent Dental Gator from being a typical GPO. They hired Patrick Gill to help them find offices and to teach them best practices, formulary compliance, software options, financing options (HSFS), etc. .

Yes, with reduced pricing being a big lead in this will cause some issues. We do our best to review each situation, and no, we do not promote Dental Gator.

Hope this makes sense.

Subject: Re: Dental Gator

Please remember this is a \$2M+ customer using this as a way to look under the covers- it is not just a pay \$699/month type group— BUT I AGREE- We have looked at the true buying groups and have a spread sheet I will forward on by the end of the week- Darby is the lead supplier —

Hi Theresa,

Here is the PP we will be started the meeting with. It will be the foundation/starting point for our discussion.

We can do on a screen if that is preferred, or handouts.

Whatever you think Jimmy would prefer?

Thanks,
Brad

THE PERFECT STORM

“A” Value customers spending +\$21k per Bill-To.
 Higher penetration of A/B accounts

Why the Discussion

“The world is changing all around us. To continue to thrive as a business over the next ten years and beyond, we must look ahead, understand the trends and forces that will shape our business in the future and move swiftly to prepare for what's to come. We must get ready today for tomorrow.”

Internal Factors

What do we know about GPO's

- **They are here to stay.**
 - *passing the legislative scrutiny*
 - *IDN spin offs*
 - *Avamed and Medtronic withdrawal.*
- **They continue to get larger annually.**
- **They continue to structure through layers of affiliates.**
- **They continue to search for Growth Markets including Hospitality, Dental, Animal Health, and Major League Sports.**
- **We know they are well run, funded and advocated for. (HSCA)**
- **We know they are masters of analytics and data points.**
- **We know they want to be more than just contract negotiators.**
- **We know they have contacted Dental competition.**
- **We know that opening the door for them on their terms is not a favorable approach.**

What do we not know about GPO's

- Will they be successful in baiting a Dental company into working with them?
- Will the Supplier industry support contracts in the Dental market?
- How many Dental products and suppliers currently work with GPO's?
- What's the overall contract penetration?
- What discussions are currently in play?
- Is the distributor relationship the “chicken or egg”?
- What is our own dental history in speaking with GPO's?
- Is there a leverage opportunity that creates a “One Schein”?
- How will they approach contracting ie:
 - *Broadlane Model*
 - *Amerinet Model*
 - *Somewhere in between*

What do they Want and Need?

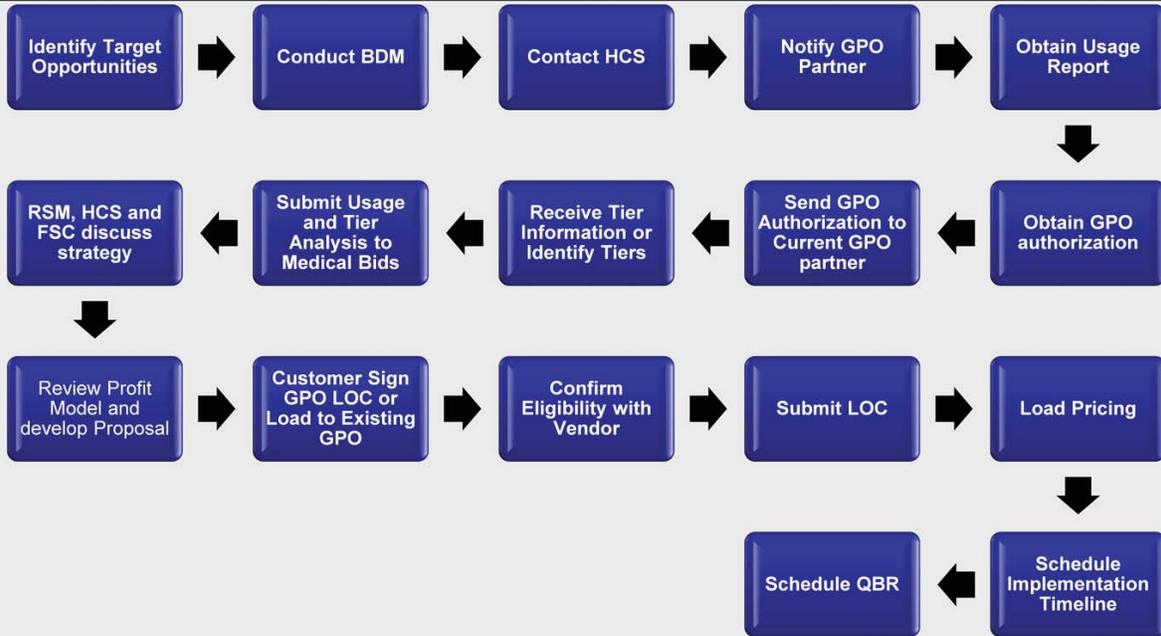

- **Growth**
 - Adding more non-acute products on contract (added margin pressure)
 - Adding services: Web Based tools and Purchasing Programs, Capital Equipment Development and Planning
 - Positioning for Non-Acute expertise
 - Expanding into non-medical verticals
 - Becoming more than “GPO”
- **Consultative Lead** – customers view GPO as ‘strategic partner’ (Acute)
 - Health systems as ‘shareholders’
- **Data Analytics** and ownership
- **Drive Competition**
- **Cover all their bases’ with services and providers.**
- **Admin Fees**
- **Transparency-Reporting**
- **Business Commitments**
- **Layers**
- **Intel**
- **Relationships**

Over \$7M in admin fees paid to 29 GPOs/Affinity Groups (2012)

What Do We Need?

- **Lower Cost to Products:**
 - *Base Contracts*
 - *Committed Contracts based on:*
 - ❖ *Volume*
 - ❖ *Commitment*
- **Lead Generation where they own “consultative lead”.**
- **Pre Win support in Contract access.**
- **Post Win support in Contract Implementation.**
- **Quick Rostering Abilities.**
- **Not to interfere with existing business.**
- **Not to interfere with supplier relations.**
- **Not to share our models and data with third party influencers.**
- **Be a good Partner!**

What do we get?

In some cases we gain access to Private Label Products

- blood pressure cuffs
- chart paper
- crutches
- elastic bandages
- electrosurgical pencils
- equipment covers
- exam gloves
- grounding pads
- healthcare textiles
- hot and cold packs
- ice bags
- infusion therapy kits
- medical paper products
- minor procedure trays
- monitoring electrodes
- non-sterile kits
- O.B. specialty products
- O.R. accessories
- Omnipaque, Omniscan, Vispaque
- patient care plastics
- patient footwear
- patient id bands
- pencil thermometers
- personal protective apparel
- room turnover kits
- scalpels
- sharps containers
- specialty bags
- sponges & towels
- standard or procedure trays
- suction canisters
- thermometry
- urinary catheters
- witch hazel pads
- 107 Pharmaceuticals
- Respiratory
- Anesthesia supplies

OK

1/18/2018 1:35 PM

We also get the “Third Party Influences”

- **Consultants**
- **Management Companies**
- **Insurance Companies**
- **Private Equity Firms**
- **Fly by night Expense Reduction Analyst**

All of the above wanting to be a GPO or partner with one.
Additionally under the GPO’s you end up with:

- **GPO’s**
 - *Regional Purchasing Coalitions (RPC’s)*
 - *Faith Based contracting Groups.*
 - *Aggregators*

What is the criteria for working with these partners?

Influence in the market -

What do we Do?

- Medical Simply must work with GPO's to stay viable and competitive in the IDN space which is 50% of the market. The traditional customer segment is also GPO occupied due to distribution needs and increased coverage.
- Draw some lines, we cant work with everyone, certainly cannot keep everyone happy and the operations, legal and marketing work is unsustainable.
- Shape your decision to meet your needs, Dental has all the leverage today.
- Do not buy into the Medical Model. Build a new one.
- Vet out GPO's with an RFI of our own.
- Meet with the top dental suppliers and fully understand their strategy and assigned teams. Get them on record.
- Limit your partners and drive exclusives at the GPO level.
- Understand the short and long term goals and gains.
- If you elect to enter market, Work with HCS Medical as a "One Schein" solution, we can define and sell it in a manner that works for us all.

Discussion

• Hal's Questions:

1. Can we save on Cost of Goods?
2. In CHC's and Hospitals where Dental is the ship agent will their be a benefit?
3. Do the manufacturers want to do this? Is their a way to find out?
4. Does our own GPO make any difference?
5. Will we pay on Non contract items?
6. Pay on CHC's? DSO's, institutional, federal, dental schools?
7. How do we handle internal process? Headcount?
8. What is the additional Headcount cost?
9. What is the process of acceptance from the manufacture?
10. Would this be labor intensive, how long does it take to know if ship to is acceptable and what the cost basis will be?
11. Does every location need to be approved?
12. What GPO should we work with....our own?
13. Is Private Brand pricing usually beat out by GPO contracted items?

Family time important!!

Quick question— do you think they have the power to move business?

Has anyone evaluated the profitability if we offer all the stuff on the list of things we are about to offer?’

Thanks— would rather discuss with someone who is not off today!

Subject: Fwd: Atlantic Dental Care - HOT

We should have brought SM team into this much sooner, although this has snuck up on us rather quickly. Our first reaction to this was it was simply a buying group and we were going to walk away. However, the more MP dug onto this the more of a Comfort Dental group this seems to be. Seeing as this then qualifies as potential Elite DSO just as Comfort is, we probably need Randy involved. I'm not sure, however, there is time right now. This is due Monday.

Thoughts?

 Subject: RE: Atlantic Dental Care - HOT

All –

Here is what we plan to offer the group on Monday. We are trying to offer a better rounded program as we could be up against a bid (Benco probably) that just goes way low on price.

- ? CAP program fundamentals
- ? Privileges enrollment
- ? VPA PB03 – I have the formulary he sent me – I added our catalog price and the 9% price if branded, and 18% price if HS brand
- ? 5% Service Certs
- ? \$500/\$1000 Equipment & Tech Coupon
- ? (no Early rewards iPad)

Other Value Adds

- ? Played up the HSPA – noted it would be free if we can not find \$30k min in revenue opportunity
- ? Offered local OSHA seminar at n/c for members
- ? Offered 2 Dentrix study club program for members at n/c

What will be sent over to the group Monday mid-day

1. Cover letter

2. Program overview (CAP program doc modified) – I also will be noting the local team, number of techs, our showrooms, key exclusives etc....

3. Program Discount overview

4. The ADC formula with our price

5. We Do That / HSPA PDF (we have a new one?)

See below – We also talked about a rebate, John mentioned it and Dave and I talked about it. See the particulars about this group and some logic behind the opportunity.

I put out there an idea on a rebate – do we like this? Like it and the rebate percents too much? If we go too low it doesn't look too impactful.

THOUGHTS the above and below direction?

Number of Offices

53

Average Merchandise p/office

\$45,000

~ Total Opportunity

\$2,385,000

Current Sales for group

\$630,000

HSD Sales share of group

26%

Number of offices with \$20k+ in 2012

14

Potential Incremental Business Win

\$1,125,000

(In addition to the 14 that buy now, 25 more offices in the group purchase \$45k each with winning bid)

Rebate Goal

\$ 1,500,000

1.00%

\$ 15,000

Rebate Goal

\$ 2,000,000

1.50%

\$ 30,000

Hello Tim

Two different message's

I believe what Michael has suggested is a good plan. We just need to get in front of the people making the decision so they understand the total value of what we are offering. Not just a price. Not sure what Benco they will offer to this group.

CX0198-008

Second part was for Michael, equipment gp is getting low.

Benco is being very aggressive in the VA market with 15% discount telling doctors that we have overcharged for years. Low balling equipment quotes to get merchandise account.

Thanks

Bobby

Thanks team. so, Bobby, I'm a little confused with your message. What is your specific recommendation? Your message states that Benco will be price focus only AND that other customers in the area will be watching how we quote this. Two valid points .. so what's the suggestion?

Subject: RE: Atlantic Dental Care - HOT

Hello Michael

Sounds like a good start. If you talk to Landy, I would like to present to him vs just an email. I don't think he will understand the value of a dpat if we don't explain & go over one in person. At that meeting we could also go over Osha & Hipaa training that we offer.

Just so you know in this market Benco is currently going in with a 15% discount to all of our customers. Has created some problems in accounts that have dealt with HS for years. Doctor's are starting question why Schein has over charged for all these years. Dealing with this issue now in NV with one of Chris Gentry's accounts. Has switched his business to Benco \$50,000 a year. Chris just took the account over, past FSC wasn't actively calling on account. Opened the door to price, Chris is going in today to try to set up a meeting. Chris & Bob(ESS) met with him the week of the Hinman meeting to discuss equipment. We are losing that as well.

So yes we need to be aggressive with ADC, Benco is selling totally on price.

Michael when this is completed, I will need to address several accounts in the VA Beach area. We have been informed that they are watching to see what happens with this deal. I have a meeting with DR. Konikoff's CFO tomorrow morning. They buy over \$1,000,000 a year in merchandise and several hundred thousand a year in equipment. We currently discount 18% in this account. Equip gp generally 28 to 30gp. They were asked to join the group but declined.

Thanks

Bobby

CX0198-010

I will work on something this afternoon. I talked to Dave as well.

The plan will be to put together an outline of a program for us to review.

Some of the same elements of the CAP will be in the program - we want to offer a well rounded program that hits more than just supplies. (service certs a nice piece of this) Thinking we have the PB3 as the VPA for the program. We can also include the E& Tech cert - they will be buying equip.

We add in a rebate if sales hit a certain threshold - we get \$630k now, if most all members jump on and order from winner we should expect close to \$2m - maybe we put in a rebate % if they hit \$1.5m and another rebate if they hit \$2m? Rebate would go back to the Atlantic Dental Care group.

My guess is Benco will come hard with just a low price.

Sound okay?

My experience with this is it's all price. In my opinion if they can guarantee a minimum amount that is a significant increase in business then maybe we bid. If not I have never seen a small group let along 53 dentists agree to buy from one source. My vote, no minimum no bid. If we do bid it should be on a rebate basis.

JC

Thanks for message MP. I've added John Chatham as well. I think we should take a shot at this, but also believe we should include full value and not just bid price. We've been talking a lot more lately about approaching large groups with a more value prop including DPAT and/or Consulting Services process. Do we combine a "goal" of \$20k per office increased production or profitability if they commit to the process? That's a \$1 million goal. That should grab groups attention!!

CX0198-012

Happy to participate in call, however don't delay waiting for my schedule today or tomorrow.

Tim

>

> Bobby let me know we were invited to bid on the business of this group. See attached. They gave us a list of products they want us to bid on. At first this looked like just a buying group which led me to initially believe we could do more harm if we bid vs. not submitting a bid. There are 53 members in the group – there is over HSD \$630k merch business tied to the members of this group

> I talked to Joe and Jake – and we talked as well Tim. The thinking is that Benco, a decent player in the market and always hungry, will put in a bid. I decided to call the lead contact of this group, Landy Damsey and open up some dialog to learn more....below are some notes –

>

>

> · I asked about him and the ADC group

>

> o He comes from 20 years in medical, practice management and working to merge practices into supergroups

>

> o 53 Dentists in the group in 32 separate practices

>

> o Jan 1 all combined legally

- >
- > o “we are not a co-op or a buying group...1 corporate structure...unified group of mature practices”
- >
- > · I asked about the bid process and criteria
- >
- > o He did mention the merch spent for the group was probably \$2.5m not the \$3.5 on the letter (that was real high for 53 offices)
- >
- > o Price or value most important – I asked if they consider the total package a company can offer for the bid...he wasn't sure what I meant...I talked about all the things we do, service, CD concepts/big picture helping clients etc....he said that's nice, but came back to price (no surprise)
- >
- > o Re Equip and Tech – he wasn't too sure but he mentioned there is a procurement committee of select dentists in the group to assess tech needs and purchases – that they would be doing site surveys of each office....then they would look to pool some purchases for a better pricemeaning looking at ordering 4 pans at a time etc...
- >
- > o Question I asked “will all the offices in the group have to buy from the winning bidder?”.....”that is the intention of this group...to band together and act as one” ... he wavered a bit saying it was absolute but it seems like it's the goal.
- >
- > He seemed pleasant, he was a bit fuzzy at times but gave me decent information. I could call him again if we need more information. It does appear that this is more than a buying group. The 53 offices are financially tied together in some fashion. Passing on a bid now has more risk. There is also risk if we bid and lose....or win and take a huge hit on margins. If Benco is in, how low will they go? If we win the upside is the other business we don't currently get. Bobby mentioned there is a buzz in the community about this in VA. We should talk for sure – I will catch you in Charlotte Dave. The bid is due Friday but I think we could have a bit more time if we asked.

Copying others for assistance. Not sure best way to track down complete list. I am really interested to see how and what we can do to retain these customers and judge how effective their buying group model is. Let's really take this serious and get after it. I'm really less concerned about the actual revenues, although very important too, rather more about what we can do to KILL the buying group model!!

Thanks,

Tim

Tim,

Here is the list Karoline sent me yesterday. These are all of the accounts that are coded for smile source but I don't believe these are all of the accounts. Some accounts were coded differently because we just recently created the new code for this group. Is there someone in special markets that might have a more complete list? Yes I would like help if possible. I will be presenting all day today and the first half of Friday. If I could get help generating a letter to the doctors and to the regional managers informing them of the changes. I've attached John McCloskey and I'd like to ask his help in creating a report to track sales of these accounts going forward.

Thanks,

Yes the problem is collecting all the Smile Source accounts. We were using multiple codes in our system so I'm having a hard time figuring out what accounts were signed up with Smile Source. I will have a completed list today.

Subject: RE: TDA Info

It will be at the TDA most likely the day before or the first day. It is going to happen and it will be direct. If they don't stop this will be our last year attending the TDA.

We did....I just wanted to be double sure before telling PDCO anything.
Any idea when our meeting with them will be?

Guys, I have to get back to PDCO on whether or not we are attending the TDA. My understanding is that we are, but having a meeting with them and telling them that if their partnership continues with their supply relationship (link below?) we will no longer display at future meetings.
Is this correct and is the link below what we are objecting to?

Hi Lindy:

I received an updated list of offices that Smile Source has added to its growing family. I am working on it and will send it to you as soon as possible for updating in your system. There are now 115 offices that are part of Smile Source...

Thanks,

Joseph Arroyo

Subject: RE: FYI

Hey Tim,

I wouldn't say DG is a friend. It was our way of controlling a buying group situation with HSD tools we already had in the bag. This combined with Hal telling them they can't promote the MB2 pricing plan any longer has significantly reduced the noise and DGs impact. I used to hear about DG on a weekly basis now I don't hear about them at all.

Jake can also add his comments from the East.

Breakaway – Looking for August dates now as that was the first available in your calendar. We really want to go see them first so you can get have a clear understanding of just how well run some of these companies are today. After our meeting we can bring them to West Allis.

Subject: RE: FYI

Thanks Joe . . good info. So Dental Gator is now a friend? The Dec "offsite" last year I left with a goal to see if we could get Hal to shut it down, but knew that could be a challenge due to the parent company being a EDSO of ours in SM. Are we keeping them in DSL because it's good for the customer or it's good for HSD?

On Breakaway, any dates lining up for the visit? Should they come here and meet the expanded team and our entire offering?

Other BGs . . . we need to get our package together asap and decide when/how to go to market with it.

Subject: RE: FYI

Hey Tim,

May need a discussion but here are my thoughts;

1) Dental Gator

- a. We went to the PG plan so we could keep in DSL as all DG accounts were being moved from DSL to DSM and set up on a P Plan
- b. This move reduced the confusion around DG and also eliminated a buying group from getting the same pricing as a DSO
- c. This was cleaned up about 5 months ago
- d. The project Pyramid team agreed to this approach

2) Breakaway

- a. This was a group that Randy Foley, KT and I talked about where Randy said he would like to keep this group in the MM space
- b. We did discuss shutting it down but once KT visited their facility it was not a small buying group at all...more of a MSO
- c. They have a monster corporate office and a strategy that is evolving the group practice space
- d. This was the group that I'm trying to arrange a visit with you so you can see how the space is rapidly changing

3) Other buying groups

- a. Are popping up quickly...some we should engage with if they offer something unique to HSD
- b. Their main interest is to keep up with corp dentistry and they want

i.
Pricing (formulary pricing – G Plan)

ii.
Business Solutions

iii. CE

On a side note we just signed Breakaway on to Clixon and they shared with us they were investing money into creating their own inventory control system so the timing of our offer was very good. We also just signed a second group up using Clixon early this week. These groups want the ability to control their inventory and review the analytics via software.

Please let me know if these thoughts help. Thanks.

Subject: FYI

Buying Groups-

Tim, I don't want you to get caught in saying one thing and the team doing something else:

Earlier in the year you asked about Dental Gator and Breakaway dental.
I am not sure what the conversations were but new Dental Gator accounts are now being set up under the PG-plan and assigned to HSD-MM, I think this must have been done so that FSCs do not lose the customer and the prices are still with the higher GP and do not count toward growth rebates.

Breakaway- we thought this was heading to being closed down by the MM sales team, after Kt had a meeting with them it now appears that customer is part of MM and has multi-million dollar potential with new locations co-owned— as this is not a DSO, we will not have in in SM, but we need to evaluate what they really are and if they are a BG and if we should be selling them and/or in right place at some point. It is not under SM control anymore-

Again this was a heads up- after hearing the Buying Group discussion in W.A., it is getting confusing on BG's are we opening them or setting up our own?

Have fun

Hal

<p>1 (Witness sworn.)</p> <p>2 WHEREUPON:</p> <p>3 JOE CAVARETTA,</p> <p>4 called as a witness herein, having been first duly</p> <p>5 sworn, was examined and testified as follows:</p> <p>6 EXAMINATION</p> <p>7 BY MS. GOFF:</p> <p>8 Q. Good morning, Mr. Cavaretta. We met offline.</p> <p>9 But my name is Karen Goff, and I'm an attorney with the</p> <p>10 Federal Trade Commission. And with me is Lin Kahn, who</p> <p>11 is also an attorney with the Federal Trade Commission.</p> <p>12 Today's investigational hearing is being</p> <p>13 conducted as part of the Commission's investigation of</p> <p>14 Henry Schein in Matter No. 1510190.</p> <p>15 MS. GOFF: For the record, could counsel please</p> <p>16 state their appearance.</p> <p>17 MR. McDONALD: Sure. John McDonald.</p> <p>18 MR. KASS: Colin Kass.</p> <p>19 MS. GOFF: Would you please mark this?</p> <p>20 MS. KAHN: Can we go off the record?</p> <p>21 (Discussion off the record.)</p> <p>22 (Exhibit 189, Subpoena, was marked</p> <p>23 for purposes of identification.)</p> <p>24 Q. I'm handing you what's been marked as</p> <p>25 Exhibit 189.</p>	<p>1 Q. So when you said the second one was a</p> <p>2 follow-up to the TDA case, it was also related to TDA;</p> <p>3 is that correct?</p> <p>4 A. It was the SourceOne case.</p> <p>5 Q. Okay. And the third, the third --</p> <p>6 A. Was a competitive sit- -- we recruited a rep</p> <p>7 from a company, and we were deposed on that.</p> <p>8 Q. Okay. So I'm going to go over just a couple</p> <p>9 of ground rules. But I understand you've had your</p> <p>10 deposition taken before, so hopefully this will be a</p> <p>11 review.</p> <p>12 A. Sure.</p> <p>13 Q. First, I'm going to be asking you a series of</p> <p>14 questions and you're going to be providing me with</p> <p>15 answers, and the court reporter is recording all that is</p> <p>16 said here. Because she can only record all words,</p> <p>17 please be sure to answer each question with a verbal</p> <p>18 answer, as you've been doing so far. Please don't nod</p> <p>19 your head or shake your head. Do you understand?</p> <p>20 A. I do understand.</p> <p>21 Q. And, please, it is helpful if you'd allow me</p> <p>22 to finish my question before you answer, and I will also</p> <p>23 try not to interrupt you since the court reporter cannot</p> <p>24 take both of us down if we're talking at the same time.</p> <p>25 Do you understand?</p>
6	8
<p>1 Mr. Cavaretta, do you understand that you're</p> <p>2 here to testify pursuant to the subpoena that I've</p> <p>3 placed in front of you that's been marked as</p> <p>4 Exhibit 189?</p> <p>5 A. I do.</p> <p>6 Q. And have you had a chance to review the</p> <p>7 subpoena with your counsel?</p> <p>8 A. I don't believe we've reviewed the specifics</p> <p>9 of the subpoena.</p> <p>10 Q. Okay. Did you want to take a minute just to</p> <p>11 review the subpoena?</p> <p>12 A. Yes.</p> <p>13 Q. Okay. You've had a chance to review the</p> <p>14 subpoena?</p> <p>15 A. I've read the subpoena, yes.</p> <p>16 Q. And, Mr. Cavaretta, you've given sworn</p> <p>17 testimony before, correct?</p> <p>18 A. I have.</p> <p>19 Q. How many times?</p> <p>20 A. Three, three times.</p> <p>21 Q. And, briefly, what were the nature of the</p> <p>22 cases that you gave testimony in?</p> <p>23 A. The first one was regarding the TDA case, the</p> <p>24 second one was a follow-up to that, and the third one</p> <p>25 was a competitive recruiting situation.</p>	<p>1 A. I understand.</p> <p>2 Q. If at any time you don't understand my</p> <p>3 question, you can ask me to rephrase my question, and I</p> <p>4 will try my best to do so. Do you understand?</p> <p>5 A. I understand.</p> <p>6 Q. If you need a break at any time, please let me</p> <p>7 know; and as long as there is not a question pending, we</p> <p>8 can accommodate you. Do you understand?</p> <p>9 A. I do.</p> <p>10 Q. Are Mr. McDonald and Mr. Kass representing you</p> <p>11 personally today in these proceedings?</p> <p>12 MR. McDONALD: Yes, we are.</p> <p>13 Q. Okay. Your counsel has answered for you,</p> <p>14 which is fine.</p> <p>15 So the purpose of today's hearing is for me to</p> <p>16 get your side of the story and have you help us</p> <p>17 understand the facts so that the FTC can determine how</p> <p>18 to move forward with this case. Do you understand that?</p> <p>19 A. I do.</p> <p>20 Q. Okay. So could you please just state your</p> <p>21 name for the record.</p> <p>22 A. My name is Joseph Cavaretta.</p> <p>23 Q. And do you currently work at Henry Schein?</p> <p>24 A. I do.</p> <p>25 Q. How long have you worked for Henry Schein?</p>

9

1 A. About 16, 16-and-a-half years.
 2 **Q. Okay. What is your current title?**
 3 A. My current title is vice president of sales
 4 for the Western area.
 5 **Q. How long have you been in that position?**
 6 A. I've been in that position for a little over
 7 two years.
 8 **Q. Did you start in that position in around**
 9 **February of 2015?**
 10 A. That is correct.
 11 **Q. Okay. And what does the Western area consist**
 12 **of?**
 13 A. The Western area consists of, if you could
 14 look at a map, Wisconsin and you went down to Louisiana,
 15 Mississippi, over to Hawaii. So it's, roughly,
 16 two-thirds of the geography of the country.
 17 MR. McDONALD: Just so we have a clear record, I
 18 should have objected. Vague. If you're asking today,
 19 "What does the Western area look like," I think that's
 20 the answer to your question.
 21 MS. GOFF: Okay. Thank you. In the future, would
 22 you object, state your objection for the record, and
 23 that's it.
 24 MR. McDONALD: Well, I'll do what I think I need to
 25 do to protect the record. And I'm sure we're all just

10

1 trying to get the truth. I'm not trying to be
 2 obstructive or anything. So he answered it as of today,
 3 and I think you'd want to know that.
 4 MS. GOFF: Sure. That's fine, and I understand. I
 5 just want to be sure that this is not a pattern we're
 6 going to be going down with you clarifying your
 7 witness's answers.
 8 MR. McDONALD: You know what? I'll do what I think
 9 I need to do, and I'm sure you'll do what you need to
 10 do. So let's just ask the next question. Okay?
 11 MS. GOFF: Okay.
 12 **Q. So, Mr. Cavaretta, in your current position as**
 13 **vice president of sales for the Western area, did you**
 14 **just describe to me what the Western area consists of?**
 15 A. Since 2015, I've described what the Western
 16 area consists of.
 17 **Q. Okay. Thank you. And what are your duties**
 18 **and responsibilities as VP of sales for the Western**
 19 **area?**
 20 A. Currently, I'm responsible for the sales that
 21 happen in the Western area, including operations and
 22 talent management, the hiring and firing.
 23 **Q. What's the distinction between sales and**
 24 **operations?**
 25 A. We have sales representatives specifically

11

1 calling on customers and selling to them face-to-face,
 2 and then we have an operations group with service
 3 technicians and operations managers. That's a pretty
 4 big part of our business that also reports in through
 5 the Western area.
 6 **Q. Okay. Thank you. Who do you report to?**
 7 A. I report to Dave Steck.
 8 **Q. What is his title?**
 9 A. Dave Steck is the vice president and general
 10 manager of Henry Schein Dental.
 11 **Q. What are Mr. Steck's duties, generally, as you**
 12 **understand them?**
 13 A. Both the Western and Eastern area vice
 14 presidents report in to Dave, and he also oversees the
 15 equipment and technology business for Henry Schein
 16 Dental.
 17 **Q. Okay. So is there also a vice president of**
 18 **sales for the Eastern area?**
 19 A. There is.
 20 **Q. And who is that?**
 21 A. That is Jake Meadows.
 22 **Q. Okay. And who does Mr. Steck report to?**
 23 A. Mr. Steck reports to Tim Sullivan.
 24 **Q. How are you compensated as the VP of sales for**
 25 **the Western area?**

12

1 A. I have a salary, and I also have a bonus, in
 2 addition to restricted stock opportunities.
 3 **Q. What is your -- the bonus based on, in your**
 4 **understanding?**
 5 A. The bonus base is based on several things.
 6 One is the performance of the Western area,
 7 specifically; the second is the functional financial
 8 goals of the company; and the third is on our -- an
 9 overall performance of the company as Henry Schein, Inc.
 10 And that's the majority of it.
 11 **Q. When you say "the company," what did you mean**
 12 **by that?**
 13 A. So the functional financial goals has to do
 14 with Henry Schein Dental, specifically.
 15 **Q. Okay. Thank you. And are you employed by**
 16 **Henry Schein Dental or Henry Schein, Inc., or something**
 17 **else?**
 18 A. Well, I'm employed by Henry Schein, Inc., but
 19 I work in Henry Schein Dental.
 20 **Q. Okay. So you said that your bonus is based,**
 21 **in part, on the performance of the Western area?**
 22 A. That is correct.
 23 **Q. And what did you mean by that?**
 24 A. There's certain targets that are set each year
 25 based on sales that the Western area is measured on.

13

15

1 **Q. What were the targets for 2016?**
 2 A. I don't recall, off the top of my head, the
 3 specific targets in 2016.
 4 **Q. Do you have a sense for generally what the**
 5 **targets were?**
 6 A. Sure. It was -- it would have included growth
 7 on merchandise, equipment, and technology. I don't
 8 remember the specific targets though.
 9 **Q. So the targets are not a specific number?**
 10 A. In the way I'm compensated now with the bonus,
 11 which is -- which is a PIP, it's really taking into
 12 consideration all of those components. So the specific
 13 number that I would be targeting, I just don't recall it
 14 off the top of my head.
 15 **Q. Okay. So you said that your bonus is based on**
 16 **the performance of the Western area specifically. And**
 17 **by "performance," do you mean sales performance?**
 18 A. Yes.
 19 **Q. And is there a specific sales target that**
 20 **you're required to meet?**
 21 A. So each year there is a budget that is put
 22 together that I'm responsible for that there is an
 23 expectation on growth in the Western area. I just don't
 24 remember what the growth number was for 2016, off the
 25 top of my head.

1 A. 219,000.
 2 **Q. Do you have any direct reports?**
 3 A. I do.
 4 **Q. How many, approximately?**
 5 A. For 2017?
 6 **Q. Yes, currently.**
 7 A. Okay. Seven.
 8 **Q. Can you please tell me who those direct**
 9 **reports are?**
 10 A. Sure. George Khoury -- I can spell his last
 11 name for you, K-h-o-u-r-y -- Glenn Showgren -- and Glenn
 12 is spelled with two Ns, G-l-e-n-n -- Randall McLemore,
 13 Kevin Upchurch, Darci Wingard, Kathleen Titus, and Betty
 14 Unger.
 15 **Q. Okay. What is Darci Wingard's role?**
 16 A. Darci Wingard is responsible for our new
 17 segment of our business, which is alternative purchasing
 18 channels.
 19 **Q. What does alternative purchasing channels**
 20 **mean?**
 21 A. It's the business that doesn't fall into a
 22 clear-cut box.
 23 **Q. What do you mean by "a clear-cut box"?**
 24 A. Okay. So the industry has changed so quickly,
 25 and there is a lot of overlapping with different

14

16

1 **Q. And can you give me an approximation?**
 2 MR. McDONALD: Object to the form. Vague. You can
 3 answer, if you understand.
 4 A. In merchandise, it would have been, roughly,
 5 2 percent; equipment technology, closer to 9 percent.
 6 **Q. Okay. So the percentage, is that a percentage**
 7 **of growth as compared to the years prior?**
 8 A. That's correct.
 9 **Q. You said that the second thing that your bonus**
 10 **was based on is the functional goals of Henry Schein**
 11 **Dental, correct?**
 12 A. That is correct.
 13 **Q. And what did you mean by the functional**
 14 **financial goals of Henry Schein Dental?**
 15 A. That's part of the bonus process. And each
 16 year there is an expectation of the entire Henry Schein
 17 Dental business to hit certain targets that they set for
 18 us.
 19 **Q. And what types of targets?**
 20 A. They would be around, once again, sales and,
 21 also, profitability.
 22 **Q. And how much of a bonus did you receive in**
 23 **2016?**
 24 A. Roughly, 60,000.
 25 **Q. And then what was your salary for 2016?**

1 businesses, customer businesses. Where before you could
 2 put groups of customers into a DSO or a private practice
 3 and you could segment them out, over the last three or
 4 four years, and definitely over the last couple of
 5 years, those lines have grayed, and it was becoming very
 6 complex to understand and manage that business. So she
 7 is there to help run that business, customer
 8 interaction.
 9 **Q. So is it -- is Ms. Wingard responsible for**
 10 **clients that are neither private practice clients nor**
 11 **DSO clients?**
 12 A. So she's responsible for a group that could be
 13 a combination of both.
 14 **Q. Okay. What kind of group would that be?**
 15 A. So that's where the -- that's where the APC
 16 component comes in. You may have some that are DSO and
 17 some that are private practice. And that's really where
 18 the lines are graying where we couldn't put them into
 19 one segment.
 20 **Q. Does APC, does that refer to alternative**
 21 **purchasing channel?**
 22 A. That is correct.
 23 **Q. Can you give me some examples of what types of**
 24 **clients would fit into the APC channel?**
 25 A. Sure. We have Smile Source, Breakaway,

4 (Pages 13 to 16)

17	<p>1 KlearImpakt. There is a group called Tralongo. And I'm 2 thinking of the things that she's working on right now, 3 and those would be the major ones at the moment. 4 Q. Okay. And what types of organizations are the 5 Smile Source, Breakaway, KlearImpakt, and Tralongo? 6 A. Well, Smile Source is a -- they call 7 themselves a franchise DSO. Breakaway would be a 8 combination of a DSO, MSO, and private practice. 9 KlearImpakt is a buying group. Tralongo I'm not as 10 familiar with, because it's on the East Coast. But they 11 would fall in line with a buying group, also, with an 12 MSO component to it. 13 Q. Okay. So let's define some of these terms. 14 What's a franchise DSO, in your understanding? 15 A. It's a group of individual private practice 16 dentists that are working together to improve their 17 education, improve their profitability, yet Smile Source 18 corporate has no control over the offices or no 19 ownership over the offices. 20 Q. Okay. What about Breakaway; that, you say, is 21 a DSO plus MSO plus private practice? First, what does 22 DSO stand for? 23 A. Dental services organization. 24 Q. And MSO? 25 A. Management services organization.</p>	19	<p>1 ownership? 2 A. They have all three. 3 Q. What do you mean by that? 4 A. They have a DSO component where they have 5 ownership of offices, they have an MSO component where 6 they have some equity, but they -- or they're 7 contracted, on a consulting basis, and they have private 8 practices that are being recruited to potentially be 9 part of Breakaway. 10 Q. Okay. And then you said KlearImpakt is a 11 buying group. What's your understanding of what a 12 buying group is? 13 A. So the buying group is a group of a customer 14 that brings a specific value to the doctors that they're 15 working with, whether it's education or helping them 16 grow their practice. But there is no ownership, and 17 they call themselves a buying group. 18 Q. So a buying group does not have a centralized 19 ownership? 20 A. That is correct. 21 Q. Do they have centralized purchasing? 22 A. So in the two groups I mentioned, Breakaway is 23 the only one that has some centralized purchasing on the 24 offices that they own. 25 Q. Okay. So you said that you supervise Darby</p>
18	<p>1 Q. Okay. So what is a DSO? 2 A. So a DSO, historically, that term has been 3 used to explain that there is one owner of several 4 practices. 5 Q. Is that what the -- what your understanding 6 is -- strike that. 7 Is that your understanding of the meaning 8 today? 9 A. That is my understanding of the meaning today. 10 Q. Okay. What about an MSO? 11 A. An MSO is a manager services organization 12 where they may have equity ownership in some practices, 13 they may not, but they provide services to the practices 14 that sign up to join the MSO group. 15 Q. What's the distinction between the franchise 16 DSO and an MSO? 17 A. There is no equity ownership. So Smile Source 18 does not have any equity ownership in the practices that 19 sign up to work with Smile Source, where some of the 20 MSOs have equity ownership as practices. 21 Q. So MSOs, in some cases, may have centralized 22 ownership, and, in some cases, they may not? 23 A. That's correct. 24 Q. And what about for Breakaway; what's your 25 understanding of whether they have centralized</p>	20	<p>1 {sic} Wingard? 2 A. Darci, yes. 3 Q. Darci Wingard. Thank you. 4 Does she report solely to you, or does she 5 report to anyone else? 6 A. She reports solely to me, but she does 7 collaborate with others within the organization. 8 Q. Okay. The reason why I'm asking is because 9 you mentioned that one of her clients, Tralongo, is 10 mostly on the East Coast, but you are the director, the 11 VP of sales, for the Western area. So I was curious how 12 it came about that Darci would be in charge of that 13 particular entity, Tralongo, when it's on the East 14 Coast? 15 A. In 2016, she reported to Brian Brady, and she 16 was responsible for the entire country. In 2017 is when 17 the change in reporting was made, and she's currently 18 transitioning the Eastern area relationships to someone 19 named Matt Woodend. 20 Q. So once that transition is complete, Tralongo 21 will be within Matt Woodend's sort of area? 22 A. That's the plan. 23 Q. Can you spell Mr. Woodend's last name? 24 A. Yes. W-o-o-d-e-n-d. 25 Q. Thank you. When was Ms. Wingard hired?</p>

21	<p>1 A. I don't remember the exact month, but it was 2 prior to 2016. So it would have been -- oh, you know 3 what? It would have been, I believe, May of 2015.</p> <p>4 Q. And was she hired specifically to handle 5 clients that are the alternative purchasing -- in the 6 alternative purchasing channels?</p> <p>7 A. Well, we didn't have that name yet. We just 8 knew that, as I was explaining everything to you, things 9 were getting complicated and complex, and we needed help 10 in understanding where the industry was going. So we 11 hired her, one, because she was a talented individual, 12 and, two, we knew we needed help there. So it has been 13 cultivated over time, her position.</p> <p>14 Q. Where did Ms. Wingard work before she came to 15 Schein?</p> <p>16 A. She worked for a company called Demandforce 17 that was then purchased by Intuit.</p> <p>18 Q. And what does Demandforce do?</p> <p>19 A. They're an electronic recall system. So if 20 you go to your dentist and get a text message, if they 21 were confirming your appointment, hit one, that would be 22 the easiest way to explain, hit one to confirm your 23 appointment.</p> <p>24 Q. Did Ms. Wingard have any experience in the 25 dental industry before coming to Schein?</p>	23	<p>1 Q. Okay. So what experience did Ms. Wingard have 2 in working with group practices?</p> <p>3 A. I don't know exactly what she did, on a 4 day-to-day basis, at Demandforce. She was our corporate 5 contact to Demandforce.</p> <p>6 Q. And so tell me a little bit more about what 7 she did at Demandforce.</p> <p>8 A. She was responsible for the sales team at 9 Demandforce. They're located in the Bay Area. So my 10 interaction with her was meetings, shows.</p> <p>11 Q. Did you hire her?</p> <p>12 A. I was part of the hiring process. I don't 13 know if -- I don't believe I was the one who hired her 14 directly.</p> <p>15 Q. Who was the person that you would say hired 16 her?</p> <p>17 A. Well, she reported to Brian, so Brian would 18 have been, I believe, the person ultimately who hired 19 her.</p> <p>20 Q. We'll come back to Mr. Brady later. But I 21 just wanted to go back to your direct reports and just 22 get their titles.</p> <p>23 A. Sure.</p> <p>24 Q. So you said Mr. Glenn Showgren. Is he the 25 California zone manager?</p>
22	<p>1 A. Yes, she did.</p> <p>2 Q. What was her experience?</p> <p>3 A. As far as how many years had she worked for 4 Demandforce, Demandforce/Intuit.</p> <p>5 Q. So you consider Demandforce to be a 6 dental-type company?</p> <p>7 A. They have several different verticals, but 8 Darci was responsible for -- was the person we were 9 working with on the Demandforce Dental end of things.</p> <p>10 Q. Did Ms. Wingard have any experience with these 11 alternative-purchasing-channels-type companies prior to 12 coming into Schein?</p> <p>13 A. Yes. She knew who Smile Source was. And the 14 other groups that I mentioned, I don't believe she knew 15 who they were.</p> <p>16 Q. Other than knowing who Smile Source was, did 17 she have any specific work experience dealing with 18 alternative-purchasing-channels-type companies?</p> <p>19 A. So we defined alternative purchasing channels, 20 so, at the time, she did work with group practices. So, 21 yes. But that term did not exist until recently, the 22 APCs.</p> <p>23 Q. So before that, did you just refer to those 24 types of companies as group practices?</p> <p>25 A. Yes.</p>	24	<p>1 A. He is.</p> <p>2 Q. Okay. Mr. Kevin Upchurch, is he the Western 3 Pacific zone manager?</p> <p>4 A. He is.</p> <p>5 Q. Randall McLemore, is he the Southern zone 6 manager?</p> <p>7 A. He is.</p> <p>8 Q. And George Khoury, is he the North Central 9 zone manager?</p> <p>10 A. He is.</p> <p>11 Q. Okay. And what's Kathleen Titus' title?</p> <p>12 A. She is the director of group practices.</p> <p>13 Q. Is she the director of group practices for the 14 entire Western area?</p> <p>15 A. She is now, currently, yes.</p> <p>16 Q. Okay. Did you used to supervise someone named 17 Andrea Hight?</p> <p>18 A. I did.</p> <p>19 Q. And what happened to Ms. Hight?</p> <p>20 A. Ms. Hight went to our community health center 21 space, and she took on a national role. And she now 22 reports to Brian.</p> <p>23 Q. And is Ms. Unger, Betty Unger, your assistant?</p> <p>24 A. She is.</p> <p>25 Q. Let's talk about the general job duties for</p>

25	<p>1 the zone managers. Just generally, what do zone</p> <p>2 managers do?</p> <p>3 A. Zone managers, in their area of</p> <p>4 responsibility, are responsible for the sales, the</p> <p>5 operations. There is a profitability P&L component.</p> <p>6 Q. And do zone managers work solely with private</p> <p>7 practices?</p> <p>8 A. No. No. There is -- there is a lot of</p> <p>9 crossover. So they work with private practice.</p> <p>10 Q. And what else?</p> <p>11 A. Group practice space.</p> <p>12 Q. Okay. What about the director of group</p> <p>13 practice, Ms. Titus, what are her general job duties?</p> <p>14 A. So Kathleen has regional account managers</p> <p>15 reporting to her, so she manages the sales team and she</p> <p>16 is responsible for growing our midmarket space.</p> <p>17 Q. That's her current position, her current</p> <p>18 responsibilities?</p> <p>19 A. Her current responsibilities.</p> <p>20 Q. And what's the midmarket space?</p> <p>21 A. The midmarket space, we defined that a few</p> <p>22 years ago. It's offices that have multiple offices,</p> <p>23 whether it's defined as two or three, on the low end, to</p> <p>24 ten to 25 on the high end.</p> <p>25 Q. So somewhere in between a private practice and</p>	27	<p>1 A. Sure. So "group practice" is historically</p> <p>2 multiple practices. And a few years ago we had to</p> <p>3 define the different levels of group practice because we</p> <p>4 had the elite group, the corporate group practices, and</p> <p>5 then we had a middle tier group, which we called</p> <p>6 midmarket, which they still wanted reps calling on their</p> <p>7 accounts. They wanted to be private practice in some</p> <p>8 way. And it was --</p> <p>9 (Reporter coughing.)</p> <p>10 THE REPORTER: I'm sorry. I'm sorry.</p> <p>11 MR. McDONALD: Just stop a minute.</p> <p>12 (Brief pause.)</p> <p>13 A. So we had a group of middle group practices</p> <p>14 that were starting up and being created, and it was a</p> <p>15 growing trend in the industry. And we realized that the</p> <p>16 offering we were doing in elite and the offering we were</p> <p>17 offering in the private practice space was not jiving</p> <p>18 with the segment of customers. And, of course, they</p> <p>19 were going across regional lines, so we had to figure</p> <p>20 something out to take care of this customer base, and,</p> <p>21 hence, we created the midmarket.</p> <p>22 Q. What's the distinction between Ms. Titus' job</p> <p>23 and Ms. Wingard's job? And, specifically, what's the</p> <p>24 distinction between the clientele that each of them</p> <p>25 serve?</p>
26	<p>1 a DSO?</p> <p>2 A. An elite DSO, correct.</p> <p>3 Q. What's an elite DSO?</p> <p>4 A. So an elite DSO is when they get to 50 offices</p> <p>5 or more.</p> <p>6 Q. Okay.</p> <p>7 A. It becomes a corporate relationship.</p> <p>8 Q. And is "elite DSO" a term that's specific to</p> <p>9 Henry Schein, or is that just a common term in the</p> <p>10 dental industry, in general?</p> <p>11 A. It's a term that Henry Schein created. And</p> <p>12 depending -- I don't know exactly who uses it. I know</p> <p>13 our manufacturers, when they're talking to us, use our</p> <p>14 language.</p> <p>15 Q. Okay. Does Ms. Titus, is she responsible for</p> <p>16 any group practice accounts?</p> <p>17 A. Specifically, directly?</p> <p>18 Q. Yes.</p> <p>19 A. So the midmarket reports up through her, so</p> <p>20 the regional account manager and the sales</p> <p>21 representatives that work those accounts with their team</p> <p>22 in the field.</p> <p>23 Q. So let's define what "group practice" means.</p> <p>24 Can you explain how you've been using the term "group</p> <p>25 practice"?</p>	28	<p>1 A. So in the midmarket space, the practices are</p> <p>2 owned wholly by one person, a group of persons, or PE</p> <p>3 money. There is definitely an owner and an operator of</p> <p>4 the groups. In the APC world, there is either not an</p> <p>5 owner or there is multiple layers to the group that we</p> <p>6 can't cover with the elite team, the midmarket team, or</p> <p>7 the private practice team alone -- that's what I was</p> <p>8 talking about in a box -- and so, hence, we needed</p> <p>9 someone to be the key account manager on those accounts</p> <p>10 and help us work with that, the business.</p> <p>11 Q. Okay. Has Ms. Titus' job duties and the</p> <p>12 clients that she works with as director of group</p> <p>13 practices, has that changed throughout the years?</p> <p>14 A. Can you define "period of time"?</p> <p>15 Q. How long has Ms. Titus worked for you?</p> <p>16 A. She has worked for me for, roughly, four</p> <p>17 years.</p> <p>18 Q. And I know you had a different job before you</p> <p>19 were the VP of the Western area. We'll get to that</p> <p>20 later.</p> <p>21 But during the time that Ms. Titus worked for</p> <p>22 you, has the clients that she has serviced changed at</p> <p>23 all?</p> <p>24 A. She's always been responsible for the</p> <p>25 midmarket space, and the only thing I would say is the</p>

1 industry was changing more so than her responsibility
 2 was changing.
 3 **Q. So, at some point, was she -- before**
 4 **Ms. Wingard was hired, was Ms. Titus responsible for the**
 5 **APC-type clients?**
 6 A. She wasn't actually responsible for them. She
 7 was helping -- we didn't have anybody responsible for
 8 them. And she was helping me talk to the customers, ask
 9 the proper questions of the customers, learn more about
 10 the customers. So that's -- she was doing it in
 11 addition to her actual responsibilities.
 12 **Q. Okay. So prior to when Ms. Wingard was hired**
 13 **in May of 2015, you did not have anyone working for you**
 14 **that was dedicated to the APC-type customers?**
 15 A. That is correct.
 16 **Q. In your current position as VP of sales for**
 17 **the Western area, how frequently do you travel?**
 18 A. Several times a month.
 19 **Q. What do you typically travel for?**
 20 A. We have major shows. We have a national sales
 21 meeting. I will travel to see certain customers. And
 22 then I'll -- the majority of when I go in the field is
 23 to meet with our local teams.
 24 **Q. And where do you currently reside? What city**
 25 **and state?**

1 **Western area, was there someone else in that position?**
 2 MR. McDONALD: Object to the form.
 3 A. No. That position did not exist.
 4 **Q. Thank you. So other than having one less zone**
 5 **as the area director, one less zone than you currently**
 6 **have as VP of sales, were there any other duties that**
 7 **differed in your current position as the -- sorry.**
 8 **Were there any other duties that differed in**
 9 **your current position as the VP of sales for the Western**
 10 **area from your duties as area director?**
 11 A. Other than a percentage of time spending in
 12 certain areas and visibility, it's pretty much very
 13 similar.
 14 **Q. I know you said that, as area director, you**
 15 **were not responsible for George Khoury. Did you have**
 16 **any other -- any additional direct reports that you were**
 17 **responsible for as area director?**
 18 A. Yes.
 19 **Q. Who were they?**
 20 A. So the periods of time differ because some
 21 people reported to me at certain times and others
 22 didn't. So Steve Arend would have reported to me, Jedd
 23 Carter, Maritza Alford. Part of the time -- a part of
 24 the time Rob Hewlett. We mentioned Andrea Hight. I
 25 believe that's it.

1 A. Oconomowoc, Wisconsin.
 2 **Q. Where is your office?**
 3 A. West Allis, Wisconsin.
 4 **Q. Okay. So prior to your role as VP of sales**
 5 **for the Western area, were you the area director for the**
 6 **Western area?**
 7 A. I was.
 8 **Q. And when were you in that position?**
 9 A. 2013 to 20-- February of 2015.
 10 **Q. Do you know when in 2013 you started?**
 11 A. I don't know. I don't recall the exact month.
 12 **Q. Was it in early 2015 -- I mean, early 2013?**
 13 A. Yes.
 14 **Q. Yes?**
 15 A. Yes.
 16 **Q. And what were your duties and responsibilities**
 17 **as the area director?**
 18 A. Similar to what I do now, except I had one
 19 less zone. I was not responsible for George Khoury's
 20 zone, the North Central zone.
 21 **Q. Okay. Did you consider your position, as the**
 22 **VP of sales for the Western area, to be a promotion from**
 23 **when you were the area director?**
 24 A. That was a promotion.
 25 **Q. Prior to you becoming the VP of sales for the**

1 **Q. Okay.**
 2 MR. McDONALD: Well, and, Karen, are you asking
 3 him -- he previously told you about managers. There are
 4 some that changed during the time period. Are you
 5 asking that, too, just so he's clear?
 6 MS. GOFF: Yeah. I'll follow up.
 7 **Q. So when you were the area director from 2013**
 8 **to 2015, have we discussed all of your direct reports?**
 9 **Have you named all of your direct reports?**
 10 MR. McDONALD: Object to the form.
 11 THE REPORTER: I'm sorry. I didn't hear you.
 12 MR. McDONALD: Objection to the form. Go ahead.
 13 **Q. Let me retract that.**
 14 **Okay. So as area director, I'm going to**
 15 **attempt to name the direct reports we've discussed so**
 16 **far. And if there are additional direct reports, please**
 17 **let me know.**
 18 A. Okay.
 19 **Q. Glenn Showgren, Kevin Upchurch, Randall**
 20 **McLemore, Kathleen Titus, Steve Arend, Jedd Carter,**
 21 **Maritza Alford, Rod Hewlett --**
 22 A. Hewlett.
 23 **Q. -- Andrea Hight?**
 24 A. So at the time I was area director, Dean Kyle
 25 was the Southern zone manager; and for a short period of

33

1 time, Jake Meadows was the Northwest zone manager.

2 **Q. Okay. So Mr. Kyle and Mr. Meadows, at some**
3 **period of time when you were area director, reported to**
4 **you?**

5 A. That's correct.

6 **Q. Okay. When did Mr. Dean Kyle leave the**
7 **position of Southern zone manager; do you know,**
8 **approximately?**

9 A. That would have been the end of '14.

10 **Q. Okay. And then Mr. Randall McLemore took his**
11 **place?**

12 A. That's correct.

13 **Q. Briefly, what were Mr. Steve Arend's -- what**
14 **was his job title?**

15 A. So Rod Hewlett and Steve Arend did the same
16 job, just to help out with the questions. They were the
17 director of equipment sales. And they were doing --
18 they each had two zones, and they were helping with
19 getting the marketing pieces out on equipment, help
20 onboard new sales reps, and then help execute new
21 equipment programs in the field.

22 **Q. What about Jedd Carter; what was his job**
23 **title?**

24 A. Jedd and Maritza would have been the same, and
25 they were directors of CAD/CAM, at that time, and they

34

1 were responsible for digital impressing CAD/CAM
2 systems.

3 **Q. How were you compensated as area director?**

4 A. Similar; a salary and a bonus, which is called
5 the PIP, and then restricted stock.

6 **Q. What is the bonus called?**

7 A. Our -- when you are promoted to -- like our
8 zone managers, also, it turns from an MBO to a PIP. So
9 it's performance incentive program.

10 **Q. And what's MBO?**

11 A. An MBO is manager by objective.

12 **Q. Okay. Prior to your role as area director,**
13 **were you the Western zone manager?**

14 A. I was.

15 **Q. Was that from around 2009 to 2013?**

16 A. Yes, it was.

17 **Q. What did the Western zone consist of?**

18 A. The Western zone consisted of LA, Orange
19 County, San Diego, Hawaii, Arizona, Las Vegas, Utah,
20 and, at the very end, Idaho.

21 **Q. And what were your duties and**
22 **responsibilities, generally, in that position?**

23 A. Similar to zone manager today; sales,
24 operations, hiring team members, customer interaction.

25 **Q. Where did you live when you were the Western**

35

1 **zone manager?**

2 A. In Wisconsin.

3 **Q. And did you have direct reports as the Western**
4 **zone manager?**

5 A. I did.

6 **Q. I don't need you to name all of them; but what**
7 **were their general job duties, the direct reports?**

8 A. They were called regional managers. And they
9 were very close to the field working with the sales
10 representatives on a daily basis, calling on customers,
11 managing the equipment business.

12 **Q. Thank you. And was your compensation, as the**
13 **Western zone manager, similarly a salary plus bonus?**

14 A. It was.

15 **Q. Have you held any other positions at Henry**
16 **Schein?**

17 A. I have.

18 **Q. Can you briefly go through them for me?**

19 A. Would you like me to start from the time I
20 started with Henry Schein, or --

21 **Q. Yes, please. And then going up through to**
22 **Western zone manager?**

23 A. Sure. So 2001 to 2004, I was the regional
24 manager for Arizona and Las Vegas; in 2004 to 2006, I
25 was the regional manager for Long Island, New York; and

36

1 then 2006 to 2009, I was the director of sales for Henry
2 Schein Dental.

3 **Q. What were your job duties as director of sales**
4 **for Henry Schein Dental?**

5 A. It was a new position, so it was
6 understanding, creating a position. What it's turned
7 into was manufacture relations, launching sales
8 programs, educating our leadership team, putting
9 programs together to help grow the business.

10 **Q. And that was you were the director of sales**
11 **for all of Henry Schein Dental?**

12 A. That's correct.

13 **Q. Did you consider your job following that, the**
14 **Western zone manager, to be a promotion?**

15 A. I did.

16 **Q. Okay. Any other positions at Henry Schein**
17 **that we haven't discussed?**

18 A. No.

19 **Q. Prior to working at Henry Schein, did you work**
20 **at Patterson Dental?**

21 A. I did.

22 **Q. From around 1997 to 2001?**

23 A. That's correct.

24 **Q. And what was your position at Patterson**
25 **Dental?**

37

1 A. I started out there in customer service and
2 then operations. I was the operations manager, and then
3 I went into equipment sales.

4 **Q. Okay. Do you keep in touch with anyone at
5 Patterson Dental?**

6 A. Every once in a while, I'll see them at a
7 state show. And there is a gentleman named John Girkin
8 who, maybe once a year, will send me a Merry Christmas
9 message.

10 **Q. What does Mr. Girkin do at Patterson Dental?**

11 A. He's a field sales rep.

12 **Q. And you worked with Mr. Girkin when you were
13 at Patterson Dental?**

14 A. I did.

15 **Q. Okay. Did you attend college?**

16 A. I did.

17 **Q. Where did you go?**

18 A. Cortland State University.

19 **Q. And did you obtain a degree?**

20 A. I did.

21 **Q. In what?**

22 A. Business administration and communication.

23 **Q. When did you graduate?**

24 A. In '95.

25 **Q. What did you do after college and before you**

38

1 **went to Patterson Dental?**

2 A. I was the -- I was responsible for Children's
3 Hospital of Buffalo Dental Clinic.

4 **Q. So going back to your current position as VP
5 of sales for the Western area, how frequently do you
6 interact with Mr. Tim Sullivan?**

7 MR. McDONALD: Object to the form.

8 A. There is not a routine pattern. There's weeks
9 I may see him once or twice, and then there's weeks I
10 don't see him at all.

11 **Q. Do you and Mr. Sullivan work in the same
12 office building?**

13 A. We do.

14 **Q. And I don't think I asked you this earlier,
15 but what is Mr. Sullivan's title?**

16 A. He's president of North America for Henry
17 Schein Dental.

18 **Q. So how frequently do you e-mail Mr. Sullivan?**

19 MR. McDONALD: Object to the form.

20 A. It varies.

21 **Q. Are there particular subjects on which you
22 e-mail Mr. Sullivan more frequently?**

23 MR. McDONALD: Object to the form.

24 A. If there is something impacting a current team
25 Schein member, I'll make sure he knows. If we are

39

1 working on a deal, I -- most of the time it's -- many
2 times it's FYIs so he's aware. There's times where it's
3 an update on how the business in the Western area is
4 going.

5 **Q. You said that if you're working on a deal,
6 sometimes you'll make sure that Mr. Sullivan is aware.
7 What did you mean by "working on a deal"?**

8 A. Well, the industry dynamic is changing and us
9 talking to certain customers using the explanation that
10 I went through with you earlier on DSOs, MSOs,
11 complexity of the business. It was --

12 (Reporter coughing.)

13 THE REPORTER: I'm sorry. It was?

14 A. The complexities of the business, it just --
15 if we were talking to a customer, using a customer as an
16 example, I would make him aware of that.

17 **Q. So, specifically, in the APC area, you would
18 make Mr. Sullivan aware?**

19 A. I did make Mr. Sullivan aware of Smile Source,
20 specifically.

21 **Q. Understood. But, generally, are you more
22 likely to make Mr. Sullivan aware of things that are
23 going on in the APC space as opposed to in the private
24 practice space?**

25 MR. McDONALD: Object to form.

40

1 A. In my communication with him, I can't say
2 there is a trend of communicating with him more on that
3 side of the business than other parts of the business.

4 **Q. Okay. As VP of sales for the Western region,
5 is it fair to say that you have authority to make
6 certain decisions?**

7 A. Yes.

8 **Q. And are there other decisions that you need to
9 escalate to Mr. Steck or Mr. Sullivan?**

10 A. Correct.

11 **Q. What types of decisions would you need to
12 escalate?**

13 A. It's not specifically in writing. But if
14 there is a decision that's maybe made that's going to
15 impact the company from coast to coast or if they were
16 sitting in front of their direct report, or the people
17 they report to directly, I would make sure they're aware
18 of what's going on and ask for guidance or let them know
19 what decision I'm leaning towards.

20 **Q. What about in the APC space? Do you need to
21 escalate a decision with whether to work with a new APC
22 client to either Mr. Sullivan or Mr. Steck?**

23 A. I don't necessarily have to. But when we are
24 bringing on a group that's national, I do want to make
25 sure there is -- we're collaborating with several people

10 (Pages 37 to 40)

41	<p>1 so they understand what's going on.</p> <p>2 Q. So do you generally escalate decisions about</p> <p>3 whether to work with a new APC client to Mr. Sullivan?</p> <p>4 A. I'm just thinking of a new APC customer that</p> <p>5 we'd be working on right now that -- I wouldn't let him</p> <p>6 know where we're heading unless there is an objection, a</p> <p>7 concern, a flag thrown, then we'd slow down and stop.</p> <p>8 Q. Okay. Do you prepare any reports for</p> <p>9 Mr. Sullivan, any regular reports for him?</p> <p>10 A. I don't.</p> <p>11 Q. Do you have any regularly scheduled meetings</p> <p>12 with Mr. Sullivan?</p> <p>13 A. We've recently started just going around the</p> <p>14 Western area and giving an update. It's historically</p> <p>15 been verbal.</p> <p>16 Q. And that's an update to Mr. Sullivan?</p> <p>17 A. And Mr. Steck.</p> <p>18 Q. Okay. And how frequently do you give those</p> <p>19 updates?</p> <p>20 A. Once a quarter.</p> <p>21 Q. And what type of information do you provide to</p> <p>22 Mr. Steck and Mr. Sullivan in those updates?</p> <p>23 A. Trends happening in the Western area, how</p> <p>24 certain teams are performing in the area, any hot topics</p> <p>25 they should be aware of, and I'll give compliments to</p>	43	<p>1 A. Dave has a senior sales meeting once a month.</p> <p>2 Q. What happens at the senior sales meeting?</p> <p>3 A. It's the -- his direct reports go around the</p> <p>4 room for an hour-and-a-half, and we just update the team</p> <p>5 on what's going on in the business, just with respect to</p> <p>6 all business.</p> <p>7 Q. Are there any agendas prepared for that</p> <p>8 meeting?</p> <p>9 A. Yes.</p> <p>10 Q. Who prepares them?</p> <p>11 A. Dave's admin, Tay.</p> <p>12 Q. And how long has Mr. Steck been holding the</p> <p>13 senior sales meetings once a month?</p> <p>14 A. Roughly, two years.</p> <p>15 Q. So about as long as you've been in the</p> <p>16 position of VP of sales for the Western region?</p> <p>17 A. I would say that's accurate.</p> <p>18 Q. And are any notes taken during those meetings?</p> <p>19 A. There is not a designated person to take</p> <p>20 notes.</p> <p>21 Q. Do you take notes during those meetings?</p> <p>22 A. I do not.</p> <p>23 Q. And then -- strike that.</p> <p>24 MS. GOFF: I think now is a good place to stop. If</p> <p>25 you'd like, I can keep going.</p>
42	<p>1 certain individuals that they need to be aware of.</p> <p>2 Q. And you said that those updates are typically</p> <p>3 oral?</p> <p>4 A. That's correct.</p> <p>5 Q. Are there any notes taken or agendas prepared?</p> <p>6 A. I don't prepare an agenda or personally take</p> <p>7 notes on it.</p> <p>8 Q. Is there anyone in the meetings that is</p> <p>9 designated to take notes?</p> <p>10 A. No. Can I also add a 6X6? We do a 6X6 with</p> <p>11 Tim.</p> <p>12 Q. Okay. What is a 6X6?</p> <p>13 A. It's we give him an update on the six things</p> <p>14 we're working on in the upcoming six weeks.</p> <p>15 Q. Okay. And with regard to Mr. Steck, how</p> <p>16 frequently do you interact with Mr. Steck?</p> <p>17 MR. McDONALD: Object to the form.</p> <p>18 A. Once again, it depends on the week. It</p> <p>19 depends on the month. I would say, on average, once or</p> <p>20 twice a week.</p> <p>21 Q. So more frequently than with Mr. Sullivan?</p> <p>22 A. Yes.</p> <p>23 Q. Okay. And do you have regular meetings with</p> <p>24 Mr. Steck aside from the ones that we've already</p> <p>25 discussed where it's with Mr. Sullivan and Mr. Steck?</p>	44	<p>1 MR. McDONALD: It's up to you, Joe.</p> <p>2 THE WITNESS: I'm good.</p> <p>3 MS. GOFF: Okay. We'll keep going.</p> <p>4 Q. Can you describe Henry Schein's business, just</p> <p>5 generally? I'm specifically speaking on the dental</p> <p>6 side.</p> <p>7 A. We sell merchandise, equipment, technology,</p> <p>8 software, business solutions. It's what we refer to as</p> <p>9 the wheel.</p> <p>10 Q. And when you say "merchandise," do you mean</p> <p>11 dental supplies?</p> <p>12 A. I do.</p> <p>13 Q. And "equipment" is just dental equipment?</p> <p>14 A. Chairs, stools, lights.</p> <p>15 Q. Does Henry Schein manufacture any of the</p> <p>16 dental supplies or equipment that it sells?</p> <p>17 MR. McDONALD: Object to the form.</p> <p>18 A. Not that I'm aware of.</p> <p>19 Q. Does it have what's called a private label</p> <p>20 product?</p> <p>21 A. We do.</p> <p>22 Q. And what is that?</p> <p>23 A. A private label product is on dental supplies</p> <p>24 where, when it's shipped to a customer, it's the Henry</p> <p>25 Schein brand on the box and then whoever is</p>

45

1 manufacturing it for us.
 2 **Q. But someone else manufacturers it?**
 3 A. As far as --
 4 MR. McDONALD: Hang on. Object to the form.
 5 A. As far as I know.
 6 **Q. And other than private label products, Schein**
 7 **also distributes products under the name of the**
 8 **manufacturer?**
 9 A. Yes.
 10 **Q. Do you know what percentage of Schein's annual**
 11 **sales are attributable to the private label products as**
 12 **opposed to the manufacture of products?**
 13 MR. McDONALD: Object to form. Foundation.
 14 A. I don't specifically know the percentage.
 15 MR. McDONALD: Can we agree when you say "Schein,"
 16 you mean Henry Schein Dental?
 17 MS. GOFF: Sure.
 18 **Q. You don't know the percentage?**
 19 A. I don't know the specific percentage, no.
 20 **Q. Okay. Which manufacturers does Schein work**
 21 **with the most?**
 22 MR. McDONALD: Object to the form.
 23 **Q. If you know.**
 24 A. I would say that we work with -- we work with
 25 them all. Are you looking for --

46

1 **Q. I don't know. Can you give me the top five?**
 2 A. 3M, Dentsply -- this is dental supplies?
 3 **Q. Correct.**
 4 A. 3M, Dentsply, Kerr.
 5 **Q. And do those manufacturers typically also sell**
 6 **to other companies like Henry Schein?**
 7 A. Yes.
 8 **Q. Okay. Do you consider Henry Schein to be a**
 9 **dental distributor?**
 10 A. Henry Schein Dental, yes, is a dental
 11 distributor.
 12 **Q. Okay. Are you familiar with the term "full**
 13 **service distributor" as it's used in the dental**
 14 **industry?**
 15 A. I've heard that term, yes.
 16 **Q. What does it mean to you?**
 17 A. Full service is, when you look at the wheel of
 18 Henry Schein, you're able to offer all of the different
 19 segments of the business to a customer, which includes
 20 integrating technology, business solutions, servicing
 21 equipment, which is a huge piece of it, dental supplies,
 22 equipment, design, designing offices, consulting.
 23 **Q. And so would you consider Henry Schein Dental**
 24 **to be a full-service dental distributor?**
 25 A. Yes.

47

1 **Q. Okay. Do you consider Patterson Dental to be**
 2 **a full-service dental distributor?**
 3 A. They don't have all of the components we do,
 4 but I would consider them full service.
 5 **Q. Okay. What about Benco?**
 6 A. I would -- once again, they don't have
 7 everything we have, but I would say they are full
 8 service.
 9 **Q. Okay. And are you familiar with the term**
 10 **"national distributor" as it's used in the dental**
 11 **industry?**
 12 A. I've heard of the term "national distributor."
 13 **Q. And what does it mean to you?**
 14 A. A national distributor would have a presence
 15 from coast to coast.
 16 **Q. And Schein Dental is a national distributor?**
 17 A. Yes, we are.
 18 **Q. What about Patterson?**
 19 A. Yes, they are.
 20 **Q. And Benco?**
 21 A. I believe they are, yes.
 22 **Q. Would you consider Darby to be a national**
 23 **distributor?**
 24 A. They would be -- they would be a national
 25 telesales company.

48

1 **Q. And what about Burkhardt; would you consider**
 2 **them to be a national distributor?**
 3 A. No. They are regional.
 4 **Q. What about Burkhardt in terms of a full-service**
 5 **director?**
 6 A. In their regional area of responsibility, they
 7 don't have, again, all components; but they would have
 8 full service because they have a service team.
 9 **Q. So would you consider Burkhardt to be a**
 10 **full-service distributor?**
 11 MR. McDONALD: Object to the form.
 12 A. I would consider Burkhardt to be full service,
 13 regional.
 14 **Q. Okay. And what about Darby; would you**
 15 **consider them to be full service?**
 16 A. No.
 17 **Q. Why not?**
 18 A. Because they just do telesales. They don't
 19 offer services, technology, business solutions.
 20 THE REPORTER: I'm sorry. Technology?
 21 A. And business solutions.
 22 **Q. Okay. Let's talk a little bit about the**
 23 **organizational structure at -- I'd actually like to talk**
 24 **about the organizational structure at Henry Schein, so**
 25 **not specific to Henry Schein Dental.**

49	<p>1 Can you tell me how the sales department is</p> <p>2 organized at Henry Schein?</p> <p>3 MR. McDONALD: Object to the form. No foundation.</p> <p>4 A. The sales department for Henry Schein, Inc.,</p> <p>5 is what you're asking?</p> <p>6 Q. Let's start with that.</p> <p>7 MR. McDONALD: Same objection.</p> <p>8 Q. If you know.</p> <p>9 A. I know Henry Schein Dental.</p> <p>10 Q. Okay. So tell me about the sales structure at</p> <p>11 Henry Schein Dental.</p> <p>12 A. Okay. So the reporting structure of how it</p> <p>13 reports through it?</p> <p>14 Q. Yes.</p> <p>15 A. So we have sales reps, which we call FSCs.</p> <p>16 They sell dental supplies, and they're the generalist.</p> <p>17 We have equipment specialists that we call ESSs. We</p> <p>18 have technology specialists, which we call DTSSs. We</p> <p>19 have an operations team. And with our service techs, we</p> <p>20 call them ETSSs.</p> <p>21 We have various different specialized groups.</p> <p>22 We have the RAMs, which I was talking about in the group</p> <p>23 practice space, the midmarket space. All of these</p> <p>24 individuals report to the regional managers, who then</p> <p>25 report to zone managers, who then report to the vice</p>	51	<p>1 crossover. It requires collaboration with customer</p> <p>2 segmentation; but the special markets division does not</p> <p>3 report through Henry Schein Dental.</p> <p>4 Q. So is the special markets division -- would</p> <p>5 you consider them to be in the Henry Schein, Inc.</p> <p>6 company, part of that company?</p> <p>7 A. Yes.</p> <p>8 Q. Henry Schein Dental is also part of Henry</p> <p>9 Schein, Inc., correct?</p> <p>10 A. Correct.</p> <p>11 Q. And the special markets division, what do they</p> <p>12 do?</p> <p>13 MR. McDONALD: Object to form. Go ahead.</p> <p>14 A. The special markets division, they call on the</p> <p>15 majority of the elite corporate group accounts, and</p> <p>16 those were the ones we were referring to. Historically,</p> <p>17 there are 50-plus more practices. And their sales</p> <p>18 representatives are called SAMs. It's strategic account</p> <p>19 managers is what a SAM is. And they historically meet</p> <p>20 with the C-suite of the groups; the CEO, the CFO.</p> <p>21 Q. Okay. Thank you. I'd like to talk a little</p> <p>22 bit about price for dental supplies and equipment. Are</p> <p>23 you knowledgeable about how Henry Schein Dental sets the</p> <p>24 prices for its supplies and equipment, generally?</p> <p>25 A. I'm not responsible for that, and I couldn't</p>
50	<p>1 president, report to Dave and to Tim.</p> <p>2 Q. Okay. Thank you. What are the RAMs?</p> <p>3 A. Those are the regional account managers. And</p> <p>4 they actually, in the west, report to Kathleen and, in</p> <p>5 the east, report to Marcy Roy.</p> <p>6 Q. Thank you. So have you heard of the special</p> <p>7 markets division?</p> <p>8 A. Yes, I have.</p> <p>9 Q. And where does the special markets division</p> <p>10 fit in?</p> <p>11 A. They're --</p> <p>12 Q. Go ahead.</p> <p>13 A. Okay.</p> <p>14 Q. I'll take back that question. I'll ask you a</p> <p>15 different one.</p> <p>16 A. Okay.</p> <p>17 Q. Is the special markets division part of Henry</p> <p>18 Schein Dental?</p> <p>19 A. No.</p> <p>20 Q. So where does the special markets team fit in?</p> <p>21 A. The special markets team reports up through a</p> <p>22 gentleman named Hal Muller, who is the president of</p> <p>23 special markets. They have their own sales division.</p> <p>24 And, as I mentioned before, the complexity of</p> <p>25 the industry right now is, we can potentially have</p>	52	<p>1 tell you the actual formula that we use to set pricing.</p> <p>2 Q. Okay. I will ask you a couple of general</p> <p>3 questions. And if you don't know the answer, that's</p> <p>4 fine. You can tell me you don't know.</p> <p>5 Does Henry Schein publish a catalog of</p> <p>6 products that it sells along with prices for those</p> <p>7 products?</p> <p>8 A. Yes, we do.</p> <p>9 Q. And do you know how those prices are set?</p> <p>10 A. I do not know specifically.</p> <p>11 Q. Who would know?</p> <p>12 MR. McDONALD: Object to form.</p> <p>13 A. If I had a question about pricing, I would</p> <p>14 talk to Paul Hinsch.</p> <p>15 Q. For private practice clients within Henry</p> <p>16 Schein Dental, how is the price charged to the</p> <p>17 consumer -- or to the customer, rather? How is that</p> <p>18 determined?</p> <p>19 MR. McDONALD: Object to form.</p> <p>20 A. So based off the catalog, we have several what</p> <p>21 we call VPAs, volume purchase agreements, that our team</p> <p>22 has used to win business in the field, so, oftentimes,</p> <p>23 based on the VPA or price that was negotiated in the</p> <p>24 field by our field sales reps. In addition, now with</p> <p>25 the group practice space, we have something called</p>

53

1 formularies that we negotiate with the group, and the
2 offices within that group purchase off of the formulary.

3 **Q. Okay. So what is a formulary.**

4 A. It's just an agreed-upon set of items that a
5 specific customer would like to purchase from us and at
6 an agreed-upon price with the customer.

7 **Q. Okay. And so you use formularies within the
8 group practice space?**

9 A. We do now. Historically, that's something
10 that we had to cultivate. So, yes, to answer your
11 question.

12 **Q. Currently?**

13 A. Currently.

14 **Q. But you don't use formularies for private
15 practice clients?**

16 A. So we recently started formularies with
17 private practices under the Henry Schein Connection
18 Program.

19 **Q. When did you start using formularies for
20 private practice clients?**

21 A. Roughly, a year-and-a-half ago. Not every
22 customer is on that.

23 **Q. How --**

24 A. It's an option.

25 **Q. How does a customer get on the formulary plan?**

54

1 A. So when a field rep will -- is talking to a
2 customer, they will present the Henry Schein Connection
3 Program. And if the customer likes the program and
4 chooses to be on it, that's how they get on it.

5 **Q. What is the Henry Schein Connection Program?**

6 A. It's just packaged -- it's a packaged program
7 with a prepared combination of marketing and also a
8 formulary that we have.

9 **Q. And so why did -- why did Henry Schein Dental
10 start using formularies for private practice clients?**

11 MR. McDONALD: Object to the form.

12 A. We had something called a custom quote, and
13 the custom quote was pricing was being negotiated in the
14 field and there wasn't a lot of structure to it. So we
15 also noticed that the same products showing up on the
16 custom quotes were the products that customers wanted.
17 So in order to make it easier for our sales team and,
18 also, for the customer, we put together the formulary
19 and took the average pricing in the market. That's how
20 we came up with it.

21 **Q. Can individual private practice clients get
22 discounts above and beyond what's on the formulary?**

23 A. Yes, they can.

24 **Q. And prior to having the formulary, it was just
25 the prices were negotiated with the private practice**

55

1 **clients; is that right?**

2 A. In some cases. It wasn't -- it wasn't every
3 case.

4 **Q. Okay. And in cases where it wasn't
5 negotiated, then the price would be based on the catalog
6 price?**

7 MR. McDONALD: Object to the form.

8 A. It would be based on the VPA the customer
9 signed up on, which was historically a percent discount
10 offer of the catalog or a percent rebate off -- back to
11 the customer off of the catalog.

12 **Q. Okay. So each private practice would have its
13 own VPA; is that right?**

14 A. Correct.

15 **Q. And the VPA would specify the discount off the
16 catalog price?**

17 A. Correct.

18 **Q. And, now, currently, for private practices
19 that sign up for Henry Schein Connection, is there some
20 kind of volume purchase agreement or something similar?**

21 A. They commit to certain levels of business.
22 It's 15,000, 35,000, or 70,000.

23 **Q. So there are different tiers?**

24 A. Correct.

25 **Q. And then are there different discounts based**

56

1 **on the tiers?**

2 A. In the Connection program, there is not. The
3 tier is based on -- we tied something called privileges
4 to the Connection program. And our privileges are a
5 Customer Rewards Program, and the tiers allow you to get
6 bigger discounts on service or service response time.

7 **Q. Okay. So the 15K, 35K, or 70K, is that volume
8 of business?**

9 A. That is correct.

10 **Q. Okay. And so --**

11 A. Merchandise business. Sorry.

12 **Q. Thank you. That's an excellent clarification.**

13 **So it's \$15,000 of merchandise purchased by
14 that private practice?**

15 A. Correct.

16 **Q. Okay. And did I understand correctly that the
17 discount that's offered is the same across each of those
18 tiers, so the 15K, the 35K, and the 75K would all get
19 the same discount on the merchandise?**

20 A. Right. Now, on the Connections program, the
21 products and the pricing are the same.

22 **Q. But a customer that purchases more volume
23 would get higher rewards under the Customer Rewards
24 Program?**

25 A. They would get an additional discount. I'll

57

59

1 use service as an example. So the \$15,000-a-year
2 customer would get a 10 percent discount; the 35,000, a
3 15 percent discount; and the 70,000 would get a
4 20 percent discount.

5 **Q. Are there discounts on merchandise that are**
6 **offered, or is it just service?**

7 A. Outside of the formulary?

8 **Q. No. Sorry. For the Customer Rewards Program,**
9 **the rewards that the customer can get back, you said**
10 **that there are discounts. Is it just on service, or are**
11 **there discounts on merchandise as well?**

12 A. The discount for merchandise is coming from
13 the formulary. It's a discounted price on the
14 formulary.

15 **Q. So is there a different formulary for the 15K,**
16 **the 35K, and the 75K?**

17 A. No. It's the same formulary.

18 **Q. Okay. So the same prices are offered on the**
19 **formulary for the merchandise for the 15K, the 35K, and**
20 **the 75K?**

21 A. That's correct.

22 **Q. But the 70- -- sorry. Is it 75 or 70K?**

23 A. I believe it's 75 right now.

24 **Q. So the 75K, they get larger discounts through**
25 **the Customer Rewards Program?**

1 the top competitors.

2 **Q. Does Schein compete against Patterson and**
3 **Benco in the private practice dental space?**

4 A. Yes, we do.

5 **Q. And then what about in the group practice**
6 **dental space?**

7 MR. McDONALD: Object to form.

8 A. I would say, yes, we do.

9 **Q. And then does Schein compete against Patterson**
10 **and Benco on price?**

11 A. When we're in front of a customer, there are
12 times we're competing on price.

13 **Q. And does Schein also compete against Patterson**
14 **and Benco on the types of products offered, the product**
15 **offerings?**

16 MR. McDONALD: Object to the form.

17 A. Does that mean the different products we sell?

18 **Q. Yeah. Yes.**

19 A. So whatever products that we each distribute
20 that are similar, yes, we would compete.

21 **Q. And does Schein compete against Patterson and**
22 **Benco on the quality of service that it offers?**

23 A. Customer service, I'm sure it's part of the
24 equation.

25 **Q. Okay. Are there any other sort of metrics**

58

60

1 A. Correct.

2 **Q. And those discounts are offered on equipment**
3 **servicing?**

4 A. Correct. The service technicians that go into
5 the office would be an example.

6 **Q. Are there any other examples?**

7 A. They would get points, but it doesn't matter
8 what level you're in. You receive points for ordering
9 online.

10 **Q. And what can a customer do with the points?**

11 A. They can redeem them for products and services
12 from Henry Schein.

13 **Q. Okay. Thank you.**

14 THE WITNESS: Is it okay if we break now?

15 MR. McDONALD: Sure.

16 MS. GOFF: Okay. Off the record.

17 (A short recess was had.)

18 **Q. Mr. Cavaretta, who are Schein's major**
19 **competitors within the Henry Schein Dental division?**

20 A. Full-service competitors would be Patterson
21 Dental, Benco, Burkhart, Nashville, Atlanta.

22 **Q. And would you agree that Patterson and Benco**
23 **are the top competitors?**

24 MR. McDONALD: Object to the form.

25 A. On a national basis, full service, it would be

1 **that are part of the equation that you compete against**
2 **Patterson and Benco on?**

3 MR. McDONALD: Object to the form.

4 A. Not that I'm aware of.

5 **Q. And what is the most effective way for Schein,**
6 **in your experience, to win over an independent dental**
7 **practice from Patterson or Benco?**

8 MR. McDONALD: Object to the form.

9 A. There is no one way to win a customer, because
10 they're -- behaviorally, they're all different. Their
11 needs are all different. And I believe, when we tell
12 our story about the wheel and everything we have to
13 offer, that's our best way to win business.

14 **Q. What's the wheel?**

15 A. The wheel is packaging all of the different
16 solutions and products that we have to offer the dental
17 customer.

18 **Q. Is price one way to win over a customer from**
19 **Patterson and Benco; in other words, offering a lower**
20 **price than Patterson or Benco?**

21 A. We've won business before on price, yes.

22 **Q. And then what about for the group practice**
23 **space? In your experience, what is the most effective**
24 **way to win over a group practice from Patterson or**
25 **Benco?**

61

63

1 A. Well, we usually cultivate the relationship,
2 and their market share is usually our relationship. But
3 a group practice is looking for a dealer that
4 understands the group practice market, can help them
5 grow, has all of the services, including technology and
6 integration of technology and service technicians. So
7 you have to have the entire package in order to
8 successfully work with group practices.

9 **Q. And is price one way that Schein can win over
10 a group practice from Patterson to Benco?**

11 A. Price is always a component in the
12 negotiations. I can't say that we've ever won a
13 customer solely on price.

14 **Q. And when you said "a customer," do you mean in
15 the group practice space or any customer?**

16 A. In the group practice space.

17 **Q. Okay. Do you have a view on whether price is
18 more or less important to group practices than to
19 private practices?**

20 MR. McDONALD: Object to the form.

21 A. I think price is important to everybody.

22 **Q. So price is important to all of Henry Schein
23 Dental's customers?**

24 A. Yes.

25 **Q. To compete against Schein, I mean -- strike**

1 **Q. If any.**

2 MR. McDONALD: Object to the form.

3 A. There used to be a report published by SDM on
4 market share that doesn't really exist anymore. So it's
5 usually a feel in the marketplace by a regional manager
6 on who has the majority of market share. And then, of
7 course, when we're calling on customers, our reps know
8 what the office is and who they're using to purchase
9 products from.

10 **Q. So are those the ways that Schein gathers
11 market intelligence? Is that what you were just telling
12 me?**

13 MR. McDONALD: Object to the form. Go ahead.

14 A. It's part of it. You have marketing pieces
15 that are published. That's pretty much the marketing
16 pieces that are sent out. It's you have a good
17 understanding of the direction the company is heading.

18 **Q. Okay. So marketing pieces that are sent out
19 by whom?**

20 A. The competitors.

21 **Q. And then do you obtain information from
22 talking to dentists? Is that another way that you
23 gather market intelligence?**

24 A. Sure. A dental office will tell us various
25 pieces of information. I can't tell you specifically.

62

64

1 that.

2 **To compete against Patterson and Benco, does
3 Schein try to gather information on what those two
4 companies are doing?**

5 A. With a particular customer?

6 **Q. Sure. Or just any market intelligence, does
7 Schein attempt to gather market intelligence about
8 Patterson and Benco in order to compete with them?**

9 A. Usually, when we're talking to a group, you
10 can get a good sense from the group of what Patterson,
11 or Benco, or whoever is offering them.

12 **Q. And is that important to -- is that
13 information important to Schein?**

14 MR. McDONALD: Object to the form.

15 A. It's part of -- it's part of winning a
16 customer, but we really focus on our offering and what
17 Henry Schein can do.

18 **Q. Other than speaking -- well, earlier you
19 said -- strike that.**

20 **How does Schein go about gathering market
21 intelligence about Patterson or Benco?**

22 A. Specifically, what market intelligence, or --

23 **Q. What market intelligence does Schein want to
24 know about Patterson or Benco?**

25 MR. McDONALD: Object to the form.

1 It depends on the office. It depends on the product,
2 the day.

3 **Q. Okay. And what type of information is useful
4 to Schein?**

5 MR. McDONALD: Object to the form.

6 A. If a customer is happy or not with the current
7 offering that they're getting from their current dealer,
8 what they're not happy about, what we could do to win
9 that business and make them a happy customer.

10 **Q. Okay. So is price a bit of market
11 intelligence that is important, like the prices being
12 charged by your competitors?**

13 MR. McDONALD: Object to the form.

14 A. That's a component to it.

15 **Q. The discounts that are being offered by the
16 competitors?**

17 MR. McDONALD: Object to the form.

18 A. That could be a component of it.

19 **Q. Okay. Any other components that you can think
20 of?**

21 A. Just a customer not being happy with the level
22 of service, the other solutions that are provided.

23 **Q. And do you personally -- in the course of your
24 duties, in your current position as VP of sales, do you
25 personally seek out market intelligence about what your**

<p style="text-align: right;">65</p> <p>1 competitors are doing? 2 A. The only time I ever will hear anything is 3 from my team in the field on what they're hearing in the 4 field. 5 Q. And is that information useful to you? 6 A. It's -- it is information, but I don't -- I'm 7 just trying to describe the usefulness. I don't recall 8 ever changing a course of direction based on the 9 information I've received, so I guess it's nice to have. 10 Q. Okay. So you don't recall ever changing a 11 course of direction based on market intelligence that 12 you've received from -- about a competitor? 13 A. Off the top of my head, no. Could it have 14 happened? It's possible. 15 Q. Do you ever talk to competitors to gather 16 market intelligence? 17 A. No. 18 Q. Why not? 19 A. I don't see a need to talk to the competitors. 20 That's why I don't. 21 Q. That's the reason why you don't talk to them? 22 A. Yeah. There is no reason to talk to a 23 competitor about, for me, anything, unless it's a, "Hi." 24 Q. Sorry. Were you done? 25 A. I am now.</p>	<p style="text-align: right;">67</p> <p>1 fierce. 2 Q. Okay. Would you agree that Patterson's loss 3 could be Schein's gain? 4 A. In order for us to take market share, it's 5 good value to take it from Patterson. 6 Q. Or the same with Benco; Benco's loss could be 7 Schein's gain? 8 A. Oh, yeah. 9 Q. Okay. And how would you describe the 10 competition between Benco and Schein? 11 A. Similar. It's they're a little smaller, and 12 their go-to-market strategy, the way to go to market, is 13 a little bit different. But we want to beat them all 14 day long. 15 Q. So can you think of any incentive that Schein 16 would have to help Patterson or Benco maintain their 17 market share? 18 A. No. 19 Q. Is there any incentive that Schein would have 20 to help Patterson or Benco increase their profit 21 margins? 22 A. No. 23 Q. Would you agree that Schein has a larger 24 market share than Patterson? 25 MR. McDONALD: Object to the form. Vague.</p>
<p style="text-align: right;">66</p> <p>1 Q. And then you said, "Unless it's a, Hi"? 2 A. So you're saying, "Hi." You're cordial. But 3 I don't talk to a competitor about what their current 4 strategy is, what their business plan is, in a way. 5 Q. And is it your policy not to talk to 6 competitors? 7 A. So my team knows that they're not to talk to 8 competitors; and through the course of these 9 investigations, they definitely understood that even 10 further. But right now my team knows they should not be 11 talking with competitors about really anything. 12 Q. So did you tell your team, did you instruct 13 your team not to talk to competitors about anything? 14 A. I have. 15 Q. And when have you done that? 16 A. The time frame would be pretty much over the 17 last 18 months to two years where I was specific with 18 it. 19 Q. Okay. And prior to that, was there any 20 instruction to your team not to talk to competitors? 21 A. It was an assumption not to, but it wasn't 22 specific. 23 Q. Okay. How would you describe the competition 24 between Patterson and Schein? 25 A. Aggressive, at times hatred. It's pretty</p>	<p style="text-align: right;">68</p> <p>1 A. From my opinion, I would say that we have a 2 slightly larger market share than Patterson. 3 Q. Okay. And is that nationally? 4 A. So what I just explained to you would be 5 nationally, and then the regions, of course, it varies. 6 Q. And does Schein have a larger market share 7 nationally than Benco? 8 A. Yes, we do. 9 Q. Have you ever, in your career at Schein, had 10 communications with anyone that works for one of 11 Schein's competitors to gain market intelligence? 12 A. Can you repeat that question? 13 Q. Sure. Have you ever -- since working at 14 Schein, have you ever had communications with anyone 15 that works for Patterson or Benco to gain market 16 intelligence? 17 A. We've recruited sales representatives from 18 Patterson and Benco; and when you recruit a sales 19 representative, you can obtain information. But that's 20 the extent of it. 21 Q. So other than the circumstance where you've 22 recruited a sales representative from Patterson or 23 Benco, have you ever had communications with anyone who 24 works at Patterson or Benco for the purpose of gaining 25 market intelligence?</p>

69

1 A. No.

2 **Q. So is there a policy at Schein regarding**

3 **communications with competitors and whether or not**

4 **that's permissible?**

5 A. We take different courses now -- what's called

6 Core Pedia -- on interaction with our code of ethics.

7 Let's just call it that. So it is well-known that we

8 should not be communicating with the competition. Have

9 I seen a policy on paper? I have not seen a policy on

10 paper.

11 **Q. And what are the courses that you're required**

12 **to take?**

13 A. The courses are on, you know, the ethical

14 standards at Henry Schein on anti-kickback, sunshine,

15 pretty much regulatory stuff that has now pretty much

16 entered our industry to educate our team on what is

17 going on.

18 **Q. And are those courses also related to**

19 **communications with competitors?**

20 A. There is not a specific course on that; but

21 during the courses, you can understand that that's not

22 something that we should be doing.

23 **Q. Is it explicit?**

24 A. I can't recall exactly the slides and the

25 pieces of it.

70

1 **Q. Have you ever had any antitrust training at**

2 **Schein?**

3 A. Yes, we have.

4 **Q. And how frequently do you have that training?**

5 A. We have to take that once a year, and it's

6 through the same Core Pedia training.

7 **Q. How long has it been a requirement to take the**

8 **antitrust training once a year?**

9 A. Over -- definitely over four years. I

10 couldn't tell you how long, specifically, though.

11 **Q. And the ethics courses that you were**

12 **discussing earlier, when did -- when was it first**

13 **implemented at Schein that those were required to be**

14 **taken?**

15 A. So when I said that, it was generalizing the

16 different courses we were taking, so I would say within

17 the same time frame, four-plus years.

18 **Q. Okay. And who was required to take the ethics**

19 **and antitrust courses?**

20 MR. McDONALD: Object to the form.

21 A. All -- from my understanding, all Team Schein

22 members.

23 **Q. Is that all members that work for Henry Schein**

24 **Dental?**

25 MR. McDONALD: Object to the form.

71

1 A. Correct.

2 **Q. What does "Team Schein" mean?**

3 A. Yes. So it would include anyone from a

4 leadership position, a sales position, and a service

5 position.

6 **Q. Okay. So going back to whether there is a**

7 **policy at Schein regarding communications with**

8 **competitors, there is not any written policy, to your**

9 **understanding, regarding communications with**

10 **competitors?**

11 A. I haven't seen a written policy, but I know

12 through, once again, the training that we receive, it's

13 understood not to do that.

14 **Q. Other than from the trainings, have you**

15 **received any other direction from your bosses regarding**

16 **communications with competitors?**

17 A. Yes.

18 **Q. Tell me about that.**

19 A. We've had trainings, over the last two years,

20 for sure, maybe a little longer, on interaction with

21 competition and what we could -- can and cannot do. For

22 the most part, it's just don't talk to them if you're

23 not sure.

24 **Q. And what are those trainings?**

25 A. So we have different -- whether it's our

72

1 national sales meeting or field managers meeting, we

2 will be able to have -- whether it's HR or legal counsel

3 get up and just talk about --

4 MR. McDONALD: Hang on. Sorry. To the extent it's

5 legal counsel, I don't want you to reveal the substance

6 of communications --

7 THE WITNESS: Okay.

8 MR. McDONALD: -- unless you and I step out in the

9 hall and talk about it.

10 A. Okay. It's an awareness of the importance

11 that we abide by the antitrust and the training that

12 we're receiving.

13 **Q. And who implemented these trainings?**

14 A. The requests would come from -- to Dave Steck.

15 **Q. So Dave Steck sends out the meeting requests?**

16 A. It would be on -- it would be on the agenda

17 where our leadership team was there, and they just --

18 they would talk about lessons learned and this is how we

19 are expected to interact.

20 **Q. And so is this a formal training?**

21 A. Can you define "formal"?

22 **Q. You said that you've had trainings over the**

23 **last two years for sure, and maybe a little longer, on**

24 **interaction with competition and what we can and cannot**

25 **do.**

73

- 1 **Can you please describe for me the nature of**
2 **these trainings?**
3 MR. McDONALD: Object to the form.
4 A. It's just talking about what we should and
5 should not be doing as Henry Schein. It wasn't ours.
6 It was an update. And it wasn't just on the
7 competition. It was also conduct on how we're working
8 with customers and also how we are performance managing
9 team members.
10 **Q. How often do the trainings take place?**
11 A. They're not -- they're not formalized
12 trainings. It's you hear something, you learn
13 something. It's, "Hey, look. We need to give the team
14 an update on why this is important."
15 **Q. Okay. And what do you mean by "they're not**
16 **formalized trainings"?**
17 A. It's not a regular training where we have it
18 scheduled, on a quarterly basis, where someone gets in
19 front of us and does continuing education on it.
20 **Q. Is this just essentially updates at meetings?**
21 A. When it happened, it would be an update at a
22 meeting.
23 **Q. Okay. And the meeting's purpose was not**
24 **necessarily specifically for training?**
25 A. That's correct.

74

- 1 **Q. And what types of meetings do these**
2 **instructions come in? When -- so you refer to them as**
3 **trainings, but they're just informal trainings at**
4 **meetings; is that right?**
5 A. That's correct.
6 **Q. Is it a specific type of meeting?**
7 A. The meetings we had -- I had -- I remember one
8 at a national sales meeting that we had our leadership
9 team there and one at a field managers meeting that we
10 had our leadership team at.
11 **Q. Okay. So let's talk about the one at the**
12 **national meeting. Who got up and spoke at the national**
13 **meeting and gave the training?**
14 A. I'm trying to remember who stood up, because
15 it was about five minutes. At the national meeting, I
16 don't recall exactly who stood up.
17 **Q. Okay. How long does the national meeting**
18 **last?**
19 A. Typically, four days.
20 **Q. Okay. So the training was about five minutes**
21 **during the four-day period?**
22 A. Yeah. It was an update, yes.
23 **Q. Was the update given by someone from Henry**
24 **Schein Dental?**
25 A. Yes.

75

- 1 **Q. But you don't recall who?**
2 A. I don't remember exactly who it was.
3 **Q. That's okay. What about at the national**
4 **leadership meeting? Do you remember who gave that**
5 **training?**
6 A. Yeah. Marjorie Han spoke up at that meeting.
7 **Q. Who is Marjorie Han?**
8 A. She is one of the Henry Schein legal counsel
9 members.
10 **Q. Okay. How long did she speak, approximately?**
11 A. 20 minutes.
12 **Q. And when, approximately, was that training at**
13 **the national leadership team meeting by Marjorie Han?**
14 A. In 2016, January.
15 **Q. Thank you. What about the one at the national**
16 **meeting; when was that?**
17 A. In 2015.
18 **Q. Okay. Have you ever received any direction**
19 **from Tim Sullivan regarding whether or not to**
20 **communicate with competitors?**
21 A. Yes.
22 **Q. When was that?**
23 A. During the course of the last couple of years,
24 I've seen and read e-mails, and he's sent e-mails.
25 **Q. And what did those e-mails say?**

76

- 1 A. It was just -- I don't remember specifically
2 what they say, but it was clear the subject matter was,
3 you know, we're not to talk to competition.
4 **Q. Were you instructed not to talk to the**
5 **competition about anything specifically, or just,**
6 **generally, don't talk to the competition?**
7 A. I think it was more of a general statement and
8 more of a reminder of we're not -- we're not to be
9 talking to the competition about business.
10 **Q. Okay. And the direction from Tim Sullivan,**
11 **that came in an e-mail, is that what you said?**
12 A. The communication that I recall would have
13 been in an e-mail.
14 **Q. Are you thinking of something in particular?**
15 A. Just through the course of litigation of
16 seeing the information on the TDA was Tim sending a
17 reminder of not to talk to the competition.
18 **Q. Okay. And you said you have not seen a formal**
19 **policy from Schein regarding talking to competition?**
20 A. I have not seen a formal written policy put in
21 front of me that says don't talk to the competition.
22 **Q. Okay. Have you heard of the term "group**
23 **purchasing organization"?**
24 A. I have.
25 **Q. And is it sometimes called a GPO?**

19 (Pages 73 to 76)

77

79

1 A. It is.
 2 **Q. And what does that term mean to you?**
 3 A. "Group purchasing organization"? It means
 4 there's a customer that is made up of groups of
 5 practices that negotiate pricing directly with
 6 manufacturers, and they would use a dealer to pass
 7 through the products from the manufacturer.
 8 **Q. What do you mean by "dealer"?**
 9 A. Well, manufacturers historically don't
 10 distribute products. They don't make the products. But
 11 in a dealer relationship, the dealer is responsible for
 12 the distribution.
 13 **Q. Is Henry Schein a dealer?**
 14 A. We are.
 15 **Q. So it's your understanding that a GPO refers**
 16 **to a customer that negotiates prices directly with the**
 17 **manufacturer?**
 18 A. That's correct.
 19 **Q. How long have you had that understanding of**
 20 **the definition of a GPO?**
 21 A. Probably, about a year-and-a-half now.
 22 **Q. And how did you come to have that**
 23 **understanding?**
 24 A. Well, GPO is a term that was used. It was a
 25 very general term, and it wasn't being used in the

1 **Q. So as far as you can recall sitting here**
 2 **today, prior to a year-and-a-half ago, you used the**
 3 **terms "GPO" and "buying group" synonymously?**
 4 A. GPO is used more frequently than anything,
 5 yes.
 6 **Q. But as far as you can recall, sitting here**
 7 **today, prior to a year-and-a-half ago, you used the**
 8 **terms "GPO" and "buying group" synonymously, right?**
 9 MR. McDONALD: Object to the form.
 10 A. I would have to say I believe so.
 11 **Q. So your understanding of the definition of the**
 12 **term "GPO" changed about a year-and-a-half ago, you**
 13 **said?**
 14 A. Roughly, a year-and-a-half ago.
 15 **Q. When you met with someone from medical, from**
 16 **the Henry Schein medical division?**
 17 A. The information was shared with us from the
 18 medical division. I didn't personally meet with them;
 19 but, yeah, that's where it came from.
 20 **Q. Okay. Do you know who, in the medical**
 21 **division, shared that with you?**
 22 A. I don't.
 23 **Q. And do you know -- can we narrow down the time**
 24 **frame more? You said "about a year-and-a-half ago." Do**
 25 **you know about what month or year?**

78

80

1 proper way. So any group that wasn't owned by somebody
 2 was often referred to as a GPO.
 3 So as we were using that term, it was brought
 4 to our attention -- I think it was from our counterparts
 5 on the medical side -- that what we're talking about is
 6 actually not a GPO. It's they're talking about
 7 individual groups of doctors. It's more of a buying
 8 group.
 9 So it was an education from the medical team,
 10 because it wasn't the same, and that's how we learned
 11 what we were saying wasn't really accurate.
 12 **Q. So prior to a year-and-a-half ago, what was**
 13 **your understanding of what a GPO was?**
 14 MR. McDONALD: Object to the form.
 15 A. The GPO term was being used as generalizing,
 16 once again, groups that were not owned by an entity.
 17 And the best example would be either a buying group or a
 18 loosely formed group of doctors.
 19 **Q. So prior to a year-and-a-half ago, did you**
 20 **understand that a buying group and a GPO were**
 21 **essentially synonymous?**
 22 MR. McDONALD: Object to the form.
 23 A. I don't believe we knew the difference, so,
 24 yes, because we didn't know the difference between a GPO
 25 and a buying group and why the terms were different.

1 A. Not specifically, no.
 2 **Q. And how did you receive the information from**
 3 **the medical team?**
 4 A. It was in a Henry Schein Dental meeting, which
 5 I don't believe had someone from the medical team there.
 6 And as we were talking about strategy and how the
 7 marketplace was changing, and so on and so forth, the
 8 term "GPO" was used and someone was corrected that
 9 actually it's different.
 10 **Q. So under this definition of the term "GPO"**
 11 **that you gave me today, that it's made up of groups of**
 12 **practices that negotiate prices directly with the**
 13 **manufacturer, does Henry Schein Dental work with any**
 14 **GPOs?**
 15 A. I'm not aware of any GPOs that exist.
 16 **Q. On the dental side?**
 17 A. On the dental side of it.
 18 **Q. Okay. Is it fair to say that GPOs aggregate**
 19 **the purchase volume of separate practices in order to**
 20 **leverage buying power?**
 21 MR. McDONALD: Objection to the form.
 22 A. So they -- I know groups do gather several
 23 practices together to improve their purchasing power.
 24 **Q. And to negotiate better prices?**
 25 MR. McDONALD: Object to the form.

20 (Pages 77 to 80)

81	83
<p>1 A. That's part of the strategy that they have, 2 yes.</p> <p>3 Q. So let's talk about a buying group.</p> <p>4 A. Okay.</p> <p>5 Q. What is your understanding of the definition 6 of a "buying group"?</p> <p>7 A. So a buying group is, there is a leader 8 putting together several private practices with the 9 understanding that they're going to bring some form of 10 value to the private practices. And what the private 11 practice will tell you is, they want to compete with the 12 corporate account business. And then what ends up 13 happening is, they will start talking to dealers about 14 what programs they can negotiate with us.</p> <p>15 Q. So a buying group negotiates directly with a 16 dealer?</p> <p>17 A. That is correct.</p> <p>18 Q. And is it fair to say that buying groups 19 aggregate the purchase volume of separate practices in 20 order to leverage buying power and negotiate better 21 prices?</p> <p>22 A. So a buying group will talk about they have 23 "X" amount of practices doing "X" amount of business 24 when they're talking to us.</p> <p>25 Q. But just in your understanding of the term</p>	<p>1 A. Once again, a buying group would have -- 2 wouldn't have ownership in the practices that they're 3 working with, and a DSO historically has had all 4 ownership, 100 percent ownership, of the practice or the 5 majority ownership of the practice.</p> <p>6 Q. Are there any other differences that you're 7 aware of?</p> <p>8 MR. McDONALD: Object to the form.</p> <p>9 A. The major difference with DSOs is that they 10 have the solutions and services in-house compared to a 11 buying group that cannot. It's not a structure.</p> <p>12 THE REPORTER: I'm sorry. I didn't hear what you 13 said.</p> <p>14 A. It's not a structure.</p> <p>15 Q. What do you mean by the "solutions and 16 services"?</p> <p>17 A. Insurance reimbursement, HR, legal. It would 18 be running the business, reporting production, 19 incorporating technology. It's every one is a 20 cookie-cutter program, and they have a plan for each 21 office, and it's one decision-maker on a DSO. That's 22 not how it is in a buying group.</p> <p>23 Q. Okay. Do buying groups sometimes also offer 24 insurance reimbursement and HR and legal?</p> <p>25 MR. McDONALD: Object to the form.</p>
<p>82</p> <p>1 "buying group," is the purpose of it to aggregate the 2 purchase volume of those separate practices to negotiate 3 better prices?</p> <p>4 A. That's one of -- that's one of the purposes of 5 a buying group.</p> <p>6 Q. Okay. So the definition of a buying group 7 that you gave me, what is your understanding of that 8 definition based on?</p> <p>9 A. Experience, industry language.</p> <p>10 Q. What about a buying co-op? Are you familiar 11 with that term?</p> <p>12 A. A co-op, yes, I am.</p> <p>13 Q. And what is a co-op?</p> <p>14 A. To me, a co-op is very similar to a buying 15 group. They don't -- they don't own the practices. 16 They offer some form of service touting that we will 17 help private practice compete with corporate account 18 business.</p> <p>19 Q. So you understand that buying groups don't 20 have a centralized ownership; is that correct?</p> <p>21 A. That is correct.</p> <p>22 Q. And that's true for co-ops as well?</p> <p>23 A. Everything I have seen, that's correct.</p> <p>24 Q. Okay. What is your understanding of the 25 difference between a buying group and a DSO?</p>	<p>84</p> <p>1 A. I'm aware of one buying group that I believe 2 offers the insurance service, and then I also know 3 Breakaway, which is not just a buying group. It spans 4 all of the buckets and offers other services to their 5 customers and their doctors.</p> <p>6 Q. Other than those two examples, are you aware 7 of any other buying groups that offer the solutions and 8 services in-house?</p> <p>9 A. Not that I'm aware of.</p> <p>10 Q. I think you mentioned earlier community health 11 center -- health centers?</p> <p>12 A. I did.</p> <p>13 Q. What are those?</p> <p>14 A. Community health centers are publicly funded 15 clinics that help provide dental service oftentimes to 16 the underserved population. The clinics are usually 17 dental and medical facilities.</p> <p>18 Q. Do you consider -- do you call community 19 health centers CHCs?</p> <p>20 A. We do.</p> <p>21 Q. Do you consider CHCs distinct from buying 22 groups?</p> <p>23 A. I personally don't call CHCs buying groups, 24 but I do know that there's VPAs or programs, purchasing 25 programs, that they have that is several CHCs, not run</p>

85	87
<p>1 by the same person, purchasing off of that program.</p> <p>2 Q. And so why do you not call CHCs buying groups?</p> <p>3 A. It's a different market, because it's publicly</p> <p>4 funded. It's we don't -- we don't work within the same</p> <p>5 way we do with the private practice or the traditional</p> <p>6 group practice space. So, for me, that's the reason</p> <p>7 why.</p> <p>8 Q. And what do you mean you don't work with them</p> <p>9 the same way?</p> <p>10 A. Their needs -- their needs -- there's similar</p> <p>11 needs, but there's also different needs that they have.</p> <p>12 And they also -- there is a set number of programs that</p> <p>13 the CHCs use and, you know, community outreach. It's</p> <p>14 just different. I'm not verbalizing it properly, but</p> <p>15 it's just a different way the business is run because</p> <p>16 it's a publicly funded clinic.</p> <p>17 Q. Okay. And it's handled by a separate group</p> <p>18 within Henry Schein Dental from the APC group, correct?</p> <p>19 A. Correct. So the CHCs would report through</p> <p>20 Kathleen Titus. The RAMs, who report to Kathleen, would</p> <p>21 identify the CHCs and know who they are and see if we</p> <p>22 had the business or we don't. And they work with the</p> <p>23 local field reps to win that business.</p> <p>24 Q. I see. What are the RAMs again?</p> <p>25 A. Regional account managers.</p>	<p>1 We had to quickly understand the different needs of this</p> <p>2 customer segment. We had to put solutions together for</p> <p>3 this segment. It was quite a lot. It had quite a lot.</p> <p>4 Q. And the segment that you're referring to is</p> <p>5 the midmarket segment?</p> <p>6 A. I am.</p> <p>7 Q. And so what is included in the midmarket</p> <p>8 segment?</p> <p>9 A. The majority of the business, in the midmarket</p> <p>10 segment, is CHC business and what we call our select</p> <p>11 customers. And a select customer is a group practice</p> <p>12 which could have two offices to 20, 25 offices.</p> <p>13 Q. Okay. I believe you testified earlier that</p> <p>14 Andrea Hight currently works with CHCs; is that right?</p> <p>15 A. I did.</p> <p>16 Q. So who does she report to now?</p> <p>17 A. She reports to Brian Brady now.</p> <p>18 Q. What's Mr. Brady's position?</p> <p>19 A. I can't recall his exact title; but he is</p> <p>20 responsible for the midmarket space, director of</p> <p>21 midmarkets.</p> <p>22 Q. And is that for the entire U.S.?</p> <p>23 A. It is.</p> <p>24 Q. Ms. Titus reports to you?</p> <p>25 A. She does.</p>
<p>1 Q. Do all RAMs report -- in the Western area,</p> <p>2 report to Kathleen Titus?</p> <p>3 A. They do.</p> <p>4 Q. Okay. So the CHC space is handled by -- in</p> <p>5 the Western area, is handled by Kathleen Titus?</p> <p>6 A. That is correct.</p> <p>7 Q. Has that always been the case?</p> <p>8 A. Well, they're responsible for winning the</p> <p>9 business in the CHC space. It has not always been the</p> <p>10 case when -- as the dental industry was transitioning</p> <p>11 quickly, Henry Schein internally was also making moves</p> <p>12 to transition with the industry. So CHCs did report to</p> <p>13 special markets for a long time. And when we made the</p> <p>14 change to a midmarket space, CHCs went to the midmarket</p> <p>15 space because the clinic still wanted local reps calling</p> <p>16 on them.</p> <p>17 Q. When did Henry Schein make the change to a</p> <p>18 midmarket space?</p> <p>19 A. I would say the beginning of 2014.</p> <p>20 Q. And what was -- was that just the creation of</p> <p>21 a midmarket team, or what were the changes that were</p> <p>22 happening at the beginning of 2014?</p> <p>23 A. It was quite a bit of change. We identified</p> <p>24 individuals who understood the space. We changed</p> <p>25 reporting from special markets to Henry Schein Dental.</p>	<p>1 Q. Why doesn't she report to Mr. Brady, if you</p> <p>2 know?</p> <p>3 A. I do know. Because Kathleen's primary</p> <p>4 responsibility is sales and growing the sales. Brian's</p> <p>5 primary responsibility is the overall segment, but also</p> <p>6 putting structure to the midmarket space.</p> <p>7 Operationally, there is a lot of internal stuff that</p> <p>8 needs to happen, so that's why she reports to me.</p> <p>9 Q. Okay. Going back to CHCs, are there -- have</p> <p>10 you ever heard of the term "CHC GPO"?</p> <p>11 A. Not that I recall.</p> <p>12 Q. Okay. Have you ever, ever considered a CHC to</p> <p>13 be a GPO?</p> <p>14 MR. McDONALD: Object to the form.</p> <p>15 A. Not that I recall.</p> <p>16 Q. When did you first start noticing buying</p> <p>17 groups in the dental industry?</p> <p>18 A. Well, the first interaction with buying groups</p> <p>19 happened back -- were you going to say something?</p> <p>20 Q. No. I'm sorry. Go ahead.</p> <p>21 A. Okay. All right. I noticed, back even in my</p> <p>22 days in the late '90s, but I think in 2004, when I was a</p> <p>23 regional manager in Long Island, was my first experience</p> <p>24 with a buying group. And then I was aware of Smile</p> <p>25 Source when it first was working with Henry Schein. I</p>

89	<p>1 don't remember the exact years, maybe '08.</p> <p>2 And then, over the years, there has been</p> <p>3 groups that have loosely said, "Hey, I've got ten</p> <p>4 doctors I'm going to put together. What price can you</p> <p>5 give me?" And it doesn't work that way. There is a lot</p> <p>6 that goes into it. So I'm not unfamiliar with the term.</p> <p>7 Q. What do you mean by "it doesn't work that</p> <p>8 way"?</p> <p>9 A. Well, when you talk to a buying group, a</p> <p>10 buying group has to bring a benefit to the individual</p> <p>11 doctors that they are working with as a group, one; and</p> <p>12 two, there has to be -- or should be a mutual</p> <p>13 understanding that we're working together to help each</p> <p>14 other. And, oftentimes, what a buying group may say is,</p> <p>15 "Hey, look. We want you to offer a certain pricing, but</p> <p>16 we're going to work with other people, too."</p> <p>17 So there is not really a commitment compared</p> <p>18 to, like, the DSO space where there is a commitment to</p> <p>19 do business together. So, oftentimes, we haven't really</p> <p>20 engaged with buying groups because there just really</p> <p>21 wasn't a mutual commitment.</p> <p>22 Q. So, oftentimes, Henry Schein Dental did not</p> <p>23 engage with buying groups; is that what you meant?</p> <p>24 MR. McDONALD: Object to the form.</p> <p>25 A. Oftentimes, we would hear what they were</p>	91	<p>1 A. Yes.</p> <p>2 Q. -- the buying group space really wasn't in the</p> <p>3 private practice world. What transition were you</p> <p>4 referring to?</p> <p>5 A. The transition where I was referring to the</p> <p>6 midmarket space.</p> <p>7 Q. So that was the beginning of 2014?</p> <p>8 A. Yeah, roughly.</p> <p>9 Q. That was when Schein was creating a midmarket</p> <p>10 group?</p> <p>11 A. Correct. Correct.</p> <p>12 Q. Was there a practice, within Henry Schein</p> <p>13 Dental, of not working with buying groups?</p> <p>14 A. So when we were doing -- that's what I was</p> <p>15 saying. When we were going through the transition,</p> <p>16 historically, that wasn't what we did in the private</p> <p>17 practice, because the value proposition that Henry</p> <p>18 Schein had with the services and the technicians and the</p> <p>19 pricing, we had everything that private practices</p> <p>20 wanted. So the buying group piece of it didn't make</p> <p>21 sense for us, from a business standpoint, to</p> <p>22 aggressively go after.</p> <p>23 Q. So if a buying group approached Henry Schein</p> <p>24 Dental about starting a business relationship, was there</p> <p>25 a practice of saying, "No, we don't want to work with</p>
90	<p>1 saying, so, to me, we would engage with them having a</p> <p>2 conversation. But after understanding more about them,</p> <p>3 oftentimes we would say, "Good luck, but, you know,</p> <p>4 we're just not interested right now."</p> <p>5 Q. Okay. Was there a specific policy, at any</p> <p>6 point at Henry Schein Dental, not to work with buying</p> <p>7 groups?</p> <p>8 MR. McDONALD: Object to the form.</p> <p>9 A. I don't remember ever seeing a policy against</p> <p>10 buying groups.</p> <p>11 Q. What about just a practice? Was there a</p> <p>12 practice of not engaging with buying groups?</p> <p>13 MR. McDONALD: Object to the form.</p> <p>14 A. So during the transition I mentioned, the</p> <p>15 buying group space really wasn't in the private practice</p> <p>16 world. So we were aware of them, but we really didn't</p> <p>17 have much interaction in that time frame. So -- did you</p> <p>18 want to say something? I'm sorry.</p> <p>19 Q. No. Go ahead. Finish your question.</p> <p>20 MR. McDONALD: Your answer.</p> <p>21 Q. Your answer.</p> <p>22 A. So because of that, it was we weren't</p> <p>23 familiar. And I lost my train of thought. I'm sorry.</p> <p>24 Q. That's okay. So you said "during the</p> <p>25 transition" --</p>	92	<p>1 you"?</p> <p>2 MR. McDONALD: Object to form.</p> <p>3 A. I don't recall us ever just flat-out saying,</p> <p>4 "No, we're not going to do it." We are a company built</p> <p>5 on partnerships, so we would have conversations. But,</p> <p>6 like I said before, if it didn't match a mutual benefit,</p> <p>7 then oftentimes we walked.</p> <p>8 Q. What do you mean by a "mutual benefit"?</p> <p>9 A. What I mean by that is that if -- I'm using,</p> <p>10 again, the DSO as an example. If you were negotiating</p> <p>11 with someone who is saying, "I have ten offices and</p> <p>12 let's negotiate so we can figure a deal out, and then</p> <p>13 all of my ten offices will be purchasing from you," that</p> <p>14 is a mutual benefit, because you're also gaining</p> <p>15 business and everyone is on the same page.</p> <p>16 Oftentimes, when you're negotiating with</p> <p>17 buying groups, they would say, "Give us your best</p> <p>18 price," or, "What pricing can you give us," and, "Good</p> <p>19 luck to you."</p> <p>20 Q. What do you mean by, "Good luck to you"? Is</p> <p>21 that what Henry Schein would say?</p> <p>22 A. No. No. There was no commitment of, "Hey,</p> <p>23 these doctors will do business with you. We love the</p> <p>24 solutions. We love the services. This is exactly what</p> <p>25 we want. We want to grow with you." The buying groups</p>

93

1 couldn't make a commitment like that.

2 **Q. Okay. So during the period when you were**
3 **Western zone manager and then Western area director --**

4 A. Okay.

5 **Q. -- prior to becoming the VP of sales, so I**
6 **think that's around the 2009 to 2015 period, early 2015?**

7 A. Yeah.

8 **Q. Did you have a practice of not working with**
9 **buying groups?**

10 MR. McDONALD: Object to the form.

11 A. I would answer it the same way, that if
12 someone -- if there was an opportunity, we would have a
13 conversation. We wouldn't walk away from anybody. But,
14 at the same time, it wasn't fitting the strategic
15 business model we had in the private practice.

16 **Q. So if the buying group could not make a**
17 **commitment that the practices within the buying group**
18 **would buy from Henry Schein, then you would not work**
19 **with them?**

20 MR. McDONALD: Object to the form.

21 A. That would be -- that would be one factor,
22 yeah.

23 **Q. What are the other factors?**

24 A. There were times where it was people were
25 negotiating and saying they had a buying group and they

94

1 didn't even have a buying group. So you have to have a
2 conversation with a doctor to understand what they are
3 bringing to the table. And, historically, the majority
4 of it, it was walking away because of the mutual
5 commitment, but there was other reasons.

6 **Q. So you're saying the majority of the times**
7 **Henry Schein would walk away from a buying group because**
8 **of the lack of a mutual commitment?**

9 MR. McDONALD: Object to the form.

10 A. In that time frame, I don't recall a
11 tremendous amount of inquiries or people wanting to
12 start a buying group. It was few and far between. The
13 times where there would have been a conversation and we
14 would walk away, it was because there wasn't a mutual
15 commitment in business.

16 **Q. Okay. And the time frame we're talking about**
17 **was 2009 to the early 2015 period?**

18 A. Correct.

19 **Q. So during that same time period, 2009 to 2015,**
20 **you said that you don't recall very many -- I think you**
21 **testified that you don't recall a tremendous amount of**
22 **inquiries; is that right?**

23 A. That's correct.

24 **Q. Inquiries from buying groups?**

25 A. That's correct.

95

1 **Q. Do you recall any specific buying groups**
2 **approaching you in the Western area during that time?**

3 A. I remember a buying group that was a co-op
4 that was already in existence before I got to the west.
5 Outside of that, there may have been less than a
6 handful.

7 **Q. What buying group are you thinking of that was**
8 **a co-op that was already in existence before you got to**
9 **the west?**

10 A. The dental co-op that was in Utah.

11 **Q. So was Henry Schein doing business with the**
12 **dental co-op in Utah before you arrived in the west?**

13 A. They were.

14 **Q. Okay. So before you became the Western zone**
15 **manager?**

16 A. Correct.

17 **Q. So other than that buying group, can you think**
18 **of any other buying groups that you -- that Henry Schein**
19 **Dental did business with, in the Western area, during**
20 **the 2009 to early 2015 period?**

21 A. Not that I'm specifically aware of, but -- so
22 not that I recall.

23 **Q. Okay. If a buying group did approach you**
24 **during that 2009 to early 2015 period, did you have the**
25 **authority to determine whether or not to sell to that**

96

1 **buying group?**

2 A. I definitely had influence and input, but it
3 would be something that I would want Dave involved with
4 and potentially even asking or talking to our special
5 markets team, because, again, buying groups really
6 weren't a huge part of what we were doing.

7 **Q. And when you said "Dave," you mean Dave Steck?**

8 A. That's correct.

9 **Q. Okay. Would you want input from Mr. Sullivan?**

10 A. At that time, I don't recall asking Tim for
11 input on a buying group opportunity.

12 **Q. Okay. During the 2009 to 2015 period?**

13 A. Yeah.

14 **Q. And why would you seek input from Mr. Steck?**

15 A. Well, it was new to or uncommon to the current
16 business model that we -- and what we were doing. So
17 something like that I would want to discuss with Dave
18 and talk it over.

19 **Q. Did you give direction to the sales**
20 **representatives that reported through to you that they**
21 **needed to let you know if a buying group approached**
22 **them?**

23 A. So the leadership team that reported to me, or
24 all of the sales reps?

25 **Q. Well, I guess we'll start with the leadership**

97

1 **team that reported to you.**

2 A. I don't recall any type of formal
3 announcement, from me to the team, saying, "If you run
4 into a buying group opportunity" -- during that period
5 of time?

6 **Q. Yeah.**

7 A. "If you run into a buying group opportunity,
8 send my way." I believe they would have because they,
9 themselves, were not sure even how to interact or how to
10 make it happen. As far as sales reps go, I would say
11 the same thing. They would let their regional manager
12 know more than they would let myself know, and then the
13 regional manager would have brought it to my attention.

14 **Q. Okay. So there was no specific direction from**
15 **you to the regional managers that if a buying group**
16 **approached, you know, any of the sales reps, that you**
17 **wanted to hear about it, but your expectation is that**
18 **you would have?**

19 A. In that time frame, there was no process,
20 formal process, in place of how to deal with those or
21 discuss those inquiries; but, yes, I would want to know.

22 **Q. And your expectation is that you would have**
23 **known?**

24 A. I would want to have known.

25 **Q. And is it your expectation that you would have**

98

1 **known, that you would have been informed by your**
2 **regional managers about buying group opportunities?**

3 A. It's possible that there was opportunities
4 that they were made aware of that I did not know about.
5 It's definitely possible.

6 **Q. Okay. But, at any point, did you instruct any**
7 **of your zone managers to let you know about buying group**
8 **opportunities, whether informally or formally?**

9 A. During that time frame, not that I recall.

10 **Q. Was there ever an instruction, from anyone at**
11 **Schein, about whether or not to sell to buying groups?**

12 A. Was there instruction whether or not to sell
13 to buying groups?

14 **Q. Yes.**

15 MR. McDONALD: Object to the form.

16 A. I don't recall an objection, but I know there
17 were discussions about, "Are we moving in a direction
18 where we would start actively engaging them?"

19 **Q. And when were those discussions?**

20 A. It started, roughly, the end of '14 and going
21 into '15.

22 **Q. Around the time that you became the VP of**
23 **sales for the Western area?**

24 A. It was around that time, but also during the
25 transition of midmarket. It was a big transition.

99

1 **Q. Okay. So prior to that, was there any**
2 **guidance given from anyone at Schein not to sell to**
3 **buying groups?**

4 A. Not that I recall.

5 **Q. Was there any strategy about not selling to**
6 **buying groups?**

7 MR. McDONALD: Object to the form.

8 THE WITNESS: A strategy not to?

9 MR. McDONALD: Object to the form.

10 A. When we put together a strat plan, buying
11 groups were not a priority for the private practice.

12 **Q. A "strat plan," is that what you said?**

13 A. (No verbal response.)

14 **Q. When was that?**

15 A. Well, when you're having a strategic session
16 about sales and where we're going to grow and what's
17 going on, the buying group component of it really wasn't
18 even on the radar.

19 **Q. And how frequently do you have strategic**
20 **sessions about sales?**

21 A. It's defined loosely, but I would say that it
22 would be, at the senior sales meeting, you could have
23 discussions about sales. At the 6X6, you could have
24 discussions about sales. There wasn't a meeting where
25 we sat down and said, "We're going to have strategic

100

1 discussion about sales," though. It wasn't a named
2 meeting.

3 **Q. Okay. So prior to late 2014, early '15,**
4 **buying groups was not something that -- strike that.**

5 **Prior to the late 2014, early 2015 period,**
6 **buying groups were not a priority for Henry Schein**
7 **Dental; is that correct?**

8 A. Where we were going to get our growth from, it
9 wasn't a priority in discussions.

10 **Q. And when you said "strat plan" earlier, you**
11 **meant strategy plan?**

12 A. Yeah, strategic.

13 **Q. And then did it, at some point, become a**
14 **priority?**

15 A. It became -- when the transition with
16 midmarket space came, the industry was also changing
17 considerably in the fact that there weren't just DSOs
18 anymore. There wasn't just MSOs anymore. It was going
19 across many different customer segments. And that's
20 when the inquiry started coming, because there was a
21 massive fear, in the private practice space, that they
22 were going to be overrun by corporate dentistry. And
23 some people started getting groups together to compete
24 or to stay alive in the corporate dentistry world.

25 That also coincided with insurance

101

1 reimbursement because private practice dentists weren't
2 making as much because insurance reimbursement went
3 down. So now you have private dentists who are making
4 less money, they don't have the resources that corporate
5 accounts have, and they believe that what's going to
6 save them is price. And then you have a group coming
7 over saying, "Well, let's get together and band together
8 and keep us whole, and we can negotiate a better price."

9 So that, all of those factors, were happening
10 at once. At the same time, internally, we're
11 transitioning from a private practice group or a
12 corporate accounts group, an elite. And there is this
13 whole middle group, which is select CHCs, but the select
14 space is forming, and then you have buying groups coming
15 in. And you're like, "Okay. This is different. This
16 is a change. And we have to figure out how we are going
17 to work with these customer segments." So that's why it
18 started really improving or really escalating in '15 to
19 '16.

20 **Q. Okay. So in '15 and '16, what was -- what**
21 **is -- what was Henry Schein Dental's strategy with**
22 **regard to buying groups?**

23 MR. McDONALD: Object to the form.

24 A. So what was happening is, as we were building
25 the midmarket space and trying to figure that out, when

102

1 an opportunity would come, it was usually a Kathleen
2 Titus or myself talking to a group and trying to
3 understand what the group had to offer their customers
4 or their doctors. And, at the same time, were we
5 aligned, is there a mutual benefit to do business?

6 And so there was, you know, several questions
7 that we just vet out the opportunity. And some
8 discussions would take a long time, and others we would
9 say, "Good luck. You've got to cultivate what you're
10 trying to do a little bit more."

11 **Q. Okay. In the 2015-2016 period, was there any**
12 **specific strategy, with regard to buying groups, at**
13 **Henry Schein Dental?**

14 MR. McDONALD: Object to the form.

15 A. We, in that time frame -- and it may be that
16 time frame, so I believe it is -- we were putting
17 together a Henry Schein -- I think it was called Henry
18 Schein Select, which was -- it was before Henry Schein
19 Connections, which was a program that we would -- we
20 knee all of the doctor's fears and concerns and
21 challenges and goals. And we were putting together a
22 program that would address those fears, meet those
23 needs, and then also add an educational component to
24 what we were doing for those customers.

25 So we were trying to figure out how to put

103

1 together our own buying group, and what it turned into
2 was the Henry Schein Connection Program.

3 **Q. Okay. And so, at some point, Henry Schein was**
4 **trying to create its own buying group?**

5 A. Yeah. It was the own offering of our wheel of
6 saying, "Join the Henry Schein club," I think it was,
7 "and get everything that you're looking for."

8 **Q. And would you offer -- did this buying group,**
9 **within Henry Schein, did that ever come to fruition?**

10 A. No.

11 **Q. Okay. Was the idea behind the potential**
12 **buying group and Henry Schein to offer discounts to**
13 **members on supplies?**

14 A. That was -- that would be a component of it,
15 yes.

16 **Q. Okay. Other than Henry Schein's own internal**
17 **buying group, was there a strategy, in the 2015-2016**
18 **period, with regard to buying groups that approached**
19 **Henry Schein and wanted to work with Henry Schein?**

20 MR. McDONALD: Object to the form.

21 A. Other than what I -- other than what I've
22 expressed to you already, no.

23 **Q. So was the strategy -- I think what you've**
24 **expressed to me -- correct me if I'm wrong -- the**
25 **strategy was to meet with them. And then if they did**

104

1 **not offer a commitment for their -- the member practices**
2 **to buy from Henry Schein, then Henry Schein would say,**
3 **"I don't want to work with this company"?"**

4 MR. McDONALD: Object to form. Misstates the
5 testimony.

6 A. Not exactly, no.

7 **Q. So correct me.**

8 A. So when we would meet with them, we'd find out
9 what they were, the value they were going to bring to
10 the members that would join their buying group, because
11 that is very important. The second component was, were
12 they aligned with Henry Schein and the way they practice
13 business, the way they do things? The third component
14 was the fact of the mutual benefit of us helping them
15 grow their business and then them helping us grow ours.

16 So those were really -- and then there was an
17 expectation of exclusivity or a majority of their
18 business being purchased through Henry Schein.

19 **Q. Okay. Let's go through those. So, first, you**
20 **said you would want to find out the value the buying**
21 **group is going to bring to the members that would join**
22 **their buying group. What did you mean by that?**

23 A. There is buying groups that are out there that
24 take time and effort in educating their doctors on
25 whether it's growing their practice, how to be better

105	<p>1 dentists through techniques, integrating technology, 2 back office, front office. So they were doing more than 3 just potentially throwing a vague price out there. 4 There is other buying groups that look at it 5 as a marketplace that they don't bring any additional 6 value to the offices, and they just want to offer the 7 lowest prices possible to their customers, which they 8 have every right to do that. 9 Q. Why was that important to Henry Schein? 10 A. Which part? 11 Q. Why was the value that a buying group was 12 going to offer the members important to Henry Schein? 13 A. We're a full-service dealer that, once again, 14 brings every aspect of that wheel to our customer. So 15 our desire was not to become a fulfillment company. 16 That's not who we are. That's not what we do. 17 Q. You didn't want to be replaced by the buying 18 group, essentially? 19 MR. McDONALD: Object to the form. 20 A. I don't think we would -- we wouldn't have 21 been replaced by a buying group, because they don't make 22 anything. They don't ship anything. So they can't 23 replace us. 24 Q. Okay. I mean, on the service component, you 25 didn't want to be replaced?</p>	107	<p>1 the buying group was offering additional services. 2 Q. Okay. So then what is the buying group value 3 that you were concerned with? 4 A. Okay. So if a buying group needed to have 5 their own value to those customers, and, if I am a 6 customer or a doctor and I am going to join a buying 7 group, I want to join it because you are going to 8 educate me on something, or you are going to help me 9 grow my practice, or you, as the buying group, are going 10 to do something for me that I value, and, therefore, I 11 am going to join you. 12 If a buying group did not have that type of 13 value or bringing it to the table, which was important, 14 then that would be one of the questions that we would 15 ask them and talk to them about. And if they didn't 16 have that, then, once again, we weren't really aligned. 17 Q. Okay. Then the second component is, were they 18 aligned with Henry Schein and the way they practiced 19 business. What did you mean by that? 20 A. Well, there is a component to -- an ethical 21 component to how people put groups together, and we 22 wanted to make sure that the culture of a buying group 23 or the ethics of a buying group were there. 24 Q. Was there a specific ethical concern that you 25 had with certain buying groups?</p>
106	<p>1 MR. McDONALD: Object to the form. 2 A. Well, a lot of buying groups didn't have 3 services. They were coming to us for the services. 4 Q. You said, "We are a full-service dealer that 5 once again brings every aspect of that wheel to our 6 customers, so our desire was not to become a fulfillment 7 company. That's not who we are. That's not what we 8 do." 9 What did you mean by "our desire was not to 10 become a fulfillment company"? 11 A. Because our -- the way we run our business is 12 not just to pick merchandise products and ship it out. 13 We offer equipment, technology, integration technology, 14 software, service technicians, business solutions. So 15 our desire was to bring all of those components to the 16 customer. 17 And if the customer wasn't interested in 18 those, that's okay. Then that would be a reason why we 19 would say, "Well, we're not mutually aligned, so, once 20 again, it's just not going to work right now. Good 21 luck. If things change, let's talk." 22 Q. Okay. Because the buying group might offer 23 some of those services? 24 MR. McDONALD: Object to the form. 25 A. In the example I was using, I don't believe</p>	108	<p>1 A. Not that I can recall, but I know there was 2 groups out there that may not have the best interest of 3 the buying group in mind, and it just didn't make sense 4 for us to be involved with those individuals. 5 Q. The third component was the fact of a mutual 6 benefit of us helping them grow their business and them 7 helping us grow ours. 8 A. Correct. 9 Q. What did you mean by that? 10 A. So if you're going to put a business 11 relationship together, there has to be a mutual benefit, 12 and then we would talk to them about everything that we 13 have to offer from Henry Schein, all components of the 14 wheel. We would want to understand their growth. We 15 would also want to understand what their customer base 16 was. We would want to understand how big or where they 17 want to grow. And if there is a match between the two 18 companies where we can mutual grow our business and help 19 each other, then it's a good thing. 20 Q. And how did you gather all of this information 21 about the buying groups that you would want to assess to 22 determine whether to do business with a buying group? 23 A. It's a lot of time, so several, mostly, phone 24 conversations. Whether it was -- in the west, I would 25 speak specifically for the west. It was Kathleen Titus</p>

109	111
<p>1 or myself, at times Andrea Hight, having discussions 2 with the individuals that were interested in either 3 creating a buying group or had a buying group already 4 that they were seeing if Henry Schein had any interest 5 in working with them. 6 Q. Okay. So you would gather the information by 7 talking to the buying group, itself; is that right? 8 A. We'd do discovery. 9 Q. Discovery from the buying group itself? 10 A. Mm-hmm. Correct. 11 Q. Did you obtain discovery from any other 12 sources? 13 A. We would look on the Internet to see what 14 their Web page looked like. Other than that, not that 15 I -- not that I recall. 16 Q. Okay. Can you think of any reason why you 17 would need to talk to a competitor to obtain information 18 about a buying group? 19 A. No. 20 Q. Can you think of any reason why you would want 21 to talk to a competitor to determine whether Schein 22 should do business with a buying group? 23 A. No. 24 Q. Going back to the mutual benefit that you 25 discussed earlier, how could a buying group help -- be</p>	<p>1 Q. Purchasing from Henry Schein? 2 A. That's correct. 3 Q. And how could you get that assurance that the 4 individual members would purchase from Henry Schein? 5 A. And there, that was the hard part, and that's 6 why a lot of times it was tough to strike a deal or an 7 agreement with a buying group, because they couldn't. 8 Q. And if you weren't given that assurance, that 9 the individual members would purchase from Henry Schein, 10 did you decide not to do business with the particular 11 buying group? 12 A. Yeah. That was one that would come into 13 consideration when we were making a decision, yes. 14 Q. Can you think of any cases where Henry Schein 15 ended up working with a buying group that could not give 16 an assurance that the individual members would buy from 17 Schein? 18 A. Ask that question again. I'm sorry. 19 Q. Can you think of any examples of where Henry 20 Schein worked with a buying group or sold to a buying 21 group that could not give an assurance that the 22 individual members would buy from Schein? 23 MR. McDONALD: Object to the form. 24 A. So most buying groups could not give that 25 assurance until -- and the few buying groups, at this</p>
<p>110</p> <p>1 helpful to Schein? 2 A. Well, when we were going through discovery -- 3 and this is why Kathleen was a part of it -- what we 4 were used to was discovery with DSOs and MSOs who had 5 control over the purchasing and had the ability to move 6 or change purchasing behavior. So a lot of the 7 questions that we would start -- we would ask buying 8 groups about really derived from that discovery process 9 through the DSO space. 10 What the buying groups could do is how -- the 11 mission of the buying group, were the doctors really 12 buying into the mission of the buying group? And if 13 that were the case, then whatever the buying group's 14 direction they decided to go, the expectation was 15 everyone would follow that mission. 16 Now, the head of the buying group, they can't 17 force someone to buy from Henry Schein or any dealer. 18 So if people weren't committed to the mission, it was a 19 problem. So what we would have to understand is that 20 that business would go, because that way it would 21 mutually benefit Henry Schein from the business coming 22 over. 23 Q. Got it. The individual practices or the 24 individual members? 25 A. Correct.</p>	<p>112</p> <p>1 point, that I know, off the top of my head, that we do 2 business with, recently we made an agreement with the 3 buying group that it's not an exclusive agreement. And 4 that's the only one that I can tell you that I know for 5 sure. 6 Q. And what buying group is that? 7 A. Smile Source. 8 Q. So earlier you said that Smile Source was a 9 DSO? 10 A. A franchise. 11 Q. Or a franchise? 12 A. A franchise DSO. 13 Q. Thank you. Which I think you testified was 14 distinct from a buying group? 15 A. What I believe I testified is that that's what 16 they preferred to be called. They prefer to be called a 17 franchise DSO. But because they can't dictate where 18 each of the individual offices will purchase from or 19 they don't have ownership, there is a buying group 20 component to Smile Source. 21 Q. Okay. But do you consider Smile Source to be 22 a buying group? 23 A. I believe they have components of a buying 24 group for sure. 25 Q. And what are those components?</p>

113

115

1 A. They don't have ownership. They can't move
2 all 470 offices into purchasing from one person. They
3 don't have the centralized purchasing. So those would
4 be, really, the main ones.

5 **Q. And do they have any components of a DSO in
6 your mind?**

7 A. A DSO? I don't -- they don't have equity
8 ownership. And, in their mind, I believe their
9 definition of a DSO is offering certain services, like
10 an insurance reimbursement. And that's what -- that's
11 where, I think, the franchise DSO tag comes from.

12 **Q. But in your view, under your understanding of
13 the definition of a DSO, does Smile Source have any DSO
14 components?**

15 A. They have some minor MSO, the service
16 components to it where they do the insurance
17 reimbursement. Not all buying groups have that, and I'm
18 not trying to be evasive. Not all buying groups offer
19 insurance reimbursement or marketing. They prefer to be
20 called, as our customer, a customer of ours, franchise
21 DSO.

22 **Q. I understand that. I'm trying to get your
23 understanding of what they are.**

24 A. They would be a mix of a buying group and
25 having an MSO.

1 A. So Smile Source was in the special markets
2 world. And then it moved into the HSD world, and it
3 just wasn't fitting anywhere, and there was really not a
4 spot for it. So they went to a competitor of ours.
5 They moved their business to a competitor of ours. We
6 did talk to them one more time, I want to say, maybe,
7 2012, and they did not like what we were talking to them
8 about or what we had to offer, so they decided not to do
9 business with Henry Schein, and that's the history.

10 **Q. Okay. Thank you. That's very helpful.**

11 **So in this recent February of 2017, do you --
12 does Henry Schein have an agreement with Smile Source?**

13 A. We do.

14 **Q. It's a written agreement?**

15 A. It is.

16 **Q. Is it a VPA?**

17 A. It's called a PVA, a prime vendor agreement.

18 **Q. What's a prime vendor?**

19 A. It's a document that we've historically used,
20 in the other scenarios that I've already mentioned,
21 where a group is signing up with Henry Schein that we
22 are their prime vendor; meaning, 80 percent of their
23 business they're going to commit to us.

24 **Q. Does the agreement specifically state that
25 they will commit to 80 percent of their business?**

114

116

1 **Q. Okay. Thanks. When did Henry Schein start
2 selling to Smile Source?**

3 MR. McDONALD: Object to the form.

4 **Q. Is it correct that -- I'll retract that
5 question.**

6 **Is it correct that Henry Schein Dental
7 recently entered into an agreement to sell to Smile
8 Source?**

9 A. We did.

10 **Q. When was that?**

11 A. February of 2017.

12 **Q. And is it true that Henry Schein had an
13 agreement with Smile Source previously, many years ago,
14 that I think you testified about earlier?**

15 A. Yes. I don't -- I don't know if it was an
16 agreement, but I know we did business with them.

17 **Q. Okay. And, approximately, when was that, if
18 you know?**

19 A. '07/'08.

20 **Q. Okay. And do you know when that agreement or
21 that relationship ended?**

22 A. I don't know exactly. I would be guessing.

23 **Q. Okay. But at some point, Henry Schein was
24 selling to Smile Source. And then they stopped. And
25 then, in February of 2017, they started again?**

1 A. It does not.

2 **Q. And does the agreement have any kind of
3 commitment stated?**

4 A. The commitment levels -- I would be assuming,
5 at this point, what's actually in the contract. I know
6 we have targets that they should hit in purchases, but
7 there is no penalty if they don't.

8 **Q. Okay. And that's based on your understanding
9 of what's in prime vendor agreements generally?**

10 A. Yeah. Yeah. Whether it's -- it's what we are
11 going to provide to them and what they are committing to
12 us.

13 **Q. Now, did you negotiate the agreement between
14 Henry Schein and Smile Source?**

15 A. I did.

16 **Q. And why did Henry Schein decide to sell to
17 Smile Source in February of 2017?**

18 MR. McDONALD: Object to the form.

19 A. We had been talking to them for, roughly, 18
20 months, and it was on again, off again. And what we
21 ended up deciding is that it seemed like the right time
22 for both of us. We had to change our thinking a little
23 bit, which is not necessarily a bad thing at all. And
24 they had to have a willingness to sign with a dealer
25 that had a national footprint, and it just made sense.

117

119

1 **Q. In what way did you change your thinking?**
 2 A. Well, historically, the prime vendor
 3 agreement, it would be more of a sole source where
 4 you're doing an agreement with Henry Schein. And Smile
 5 Source decided that they didn't want to talk to the
 6 other dealers that they had been doing business with and
 7 saying, "We have a sole relationship with Henry Schein,"
 8 so we changed it to a shared source deal.
 9 **Q. Is this the first shared source deal that**
 10 **Henry Schein has ever done?**
 11 A. It's the first shared source that we know.
 12 But even with our DSOs, MSOs, they get 20 percent of
 13 their products -- some less, some more -- from other
 14 sources.
 15 **Q. And how do you know that?**
 16 A. Outside of just knowing their purchases, what
 17 they're purchasing from Henry Schein.
 18 **Q. Yeah. How do you know --**
 19 A. Categories. You can tell by categories, or
 20 you can -- they will tell you, because we know. We have
 21 their purchasing analytics of what they're purchasing
 22 from Henry Schein and, you know, what they're not
 23 purchasing from you. So they've got to be purchasing it
 24 from somewhere.
 25 **Q. Like there's certain products that any dentist**

1 **its thinking about the commitment?**
 2 MR. McDONALD: Object to the form.
 3 A. It would have been the time frame between
 4 December -- the end of December of '16, the beginning of
 5 December '17 or January '17.
 6 MS. GOFF: Okay. Shall we take lunch?
 7 THE WITNESS: Great. Thank you.
 8 (Lunch break.)
 9 **Q. Mr. Cavaretta, do you view buying groups as**
 10 **customers or competitors of Schein?**
 11 A. A buying group would be --
 12 THE REPORTER: I'm sorry. I can't hear.
 13 A. Would be a customer of Henry Schein.
 14 **Q. And why is that?**
 15 A. Well, buying groups are made up of private
 16 practices. And we're a distributor, and that's how --
 17 that's our business.
 18 **Q. So could you think of a scenario in which a**
 19 **buying group could become a competitor of Schein?**
 20 MR. McDONALD: Object to the form.
 21 A. If a buying group were to have an agreement
 22 with a different dealer than Henry Schein, it's doing
 23 business with that dealer. So the buying group really
 24 isn't a competitor. It's not a competitor. It's that
 25 they're doing business with somebody else.

118

120

1 **needs, and these practices are not purchasing these**
 2 **products from Henry Schein?**
 3 A. So every dentist uses cement to fix teeth.
 4 And if we ran a purchase analytic report of purchased
 5 through Henry Schein, if cements weren't on here, we
 6 know they're purchasing cements. Where are they getting
 7 it from?
 8 **Q. Okay. Thank you.**
 9 MR. McDONALD: We've been going a long while.
 10 MS. GOFF: Have we? Sorry.
 11 MR. McDONALD: Do you want to take a break? I
 12 don't want to get you midquestion or something. We
 13 should take a lunch break.
 14 MS. GOFF: Sounds good.
 15 **Q. When did Henry Schein change its thinking**
 16 **about whether to do business with Smile Source?**
 17 A. It wasn't an exact date. I would say, once
 18 again, we talked to them previously, and it didn't work
 19 out. I think it was in 2015 where Tim and I went to
 20 visit Smile Source in Houston just to reacquaint
 21 ourselves with them, get to know them. They had some
 22 changes in leadership. And that's when we just started
 23 warming to the idea, getting to know them, understanding
 24 them better.
 25 **Q. And then at what point did Henry Schein change**

1 **Q. Did you ever view buying groups as a threat to**
 2 **Schein's business?**
 3 MR. McDONALD: Object to the form.
 4 A. When we were going through the transition and
 5 just the transition in the industry, I think it was an
 6 unknown, and I think, to the value proposition, there
 7 could be components of limiting the full-service
 8 component of Henry Schein, but I don't recall saying it
 9 was a threat.
 10 **Q. What do you mean there could be components of**
 11 **limiting the full-service component of Schein?**
 12 A. When we spoke earlier, it was the fulfillment
 13 piece of it, that we would be viewed as a fulfillment of
 14 products.
 15 **Q. And so how would the buying group limit the**
 16 **full-service component of Schein in that case?**
 17 A. If we were working with a buying group and we
 18 were talking about the services with Henry Schein, we
 19 would have to make sure that the buying group was
 20 aligned with the services that we were providing. So if
 21 a buying group was not and they didn't think that it was
 22 beneficial, then they would relegate us to a fulfillment
 23 company.
 24 **Q. If a buying group was not what?**
 25 MR. McDONALD: Object to the form.

30 (Pages 117 to 120)

121	123
<p>1 A. If a buying group was not interested in the 2 services and the full wheel that Henry Schein provides. 3 Q. If a buying group was not interested in 4 utilizing the Henry Schein services, then Henry Schein 5 would not want to do business with that buying group? 6 A. No. We were going through the questions and 7 the discovery process of the buying groups. So that 8 would be one component from an alignment standpoint. So 9 we would want to have the ability to talk about our 10 solution and services with a buying group. 11 Q. Okay. If a buying group -- do some buying 12 groups offer the types of services that Henry Schein 13 offers to its customers? 14 A. The ones I'm aware of, they have a couple of 15 the services, yes. 16 Q. Okay. And what are those services? 17 A. The ones that I'm aware of would be a 18 marketing service and a component of an insurance 19 negotiation service. 20 Q. And if -- for those buying groups that offer 21 the marketing and insurance services, would Henry Schein 22 be interested in doing business with those types of 23 buying groups? 24 A. Yes. 25 Q. Why?</p>	<p>1 A. No. 2 Q. Okay. So for Smile Source, you said that, 3 currently, it's a new agreement with Smile Source, and 4 all of that is still being vetted out. What did you 5 mean by "all of that is still being vetted out"? 6 A. So we are aware that they are offering certain 7 services. As I mentioned, the one I'm aware of or the 8 two I'm aware of are marketing and insurance 9 reimbursement. We didn't come to any type of agreement 10 on how we were going to offer those to their customers, 11 and we know we have to work that out. 12 Q. Okay. How do you anticipate working it out 13 with Smile Source? 14 A. Having the conversation with them. 15 Q. And what would you seek to have happen? 16 A. Well, I would want to understand the exact 17 services that they are providing. I would want to 18 understand if there was an opportunity for us to either 19 put those exact services in or -- in our offering to 20 private practices, or do we not talk about those 21 services and talk about other services that we offer. 22 It's just trying to figure out what they're comfortable 23 with. 24 Q. So, at this point, under the current 25 agreement, is Schein still offering services to the</p>
122	124
<p>1 A. Well, the rest of the discovery and the rest 2 of what the buying group has to offer, we could come to 3 an agreement that the insurance services or the 4 marketing services, either we both could talk to the 5 private practice about it or that would be a service 6 that we wouldn't talk to the private practice about and 7 allow the buying group to use whatever service they're 8 currently using. 9 Q. Okay. And are there any examples of where 10 Henry Schein has done business with the buying group 11 that offers marketing and insurance services? 12 A. Currently, right now, it's the new agreement 13 with Smile Source, and all of that is still being vetted 14 out. 15 Q. Is that the only example you can think of 16 right now? 17 A. Breakaway Dental has components of their 18 business that they would offer services. They're 19 somewhat similar, but there is crossover. It's not a 20 huge point of discussion at this point, but I know they 21 have services that they offer to their -- plus they have 22 a DSO piece of it, a MSO piece of it. 23 Q. Other than Smile Source and Breakaway, can you 24 think of any other buying groups that Schein does 25 business with that offers services?</p>	<p>1 members of Smile Source? 2 A. They have the ability to use our services. We 3 haven't been outwardly promoting them to the private 4 practices yet. 5 Q. Okay. Now, before the break, you testified 6 about how Schein's thinking, with regard to Smile 7 Source's ability to make a commitment, had changed 8 recently; do you recall that? 9 A. I do. 10 Q. And why did it change recently? 11 A. Well, when the industry was changing, the 12 needs were changing. The opportunity with Smile Source 13 was what they were willing to agree to and what we were 14 asking. Just the business opportunity was there, so we 15 haven't -- we hadn't done a shared source agreement that 16 I was aware of, so the thought process was, "Let's see 17 how this works." 18 Q. How has it been working so far? 19 A. The relationship is very good; but having a 20 shared source deal does create some confusion in the 21 field. 22 Q. Confusion from dentists? 23 A. From dentists, yes. 24 Q. What are they confused about? 25 MR. McDONALD: Objection. Form.</p>

125

1 A. They are -- there is confusion on where to buy
2 their stuff from, where Henry Schein fits in, what about
3 their other dealer, can I still order from the other
4 dealer, pricing? I mean, it's not a very clear message
5 at this point.

6 **Q. So this was the first -- the Smile Source deal
7 was the first shared source deal that you've ever done?**

8 A. That I'm aware of, yes.

9 **Q. And what prompted Schein to do this deal?**

10 A. The deal overall with Smile Source?

11 **Q. Yes.**

12 A. Well, the industry is changing, and there was
13 an opportunity there for -- Smile Source has 470
14 offices, or at the time had, roughly, 470 offices. We
15 had developed a relationship with them, so it was a good
16 relationship.

17 **Q. So --**

18 A. It was a good time.

19 **Q. Did you view the 470 offices as an opportunity
20 for Schein to gain business?**

21 A. Yes.

22 **Q. And whose decision was it to enter into the
23 agreement with Smile Source?**

24 A. It was a collaborative decision. Ultimately,
25 I believe Tim would have to say, "Yes, we're doing it."

126

1 But my advice to him was, "This is something we should
2 do."

3 **Q. And so did Tim, at some point, say, "Yes,
4 we're doing it"?**

5 A. Yes.

6 **Q. And when was that, approximately?**

7 A. Tim was comfortable with us putting a deal
8 together with Smile Source going back to December of
9 2016. So negotiating with the understanding that we
10 would like to work something out, and then finalizing
11 the deal and the terms, he had to be aware of them. And
12 he was or is.

13 **Q. Okay. Would you mind marking this?
14 (Exhibit 190, 2/1/11 E-mail Re:
15 Business Intelligence Group, was
16 marked for purposes of
17 identification.)**

18 **Q. Are you aware of GPOs in the medical industry?**

19 A. I'm aware they exist in the medical industry.

20 **Q. Are you aware they are common in the medical
21 industry?**

22 MR. McDONALD: Object to the form.

23 A. I don't know the percentage of business they
24 represent in the medical industry.

25 **Q. Okay. But that's not exactly what I asked.**

127

1 **Are you aware of whether they're common in the medical
2 industry?**

3 MR. McDONALD: Object to the form. Vague. You
4 could answer. I'm not telling you not to answer.

5 A. "Common"? Can you define what's -- it's a
6 common term in the medical space.

7 **Q. Okay. I'm handing you what's been marked as
8 Exhibit 190, which is a -- well, the top e-mail is an
9 e-mail dated February 1st, 2011. It's from you to a
10 Bret McCarroll regarding "Business Intelligence Group"?**

11 A. Okay.

12 **Q. Take a couple of minutes and look over it, and
13 then I'll have a few questions.**

14 A. Sure.

15 **Q. Have you had a chance to review the document?**

16 A. I'm still reading it.

17 **Q. Okay.**

18 A. Okay.

19 **Q. Okay. First, who is Bret McCarroll?**

20 A. He is a former FSC, field rep of Henry Schein.

21 **Q. And as of the date of this e-mail,
22 February 1st, 2011, were you -- what was your job title?**

23 A. Zone manager.

24 **Q. Okay. So it appears that Mr. McCarroll, in
25 this e-mail, approached Ms. Kathleen Titus about the**

128

1 **possibility of doing business with Business Intelligence
2 Group; is that right?**

3 A. That's what it reads, correct.

4 **Q. Okay. And who supervised Bret McCarroll, at
5 this time?**

6 A. Tom McCulloch.

7 **Q. Okay. And what was Tom McCulloch's position?**

8 A. Regional manager.

9 **Q. And did you supervise Mr. McCulloch?**

10 A. I did.

11 **Q. Okay. And so then in the -- so on the page
12 that's Bates-stamped Henry Schein-0004706 --**

13 A. Okay.

14 **Q. -- there is an e-mail from Kathleen Titus to
15 Bret McCarroll, Tom McCulloch, and a CC to you. Do you
16 see that?**

17 A. I do.

18 **Q. Okay. And Ms. Titus writes, "I can tell you
19 that with authority that is not nothing SM would be
20 interested in. The participants are private practice
21 customers which rules SM out. Food for thought, though,
22 their targets are invariably going to be existing HSD
23 customers. I think we have to stick with our core
24 competencies, and this is not one of them."**

25 **Do you see that?**

129	<p>1 A. I do.</p> <p>2 Q. Did I read it correctly?</p> <p>3 A. You did.</p> <p>4 Q. Okay. And so Ms. Titus states that this is</p> <p>5 not something that SM would be interested in. Do you</p> <p>6 see that?</p> <p>7 A. I do.</p> <p>8 Q. Does "SM" refer to special markets, in your</p> <p>9 understanding?</p> <p>10 A. It does.</p> <p>11 Q. Okay. And what is your understanding of why</p> <p>12 special markets wouldn't be interested in Business</p> <p>13 Intelligence Group?</p> <p>14 A. At that time of the e-mail?</p> <p>15 Q. Yep.</p> <p>16 A. Based on what Kathleen is saying is that it's</p> <p>17 that's not in the core competencies of special markets</p> <p>18 and because it's private practices.</p> <p>19 Q. The Business Intelligence Group is a private</p> <p>20 practice group, is that your understanding?</p> <p>21 A. It says --</p> <p>22 MR. McDONALD: Hang on. Object to the form. Go</p> <p>23 ahead.</p> <p>24 A. It says the participants are private practice</p> <p>25 customers, which rules SM out.</p>	131	<p>1 risky on many fronts." Do you see that?</p> <p>2 A. I do.</p> <p>3 Q. What did you mean by that?</p> <p>4 A. Well, with the language, clearly, I didn't</p> <p>5 even know what a GPO was. And it wasn't something that</p> <p>6 was in our core competencies and what we were doing</p> <p>7 business with, so we didn't normally deal -- do business</p> <p>8 with buying groups.</p> <p>9 Q. So as of the date of this e-mail, did you</p> <p>10 understand that a GPO and the buying group were</p> <p>11 synonymous?</p> <p>12 MR. McDONALD: Object to the form.</p> <p>13 A. I wouldn't have known the difference in the</p> <p>14 language.</p> <p>15 Q. Were you referring to buying groups when you</p> <p>16 said that they are incredibly risky on many fronts?</p> <p>17 A. If I were e-mailing today, I would have put</p> <p>18 "buying group," instead of "GPOs."</p> <p>19 Q. Okay. And then you wrote, "We can discuss</p> <p>20 live; but as soon as we start doing this, we will turn</p> <p>21 into medical. Margins will go down and commissions, of</p> <p>22 course, will follow. This is a bad deal all around."</p> <p>23 So you felt that dealing with buying groups</p> <p>24 would cause margins to go down; is that right?</p> <p>25 A. Potentially of what I understood of what</p>
130	<p>1 Q. Okay. The participants in the Business</p> <p>2 Intelligence Group?</p> <p>3 MR. McDONALD: Object to the form.</p> <p>4 A. I believe that's what she is referring to.</p> <p>5 Q. Is the Business Intelligence Group a buying</p> <p>6 group?</p> <p>7 A. I don't know.</p> <p>8 MR. McDONALD: Object to form.</p> <p>9 Q. Do you see the bottom e-mail where it says</p> <p>10 it's from Bret McCarroll, Kathleen Titus, and Tom</p> <p>11 McCulloch. Mr. Carroll says, "I have a marketing and</p> <p>12 consulting group called Business Intelligence Group that</p> <p>13 is interested in forming a buying group for dentists."</p> <p>14 Do you that?</p> <p>15 A. I do.</p> <p>16 Q. So Mr. McCarroll, at the time he wrote this</p> <p>17 e-mail, thought that Business Intelligence Group is</p> <p>18 forming a buying group; is that right?</p> <p>19 A. Bret is stating that in his e-mail, yes.</p> <p>20 Q. Okay. And then turning to -- so then</p> <p>21 Ms. Titus responded to Mr. McCarroll's e-mail. She CC'd</p> <p>22 you. And then you responded on February 1st, 2011. Do</p> <p>23 you see your e-mail?</p> <p>24 A. I do.</p> <p>25 Q. You wrote, "Dealing with GPOs is incredibly</p>	132	<p>1 happens in medical, that's what I was basing my comments</p> <p>2 on.</p> <p>3 Q. And what do you understand happens in medical?</p> <p>4 A. That they operate off of a lower margin.</p> <p>5 Q. Okay. So the medical industry operates on a</p> <p>6 lower margin than the dental industry?</p> <p>7 A. Yes.</p> <p>8 Q. And your understanding is that that's because</p> <p>9 of the prevalence of buying groups or GPOs in the</p> <p>10 medical industry?</p> <p>11 MR. McDONALD: Object to the form.</p> <p>12 A. From my understanding, one of the components</p> <p>13 would be medical, specifically GPOs.</p> <p>14 Q. One of the components of why in medical the</p> <p>15 margins are lower?</p> <p>16 A. Yeah. The business model is different between</p> <p>17 medical and dental. So I'm not saying that GPOs are the</p> <p>18 reason. What I'm saying is, based on the business</p> <p>19 model, it's one of the reasons margins are lower.</p> <p>20 Q. Okay. And then returning to your e-mail, you</p> <p>21 also wrote, "And commissions, of course, will follow."</p> <p>22 Were you expressing the concern that</p> <p>23 commissions would also decrease if Schein started</p> <p>24 dealing with GPOs?</p> <p>25 A. It was a way to explain to a sales rep, who is</p>

133

1 on commission, that there is a potential consequence to
2 them, also.

3 **Q. In other words, the individual sales rep might**
4 **decrease?**

5 A. The commissions, correct.

6 **Q. Yes. Thank you.**

7 **And then, in the first sentence, you wrote,**
8 **"Dealing with GPOs is incredibly risky on many fronts."**
9 **What did you mean by "risky"?**

10 A. Well, again, it was unknown. We were still --
11 we didn't even know where they belonged. You can see
12 that by the e-mail exchanges. And if we start -- at the
13 time, if we started to offer Henry Schein as a
14 fulfillment company and change the model that we had,
15 then that changes -- that changes us.

16 **Q. What do you mean by "started to offer Henry**
17 **Schein as a fulfillment company"?**

18 A. Well, as we've discussed, when the buying
19 group is -- was coming to you, they were asking for or
20 was focused on merchandise in many cases. So the
21 services and everything else that we have to offer,
22 historically, were not of importance to them.

23 **Q. And why was that risky to Henry Schein?**

24 A. Because of our business model, based on
25 services and support and equipment and technology. We

134

1 just are not a fulfillment company of merchandise.

2 **Q. So there might not be any value in Henry**
3 **Schein's services and support and equipment and**
4 **technology?**

5 A. There would be a definite potential for the
6 value of the Henry Schein services and support, and
7 whatnot, to go down.

8 **Q. Okay. So is it fair to state that, as of the**
9 **date that you wrote this e-mail, on February 1st, 2011,**
10 **that you felt that Henry Schein should not partner with**
11 **buying groups?**

12 MR. McDONALD: Object to the form.

13 A. It was not part of, in my mind, what we were
14 going after and the market that we are targeting.

15 **Q. Is that because it was risky to Henry Schein's**
16 **business model?**

17 MR. McDONALD: Object to the form.

18 A. It didn't fit or make sense to the business
19 model, in my mind, in 2011.

20 **Q. Because it would cause decreased margins in**
21 **commissions?**

22 A. Potentially, it could cause a decrease in
23 margins, yes.

24 **Q. Okay. And did you intend, in your e-mail, to**
25 **convey to Mr. McCarroll that he could not or should not**

135

1 **open an account with a buying group, or with this**
2 **particular buying group?**

3 A. In my e-mail, we were saying we're not going
4 to -- we were not going to open an account for them as a
5 buying group.

6 **Q. Okay. And then the last sentence -- well, in**
7 **the second-to-last sentence of your e-mail, you wrote,**
8 **"This is the very abbreviated version. And if you would**
9 **like to talk live, please let me know."**

10 **Did you end up speaking with Mr. McCarroll**
11 **live on this topic; do you recall?**

12 A. Not that I recall.

13 **Q. And if you had, was there anything else that**
14 **you would have wanted to tell him?**

15 MR. McDONALD: Object to the form.

16 A. No.

17 **Q. Why did you want to talk live to Mr. McCarroll**
18 **about this topic?**

19 A. For me, oftentimes, if I'm talking to somebody
20 and they may not understand a topic or a decision, I
21 offer to talk live to them. So it's not unusual for me
22 to put that.

23 **Q. Okay. Did your opinion of buying groups**
24 **change, at any point, following this e-mail?**

25 A. Following this specific e-mail, clearly,

136

1 eventually, down the road, it did.

2 **Q. Around when did it change?**

3 MR. McDONALD: Object to the form.

4 A. I would have to say as we were transitioning,
5 again, in the market space, understanding the industry,
6 seeing where groups were going. I can't pinpoint
7 exactly when.

8 **Q. Okay. But around the time that you were being**
9 **promoted to the VP of sales for the Western area?**

10 MR. McDONALD: Object to the form.

11 A. I would have to say between area director and
12 VP.

13 **Q. Like late 2014?**

14 MR. McDONALD: Object to the form.

15 A. I don't know.

16 **Q. And what prompted you to change your view on**
17 **whether buying groups -- of whether Schein should do**
18 **business with buying groups?**

19 A. Well, being in the West Coast, that's even
20 where DSOs started, and the industry was changing. And
21 it moves from west to east. So I think being exposed to
22 certain customer business models and the industry
23 changing faster in the west, I think you just learn more
24 about the industry. And my exposure was greater and the
25 industry is changing and you're learning every day. So

137

1 I'm always willing to partner, and I'm always willing to
2 listen.

3 **Q. When did buying groups become -- when did the**
4 **industry start changing with regard to buying groups, in**
5 **your understanding?**

6 A. A year.

7 **Q. Just a year ago?**

8 A. No. No. No. Are you looking for a year?

9 **Q. Oh, yes.**

10 A. I would say buying groups have always existed
11 in some shape or form, but I think they started really
12 becoming a little bit more prevalent over the last four
13 years, I would say.

14 **Q. Did Kathleen Titus report to you at the time**
15 **of this e-mail?**

16 A. No.

17 **Q. Who did she report to?**

18 A. I'm not sure if it was Randy Foley or Hal
19 Muller.

20 **Q. So you're not sure whether she was in Henry**
21 **Schein Dental or in special markets?**

22 A. She was in special markets.

23 **Q. Oh, okay.**

24 A. Yeah.

25 **Q. I see. Okay. You can put that one away.**

138

1 **Thank you.**

2 **(Exhibit 191, 8/25/11 E-mail Re:**
3 **Nov. AGD meeting in Vegas, was**
4 **marked for purposes of**
5 **identification.)**

6 **Q. Mr. Cavaretta, the court reporter handed you**
7 **what's been marked as Exhibit 191. The top e-mail is an**
8 **e-mail from you to Thomas Gadd dated August 25th, 2011,**
9 **"Re: Nov. AGD meeting in Vegas." Do you see that?**

10 A. I do.

11 **Q. Take a few seconds -- a few minutes to look**
12 **over that, and let me know when you're done.**
13 **Have you had a chance to review the document?**

14 A. Almost. Okay.

15 **Q. Who is Thomas Gadd?**

16 A. He was an FSC in Kentucky, I believe.

17 **Q. And who is his supervisor?**

18 A. Joe Gurskey was his regional manager.

19 **Q. And did Mr. Gurskey report to you?**

20 A. No.

21 **Q. So the bottom e-mail, on Bates-stamped Henry**
22 **Schein-ending Bates 4797, from Mr. Gadd to you, and**
23 **there is an e-mail there.**
24 **What is your understanding of why Mr. Gadd was**
25 **sending you an e-mail here?**

139

1 MR. McDONALD: Object to the form.

2 A. I can only assume it's because there was a
3 meeting in Vegas in November.

4 **Q. I see. Okay. And you responded to Mr. Gadd.**
5 **And you wrote, "As for the AGD buying group"?**

6 A. Mm-hmm.

7 **Q. Do you see that part?**

8 A. I do.

9 **Q. What was "AGD," do you know?**

10 A. I believe he's referring to the Academy Of
11 General Dentistry.

12 **Q. And what is the Academy Of General Dentistry?**

13 A. It's a group that educates -- it's an
14 organized group that educates the dental professional,
15 and they have a good reputation.

16 **Q. And so Mr. Gadd was telling you that AGD was**
17 **trying to negotiate a deal for members of the AGD to get**
18 **discounts, and then he wrote, in parentheses, "buying**
19 **group, in other words." Do you see that?**

20 A. I see him mentioning that he's hearing the
21 AGD. I'm just rereading it. He's informing me that he
22 believes that AGD approached Henry Schein.

23 **Q. Okay. And that AGD was trying to form a**
24 **buying group?**

25 A. That's in his e-mail, yes.

140

1 **Q. And you wrote, "I haven't heard anything about**
2 **this, but I doubt this will happen." Do you see that?**

3 A. I do.

4 **Q. And you wrote, "Once the buying groups enter**
5 **our market, the dental model as we know it will change."**
6 **Do you see that?**

7 A. I do.

8 **Q. And what did you mean by that?**

9 A. Once again, the full-service model, that we go
10 directly to private practice dentists with -- it,
11 really, at that time, didn't make any sense for us to
12 partner with a group when we have all of the services
13 that a private practitioner needs.

14 **Q. Was it fair to say that, as of the date you**
15 **wrote this e-mail, you believed buying groups would harm**
16 **Schein's current dental model?**

17 MR. McDONALD: Object to the form.

18 A. I think it would be fair to say that I didn't
19 understand the value of partnering with buying groups
20 and how that would help us.

21 **Q. Sitting here today, what's your understanding**
22 **of what the basis was for you saying that, once buying**
23 **groups entered the dental market, it will change, the**
24 **market will change?**

25 MR. McDONALD: Object to the form.

35 (Pages 137 to 140)

141	<p>1 A. The basis would be that there would be, now, a 2 third party selling the services of Henry Schein that we 3 already are selling, ourselves, to private 4 practitioners. 5 Q. You went on to write, "I will ask John or Dave 6 about our progress, but I would assume, at this point, 7 that nothing is going to happen." Do you see that? 8 A. I do. 9 Q. Were you saying that you doubted that Schein 10 would end up selling to AGD? 11 A. I'm saying that I doubt there is an AGD buying 12 group happening. 13 Q. Who is the John that you're referring to in 14 this e-mail, if you know? 15 A. That would be John Chatham. 16 Q. Who is that? 17 A. John Chatham was the vice president of global 18 development. I don't remember his exact title. So he 19 was responsible for training our team, but was also 20 helping with sales, overall sales. 21 Q. And what about Dave; is that a reference to 22 Dave Steck? 23 A. It is. 24 Q. Okay. When you were the zone manager, the 25 Western zone manager, who did you report to?</p>	143	<p>1 manager/community health liaison. Does that seem right? 2 Does that seem correct to you? 3 A. She was special markets. I'm not sure of the 4 title. 5 Q. She was within the special markets? 6 A. She was. 7 Q. So she wrote to you, in the second paragraph, 8 "We have a customer in Utah, a DSO called IDA." And 9 then the next paragraph, "Their most recent proposal to 10 bring offices to them was not to buy into ownership, but 11 really crossed the line into GPO, so we, in special 12 markets, cannot go that route." Do you see that? 13 A. I do. 14 Q. Do you have any understanding why special 15 markets could not go that route? 16 MR. McDONALD: Object to the form. 17 A. No. But based off of the last e-mail sent to 18 Kathleen, it probably had to do with private practices. 19 Q. What do you mean by that? 20 A. What do I mean by what? 21 Q. How did it have to do with private practices? 22 How does that relate to whether special markets can go 23 this route? 24 A. Special markets would handle the group 25 practices, and I'm reading this as they are looking to</p>
142	<p>1 A. Dave Steck. 2 Q. And what was his job title, at that time; do 3 you know? 4 A. The same, vice president, general manager. 5 Q. You can put that away. 6 A. Okay. 7 (Exhibit 192, 1/15/12 Re: Business 8 Growth: Intermountain Dental 9 Associates, was marked for purposes 10 of identification.) 11 Q. The court reporter has handed you what has 12 been marked as Exhibit 192. It is an e-mail from you to 13 Andrea Hight dated January 15th, 2012, "Re: Business 14 Growth: Intermountain Dental Associates, in 15 parenthesis, IDA, Utah." Do you see that? 16 A. I do. 17 Q. Take a couple of minutes to read it and let me 18 know when you're ready. 19 A. Okay. 20 Q. Okay. So looking at the bottom e-mail -- 21 A. Mm-hmm. 22 Q. -- that's on the back page, the Bates stamp 23 ends in 4841. It's an e-mail from Ms. Hight to you. 24 And at the time of this e-mail, it looks like, in 25 Ms. Hight's signature block, she was regional</p>	144	<p>1 recruit private practices not part of the DSO. So 2 that's -- that's what I'm reading in the e-mail. 3 Q. Okay. And special markets does not handle 4 private practices? 5 A. Correct. 6 Q. And what about GPOs? 7 MR. McDONALD: Object to the form. 8 A. I would say that the GPO piece was, again, not 9 using the matter -- used in the right manner. And if we 10 were replacing it as buying groups, I would highlight we 11 really didn't know what to do with buying groups at this 12 time. 13 Q. Okay. Was there any policy that special 14 markets could not sell to buying groups at this time? 15 A. Not that I'm aware of. 16 Q. Okay. And then she wrote, "However, I believe 17 there would be an opportunity for to you meet with them 18 to look at what could be done on the HSD side of 19 things." 20 So what is your understanding of why you might 21 be able to do something for IDA on the HSD side of 22 things? 23 A. I don't know. Andrea and Kathleen like to 24 connect people. And I just think she didn't know what 25 to do with them, so she was passing it to me and</p>

145

1 hopefully getting an intro with IDA.
 2 **Q. Okay. And do you recall whether you ever had**
 3 **a meeting with IDA?**
 4 A. I met with IDA on a co-travel with Melanie,
 5 but I don't remember discussing this.
 6 **Q. Okay. Who is Melanie?**
 7 A. So where she says, "Mel Bingham," is actually
 8 a female named Melanie. Everyone calls her Mel. It's
 9 on the first paragraph, third, fourth sentence.
 10 **Q. Okay. What is Ms. Bingham's job duties, at**
 11 **this time, or what is her job title at this time?**
 12 A. At the time of the e-mail?
 13 **Q. Yes.**
 14 A. FSC.
 15 **Q. And then on the next -- on the first page, the**
 16 **Bates stamp ends in 4840. Just a quick question about**
 17 **your e-mail, January 16th, 2012, at 10:56 a.m. You**
 18 **reference an FMM meeting?**
 19 A. Yeah.
 20 **Q. What is that?**
 21 A. Field managers meeting.
 22 **Q. And who would attend a field managers meeting?**
 23 A. The entire leadership team.
 24 **Q. And what does that include?**
 25 A. It includes pretty much all of the leaders,

146

1 from Tim down to the regional managers.
 2 **Q. How frequently are FMM meetings held.**
 3 A. Once a year.
 4 **Q. Around when are they usually held?**
 5 A. January, in Wisconsin.
 6 **Q. Are there usually agendas for those meetings?**
 7 A. Yes.
 8 **Q. Are there usually summaries of the meetings**
 9 **that are sent around after the meeting?**
 10 MR. McDONALD: Object to the form.
 11 A. No.
 12 **Q. Are there notes taken at the meetings?**
 13 MR. McDONALD: Object to the form.
 14 A. Potentially people can take notes, but there
 15 is not someone there to take notes at the meeting.
 16 **Q. Okay.**
 17 (Exhibit 193, 1/26/12 E-mail Re:
 18 IDA, was marked for purposes of
 19 identification.)
 20 **Q. So the court reporter handed you what has been**
 21 **marked as Exhibit 193. The top e-mail is from Andrea**
 22 **Hight to you and Melanie Bingham, dated January 26,**
 23 **2012, "Re: IDA." Let me know when you've had a chance**
 24 **to review it?**
 25 A. Okay. Okay.

147

1 **Q. So does this e-mail refresh your recollection**
 2 **about whether you spoke with IDA about the buying group**
 3 **approach?**
 4 A. I still don't remember the conversation, but I
 5 do read the e-mail.
 6 **Q. So looking at your e-mail of January 25th,**
 7 **2012, at 5:51 p.m., you wrote, "Made some nice progress**
 8 **with Richard today. Moved him off his pricing, quote**
 9 **demand, unquote, and moved more to the value**
 10 **proposition. We will see how it works."**
 11 **Do you see that?**
 12 A. I do.
 13 **Q. Do you have an understanding of what you meant**
 14 **by that?**
 15 A. I'm assuming.
 16 MR. McDONALD: Don't guess.
 17 A. Okay. No.
 18 MR. McDONALD: If you know, tell her.
 19 A. I don't.
 20 MR. McDONALD: You're not here to guess.
 21 **Q. Okay. So you wrote this e-mail, obviously, on**
 22 **January of 2012, right?**
 23 A. I did.
 24 **Q. So what is your understanding of what you**
 25 **meant by "pricing demand"?**

148

1 MR. McDONALD: Object to the form. Again, if you
 2 know, tell her, but don't guess.
 3 A. I don't remember.
 4 **Q. I'm asking you for your understanding, sitting**
 5 **here today, as the person who wrote the e-mail. Are you**
 6 **telling me that you don't have any understanding of what**
 7 **you meant by this sentence?**
 8 MR. McDONALD: Same objection.
 9 A. At the time that I wrote the e-mail -- I don't
 10 know what I was thinking when I was writing the e-mail
 11 about when I put "pricing demanding."
 12 **Q. And you don't have an understanding, sitting**
 13 **here today, of what that means?**
 14 A. Other than assuming, but that's --
 15 **Q. What would your assumption be based on --**
 16 MR. McDONALD: Hang on a second. Are you okay?
 17 THE REPORTER: I'm okay.
 18 **Q. Sitting here today, what would your assumption**
 19 **be based on?**
 20 A. In situations that, when people ask about
 21 pricing, they're looking for pricing that would be in
 22 line with the DSO.
 23 **Q. Okay. So when buying groups approached Schein**
 24 **looking for pricing, that would be what they're looking**
 25 **for in the DSO-type pricing?**

37 (Pages 145 to 148)

149

1 MR. McDONALD: Object to the form.
 2 A. So buying groups have asked about having
 3 formulary pricing similar to DSOs.
 4 **Q. Okay. And, in your experience, is that**
 5 **generally what buying groups ask for?**
 6 A. Yeah. They don't really know what they're
 7 asking for when they first start having the
 8 conversations. They just know that there is a formulary
 9 that DSOs buy off of. They don't even know what it
 10 means.
 11 **Q. And the formulary that DSOs buy off of offer**
 12 **discounts, discounted prices for those DSOs?**
 13 A. Yes.
 14 **Q. So your understanding of the e-mail is that**
 15 **the pricing demand that is referenced, in your e-mail,**
 16 **relates to a demand for DSO-type pricing?**
 17 A. I don't remember exactly what the conversation
 18 was or the intent of the e-mail, but I'm going based off
 19 of frequent requests from buying groups. That's where
 20 my answer came from.
 21 **Q. Okay. And then Melanie Bingham responds to**
 22 **you and wrote, "Would that make a GPO"? And then you**
 23 **responded and wrote, "It is dangerously close, but I**
 24 **told him that we would not do business with a GPO." Do**
 25 **you see that?**

150

1 A. I do.
 2 **Q. Why would you tell Ms. -- why would you tell**
 3 **IDA that you would not do business with a GPO?**
 4 A. Well, I believe that, based on the e-mail
 5 chains, that they were talking about having private
 6 practices be part of IDA without IDA owning them,
 7 which -- and then getting the pricing that IDA was
 8 getting, that they were private practices, and we didn't
 9 do that.
 10 **Q. Okay. So was it a policy, at the time, not to**
 11 **do that?**
 12 MR. McDONALD: Object to the form.
 13 A. It was a business practice.
 14 **Q. So the business practice, at the time, was**
 15 **to -- was -- strike that.**
 16 **The business practice, at the time, was not to**
 17 **give discounts on pricing to groups that did not have**
 18 **central ownership?**
 19 MR. McDONALD: Object to the form.
 20 A. No.
 21 **Q. So what was the policy or the practice?**
 22 A. So the practice that I'm referring to here is
 23 specifically that the private practices, they wanted to
 24 give the pricing that IDA was getting to private
 25 practices. It doesn't mean we didn't give discounts to

151

1 practices or discounts to groups. It's just that we
 2 were not -- we were not going to give DSO pricing to
 3 private practice.
 4 **Q. IDA was a DSO?**
 5 A. Yes.
 6 **Q. I see. So the policy was that you were not**
 7 **going to give DSO pricing to private practices that**
 8 **wanted to form a buying group?**
 9 MR. McDONALD: Object to the form.
 10 A. The business practice, I don't recall seeing a
 11 policy on this. So it was just the business practice
 12 that wouldn't give the DSO pricing to private practices.
 13 **Q. Okay. And why not?**
 14 A. Well, volume of business is one. The second
 15 thing is that we had a large market share in the DSO
 16 space at this time; and if we were to do this with one
 17 group, we'd have to do it and allow it with all of them.
 18 **Q. And why would that be a concern?**
 19 A. Well, they don't -- they don't actually own
 20 the private practices. They don't have any type of, in
 21 many cases, influence over it. And it just wasn't what
 22 we did because of the value of Henry Schein and the
 23 value of the practice was strong. And the DSO pricing,
 24 based on the volume of business, was DSO pricing for
 25 those specific customers. So we have to --

152

1 THE REPORTER: I'm sorry.
 2 A. From a business standpoint, we didn't allow it
 3 to go to private practice.
 4 THE REPORTER: Give me one second, please.
 5 (Brief pause.)
 6 **Q. DSO pricing is a more significant discount**
 7 **than is offered to private practices; is that right?**
 8 A. Based on volume, the formulary was at a deeper
 9 discount than what we would offer private practice.
 10 **Q. And you said that the concern was that if you**
 11 **offered one buying group a DSO discount, then you would**
 12 **have to offer to all of them?**
 13 A. No. If we allowed a DSO to take the pricing
 14 that we were giving them as Henry Schein and just go to
 15 private practice, the dentist, to give them that
 16 pricing, it's not their pricing to give. It's Henry
 17 Schein's. So if we allowed a group to do that, then
 18 there is no control.
 19 **Q. So your concern was with IDA taking their**
 20 **pricing and giving it to private practices?**
 21 A. That's what they were asking for, and that's
 22 what we -- I'm assuming that's what we were saying no
 23 to.
 24 **Q. Okay. Do you recall eventually saying no to**
 25 **that?**

38 (Pages 149 to 152)

153

1 A. No. I don't recall off the top of my head.
 2 **Q. So you don't recall whether Henry Schein**
 3 **Dental ended up doing business with IDA or not?**
 4 A. Well, special markets Henry Schein was doing
 5 business with IDA.
 6 **Q. Understand.**
 7 A. Right.
 8 **Q. Understood. Specific to Henry Schein Dental,**
 9 **did Henry Schein Dental ever end up doing business with**
 10 **IDA, if you recall?**
 11 A. We couldn't. They were doing business with
 12 special markets. So it was a special markets customer
 13 IDA.
 14 **Q. Okay. Did Henry Schein Dental end up doing**
 15 **business with the buying group component of IDA that's**
 16 **being proposed in these e-mails?**
 17 A. I don't believe so.
 18 (Exhibit 194, 9/24/12 E-mail Re:
 19 Intermountain Dental Associates RFP,
 20 was marked for purposes of
 21 identification.)
 22 **Q. So the court reporter handed you what's been**
 23 **marked as Exhibit 194, which is an e-mail from Melanie**
 24 **Bingham to you dated September 24th, 2012, again, "Re:**
 25 **Intermountain Dental Associates RFP," and then there's**

154

1 **some e-mail chains following that.**
 2 **Let me know when you've had a chance to look**
 3 **at the document.**
 4 A. Okay. Okay.
 5 **Q. Okay. So directing your attention to -- it's**
 6 **the third e-mail from the top. It's from Melanie**
 7 **Bingham, on September 24th, 2012, at 6:20 p.m. to you**
 8 **and Jeff Harmon. Do you see that?**
 9 A. I do.
 10 **Q. And she writes, "Everyone keeps saying we**
 11 **don't do GPOs. So what is the Dental Co-Op of Utah?"**
 12 **Do you see that?**
 13 A. I do.
 14 **Q. Do you recall everyone saying that we don't do**
 15 **GPOs at this time?**
 16 MR. McDONALD: Object to the form.
 17 A. I don't remember a blast e-mail or edict, on
 18 behalf of the company, to the team saying we don't do
 19 business with, at this time, referring to GPOs.
 20 **Q. Do you recall people talking about whether**
 21 **Schein does business with GPOs at this time?**
 22 A. We weren't actively looking to cultivate
 23 relationships with buying groups or GPOs. It wasn't
 24 part of the strategy, as I mentioned earlier.
 25 **Q. Okay. And then she asks, "So what is the**

155

1 **Dental Co-Op of Utah? And you respond, "The co-op is**
 2 **exactly what we were trying to avoid."**
 3 **Do you see that?**
 4 A. I do.
 5 **Q. What co-op are you referring to here; do you**
 6 **know?**
 7 A. The dental co-op in Utah.
 8 **Q. Is that the one that you mentioned earlier?**
 9 A. Yes.
 10 **Q. So this is the one that Schein was doing**
 11 **business with before you became the Western zone**
 12 **manager; is that right?**
 13 A. Correct.
 14 **Q. So you sort of inherited it?**
 15 A. Correct.
 16 **Q. And why did you write that the co-op is**
 17 **exactly what we are trying to avoid?**
 18 A. So I don't know the timing of the e-mails here
 19 with what ultimately happened with the co-op, but it was
 20 becoming a challenging relationship with the co-op. And
 21 we were not becoming -- we were growing further apart,
 22 and the alignment wasn't there, and the conversations
 23 were becoming more difficult. And the co-op, they had
 24 plans for the co-op, which is good for them. It's their
 25 business. But it wasn't what we had been moving towards

156

1 or agreed to. So you have to have business discussions
 2 about that.
 3 **Q. And what was the issue when you said that the**
 4 **co-op had -- they were becoming -- you two were growing**
 5 **further apart, it was becoming more difficult?**
 6 A. Yeah.
 7 **Q. What did you mean by that?**
 8 A. A couple of things. They were trying to
 9 get -- they were trying to go into other markets and use
 10 my name and other people's names and saying, "Hey, it's
 11 okay. We're going to do the co-op here," which is not
 12 something that we agreed to outside of Las Vegas.
 13 And then they started to bring in other
 14 manufacturers that Henry Schein did not do business
 15 with. And from an alignment standpoint, they were
 16 ending relationships with people that we were mutually
 17 doing business with and creating them with others. So,
 18 once again, they can do that, but we weren't in
 19 alignment anymore.
 20 **Q. So they were bringing in manufacturers that**
 21 **Henry Schein did not do business with?**
 22 A. Yeah.
 23 **Q. And were they trying to buy directly from**
 24 **those manufacturers, or still through Henry Schein?**
 25 A. I don't know if they were buying directly from

39 (Pages 153 to 156)

157

1 them. But, in many cases, they were -- in a couple of
2 cases, they were direct to the customer, so direct
3 manufacturers we would call it.

4 **Q. And why was that a problem for Henry Schein?**

5 A. Well, it's not what we had agreed to when we
6 originally had started doing business with them. We had
7 Colgate in there, we had Henry Schein companies and
8 relationships in there. And when it was first started,
9 it was, "Yep. This is what we're going to do. We love
10 it, Henry Schein," and then it started changing.

11 **Q. So what was the agreement that Schein
12 originally had with the dental co-op with Utah?**

13 A. I don't know -- remember the exact agreement,
14 but it was a PDA we had with them. And what I do
15 remember is there was a rebate back to customers for
16 their purchases and a rebate back to the co-op for their
17 overall purchases.

18 **Q. Was the co-op required to purchase from Henry
19 Schein?**

20 A. Well, the prime vendor agreement, we can't
21 force anybody to. To this day, I don't believe it's a
22 legally binding document. But that was the
23 understanding and the agreement when you sign that
24 document. That's the commitment to each other.

25 **Q. Okay. And was it a 100 percent commitment?**

158

1 A. No. I mean, if they -- if they were buying
2 certain categories, that could happen and we'd
3 understand. But it wasn't -- they didn't have control
4 over the private practices. What the co-op was doing
5 was bringing relationships in and introducing the
6 relationships when that wasn't -- that wasn't what we
7 had agreed to.

8 **Q. What do you mean "the co-op was bringing in
9 relationships"?**

10 A. So the co-op doesn't have ownership of the
11 offices, so the offices could buy from whoever they
12 wanted to. But there is manufacturers that we didn't do
13 business with that the co-op, now, we were going in and
14 promoting the co-op. And so the co-op then was kind of
15 moving a little bit away from Henry Schein and then
16 introducing products for manufacturers that we didn't
17 sell. So it was creating conflict in the field, which
18 is not good.

19 **Q. Do you know why Henry Schein did business with
20 the Dental Co-Op of Utah?**

21 A. I wasn't part of the original discussions, so,
22 no.

23 **Q. Did you disagree with the notion of doing
24 business with the Dental Co-Op of Utah?**

25 MR. McDONALD: Object to the form.

159

1 A. I was surprised that we had an agreement with
2 them.

3 **Q. And, at some point, did Schein's relationship
4 with the Dental Co-Op of Utah end?**

5 A. It did.

6 **Q. And what were the circumstances of that?**

7 A. How did it come about?

8 **Q. Yes.**

9 A. When we were transitioning to the midmarket
10 space -- in September? Kathleen now is reporting to me,
11 and we're learning more about the co-op and a lot more
12 noise was happening in the field about things were
13 changing with the original agreement.

14 So we had several discussions with them, Jeff
15 and Kathleen specifically, and expressed our concerns.
16 And they weren't going to change the direction they were
17 heading, which is fine. So we professionally said we're
18 going to have to end the relationship.

19 **Q. Okay. And were there certain things that you
20 asked the Dental Co-Op of Utah to do so that you could
21 continue to maintain the relationship?**

22 A. I don't remember specifically what those asks
23 were.

24 **Q. So you mentioned that the Dental Co-Op of Utah
25 was starting to expand to other areas; is that right?**

160

1 A. Yes, I did.

2 **Q. And what other areas were they expanding into?**

3 A. They wanted to -- or they did expand into
4 Idaho. They did expand into Las Vegas, I think, with
5 one doctor, and then they did expand into or attempt to
6 expand into Mexico. Beyond that, I don't know.

7 **Q. And was that problematic for Henry Schein, the
8 expansions?**

9 MR. McDONALD: Object to the form.

10 A. It wasn't -- it was done in a way that it
11 wasn't in partnership. And how I believe we found out
12 about New Mexico was at a state show where they had a
13 manufacturer that we didn't sell their products. So
14 they were talking about joining Henry Schein as a
15 manufacturer, that if we don't sell their products,
16 we're going to move. So then the e-mail and questions
17 come and confusion comes in.

18 So I don't believe it was a problem where we
19 were concerned. It just wasn't the way we agreed to do
20 it.

21 **Q. And so was -- did the expansion into new
22 states, did that prompt you to reassess the relationship
23 with the Dental Co-Op of Utah?**

24 MR. McDONALD: Object to the form.

25 A. I would say that was one component of saying,

161	<p>1 "Hey, we've got to get together and talk, because this 2 is not -- one, we don't know what you're doing. You're 3 putting us in a bad spot with our team, because they're 4 asking us questions and we don't even know what's going 5 on," and then, of course, the other things I mentioned 6 earlier. There were just things going on that we had to 7 discuss. 8 MS. GOFF: Okay. Do you want to take a break? 9 MR. McDONALD: Yes. Yes. 10 (A short recess was had.) 11 (Exhibit 195, 7/17/12 Meadows E-Mail 12 to Delikat, was marked for purposes 13 of identification.) 14 Q. Mr. Cavaretta, the court reporter has just 15 handed you what has been marked as Exhibit 195, which is 16 an e-mail from Jake Meadows to Patty Delikat -- 17 A. Mm-hmm. 18 Q. -- dated July 17th, 2012. And then there's 19 some other e-mails as well. 20 You're not on any of these e-mails, but I'd 21 like to ask you some questions about the document 22 anyway. So please take a moment to read it and let me 23 know when you're ready. 24 A. Okay. Okay. 25 Q. Jake Meadows, what was his position in July of</p>	163	<p>1 regards to supporting buying groups. We do not want our 2 customers organizing and creating what are known as 3 GPOs. It takes away the value away from the 4 distributor." Do you see that? 5 A. I do. 6 Q. Do you recall a direction from Tim Sullivan 7 regarding buying groups? 8 A. I don't recall Tim saying we absolutely don't 9 do buying groups, no. 10 Q. Okay. What do you recall Tim saying regarding 11 buying groups? 12 A. So I don't remember the exact words, but the 13 direction is, not understanding the -- not understanding 14 the value of buying groups. 15 Q. So Tim Sullivan said that he did not 16 understand the value of buying groups? 17 A. That's not a direct quote, but that was the 18 context of the meeting or the conversation of just not 19 understanding how buying groups would be in our strategy 20 in 2012. 21 Q. Okay. And when you said "the value of buying 22 groups," do you mean the value of buying groups to 23 Schein, the value to Schein? 24 A. The value of a buying group to an end 25 customer, and what value would they bring to a private</p>
162	<p>1 2012, if you know? 2 A. Zone manager. 3 Q. For? 4 A. The northwest zone. 5 Q. Was this the time that he reported to you? 6 A. He reported to me for a short period of time, 7 so it was through Dave or myself. I don't really know. 8 Q. Dave Steck? 9 A. Yes. 10 Q. So when you were -- 11 A. Probably, Dave. 12 Q. When you were the Western zone manager, was 13 the Northwestern zone one of your responsibilities? 14 A. No, but there were times where he had dual 15 roles. But, at this time, I don't believe these 16 dates -- I don't believe Jake reported to him during 17 these dates. 18 Q. Okay. Who is Patty Delikat, if you know? 19 A. FSC. 20 Q. So that's like a sales rep? 21 A. Yes. Sorry. 22 Q. Okay. So in the top e-mail, the most recent 23 e-mail, Jake writes, "Patty, we can talk about this. I 24 have to tell you, Ron and Dan made a decision that is 25 against what Tim Sullivan has directed us to do in</p>	164	<p>1 practice dentist. 2 Q. And so when did Mr. Sullivan provide that 3 strategy? 4 MR. McDONALD: Object to the form. 5 A. I couldn't tell you a date, a time. 6 Q. But around in this 2012 time period, you 7 recall that that was the strategy from Tim Sullivan? 8 MR. McDONALD: Object to the form. 9 A. I don't recall. But reading this e-mail, that 10 is what I'm seeing in front of me from what Jake is 11 saying. 12 Q. Do you have any reason to doubt what Jake 13 Meadows is saying? 14 A. You'd have to ask Jake. I don't know. 15 Q. I'm asking you. Do you have any reason to 16 doubt the Mr. -- strike that. 17 Do you have any reason to doubt what 18 Mr. Meadows wrote in his e-mail? 19 A. I don't doubt Jake. 20 Q. Do you consider Jake to be a truthful 21 individual? 22 A. Jake is a truthful individual, yes. 23 Q. And do you believe that what Jake writes, in 24 his e-mails, is generally accurate? 25 A. It's Jake's interpretation of what he heard in</p>

165

1 the meeting, I'm assuming.

2 **Q. Okay. So is there a specific meeting that**
3 **you're referring to?**

4 A. No.

5 **Q. Do you recall a meeting where Tim Sullivan**
6 **discussed buying groups in this 2012 time period?**

7 A. In 2012, I do not remember a meeting.

8 **Q. Okay. Do you recall Jake ever telling you**
9 **that he received any direction from Tim Sullivan**
10 **regarding buying groups?**

11 A. Not that I recall.

12 **Q. Okay. But you recall, generally, that**
13 **Mr. Sullivan did not understand the value in buying**
14 **groups?**

15 MR. McDONALD: Object to the form.

16 A. I remember having it being a part of a
17 discussion of buying groups, in general, and Tim asking
18 that question.

19 **Q. Do you recall whether there was a practice at**
20 **Henry Schein Dental not to support buying groups during**
21 **this time?**

22 A. I don't recall any type of memo, policy,
23 anything saying, "Do not do business with buying
24 groups."

25 **Q. Right. The practice I'm referring to. Was**

166

1 **there a practice about not supporting buying groups?**

2 A. It wasn't -- it wasn't part of our normal
3 business model, so it wasn't something that we were
4 aggressively pursuing.

5 **Q. So, at this time, there was a practice at**
6 **Henry Schein Dental not supporting buying groups?**

7 MR. McDONALD: Object to form.

8 A. No. That's not what I said.

9 **Q. Okay. So what did you say?**

10 A. That, at the time, buying groups were not our
11 priority as part of the business strategy.

12 **Q. Whose decision was it that buying groups were**
13 **not a part of your business strategy?**

14 MR. McDONALD: Object to the form.

15 A. I would say that, if we were going to do
16 business with a buying group, we would have to talk to
17 either Dave or Tim to see if this was a direction that
18 we wanted to go or a group that we wanted to do business
19 with at that time.

20 (Exhibit 196, 3/25/15 E-mail Re: FW
21 Support, was marked for purposes of
22 identification.)

23 A. Okay.

24 **Q. So the court reporter has handed you what has**
25 **been marked as 196. And the top e-mail is an e-mail**

167

1 **from Kathleen Titus to you and Randall McLemore dated**
2 **March 25, 2015. The subject is FW Support - Buying**
3 **Group Steadfast Dental, do we shut this down? Do you**
4 **see that?**

5 A. Yes, I do.

6 **Q. Have you had a chance to review it?**

7 A. I have.

8 **Q. So the bottom e-mail, which is on Henry**
9 **Schein-0003342 is an e-mail from Emily Kerr to K.**
10 **Vaughn, V-a-u-g-h-n@steadfast.com. Do you see that?**

11 A. I do.

12 **Q. Emily Kerr, was she in the special markets**
13 **division?**

14 A. I assume so based on --

15 **Q. Do you know her?**

16 A. I don't.

17 **Q. You don't recognize the name?**

18 A. Vaguely. I mean, I don't know her.

19 **Q. Okay. She wrote, "There have recently been**
20 **some changes within our special markets division of**
21 **Henry Schein and we now have a new special markets**
22 **manager in our area of Texas."**

23 **Do you know -- happen to know what the changes**
24 **she's referring to are?**

25 A. In 2014 I believe is when the midmarket space

168

1 had been created, and there was transition internally of
2 accounts that were going from special markets to
3 midmarket and vice versa.

4 **Q. Okay. Thanks. And then eventually this**
5 **e-mail gets forwarded on up to you and Mr. McLemore by**
6 **Kathleen Titus?**

7 A. Yes.

8 **Q. And the title is, "Buying Group - Steadfast**
9 **Dental, do we shut this down?" Do you have an**
10 **understanding of what Ms. Titus meant when she said "do**
11 **we shut this down"?**

12 A. She was asking if we still continue to do
13 business with Steadfast Dental.

14 **Q. Okay. And do you recall whether you responded**
15 **to Ms. Titus?**

16 A. I know there was an exchange regarding this
17 account. What specifically the exchange was, I don't
18 know. I don't remember the e-mails.

19 **Q. Do you know what Steadfast Dental is?**

20 A. From my recollection, they were a buying group
21 that was dealing with oral surgeons.

22 **Q. And did Henry Schein ever do business with**
23 **Steadfast Dental?**

24 A. It was a special markets account. It was
25 created there; and then when the midmarket happened or

42 (Pages 165 to 168)

169

1 was created, we inherited it. So there could have been
2 a time, during that transition, where it was a part of
3 HSD that they did purchase from us, but I can't say that
4 specifically.

5 **Q. And then what happened to it after it switched**
6 **over to HSD? Did you continue to do business with**
7 **Steadfast Dental?**

8 A. From what I recall, Kathleen was trying to
9 understand what Stead -- who Steadfast was and doing
10 discovery on Steadfast. I do know eventually we did
11 walk away from doing business with them. But I can't
12 tell you how long or how many purchases they made with
13 us when they were a part of midmarket.

14 **Q. And why did Schein eventually walk away from**
15 **doing business with them?**

16 MR. McDONALD: Object to the form.

17 A. Kathleen was doing the discovery on that, so I
18 don't remember all of -- or I don't remember the
19 specifics of Steadfast. But based on the information
20 that she collected, I do know that we walked away from
21 doing business with Steadfast.

22 **Q. Okay. You consider Steadfast to be a buying**
23 **group, right?**

24 A. Every --

25 MR. McDONALD: Objection to the form.

171

1 A. In the e-mail here, it said, "Pacific Group
2 Management Services."

3 **Q. Do you recall that entity?**

4 A. I don't remember them specifically.

5 **Q. Okay. Do you know whether they were a buying**
6 **group based in California?**

7 A. Based on the content of the e-mail and who is
8 on the e-mail, it's definitely based in California.

9 **Q. Okay. Do you have an understanding of whether**
10 **it was a buying group?**

11 A. It looks like they're inquiring about starting
12 a group. I don't know if they were actually a group.

13 **Q. Okay. So let's go to the e-mail of July 14th,**
14 **2014, at 11:06 a.m., from Brian Brady to Kathleen Titus,**
15 **and you and Glenn Showgren are CC'd?**

16 A. Okay.

17 **Q. So Brian Brady, do you know what his position**
18 **was, at this time, in July of 2014?**

19 A. Regional manager for the Bay Area.

20 **Q. Thanks. And he's writing about this PGMS. In**
21 **his second bullet point, he writes: "Let's say, for**
22 **example, they have 50 GPs who become referring doctors**
23 **to this group," and then it goes on a little bit later,**
24 **and half of those are buying customers from HSD, in**
25 **parentheses, Our Bay Area market share is 55 percent for**

170

1 A. The information that was presented to us, it
2 looked like a buying group.

3 **Q. What was Mr. Randall McLemore's role, at this**
4 **time, in March of 2014?**

5 A. I think he had just become his own manager for
6 the Southern zone.

7 **Q. So Ms. Titus writes, in the last sentence of**
8 **her e-mail, "At least I would like Randall to be a part**
9 **of that call."**

10 **Do you have an understanding why she would**
11 **want Randall to be involved?**

12 A. No, I don't.

13 **Q. Okay.**

14 (Exhibit 197, 7/15/14 e-mail Re: Our
15 meeting today - PGMS agreement, was
16 marked for purposes of
17 identification.)

18 A. Okay.

19 **Q. Okay. So the court reporter has handed you**
20 **what's been marked as Exhibit 197. The top e-mail is an**
21 **e-mail from you to Ms. Titus dated July 15th, 2014, "Re:**
22 **Our meeting today - PGMS agreement for your review." Do**
23 **you see that?**

24 A. I do.

25 **Q. Do you know what "PGMS" is?**

172

1 **merch, so this is realistic on VPAs with an average**
2 **discount of 5 to 10 percent. Will all of those doctors'**
3 **respective VPAs change to P20s, in parentheses, to 20**
4 **percent off, and, in addition, would we then change**
5 **those doctors from HSD to special markets?"**

6 **What's the concern that Mr. Brady is**
7 **expressing here?**

8 A. It seems like confusion on how this would
9 work.

10 **Q. He wrote, "50 GPs." What does "GP" mean?**

11 A. General practitioners.

12 **Q. Okay. And was the concern that there are**
13 **doctors who were already purchasing from Schein at a 5**
14 **to 10 percent discount rate who would now get a 20**
15 **percent discount rate by virtue of joining a buying**
16 **group?**

17 A. I believe that's the question that Brian
18 poses, yes.

19 **Q. Okay. Now, was he also expressing concern, in**
20 **your understanding, that the customers would now be in**
21 **the special markets silo, rather than the HSD silo?**

22 A. He's asking that question to Kathleen, yes.

23 **Q. Kathleen then responds with an e-mail, and she**
24 **writes in the -- let's see -- I guess it's the second**
25 **paragraph, "Let's jump on a call B/C I have already**

173

1 asked Joe to send this up the line for approval." Do
 2 you see that?
 3 A. I do.
 4 Q. Okay. And do you recall Ms. Titus asking you
 5 to send up anything with regard to PGMS up the line for
 6 approval?
 7 A. I don't recall this specific one, no.
 8 Q. And what do you understand her to mean when
 9 she writes, "Send this up for approval"?
 10 A. Meaning that this was a different type of
 11 deal, and that this would be something I would want
 12 other people to know about.
 13 Q. Like Mr. Steck or Mr. Sullivan?
 14 A. Sure. Yes.
 15 Q. Okay. You responded, "They have the same
 16 concerns that we discussed. The deal breaker will be,
 17 in parentheses, if Tim approves, that they will need to
 18 agree that all of their members will need to do business
 19 with HSD."
 20 So did you end up speaking with Mr. Sullivan
 21 about this deal?
 22 A. I don't recall having a conversation with him
 23 about this deal.
 24 Q. Okay. Based on your e-mail, is that your
 25 understanding when you write "they have the same

174

1 concerns that we've discussed"?
 2 A. Clearly, I spoke to somebody. I don't know if
 3 it was specifically Tim or not.
 4 Q. Okay. And Ms. Titus then writes, "If Tim
 5 rejects this, then I think we have our new policy." And
 6 you responded, "Yes, ma'am." Do you see that?
 7 A. Yes, I do.
 8 Q. What did you understand her to mean when she
 9 said "new policy"?
 10 MR. McDONALD: Object to the form.
 11 A. At the time, I don't know. I think she was
 12 just putting that into her own words, because there was
 13 no old policy.
 14 Q. Do you think she meant, if Tim rejects this,
 15 then there would be a policy regarding buying groups?
 16 A. No.
 17 Q. Okay. Well, you agreed with her, right? You
 18 wrote, "Yes, ma'am." So what were you agreeing to?
 19 A. I think it was a response to her -- to her
 20 e-mail. I can't tell you specifically what I was
 21 agreeing with, what they asked me on.
 22 Q. Okay. So do you have any understanding of
 23 what policy she might have been referring to here?
 24 A. The policy in her own mind.
 25 Q. Policy with regard to?

175

1 A. It was still trying to figure how to
 2 understand the landscape. This is during heavy change
 3 and a lot of transitioning, so we were trying to
 4 understand what different groups were trying to do and
 5 how we would interact and operate with them. So there
 6 was no policy. That's what I'm saying is that I don't
 7 remember seeing a policy. I don't recall a policy, but
 8 we were all learning together.
 9 Q. Okay. You can put it aside for now. Thank
 10 you.
 11 (Exhibit 198, 7/15/2014 E-mail Re:
 12 '7 to '7 Dental in San Antonio, was
 13 marked for purposes of
 14 identification.)
 15 A. Okay.
 16 Q. Okay. So the court reporter handed you what
 17 has been marked as Exhibit 198, which is an e-mail. The
 18 top e-mail is from you to Mr. Sullivan dated July 15,
 19 2014. It's a forward, "'7 to '7 Dental in San Antonio -
 20 UnifiedSmiles GPO." Do you see that?
 21 A. I do.
 22 Q. Okay. And you wrote to Mr. Sullivan, "I know
 23 we are meeting later today to discuss potential GPO
 24 affiliation in California." Do you see that?
 25 A. I do.

176

1 Q. Do you have any understanding of what GPO
 2 affiliation you were referring to in this sentence?
 3 A. The CDA. It was buying -- again, it was using
 4 GPO, but it should have been buying group.
 5 MR. McDONALD: CDA.
 6 Q. Yes. Thank you.
 7 And is that the California Dental Association?
 8 A. Yes.
 9 Q. And how do you know that you were referring to
 10 the CDA in this e-mail?
 11 A. Because it was in California, and I'm not
 12 aware of any other buying group that we were talking to
 13 in California.
 14 Q. What about the PGMS one that we just looked at
 15 and discussed?
 16 A. I guess it's a possibility.
 17 Q. Okay. But you would -- your understanding is
 18 that this e-mail is referring to CDA; sitting here
 19 today, that would be your understanding?
 20 A. That's how I'm reading it, yes.
 21 Q. Okay. And then you go on and you write, "The
 22 only reason we are even discussing is because of
 23 examples like below are happening daily. The GPO
 24 monster gaining steam like I've never seen before." Do
 25 you see that?

44 (Pages 173 to 176)

177

1 A. I do.
 2 **Q. What did you mean by the "GPO steam like I've**
 3 **never seen it before"?**
 4 A. The momentum of buying groups and inquiries
 5 about it and the amounts that were heading my direction,
 6 I've never seen that before.
 7 **Q. So in July of 2014, you were getting a lot of**
 8 **inquiries from buying groups?**
 9 A. I don't remember specifically, in 2014, how
 10 many. But based on my e-mail, I'm assuming that the
 11 amount of inquiries about buying groups had increased
 12 dramatically.
 13 **Q. And why did you say -- call it a "GPO**
 14 **monster"?**
 15 A. I don't recall why I used that language.
 16 **Q. Did you consider GPOs to be a threat to**
 17 **Schein's business?**
 18 A. I considered it a potential change where we'd
 19 have to adapt to the buying group, the buying group's
 20 that are becoming more prevalent in the industry.
 21 **Q. And for about how long had you been seeing a**
 22 **rise or an increase in inquiries about GPOs or buying**
 23 **groups as of the date of this e-mail, July of 2014?**
 24 A. The time frame that I remember was really as
 25 the transition was going, again, with the midmarket

178

1 space. It could have been a little before that, but
 2 that's when I remember seeing a rise.
 3 **Q. Okay. And the transition with the midmarket**
 4 **space, that happened towards the end of 2014, right?**
 5 A. I think it happened -- I think it started
 6 happening in 20- -- midmarket was loosely being put
 7 together in '14.
 8 **Q. Do you know about what month?**
 9 A. I don't know off the top of my head.
 10 **Q. And when was the transition finalized?**
 11 A. I would say near the end of '14, beginning of
 12 '15.
 13 **Q. Okay. And do you know whether or not you**
 14 **ended up affiliating with the GPO that you were**
 15 **referencing in this e-mail? Let's assume that it was**
 16 **the CDA. Did you end up affiliating with the CDA?**
 17 A. We had a lot of discussions with them, but at
 18 the end we decided not to participate.
 19 **Q. How come? Why not?**
 20 A. With the CDA, because we have a market share
 21 of over 50 percent. And when they put out their RFP,
 22 which we participated in, we won specific categories.
 23 And the agreement with the CDA, if we were going to
 24 participate, is that the categories that we did not win,
 25 we could not sell to members who were joining the CDA

179

1 buying group, which didn't make any sense for us to
 2 participate in then. So we said, "Thank you. Good
 3 luck. We still want to have a relationship with you,
 4 but we can't participate under those terms."
 5 **Q. Okay. So you said you have a market share of**
 6 **50 percent; is that in California?**
 7 A. In the California zone, it's over 50 percent,
 8 yes.
 9 **Q. Okay. And then you said that you participated**
 10 **in the CDA RFP?**
 11 A. Yes.
 12 **Q. Does that mean you put in a proposal?**
 13 A. Yes. When they sent out their request for a
 14 proposal, we did send pricing back to them.
 15 **Q. And who was in charge of that process at**
 16 **Schein?**
 17 A. There were several people who were helping put
 18 it together; but Glenn Showgren was taking the lead on
 19 getting the information back to the CDA.
 20 **Q. Okay. And so then Schein won for specific**
 21 **categories of products, but not others?**
 22 A. That's correct.
 23 **Q. Okay. And so for the products that Schein**
 24 **didn't win, Schein would not be able to sell those**
 25 **products to any customers that were participating in the**

180

1 **CDA?**
 2 A. That's correct.
 3 **Q. Okay. And that was problematic for Schein**
 4 **why?**
 5 A. Well, because we're a distributor of all of
 6 the products and with the high market share and we were
 7 going to be blocked out of selling those categories to
 8 those doctors, it didn't make sense.
 9 **Q. Okay. Did you -- would you have lost market**
 10 **share in California as a result of the CDA's RFP?**
 11 MR. McDONALD: Object to the form.
 12 A. It's possible we would have lost categories
 13 that we were no longer able to sell.
 14 **Q. And then you said that you still wanted to**
 15 **have a relationship with CDA, but you didn't want to**
 16 **participate in, I guess, the CDA, like their program, I**
 17 **suppose.**
 18 **What did you mean by you still wanted to have**
 19 **a relationship?**
 20 A. Well, they're still the California Dental
 21 Association, and all kinds of doctors are a part of the
 22 California Dental Association. So we wanted to make
 23 sure that we continued to work with them and had a good
 24 relationship with them.
 25 **Q. Okay. Going back to this e-mail, you e-mailed**

45 (Pages 177 to 180)

181

1 **Mr. Sullivan directly I noticed. Why did you e-mail**
 2 **Mr. Sullivan directly?**
 3 A. I don't recall the reason.
 4 **Q. So Mr. Steck was your boss at the time that**
 5 **you sent this e-mail, right?**
 6 A. That's correct.
 7 **Q. And you did not include him on the e-mail**
 8 **chain?**
 9 A. That's correct.
 10 **Q. Why not?**
 11 A. At the time, I don't remember, but we do have
 12 an open-door policy at Henry Schein. So e-mailing Tim
 13 directly is not unheard of.
 14 **Q. Did you understand that Mr. Sullivan was the**
 15 **person that you were supposed to talk to about buying**
 16 **group or GPO affiliations?**
 17 A. He wasn't -- I don't remember/recall someone
 18 designating that everything had to go through Tim.
 19 **Q. But was it your practice at the time to**
 20 **discuss GPO or buying group opportunities with**
 21 **Mr. Sullivan?**
 22 A. I would discuss it with both Tim and Dave.
 23 **Q. Okay. Was Mr. Sullivan generally looped into**
 24 **any conversations regarding GPO or buying group**
 25 **opportunities?**

182

1 MR. McDONALD: Object to the form.
 2 A. He was part of conversations regarding buying
 3 groups.
 4 **Q. Did Mr. Steck ever make any decisions about**
 5 **buying groups or GPOs without consulting Mr. Sullivan?**
 6 MR. McDONALD: Objection to form.
 7 A. I don't know.
 8 **Q. Did you ever make any decisions about whether**
 9 **to do business with a GPO or a buying group without**
 10 **consulting Mr. Sullivan?**
 11 A. Not that I recall.
 12 **Q. One more quick question about this document.**
 13 **Just the bottom e-mail is from Mr. Steck. What was**
 14 **Mr. Steck's role at this time?**
 15 A. Kyle?
 16 **Q. Yeah.**
 17 A. He was the regional manager in San Antonio.
 18 **Q. Yes. Thank you for clarifying. Kyle Steck,**
 19 **the regional manager in San Antonio?**
 20 A. Correct.
 21 **Q. Did he report to you?**
 22 A. No. He reported to Dean.
 23 **Q. Dean Kyle?**
 24 A. That's correct.
 25 **Q. Okay. Thank you.**

183

1 A. Okay.
 2 (Exhibit 199, 7/18/2014 E-mail Re:
 3 Co-Op Summary of Conference Call,
 4 was marked for purposes of
 5 identification.)
 6 **Q. So the court reporter has handed you what's**
 7 **been marked as Exhibit 199, which is an e-mail from**
 8 **Kevin Upchurch to you with a CC to Kathleen Titus and**
 9 **Jeff Harmon, dated July 18th, 2014, "Re: Co-Op Summary**
 10 **of Conference Call." Do you see that?**
 11 A. I do.
 12 **Q. Okay. So Mr. Upchurch writes to you about a**
 13 **co-op. In the last sentence of his e-mail he writes,**
 14 **"The co-op is turning into a GPO, in parentheses, even**
 15 **if they don't think they are now. From what KT has**
 16 **observed in Texas, NM, and from Tim S., HSD does not**
 17 **want to enter the GPO world."**
 18 **Do you see that?**
 19 A. I do.
 20 **Q. Do you have an understanding of whether this**
 21 **document or this e-mail is discussing the co-op of Utah**
 22 **that we were referring to earlier?**
 23 A. It is.
 24 **Q. Okay. And do you see that Mr. Upchurch writes**
 25 **that, "From Tim S., HSD does not want to enter the GPO**

184

1 **world"?**
 2 A. I do see that.
 3 **Q. And did Mr. Tim S. inform you that HSD did not**
 4 **want to enter the GPO world?**
 5 A. Again, I don't recall us saying don't do
 6 business with buying groups. It just wasn't part of the
 7 model, at that time, even though we had a relationship
 8 with the co-op.
 9 **Q. Do you understand Tim S. to be Tim Sullivan?**
 10 MR. McDONALD: Object to the form.
 11 A. I believe that's who Kevin is referring to.
 12 **Q. Are there any other Tim S's that you're aware**
 13 **of at Schein?**
 14 A. Not that I'm aware of.
 15 **Q. Okay. And do you have any reason to doubt**
 16 **that Mr. Upchurch believed that, as of the date of this**
 17 **e-mail, that Mr. Sullivan did not want HSD to enter the**
 18 **GPO world?**
 19 MR. McDONALD: Object to the form.
 20 A. Based on his e-mail, it looks like that was
 21 his belief.
 22 **Q. Do you have any idea where Mr. Upchurch would**
 23 **have gotten that belief?**
 24 A. You would have to ask Kevin.
 25 **Q. Did Mr. Sullivan regularly interact with zone**

46 (Pages 181 to 184)

<p style="text-align: right;">185</p> <p>1 managers?</p> <p>2 A. No.</p> <p>3 Q. Do you know whether zone managers ever</p> <p>4 attended meetings that Mr. Sullivan also attended?</p> <p>5 A. Field managers meetings.</p> <p>6 Q. That was the one held once a year in January?</p> <p>7 A. That's correct, and national sales meetings.</p> <p>8 Q. How frequently are the national sales</p> <p>9 meetings?</p> <p>10 A. Once a year, in June.</p> <p>11 Q. Do you recall Mr. Sullivan talking about</p> <p>12 buying groups or GPOs at one of the FMM meetings or</p> <p>13 national sales meetings?</p> <p>14 A. At that particular time, no.</p> <p>15 Q. What about at any point in time?</p> <p>16 A. Later on, so the last year has been a part of</p> <p>17 discussions, and we talked to our leadership team about</p> <p>18 it and gave it more structure.</p> <p>19 Q. That was the past year or so?</p> <p>20 A. Yeah. I would say the last year, the last</p> <p>21 year for sure, we understood it better, and we put a</p> <p>22 process in place on how to work with buying groups.</p> <p>23 Q. Okay. Was that a formalized process?</p> <p>24 A. It was we educated the regional managers on,</p> <p>25 if opportunities were presented to them, this is where</p>	<p style="text-align: right;">187</p> <p>1 then if there's opportunities, we need to discuss them.</p> <p>2 So there was an openness, but still it wasn't a big</p> <p>3 priority to Henry Schein, as far as us growing our</p> <p>4 business.</p> <p>5 Q. That was the direction you got from</p> <p>6 Mr. Sullivan?</p> <p>7 A. That's my interpretation.</p> <p>8 MS. GOFF: Is it time for a break, or should I keep</p> <p>9 going? I can do one more document.</p> <p>10 MR. McDONALD: You can keep going.</p> <p>11 (Exhibit 200, 7/30/2014 E-mail Re:</p> <p>12 MB2 Counterproposal, was marked for</p> <p>13 purposes of identification.)</p> <p>14 A. Okay.</p> <p>15 Q. So the court reporter has handed you what has</p> <p>16 been marked as Exhibit 200.</p> <p>17 A. Yes.</p> <p>18 Q. The top e-mail is from you to Dean Kyle dated</p> <p>19 July 30th, 2014, "Re: MB2 Counterproposal to Henry</p> <p>20 Schein." Do you see that?</p> <p>21 A. (No verbal response.)</p> <p>22 Q. So this e-mail chain discusses a company</p> <p>23 called Dental Gator. Do you know, do you recall that</p> <p>24 company?</p> <p>25 A. I do.</p>
<p style="text-align: right;">186</p> <p>1 you send those opportunities, so...</p> <p>2 Q. And so where are regional managers supposed to</p> <p>3 present opportunities about buying groups?</p> <p>4 A. So if the regional manager receives an</p> <p>5 opportunity, they would talk to their zone manager. And</p> <p>6 the zone manager would either make myself or Jake aware</p> <p>7 of it. And now that we have the APC team, we would then</p> <p>8 have Darci and/or Matt engage in discussions, just do</p> <p>9 discovery, understand more about the buying group.</p> <p>10 Q. Okay. So prior to the last year or so, you</p> <p>11 don't recall any direction from Tim Sullivan about</p> <p>12 buying groups?</p> <p>13 A. I don't recall Tim giving any direction at the</p> <p>14 FMSN to the leadership about buying groups.</p> <p>15 Q. What about outside of those meetings? I'm</p> <p>16 asking you generally. My question was, prior to the</p> <p>17 last year or so, do you recall any direction from Tim</p> <p>18 Sullivan about the buying groups?</p> <p>19 A. Outside of that it wasn't part of our normal</p> <p>20 business model at the time? I mean, that was really the</p> <p>21 only discussions that we had.</p> <p>22 Q. Okay. So was there any direction from</p> <p>23 Mr. Sullivan about business models, about the buying</p> <p>24 group business model?</p> <p>25 A. It was -- it was, again, understanding it; and</p>	<p style="text-align: right;">188</p> <p>1 Q. What is Dental Gator?</p> <p>2 A. Dental Gator was a relationship that was out</p> <p>3 there that an elite DSO named MB2, called MB2, had</p> <p>4 created to, as the e-mail says, essentially be an MSO,</p> <p>5 but what it turned into was just offering their DSO</p> <p>6 pricing to private practices.</p> <p>7 Q. Okay. And was that problematic for Schein?</p> <p>8 A. Yeah, because the problem was that, one, it</p> <p>9 was not in the agreement to do that, but, two, those</p> <p>10 doctors, those offices, weren't part of a DSO.</p> <p>11 Q. So MB2 was offering DSO prices to private</p> <p>12 practices that were not a member of the DSO, or were</p> <p>13 not --</p> <p>14 A. Were not -- were not -- yeah. Were not a part</p> <p>15 of the DSO.</p> <p>16 Q. Okay. And why did that cause concern for</p> <p>17 Schein?</p> <p>18 A. Well, one is that they weren't supposed to do</p> <p>19 that per agreement, but, two, is that would set a</p> <p>20 precedent for any DSO to take our pricing and our</p> <p>21 services and put those private practice customers under</p> <p>22 their umbrella, which is not what the agreement is with</p> <p>23 DSOs and not what we agreed to do with them.</p> <p>24 Q. So what this DSO was trying to do was create a</p> <p>25 buying group separate from -- I mean, separate from the</p>

189

1 **DSO and offer the same prices to the buying group as**
 2 **they were receiving from the DSO?**
 3 MR. McDONALD: Object to form.
 4 A. Dental Gator ended up turning into some loose
 5 from of a buying group.
 6 **Q. Okay. And it was a subsidiary or something of**
 7 **MB2?**
 8 A. I don't know exactly how it was, how it would
 9 be classified by MB2, but...
 10 **Q. Dental Gator had some sort of relationship**
 11 **with MB2?**
 12 A. Yeah. It was MB2's program.
 13 **Q. Okay. So let's look at the July 28th, 2014**
 14 **e-mail from Andrea Hight at 10:37 a.m. And it starts on**
 15 **Bates-stamped 90502.**
 16 A. Okay.
 17 **Q. Okay. And she writes in No. -- or Letter A,**
 18 **"The PVA includes MB2 with Dental Gator as a subsidiary.**
 19 **MB2 and Dental Gator have been included together from**
 20 **the start and at the request of MB2 owners, in**
 21 **parentheses, who own DG." And then B says, "The**
 22 **language specifically states the PBA terms cannot be**
 23 **used for any GPO purposes."**
 24 **So is that the language that the PBA states,**
 25 **that it cannot be used for any GPO purposes; is that**

190

1 **what you understand that to mean?**
 2 A. After -- according to Andrea and reading the
 3 e-mail, yes.
 4 **Q. Have you ever seen a PBA that prevents a**
 5 **company from forming a GPO?**
 6 MR. McDONALD: Object to the form.
 7 A. The language is not in it like that, but the
 8 DSO -- the pricing agreement is with the DSO. It's to
 9 be used for the DSO group.
 10 **Q. So what's your understanding of what it means**
 11 **when it says "for GPO purposes"?**
 12 A. When they were using the terminology
 13 incorrectly, but that would be buying group, when they
 14 were offering the pricing that they were getting from a
 15 DSO to private practice dentists.
 16 **Q. And so those PBAs specifically prohibited MB2**
 17 **from doing that?**
 18 A. According to B, that's what it states.
 19 **Q. Okay. Do you know -- strike that.**
 20 **Turning to Dean Kyle's e-mail of July 29th,**
 21 **2014, it's on the page Bates-stamped 90501.**
 22 A. Yes.
 23 **Q. He writes, "Seriously, dot, dot, dot, 25**
 24 **percent less 10 percent MB2 rebate less Dentrax ROI of 8**
 25 **percent," and then, in parentheses, "2K/25K, leaving HSD**

191

1 **to gross 7 percent. Stop the madness."**
 2 **Are you able to understand the math that**
 3 **Mr. Dean Kyle is doing here?**
 4 A. Not completely, but...
 5 **Q. So the 25 percent, what is -- do you have an**
 6 **understanding of what that is a reference to?**
 7 A. I have to go back and read the document to see
 8 where he's getting 25 percent from.
 9 **Q. Well --**
 10 A. I'm not seeing -- I'm not seeing where he's
 11 getting 25 percent.
 12 **Q. Okay. But do you understand that it means**
 13 **that he has calculated, whether it's right or wrong,**
 14 **that if HSD sells to Dental Gator, that it will only**
 15 **gross 7 percent?**
 16 A. That those are Dean's comments.
 17 **Q. Is that how you read this?**
 18 A. I read his comments that way, yes.
 19 **Q. Okay. And is gross, is that a reference to**
 20 **gross margin?**
 21 MR. McDONALD: Object to the form.
 22 A. If I'm following his thought process, it looks
 23 like that's what he's referring to.
 24 **Q. Okay. And is that less than Henry Schein**
 25 **Dental's typical gross margins?**

192

1 A. Yes.
 2 **Q. What are Henry Schein Dental's typical gross**
 3 **margins?**
 4 A. On merchandise, it can be anywhere from -- it
 5 definitely varies, but it can be anywhere from 23 to 35.
 6 **Q. Okay. Thanks. So then, turning to your**
 7 **e-mail, which is on the page Bates-stamped 90500, it's**
 8 **the July 29th, 2014 e-mail, from you to Dean Kyle. You**
 9 **wrote, "I just sent a message to Tim and Dave that they**
 10 **need to reign in our corp team with the GPOs that are**
 11 **out there." What did you mean by that?**
 12 A. Again, this was going and starting a
 13 transition, and we were uncovering these relationships
 14 and agreements that we had no idea existed and didn't
 15 understand. So the ask was for them to go to the
 16 special markets team and say, "We've got to get on the
 17 same page, because we don't -- we've never seen this
 18 before and we need help."
 19 **Q. In your e-mail, when you wrote "corp team," is**
 20 **that a reference to special markets?**
 21 A. Yeah, corporate accounts team.
 22 **Q. Okay. Do you sometimes refer to DSOs as**
 23 **corporate accounts?**
 24 A. So the special markets name has changed from
 25 corporate accounts to special markets back to special

193

1 markets to corporate accounts several times. So you may
 2 see that. It means the same thing.

3 **Q. Thank you. Are you referring to Tim Sullivan**
 4 **and Dave Steck in this e-mail?**

5 A. I am.

6 **Q. So did you -- were you asking Tim and Dave to**
 7 **prevent the corporate team or the corporate account team**
 8 **from dealing with GPOs?**

9 MR. McDONALD: Object to the form.

10 A. The ask was for structure, education,
 11 understanding, and what was going on, and what
 12 agreements were out there.

13 **Q. So you were just asking for Mr. Steck and**
 14 **Mr. Sullivan to -- what were you asking them to do?**

15 A. To communicate with our special markets teams
 16 to ask what deals are going on, what's happening out
 17 there, because it was impacting all aspects of the
 18 business and it was very confusing, what was happening.

19 **Q. Okay. Earlier you testified that, around the**
 20 **time of the transition, you said "We were uncovering**
 21 **relationships that we had no idea existed." Who was the**
 22 **"we" that you were referring to?**

23 A. Pretty much the team from Henry Schein Dental,
 24 the leadership team.

25 **Q. Okay. And so you were uncovering**

194

1 **relationships that the corporate accounts team had**
 2 **fostered?**

3 A. Dental Gator would be an example.

4 **Q. And then the following e-mail, from Dean Kyle**
 5 **to you, he wrote, "We really need to shut the Dental**
 6 **Gator down," and then he continued. And you responded,**
 7 **"I agree, as this is the second big GPO we will be**
 8 **shutting down. Co-op is the other."**

9 **What did you mean by the "this is the second**
 10 **big GPO we will be shutting down"?**

11 A. As we discussed earlier with the Utah co-op,
 12 we weren't in alignment anymore. It didn't make sense
 13 for us to do business, so we walked away from that
 14 relationship. That was one, and Dental Gator would be
 15 the second one.

16 **Q. Okay. So what did you mean by "shut down"?**

17 A. Well, walking away from doing business. The
 18 co-op and Dental Gator were different -- were different
 19 situations, but they were both equally confusing. So,
 20 once again, we had a discussion with the right people
 21 from the customer's standpoint, and we shut down the
 22 co-op. And I don't believe -- I don't know what Dental
 23 Gator is right now, today. I don't know if they still
 24 exist or not.

25 **Q. Do you know whether HSD has a relationship**

195

1 **with Dental Gator?**

2 A. No. I know special markets has relationships
 3 with MB2, but Dental Gator has not been on my radar for
 4 a while.

5 MS. GOFF: Okay. Let's take a break.
 6 (A short recess was had.)
 7 (Exhibit 201, 11/3/15 E-mail Re:
 8 KlearImpakt Buying Group, was marked
 9 for purposes of identification.)

10 **Q. The court reporter handed you what has been**
 11 **marked as Exhibit 201, which is an e-mail from Jake**
 12 **Meadows to you, dated November 3rd, 2015, "Re:**
 13 **KlearImpakt Buying Group"?**

14 A. I see it.

15 **Q. Have you had a chance to review it?**

16 A. (No verbal response.)

17 **Q. Then let me know when you have.**

18 A. I have read it.

19 **Q. So the bottom e-mail, which starts at the**
 20 **bottom of the Bates-stamped 4474 and continues to 4475,**
 21 **is an e-mail from Tim Sullivan. And it says, "Jake, you**
 22 **slid me a note about this group during the SM budget**
 23 **meeting. I had just informed Hal, in parentheses, and**
 24 **team that we do not have plans to open up new buying**
 25 **groups but have a plan ready to roll, if needed. Did we**

196

1 **just recently add KlearImpakt? Who are they? Where,**
 2 **etc.?" Do you see that?**

3 A. I do.

4 **Q. Do you recall the SM budget meeting Mr.**
 5 **Sullivan is referencing here?**

6 A. I was not in that meeting.

7 **Q. Do you know whether Mr. Meadows was in that**
 8 **meeting?**

9 A. Based on the e-mail exchange, it sounds like
 10 he was in that meeting.

11 **Q. Okay. Any idea or any sense of why**
 12 **Mr. Meadows was at the meeting, but you were not?**

13 A. Could have been travel, could have been
 14 schedules.

15 **Q. Okay. Do you know, does "SM" refer to special**
 16 **markets here?**

17 A. It does.

18 **Q. All right. So the e-mail eventually gets**
 19 **forwarded to you. And you said -- or Jake Meadows, I**
 20 **guess, added you, and said, "Adding Joe since this group**
 21 **is west. He can explain in detail."**

22 **So what was the KlearImpakt buying group?**

23 A. They were based out of Reno, Nevada. They are
 24 a value proposition to private practice dentists and
 25 that they had been consultants, working with a different

49 (Pages 193 to 196)

197	<p>1 group for a while, that had garnered a following. And</p> <p>2 they were putting together their own educational program</p> <p>3 for the dentists that followed Sallis Brothers. So it</p> <p>4 was a long process of discovery and talking to them and</p> <p>5 vetting it out, but they're a buying group in Reno,</p> <p>6 Nevada.</p> <p>7 Q. And did Schein start selling to that buying</p> <p>8 group?</p> <p>9 A. We did.</p> <p>10 Q. And when did Schein start selling to the</p> <p>11 buying group?</p> <p>12 A. I don't recall the exact date; but based on</p> <p>13 the e-mails, it would have to be in 2016.</p> <p>14 Q. What makes you say that?</p> <p>15 A. Because November of 2015 on these e-mails, and</p> <p>16 I don't recall us having the agreement in place with</p> <p>17 KlearImpakt at that time.</p> <p>18 Q. So Mr. Sullivan asked Mr. Meadows, "Did he</p> <p>19 just recently add KlearImpakt?" And so was it your</p> <p>20 understanding that, as of the date of this e-mail,</p> <p>21 November of 2015, you had not had a formal agreement to</p> <p>22 work with KlearImpakt?</p> <p>23 MR. McDONALD: Object to the form.</p> <p>24 A. Yeah. At this point, I don't believe we had</p> <p>25 an agreement with KlearImpakt.</p>	199	<p>1 business standpoint. So both parties need to bring a</p> <p>2 value proposition to the table, and their value</p> <p>3 proposition was educating the private practice dentists.</p> <p>4 Q. So why doesn't it make sense, from a business</p> <p>5 standpoint, for Henry Schein to do business with a</p> <p>6 buying group that just wants to pass on the Henry Schein</p> <p>7 value?</p> <p>8 A. Well, oftentimes, a buying group will ask for</p> <p>9 a rebate back to the corporate entity; and if we are</p> <p>10 going to do business with buying groups and all they're</p> <p>11 using is Henry Schein's pricing and the value that Henry</p> <p>12 Schein brings to the table, it really doesn't make sense</p> <p>13 for us to engage with that because we could do that on</p> <p>14 our own.</p> <p>15 Q. Henry Schein can engage with the customers,</p> <p>16 the end users, the dentists on their own?</p> <p>17 A. Yeah. We consider them our customers still.</p> <p>18 We do.</p> <p>19 Q. Okay. So one more question about</p> <p>20 Mr. Sullivan's e-mail to Jake. He wrote, "I had just</p> <p>21 informed Hal and team." Who is Hal, if you have an</p> <p>22 understanding of who Hal is?</p> <p>23 A. I do. Hall is the president of special</p> <p>24 markets.</p> <p>25 Q. What's his last name?</p>
198	<p>1 Q. Were you involved in the negotiation with</p> <p>2 KlearImpakt?</p> <p>3 A. I was.</p> <p>4 Q. And you testified KlearImpakt is a buying</p> <p>5 group; is that right?</p> <p>6 A. I did.</p> <p>7 Q. And what made you decide to enter into an</p> <p>8 agreement with KlearImpakt?</p> <p>9 A. Well, it's the end of 2015 now, so there was a</p> <p>10 lot of things that we've learned. The industry has</p> <p>11 changed. And the story of KlearImpakt, with the</p> <p>12 educational component, they had built the facility.</p> <p>13 They were bringing real value to members of their -- of</p> <p>14 their group from an educational standpoint. And they</p> <p>15 have a following that they could influence.</p> <p>16 So when we met with them -- and I didn't meet</p> <p>17 with them every single time, by any means -- they were</p> <p>18 just aligned with us, they had a good business</p> <p>19 proposition, and it seemed like a sound business</p> <p>20 decision to work with KlearImpakt.</p> <p>21 Q. Okay. And why was it important to you that</p> <p>22 KlearImpakt was bringing real value to their members?</p> <p>23 A. Because a buying group that just wants to pass</p> <p>24 the Henry Schein value on as their own, without putting</p> <p>25 their own value to it, does not make sense for us from a</p>	200	<p>1 A. Muller.</p> <p>2 Q. Thank you. And did you understand that Henry</p> <p>3 Schein Dental did not have plans to open up new buying</p> <p>4 groups as of the date of this e-mail?</p> <p>5 A. The key there is plans to open up and then</p> <p>6 have a plan ready to roll if needed. We had had deeper</p> <p>7 discussions and thought processes were changing and</p> <p>8 there was definitely openness to vetting out buying</p> <p>9 groups.</p> <p>10 Q. And what was the plan that was ready to roll,</p> <p>11 if needed?</p> <p>12 A. I don't know specifically what he's referring</p> <p>13 to there.</p> <p>14 Q. Okay. Do you know, separate from this e-mail,</p> <p>15 whether there was a plan, at this time, to roll out</p> <p>16 something related to buying groups?</p> <p>17 A. I really don't know what he's referring to in</p> <p>18 this e-mail.</p> <p>19 Q. Okay. Okay. You can put that one aside.</p> <p>20 A. Okay.</p> <p>21 Q. While working at Henry Schein, do you have the</p> <p>22 occasion to attend trade shows?</p> <p>23 A. I do.</p> <p>24 Q. And in your current position, how frequently</p> <p>25 do you attend trade shows?</p>

201	<p>1 A. I attend anywhere from two to four a year.</p> <p>2 Q. Did you attend more trade shows when you were</p> <p>3 in your prior roles as zone manager?</p> <p>4 A. Zone manager, no. Well, regional shows, yes.</p> <p>5 So it was probably within the two-to-four range, also,</p> <p>6 as zone manager.</p> <p>7 Q. Okay. And what is the purpose of attending</p> <p>8 these trade shows?</p> <p>9 A. Supporting the dental society, and then we</p> <p>10 also do have some engagement with the customer. We're</p> <p>11 hoping, as a company, that we can sell products and sell</p> <p>12 equipment. But the shows have really gone down, so</p> <p>13 we're there to support the dental societies.</p> <p>14 Q. What is to be gained by supporting the dental</p> <p>15 societies?</p> <p>16 A. Partnerships. It's how the dental industry</p> <p>17 has been, and, you know, we want to make sure that we're</p> <p>18 keeping relationships healthy and strong with the dental</p> <p>19 societies.</p> <p>20 Q. Is that because the dental societies have</p> <p>21 members that are potential customers or customers for</p> <p>22 Schein?</p> <p>23 A. It's part of it, but we also do different</p> <p>24 outreach programs. It's a relationship with the dental</p> <p>25 societies. It doesn't go much further than that, I</p>	203	<p>1 A. Sure.</p> <p>2 Q. You mentioned, "We attend regional shows and</p> <p>3 attend the A shows, which are the bigger shows." What</p> <p>4 are the shows that you're referring to?</p> <p>5 A. So I'm referring to the regional shows. The</p> <p>6 Oregon Dental Society will have one. Seattle will have</p> <p>7 one for Washington. Utah will have one. And then you</p> <p>8 have the CDAs, you have the Hinman, the Greater New</p> <p>9 York, the Chicago Midwinter. So there's, I believe,</p> <p>10 roughly -- and there's some specialty shows. So I</p> <p>11 believe there's, roughly, 70 shows.</p> <p>12 Q. Roughly, 70 shows that are on the schedule and</p> <p>13 that have been on the schedule for a long time that</p> <p>14 someone from Henry Schein attends those shows?</p> <p>15 A. Yes. Yes.</p> <p>16 Q. Okay. And you mentioned the A shows, the</p> <p>17 bigger shows, are those like more national shows, or</p> <p>18 what are those?</p> <p>19 A. Yeah. Within the industry, there's bigger</p> <p>20 shows. So we have CDA North and South, Chicago</p> <p>21 Midwinter, Hinman, and then the Greater New York, and</p> <p>22 then wherever the ADA is that year.</p> <p>23 Q. What's the ADA?</p> <p>24 A. The American Dental Association.</p> <p>25 Q. So is that a complete list of what you would</p>
202	<p>1 guess.</p> <p>2 Q. Is the main purpose of attending trade</p> <p>3 association shows to interface with the end consumers?</p> <p>4 MR. McDONALD: Object to the form.</p> <p>5 A. From Henry Schein's end of things, we would</p> <p>6 like to interact with end consumers. Yeah, because we</p> <p>7 would want it to be a sales show.</p> <p>8 Q. Okay. How do you personally decide which</p> <p>9 trade shows to attend?</p> <p>10 A. We pretty much have a schedule of trade shows</p> <p>11 that we attend. We attend the regional shows and we</p> <p>12 attend the what we call A shows, which are the bigger</p> <p>13 shows. So it's the show schedule has been in place for</p> <p>14 a long period of time, and we just follow the show</p> <p>15 schedule.</p> <p>16 Q. Okay. So what are the regional shows that you</p> <p>17 attend?</p> <p>18 A. That I have attended, or --</p> <p>19 Q. Well, you said the schedule has been in place</p> <p>20 for a long period of time and we follow the schedule.</p> <p>21 So I'm trying to get a list of what is on that schedule.</p> <p>22 MR. McDONALD: So you don't mean "you," generally?</p> <p>23 You mean, "you," Henry Schein?</p> <p>24 MS. GOFF: Sure. Let me just ask a different</p> <p>25 question.</p>	204	<p>1 consider to be the A shows?</p> <p>2 A. Yeah. Yes.</p> <p>3 Q. Okay. So is the Texas Dental Association show</p> <p>4 one of the, roughly, 70 shows that has been on the</p> <p>5 schedule for a long time and that someone from Henry</p> <p>6 Schein typically attends?</p> <p>7 A. Yes.</p> <p>8 Q. Okay. Do you ever see competitors at trade</p> <p>9 shows?</p> <p>10 A. Competitors are on the floor at the trade</p> <p>11 show, yes.</p> <p>12 Q. And have you ever attended a trade show in</p> <p>13 which Patterson or Benco did not attend?</p> <p>14 MR. McDONALD: You mean one, or the other, or both?</p> <p>15 Q. Have you ever -- I'll ask a different</p> <p>16 question.</p> <p>17 Have you ever been to a trade show in which</p> <p>18 Benco did not attend?</p> <p>19 A. And we attended and they did not?</p> <p>20 Q. Correct.</p> <p>21 A. Not that I'm aware of. Possibly the TDA last</p> <p>22 year.</p> <p>23 Q. Okay. You're not sure?</p> <p>24 A. I'm not positive if they were there or not.</p> <p>25 Q. What about Patterson? Can you think of any</p>

205

1 trade shows that Schein attended but Patterson did not
 2 attend?
 3 A. The TDA last year.
 4 **Q. And so Schein attended the TDA last**
 5 **year?**
 6 A. We did.
 7 **Q. Was it beneficial? Was Schein benefited by**
 8 **the fact that Patterson did not attend the TDA last**
 9 **year?**
 10 MR. McDONALD: Object to the form.
 11 A. I didn't -- I didn't recognize any great
 12 benefit.
 13 **Q. Did Schein interface with customers of**
 14 **Patterson at the TDA?**
 15 MR. McDONALD: Object to the form.
 16 A. We interacted with customers. I don't know
 17 who held the majority of the business with those
 18 customers.
 19 **Q. All right. Do you know whether, as a result**
 20 **of the TDA last year at that show, whether Schein gained**
 21 **any business from Patterson?**
 22 A. No, I don't know that.
 23 **Q. Okay. You don't know either**
 24 **way?**
 25 A. I don't know either way.

206

1 (Exhibit 202, 9/30/2013 E-mail Re:
 2 TDA Perks Problem, was marked for
 3 purposes of identification.)
 4 A. Okay.
 5 **Q. So Exhibit 202 is an e-mail chain between you**
 6 **and Mr. Dean Kyle dated September 30th, 2013, "Re: TDA**
 7 **Perks Problem." Do you see that?**
 8 A. I do.
 9 **Q. So Mr. Dean Kyle wrote, in the bottom e-mail,**
 10 **"Big buzz in Texas, dot, dot, calls coming in all**
 11 **day. Seems the Texas Dental Association perks program**
 12 **has signed a deal with a distributor to sell product at**
 13 **35 percent off, in parentheses, not sure off what?"**
 14 **Was this the first that you had heard about**
 15 **the Texas Dental Association signing a deal with the**
 16 **distributor to sell product?**
 17 A. From my recollection, yes.
 18 **Q. Okay. And did you understand this to mean**
 19 **that TDA would be competing with Schein in the sales of**
 20 **dental supplies?**
 21 A. At this point, I don't believe I understood
 22 what was happening, or what was going on, or what it
 23 meant.
 24 **Q. Did you ever come to understand that TDA was**
 25 **competing with Schein in the dental product sales**

207

1 market?
 2 MR. McDONALD: Object to the form.
 3 A. So down the road we learned that the TDA was
 4 endorsing a competitor and having that competitor
 5 endorsed on the floor of the TDA.
 6 **Q. What competitor was that?**
 7 A. It turned out -- the fulfillment end of it
 8 turned out to be One Source.
 9 **Q. Was it SourceOne?**
 10 A. SourceOne, sorry.
 11 **Q. Okay. Did it concern you that the TDA was**
 12 **endorsing a competitor?**
 13 A. We didn't -- we weren't happy with the fact
 14 that there was going to be a specific dealer endorsed at
 15 that show. It never happened before.
 16 **Q. And why weren't you happy about it?**
 17 A. Because those state association shows are an
 18 unbiased show. And the relationship between dental
 19 associations and all of the different constituents
 20 of the dental industry, it's not supposed to be
 21 favored.
 22 So we were paying to be on at their show as a
 23 business decision that they were endorsing someone other
 24 than Henry Schein to do business, that the doctors did
 25 business with. It didn't make sense.

208

1 (Exhibit 203, 10/16/2013 E-mail Re:
 2 Ron Fernandez call, was marked for
 3 purposes of identification.)
 4 A. Okay.
 5 **Q. Okay. So the court reporter handed you what**
 6 **has been marked as Exhibit 203. The top e-mail is an**
 7 **e-mail from Tim Sullivan to you with a CC to Dave Steck**
 8 **dated October 16th, 2013, "Re: Ron Fernandez call."**
 9 **Do you see that?**
 10 A. I do.
 11 **Q. Okay. Let's turn to the oldest e-mail first.**
 12 **The bottom e-mail begins on Bates-stamped page 799.**
 13 **That's an e-mail from Mr. Glenn Showgren to Dean Kyle**
 14 **and you. Do you see that?**
 15 A. I do.
 16 **Q. Did you supervise Mr. Showgren at the time of**
 17 **this e-mail?**
 18 A. No. I supervised Dean. Glenn reported to
 19 Dean.
 20 **Q. So what was Glenn's job title at the time of**
 21 **this e-mail?**
 22 A. Regional manager of San Antonio.
 23 **Q. And what was Dean's title?**
 24 A. Zone manager. At that time, it was the
 25 Southwest zone.

52 (Pages 205 to 208)

209	211
<p>1 Q. Okay. Thank you. And the subject is "Ron Fernandez call." Do you know who Ron Fernandez is?</p> <p>2 A. I do know who Ron Fernandez is.</p> <p>3 Q. Who is he?</p> <p>4 A. Ron used to work for Henry Schein; at this</p> <p>5 time, he was regional manager for Benco.</p> <p>6 Q. Do you know him personally?</p> <p>7 A. I've met him and have had conversations with</p> <p>8 him when he was at Henry Schein, but brief.</p> <p>9 Q. Did you keep in touch with him after he left?</p> <p>10 A. No.</p> <p>11 Q. And what was his job position at Schein?</p> <p>12 A. An equipment specialist. He sold equipment</p> <p>13 for us.</p> <p>14 Q. So Mr. Showgren writes, "Call was mostly about</p> <p>15 the TDA merch program. The bullet points for Glenn are</p> <p>16 below."</p> <p>17 Did Glenn Showgren inform you that he was</p> <p>18 going to speak with Mr. Ron Fernandez before he did so?</p> <p>19 A. No.</p> <p>20 Q. Did you ask him to prepare bullet points on</p> <p>21 the call?</p> <p>22 A. No.</p> <p>23 Q. What is your understanding of why he wrote,</p> <p>24 "The bullet points for Joe are below"?</p> <p>25</p>	<p>1 A. I do.</p> <p>2 Q. And do you have an understanding of what he</p> <p>3 meant by "pulling out of the state show"?</p> <p>4 A. Not attending the show.</p> <p>5 Q. So Benco was considering not attending the TDA</p> <p>6 trade show?</p> <p>7 MR. McDONALD: Object to the form.</p> <p>8 A. That's what I'm reading, "pulling out of the</p> <p>9 show."</p> <p>10 Q. Okay. And then you wrote, in the second</p> <p>11 bullet point, "Chuck Cohen will be reaching out to, or</p> <p>12 has reached out to, Tim Sullivan to see if HSD would do</p> <p>13 the same thing."</p> <p>14 Do you see that?</p> <p>15 A. I do.</p> <p>16 Q. Who is Chuck Cohen?</p> <p>17 A. Chuck Cohen is the owner of Benco.</p> <p>18 Q. Okay. Then next, it says, "Ron wanted to know</p> <p>19 if I have a relationship with local PDCO RM to see if</p> <p>20 they would consider pulling out as well."</p> <p>21 What's your understanding of what "PDCO"</p> <p>22 means?</p> <p>23 A. Patterson Dental.</p> <p>24 Q. And then is "RM" regional manager?</p> <p>25 A. Yes.</p>
210	212
<p>1 MR. McDONALD: Object to the form.</p> <p>2 A. Glenn knows how many e-mails I get, and he had</p> <p>3 a history of writing very long e-mails. And I told him</p> <p>4 he needs to bullet point the e-mail he sends me in the</p> <p>5 future.</p> <p>6 Q. Okay. So you asked him to put all of his</p> <p>7 e-mails to you in bullet-point form?</p> <p>8 A. That going forward I told him, if I was going</p> <p>9 to read his e-mails, he had to bullet point them.</p> <p>10 Q. Okay. And so did you read his e-mail when you</p> <p>11 got it?</p> <p>12 A. From what I recall.</p> <p>13 Q. And what's your understanding of why</p> <p>14 Mr. Showgren sent this e-mail to you?</p> <p>15 MR. McDONALD: Object to the form.</p> <p>16 A. Glenn believed he had information that he</p> <p>17 wanted to share.</p> <p>18 Q. He felt that it was information that you</p> <p>19 should know about?</p> <p>20 MR. McDONALD: Object to the form.</p> <p>21 A. I'm assuming, because Glenn sent it to me.</p> <p>22 Q. Okay. So then the first bullet point is,</p> <p>23 "Benco considering suspending all activities with the</p> <p>24 TDA, including pulling out of the state show."</p> <p>25 Do you see that?</p>	<p>1 Q. Do you know whether Mr. Showgren ever</p> <p>2 contacted anyone at Patterson regarding the TDA trade</p> <p>3 show?</p> <p>4 A. Not to my knowledge.</p> <p>5 Q. Did you ever give Mr. Showgren instructions on</p> <p>6 whether or not he should reach out to someone at</p> <p>7 Patterson about the pulling out of the trade show?</p> <p>8 A. No.</p> <p>9 Q. And then the next bullet is -- well, we can</p> <p>10 skip the next bullet. The last bullet is, "I laid out</p> <p>11 ground rules that I will not, in caps, discuss a pricing</p> <p>12 response, and any action would have to be cleared by my</p> <p>13 legal team before communicating with the TDA." Do you</p> <p>14 see that?</p> <p>15 A. I do.</p> <p>16 Q. Do you have a sense for why Mr. Showgren</p> <p>17 included that bullet point?</p> <p>18 A. I don't.</p> <p>19 Q. Did you ever instruct Mr. Showgren not to</p> <p>20 discuss pricing or pricing responses with competitors?</p> <p>21 A. I don't recall a specific conversation with</p> <p>22 Glenn about that.</p> <p>23 Q. Okay. And was there any policy at Schein not</p> <p>24 to discuss pricing with competitors?</p> <p>25 A. So going back to the Core Pedia training, it</p>

213	<p>1 was known not to, but I don't recall if I specifically 2 had a conversation with Glenn about it.</p> <p>3 Q. Okay. Was there a specific policy at Schein 4 not to discuss pricing with competitors?</p> <p>5 A. Through the Core Pedia training, there was 6 education on it. I don't know if there is a written 7 policy on that.</p> <p>8 Q. Okay. You've never seen a written policy on 9 it?</p> <p>10 A. I don't --</p> <p>11 MR. McDONALD: Object to the form.</p> <p>12 A. I don't recall seeing a written policy.</p> <p>13 Q. Okay. And so these bullet points that are set 14 forth here by Mr. Showgren, those are bullet points 15 regarding the call that he had with Mr. Ron Fernandez, 16 correct?</p> <p>17 A. That's what it appears to be, correct.</p> <p>18 Q. And then after you received this e-mail, what 19 did you do?</p> <p>20 A. It looks like I sent it to Tim, sent an e-mail 21 to Tim.</p> <p>22 Q. And why did you send it to Tim?</p> <p>23 A. It would be an event that I would want him to 24 be aware of.</p> <p>25 Q. Why is that?</p>	215	<p>1 similar discussions between regional managers and 2 competitors?</p> <p>3 MR. McDONALD: Object to the form.</p> <p>4 A. Ask that again.</p> <p>5 Q. Sure. So have you ever heard of or received 6 e-mails about similar discussions to the one that 7 Mr. Showgren was e-mailing you about speaking with a 8 competitor?</p> <p>9 A. Not laid out in an e-mail form like this.</p> <p>10 Q. Okay. Have you heard of, orally, any other 11 conversations between Schein employees and employees of 12 a competitor?</p> <p>13 A. During the course of litigation, I was made 14 aware of some communication.</p> <p>15 Q. Okay. Outside of litigation, do you have any 16 recollection, just from your time and the various 17 positions you've been in at Henry Schein, of receiving 18 any e-mails discussing communications with competitors?</p> <p>19 A. From a competitor, is that what you're asking?</p> <p>20 Q. No, no. From a Schein employee.</p> <p>21 MR. McDONALD: Object to the form. Do you 22 understand her question?</p> <p>23 A. No, I don't.</p> <p>24 Q. I'll reask it. So outside of litigation, do 25 you have any recollection of hearing about anyone from</p>
214	<p>1 A. Because it's the TDA. It's the dental 2 association.</p> <p>3 Q. So the event that you wanted him to be aware 4 of was about the TDA program or --</p> <p>5 A. Of being aware of the TDA, and his name was 6 mentioned in the e-mail from Glenn.</p> <p>7 Q. Okay. Did you want Tim to be aware that there 8 were communications between Mr. Showgren and 9 Mr. Fernandez?</p> <p>10 A. I don't recall if that was the main intent of 11 me sending that to Tim.</p> <p>12 Q. Okay. Sitting here today, what do you think 13 the main intent of you sending it to Tim was?</p> <p>14 A. To make him aware of the TDA, but also that 15 his name was mentioned in an e-mail from Glenn regarding 16 a conversation he had with Ron.</p> <p>17 Q. Okay. So taking the first part, "to make him 18 aware of the TDA," what do you mean by that?</p> <p>19 A. It was that the TDA, the situation was 20 happening, so I was making him aware, giving him an 21 update on the TDA, and his name was mentioned on an 22 e-mail, so I sent it to him.</p> <p>23 Q. Well, what situation?</p> <p>24 A. The TDA perks program.</p> <p>25 Q. Have you heard of or received e-mails about</p>	216	<p>1 Henry Schein talking to competitors?</p> <p>2 A. So competitors try to recruit our reps. So if 3 I hear that someone from Henry Schein is talking to a 4 competitor, it's usually a recruiting situation that I'm 5 aware of.</p> <p>6 Q. So have you heard of Henry Schein employees 7 talking to competitors about recruiting situations?</p> <p>8 A. They are being recruited by the competitor.</p> <p>9 Q. I see. Outside of the recruiting context, 10 have you ever heard of someone from Henry Schein talking 11 to a competitor other than this e-mail that we've just 12 reviewed?</p> <p>13 MR. McDONALD: And outside the context of 14 litigation.</p> <p>15 Q. And outside the context of litigation?</p> <p>16 A. Other than "Hi's" on a show floor, no.</p> <p>17 Q. Okay. All right. So you sent the e-mail to 18 Tim Sullivan. And you wrote, on October 16th, 2013, at 19 6:26 a.m., "I'm not sure if Chuck contacted you about 20 the TDA yet. I do believe we need to have some serious 21 conversations with them about their strategy."</p> <p>22 When you wrote "have serious conversations 23 with them about their strategy," were you referring to 24 conversations with Chuck Cohen or others at Benco?</p> <p>25 MR. McDONALD: Object to the form.</p>

217

1 A. I was referring to conversations with the TDA.
 2 **Q. Do you recall writing this e-mail?**
 3 A. I don't specifically remember writing it,
 4 but...
 5 **Q. How do you know that's what you meant in this**
 6 **e-mail?**
 7 MR. McDONALD: Object to the form.
 8 A. Because when you also start reading the rest
 9 of it, I know we were trying to communicate with the
 10 TDA. And it was new to us, what was going on, so we
 11 needed to have an open dialogue with the TDA.
 12 **Q. So is it your understanding, sitting here**
 13 **today, that you meant, by "them" and "their," that you**
 14 **meant the TDA?**
 15 A. Yes.
 16 **Q. But you don't recall what you meant at the**
 17 **time that you wrote this e-mail?**
 18 MR. McDONALD: Object to the form.
 19 A. I don't remember writing the exact -- typing
 20 the exact e-mail. I don't remember that moment in time.
 21 **Q. Okay. So then you continue to say, "We can**
 22 **start the conversations from the local level, but I'm on**
 23 **board with pulling out of shows if this is the direction**
 24 **dental associations want to take things." Do you see**
 25 **that?**

218

1 A. I do.
 2 **Q. And so what did you mean by "start**
 3 **conversations from the local level"?**
 4 A. The TDA has board members, and we would have
 5 started having discussions with the TDA board members
 6 and hopefully get a meeting with the TDA board.
 7 **Q. What did you mean by "local level"?**
 8 A. They have doctors that are local, and they are
 9 in various parts of Texas. So we would have a
 10 conversation with them locally, and then what ultimately
 11 ended up happening was one of those doctors was the
 12 reason why we got in front of the TDA board.
 13 **Q. So were the doctors that you're referring to**
 14 **members of the TDA?**
 15 A. So I was very general there. I didn't know
 16 the doctors. But we had had conversations. The doctor
 17 that ultimately got us the meeting with the TDA was a
 18 member of the TDA.
 19 **Q. Okay. And what did you mean by the second**
 20 **part of the sentence, "If this is the direction dental**
 21 **associations want to take things"?**
 22 A. Well, once again, we make a business decision
 23 to attend dental shows, and we pay the money to the
 24 dental associations. So if they were going to endorse
 25 competitors who were paying to be at their show, it's

219

1 really not smart. It's our choice not to be there.
 2 **Q. So by "the direction dental associations want**
 3 **to take things," you meant endorsing competitors?**
 4 A. Yes.
 5 **Q. And then moving up later on in the e-mail**
 6 **chain, so it's on the first page ending in Bates-stamped**
 7 **79098, there is an e-mail on October 16th, 2013, at**
 8 **5:57 a.m. from Tim Sullivan. And, he wrote, in the last**
 9 **sentence of the e-mail, "Pulling from show is a major**
 10 **move, which I'm not opposed to, but I want to make sure**
 11 **we've exhausted all other options." Do you see that?**
 12 A. I do.
 13 **Q. Did you agree with him that pulling from a**
 14 **show was a major move?**
 15 A. We haven't done it before, so it was something
 16 that would be different for sure.
 17 **Q. And you had attended the TDA show -- Schein**
 18 **had attended the TDA show for many years prior to this**
 19 **time?**
 20 A. Yes.
 21 **Q. Any idea how long?**
 22 A. No.
 23 **Q. And then you wrote, in response, "I will send**
 24 **again. We are not at the, quote --**
 25 **THE REPORTER: I'm sorry. I can't hear.**

220

1 **Q. "We are not at the, quote, debt ceiling time**
 2 **line, but it is a good idea that we discuss our reaction**
 3 **to the TDA positioning themselves as a competitor."**
 4 **Do you see that?**
 5 A. I do.
 6 **Q. So you felt that TDA was positioning**
 7 **themselves as a competitor; is that right?**
 8 A. Well, at the moment, I wasn't sure what the
 9 TDA was doing. So without having any knowledge of their
 10 plans or doing any discovery with them or having a
 11 conversation, it was lining up to be that way.
 12 **Q. Based on the information you had received as**
 13 **of the date of this e-mail, it looked like TDA was**
 14 **positioning themselves as a competitor?**
 15 A. Yeah.
 16 **Q. Okay. Do you recall any discussions about the**
 17 **possibility of pulling out of the TDA meeting prior to**
 18 **this e-mail chain?**
 19 A. I don't recall.
 20 **Q. You don't recall either way, or you don't**
 21 **recall any discussions?**
 22 A. I know -- I know discussions were happening,
 23 and we were trying to get a meeting with the TDA. And
 24 one of the options was not to attend the TDA. The
 25 timing of those discussions, I don't know specifically

55 (Pages 217 to 220)

221

1 if they happened prior to this e-mail or not.
 2 (Exhibit 204, 12/16/13 E-mail RE:
 3 TDA Perks-Equipment, was marked for
 4 purposes of identification.)

5 A. Okay.

6 **Q. Okay. So the court reporter has handed you**
 7 **what has been marked as Exhibit 204. The top e-mail is**
 8 **an e-mail from Dave Steck to Tim Sullivan with a CC to**
 9 **you, dated December 16th, 2013, "Re: TDA**
 10 **Perks-Equipment."**

11 **Turning to the e-mail dated December 13th,**
 12 **2013, it's on the page with the Bates stamp ending in**
 13 **79898. It's from Dean Kyle to you?**

14 A. Okay.

15 **Q. And Mr. Kyle writes, in the last sentence,**
 16 **"FYI, Patterson pulled out of convention. I firmly**
 17 **believe they made the move expecting us to follow suit."**
 18 **Do you see that?**

19 A. I do.

20 **Q. Is Mr. Kyle informing you that Patterson**
 21 **pulled out of the TDA convention?**

22 A. When he puts "FYI Patterson pulls out of the
 23 convention," he does write that, yeah.

24 **Q. Yes. Did you understand him to mean the TDA**
 25 **convention?**

222

1 A. I did.

2 **Q. And do you know how Mr. Kyle got that**
 3 **information?**

4 A. I do not.

5 **Q. Do you know whether Mr. Kyle spoke with anyone**
 6 **at Patterson about the TDA?**

7 A. Not to my knowledge, he did not.

8 **Q. Did you ever ask Mr. Kyle about whether he**
 9 **spoke with anyone at Patterson?**

10 A. No, I didn't.

11 **Q. Did you ever ask him how he got the**
 12 **information that Patterson pulled out of the convention?**

13 A. No. I just figured he got it off of the Web
 14 site or something, a booth of exhibitors.

15 **Q. The TDA Web site?**

16 A. (No verbal response.)

17 MR. McDONALD: You need to say -- you need to say
 18 yes.

19 A. Yes. Sorry.

20 **Q. Do you know why Mr. Kyle was providing you**
 21 **with this information?**

22 A. During this whole time, we were, again, trying
 23 to understand what was going on, trying to get a meeting
 24 with the TDA, and it was just the dates.

25 **Q. And why do you think he was providing you an**

223

1 **update about what Patterson was doing?**

2 A. I don't know.

3 **Q. Do you think he thought it was important to**
 4 **you, what Patterson was doing?**

5 MR. McDONALD: Object to the form.

6 A. You'd have to ask Dean that.

7 **Q. Okay. You said that you've -- when I asked**
 8 **you how Mr. Kyle got the information that Patterson**
 9 **pulled out of the convention, you said you figured he**
 10 **got it off the Web site or something, a booth of**
 11 **exhibitors.**

12 **So you're assuming that he got the information**
 13 **that Patterson pulled out of the convention from some**
 14 **publicly available Web site?**

15 A. That was the assumption.

16 **Q. Did you ever ask him specifically?**

17 A. I did not.

18 **Q. Okay. And where -- strike that.**

19 **Does the TDA typically post a both of**
 20 **exhibitors on a Web site?**

21 A. Yeah. That's how I found out we weren't
 22 going.

23 **Q. Okay. And how long, prior to the convention,**
 24 **does that list of exhibitors go up on the Web site?**

25 A. I don't know specifically.

224

1 **Q. Do you know if it happens months before the**
 2 **actual convention?**

3 A. We'd have to ask our events team. I could not
 4 give you a date.

5 **Q. Okay. So then Mr. Kyle writes, after he said**
 6 **Patterson pulled out of the convention, he wrote, "I**
 7 **firmly believe they made the move expecting us to follow**
 8 **suit."**

9 **What is your understanding of why he expected**
 10 **Schein to follow suit?**

11 MR. McDONALD: Object to the form.

12 A. I don't know.

13 **Q. What is your understanding of where he would**
 14 **have gotten that belief?**

15 MR. McDONALD: Object to the form.

16 A. In his own mind.

17 **Q. Is that your understanding, or was that just**
 18 **your guess?**

19 A. I don't know.

20 **Q. Did you follow up with him to ask him why he**
 21 **believed that Patterson made the move expecting Schein**
 22 **to follow suit?**

23 A. No.

24 **Q. Did you think it was strange that he said to**
 25 **you that he firmly believed that Patterson made the move**

56 (Pages 221 to 224)

225

1 **expecting Schein to follow suit?**

2 A. I don't remember what I was thinking once I
3 read that e-mail.

4 **Q. Okay. Sitting here today, do you think it's
5 strange that he informed you that he believed that
6 Patterson made the move expecting Schein to follow suit?**

7 A. I just read it as his opinion.

8 **Q. So you don't think it's weird or strange?**

9 A. I just think it was his opinion. I'm not
10 thinking it's weird.

11 **Q. All right. So then you responded by, it looks
12 like, forwarding that e-mail to Tim Sullivan and Dave
13 Steck. Do you see that?**

14 A. I do.

15 **Q. Okay. And you wrote, in the second sentence,
16 "I'm leaning towards pulling out of the TDA, but will
17 not do this until I talk to you guys." Do you see that?**

18 A. I do.

19 **Q. And why were you leaning towards pulling out
20 of the TDA at this time?**

21 A. From what I recall, we were not successful at
22 all in trying to get a meeting with the TDA after
23 several tries. And because it was silent, that was what
24 I was thinking about.

25 **Q. So you mentioned a few times that you were**

227

1 or agree with the recommendation.

2 **Q. So Tim had the ultimate authority which would
3 be informed by someone's recommendation?**

4 A. That's correct.

5 **Q. Whose recommendation?**

6 A. Mine.

7 **Q. And so did Tim ultimately make a decision with
8 regard to whether to pull out of the TDA?**

9 A. Yes.

10 **Q. And what was his decision?**

11 A. That we were -- well, what ended up happening
12 is, with the conversations with the TDA, after the
13 discussions with them, they actually removed us from the
14 TDA, but we were working towards not going to TDA, and
15 Tim was in agreement with that.

16 **Q. And starting when were you working towards not
17 going to the TDA?**

18 A. The discussions were taking place, and we
19 finally got a meeting with the TDA, which was, roughly,
20 at the beginning of April, I believe. We hadn't made a
21 decision for that long a period of time until we were
22 able to meet with them in Vegas.

23 **Q. So at what point did you first start trying to
24 get a meeting with TDA?**

25 A. With Dean and the local team?

226

1 **trying to get a meeting with the TDA. Why were you
2 trying to get a meeting with the TDA?**

3 A. Well, it's important that you have a dental
4 association that you partnership with for a long time,
5 have a partnership with for a long time, you want to
6 understand the direction they're heading and get the
7 facts rather than just the word on the street or what
8 we're hearing from dentists.

9 **Q. And so did you reach out to someone at TDA to
10 try to get a meeting?**

11 A. The local team and Dean were trying to get
12 that meeting.

13 **Q. What local team?**

14 A. The local managers, and Dean Kyle was heading
15 that up.

16 **Q. Local managers at Schein?**

17 A. That's correct.

18 **Q. And as of the date of this e-mail, on December
19 23rd, were they successful in getting a meeting with
20 TDA?**

21 A. From what I recall, they were not.

22 **Q. Okay. Who had authority to make the ultimate
23 decision whether to pull out of the TDA?**

24 MR. McDONALD: Object to the form.

25 A. In the HSD world, Tim had to make the decision

228

1 **Q. Yes.**

2 A. The discussions started taking place, I want
3 to say, back in November of '13.

4 **Q. Did you instruct Dean and the local team to
5 try to get a meeting with TDA?**

6 A. We wanted to have -- it started off with they
7 were trying to talk to the TDA on their own, and I was
8 being updated on if we were successful with getting any
9 of the meetings with the TDA. So, yeah, then it
10 became -- it came on my radar. If I was going to meet
11 with the TDA, we've got to talk to them.

12 **Q. And you said that the discussions about trying
13 to get a meeting with the TDA started in November of
14 2013?**

15 A. That's what I recall when they started to try
16 to get the meeting.

17 **Q. Okay. And were you involved at that point?**

18 A. I was not.

19 **Q. How did you find out that they were trying to
20 get a meeting?**

21 A. Through a conversation and discussions.

22 **Q. Okay. And were they updating you in realtime;
23 like, in November of 2013, were you getting information
24 about attempts to contact TDA?**

25 A. In that time period of November/December, I

229

1 know it was mentioned to me that we were still
2 attempting to get a meeting. We had a meeting with TDA
3 and we hadn't been successful.

4 (Exhibit 205, Cavaretta E-mail to
5 Alguire, was marked for purposes of
6 identification.)

7 A. Okay.

8 **Q. Okay. So the court reporter has handed you
9 what's been marked as Exhibit 205, which is an e-mail
10 from you to Todd Alguire?**

11 A. Alguire.

12 **Q. Alguire. Thank you. Dated February 26th,
13 2014, "Re: TDA Conversation." Who is Todd Alguire?**

14 A. He is an FSC in the San Antonio region.

15 **Q. Okay. So you wrote, in your e-mail, "I'm
16 pretty positive PDCO is out. And if not, they will be
17 when we pull out after April 2nd." Do you see that?**

18 A. I do.

19 **Q. And what made you say that you were pretty
20 positive that PDCO was out?**

21 A. Based on some of the exchanges we saw today
22 and what I understood was happening, that they were out.

23 **Q. So based on the e-mail from Mr. Kyle that we
24 looked at earlier, it said that PDCO is not attending
25 the convention?**

231

1 **they got the information that Patterson was not
2 attending the convention?**

3 A. No, I didn't.

4 **Q. And why were people telling you that Patterson
5 was not attending?**

6 MR. McDONALD: Object to the form.

7 A. Why were people telling me that?

8 **Q. Yes.**

9 MR. McDONALD: Object to the form.

10 **Q. Did you have an understanding of why you were
11 being informed by individuals at Schein that Patterson
12 was not attending TBA?**

13 A. No. At the time, it was really irrelevant to
14 me.

15 **Q. So you were confused why someone would tell
16 you that Patterson was not attending the convention?**

17 A. No, I wasn't confused. It was irrelevant. It
18 didn't matter to me.

19 **Q. Why didn't it matter?**

20 A. Because what they did or what they were doing
21 had no impact on the decision that or the recommendation
22 I was going to make on whether we attended or not. It
23 was our decision solely.

24 **Q. So whether or not Patterson went to the
25 convention was not relevant to you?**

230

1 A. That would be one of the points of reference,
2 yeah.

3 **Q. And then you said, "from what I understood was
4 happening." What do you mean by that?**

5 A. Can you frame that up for me?

6 **Q. So I asked you what made you say that you were
7 pretty positive that PDCA was out -- PDCO was out. And
8 you said, "It's based on some of the changes we saw
9 today and what I understood was happening."**

10 A. Yeah. So the events team, the public forum,
11 there was just people internally and then out in the
12 field telling me that they weren't going, so...

13 **Q. Do you recall anyone other than Mr. Kyle
14 telling you that Patterson was not going?**

15 A. A specific person, not that I recall.

16 **Q. Generally, what types of people are you
17 referring to besides Mr. Kyle?**

18 A. As far as people in the field?

19 **Q. Yeah. People who told you that Patterson was
20 not going to the convention?**

21 A. I don't know. I don't recall specific names.
22 I just know that that was conversations. I had been at
23 sales meetings in front of sales teams, so that was the
24 understanding or the word on the street.

25 **Q. And did you ask any of those sales teams where**

232

1 A. Not to me, no.

2 **Q. So why were you discussing it in this e-mail
3 with Mr. Alguire?**

4 A. Alguire. He references it in his e-mail from
5 a conversation with a customer, which was we were
6 getting a lot of our information from, also. And he
7 mentions it several times in his e-mail. So I was just
8 responding to it.

9 **Q. Right. So Mr. Alguire --**

10 A. Alguire.

11 **Q. Alguire, sorry.**

12 A. It took me a while, too.

13 **Q. He wrote, midway through the second paragraph,
14 "She also felt very strongly that Patterson was going to
15 attend the meeting despite what they had been saying."
16 Do you see that?**

17 A. I do.

18 **Q. And then you responded that you were pretty
19 positive that PDCO was out?**

20 A. I did.

21 **Q. And so what was that based on?**

22 A. Well, the line above also says, "How Patterson
23 was asked to join, but basically said we don't need
24 you," in addition to the information that I was hearing
25 from -- whether it was Dean or from the field, that's

233

1 what I was believing had happened.

2 **Q. Okay. And then you wrote, "And if not, they**
3 **will be when we pull out after April 2nd." Do you see**
4 **that?**

5 A. I do.

6 **Q. So you wrote, "when we pull out after April**
7 **2nd." So as of February 26th, 2014, you were planning**
8 **to pull out of the TDA on April 2nd, correct?**

9 MR. McDONALD: Object to the form.

10 A. On February 26th, we, at that point, were
11 leaning towards pulling out.

12 **Q. Okay. Why didn't you pull out on that date**
13 **then?**

14 A. Because I wanted to have a meeting with the
15 TDA.

16 **Q. Okay. And why didn't -- why was the meeting**
17 **not scheduled until April 2nd?**

18 A. The TDA schedule.

19 **Q. So if the meeting had been earlier in time,**
20 **would Schein have pulled out earlier in time?**

21 MR. McDONALD: Object to the form.

22 A. It would.

23 MR. McDONALD: Don't speculate. If you know,
24 answer the question.
25

235

1 And we presented our side of we didn't
2 understand the direction they were heading, even
3 offering ways to help them with our core development,
4 our business solutions, potentially putting some type of
5 rebate together for the dental society, because they
6 were losing money because people weren't joining the
7 society anymore. We came up with solutions, but it
8 didn't matter. They were so far down the road at that
9 point.

10 **Q. Okay. So were you trying to convince them not**
11 **to do the perks program?**

12 A. We were trying to explain to them that
13 endorsing a competitor at the meeting and really
14 changing the partnership in many ways, that that wasn't
15 necessary, that we have everything to help them.

16 **Q. Okay. So you were trying to explain to them**
17 **or convince them not to endorse the competitor?**

18 A. We were trying to explain to them that it
19 wasn't necessary to endorse a competitor on the floor,
20 and, also, they haven't given us a chance to vet out all
21 of the solutions that we have to offer.

22 **Q. Was there any other reason why Schein pulled**
23 **out of the TDA convention other than the fact that TDA**
24 **was endorsing a competitor?**

25 MR. McDONALD: Object to the form.

234

1 A. Can you ask the question again?

2 **Q. Do you have an understanding of whether, if**
3 **the meeting between TDA and Schein took place earlier in**
4 **time, that Schein would have pulled out earlier in**
5 **time --**

6 MR. McDONALD: Object to the form.

7 **Q. -- assuming everything at the meeting, how it**
8 **went on April 2nd?**

9 A. It all depended on the meeting. So if the
10 meeting would have happened earlier or remained the
11 same, the recommendation would have been similar.

12 **Q. Okay. So did you attend the meeting with TDA?**

13 A. I did.

14 **Q. Was it on or about April 2nd?**

15 A. On or about April 2nd, yes.

16 **Q. Who else attended from Schein?**

17 A. Dean Kyle and Kyle Steck.

18 **Q. Just the three of you?**

19 A. Just the three of us.

20 **Q. And can you just tell me, generally, what**
21 **happened at the meeting?**

22 A. Yeah. We sat down with them and just asked
23 more about the direction the TDA was heading. They laid
24 out their plan to us, and they laid out why they were
25 doing. They believed they needed to do it.

236

1 A. Not that I recall.

2 **Q. So after that meeting, did you come away with**
3 **the belief that Schein would be pulling out of TDA?**

4 A. When we left the meeting, yes. And then there
5 was communication between Dean and the TDA. And, at
6 that time, Dr. Duncan reached out to me. And I think he
7 was the president at the time. And he expressed a
8 desire to talk again, that maybe there was an
9 opportunity that, you know, we could bridge the gap.

10 So we didn't actually officially pull out at
11 that point. That was a holding pattern internally based
12 on a conversation with Dr. Duncan. And then a long
13 story short, I was in -- I think it was Hawaii, and the
14 events team contacted me saying, "Hey, we're no longer
15 on the TDA floor any longer. What's going on?" And I
16 called Dr. Duncan twice. When I finally got ahold of
17 him, he just let me know that there was cooler heads, or
18 his opinion wasn't heard, or I forget how he positioned
19 it, and, therefore, we weren't going to the TDA.

20 **Q. If TDA had decided not to endorse Smile**
21 **Source -- I mean, SourceOne, would Schein have attended**
22 **the TDA convention?**

23 MR. McDONALD: Object to the form.

24 A. If there wasn't a bias towards a competitor on
25 the floor, I don't know why we would have pulled out.

237

1 **Q. So just going back to the chain of events**
 2 **after the meeting, so immediately after the meeting, you**
 3 **came away with the belief that Schein would be pulling**
 4 **out of the TDA?**

5 A. Yes. Yes, because they were not -- here is
 6 what happened. It's that they wanted to meet in June to
 7 hear what we had to say, but they weren't changing their
 8 plans. So the thought that Dean and I had as well was
 9 that we're going to pull out.

10 **Q. And was the convention in April?**

11 A. Yeah. It was -- it was a short period of time
 12 after our meeting. I don't know if it was the end of
 13 April or the beginning of May.

14 **Q. Okay. So then sometime after you left the**
 15 **meeting, Mr. Duncan called you. And it's at that point**
 16 **you felt that maybe things were up in the air and they**
 17 **might not be endorsing SourceOne?**

18 A. Yeah. Dr. Duncan called, and I thought there
 19 was hope that we could figure something out and help
 20 them out.

21 **Q. Okay.**

22 A. Okay.
 23 (Exhibit 206, 4/9/2014 E-mail Re:
 24 Belmont/TDA, was marked for purposes
 25 of identification.)

238

1 **Q. And so the court reporter handed you what has**
 2 **been marked as Exhibit 601, which is an e-mail from Kyle**
 3 **Steck to you and Dean Kyle with a CC to Dave Steck. The**
 4 **court reporter handed you what has been marked as 206,**
 5 **excuse me.**

6 A. Correct.

7 **Q. Okay. In the top e-mail, Mr. Kyle Steck**
 8 **writes, "Ron Fernandez from Benco, in parentheses, S TX**
 9 **Mgr just called me, they are out of TDA." What does "S**
 10 **TX Mgr" mean?**

11 A. South Texas manager.

12 **Q. This is the same Ron Fernandez who Mr. Glenn**
 13 **Showgren had spoken with before, correct?**

14 A. That is correct.

15 **Q. And was this useful information for you to**
 16 **receive?**

17 MR. McDONALD: Object to the form.

18 A. It was an update. It was information on how
 19 useful it was.

20 **Q. So as of April 9th, 2014, had Schein**
 21 **officially pulled out of the TDA?**

22 A. On this date, I believe we had been aware we
 23 were no longer on the floor, and, yeah, we weren't going
 24 to the meeting.

25 **Q. Okay. If Benco had attended the TDA show but**

239

1 **Schein did not, could that potentially have resulted in**
 2 **customers lost to Benco?**

3 MR. McDONALD: Object to the form.

4 A. I don't know.

5 **Q. If Benco attended but Schein did not, do you**
 6 **think that there could have been any competitive**
 7 **advantage to Benco attending?**

8 MR. McDONALD: Object to the form.

9 A. I don't believe so, because our local
 10 customers still do business with Henry Schein.

11 **Q. Local customers in Texas?**

12 A. Yeah. We were also still attending the other
 13 state shows that were happening in Texas, too.

14 **Q. Got it. So there are other state shows?**

15 A. Yeah. Yeah. This was the dental association
 16 show, but all of the -- there were other regional shows
 17 that take place that we were still attending.

18 **Q. Okay. You could put that one aside.**

19 MR. McDONALD: If you're going to mark something
 20 new, could we take a quick break?

21 MS. GOFF: Sure. Off the record.

22 (A short recess was had.)

23 (Exhibit 207, 4/10/2014 E-mail Re:

24 Texas Dental Association, was marked
 25 for purposes of identification.)

240

1 **Q. The court reporter has handed you an Exhibit**
 2 **207, which is an e-mail from you to Tim Sullivan with a**
 3 **CC to Dave Steck, dated April 10th, 2014. Let me know**
 4 **when you've had a chance to review it.**

5 A. I read it.

6 **Q. Okay. So you wrote to Mr. Sullivan, "The mfgs**
 7 **and dealers that we believe have also pulled out are as**
 8 **follows: PDCO, Benco, VOCO, Belmont, Brewer,**
 9 **Axis/Sybron, Sirona, PSA reduced their booth size to**
 10 **tabletop." And then you wrote, "I cannot confirm for**
 11 **sure, Tim, as we are not talking to these companies**
 12 **directly, but we are hearing this from respectable**
 13 **sources."**

14 **Do you see that?**

15 A. I do.

16 **Q. Okay. First, what does "mfgs" refer to?**

17 A. Manufacturers.

18 **Q. Okay. And why did you feel it was necessary**
 19 **to inform Tim of the manufacturers and dealers that you**
 20 **believed pulled out of the show?**

21 MR. McDONALD: Object to the form.

22 A. Just giving a general update.

23 **Q. Did you think that Mr. Sullivan was interested**
 24 **in this information?**

25 A. Considering the topic being a topic of

60 (Pages 237 to 240)

241

1 discussion, it was just a follow-up with him on what was
2 happening.

3 **Q. Did Mr. Sullivan ask you to keep him updated?**

4 A. Not that I recall.

5 **Q. And then, with regard to your last -- or the**
6 **last sentence that I read, which is, "I cannot confirm**
7 **for sure, Tim, as we are not talking to these companies**
8 **directly, but we are hearing this from respectable**
9 **sources," what did you mean by that?**

10 A. Well, in previous e-mails, Tim was clear not
11 talking to anybody outside of Henry Schein or -- so I
12 wanted to make sure he knew we weren't doing that.

13 **Q. Okay. So what did you mean by you were**
14 **hearing it from respectable sources?**

15 A. So we were hearing it from the people in the
16 field that were telling us what was going on, or doctors
17 what were going on, or, of course, on the Web site of
18 the TDA, you know, who was attending the meeting and who
19 was not.

20 **Q. And you said "people in the field." Did you**
21 **mean FSCs?**

22 A. I don't think I was being specific to a group
23 of people.

24 **Q. Okay. So in your testimony just now, you**
25 **said, "so we're hearing it from people in the field."**

242

1 **Who did you mean, and what people in the field?**

2 A. It could be FSCs, ESSs, ETSSs, doctors.

3 **Q. People who worked at Schein?**

4 A. Yes.

5 **Q. What are ESSs?**

6 A. Equipment specialists.

7 **Q. Okay. With regard to Benco, didn't you, in**
8 **fact, learn from Kyle Steck, who spoke directly to a**
9 **Benco employee, about the fact that Benco was not**
10 **attending the TDA?**

11 A. Yes. Mm-hmm. The previous e-mail that was in
12 there.

13 **Q. Okay. So that's Exhibit 206; is that right?**
14 **You can look at it.**

15 A. That would be Exhibit 206.

16 **Q. Okay. So with regard to Benco, you actually**
17 **learned that Benco was pulling out from someone that**
18 **worked for Benco itself?**

19 A. Well, Kyle sent that. I learned from Kyle.

20 **Q. Okay. And Kyle learned from Benco?**

21 A. That's what he states, yes.

22 **Q. So you wrote, "I cannot confirm for sure, Tim,**
23 **as we are not talking to these companies directly, but,**
24 **in fact, Mr. Kyle was speaking with Benco directly,**
25 **correct?**

243

1 MR. McDONALD: Object to the form.

2 **Q. Sorry. Mr. Kyle Steck was speaking with --**
3 **was speaking with Benco directly, correct?**

4 A. I don't know if he received an e-mail from Ron
5 or how he obtained the information, but he mentioned
6 that Ron -- oh, Ron called him, yes.

7 **Q. Okay. So Mr. Kyle Steck was speaking with**
8 **Benco directly?**

9 MR. McDONALD: Object to the form.

10 A. Ron Fernandez did call Kyle directly and let
11 him know in an e-mail.

12 **Q. And why did you tell Tim that, quote, we are**
13 **not talking to these companies directly?**

14 A. Since the update came from me, I believe I was
15 talking on my behalf, but I don't recall exactly.

16 **Q. So your understanding, sitting here today, is**
17 **that by "we," you just meant I?**

18 A. Yeah.

19 **Q. Did Schein pull out of any other trade**
20 **association shows following pulling out of the TDA?**

21 A. Yes, we did.

22 **Q. Which one?**

23 A. Well, we didn't pull out of the show. We
24 didn't sign up for the Arizona Dental Show.

25 **Q. And why was that?**

244

1 A. They were endorsing a competitor again, so it
2 was going to be a biased show.

3 **Q. Okay. And so Schein did not attend the AZDA**
4 **show because of that?**

5 MR. McDONALD: Object to the form.

6 A. Yeah. We decided not to attend that show.

7 **Q. What year was that?**

8 A. In 2014.

9 **Q. Okay. So you testified earlier that Schein**
10 **attended the TDA last year; is that right?**

11 A. We did.

12 **Q. In 2016?**

13 A. Yes.

14 **Q. Okay. Why did Schein attend last year?**

15 A. We were told we were attending.

16 **Q. Told by who?**

17 A. I was told by Tim.

18 **Q. Okay. So Tim Sullivan made the decision for**
19 **Schein to attend?**

20 THE REPORTER: I'm sorry?

21 A. Yeah. Tim told me we were going.

22 **Q. And did you make any recommendations to Tim**
23 **before he made that decision?**

24 A. No.

25 **Q. Do you have an understanding of why Tim made**

61 (Pages 241 to 244)

245

1 the decision to -- for Schein to attend the TDA last
 2 year?
 3 A. You'd have to ask Tim.
 4 **Q. Did he inform you of why he was making that**
 5 **decision?**
 6 A. He let me know we were going.
 7 **Q. Did he give you any more insight into why he**
 8 **made that decision?**
 9 A. Not specifically.
 10 **Q. Generally?**
 11 A. I'm assuming, so, no.
 12 **Q. Aside from telling you that you were going to**
 13 **the TDA, did Tim Sullivan provide any other explanation**
 14 **for why you were going to the TDA?**
 15 A. Not that I recall.
 16 **Q. I wanted to turn back to Exhibit 203 that we**
 17 **looked at earlier.**
 18 A. Okay.
 19 **Q. And then turning, again, to the e-mail from**
 20 **Glenn Showgren with the bullet points starting on the**
 21 **page that ends in Bates number 79099.**
 22 A. Okay.
 23 **Q. Are you there?**
 24 A. I am.
 25 **Q. Okay. Do you have an understanding of why**

246

1 **Mr. Fernandez called Mr. Showgren?**
 2 A. No, I don't.
 3 **Q. And then looking at the bullet point, the**
 4 **fourth bullet point in the e-mail --**
 5 MR. McDONALD: On the next page?
 6 **Q. Yeah, exactly. So it's on the page ending in**
 7 **79100.**
 8 A. Okay.
 9 **Q. I skipped this bullet point earlier, but**
 10 **Mr. Showgren wrote, "I will be having lunch with Ron the**
 11 **week after next to discuss concerns and share what we**
 12 **have found about the program."**
 13 **Why do you think Mr. Showgren is planning to**
 14 **meet with Ron?**
 15 MR. McDONALD: Object to the form.
 16 A. I don't know.
 17 **Q. Did you approve of that meeting?**
 18 A. No.
 19 **Q. Can you think of any reason why Mr. Showgren**
 20 **would want to meet with Ron Fernandez to discuss the**
 21 **TDA?**
 22 A. No.
 23 MR. McDONALD: Object to the form.
 24 **Q. And did you instruct Mr. Showgren not to meet**
 25 **with Ron?**

247

1 A. I did not.
 2 **Q. Do you know whether the meeting took place?**
 3 A. Through the course of litigation, I believe
 4 the meeting took place.
 5 MR. McDONALD: Object to form. Don't speculate.
 6 THE WITNESS: Oh.
 7 MR. McDONALD: If you know, tell her.
 8 A. I don't recall.
 9 **Q. Have you seen e-mails that discuss or lead you**
 10 **to believe that the meeting between Mr. Showgren and Ron**
 11 **Fernandez took place?**
 12 A. I don't recall, at this moment.
 13 **Q. What leads you to believe that the meeting**
 14 **took place?**
 15 MR. McDONALD: Object to the form. Don't
 16 speculate.
 17 A. I don't recall, at this point.
 18 **Q. Did you ever talk to Glenn about whether he**
 19 **met with Ron?**
 20 A. Not that I recall.
 21 **Q. Did you and Mr. Showgren discuss the call that**
 22 **Mr. Showgren had with Ron Fernandez aside from this**
 23 **e-mail?**
 24 A. I don't recall having a conversation with
 25 Glenn about any communication with Ron.

248

1 **Q. Okay. Did you have a discussion with anyone**
 2 **about the communication that Glenn had with Ron?**
 3 A. Not that I recall.
 4 **Q. So you said, at the time of this e-mail, Glenn**
 5 **Showgren was a regional manager; is that right?**
 6 A. I did.
 7 **Q. And at some point, he changed positions?**
 8 A. He did.
 9 **Q. What did he change to again?**
 10 A. He moved to the California zone manager, and
 11 then Kyle Steck replaced Glenn.
 12 **Q. Do you know, approximately, when Glenn**
 13 **Showgren moved to the California zone manager position?**
 14 A. The beginning of 2014.
 15 **Q. Okay. Is there any relation between Kyle**
 16 **Steck and Dave Steck?**
 17 A. Yes.
 18 **Q. What is the relation?**
 19 A. David is Kyle's father.
 20 **Q. Okay. And then going to the last bullet point**
 21 **in Mr. Showgren's e-mail, he wrote, "I laid out ground**
 22 **rules that I will not discuss pricing response and any**
 23 **action will have to be cleared by my legal team before**
 24 **communicating with the TBA." Do you sea that?**
 25 A. I do.

62 (Pages 245 to 248)

249	<p>1 Q. What is your understanding of what you meant 2 by "any action would have to be cleared by my legal team 3 before communicating with TDA"? 4 A. I have no idea. 5 Q. Did you understand it to mean that action by 6 Schein to communicate with TDA? 7 MR. McDONALD: Object to the form. 8 A. You'd have to ask Glenn. 9 Q. Do you have an understanding of -- well, 10 scratch that. 11 Is there any prohibition that you are aware of 12 about communicating with the TDA, of Schein 13 communicating with the TDA? 14 A. Not that I'm aware of. 15 Q. Can you think of any reason why a 16 communication with the TDA would need to be cleared by a 17 legal team? 18 MR. McDONALD: Object to the form. 19 A. Not that I'm aware of. 20 Q. Do you understand Mr. Showgren's e-mail to be 21 referring to an action by Benco and Schein together to 22 be communicating with the TDA? 23 MR. McDONALD: Object to the form. 24 A. Not that I'm aware of. 25 Q. Before you spoke with TDA, did you need to get</p>	251	<p>1 and then acknowledging that, based on the discussions 2 that were in the e-mails, we were fully aware that Andy 3 was going to continue on with the co-op with other 4 dealers. 5 Q. Who was Andy? Was he the head of the Dental 6 Co-Op of Utah, or something like that? 7 A. Yes. 8 Q. And what other dealers did you understand that 9 they were going to continue doing business with? 10 MR. McDONALD: Object to form. 11 A. Based on the e-mail, I believe one of our team 12 members were suggesting who they would do business with, 13 but Andy was saying they were going to -- they were 14 going to have nonexclusive dealers. So I don't recall 15 if he stresses or specifies which dealers he would be 16 doing business with. 17 Q. Just off of your recollection sitting here 18 today, do you recall who the Dental Co-Op of Utah ended 19 up using as a dealer? 20 A. As we sit here today, I do not. 21 MS. GOFF: Okay. I don't have any other questions, 22 but thank you very much for coming in today. I 23 appreciate it. I know it's been a long day. And I 24 think, with that, we can close the deposition 25 investigation hearing.</p>
250	<p>1 clearance from your legal team? 2 A. Not that I recall. 3 Q. Can you think of any reason why you would need 4 to? 5 A. Based on what was happening then, I wouldn't 6 have -- I don't recall getting any type of -- 7 THE REPORTER: I can't hear. 8 A. I don't recall getting any type of guidance 9 from the legal team. 10 Q. Schein regularly communicates with dental 11 associations; is that right? 12 A. Team members, yeah. 13 Q. Okay. Earlier we discussed that, at some 14 point, Schein stopped doing business with the Dental 15 Co-Op of Utah. Do you remember that? 16 A. Yes. Yes. 17 Q. Was there any concern that your competitors 18 would start doing business with the Dental Co-Op of Utah 19 once you stopped? 20 A. Sure. There's a -- there is -- when you end a 21 relationship, there is an opening for a competitor. 22 Q. Was that something that you considered before 23 deciding to terminate the relationship with the dental 24 co-op? 25 A. I believe we decided to end the relationship,</p>	252	<p>1 MR. McDONALD: I want to visit to see if I have any 2 clarifying questions. 3 MS. GOFF: Okay. We can go off the record. 4 (Discussion off the record.) 5 MR. McDONALD: We don't have any questions. Thank 6 you. 7 MS. GOFF: Thank you. 8 (Off the record at 5:21 p.m.) 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>

253

ACKNOWLEDGMENT OF DEPONENT

I, JOE CAVARETTA, do hereby acknowledge that I have read and examined the foregoing testimony, and the same is a true, correct and complete transcription of the testimony given by me and any corrections appear on the attached Errata sheet signed by me.

DATE SIGNATURE

254

CERTIFICATE OF COURT REPORTER - NOTARY PUBLIC

I, Jennifer L. Bernier, Certified Shorthand Reporter No. 084-004190, RPR, CRR, the officer before whom the foregoing deposition was taken, do hereby certify that the foregoing transcript is a true and correct record of the testimony given; that said testimony was taken by me stenographically and thereafter reduced to typewriting under my direction; that reading and signing was not discussed; and that I am neither counsel for, related to, nor employed by any of the parties to this case and have no interest, financial or otherwise, in its outcome.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my notarial seal this 31st day of May, 2017.

My commission expires: June 24, 2020

Notary Public in and for the State of Illinois

BY MR. SOLOMON:

Q. Mr. Foley, you're appearing here today pursuant to a subpoena issued by the Federal Trade Commission; is that correct?

A. Yes.

Q. And I've placed a document in front of you which was marked as Exhibit 289. Do you understand that to be the subpoena compelling your testimony here today?

A. Yes.

Q. Do you understand, Mr. Foley, that you're testifying under oath and are obligated to provide true and correct information?

A. Yes.

Q. And do you understand the consequences under federal perjury laws of providing untruthful information while testifying under oath?

A. Yes.

Q. Mr. Foley, you mentioned you haven't given sworn testimony before; is that right?

A. Correct.

Q. Okay. So just a few ground rules. As you probably recognize, everything you're saying -- we're saying here today is being recorded by our Court Reporter, so we want to keep two things in mind. First

6

San Francisco, California
 Wednesday, July 12, 2017
 RANDY FOLEY,
 having been first duly sworn by the reporter, was examined and testified as follows:
 ---o0o---

[Whereupon, Deposition Exhibit 289 was marked for identification.]

EXAMINATION

BY MR. SOLOMON:

Q. Good morning, Mr. Foley. Thanks for being here today. My name is Ronnie Solomon, and I'm an attorney with the Federal Trade Commission. With me this morning is my colleague, Lin Kahn, also an attorney with the Federal Trade Commission. And also sitting in on today's proceeding is Grace Paek, who is one of our summer law clerks.

This investigational hearing is being conducted as part of the Commission's investigation of Schein in matter Number 1510190.

For the record, would counsel please state their appearance?

MR. McDONALD: Yeah, John McDonald and Lauren Fincher, both on behalf of Henry Schein and the witness.

8

please try to avoid gestures or head nods as answers. Please try and clearly verbalize all of your answers for me. Okay?

A. Yes.

Q. The second thing is we need to try not to interrupt each other. So if you could just let me finish my question before providing an answer, that would be helpful. Okay?

A. Yes.

Q. If you don't understand something or if you're having trouble hearing me, just let me know, and I'll do my best to rephrase or re-ask the question.

A. Will do.

Q. Okay. Perfect.

We'll take breaks today from time to time. If at any time you need a break, please just let me know, and we can take a break as long as there's no question pending. Is that okay?

A. Yes.

Q. Mr. Foley, is there any reason why you can't provide complete and truthful testimony here today?

A. No.

Q. How did you prepare for today's deposition?

A. I met with counsel next to me for a few hours yesterday.

9	<p>1 Q. Mr. McDonald?</p> <p>2 A. Yes.</p> <p>3 Q. Did you review any documents?</p> <p>4 A. Just -- yes.</p> <p>5 Q. Do you recall how many documents you reviewed?</p> <p>6 A. I would guess -- sorry -- 12, 15.</p> <p>7 Q. Did you do anything else to prepare for</p> <p>8 today's investigational hearing?</p> <p>9 A. No.</p> <p>10 Q. Okay. Mr. Foley, what is your highest level</p> <p>11 of education?</p> <p>12 A. I have a bachelor's of business from the</p> <p>13 University of Michigan.</p> <p>14 Q. Do you hold any other degrees, Mr. Foley?</p> <p>15 A. No, just that.</p> <p>16 Q. You were previously employed by Henry Schein;</p> <p>17 is that correct?</p> <p>18 A. Correct.</p> <p>19 Q. Schein is a distributor of dental supplies; is</p> <p>20 that correct?</p> <p>21 A. Correct.</p> <p>22 Q. Are you currently retired?</p> <p>23 A. Yes.</p> <p>24 Q. Do you hold any employment at the moment?</p> <p>25 A. No.</p>	11	<p>1 Q. And what is Soft Tech, Incorporated?</p> <p>2 A. We had a dental software program for group</p> <p>3 practices.</p> <p>4 Q. Were you employed prior to that?</p> <p>5 A. For six years prior to that, I managed a</p> <p>6 dental office and dental lab.</p> <p>7 Q. And when did you begin that employment?</p> <p>8 A. Six years prior to -- math here would be 1983</p> <p>9 so -- I'm sorry. '88. It would be about '82. Okay.</p> <p>10 Q. Prior to that, did you hold any other</p> <p>11 employment?</p> <p>12 A. From graduation in 1977 till 1982, I was a</p> <p>13 cost accountant at a company called Federal-Hewitt, a</p> <p>14 scrap metal automotive supplier.</p> <p>15 Q. Any other employment that you haven't already</p> <p>16 mentioned?</p> <p>17 A. No.</p> <p>18 Q. So my understanding is that you worked at</p> <p>19 Henry Schein since 2003; is that correct?</p> <p>20 A. Correct.</p> <p>21 Q. Have you been in the special markets division</p> <p>22 that whole time?</p> <p>23 A. Nearly. From 2003, the software division, I</p> <p>24 fell under special markets even though I was with the</p> <p>25 software division for a few years. Then the software</p>
10	<p>1 Q. What was your position at Schein prior to your</p> <p>2 retirement?</p> <p>3 A. I was vice president of sales, field sales for</p> <p>4 special markets.</p> <p>5 Q. And when did you hold that position?</p> <p>6 A. I became vice president about three years ago.</p> <p>7 Q. 2014?</p> <p>8 A. 2013.</p> <p>9 Q. Prior to that, did you hold any other</p> <p>10 positions at Henry Schein?</p> <p>11 A. From 2009 to 2013, I was a director in that</p> <p>12 same title but a director title in special markets.</p> <p>13 Q. Did you hold a position at Henry Schein prior</p> <p>14 to director of special markets?</p> <p>15 A. Correct. Yes. From 2003 to 2009, I was the</p> <p>16 national sales manager for our software division, Henry</p> <p>17 Schein Practice Solutions.</p> <p>18 Q. What about prior to -- strike that.</p> <p>19 What about prior to 2003, were you employed by</p> <p>20 Henry Schein?</p> <p>21 A. No.</p> <p>22 Q. What were you -- what was your employment</p> <p>23 prior to 2003?</p> <p>24 A. The 16 years prior to 2003, I was a software</p> <p>25 salesperson for Soft Tech, Incorporated out of Detroit.</p>	12	<p>1 division was independent of special markets until I</p> <p>2 came in 2009 and took my role back with special</p> <p>3 markets.</p> <p>4 Q. You were working in special markets</p> <p>5 continually from 2009 until your retirement?</p> <p>6 A. Correct.</p> <p>7 Q. What does "special markets" refer to?</p> <p>8 A. It refers to nontraditional dentists, private</p> <p>9 practices. So any provider that is not a private</p> <p>10 dentist, special markets would deal with that type of</p> <p>11 client.</p> <p>12 Q. Is Henry Schein Special Markets separate from</p> <p>13 Henry Schein Dental?</p> <p>14 A. It's a separate division from Henry Schein</p> <p>15 Dental, yes.</p> <p>16 Q. In what ways are the two entities separate?</p> <p>17 MR. McDONALD: Object to the form; calls for a</p> <p>18 legal conclusion.</p> <p>19 You can give your understanding.</p> <p>20 THE WITNESS: That our -- Henry Schein Dental</p> <p>21 focused on private practices, and Henry Schein Special</p> <p>22 Markets focused on non-private dentists.</p> <p>23 BY MR. SOLOMON:</p> <p>24 Q. So you mentioned your position as a director</p> <p>25 from 2009 to 2013 and then your position as a vice</p>

13	<p>1 president of sales from 2013 until your retirement.</p> <p>2 A. That is correct.</p> <p>3 Q. What was the difference in your duties and</p> <p>4 responsibilities between those two titles?</p> <p>5 A. In 2009 when I became vice president, I then</p> <p>6 managed a couple of other directors of other divisions</p> <p>7 within special markets which included our federal team</p> <p>8 sales and our dental school division within special</p> <p>9 markets. Those two people now would report to me.</p> <p>10 Those two divisions, those two segments within special</p> <p>11 markets now fell underneath me.</p> <p>12 Q. I'm sorry. You go ahead.</p> <p>13 A. Prior to that those two did not fall under me.</p> <p>14 Q. You mentioned a moment ago when you became</p> <p>15 vice president in 2009.</p> <p>16 Did you mean in 2013?</p> <p>17 A. I'm sorry. I meant 2013.</p> <p>18 Q. So the difference between your position as a</p> <p>19 director and as a vice president was that as a vice</p> <p>20 president you oversaw two additional divisions; is that</p> <p>21 right?</p> <p>22 A. Correct, with director roles.</p> <p>23 Q. Apart from that, were there any other</p> <p>24 differences between your titles -- strike that.</p> <p>25 Apart from that, were there any other</p>	15	<p>1 MR. SOLOMON: Directly.</p> <p>2 THE WITNESS: Directly, I had about a dozen.</p> <p>3 BY MR. SOLOMON:</p> <p>4 Q. How many employees reported to you indirectly?</p> <p>5 A. Another dozen. So a total of -- 12 direct, 12</p> <p>6 indirect, approximately.</p> <p>7 Q. Of the different customer segments that</p> <p>8 special markets focused on, were you particularly</p> <p>9 knowledgeable about any one in particular?</p> <p>10 A. Can you repeat that?</p> <p>11 Q. Sure. Of the different customer segments that</p> <p>12 special markets focused on, were you particularly</p> <p>13 knowledgeable about any one segment in particular?</p> <p>14 A. At the end my focus was the DSO segment. The</p> <p>15 other segments were moved to another division such as</p> <p>16 community health centers, but DSOs became a major</p> <p>17 focus.</p> <p>18 Q. What is a DSO?</p> <p>19 A. It's a dental service organization. It's</p> <p>20 basically any -- we defined any group of dentists or</p> <p>21 practices that had three or more locations as a dental</p> <p>22 service organization. We defined anybody above 20 as</p> <p>23 an elite dental service organization.</p> <p>24 Q. Why were DSOs a major focus for Henry Schein</p> <p>25 Special Markets?</p>
14	<p>1 differences between your positions as director and vice</p> <p>2 president?</p> <p>3 A. No.</p> <p>4 Q. Okay. What were your general duties and</p> <p>5 responsibilities as vice president of sales and special</p> <p>6 markets?</p> <p>7 A. I was focused on field sales team numbers, as</p> <p>8 all salespeople under all of those divisions worked out</p> <p>9 of their homes and would travel to their customers. So</p> <p>10 I oversaw all people out on the field and was</p> <p>11 responsible for our community health segment; our DSO,</p> <p>12 dental service organizations; our institutional</p> <p>13 customers such as correctional facilities; our federal</p> <p>14 division which oversaw military bases and VA hospitals.</p> <p>15 And that would be it.</p> <p>16 Q. You managed all of the field sales</p> <p>17 representatives within the special markets division?</p> <p>18 A. I had -- directly I managed the people in</p> <p>19 community health centers, DSOs, and the institutional</p> <p>20 accounts. My directors of school managed directly</p> <p>21 their team, and the manager and director of federal</p> <p>22 directly managed his team, but eventually they all</p> <p>23 reported up to me.</p> <p>24 Q. How many employees did you manage?</p> <p>25 MR. McDONALD: Directly?</p>	16	<p>1 MR. McDONALD: Object to the form.</p> <p>2 Go ahead.</p> <p>3 THE WITNESS: That is where we started when we</p> <p>4 started special markets, is with the DSO segment, and</p> <p>5 it was one of the fastest-growing segments in the</p> <p>6 market. And we saw, obviously, a need for a different</p> <p>7 approach to that group, that segment of the business.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. Mr. Foley, in your position as vice president</p> <p>10 and director of special markets, were you a part of</p> <p>11 Schein's dental leadership team?</p> <p>12 MR. McDONALD: Object to form.</p> <p>13 THE WITNESS: If I was not part of the</p> <p>14 personal, the private HSD dental team and I was</p> <p>15 included in certain meetings, but not at the executive</p> <p>16 level at Schein.</p> <p>17 BY MR. SOLOMON:</p> <p>18 Q. And when I was referring to Schein's dental</p> <p>19 leadership team, I should clarify. I'm just focusing</p> <p>20 on the larger dental business within Henry Schein.</p> <p>21 A. Okay. My main focus was always special</p> <p>22 markets, period, for the most -- period.</p> <p>23 Q. Did you develop overall strategy for special</p> <p>24 markets?</p> <p>25 A. I contributed to the strategy of special</p>

17	<p>1 markets, yes.</p> <p>2 Q. How did you contribute?</p> <p>3 A. I would assist with how we would acquire more</p> <p>4 customers within the segments. I would work with our</p> <p>5 marketing teams, with our -- our service teams, our</p> <p>6 software teams as to figure out how to work closely</p> <p>7 with them in finding new customers and growing our</p> <p>8 customer base. So I would do a business plan based on</p> <p>9 those criteria on a yearly basis.</p> <p>10 Q. How did special markets work to acquire more</p> <p>11 customers within the focus customer segments?</p> <p>12 A. Through doing a good job and word of mouth</p> <p>13 that we were a good company to work with, but my sales</p> <p>14 team actively pursued, you know, new contacts, new</p> <p>15 leads, and tried -- and worked at closing those. We</p> <p>16 developed tools to help close them.</p> <p>17 We worked trade shows specifically to those</p> <p>18 segments. We would work, for example, community health</p> <p>19 centers had trade shows in Illinois and other states.</p> <p>20 We also set up in the community health centers</p> <p>21 relationships with a number of prominent buying groups</p> <p>22 that would promote community health centers.</p> <p>23 We also would work with organizations within</p> <p>24 the DSO segment such as the ADSO, and sponsor meeting</p> <p>25 with them and participate in them.</p>	19	<p>1 A. Let's say the ADSO for a membership wanted us</p> <p>2 to join their association or sponsor their association,</p> <p>3 or if a customer wanted us to be part of an</p> <p>4 appreciation event, whatever that could be, if there</p> <p>5 was an issue with somebody being invoiced improperly,</p> <p>6 or if somebody -- a customer needed some type of</p> <p>7 compensation for, you know, us messing up something, I</p> <p>8 could authorize anything up to \$25,000.</p> <p>9 Initially it was 10,000.</p> <p>10 Q. Were there any decisions that you needed to</p> <p>11 seek authority from someone above you for?</p> <p>12 MR. McDONALD: Object to the form; overly</p> <p>13 broad.</p> <p>14 Go ahead.</p> <p>15 THE WITNESS: Yes, I would always pass on for</p> <p>16 the most part. I was uncomfortable at a certain level.</p> <p>17 Let's say it was over \$5,000. I would copy this to my</p> <p>18 boss, Hal Muller, and the head of -- the CFO of our</p> <p>19 division, Ilene Rosenbaum, and explain what I was</p> <p>20 needing to do.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. Who is Hal Muller?</p> <p>23 A. Hal Muller is president of special markets,</p> <p>24 and he was my direct report to.</p> <p>25 Q. When did you first start reporting to</p>
18	<p>1 Q. What is ADSO?</p> <p>2 A. ADSO? The ADSO stand for, I think, the</p> <p>3 Association of Dental Service Organizations. It's the</p> <p>4 group of DSOs, their own meeting, unlike state meetings</p> <p>5 for private dentists. It's unique to them.</p> <p>6 Q. What is a community health center?</p> <p>7 A. A community health center is a federally</p> <p>8 qualified community health center referred to as a</p> <p>9 FQHC. I don't know the designation. I think it's a</p> <p>10 5013(c) type of group. It's a -- includes a board of</p> <p>11 director, a C-suite, provides dental, medical -- like a</p> <p>12 CFO, CEO. C-suite, s-u-i-t-e.</p> <p>13 And they provide care to the indigent.</p> <p>14 Q. In your position as a director and a vice</p> <p>15 president of special markets, what decisions did you</p> <p>16 have the authority to make?</p> <p>17 A. I had decisions on certain pricing</p> <p>18 flexibility. I had decisions on giving customers</p> <p>19 credit for issues that they may have had. I had</p> <p>20 responsibility authorization up to \$25,000 without</p> <p>21 approval on giving any kind of marketing material,</p> <p>22 whatever I felt necessary for the moment to -- to</p> <p>23 handle any situations.</p> <p>24 Q. You mentioned a \$25,000 authorization. What</p> <p>25 were you authorized to do with \$25,000?</p>	20	<p>1 Mr. Muller?</p> <p>2 A. Again, he was part of special markets when I</p> <p>3 started in software division at 2003. So I didn't</p> <p>4 directly report to Hal Muller at that time. In 2009 I</p> <p>5 directly reported to Hal Muller.</p> <p>6 Q. And Mr. Muller was based in Melville, New</p> <p>7 York; is that right?</p> <p>8 A. Correct.</p> <p>9 Q. And where were you based?</p> <p>10 A. I was home based out of Detroit.</p> <p>11 Q. Were you based in Detroit during your entire</p> <p>12 time at special markets?</p> <p>13 A. My entire time at Henry Schein.</p> <p>14 Q. Did you ever have meetings with Mr. Muller</p> <p>15 while you were a VP and director of special markets?</p> <p>16 A. On a regular basis, yes.</p> <p>17 Q. How often would you meet with Mr. Muller?</p> <p>18 MR. McDONALD: Object to the form.</p> <p>19 You mean in person? Is that what you're --</p> <p>20 asking?</p> <p>21 MR. SOLOMON: I'm just referring to any sort</p> <p>22 of meetings.</p> <p>23 MR. McDONALD: Okay.</p> <p>24 MR. SOLOMON: In person, phone, e-mail.</p> <p>25 THE WITNESS: Well, on e-mail and phone, we</p>

21	<p>1 talked on a regular basis and e-mailed on a regular</p> <p>2 basis. I would try to get to Melville once every two</p> <p>3 months. And then Hal and I would co-travel to certain</p> <p>4 customer events together and attend certain trade shows</p> <p>5 together.</p> <p>6 BY MR. SOLOMON:</p> <p>7 Q. When you say you would e-mail on a regular</p> <p>8 basis, does that mean every day?</p> <p>9 A. Hal? E-mail Hal?</p> <p>10 Q. I'm still referring to Hal.</p> <p>11 A. No, not every day.</p> <p>12 Q. How often would -- let me ask the question.</p> <p>13 What does "regular basis" refer to?</p> <p>14 A. A few times a week.</p> <p>15 Q. And how often would you and Mr. Muller speak</p> <p>16 on the telephone?</p> <p>17 A. At most once a week.</p> <p>18 Q. You referred a moment ago to something called</p> <p>19 "co-travel."</p> <p>20 A. Yes.</p> <p>21 Q. What were you referring to?</p> <p>22 A. Co-travel is when we go to visit with a</p> <p>23 customer, a C-suite at one of our customers, that Hal</p> <p>24 and I may go together as a team and meet with a</p> <p>25 customer and discuss their growth plans or whatever was</p>	23	<p>1 do those by myself.</p> <p>2 Q. And what is Council Connections?</p> <p>3 A. Council Connections is a community health</p> <p>4 center buying group; GPO as they refer -- a buying</p> <p>5 group/GPO based out of here in California, and their</p> <p>6 focus is exclusively community health centers.</p> <p>7 Q. What is CommonWealth?</p> <p>8 A. CommonWealth is identical to -- similar to</p> <p>9 Council Connections, but they re based out of Boston,</p> <p>10 and most of their focus too is community health</p> <p>11 centers, but most of their focus is the East Coast.</p> <p>12 Q. How did you land in your role as a vice</p> <p>13 president or as a director and then a vice president at</p> <p>14 special markets?</p> <p>15 A. In 2009, the person I replaced, Glen Meltzer,</p> <p>16 had left, quit the company. And Hal called me and</p> <p>17 asked if I would accept a promotion from the software</p> <p>18 division and become director of the merchandise side of</p> <p>19 special markets, and I agreed to it.</p> <p>20 Q. Do you know why Mr. Muller wanted to promote</p> <p>21 you to that role?</p> <p>22 A. I -- yes.</p> <p>23 Q. Why?</p> <p>24 A. I did a -- I did a great job in our software</p> <p>25 division in working with special market-type clients</p>
22	<p>1 on their plate at the time. And also when there were</p> <p>2 certain events like the ADSO annual meeting, Hal and I</p> <p>3 would be at that meeting together.</p> <p>4 Q. How often would you engage in co-travel?</p> <p>5 A. Maybe about seven times a year.</p> <p>6 Q. Was co-travel focused on any one type of</p> <p>7 customer?</p> <p>8 A. It would -- later as -- in my VP role, it was</p> <p>9 more with the -- the DSO-type client.</p> <p>10 Q. Did you do any other travel while you were at</p> <p>11 special markets apart from co-traveling?</p> <p>12 A. Yes. I would attend certain events by myself,</p> <p>13 representing Henry Schein, and I would co-travel with</p> <p>14 my team members on a regular basis.</p> <p>15 Q. What kind of events would you attend by</p> <p>16 yourself?</p> <p>17 A. There were certain -- like, there's one would</p> <p>18 be the ADAGP, the American Dental Association of Group</p> <p>19 Practices. Hal wouldn't attend that; I would attend</p> <p>20 it. So whenever Hal -- we would -- we would share out</p> <p>21 certain events, and he would go to certain ones; I</p> <p>22 would go to others.</p> <p>23 For example, I also would attend Council</p> <p>24 Connections, which was a buying group, and</p> <p>25 CommonWealth, their association meetings, and I would</p>	24	<p>1 including all the community health centers, and they</p> <p>2 had exceptional growth in the software division while I</p> <p>3 managed it. And he thought I'd be a perfect fit as we</p> <p>4 had the exact same customer base, moving me into the</p> <p>5 more revenue stream of, you know, supplies and service.</p> <p>6 Q. Apart from Mr. Muller, did you report directly</p> <p>7 to anyone else at special markets?</p> <p>8 A. No.</p> <p>9 Q. Did you interact -- strike that.</p> <p>10 Are you familiar with Mr. Tim Sullivan?</p> <p>11 A. Yes.</p> <p>12 Q. Who is Mr. Sullivan?</p> <p>13 A. He is the president of our private HSD</p> <p>14 division.</p> <p>15 Q. Did you ever interact with Mr. Sullivan while</p> <p>16 you were at special markets?</p> <p>17 A. Yes.</p> <p>18 Q. How often did you interact with Mr. Sullivan?</p> <p>19 A. Maybe five times a year.</p> <p>20 Q. Were these generally in-person interactions?</p> <p>21 A. Again, I consider an e-mail an interaction.</p> <p>22 Is that correct to you, or are you asking face-to-face?</p> <p>23 Q. Just interactions in general. That could be</p> <p>24 in person, e-mail, just communications with</p> <p>25 Mr. Sullivan.</p>

25

1 A. Okay. I would communicate with him
2 occasionally, let's say, in e-mails about a dozen times
3 a year. And then we would run into -- we would work
4 together -- not work together. We would see each other
5 at certain meetings at Henry Schein. For example, we
6 have a meeting for all of our HSD team members every
7 year, and I would attend that meeting as a
8 representative of special markets. Tim Sullivan would
9 be at that meeting.

10 **Q. Is that an annual meeting?**

11 A. Yes.

12 **Q. Was anyone else from special markets present
13 at that meeting?**

14 A. It would be either -- it would be, yes, Hal
15 Muller and myself.

16 **Q. And why did -- why was there a representative
17 from special markets at that meeting?**

18 A. We worked closely with our HSD team, as the
19 service and equipment comes out of that group. A
20 number of our field sales consultant, FSCs, are
21 assigned to our customers, and they would be at that
22 meeting. So generally we wanted to work the best
23 synergy as possible, so we would be at their -- show
24 respect and be at their meeting.

25 **Q. And would you have any conversations with**

26

1 **Mr. Sullivan at those meetings?**

2 A. Just general, how you doing, you know, basic
3 ones like that.

4 **Q. Do you recall who else was present at those
5 meetings from Henry Schein Dental?**

6 MR. McDONALD: Object to the form; overly
7 broad.

8 THE WITNESS: Well, the entire -- you know,
9 it's their annual meeting, so their entire executive --
10 their entire executive team would be at those meetings
11 as well as zone managers and regional managers. It's a
12 very large meeting.

13 BY MR. SOLOMON:

14 **Q. About how many people would you say were
15 usually present at those meetings?**

16 A. I don't have the idea of the size of our HSD
17 team.

18 **Q. When did these meetings usually occur?**

19 A. Once a year. Oh, I'm sorry. Hotel rates are
20 cheap in a hot place, so it would be July.

21 **Q. And where were these meetings held?**

22 A. They would be, like, at Orlando at the Gaylord
23 Hotel, or this year it was Gaylord in Nashville,
24 Tennessee. So around the country.

25 **Q. Do you recall what those meetings were called?**

27

1 A. No.

2 **Q. Do you recall whether those meetings had a
3 specific name?**

4 MR. McDONALD: Object to the form; asked and
5 answered.

6 THE WITNESS: No.

7 BY MR. SOLOMON:

8 **Q. Have you ever spoken with Mr. Sullivan on the
9 telephone?**

10 A. No. On a conference call. I'd been on a
11 couple of conference calls that he's been involved in.

12 **Q. About how many conference calls?**

13 A. Maybe two a year.

14 **Q. What was the purpose of those conference
15 calls?**

16 MR. McDONALD: Object to the form; overly
17 broad.

18 THE WITNESS: I really don't remember the
19 specifics of any of those calls.

20 BY MR. SOLOMON:

21 **Q. Did you interact with -- strike that.**

22 **Are you familiar with Mr. Dave Steck?**

23 A. Yes.

24 **Q. Who is Mr. Steck?**

25 A. He is vice president -- he was vice president

28

1 at the time of the field sales team for -- for our
2 private division HSD, my counterpart for the private
3 division. I was vice president of special markets.

4 **Q. Do you know whether Mr. Steck reported to
5 Mr. Sullivan?**

6 A. Yes, he did.

7 **Q. Have you ever communicated with Mr. Steck?**

8 A. Yes.

9 **Q. About how many times have you spoken or
10 communicated with Mr. Steck?**

11 A. Maybe 24 times a year.

12 **Q. What was the purpose for your communications
13 with Mr. Steck?**

14 MR. McDONALD: Object to the form; overly
15 broad.

16 THE WITNESS: As he oversaw the field sales
17 consultant team, the FSCs. Can I refer to them as FSCs
18 moving forward?

19 BY MR. SOLOMON:

20 **Q. Sure.**

21 A. As he oversaw the FSCs, he and I would talk a
22 couple times a month about issues with, you know --
23 with any issues with FSCs, and between special markets
24 and between Henry Schein Dental, assignment of
25 accounts, you know, can they be assigned, can't they be

7 (Pages 25 to 28)

29	31
<p>1 assigned.</p> <p>2 Q. Were these communications by phone, e-mail, or</p> <p>3 in person?</p> <p>4 A. The vast majority of my communications with</p> <p>5 most people are by e-mail.</p> <p>6 Q. Okay. Have you ever met with Mr. Steck in</p> <p>7 person?</p> <p>8 A. At -- at trade shows, similar to Tim Sullivan.</p> <p>9 Q. What would -- strike that.</p> <p>10 Did Mr. Sullivan have any authority over you?</p> <p>11 A. None.</p> <p>12 Q. Did Mr. Sullivan have any authority over</p> <p>13 Mr. Muller?</p> <p>14 A. Not that I know of.</p> <p>15 Q. Okay. While you were vice president and</p> <p>16 director at special markets, you mentioned you had a</p> <p>17 number of direct reports.</p> <p>18 Where were your direct reports located?</p> <p>19 A. My federal direct was located in North</p> <p>20 Carolina, Charlotte, and my dental school direct report</p> <p>21 was based out of Fort Lauderdale, Florida.</p> <p>22 Q. Who were your direct reports?</p> <p>23 A. Can you -- you asked me for directors or</p> <p>24 direct reports?</p> <p>25 Q. I'm sorry. I'm asking for direct reports.</p>	<p>1 then I had Kenny Levenstein out of Palmdale. That</p> <p>2 would be it.</p> <p>3 Q. All of these individuals are strategic account</p> <p>4 managers?</p> <p>5 A. Correct, except for the person out of North</p> <p>6 Carolina. He was director of federal sales, Mark</p> <p>7 Schreder. And John Bellerio was the director of dental</p> <p>8 schools out of Fort Lauderdale.</p> <p>9 Q. Who is Kathleen Titus?</p> <p>10 A. Kathleen Titus once reported to me, and when</p> <p>11 we developed our mid-market team and we moved community</p> <p>12 health centers to our other division, she -- she</p> <p>13 transferred to that division.</p> <p>14 Q. And what --</p> <p>15 A. Go ahead.</p> <p>16 Q. What was Kathleen's title when she reported to</p> <p>17 you?</p> <p>18 A. She was a SAM also.</p> <p>19 Q. Was Ms. Titus based in Melville, New York?</p> <p>20 A. No. She was based in Sacramento area.</p> <p>21 Q. How often would Ms. Titus provide reports to</p> <p>22 you regarding business when she reported to you?</p> <p>23 MR. McDONALD: Object to the form; overly</p> <p>24 broad.</p> <p>25 THE WITNESS: My team was to provide weekly</p>
<p>1 A. Okay. I then had a representative out of Bay</p> <p>2 City, Michigan; one in Los Angeles; one in --</p> <p>3 MR. McDONALD: Let me just -- are you going to</p> <p>4 ask him the names?</p> <p>5 MR. SOLOMON: Yeah. I'll just re-ask the</p> <p>6 question.</p> <p>7 MR. McDONALD: Do it all at once.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. Who were your direct reports at Henry Schein</p> <p>10 Special Markets?</p> <p>11 MR. McDONALD: And where were they located; is</p> <p>12 that what you want to know too? Get it all done.</p> <p>13 BY MR. SOLOMON:</p> <p>14 Q. You can also tell me where they were located.</p> <p>15 A. Generally, Becky Demers, D-e-m-e-r-s, in</p> <p>16 Michigan; Daniel Hobson in Los Angeles.</p> <p>17 Q. If you can also tell me their titles, that</p> <p>18 would be helpful.</p> <p>19 A. Okay. Each of these will be what we call</p> <p>20 "strategic account managers," SAMs. Okay. So Becky</p> <p>21 Demers was a SAM, as well as Daniel Hobson. Then I had</p> <p>22 Casey Silvas out of Kansas City as a SAM. I had Dave</p> <p>23 Muller out of New York. I had Deb Johnson out of New</p> <p>24 York. And right towards the end, I had Mary Keller out</p> <p>25 of Phoenix. I'm trying to remember everything. And</p>	<p>1 reports updates as to progress with -- or just updates</p> <p>2 as to where they stood with their customers, anything</p> <p>3 they'd like to share with the management, upper</p> <p>4 management. So I requested weekly reports. I very</p> <p>5 seldom got them, but on a weekly basis, I requested</p> <p>6 reports.</p> <p>7 BY MR. SOLOMON:</p> <p>8 Q. How often did Ms. Titus provide weekly reports</p> <p>9 to you?</p> <p>10 A. Probably once a month.</p> <p>11 Q. Who is Andrea Hight?</p> <p>12 A. Andrea Hight once reported to me as a SAM.</p> <p>13 She too went -- when Kathleen Titus took her transfer</p> <p>14 over to our mid-market division, Andrea Hight also went</p> <p>15 over to the mid-market division. So she reported to me</p> <p>16 up to about 2014. I think that's when the transfers --</p> <p>17 when people started to move.</p> <p>18 Q. And when did Ms. Hight first start reporting</p> <p>19 to you?</p> <p>20 A. She was with me day one when I started in</p> <p>21 2009.</p> <p>22 Q. Where was Ms. Hight based?</p> <p>23 A. Salt Lake City.</p> <p>24 Q. How often would Ms. Hight provide reports to</p> <p>25 you?</p>

33

1 A. She was better. About once a week.
 2 **Q. You mentioned that Ms. Hight and Ms. Titus**
 3 **were transferred from special markets to Henry Schein**
 4 **Dental at some point, right?**
 5 A. Yes.
 6 **Q. When did that occur?**
 7 A. I think 2013, 2014 is when we split off the
 8 community health center segment. And our DSO segment
 9 for groups under 20 locations, we handed over those
 10 segments to our HSD division. So there was a transfer
 11 period. It wasn't just a quick hand-off. And during
 12 that time, Kathleen went -- moved with that division,
 13 and then Andrea moved with that division.
 14 **Q. Why did that transfer occur?**
 15 MR. McDONALD: Object to the form.
 16 THE WITNESS: Meaning why did we split the
 17 divisions?
 18 MR. SOLOMON: Right.
 19 THE WITNESS: Okay.
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: The -- we saw that the -- the
 22 DSO segment, the larger groups, the top 50, were
 23 growing quickly, and their demands for attention and
 24 focus were growing. So therefore, I took over a team
 25 that would focus exclusively on that. And since these

34

1 other segments, our field sales consultants called on
 2 them, we felt that those segments could be handled at
 3 this time better by our HSD division.
 4 BY MR. SOLOMON:
 5 **Q. Do you recall who made that decision?**
 6 MR. McDONALD: Object to the form.
 7 THE WITNESS: That would have been upper
 8 management decision between Hal Muller and other
 9 executive leads.
 10 BY MR. SOLOMON:
 11 **Q. Would someone from Henry Schein Dental have**
 12 **been involved in that decision?**
 13 A. Yes.
 14 MR. McDONALD: Object to the form. Hang on.
 15 THE WITNESS: Oh.
 16 MR. McDONALD: Object to the form; lack of
 17 foundation.
 18 BY MR. SOLOMON:
 19 **Q. And why were -- why was Ms. Hight transferred**
 20 **from special markets to Henry Schein Dental when that**
 21 **customer transfer occurred?**
 22 A. She preferred working with our community
 23 health center and our smaller customers versus the
 24 larger ones.
 25 **Q. Why was Ms. Titus transferred from special**

35

1 **markets to Henry Schein Dental when that customer**
 2 **transfer occurred?**
 3 A. She preferred working with community health
 4 center, as she helped build that segment with me.
 5 **Q. Do you recall how many customers were**
 6 **transferred from special markets to Henry Schein Dental**
 7 **as part of that customer transfer process?**
 8 A. Approximately 125 DSOs were transferred to
 9 HSD, and I don't know the exact number of community
 10 health centers we had at the time.
 11 **Q. Were these customers transferred to a specific**
 12 **division within Henry Schein Dental?**
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: I don't understand the layout of
 15 Henry Schein Dental.
 16 BY MR. SOLOMON:
 17 **Q. Do you recall whether this was around the same**
 18 **time that the mid-market division was created within**
 19 **Henry Schein Dental?**
 20 A. Yes. That's how they referred to it; mid
 21 market.
 22 **Q. Do you know whether the customers that were**
 23 **transferred from special markets were transferred to**
 24 **the mid-market division within Henry Schein Dental?**
 25 A. That's where they went, correct.

36

1 **Q. Do you know why they were transferred to the**
 2 **mid-market division?**
 3 MR. McDONALD: Object to the form; lack of
 4 foundation.
 5 THE WITNESS: We -- we simply created a new
 6 segment called "mid market" within Henry Schein Dental
 7 that was still associated somehow with special markets,
 8 but I don't want to speculate.
 9 BY MR. SOLOMON:
 10 **Q. What is mid market?**
 11 A. We defined "mid market" as customers, group
 12 practices that were between 2 and 20 locations and did
 13 less than \$1 million in merchandise purchases per year,
 14 as well as any community health center.
 15 **Q. Do you recall whether Mr. Muller supported the**
 16 **decision to move those customers to Henry Schein**
 17 **Dental?**
 18 A. Yes.
 19 **Q. Do you recall whether there was any**
 20 **disagreement between Henry Schein Dental and special**
 21 **markets regarding that transfer of customers?**
 22 MR. McDONALD: Object to the form.
 23 THE WITNESS: I'm not aware of any.
 24 BY MR. SOLOMON:
 25 **Q. Who is Paul Berkey?**

9 (Pages 33 to 36)

37	<p>1 A. Paul Berkey is the director of merchandise. 2 He handles our pricing exclusively for special markets. 3 Q. Does Mr. Berkey report to you directly? 4 A. No. 5 Q. Who does Mr. Berkey report to? 6 A. I don't know. 7 Q. Are you at all familiar with Henry Schein's 8 medical supplies division? 9 A. Yes. 10 Q. What do you know by Henry Schein's medical 11 supplies division? 12 MR. McDONALD: Object to the form; vague. 13 THE WITNESS: When I oversaw the community 14 health center segment, all community health centers 15 provide medical as well as dental services, and I 16 worked with our medical team in creating pricing plans 17 linked to their GPOs to provide an easy way for offices 18 to order dental and medical supplies from Henry Schein. 19 BY MR. SOLOMON: 20 Q. Did you work -- strike that. 21 Were those medical GPOs? 22 A. Yes. 23 Q. Who did you work with from Henry Schein 24 medical? 25 A. I -- I worked mostly with the sales, regional</p>	39	<p>1 Go ahead. 2 THE WITNESS: I don't have any idea. 3 BY MR. SOLOMON: 4 Q. Does Henry Schein's medical division have a 5 special markets department? 6 A. It is not under the name of special markets. 7 Q. What is it called? 8 A. IDN, I believe. Distributed networks. 9 Something along those lines. 10 Q. You don't recall the exact name? 11 A. No. Drawing a blank. 12 Q. Does pricing differ between Henry Schein's 13 dental division and Henry Schein's medical division? 14 MR. McDONALD: Object to the form; lack of 15 foundation. 16 THE WITNESS: Dental -- yes, we -- medical had 17 their pricing plans; dental has their pricing plans. 18 Two separate sales teams. 19 BY MR. SOLOMON: 20 Q. Is there any difference between the prices 21 charged to customers -- strike that. 22 Does Henry Schein's dental segment charge 23 higher prices than the medical segment? 24 MR. McDONALD: Object to the form; overly 25 broad; vague; lack of foundation.</p>
38	<p>1 sales managers, zone managers that oversaw the FSCs on 2 the medical side. On occasion I would work with the 3 pricing committees as far as creating dental/medical 4 plans. 5 Q. Who did you work with, specifically? 6 A. I don't recall any names. It was minimal. 7 Q. Why did you work with Henry Schein s medical 8 segment on those projects? 9 A. For synergistic purposes, medical may have a 10 community health center that dental is not in. So we'd 11 work together to hope that they would introduce our 12 dental team and vice versa. 13 We had a big -- we had a good market share of 14 community health centers and medical, we would 15 introduce our medical team to help win medical business 16 within those community health centers. 17 Q. Did that relationship ever result in new 18 business for Henry Schein's special markets division? 19 A. Yes. 20 Q. How many new customers would you say were 21 gained through that relationship? 22 MR. McDONALD: Object to -- 23 THE WITNESS: I don't have -- 24 MR. McDONALD: Hang on a second. Object to 25 the form.</p>	40	<p>1 THE WITNESS: I'm not -- it is my 2 understanding that there's much more volume in the 3 medical side and medical pricing is lower, in general, 4 than dental pricing. 5 BY MR. SOLOMON: 6 Q. And what is your understanding based on? 7 A. When working with the GPOs that -- on numerous 8 occasions, crossover items would be less, like gloves 9 on the medical side than on the dental, but then I 10 would work out sales plans to have the cross items 11 comparably priced so that they would -- that the 12 customer could order right from dental and get 13 crossover items at the same price. 14 Q. What do you mean by "crossover items"? 15 A. In dental there's certain specific items that 16 only a dentist would use like a composite material in a 17 mouth, and it would never be used by medical. But 18 gloves, masks, you know, gowns, things like that, you 19 know, infection control products primarily are used by 20 both medical and dental. So those crossover items, we 21 would pick out those and price them similarly between 22 the two plans. 23 Q. Were they priced cheaper for dental customers 24 when you worked with Henry Schein medical? 25 MR. McDONALD: Object to the form.</p>

41	43
<p>1 THE WITNESS: If the customer was both with 2 dental and with a community health center, for example, 3 that was buying medical and dental from us, the price 4 would be identical for those crossover items whether 5 they bought from medical or whether they bought from 6 dental on crossover items only. 7 BY MR. SOLOMON: 8 Q. Would those customers receive cheaper prices 9 for those crossover items as compared to the prices 10 charged by Henry Schein's dental division? 11 MR. McDONALD: Object to the form; lack of 12 foundation. 13 THE WITNESS: I need clarification on dental 14 division. A private division? 15 BY MR. SOLOMON: 16 Q. Henry Schein special markets. 17 A. If a customer was exclusively dental, our 18 prices could be higher for certain products than 19 similar product in medical, yes. 20 Q. Did you regularly interact with anyone from 21 Henry Schein medical? 22 A. No. 23 Q. How would you describe your relationship with 24 Mr. Muller? 25 A. He was my direct boss. We've known each other</p>	<p>1 "relationship"? 2 BY MR. SOLOMON: 3 Q. Did the -- did Henry Schein Dental and Special 4 Markets work closely? 5 A. Yes, we worked closely together. 6 Q. For what purposes? 7 A. The -- the equipment in special markets, we 8 had a special markets equipment team that I worked 9 closely with and also a special markets service team 10 which services equipment within the dental offices. 11 Those teams reported directly through Henry Schein 12 Dental. So we had to interface with that division on a 13 regular basis whenever there were equipment and service 14 issues because we were continually trying to bring in 15 our service team, our equipment team, our software team 16 into those. So we were dependent on those. 17 And then on a number of customers, we do have 18 FSCs assigned which report through HSD. So we had to 19 make sure we were supporting their programs and paying 20 them properly. 21 Q. You're referring to special markets customers 22 that have FSCs assigned to them; is that right? 23 A. Correct. 24 Q. Why would a special markets customer have an 25 HSD, FSC assigned to it?</p>
<p>1 for -- before my start at -- no, at my start at Henry 2 Schein since 2003. And we -- we re socially friendly 3 together, and that's how I would describe it. 4 Q. Do you still keep in touch with Mr. Muller? 5 A. Once a month we talk. He was a friend. 6 Q. Do you still keep in touch with anyone else 7 from Henry Schein? 8 A. Becky Demers was also a friend of mine who I 9 hired into special markets. And on occasion I talked 10 to Pam Reece, Pam Reece who replaced me. More as she 11 was a friend too when we worked together in the 12 software division. 13 Those are, basically, the only three people I 14 have maintained contact with since I've retired. 15 Q. What was your reason for retiring from Henry 16 Schein? 17 A. Too much travel. I have been traveling for -- 18 in my prior role, I had been traveling for 32 years, so 19 I was burned out with travel, and I can't take -- I'm 20 not going to move to Melville. 21 Q. What was the relationship between Henry Schein 22 Dental and Special Markets when you were employed by 23 Henry Schein? 24 MR. McDONALD: Object to the form; vague. 25 THE WITNESS: Can you tell me what you mean by</p>	<p>1 A. Certain customers are smaller. Let's say you 2 take an office with 20 locations in Las Vegas. They 3 may have an FSC calling on all 20 of those locations. 4 Generally as a customer got larger, they -- they 5 requested that they not have FSCs call on their 6 offices, but smaller ones, we might need for a while. 7 Q. How else did special markets and HSD work 8 together? 9 A. That would be basically it. 10 Q. About how often would you consult with someone 11 from Henry Schein Dental when you worked at special 12 markets? 13 A. I would probably about once or twice a week. 14 Q. Would you describe the relationship as 15 harmonious between Henry Schein Dental and special 16 markets? 17 A. Yes. 18 Q. Did you believe that the two entities always 19 worked well together? 20 A. Yes. 21 Q. Were there ever any disagreements between the 22 two entities? 23 MR. McDONALD: Object to the form; overly 24 broad; lack of foundation. 25 THE WITNESS: Yes.</p>

45	<p>1 BY MR. SOLOMON:</p> <p>2 Q. What kind of disagreements?</p> <p>3 MR. McDONALD: Same objection.</p> <p>4 THE WITNESS: How much an FSC should be paid</p> <p>5 on certain accounts that they're assigned to.</p> <p>6 Generally FSCs may want to be assigned to a customer</p> <p>7 when the customer doesn't want them assigned. They</p> <p>8 don't like it.</p> <p>9 When a DSO would acquire one of their</p> <p>10 practices, they would -- and that DSO does not want</p> <p>11 assignment, we would then have to remove the FSC from</p> <p>12 that account.</p> <p>13 However, we created a severance package on</p> <p>14 that account kind of for the FSC so it wouldn't be so</p> <p>15 harsh on them. That's how we would work harmoniously,</p> <p>16 by offering six months of revenue to the FSC so they</p> <p>17 could find other business.</p> <p>18 BY MR. SOLOMON:</p> <p>19 Q. Was Henry Schein Dental satisfied with that</p> <p>20 severance plan?</p> <p>21 A. Yes.</p> <p>22 MR. McDONALD: Object to the form.</p> <p>23 Go ahead.</p> <p>24 THE WITNESS: Yes.</p> <p>25 BY MR. SOLOMON:</p>	47	<p>1 inventory management in our Web systems. Accounting</p> <p>2 functionalities from a centralized point of view.</p> <p>3 We had -- we were continually developing</p> <p>4 things that would -- you know, we had enterprise</p> <p>5 software applications that would run multiple</p> <p>6 locations, no limitations, et cetera, so...</p> <p>7 Q. Were the value-added services that Henry</p> <p>8 Schein Special Markets provided to its customers only</p> <p>9 for special markets' customers?</p> <p>10 A. There were some crossovers but they were --</p> <p>11 the needs of the big groups were different than the</p> <p>12 private practices. So we had unique value-adds and</p> <p>13 similar ones.</p> <p>14 Q. How did special markets help to recruit</p> <p>15 dentists wanting to sell their dental practices?</p> <p>16 A. We would -- we had -- Schein had -- I don't</p> <p>17 know how you refer to it -- a brokerage office that</p> <p>18 sells dental practices, that a dentist could actually</p> <p>19 say, "I want to sell my practice," and we would work</p> <p>20 with some of their team members to -- to help them push</p> <p>21 those customers more towards special markets versus</p> <p>22 selling them in the HSD world.</p> <p>23 We also allowed some of our DSO customers to</p> <p>24 present to those sales teams of their value-add as to</p> <p>25 why behoove their client to join Heartland Dental, for</p>
46	<p>1 Q. Were there any other kinds of disagreements</p> <p>2 between Henry Schein Dental and special markets that</p> <p>3 you recall?</p> <p>4 A. No.</p> <p>5 Q. Did you believe that Mr. Sullivan and</p> <p>6 Mr. Muller worked well together?</p> <p>7 A. Yes.</p> <p>8 Q. What does the term "one Schein" refer to?</p> <p>9 A. It refers to us providing everything that a</p> <p>10 dental practice may need. It was referred more by our</p> <p>11 private division, and they refer to it as a wheel that</p> <p>12 we would supply technology, software, service,</p> <p>13 equipment, merchandise, consulting.</p> <p>14 Q. So that term had no application to Henry</p> <p>15 Schein special markets?</p> <p>16 A. We had a different way of presenting it. We</p> <p>17 had value-add programs that were similar to that. Yes,</p> <p>18 he did. Sorry. Let's say that. Yes. In a different</p> <p>19 way.</p> <p>20 Q. What kinds of value-add services did Henry</p> <p>21 Schein Special Markets provide to its customers?</p> <p>22 A. We would help them recruit dentists that were</p> <p>23 wanting to move to -- sell their practices. We'd help</p> <p>24 them recruit dentists right from dentals, as we had the</p> <p>25 dental school market. We would help them with</p>	48	<p>1 example, or Aspen Dental.</p> <p>2 Q. Do you recall whether that brokerage office</p> <p>3 helped move customers from Henry Schein Dental to</p> <p>4 special markets?</p> <p>5 A. Rarely it worked, but it -- yes.</p> <p>6 Q. When you say "rarely," what do you mean?</p> <p>7 A. The majority of the brokerage offices would</p> <p>8 simply sell to another practice locally, private,</p> <p>9 versus go to the -- go to our group practices.</p> <p>10 Q. Would they sell to other Henry Schein</p> <p>11 customers?</p> <p>12 MR. McDONALD: Object to the form.</p> <p>13 THE WITNESS: I'm not sure.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. Was the brokerage office a part of Henry</p> <p>16 Schein, or was it a separate entity?</p> <p>17 MR. McDONALD: Object to the form; lack of</p> <p>18 foundation.</p> <p>19 THE WITNESS: I believe we had -- I don't</p> <p>20 know.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. So we talked a little bit about your Henry</p> <p>23 Schein Special Markets' customer segments. I'd just</p> <p>24 like to go over them and confirm that those are the</p> <p>25 correct segments.</p>

49

1 **You've mentioned institutional dental service**
2 **organizations, federal government customers, and dental**
3 **schools. Do I have that correct?**

4 MR. McDONALD: Object to the form.

5 THE WITNESS: When I left, those were the
6 divisions, yes.

7 BY MR. SOLOMON:

8 **Q. Do you know whether any divisions were added**
9 **or created after your departure from special markets?**

10 A. I'm unaware of any. I don't know.

11 **Q. What types of customers fell under the**
12 **umbrella of institutional customers?**

13 A. It would be correctional facilities, you know,
14 Department of Corrections like California Department of
15 Corrections; private correctional facilities;
16 hospital-based dentists, primarily children's
17 hospitals; and state -- state contracts like MMCAPs.
18 You know, state and county health departments were
19 under institutional.

20 MMCAPs was a buying group for -- underneath
21 that division.

22 **Q. What does MMCAPs stand for?**

23 A. Multi -- I -- I can't remember the -- it's out
24 of Minnesota. So I don't know if it's Minnesota or
25 it's Minnesota, you know, Managed something. I can't

50

1 remember exactly. But it's out of the Twin Cities, and
2 it's national for the whole country. It's M-M-C-A-P.

3 **Q. Do you recall what type of buying group that**
4 **was?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: It was a state -- state-managed,
7 was State of Minnesota buying group that focused on
8 county health and, you know, basically, county
9 state-run contracts.

10 BY MR. SOLOMON:

11 **Q. Have the types of customers that fell under**
12 **special markets changed over time?**

13 MR. McDONALD: Well, object to the form, and
14 it's asked and answered.

15 If you're asking him if those categories were
16 the same earlier than when he left, is that -- is that
17 your question?

18 BY MR. SOLOMON:

19 **Q. My question is just: Over time while you were**
20 **at special markets, have the customer categories**
21 **changed?**

22 A. Oh, no.

23 MR. McDONALD: Well, I want us to have a clear
24 record. He's already talked about CHCs that were
25 special markets that left. And so do you need him to

51

1 say that again? Because I want the record clear that
2 that was a customer that --

3 BY MR. SOLOMON:

4 **Q. I'm just talking about -- we'd been talking**
5 **about the four segments and --**

6 A. The institution.

7 **Q. Right.**

8 A. The institutional, schools, DSOs, right.

9 And -- and institutional, schools, DSOs and federal.

10 **Q. And that remained the same the entire time you**
11 **were at special markets?**

12 A. The entire time after we changed over to mid
13 market. I remember I had -- I had community health
14 center vocational schools and smaller DSOs too, but
15 those -- those changed and went to mid market.

16 **Q. What customer segment did those fall under**
17 **before they were moved to mid market?**

18 A. Under special markets.

19 **Q. Did they have their own customer segment**
20 **category?**

21 A. Yes.

22 **Q. What was it called?**

23 A. Well, FQHC was called CHCs. Under vocational
24 schools, it was called "vocational." Under DSOs didn't
25 have a separate. They were all lumped together with

52

1 the big ones and the small ones. It still stayed the
2 same.

3 **Q. Do special markets customers get prices that**
4 **are discounted when compared to prices offered to**
5 **private practice and middle-market customers?**

6 MR. McDONALD: Object to the form; lack of
7 foundation.

8 THE WITNESS: I'm not aware of the pricing
9 structure now for mid market versus private practice or
10 DSOs.

11 BY MR. SOLOMON:

12 **Q. What are the benefits that customers within**
13 **special markets receive as compared with Henry Schein**
14 **Dental or mid market?**

15 A. Well, we have much more volume at a customer.
16 We might have a customer doing 30 million a year in
17 merchandise. So their pricing would be -- could be
18 lower than a private practice and could be lower than a
19 group only doing \$500,000 or a million dollars with us.

20 So I don't see it as being -- interdivisional,
21 but more so based on the size of the actual customer.

22 **Q. So special markets offers lower prices to its**
23 **customers; is that right?**

24 MR. McDONALD: Object to the form.

25 THE WITNESS: Not overall. To the largest

53

1 customers.
 2 BY MR. SOLOMON:
 3 **Q. How does Henry Schein special markets secure**
 4 **lower pricing for its customers?**
 5 A. We -- we actually negotiate with our vendor
 6 partners per customer. I'm going to talk about our top
 7 50 customers. So we would work with, for example, 3M.
 8 And one of our customers, based on volume, 3M would
 9 give us discounted pricing. We would give that
 10 customer discounted pricing that we would honor and
 11 thus charge a lower price to that customer on items not
 12 on their formulary. They were provided, at max, a
 13 20 percent off catalog price.
 14 **Q. Are there any other ways in which Henry Schein**
 15 **special markets secured lower pricing for its**
 16 **customers?**
 17 A. No.
 18 **Q. How many manufactures did Henry Schein special**
 19 **markets work with, in general?**
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: I don't know the number.
 22 There's unlimited. We have 25,000 products that we
 23 sell.
 24 BY MR. SOLOMON:
 25 **Q. How about if it's just limited to the**

54

1 **merchandise category?**
 2 A. Even so, that's what I was -- I'm sorry. I
 3 should clarify. That was merchandise. There was a lot
 4 of different vendors in the merchandise, and our
 5 customers touched upon many of those.
 6 **Q. Do you recall who special markets' top**
 7 **manufacturer partners were?**
 8 A. Yes.
 9 **Q. Who were they?**
 10 A. 3M; Dentsply; Danaher, D-a-n-a-h-e-r; VOCO.
 11 And that would be primarily the top five.
 12 MR. McDONALD: That's only four.
 13 THE WITNESS: Oh.
 14 MR. McDONALD: Did you say Kerr?
 15 THE WITNESS: Kerr and Danaher would be the
 16 same. Sorry.
 17 MR. McDONALD: Okay.
 18 BY MR. SOLOMON:
 19 **Q. So that's -- Kerr and Danaher are the same**
 20 **company?**
 21 A. Yes. They're subdivisions, correct.
 22 **Q. So we have four?**
 23 A. Okay. Yeah.
 24 **Q. When Henry Schein Special Markets moved**
 25 **customers to Henry Schein Dental around 2014, did it**

55

1 **experience a loss in overall revenue?**
 2 A. No.
 3 **Q. How do you know?**
 4 A. I just know that there was -- I heard that
 5 everything transitioned very well over. I was very
 6 focused on the transition to make sure
 7 that everybody -- it was invisible to the customer, the
 8 transfer.
 9 **Q. You said that you heard everything**
 10 **transitioned very well.**
 11 **Who did you hear that from?**
 12 A. From Kathleen Titus and Andrea Hight, who were
 13 the ones that reported to me.
 14 **Q. And how do you know that there was no loss in**
 15 **overall revenue for Henry Schein Special Markets?**
 16 MR. McDONALD: Object to the form.
 17 THE WITNESS: I think I would have heard about
 18 it.
 19 BY MR. SOLOMON:
 20 **Q. But you have no personal knowledge of that,**
 21 **right?**
 22 A. Correct.
 23 **Q. Okay. How would you have heard about it if**
 24 **that had occurred?**
 25 A. Because I was part of the transition, I would

56

1 have had a complaint saying, hey, we're losing revenue;
 2 this isn't going smoothly. I hear nothing like that,
 3 so I assumed everything just transferred over. Again,
 4 it was more of a transfer internally than it was
 5 anything else. I could see no reason why there would
 6 be any loss of revenue.
 7 **Q. How were you a part of transition?**
 8 A. As a number of my team members went with the
 9 transition, and as I oversaw the community health
 10 center segment, and as I oversaw those 120 DSOs, I
 11 helped -- I helped with -- that division take over
 12 those accounts and shared any information possible that
 13 I had. And, obviously, they took a couple of my team
 14 members with them who took that knowledge with them,
 15 and they were very strong team members.
 16 **Q. Who else was involved in the transition?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: Our pricing committee, Paul
 19 Berkey and Hal Muller; and Annette Martino in our
 20 marketing division.
 21 BY MR. SOLOMON:
 22 **Q. Was anyone from Henry Schein Dental involved**
 23 **in the transition?**
 24 A. I'm not familiar with their management
 25 structure.

14 (Pages 53 to 56)

57

1 **Q. Did you interface with anyone from Henry**
 2 **Schein Dental as part of the transition?**
 3 A. No.
 4 MR. McDONALD: So, Ronnie, we've been going
 5 over an hour.
 6 MR. SOLOMON: Yeah.
 7 MR. McDONALD: Whenever you get there.
 8 MR. SOLOMON: I think we're there. Let's go
 9 ahead and take a break. I was just going to suggest
 10 that also.
 11 (Brief recess.)
 12 MR. SOLOMON: Back on the record at 10:27.
 13 BY MR. SOLOMON:
 14 **Q. Mr. Foley, I'm not sure if I asked you this**
 15 **already. What year did you retire in?**
 16 A. 2016.
 17 **Q. Okay. What month?**
 18 A. December.
 19 **Q. Okay. Mr. Foley, we've mentioned the term**
 20 **"GPO," "group purchasing organization," today.**
 21 **What does the term "group purchasing**
 22 **organization" mean to you?**
 23 A. It -- it has a dual meaning which is
 24 confusing, but GPO in itself in the medical world is --
 25 they do not exist in the dental realm, but our buying

58

1 groups, we may cross over and say buying group/GPO. So
 2 in that terminology, GPO means buying group to me in
 3 the dental world.
 4 **Q. What is your understanding of a buying group?**
 5 A. A buying group is an entity that offers
 6 services to end users, marketing plans, and reduced
 7 costs on supplies, reduced cost on phones and other
 8 services to -- to a select group of dentists.
 9 **Q. And how are buying groups and group purchasing**
 10 **organizations different?**
 11 A. I consider them to be the same. A GPO on the
 12 medical side is a very large entity. And, again, I --
 13 they do not exist in the -- in the definition of
 14 "medical GPOs" on the dental side.
 15 **Q. So is it just a terminology difference in your**
 16 **mind?**
 17 A. Yes. I say a buying group, and somebody will
 18 refer to it in GPOs in the dental. Council Connections
 19 may consider themselves a GPO, but they're not in the
 20 sense of a GPO like they are in the medical world. So
 21 I call them a "buying group/GPO."
 22 **Q. So how are GPOs on the medical side different**
 23 **from GPOs and buying groups on the dental side?**
 24 MR. McDONALD: Object to the form.
 25 THE WITNESS: I -- high volume, owned by

59

1 hospitals or something. I don't understand them on the
 2 medical side.
 3 BY MR. SOLOMON:
 4 **Q. How do you know that they're different from**
 5 **GPOs and buying groups on the dental side?**
 6 A. That they're more prevalent on the medical
 7 side and they're based on huge volume, and there's no
 8 huge volume on the dental side.
 9 **Q. And what is your understanding based on?**
 10 A. Working with our medical team on community
 11 health centers, working with certain GPOs.
 12 **Q. Have you ever referred to -- strike that.**
 13 **Have you ever used the terms "GPO" and "buying**
 14 **group" interchangeably to refer to an entity in the**
 15 **dental industry?**
 16 A. Yes.
 17 **Q. And why would you do that?**
 18 A. Some people call it "GPO"; some call it
 19 "buying group." In my head, I just -- in my head I say
 20 "buying group." Same thing.
 21 **Q. Do you know whether CHC buying groups and GPOs**
 22 **are all on the medical side?**
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: The way I term -- the way I say
 25 it, medical has GPOs like Novation, Broadlane,

60

1 Amerinet, whereas dental is more of a buying group.
 2 BY MR. SOLOMON:
 3 **Q. When did you first encounter GPOs and buying**
 4 **groups?**
 5 A. When I started with the software division in
 6 2003.
 7 **Q. How many GPOs and buying groups have you come**
 8 **across during your time at Henry Schein Special**
 9 **Markets?**
 10 MR. McDONALD: Object to the form; overly
 11 broad.
 12 THE WITNESS: I would say about a dozen.
 13 BY MR. SOLOMON:
 14 **Q. Were those groups -- strike that.**
 15 **Were those GPOs and buying groups in the**
 16 **dental industry?**
 17 A. Clarify. You mean our -- our private
 18 division?
 19 **Q. Were they dental GPOs and buying groups, or**
 20 **medical GPOs and buying groups?**
 21 A. They were dental.
 22 **Q. And did you interact with any of these GPOs or**
 23 **buying groups?**
 24 A. Yes.
 25 **Q. What was your reason for interacting with**

15 (Pages 57 to 60)

61	<p>1 them?</p> <p>2 A. In a software world, I created pricing plans</p> <p>3 for a number of the dental buying groups/GPOs for</p> <p>4 reduced software pricing to -- at the rates equal to</p> <p>5 our merchandising discounts for those buying groups.</p> <p>6 Q. Was this while you were at special markets?</p> <p>7 A. While I was with our software division, there</p> <p>8 was a time that special markets oversaw the division.</p> <p>9 So, yes part of the time, and no part of the time.</p> <p>10 Q. Okay. And I just wanted to focus on the time</p> <p>11 period from 2009 onward when you were director and vice</p> <p>12 president in special markets.</p> <p>13 A. Okay.</p> <p>14 Q. Is your answer the same for that time period?</p> <p>15 A. Ask the question again based on the 2009.</p> <p>16 Q. Sure.</p> <p>17 A. Please.</p> <p>18 Q. What was your inter- -- what was your reason</p> <p>19 for interacting with buying groups and GPOs during the</p> <p>20 time frame from 2009 onward?</p> <p>21 A. In each of our segments, there were a number</p> <p>22 of buying groups that existed when I started in 2009,</p> <p>23 and I -- and my sales team would work with those buying</p> <p>24 groups as well as myself in calling on them and</p> <p>25 promoting them.</p>	63	<p>1 support or dental service organizations?</p> <p>2 A. No. Their members were private dentists.</p> <p>3 Q. In what way were these buying groups and GPOs</p> <p>4 for dental service organizations?</p> <p>5 A. They were not for dental service</p> <p>6 organizations, these GPOs. They were for private</p> <p>7 practice.</p> <p>8 Q. So they weren't DSO buying groups and GPOs?</p> <p>9 A. You need to clarify that. They fell -- we</p> <p>10 considered them in the DSO segment because they had</p> <p>11 multiple customers. Therefore, they fell within the</p> <p>12 DSO segment, but their members were private dentists.</p> <p>13 Q. Do you know whether these five buying groups</p> <p>14 and GPOs remained with special markets after the 2014</p> <p>15 customer transfer?</p> <p>16 A. Yes. I'm sorry. Rephrase the question.</p> <p>17 Q. Was there something you didn't understand, or</p> <p>18 you just want me to repeat it?</p> <p>19 A. Repeat it.</p> <p>20 Q. Do you know whether these five buying groups</p> <p>21 and GPOs remained with special markets after the 2014</p> <p>22 customer transfer?</p> <p>23 A. They remained with Henry Schein. Some went to</p> <p>24 mid market. Some stayed with my group. Okay.</p> <p>25 Q. Do you recall which were moved to Henry Schein</p>
62	<p>1 Q. Why would you and your sales team call on and</p> <p>2 promote GPOs and buying groups?</p> <p>3 MR. McDONALD: Object to the form.</p> <p>4 THE WITNESS: In the community health segment,</p> <p>5 about 30 percent of our revenue came from buying -- on</p> <p>6 merchandise came from about five buying groups on the</p> <p>7 community health center side. So we maintained a</p> <p>8 strong relationship with those buying groups to promote</p> <p>9 Henry Schein.</p> <p>10 BY MR. SOLOMON:</p> <p>11 Q. What about in the DSO segment, were there any</p> <p>12 GPOs or buying groups that special markets worked with?</p> <p>13 A. Yes.</p> <p>14 Q. Do you recall how many?</p> <p>15 A. Maybe five.</p> <p>16 Q. Do you recall the names of any of those GPOs</p> <p>17 or buying groups?</p> <p>18 A. Yes.</p> <p>19 Q. What were the names?</p> <p>20 A. Dental Partners of Georgia; OrthoSynetics;</p> <p>21 Tralongo, Tralongo Dental; Dental Gator; Breakaway.</p> <p>22 That's what I recall about that.</p> <p>23 Q. For these five entities, you've referred to</p> <p>24 them as a DSO buying group or GPO.</p> <p>25 Do you know whether their members were dental</p>	64	<p>1 Dental?</p> <p>2 A. Yes.</p> <p>3 Q. Which ones?</p> <p>4 A. Breakaway, and I think that's it, just</p> <p>5 Breakaway.</p> <p>6 Q. The rest remained with special markets?</p> <p>7 A. Correct.</p> <p>8 Q. Do you know why Breakaway was moved from</p> <p>9 special markets to Henry Schein Dental, but not the</p> <p>10 others?</p> <p>11 A. It was a small -- it was small. It was less</p> <p>12 than 20 members.</p> <p>13 Q. Were the four groups that remained with</p> <p>14 special markets, still customers of special markets at</p> <p>15 the time of your retirement?</p> <p>16 A. Yes.</p> <p>17 Q. Do you know who was responsible for overseeing</p> <p>18 those customer accounts?</p> <p>19 A. They fell under me, but are you asking which</p> <p>20 SAMs oversaw those?</p> <p>21 Q. I just would like to know who at special</p> <p>22 markets was responsible for managing those accounts?</p> <p>23 A. They fell under my team.</p> <p>24 Q. And were each of these groups assigned a SAM?</p> <p>25 A. Yes.</p>

65	<p>1 Q. Do you recall who -- strike that.</p> <p>2 Do you recall which SAMs were responsible for</p> <p>3 overseeing these accounts?</p> <p>4 A. Yes.</p> <p>5 Q. Who were they?</p> <p>6 A. Per account?</p> <p>7 Q. Yes.</p> <p>8 A. Becky Demers oversaw Dental Partners of</p> <p>9 Georgia and OrthoSynetics. I'm drawing the blank</p> <p>10 for the -- the other. Tralongo was overseen by Dave</p> <p>11 Muller. And I'm drawing on who the -- who the fourth</p> <p>12 was. Give me a second. I gave you OrthoSynetics.</p> <p>13 MR. McDONALD: It was Dental Gator.</p> <p>14 THE WITNESS: Dental Gator. Dental Gator was</p> <p>15 overseen by Daniel Hobson. Thank you.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. Do you recall who oversaw Breakaway Dental?</p> <p>18 A. At the end, it was Kip Roland under mid</p> <p>19 market, and that would be a mid-market person.</p> <p>20 Q. You mentioned a group called OrthoSynetics?</p> <p>21 A. Yes.</p> <p>22 Q. Did I pronounce that right?</p> <p>23 A. You did.</p> <p>24 Q. Do you recall whether the members of</p> <p>25 OrthoSynetics were dentists or orthodontists?</p>	67	<p>1 a corporate account?</p> <p>2 MR. McDONALD: Object to the form.</p> <p>3 THE WITNESS: Yes.</p> <p>4 BY MR. SOLOMON:</p> <p>5 Q. What did Schein special markets do to make</p> <p>6 that determination?</p> <p>7 A. Determined whether there was ownership of the</p> <p>8 actual end members. I would distinguish whether they</p> <p>9 were a buying group or a DSO.</p> <p>10 Q. And why was that important in making that</p> <p>11 determination?</p> <p>12 A. They could -- a DSO could drive compliance to</p> <p>13 formularies. We simply made a determination, is this</p> <p>14 categorized as a buying group? Is their ownership of a</p> <p>15 practice, or is this a DSO? That's simply the only</p> <p>16 reason we would make that determination.</p> <p>17 Q. Do you recall who made that determination?</p> <p>18 A. I would make that determination, Hal would</p> <p>19 make that determination, just based on their model.</p> <p>20 Q. Was there anything else you would look at with</p> <p>21 respect to a group s model to determine whether it was</p> <p>22 a GPO, a buying group or a corporate account?</p> <p>23 MR. McDONALD: Object to the form.</p> <p>24 THE WITNESS: No.</p> <p>25 BY MR. SOLOMON:</p>
66	<p>1 A. Primarily orthodontists, the majority.</p> <p>2 Q. How did you know that these five entities were</p> <p>3 buying groups or GPOs?</p> <p>4 A. Well, I worked closely with all of their --</p> <p>5 their management teams in developing pricing strategy,</p> <p>6 and then whether to assign FSCs or not, and just</p> <p>7 working with their corporate entity in promoting their</p> <p>8 buying group to their end users and Henry Schein.</p> <p>9 Q. Do you recall whether anyone within special</p> <p>10 markets was unhappy about the fact that special markets</p> <p>11 had these buying group or GPO customers?</p> <p>12 A. Within special markets?</p> <p>13 Q. Right.</p> <p>14 A. No.</p> <p>15 Q. What about outside of special markets?</p> <p>16 A. No.</p> <p>17 MR. McDONALD: Object to the form.</p> <p>18 THE WITNESS: I'm sorry. No.</p> <p>19 BY MR. SOLOMON:</p> <p>20 Q. Okay. Does Schein Special Markets -- or</p> <p>21 strike that.</p> <p>22 Did Schein Special Markets do anything to</p> <p>23 determine whether a group practice was -- strike that.</p> <p>24 Did Schein Special Markets do anything to</p> <p>25 determine whether a group was a GPO, a buying group, or</p>	68	<p>1 Q. Does special markets have agreements with its</p> <p>2 customers that govern the sale of dental supplies?</p> <p>3 A. Yes.</p> <p>4 Q. What were those agreements called?</p> <p>5 A. Prime vendor agreements.</p> <p>6 Q. Did you ever -- strike that.</p> <p>7 Did you ever review a prime vendor agreement</p> <p>8 while you were employed at special markets?</p> <p>9 A. Yes.</p> <p>10 Q. How often would you review those agreements?</p> <p>11 A. As they renewed.</p> <p>12 Q. Was that often?</p> <p>13 A. Yes.</p> <p>14 Q. Did those agreements have any provisions</p> <p>15 prohibiting special markets' customers from supporting</p> <p>16 GPOs or buying groups?</p> <p>17 MR. McDONALD: Object to the form.</p> <p>18 THE WITNESS: It had provisions that they</p> <p>19 could not extend their specific pricing to buying</p> <p>20 group-type organizations.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. Did all customer agreements have those</p> <p>23 provisions?</p> <p>24 MR. McDONALD: Object to the form; overly</p> <p>25 broad; no foundation.</p>

69

1 THE WITNESS: Later in the years, yes.
 2 BY MR. SOLOMON:
 3 **Q. When you say "later in the years," what do you**
 4 **mean?**
 5 A. 2000- -- you know, 2015, 2016 we started to
 6 make the contracts all identical. It may be earlier.
 7 I apologize. It may be even earlier.
 8 **Q. Did some prime vendor agreements have those**
 9 **provisions prior to 2015, 2016 when they became**
 10 **standard?**
 11 MR. McDONALD: Object to the form; lack of
 12 foundation.
 13 THE WITNESS: I'm not sure.
 14 BY MR. SOLOMON:
 15 **Q. Do you know why those provisions were added**
 16 **into the prime vendor agreements?**
 17 MR. McDONALD: Same objection.
 18 THE WITNESS: Yes.
 19 BY MR. SOLOMON:
 20 **Q. Why?**
 21 A. Our vendor partners did not want to extend
 22 their reduced cost pricing for a particular customer if
 23 they also were to set up a buying group under their
 24 plan.
 25 **Q. When you say "vendor partners," are you**

70

1 **referring to a manufacturer?**
 2 A. Yes.
 3 **Q. Do you recall which vendor partners held that**
 4 **sentiment?**
 5 A. Most.
 6 **Q. The largest vendor partners would be included**
 7 **in that?**
 8 A. Yes.
 9 **Q. Why would a vendor partner care whether a**
 10 **customer was setting up a buying group?**
 11 MR. McDONALD: Object to the form.
 12 THE WITNESS: Not sure.
 13 BY MR. SOLOMON:
 14 **Q. Did you do anything to learn more about why**
 15 **vendor partners cared about whether customers were**
 16 **setting up buying groups?**
 17 A. Repeat the question.
 18 **Q. Sure. Did you do anything to learn more about**
 19 **why vendor partners cared whether customers were**
 20 **setting up buying groups?**
 21 A. No.
 22 **Q. Did you ever have any discussions with**
 23 **Mr. Muller about this?**
 24 A. Yes.
 25 **Q. What did you discuss?**

71

1 A. That we would need to set up a different
 2 pricing plan that did not include the vendor discounts
 3 for any DSO that also had a buying group underneath
 4 them.
 5 **Q. Because the vendor partners were objecting to**
 6 **customers setting up buying groups, right?**
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: No. They were -- no. They were
 9 objecting to us extending their discounts to those
 10 buying groups.
 11 BY MR. SOLOMON:
 12 **Q. Did all of the vendor partners for special**
 13 **markets object to extending discounts to customer**
 14 **buying groups?**
 15 A. No.
 16 **Q. Do you recall which ones objected?**
 17 A. No.
 18 **Q. Do you recall whether most vendor partners**
 19 **objected?**
 20 A. No.
 21 **Q. Was it more than one?**
 22 A. Yes.
 23 **Q. Was it more than five?**
 24 A. No.
 25 **Q. So less than five?**

72

1 A. Approximately.
 2 **Q. But you don't recall which ones specifically?**
 3 A. No.
 4 **Q. Were there some vendors who had no opinion as**
 5 **to whether customers were -- strike that.**
 6 **Were there some vendors who had no opinion as**
 7 **to whether Henry Schein was extending discounts to**
 8 **buying groups?**
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: Repeat the question.
 11 MR. SOLOMON: Sure.
 12 BY MR. SOLOMON:
 13 **Q. Were there some vendors who had no opinion as**
 14 **to whether Henry Schein Special Markets was extending**
 15 **discounts to buying group customers?**
 16 A. Yes.
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: Yes.
 19 BY MR. SOLOMON:
 20 **Q. Which ones?**
 21 A. In general. It's a general answer that
 22 there's so many vendors, I don't know which ones, but
 23 some were -- some really didn't monitor it at all.
 24 **Q. Do you recall how many did not monitor it?**
 25 A. There's so many vendors, I do not recall.

18 (Pages 69 to 72)

73

1 **Q. Did any of Henry Schein Special Markets'**
 2 **vendor partners ask you to put those provisions in**
 3 **customer agreements?**
 4 A. No.
 5 **Q. Do you know why special markets did it?**
 6 MR. McDONALD: Object to the form; lack of
 7 foundation.
 8 THE WITNESS: Again, we were not wanting to
 9 extend their formulary, their pricing to the -- the
 10 buying groups that we would -- we would create a
 11 separate one for their buying groups.
 12 BY MR. SOLOMON:
 13 **Q. A separate formulary?**
 14 A. Correct.
 15 **Q. Who created the separate formulary for buying**
 16 **groups?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: Our division, Paul Berkey.
 19 BY MR. SOLOMON:
 20 **Q. Do you recall -- strike that.**
 21 **How do you know that some vendors were opposed**
 22 **to extending discounts to buying groups?**
 23 A. There was an e-mail once with one of our
 24 buying group's customers, the ADSOs, where a Patterson
 25 field sales consultant brought it to their attention.

74

1 **Q. Who was the e-mail from?**
 2 A. I did not receive the e-mail.
 3 **Q. How do you know about it?**
 4 A. One of my team members informed me that an
 5 e-mail from Patterson -- I'm unclear, but I remember
 6 there was a note that a medical -- an FSC from
 7 Patterson Dental was upset and reported it up the
 8 Patterson chain.
 9 **Q. How did that affect Henry Schein?**
 10 A. The vendor partner asked us not to extend the
 11 pricing for that particular customer to their buying
 12 group arm.
 13 **Q. Do you recall who the vendor partner was?**
 14 A. Kerr.
 15 **Q. Do you recall why Kerr asked Schein not to**
 16 **extend pricing for a particular buying group?**
 17 A. No.
 18 **Q. Do you recall the name of the buying group?**
 19 A. Dental Gator.
 20 **Q. And Dental Gator was a customer of Henry**
 21 **Schein Special Markets?**
 22 A. Correct.
 23 **Q. Did that affect the relationship between**
 24 **special markets and Dental Gator?**
 25 A. No. They understood.

75

1 **Q. Who understood?**
 2 A. Dental Gator.
 3 **Q. Why would a complaint from -- strike that.**
 4 **How was Patterson involved in Dental Gator?**
 5 MR. McDONALD: Object to the form.
 6 THE WITNESS: Dental Gator acquired or
 7 affiliated with a Patterson customer.
 8 BY MR. SOLOMON:
 9 **Q. Do you recall who the customer was?**
 10 A. No, I do not know who it is.
 11 **Q. And just for the record, what is Patterson**
 12 **that you're referring to?**
 13 A. Patterson Dental is -- Patterson Dental is a
 14 dental distributor.
 15 **Q. And they're a competitor of Schein?**
 16 A. Correct.
 17 **Q. Do you recall who made you aware of this issue**
 18 **with respect to Dental Gator?**
 19 A. No.
 20 **Q. Do you recall the language in the provision**
 21 **preventing customers from establishing or supporting**
 22 **buying groups or GPOs?**
 23 MR. McDONALD: Object to the form;
 24 mischaracterizes testimony.
 25 THE WITNESS: No. Oh, I'm sorry. No.

76

1 BY MR. SOLOMON:
 2 **Q. Do you know who drafted it?**
 3 A. That would be from Hal Muller.
 4 **Q. He drafted the provision?**
 5 A. He was ultimately responsible for the actual
 6 prime vendor agreement.
 7 **Q. And do you know whether he drafted that**
 8 **particular provision?**
 9 A. In the final versions, yes. In earlier
 10 versions it could have been one of my team members that
 11 are working with the customer.
 12 **Q. How did that provision affect the relationship**
 13 **between special markets and Dental Gator?**
 14 A. It -- it didn't. We put them on a separate
 15 sales plan and promoted their program.
 16 **Q. Did that provision affect any other buying**
 17 **group or GPO customers of special markets?**
 18 A. Not that I know of.
 19 **Q. Apart from Kerr, were any other vendor**
 20 **partners opposed to special markets extending special**
 21 **pricing to buying groups or GPOs?**
 22 MR. McDONALD: Object to the form.
 23 THE WITNESS: Yes.
 24 BY MR. SOLOMON:
 25 **Q. Do you recall which ones?**

19 (Pages 73 to 76)

77	<p>1 A. Just a couple.</p> <p>2 Q. Which ones?</p> <p>3 A. Like, maybe Dentsply, 3M and Kerr, the top</p> <p>4 five.</p> <p>5 Q. And how do you know that Dentsply, 3M --</p> <p>6 strike that.</p> <p>7 How do you know that Dentsply and 3M were</p> <p>8 opposed to that?</p> <p>9 A. They basically asked us not to extend</p> <p>10 customers that are on a particular sales plan such as</p> <p>11 MB2 Dental to extend their plan with chargebacks to</p> <p>12 Dental Gator.</p> <p>13 Q. Do you know why they asked that?</p> <p>14 A. No.</p> <p>15 Q. Did you speak with someone at either 3M or</p> <p>16 Dentsply specifically about this?</p> <p>17 A. No.</p> <p>18 Q. How did you find out about it?</p> <p>19 A. I understood that we had to change -- create a</p> <p>20 new sales plan for Dental Gator when we were told that</p> <p>21 we needed to remove the chargebacks. So we created a</p> <p>22 new duplicate plan for Dental Gator.</p> <p>23 Q. How specifically did you find out that 3M and</p> <p>24 Dentsply were opposed to extending special pricing to</p> <p>25 buying groups and GPOs?</p>	79	<p>1 GPOs that were comprised of private practice dentists?</p> <p>2 MR. McDONALD: Same objection.</p> <p>3 THE WITNESS: They would bring in clients that</p> <p>4 we wouldn't have before, and it allowed us -- it opened</p> <p>5 a door for our one Schein world to a number of people.</p> <p>6 And for existing customers, it -- again, it could lead</p> <p>7 to longer retention on the customer.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. Do you know whether Henry Schein gained new</p> <p>10 customers as a result of any buying groups or GPOs?</p> <p>11 A. Yes.</p> <p>12 Q. Do you know how many?</p> <p>13 A. No.</p> <p>14 Q. How do you know that Henry Schein gained new</p> <p>15 customers as a result of buying groups or GPOs?</p> <p>16 A. Well, I had growth numbers with OrthoSynetics,</p> <p>17 there were growth numbers with Breakaway, okay, and a</p> <p>18 number of them had a high growth, you know, double</p> <p>19 percent growth.</p> <p>20 Q. When you say "double percent growth," are you</p> <p>21 referring to revenue growth?</p> <p>22 A. Revenue growth and merchandise only.</p> <p>23 Q. And was the revenue growth specific to special</p> <p>24 markets?</p> <p>25 A. Well, Breakaway was with mid market</p>
78	<p>1 MR. McDONALD: Object to the form.</p> <p>2 THE WITNESS: I want to say I'm not definitely</p> <p>3 sure how I found out. I just understood that we</p> <p>4 couldn't allow chargebacks for most our vendors to the</p> <p>5 buying groups.</p> <p>6 BY MR. SOLOMON:</p> <p>7 Q. Did Henry Schein special markets have</p> <p>8 discretion to extend discounts to buying groups and</p> <p>9 GPOs regardless of whether a vendor partner agreed or</p> <p>10 disagreed?</p> <p>11 A. Yes. For example, we offered a 20 percent off</p> <p>12 catalog to both, whether it was a GPO or a DSO.</p> <p>13 Q. How did special markets view the existence of</p> <p>14 buying groups and GPOs in the dental industry?</p> <p>15 MR. McDONALD: Object to the form.</p> <p>16 THE WITNESS: Favorably.</p> <p>17 BY MR. SOLOMON:</p> <p>18 Q. How so?</p> <p>19 A. They were added revenue for our division. For</p> <p>20 those that brought value to their customer in the</p> <p>21 community health center world, we understood that they</p> <p>22 were associated with a buying group. Their retention</p> <p>23 rate with Schein was higher than a person not</p> <p>24 associated with a buying group.</p> <p>25 Q. What were the benefits of buying groups and</p>	80	<p>1 eventually. But yes, we had revenue growth with most</p> <p>2 of the people I listed.</p> <p>3 Q. While you were at Schein Special Markets, how</p> <p>4 did special markets handle inquiries from buying groups</p> <p>5 and GPOs to establish supply agreements for dental</p> <p>6 products?</p> <p>7 A. In the final years, if we -- I would just</p> <p>8 simply refer them to our -- our private division</p> <p>9 because they and HSD took over buying groups.</p> <p>10 Q. When did HSD take over buying groups?</p> <p>11 A. Formally it began more when the mid market --</p> <p>12 around the mid-market time, but they had some -- they</p> <p>13 already had some buying groups in place. As far as</p> <p>14 when I started, they had a few that they owned</p> <p>15 themselves. And we basically grandfathered the ones</p> <p>16 that we had in place that were larger. And then any</p> <p>17 new ones, basically, I would refer them to talk to</p> <p>18 somebody at -- at our -- at HSD.</p> <p>19 Q. You mentioned it was around the time that</p> <p>20 mid-market segment began?</p> <p>21 A. Umm-hmm.</p> <p>22 Q. So would you say that Henry Schein Dental took</p> <p>23 over buying groups in or around 2014?</p> <p>24 MR. McDONALD: Object to the form.</p> <p>25 THE WITNESS: Yes.</p>

81	83
<p>1 BY MR. SOLOMON: 2 Q. And when you say that Henry Schein Dental took 3 over buying groups, what do you mean? 4 A. That since the buying groups usually had FSCs 5 assigned, we felt that it would be a better fit that 6 HSD work the buying groups in developing their 7 relationship versus special markets. We only 8 maintained those that were associated with our groups. 9 Q. At that point all new inquiries regarding GPOs 10 and buying groups were sent to HSD; is that right? 11 A. Yes. 12 Q. Did you ever send any inquiries -- or strike 13 that. 14 Did you ever personally send any inquiries 15 from GPOs and buying groups over to HSD? 16 A. Yes. 17 MR. McDONALD: Object to the form. 18 THE WITNESS: Sorry. 19 BY MR. SOLOMON: 20 Q. Do you recall how many? 21 A. No. 22 Q. Did special markets -- strike that. 23 Even though Henry Schein Dental took over 24 buying groups, special markets still kept the buying 25 group customers that it had apart from Breakaway</p>	<p>1 A. No. 2 Q. Do you recall what Henry Schein Dental did 3 with Breakaway Dental once it was transferred to HSD? 4 A. Yes. 5 Q. What did it do? 6 A. They helped grow the business. It grew 7 substantially with mid market. 8 Q. How did they help grow the business? 9 MR. McDONALD: Object to the form; lack of 10 foundation. 11 THE WITNESS: They met with their management 12 team in Austin or San Antonio, wherever it is, and 13 helped develop stronger programs, worked with 14 compliance on their formulary. 15 BY MR. SOLOMON: 16 Q. Did Henry Schein Dental support Breakaway's 17 buying group component? 18 MR. McDONALD: Object to the form. 19 THE WITNESS: Yes. The majority of it was a 20 buying group. 21 BY MR. SOLOMON: 22 Q. Did Breakaway Dental remain a customer of 23 Henry Schein Dental? 24 A. At the time that I left, they were a customer. 25 Q. Did you ever hear during your time at special</p>
82	84
<p>1 Dental; is that right? 2 MR. McDONALD: Object to the form. 3 THE WITNESS: Yes. 4 BY MR. SOLOMON: 5 Q. Do you recall who at Henry Schein Dental 6 handled inquiries from GPOs and buying groups? 7 A. No. 8 Q. Do you recall who you would have sent those 9 inquiries over to when you sent them to HSD? 10 A. Brian Brady. 11 Q. Who is Brian Brady? 12 A. He was a part of the mid-market management 13 team at HSD at Henry Schein Dental. 14 Q. And when did Brian Brady join Henry Schein 15 Dental's mid-market management team? 16 A. I'm not sure. 17 Q. Did you interact with anyone else from Henry 18 Schein Dental -- or strike that. 19 Was there anyone at Henry Schein Dental to 20 whom you sent inquires regarding buying groups and 21 GPOs? 22 A. No. 23 Q. Do you know what Henry Schein Dental did with 24 the buying groups and GPOs once the inquiries were sent 25 over from special markets?</p>	<p>1 markets that HSD was not interested in doing business 2 with buying groups or GPOs? 3 A. No. 4 Q. Did you ever hear of a formal policy not to do 5 business with buying groups or GPOs either at special 6 markets or at Henry Schein Dental? 7 A. No. 8 Q. Have you ever heard of a buying group or GPO 9 rule at Henry Schein? 10 MR. McDONALD: Object to the form. 11 THE WITNESS: No. 12 BY MR. SOLOMON: 13 Q. Did you know of any Henry Schein employees who 14 wanted to avoid working with GPOs or buying groups? 15 MR. McDONALD: Object to the form. 16 THE WITNESS: Yes. 17 BY MR. SOLOMON: 18 Q. Who were they? 19 A. In general, it may be some FSCs when a buying 20 group would take over one of their customers. There 21 would be flack. 22 Q. When you say "flack," what do you mean? 23 A. I mean there would be disruption that their 24 customer is now joining a buying group. 25 Q. How did you know that?</p>

85	<p>1 A. Because I would receive inquiries as to who is 2 this buying -- who is this organization. And in 3 earlier years when they moved to special markets, it 4 may cause some issues, but that was at that level, the 5 FSC level only.</p> <p>6 Q. Did you ever hear that Tim Sullivan was not 7 interested in working with buying groups or GPOs?</p> <p>8 A. No.</p> <p>9 Q. Have you ever communicated with Mr. Sullivan 10 about buying groups or GPOs?</p> <p>11 A. Maybe. I don't recall. I'll say no.</p> <p>12 Q. Do you recall whether special markets and 13 Henry Schein Dental ever had any disagreements that 14 concerned working with GPOs or buying groups?</p> <p>15 A. Yes.</p> <p>16 Q. What were those disagreements about?</p> <p>17 A. When we would -- when there might be a buying 18 group that was solely based on price and offered no 19 other service whatsoever to the end user, there may be, 20 again, questioning why we're doing business with that 21 particular group.</p> <p>22 Q. And who would question why you were doing 23 business with that particular group?</p> <p>24 A. If it was a special markets customer, it would 25 come from our private division, HSD division.</p>	87	<p>1 Q. How did you know that?</p> <p>2 A. I would -- just through field communication. 3 Somebody would inform me that this is all they re up 4 to.</p> <p>5 Q. Did you ever do any research yourself to learn 6 whether buying groups or GPOs offered value-added 7 services to its members?</p> <p>8 A. No.</p> <p>9 Q. Do you recall ever feeling pressure from Henry 10 Schein Dental as a result of special markets working 11 with a GPO or buying group?</p> <p>12 A. Never.</p> <p>13 Q. Did anyone at special markets ever express to 14 you that they felt any pressure from Henry Schein 15 Dental --</p> <p>16 A. No.</p> <p>17 Q. -- because of working with buying groups or 18 special markets?</p> <p>19 A. No.</p> <p>20 Q. Were there any buying groups or GPOs of which 21 you were aware that did offer its members value-added 22 services?</p> <p>23 A. Yes.</p> <p>24 Q. Which ones?</p> <p>25 A. Council Connections, Commonwealth purchasing</p>
86	<p>1 Q. So the disagreement concerned special markets 2 working with buying groups and GPOs?</p> <p>3 A. Not really.</p> <p>4 Q. So who voiced the disagreement?</p> <p>5 A. The disagreement, again, would be generated 6 from an FSC concerned about the buying group being 7 price only, no other value-added service.</p> <p>8 Q. So FSCs were concerned about buying groups not 9 offering value-added services?</p> <p>10 A. Yes.</p> <p>11 Q. Why were they concerned about that?</p> <p>12 A. It blocked them from offering working with a 13 partner at the customer level. They felt they owned 14 the customer, and they would try to work with -- wanted 15 to work with the buying group, but certain buying 16 groups, only a very few that I know of, were -- were 17 not cooperative.</p> <p>18 Q. What do you mean when you say they "were not 19 cooperative"?</p> <p>20 A. They basically didn't partner with us on our 21 one Schein program and were very limited in what -- 22 their capability of success offering price.</p> <p>23 Q. So those buying groups and GPOs did not offer 24 any value-added services to its members?</p> <p>25 A. Yes.</p>	88	<p>1 Group, Texas Association of Community Health Centers, 2 Dental Partners of Georgia, Dental Gator, 3 OrthoSynetics, Tralongo, MMCAPs, and E&I in the dental 4 school side.</p> <p>5 Q. What types of value-added services did these 6 groups offer to their members?</p> <p>7 A. They would pay their -- you know, host their 8 software, pay their bills, their invoicing, process 9 bills. They would promote Schein. They would promote 10 our software, our equipment, our services.</p> <p>11 Q. Anything else?</p> <p>12 A. They would help their member practices grow 13 along with our marketing programs and value-adds.</p> <p>14 Q. How did you learn about these value-added 15 services?</p> <p>16 A. I had relationships with a number of them, 17 like in particular, Council Connections and 18 Commonwealth and OrthoSynetics. On Dental Gator, 19 they -- they fell under me, and I would be -- I would 20 participate in their -- if they had a 21 customer-appreciation event I would be -- I would 22 represent Schein from a VP level at those events.</p> <p>23 Q. Did anyone from HSD ever disagree with you as 24 to whether these groups offered their members 25 value-added services?</p>

89

1 A. Not these groups.

2 **Q. I think you may have mentioned this in passing**
3 **a little bit, but I'm curious why Henry Schein Dental**
4 **cared whether buying groups or GPOs offered value-added**
5 **services to their members? Why was that something that**
6 **was important to HSD?**

7 MR. McDONALD: Object to the form, lack of
8 foundation.

9 THE WITNESS: They wanted the customer to
10 grow. So if it was just based on pricing and pricing
11 only, there was no value. And some may prevent
12 relationships with our FSCs from going in and helping
13 that customer grow.

14 BY MR. SOLOMON:

15 **Q. So for those buying groups or GPOs that lacked**
16 **value-added services, did HSD refuse to work with them?**

17 MR. McDONALD: Object to the form.

18 THE WITNESS: No.

19 BY MR. SOLOMON:

20 **Q. What did Henry Schein Dental do to encourage**
21 **those groups to offer value-added services to its**
22 **members?**

23 MR. McDONALD: Object to the form; lack of
24 foundation.

25 THE WITNESS: They -- from my knowledge, they

90

1 would try to meet with the buying group to help them
2 expand their services.

3 BY MR. SOLOMON:

4 **Q. Anything else?**

5 MR. McDONALD: Object to the form; lack of
6 foundation.

7 THE WITNESS: No.

8 BY MR. SOLOMON:

9 **Q. And would those be buying groups or GPOs that**
10 **were customers of Henry Schein Dental?**

11 A. Rephrase that. I mean say it again.

12 **Q. Would those be buying groups or GPOs that were**
13 **customers of Henry Schein Dental?**

14 A. Yes, they were customers that they'd work
15 with.

16 **Q. Okay. Do you recall the names of any specific**
17 **GPOs or buying groups that did not offer value-added**
18 **services to its members?**

19 A. Steadfast Dental is the only one I can think
20 of.

21 **Q. What is Steadfast Dental?**

22 A. Steadfast was developed within special
23 markets, focused on oral health -- oral surgeons, and
24 so their members were primarily oral surgeons.

25 **Q. When you say it "was developed within special**

91

1 **markets," what do you mean by that?**

2 A. We -- they first came to special markets in
3 2009 or '10 because it's when I started, and we created
4 the -- the sales plan for them. So I was there for
5 initially when we started the group.

6 **Q. Did Steadfast Dental also have a medical**
7 **aspect to its group?**

8 A. Not that I'm -- no, not that I'm aware of.

9 **Q. Was it also called Steadfast Medical.**

10 A. Could be. I only know it as Steadfast. Okay.

11 **Q. Did Henry Schein Special Markets ever end its**
12 **relationship with Steadfast?**

13 A. I am -- it transferred to mid market. I'm not
14 aware of what happened with it.

15 **Q. You don't know whether it remained as a**
16 **customer with mid market following its transfer?**

17 A. At the time that it transferred, it was a
18 customer. I'm not sure if it ended up, you know, as a
19 customer or not later on.

20 **Q. And why was Steadfast transferred as a**
21 **customer from special markets to Henry Schein Dental?**

22 A. In the move to mid market, it was small. It
23 had maybe ten -- ten members, and under X amount -- I
24 do not know the dollar value, but it wasn't that high.

25 **Q. Do you recall whether Henry Schein medical had**

92

1 **a relationship with Steadfast as well?**

2 A. No, not aware.

3 **Q. Do you recall whether the members of Steadfast**
4 **were private practice oral surgeons?**

5 A. For the most part, yes.

6 **Q. Were there any other GPOs or buying groups of**
7 **which you were aware that did not offer value-added**
8 **services to its members?**

9 A. No.

10 MR. SOLOMON: So we've been going for about an
11 hour now.

12 MR. McDONALD: Sure.

13 MR. SOLOMON: If you guys want to take a
14 break, I'm happy to take a break now.

15 MR. McDONALD: Sure.

16 MR. SOLOMON: Okay.

17 (Brief recess.)

18 MR. SOLOMON: Back on the record at 11:31.

19 BY MR. SOLOMON:

20 **Q. Mr. Foley, before the break we talked a little**
21 **bit about disagreements between Henry Schein Dental and**
22 **Special Markets concerning buying groups and GPOs, and**
23 **you referred to a concern among FSCs regarding whether**
24 **buying groups and GPOs offer value-added services to**
25 **their members.**

93	<p>1 Do you recall that discussion?</p> <p>2 A. Yes.</p> <p>3 Q. What specifically was the nature of the</p> <p>4 disagreement between Henry Schein Dental and Special</p> <p>5 Markets?</p> <p>6 MR. McDONALD: Object to the form.</p> <p>7 THE WITNESS: Well, we paid the FSCs. If the</p> <p>8 account belonged to special markets, the buying group,</p> <p>9 and it -- and it affiliated with a private HSD</p> <p>10 customer, the FSC would be paid a lower rate. So they</p> <p>11 were frustrated with that lower rate, but they also</p> <p>12 wanted -- they didn't want the buying group to run</p> <p>13 interference with their ability to sell to that</p> <p>14 practice that they had a relationship with.</p> <p>15 BY MR. SOLOMON:</p> <p>16 Q. Anything else?</p> <p>17 A. No.</p> <p>18 Q. How did special markets handle that</p> <p>19 disagreement?</p> <p>20 A. We -- we would have HSD simply have to deal</p> <p>21 with it, with the FSC.</p> <p>22 Q. What do you mean by that?</p> <p>23 A. We would have HSD simply explain to the --</p> <p>24 the -- we would have Henry Schein Dental explain to the</p> <p>25 FSC that this is a supported buying group by special</p>	95	<p>1 group would expand outside of its territory into</p> <p>2 another state. That's usually when it would pop up.</p> <p>3 They were unfamiliar with it.</p> <p>4 Q. Did those disagreements affect the</p> <p>5 relationship between HSD and special markets?</p> <p>6 A. No.</p> <p>7 Q. We also talked a little bit before the break</p> <p>8 about FSCs who were concerned that some buying group</p> <p>9 and GPOs were only focused on price.</p> <p>10 Do you recall that?</p> <p>11 A. Yes.</p> <p>12 Q. Did special markets care whether buying group</p> <p>13 and GPOs were only focused on price?</p> <p>14 A. Yes.</p> <p>15 Q. Why?</p> <p>16 A. We wanted -- again, we wanted to facilitate</p> <p>17 the practice member to be able to grow. So we would</p> <p>18 simply go to the GP- -- again, you're saying buying</p> <p>19 groups and GPOs, like if they're buying groups, slash,</p> <p>20 GPOs, if that means anything. I mean, that's</p> <p>21 important. But we consider the buying group -- if we</p> <p>22 could help facilitate them to be focused on more,</p> <p>23 that's what we would do special at markets.</p> <p>24 Q. How would special markets facilitate that?</p> <p>25 A. For example, with Dental Gator, we helped</p>
94	<p>1 markets. It was the same situation when a DSO would</p> <p>2 acquire a private practice. There would be, you</p> <p>3 know -- the FSC may get upset with that too.</p> <p>4 Q. Do you recall discussing that disagreement</p> <p>5 with anyone from Henry Schein Dental?</p> <p>6 A. I would work -- yes.</p> <p>7 Q. Who?</p> <p>8 A. I would work perhaps with the regional manager</p> <p>9 at HSD at the time on the FSC and help explain, if this</p> <p>10 were a buying group, who are they. A lot of questions</p> <p>11 were, "Who is this group? I've never heard of it." I</p> <p>12 got a lot of e-mails asking who is this, who is that.</p> <p>13 Q. Anyone else at Henry Schein Dental who you</p> <p>14 would speak with regarding that disagreement?</p> <p>15 A. No. Generally I could handle it through the</p> <p>16 regional managers.</p> <p>17 Q. How long did the disagreement between HSD and</p> <p>18 special markets last?</p> <p>19 MR. McDONALD: Object to the form.</p> <p>20 THE WITNESS: It was per -- per incident</p> <p>21 basis. It would be very short, you know.</p> <p>22 BY MR. SOLOMON:</p> <p>23 Q. When you say "per incident basis," was it an</p> <p>24 ongoing disagreement that kept coming up over time?</p> <p>25 A. Earlier on it would come up when a buying</p>	96	<p>1 create not only a printed formulary of their pricing</p> <p>2 but also other value-adds that Henry Schein had to</p> <p>3 offer for them to hand out to their members. We handed</p> <p>4 out -- we provided brochures on our software, on our</p> <p>5 equipment, that they could give to their Dental Gator</p> <p>6 members. Not just our pricing.</p> <p>7 Q. Did special markets ever sell to any buying</p> <p>8 groups or GPOs that were only focused on price?</p> <p>9 MR. McDONALD: Object to the form; asked and</p> <p>10 answered.</p> <p>11 THE WITNESS: I'm sorry.</p> <p>12 MR. McDONALD: Go ahead. You can answer if</p> <p>13 you understand.</p> <p>14 THE WITNESS: Yes.</p> <p>15 BY MR. SOLOMON:</p> <p>16 Q. Which one?</p> <p>17 A. To my knowledge, Steadfast.</p> <p>18 Q. Any others?</p> <p>19 A. It's the only one I know of.</p> <p>20 Q. And we talked about a little bit about</p> <p>21 Steadfast being transferred from special markets to HSD</p> <p>22 before the break.</p> <p>23 Do you recall that?</p> <p>24 A. Yes.</p> <p>25 Q. And that was because Steadfast was a smaller</p>

<p style="text-align: right;">97</p> <p>1 group and it was transferred to the mid-market segment; is that right?</p> <p>2 A. Correct.</p> <p>3 MR. SOLOMON: Okay.</p> <p>4 [Whereupon, Exhibit 274 was referenced.]</p> <p>5 BY MR. SOLOMON:</p> <p>6 Q. Mr. Foley, I'm handing you a document that was previously marked as Exhibit 274, which is a document Bates labeled Henry Schein 00073733.</p> <p>7 Can you please look that document over and let me know when you've had a chance to review it?</p> <p>8 A. Okay.</p> <p>9 Q. Mr. Foley, do you recognize Exhibit 274?</p> <p>10 A. No.</p> <p>11 Q. What is your understanding of what Exhibit 274 represents?</p> <p>12 MR. McDONALD: Object to the form; lack of foundation.</p> <p>13 THE WITNESS: I don't understand the form because I don't understand who Melanie Bingham is and what the question is.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. This e-mail -- Exhibit 274 represents an e-mail chain that includes Ms. Hight and Joe Cavaretta, right?</p>	<p style="text-align: right;">99</p> <p>1 Q. Were its members DSOs?</p> <p>2 A. No. It fell under the DSO category. Its members were private dentists. I'm sorry. IDA itself was a DSO of about eight locations, and it had maybe a dozen members attached to it as affiliated buying group offices.</p> <p>3 Q. Do you recall what the name of the -- do you recall whether the affiliated buying group offices had a unified name?</p> <p>4 A. No.</p> <p>5 Q. So IDA was a DSO that had a buying group component?</p> <p>6 A. Correct.</p> <p>7 Q. Did you personally ever work with IDA or its members?</p> <p>8 A. With IDA itself, yes; not with its members, no.</p> <p>9 Q. Were you personally familiar with its buying group component?</p> <p>10 A. Yes.</p> <p>11 Q. How so?</p> <p>12 A. I understood -- I knew that it had about a dozen buying group components to it in the Nevada-Idaho market, and I had met with their CEO at a couple of trade shows here and there.</p>
<p style="text-align: right;">98</p> <p>1 A. Correct.</p> <p>2 Q. And Ms. Hight reported to you directly, right?</p> <p>3 A. At that date, yes.</p> <p>4 Q. Who is Joe Cavaretta?</p> <p>5 A. Joe Cavaretta is -- was director of sales over HSD.</p> <p>6 Q. Did you work with Mr. Cavaretta while you were at special markets?</p> <p>7 A. Occasionally, yes.</p> <p>8 Q. On what sorts of thing did you work with Mr. Cavaretta?</p> <p>9 A. With certain accounts and special markets that had FSCs assigned to them, situations about the buying groups or customers that were expanding to other areas.</p> <p>10 I do want to say on this that IDA was a buying group supported by special markets, so it's another buying group that I forgot to mention earlier. This just rings -- it's called Intermountain Dental Associates.</p> <p>11 Q. Intermountain Dental Associates, do you recall whether that was a CHC buying group?</p> <p>12 A. No. It's a -- I'm sorry. It is not a CHC buying group.</p> <p>13 Q. What kind of buying group is it?</p> <p>14 A. It's a DSO buying group.</p>	<p style="text-align: right;">100</p> <p>1 Q. When did special markets form a relationship with IDA?</p> <p>2 A. When I started in 2009, the relationship was already in place.</p> <p>3 Q. Did IDA remain a customer of special markets during your entire tenure at special markets?</p> <p>4 A. Yes.</p> <p>5 Q. Did its buying group component remain during your entire tenure at special markets?</p> <p>6 A. Yes.</p> <p>7 Q. I'd like to direct your attention to the top e-mail in Exhibit 274, which is from Ms. Hight to Joe Cavaretta and someone named Melanie Bingham. It appears to be a discussion regarding IDA and whether or not it is a GPO. And Ms. Hight says: (Reading.)</p> <p>8 "...we have tightened our criteria for defining Special Markets and I ran the scenario past Randy Foley."</p> <p>9 Do you see that?</p> <p>10 A. Yes.</p> <p>11 Q. Do you know what Ms. Hight is referring to by "tightening criteria" for special markets?</p> <p>12 A. No.</p> <p>13 Q. Do you recall Ms. Hight running the scenario described in this e-mail by you?</p>

101	<p>1 A. No.</p> <p>2 Q. Do you recall any discussions with Ms. Hight</p> <p>3 surrounding IDA and whether it was a buying group or</p> <p>4 GPO?</p> <p>5 A. Yes.</p> <p>6 Q. What was the substance of those discussions?</p> <p>7 A. That they were a full value-added buying group</p> <p>8 from day one, providing their members with services as</p> <p>9 well as their -- their -- as far as their DSO segment.</p> <p>10 Q. And why was Ms. Hight concerned about that?</p> <p>11 MR. McDONALD: Object to the form.</p> <p>12 THE WITNESS: I don't know. She managed this</p> <p>13 account, so I -- I'm confused about the e-mail.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. Why are you confused?</p> <p>16 A. I don't understand -- I actually don't follow</p> <p>17 the logic in the e-mail of what they're talking about.</p> <p>18 Adding a member? I don't get it. It's not about</p> <p>19 changing anything at IDA, from what I can gather. They</p> <p>20 were a good customer and a good buying group.</p> <p>21 Q. What do you understand this e-mail to be</p> <p>22 about?</p> <p>23 MR. McDONALD: Object to the form; lack of</p> <p>24 foundation.</p> <p>25 THE WITNESS: I -- I'm not -- I'm sorry. I'm</p>	103	<p>1 A. I was very well -- yes, I was very well aware</p> <p>2 that it was a buying group.</p> <p>3 Q. Do you recall any discussions with Ms. Hight</p> <p>4 surrounding IDA and whether it was a buying group?</p> <p>5 A. Yes.</p> <p>6 Q. Apart from the one we just talked about, what</p> <p>7 other discussions have you had with Ms. Hight</p> <p>8 surrounding IDA?</p> <p>9 A. I would approve pricing for IDA as they grew.</p> <p>10 So Andrea would work with me on this account. So I</p> <p>11 oversaw the account as a vice president. She oversaw</p> <p>12 it as a SAM.</p> <p>13 Q. Did the buying group component of IDA force</p> <p>14 its members to buy from Henry Schein?</p> <p>15 A. I'm not aware, no. I'm not aware.</p> <p>16 Q. So you're not sure one way or the other?</p> <p>17 A. Correct. You used the word "force." I don't</p> <p>18 know if that's the -- if they required them to buy it</p> <p>19 from Henry Schein or not. They could have bought from</p> <p>20 multiple vendors. I'm unaware.</p> <p>21 Q. Turning to the next sentence in this e-mail,</p> <p>22 Ms. Hight, writes: (Reading.)</p> <p>23 "Even with forcing a member to buy from</p> <p>24 us, they do not fit Special Markets</p> <p>25 criteria because as you say with this</p>
102	<p>1 not following what it's about because I don't</p> <p>2 understand who Melanie Bingham is and what's the</p> <p>3 purpose -- what the main complaint or issue is here.</p> <p>4 It doesn't say. Basically, IDA is on a P20 sales plan.</p> <p>5 BY MR. SOLOMON:</p> <p>6 Q. What is a P20 sales plan?</p> <p>7 A. We have sales plans that are for smaller</p> <p>8 customers, that a number of our customers may be on the</p> <p>9 same P20 plan. It's a formulary of items, and they get</p> <p>10 20 percent off catalog items that are not on the</p> <p>11 formulary.</p> <p>12 Q. What types of customers are categorized under</p> <p>13 the P20 plan?</p> <p>14 A. Ones that are not large enough to have their</p> <p>15 own custom formulary.</p> <p>16 It's a way for us to give smaller groups a</p> <p>17 good discount when they're in the small -- it's either</p> <p>18 a P5, a P10, a P15, a P20; the last number referring to</p> <p>19 how much off catalog for non-formulary items.</p> <p>20 We progress them through those stages when</p> <p>21 they first start out. So IDA was on a P20 based on the</p> <p>22 fact they only had 25 locations.</p> <p>23 Q. Do you recall any other discussions with</p> <p>24 Ms. Hight surrounding IDA and whether or not it was a</p> <p>25 buying group?</p>	104	<p>1 new approach they are taking, they</p> <p>2 really look like a GPO which we don't</p> <p>3 do."</p> <p>4 Do you see that?</p> <p>5 A. Yes.</p> <p>6 Q. Do you know what Ms. Hight is referring to in</p> <p>7 that sentence?</p> <p>8 A. No.</p> <p>9 Q. When she says "they really look like a GPO</p> <p>10 which we don't do," do you know whether she's referring</p> <p>11 to a policy of not working with GPOs?</p> <p>12 MR. McDONALD: Object to the form.</p> <p>13 THE WITNESS: I'm not sure, but if she's</p> <p>14 actually talking about buying group or GPO so...</p> <p>15 BY MR. SOLOMON:</p> <p>16 Q. Does Ms. Hight's reference to not working with</p> <p>17 GPOs make sense to you?</p> <p>18 A. No.</p> <p>19 Q. Why not?</p> <p>20 A. Because she helped set up Dental Gator. She</p> <p>21 managed this account, IDA. Those are the two that she</p> <p>22 managed, and it was a strong relationship with IDA.</p> <p>23 Q. She also -- turning to the first part of that</p> <p>24 sentence we just read, "Even with forcing a member to</p> <p>25 buy from us, they do not fit Special Markets criteria,"</p>

105

1 **do you know what Ms. Hight is referring to there?**
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: No.
 4 BY MR. SOLOMON:
 5 **Q. You can put that document aside.**
 6 A. Okay. Thanks.
 7 MR. SOLOMON: Umm-hmm.
 8 I'm handing the witness Exhibit 290, which is
 9 a document Bates labeled Henry Schein 000164800. And
 10 there is an attachment which includes metadata about
 11 the e-mail.
 12 [Whereupon, Deposition Exhibit 290 was
 13 marked for identification.]
 14 BY MR. SOLOMON:
 15 **Q. Unfortunately, we were unable to process some**
 16 **of the images that you guys sent us last week, so we re**
 17 **still using the metadata cover sheet for some of these.**
 18 MR. McDONALD: This doesn't need to be on the
 19 record.
 20 (Off the record discussion.)
 21 THE WITNESS: Okay.
 22 BY MR. SOLOMON:
 23 **Q. Mr. Foley, what is Exhibit 290?**
 24 A. Well, it's an e-mail about Synergy Dental
 25 Partners, which I don't remember, that was doing

106

1 business with Darby Dental.
 2 **Q. Do you recall this e-mail?**
 3 A. No.
 4 **Q. And you don't recall an entity called Synergy**
 5 **Dental Partners?**
 6 A. No.
 7 **Q. Reading this e-mail, do you have a sense as to**
 8 **whether or not it was a GPO or a buying group?**
 9 A. Yes.
 10 **Q. Was it?**
 11 A. I have a sense that it was a buying group
 12 based on price only.
 13 **Q. Do you recall anything else about Synergy**
 14 **Dental Partners?**
 15 A. No.
 16 **Q. How do you know that this was a buying group**
 17 **based on price only?**
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: Because I'm saying here we said
 20 no to partnering with them.
 21 BY MR. SOLOMON:
 22 **Q. And how does that -- how do you know that that**
 23 **means that they're a buying group based on price only?**
 24 A. Because if they would work with us as a
 25 partnership -- like a couple of questions, what are you

107

1 offering your members, and they say, "We're just going
 2 to get a group of dentists to buy at this price," we'll
 3 say we'll pass. It's not a good partnership for Henry
 4 Schein if -- to work with somebody just based on that.
 5 **Q. And is there anything in this e-mail that**
 6 **tells you that this group was based on price only?**
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: No.
 9 BY MR. SOLOMON:
 10 **Q. So what is your understanding of that based**
 11 **on, sitting here today?**
 12 MR. McDONALD: Object to the form.
 13 Go ahead.
 14 THE WITNESS: It's the only reason I would say
 15 no, in my mind.
 16 BY MR. SOLOMON:
 17 **Q. What do you mean?**
 18 A. I say here that they approached us a year ago
 19 and we said no. So basically did not pass a litmus
 20 test of what they would offer our end users other than
 21 just saying, "We're going to lead with a discounted
 22 price from Schein," period.
 23 **Q. Did special markets have a litmus test that it**
 24 **used to evaluate buying groups and GPOs?**
 25 A. It was very vague. It was, again, is there

108

1 going to be a partnership with this buying group? Are
 2 they going to value-added services like Council
 3 Connections and our other ones? And if so, we would
 4 then pursue it.
 5 **Q. Who developed that litmus test?**
 6 A. I'm not aware.
 7 **Q. You don't refer to the litmus test in this**
 8 **Exhibit 290, correct?**
 9 A. Correct.
 10 **Q. Did -- or strike that.**
 11 **Why did special markets work with Steadfast as**
 12 **a customer which, as we've discussed, did not offer its**
 13 **members value-added services?**
 14 A. Initially, they did, and as they grew, they
 15 stopped and changed their -- their business model. And
 16 then that's why we then said, "live and learn." That
 17 we -- that this is -- this is where Steadfast is
 18 headed.
 19 **Q. And what happened when Steadfast changed its**
 20 **model?**
 21 A. It caused --
 22 MR. McDONALD: Hang on. Object to the form.
 23 Go ahead.
 24 THE WITNESS: Okay. I don't know exactly what
 25 happened. I don't recollect what happened because I

27 (Pages 105 to 108)

109

111

1 transferred it to mid market, and what happened to it
 2 from then, I'm not sure.
 3 BY MR. SOLOMON:
 4 **Q. Did Steadfast change its model while it was a**
 5 **special markets customer?**
 6 A. May have. I didn't pay attention to it. I do
 7 remember that it was a profitable customer for us. And
 8 I was focused on -- that it was generating revenue. So
 9 I just let it exist as it did.
 10 **Q. So special markets did not approach Steadfast**
 11 **as a result of its change in business model?**
 12 A. Correct. We had other things to go -- doing
 13 other things at the time.
 14 **Q. Was it -- was the fact that Steadfast Medical**
 15 **changed its business model important to special**
 16 **markets?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: Yes.
 19 BY MR. SOLOMON:
 20 **Q. How so?**
 21 A. We don't want them to run interference from us
 22 working with the end-user member partners, and also we
 23 want them to promote all Schein product, Schein
 24 services, the Schein -- the one Schein approach.
 25 **Q. But special markets didn't do anything to**

1 in mid market that that P&L fell strictly under mid
 2 market. A vague recollection.
 3 BY MR. SOLOMON:
 4 **Q. When you say it fell under your P&L, what do**
 5 **you mean?**
 6 A. All of special markets' revenue and
 7 profitability were under a special markets P&L. When
 8 mid market was created, the P&L still remained under
 9 special markets during the transition period. Then
 10 that budget for those sales for -- for everybody else
 11 then transferred to the P&L for mid-market HSD.
 12 **Q. Do you recall how you learned that Steadfast**
 13 **had changed its business model?**
 14 A. Not exactly.
 15 **Q. But you did learn about it at some point?**
 16 A. Yes, because they assigned somebody to work
 17 closely with Kip Roland, or somebody in Texas worked
 18 with them when we moved it to mid market. Somebody
 19 then -- I did not have anybody on my team really
 20 monitoring the small account who was just there.
 21 **Q. Turning back to Exhibit 290, the next sentence**
 22 **refers to a small -- another group in NC asking for the**
 23 **same.**
 24 **Do you see that?**
 25 A. Yes.

110

112

1 **address the fact that it had changed its business model**
 2 **to remove value-added services, right?**
 3 A. Under my -- when it was under me, I did not
 4 understand that it was -- had changed its -- its
 5 business model. It seemed to have done so when it went
 6 to mid market.
 7 **Q. When did you learn that it had changed its**
 8 **business model?**
 9 A. I -- I vaguely remember that when it was in
 10 mid market, that their -- that mid market had a concern
 11 about Steadfast's model, but it was off my plate at
 12 that time.
 13 **Q. So you don't recall one way or the other**
 14 **whether the change occurred while it was in special**
 15 **markets?**
 16 MR. McDONALD: Object to the form;
 17 mischaracterizes his testimony.
 18 THE WITNESS: You know, during the transition
 19 period, even though the accounts were transferring to
 20 mid market, they still fell under my P&L. So I was
 21 reluctant if -- to allow anybody to make any changes to
 22 customers during that transition period.
 23 I vaguely remember -- you know, I just
 24 remember Steadfast's model being changed when our
 25 mid-market division was formed, but it was after a year

1 **Q. Does "NC" refer to North Carolina?**
 2 A. Yes.
 3 **Q. Do you recall which group you're referring to**
 4 **in this e-mail?**
 5 A. No.
 6 **Q. You go on to say: (Reading.)**
 7 **But they charge a mgmnt. fee to**
 8 **customer.**
 9 **Are you referring to a management fee?**
 10 A. Yes.
 11 **Q. Is it fair to say that Steadfast Medical did**
 12 **not charge a management fee to its customer?**
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: I'm sorry. I'm not aware if
 15 they did.
 16 BY MR. SOLOMON:
 17 **Q. Sitting here today, reading this e-mail, do**
 18 **you understand -- do you understand that you're saying**
 19 **that Steadfast -- or strike that.**
 20 A. I'm sorry. Yeah.
 21 **Q. I'm sorry.**
 22 A. You asked me Steadfast.
 23 **Q. I'm sorry. Just let me ask the question**
 24 **again.**
 25 **Is it fair to say Synergy Dental Partners did**

113	<p>1 not charge a management fee to its customers?</p> <p>2 MR. McDONALD: Object to the form; lack of</p> <p>3 foundation.</p> <p>4 THE WITNESS: I'm not sure. I'm stating that</p> <p>5 this other group did. You could draw a reference. I</p> <p>6 may have known the other group didn't, because I had</p> <p>7 used the word "but."</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. Do you know why Mr. Paul Berkey was e-mailing</p> <p>10 you about this group, Synergy Dental Partners?</p> <p>11 A. No.</p> <p>12 Q. Do you recall who might have been involved in</p> <p>16 those communications with Synergy Dental Partners?</p> <p>17 A. No.</p> <p>18 MR. McDONALD: Object to the form.</p> <p>19 THE WITNESS: Sorry.</p> <p>20 [Whereupon, Deposition Exhibit 291 was</p> <p>21 marked for identification.]</p> <p>22 MR. SOLOMON: I'm handing the witness</p> <p>23 Exhibit 291.</p> <p>24 BY MR. SOLOMON:</p> <p>25 Q. This is a document Bates labeled Henry Schein</p>	115	<p>1 A. Okay.</p> <p>2 Q. -- of this e-mail chain, specifically the</p> <p>3 Wednesday, September 9th, 2015 e-mail at 4:31 p.m.</p> <p>4 between yourself and Mr. Hal Muller.</p> <p>5 Do you see that?</p> <p>6 A. Yes.</p> <p>7 Q. You write in Exhibit 291: (Reading.)</p> <p>8 "Amazing how this is happening and how</p> <p>9 much BS we got from Jake and others when</p> <p>10 BG s existed under SM."</p> <p>11 Do you see that?</p> <p>12 A. Yes.</p> <p>13 Q. A lot of acronyms in that sentence. I just</p> <p>14 want to kind of walk through them.</p> <p>15 Does "BG" refer to "buying group"?</p> <p>16 A. Yes.</p> <p>17 Q. And "SM" refers to "special markets"?</p> <p>18 A. Correct.</p> <p>19 Q. Okay. And "BS"?</p> <p>20 A. Is "BS."</p> <p>21 Q. Okay. Nonsense?</p> <p>22 A. What's that?</p> <p>23 Q. How would you define that word? Nonsense?</p> <p>24 A. Yeah.</p> <p>25 Q. What were you referring to there?</p>
114	<p>1 000159018.</p> <p>2 A. Okay.</p> <p>3 Q. Mr. Foley, have you had a chance to review</p> <p>4 Exhibit 291?</p> <p>5 A. Yes.</p> <p>6 Q. What is Exhibit 291?</p> <p>7 A. It's a multitude of -- first of all, it's an</p> <p>8 e-mail from a regional manager at Schein asking if I</p> <p>9 know about this particular group, however you pronounce</p> <p>10 it. And Brian Brady instead answers it, because Brian</p> <p>11 Brady now handles buying groups within our private</p> <p>12 division, HSD, and explains that this buying group is</p> <p>13 handled by Kathleen Titus and that they're on a G10</p> <p>14 pricing plan. And I -- continue?</p> <p>15 Q. I'm sorry?</p> <p>16 A. Is that -- that's what I see in this e-mail.</p> <p>17 Q. Okay. What group were you referring to?</p> <p>18 What's the group that's being discussed in this e-mail?</p> <p>19 A. Is it KlearImpakt? Klearpacked (phonetic)? I</p> <p>20 can't read what it is, but KlearImpakt, I never heard</p> <p>21 of it.</p> <p>22 Q. Do you recall this e-mail chain?</p> <p>23 A. No.</p> <p>24 Q. I'd like to direct your attention to the</p> <p>25 second page --</p>	116	<p>1 A. I'm referring to when we initially set up some</p> <p>2 buying groups like Smile Source and Dental Gator we</p> <p>3 would get pushback from our private division as to</p> <p>4 their value. And here it was kind of along the lines</p> <p>5 of that here they are setting up buying groups now and</p> <p>6 there's no issue with them doing it, questioning</p> <p>7 whether it was an issue with the buying groups or the</p> <p>8 fact that special markets owned it.</p> <p>9 Q. Did you think that that was unfair?</p> <p>10 MR. McDONALD: Object to the form.</p> <p>11 THE WITNESS: I felt it was hypocritical.</p> <p>12 BY MR. SOLOMON:</p> <p>13 Q. How so?</p> <p>14 A. In that they set up -- that they were setting</p> <p>15 up a buying group that -- and previously had issue --</p> <p>16 had concerns about us setting up a buying group.</p> <p>17 Q. What concerns did Henry Schein Dental</p> <p>18 previously have about special markets working with</p> <p>19 buying groups?</p> <p>20 MR. McDONALD: Objection to form; overly</p> <p>21 broad.</p> <p>22 THE WITNESS: That there was reduction in</p> <p>23 pricing and that all they provided -- that they made</p> <p>24 believe that all these groups provided were pricing</p> <p>25 only, so we'd get pushback from our private division,</p>

117	119
<p>1 some of the regional managers, and field sales 2 consultants. 3 BY MR. SOLOMON: 4 Q. Who from the private division would give the 5 pushback? 6 A. It was -- in this e-mail, I'm mentioning Jake 7 Meadows. 8 Q. And who is Jake Meadows? 9 A. He's a -- I don't know his exact title at 10 Schein. A zone manager or above that. 11 Q. Did you receive pushback from anyone else at 12 Henry Schein Dental? 13 A. No. 14 Q. You also go on to write: (Reading.) 15 "What is so different about this group 16 compared to Gator or Smile Source, other 17 than the G spot plan." 18 Do you see that? 19 A. Umm-hmm. 20 Q. "Gator" refers to Dental Gator, right? 21 A. Correct. 22 Q. What did you mean there? 23 A. That when we had -- we were doing business 24 initially with Dental Gator and Smile Source, there was 25 pushback about this and it's no different than this</p>	<p>1 it is. Things are changing. 2 Q. Were you upset about the pushback you received 3 from Henry Schein Dental? 4 A. No. 5 Q. Why not? 6 A. They were my -- they were customers and they 7 were profitable to us, and it was a changing time. And 8 we could see the writing on the wall that there would 9 be more buying groups, and we had good relationships 10 with these groups. 11 Q. So would you just ignore the pushback that you 12 received from HSD? 13 A. Yes, for the most part. 14 Q. Did you have many conversations with 15 Mr. Muller concerning the pushback that special markets 16 was receiving? 17 A. Yes. 18 Q. About how many conversations would you say you 19 had with Mr. Muller? 20 A. It would be on a per-case basis, whatever we 21 would receive an e-mail that I felt at this level. 22 In this particular situation, I'm just sharing 23 the -- what did I use? -- the hypocrisy, but it was 24 answered right away by Brian Brady that we re doing 25 business with them and they're a viable buying group.</p>
118	120
<p>1 particular arrangement with this group of 35. It is a 2 buying group. The only difference is it's on a G plan 3 versus ours being on a more aggressive P plan. 4 Q. You say when "we were doing business initially 5 with Dental Gator," did special markets end its 6 relationship with Dental Gator? 7 A. No. "Initially" meaning when we first started 8 Dental Gator there was issues. Later those issues were 9 resolved between our two divisions as to the value of 10 Dental Gator. 11 Q. When you were -- 12 A. And I had mentioned earlier that Dental Gator 13 initially needed some coaching from us as to how to add 14 some value-added services, which they accepted, and we 15 moved forward. 16 Q. You referred a moment ago to pushback. What 17 exactly did you mean by that? 18 A. That our private division was at this -- in 19 the early days years ago, would -- were not in 20 agreement at that time with a number of the buying 21 groups being under special markets. 22 Q. And how did that pushback manifest itself to 23 you? 24 A. Just complaints, you know, but the plans 25 stayed in place. And you just, you know -- it is what</p>	<p>1 And it's a new Schein. This is September 2015 2 when mid market took over the buying groups. So it was 3 a good move for us to move our buying groups to mid 4 market. We even moved Smile Source. Now I remember. 5 This is back in 2009. That is another buying group 6 that was once under special markets. 7 Q. You mentioned a moment ago -- my question to 8 you was -- you referred to pushback; what exactly did 9 you mean by that? You responded: (Reading.) 10 "That our private practice division was 11 at this -- in the early days years 12 ago...were not in agreement at the time, 13 with a number of the buying groups being 14 under special markets." 15 What you did mean by "the early days years 16 ago"? 17 A. When buying groups were more in their initial 18 stages like the Dental Gators and them coming up, and 19 Smile Source in 2009, and Steadfast in 2010. In those 20 initial days, there was -- there was concern and 21 pushback at that time, but later our -- our divisions 22 agreed that -- the need for these buying groups, and we 23 started to work more closely with them. We always 24 worked with them. We just managed to get our private 25 division to work more closely with them.</p>

121

123

1 **Q. And when did that agreement between Henry**
2 **Schein Dental and Special Markets occur?**
3 MR. McDONALD: Object to the form.
4 THE WITNESS: It really wasn't an agreement.
5 It was just change in -- I don't know the date of when
6 they were more agreeable to the buying groups that we
7 possessed.
8 BY MR. SOLOMON:
9 **Q. Do you recall an approximate time frame as to**
10 **when Henry Schein Dental became more favorable toward**
11 **buying groups and GPOs?**
12 MR. McDONALD: Object to the form.
13 THE WITNESS: I do know that around 2010 we
14 introduced them to Smile Source and had the Smile
15 Source team meet with them to describe their
16 value-adds. And we decided at that time that Smile
17 Source would be better handled by Henry Schein Dental
18 than by us. It would help alleviate the issues with
19 FSCs.
20 BY MR. SOLOMON:
21 **Q. For the record, what is the Smile Source?**
22 A. Smile Source was a GPO. I'm sorry. It was a
23 buying group -- I'm sorry; I'll keep it that way --
24 was a buying group that offered a lot of services, and
25 we helped expand in special markets over the years and

1 Sullivan.
2 **Q. Did you have any input in that decision?**
3 A. I was part of meetings where I actually
4 brought in the Smile Source people to meet with Hal
5 Muller in New York, and then to pitch their sales pitch
6 to us. And then I -- I was -- I handed them off to a
7 meeting with, I believe, Hal Muller, Dave Steck, and
8 John Chatum in Milwaukee.
9 **Q. And what year did that -- those meetings take**
10 **place?**
11 A. That would be, like, 2010, 2011.
12 **Q. And those meetings were concerning moving**
13 **Smile Source from special markets to HSD?**
14 A. Correct, as a buying group.
15 **Q. Did Smile Source agree with the decision to**
16 **move it from special markets to HSD?**
17 A. Yes.
18 MR. McDONALD: Object to the form.
19 BY MR. SOLOMON:
20 **Q. How do you know that?**
21 A. They -- I was in -- you know, I was in
22 meetings where they were -- they liked what our
23 value-added services were and how we could work
24 together more closely. So they enjoyed that part of
25 it. And I later know that I -- I do know that later

122

124

1 then moved it over to -- to HSD.
2 BY MR. SOLOMON:
3 **Q. When did special markets first establish a**
4 **relationship with Smile Source?**
5 A. It was around my starting period because they
6 were at their early numbers. I would say 2008.
7 **Q. And how long did Smile Source remain a**
8 **customer of special markets?**
9 A. I believe for about two or three years.
10 **Q. What happened after that?**
11 A. Again, we had a meet with HSD, and we simply
12 transferred that account. This was before mid market.
13 We simply transferred the account and the ownership of
14 it to HSD.
15 **Q. Why was it transferred to HSD?**
16 A. We felt that HSD with their FSCs would --
17 could work more closely with their members. They had
18 very progressive members that could use a lot of our
19 value-added services; whereas with special markets, we
20 were, you know -- we were limited in dealing with the
21 actual offices. We preferred to deal centrally. We
22 felt it would be a better fit for HSD.
23 **Q. Do you recall whose decision it was to**
24 **transfer Smile Source to HSD?**
25 A. It was decision between Hal Muller and Tim

1 they left us.
2 **Q. When you say "they left us," what do you mean?**
3 A. They partnered with a different vendor later
4 on.
5 **Q. After Smile Source moved to Henry Schein**
6 **Dental, it then ended its relationship with Henry**
7 **Schein Dental; is that right?**
8 A. Yes, some day, I'm -- not exactly when, I had
9 heard that they moved to Burkhart Dental.
10 **Q. Did Smile Source's pricing stay the same when**
11 **it moved to Henry Schein Dental?**
12 A. Yes. We transferred their pricing plan to a
13 plan at HSD. They're on separate systems, so we made a
14 copy of the plan.
15 **Q. How do you know that?**
16 A. Because it required -- it was an odd procedure
17 for them to actually copy the plan over and -- they had
18 created a new sales plan number. I just remember Paul
19 Berkey having to work with their team in getting their
20 pricing moved into a different format on a different
21 system.
22 **Q. Was special markets a profitable -- strike**
23 **that.**
24 **Was Smile Source a profitable customer when it**
25 **belonged to special markets?**

125

127

1 A. Yes, very.
 2 **Q. How so?**
 3 A. They were growing. They were adding very --
 4 larger practices where they were growing into at the
 5 time, and they had a -- they had a great business plan
 6 for growth, and they were sticking to it.
 7 **Q. Did Smile Source bring new customers to Henry**
 8 **Schein who were previously serviced by other**
 9 **distributors?**
 10 A. Yes.
 11 **Q. How do you know?**
 12 A. I remember them being -- bringing in --
 13 because they brought in a bigger customer in the -- in
 14 either Nevada or Utah. When I was managing the
 15 account, I remember a big win that was a Patterson
 16 account.
 17 **Q. Do you recall how many new customers Smile**
 18 **Source brought to Henry Schein?**
 19 A. No.
 20 **Q. Were you responsible for the relationship with**
 21 **Smile Source while it was a special markets customer?**
 22 A. I had a SAM at the time, Rick Heysquierdo,
 23 H-e-y-s-q-u-i-e-r-d-o, who managed the account because
 24 they're based out of Houston.
 25 **Q. Did you have any reservations about moving**

1 **Q. Did you express those reservations to**
 2 **Mr. Muller or Mr. Sullivan?**
 3 A. I would have -- I would express those to --
 4 Hal Muller.
 5 **Q. And what was his response?**
 6 A. The account would be better served in our
 7 private division; we should move it to them.
 8 **Q. And why Mr. Muller -- do you recall why**
 9 **Mr. Muller thought it would be better served in the**
 10 **private division HSD?**
 11 A. Yes.
 12 **Q. Why?**
 13 A. Because of the -- there -- because of the --
 14 what we could bring -- what HSD could bring in their
 15 value-adds compared to what we were able to bring at
 16 that time is very limited. We were focused on DSOs.
 17 This particular buying group was very
 18 aggressive and progressive, and we felt it could be
 19 built better with the FSCs involved.
 20 **Q. Who started the conversation at Henry Schein**
 21 **surrounding the transfer of Smile Source to HSD?**
 22 MR. McDONALD: Object to the form.
 23 THE WITNESS: I don't know.
 24 BY MR. SOLOMON:
 25 **Q. Do you recall whether it was someone from HSD?**

126

128

1 **Smile Source from special markets to Henry Schein**
 2 **Dental?**
 3 A. I didn't want to lose the -- I didn't want to
 4 lose the revenue. That's all. The only reservation I
 5 had.
 6 **Q. Why was that a concern for you?**
 7 A. It was in my P&L and they were growing, and I
 8 was handing it over to another division.
 9 **Q. Did you ultimately lose revenue as a result of**
 10 **the transfer to HSD?**
 11 A. In my P&L, I did.
 12 **Q. How much revenue did you lose?**
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: Yeah, I don't remember.
 15 BY MR. SOLOMON:
 16 **Q. Do you recall whether it was significant?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: You'd have to define
 19 "significant."
 20 BY MR. SOLOMON:
 21 **Q. Was it more than 100,000?**
 22 A. Yes.
 23 **Q. Do you recall whether it was more than**
 24 **500,000?**
 25 A. I would say it would be about that.

1 A. No, I don't recall.
 2 **Q. Do you recall whether Smile Source asked**
 3 **special markets to provide additional value-added**
 4 **services?**
 5 A. I don't remember.
 6 **Q. I just want to look at one more thing in**
 7 **Exhibit 291, Mr. Foley. Just directing your attention**
 8 **to the first page.**
 9 **The top e-mail, the first sentence, you say to**
 10 **Mr. Muller: (Reading.)**
 11 **"You and I need to create our own new**
 12 **world. We could do this, it is so easy**
 13 **and you know it's all about reduced**
 14 **supplies."**
 15 **What were you referring to in that sentence?**
 16 A. When you take a basic buying group, the kind
 17 that does not offer any value services -- I was simply
 18 making, like, Hal and I or any Joe on the street could
 19 call and say, "Hey, I'd like to set up a buying group
 20 and get reduced supplies pricing."
 21 **Q. Was that something that you thought would be a**
 22 **good thing?**
 23 A. I thought it would be a simple thing. Not --
 24 not being facetious here in my comment. That is
 25 ridiculous.

32 (Pages 125 to 128)

129

1 **Q. When you say you know it's all about reduced**
2 **supplies, are you saying that that was -- strike that.**

3 **Are you saying that -- are you saying that**
4 **reduced supplies are important to Henry Schein**
5 **customers?**

6 MR. McDONALD: Object to the form.

7 THE WITNESS: No, I believe I'm stating that
8 it would be related to reduced supply pricing for
9 buying groups that focused only on pricing, nothing
10 more.

11 MR. McDONALD: If you're at a spot, why don't
12 we take a lunch break.

13 MR. SOLOMON: We've been going for about an
14 hour.

15 MR. McDONALD: Yeah, we have, and it's 2:30 to
16 us.

17 MR. SOLOMON: Okay. Sure.

18
19 (Whereupon, at the hour of 12:20 p.m. a recess
20 was taken until the hour of 1:13 p.m.)

21 ---oOo---

130

1 AFTERNOON SESSION

2 ---oOo---

3 MR. SOLOMON: Back on the record at 1:13.
4 I'm handing the witness Exhibit 292, which is
5 a document Bates labeled Henry Schein 000084884. It's
6 a December 22nd, 2014 e-mail chain.

7 [Whereupon, Deposition Exhibit 292 was
8 marked for identification.]

9 BY MR. SOLOMON:

10 **Q. Mr. Foley, just let me know when you've had a**
11 **chance to review it.**

12 A. It's a long one. Okay. Okay.

13 **Q. Mr. Foley, what is Exhibit 292?**

14 A. It's in regards to Atlantic Dental Group or --
15 Atlantic -- Atlantic Dental Group. And this was an
16 up-and-coming group that we were unfamiliar with
17 whether they were a DSO, about the ownership, or
18 whether they were classified as a buying group.

19 And I'm in communication -- and we're being
20 informed by a vendor partner, VOCO, that they would
21 like to work with this group and provide -- you know,
22 and it appears they're saying that the account was
23 already being worked on by Benco, and basically they're
24 asking me do I know about the account. And I'm saying
25 I think it may be a GPO or its hybrid DSO; what do the

131

1 local people on the street know. I really can't figure
2 this out, in a sense.

3 So at the end, Jake Meadows was in his -- the
4 ball was put in his court to figure out what -- you
5 know, how to proceed if they want to -- that they
6 currently are with Benco and we would like to try to
7 win this business; would it be me or would it be Jake
8 Meadows.

9 **Q. Did Schein ever do anything to try and win the**
10 **Atlantic Dental Care business?**

11 A. To my knowledge, at one point Jake Meadows met
12 with them at the Chicago mid winter. I remember a
13 future e-mail. I don't know. I would think it was
14 after this e-mail that they met face-to-face at the
15 Chicago mid winter. <

16 **Q. And did that result in a relationship -- a**
17 **business relationship with Atlantic Dental Care?**

18 A. Not that I'm aware of.

19 **Q. And Chicago mid winter, does that refer to a**
20 **trade show that takes place in Chicago?**

21 A. Yes, in February.

22 **Q. Just turning your attention to the second**
23 **page of this e-mail chain, December 22nd, 2014 at**
24 **1:40 p.m. You state in the second line: (Reading.)**
25 **"Looks like a buying group/GPO and I**

132

1 **believe we walked away from this."**

2 **Do you see that?**

3 A. Yes.

4 **Q. What did you mean by that?**

5 A. In the early years when they first formed and
6 was much smaller, it appeared to be simply a buying
7 group based on price, and we were basically confused
8 about what they had to offer and didn't pursue it.
9 They didn't come to us, but we didn't really go after
10 them for an agreement. And now I'm questioning is this
11 a hybrid-type DSO.

12 **Q. When you say "we," were you referring to**
13 **special markets?**

14 A. Yes, umm-hmm.

15 **Q. So special markets walked away from Atlantic**
16 **because it didn't offer value-added services to its**
17 **members?**

18 A. We didn't actually pursue it; let's go that
19 route. They were not a customer. They did not come to
20 us. People were saying, "Are you doing business with
21 this group?" And we'd basically looked on the website
22 and said, I don't think we would do business with
23 their -- based on what they offer. Basically, just
24 lower-priced supplies at first. But they expanded
25 their model, and then we engaged our private division

133

1 because at this time they were starting to transition
2 and say, "Why don't you guys work with this group,
3 unless you think it's a DSO."
4 **Q. Do you recall how you first learned about**
5 **Atlantic Dental Care?**
6 A. Yes. I believe the -- I remember the local
7 FSCs in that region in Virginia and where they were
8 based out of were losing their customers to this group
9 who were aligned with Benco.
10 **Q. And how did you learn about that?**
11 A. The FSCs would make -- you know, actually made
12 a comment to a region manager who then passed it on to
13 me and said, are we doing business with them.
14 **Q. For the record, what is Benco?**
15 A. Benco is another dental distributor.
16 **Q. And it's a competitor of Schein?**
17 A. Correct.
18 **Q. So you mentioned that one of the reasons why**
19 **special markets did not pursue Atlantic dental care**
20 **initially was because it did not offer value-added**
21 **services; is that right?**
22 A. Yes.
23 **Q. Were there any other reasons why special**
24 **markets did not pursue Atlantic Dental Care initially?**
25 A. It may have been based on that it was small at

134

1 the time, the size.
2 **Q. Why was -- strike that.**
3 **Why were value-added services important to**
4 **Henry Schein Special Markets?**
5 A. Again, we wanted to make sure that we could
6 build the practices, have access to the practices
7 and -- via whoever is controlling the practices,
8 whether it's a buying group or whether it's a DSO.
9 **Q. When you say "we," you're referring to special**
10 **markets?**
11 A. Yes, yes. Special markets, correct.
12 **Q. Did you receive any input from anyone at HSD**
13 **when you initially explored Atlantic Dental Care?**
14 A. Initially only that they were -- at this time
15 of this e-mail, they were losing their customers to
16 Benco because Benco had aligned themselves with
17 Atlantic Dental.
18 **Q. So --**
19 A. We did not.
20 **Q. When you say "we did not," you did not align**
21 **yourself with Atlantic dental care; is that what you're**
22 **saying?**
23 A. Correct.
24 **Q. Okay. So employees of HSD were telling you**
25 **that there were customer losses to Benco through**

135

1 **Atlantic dental care?**
2 A. Yes.
3 **Q. Did that concern you?**
4 A. Not from a special markets perspective, but as
5 wearing my Henry Schein hat, yes. It lost revenue for
6 the company.
7 **Q. Did anyone from Henry Schein Dental want to**
8 **pursue Atlantic dental care as a customer at that time?**
9 A. Yes.
10 MR. McDONALD: Hang on. Object to the form;
11 lack of foundation.
12 Go ahead.
13 THE WITNESS: Yes.
14 BY MR. SOLOMON:
15 **Q. Do you recall who?**
16 A. Jay Meadows specifically and the regional
17 manager in the Virginia area. I don't recall their
18 name.
19 **Q. Do you recall whose decision it was within**
20 **special markets not to pursue Atlantic dental care?**
21 A. No.
22 **Q. Would it have been your decision?**
23 A. It could have been.
24 **Q. Did -- you can put that document aside for**
25 **now, Mr. Foley.**

136

1 A. Okay.
2 MR. SOLOMON: Handing the witness Exhibit 293,
3 which is a document Bates labeled Henry Schein
4 00015- -- 145110, and a Monday, May 12th, 2014 e-mail
5 chain.
6 [Whereupon, Deposition Exhibit 293 was
7 marked for identification.]
8 MR. McDONALD: I'll agree with you that it
9 starts with a May 12th e-mail chain, but that's not the
10 whole document, just so the record's clear.
11 MR. SOLOMON: The last-in-time e-mail in the
12 chain is May 12th, 2014.
13 MR. McDONALD: I agree with that.
14 BY MR. SOLOMON:
15 **Q. Okay.**
16 A. Okay. Go ahead.
17 **Q. Mr. Foley, what is Exhibit 293?**
18 A. In regards to Steadfast -- you're right --
19 Medical. That's the name of the company. They're a
20 GPO -- Medical. That's their -- which is Steadfast I
21 mentioned earlier.
22 **Q. Which is a buying group, right?**
23 A. Correct. It's a buying group that originated
24 in special markets.
25 And Kathleen Titus is wanting to meet with

34 (Pages 133 to 136)

137

1 their executive team to discuss how they are operating,
2 and she's getting pushback from them. And she's
3 explaining to them that they appear to be more of a
4 procurement program than they are a GPO, and that
5 they're not partnering with us, that we have plenty of
6 GPO partnerships, that we're both in a position to win.
7 She'd like to have that same relationship with
8 Steadfast, but this is where Steadfast is, obviously,
9 disengaging with us and becoming more a procurement
10 place. So they're copying me on here because at this
11 time Steadfast fell under my P L.

12 And my pushback is, "Hey, I don't want to lose
13 this account. They're up 36 percent from last year.
14 And can we do a full-court press and can we get more
15 information if they're running into AR problems, or if
16 they're -- if they're paying their bills like -- I'm
17 sorry -- are they paying their partners -- their vendor
18 partners' bills -- I'm sorry -- are they paying their
19 members' invoicing? You know, how engaged are they?
20 Are they really just a procurement group? So that was
21 my concern before I -- before I said go ahead and
22 cancel the relationship.

23 MR. McDONALD: And, Mr. Foley, he simply asked
24 you whether they were a buying group. So listen to his
25 question.

138

1 THE WITNESS: Oh, sorry.

2 MR. McDONALD: It's okay.

3 BY MR. SOLOMON:

4 **Q. Mr. Foley, where do you refer to concerns**
5 **about them being a procurement group in this e-mail?**

6 A. I saw it a minute ago. Hold on. It is on the
7 third page at the top.

8 **Q. Ms. Titus refers to it as a procurement**
9 **service?**

10 A. Correct.

11 **Q. Do you know what she meant by that?**

12 A. Yes.

13 **Q. What did she mean?**

14 A. That they're basically processing orders for
15 all of their members, finding out which vendor -- even
16 if the customer places the order through Schein, that
17 they're receiving the order and saying you can buy this
18 cheaper from somebody else.

19 **Q. Is a procurement service different from a**
20 **buying group or a GPO?**

21 A. Yes, very much.

22 **Q. How so?**

23 A. A buying group has -- a buying group allows
24 the end user to buy from whoever they want to and does
25 not base recommendations on going to other vendors.

139

1 **Q. Did you ever look into whether Steadfast**
2 **Medical was a procurement service?**

3 A. No.

4 **Q. Did you agree with Ms. Titus in her assessment**
5 **that Steadfast Medical was a procurement service?**

6 A. Yes.

7 **Q. Where do you agree with her in this e-mail?**

8 MR. McDONALD: Object to the form.

9 THE WITNESS: It's not -- it's not here in the
10 e-mail, but I'm giving her authority to do -- to move
11 it to mid market and do what they want with it.

12 BY MR. SOLOMON:

13 **Q. Why did you want to move it to mid market?**

14 A. Because at that time their numbers were lower
15 and it was during the transition period.

16 I'm sorry. Let me correct myself.

17 I didn't want to transfer them anywhere. I
18 state that in the e-mail. I wanted to keep it. She
19 simply -- Kathleen's simply requesting that because it
20 fell underneath me that we shut it down.

21 **Q. Did you agree with her that special markets**
22 **should shut down Steadfast Medical?**

23 A. I don't remember. I don't remember. I know
24 that it happened.

25 **Q. What do you mean by that?**

140

1 A. I believe that we -- we then lost the numbers
2 in my reports, that their -- their plan was
3 discontinued.

4 **Q. So was Steadfast Medical shut down?**

5 A. We discontinued their discounted plan, so
6 their prices went up.

7 **Q. Why?**

8 A. Because they weren't operating as either a
9 buying group or as a DSO; therefore, we weren't going
10 to allow, you know, discounted pricing.

11 **Q. And whose decision was it to discontinue**
12 **Steadfast Medical's discount plan?**

13 A. It would have been mine or Hal's based on
14 Kathleen's input at this --

15 **Q. And was Steadfast Medical Kathleen's customer?**

16 A. It would have transferred to Kathleen during
17 the transition as a mid-market customer eventually.

18 **Q. At the time of this e-mail in May of 2014, was**
19 **Steadfast Medical Ms. Titus's customer?**

20 A. I don't believe so.

21 **Q. Was it your customer?**

22 A. It was my team's customer, yes.

23 **Q. Do you know who specifically was responsible**
24 **for managing the account?**

25 A. No. We kept our distance from it for the most

141	<p>1 part.</p> <p>2 Q. What do you mean by that?</p> <p>3 A. We had a hundred smaller groups in the DSO</p> <p>4 segment that we weren't as focused on, and this was one</p> <p>5 of them. So I really didn't have anybody specifically</p> <p>6 on that account.</p> <p>7 Q. I just want to direct your attention to the</p> <p>8 second page of Exhibit 293, your e-mail to Ms. Titus</p> <p>9 copying Joe Cavaretta at 5:47 p.m. on May 12th.</p> <p>10 You say: (Reading.)</p> <p>11 "As much as I'm against these GPOs we</p> <p>12 still need to talk before moving this</p> <p>13 account to HSD."</p> <p>14 Do you see that?</p> <p>15 A. Yes.</p> <p>16 Q. Were you referring to Steadfast Medical in</p> <p>17 that sentence there?</p> <p>18 A. Yes.</p> <p>19 Q. Why were you categorizing Steadfast Medical as</p> <p>20 a GPO as opposed to a procurement service?</p> <p>21 MR. McDONALD: Object to the form.</p> <p>22 THE WITNESS: Because they weren't following</p> <p>23 the buying group GPO mantra of partnering with us, that</p> <p>24 there's -- based on Kathleen's statement that they were</p> <p>25 simply processing orders and funneling them to</p>	143	<p>1 Q. Do you know why Ms. Titus was concerned about</p> <p>2 shutting down Steadfast Medical if it wasn't her</p> <p>3 customer?</p> <p>4 A. Yes.</p> <p>5 Q. Why?</p> <p>6 A. Because she was given that territory in the</p> <p>7 mid-market area and Steadfast was opening up practices</p> <p>8 in that area and promoting their services with our</p> <p>9 reduced sales -- with our reduced pricing and playing</p> <p>10 the role of a procurement company only and not as a</p> <p>11 buying group.</p> <p>12 Q. At the time of this e-mail, Ms. Titus worked</p> <p>13 for special markets, right?</p> <p>14 A. She worked -- at the time of this e-mail, she</p> <p>15 would have worked for special markets mid market.</p> <p>16 Again, I'm sorry. She would be with -- the P L was</p> <p>17 still under me. Kathleen was HSD. Kathleen Titus was</p> <p>18 with HSD mid market at this time.</p> <p>19 Q. I just would like to direct your attention to</p> <p>20 her signature on the first page. It says: (Reading.)</p> <p>21 "Henry Schein Special Markets/Corporate</p> <p>22 Account Group."</p> <p>23 Do you see that?</p> <p>24 A. Yes.</p> <p>25 Q. Was she -- does that mean that she was with</p>
142	<p>1 different supplier partners or to distributors.</p> <p>2 BY MR. SOLOMON:</p> <p>3 Q. Would you have been okay with Steadfast</p> <p>4 Medical if it was simply a buying group or GPO and not</p> <p>5 a procurement service?</p> <p>6 A. Yes. I was asking could you find more data</p> <p>7 about them to see if they re similar to OrthoSynetics,</p> <p>8 which is a good buying group only for oral surgery; can</p> <p>9 you give me more data?</p> <p>10 Q. Why did you say in that sentence: (Reading.)</p> <p>11 "As much as I am against these GPOs"?</p> <p>12 A. I am -- again, when it comes to just price,</p> <p>13 that segment of GPO/buying groups that focuses</p> <p>14 exclusively on price, I'm not for. And this is where</p> <p>15 Steadfast was going downhill. That was not their</p> <p>16 original way of doing business.</p> <p>17 Q. You don't say -- you don't refer to price in</p> <p>18 this specific e-mail, do you?</p> <p>19 A. No.</p> <p>20 Q. Just turning to the first page of Exhibit 293,</p> <p>21 Ms. Titus in the first paragraph states: (Reading.)</p> <p>22 "I don't want to transfer them anywhere.</p> <p>23 I want to shut them down completely."</p> <p>24 Do you see that?</p> <p>25 A. Yes.</p>	144	<p>1 special markets?</p> <p>2 A. At this time, I believe she was with mid</p> <p>3 market but during the transition did not change her</p> <p>4 title because we did not want to affect customers as to</p> <p>5 all the changes that were occurring. I don't know what</p> <p>6 her new title became.</p> <p>7 Q. So Ms. Titus was interested in shutting down</p> <p>8 Steadfast Medical because it would have affected</p> <p>9 customers on the HSD side of the business?</p> <p>10 A. It would affect the members of Steadfast, yes.</p> <p>11 They were on the HSD side, and because it was a -- a</p> <p>12 procurement program and nothing like a GPO or like a</p> <p>13 DSO.</p> <p>14 Q. And how would that have affected Henry Schein</p> <p>15 Dental's business?</p> <p>16 A. Repeat that.</p> <p>17 Q. Sure. How would that have affected Henry</p> <p>18 Schein Dental -- Henry Schein Dental's business?</p> <p>19 A. As Steadfast wasn't partnering with us, and by</p> <p>20 promoting best pricing from any vendor that sold an</p> <p>21 item at the lowest price, an office that was buying</p> <p>22 from us may be redirected to buy from a competitor</p> <p>23 because Steadfast is gatekeeping pricing procurement</p> <p>24 for that particular group.</p> <p>25 Q. So the concern was that members of Steadfast</p>

145

1 **Medical would purchase supplies from some of Schein's competitors?**

2 A. Via the fact that we had -- yes, via the fact
3 that we had created a relationship with Steadfast.

4 **Q. What do you mean by that?**

5 A. Okay. We had created initially with Steadfast
6 the whole concept of work with them and being a buying
7 group. And at this time they had moved away from that
8 and become a -- I'm sorry -- a buying group that would
9 work closely with our members, and instead almost
10 became a competitor to our FSCs.

11 **Q. Do you recall any instances in which Steadfast
12 Medical acted as a competitor to Schein's FSCs?**

13 MR. McDONALD: Object to the form.

14 THE WITNESS: I'm sorry. No.

15 BY MR. SOLOMON:

16 **Q. Did Henry Schein Special Markets lose revenue
17 when Steadfast Medical was shut down as a customer?**

18 MR. McDONALD: Object to the form; lack of
19 foundation.

20 THE WITNESS: My division would have lost the
21 revenue, special markets. I'm unaware of whether Henry
22 Schein lost revenue by recapturing -- by maintaining
23 the customers' link to Steadfast.

24 BY MR. SOLOMON:

146

1 **Q. Do you recall how much revenue your division
2 within special markets lost from the loss of Steadfast
3 Medical?**

4 MR. McDONALD: Object to the form.

5 THE WITNESS: That was in the e-mail, I
6 believe, in my body. Let me see. No, I'm not sure.
7 I'm not sure of it.

8 I just understand that its growth was --
9 its -- they were up 75 percent in overall merchandise
10 revenue. I don't know what the base number was on that
11 17 percent, whether it was 5000,000 or --

12 BY MR. SOLOMON:

13 **Q. So Steadfast Medical was bringing -- strike
14 that.**

15 **So the revenue from Steadfast Medical was
16 growing?**

17 A. Yes.

18 **Q. Do you recall whether Ms. Titus was against
19 Henry Schein working with buying groups?**

20 A. No.

21 **Q. Do you recall any efforts by her to dismantle
22 any buying groups?**

23 A. No, other than this one. But it's a
24 procurement. Okay?

25 **Q. Was Ms. Titus -- strike that.**

147

1 **Did Ms. Titus work closely with employees of
2 Henry Schein Dental?**

3 A. Yes.

4 **Q. Do you recall who?**

5 A. In general, you know, she was now part of HSD
6 when she moved to mid market. So it would be Joe
7 Cavaretta, the regional managers, the FSCs, whoever.

8 **Q. Do you recall whether Ms. Titus worked with
9 Tim Sullivan?**

10 A. I'm unaware if they worked at all together.

11 MR. SOLOMON: So you can go ahead and put
12 Exhibit 293 aside.

13 I'm handing the witness Exhibit 294, Bates
14 labeled Henry Schein 000151240, and this is an e-mail
15 chain, the last of time -- last in time of which is
16 November 20th, 2014.

17 [Whereupon, Deposition Exhibit 294 was
18 marked for identification.]

19 THE WITNESS: Okay.

20 BY MR. SOLOMON:

21 **Q. Mr. Foley, what is Exhibit 294?**

22 A. It's a -- an e-mail from one of our medical
23 regional managers requesting us work with a
24 correctional facility and jails on a GPO medical plan.

25 **Q. Do you recall this e-mail?**

148

1 A. Yes.

2 **Q. The medical regional manager you're referring
3 to, is that Rachelle Ferrigno?**

4 A. Yes.

5 **Q. Ms. Ferrigno writes on the first page of this
6 e-mail chain, in an e-mail to you: (Reading.)
7 "We are aware that the special markets
8 division is not working with GPOs for
9 our dental business."**

10 **Do you know why Ms. Ferrigno said that --**

11 A. Yes.

12 **Q. -- special markets was not working with GPOs
13 for the dental business?**

14 A. Yes.

15 **Q. Why did she say that?**

16 A. She's referring to true GPOs in the sense, not
17 buying groups. And she's aware that dental -- the
18 dental industry does not work with GPOs in the same
19 sense that medical has GPOs like Broadlane and
20 Amerinet.

21 **Q. How do you know that's what Ms. Ferrigno means
22 there?**

23 A. Because she states it was sent from Premier
24 GPO, which is the name of a medical GPO, and he's
25 requesting if dental has a GPO-type plan, a true GPO,

37 (Pages 145 to 148)

149	<p>1 okay, not a buying group.</p> <p>2 Q. And why did the dental side of Henry Schein</p> <p>3 not work with true GPOs?</p> <p>4 A. I--</p> <p>5 MR. McDONALD: Hang on. Object to the form.</p> <p>6 THE WITNESS: I am not aware of why the dental</p> <p>7 industry does not work with GPOs.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. So you're saying the whole dental industry</p> <p>10 doesn't work with GPOs?</p> <p>11 A. That I know of, the true sense of a GPO like</p> <p>12 Broadlane.</p> <p>13 Q. Like. I'm sorry. What was the --</p> <p>14 A. Broadlane, Novation.</p> <p>15 Q. Are you aware of any other companies -- strike</p> <p>16 that.</p> <p>17 Are you aware of any other dental distributors</p> <p>18 that do not work with true GPOs like Broadlane and</p> <p>19 Novation?</p> <p>20 MR. McDONALD: Object to the form;</p> <p>21 mischaracterizes his testimony.</p> <p>22 THE WITNESS: I am unaware -- I am unaware of</p> <p>23 GPOs being in the segment, in the dental segment.</p> <p>24 BY MR. SOLOMON:</p> <p>25 Q. So you've never encountered a GPO like</p>	151	<p>1 something wrong with the exhibit.</p> <p>2 MR. SOLOMON: I'm in agreement with that.</p> <p>3 MR. McDONALD: Finally.</p> <p>4 THE WITNESS: Okay.</p> <p>5 BY MR. SOLOMON:</p> <p>6 Q. Mr. Foley, what is Exhibit 295?</p> <p>7 A. It's Kathleen Titus explaining to a number of</p> <p>8 people at HSD and Hal Muller what she believed</p> <p>9 Breakaway practice is and that she plans on meeting</p> <p>10 with them to find out more and to disseminate the</p> <p>11 information about them to all the regional manager</p> <p>12 because they keep on popping up on people's radar.</p> <p>13 Q. Breakaway Dental was one of the buying</p> <p>14 groups/GPOs that fell under special markets, right?</p> <p>15 A. That is correct.</p> <p>16 Q. I'd like to direct your attention to the last</p> <p>17 e-mail on May 20th, 2014 at 12:37 p.m. It's on the</p> <p>18 first page of the e-mail chain.</p> <p>19 A. Very top.</p> <p>20 Q. At the very top. And there's an e-mail from</p> <p>21 yourself, and it doesn't indicate on the face of the</p> <p>22 e-mail to whom the e-mail was sent, but we have some</p> <p>23 additional information which you'll see on the first</p> <p>24 page of the exhibit that tells us that the e-mail was</p> <p>25 sent by you to Hal Muller, Chuck Jenkins. And your</p>
150	<p>1 Broadlane or Novation in the dental industry?</p> <p>2 A. Correct, in the true sense of a GPO.</p> <p>3 Q. And what do you mean by that?</p> <p>4 A. That they themselves are buying the</p> <p>5 merchandise at a highly discounted rate to pass on to</p> <p>6 their members.</p> <p>7 Q. Do you mean that the GPO is purchasing the</p> <p>8 supplies directly from a manufacturer?</p> <p>9 A. I believe that's --</p> <p>10 MR. McDONALD: Hang on. Object to the form.</p> <p>11 Go ahead.</p> <p>12 Lack of foundation.</p> <p>13 THE WITNESS: I believe that's how -- I</p> <p>14 believe that's how GPOs operate, that they buy directly</p> <p>15 from the manufacturer partners on the medical side.</p> <p>16 MR. SOLOMON: You can put Exhibit 294 aside</p> <p>17 for that.</p> <p>18 I'm handing the witness Exhibit 295, Bates</p> <p>19 labeled Henry Schein 000166442, which is an e-mail</p> <p>20 chain. The last in time is a May 20th, 2014 e-mail.</p> <p>21 MR. McDONALD: And so we're not confused at a</p> <p>22 later date, the actual first page of the</p> <p>23 exhibit doesn't have a Bates number on it. It's the</p> <p>24 metadata, which we're in agreement with. I don't want</p> <p>25 us looking at the transcript later and thinking there's</p>	152	<p>1 e-mail address is also listed there as a recipient.</p> <p>2 So just want to provide that information to</p> <p>3 you for context before we go ahead and talk about this</p> <p>4 top e-mail.</p> <p>5 Do you recall writing this e-mail?</p> <p>6 A. No.</p> <p>7 Q. What are you referring to when you say:</p> <p>8 (Reading.)</p> <p>9 "I'm not sure who gave her the marching</p> <p>10 orders to dismantle these"?</p> <p>11 A. I am not sure, as this is not -- because the</p> <p>12 e-mail below, it talks nothing about dismantling this</p> <p>13 particular customer. So I'm not sure what would lead</p> <p>14 to that message. I see nothing in here that triggers</p> <p>15 that type of response.</p> <p>16 Q. Do you recall what you were referring to in</p> <p>17 this e-mail?</p> <p>18 A. No.</p> <p>19 Q. Okay. Did you ever have a discussion with</p> <p>20 Mr. Muller or Mr. Chuck Jenkins apart from this e-mail</p> <p>21 about Kathleen Titus dismantling certain customers?</p> <p>22 A. No.</p> <p>23 Q. Who is Chuck Jenkins?</p> <p>24 A. Chuck Jenkins is director of equipment. He s</p> <p>25 my counterpart on the equipment side of special</p>

153

1 markets.
 2 **Q. Did you ever have a follow-up discussion with**
 3 **Ms. Titus surrounding the information in this exhibit?**
 4 A. No. I think I was giving the heads-up to
 5 Chuck Jenkins to keep an eye on Breakaway Dental, that
 6 we make sure that this gets done, this meeting happens,
 7 because they were a very positive GPO, and he had
 8 helped start it, Chuck Jenkins.
 9 **Q. You also -- in the next sentence, you say:**
 10 **(Reading.)**
 11 **"She also talked to the head guy at the**
 12 **UT HSD buying group doing almost 2m with**
 13 **HSD."**
 14 **Do you see that?**
 15 A. Yes.
 16 **Q. Does "2m" refer to -- what does "2m" refer to?**
 17 A. 2 million.
 18 **Q. Do you recall what the name of the buying**
 19 **group was that you referred to in your sentence here?**
 20 A. No, but I do know there was a buying group in
 21 Utah. I can't remember the name that fell under HSD.
 22 **Q. Do you know why Kathleen Titus was talking to**
 23 **the head of a buying group in Utah?**
 24 A. Yes.
 25 **Q. Why?**

154

1 A. Because in her mid-market role that was within
 2 her territory and region, and perhaps they had moved
 3 that buying group -- excuse me -- to under her care
 4 even though it was an HSD. Well, she was now part of
 5 HSD.
 6 **Q. Did you ever -- strike that.**
 7 **Do you recall whether Kathleen Titus was**
 8 **trying to shut down or dismantle the Breakaway buying**
 9 **group?**
 10 A. No.
 11 **Q. You don't recall or she --**
 12 A. Ask the question again. I'm sorry.
 13 **Q. Sure. Do you recall whether Kathleen Titus**
 14 **was trying to shut down or dismantle the Breakaway**
 15 **buying group?**
 16 A. She was not trying to close down the -- shut
 17 down Breakaway.
 18 **Q. Was she trying to dismantle it?**
 19 A. No.
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: I'm sorry. No.
 22 BY MR. SOLOMON:
 23 **Q. Do you know whether Kathleen Titus was trying**
 24 **to shut down or dismantle the UT HSD buying group**
 25 **referred to in this exhibit?**

155

1 A. Yes. I had heard that she was going to meet
 2 with them.
 3 **Q. For what reason?**
 4 A. Again, to find out if their buying group that
 5 we have a relationship with that offers value-added
 6 such as her meeting that she was attempting with
 7 Steadfast, or if it was more of a procurement-type
 8 arrangement, nothing more.
 9 **Q. So my original question was: Do you know**
 10 **whether Kathleen Titus was trying to shut down or**
 11 **dismantle the UT HSD buying group referred to in this**
 12 **exhibit?**
 13 A. I don't know if she was going to shut it down.
 14 I knew she was going to go talk to them.
 15 **Q. Was it possible that she would try to shut it**
 16 **down based on the information that they provided to**
 17 **her?**
 18 A. It could be.
 19 **Q. Why would she do that?**
 20 A. Again, if they are -- their relationship was
 21 more of a procurement like Steadfast and nothing more,
 22 then she may have been talking to them to see if they
 23 would increase our access to their members or we
 24 wouldn't provide the discounted pricing.
 25 **Q. Were you concerned about shutting down groups**

156

1 **such as the UT HSD buying group?**
 2 A. I -- I'm very unfamiliar with the group. I
 3 can't even remember their name. It fell within HSD.
 4 So it was out of my scope. Breakaway was under my
 5 scope.
 6 **Q. Do you know whether Ms. Titus had to clear the**
 7 **decision to shut down groups such as Breakaway with**
 8 **anyone above her?**
 9 A. Sure.
 10 MR. McDONALD: Object to the form.
 11 THE WITNESS: I'm sorry.
 12 BY MR. SOLOMON:
 13 **Q. Do you know who she would have to clear that**
 14 **with?**
 15 A. No, but -- not exactly who, but she couldn't
 16 do it on her own.
 17 **Q. Would she have to seek your permission?**
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: She would have to seek my
 20 permission on a special markets group, not on an HSD
 21 group.
 22 BY MR. SOLOMON:
 23 **Q. Did she seek your permission with respect to**
 24 **Breakaway Dental?**
 25 A. No. She wanted to increase the -- I mean, she

39 (Pages 153 to 156)

157

1 wanted to get to know them. She's just getting to know
2 who they are at this time.

3 **Q. Did she seek your permission with respect to**
4 **Steadfast Medical?**

5 A. Yes.

6 MR. SOLOMON: I'm handing the witness a
7 document that was previously marked as Exhibit 272
8 which is a document Bates labeled Henry Schein
9 000178482. The last-in-time in e-mail in this chain is
10 Monday, February 20th, 2012 at 1:30 p.m.

11 [Whereupon, Exhibit 272 was referenced.]

12 THE WITNESS: Okay.

13 BY MR. SOLOMON:

14 **Q. Mr. Foley, what is Exhibit 272?**

15 A. It's a request from -- what's the date? --
16 from one of my regional account managers about
17 Atlantic -- oh, no; I'm sorry -- about Pro ABC which
18 sounds to be a buying group.

19 **Q. Who is the regional account manager you're**
20 **referring to?**

21 A. Debbie Torgersen.

22 **Q. And did Ms. Torgersen report to you?**

23 A. At this time, yes.

24 **Q. Directing your attention to the first page,**
25 **your e-mail to Ms. Torgersen. You say: (Reading.)**

158

1 **"Honestly, within Schein we have a few**
2 **buying groups (BG) that we wish we**
3 **didn't have."**

4 **Do you see that?**

5 A. Yes.

6 **Q. Why did Schein have buying groups that it**
7 **wished it didn't have? What were you referring to**
8 **there?**

9 A. This was at the beginning of -- in the early
10 years of working in special markets and more buying
11 groups come in to play. And at the end of the day,
12 special markets would rather be working with DSO-type
13 customers and perhaps not buying groups.

14 **Q. Do you recall which buying groups you were**
15 **referring to specifically in that sentence?**

16 A. No. It was a general statement.

17 **Q. Turning to the next few sentences here, it**
18 **looks like there's a discussion of Smile Source.**

19 **Do you see that?**

20 A. Yes.

21 **Q. We discussed Smile Source earlier today, which**
22 **was a buying group/GPO that Schein had a relationship**
23 **with?**

24 A. Special markets, yes.

25 **Q. And then HSD had a relationship with Smile**

159

1 **Source as well as because it was transferred from**
2 **special markets to HSD, right?**

3 A. That's correct.

4 **Q. You say in your e-mail here: (Reading.)**

5 **"We were doing fine with Smile Source**
6 **until they offered to enroll a dentist**
7 **in Miami. As this was an existing HSD**
8 **customer, the FSC went ballistic and**
9 **voiced his concerns all the way up to**
10 **Stan."**

11 **Do you see that?**

12 A. Yes.

13 **Q. Who is Stan?**

14 A. Stan Bergman, our CEO.

15 **Q. Do you recall this episode referred to in**
16 **Exhibit 272?**

17 A. Yes.

18 **Q. And was the reason special markets transferred**
19 **Smile Source to HSD because of a complaint from a field**
20 **sales consultant?**

21 A. Not specifically from one field sales
22 consultant.

23 **Q. How many complaints were there?**

24 A. Well, let's say not from -- no, it's not
25 from -- not just from an FSC complaint.

160

1 **Q. What were the other reasons why special**
2 **markets transferred Smile Source to HSD?**

3 A. That it would be better served working with
4 the FSCs and providing value-added programs. That's
5 why we had them meet with the team in West Allis at HSD
6 to tell them their plans and how HSD could work more
7 closely with them.

8 **Q. You also refer to a meeting here between Tim**
9 **Sullivan, Dave Steck, yourself, and Mr. Muller.**

10 **Do you see that?**

11 A. Yes.

12 **Q. Do you recall that meeting specifically?**

13 A. No.

14 **Q. Okay. Turning to the last sentence in the**
15 **first paragraph of this e-mail, you say: (Reading.)**

16 **"Tim Sullivan is happy that we are one**
17 **less buying group."**

18 **Do you see that?**

19 A. Yes.

20 **Q. Is it fair to say, based on this statement,**
21 **that Mr. Sullivan was pleased that Schein was no longer**
22 **working with Smile Source?**

23 A. No.

24 MR. McDONALD: Object to the form.

25 THE WITNESS: Sorry.

161	<p>1 BY MR. SOLOMON:</p> <p>2 Q. Why do you say that?</p> <p>3 A. I think it was a -- a smart-ass -- excuse</p> <p>4 me -- type comment to my regional manager.</p> <p>5 Q. What did you mean by it?</p> <p>6 A. Basically that, oh, well, there was a -- a --</p> <p>7 a frustration working with buying groups, and I think</p> <p>8 there was a lot -- I think Smile Source was a difficult</p> <p>9 transition for that for HSD. And I just made a simple</p> <p>10 comment that I betcha he's happy that we lost it.</p> <p>11 Q. Why did you think Tim Sullivan would be happy</p> <p>12 to lose a customer?</p> <p>13 MR. McDONALD: Object to the form; asked and</p> <p>14 answered.</p> <p>15 THE WITNESS: I'm not sure.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. What frustration were you just referring to a</p> <p>18 moment ago with respect to Smile Source and HSD?</p> <p>19 A. That when it came to setting up formularies,</p> <p>20 even though we had transferred over their pricing from</p> <p>21 special markets to HSD, HSD had a difficult time in</p> <p>22 maintaining that and also maintaining reports for the</p> <p>23 customer.</p> <p>24 Q. Do you know why it had such a difficult time</p> <p>25 doing that?</p>	163	<p>1 Source?</p> <p>2 MR. McDONALD: Object to the form.</p> <p>3 THE WITNESS: I'm not sure.</p> <p>4 BY MR. SOLOMON:</p> <p>5 Q. You also -- you also mentioned it was a</p> <p>6 difficult transition.</p> <p>7 Were you referring to the same frustrations</p> <p>8 surrounding reporting with respect to Smile Source?</p> <p>9 A. Yes.</p> <p>10 Q. Turning back to your sentence here regarding</p> <p>11 Tim Sullivan, did you mean that Tim Sullivan would be</p> <p>12 happy any time Henry Schein ended a relationship with a</p> <p>13 buying group?</p> <p>14 MR. McDONALD: Object to the form.</p> <p>15 THE WITNESS: No.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. How do you know that?</p> <p>18 MR. McDONALD: Object to the form.</p> <p>19 THE WITNESS: I'm not sure. He didn't have --</p> <p>20 never presented to me any negative thing in general</p> <p>21 about buying groups.</p> <p>22 BY MR. SOLOMON:</p> <p>23 Q. Turning to the next paragraph in this e-mail,</p> <p>24 there's another discussion about buying groups. And</p> <p>25 turning to the last sentence, you say: (Reading.)</p>
162	<p>1 A. Yes.</p> <p>2 Q. Why?</p> <p>3 A. They didn't have the systems in place that we</p> <p>4 had in special markets that did reports on a regular</p> <p>5 basis for our largest customers.</p> <p>6 Q. Why were those reports important?</p> <p>7 MR. McDONALD: Object to the form.</p> <p>8 THE WITNESS: It helped give Smile Source an</p> <p>9 understanding of the purchases by each of their</p> <p>10 locations and helped us keep track of, you know,</p> <p>11 whether people were being compliant to the formularies.</p> <p>12 BY MR. SOLOMON:</p> <p>13 Q. So was the frustration on the part of Smile</p> <p>14 Source?</p> <p>15 A. I'm not sure.</p> <p>16 Q. Do you know whether HSD was frustrated with</p> <p>17 Smile Source?</p> <p>18 A. Yes.</p> <p>19 Q. And what was the source of those frustrations?</p> <p>20 A. That they didn't have the systems in place.</p> <p>21 There was a lot of manual tracking. They just weren't</p> <p>22 as geared to working with a multi-site group of this</p> <p>23 size like we were in special markets.</p> <p>24 Q. Do you know whether Henry Schein Dental had</p> <p>25 difficulty in keeping the same pricing for Smile</p>	164	<p>1 "So this is a corporate decision not to</p> <p>2 participate in these."</p> <p>3 Do you see that?</p> <p>4 A. Yes.</p> <p>5 Q. Are you referring to a corporate decision not</p> <p>6 to participate in buying groups and GPOs?</p> <p>7 MR. McDONALD: Object to the form.</p> <p>8 THE WITNESS: No.</p> <p>9 BY MR. SOLOMON:</p> <p>10 Q. What are you referring to there?</p> <p>11 A. I'm referring to the types of buying groups</p> <p>12 that simply offer a lower price and no other service,</p> <p>13 because at this time we had a number of buying groups</p> <p>14 in place that we're doing well with in both divisions.</p> <p>15 Q. So was there a corporate decision not to work</p> <p>16 with those kinds of buying groups?</p> <p>17 A. I can't say that it was a corporate decision.</p> <p>18 Q. What kind of decision would you call it?</p> <p>19 A. It was a decision to, again, not work with --</p> <p>20 to be -- to analyze any prospect that comes to us and</p> <p>21 determine if it's just price only, that we would not</p> <p>22 work with them and instead would work with them if they</p> <p>23 would work with us as a partner in value-add services</p> <p>24 like our other buying groups.</p> <p>25 Q. Who made that decision?</p>

165	<p>1 MR. McDONALD: Object to the form.</p> <p>2 THE WITNESS: It was not a written policy, so</p> <p>3 I'm unsure of who made the decision. It was just</p> <p>4 general knowledge.</p> <p>5 BY MR. SOLOMON:</p> <p>6 Q. Do you recall how you learned about it?</p> <p>7 A. It would -- not really.</p> <p>8 Q. Do you recall anything about how you learned</p> <p>9 about it?</p> <p>10 A. It would be in conversation with Hal Muller</p> <p>11 and myself as to what we should do and which divisions</p> <p>12 they should fall under and when to engage and when not</p> <p>13 to engage.</p> <p>14 Q. Did Ms. -- I'm sorry. You can finish?</p> <p>15 A. When to invest time and not to invest time.</p> <p>16 Q. Did Mr. Muller -- strike that.</p> <p>17 Do you know whether Mr. Muller developed that</p> <p>18 policy?</p> <p>19 MR. McDONALD: Object to the form.</p> <p>20 THE WITNESS: No.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. Do you recall whether there were any</p> <p>23 consequences to violating that policy?</p> <p>24 A. None.</p> <p>25 Q. How do you know?</p>	167	<p>1 Q. Had you ever discussed it with anyone from --</p> <p>2 strike that.</p> <p>3 Had you ever discussed it with someone from</p> <p>4 Henry Schein Dental?</p> <p>5 A. Not that I am aware of.</p> <p>6 Q. Did that idea ever change?</p> <p>7 A. Oh, definitely.</p> <p>8 Q. When did it change?</p> <p>9 A. As years went on, we saw the value of the</p> <p>10 buying -- of the buying groups and developed more</p> <p>11 people involved with them, from Brian Brady and on, to</p> <p>12 help work with these buying groups and expand them, you</p> <p>13 know, to be more a partner than -- there were a number</p> <p>14 of them that were very basic. Would come and say, hey,</p> <p>15 I could do better pricing. Those are the ones that we</p> <p>16 would say, well, this doesn't have any value; move on.</p> <p>17 Q. And do you recall the approximate time frame</p> <p>18 when that change was made?</p> <p>19 A. It was gradual over the time that I was in</p> <p>20 special markets from -- well, again, we had Smile</p> <p>21 Source and a number of -- Breakaway and others in place</p> <p>22 back in 2010, 2009. So it would be -- over the years,</p> <p>23 it was more of a question whether it would fall in</p> <p>24 special markets or should it go to -- should it move to</p> <p>25 HSD.</p>
166	<p>1 A. Because it wasn't a written policy or form</p> <p>2 that was disseminated. At the time being a smaller</p> <p>3 division, it was not a black-and-white-type</p> <p>4 environment. It was more gray area. So it was trying</p> <p>5 to -- as one came along, what is our next step to do.</p> <p>6 Q. Do you recall when the policy began?</p> <p>7 MR. McDONALD: Object to the form.</p> <p>8 He's told you several times it wasn't a</p> <p>9 policy.</p> <p>10 THE WITNESS: Yeah, there's no -- yeah. No.</p> <p>11 BY MR. SOLOMON:</p> <p>12 Q. How would you describe it, then, if it wasn't</p> <p>13 a policy?</p> <p>14 A. It was just a general -- it wouldn't be a</p> <p>15 policy. It would be a general rule as to when to</p> <p>16 engage with -- not even rule; just a general idea when</p> <p>17 somebody should be -- when should be a buying group or</p> <p>18 whether they should -- are they just based on price.</p> <p>19 Q. Do you recall -- I'm sorry. Did you want to</p> <p>20 finish?</p> <p>21 A. No.</p> <p>22 Q. Do you recall when that was developed?</p> <p>23 A. No.</p> <p>24 Q. Did Henry Schein Dental know about that idea?</p> <p>25 A. Not that I am aware of.</p>	168	<p>1 Q. We talked a little bit about Smile Source</p> <p>2 earlier today.</p> <p>3 A. Umm-hmm.</p> <p>4 Q. I don't think we've talked about who was</p> <p>5 responsible for managing that relationship. Apologies</p> <p>6 if we have, but I just want to ask again.</p> <p>7 Who was responsible for managing the</p> <p>8 relationship with Smile Source when it belonged to</p> <p>9 special markets?</p> <p>10 A. That was with Rick Heysquierdo --</p> <p>11 Q. That's right. Okay.</p> <p>12 A. -- and myself.</p> <p>13 Q. That refreshes my memory. Thank you.</p> <p>14 MR. McDONALD: You can't forget that name.</p> <p>15 MR. SOLOMON: Right.</p> <p>16 THE WITNESS: I won't tell you what I call</p> <p>17 him.</p> <p>18 MR. SOLOMON: I won't ask.</p> <p>19 You can put that document aside.</p> <p>20 I'm handing the witness Exhibit 296, a</p> <p>21 document Bates labeled Henry Schein 000114680. It's an</p> <p>22 e-mail chain. The last-in-time e-mail is November 4th,</p> <p>23 2013, at 11:44 a.m.</p> <p>24 [Whereupon, Deposition Exhibit 296 was</p> <p>25 marked for identification.]</p>

169

1 THE WITNESS: Okay.
 2 BY MR. SOLOMON:
 3 **Q. What is Exhibit 296?**
 4 A. It's an e-mail from John Boresi, who was new
 5 in special markets, who was -- who was asking who was
 6 Smile Source, based on some documentation he saw about
 7 how big they were.
 8 **Q. What was Mr. -- Mr. Boresi was a general**
 9 **manager for exclusives and specialty products; is that**
 10 **right? I'm just looking at his signature line on the**
 11 **first page.**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: Yes. I was just checking his
 14 timing as to -- because he was prior to that special
 15 markets.
 16 BY MR. SOLOMON:
 17 **Q. So at the time of this e-mail, he worked for**
 18 **special markets or HSD?**
 19 A. No. He worked -- no. He worked for a
 20 completely separate entity called our exclusives, Henry
 21 Schein Exclusives.
 22 **Q. And prior to that, he worked for special**
 23 **markets?**
 24 A. Correct.
 25 **Q. So this e-mail concerns Smile Source, right?**

170

1 A. Yes.
 2 **Q. And at the time of this e-mail, Smile Source**
 3 **no longer had a relationship with Henry Schein, right?**
 4 A. Per this e-mail, yes.
 5 **Q. I'd like to direct your attention to the**
 6 **second page of this e-mail and the paragraph toward the**
 7 **top. You're referring to the opening of 27 offices,**
 8 **and you state: (Reading.)**
 9 **"We should bend our buying group rules."**
 10 **What did you mean there?**
 11 A. That I wanted this account back under special
 12 markets as a buying group and not with HSD.
 13 **Q. Do you recall whether it was still with HSD at**
 14 **this time?**
 15 A. The fact that it was once with HSD meant that
 16 it would stay in HSD's bucket.
 17 **Q. If you turn to the first page, you'll note --**
 18 **the beginning of your e-mail, you state that they moved**
 19 **to Burkhardt.**
 20 **So it sounds like at the time of this e-mail**
 21 **they no longer had a relationship with any part of**
 22 **Henry Schein's business?**
 23 A. Correct.
 24 **Q. So at the time of this e-mail represented in**
 25 **Exhibit 296, were you interested in redeveloping a**

171

1 **relationship with Smile Source?**
 2 A. No. I was simply responding to who they are
 3 and wished I could, but wasn't engaged in doing it.
 4 **Q. Why were you not engaged in doing it?**
 5 A. It fell under HSD. It was their decision to
 6 re-engage or win back the customer, not mine. I wished
 7 it was mine.
 8 **Q. Turning back to your sentence, you mention**
 9 **buying group rules.**
 10 **What rules are you referring to?**
 11 MR. McDONALD: Object to the form; asked and
 12 answered.
 13 THE WITNESS: Again, just a general thing
 14 that -- as I mentioned earlier, that this account falls
 15 maybe more into a buying group, that we need to make
 16 sure that we can do business with them or not,
 17 depending on certain criteria.
 18 BY MR. SOLOMON:
 19 **Q. So at the time of this e-mail, would working**
 20 **with Smile Source violate the rule referred to in this**
 21 **e-mail?**
 22 A. No, because they were a great buying group
 23 when they were with -- with me originally.
 24 MR. McDONALD: I objected to the form.
 25 BY MR. SOLOMON:

172

1 **Q. So why did you need to bend the rule?**
 2 MR. McDONALD: Object to the form; asked and
 3 answered.
 4 THE WITNESS: I wanted to -- I wanted to bring
 5 back the rule that HSD was now handling buying groups.
 6 I wanted it back into the special markets arena.
 7 BY MR. SOLOMON:
 8 **Q. So the rule you're referring to here also**
 9 **includes the rule that buying groups were handled by**
 10 **HSD?**
 11 A. Yeah, at a certain time, we decided to move
 12 buying groups to HSD.
 13 **Q. You can put that document aside.**
 14 A. Okay.
 15 MR. SOLOMON: You know, we've been going for
 16 an hour now. Why don't we take a quick break?
 17 THE WITNESS: Okay. Thank you.
 18 MR. McDONALD: Okay.
 19 MR. SOLOMON: Thanks.
 20 (Brief recess.)
 21 MR. SOLOMON: Back on the record at 2:23 p.m.
 22 BY MR. SOLOMON:
 23 **Q. Mr. Foley, who would you say are Schein's**
 24 **largest competitors in the special markets space?**
 25 A. The largest would be Benco Dental. The

43 (Pages 169 to 172)

173	<p>1 second-largest would be Patterson Dental.</p> <p>2 Q. Have you ever communicated with someone who</p> <p>3 worked at Patterson Dental?</p> <p>4 A. No.</p> <p>5 Q. Are you aware of anyone else at Schein</p> <p>6 communicating with someone from Patterson Dental?</p> <p>7 A. No.</p> <p>8 Q. Have you ever communicated with someone who</p> <p>9 worked at Benco Dental?</p> <p>10 A. Yes.</p> <p>11 Q. Who?</p> <p>12 A. John Klavon, Johnny Bunn, and Pat Ryan.</p> <p>13 Q. Okay. Who is John Klavon?</p> <p>14 A. He is a special markets sales rep for Benco.</p> <p>15 I'm not aware of his title.</p> <p>16 Q. How do you know Mr. Klavon?</p> <p>17 A. He -- I would -- we would see each other or</p> <p>18 run into each other at trade shows on occasion.</p> <p>19 Q. What was the purpose of your speaking with</p> <p>20 Mr. Klavon?</p> <p>21 A. Just general pleasantries while at a reception</p> <p>22 with a customer.</p> <p>23 Q. Were you introduced to Mr. Klavon?</p> <p>24 A. No.</p> <p>25 Q. Is Mr. Klavon -- do you know whether</p>	175	<p>1 A. Yes. Special markets.</p> <p>2 Q. How do you know Mr. Ryan?</p> <p>3 A. I met him once at a trade show.</p> <p>4 Q. What was the name of the trade show?</p> <p>5 A. I can't remember.</p> <p>6 Q. Do you recall where it took place?</p> <p>7 A. Can't remember.</p> <p>8 Q. Were you introduced to Mr. Ryan?</p> <p>9 A. No, I don't think so.</p> <p>10 Q. How did you come to become -- how did --</p> <p>11 strike that.</p> <p>12 How did you become acquainted with Mr. Ryan?</p> <p>13 A. Similar to Johnny and John Klavon, by saying</p> <p>14 hi while at a trade show together.</p> <p>15 Q. So that was an in-person introduction?</p> <p>16 MR. McDONALD: Object to the form.</p> <p>17 THE WITNESS: It may be from one of their --</p> <p>18 from Johnny Bunn or John Klavon.</p> <p>19 BY MR. SOLOMON:</p> <p>20 Q. How many other times have you spoken with</p> <p>21 Mr. Ryan?</p> <p>22 A. One other time.</p> <p>23 Q. When was that?</p> <p>24 A. He called me once.</p> <p>25 Q. When was that?</p>
174	<p>1 Mr. Klavon is high up at Benco Dental?</p> <p>2 A. I have no idea.</p> <p>3 Q. Okay. How would you describe your</p> <p>4 relationship with Mr. Klavon?</p> <p>5 A. Just general "how are you" when we're at a</p> <p>6 trade show.</p> <p>7 Q. Who is Johnny Bunn?</p> <p>8 A. Very similar to John Klavon.</p> <p>9 Q. Is he also a sales representative for Benco</p> <p>10 special markets division?</p> <p>11 A. Yes.</p> <p>12 Q. How do you know Mr. Bunn?</p> <p>13 A. From trade shows, running into him on</p> <p>14 occasion.</p> <p>15 Q. Were you introduced to Mr. Bunn?</p> <p>16 A. No.</p> <p>17 Q. Okay. How would you describe your</p> <p>18 relationship with Mr. Bunn?</p> <p>19 A. Just "how are you" at a trade show. Nothing</p> <p>20 more.</p> <p>21 Q. And who is Pat Ryan?</p> <p>22 A. Not exactly sure of his title, but he's with</p> <p>23 Benco. I know who he is.</p> <p>24 Q. Do you recall what division he works at within</p> <p>25 Benco?</p>	176	<p>1 A. I don't know exactly when it was.</p> <p>2 Q. Do you recall the year?</p> <p>3 A. I would recall that it would be probably four</p> <p>4 years after I'd been with special markets, so 2013</p> <p>5 maybe, 2012.</p> <p>6 Q. Was that after you had met Mr. Foley at a</p> <p>7 trade show?</p> <p>8 MR. McDONALD: Object to the form.</p> <p>9 MR. SOLOMON: Strike that.</p> <p>10 My apologies.</p> <p>11 BY MR. SOLOMON:</p> <p>12 Q. Was that after you had met Mr. Ryan at a trade</p> <p>13 show?</p> <p>14 A. Yes.</p> <p>15 Q. Why did Mr. Ryan call you?</p> <p>16 MR. McDONALD: Object to the form.</p> <p>17 THE WITNESS: I thought he wanted to call me</p> <p>18 and offer me a position, but instead he called me to</p> <p>19 tell me that -- that he received a bid for Smile Source</p> <p>20 and that he wasn't going to bid on it.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. What did you say in response to that?</p> <p>23 A. I don't remember, but I just listened and said</p> <p>24 very little.</p> <p>25 Q. What else did you discuss with Mr. Ryan?</p>

177

1 A. Just that.
 2 **Q. Do you know why Mr. Ryan called you to discuss**
 3 **Smile Source?**
 4 A. I'm not sure. I understand there was a bid,
 5 but Smile Source was no longer with me. I had nothing
 6 to do with the bid or aware that there was a bid.
 7 **Q. Did he ask you any questions about Smile**
 8 **Source?**
 9 A. I don't remember.
 10 **Q. Was he interested to know whether Schein would**
 11 **do business with Smile Source?**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I'm not -- I'm not sure.
 14 BY MR. SOLOMON:
 15 **Q. What do you recall Mr. Ryan saying**
 16 **specifically about Smile Source?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: I don't remember the specifics.
 19 I just remember that I got a call because I've never
 20 gotten a call from Benco. And I have to adhere to
 21 company worldwide business standards, so I remember
 22 being uneasy on the call and simply being quiet.
 23 Totally unexpected to call.
 24 BY MR. SOLOMON:
 25 **Q. Did you say anything in response to Mr. Ryan?**

178

1 A. No.
 2 **Q. You referred to company worldwide business**
 3 **standards. What do you mean?**
 4 A. As part of a -- as a director or as a vice
 5 president, I had to take -- we had worldwide business
 6 standards. Things on anti-kickback, on collusion, on
 7 sharing -- on trade secrets, those types of -- it was
 8 through Corpedia. I can't pronounce what it was. It
 9 was a Web-based system that we had to take on a regular
 10 basis annually.
 11 **Q. And why did the call from Mr. Ryan make you**
 12 **think about those annual trainings?**
 13 A. Because immediately he was talking about a
 14 customer, a prospect, and it's against our company, you
 15 know, rules for me to discuss customers and trade
 16 secrets and what we're dealing with customers.
 17 **Q. You mentioned you felt uneasy; is that right?**
 18 A. Yes.
 19 **Q. How did you end the discussion with Mr. Ryan?**
 20 A. I don't remember the basics. Basically, talk
 21 to you later. We never had a conversation after that.
 22 **Q. Did you tell Mr. Ryan that you thought the**
 23 **conversation made you feel uneasy?**
 24 A. No.
 25 **Q. Do you recall how long the phone conversation**

179

1 **lasted?**
 2 A. It was a very short call. I think -- I think
 3 he understood I wasn't offering anything, so we --
 4 basically, see you later.
 5 **Q. Was it longer than five minutes?**
 6 A. Oh, no.
 7 **Q. How long would you say it lasted?**
 8 A. Maybe a minute.
 9 **Q. Did Mr. Ryan mention anyone from Benco during**
 10 **the phone call?**
 11 A. No.
 12 **Q. So he didn't discuss someone named Chuck**
 13 **Cohen?**
 14 A. No.
 15 **Q. What did you do after the conversation ended?**
 16 A. I basically hung up and I did not report the
 17 call. I just let it go. I may have mentioned it to
 18 Hal Muller that he had called me, and that would be it.
 19 **Q. Why did you mention it to Hal Muller?**
 20 A. Well, there are rules that if something
 21 happens I should report certain calls, but since I
 22 didn't engage, I just simply made a comment, I think,
 23 to Hal that -- that Pat Ryan called me. I thought they
 24 were going to offer me a job. And I don't know if I
 25 said if he wanted to talk about Smile Source or not. I

180

1 don't remember the conversation or the e-mail.
 2 **Q. Do you recall what Mr. Muller told you in**
 3 **response to your reporting it to him?**
 4 A. No. It was, "You didn't do anything, so don't
 5 worry about it."
 6 **Q. How many times did you discuss the phone call**
 7 **with Mr. Muller?**
 8 A. Only once.
 9 **Q. Was that discussion in person, by phone, or by**
 10 **e-mail?**
 11 A. I think simply by e-mail.
 12 **Q. Did you tell Mr. Ryan that it was**
 13 **inappropriate to talk about customers?**
 14 A. No.
 15 **Q. Why not?**
 16 A. He said he opened up and said what he wanted
 17 to say, and I just listened and didn't offer anything
 18 up on the Schein side.
 19 **Q. Did you give him any indication that you were**
 20 **not interested in discussing customers or Smile Source?**
 21 A. I can't remember how I ended the call. I
 22 could have simply said I can't talk about this.
 23 **Q. Did you report the call to anyone apart from**
 24 **Mr. Muller within Schein?**
 25 A. No.

45 (Pages 177 to 180)

181

1 **Q. Did you have any follow-up conversations with**
 2 **Mr. Ryan?**
 3 A. No.
 4 **Q. How would you describe your relationship with**
 5 **Mr. Ryan?**
 6 A. I met him once at a trade show, he called me
 7 once, and maybe I've run into him at subsequent trade
 8 shows just to say hi.
 9 I viewed Benco as a very stiff competitor.
 10 Didn't want to -- I would -- you know, I would want to
 11 win any business I could from them and keep any
 12 business, so I kept my distance.
 13 **Q. Do you know how Mr. --**
 14 MR. McDONALD: I mean, I want to be sure that
 15 the record is clear. He said, "I would want to win any
 16 business," not "wouldn't."
 17 THE REPORTER: Okay.
 18 MR. McDONALD: Yeah, that's a big difference.
 19 BY MR. SOLOMON:
 20 **Q. Mr. Foley, do you know how Mr. Ryan got your**
 21 **telephone number?**
 22 A. No.
 23 **Q. Do you recall ever giving him your phone**
 24 **number?**
 25 A. No.

182

1 **Q. Did you develop a sense as to why Mr. Ryan was**
 2 **asking you about Smile Source?**
 3 A. Yes.
 4 **Q. What was your sense?**
 5 A. That if they re up for bid, he wondered if I
 6 would be bidding against it.
 7 **Q. You mentioned that Mr. Ryan told you that he**
 8 **was not interested in bidding on Smile Source, right?**
 9 A. That's correct.
 10 **Q. So why would he want to know whether you were**
 11 **bidding on Smile Source?**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I'm unsure why.
 14 BY MR. SOLOMON:
 15 **Q. Was that information of interest to you in any**
 16 **way?**
 17 A. Which information?
 18 **Q. The information Mr. Ryan gave you about Benco**
 19 **not wanting to bid on Smile Source?**
 20 A. No.
 21 **Q. Did Mr. Ryan tell you why Benco would not bid**
 22 **on Smile Source?**
 23 A. No.
 24 **Q. Did you ask?**
 25 A. No.

183

1 **Q. Did he give you any other information about**
 2 **Benco's position with respect to Smile Source?**
 3 A. No.
 4 **Q. So he simply just told you that Benco would**
 5 **not bid on Smile Source?**
 6 A. I believe he said Benco does not want to bid
 7 on Smile Source.
 8 **Q. Did he say anything else surrounding Smile**
 9 **Source?**
 10 A. No.
 11 **Q. And that was the end of the conversation?**
 12 A. Yes.
 13 **Q. Did you respond with any words?**
 14 MR. McDONALD: Object to the form; asked and
 15 answered.
 16 THE WITNESS: I don't remember saying anything
 17 other than ending the call.
 18 BY MR. SOLOMON:
 19 **Q. Do you have Mr. Ryan's phone number?**
 20 A. No.
 21 **Q. Do you know whether Mr. Ryan is friendly with**
 22 **anyone else at Schein?**
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: No.
 25 BY MR. SOLOMON:

184

1 **Q. Do you know whether Mr. Ryan has communicated**
 2 **with anyone else at Schein?**
 3 A. No.
 4 MR. SOLOMON: I'm handing Mr. Foley
 5 Exhibit 279, a document Bates labeled Henry Schein
 6 000170759, and it is an e-mail chain. The last-in-time
 7 e-mail is October 9th, 2013, at 8:45 a.m.
 8 [Whereupon, Exhibit 279 was referenced.]
 9 BY MR. SOLOMON:
 10 **Q. Mr. Foley, let me know when you've had a**
 11 **chance to review that.**
 12 A. Okay.
 13 **Q. Mr. Foley, what is Exhibit 279?**
 14 A. It's an e-mail regarding Smile Source and how
 15 much they have grown and how much we are doing with
 16 them with our OraPharma relationship.
 17 **Q. Turning to the last-in-time e-mail on**
 18 **October 9th, 2013. That's an e-mail from you. And per**
 19 **the cover sheet of this exhibit, the metadata tells us**
 20 **that you sent this e-mail to Mr. Muller.**
 21 **Do you have any reason to dispute that?**
 22 A. No.
 23 **Q. You tell Mr. Muller: (Reading.)**
 24 **"Next time we talk remind me to tell you**
 25 **about my conversation with Pat Ryan at**

46 (Pages 181 to 184)

185

1 **SM Benco. They're anti Buying Group and**
 2 **Smile Source recently reached out to**
 3 **them. I'm being careful not to cross**
 4 **any boundaries, like collusion."**
 5 **When you say "their anti Buying Group," how**
 6 **did you know that was true?**
 7 A. I believe that Pat may have made that comment
 8 to me on the phone call.
 9 **Q. So Mr. Ryan told you that Benco was anti**
 10 **buying group?**
 11 A. I will assume that based on what I'm writing
 12 to Hal Muller. I don't remember the details of the
 13 call.
 14 **Q. So you don't recall asking Mr. Ryan why Benco**
 15 **was anti buying group?**
 16 A. I don't remember if I asked. I don't think I
 17 asked him anything. He may have volunteered that
 18 statement.
 19 **Q. Why did you want Mr. Muller to remind you to**
 20 **tell him about this discussion?**
 21 A. This is- -- when you asked, did I alert
 22 anybody about my conversation, I'm thinking telling Hal
 23 that, "Hey, next time we talk, I want to tell you that
 24 I had a call from Benco and I was careful not to cross
 25 any boundaries."

186

1 **Q. Why did you tell Mr. Muller that you were**
 2 **careful not to cross any boundaries?**
 3 A. I want him to understand that Benco had
 4 reached out to me, what they said, and that I was
 5 careful not to talk anymore about it.
 6 **Q. Did you have any follow-up conversations with**
 7 **Mr. Muller after this e-mail?**
 8 A. Not that I can remember.
 9 **Q. Do you recall whether Mr. Muller ever brought**
 10 **this discussion with Pat Ryan up to you again?**
 11 A. No, I don't remember.
 12 **Q. Okay.**
 13 MR. McDONALD: Well, object to the form.
 14 BY MR. SOLOMON:
 15 **Q. You tell Mr. Muller that Smile Source is anti**
 16 **buying group and that Smile Source recently reached out**
 17 **to Benco, right?**
 18 A. Yes.
 19 **Q. Was this the type of information that you**
 20 **thought Mr. Muller would want to know?**
 21 MR. McDONALD: Object to the form.
 22 THE WITNESS: I'm not sure. Again, I think
 23 I'm simply telling him what -- what Pat Ryan said on
 24 the call to me.
 25 BY MR. SOLOMON:

187

1 **Q. Did you think that this would be something**
 2 **that was important for you to tell Mr. Muller?**
 3 A. I think it was important for me to tell him
 4 that I had a call from a competitor which I've never
 5 had before.
 6 **Q. Did you discuss this call with Mr. Ryan with**
 7 **anyone else at Schein?**
 8 A. No.
 9 **Q. Do you know whether Mr. Muller told anyone**
 10 **else at Schein about this phone call with Pat Ryan?**
 11 A. I'm not aware of any.
 12 **Q. Did you think that the intelligence that**
 13 **Mr. Ryan provided you regarding Benco's position on**
 14 **Smile Source was interesting or relevant to Schein?**
 15 MR. McDONALD: Object to the form.
 16 THE WITNESS: No. I was, again, removed from
 17 Smile Source. So whatever they want to do, let them do
 18 it. I don't know if this was up for bid at the time
 19 with us or if we were engaged. So I just listened to
 20 what he said and said, oh, well.
 21 BY MR. SOLOMON:
 22 **Q. You used the word "collusion" in your e-mail.**
 23 A. Umm-hmm.
 24 **Q. Were you concerned that collusion had**
 25 **occurred?**

188

1 A. I'm not exactly sure of what -- I made sure
 2 that I didn't say anything so I wouldn't be colluding
 3 with another distributor.
 4 **Q. What is your understanding of what "collusion"**
 5 **means?**
 6 A. That if we were to share each other's plan we
 7 could manipulate this particular Smile Source,
 8 something along those lines.
 9 **Q. Did you mean anything else by that term?**
 10 A. No, not that I know of.
 11 **Q. Mr. Foley, we talked a little bit about today**
 12 **about a group called Dental Gator --**
 13 **You can put that aside.**
 14 A. Thank you.
 15 **Q. We talked a little bit about a group called**
 16 **Dental Gator, which I understand to be a buying group**
 17 **that fell under special markets; is that right?**
 18 A. That's correct.
 19 **Q. Dental Gator remained with special markets and**
 20 **was not transferred to HSD; is that your understanding?**
 21 A. As of my time of departure, it was still with
 22 special markets.
 23 **Q. Was it ever transferred -- or strike that.**
 24 **Do you know whether it was transferred to HSD**
 25 **following your departure?**

47 (Pages 185 to 188)

189

1 A. I'm not sure.
 2 **Q. Have you ever heard that it was following**
 3 **the --**
 4 A. I would doubt it.
 5 **Q. Okay. And do you know whether Dental Gator**
 6 **was a buying group component of a DSO customer called**
 7 **MB2?**
 8 A. Yes.
 9 **Q. Was MB2 a customer of special markets?**
 10 A. Yes.
 11 **Q. Was it an important customer?**
 12 A. Yes.
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: I'm sorry. Yes.
 15 BY MR. SOLOMON:
 16 **Q. Do you know -- strike that.**
 17 **Do you have any understanding as to why MB2**
 18 **established Dental Gator?**
 19 A. Yes.
 20 **Q. What's your understanding?**
 21 A. They wanted to get their foot into the door of
 22 private practices that they could -- that they could
 23 acquire as part of their MB2 model which is ownership
 24 of the practices. This was a good foot in the door for
 25 them.

190

1 **Q. But why was it a good foot in the door?**
 2 A. They could go in as more along of a consulting
 3 buying group, offering services to help alleviate
 4 overhead for a private practice without the private
 5 practice having to forfeit ownership to MB2.
 6 **Q. Do you know whether the goal was to convert**
 7 **private practice offices to members of a dental service**
 8 **organization?**
 9 A. Can you repeat that?
 10 **Q. Sure. Do you know whether the goal was to**
 11 **convert private practices offices into members of a**
 12 **dental service organization?**
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: For MB2 -- for MB2's goal? Yes,
 15 that was their goal, to acquire practices under their
 16 DSO. Specifically them only, not all DSOs.
 17 BY MR. SOLOMON:
 18 **Q. Do you know whether that business model worked**
 19 **in acquiring private practice offices?**
 20 A. It worked on occasion for them, yes.
 21 **Q. What do you mean by that?**
 22 A. They had a number of offices that eventually
 23 moved off of Dental Gator and moved into MB2 under the
 24 MB2 umbrella.
 25 **Q. Do you recall how many offices?**

191

1 A. No.
 2 **Q. How did you first learn about Dental Gator?**
 3 A. When we were renewing their contract with
 4 Andrea Hight working with them, they mentioned that
 5 they were going to set up a buying group called Dental
 6 Gator.
 7 **Q. Did you hear about it first from Ms. Hight?**
 8 A. I believe so.
 9 **Q. And what did Ms. Hight tell you?**
 10 A. That she wanted to work out an agreement so
 11 that they could move forward with their buying group
 12 but at the same time make sure that the agreement was
 13 separate of MB2's business model of ownership.
 14 **Q. Do you know why that was important to her?**
 15 A. Yes.
 16 **Q. Why?**
 17 A. Because we needed to make sure that the
 18 pricing plan that we had couldn't be extended -- MB2's
 19 pricing plan was specific to MB2 based on requirements
 20 from vendor partners, et cetera, not to be shared with
 21 general dentists for any just random reason.
 22 So we wanted to make sure that we
 23 distinguished that this agreement related to the DSO
 24 part of you and this part of it talks about the buying
 25 group part of you. Working them as a dual entity.

192

1 **Q. Why were you concerned about that?**
 2 A. We didn't want to have the confusion of -- we
 3 had agreements that were focused on the DSO segment
 4 that they belonged to that they're part of. At the
 5 same time they were wearing two hats as a buying group.
 6 So we wanted to make sure that -- again, that they
 7 would not extend their discounted pricing based on
 8 arrangements with our vendor partners to the buying
 9 group arm.
 10 **Q. Would that affect special markets in any way?**
 11 A. No.
 12 **Q. So why was it important for special markets to**
 13 **distinguish the buying group from the DSO component?**
 14 A. It would affect the -- the relationship or the
 15 policies of our vendor partners.
 16 **Q. Did special markets receive complaints from**
 17 **vendor partners with respect to Dental Gator?**
 18 A. Yes.
 19 **Q. Do you recall which vendors?**
 20 A. It was Kerr Dental.
 21 **Q. Were there any other vendors?**
 22 A. Not that I'm aware of.
 23 **Q. What did Kerr Dental say?**
 24 MR. McDONALD: Object to the form; asked and
 25 answered. You asked all this stuff earlier today,

48 (Pages 189 to 192)

193

1 Ronnie.
 2 Go ahead. Tell him again.
 3 THE WITNESS: That -- that Kerr Dental had --
 4 that their chargebacks related to the DSO component to
 5 the customer and they were not to be used in the
 6 private sector, which Dental Gator was engaging with in
 7 their buying group.
 8 BY MR. SOLOMON:
 9 **Q. Did special markets receive any complaints**
 10 **from Henry Schein Dental with respect to Dental Gator?**
 11 A. Yes.
 12 **Q. What was the nature of those complaints?**
 13 A. There again, they were -- they were from
 14 mainly FSCs attached to accounts where Dental Gator
 15 would enter into one of their customers and they were
 16 unaware of who they were and they were concerned about
 17 reduced commission.
 18 **Q. Were there any other concerns that were voiced**
 19 **to you that originated from Henry Schein Dental about**
 20 **Dental Gator?**
 21 A. Yes.
 22 **Q. What were those concerns?**
 23 A. That their initial setup focused primarily on
 24 saving the customer pricing and did not -- did not
 25 include all the other value-added services that they

194

1 had to offer initially.
 2 **Q. Were there -- when you say "initially," what**
 3 **do you mean?**
 4 A. When they -- Dental Gator was brand-new to
 5 them, to MB2. It was their first foray into the buying
 6 group environment. And so when they started out, the
 7 way they advertised themselves showed that they focused
 8 basically on just saving you a dime on your supplies
 9 and nothing more.
 10 **Q. Did that change?**
 11 A. Yes.
 12 **Q. When did that change?**
 13 A. We had -- I believe Andrea Hight met with them
 14 subsequently to this and sat down with them and helped
 15 them develop the marketing materials that were about
 16 what their program included, including other Schein
 17 value-adds like our software, like our services, like
 18 our equipment. We actually created a -- helped them
 19 create a brochure.
 20 **Q. Did Dental Gator ask Ms. Hight to meet with**
 21 **them?**
 22 A. I believe it was the reverse.
 23 **Q. Ms. Hight wanted to meet with Dental Gator?**
 24 A. Yes. It was her account.
 25 **Q. Were there any other concerns that HSD had**

195

1 **with respect to Dental Gator?**
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: Not that I'm aware of.
 4 BY MR. SOLOMON:
 5 **Q. Was there ever any conflict or disagreement**
 6 **between special markets and HSD as to whether Schein**
 7 **should work with or support Dental Gator?**
 8 MR. McDONALD: Object to the form.
 9 THE WITNESS: Initially, there were. Again,
 10 when they were focused -- when their literature focused
 11 exclusively on just pricing.
 12 BY MR. SOLOMON:
 13 **Q. What was the nature of that disagreement**
 14 **between special markets and HSD?**
 15 A. HSD did not like that they were leading into
 16 customers, saying "We can save you" -- I'm throwing a
 17 figure out -- "20 percent on your supplies if you join
 18 us." That's it. No other -- no other comments about
 19 what else -- what they also offered.
 20 **Q. What was special markets' position on that?**
 21 A. We -- we had to meet with Andrea and ask them
 22 to -- to lead with other -- to go ahead and say they
 23 can save the supplies but at the same time lead with
 24 other benefits and include these that we have to offer
 25 at Schein in addition to what you're offering these

196

1 customers.
 2 **Q. But initially, special markets had a**
 3 **disagreement with HSD; is that right?**
 4 A. Initially HSD was frustrated with -- was --
 5 had disagreements with how -- HSD fields sales
 6 consultants had an issue with how Dental Gator was
 7 presenting themselves in the market.
 8 **Q. And why did special markets disagree with HSD**
 9 **over that issue?**
 10 A. We -- at the initial point, we agreed with
 11 what their concern was with Dental Gator and then asked
 12 Dental Gator to change the way they're doing -- the way
 13 they're presenting themselves so that they could remain
 14 as a buying group, and they did.
 15 **Q. So what was the substance of the disagreement**
 16 **between special markets and HSD?**
 17 A. Again, that the FSCs were -- that they were
 18 leading solely with a price option to the dentists;
 19 "Hey, join us. We'll save you this." Nothing else is
 20 being said. For the most part, they wanted more to be
 21 said about what they have to offer to the customer so
 22 that the FSCs can help build that dental practice.
 23 **Q. Did special markets disagree that that was a**
 24 **problem?**
 25 A. No, we didn't disagree. We understood -- we

49 (Pages 193 to 196)

197

1 understood their concern, and we -- we asked MB2 to
 2 change the way they advertised their buying group.
 3 **Q. I'm just trying to specifically understand**
 4 **what the -- what the point of disagreement was. I'm**
 5 **hearing you say that HSD was -- disagreed with the way**
 6 **Dental Gator was conducting its business, but I'm not**
 7 **sure I understand what the nature of the disagreement**
 8 **was between HSD and special markets.**
 9 A. We controlled the account. Special markets
 10 controlled the account, so they were turning to us to
 11 correct the situation. It wasn't a disagreement
 12 between HSD and special markets. It was a request from
 13 HSD to address the situation with Dental Gator.
 14 **Q. Did special markets ever refuse to address the**
 15 **situation?**
 16 A. No.
 17 **Q. Okay. Do you recall whether Mr. Tim Sullivan**
 18 **ever expressed concern surrounding Dental Gator?**
 19 A. No.
 20 **Q. Do you recall whether Mr. Muller ever had any**
 21 **disagreements or differences of opinion with**
 22 **Mr. Sullivan surrounding Dental Gator?**
 23 A. No.
 24 **Q. Is it fair to say that Schein special markets**
 25 **wanted to keep the relationship with Dental Gator as-is**

198

1 **but that Henry Schein Dental did not?**
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: No.
 4 BY MR. SOLOMON:
 5 **Q. Why not?**
 6 A. We were in agreement with a buying -- with HSD
 7 that the buying group should lead in with all of its
 8 value-adds and not just price. We agreed with that, as
 9 we did with Smile Source and other buying groups. We
 10 wanted Dental Gator to follow that. They were
 11 brand-new to this segment. They were brand-new as to
 12 being a buying group.
 13 **Q. You never felt pressure to shut down Dental**
 14 **Gator?**
 15 A. No.
 16 **Q. Are you aware of any discussions to shut down**
 17 **Dental Gator?**
 18 A. No.
 19 MR. SOLOMON: I'm handing the witness
 20 Exhibit 297, which is a document Bates labeled Henry
 21 Schein 000090794. It's an e-mail chain. The
 22 last-in-time e-mail is October 21st, 2014, at 5:23 p.m.
 23 [Whereupon, Deposition Exhibit 297 was
 24 marked for identification.]
 25 THE WITNESS: Okay.

199

1 BY MR. SOLOMON:
 2 **Q. Mr. Foley, what is Exhibit 297?**
 3 A. It starts with Dental Gator going into the
 4 Cincinnati market and the regional manager questioning
 5 who is Dental Gator, and responses coming from within
 6 HSD that this is a new buying group. They say "GPO,"
 7 but buying group. And that the field is confused as
 8 they're not aware of this new buying group.
 9 **Q. At some point you're asked what Dental Gator**
 10 **is; is that right?**
 11 A. I am asked, but I'm not seeing where I answer
 12 that.
 13 **Q. Let's just take a look at the e-mail that**
 14 **spans the bottom of the second page to the top of the**
 15 **third page.**
 16 A. I'm sorry. Again.
 17 **Q. Sure. Let's take a look at the e-mail that**
 18 **spans the bottom of the second page and continues on to**
 19 **the third page, and it's an October 21, 2014 e-mail at**
 20 **2:57 p.m.**
 21 A. Okay.
 22 **Q. Do you see that?**
 23 A. Yes.
 24 **Q. Okay. So this is an e-mail from Joe Cavaretta**
 25 **to you, and Mr. Muller and Mr. Sullivan and Mr. Steck**

200

1 **are copied?**
 2 A. Okay.
 3 **Q. And the subject is Dental Gator. Turning your**
 4 **attention to the substance of the e-mail, Mr. Cavaretta**
 5 **writes: (Reading.)**
 6 **"During our last MM call we all agreed**
 7 **that we need to be aligned on a strategy**
 8 **with existing GPOs."**
 9 **Do you know what Mr. Cavaretta was referring**
 10 **to with respect to alignment on strategy?**
 11 A. No.
 12 **Q. Do you recall ever having discussions with HSD**
 13 **about aligning strategies with respect to GPOs?**
 14 A. I believe this is about -- yes. I'll answer
 15 yes.
 16 **Q. And what was the nature of those discussions?**
 17 A. Again, how -- how best serve the GPOs, whether
 18 they would be -- or buying groups, whether they'd be
 19 better in HSD or special markets, and then what -- what
 20 do we prefer the buying groups to offer to our end
 21 users.
 22 **Q. Mr. Muller -- turning to the next-in-time**
 23 **e-mail at 2:04 p.m., Mr. Muller responds. He says:**
 24 **(Reading.)**
 25 **I will Randy address, at the moment we**

50 (Pages 197 to 200)

201	<p>1 feel good at the point we are at with"</p> <p>2 staying -- "with them staying as they</p> <p>3 are."</p> <p>4 What do you understand Mr. Muller to be saying</p> <p>5 here?</p> <p>6 A. Yeah, I -- Hal is stating -- I believe he is</p> <p>7 stating that Dental Gator is staying along with MB2 the</p> <p>8 way it's set up.</p> <p>9 Q. Is it fair to say that special markets didn't</p> <p>10 see an issue with Dental Gator at the time of this</p> <p>11 e-mail?</p> <p>12 A. Yes.</p> <p>13 Q. Okay. Did you agree with Mr. Muller's</p> <p>14 position that Dental Gator should stay as they are?</p> <p>15 A. Yes.</p> <p>16 Q. Why?</p> <p>17 A. I believed in their model after we had</p> <p>18 adjusted them slightly to -- you know, to offer their</p> <p>19 products. And they had actually hired somebody at</p> <p>20 Dental Gator to help expand -- they actually hired one</p> <p>21 of our field sales consultants to help grow the Dental</p> <p>22 Gator, and I believed in their model to help acquire</p> <p>23 more practices and fall under the MB2 umbrella.</p> <p>24 Q. Did this position cause internal conflict</p> <p>25 between Henry Schein Dental and special markets?</p>	203	<p>1 Q. Did you and Mr. Muller have any internal</p> <p>2 discussions between yourselves as to how to handle this</p> <p>3 disagreement?</p> <p>4 A. I believe so.</p> <p>5 Q. And what did you come up with?</p> <p>6 A. Explaining to the -- making sure that they --</p> <p>7 that Andrea changed the way that they present their</p> <p>8 model and that we would just continue to do business</p> <p>9 with them and let the FSCs whine about it that it may</p> <p>10 affect.</p> <p>11 Q. Did that end the disagreement between HSD and</p> <p>12 special markets?</p> <p>13 A. I would say FSCs always whine about something.</p> <p>14 So I could say no to that, but it -- specifically</p> <p>15 talking about FSCs, not about HSD and special markets.</p> <p>16 Q. Are there any FSCs who are a part of this</p> <p>17 e-mail discussion between yourself, Mr. Cavaretta,</p> <p>18 Mr. Sullivan, Mr. Steck, and that's it?</p> <p>19 A. I'm not sure who is Scott Janczak is, what his</p> <p>20 title is. But I know that Butch Stenger is a regional</p> <p>21 manager. I'm not sure who Scott is. I'm sorry; I do</p> <p>22 know who Scott is. He's an inside sales rep.</p> <p>23 So no FSCs on here.</p> <p>24 Q. So fair to say that HSD leadership was</p> <p>25 concerned about Dental Gator?</p>
202	<p>1 MR. McDONALD: Object to the form.</p> <p>2 THE WITNESS: Yes, with the FSCs as evidenced</p> <p>3 in this e-mail.</p> <p>4 BY MR. SOLOMON:</p> <p>5 Q. What about with Mr. Sullivan?</p> <p>6 MR. McDONALD: Object to the form.</p> <p>7 THE WITNESS: No.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. How do you know that?</p> <p>10 A. When I read what he's saying, his facetious</p> <p>11 statement, "So also close down, Heartland Comfort."</p> <p>12 These are all large DSOs that we do business with,</p> <p>13 meaning that, hey, this is the way it is, and we're</p> <p>14 going to continue with this buying group as we are with</p> <p>15 all the big DSOs.</p> <p>16 Q. Mr. Cavaretta, was he a field sales</p> <p>17 consultant?</p> <p>18 A. No. He was a -- he was either a direct -- he</p> <p>19 was a director level, oversaw the -- I believe the</p> <p>20 western zone of the United States.</p> <p>21 Q. And per this e-mail, he was opposed to Dental</p> <p>22 Gator continuing as it was at this time?</p> <p>23 MR. McDONALD: Object to the form.</p> <p>24 THE WITNESS: Correct, yes.</p> <p>25 BY MR. SOLOMON:</p>	204	<p>1 MR. McDONALD: Object to the form.</p> <p>2 THE WITNESS: No.</p> <p>3 BY MR. SOLOMON:</p> <p>4 Q. Why not?</p> <p>5 A. I think they would go with whatever Hal and I</p> <p>6 had to say about how we set up the arrangement, and I</p> <p>7 think Tim Sullivan is basically agreeing with that. So</p> <p>8 just move on, guys. And Hal is, like, we're going to</p> <p>9 leave-this-as-it-is type -- the way it's currently set</p> <p>10 up.</p> <p>11 Q. So Mr. Sullivan was fine leaving it up to</p> <p>12 special markets?</p> <p>13 A. Yes.</p> <p>14 MR. SOLOMON: Handing the witness Exhibit 298,</p> <p>15 Bates labeled Henry Schein 000151639, an e-mail chain.</p> <p>16 The top last-in-time e-mail is January 18th, 2015, at</p> <p>17 1:15 p.m.</p> <p>18 [Whereupon, Deposition Exhibit 298 was</p> <p>19 marked for identification.]</p> <p>20 THE WITNESS: Okay.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. Mr. Foley, what is Exhibit 298?</p> <p>23 A. I'm not sure what it -- what it's talking</p> <p>24 about as far as infinite looper. It does not ring a</p> <p>25 bell. I'm somewhat confused. But the origination of</p>

205

1 this e-mail is from an FSC complaining about
 2 InfiniteLooper and/or Dental Gator. I don't know the
 3 relationship between the two.
 4 **Q. The subject of the e-mail refers to Dental**
 5 **Gator, right?**
 6 A. Well, it says "InfiniteLooper -- Discount
 7 Dental Supplies" and "Dental Gator." So I don't
 8 understand what InfiniteLooper and the connection with
 9 Dental Gator is.
 10 **Q. What do you understand the e-mail chain to be**
 11 **about?**
 12 A. That an FSC and some -- and a zone manager in
 13 that area are upset about Dental Gator getting into a
 14 particular account. If that's considered
 15 InfiniteLooper, I'm not sure.
 16 **Q. If you turn to the last page of this exhibit,**
 17 **there's a link and a website. The Web address is**
 18 **infiniteLooper.com.**
 19 **Do you see that?**
 20 A. Yes.
 21 **Q. Is it possible that InfiniteLooper refers to a**
 22 **website that mentions Dental Gator?**
 23 MR. McDONALD: Object to the form.
 24 If you know, but don't speculate.
 25 THE WITNESS: Yeah, I'm not sure.

206

1 BY MR. SOLOMON:
 2 **Q. Mr. Foley, does this e-mail -- or does**
 3 **Exhibit 298 reflect your recollection as to whether**
 4 **Mr. Tim Sullivan had a disagreement with special**
 5 **markets concerning Dental Gator?**
 6 A. I don't remember the e-mail, but I'm being --
 7 I can see that there is a disagreement here.
 8 **Q. Where do you see disagreement?**
 9 A. When he reprimands Hal not to disregard --
 10 underestimate the impact of Dental Gator and what it's
 11 having on the local sales teams.
 12 **Q. Do you know why Mr. Sullivan would be**
 13 **reprimanding Mr. Muller?**
 14 MR. McDONALD: Object to the form.
 15 THE WITNESS: Because Hal is saying, like,
 16 give it a rest, move on. He's showing that it's not
 17 important, that accept it and move on.
 18 BY MR. SOLOMON:
 19 **Q. And Mr. Sullivan disagreed with that?**
 20 MR. McDONALD: Object to the form. The
 21 document speaks for itself. If you know, tell him.
 22 THE WITNESS: No, I don't know.
 23 BY MR. SOLOMON:
 24 **Q. Do you recall any other instances of**
 25 **Mr. Sullivan reprimanding Mr. Muller?**

207

1 A. No.
 2 **Q. Were you surprised -- do you recall whether**
 3 **you were surprised to see that Mr. Sullivan was**
 4 **reprimanding Mr. Muller concerning Dental Gator?**
 5 A. Yes.
 6 **Q. Why?**
 7 A. I asked Hal, "So is Tim reprimanding you?"
 8 I'd never seen Tim respond to Hal that way.
 9 **Q. Did you think that was abnormal for**
 10 **Mr. Sullivan to respond that way?**
 11 A. I think that Hal can ruffle some feathers with
 12 people, but I was -- I was, again, you know, surprised
 13 that Tim was -- handed the report to Tim, so I was
 14 surprised that Tim was going directly to Hal Muller
 15 with an issue versus going to his manager -- Hal's
 16 manager or direct report.
 17 **Q. Turning to -- I'd like to take a look at your**
 18 **response, January 18th, 2015, 11:26 a.m.**
 19 A. Which page?
 20 **Q. Oh, the first page.**
 21 A. Thank you.
 22 **Q. Yup. So you refer to Tim reprimanding**
 23 **Mr. Muller. I see that there.**
 24 A. Umm-hmm.
 25 **Q. And then go on to talk about someone named KT.**

208

1 **Does that refer to Kathleen Titus?**
 2 A. Yes, it does.
 3 **Q. Stating that: (Reading.)**
 4 **"We need to take a closer look at the**
 5 **GPOs."**
 6 **Do you see that?**
 7 A. Yes.
 8 **Q. What do you -- what did you mean there?**
 9 A. That Kathleen -- that my interpretation of a
 10 call with Kathleen is that we really need to get more
 11 involved with buying groups that provide other services
 12 where we can stay involved. So she's moving into
 13 agreement that -- that GPOs are a good thing for HSD at
 14 the time, for Henry Schein as a whole.
 15 **Q. Were you surprised that she was telling you**
 16 **that?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: I think I was happy that she was
 19 telling me that.
 20 BY MR. SOLOMON:
 21 **Q. Was that a change in policy from Ms. Titus's**
 22 **previous positions?**
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: I would not say it was a change
 25 in policy. It was a change in opinion of Kathleen

52 (Pages 205 to 208)

209	211
<p>1 Titus. 2 BY MR. SOLOMON: 3 Q. You say: (Reading.) 4 "Totally confused and tired of the 5 Dental Gator thing." 6 What did you mean there? 7 A. I'm tired of the e-mails coming back and forth 8 from the FSCs complaining about Dental Gator, the 9 whining. 10 Q. In the last sentence, you write: (Reading.) 11 "...I thought HSD was bidding on the 12 Smile Source business???" 13 And then three question marks. 14 Why are you referring to Smile Source in an 15 e-mail about Dental Gator? 16 A. Because the people at HSD are complaining 17 about us working with Dental Gator, a buying group, yet 18 here they are, I heard, bidding on business with Smile 19 Source, a dental group. So I don't understand why with 20 us they're complaining when in fact they're trying to 21 grow the buying group segment themselves. So I was 22 wondering why they would even complain. 23 Q. So you thought those were inconsistent 24 positions? 25 A. Yes.</p>	<p>1 THE WITNESS: No, I'm not sure. 2 BY MR. SOLOMON: 3 Q. And who is Scott Janczak? 4 A. He's the inside sales rep attached to -- with 5 special markets attached to Dental Gator and B2. 6 Q. The subject of this e-mail is Dr. Ronald 7 Wilson, Greenville Smiles. 8 Do you see that? 9 A. Yes. 10 Q. What is Greenville Smiles? 11 A. It's the name of their dental practice. 12 Q. Whose dental practice? 13 A. Dr. Wilson's, I believe. 14 Q. Do you recall whether it was a private 15 practice? 16 A. Yes. 17 Q. Okay. Turning to Mr. Russ Baker's e-mail on 18 the second page at 9:41 a.m., starting with: (Reading.) 19 "Scott, let me bring Kathleen, Andrea 20 and Jason into this conversation." 21 Do you see that paragraph I'm referring to? 22 A. I do. 23 Q. The last sentence, Mr. Baker writes: 24 (Reading.) 25 "It is my understanding that this</p>
<p>1 MR. SOLOMON: Let's see. How long have we 2 been going now, about an hour now? Do you want to take 3 another break? 4 MR. McDONALD: Sure. 5 MR. SOLOMON: Okay. 6 (Brief recess.) 7 MR. SOLOMON: I'm handing the witness 8 Exhibit 299, which is a document Bates labeled Henry 9 Schein 000151381, an e-mail. The last-in-time e-mail 10 is October 9th, 2015, at 9:50 a.m. 11 [Whereupon, Deposition Exhibit 299 was 12 marked for identification.] 13 THE WITNESS: Okay. 14 BY MR. SOLOMON: 15 Q. Mr. Foley, what is Exhibit 299? 16 A. It's another situation with an FSC and a 17 region manager upset that one of their customers is 18 moving to Dental Gator. 19 Q. Do you recall this series of e-mails? 20 A. Yes. 21 Q. Turning your attention to the second page of 22 the e-mail chain. Who is Russ Baker? 23 A. I believe he's a -- 24 MR. McDONALD: Well, if you know tell him, but 25 don't guess.</p>	<p>1 violates our policy as we do not engage 2 with GPOs. If I'm wrong, please 3 enlighten me." 4 Do you know what policy Mr. Baker was 5 referring to? 6 A. No. 7 Q. Were you surprised to read Mr. Baker's e-mail 8 referring to a policy not to engage in GPOs? 9 MR. McDONALD: Object to the form. 10 THE WITNESS: Yes. 11 BY MR. SOLOMON: 12 Q. Why? 13 A. Because, again, this is where the local 14 team -- the local regional teams are not that involved 15 with the buying groups. In this particular situation, 16 he's based out of the Greenville, North Carolina, South 17 Carolina area, and this is their first foray of this 18 group into that area. So he would be unaware of any 19 policy that we don't engage in GPOs. 20 Q. So did you think that Mr. Baker was wrong 21 about a policy not to engage in GPOs? 22 A. Yes. 23 Q. Do you know where he might have learned about 24 such a policy? 25 A. No.</p>

213

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: Sorry.
 3 BY MR. SOLOMON:
 4 **Q. Did you ask him at any point what he was**
 5 **talking about?**
 6 A. No.
 7 **Q. Why not?**
 8 A. I wasn't concerned. Again, this was just
 9 another issue with Dental Gator that -- and Andrea was
 10 responding to it, saying, hey, this is more -- this is
 11 more -- it's a bit more tricky than a GPO, maybe
 12 assuming what he's thinking it is, and she would handle
 13 it.
 14 **Q. Turning to the first page, the e-mail from**
 15 **Mr. Baker on the first page, in the second sentence, he**
 16 **refers to an MSO: (Reading.)**
 17 "They are attempting to make this look
 18 like a MSO."
 19 Do you see that?
 20 A. Yes.
 21 **Q. What is Mr. Baker referring to with respect to**
 22 **an MSO?**
 23 A. A management service organization.
 24 **Q. What is that?**
 25 A. Where -- it would be almost an acronym to DSO,

214

1 dental service organization.
 2 **Q. Are the two the same thing?**
 3 A. I don't refer -- we don't use "MSO."
 4 Typically we refer to everyone as a DSO.
 5 **Q. Do the terms mean the same thing?**
 6 A. I'm not sure what Scott -- well, I'm sorry.
 7 I'm not sure what Russ is referring to when he says
 8 "MSO." I assume he's referring to a DSO.
 9 MR. SOLOMON: I'm handing the witness a
 10 previously marked exhibit, 286.
 11 [Whereupon, Exhibit 286 was referenced.]
 12 THE WITNESS: Whoops. Sorry. Okay.
 13 BY MR. SOLOMON:
 14 **Q. Mr. Foley, have you seen Exhibit 286 before?**
 15 A. No.
 16 **Q. I will represent to you that this is something**
 17 **that the FTC received from your counsel and these are**
 18 **responses from Henry Schein to civil investigative**
 19 **demands that were served. I'd like to direct your**
 20 **attention to the fourth page of this document, the one**
 21 **before the last -- the page before the last. There you**
 22 **go.**
 23 **The top of the page says: (Reading.)**
 24 **"Supplemental Response to Specification**
 25 **No. 5."**

215

1 **Do you see that?**
 2 A. Yes.
 3 **Q. And then it says: (Reading.)**
 4 **"Schein currently has or had a business**
 5 **relationship with the following buying**
 6 **groups."**
 7 **And there is a chart with a list of buying**
 8 **groups, and the second column includes information**
 9 **regarding dates of relationship.**
 10 **I'd just like to walk through each of these**
 11 **entities with you and ask you a few questions about,**
 12 **you know, what these entities are and whether or not**
 13 **they're a buying group of CHCs or private practice**
 14 **dentists. And you can just tell me what you know.**
 15 A. Okay.
 16 **Q. I'd like to start with the first group here,**
 17 **Advantage Dental Group.**
 18 **Are you familiar with that entity?**
 19 A. Yes.
 20 **Q. What is it?**
 21 A. It's a buying group under HSD.
 22 **Q. What kind of buying group is it?**
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: A standard buying group, you
 25 know, offering reduced supplies and other services to

216

1 -- oh, I'm sorry -- to general dentists.
 2 BY MR. SOLOMON:
 3 **Q. So its members are private practice dentists?**
 4 A. Yes.
 5 **Q. Do you know whether it is a buying group**
 6 **component of a dental service organization?**
 7 A. Yes.
 8 **Q. It is?**
 9 A. Yes.
 10 **Q. And how do you know -- how do you know about**
 11 **Advantage Dental Group?**
 12 A. Advantage Dental was one of our elite dental
 13 service organizations similar to MB2 Dental. And they
 14 had a buying group component to them called Advantage
 15 Dental, but that fell under HSD, completely separate
 16 from the DSO, unlike Dental Gator and MB2.
 17 **Q. The next entity is called Arizona Association**
 18 **of Community Health Centers.**
 19 **Are you familiar with that entity?**
 20 A. No.
 21 **Q. Have you ever heard of it?**
 22 A. No.
 23 **Q. So you're not familiar with whether it's a**
 24 **buying group or GPO?**
 25 A. No.

54 (Pages 213 to 216)

217	<p>1 Q. Turning to the third name, Breakaway Practice, are you familiar with that entity?</p> <p>2 A. Yes.</p> <p>3 Q. What is Breakaway Practice?</p> <p>4 A. It's a -- it's a buying group for private</p> <p>5 practices.</p> <p>6 Q. Okay. And do you know whether Breakaway -- the Breakaway buying group is a buying group component of a DSO?</p> <p>7 A. Yes.</p> <p>8 Q. It is?</p> <p>9 A. Yes.</p> <p>10 Q. And how do you know that?</p> <p>11 A. I know that Dr. LeJeune owns about eight</p> <p>12 practices that are a DSO component, and Breakaway,</p> <p>13 which is much larger, is the buying group component of</p> <p>14 them under -- and it now falls under mid market.</p> <p>15 Q. It says here that the relationship spanned from June 2016 to the present. Do you see that?</p> <p>16 A. Yes.</p> <p>17 Q. Did Henry Schein have a relationship with Breakaway prior to June 2016?</p> <p>18 A. Yes, I -- yes.</p> <p>19 Q. What was the nature of that relationship?</p>	219	<p>1 Q. Did that entity fall under special markets or HSD?</p> <p>2 A. Special markets and moved to mid market during</p> <p>3 the -- is now under mid market.</p> <p>4 Q. Did you ever interact with this entity?</p> <p>5 A. Not me specifically.</p> <p>6 Q. Okay. How do you know it's a buying group?</p> <p>7 A. They -- it was under Daniel Hobson, who</p> <p>8 reports to me.</p> <p>9 Q. The next entity, Commonwealth Purchasing Group, which I think we discussed earlier today?</p> <p>10 A. Community health centers.</p> <p>11 Q. And Commonwealth was a customer of special markets originally?</p> <p>12 A. Yes.</p> <p>13 Q. Was --</p> <p>14 A. And but --</p> <p>15 Q. You can go ahead.</p> <p>16 A. Yes, and then part of mid market now.</p> <p>17 Q. The next entity, Corydon Palmer Dental Society Group, are you familiar with that entity?</p> <p>18 A. No.</p> <p>19 Q. So do you know whether or not it's a buying group?</p> <p>20 A. No.</p>
218	<p>1 A. I don't understand the June 2016 date.</p> <p>2 Breakaway was formed in 2009 or 2010, to my knowledge.</p> <p>3 Q. So do you think that that date is not accurate?</p> <p>4 A. Yes, I think that's an error.</p> <p>5 Q. Is it possible that the relationship with Breakaway in 2009 or 2010 was only with the DSO?</p> <p>6 A. No. There were -- they did have the -- the</p> <p>7 name itself, Breakaway, is designed to go after private</p> <p>8 practices, to break away from a DSO.</p> <p>9 Q. Did Breakaway originate in special markets?</p> <p>10 A. Yes.</p> <p>11 Q. How about Advantage Dental Group?</p> <p>12 A. No. Sorry. The buying group component did</p> <p>13 not originate in special markets.</p> <p>14 Q. Okay. Turning to the next entity, Colorado Community Health Network, are you familiar with that entity?</p> <p>15 A. Yes.</p> <p>16 Q. What is it?</p> <p>17 A. It relates to community health centers in the</p> <p>18 state of Colorado, buying group.</p> <p>19 Q. All of its members are community health centers?</p> <p>20 A. Yes.</p>	220	<p>1 Q. The next one, Council Connections, are you familiar with that entity?</p> <p>2 A. Yes.</p> <p>3 Q. What is it?</p> <p>4 A. It's a buying group for community health</p> <p>5 centers based out of California.</p> <p>6 Q. And that was at one point in special markets, and then it moved to HSD?</p> <p>7 A. No. I -- it was -- yes, we moved to mid</p> <p>8 market. Okay.</p> <p>9 Q. The next one is Dental Gator, which we've spoken about at length today. Obviously, you're familiar with it; is that right?</p> <p>10 A. Yes.</p> <p>11 Q. And that is a buying group component of MB2?</p> <p>12 A. Correct.</p> <p>13 Q. The next one is DPGA, Dental Partners of Georgia. Are you familiar with that entity?</p> <p>14 A. Yes.</p> <p>15 Q. What is it?</p> <p>16 A. It's a buying group that focuses on small</p> <p>17 group practices.</p> <p>18 Q. So it's a buying group composed of private practices?</p>

221	223
<p>1 A. Yes.</p> <p>2 Q. Actually, let me just be clear. You said</p> <p>3 "small group practices."</p> <p>4 A. Their members happen to be, like, four or five</p> <p>5 sites, private dentist that focus on Medicaid, pedo</p> <p>6 Medicaid. And they have about five customers with</p> <p>7 about five sites each.</p> <p>8 Q. So its individual members are small group</p> <p>9 practices?</p> <p>10 A. Correct.</p> <p>11 Q. Did Dental Partners of Georgia fall under</p> <p>12 special markets?</p> <p>13 A. Yes.</p> <p>14 Q. Was it later moved to mid market?</p> <p>15 A. No.</p> <p>16 Q. Did you work with this particular entity while</p> <p>17 you were at special markets?</p> <p>18 A. Yes.</p> <p>19 Q. In what capacity?</p> <p>20 A. My SAM, Becky Demers, was responsible for the</p> <p>21 account, and I would be engaged in it when needed. And</p> <p>22 I would meet -- I met with a couple of other members</p> <p>23 face-to-face.</p> <p>24 Q. The next entity is called Huntington Dentists</p> <p>25 Group. Are you familiar with that entity?</p>	<p>1 composed of private practices?</p> <p>2 A. Yes.</p> <p>3 Q. Did Intermountain Dental belong to special</p> <p>4 markets?</p> <p>5 A. Yes.</p> <p>6 Q. Was it later moved to mid market?</p> <p>7 A. No.</p> <p>8 Q. The next one is KlearImpakt. Are you familiar</p> <p>9 with that entity?</p> <p>10 A. Only from today's e-mail that I saw, but no in</p> <p>11 general.</p> <p>12 Q. So you're not sure whether or not it's a</p> <p>13 buying group?</p> <p>14 A. Correct.</p> <p>15 Q. The next one, Long Island Dental Forum, are</p> <p>16 you familiar with that entity?</p> <p>17 A. No.</p> <p>18 Q. You're not sure whether or not that is a</p> <p>19 buying group?</p> <p>20 A. I don't know.</p> <p>21 Q. Louisiana Primary Care Association, are you</p> <p>22 familiar with that?</p> <p>23 A. Yes.</p> <p>24 Q. What is it?</p> <p>25 A. It's a buying group for community health</p>
<p>1 A. No.</p> <p>2 Q. Next one is Illinois Primary Healthcare</p> <p>3 Association. Are you familiar with that entity?</p> <p>4 A. Yes.</p> <p>5 Q. What is it?</p> <p>6 A. Community health centers in the state of</p> <p>7 Illinois.</p> <p>8 Q. Okay. Was that a customer of special markets</p> <p>9 originally?</p> <p>10 A. Yes.</p> <p>11 Q. Later moved to mid market?</p> <p>12 A. Correct.</p> <p>13 Q. Next one is called IDA. Are you familiar with</p> <p>14 that entity?</p> <p>15 A. Yes. That's Intermountain Dental Associates</p> <p>16 we discussed earlier.</p> <p>17 Q. That is --</p> <p>18 A. Go ahead.</p> <p>19 Q. I'm sorry. You go ahead.</p> <p>20 MR. McDONALD: Well, why don't you ask him a</p> <p>21 question so it's clear.</p> <p>22 BY MR. SOLOMON:</p> <p>23 Q. Were you going to say something else or --</p> <p>24 A. No.</p> <p>25 Q. Is Intermountain Dental a buying group</p>	<p>1 centers in the state of Louisiana.</p> <p>2 Q. Was that a special markets customer?</p> <p>3 A. Yes.</p> <p>4 Q. Was it later moved to mid market?</p> <p>5 A. Yes.</p> <p>6 Q. OrthoSynthetics (sic), which I believe we've</p> <p>7 also discussed today, you're familiar with that entity,</p> <p>8 right?</p> <p>9 A. Yes.</p> <p>10 Q. That is a buying group composed of</p> <p>11 orthodontists?</p> <p>12 A. Private dentists/orthodontists.</p> <p>13 Q. And OrthoSynthetics fell under special</p> <p>14 markets?</p> <p>15 A. Yes.</p> <p>16 Q. And it remained with special markets during</p> <p>17 your tenure there?</p> <p>18 A. Yes.</p> <p>19 Q. The next one is called Quatrius. Are you</p> <p>20 familiar with that entity?</p> <p>21 A. No.</p> <p>22 Q. You don't know whether it's a buying group?</p> <p>23 A. Correct.</p> <p>24 Q. Texas Association of Community Health, are you</p> <p>25 familiar with that entity?</p>

225	<p>1 A. Yes.</p> <p>2 Q. What is it?</p> <p>3 A. It's -- it's a buying group for community</p> <p>4 health centers mainly in Texas, but it is nationwide.</p> <p>5 Q. Did that at one time fall under special</p> <p>6 markets?</p> <p>7 A. Yes.</p> <p>8 Q. And it was later transferred to mid market?</p> <p>9 A. Correct.</p> <p>10 Q. Tralongo is the next entity here. Are you</p> <p>11 familiar with Tralongo?</p> <p>12 A. Yes.</p> <p>13 Q. What is Tralongo?</p> <p>14 A. It's a buying group for private dentists.</p> <p>15 Q. Was Tralongo a customer of special markets?</p> <p>16 A. For a -- for equipment and service. We were</p> <p>17 bidding on trying to win their business on the</p> <p>18 merchandise side when I was with them.</p> <p>19 Q. Do you know whether Tralongo had any</p> <p>20 relationship with Henry Schein Dental?</p> <p>21 MR. McDONALD: Object to the form.</p> <p>22 THE WITNESS: Yes, yes in that when they</p> <p>23 bought equipment, that would go through our Henry</p> <p>24 Schein Dental division at special market pricing.</p> <p>25 BY MR. SOLOMON:</p>	227	<p>1 A. Yes.</p> <p>2 Q. Did Tralongo originate in special markets?</p> <p>3 A. Yes.</p> <p>4 Q. Was it later moved to HSD?</p> <p>5 A. No.</p> <p>6 Q. Okay.</p> <p>7 A. Not during my tenure. Okay.</p> <p>8 Q. Thank you.</p> <p>9 Smile Source, we've also talked about at</p> <p>10 length today, that is a buying group composed of</p> <p>11 private practice dentists; is that right?</p> <p>12 A. Yes.</p> <p>13 Q. Okay. And it says here that the relationship</p> <p>14 was from 2004 to 2006.</p> <p>15 Would you agree with that?</p> <p>16 A. No.</p> <p>17 Q. Why not?</p> <p>18 A. I know that they were a customer when I</p> <p>19 started in 2009 and 2010.</p> <p>20 Q. Okay.</p> <p>21 A. I'm unaware of the start date.</p> <p>22 Q. Star County Dental Society Group, are you</p> <p>23 familiar with that?</p> <p>24 A. No.</p> <p>25 Q. You don't know whether that's a buying group,</p>
226	<p>1 Q. So was -- you said you were bidding on trying</p> <p>2 to win the Tralongo business while you were at Henry</p> <p>3 Schein Special Markets.</p> <p>4 Did Henry Schein Special Markets, in fact, win</p> <p>5 the business?</p> <p>6 A. At the time that I had left, no.</p> <p>7 Q. You were still at Henry Schein Special Markets</p> <p>8 in November 2015, right?</p> <p>9 A. Yes.</p> <p>10 Q. So it says here that the relationship began in</p> <p>11 November 2015. Does that seem inaccurate to you?</p> <p>12 MR. McDONALD: Object to the form.</p> <p>13 THE WITNESS: No.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. Why not?</p> <p>16 A. Because we sold -- they had a relationship</p> <p>17 with us on the -- on the service and on the equipment</p> <p>18 side. So they were a customer in that respect.</p> <p>19 Q. So special markets was trying to win business</p> <p>20 with respect to -- additional business with respect to</p> <p>21 merchandise?</p> <p>22 A. Yes.</p> <p>23 Q. Okay. So as of 2015, the relationship between</p> <p>24 Schein and Tralongo was only focused on equipment and</p> <p>25 service?</p>	228	<p>1 right?</p> <p>2 A. Don't know.</p> <p>3 Q. Steadfast Medical, we've discussed. What is</p> <p>4 Steadfast Medical?</p> <p>5 A. It was a buying group focused on oral</p> <p>6 surgeons.</p> <p>7 Q. Did Steadfast Medical originate in special</p> <p>8 markets?</p> <p>9 A. Yes.</p> <p>10 Q. And it was later moved to HSD, or was it later</p> <p>11 moved to HSD?</p> <p>12 A. I am unaware. I don't know where it went.</p> <p>13 Q. Okay. The next one is Washington Association</p> <p>14 of Community and Migrant Farm Workers.</p> <p>15 Are you familiar with that entity?</p> <p>16 A. Yes.</p> <p>17 Q. What is it?</p> <p>18 A. It's a buying group for the State of</p> <p>19 Washington for community health groups and migrant farm</p> <p>20 workers association.</p> <p>21 Q. Was -- did that entity originate in special</p> <p>22 markets?</p> <p>23 A. Yes.</p> <p>24 Q. Was it later moved to HSD?</p> <p>25 A. Yes, and mid market.</p>

229

1 **Q. Are you aware of any other buying groups that**
 2 **Schein has worked with that are not listed in this**
 3 **chart?**
 4 A. No.
 5 MR. SOLOMON: All right. I actually don't
 6 have very much more to go through today. I just want
 7 to spend five minutes regrouping, see if there's
 8 anything else I'd like to ask Mr. Foley, and then we
 9 can likely finish.
 10 MR. McDONALD: Okay.
 11 (Brief recess.)
 12 MR. SOLOMON: Back on record at 4:01 p.m.
 13 I'd like to take a look at Exhibit 270 one
 14 more time.
 15 (Off the record discussion.)
 16 BY MR. SOLOMON:
 17 **Q. Mr. Foley, just the first page of Exhibit 272,**
 18 **referring to your -- your e-mail. Let's take a look at**
 19 **the second paragraph beginning with "the issue here is**
 20 **that."**
 21 **Do you see where I'm pointing you to?**
 22 A. Yes, uh-huh.
 23 **Q. You say: (Reading.)**
 24 **"When existing Schein customers enroll,**
 25 **it simply erodes margins. When the BG**

230

1 **markets their reduced spend, existing**
 2 **customers come to Schein and say I**
 3 **don't want to join the group, but I want**
 4 **their pricing..."**
 5 **And then in parenthesis, you write: (Reading.)**
 6 **"...(per Tim Sullivan)."**
 7 **Do you see that?**
 8 A. Yes.
 9 **Q. What were you referring to by "per Tim**
 10 **Sullivan"?**
 11 A. Tim Sullivan once mentioned to me that when a
 12 buying group just based on price is set up, and let's
 13 say they put a booth at a trade show, that a customer
 14 will come up and say, "I really don't want to join that
 15 group. I just want their pricing." He once made a
 16 comment to me about that.
 17 **Q. Did he think that was a bad thing?**
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: No. Not sure.
 20 BY MR. SOLOMON:
 21 **Q. Did he state that that was a reason why Henry**
 22 **Schein Dental shouldn't work with GPOs or buying**
 23 **groups?**
 24 MR. McDONALD: Object to the form.
 25 THE WITNESS: I'm not sure.

231

1 BY MR. SOLOMON:
 2 **Q. Do you recall anything else about the**
 3 **conversation with Mr. Sullivan?**
 4 A. No.
 5 **Q. Do you recall why Mr. Sullivan told you that**
 6 **information?**
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: Only that we may have been on a
 9 conversation about buying groups.
 10 BY MR. SOLOMON:
 11 **Q. What else was discussed during that**
 12 **conversation?**
 13 A. Do not remember.
 14 **Q. Do you recall who else was a part of that**
 15 **conversation?**
 16 A. No.
 17 **Q. Has Mr. Sullivan ever mentioned anything else**
 18 **negative with respect to GPOs or buying groups apart**
 19 **from what's written here?**
 20 A. No.
 21 **Q. Have you heard others within HSD expressing**
 22 **the same sentiment with respect to buying groups or**
 23 **GPOs as Mr. Sullivan is here in Exhibit 272?**
 24 A. No.
 25 **Q. Are you familiar with -- strike that.**

232

1 **Do you know why Henry Schein Dental would want**
 2 **to work with buying groups or GPOs?**
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: Yes.
 5 BY MR. SOLOMON:
 6 **Q. Why?**
 7 A. That they're expanding in scope and function
 8 and meaning in the dental industry. So we set up a
 9 separate -- I mean, a team to help focus on that
 10 particular segment which we didn't have before.
 11 **Q. What are Henry Schein Dental's incentives to**
 12 **work with GPOs or buying groups?**
 13 MR. McDONALD: Object to the form; lack of
 14 foundation.
 15 THE WITNESS: I'm not exactly sure of the --
 16 the -- the potential of working with them, the dollar
 17 potential.
 18 BY MR. SOLOMON:
 19 **Q. What do you mean by that?**
 20 A. I'm not sure of what percent of market share
 21 they would be and how -- you know, how -- if -- you
 22 know, what the goal is of our HSD division in working
 23 with buying groups if there's a projection out there.
 24 **Q. Do you know how buying groups or GPOs could be**
 25 **beneficial to Henry Schein Dental business?**

58 (Pages 229 to 232)

233	<p>1 MR. McDONALD: Object to the form; lack of 2 foundation. 3 THE WITNESS: Yes. It would bring in more 4 customers -- they could bring in more customers. And 5 as I stated earlier, we have found that when a customer 6 is associated with good buying groups, our retention 7 rate of keeping that customer buying from Schein is 8 higher than just a customer out on their own. 9 BY MR. SOLOMON: 10 Q. Where would those new customers come from? 11 A. From the marketplace in general or from other 12 distributors -- by doing business with other 13 distributors. 14 Q. Could buying groups or GPOs affect Henry 15 Schein Dental's existing customers? 16 MR. McDONALD: Object to the form; lack of 17 foundation. 18 THE WITNESS: Yes. 19 BY MR. SOLOMON: 20 Q. How so? 21 A. Only -- 22 MR. McDONALD: Object to the form. 23 THE WITNESS: -- perhaps in reduced -- reduced 24 pricing. 25 BY MR. SOLOMON:</p>	235	<p>1 A. Yes. 2 MR. SOLOMON: Okay. I don't think I have any 3 further questions here. 4 Lynn, do you have anything? Thank you. 5 BY MR. SOLOMON: 6 Q. Mr. Foley, before we finish up here today, I 7 just had a couple of questions surrounding CHCs. We 8 talked about them at length today. I just want to 9 understand a little bit more about how they operate. 10 Do you know whether most CHCs are a part of a 11 buying group or a GPO? 12 MR. McDONALD: Object to the form. 13 THE WITNESS: Not the majority of them. 14 BY MR. SOLOMON: 15 Q. Do you know what percentage of CHCs are a part 16 of a GPO or buying group? 17 A. In -- in the -- in our segment, they 18 represented 33 -- about a third of our revenue and 19 supplies, CHCs that were part of a buying group. 20 MR. SOLOMON: Okay. I don't think I have any 21 further questions on that. So I think we can finish 22 up. 23 MR. McDONALD: I just have a clarifying 24 question. Are you done? 25 MR. SOLOMON: I'm finished.</p>
234	<p>1 Q. Would that result in eroded margins? 2 MR. McDONALD: Object to the form. 3 THE WITNESS: Depends if the customer could 4 buy more from Schein being more focused with the buying 5 group to override any loss in margin, you know, higher 6 volume to compensate for reduced pricing in margin. 7 BY MR. SOLOMON: 8 Q. Do you know whether it could also result in 9 eroded margins? 10 MR. McDONALD: Object to the form. 11 THE WITNESS: Only because of lower pricing. 12 BY MR. SOLOMON: 13 Q. Do you know whether Mr. Sullivan's concern 14 about eroded margins with respect to private practice 15 dentists is still a -- or was a concern for Henry 16 Schein Dental when you left? 17 A. No. 18 Q. How do you know? 19 A. Because we were actually adding more buying 20 groups at the time when I was leaving in the HSD 21 division. 22 Q. HSD was adding more buying groups at the time 23 you were leaving? 24 A. Correct. 25 Q. In 2016?</p>	236	<p>1 MR. McDONALD: Okay. 2 EXAMINATION 3 MR. McDONALD: Mr. Foley, today when you 4 referred to GPOs, did you mean to also -- did you mean 5 to refer to buying groups? 6 A. Yes. 7 Q. When you refer to GPOs, were you referring to 8 anything other than a buying group? 9 A. No. 10 MR. McDONALD: That's all the questions I 11 have. 12 MR. SOLOMON: Yeah, let's take a quick break. 13 MR. McDONALD: Really? 14 MR. SOLOMON: I might have a follow-up 15 question to that because I'm a little confused as to, 16 like, the distinctions between buying groups and GPOs. 17 And I just want to look back at his prior testimony 18 before we finish up. So shouldn't take too long. 19 (Off the record discussion.) 20 FURTHER EXAMINATION 21 BY MR. SOLOMON: 22 Q. Mr. Foley, have you referred to buying groups 23 and GPOs interchangeably at any point during your time 24 at special markets? 25 A. Yes.</p>

237

239

1 **Q. Why is that?**
 2 A. I consider a -- people use the term "GPO" like
 3 Council Connections, and other ones, they call
 4 themselves a GPO when in fact they re a buying group.
 5 So I consider them the same entity.
 6 **Q. And you've used the terms interchangeably?**
 7 A. It's confusing but, yes, I consider a buying
 8 group -- a GPO is really a buying group on the dental
 9 side.
 10 **Q. Okay. I don't think --**
 11 A. I'm sorry. I refer to it always as a buying
 12 group. Others call them GPO. I clarify that it's a
 13 buying group.
 14 **Q. Well, you've referred to some of the entities**
 15 **today as GPO/buying groups, right?**
 16 A. I consider that a buying group, correct.
 17 **Q. But you have used the terms interchangeably in**
 18 **your e-mails?**
 19 A. Correct.
 20 MR. SOLOMON: Thank you. No further
 21 questions.
 22 MR. McDONALD: Thanks.
 23 THE REPORTER: And, Mr. McDonald, you would
 24 like a copy of the transcript?
 25 MR. McDONALD: Yes, but not a rough.

1 CERTIFICATE OF REPORTER
 2
 3 I, SHAARON M. SHIGIO, a Certified Shorthand
 4 Reporter, hereby certify that the witness in the
 5 foregoing deposition was by me duly sworn to tell the
 6 truth, the whole truth and nothing but the truth in the
 7 within-entitled cause;
 8 That said deposition was taken down in shorthand
 9 by me, a disinterested person, at the time and place
 10 therein stated, and that the testimony of the said
 11 witness was thereafter reduced to typewriting, by
 12 computer, under my direction and supervision;
 13 That before completion of the deposition, review
 14 of the transcript {X} was { } was not requested. If
 15 requested, any changes made by the deponent (and
 16 provided to the reporter) during that period allowed
 17 are appended hereto.
 18 I further certify that I am not of counsel or
 19 attorney for either or any of the parties to the said
 20 deposition, nor in any way interested in the events of
 21 this cause, and that I am not related to any of the
 22 parties thereto.
 23 DATED:
 24
 25 Shaaron M. Shigio, CSR #12286

With me</p> <p>7 this morning is my colleague, Karen Goff, who is also</p> <p>8 an attorney with the Federal Trade Commission.</p> <p>9 This investigational hearing is being</p> <p>10 conducted as part of the Commission's investigation of</p> <p>11 Henry Schein in Matter No. 1510190.</p> <p>12 For the record would counsel please state</p> <p>13 their appearance.</p> <p>14 MR. McDONALD: John McDonald.</p> <p>15 DAVID A. STECK,</p> <p>16 called as a witness herein, having been first duly</p> <p>17 sworn was examined and testified as follows:</p> <p>18 EXAMINATION</p> <p>19 BY MR. SOLOMON:</p> <p>20 Q. Mr. Rogan, you are appearing today</p> <p>21 pursuant to a subpoena issued by the Federal Trade</p> <p>22 Commission, is that correct?</p> <p>23 A. My name is not Mr. Rogan.</p> <p>24 Q. I am sorry. Mr. Steck.</p> <p>25 A. Yes.</p>	<p>1 Q. Mr. Steck, I understand you have given</p> <p>2 sworn testimony before, is that correct?</p> <p>3 A. It is true, yes.</p> <p>4 Q. So you probably understand how this</p> <p>5 works, but I just want to go over a few ground rules</p> <p>6 just for the record.</p> <p>7 First, we need to make sure not to</p> <p>8 interrupt each other and to provide clearly verbal</p> <p>9 answers so no head nods, no gestures or anything like</p> <p>10 that, okay?</p> <p>11 A. Yes.</p> <p>12 Q. Secondly, I will do my best to ask you</p> <p>13 clear questions, but if something I ask you is not</p> <p>14 clear or you don't understand, feel free to let me</p> <p>15 know and I will do my best to rephrase it, okay?</p> <p>16 A. Okay.</p> <p>17 Q. We will take breaks today throughout the</p> <p>18 day. If for any reason you feel you need a break,</p> <p>19 just let me know and we can go ahead and take a break</p> <p>20 as long as there is no question pending. And</p> <p>21 obviously if you need to confer with your counsel on</p> <p>22 privilege issues before you answer a question you can</p> <p>23 take a break for that reason, okay?</p> <p>24 A. Okay.</p> <p>25 Q. Mr. Steck, is there any reason why you</p>

9	<p>1 cannot provide complete and truthful testimony here 2 today? 3 A. No. 4 Q. How did you prepare for today's 5 testimony? 6 A. I met yesterday with another counsel and 7 talked to them about -- 8 MR. McDONALD: Do not reveal what you 9 talked about. 10 THE WITNESS: Right, okay. 11 BY MR. SOLOMON: 12 Q. So you said you met with counsel 13 yesterday? 14 A. Yes. 15 Q. And did you review any documents? 16 A. Yes. 17 Q. How many documents would you say you 18 reviewed? 19 A. I don't recall exactly. 20 Q. Mr. Steck, do you have a general sense of 21 what the FTC's investigation of Henry Schein Dental is 22 about? 23 A. I really don't. 24 Q. The purpose of today's hearing is for me 25 to get information from you and help us understand</p>	11	<p>1 Q. Mr. Steck, what is your highest level of 2 education? 3 A. Well, I attended MBA classes, 4 master's-level classes at San Diego State, but I 5 didn't finish my MBA. 6 Q. Do you have a bachelor's degree? 7 A. I do. 8 Q. Where is your degree from? 9 A. University of San Diego. 10 Q. When did you graduate? 11 A. 1979. 12 Q. You are currently employed by Henry 13 Schein Dental, is that correct? 14 A. Correct. 15 Q. And Henry Schein Dental is a distributor 16 of dental supplies, equipment, and a provider of 17 dental service, is that correct? 18 A. Yes. 19 Q. What is your current title at Henry 20 Schein Dental? 21 A. Vice president and general manager. 22 Q. And when did you start in that position? 23 A. I started in this position in January 24 of 2005. 25 Q. And prior to that what position did you</p>
10	<p>1 some of the facts so that the FTC can determine how to 2 proceed with this investigation in this case, do you 3 understand that? 4 A. Yes. 5 Q. So you said you don't have a general 6 sense of what the investigation is about. 7 A. No, I don't. 8 Q. Have you spoken with your counsel 9 generally about the nature of the investigation? 10 MR. McDONALD: And I don't want you to 11 reveal communications you had with counsel. 12 He has answered your question, Ronnie, 13 that he doesn't understand what the investigation is 14 about. And, I will be perfectly honest, I don't 15 either. 16 MR. SOLOMON: I just want to make sure 17 before we start he generally -- we know why we are 18 here today. 19 BY MR. SOLOMON: 20 Q. So you don't understand what the 21 investigation is about. I wanted to ask if you had 22 any personal views on the merits of the FTC's 23 investigation. 24 A. Well, since I don't really understand it, 25 no, I don't.</p>	12	<p>1 hold? 2 A. I was a zone general manager on the west 3 coast managing part of the United States. 4 Q. And what states were a part of your 5 region as west coast zone manager? 6 A. Southern California, Arizona, Hawaii, 7 Nevada, and Colorado. 8 Q. And where were you based when you were a 9 west coast zone manager? 10 A. San Diego. 11 Q. Prior to serving as a west coast zone 12 manager, what was your position at Henry Schein? 13 A. I was in charge of -- I was vice 14 president of marketing for Sullivan Dental Products. 15 Q. And when did you begin in that position? 16 A. That would have been '95, sometime in 17 '95. 18 Q. Did you hold any other positions at 19 Sullivan Dental? 20 A. That was -- yes, to answer your question, 21 yes. But titles were kind of fluid at Sullivan Dental 22 so you kind of changed a lot, but I went from 23 marketing into equipment and then after Sullivan was 24 purchased by Schein I served in an equipment capacity 25 for a while there, too, before I went to the zone</p>

13

1 position.

2 **Q. When you say you served in an equipment**
3 **capacity, what do you mean?**

4 A. I was vice president of the equipment
5 business in charge of the equipment business.

6 **Q. What were your duties and**
7 **responsibilities in that position?**

8 A. Pretty much working with the equipment
9 manufacturers that we represented at that time and,
10 you know, working with our sales team and trying to
11 grow equipment sales and pretty much anything that
12 involved that.

13 **Q. Did you ever serve as a sales rep at**
14 **Sullivan Dental?**

15 A. I have served as a sales rep, but not
16 with Sullivan Dental.

17 **Q. And how long were you a sales rep?**

18 A. Ten years.

19 **Q. When did you start in that role?**

20 A. Well, I started right after college, so
21 it would have been the fall of 1979 until about 1989,
22 and it was for a family business at the time. It was
23 in the dental business.

24 **Q. What was the name of that company?**

25 A. Coast Dental Supplies.

14

1 **Q. Coast Dental, did that later become a**
2 **part of Sullivan Dental?**

3 A. Yes.

4 **Q. So you have been in the dental business**
5 **for most of your life?**

6 A. Yes, a long time.

7 **Q. So in your current position as vice**
8 **president and general manager of Henry Schein Dental**
9 **what are your current duties and responsibilities?**

10 A. My primary responsibility is for the
11 sales group which consists of, you know, three
12 different types of salespeople that we have field
13 sales consultants, we have equipment specialists, and
14 we have technology specialists. And then there are
15 heads of each of those groups that I supervise, along
16 with sales -- we have a sales development individual
17 and also the middle market part of the business as
18 well.

19 **Q. How many people do you manage in that**
20 **role?**

21 A. I have right now nine direct reports.
22 But -- speaking direct or indirect?

23 **Q. Direct.**

24 A. Direct.

25 **Q. Are your direct reports all located at**

15

1 **the corporate headquarters or throughout the country**
2 **in the field?**

3 A. Most of them are where we are at in
4 Wisconsin, one is in New York, one is in Baltimore.

5 **Q. Can you name -- can you -- strike that.**
6 **Who are your direct reports?**

7 A. Joe Cavaretta, Jake Meadows, Don Hobbs,
8 John Cox, Brian Brady, Kevin Burniston, Mackenzie
9 Richter, is that eight?

10 **Q. I think that is less than eight.**

11 MR. McDONALD: It is seven.

12 THE WITNESS: Seven. Well, my assistant,
13 Tay Mitchell, she is one of my direct reports.

14 There is one in there I am forgetting.

15 Oh, Eric Nuss is in charge of our
16 business solutions.

17 BY MR. SOLOMON:

18 **Q. Who is Joe Cavaretta?**

19 A. Joe is vice president of sales for the
20 western half the United States.

21 **Q. How about Jake Meadows?**

22 A. He is the vice president of sales for the
23 eastern part of the United States.

24 **Q. And Brian Brady?**

25 A. He is the director of group practices.

16

1 **Q. And I am guessing one of the employees**
2 **you named would be the sales lead for the central part**
3 **of the United States?**

4 A. No, just east and west.

5 **Q. Just east and west, okay.**

6 **Can you walk me through what a typical**
7 **day looks like for you in your current position?**

8 A. Well, you know, obviously every day is a
9 little different. There are days that are very
10 meetings heavy where I am having meetings with direct
11 reports and then also group meetings with either some
12 of them, all of them, or some other parts of the
13 business. I would say a typical day for me has at
14 least four to five meetings in it as well as phone
15 calls and projects that I am working on.

16 **Q. How many people would you say you meet**
17 **with on a daily basis from within Henry Schein?**

18 A. That would vary. Anywhere from two to
19 three to twenty, depending on the day.

20 **Q. Do you consider yourself to be a part of**
21 **Schein's dental leadership team?**

22 A. Yes.

23 **Q. In what sense?**

24 A. Well, I am sort of the face of the sales
25 group.

17	<p>1 Q. Do you have any decision-making responsibility?</p> <p>2 A. Yes.</p> <p>3 Q. What kind of decision-making responsibility do you have?</p> <p>4 A. Well, you know, I help put together the compensation plans for the salespeople, I make decisions on strategic initiatives that we do in terms of marketing programs with customers, and I pretty much -- pretty much am involved in anything involving sales in the dental business.</p> <p>5 Q. Are there any decisions that you would have to clear with someone who is in a position above you?</p> <p>6 A. Plenty of them, sure.</p> <p>7 Q. Can you give me some examples?</p> <p>8 A. Anything that involves spending money up over a certain number or in a certain range, anything that would involve a policy change from things we have done in the past, anything that would involve a particular employee of a certain level in the company, and that would be the most common ones anyway.</p> <p>9 Q. Anything else?</p> <p>10 A. There is all kinds of things, it is, you know, it is obviously it is a group of people.</p>	19	<p>1 different going forward, I would talk to him about those, assuming they were large enough.</p> <p>2 Q. Understood.</p> <p>3 Do you have any special areas of responsibility or oversight in your current position outside of sales?</p> <p>4 A. Well, there is some marketing obviously. Sales in our definition includes some marketing responsibilities closely connected to we have a marketing group that handles equipment and technology that I am indirectly related to and then the same thing with the consumables part of our business in New York.</p> <p>5 Q. And can you give me an example of how marketing would fit into your area of oversight?</p> <p>6 A. Well, again, picking what products, what categories we want to emphasize, how we want to go to market with them, constructing promotions, anything like that.</p> <p>7 Q. Has your role changed over time?</p> <p>8 A. I don't think my role has changed as much as the company has just gotten larger.</p> <p>9 Q. How has the company grown over time?</p> <p>10 A. Well, it is, you know, we have gone from -- Henry Schein, Inc., obviously has grown faster than</p>
18	<p>1 Q. And who would you need to declare -- strike that.</p> <p>2 With who would you need to clear those type of decisions?</p> <p>3 A. Tim Sullivan generally my boss.</p> <p>4 Q. What is Tim Sullivan's position?</p> <p>5 A. He is the president of Henry Schein Dental. Actually, he is the president of North American Dental Group, which includes Henry Schein Dental and Henry Schein Canada.</p> <p>6 Q. You mentioned one type of decision making -- one type of decision you would need to clear with Mr. Sullivan is, for example, a policy change. Can you give me an example of what that would be?</p> <p>7 A. I think mostly around compensation policy I can think would be the bulk of what we would discuss. If there are certain classes of product that we paid our sales force one way and wanted to change it to something different, that would be a policy change I would talk to him about. How we handle a particular manufacturer who we may not have had good relations with in the past and we want to give them some opportunities or the other way around where they have been for whatever reason haven't been as what we hoped they would be we might handle them a little</p>	20	<p>1 Henry Schein Dental, so I don't know if you are talking about Henry Schein, Inc., or Henry Schein Dental.</p> <p>2 Q. I am referring specifically to Henry Schein Dental.</p> <p>3 A. It has grown significantly. I don't know what the average rate of growth has been over the last 12 years that I have been involved in this job, but, you know, it is probably in the four or five percent range a year.</p> <p>4 Q. And, just so I understand, your areas of responsibility are only over or within the Henry Schein Dental business, right?</p> <p>5 A. Yes.</p> <p>6 Q. You mentioned Henry Schein has -- Henry Schein Dental has experienced some growth over the years. Has that presented any unique challenges?</p> <p>7 MR. McDONALD: Object to the form.</p> <p>8 THE WITNESS: I guess I need to know what you mean by unique challenges.</p> <p>9 BY MR. SOLOMON:</p> <p>10 Q. I don't have anything in mind, I am just generally trying to get a sense for changes at the company that you witnessed as a result of growth.</p> <p>11 A. I think obviously we have had to</p>

21	<p>1 restructure our management group a couple of times in 2 order to meet the needs of the market and the needs of 3 the sales team.</p> <p>4 For example, the technology side of our 5 business didn't exist when I took this job. It was 6 all considered equipment. We kind of broke that out 7 and made that a special -- we actually had two sales 8 forces there at one time, we now only have one. So 9 that has been probably the most dynamic area of the 10 business that has required the most time.</p> <p>11 Q. Anything else?</p> <p>12 A. The only other changes, you know, I think 13 that we have done is just continuing to really 14 emphasize recruiting and bringing in really good 15 people. Especially we recruit a lot out of college 16 now, we didn't used to do that. And we are always 17 trying to find top, quality people to represent the 18 company, and that is a big and very difficult job. I 19 mean, not me personally doing it, but I am obviously 20 very closely attached to it.</p> <p>21 Q. How did you land in your current 22 position?</p> <p>23 A. I was promoted from my prior role. You 24 can ask Tim why, I guess, but obviously they felt I 25 was the best candidate for this.</p>	23	<p>1 A. Yes, sure.</p> <p>2 Q. How often?</p> <p>3 A. You know, it is hard to say. Sometimes I 4 go through periods of time where they are in the 5 office a lot for whatever reasons and I am able to sit 6 down with them, other times I have to go to them. But 7 I would say I directly speak to somebody at least once 8 a week even on the phone. It is certainly sometimes 9 more than that.</p> <p>10 Q. How many sales representatives does Henry 11 Schein Dental have?</p> <p>12 A. Of the three different types put together 13 about 1200.</p> <p>14 Q. Do you ever meet with dentists?</p> <p>15 A. Yes, sure.</p> <p>16 Q. How often?</p> <p>17 A. Not often. Usually at conventions.</p> <p>18 Q. And do you ever do co-travel with vendors 19 to visit dentists?</p> <p>20 A. I co-travel with our salespeople to visit 21 dentists. I have never co-traveled with a 22 manufacturer, I did when I was in sales, I don't now. 23 And, again, that might be once or twice a year.</p> <p>24 Q. And, tell me if I am correct, that 25 involves actually going into the office of a dentist</p>
22	<p>1 Q. So Mr. Sullivan promoted you?</p> <p>2 A. Yes.</p> <p>3 Q. And how long have you known Mr. Sullivan?</p> <p>4 A. Since 1992 when Sullivan bought Coast 5 Dental Supply, the company I had with my 6 father-in-law.</p> <p>7 Q. How would you describe your professional 8 relationship with Mr. Sullivan?</p> <p>9 A. Very good. I mean, we have been together 10 now 25 years, known each other pretty well.</p> <p>11 Q. Would you describe yourselves as friends?</p> <p>12 A. Friends in a business sense, yes. We are 13 not -- we don't do things personally together.</p> <p>14 Q. Is traveling a part of your position at 15 all?</p> <p>16 A. Yes.</p> <p>17 Q. How so?</p> <p>18 A. Well, we have to travel to different 19 things, events, conventions, meetings specifically, 20 usually in New York, that is where Henry Schein's 21 corporate headquarters are; occasionally out to the 22 field just to visit operations in the field; a little 23 bit of everything.</p> <p>24 Q. Do you ever meet with Henry Schein Dental 25 sales representatives?</p>	24	<p>1 and talking about onsite challenges and kind of seeing 2 how a dentist practices sort of in an everyday 3 environment, is that right?</p> <p>4 A. Yes. You go in there, you talk about 5 their practice. Obviously somewhere in there you talk 6 about where they buy from or how they buy or whether 7 there are things we can help them with that they would 8 like to have that we provide. Obviously we are always 9 trying to adapt ourselves to the client.</p> <p>10 Q. Why do you attend those trips?</p> <p>11 A. I learn something every time I talk to a 12 dentist.</p> <p>13 Q. Can you give me an example of something 14 you learned recently?</p> <p>15 A. You learn all kinds of things. 16 Primarily they want to talk about their 17 economic challenges they are struggling with and 18 different insurance reimbursement changes that have 19 happened. But they also want to talk about 20 technology, what is happening in the technology world 21 because they are also not very -- most of them are not 22 as technology-aware, they do dentistry for a living 23 and they are busy doing that. 24 So those are generally the two areas that 25 most customers want to talk about.</p>

25

1 **Q. So the dentists that you visit during**
2 **these trips are usually private practice dentists,**
3 **right?**

4 A. Yes, generally, yes.

5 **Q. Do you ever visit corporate practices?**

6 A. I have never met -- never gone into a
7 corporate dental practice personally. I have met some
8 corporate dental executives at trade shows and at
9 meetings.

10 **Q. Do you ever visit any other types of**
11 **dental practices that are not considered private**
12 **practice?**

13 A. Well, I mean, a couple years ago we
14 created this business called the mid market and so I
15 have met a couple of those individuals in their office
16 and met several of them, other events as well.

17 **Q. Can you tell me what mid market refers**
18 **to?**

19 A. Well, mid market was something we created
20 I think three years ago because the special markets,
21 which is the larger customer part of our business,
22 wanted to really focus on its top 50 or so clients.

23 So that top 50 or so they obviously kept
24 and then there is -- they had other people and other
25 types of customers on their list and then we also had

27

1 of POs and different purchasing methods that are
2 outside private practice dentistry.

3 It is just larger organizations I guess
4 is the best way to put it, prisons and large
5 government, some state government. State government
6 can kind of go either way depending on how they want
7 to operate.

8 **Q. Are you responsible for special markets?**

9 A. No.

10 **Q. Who is?**

11 A. Hal Muller is the name of the gentleman
12 who is the president of special markets.

13 **Q. So am I correct in -- let me know if my**
14 **understanding is correct, that Henry Schein Dental and**
15 **special markets focus on different customers?**

16 A. That is correct, 95 percent of the time.
17 There is this middle market area that is never as
18 clean as you want it to be, as I said, sometimes there
19 is going to be some overlap, generally speaking that
20 is right.

21 **Q. Is it the case that special markets and**
22 **Henry Schein Dental sometimes service the same**
23 **clients?**

24 A. No, generally, no, they go one way or the
25 other.

26

1 private practice dentists who were going in together
2 and forming group practices, two areas were sort of
3 starting to grow together. And so they were starting
4 to grow together. And because of special markets'
5 desire to want to focus on that top group we decided
6 to create a middle group.

7 **Q. Is there a specific definition of middle**
8 **market that Henry Schein uses?**

9 A. I can give you general guidelines, but I
10 will tell you that they -- because the market is
11 evolving very quickly, those change, too, generally it
12 is a dentist who has between 3 and 20 locations,
13 community health centers, and, what else, local
14 hygiene and assisting schools, and then also buying
15 organizations.

16 **Q. Would that include any institutional**
17 **customers such as the federal government?**

18 A. Those are still in special markets.

19 **Q. Those are still in special markets.**

20 A. Uh-huh.

21 **Q. So special markets focuses on what type**
22 **of customer?**

23 A. Generally more than 20 locations,
24 generally doing upwards of a million dollars a year in
25 purchases, generally, again, things that require a lot

28

1 **Q. So there is sort of a gray area where it**
2 **is unclear whether it falls into special markets or**
3 **would be mid market, is that right?**

4 A. Yes.

5 **Q. And how are decisions made as to whether**
6 **a customer should fall under special markets or mid**
7 **market when the definition is not as clear?**

8 A. Generally we sit down and talk to, you
9 know, our team talks to Hal about it and Hal and his
10 team about it and we generally come to an
11 understanding.

12 **Q. Got it.**

13 **Do you ever attend dental conferences or**
14 **trade shows?**

15 A. Yes.

16 **Q. How often?**

17 A. At least six a year.

18 **Q. Are there any trade shows or conferences**
19 **that you regularly attend?**

20 A. Yes, most of them are annual conferences.

21 **Q. Which ones?**

22 A. It is the Chicago midwinter meeting,
23 happens here every February, the California Dental
24 Association meeting which happens in May, the American
25 Dental Association meeting, which moves around every

29

1 year, that is normally in October, and the greater New
2 York, which is in New York over Thanksgiving weekend.

3 **Q. And how do you choose which conferences**
4 **to attend?**

5 A. The larger ones I go to all of them.
6 Some of the smaller ones I will try to rotate, I will
7 go to one one year and then another another year just
8 to kind of -- so I can be visible to the sales group.

9 **Q. Which smaller ones do you attend?**

10 A. Boston and Atlanta and sometimes. I am
11 trying to think, sometimes northern California has a
12 meeting, I have gone to that one before.

13 Those are generally the ones that I am
14 probably -- I am probably forgetting one, but those
15 are the ones that are most common.

16 **Q. How do you decide which of the smaller**
17 **conferences and trade shows to attend?**

18 A. There usually has to be a reason. Again,
19 I try to go to one or two a year to be out there so I
20 can try and see the team. If there is a new manager,
21 we have a new manager in that market, I will usually
22 try to go to support them. It is -- there is a
23 variety of reasons.

24 **Q. Other than seeing a new manager what are**
25 **some reasons why you attend conferences and trade**

30

1 **shows?**

2 A. Generally to talk to the salespeople is
3 the single, most important thing and kind of find out
4 what their life is like these days in that particular
5 area of the business, because the geography is
6 different, California is different than New York, et
7 cetera.

8 So generally my number one reason is to
9 talk to the salespeople, and that is always helpful
10 for me.

11 The second reason is typically to meet
12 with our larger suppliers that always want to have
13 meetings at those shows because everybody is there.

14 Those are the primary.

15 Sometimes there is a local dental
16 association that wants to have some kind of connection
17 with us and I will meet with them as well.

18 **Q. Any other reasons?**

19 A. Those are the primary ones.

20 **Q. Are there any other parts of the Henry**
21 **Schein business outside of dental that you are**
22 **familiar with?**

23 A. Well, what do you mean by familiar?
24 Where we are in certain businesses, yes.

25 **Q. Which businesses?**

31

1 A. Well, we have a medical business and we
2 have an animal health business.

3 **Q. And how familiar are you with the animal**
4 **health and medical business?**

5 A. Very minimal.

6 **Q. What can you tell me about those segments**
7 **of the Henry Schein business?**

8 A. Again, I am not very familiar with them.
9 I mean, I know the sales heads for -- sales heads for
10 medical, I do not know those for animal health.

11 But we don't really -- I mean, we talk
12 every two, three years, it is not a regular meeting or
13 anything like that. I am not part of that.

14 **Q. Who would be a part of those meetings?**

15 A. Senior management above me.

16 **Q. So Mr. Sullivan, for example?**

17 A. Probably not as much anymore. It used to
18 be organized, Mr. Breslawski, who is the president of
19 Henry Schein Dental and the CEO of the dental group
20 worldwide is Mr. Sullivan's boss, he used to have
21 medical as well. When he had medical Tim was probably
22 being more exposed to medical. Now it is strictly
23 dental worldwide.

24 **Q. When you say he used to have medical, who**
25 **are you referring to?**

32

1 A. Jim Breslawski.

2 **Q. Just to be clear so we have a clean**
3 **record, today when I say Henry Schein or Schein I am**
4 **referring to Henry Schein Dental --**

5 A. Okay.

6 **Q. -- unless I say otherwise. I will be**
7 **sure to say Henry Schein Medical or Henry Schein**
8 **Animal Health if I am referring to those segments.**

9 A. Got it.

10 **Q. And feel free to stop if something is**
11 **confusing.**

12 A. Sure.

13 **Q. I understand currently you report to**
14 **Mr. Sullivan in your current role, that's correct?**

15 A. Yes.

16 **Q. And has that changed over time?**

17 A. No.

18 **Q. So you have always reported to**
19 **Mr. Sullivan while working for Henry Schein Dental?**

20 MR. McDONALD: Object to form.

21 THE WITNESS: As long as I have been in
22 this role, yes.

23 BY MR. SOLOMON:

24 **Q. Got it.**

25 **And in your prior roles did you report to**

33

1 anyone else?
 2 A. Yes.
 3 Well, when I was -- when I was in Coast
 4 Dental I reported to my father-in-law. When I was
 5 first with Sullivan Dental I reported to a fellow
 6 named Kevin Ackeret, who was the VP of sales. He is
 7 retired now. And then I reported to Jim Breslawski
 8 for a while because he was president of Henry Schein
 9 Dental. And then I reported to Tim.
 10 **Q. Does Mr. Sullivan keep you apprised of**
 11 **certain things going on in the business from time to**
 12 **time?**
 13 A. Yes.
 14 **Q. What kinds of things?**
 15 MR. McDONALD: Object to the form.
 16 THE WITNESS: You know, again, if there
 17 is -- he and I have monthly sit-down meetings and he
 18 kind of catches me up and if something comes up in the
 19 meantime, if we are in negotiations with a supplier to
 20 bring them on, if they are -- something happened more
 21 broader within the company, you know, that is
 22 developmentally related or if there is new resources
 23 out there that we can utilize to help train people or
 24 develop people, you know, generally that kind of
 25 thing. Most of it is just reviewing what I am doing

34

1 so he is familiar with what I am working on.
 2 BY MR. SOLOMON:
 3 **Q. Do you keep Mr. Sullivan apprised**
 4 **generally of what you are working on?**
 5 A. I believe I do. You would have to ask
 6 him.
 7 **Q. How often do you meet with Mr. Sullivan?**
 8 A. As I said, formally once a month, but
 9 informally it could be two, three times a day
 10 depending on the day.
 11 **Q. Do you and Mr. Sullivan sit in the same**
 12 **office?**
 13 A. We are in the same building. We have
 14 different offices in the same building.
 15 **Q. How about how far are your two offices**
 16 **from each other?**
 17 A. I don't know, maybe 20 yards, maybe not
 18 even that far, I don't know.
 19 **Q. Would you say that most of your meetings**
 20 **with Mr. Sullivan are in-person rather than by phone**
 21 **or by e-mail?**
 22 A. Yes.
 23 **Q. And how often do you and Mr. Sullivan**
 24 **exchange e-mails?**
 25 MR. McDONALD: Object to the form.

35

1 THE WITNESS: We are both copied on a lot
 2 of e-mails, too, which is, you know, if they are
 3 direct e-mails from me to him or him to me that is, I
 4 don't know, it depends on the day, usually maybe two
 5 or three a day maybe, maybe even not that many.
 6 BY MR. SOLOMON:
 7 **Q. How often do you and Mr. Sullivan speak**
 8 **on the phone?**
 9 A. Only when we are out of the office. If
 10 we are in the office we will always talk live.
 11 **Q. Do you and Mr. Sullivan ever communicate**
 12 **via text message?**
 13 A. Yes, occasionally.
 14 **Q. How often?**
 15 A. It could be months, sometimes we will do
 16 it two or three times as just the back-and-forth. It
 17 is rarely about business, but it is -- it could be
 18 once a month, it could be once every three or
 19 four months.
 20 **Q. Does Mr. Sullivan ever copy you on**
 21 **e-mails?**
 22 A. Yes.
 23 **Q. And would you say that you are copied on**
 24 **e-mails by Mr. Sullivan when it relates to something**
 25 **that the two of you have discussed?**

36

1 MR. McDONALD: Object to the form.
 2 THE WITNESS: Sometimes, yes, sometimes
 3 it is just he wants my input on something.
 4 BY MR. SOLOMON:
 5 **Q. Are there any other reasons why**
 6 **Mr. Sullivan generally copies you on e-mails?**
 7 MR. McDONALD: Object to form.
 8 THE WITNESS: You would have to ask him.
 9 BY MR. SOLOMON:
 10 **Q. Do other Schein employees regularly copy**
 11 **you on e-mails along with Mr. Sullivan?**
 12 A. Sure.
 13 MR. McDONALD: Object to the form.
 14 THE WITNESS: Yes.
 15 BY MR. SOLOMON:
 16 **Q. Do you know why they do that?**
 17 A. Just to keep us informed as to whatever
 18 is happening, we have an employee who has cancer, if
 19 we somebody we know who has issues, if somebody is --
 20 something has happened in the business that they think
 21 we should both be aware of they usually copy both of
 22 us.
 23 **Q. Are there any instances when an employee**
 24 **would only copy you rather than Mr. Sullivan?**
 25 A. If he felt it was something I needed to

37	<p>1 know, yes.</p> <p>2 Q. How about the reverse, are there any</p> <p>3 reasons why an employee would only copy Mr. Sullivan</p> <p>4 than you on an e-mail?</p> <p>5 MR. McDONALD: Object to the form.</p> <p>6 THE WITNESS: Again, you have to ask the</p> <p>7 person sending it. Sometimes they feel they have a</p> <p>8 better connection with Tim than they do with me,</p> <p>9 sometimes it is the other way around.</p> <p>10 BY MR. SOLOMON:</p> <p>11 Q. Would you say that employees generally</p> <p>12 copy both you and Mr. Sullivan on e-mails?</p> <p>13 MR. McDONALD: Object to the form.</p> <p>14 THE WITNESS: I would say more often than</p> <p>15 not, yes.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. Are there any areas of Mr. Sullivan's</p> <p>18 responsibility that you would say you are not</p> <p>19 generally kept apprised of?</p> <p>20 A. Well, I am not apprised of anything going</p> <p>21 on in Canada, he has Canada. Yeah, that would be</p> <p>22 probably the biggest single one.</p> <p>23 Q. Anything within Henry Schein Dental's US</p> <p>24 business?</p> <p>25 MR. McDONALD: Object to the form.</p>	39	<p>1 Q. What kind of companies would you say are</p> <p>2 a part of the Dental Trade Alliance?</p> <p>3 A. Other distributors and manufacturers,</p> <p>4 both.</p> <p>5 Q. So do you attend any meetings as part of</p> <p>6 your role as a board member of the DTA?</p> <p>7 A. Yes. You are generally going to -- we</p> <p>8 have an annual meeting which is in the fall, usually</p> <p>9 in November, that everybody goes to and there is a</p> <p>10 board meeting associated with that. And then there is</p> <p>11 generally one other one during the year and sometimes</p> <p>12 phone meetings.</p> <p>13 Q. How many other members of the board are</p> <p>14 there?</p> <p>15 A. If I had to guess I would say 12 to 15.</p> <p>16 Q. And those board members are all employees</p> <p>17 of other dental distributors and manufacturers?</p> <p>18 A. Yes.</p> <p>19 Q. How long are the board meetings usually?</p> <p>20 MR. McDONALD: Object to the form.</p> <p>21 THE WITNESS: Well, it depends. A board</p> <p>22 meeting can be a couple hours, a short one, or they</p> <p>23 can be a couple of days, depending on what you are</p> <p>24 talking about.</p> <p>25</p>
38	<p>1 THE WITNESS: Generally nothing of</p> <p>2 significance, no.</p> <p>3 BY MR. SOLOMON:</p> <p>4 Q. Mr. Steck, are you a part of any dental</p> <p>5 industry organizations?</p> <p>6 A. Yes, I am part of two.</p> <p>7 Q. And what are those organizations?</p> <p>8 A. One is the Dental Trade Alliance and the</p> <p>9 other is the Dental Lifeline Network.</p> <p>10 Q. What is the Dental Trade Alliance?</p> <p>11 A. That is our trade association for the</p> <p>12 dental business, companies join that, a lot of</p> <p>13 companies are members of it, and I currently sit on</p> <p>14 the board for that for Henry Schein.</p> <p>15 Q. What is -- so your title is board member?</p> <p>16 A. Yes.</p> <p>17 Q. And how long have you held that position?</p> <p>18 A. A year.</p> <p>19 Q. And prior to sitting on the board did you</p> <p>20 hold any positions with the Dental Trade Alliance?</p> <p>21 A. No.</p> <p>22 Q. So you mentioned that there are companies</p> <p>23 within the dental business that join the Dental Trade</p> <p>24 Alliance, right?</p> <p>25 A. Yes.</p>	40	<p>1 BY MR. SOLOMON:</p> <p>2 Q. What are your duties and responsibilities</p> <p>3 as a member of the board of the DTA?</p> <p>4 A. I am on the nominating committee and the</p> <p>5 audit committee.</p> <p>6 Q. And what do you do in those positions?</p> <p>7 A. Well, I am still pretty new to it, but</p> <p>8 you generally -- the nominating committee is</p> <p>9 nominating new board members or new officers for the</p> <p>10 company -- or the association. And the audit</p> <p>11 committee is obviously just looking at the financials.</p> <p>12 Q. You also mentioned you are a member of</p> <p>13 the Dental Lifeline Network?</p> <p>14 A. Correct.</p> <p>15 Q. And what is that?</p> <p>16 A. That is an organization that provides</p> <p>17 dental services to special needs and mentally</p> <p>18 challenged and poor people who can't afford dental</p> <p>19 services.</p> <p>20 Q. And do you have a position within that</p> <p>21 organization?</p> <p>22 A. I am on the board there as well.</p> <p>23 Q. How long have you been on the board of</p> <p>24 that organization?</p> <p>25 A. Four years.</p>

41

43

1 **Q. And what do you do as a board member**
2 **within that organization?**

3 A. Attend meetings, help to raise money, and
4 listen to where the challenges are within that
5 community and try to see if you can be helpful at all.

6 **Q. How often do those meetings occur?**

7 A. Those are twice a year, too, generally at
8 trade meetings, like the Chicago midwinter there is a
9 meeting and usually one at the ADA as well.

10 **Q. And how many members are a part of the**
11 **board of that organization?**

12 A. There is on the trade side probably maybe
13 six of us. On the professional side, meaning the
14 dentists, the providers themselves, there is probably
15 another six. And then there is staff that they have
16 that are senior staff members, and I would guess that
17 is about six as well, but those are all very
18 approximate numbers.

19 **Q. When you say trade side, do you mean**
20 **dental distributors and manufacturers?**

21 A. Yes.

22 **Q. My apologies if you already answered**
23 **this, but how long have you been a board member of**
24 **that organization, the Dental Lifeline Network?**

25 A. Four years.

1 So typically trade meetings I will meet with them as
2 well, as I mentioned.

3 **Q. What is a key opinion leader?**

4 A. That is a term that we use in the dental
5 business for somebody who influences dentists
6 clinically, usually clinically, that they would have a
7 discussion, for example, on digital dentistry and how
8 they are utilizing it in their practice and how they
9 think other dentists can utilize it to be successful
10 and will sponsor them and pay an honorarium fee for
11 them to come talk to groups of dentists.

12 **Q. Would you say that key opinion leaders**
13 **influence the decisions that dentists make in their**
14 **practice?**

15 MR. McDONALD: Object to the form.

16 THE WITNESS: They certainly can, yes.

17 BY MR. SOLOMON:

18 **Q. In what ways?**

19 A. You know, they are dentists usually whose
20 people know their name and they are interested in what
21 they have to say; whether it is relevant to an
22 individual dentist is their own decision.

23 **Q. In what ways can key opinion leaders**
24 **influence dentists?**

25 MR. McDONALD: Object to the form.

42

44

1 **Q. In the last five years have you been a**
2 **member of any other dental industry or organizations**
3 **that we haven't already talked about?**

4 A. I don't believe so, no.

5 **Q. Do you ever have the occasion to work**
6 **alongside others within the dental industry?**

7 MR. McDONALD: Object to the form, vague.

8 THE WITNESS: Can you be a little more
9 specific there?

10 BY MR. SOLOMON:

11 **Q. Sure.**

12 **Do you ever interact with other members**
13 **of the dental industry, which can include thought**
14 **leaders, representatives of other distributors,**
15 **manufacturers? I am just giving you a hypothetical**
16 **list.**

17 A. Well, occasionally, you know, dental
18 KOLs, or key opinion leaders, those are dentists that
19 lecture and try to have events for dentists, we
20 interact with them because in some cases we will hire
21 them to be at events we have for dentists so we will
22 interact with them. Obviously I mentioned earlier I
23 interact with a lot of the manufacturers on the dental
24 side because they always want to have access to the
25 sales channel, both in equipment and in merchandise.

1 THE WITNESS: You know, again, if they
2 are talking about a particular technology, for
3 example, and they are talking about how it has worked
4 for them it might influence a doctor to buy that
5 technology.

6 BY MR. SOLOMON:

7 **Q. So do key opinion leaders go out in the**
8 **field and meet with dentists?**

9 A. Generally, no. Generally they look for
10 people like us to sponsor them.

11 **Q. And would they give talks at meetings?**

12 A. Yes.

13 **Q. How else would they interact with**
14 **dentists?**

15 A. Sometimes they will through the Internet
16 they will have social networks or they will have
17 people call them on the phone.

18 I mean, dentistry is a fairly casual
19 industry in that most dentists will talk to another
20 dentist for any reason, if a guy called with a
21 question I am sure most key opinion leaders would
22 answer it.

23 **Q. How many key opinion leaders would you**
24 **say that Henry Schein Dental sponsors?**

25 A. I honestly have no idea, I would have to

45	<p>1 look.</p> <p>2 Q. Would you say it is a large number?</p> <p>3 MR. McDONALD: Object to the form, vague.</p> <p>4 THE WITNESS: What do you define as a</p> <p>5 large number?</p> <p>6 BY MR. SOLOMON:</p> <p>7 Q. Is it more than ten?</p> <p>8 A. I would say probably more than ten, yes.</p> <p>9 Q. Would you say it is more than twenty?</p> <p>10 A. I don't really know. It is -- it is less</p> <p>11 than fifty.</p> <p>12 Q. Who would know?</p> <p>13 A. You would have to go to various --</p> <p>14 different areas of Henry Schein sponsor different key</p> <p>15 opinion leaders for various reasons and nobody I think</p> <p>16 has a complete master list.</p> <p>17 Q. Do you know how much Henry Schein pays</p> <p>18 key opinion leaders?</p> <p>19 MR. McDONALD: Object to the form.</p> <p>20 THE WITNESS: Well, it depends on what</p> <p>21 their honorarium is, we always pay the expenses to go</p> <p>22 someplace and what their honorarium is.</p> <p>23 BY MR. SOLOMON:</p> <p>24 Q. What is an honorarium?</p> <p>25 A. Normally a speaking fee.</p>	47	<p>1 A. I have been to a couple, it is not</p> <p>2 something I do a lot of.</p> <p>3 Q. Are there any key opinion leaders who</p> <p>4 Henry Schein has sponsored multiple times over the</p> <p>5 years?</p> <p>6 A. Yes, sure.</p> <p>7 Q. Can you think of any?</p> <p>8 A. Sure.</p> <p>9 Dr. Gordon Christiansen is a clinician in</p> <p>10 Utah, we sponsor him usually twice a year.</p> <p>11 Dr. Mark Morrin who is a dentist in</p> <p>12 Detroit who lectures on digital dentistry, we</p> <p>13 typically sponsor him I would say four to six times a</p> <p>14 year.</p> <p>15 And then there are a bunch of others, Ed</p> <p>16 Suh, who is a dentist in Raleigh, North Carolina,</p> <p>17 speaks on digital dentistry speaks three, four times a</p> <p>18 year.</p> <p>19 There is a group of them, I can name five</p> <p>20 or six of them, and they generally all do some kind of</p> <p>21 a series that they will fly around and do.</p> <p>22 Q. A few minutes ago you mentioned that the</p> <p>23 dental business is you said fairly casual I believe</p> <p>24 was the word -- were the words you used?</p> <p>25 A. Between dentists.</p>
46	<p>1 Q. Do you have an idea of what the -- strike</p> <p>2 that.</p> <p>3 Do you have an idea of the amount of</p> <p>4 honorariums that Henry Schein usually pays?</p> <p>5 MR. McDONALD: Object to the form, vague,</p> <p>6 overly broad.</p> <p>7 THE WITNESS: So, you want to give me an</p> <p>8 example and I can --</p> <p>9 BY MR. SOLOMON:</p> <p>10 Q. I wish I could. I don't even know what</p> <p>11 an honorarium is, I am trying to explore.</p> <p>12 A. It is just a fee they charge to speak, it</p> <p>13 is the reason they are going. Generally between two</p> <p>14 and ten thousand dollars would be normal.</p> <p>15 Q. And that would be for a one-time speaking</p> <p>16 engagement or would that involve multiple speaking</p> <p>17 engagements?</p> <p>18 A. Generally one time, but if it is multiple</p> <p>19 then we will negotiate a fee for a series or</p> <p>20 something.</p> <p>21 Q. And does someone from Henry Schein</p> <p>22 usually attend the speaking engagements which Henry</p> <p>23 Schein sponsors?</p> <p>24 A. Always, yes.</p> <p>25 Q. Do you ever attend those?</p>	48	<p>1 Q. Between dentists.</p> <p>2 Would you say that also applies to the</p> <p>3 dental industry -- the larger dental industry as well?</p> <p>4 MR. McDONALD: Object to the form, vague.</p> <p>5 THE WITNESS: I would say it is casual</p> <p>6 between ourselves and our manufacturing partners.</p> <p>7 BY MR. SOLOMON:</p> <p>8 Q. How so?</p> <p>9 A. They call me on the phone for any reason.</p> <p>10 I have never refused an appointment from another</p> <p>11 dental manufacturing company in my career, it doesn't</p> <p>12 matter how small they are, we will see them. It is a</p> <p>13 fairly small industry.</p> <p>14 Q. The dental manufacturing industry is</p> <p>15 fairly small?</p> <p>16 A. No, the whole dental industry is fairly</p> <p>17 small.</p> <p>18 Q. How would you quantify it?</p> <p>19 A. Well, I think estimates has about</p> <p>20 \$6 billion a year in the US.</p> <p>21 Q. So you said that the relationship between</p> <p>22 Henry Schein Dental and manufacturers is casual.</p> <p>23 A. Generally so. I would say, yes.</p> <p>24 Q. Do you know who at Henry Schein is</p> <p>25 primarily responsible for relations with</p>

49	<p>1 manufacturers?</p> <p>2 A. Well, it would be the head of those</p> <p>3 particular -- whatever group the manufacturer falls</p> <p>4 in, if they are a consumables manufacturer it would be</p> <p>5 a gentleman named Paul Hinsch, if it was an equipment</p> <p>6 manufacturer Don Hobbs, and if it was technology</p> <p>7 manager it would be John Cox.</p> <p>8 Q. Do you know how many manufacturers Henry</p> <p>9 Schein Dental does business with?</p> <p>10 A. No, I don't.</p> <p>11 Q. Do you have an approximate number that</p> <p>12 you can think of?</p> <p>13 A. I know -- at our national sales meeting</p> <p>14 people will come, manufacturers will come to exhibit</p> <p>15 at that, it is a little over 100 total that show up.</p> <p>16 Q. Would you say that Henry Schein Dental</p> <p>17 does business with more than 100 manufacturers?</p> <p>18 A. Oh, sure, yes.</p> <p>19 Q. Does Henry Schein Dental have -- strike</p> <p>20 that.</p> <p>21 Are there certain manufacturers who are</p> <p>22 Henry Schein Dental's largest manufacturer partners?</p> <p>23 MR. McDONALD: Object to the form.</p> <p>24 THE WITNESS: Companies that we sell more</p> <p>25 of their products than others, yes.</p>	51	<p>1 consumables there is a lot.</p> <p>2 But in equipment a company like A-dec,</p> <p>3 which manufactures dental equipment, a company like</p> <p>4 Planmeca, which makes dental imaging equipment.</p> <p>5 There are some other ones as well, Midmark is</p> <p>6 a company we do business with that manufacturers</p> <p>7 equipment, a company called Air Techniques.</p> <p>8 These are the top ones. After that it</p> <p>9 drops off pretty significantly.</p> <p>10 BY MR. SOLOMON:</p> <p>11 Q. What about on the consumables side of the</p> <p>12 business?</p> <p>13 A. Well, I mentioned the three largest.</p> <p>14 There is some others, Hu-Friedy is the</p> <p>15 name of a company that is here in Chicago that</p> <p>16 manufacture dental instruments.</p> <p>17 A company called Kulzer, is a</p> <p>18 manufacturer that is -- they are German but they</p> <p>19 manufacture -- they sell in the United States.</p> <p>20 Again, there are a number of other ones</p> <p>21 that I can think of.</p> <p>22 A company called VOCO.</p> <p>23 And, again, I could -- GC is another</p> <p>24 company, a Japanese company.</p> <p>25 I mean, I could go on probably for an</p>
50	<p>1 BY MR. SOLOMON:</p> <p>2 Q. Would you say that there are a group of</p> <p>3 manufacturers who are Henry Schein's top manufacturer</p> <p>4 partners?</p> <p>5 MR. McDONALD: Object to the form, vague.</p> <p>6 THE WITNESS: There are ones that are</p> <p>7 larger than others, yes.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. Can you give me some examples?</p> <p>10 A. The largest dental supplier -- dental</p> <p>11 manufacturing company, I believe, in the world is</p> <p>12 Dentsply Sirona.</p> <p>13 Then there is a group called KaVo Kerr,</p> <p>14 which is part of a company called Danaher.</p> <p>15 And then 3M has its own dental division,</p> <p>16 we do a lot of business with 3M.</p> <p>17 And then there is some equipment</p> <p>18 companies as well that are fairly large.</p> <p>19 Q. So you mentioned 3M, Dentsply, KaVo Kerr.</p> <p>20 Who else would you say would fall into</p> <p>21 the category of a top manufacturer or partner for</p> <p>22 Schein Dental?</p> <p>23 MR. McDONALD: Object to the form, vague.</p> <p>24 THE WITNESS: Well, it is easier on the</p> <p>25 equipment side because it is more concentrated, where</p>	52	<p>1 hour if you want me to just keep naming dental</p> <p>2 companies. I don't know if that is -- they are all</p> <p>3 fairly small at this point.</p> <p>4 Q. Would you say we have talked about some</p> <p>5 of the larger ones?</p> <p>6 A. Yes, they are all in there.</p> <p>7 Q. So Henry Schein Dental is a distributor</p> <p>8 of dental supplies and equipment, is that right?</p> <p>9 A. Yes.</p> <p>10 Q. And Schein Dental is sometimes referred</p> <p>11 to as a dealer?</p> <p>12 A. Yes, dealer or distributor.</p> <p>13 Q. Sometime throughout today I may refer to</p> <p>14 Henry Schein Dental as a dealer or distributor, and</p> <p>15 you will understand that I am referring to the same</p> <p>16 thing there?</p> <p>17 A. Yes.</p> <p>18 Q. Would you say that Schein is a full-line</p> <p>19 distributor?</p> <p>20 A. Yes.</p> <p>21 Q. Would you say that Schein is a</p> <p>22 full-service distributor?</p> <p>23 A. Yes.</p> <p>24 Q. And would you say that Schein is a</p> <p>25 national distributor?</p>

53	55
<p>1 A. Yes.</p> <p>2 Q. Are you familiar at all with Schein's</p> <p>3 gross margins?</p> <p>4 A. Yes.</p> <p>5 Q. What is Schein's gross margin for</p> <p>6 consumables?</p> <p>7 THE WITNESS: It is okay to answer this?</p> <p>8 MR. McDONALD: It is.</p> <p>9 THE WITNESS: Well, it varies.</p> <p>10 MR. McDONALD: If you know.</p> <p>11 THE WITNESS: I can give you -- it is a</p> <p>12 range.</p> <p>13 What it adds up to, I am not exactly</p> <p>14 sure, but generally speaking it is somewhere in the 25</p> <p>15 to 35 percent margin.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. And are you also familiar with the gross</p> <p>18 margins for equipment?</p> <p>19 A. Yes.</p> <p>20 Q. And what would that number be?</p> <p>21 A. They are almost the same.</p> <p>22 Q. Have Schein's gross margins changed over</p> <p>23 the last five years?</p> <p>24 A. Not measurably, no.</p> <p>25 Q. Do you have a sense for Schein's national</p>	<p>1 BY MR. SOLOMON:</p> <p>2 Q. Sure.</p> <p>3 Does it compete with Patterson for those</p> <p>4 accounts based on price?</p> <p>5 A. Yes, sure.</p> <p>6 Q. How else?</p> <p>7 A. Salespersons, relationship, and services</p> <p>8 and scope of services. That is why hiring people is</p> <p>9 so critical, hiring the right people. Most of the</p> <p>10 time the single biggest influence of where a dentist</p> <p>11 does business is the salesperson and their</p> <p>12 relationship with the salesperson.</p> <p>13 Q. How would a salesperson influence those</p> <p>14 relationships?</p> <p>15 A. Well, they do a good job of making sure</p> <p>16 they got the right products, making sure they didn't</p> <p>17 get too much of the right products, they would also</p> <p>18 look in to having an interest in the customer's</p> <p>19 overall business, how they are doing, giving</p> <p>20 suggestions, advice as if they want that, they would</p> <p>21 certainly be interested in where they are going from a</p> <p>22 technology standpoint what their plan is, trying to</p> <p>23 become an extended member of the dentist's team.</p> <p>24 Q. Does Schein compete with Benco in the</p> <p>25 same manner?</p>
<p>1 market share today?</p> <p>2 MR. McDONALD: Object to the form.</p> <p>3 THE WITNESS: Only based on what</p> <p>4 manufacturers tell us, large ones that sell to</p> <p>5 everybody. They tell us what our share of their</p> <p>6 business is. So based on what we hear and kind of</p> <p>7 triangulate, it is somewhere in the high 30's.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. Who are Schein Dental's competitors?</p> <p>10 A. Well, our largest competitor is Patterson</p> <p>11 Dental. The second largest competitor would be Benco</p> <p>12 Dental. And then there is a host of independent</p> <p>13 dealers across the country. These are all</p> <p>14 full-service dealers. Then there are a number --</p> <p>15 literally hundreds of Internet dealers that sell</p> <p>16 product on the Internet.</p> <p>17 Q. Does Schein compete against Patterson</p> <p>18 Dental for private practice accounts?</p> <p>19 A. Yes.</p> <p>20 Q. And how does Schein compete against</p> <p>21 Patterson for those accounts?</p> <p>22 MR. McDONALD: Object to the form.</p> <p>23 THE WITNESS: Can you be specific about</p> <p>24 how? I mean, can you give me an example?</p> <p>25</p>	<p>1 A. Yes.</p> <p>2 Q. Would you say that Schein, Patterson, and</p> <p>3 Benco ever try to outbid each other on price in order</p> <p>4 to gain business?</p> <p>5 A. All day every day.</p> <p>6 Q. How important of a factor is price in</p> <p>7 competition?</p> <p>8 MR. McDONALD: Object to the form.</p> <p>9 THE WITNESS: It depends on the dentist.</p> <p>10 Some dentists it is everything. Everything I just</p> <p>11 talked about, the professionalism, the salesperson,</p> <p>12 the services don't matter, and in some cases they</p> <p>13 matter more. So it depends on the customer. It is</p> <p>14 certainly an important factor.</p> <p>15 BY MR. SOLOMON:</p> <p>16 Q. What other factors might influence</p> <p>17 dentists in choosing a distributor?</p> <p>18 MR. McDONALD: Object to the form.</p> <p>19 THE WITNESS: I think I just answered</p> <p>20 that, the services and the salesperson provide in the</p> <p>21 relationship.</p> <p>22 BY MR. SOLOMON:</p> <p>23 Q. Anything else?</p> <p>24 A. Timeliness of delivery, completeness of</p> <p>25 delivery of products, so logistics.</p>

57

1 **Q. How would you say Schein's prices compare**
2 **to those of Patterson and Benco?**

3 MR. McDONALD: Object to the form.

4 THE WITNESS: Well, again, we all have
5 catalogues, but the catalogues rarely are used, in
6 fact never used rarely with customers who buy in any
7 volume, they are more reference guides. So if we are
8 competing for a specific customer who has so much
9 volume -- you know, it really depends on the
10 situation, the company, and the salesperson has a high
11 level of independence in setting pricing. So some
12 cases the salesperson is the person. But, you know,
13 again, we are within -- we all have similar overhead
14 structure and so our prices are going to be within a
15 range.

16 BY MR. SOLOMON:

17 **Q. Does Schein compete with Patterson and**
18 **Benco for corporate accounts on the basis of price?**

19 A. Yes.

20 **Q. Are there any other ways in which Schein**
21 **competes with Patterson and Benco for corporate**
22 **accounts?**

23 MR. McDONALD: Object to form.

24 THE WITNESS: You would need to speak to
25 Mr. Muller about that one, I am not involved in those.

58

1 BY MR. SOLOMON:

2 **Q. Sure.**
3 **That would be the president of special**
4 **markets, Mr. Muller, right?**

5 A. Yes.

6 **Q. How about corporate accounts that fall**
7 **within the middle market segment?**

8 A. I typically am not the one involved with
9 the direct negotiations, but we certainly -- is the
10 question are we competing on price for those, too, is
11 that what you are asking?

12 **Q. Right.**

13 A. Absolutely, absolutely.

14 **Q. Does Schein compete with Burkhardt? I**
15 **guess we should establish are you familiar with**
16 **Burkhardt?**

17 A. Yes, sure.

18 **Q. Who is Burkhardt?**

19 A. They are one of the independents I
20 mentioned that happen to be on the west coast.

21 **Q. Would you say Burkhardt is a competitor of**
22 **Schein?**

23 A. Yes.

24 **Q. Is Burkhardt a full-service distributor?**

25 A. Yes.

59

1 **Q. Are they a national distributor?**

2 A. No.

3 **Q. Does Burkhardt offer value-added services**
4 **in the same way that Patterson, Benco, and Schein do?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: I believe, yes, they do.

7 BY MR. SOLOMON:

8 **Q. Would you describe them as a regional**
9 **distributor?**

10 A. I think that is fair, yes.

11 **Q. What region of the country would you say**
12 **they cover?**

13 A. They are based in Tacoma, Washington so
14 their strongest is the northwest, they are on the west
15 coast and they have some associations which has taken
16 them into the midwest. They may have a couple offices
17 in the midwest now, too, I am not exactly sure.

18 **Q. Would you say their primary areas of**
19 **coverage are the west coast and the midwest?**

20 A. Yes --

21 MR. McDONALD: Object to form.

22 THE WITNESS: Primarily the west coast
23 and a little bit in the midwest, yes.

24 BY MR. SOLOMON:

25 **Q. Are you familiar with a distributor**

60

1 **called Darby?**

2 A. Yes.

3 **Q. What is Darby?**

4 A. Darby is an Internet and phone
5 distributor. They have no sales force, so they have
6 no salesperson calling in the office, they have no
7 local offices, they have no equipment or service
8 business. So they are definitely not a full-service
9 distributor, they are a different model.

10 **Q. Would you say they are a full-line**
11 **distributor?**

12 A. Can you define what full line is? Does
13 that mean they carry a wide variety of brands or what
14 does it mean?

15 **Q. Yes, I guess what does full line**
16 **generally mean?**

17 A. Typically means they have access to all
18 the major brands of consumables and, yes, they do.

19 **Q. Does Schein compete with Darby?**

20 A. Yes.

21 **Q. On price?**

22 A. Yes.

23 **Q. Any other ways that Schein competes with**
24 **Darby?**

25 A. Again, if I had a customer that wanted to

61

63

1 buy from Darby I would go in and try to be as
2 competitive as I could with what they were paying, but
3 I would also tell them they have to pay little extra
4 because of the services I am going to provide for them
5 and try to get a feeling of what was important to
6 them.

7 **Q. As you mentioned, Darby is not a
8 full-service distributor, right?**

9 A. That's correct.

10 **Q. So Schein would not compete with Darby in
11 the provision of value-added services, is that right?**

12 A. We would compete with them because they
13 don't have them, we would use them as a method of
14 trying to get the customer, but, yes.

15 **Q. Are you familiar with a company called
16 Safco?**

17 A. Yes.

18 **Q. And what is Safco?**

19 A. They are another company like Darby that
20 is smaller and -- they are smaller version, but they
21 operate pretty much the same way.

22 **Q. And they don't have a sales force or
23 offer value-added services?**

24 A. Not that I am aware of.

25 **Q. So Schein would compete with Safco in the**

1 only list list prices, which is what we list as well.

2 **Q. Do you ever take a look at the prices and
3 offerings that Patterson and Benco have?**

4 MR. McDONALD: Object to the form.

5 THE WITNESS: Personally, no, I don't.

6 BY MR. SOLOMON:

7 **Q. Do people within Schein's organization
8 ever provide you with information they have learned
9 about Patterson and Benco's pricing and offerings?**

10 A. Only from their catalogue price.

11 **Q. How often do you get that information?**

12 A. Generally once a year because that is
13 when people publish.

14 **Q. Would you say that the number of
15 competitors for large group accounts is smaller than
16 the number of competitors for private accounts?**

17 MR. McDONALD: Object to the form.

18 THE WITNESS: I wouldn't say smaller, but
19 generally the larger accounts want to do business with
20 somebody who can provide technical service in the
21 office, which reduces down the number of potential
22 companies quite a bit.

23 BY MR. SOLOMON:

24 **Q. We talked a little bit about different
25 customer segments today, I think we talked about**

62

64

1 **same way that it competes with a company like Darby,
2 correct?**

3 A. Correct.

4 **Q. What does Schein Dental do to learn about
5 its competitors' pricing and offerings?**

6 A. The only thing we ever hear really is --
7 again, these companies have websites so sometimes
8 their prices are on their websites.

9 As I mentioned, Patterson, Schein, and
10 Benco and other full-service dealers typically are
11 working from some sort of a list price, which is
12 pretty much meaningless, so it typically is a
13 negotiated situation with each individual dentist in a
14 particular area. So in those cases we learn just from
15 feedback from the salesperson, you know, where they
16 are at.

17 Again, with companies like Safco and
18 Darby and others that are not full-service companies
19 it is usually, again, they are published, the prices
20 are usually published.

21 **Q. So focusing on Patterson and Benco, other
22 full-service distributors, you mentioned that their
23 prices are listed online?**

24 A. They are, sometimes requires a password
25 to get at them so you can't see them. Usually they

1 **middle market customers, private practice customers,
2 and then larger customers that fall within the special
3 markets purview. Do you recall that?**

4 A. Yes.

5 **Q. Would you say that those segments
6 accurately define the various customer segments that
7 Henry Schein Dental focuses on?**

8 A. It is as best a general description, yes,
9 that I think we can come up with. There are segments
10 within each of those, yes, but those are the general
11 umbrellas.

12 **Q. So each of those customer segments have
13 subcategories?**

14 A. Yes.

15 **Q. Can you walk me through them starting
16 with private practice accounts?**

17 A. Well, private practice accounts you have
18 segments of private -- there is ones who do business
19 primarily with government reimbursement, like in lower
20 income areas, and they are operating in a very
21 different way than someone who is on the North Shore
22 of Chicago and seeing professional patients that want
23 a wider scope of services. So a lot is determined by
24 the patient -- within private practice is determined
25 by the patient base that they are seeing and the

65	<p>1 economic patient base of what they are seeing. And 2 there is everything in between somebody who is working 3 in an impoverished area and somebody working in an 4 affluent area.</p> <p>5 Also, as I mentioned, there is ones that 6 have more than one location. Typically when they get 7 to more than three we start kind of moving them into a 8 middle market capacity, but that is not a hard, firm 9 line either.</p> <p>10 So that is a very big part of the 11 business, over -- I think 70 or 10 percent of the 12 business is still private practice. And, again, there 13 is variations.</p> <p>14 A lot of it is the dentist's 15 personalities themselves, many are very techie and 16 want to do, you know, cosmetic dentistry, whatever 17 their inclination or wherever they have gone to dental 18 school, some are more interested in specialty 19 procedures like oral surgery and orthodontics, et 20 cetera, keeping those within a practice, others refer 21 them out. It is a wide range of different approaches 22 to the business within the private practice segment.</p> <p>23 In the mid market segment it is a 24 conglomeration, as I mentioned earlier, community 25 health services -- health centers, I am sorry, CHCs,</p>	67	<p>1 and also how they go to practice, they are 2 specialists.</p> <p>3 Q. Are there any other categories of private 4 practice dentists that Henry Schein refers to? 5 A. Not that I can think of.</p> <p>6 Q. How about within the middle market 7 segment? 8 A. Well, I mentioned the major ones.</p> <p>9 Q. When did Henry Schein Dental first 10 establish its special markets group? 11 A. I can't tell you exactly. It was before 12 I was in this position.</p> <p>13 Q. So it would have been more than ten years 14 ago? 15 A. Yes.</p> <p>16 Q. Do you know how a customer or potential 17 customer qualifies to become a special markets 18 customer? 19 MR. McDONALD: Object to the form, lack 20 of foundation. 21 THE WITNESS: I think I kind of mentioned 22 the different categories within special markets. If a 23 customer falls into it they would qualify to be a 24 special markets customer, size being one of them. 25</p>
66	<p>1 buying groups, hygiene and assisting schools, and 2 mid-sized customers with usually less than 20 3 locations and less than a million dollars a year in 4 consumable purchases.</p> <p>5 And then I mentioned the larger ones.</p> <p>6 And, again, what makes dentistry 7 different is both the mid market and the larger 8 special markets group are morphing every day, there is 9 different models being developed, different people are 10 buying different people, there is consolidation going 11 on, there is private equity is involved, there is a 12 lot of different models being constructed in both 13 those segments that make it interesting to go to work 14 every day.</p> <p>15 Q. Within private practice the subcategories 16 of customers does Henry Schein use any terms to refer 17 to those subcategories of customers? 18 A. Nothing that is specific and widely used. 19 Sometimes we will call a practice that 20 does a lot of specialty work within it and is very 21 technologically grounded we will call that like a 22 super GP, a super general practitioner. Obviously 23 specialists, you know, orthodontists, periodontists, 24 endodontists, whatever, are their own categories and 25 typically those are defined within our computer system</p>	68	<p>1 BY MR. SOLOMON: 2 Q. Are there any other factors that go into 3 that analysis besides size? 4 MR. McDONALD: Object to the form, lack 5 of foundation. 6 THE WITNESS: I mentioned, you know, 7 again, prisons, federal, state governments, that is 8 primarily the biggest part of the group. 9 BY MR. SOLOMON: 10 Q. Is there a specific definition of special 11 markets somewhere within Schein Dental that describes 12 specifically the types of customers that fall within 13 the special markets? 14 A. I am not sure of that. We just -- I am 15 just -- I just kind of know what is in there. I don't 16 believe there is a specific definition in there. 17 The reason it is called special markets 18 is because it is customers that were not traditional. 19 Q. Have customer segments changed over time? 20 A. Yes, sure. 21 There is no doubt that, as I mentioned, 22 we think about 70 percent of the business, the overall 23 business, is still in private practice dentistry. 24 That used to be 80 to 90 percent a couple of years 25 ago, probably ten years ago. To me that seems like</p>

69

71

1 one or two years ago, but it is probably ten years
2 ago.
3 So it has moved more and more towards
4 larger -- at a small rate, but, so there is definitely
5 a trend towards either group practices or large
6 special markets-type practices.
7 **Q. Do you know when that trend began?**
8 A. No.
9 **Q. Do you have any sense for why that trend**
10 **exists?**
11 A. Generally it is economically driven.
12 **Q. What do you mean by that?**
13 A. The majority of dental overhead for a
14 dentist is fixed and it is the actual cost of the
15 facility, the rent they have in the facility, the
16 staff they have in the facility, the equipment they
17 have in the facility, which is usually a monthly note,
18 right, they have a lot of fixed overhead.
19 And as a result of it the more efficient
20 they can make that facility by having multiple
21 dentists working in it over multiple hours the more
22 they can spread the overhead over a wider base of
23 production.
24 That has caused some dentists to go in
25 together and form group practices where they can --

1 **Q. How are the catalogue prices set?**
2 A. Well, I don't do it. It is done by our
3 marketing group in New York and so you would have to
4 ask them, but I think there is a number of factors
5 they look at, including competitiveness of the
6 product, what its list price is, et cetera.
7 **Q. Do you know who is in charge of the**
8 **marketing department?**
9 A. That would be Paul Hinsch.
10 **Q. Do you know whether Patterson and Benco's**
11 **prices are taken into consideration when Patterson**
12 **sets its catalogue prices?**
13 MR. McDONALD: Object to the form.
14 You might want to read your question.
15 BY MR. SOLOMON:
16 **Q. Strike that.**
17 **Do you know whether Patterson and Benco's**
18 **prices are taken into consideration when Schein sets**
19 **its catalogue prices?**
20 MR. McDONALD: Object to the form, lack
21 of foundation.
22 THE WITNESS: I really don't know. You
23 would have to ask whoever does it.
24 BY MR. SOLOMON:
25 **Q. Does Schein have different pricing plans**

70

72

1 multiple dentists, sometimes those are just
2 partnerships, like a small law firm, and then they
3 sometimes become larger, depending on the situation.
4 **Q. Does Henry Schein Dental ever conduct any**
5 **studies to keep track of trends like group practices?**
6 MR. McDONALD: Object to the form, lack
7 of foundation.
8 THE WITNESS: I don't believe we have
9 done a study that I am aware of, it is primarily just
10 market intelligence.
11 BY MR. SOLOMON:
12 **Q. And when you say market intelligence,**
13 **what do you mean?**
14 A. It is coming from the sales field.
15 MR. SOLOMON: I think now would be a good
16 time for a quick break.
17 THE WITNESS: Okay.
18 (Recess taken.)
19 BY MR. SOLOMON:
20 **Q. Mr. Steck, welcome back.**
21 **Before the break we talked a little bit**
22 **about Schein Dental's pricing, and you mentioned there**
23 **is something called a catalogue price that Schein**
24 **Dental uses. Do you recall that?**
25 A. Yes.

1 **for its different customer segments?**
2 A. Yes.
3 **Q. And what are those different pricing**
4 **plans called?**
5 A. They are either called volume purchase
6 agreements, they used to be called sales plans, but
7 they are effectively the same thing.
8 **Q. So volume purchase agreements or sales**
9 **plans?**
10 A. Uh-huh.
11 **Q. And does Schein have different price**
12 **categories that it uses to price its products?**
13 A. I am not sure I understand the question.
14 **Q. Are there different tiers of pricing that**
15 **Schein Dental uses when it prices its products?**
16 A. Well --
17 MR. McDONALD: Object to the form.
18 THE WITNESS: There is many different
19 types of these.
20 Typically the salesperson is the one that
21 is allowed to make a choice of which one they want to
22 offer their customer. There is ones that are flat
23 discount-type plans that offer a flat discount off the
24 catalogue, there is ones that offer different types of
25 discounts off the catalogue, there is ones that are

73

75

1 more price list formulary-type plans. Yes, there are
2 a number of different ones.

3 BY MR. SOLOMON:

4 **Q. Do you know whether these different plans**
5 **have names?**

6 A. Sure they do.

7 **Q. What are they called?**

8 A. Again, there is a lot of them, I couldn't
9 give you a list from my head here.

10 One of them is called Best Rate, that
11 takes the best price in the catalogue quantity rate
12 regardless of quantity purchased, so if there is 100
13 rate and you buy one you get the 100 rate.

14 One is called Custom Quote. Custom Quote
15 is a plan that you use to come in and sit down with
16 the doctor and give them a customized price list.

17 Then there is Custom Quote Plus which is
18 used as an add-on to another VPA, so if you have a
19 different line purchase agreement and you want to add
20 a customized pricing component to it you use Custom
21 Quote Plus and that can take you up to so many
22 different products.

23 As I said, there is a number of different
24 levels of discount on catalogue and three or four
25 different formularies.

1 **those?**

2 A. Well, for actual customers that have some
3 kind of a commitment it is probably somewhere in the
4 30 -- it is probably around where our market share is,
5 somewhere in the 30 percent range.

6 Of the volume we have how much of that is
7 from committed customers it is probably in the 80s.

8 **Q. So you would say 30 percent of your**
9 **private practice customers commit to purchasing a**
10 **certain volume from Schein Dental?**

11 A. I said somewhere in the 30s, yes.

12 **Q. Somewhere in the 30 percent range?**

13 A. 30 -- where our market share is, which is
14 in the high 30s, right.

15 **Q. So the remaining 60 to 70 percent of**
16 **Schein's customers in the private practice segment do**
17 **not commit to purchasing a certain volume from Schein,**
18 **is that right?**

19 A. Yes.

20 **Q. So does Schein offer discounts to those**
21 **customers?**

22 A. Typically.

23 MR. McDONALD: Object to form.

24 Go ahead.

25 THE WITNESS: Typically not.

74

76

1 **Q. What are the different discount levels?**

2 A. They start as low as 5 percent off and go
3 up as high as 15 to 20.

4 **Q. And how -- strike that.**

5 **How do customers qualify for different**
6 **discount levels?**

7 A. It is generally up to the salesperson and
8 how they want to go for it. I mean, there is
9 guidelines in terms of volume, amount committed, they
10 should qualify for this, but a salesperson and a local
11 manager can override that.

12 **Q. And do those discount levels apply both**
13 **to private practice accounts and middle market**
14 **accounts?**

15 A. Typically these are just private practice
16 we are talking about.

17 **Q. How often do private practices commit to**
18 **purchasing a certain volume from Schein?**

19 A. All the time.

20 **Q. What percentage of your private practice**
21 **customer base would you say commits to purchasing a**
22 **certain volume from Schein?**

23 A. Well, of our actual customer base or of
24 our sales volume? Two different numbers.

25 **Q. Do you have a number in mind for both of**

1 You know, again, they typically are
2 buying small volumes. As I mentioned, a very high
3 percentage of our volume is from committed customers.
4 So typically, no, they are paying catalogue price.

5 BY MR. SOLOMON:

6 **Q. So 70 -- strike that.**

7 **The majority of private practice accounts**
8 **pay catalogue price?**

9 MR. McDONALD: Object to the form.

10 THE WITNESS: I would state it as this,
11 the majority of people who do business with us in a
12 non-committed way pay catalogue price.

13 BY MR. SOLOMON:

14 **Q. What do you mean by non-committed way?**

15 A. They are not committing any volume.

16 **Q. And that would represent what percentage**
17 **of your customer base?**

18 MR. McDONALD: Object to the form, vague.

19 THE WITNESS: As I said, a high -- if we
20 are saying 30 something commit, obviously 60 to 70
21 doesn't.

22 BY MR. SOLOMON:

23 **Q. And just so I am clear then, would you**
24 **say that 60 to 70 percent of your customer base pays**
25 **catalogue price?**

77

1 A. That may not be right. I would have to
2 look to see.

3 I am just giving you my guess as to where
4 -- how the business falls, but you can ask other
5 people would have a better knowledge of it than I
6 would.

7 **Q. I guess I am just a little bit confused
8 because I think you mentioned earlier that most
9 customers don't pay catalogue price.**

10 A. Committed customers almost zero do.

11 **Q. So you were just referring to committed
12 customers who agree to purchase a certain volume from
13 Schein Dental?**

14 A. Right.

15 **Q. Are you familiar with a pricing plan
16 called the G Plan?**

17 A. Yes.

18 **Q. What is the G Plan?**

19 A. G Plan is a formulary plan, which means
20 it is a plan that has certain products listed on it.
21 I mean, we carry 30 or 40,000 different products, this
22 will have several hundred on it. And they tend to be
23 the more popular ones, but they are not -- there is no
24 one dentist who typically buys everything on the plan,
25 they are going to buy a few things. And the G Plan is

78

1 typically a mid market plan.

2 **Q. When you say it is typically a mid market
3 plan, what do you mean?**

4 A. Well, your question prior to this was
5 about private practice, you have now moved into mid
6 markets. I want to just delineate between the two.

7 So the ones I talked about prior to this
8 were private practice plans. The G Plan is a mid
9 market plan.

10 **Q. Do the private practice plans have a
11 name?**

12 A. Well, I mentioned some of them already.

13 **Q. Okay.**

14 **Are you familiar with the term vendor
15 chargebacks?**

16 A. Yes.

17 **Q. And what does that term refer to?**

18 A. Vendor chargebacks are typically used in
19 special markets, that is kind of where they originated
20 in the dental business, where a customer would -- we
21 would visit a customer with a manufacturer, let's use
22 3M, it is a name everyone knows. And the customer
23 wants to buy this product that 3M makes through us but
24 they want to pay so much for it. Well, we can't sell
25 at that price and be profitable. So 3M makes a

79

1 decision, all right, on customers of this type of this
2 size we will give you X percent as a charge back in
3 order to make up the margin you are giving up in order
4 to sell it at that price. It is a way of
5 supplementing the price to large volume customers.

6 **Q. So 3M gives a special price to the
7 distributors, is that right?**

8 A. Actually, no. It is a chargeback to the
9 distributor. We are buying at regular wholesale
10 prices and selling at whatever we agree to sell it at.
11 They are supplementing our margins because the prices
12 we have agreed to sell it at together, that they are
13 involved in this, is considerably less than what we
14 would sell it at without their help.

15 **Q. And so the vendor or manufacturer would
16 provide a refund or a chargeback to the distributor
17 when those products are shipped, is that right?**

18 MR. McDONALD: Object to the form.

19 THE WITNESS: When the way -- the way it
20 works, yes, is at the end of the month we would send
21 them a detailed listing of the products that were
22 shipped and how many of them were shipped and what
23 they had agreed to chargeback or in this case pay us,
24 so it is effectively a charge to the vendor and then
25 they would pay us that amount.

80

1 BY MR. SOLOMON:

2 **Q. Would you say the vendor is lowering its
3 wholesale price in that instance?**

4 MR. McDONALD: Object to the form.

5 THE WITNESS: Effectively they are
6 lowering their wholesale price by supplementing us,
7 yes.

8 BY MR. SOLOMON:

9 **Q. Are accounts under the G Plan eligible
10 for vendor chargebacks?**

11 A. I don't believe they are, no.

12 **Q. And why not?**

13 A. Because they are not special markets
14 customers, G Plan is typically a mid market.

15 **Q. And why would mid market customers not be
16 eligible for vendor chargebacks?**

17 MR. McDONALD: Object to the form.

18 THE WITNESS: Can you repeat that again?

19 BY MR. SOLOMON:

20 **Q. Sure.**

21 **Why would vendor chargebacks not be
22 available to customers in the mid market segment?**

23 MR. McDONALD: Object to the form.

24 THE WITNESS: Because the manufacturers
25 don't want to do that, it is really up to them. We

81	<p>1 will take all the vendor chargebacks we can get. It</p> <p>2 is really up to the manufacturer. And they are trying</p> <p>3 to keep those kinds of things concentrated amongst the</p> <p>4 very large dental customers.</p> <p>5 BY MR. SOLOMON:</p> <p>6 Q. Do you know why manufacturers do not want</p> <p>7 to offer vendor chargebacks for middle market</p> <p>8 customers?</p> <p>9 MR. McDONALD: Object to the form, lack</p> <p>10 of foundation.</p> <p>11 THE WITNESS: No, you would have to ask</p> <p>12 them.</p> <p>13 I think it is because they are concerned</p> <p>14 about getting out -- they want to just be -- have that</p> <p>15 available within the larger customers.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. Are you familiar with the term free</p> <p>18 goods?</p> <p>19 A. Sure.</p> <p>20 Q. What does that term refer to?</p> <p>21 A. Typically free goods are run by</p> <p>22 manufacturers at different times during the year as</p> <p>23 promotions where if you buy six of something you will</p> <p>24 get something free so that the free goods is six plus</p> <p>25 one, for example, the one is considered the free good.</p>	83	<p>1 discounts that fall under that plan?</p> <p>2 A. There are typically -- what is on the G</p> <p>3 Plan is a formulary, those are already discounted.</p> <p>4 There is many cases a discount on top of the things</p> <p>5 that are not on the formulary for the non-formulary</p> <p>6 items, and I believe there is several different levels</p> <p>7 of that.</p> <p>8 Q. Do you know what those different levels</p> <p>9 are?</p> <p>10 A. No.</p> <p>11 Q. Who would know?</p> <p>12 A. Well, people who deal with it everyday.</p> <p>13 You know, Brian Brady would probably know, you know,</p> <p>14 maybe the group practice team would know, but I don't</p> <p>15 off the top of my head.</p> <p>16 Q. Are you familiar with the PG Pricing</p> <p>17 Plan?</p> <p>18 A. Yes.</p> <p>19 Q. What is the PG Pricing Plan?</p> <p>20 A. The PG Plan is another formulary, it is</p> <p>21 slightly more aggressive than the G Plan. The special</p> <p>22 markets formulary is called the P Plan. And so we</p> <p>23 created the G Plan and then the PG Plan is in between</p> <p>24 the two plans in terms of level of pricing.</p> <p>25 Q. When you say it is more aggressive, do</p>
82	<p>1 Q. Do the free goods get shipped directly</p> <p>2 from a manufacturer?</p> <p>3 A. They can go either way. They can either</p> <p>4 -- either there is a coupon, which is the most common</p> <p>5 way, where they have to redeem it and they have to</p> <p>6 send it in to the manufacturer and they get sent a box</p> <p>7 of something, whatever the one free good was. In some</p> <p>8 cases the free goods are run through us, depends on</p> <p>9 the situation.</p> <p>10 Q. And what cases would the free goods be</p> <p>11 shipped by Schein Dental?</p> <p>12 A. I can't really answer that, that is kind</p> <p>13 of outside what I do. That, again, you would have to</p> <p>14 go to the marketing team for that.</p> <p>15 Q. Do customers who qualify for G Plan</p> <p>16 pricing ever receive discounts?</p> <p>17 A. Well --</p> <p>18 MR. McDONALD: Object to the form.</p> <p>19 THE WITNESS: The G Plan is a discount</p> <p>20 plan.</p> <p>21 BY MR. SOLOMON:</p> <p>22 Q. What are the discounts offered under that</p> <p>23 plan?</p> <p>24 A. I can't tell you, I don't know.</p> <p>25 Q. Do you know whether there is a range of</p>	84	<p>1 you mean lower prices?</p> <p>2 A. Yes, a couple/three percent, it is not a</p> <p>3 lot. I just don't know exactly the number.</p> <p>4 Q. You said three percent.</p> <p>5 A. I said --</p> <p>6 MR. McDONALD: Object to form.</p> <p>7 THE WITNESS: I said a couple or three.</p> <p>8 I am not sure exactly the number, I don't want to say</p> <p>9 because I am not sure.</p> <p>10 BY MR. SOLOMON:</p> <p>11 Q. And what type of customers qualify for PG</p> <p>12 Plan pricing?</p> <p>13 A. Typically larger mid market customers.</p> <p>14 Q. So is there a certain number of offices a</p> <p>15 mid market customer would need to have to qualify for</p> <p>16 PG Plan pricing?</p> <p>17 MR. McDONALD: Object to the form, lack</p> <p>18 of foundation.</p> <p>19 THE WITNESS: It is not that cut and dry.</p> <p>20 It depends a lot on the situation and the individual</p> <p>21 customer.</p> <p>22 Typically we would offer the G Plan up to</p> <p>23 a customer who buys maybe 250 to \$300,000 a year and</p> <p>24 then once they get north of that they probably would</p> <p>25 move into PG territory. It is not quite that clean.</p>

85	<p>1 That is a general guideline and then once they get up 2 obviously closer to a million dollars they would move 3 into the P Plan or the special markets plans. 4 BY MR. SOLOMON: 5 Q. Are vendor chargebacks available under 6 the PG Plan? 7 A. I don't believe so, no. 8 Q. What about free goods? 9 A. I believe they are. 10 Q. Do customers who qualify for PG Plan 11 pricing receive more free goods than those who qualify 12 for G Plan pricing? 13 MR. McDONALD: Object to the form, lack 14 of foundation. 15 THE WITNESS: I really can't speak 16 definitively, but I believe the free good offers are 17 universal so I don't think it matters. 18 BY MR. SOLOMON: 19 Q. Are you familiar with the terms PG10, 20 PG15, and PG18? 21 A. I can guess what those are. 22 MR. McDONALD: Don't guess. If you know 23 tell him. 24 THE WITNESS: I think I know, but I don't 25 -- I am not for sure.</p>	87	<p>1 foundation. 2 THE WITNESS: Again, I am not that 3 familiar with the P Plan, that is their pricing plan. 4 BY MR. SOLOMON: 5 Q. So someone in special markets like 6 Mr. Muller would be more familiar with that, right? 7 A. Yes. 8 Q. We talked about some of the pricing plans 9 for mid market customers, and then you told me a 10 little bit about pricing with private practice 11 accounts and you mentioned that some private practice 12 customers who commit volume receive certain levels of 13 discounts, do you recall that? 14 A. Yes, but I believe I said all -- pretty 15 much anybody who commits a certain level of volume 16 gets a discount. 17 Q. Do you know who determines whether a 18 private practice dentist -- strike that. 19 Who would determine the level of discount 20 that a private practice dentist would receive? 21 A. Generally the salesperson. 22 Q. And what would the salesperson take into 23 consideration when making that determination? 24 MR. McDONALD: Object to the form, overly 25 broad.</p>
86	<p>1 BY MR. SOLOMON: 2 Q. Do you know whether they are various 3 levels of discounted pricing? 4 A. My suspicion is they would be discounts 5 on the non-formulary items, the actual PG Plan items 6 are the same. 7 Q. We have talked a little bit about 8 discounts. 9 My question is do the discounts come out 10 of Schein's margins or the manufacturer's margins? 11 A. Almost all are out of Schein's margins. 12 Q. Are you familiar with the P Plan? 13 A. Yes. 14 Q. Refresh my memory, I think you just 15 mentioned a moment ago, what is the P Plan? 16 A. The P Plan is the special markets 17 formulary. 18 Q. Do you know how the P Plan prices 19 compared to catalogue prices? 20 A. No. 21 MR. McDONALD: Object to form. 22 BY MR. SOLOMON: 23 Q. Are you familiar with the terms P10, P15, 24 and P20? 25 MR. McDONALD: Objection to form,</p>	88	<p>1 THE WITNESS: We have 850 salesperson 2 that would do that so it is hard to say. But it is 3 usually the amount of committed volume, the history of 4 the customer, what other things they are doing for the 5 customer, you know, there is a number of different 6 elements to it. 7 BY MR. SOLOMON: 8 Q. So do sales representatives have 9 discretion in determining the level of discount to 10 provide to a private practice customer? 11 A. Yes, they do. They have discretion up to 12 cost, they can sell down to cost. 13 Q. When you say they can sell down to cost 14 that would mean that Schein would not make a profit on 15 that particular sale, is that right? 16 A. Potentially, yes. 17 Q. In what instances would a sales 18 representative be allowed to sell down to cost? 19 MR. McDONALD: Object to the form. 20 THE WITNESS: Well, we try to discourage 21 that, of course, but there are cases where there are 22 certain types of products, the best example is gloves, 23 that the margin on is very thin. And occasionally in 24 order to try to get a customer to buy everything else 25 from you you have to get their glove business and the</p>

89	<p>1 glove business could be at near cost. 2 BY MR. SOLOMON: 3 Q. Are there any other products that are 4 sold at or near cost by Schein sales representatives? 5 MR. McDONALD: Object to the form, overly 6 broad. 7 THE WITNESS: I am sure there are, but I 8 can't tell you what they are. 9 BY MR. SOLOMON: 10 Q. Do you know how often sales 11 representatives would sell a product at or near the 12 cost of the product? 13 MR. McDONALD: Object to the form, overly 14 broad. 15 THE WITNESS: No, I can't tell you that. 16 BY MR. SOLOMON: 17 Q. Is it common? 18 MR. McDONALD: Object to the form. 19 THE WITNESS: How would you define 20 common? It is a very small percentage of our 21 business. 22 BY MR. SOLOMON: 23 Q. What percentage would you say? 24 A. I have no idea. 25 Q. What are the range of discounts -- strike</p>	91	<p>1 number of different elements to it. 2 Q. So we have talked about the G Plan, the 3 PG Plan, the P Plan, we have talked a little bit about 4 pricing for private practice accounts, which I 5 understand does not have a specific name. 6 Are there any other pricing plans that 7 Schein uses for its customers that I missed? 8 MR. McDONALD: Object to the form, overly 9 broad. 10 THE WITNESS: Not plans. We negotiate on 11 individual items, as I said. 12 You know, obviously a customer can get a 13 flier from Safco or someone like that advertising a 14 low price on something that the plan they are on 15 wouldn't be that low for that particular item so the 16 salesperson can override the price of that case and 17 sell it at the lower price. 18 BY MR. SOLOMON: 19 Q. What is a price override? 20 A. That is what I just said. 21 Q. How often do price overrides occur? 22 A. I can't speak to it exactly. It depends 23 on the salesperson, it depends on the area of the 24 company. It is significant. 25 Q. When you say significant, can you be more</p>
90	<p>1 that. 2 Do you have a sense for the gross margin 3 that Schein receives for each customer segment that we 4 have talked about today? 5 MR. McDONALD: Object to the form, overly 6 broad, lack of foundation. 7 THE WITNESS: Well, within private 8 practice there is a wide range of gross profits on 9 customers. As I mentioned they aggregate up somewhere 10 in the 32, 33 percent range all rolled into one. In 11 mid market it is probably going to be a couple of 12 points less than that, in special markets it may be 13 less than that. Again, I don't deal in special 14 markets so I am not familiar with that. 15 BY MR. SOLOMON: 16 Q. Would you say that gross margins for 17 larger customers are smaller than for private practice 18 accounts? 19 A. Yes. 20 Q. Do you know why that is? 21 A. Yes, volume, sure, they are buying a 22 higher level of volume. 23 Usually when they get to special markets 24 the model is very different, they are not paying a 25 commission to the salesperson, for example, there is a</p>	92	<p>1 specific? 2 A. I am not going to give you a number 3 because I don't know, I am just speculating. 4 Q. You are responsible for the sales 5 organization of Schein Dental, right? 6 A. Yes. 7 Q. Do you ever receive information about 8 price overrides by sales representatives in the field? 9 A. Yes. We had a report, I think it is run 10 monthly, I generally see it quarterly, but it is given 11 to all the field management. 12 Q. And does -- strike that. 13 Do those reports provide information 14 about the number of price overrides that have 15 occurred? 16 A. Yes. 17 Q. From your review of those reports what 18 would you say is the typical occurrence of price 19 overrides by sales representatives? 20 A. It -- 21 MR. McDONALD: Hang on, object to the 22 form, overly broad. 23 THE WITNESS: It varies widely by area of 24 the country. 25</p>

93

1 BY MR. SOLOMON:
 2 **Q. So are certain areas of the country more**
 3 **likely to provide price overrides than others?**
 4 A. Yes.
 5 **Q. Do you know what that depends on?**
 6 MR. McDONALD: Object to the form.
 7 THE WITNESS: I don't know what the
 8 depends is. But every area of the United States's
 9 market is slightly different, as I mentioned there are
 10 different independents around the country, some in
 11 some markets and some in others. The makeup of a
 12 dentist population socioeconomically in any area can
 13 be very different from one area to another.
 14 The two most common areas for price
 15 overrides are Los Angeles and New York.
 16 BY MR. SOLOMON:
 17 **Q. Do you know why that is the case?**
 18 A. Much more competitive areas.
 19 **Q. How often do sales representatives in Los**
 20 **Angeles and New York typically provide price overrides**
 21 **for customers?**
 22 MR. McDONALD: Object to the form, overly
 23 broad.
 24 THE WITNESS: I can't give you a number,
 25 I haven't studied the reports enough where I can say.

94

1 BY MR. SOLOMON:
 2 **Q. Apart from a number can you just give me**
 3 **a ballpark estimate?**
 4 MR. McDONALD: He is not going to guess.
 5 You gave him a warning at the beginning about giving
 6 perjured testimony, he told you he doesn't know so he
 7 is not going to guess, he is not here to guess.
 8 BY MR. SOLOMON:
 9 **Q. I am not asking you to guess, I am**
 10 **just --**
 11 MR. McDONALD: Yes, you are.
 12 BY MR. SOLOMON:
 13 **Q. I am not asking you to guess, I am trying**
 14 **to ask if you know certain information. You told me**
 15 **you can't think of an exact number, I am asking if you**
 16 **have a ballpark estimate, I think that is a fair**
 17 **question.**
 18 MR. McDONALD: I think ballpark estimate
 19 is the same as guess.
 20 MR. SOLOMON: I think ballpark estimate
 21 can be used in the absence of a specific number. He
 22 receives the reports quarterly, I am asking if he has
 23 a ballpark estimate, it is a fair question.
 24 MR. McDONALD: You probably have the
 25 reports that we produced to you.

95

1 MR. SOLOMON: He should --
 2 MR. McDONALD: No, he shouldn't. He is
 3 not here -- if you have a document then give it to
 4 him.
 5 Ronnie, I don't know what in the world
 6 this has to do with your investigation, but you use
 7 your time however you want to.
 8 MR. SOLOMON: I will.
 9 MR. McDONALD: At the end of the day
 10 don't complain when you run out of time when you are
 11 spending all your time on this stuff. He is not going
 12 to guess.
 13 BY MR. SOLOMON:
 14 **Q. Mr. Steck, I am not asking you to guess,**
 15 **I am just asking you for information that you have**
 16 **access to.**
 17 MR. McDONALD: Ask your question.
 18 BY MR. SOLOMON:
 19 **Q. Let's move on.**
 20 **Do -- strike that.**
 21 **Does the price a private practice**
 22 **customer receives ever depend on how the private**
 23 **practice dentist negotiates with the sales**
 24 **representative?**
 25 MR. McDONALD: Object to the form.

96

1 THE WITNESS: So what I am understanding
 2 you to say is does the price that they are actually
 3 paying is that influenced by their discussions with
 4 the salesperson?
 5 BY MR. SOLOMON:
 6 **Q. Right.**
 7 A. Absolutely. I have already said that,
 8 yes.
 9 **Q. Can you give me some examples of how a**
 10 **dentist can negotiate a price with a sales**
 11 **representative?**
 12 A. I just did.
 13 **Q. So you talked a little bit about Safco**
 14 **showing a flier to a sales representative.**
 15 A. To a dentist. It usually goes to the
 16 dentist, it is mailed to them.
 17 **Q. So a dentist would provide a copy of the**
 18 **flier to the sales representative and ask for a price**
 19 **match, is that right?**
 20 A. Yes.
 21 **Q. Any other ways in which a private**
 22 **practice dentist can negotiate price other than by**
 23 **showing what a competitor's price is?**
 24 A. Well, that is generally how it is done,
 25 it is either that or they look at the Internet or they

24 (Pages 93 to 96)

97

99

1 look at -- they get prices from somewhere and they are
2 sitting down with the rep and talking to the rep about
3 it.

4 **Q. Mr. Steck, are you familiar with the term**
5 **group purchasing organization?**

6 A. Yes.

7 **Q. What is a group purchasing organization?**

8 A. My understanding is that a group
9 purchasing organization is a medical term that is used
10 in the medical industry and actually goes out and
11 negotiates with manufacturers similar to what we
12 talked about with the vendor chargeback system to get
13 product to large customers, so they are negotiating
14 and getting particular pricing for their members, and
15 then distributors can either accept that or they can't
16 or they have the option to, that is my understanding.

17 **Q. What is your understanding based on?**

18 A. Just what I heard from the medical team.

19 **Q. Who have you heard that from in the**
20 **medical team?**

21 A. My counterpart is Brad Connett, again,
22 very insulated from medical, I don't know a lot about
23 it, what I told you is pretty much what I know.

24 **Q. Have you ever used the term group**
25 **purchasing organization or GPO to refer to an entity**

1 -- people sign up, buy memberships in them.

2 **Q. And what is your understanding of buying**
3 **groups based on?**

4 A. Just market intelligence that I get from
5 people on my team and people on their teams.

6 **Q. You referred to in your prior answer a**
7 **study club.**

8 A. Yes.

9 **Q. What is a study club?**

10 A. Dentists often will group together
11 sometimes in a geography, sometimes across the
12 country, with a leader who teaches them clinical
13 aspects of dentistry, new techniques, things that
14 happening in the business, continuing education
15 related, that they will do. And then this in some
16 cases, at least in a couple I am aware of, has been
17 added as a component of being part of the study club
18 you get this potential benefit.

19 **Q. What kind of benefits are you referring**
20 **to?**

21 A. Well, it would be a pricing list or
22 pricing discount.

23 **Q. What in your mind is the difference**
24 **between a GPO and a buying group?**

25 A. I already just said that I thought,

98

100

1 **within the dental industry?**

2 A. It has been -- the term has been used
3 loosely and because it is so well established in
4 medical it has kind of found its way over.

5 But the way that groups function in
6 dental would be more properly called a buying group or
7 a buying club. The vast majority were not out
8 negotiating prices with manufacturers, they are trying
9 to negotiate with distributors on behalf of their
10 members.

11 **Q. What is a buying group?**

12 A. Well, it can be a lot of things. As I
13 mentioned, that part of the business is very dynamic,
14 it is moved -- changing quite often. And it can be
15 anything from a group of four or five dentists that
16 get together and say let's buy as a group because we
17 are friends and whatever and they make that decision,
18 and those have been going on for years. Or it can be
19 more formal, sometimes it is a study group where there
20 is a group of dentists that belong to a study group.
21 There are even some state dental societies that have
22 tried to get into the business and tried to allow some
23 kind of plan for their members. And then there is
24 more recently there have been actual organizations
25 that have been formed that, you know, perform that for

1 didn't I, in terms of -- GPO in my understanding
2 negotiates with manufacturers, where a buying group
3 typically negotiates with distributors.

4 **Q. And you formed that understanding during**
5 **your discussions with someone on the medical side of**
6 **Henry Schein, is that right?**

7 A. Yes.

8 **Q. Are you aware of any specific**
9 **characteristics that would define a buying group?**

10 A. Only that they would represent a group of
11 dentists. As I said, it can happen in a lot of
12 different ways, but they would represent a group of
13 dentists and ask for a program or a plan or a VPA or
14 whatever for a group of customers or potential
15 customers.

16 **Q. Do you know how buying groups form within**
17 **the dental industry?**

18 A. As I said, it can happen a lot of
19 different ways.

20 **Q. Are you -- strike that.**

21 **Have you ever met with representatives of**
22 **any buying groups?**

23 A. The only ones I have personally met with
24 is the California Dental Association.

25 **Q. What is the California Dental**

101	<p>1 Association?</p> <p>2 A. Well, California Dental Association or</p> <p>3 CDA is the largest dental association in the United</p> <p>4 States in that it is dentists from the state of</p> <p>5 California that belong to it.</p> <p>6 I assume it is like the bar association,</p> <p>7 there should be state bar associations, it is --</p> <p>8 although there is a difference, in that dentists have</p> <p>9 to pay dues to join the dental association to be part</p> <p>10 of the CDA. If I am a practicing dentist and I have a</p> <p>11 license to practice in the state of California I have</p> <p>12 to pay dues annually to belong to the ADA, the</p> <p>13 American Dental Association and the CDA.</p> <p>14 And so the CDA is basically the -- they</p> <p>15 do lobbying work for customers, they hold the</p> <p>16 conventions that we talked -- that I mentioned</p> <p>17 earlier, they do a number of different things for</p> <p>18 their members.</p> <p>19 Q. So CDA itself is not a buying group.</p> <p>20 A. No. It is a dental association of</p> <p>21 dentists that they belong to. It has been around</p> <p>22 forever.</p> <p>23 Q. I asked you if ever met with</p> <p>24 representatives of a buying group. Are you referring</p> <p>25 to --</p>	103	<p>1 Buying groups are typically individual</p> <p>2 dental offices that join a club and/or an association</p> <p>3 or a study club or whatever it happens to be, and this</p> <p>4 is one of the benefits of that, that they have access</p> <p>5 to discounted pricing.</p> <p>6 Q. Are there any other characteristics that</p> <p>7 you would look at to determine whether an entity is a</p> <p>8 buying group or a corporate account?</p> <p>9 A. Not that I can recall. The most</p> <p>10 important one is common ownership and single</p> <p>11 purchasing, single account receivable.</p> <p>12 Q. Does Schein view buying groups as</p> <p>13 competitors or potential customers of Schein?</p> <p>14 A. That is a difficult question. We do</p> <p>15 business with a lot of buying groups today. We</p> <p>16 wouldn't be doing business with them if we felt they</p> <p>17 were competitors. So, you know, buying groups</p> <p>18 typically do not have direct access to the product,</p> <p>19 they need to work through a distributor partner.</p> <p>20 Q. Why is that?</p> <p>21 A. Because they don't -- they are not</p> <p>22 authorized distributors, they don't have their own</p> <p>23 warehouses typically, they don't have their own</p> <p>24 warehouses, their own sales channels, their own</p> <p>25 service departments, kind of thing, so they are pretty</p>
102	<p>1 A. CDA wanted to form its own buying group.</p> <p>2 Q. Who did you meet with from the CDA?</p> <p>3 A. I met with the head of their business</p> <p>4 services, I met with the head of the CDA, and I met</p> <p>5 with the person -- actually it was a couple of</p> <p>6 different people in charge of that particular aspect</p> <p>7 of the business.</p> <p>8 Q. And what are their names?</p> <p>9 A. The head of the CDA's name is Peter</p> <p>10 DuBois. The head of the Business Solutions name is</p> <p>11 Bob Spinelli. And I honestly can't remember the names</p> <p>12 of the purchasing people.</p> <p>13 Q. Any other buying groups with whom you</p> <p>14 have met?</p> <p>15 A. Not personally, no.</p> <p>16 Q. How does Schein determine whether a group</p> <p>17 is a buying group or a corporate account?</p> <p>18 A. Well, a corporate account would be, I</p> <p>19 think, pretty easily distinguished because of the fact</p> <p>20 it is under one ownership, there is one person or one</p> <p>21 group of people that are negotiating for that group of</p> <p>22 -- typically multiple location practices, and in many</p> <p>23 cases the purchase orders themselves come from one</p> <p>24 location and then we ship to the different locations</p> <p>25 within the practice. That is a wholly owned model.</p>	104	<p>1 much working with people that do.</p> <p>2 Q. Do you know whether buying groups ever</p> <p>3 approach manufacturers directly to purchase products?</p> <p>4 A. I believe that has happened, yes.</p> <p>5 Q. How do you know that?</p> <p>6 A. Just from talking to manufacturers.</p> <p>7 Q. Which manufacturers have told you that?</p> <p>8 A. Dentsply has told me that, 3M has told me</p> <p>9 that.</p> <p>10 Q. Have Dentsply and 3M told you that they</p> <p>11 have sold products to buying groups?</p> <p>12 A. They do not to my knowledge sell to any</p> <p>13 buying group, they sell to distributors that sell to</p> <p>14 buying groups or dealers.</p> <p>15 Q. Do you know whether 3M and Dentsply have</p> <p>16 ever told products directly to buying groups?</p> <p>17 MR. McDONALD: Object to the form, lack</p> <p>18 of foundation.</p> <p>19 THE WITNESS: I am not aware of any.</p> <p>20 MS. REPORTER: Are you saying Dentist</p> <p>21 Supply?</p> <p>22 THE WITNESS: Dentsply is</p> <p>23 D-e-n-t-s-p-l-y. It started as Dentist Supply and</p> <p>24 they shortened it.</p> <p>25 MR. McDONALD: It is one word.</p>

105	<p>1 BY MR. SOLOMON:</p> <p>2 Q. Does Schein ever request any information</p> <p>3 to determine whether a potential customer is a buying</p> <p>4 group?</p> <p>5 A. Request information? Well, I am having a</p> <p>6 hard time understanding the question. Usually they</p> <p>7 present themselves as a buying group. I mean, we</p> <p>8 would ask them how many members they had, you know --</p> <p>9 Q. Any --</p> <p>10 A. -- how they organize themselves. There</p> <p>11 is questions we ask them about how their</p> <p>12 going-to-business strategy is.</p> <p>13 Q. Anything else that Schein would ask a</p> <p>14 potential customer to determine whether they are a</p> <p>15 corporate account or a buying group other than what</p> <p>16 you have just mentioned?</p> <p>17 A. Not that I can think of.</p> <p>18 Q. Okay.</p> <p>19 When did you first hear about buying</p> <p>20 groups in the dental industry?</p> <p>21 A. Well, as I said earlier, they have been</p> <p>22 around in some form for many, many years. And more</p> <p>23 recently they have become more organized in a bigger</p> <p>24 part of the business, but I can't speak exactly when</p> <p>25 that would be. Probably Coast Dental. I mean,</p>	107	<p>1 THE WITNESS: Can you say that again,</p> <p>2 just maybe a little different?</p> <p>3 BY MR. SOLOMON:</p> <p>4 Q. Sure.</p> <p>5 Do buying groups ever approach Schein to</p> <p>6 purchase supplies?</p> <p>7 A. Yes, sure.</p> <p>8 Q. How often would you say that happens?</p> <p>9 A. I can't -- it depends -- again, it could</p> <p>10 be once a month, it could be once every few months, it</p> <p>11 depends on how many are forming, and not all of them</p> <p>12 want to do business with Schein, some of them want to</p> <p>13 do business with other people.</p> <p>14 Q. Has that changed over the last five</p> <p>15 years?</p> <p>16 MR. McDONALD: Object to the form, vague.</p> <p>17 THE WITNESS: I would say it has become</p> <p>18 more prevalent, but I can't give you any contrasting</p> <p>19 numbers.</p> <p>20 BY MR. SOLOMON:</p> <p>21 Q. Was there ever a time when Schein did not</p> <p>22 work with buying groups?</p> <p>23 A. I believe we have always had buying</p> <p>24 groups in various forms.</p> <p>25 I would say there was a time when I</p>
106	<p>1 obviously -- so.</p> <p>2 Q. So sometime in the 1990s?</p> <p>3 A. I don't want to say. I have been in</p> <p>4 sales -- most of my sales career was in the 1980s, so</p> <p>5 I know I heard of dentists that had gotten together</p> <p>6 and formed little mini groups during that time.</p> <p>7 Q. You mentioned in your previous answer</p> <p>8 that more recently they have become more organized in</p> <p>9 a bigger part of the business. What did you mean by</p> <p>10 that?</p> <p>11 A. Well, I think, you know, again, our</p> <p>12 history shows that in the last several years that they</p> <p>13 have become -- they are either more of them forming or</p> <p>14 they are adding more members or they are becoming more</p> <p>15 able to commit volume of customers, and that is what I</p> <p>16 would suggest by organized.</p> <p>17 Q. And what is your understanding based on?</p> <p>18 A. Market intelligence, what I hear from</p> <p>19 people.</p> <p>20 Q. Would that be from people in the field?</p> <p>21 A. Yes, generally, yes.</p> <p>22 Q. Do you know whether buying groups ever</p> <p>23 approached Schein to establish supply agreements for</p> <p>24 dental products?</p> <p>25 MR. McDONALD: Object to the form, vague.</p>	108	<p>1 mentioned before they started becoming more organized</p> <p>2 where we weren't -- a lot of them were what I would</p> <p>3 call ordering aggregators where they basically just</p> <p>4 signed up dentists as members for a very low fee but</p> <p>5 couldn't commit any volume so they would basically</p> <p>6 say, all right, we have 20 or 3 members, whatever</p> <p>7 members, and those customers have access to this</p> <p>8 pricing.</p> <p>9 But it doesn't mean they are going to buy</p> <p>10 from you, it just means that they have access to the</p> <p>11 pricing, which to us is no different than mailing them</p> <p>12 a catalogue. So those kinds of groups we still don't</p> <p>13 like doing business with because if they can't commit</p> <p>14 volume there is really no reason to give them a</p> <p>15 discount because all we are doing is kind of</p> <p>16 negotiating against ourselves.</p> <p>17 Q. And what is your understanding of whether</p> <p>18 a buying group can commit volume based on?</p> <p>19 A. Based on what the buying group's rules</p> <p>20 are with its members.</p> <p>21 Q. So you understand that certain buying</p> <p>22 groups have rules surrounding volume?</p> <p>23 A. Yes.</p> <p>24 Q. And how do you know that?</p> <p>25 A. Based on intelligence I have gotten from</p>

109	<p>1 my direct reports.</p> <p>2 Q. Have you ever discussed rules surrounding</p> <p>3 volume directly with a representative of a buying</p> <p>4 group?</p> <p>5 A. I mentioned the only group I ever</p> <p>6 personally discussed it with was CDA.</p> <p>7 Q. And did you discuss volume commitments</p> <p>8 when you met with CDA?</p> <p>9 A. Yes, yes, we did.</p> <p>10 Q. So you talked a little bit about the</p> <p>11 difference between buying groups that can commit</p> <p>12 volumes and those that you believe cannot.</p> <p>13 A. Uh-huh.</p> <p>14 Q. And you said that Henry Schein Dental</p> <p>15 still doesn't like to work with those buying groups</p> <p>16 that you believe can't commit volume, is that right?</p> <p>17 A. That is generally, yes, that's right.</p> <p>18 Q. Did Henry Schein Dental ever have a</p> <p>19 policy not to work with buying groups that it believed</p> <p>20 could not commit volume?</p> <p>21 A. We certainly had discussions discouraging</p> <p>22 doing business with people that were simply looking to</p> <p>23 substantiate themselves. Whether that was</p> <p>24 characterized in e-mails or communication as we are</p> <p>25 not going to be doing business with buying groups,</p>	111	<p>1 that right?</p> <p>2 A. I believe, yes, I believe we have had</p> <p>3 discussions about doing business with certain types of</p> <p>4 buying groups that we don't believe bring value to</p> <p>5 their members.</p> <p>6 Q. So those discussions, those were</p> <p>7 internally, is that right?</p> <p>8 A. Yes.</p> <p>9 Q. And who were you trying to discourage</p> <p>10 from doing business with buying groups?</p> <p>11 MR. McDONALD: Object to the form.</p> <p>12 THE WITNESS: Well, it would be anybody</p> <p>13 on our team.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. And why were you discouraging people on</p> <p>16 your team from doing business with certain types of</p> <p>17 buying groups?</p> <p>18 A. I thought I just answered that. The</p> <p>19 buying group is not providing any value to its</p> <p>20 customers, they are simply trying to insert themselves</p> <p>21 between us and the customer and we just didn't see any</p> <p>22 reason to do that if they couldn't commit volume.</p> <p>23 Q. How would you discourage members of</p> <p>24 Schein's team from doing business with those entities?</p> <p>25 A. Well, any time they are coming up in the</p>
110	<p>1 that would be labeling that group as a buying group,</p> <p>2 that type of customer as a buying group. As I said,</p> <p>3 we have done business with buying groups for years.</p> <p>4 Q. You mentioned you had discussions</p> <p>5 discouraging doing business with people that were</p> <p>6 simply looking to substantiate themselves. Who are</p> <p>7 those discussions with?</p> <p>8 A. You mean internally? I don't know quite</p> <p>9 what you mean by that, who are those discussions with,</p> <p>10 within Schein?</p> <p>11 Q. I don't know, that is why I am asking</p> <p>12 you, you mentioned you had discussions --</p> <p>13 A. We had talk between Tim, myself, Joe,</p> <p>14 different people within the sales groups about what is</p> <p>15 kind of bubbling up out there, we want to be active in</p> <p>16 the market and we want to compete in the market. We</p> <p>17 are always aware of what is happening. I think the</p> <p>18 term buying group and the term GPO sometimes get used</p> <p>19 loosely.</p> <p>20 Q. You mentioned those discussions were</p> <p>21 surrounding discouraging doing business with certain</p> <p>22 buying groups.</p> <p>23 Is that --</p> <p>24 A. Certain types.</p> <p>25 Q. Certain types of buying groups, do I have</p>	112	<p>1 marketplace of one form, it would go to management and</p> <p>2 management would go to management and talk about it</p> <p>3 and that is how we would say, okay, what is this, this</p> <p>4 is nothing more than a buying club or a buying group,</p> <p>5 as I said the term is used a little loosely, and</p> <p>6 doesn't really bring any value to the customer, cannot</p> <p>7 commit value, doesn't meet certain criteria, and we</p> <p>8 choose not to bid on the business.</p> <p>9 Q. And what criteria are you referring to?</p> <p>10 A. If they can't commit volume, I mention</p> <p>11 that, another thing we look for do they provide a</p> <p>12 value to the customer other than just aggregating</p> <p>13 their purchases. In the role of the CDA they provide</p> <p>14 a number of value to their customers, to their</p> <p>15 members, as do other buying groups.</p> <p>16 Q. What do you mean by value?</p> <p>17 A. Do they do something for them that is</p> <p>18 helpful, do they help them with continuing education,</p> <p>19 do they do something in helping negotiate insurance</p> <p>20 benefits, do they do -- there is a variety of</p> <p>21 different elements they can take.</p> <p>22 Q. Why are those aspects important to</p> <p>23 Schein?</p> <p>24 A. Well, we want to do business with people</p> <p>25 that if they are belonging to a particular -- if a</p>

113

1 dentist belongs to a certain group, you know, we
 2 believe that that group should probably provide some
 3 value to the customer other than just -- otherwise the
 4 doctor can get a better deal on their own from us.
 5 **Q. Why do you -- why is that important to**
 6 **Schein?**
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: I am still -- I don't quite
 9 understand the question.
 10 MR. SOLOMON: Court reporter, can you
 11 repeat the question?
 12 (Record read as requested.)
 13 MR. McDONALD: Same objection.
 14 THE WITNESS: I don't understand the form
 15 of the question.
 16 BY MR. SOLOMON:
 17 **Q. Sure.**
 18 **I think you just mentioned a few**
 19 **different things, you want to do business with people**
 20 **belonging to a certain group, they should provide some**
 21 **value to the customer other than just getting a better**
 22 **deal.**
 23 A. Uh-huh.
 24 **Q. Does that accurately sum up what you just**
 25 **stated?**

114

1 A. Yes, I think so. Except -- let me just
 2 qualify the better deal.
 3 The better deal issue is that in almost
 4 every case we have looked at a dentist can do better
 5 negotiating with us on their own committing volume
 6 than they can working through a buying group.
 7 **Q. How do you know that?**
 8 A. Experience.
 9 **Q. Can you be more specific what you mean by**
 10 **experience?**
 11 MR. McDONALD: Objection, form.
 12 THE WITNESS: I mean, a doctor who buys
 13 \$40,000 a year in dental supplies and sits down with
 14 us and says I am going to buy \$40,000 from you, I am
 15 going to do this, I am going to do this, and I am
 16 going to do this will get a better deal than we can
 17 give to a buying group which can't commit that.
 18 BY MR. SOLOMON:
 19 **Q. How do you know that?**
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: It is based on basic
 22 business, I think.
 23 BY MR. SOLOMON:
 24 **Q. Have you personally been involved in any**
 25 **of those discussions that you just referred to?**

115

1 A. I just mentioned the only one I have been
 2 involved with is the CDA.
 3 **Q. What do you mean by a better deal for**
 4 **customers?**
 5 A. Larger discount or lower pricing.
 6 **Q. Have you ever looked at the types of**
 7 **pricing or discounts that buying groups provide to**
 8 **their members?**
 9 A. Let me understand that. You are saying
 10 have I ever looked at what buying groups provide to
 11 their members in terms of pricing?
 12 **Q. Right.**
 13 A. I am only familiar with the ones we have
 14 negotiated with and, again, I have only personally
 15 been involved with one of them.
 16 **Q. You also talked a little bit about value,**
 17 **I think you used that term a few times, and I just**
 18 **want to understand what would be encompassed in the**
 19 **term value.**
 20 **What do you mean by the term value?**
 21 A. Well, we believe that customers buy based
 22 on what a perceived value is from a particular place,
 23 the reason some people go to Nordstrom and other
 24 people go to Wal-Mart, there is reasons why, there is
 25 services you get, there is elements of what you do,

116

1 and so we believe the value of putting in a
 2 professional salesperson and the service support
 3 behind that salesperson that is expensive to provide
 4 that we do, and others do, is a value to the customer.
 5 If we didn't we wouldn't do it. It is a very
 6 expensive thing to do. So that is why we put that in,
 7 we believe that is a value to the customer, along with
 8 the prices we sell at.
 9 **Q. And you also talked about the fact that**
 10 **you think buying groups don't provide value to their**
 11 **members, is that right?**
 12 A. It is not what I said.
 13 MR. McDONALD: Object to form.
 14 BY MR. SOLOMON:
 15 **Q. Do you think that buying groups provide**
 16 **value to their members?**
 17 A. I think some do.
 18 **Q. In what ways?**
 19 A. I already mentioned, some of them
 20 negotiate insurance rates, some provide continuing
 21 education, some provide an atmosphere of regular
 22 meetings, some provide clinical work, some have their
 23 own KOLs, there is a lot of different elements of
 24 that.
 25 **Q. Forgive me if I asked a question and you**

29 (Pages 113 to 116)

117

1 already mentioned it, I appreciate you letting me
2 know, it is probably because I just want a little more
3 clarity, apologies in advance.

4 A. All right.

5 **Q. Did Schein ever -- strike that.**

6 So you talk a little about internal
7 discussions discouraging team members from doing
8 business with certain types of buying groups, do you
9 recall that discussion?

10 A. Yes.

11 **Q. And you talked a little bit about
12 management would take a look at certain buying groups
13 and determine whether or not Schein should do business
14 with those groups.**

15 A. Yes.

16 **Q. Do you know who made those decisions
17 within Henry Schein Dental's management?**

18 A. It could be a variety of people along the
19 chain. The regional manager is the lowest level -- I
20 shouldn't say lowest, they are the closest to the
21 field, they supervise the actual field salespeople.
22 They can say, no, this isn't what I really want to
23 pursue. They go to the zone manager who is their boss
24 who also has the authority to say no and then it would
25 go to a Joe or his counterpart and they could say no

118

1 and then it would come to me or Tim.

2 **Q. Have you ever looked at a buying group
3 and determined that Schein should not do business with
4 it?**

5 A. Yes.

6 **Q. On how many occasions have you made those
7 determinations?**

8 A. I have no idea.

9 **Q. Have you made -- strike that.**

10 **Would you discuss those buying groups
11 with Mr. Sullivan?**

12 MR. McDONALD: Object to the form.

13 THE WITNESS: On some occasions if they
14 made it up to me, yes.

15 BY MR. SOLOMON:

16 **Q. You said if they made it up to me. Who
17 is the they that you are referring to?**

18 A. If the buying group decision made its way
19 up to my desk I would probably talk to Mr. Sullivan
20 about it before we would do anything. I mean, he was
21 very well aware of the CDA and what was going on
22 there, for example.

23 **Q. Got it.**

24 **So you and Mr. Sullivan would have a
25 discussion about whether or not Schein should do**

119

1 **business with certain buying groups?**

2 MR. McDONALD: Object to the form,
3 misstates the testimony.

4 THE WITNESS: If they made it up that
5 far, yes, we would. As I said, they could be objected
6 to anywhere along the line.

7 BY MR. SOLOMON:

8 **Q. Did you ever provide guidance to
9 employees who were below you regarding whether Schein
10 should do business with certain buying groups?**

11 A. I think the word ever is what bothers me.
12 You know, ever is a long time.

13 Have we ever said we don't like buying
14 groups or we don't like buying clubs, yes, I am sure
15 we said that along the line.

16 As I said, we have been doing business
17 with them in one form or another for years so that
18 statement in itself contradicts what is actually
19 happening, so if I am saying that it is actually not
20 true because in some cases we are already doing
21 business with somebody. I am sure there have been
22 discussions where we have said let's not do business
23 with buying groups. But, as I said, we have already
24 been doing business with buying groups.

25 **Q. Do you know how often you would have**

120

1 **those discussions?**

2 MR. McDONALD: Object to the form.

3 THE WITNESS: Whenever one came up to me
4 would be the only time I would be involved.

5 BY MR. SOLOMON:

6 **Q. Do you believe that GPO's -- strike that.
7 Do you believe that buying groups can be
8 a risk to Schein's business?**

9 MR. McDONALD: Object to the form, overly
10 broad, vague.

11 THE WITNESS: The word can is a little --
12 it could -- could they be? Potentially they could be
13 a risk, but they also can be an opportunity, they can
14 provide an opportunity to grow the business because a
15 buying group, for example, we just signed on with a
16 company called Smile Source, that gave us access to
17 customers that we didn't have, so that was an
18 opportunity.

19 Where it can be a risk is if they come in
20 and are taking Schein accounts and then we are
21 basically -- we could be losing business in that
22 sense.

23 It really is both.

24 BY MR. SOLOMON:

25 **Q. You mentioned a company called Smile**

121	123
<p>1 Source. When did Schein first form a relationship 2 with Smile Source? 3 MR. McDONALD: Object to the form, lack 4 of foundation. 5 THE WITNESS: I believe it was late '90s, 6 early 2000s because they were originally a special 7 markets account. 8 BY MR. SOLOMON: 9 Q. Did they ever become a Henry Schein 10 Dental account? 11 A. Yes. 12 Q. When was that? 13 A. I don't exactly remember the year it 14 happened. 15 But special markets made the 16 determination that Smile Source really was -- since it 17 was private practice dentists that were members of it, 18 it belonged with Henry Schein Dental and then it went 19 to Henry Schein Dental, and I believe we subsequently 20 lost the business. 21 Q. Do you know when Schein lost that 22 business? 23 A. No. 24 Q. And so you mentioned in your prior answer 25 we just signed on with a company called Smile Source,</p>	<p>1 don't know who would be on the list, we have -- I 2 guess we would have to go to Brian Brady or someone in 3 the mid market group. 4 Q. Are buying groups an important part of 5 Schein's business? 6 MR. McDONALD: Object to the form, vague. 7 THE WITNESS: Well, I think everything is 8 an important part of Schein's business. It is a 9 growing part of Schein's business. 10 BY MR. SOLOMON: 11 Q. Have buying groups historically been an 12 important part of Schein's business? 13 MR. McDONALD: Object to the form, vague. 14 THE WITNESS: Well, I think I already 15 testified that they -- we have been doing business 16 with them for years in a more casual basis and it has 17 become more formal in the last couple of years as they 18 become -- they have kind of become some different 19 types of entities. 20 BY MR. SOLOMON: 21 Q. When you say that Schein has been doing 22 business with buying groups in a more casual basis, 23 what do you mean? 24 A. Maybe that is a bad term. 25 What I mean was that they were smaller</p>
<p>122</p> <p>1 do you know when that was? 2 A. It was very recent, I want to say early 3 this year. 4 Q. Do you know who was responsible for 5 bringing Smile Source back into Henry Schein's 6 business as a customer? 7 A. There were a number of people. I was not 8 one of them, but there were a number of people that 9 did it. Joe Cavaretto was sort of the main person, 10 but there were others, Brian Brady was involved, Tim 11 was involved. And a couple other people, too. 12 Q. You mentioned that Schein has done 13 business with buying groups. Can you name any buying 14 groups that Schein has done business with other than 15 Smile Source? 16 A. Well, there is Dental Gator that I know 17 is out there. 18 There is a long list of them and, no, I 19 don't recall off the top of my head a lot of names 20 that are on that list. 21 Q. Do you know how many names would be on 22 that list? 23 A. I can't tell you, no. 24 Q. Do you know who would know? 25 A. We could certainly compile a list, I</p>	<p>124</p> <p>1 and they were more localized, and usually that 2 decision was made by the local manager. 3 MR. SOLOMON: I think we can take a quick 4 break. 5 (Recess taken.) 6 BY MR. SOLOMON: 7 Q. Mr. Steck, I just want to circle back on 8 a couple quick things we discussed before the break. 9 You talked about GPOs not existing within 10 the dental industry to your understanding. Do I have 11 that correct? 12 A. As they exist in medical, yes, I would 13 say that. 14 Q. Do GPOs exist at all in the dental 15 industry? 16 MR. McDONALD: Object to the form. 17 THE WITNESS: Well, again, as I 18 understand the definition of GPO, buying clubs 19 certainly exist, buying groups exist, but GPOs as I 20 understand the definition, no, they don't currently. 21 BY MR. SOLOMON: 22 Q. And when did you form that understanding? 23 MR. McDONALD: Object to the form. 24 THE WITNESS: I guess the last three or 25 four years, whenever we -- they first -- the names</p>

125	<p>1 started coming up, I can't tell exactly when that was.</p> <p>2 BY MR. SOLOMON:</p> <p>3 Q. Have you ever used the term GPO to refer</p> <p>4 to a buying group?</p> <p>5 A. Yes, I am sure we have. As I said</p> <p>6 earlier, the definition of the two gets a little loose</p> <p>7 sometimes.</p> <p>8 Q. So you understood the difference between</p> <p>9 GPOs and buying groups, but you used the term GPO</p> <p>10 because you were just conflating the two?</p> <p>11 MR. McDONALD: Object to the form.</p> <p>12 THE WITNESS: Yeah, I probably was and</p> <p>13 others probably were as well.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. Also before the break I think a little</p> <p>16 bit earlier today we discussed corporate accounts,</p> <p>17 some of them fall within mid market, others are part</p> <p>18 of special markets. Do you normally refer to</p> <p>19 corporate accounts as corporate accounts or DSOs or</p> <p>20 something else?</p> <p>21 A. That is an interesting question because</p> <p>22 there is a number of different elements.</p> <p>23 Corporate account typically refers to</p> <p>24 something that is in special markets, it is a large</p> <p>25 entity, the term.</p>	127	<p>1 A. Yes, larger ones would be part of that,</p> <p>2 yes.</p> <p>3 Q. And the middle market accounts, which are</p> <p>4 smaller corporate accounts, would those also be called</p> <p>5 DSOs or something else?</p> <p>6 A. They could be called DSOs, small DSOs.</p> <p>7 Q. Also before the break we talked a little</p> <p>8 bit about the difference between certain types of</p> <p>9 buying groups that you have encountered, and you</p> <p>10 talked a little bit about ones that you believe</p> <p>11 offered value and ones that can offer volume</p> <p>12 commitment. Do you recall that discussion?</p> <p>13 A. Yes.</p> <p>14 Q. What does Schein do to learn about what a</p> <p>15 buying group's rules are with respect to volume</p> <p>16 commitments?</p> <p>17 A. Well, whoever is the contact at Schein</p> <p>18 presumably would ask that question as part of kind of</p> <p>19 getting to know whoever.</p> <p>20 Most cases the buying groups, at least up</p> <p>21 until now, have approached us rather than us</p> <p>22 approaching them. Now, maybe that is changing now</p> <p>23 with some of the market dynamics, but when they</p> <p>24 approach us we typically ask questions like how are</p> <p>25 you organized, how do your members buy in, what are</p>
126	<p>1 Then they changed -- they decided they</p> <p>2 wanted to be referred to as DSOs, I am not sure</p> <p>3 exactly when that was, but it was a number of years</p> <p>4 ago.</p> <p>5 So then we have large DSOs and small</p> <p>6 DSOs.</p> <p>7 And so large DSOs are typically what I</p> <p>8 would call a corporate account, and those would be in</p> <p>9 the special market groups.</p> <p>10 Smaller DSOs would be in either the</p> <p>11 bottom end of the special markets group or the high</p> <p>12 end of what we call mid market.</p> <p>13 Q. And what is a DSO?</p> <p>14 A. Dental service organization.</p> <p>15 Q. What is a dental service organization?</p> <p>16 A. It is the name they have chosen to refer</p> <p>17 to themselves as.</p> <p>18 Q. So it is a term used to refer to</p> <p>19 corporate accounts?</p> <p>20 A. Yes, multi, I would say, yes, it is a</p> <p>21 term that they have chosen to refer to multi-location</p> <p>22 dental offices under a single ownership.</p> <p>23 Q. And apologies if I don't have this</p> <p>24 correct. So DSOs would fall under the special markets</p> <p>25 purview, the larger ones would, is that right?</p>	128	<p>1 their commitments to you, how does it all happen, how</p> <p>2 many do you have. Those are all qualifying questions.</p> <p>3 There is not a formal process that I am aware of.</p> <p>4 Q. Mr. Steck, we are just going to take a</p> <p>5 look at some documents.</p> <p>6 A. Okay.</p> <p>7 (Document identified as Exhibit 229 for</p> <p>8 identification.)</p> <p>9 BY MR. SOLOMON:</p> <p>10 Q. Mr. Steck, the court reporter has handed</p> <p>11 you Exhibit 229. Can you please just take a look at</p> <p>12 that and let me know when you have had a chance to</p> <p>13 read it.</p> <p>14 A. Okay.</p> <p>15 Q. Mr. Steck, did you prepare this document?</p> <p>16 A. Yes.</p> <p>17 Q. Do you recall preparing this document?</p> <p>18 A. No. It was four years ago, five years</p> <p>19 ago, but I don't recall -- definitely I wrote it.</p> <p>20 Q. So this would have been in the 2012/2011</p> <p>21 timeframe?</p> <p>22 A. I am not sure. It says other projects</p> <p>23 2012, so I would guess that is when it was.</p> <p>24 Q. How often do you prepare reports such as</p> <p>25 these?</p>

129

1 A. Well, it goes on and off. I would like
2 to say every month or every six weeks or so we do
3 different types of reports, but this one I have never
4 been as consistent with it as I would like to be.
5 **Q. Do you prepare these reports for your own**
6 **personal reference?**
7 A. No. These are usually sent to Tim.
8 **Q. Does Tim ask that you prepare these on**
9 **any regular basis?**
10 A. He will say please start sending them
11 again, I will send them, things happen and we start
12 sending them again, it is just -- it is off and on.
13 **Q. Why does Tim -- strike that.**
14 **Do you know why Mr. Sullivan asks you to**
15 **prepare reports such as these?**
16 A. I think two reasons, one is that, again,
17 you need to ask him, but I believe it is so, A, he has
18 a good document to when we meet personally to kind of
19 go through and kind of tick off things that discuss
20 order of review; and the other is the event he is
21 asked by his superiors what is going on so he can
22 forward the document.
23 **Q. Do you recall meeting with Mr. Sullivan**
24 **to discuss this particular activity report?**
25 A. No.

130

1 **Q. Turning to the first bullet point of this**
2 **report, I think it says FMM preparation, do you see**
3 **that?**
4 A. Yes.
5 **Q. What is FMM?**
6 A. Field management meeting.
7 **Q. What is that?**
8 A. That is a meeting we have every January
9 in Wisconsin and it is typically we bring in all our
10 regional and zone managers, it is a sales manager
11 meeting.
12 **Q. And who is in charge of leading that**
13 **meeting?**
14 A. I am.
15 **Q. What is the purpose of those meetings?**
16 A. Well, it is the only time we get our
17 managers together all year by themselves and so it is
18 to try to help them be successful throughout the year,
19 help them put together a business plan for the year,
20 help them to talk about the initiatives going within
21 the company. Mostly information sharing.
22 **Q. And where do these meetings usually take**
23 **place?**
24 A. I mentioned already in Milwaukee.
25 **Q. Thank you.**

131

1 **Turning to the last bullet point on this**
2 **page, it begins with FDA partnership, do you see that?**
3 A. Yes.
4 **Q. Do you understand the FDA to be the**
5 **Florida Dental Association?**
6 A. Yes.
7 **Q. And is the Florida Dental Association a**
8 **state association similar to the California Dental**
9 **Association?**
10 A. Yes, it is.
11 **Q. Reading this paragraph here, you wrote**
12 **"Have had two internal calls and one external call on**
13 **partnering with the Florida Dental Association." Do**
14 **you see that?**
15 A. Yes.
16 **Q. With whom did you speak internally about**
17 **partnering with the FDA?**
18 A. It would have been with our zone manager
19 who at the time I believe was Jeff Reichardt and also
20 probably with director of sales who I am not sure who
21 that was at the time, that might have been Michael
22 Porro and perhaps even a regional manager, but there
23 were two or three internal people I was talking to
24 about that.
25 **Q. Do you recall those discussions?**

132

1 A. Generally.
2 **Q. And do you -- can you tell me what you**
3 **discussed?**
4 A. Well, yes, you know, we had been
5 approached by the Florida Dental Association to put
6 together a program for its members.
7 They initially came in and asked us for a
8 large discount across the board for all FDA members on
9 everything they buy regardless of whether they
10 committed volume or anything and we refused because it
11 is not within the parameters that we dealt with. But
12 we said we would be willing to work with them on some
13 other things. And so that is what we started working
14 on and that is what that was about.
15 **Q. Did the Florida Dental Association tell**
16 **you that members would not be able to commit volume as**
17 **part of this proposed or arrangement?**
18 A. They told us that the customers or their
19 members would all make their own individual buying
20 decisions so that is effectively saying, no, they
21 would not be able to commit volume.
22 **Q. You go on to write -- actually, just**
23 **turning, let's stay on that same sentence there, you**
24 **also talk about an external call that you had. Can**
25 **you tell me who that call was with?**

33 (Pages 129 to 132)

133

135

1 A. It was with two or three members of the
 2 FDA.
 3 **Q. Do you recall their names?**
 4 A. No. It was whoever the president of the
 5 FDA was at the time and two or three of their board
 6 members.
 7 **Q. And turning to the next sentence you**
 8 **write "this is the classic 'buying group' approach**
 9 **that we aren't buying into." Do you see that?**
 10 A. Yes.
 11 **Q. Does "we" refer to Schein Dental?**
 12 A. Yes.
 13 **Q. Why was Schein Dental not interested in**
 14 **working with buying groups such as the one started by**
 15 **the Florida Dental Association?**
 16 A. Well, we would have -- we were interested
 17 or we wouldn't have been talking to them.
 18 The issue was that they were not able to
 19 commit volume for their members or give us any kind of
 20 minimum purchase levels that would allow a discount to
 21 take place or a reduced pricing arrangement. So we
 22 ultimately did make them an offer, but they chose to
 23 go with someone different.
 24 **Q. And what was the offer that Schein made**
 25 **to the FDA?**

1 A. Well, I think what I kind of said
 2 earlier, it was just a group of dentists that there
 3 was no -- they were just looking for a group discount
 4 for no particular reason and no particular commitment.
 5 That to me is what a classic buying group as I
 6 mentioned earlier is.
 7 **Q. Would you say that classic -- the term --**
 8 **strike that.**
 9 **Would you say that the term classic**
 10 **buying group as you use it in this sentence would**
 11 **apply to all state dental association buying groups?**
 12 MR. McDONALD: Object to the form, overly
 13 broad, lack of foundation.
 14 THE WITNESS: Not necessarily. There are
 15 clearly some that wanted to take the same approach and
 16 then there is others like the CDA that was not that
 17 was looking for a different type of arrangement.
 18 BY MR. SOLOMON:
 19 **Q. And how did the CDA arrangement differ**
 20 **from the FDA arrangement?**
 21 A. They required the doctor to purchase an
 22 additional membership into their own what they called
 23 The Dental Solutions Company, which was a subsidiary
 24 of the CDA. And at that time they were supposed to
 25 commit so much of their volume by doing that if they

134

136

1 A. Well, I think it refers to it in here, we
 2 are going to pull together some special speaking
 3 arrangements or seminars for them around the state in
 4 terms of trying to survive the current economic
 5 climate because that was really the genesis of the
 6 entire discussion started from them because they felt
 7 their members were under undue economic stress because
 8 of a number of variety of things that had happened.
 9 And so we offered that if a customer signed up on a
 10 plan we would normally offer a \$25,000 customer that
 11 they could get that same plan with a \$15,000
 12 commitment. So we gave them a reduced commitment to
 13 get the pricing, but it still required a commitment
 14 and call that an FDA benefit.
 15 **Q. You mentioned that the FDA ultimately**
 16 **decided to work with a different distributor, is that**
 17 **right?**
 18 A. Yes.
 19 **Q. Do you recall which distributor that was?**
 20 A. I am not sure, but it wasn't us.
 21 **Q. Turning back to the last sentence we**
 22 **focused on, you referred to classic buying group**
 23 **approach.**
 24 A. Uh-huh.
 25 **Q. What did you mean by that term?**

1 were going to take advantage of it.
 2 **Q. Are you aware any other buying group**
 3 **approaches apart from the classic buying group**
 4 **approach that you referred to here?**
 5 MR. McDONALD: Object to the form, overly
 6 broad.
 7 THE WITNESS: Well, I mentioned, there
 8 are once, again, that have always existed that could
 9 commit volume. There were a couple in the CHC space
 10 that have existed for a long time that we do business
 11 with. As I mentioned, there were others that were out
 12 there, too, that were more smaller.
 13 BY MR. SOLOMON:
 14 **Q. So has Schein worked with buying groups**
 15 **that are in the CHC space?**
 16 A. Yes.
 17 **Q. And do the buying groups in the CHC space**
 18 **commit to volume purchasing requirements with Schein?**
 19 A. Yes, they normally can commit -- I don't
 20 know if they -- I shouldn't say that. I don't know
 21 that they -- I have not been directly conversational,
 22 I know those numbers go back a number of years and
 23 that virtually all the CHCs follow them.
 24 **Q. Do you know who would know that**
 25 **information?**

137

139

1 A. Whoever negotiates those agreements, and
 2 I am not even sure who that is right now.
 3 **Q. So turning back to your discussion with**
 4 **Mr. Sullivan I think you testified you discussed this**
 5 **particular opportunity with Mr. Sullivan after you**
 6 **prepared this report, is that right?**
 7 A. Yes.
 8 **Q. And do you recall your discussion with**
 9 **Mr. Sullivan?**
 10 A. No.
 11 **Q. Turning to the last sentence in this**
 12 **paragraph, I will read the whole sentence but then I**
 13 **will just focus on one part of it. "We are presenting**
 14 **this on Wednesday and they may choose to look**
 15 **elsewhere, but this is as far as we can go in**
 16 **everyone's estimation."**
 17 **I just want to focus on the last part,**
 18 **"but this is as far as we can go in everyone's**
 19 **estimation," do you see that?**
 20 A. Yes.
 21 **Q. What does that refer to?**
 22 A. The group of people internally that were
 23 discussing it felt that the approach we were taking
 24 with them was fair and was as far as we should go
 25 given the fact it was a non-committed relationship.

1 A. Yes.
 2 **Q. And I want to focus on the middle of the**
 3 **page, your e-mail to Mr. Hinsch, at 11:59 a.m., you**
 4 **say "here is the best I can explain it," and you write**
 5 **"there are three types of buying groups," and kind of**
 6 **want to walk through what you wrote here, the three**
 7 **different types.**
 8 **You write "The first type we don't want**
 9 **anything to do with as they are short-lived and not**
 10 **well funded."**
 11 **What type of buying group were you**
 12 **referring to in that sentence?**
 13 A. A number of people who have tried to go
 14 into the space have gone out of business and they
 15 typically are just trying to get a piece of the
 16 dentist, their whole purpose is to try to get
 17 membership fees in the dentist and a rebate from us.
 18 And so in some cases they have not been able to
 19 survive because they have never been able to do a
 20 value to the customer and also, you know, just we are
 21 not on good financial, sound bases so we just don't
 22 want to be doing business with people like that.
 23 **Q. What is your understanding of that type**
 24 **of buying group based on?**
 25 A. Based on history, we have seen a number

138

140

1 **Q. Apart from yourself and Mr. Sullivan and**
 2 **the two salespeople in Florida, was there anyone else**
 3 **that was a part of this discussion surrounding working**
 4 **with the FDA?**
 5 A. I don't remember.
 6 (Document identified as Exhibit 230 for
 7 identification.)
 8 BY MR. SOLOMON:
 9 **Q. Mr. Steck, the court reporter has handed**
 10 **you Exhibit 230, if you would mind just taking a look**
 11 **and let me know if you have had a chance to read it.**
 12 A. Okay.
 13 **Q. Mr. Steck, do you recall this e-mail**
 14 **discussion?**
 15 A. Yes.
 16 **Q. This is an e-mail chain between yourself**
 17 **and Mr. Hinsch and some other Schein employees in**
 18 **September of 2015, is that right?**
 19 A. The beginning of it was several
 20 employees, and after that it became just Paul and me
 21 going back and forth.
 22 **Q. Thanks for that clarification.**
 23 **So on the first page it looks like this**
 24 **is -- this is where it just dropped off to a**
 25 **discussion between you and Mr. Hinsch, right?**

1 of them that didn't make it.
 2 **Q. Have you discussed that type of buying**
 3 **group with sales representatives at any point?**
 4 A. Not that I remember, but I may have.
 5 **Q. Does Schein use a term internally to**
 6 **refer to those types of buying groups?**
 7 A. Not that I remember, not that I am aware
 8 of.
 9 **Q. Turning to the second type, you write**
 10 **"The second type are things like dental associations**
 11 **which are really affiliate buying groups." Do you see**
 12 **that?**
 13 A. Yes.
 14 **Q. And then you write "that was what we**
 15 **discussed today."**
 16 **Why did you categorize state dental**
 17 **associations as a separate type of buying group?**
 18 A. Because they are ones that people are
 19 members of already that want to add in a buying group
 20 component.
 21 **Q. And how does that differ from other types**
 22 **of buying groups?**
 23 A. Because other buying groups are trying to
 24 sell memberships to join the group, these people are
 25 already members of this group.

35 (Pages 137 to 140)

141

1 **Q. Are there any other ways in which dental**
2 **associations are different from other types of buying**
3 **groups?**

4 MR. McDONALD: Object to the form, overly
5 broad.

6 THE WITNESS: Lots of ways. Dental
7 associations present all kinds of benefits for their
8 members whereas a buying group of first order simply
9 has one benefit, they think they are trying to get
10 their customers a better deal.

11 BY MR. SOLOMON:

12 **Q. And what is your understanding of that**
13 **difference based on?**

14 A. Experience.

15 **Q. Any personal experience?**

16 A. Well, I mentioned I have already
17 testified I was involved with the CDA and well before
18 that with the FDA in that sense. I have very little
19 experience with the first type of buying group
20 personally.

21 **Q. Turning to -- I want to move on to the**
22 **next sentence, you write "The third ones like Smile**
23 **Source, ADP, Kois, Dental Gator and a few others can**
24 **commit business. This third type are the ones we**
25 **don't want our customers to join." Do you see that**

142

1 sentence?

2 A. Yes.

3 **Q. So I just want to start, my first**
4 **question is how is this third type of buying group**
5 **distinct from other types of buying groups in your**
6 **mind?**

7 A. Well, this is the type of group that I
8 mentioned earlier that provide a value beyond just
9 aggregating dental purchases and can commit a volume.

10 **Q. So is it fair to say that the type of**
11 **buying groups you list here, Smile Source, ADP, Kois,**
12 **Dental Gator, are ones that you think can commit**
13 **volume?**

14 A. Yes.

15 **Q. Why did Schein not want its customers to**
16 **join this type of buying group?**

17 MR. McDONALD: Object to the form.

18 THE WITNESS: Well, I mean, as you can
19 see we do business with Gator, we now do business with
20 Smile Source, so this is one of those things as I
21 mentioned as part of the business is somewhat
22 evolving. The issue with them joining that is that
23 the loyalty of the customer in some cases we are
24 concerned transfers to the buying group and not to us
25 and so we want to make sure the customer's primary

143

1 loyalty is to Henry Schein so that they consider
2 themselves a Schein customer and not necessarily a
3 Dental Gator customer.

4 BY MR. SOLOMON:

5 **Q. And how do you know that a customer's**
6 **loyalty would shift from Henry Schein to a buying**
7 **group?**

8 A. We don't know that. We were fearful of
9 that. So -- in fact, we have seen in some cases that
10 wasn't the case, but we were fearful of the fact that
11 if Dental Gator then or somebody decided they didn't
12 want to do business with Schein anymore as their
13 distributor they could move a large block of business.

14 **Q. Did that fear stem from anything that**
15 **buying groups told you in particular?**

16 A. Not really, no, just knowing how they
17 work.

18 **Q. What about buying groups that had**
19 **customers who were not previously Henry Schein**
20 **customers, would that fear still apply?**

21 A. Not to the same degree, no, because it is
22 new business.

23 **Q. Was Schein interested in gaining new**
24 **business from buying groups?**

25 A. We are always interested in gaining new

144

1 business, yes.

2 **Q. Did Schein do anything to determine**
3 **whether buying groups such as the ones listed here as**
4 **the third type did Schein ever do anything to**
5 **determine whether those buying groups had customers**
6 **who were already working with Henry Schein?**

7 A. I believe -- again, I wasn't involved in
8 any of these particular discussions, but I believe
9 typically when we get into a negotiation with a group
10 we do -- if they will furnish us their member source
11 we do see how many are currently doing business with
12 Schein.

13 **Q. At the time of this e-mail do you know**
14 **whether Henry Schein Dental was working with Smile**
15 **Source?**

16 A. I can't speak to the time of this e-mail.
17 As I said, we had them originally, we lost them, we
18 tried to get them back, I was involved in that, and we
19 didn't get them back, and then this happened. Again,
20 I was referring to obviously recently we got involved
21 with them again.

22 **Q. At the time of this e-mail is it fair to**
23 **assume that Schein did not want its customers to work**
24 **with or join Smile Source?**

25 A. Yes, because at that time we were not

145

1 authorized to work with Smile Source.

2 **Q. The same question but for ADP.**

3 A. Yes, except -- I can't even remember what
4 ADP is.

5 **Q. And then the same question for Kois.**

6 A. It is Kois. Yes, they are with Burkhart,
7 they were a different distributor, so we wouldn't want
8 them to join the group because we would lose the
9 business.

10 **Q. And then the same question for Dental
11 Gator.**

12 A. Dental Gator we did have the business
13 with already so that is not as big a problem.

14 **Q. I would like to back up a little bit and
15 ask, do you know why Mr. Hinsch was asking about
16 buying groups in this e-mail?**

17 A. I think it was if you will read the
18 e-mail it goes back to what the G Plan is, which we
19 discussed earlier, and his concern was that the G Plan
20 would be widely distributed as an effective pricing
21 arrangement for anybody who joined a buying club
22 whether they were committed to the business or not.

23 **Q. And why was he concerned about that?**

24 MR. McDONALD: Object to the form.

25 THE WITNESS: Because we preferred to

147

1 A. No, typically not.

2 **Q. Do you know whether the Select program
3 was ever launched?**

4 A. It really wasn't.

5 **Q. Do you know why?**

6 A. I think a couple of things. One is that
7 we began getting much more active and found out that
8 some of these buying groups were -- actually could be
9 decent customers and there really wasn't a reason to
10 have to try to take customers out of them. And I
11 think we are -- you know, it just never kind of took
12 wings. We have plenty of other pricing plans that we
13 reviewed earlier and customer loyalty programs which
14 we have not talked about that keep a customer with
15 Schein that are intended to keep a customer with
16 Schein and we just ultimately decided we didn't need
17 anything like this.

18 **Q. You just mentioned in your prior answer
19 that Schein found out that some of these buying groups
20 could actually be decent customers and there really
21 wasn't a reason to have to try to take customers out
22 of them. How did Schein learn that information?**

23 A. By doing business with some of them.

24 **Q. Do you have any examples of buying groups
25 you have done business with that you learned that**

146

1 offer that to people who have committed business.

2 BY MR. SOLOMON:

3 **Q. You go on to write "This is why Brady is
4 developing the Select Program as a back pocket method
5 of keeping customers from joining when they are
6 considering it." Do you see that?**

7 A. Yes.

8 **Q. What is the Select Program?**

9 A. Well, Select is what we now call the mid
10 market small DSOs so we call large ones Elite, we call
11 mid market ones Select.

12 But the Select program initially was
13 intended as a special pricing plan, which in this case
14 was the G Plan, as well as other benefits that we were
15 going to package into a particular plan that we would
16 offer to customers if they were interested in joining
17 a buying group.

18 **Q. And how would Schein determine whether
19 its customers were interested in joining a buying
20 group?**

21 A. Usually the doctor would tell a
22 salesperson, otherwise we wouldn't know.

23 **Q. Would sales representatives normally ask
24 dentists whether they were interested in joining
25 buying groups?**

148

1 **information?**

2 A. Well, there is -- I do not personally,
3 there is a long schedule of buying groups we do
4 business with that you probably have.

5 **Q. So the Select program never was
6 established, right?**

7 A. Not -- the word Select was then changed
8 and used to define smaller DSOs. It was never
9 established into a program for private practice
10 dentists to try to keep them from joining the buying
11 groups.

12 **Q. Did Schein do anything else to try to
13 prevent its customers from joining the third type of
14 buying group mentioned in your e-mail?**

15 A. Not --

16 MR. McDONALD: Hang on, object to form.

17 THE WITNESS: Not in an organized way. I
18 am sure individual salespeople found out doctors were
19 going to join a buying group and tried to give them a
20 better individual price, but not anything on a large
21 scale.

22 (Document identified as Exhibit 231 for
23 identification.)

24 BY MR. SOLOMON:

25 **Q. Mr. Steck, the court reporter has handed**

37 (Pages 145 to 148)

149

1 you Exhibit 231. Have you had a chance to take a look
2 at it?

3 A. I have looked at the e-mail. I have seen
4 this before, the PowerPoint.

5 **Q. Do you want me to give you a chance to
6 look it over or are you ready to discuss it?**

7 MR. McDONALD: It is long, Ronnie, do you
8 want to be efficient about this, do you want to direct
9 him to certain pages to look at?

10 BY MR. SOLOMON:

11 **Q. You recall this presentation?**

12 A. I recall seeing it, yes. I was not there
13 at the meeting when it was presented.

14 **Q. You were not at the meeting?**

15 A. No.

16 **Q. Do you know who prepared this
17 presentation?**

18 A. Yes, Brad Connett.

19 **Q. And Mr. Connett --**

20 A. At the time he was my equivalent of
21 medical.

22 **Q. Do you know why Mr. Connett prepared this
23 presentation?**

24 MR. McDONALD: Object to form.

25 THE WITNESS: I do not.

151

1 A. Yes.

2 **Q. Are you familiar at all with the Georgia
3 Dental Association?**

4 A. Not much beyond what is in this e-mail
5 but, yes.

6 **Q. Are you familiar with the buying group
7 that the Georgia Dental Association established?**

8 A. I am familiar with they established one,
9 but I am not familiar with it specifically.

10 **Q. Do you know whether the Georgia Dental
11 Association asked Schein Dental to bid for purposes of
12 the buying group it was forming?**

13 A. I believe we did.

14 **Q. Do you know when that happened?**

15 A. I believe they did. I assume it was the
16 timeframe of the documents here.

17 **Q. And did Schein -- I think you said I
18 believe they did. Did Schein actually bid to enter
19 into a supply agreement with the Georgia Dental
20 Association?**

21 A. I am not sure. My memory is we
22 eventually withdrew.

23 **Q. Do you know when that took place?**

24 A. Sometime in this timeframe.

25 **Q. When did Schein withdraw?**

150

1 BY MR. SOLOMON:

2 **Q. Were you asked to attend the meeting that
3 corresponded to this presentation?**

4 A. Yes, but I wasn't able to make it.

5 **Q. Do you know whether anyone within Henry
6 Schein Dental had asked for information about GPOs
7 from Henry Schein Medical?**

8 A. I do not know that.

9 **Q. Do you know whether that was the purpose
10 of this presentation?**

11 A. I don't know the reason the presentation
12 of the meeting was called.

13 **Q. You can put that document aside for now.
14 (Document identified as Exhibit 232 for
15 identification.)**

16 BY MR. SOLOMON:

17 **Q. Mr. Steck, the court reporter has handed
18 you Exhibit 232. Would you let me know when you have
19 looked it over?**

20 A. Okay.

21 **Q. This is an e-mail between or among
22 yourself, Mr. Meadows, and Mr. Sullivan internally
23 from January of 2015, and it looks like it relates to
24 an earlier e-mail regarding the Georgia Dental
25 Association, is that right?**

152

1 MR. McDONALD: Object to the form.

2 THE WITNESS: It was similar to the
3 Florida arrangement, they wanted a blanket low price
4 list for anybody in the Georgia Dental Association
5 without committing any volume and we just weren't
6 going to do that.

7 BY MR. SOLOMON:

8 **Q. And you discussed volume commitments with
9 the Georgia Dental Association, is that right?**

10 A. I was not involved in the discussions, I
11 am not sure what was discussed. I would think it was
12 but I don't know.

13 **Q. Do you know who was involved in those
14 discussions?**

15 A. Jake is one and whoever else was involved
16 at that time, I am not sure.

17 **Q. I kind of want to -- strike that.**

18 I want to take a look at your e-mail in
19 the second page at the top, January 18, 2015 at
20 7:47 a.m., I think you are referring to Mr. Meadows,
21 and you write "Thanks, Jake. We will definitely not
22 be the low bid, but I like our chances with the
23 individual members. Interesting news and
24 unfortunately a trend." So let's just take this
25 sentence by sentence.

38 (Pages 149 to 152)

153

1 "Thanks, Jake," what were you thanking
2 Mr. Meadows here?
3 A. Just providing information.
4 **Q. Had you asked Mr. Meadows to provide**
5 **information on the GDA?**
6 A. No.
7 **Q. The next sentence "We will definitely not**
8 **be the low bid, but I like our chances with the**
9 **individual members." What did you mean when you said**
10 **"we will definitely not be the low bid"?**
11 A. Well, companies that don't have similar
12 overhead structures to ours, you mentioned a couple
13 earlier that were not full-service distributors, bid
14 on these things as well. And, honestly, these type of
15 arrangements that are non-committed typically work
16 better for them than they do for us and I knew they
17 would probably underbid us because their overhead is
18 lower.
19 **Q. Who would underbid Schein?**
20 A. Didn't we already discuss who those were?
21 **Q. That is what I am just trying to**
22 **understand.**
23 A. Darby we talked about. Safco locally.
24 And there is probably 20 other ones out there that
25 would bid on something like this.

154

1 **Q. So is it your understanding that Schein**
2 **did not ultimately bid for the GDA --**
3 A. My memory is we did not, but I am not
4 sure that is right.
5 **Q. And then you write "but I like our**
6 **chances with the individual members." What are you**
7 **referring to by individual members?**
8 A. We have market share in Georgia now and
9 if the GDA was going to put out a price list for all
10 members I felt we could probably compete with it with
11 individual members who were willing to make a
12 commitment.
13 **Q. You referred to individual members who**
14 **were willing to make a commitment. Did you know**
15 **whether the Georgia Dental Association dentists were**
16 **willing to make a commitment to Henry Schein in the**
17 **event that they worked with Henry Schein?**
18 A. I did not know that. I suspect that was
19 the case and I believe that is why we didn't bid.
20 **Q. What was your suspicion based on?**
21 A. "The way most of them have gone, you can
22 see this unfortunately a trend."
23 **Q. And what were you referring to there?**
24 A. Florida.
25 **Q. So -- I am just trying to understand.**

155

1 "The way most of them have gone, you can see
2 unfortunately this is a trend," meaning that most
3 dentists could not commit volume?
4 A. Most dental associations could not get
5 their members to commit their volume. Dentists do
6 what they are going to do, independent businesses,
7 just because I am a member doesn't mean I am going to
8 necessarily follow the plan you put out as the
9 administrator of that association.
10 **Q. When you write "I like our chances with**
11 **the individual members," did you mean that Schein**
12 **could get those individual dentists to commit volume?**
13 A. Yes, we do today.
14 **Q. How would that happen?**
15 MR. McDONALD: Object to the form.
16 THE WITNESS: Individual conversation
17 with the field salesperson.
18 BY MR. SOLOMON:
19 **Q. And based on your earlier testimony I**
20 **understand that is a small percentage, not a majority,**
21 **of your customer base, is that right?**
22 MR. McDONALD: Object to the form.
23 THE WITNESS: I have to point out is a
24 very large part of our volume though. You keep trying
25 to say small number of customers, but the volume that

156

1 we actually do it is a high percentage of our volume,
2 big difference.
3 BY MR. SOLOMON:
4 **Q. Did you have any discussions with**
5 **Mr. Sullivan about the Georgia Dental Association's**
6 **buying group?**
7 A. Again, he was copied on this e-mail for a
8 while, I think, yes, he was on this one, so I may have
9 mentioned it in a follow-up discussion with him, but I
10 don't recall the conversation.
11 (Document identified as Exhibit 233 for
12 identification.)
13 BY MR. SOLOMON:
14 **Q. Mr. Steck, the court reporter has handed**
15 **you Exhibit 233. This is an e-mail from December --**
16 **an e-mail chain from December 11, 2015 --**
17 A. Yes.
18 **Q. -- among several different it looks like**
19 **Schein employees both from the medical and the dental**
20 **side, is that correct?**
21 A. That is the way I am reading it, yes.
22 **Q. Who is Bill Barr?**
23 A. He is on the medical side of the
24 business.
25 **Q. How do you know Mr. Barr?**

39 (Pages 153 to 156)

157

1 A. He was recommended me by Mr. McKinley.
 2 **Q. Who is Mr. McKinley?**
 3 A. He was the president of the medical
 4 business at that time.
 5 **Q. Why did Mr. McKinley recommend Mr. Barr**
 6 **to you?**
 7 A. Because Mr. McKinley and I are friendly,
 8 we get along well, and had had a discussion
 9 particularly around technology and trying to get
 10 dentists to buy expensive pieces of equipment when
 11 sometimes it economically didn't make sense for them
 12 and how could we find another method to go to market
 13 and they were talking about something that he had been
 14 previously before in the medical group, Mr. McKinley
 15 and our medical group had been at Olympus and they had
 16 come up with a methodology for getting their customers
 17 to buy expensive pieces of their equipment called a
 18 cost per procedure and Bill Barr was familiar with it
 19 so he asked me to sit there and talk to Bill about it.
 20 **Q. What is Olympus?**
 21 A. Olympus is a big company that makes
 22 cameras and things like that.
 23 **Q. Are --**
 24 A. They are not in dental.
 25 **Q. I want to just take a look at the top of**

158

1 **the third page, Henry Schein-000006269, it looks to be**
 2 **an exchange between yourself, Mr. Barr, Mr. Muller, a**
 3 **few others including Brad Connett, Dave McKinley.**
 4 **Who is Rachelle Belloit?**
 5 A. I don't know.
 6 **Q. Who is Allen Kim?**
 7 A. That is Kim Allen.
 8 **Q. Kim Allen.**
 9 A. She was the president at the time of our
 10 animal health business.
 11 **Q. So the subject of this e-mail is GPO**
 12 **activity.**
 13 **Do you know why Mr. Barr would be**
 14 **e-mailing you about GPO activity?**
 15 MR. McDONALD: Object to the form.
 16 THE WITNESS: I don't. He might have
 17 been asked to send it to me, I don't know.
 18 BY MR. SOLOMON:
 19 **Q. You respond to Mr. Barr's e-mail "Thanks,**
 20 **Bill. This isn't much of a surprise, but appreciate**
 21 **the information. No doubt organized buying is coming**
 22 **to the dental business in one form or another. We**
 23 **continue to internally debate how best to deal with**
 24 **this."**
 25 **Just focusing on the last sentence there,**

159

1 **is it fair to say that at the time of this e-mail**
 2 **Schein had not formed a policy with respect to buying**
 3 **groups?**
 4 MR. McDONALD: Object to the form.
 5 THE WITNESS: We were already doing
 6 business with buying groups. The policy was we were
 7 individually looking at them. The statement was
 8 really about the belief this would become a bigger
 9 part of the marketplace.
 10 BY MR. SOLOMON:
 11 **Q. Where do you say that here?**
 12 A. I don't. That was my -- that was my
 13 point when I was saying this.
 14 **Q. That buying groups would become a bigger**
 15 **part of the market?**
 16 A. We believed that that would be the case.
 17 I mean, obviously some of the things we have already
 18 looked at show that.
 19 **Q. And did you think that that would be a**
 20 **good thing for Henry Schein Dental?**
 21 A. I don't know whether it is a good thing
 22 or not. As I said, it could be a threat, it could be
 23 an opportunity.
 24 **Q. "No doubt organized buying is coming to**
 25 **the dental business in one form or another," I just**

160

1 **want to focus on that sentence.**
 2 **Again, what did you mean when you say it**
 3 **was coming to the dental business?**
 4 A. We felt that it would become a bigger
 5 part of the dental business. Obviously it was already
 6 there in some respects because we were already doing
 7 business with some.
 8 **Q. What did you mean by organized buying in**
 9 **that sentence?**
 10 A. Another way of saying buying group or
 11 whatever. An organization other than the dentists
 12 themselves making purchasing negotiations with us.
 13 **Q. You go on to write "all information and**
 14 **advice is appreciated."**
 15 **Why were you seeking information and**
 16 **advice from Mr. Barr regarding GPOs and buying groups?**
 17 A. He had experience with them and if there
 18 is anything he could tell us that would help us it
 19 would be appreciated.
 20 **Q. Did you ever have a conversation with**
 21 **Mr. Barr about GPOs and buying groups?**
 22 A. No. We had a conversation about cost per
 23 procedure.
 24 **Q. And when did that conversation take**
 25 **place?**

40 (Pages 157 to 160)

161

1 A. I don't remember, but it was somewhere
2 shortly after this was, as I said, could you set up
3 30 minutes with Bill, that was my assistant at the
4 time, I am sure that happened.
5 **Q. So you never had a conversation with**
6 **Mr. Barr about GPOs and buying groups?**
7 A. Not that I can recall, no.
8 **Q. The same question but for Mr. Connett.**
9 A. No, not that I can recall.
10 **Q. The same question for Mr. Hal Muller.**
11 A. Yes, we -- Hal is part of the dental
12 group and because of that we -- he reports to
13 Mr. Breslawski, as does Tim Sullivan, so we have
14 regular meetings with Hal, buying groups have come up,
15 we don't discuss it at length, but we have discussed
16 Smile Source, we have discussed Dental Gator, a number
17 of other ones, some which were part of special markets
18 and then brought down to Henry Schein Dental.
19 **Q. How often have you discussed buying**
20 **groups and GPOs with Mr. Muller?**
21 A. I couldn't even begin to guess, I don't
22 know.
23 **Q. Would that mean it was pretty often?**
24 MR. McDONALD: Object to the form.
25 THE WITNESS: I don't believe we have

162

1 discussed them much at all in the last couple of
2 years, but during the transitional phase we discussed
3 them fairly regularly, but I wouldn't want to guess on
4 a number, I don't know.
5 BY MR. SOLOMON:
6 **Q. Do you recall any specific discussions**
7 **with Mr. Muller surrounding GPOs and buying groups?**
8 A. No.
9 **Q. Do you know whether Mr. Muller has a**
10 **specific opinion regarding GPOs or buying groups?**
11 A. I do not.
12 MR. SOLOMON: I think this would be a
13 natural point for a quick break.
14 (Recess taken.)
15 BY MR. SOLOMON:
16 **Q. Mr. Steck, welcome back.**
17 **Mr. Steck, are you familiar with the**
18 **Texas Dental Association?**
19 A. Yes.
20 **Q. What is the Texas Dental Association?**
21 A. It is the state association for dentists
22 similar to the FDA, the GDA, or the CDA.
23 **Q. Is it sometimes referred to as the TDA?**
24 A. Yes.
25 **Q. Does the TDA have an annual trade show?**

163

1 A. Yes.
2 **Q. Have you ever attended the TDA's annual**
3 **trade show?**
4 A. I have.
5 **Q. Which years did you attend?**
6 A. I don't remember exactly.
7 **Q. Do you attend every year?**
8 A. No.
9 **Q. Do you -- have you attended more than**
10 **once?**
11 A. I think I have been twice, but couldn't
12 tell you which years.
13 **Q. Who from Schein usually attends those**
14 **meetings?**
15 MR. McDONALD: Object to the form.
16 THE WITNESS: Well, whomever is -- sales
17 team, from the local sales team, of course, and the
18 local management, and sometimes one of us from
19 corporate will go down.
20 BY MR. SOLOMON:
21 **Q. And what instances would someone from**
22 **corporate attend the TDA meeting?**
23 A. It could be for a variety of reasons,
24 there is a local issue or I mentioned earlier a new
25 manager could be coming on, a variety of reasons, just

164

1 to kind of get out and see salespeople.
2 **Q. Who else apart from yourself from**
3 **corporate attends the TDA trade shows?**
4 A. Well, again, you are speaking
5 specifically to the TDA, I am speaking more broadly
6 that it could be the FDA, I have been to the Florida
7 meeting, you can go anywhere, it is not just me,
8 others go, too. Tim I think has been to the TDA. Joe
9 goes probably more often than I do.
10 **Q. Has Mr. Breslawski ever attended the TDA**
11 **trade show?**
12 A. I don't know.
13 **Q. Why does Schein attend trade shows such**
14 **as the TDA?**
15 A. To sell stuff generally, interact with
16 customers, but the intention of either selling stuff
17 at the meeting or afterwards.
18 **Q. Does it also result in goodwill from**
19 **Schein's customers?**
20 A. I believe to some degree, yes, it does.
21 **Q. In what ways?**
22 A. Well, I think they like having us there,
23 being able to talk to us, talk about what they are
24 interested in.
25 **Q. Does Schein pay to attend the TDA trade**

41 (Pages 161 to 164)

165

167

1 **show annually?**
 2 A. Yes.
 3 **Q. Do you know how much Schein usually pays**
 4 **for that?**
 5 A. I have no idea. There is a fee for the
 6 booth rental and then there is a much larger fee to
 7 bring in booth properties, set them up, and that type
 8 of thing.
 9 **Q. Do you know whether it is several**
 10 **thousand dollars?**
 11 A. It is more than that.
 12 **Q. Does Schein provide funds to the TDA**
 13 **apart from the fees paid for the annual trade show?**
 14 MR. McDONALD: Object to the form, lack
 15 of foundation.
 16 THE WITNESS: I am not sure.
 17 BY MR. SOLOMON:
 18 **Q. Do you know who would know?**
 19 A. I am presuming Joe Cavaretta, but I would
 20 not know for sure whether he would know either.
 21 **Q. Do you know whether Schein has ever**
 22 **donated money to the TDA?**
 23 MR. McDONALD: Object to form, lack of
 24 foundation.
 25 THE WITNESS: I do not know.

1 as almost a virtual warehouse.
 2 **Q. What is your understanding of Source One**
 3 **based on?**
 4 A. Based on just familiarity -- just knowing
 5 a little bit about who they are and what they do in
 6 the market.
 7 **Q. Have you ever done any research to learn**
 8 **more about Source One?**
 9 A. Well, I have been deposed by one of their
 10 attorneys, so I was exposed to it that way. But I
 11 haven't done a great amount of personal research, no.
 12 **Q. When did you first learn about the TDA**
 13 **Perks Supply program?**
 14 A. I honestly can't tell you, shortly after
 15 it came into being, I guess, whenever that was.
 16 **Q. Do you recall how you learned about it?**
 17 A. No.
 18 **Q. Do you recall what your reaction was when**
 19 **you learned about the program?**
 20 A. I don't remember exactly what it was, I
 21 can imagine it probably wasn't positive.
 22 **Q. When you say it probably wasn't positive,**
 23 **were you upset?**
 24 A. I can't remember.
 25 **Q. Were you happy?**

166

168

1 BY MR. SOLOMON:
 2 **Q. Are you familiar with the Texas Dental**
 3 **Association's Supply Perks program?**
 4 A. Yes, I am, it is.
 5 MR. McDONALD: It is Perks Supplies.
 6 MR. SOLOMON: Perks Supplies, thank you.
 7 BY MR. SOLOMON:
 8 **Q. What is the TDA Perks Supplies program?**
 9 A. My understanding of the program is they
 10 have endorsed a company that is not an annual
 11 distributor, but a buying group-type company, and they
 12 offer their pricing schedule to their customers. It
 13 is not a full-service distributor, and customer -- my
 14 understanding, it also goes beyond dental supplies,
 15 there are other things that customers can buy that are
 16 not -- through the TDA that are supposed benefits to
 17 the customer, a better deal than they can get
 18 themselves.
 19 **Q. Do you know the name of the distributor**
 20 **who works with the TDA Perks Supplies program?**
 21 A. I want to be distinctive here, that the
 22 people they work with is actually a buying
 23 organization called Source One, they are not an actual
 24 authorized distributor themselves to my knowledge. I
 25 believe they send orders to various places, they act

1 A. No.
 2 **Q. Did you think it was a good idea**
 3 **generally for the TDA to create a Perks Supply**
 4 **program?**
 5 A. No.
 6 **Q. How did Schein respond to the creation of**
 7 **the TDA Perks Supply program?**
 8 MR. McDONALD: Object to the form, overly
 9 broad.
 10 THE WITNESS: Again, I wasn't personally
 11 involved in it.
 12 My understanding is that our local what
 13 we call zone manager, one level up from regional
 14 manager, had pretty close ties with a lot of the TDA
 15 governing body and met with them on multiple occasions
 16 trying to see if we could have a role in the program.
 17 BY MR. SOLOMON:
 18 **Q. Did you have any involvement with respect**
 19 **to Schein's response to the TDA Perks Supply program?**
 20 A. No, I was not personally involved.
 21 **Q. Do you know whether Schein -- strike**
 22 **that.**
 23 **You referred to the zone manager one**
 24 **level up from regional manager who was involved with**
 25 **that. Who was that?**

169	<p>1 A. Dean Kyle is his name.</p> <p>2 Q. And Dean Kyle is a zone manager, is that</p> <p>3 right?</p> <p>4 A. He was, he is retired now.</p> <p>5 Q. And what zone was Mr. Kyle responsible</p> <p>6 for?</p> <p>7 A. The southwest zone, which included the</p> <p>8 state of Texas.</p> <p>9 Q. Did you ever communicate internally with</p> <p>10 anyone at Schein regarding the TDA Perks Supply</p> <p>11 program?</p> <p>12 A. I may have, I don't recall.</p> <p>13 Q. How about externally, have you ever</p> <p>14 communicated with anyone externally regarding the TDA</p> <p>15 Perks Supply program?</p> <p>16 A. I believe I received an e-mail or two</p> <p>17 from manufacturers about it, but I have not -- I</p> <p>18 didn't seek anything out.</p> <p>19 Q. Do you recall which manufacturers those</p> <p>20 were?</p> <p>21 A. One was Ivoclar and one was Dentsply, I</p> <p>22 believe.</p> <p>23 Q. Were those the only two manufacturers</p> <p>24 that you communicated with about the TDA Perks supply</p> <p>25 program?</p>	171	<p>1 sold through authorized distributors.</p> <p>2 Q. When you say set the record straight,</p> <p>3 what do you mean by that?</p> <p>4 A. Well, that they felt that the company</p> <p>5 that the TDA Perks program was using, Source One</p> <p>6 Dental, Inc., was having products sent to customers</p> <p>7 from non-authorized distributors.</p> <p>8 Q. Did Dentsply tell you that?</p> <p>9 A. I believe they did.</p> <p>10 Q. Do you recall who from Dentsply told you</p> <p>11 that specifically?</p> <p>12 A. You just asked me that, no, I don't.</p> <p>13 Q. Do you have any understanding as to why</p> <p>14 Dentsply would want to set the record straight with</p> <p>15 Schein concerning the distribution of their products</p> <p>16 through unauthorized dealers?</p> <p>17 A. They do it quite frequently in other</p> <p>18 situations, too, is that they want to be clear about</p> <p>19 who their authorized distributors are and that they</p> <p>20 want products sold to Dentsply to authorized</p> <p>21 distributors, so any time there is a complaint or some</p> <p>22 kind of a note that ends up in the marketplace about</p> <p>23 activity and for dentists getting their products they</p> <p>24 are concerned about it and in some cases they will</p> <p>25 approach us.</p>
170	<p>1 A. I believe that is true, yes, I believe</p> <p>2 that is right.</p> <p>3 Q. And why did Dentsply contact you</p> <p>4 surrounding the TDA program?</p> <p>5 MR. McDONALD: Object to the form.</p> <p>6 THE WITNESS: I believe they felt that</p> <p>7 the -- the same thing with Ivoclar, they felt that</p> <p>8 their products were being sold through the TDA Perks</p> <p>9 program by an unauthorized distributor.</p> <p>10 BY MR. SOLOMON:</p> <p>11 Q. What were your communications with</p> <p>12 Dentsply about?</p> <p>13 A. That was it.</p> <p>14 Basically they contacted me, not the</p> <p>15 other way around.</p> <p>16 Q. Who from Dentsply contacted you?</p> <p>17 A. I don't even remember. It may have been</p> <p>18 -- I don't remember exactly.</p> <p>19 Q. Why would -- strike that.</p> <p>20 Do you have any understanding as to why</p> <p>21 someone from Dentsply contacted you surrounding the</p> <p>22 TDA Perks program?</p> <p>23 A. I do not know why they contacted me,</p> <p>24 except I think they wanted to set the record straight</p> <p>25 that they were not -- their product should only be</p>	172	<p>1 Q. Do you recall what you told Dentsply when</p> <p>2 it contacted you about the TDA?</p> <p>3 A. No, I don't.</p> <p>4 Q. You also mentioned a company called</p> <p>5 Ivoclar?</p> <p>6 A. Right.</p> <p>7 Q. Is Ivoclar a manufacturer?</p> <p>8 A. Yes.</p> <p>9 Q. One of the manufacturers with whom Schein</p> <p>10 Dental works with, right?</p> <p>11 A. Yes.</p> <p>12 Q. Do you recall who from Ivoclar contacted</p> <p>13 you surrounding the TDA Perks supply program?</p> <p>14 A. I believe it was John Stack.</p> <p>15 Q. Who is John stack?</p> <p>16 A. He works for Ivoclar. He, I believe, is</p> <p>17 either director or vice president of marketing or</p> <p>18 something like that.</p> <p>19 Q. How well do you know Mr. Stack?</p> <p>20 A. Reasonably well.</p> <p>21 Q. How do you know Mr. Stack?</p> <p>22 A. Just from industry events and meetings,</p> <p>23 et cetera. He has been there a while.</p> <p>24 Q. Do you recall when Mr. Stack contacted</p> <p>25 you?</p>

173

1 A. I do not.
 2 **Q. Do you recall how many times Mr. Stack**
 3 **contacted you?**
 4 A. I believe it was only once, but that is
 5 all I can recall.
 6 **Q. Do you recall what Mr. Stack told you**
 7 **when he contacted you?**
 8 A. Similar message, I believe it was, that
 9 Source One was getting product from -- it was selling
 10 product in there that was non-authorized.
 11 **Q. Do you recall what your reaction to his**
 12 **communication was?**
 13 A. I think probably the same as it was with
 14 Dentsply, I think that was it.
 15 **Q. Is it your testimony that other**
 16 **manufacturers had not reached out to you concerning**
 17 **the TDA Perks Supply program apart from Dentsply and**
 18 **Ivoclar?**
 19 MR. McDONALD: Object to the form, asked
 20 and answered.
 21 THE WITNESS: I don't recall any of
 22 those.
 23 BY MR. SOLOMON:
 24 **Q. So we talked a little bit about**
 25 **manufacturers, Dentsply and Ivoclar.**

174

1 A. Ivoclar, right.
 2 **Q. Have you ever communicated with any other**
 3 **entities apart from manufacturers such as a**
 4 **distributor regarding the TDA Perks Supply program?**
 5 A. Regarding specifically around the TDA
 6 Perks Supply program, is that the question?
 7 **Q. That is my question.**
 8 A. I have not specifically talked to any
 9 distributor of specifically about the TDA Perks
 10 program.
 11 **Q. How about generally?**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I had contact with the
 14 distributor with one of our competitors who called me
 15 to let me know that they were withdrawing from the TDA
 16 meeting.
 17 BY MR. SOLOMON:
 18 **Q. Which competitor are you referring to?**
 19 A. Patterson Dental.
 20 **Q. Patterson Dental.**
 21 **Who from Patterson Dental contacted you?**
 22 A. Dave Misiak is his name.
 23 **Q. Who is Dave Misiak?**
 24 A. I think at the time he was their vice
 25 president of sales.

175

1 **Q. Do you know Mr. Misiak?**
 2 A. We have shook hands at a couple of trade
 3 meetings, but not on any kind of intimate level, no.
 4 **Q. How many times would you say you have**
 5 **communicated with Mr. Misiak in total?**
 6 A. Over the last several years or so,
 7 probably three or four.
 8 **Q. Does Mr. Misiak have your phone number?**
 9 A. Apparently so because he called me on it.
 10 **Q. Do you know how he got your phone number?**
 11 A. No idea.
 12 **Q. Did he call your office phone?**
 13 A. I don't remember whether it was my office
 14 or my cell number.
 15 **Q. Would you be surprised to know that**
 16 **Mr. Misiak had your cell phone number?**
 17 A. I would not be surprised because he can
 18 easily get it from the manufacturing community.
 19 **Q. Do you know whether he got it from**
 20 **someone in the manufacturing community?**
 21 A. I don't. I don't.
 22 **Q. So Mr. Misiak contacted you, do you**
 23 **recall when?**
 24 A. No. It was -- no, I don't recall exactly
 25 when it was, what year or whatever. It was -- I would

176

1 have to look, I don't know.
 2 **Q. Why did Mr. -- I believe you stated that**
 3 **he called you to let you know that Patterson was**
 4 **withdrawing from the TDA meeting, is that right?**
 5 A. That's right.
 6 **Q. Is that all you discussed with**
 7 **Mr. Misiak?**
 8 A. Yes.
 9 **Q. Why did Mr. Misiak call you to provide**
 10 **that information?**
 11 MR. McDONALD: Object to the form.
 12 THE WITNESS: And I don't honestly know.
 13 BY MR. SOLOMON:
 14 **Q. How long was your discussion with**
 15 **Mr. Misiak?**
 16 A. Not very long, two, three minutes.
 17 **Q. Do you recall what else you discussed**
 18 **during that discussion with Mr. Misiak?**
 19 A. No, I don't.
 20 **Q. Were you surprised that Mr. Misiak was**
 21 **calling you to provide that information?**
 22 A. Yes.
 23 **Q. Why?**
 24 A. Because he has never called me before.
 25 **Q. Did you think it was out of the ordinary**

44 (Pages 173 to 176)

177

1 **for Mr. Misiak to call you and provide you that**
2 **information?**

3 A. I would say, yes, he has never called me
4 before for any other reason so, yes.

5 **Q. Did you convey your surprise to**
6 **Mr. Misiak during your discussion?**

7 A. Surprise that he had called me?

8 **Q. Right.**

9 A. Is that what the question is?
10 No, I don't believe I did.

11 **Q. What did you tell Mr. Misiak?**

12 A. I told him we hadn't made a decision what
13 we were going to do with the TDA yet.

14 **Q. What else --**

15 MR. McDONALD: To be clear he said had
16 not.

17 THE WITNESS: We had not made a decision
18 what we were going to do with the TDA yet.

19 BY MR. SOLOMON:

20 **Q. And why did you tell that to Mr. Misiak?**

21 A. Just to let him know on our side we
22 hadn't made any decisions.

23 **Q. Why?**

24 A. Well, he was -- he may have asked, I
25 don't even remember.

179

1 had made a decision? I would say it was irrelevant in
2 our decision, yes.

3 **Q. Did you tell anyone else about your**
4 **conversation with Mr. Misiak?**

5 A. Yes.

6 **Q. Who did you tell?**

7 A. Tim Sullivan.

8 **Q. Anyone else?**

9 A. Not that I can remember.

10 **Q. Is it possible that you told anyone else**
11 **about your discussion?**

12 A. At some point I probably did tell Joe
13 Cavaretta as well.

14 **Q. Anyone else?**

15 A. Not that I can remember.

16 **Q. Just so we have a clean record,**
17 **Mr. Steck, I just want to be able to finish my**
18 **question before you provide an answer.**

19 A. Sure.

20 **Q. So you communicated with Mr. Sullivan and**
21 **Mr. Cavaretta. But you can't recall anyone else with**
22 **whom you communicated about your conversation with**
23 **Mr. Misiak, is that right?**

24 A. I cannot recall. Dean may have been
25 copied on an e-mail that I sent, I don't know.

178

1 **Q. So you told him because he asked you for**
2 **that information?**

3 A. I don't remember the exact conversation,
4 the nature of the conversation, but I did tell him
5 during the conversation that we had not made a
6 decision.

7 **Q. Did Mr. Misiak ask for that information?**

8 A. I don't recall.

9 **Q. Were you interested in whether Patterson**
10 **was attending the TDA trade show?**

11 A. Not really.

12 **Q. Did you tell Mr. Misiak that you weren't**
13 **interested in that information?**

14 A. No.

15 **Q. Why not?**

16 A. I felt it would be insulting.

17 **Q. Why would that be insulting?**

18 A. Well, I just didn't -- I didn't want to
19 -- he called me to tell me what they had already
20 communicated to the TDA so it was somewhat public
21 information, I just didn't really feel the need to say
22 anything other than we hadn't made a decision yet
23 ourselves.

24 **Q. Would you say it was irrelevant?**

25 A. That they weren't going or -- that they

180

1 **Q. What did you tell Mr. Sullivan regarding**
2 **your conversation with Mr. Misiak?**

3 A. Exactly what I just told you, that he had
4 called me to inform me they weren't going.

5 **Q. What did Mr. Sullivan say in response to**
6 **that?**

7 A. Oh, I mean, it wasn't -- it wasn't a big
8 deal from our perspective because it wasn't going to
9 affect what we were going to do.

10 **Q. Why not?**

11 A. Because we make our decisions ourselves.

12 **Q. Why did you tell Mr. Sullivan about the**
13 **call with Mr. Misiak?**

14 A. I would tell Mr. Sullivan about any
15 contact from a competitor that involved the business
16 issue.

17 **Q. Why?**

18 A. Because we are not supposed to talk about
19 business issues with our competitors.

20 **Q. Why not?**

21 MR. McDONALD: Object to form.

22 THE WITNESS: It is not supposed to be
23 discussed, that is all, it is part of our policies.

24 BY MR. SOLOMON:

25 **Q. What policies are you referring to?**

181

1 A. There is antitrust, anti -- there is all
 2 kinds of different policies we have to take the state
 3 up to, but anything like that that is significantly
 4 competitive or talks about a competitive issue I would
 5 have reported it.
 6 **Q. You would report it to who?**
 7 A. Mr. Sullivan.
 8 **Q. How long after you spoke with Mr. Misiak**
 9 **did you tell Mr. Sullivan about the conversation?**
 10 A. No idea. It wasn't long, no idea.
 11 **Q. Do you recall anything else Mr. Sullivan**
 12 **said in response to you telling him about your**
 13 **conversation with Mr. Misiak?**
 14 A. No.
 15 **Q. Did you tell Mr. Sullivan that you would**
 16 **be speaking with Mr. Misiak again?**
 17 A. I can't remember whether I told him or
 18 Joe that I would let him -- I would let Mr. Misiak
 19 know once we made a decision and informed the TDA, but
 20 I never did that.
 21 **Q. So you may have told Mr. Sullivan that**
 22 **you were getting back to Mr. Misiak about Schein's**
 23 **decision regarding the TDA?**
 24 A. That is possible.
 25 **Q. Do you recall --**

182

1 A. I don't remember it, but it is possible.
 2 **Q. Did you and Mr. Sullivan discuss anything**
 3 **else surrounding the call with Mr. Misiak?**
 4 MR. McDONALD: Object to the form.
 5 THE WITNESS: Not that I remember.
 6 BY MR. SOLOMON:
 7 **Q. Did you report the call to anyone else**
 8 **within Schein?**
 9 MR. McDONALD: Object to the form, asked
 10 and answered.
 11 THE WITNESS: Not that I have not already
 12 stated.
 13 BY MR. SOLOMON:
 14 **Q. You said you also spoke to Mr. Cavaretta**
 15 **surrounding your call with Mr. Misiak. What did you**
 16 **discuss with Mr. Cavaretta?**
 17 A. The same thing I discussed with
 18 Mr. Sullivan.
 19 **Q. Was this a phone call with Mr. Cavaretta?**
 20 A. No. He works in the same office as we
 21 do, I think it was a personal conversation.
 22 **Q. So you had an in-person conversation with**
 23 **Mr. Cavaretta surrounding your call with Mr. Misiak?**
 24 A. Yes, and the TDA situation in general,
 25 yes, right.

183

1 **Q. How many in-person conversations did you**
 2 **have with Mr. Cavaretta surrounding that topic?**
 3 A. I could --
 4 MR. McDONALD: Object to the form.
 5 Which topic, TDA or the phone call?
 6 BY MR. SOLOMON:
 7 **Q. Let's focus on the phone call first. How**
 8 **many conversations did you have with Mr. Cavaretta**
 9 **surrounding your phone call with Mr. Misiak?**
 10 A. I don't recall, but I can't imagine it
 11 was more than one.
 12 **Q. What else did you discuss with**
 13 **Mr. Cavaretta surrounding the phone call from**
 14 **Mr. Misiak?**
 15 A. That was it.
 16 **Q. Did Mr. Cavaretta have any reaction to**
 17 **you telling him that Mr. Misiak called you?**
 18 A. I don't remember.
 19 **Q. Did Mr. Misiak mention any other**
 20 **Patterson employees during your phone call with him?**
 21 A. No, I don't believe so.
 22 **Q. You don't recall whether he --**
 23 A. I don't recall, but I don't think he did.
 24 **Q. You testified earlier that you believe**
 25 **you discussed the TDA with Mr. Misiak for about two or**

184

1 **three minutes, is that right?**
 2 A. That is what I said, yes.
 3 **Q. So was your whole phone call longer than**
 4 **two or three minutes?**
 5 MR. McDONALD: Object to the form.
 6 THE WITNESS: I already said it was a
 7 two- or three-minute call.
 8 BY MR. SOLOMON:
 9 **Q. So the entire call was two or three**
 10 **minutes?**
 11 A. Yes.
 12 **Q. And during that whole time you discussed**
 13 **the TDA Perks Supply program?**
 14 A. That was it. It was actually about the
 15 TDA meeting, not specifically about the perks.
 16 **Q. Thanks for that clarification.**
 17 **Have you discussed the TDA or the TDA**
 18 **Perks Supply program with any other distributors?**
 19 A. No.
 20 **Q. No one from Benco, right?**
 21 A. No, not myself, no.
 22 **Q. Schein ultimately did withdraw from the**
 23 **TDA trade show following the endorsement of Source**
 24 **One, is that right?**
 25 MR. McDONALD: Object to the form.

46 (Pages 181 to 184)

185

1 THE WITNESS: We did withdraw after a
 2 series of meetings I was not part of with TDA, tried
 3 to come to a middle ground, but we weren't able to.
 4 BY MR. SOLOMON:
 5 **Q. Do you know who was a part of those**
 6 **meetings?**
 7 A. It was Joe, it was Dean Kyle, and it was
 8 our regional manager who just happened to be my son at
 9 that time.
 10 **Q. For the record, who is your son?**
 11 A. Kyle Steck.
 12 **Q. Do you know when the decision was made to**
 13 **withdraw from the TDA trade show?**
 14 A. I don't know the exact date.
 15 **Q. Did you have any involvement in that**
 16 **decision?**
 17 A. Not really, no.
 18 **Q. When you say not really --**
 19 A. I was aware of the fact they were
 20 discussing it, but I was not involved in making the
 21 decision.
 22 **Q. How did you know that they were**
 23 **discussing it?**
 24 A. Because they told me they were going to
 25 go meet with the TDA.

186

1 **Q. Mr. Cavaretta and Mr. Kyle Steck and**
 2 **Mr. Dean Kyle told you that?**
 3 A. Mr. Cavaretta told me that.
 4 **Q. When did he tell you that, do you recall?**
 5 A. I don't. Before the meeting.
 6 **Q. Whose decision was it ultimately to**
 7 **withdraw?**
 8 MR. McDONALD: Object to the form and
 9 foundation.
 10 THE WITNESS: The decision to withdraw is
 11 made by -- was made by Tim after a recommendation from
 12 Joe and Dean and presumably Kyle that we shouldn't go
 13 because they weren't able to come to any kind of
 14 agreement with them.
 15 BY MR. SOLOMON:
 16 **Q. Do you know when that recommendation was**
 17 **given to Mr. Sullivan?**
 18 A. Immediately after the meeting.
 19 **Q. Do you know when that meeting happened?**
 20 A. No.
 21 **Q. Do you have an approximate timeframe that**
 22 **you can think of?**
 23 A. It is all in the e-mail chains. It is
 24 all in the evidence. I don't know, a month, two
 25 weeks, three weeks before the meeting, I don't exactly

187

1 remember.
 2 MR. McDONALD: If you know tell him, but
 3 don't guess.
 4 THE WITNESS: Okay.
 5 BY MR. SOLOMON:
 6 **Q. What was your personal opinion the**
 7 **decision to withdraw from the TDA?**
 8 A. I agreed with it.
 9 **Q. Why?**
 10 A. Because I think we didn't approve of what
 11 the TDA was doing and felt that they had taken -- by
 12 endorsing a full line or full access, I should say,
 13 non-full-service source they were -- we didn't feel
 14 that was a good practice for a state association that
 15 really has always been politically somewhat neutral
 16 between distributor loyalties and obviously all the
 17 distributors were going to the meeting and we were
 18 putting money in their pocket by going to the meeting,
 19 we didn't like that.
 20 **Q. Why didn't Patterson like that -- strike**
 21 **that.**
 22 **Why didn't Schein like that?**
 23 A. Because, again, we are contributing to
 24 this meeting.
 25 Meetings as they stand alone sometimes

188

1 aren't really profitable, in some cases they are loss
 2 leaders, you don't make a lot of money at them, they
 3 are expensive to go to. We felt we were supporting
 4 them by going.
 5 And then they decided -- they didn't even
 6 give us an opportunity to try to work with them after
 7 attempts on our side.
 8 **Q. How did Schein try to work with the TDA?**
 9 A. I wasn't part of those direct
 10 discussions, you would have to ask the people that
 11 were there.
 12 **Q. Do you know whether -- strike that.**
 13 **Do you know whether their withdrawal from**
 14 **the TDA was based on anything other than the**
 15 **endorsement of Source One?**
 16 MR. McDONALD: Object to the form.
 17 THE WITNESS: I do not. I know that was
 18 part of the issue.
 19 BY MR. SOLOMON:
 20 **Q. Did you communicate with any third**
 21 **parties who are not manufacturers or distributors**
 22 **about the TDA's Perks Supply program?**
 23 A. Can you restate that?
 24 **Q. Sure.**
 25 **Did you communicate with any third**

47 (Pages 185 to 188)

189

1 **parties apart from manufacturers or distributors about**
2 **the TDA's Perks Supply program?**

3 A. I did communicate with a contact at the
4 ADA, I was here at the ADA's request for a meeting,
5 and I brought that up to one of the ADA officials, and
6 she asked me to send her information so I did.

7 **Q. What is the ADA?**

8 A. American Dental Association.

9 **Q. Who did you communicate with from the**
10 **ADA?**

11 A. I don't recall. It is in the e-mails.
12 But she was the person that was in charge of that at
13 the time, she had the position of being the liaison to
14 the state associations.

15 **Q. And you said -- you testified that the**
16 **ADA requested a meeting with you?**

17 A. With me and with one of our business
18 solutions executives because the ADA was interested in
19 having us help them find content for their members and
20 rebuilding their own website so we could be of help to
21 them.

22 **Q. Did the ADA ask you for a meeting to**
23 **specifically discuss the TDA?**

24 MR. McDONALD: Object to the form.

25 THE WITNESS: No, they did not.

191

1 MR. McDONALD: Object to the form.

2 THE WITNESS: Not that I can recall.

3 BY MR. SOLOMON:

4 **Q. Are you aware of any communications**
5 **between someone from Schein and one of Schein's**
6 **competitors about the TDA Perks Supply program?**

7 A. Yes. I am aware that a regional manager
8 in the area had had a conversation or a phone call
9 from a member of the Benco team.

10 **Q. Do you recall who that regional manager**
11 **was?**

12 A. I believe it was Glenn Showgren.

13 **Q. Is Glenn Showgren still an employee of**
14 **Schein Dental?**

15 A. Yes.

16 **Q. Do you know when Mr. Showgren spoke to a**
17 **member of the Benco team?**

18 A. I do not.

19 **Q. Do you recall who the Benco employee**
20 **Mr. Showgren spoke with was?**

21 A. Yes.

22 **Q. Who was it?**

23 A. Ron Fernandez.

24 **Q. Do you know Ron Fernandez?**

25 A. I have met him. I don't know him, but I

190

1 BY MR. SOLOMON:

2 **Q. When did you meet with someone from the**
3 **ADA -- strike that.**

4 **When did you meet with someone from the**
5 **ADA?**

6 A. I don't remember the exact meeting and
7 time of that meeting, but it was obviously before all
8 the TDA decisions were made about the TDA meeting.

9 **Q. Okay.**

10 **Would you say that Schein took some time**
11 **to come to a decision surrounding its attendance at**
12 **the TDA trade show?**

13 A. Yes.

14 **Q. Do you know why that was the case?**

15 A. It took us a while to get a meeting with
16 the TDA for one thing, that was one issue. We wanted
17 to be sure before we made a decision.

18 **Q. And why was that?**

19 A. You want to be sure about a decision like
20 that before you did it, it was worth it to continue to
21 discuss it.

22 **Q. Any other reasons why -- strike that.**

23 **Any other reasons why Schein took a long**
24 **time to come to a decision regarding its attendance at**
25 **the TDA trade show?**

192

1 met him once.

2 **Q. Did Mr. Fernandez -- strike that.**

3 **Is Mr. Fernandez a former Schein**
4 **employee?**

5 A. Yes.

6 **Q. And do you know what Mr. Showgren**
7 **discussed with Mr. Fernandez?**

8 A. My recollection is it was around Benco's
9 -- whether Benco was going to participate in the TDA
10 as well and some other manufacturers who were not
11 happy with the TD decision as well.

12 **Q. How did you learn about the communication**
13 **between Mr. Showgren and Mr. Fernandez from Benco?**

14 A. An e-mail was showed to me at a
15 deposition.

16 **Q. Did you know about that communication**
17 **prior to the deposition you just referred to?**

18 A. Something may have been said to me, I
19 don't recall though.

20 **Q. When you say something may have been said**
21 **to you, what do you mean by that?**

22 A. Well, somebody may have said that Glenn
23 got a call from Ron Fernandez of Benco, it is possible
24 somebody said that to me, I just don't remember.

25 **Q. Are you aware of anyone else from Schein**

193

1 **communicating with a competitor about the TDA Perks**
2 **Supply program?**

3 A. I am not aware, no, I can't remember, no.

4 **Q. Is it possible that those communications**
5 **took place?**

6 MR. McDONALD: Object to the form.

7 If you know tell him, but don't guess.

8 THE WITNESS: I don't know.

9 BY MR. SOLOMON:

10 **Q. Who would know?**

11 MR. McDONALD: Object to the form.

12 THE WITNESS: You would have to talk to
13 people who are managing that area because there was a
14 lot of communication going on at that time about that,
15 I wasn't part of it.

16 BY MR. SOLOMON:

17 **Q. Who would I need to speak with to learn**
18 **that information?**

19 A. Whoever the managers were at the time of
20 that area.

21 **Q. Do you know who those people are?**

22 A. Glenn Showgren is one and my son was
23 another.

24 **Q. Anyone else?**

25 A. Dean Kyle.

195

1 BY MR. SOLOMON:

2 **Q. Mr. Steck, you have Exhibit 234 in front**
3 **of you. Do you recall this e-mail?**

4 A. Yes.

5 **Q. This is an e-mail chain about the TDA**
6 **Perks Supply program, is that right?**

7 A. Yes, it appears to be.

8 **Q. I want to direct your attention to Page 2**
9 **of the e-mail, Bates numbered HS-00005653. And for**
10 **the record this is an e-mail from December of 2013.**

11 **Focusing on the top there is an e-mail**
12 **from Mr. Dean Kyle and he says "FYI, Patterson pulled**
13 **out of the convention. I firmly believe they made the**
14 **move expecting us to follow suit." Do you see that**
15 **sentence I am referring to?**

16 A. At the very top of the page?

17 **Q. Right.**

18 A. Yes, I see that.

19 **Q. Do you know how Mr. Dean knew that**
20 **Patterson was withdrawing from the TDA convention as**
21 **referenced in this e-mail?**

22 MR. McDONALD: Mr. Kyle, not Mr. Dean.

23 THE WITNESS: It is Dean Kyle.

24 MR. SOLOMON: I will reask it.

25

194

1 **Q. Anyone else?**

2 MR. McDONALD: Object to form.

3 THE WITNESS: Probably Joe Cavaretta.

4 BY MR. SOLOMON:

5 **Q. Anyone else?**

6 A. That is all I know.

7 **Q. Are you aware of anyone else from Schein**
8 **communicating with a competitor about Schein's**
9 **decision to withdraw from the 2014 TDA trade show?**

10 MR. McDONALD: Object to the form,
11 mischaracterizes his testimony.

12 THE WITNESS: I am not aware, no, not
13 that I can remember, no.

15 **Q. Are you aware of anyone else from Schein**

23 (Document identified as Exhibit 234 for
24 identification.)

25

196

1 BY MR. SOLOMON:

2 **Q. Do you know how Mr. Kyle knew that**
3 **Patterson was withdrawing from the TDA convention as**
4 **referenced in this e-mail?**

5 A. I believe it was public information.

6 **Q. What do you mean by it was public**
7 **information?**

8 A. They notified the TDA, it was public, it
9 was out there, everybody knew they weren't going.

10 **Q. How did you form that understanding?**

11 A. Because any time a company makes a
12 decision like that it gets around, they tell their
13 people they are not going and they tell other people.

14 **Q. Do you know whether Patterson's decision**
15 **regarding the TDA trade show attendance was public**
16 **information when you spoke with Mr. Misiak on the**
17 **telephone?**

18 A. I believe it was.

19 **Q. How do you know it was public at that**
20 **time?**

21 A. Because I believe they had already
22 informed them.

23 **Q. And how did you learn that?**

24 A. I think it was afterwards that I had
25 learned that they had already informed them.

49 (Pages 193 to 196)

197

1 **Q. Do you know whether it was public**
 2 **information at the time you spoke with Mr. Misiak?**
 3 A. You just asked that question and I said I
 4 assumed it was, yes.
 5 **Q. But you don't know for sure?**
 6 MR. McDONALD: Object to the form, asked
 7 and answered.
 8 THE WITNESS: I am pretty sure it was.
 9 BY MR. SOLOMON:
 10 **Q. And Mr. Misiak told you it was public**
 11 **information during your conversation?**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I don't remember the exact
 14 words he said, but I believe it was he said we have
 15 informed the TDA we are not going.
 16 BY MR. SOLOMON:
 17 **Q. Did that mean it was public information**
 18 **in your mind?**
 19 A. Yes, pretty much, yes.
 20 **Q. Did you do anything else to determine**
 21 **whether that information was actually public?**
 22 A. No, not that I can remember.
 23 **Q. Turning to the first page of the e-mail,**
 24 **you forward this to Mr. Sullivan. Rather the e-mail**
 25 **is forwarded to Mr. Sullivan and then at some point it**

198

1 **looks like at 8:33 a.m. you say "I talked to the ADA**
 2 **about this when I was there and sent them the info,"**
 3 **do you see that?**
 4 A. Yes.
 5 **Q. Do you recall what information you**
 6 **provided to the ADA?**
 7 A. I just testified to that, it was the
 8 information on the TDA Perks.
 9 **Q. What information specifically did you**
 10 **provide?**
 11 A. I think it was an ad that they had had in
 12 a magazine or something.
 13 **Q. And why did you provide that information**
 14 **to the ADA?**
 15 A. I was making them aware of the fact that
 16 one of their state associations was doing that.
 17 **Q. Why?**
 18 A. Because it was a new development at the
 19 time.
 20 **Q. And why did you want the ADA to know**
 21 **about that?**
 22 A. Because I thought it was relevant.
 23 **Q. Relevant to what?**
 24 A. Relevant to the fact that their state
 25 associations, which they mutually collect dues for,

199

1 was trying to endorse people who typically didn't
 2 support them. I mean, the ADA had a petition to us
 3 for our support in terms of constructing business
 4 solutions, that is why I was there.
 5 I was just making them aware of it, that
 6 is all, she asked to see it.
 7 **Q. Who is she?**
 8 A. The person who I have already referred to
 9 several times at the ADA meeting that I had, I can't
 10 remember her name. If you look in the e-mails I am
 11 sure it is in there.
 12 **Q. How many times did you meet with someone**
 13 **from the ADA surrounding the TDA Perks Supply program?**
 14 A. I only came to the ADA once.
 15 **Q. Did you have any conversations apart from**
 16 **your meeting at the ADA with someone from the ADA**
 17 **about the TDA Perks Supply program?**
 18 A. I had a conversation with an old client
 19 of mine who was about to become ADA president and told
 20 her about the situation.
 21 **Q. Who is the client you are referring to?**
 22 A. Carol Summerhays.
 23 **Q. Who is Carol Summerhays?**
 24 A. She is a dentist in San Diego.
 25 **Q. You said she is a former client?**

200

1 A. I used to be her salesperson, she was a
 2 client, she is retired now.
 3 **Q. So Carol Summerhays was the ADA president**
 4 **at the time of this e-mail?**
 5 A. No. She was about to become ADA
 6 president.
 7 **Q. And what did you discuss with**
 8 **Ms. Summerhays?**
 9 A. I told her about the CDA -- excuse me,
 10 the TDA's decision to go into this business and that
 11 it was causing issues with the dealer community.
 12 **Q. Is it fair to say that you wanted**
 13 **Ms. Summerhays to take some sort of action in response**
 14 **to the information you provided her?**
 15 MR. McDONALD: Object to the form.
 16 THE WITNESS: I wanted her to be aware of
 17 it if she was going to be the ADA president.
 18 BY MR. SOLOMON:
 19 **Q. Why?**
 20 A. I have already answered why I thought it
 21 was relevant to the ADA, same reason.
 22 **Q. Did you want her to do something about**
 23 **it?**
 24 A. I would not have been upset had she
 25 talked to the TDA to find out why they were doing it,

50 (Pages 197 to 200)

201	<p>1 but I didn't ask for any action.</p> <p>2 Q. Did you want her to do something about</p> <p>3 it?</p> <p>4 MR. McDONALD: Object to form.</p> <p>5 THE WITNESS: I didn't expect her to do</p> <p>6 anything about it.</p> <p>7 BY MR. SOLOMON:</p> <p>8 Q. So you just provided the information to</p> <p>9 her so she knew about it?</p> <p>10 A. Yes.</p> <p>11 Q. But you didn't want her to take any</p> <p>12 action in response?</p> <p>13 A. No, I did not ask her for any action.</p> <p>14 Q. Turning to the next e-mail here,</p> <p>15 Mr. Sullivan -- actually, let's stay on that e-mail</p> <p>16 from 8:33 a.m., just kind of turning to the next</p> <p>17 sentence, you say "personally I think we should get</p> <p>18 together with a group of other dealers and</p> <p>19 manufacturers and send them a petition." Do you see</p> <p>20 that?</p> <p>21 A. Yes.</p> <p>22 Q. Is it fair to say that you were proposing</p> <p>23 that Schein and other dealers stop the TDA Perks</p> <p>24 Supply program through a petition?</p> <p>25 MR. McDONALD: Object to the form.</p>	203	<p>1 would be?</p> <p>2 MR. McDONALD: Object to the form.</p> <p>3 THE WITNESS: Who exhibits at their</p> <p>4 meeting is a public record, Patterson, Benco, it is</p> <p>5 Midway Dental, Midwest Dental, it is a bunch of other</p> <p>6 independents in Texas, it is manufacturers all up and</p> <p>7 do you know the line large and small.</p> <p>8 BY MR. SOLOMON:</p> <p>9 Q. You say a few individual letters have</p> <p>10 already gone out -- strike that.</p> <p>11 A few individual letters have already</p> <p>12 gone to them. Letters from who were you referring to</p> <p>13 there?</p> <p>14 A. I think several people had written -- my</p> <p>15 understanding was a few manufacturers or other people</p> <p>16 had written letters to them but I had not seen them.</p> <p>17 Q. How did you know about them?</p> <p>18 A. I was told about them by somebody, I am</p> <p>19 not sure who.</p> <p>20 Q. You said letters from other manufacturers</p> <p>21 and other people, what did you mean by other people?</p> <p>22 A. Other companies that would have exhibited</p> <p>23 at the TDA.</p> <p>24 Q. Other distributors?</p> <p>25 A. Possibly.</p>
202	<p>1 THE WITNESS: First of all, I regret</p> <p>2 writing that.</p> <p>3 Secondly is the TDA need to know they</p> <p>4 were upsetting people, that is the way I chose to put</p> <p>5 it.</p> <p>6 I regret writing it the way I did.</p> <p>7 BY MR. SOLOMON:</p> <p>8 Q. Why do you regret writing it?</p> <p>9 A. Because we were never to get together</p> <p>10 with a group of other dealers and manufacturers, we</p> <p>11 would have sent our own letter, that just isn't</p> <p>12 realistic.</p> <p>13 Q. Why did you write it?</p> <p>14 MR. McDONALD: Object to the form.</p> <p>15 THE WITNESS: As I said, I regret writing</p> <p>16 it.</p> <p>17 BY MR. SOLOMON:</p> <p>18 Q. What other dealers were you referring to</p> <p>19 when you wrote this e-mail?</p> <p>20 A. I wasn't referring to anybody</p> <p>21 specifically.</p> <p>22 Q. Were you referring to anyone generally?</p> <p>23 A. I was referring to anybody who exhibits</p> <p>24 at their meeting.</p> <p>25 Q. Can you give me some examples of who that</p>	204	<p>1 MR. McDONALD: Object to form.</p> <p>2 BY MR. SOLOMON:</p> <p>3 Q. Did you know specifically about any</p> <p>4 letters from any other distributors?</p> <p>5 A. No.</p> <p>6 Q. Did you think that the TDA would be more</p> <p>7 receptive to Schein's position if it worked with</p> <p>8 Patterson and Benco?</p> <p>9 MR. McDONALD: Object to the form.</p> <p>10 THE WITNESS: I don't think I thought</p> <p>11 about that at all, I just was -- felt we should</p> <p>12 express the fact we weren't happy with the decision</p> <p>13 they had made.</p> <p>14 BY MR. SOLOMON:</p> <p>15 Q. And I know you say you regret writing</p> <p>16 this sentence regarding working with other dealers and</p> <p>17 manufacturers, but I am trying to understand, you</p> <p>18 know, back then at the time of this e-mail on</p> <p>19 December, 2013 why you thought it was a good idea?</p> <p>20 MR. McDONALD: Object to form.</p> <p>21 THE WITNESS: I simply thought the more</p> <p>22 they heard from people they weren't happy with the way</p> <p>23 they were going about the TDA Perks program the better</p> <p>24 chance they would reconsider it.</p> <p>25</p>

205

1 BY MR. SOLOMON:

2 **Q. Had you discussed this idea with anyone**
3 **prior to writing this e-mail in December of 2013?**

4 A. No.

5 **Q. And that would apply both internally to**
6 **Schein as well as externally from Schein?**

7 A. Yes, I didn't discuss it with anybody.

8 **Q. Okay.**

9 **And then turning to a few individual**
10 **letters have already gone out to them, what does them**
11 **refer to in this sentence?**

12 A. The TDA.

13 **Q. It looks like Mr. Sullivan responds to**
14 **your e-mail and he says "don't think we can do the**
15 **petition idea... lawyers call that collusion." Do you**
16 **see where I am referring to?**

17 A. Yes.

18 **Q. Do you have any understanding as to what**
19 **Mr. Sullivan meant in his statement?**

20 MR. McDONALD: Object to the form.

21 THE WITNESS: Yes. He meant that when
22 you get together with other people for that kind of a
23 thing that people can say you were colluding with one
24 another.

25 As I said, I regret writing the

207

1 **statement that organized dentistry is a mess?**

2 A. Organized dentistry is under stress
3 because a lot of younger dentists are not joining the
4 state and dental associations and so they are trying
5 to find anyway they can to make themselves more
6 relevant including a buying program like this.

7 **Q. You also respond to Mr. Sullivan's**
8 **earlier e-mail "Can ADA influence TDA?" Do you see**
9 **that?**

10 A. That was his e-mail to me.

11 **Q. Right.**

12 **Do you know why Mr. Sullivan was asking**
13 **whether the ADA could influence the TDA?**

14 A. Just wanted to know. I explained it in
15 the next paragraph.

16 **Q. Did you think at the time of writing this**
17 **e-mail that the ADA could influence the TDA?**

18 A. I didn't know.

19 **Q. So you had no opinion one way or the**
20 **other?**

21 A. Not really.

22 **Q. Was it your intent to provide information**
23 **to the ADA so that it can influence the TDA?**

24 MR. McDONALD: Object to the form.

25 THE WITNESS: I had no expectation of

206

1 statement.

2 BY MR. SOLOMON:

3 **Q. Did you agree with his assessment that**
4 **the petition idea might be considered collusion?**

5 A. No.

6 MR. McDONALD: Object to the form.

7 THE WITNESS: I am not a lawyer so I
8 don't have an opinion on that. It wasn't a good idea.

9 BY MR. SOLOMON:

10 **Q. Did you tell Mr. Sullivan after this**
11 **e-mail that you thought it wasn't a good idea?**

12 A. I don't think we discussed it after this
13 e-mail.

14 **Q. Were you surprised that Mr. Sullivan**
15 **suggested that the petition idea might be collusion?**

16 MR. McDONALD: Object to the form.

17 THE WITNESS: I don't remember whether I
18 was surprised or not.

19 BY MR. SOLOMON:

20 **Q. Turning to the top of this e-mail, you**
21 **respond to Mr. Sullivan. Also Joe Cavaretta is copied**
22 **on this e-mail. "They asked for the info after I**
23 **explained the conflict... organized dentistry is a**
24 **mess."**

25 **What were you referring to in your**

208

1 anything. I just simply had mentioned it in a meeting
2 and they asked for information.

3 BY MR. SOLOMON:

4 **Q. Did you have any other follow-up**
5 **communications with either Ms. Summerhays or someone**
6 **from the ADA regarding the TDA following this e-mail?**

7 A. Not that I can remember.

8 MR. SOLOMON: We have been going a little
9 while now, it is almost 20 after, we can take a break
10 now because I think if we get into some more documents
11 we might be going a little while.

12 MR. McDONALD: That is fine.

13 MR. SOLOMON: Let's break for lunch.

14 (Lunch recess taken.)

209

1 AFTERNOON SESSION
 2 BY MR. SOLOMON:
 3 **Q. Before the break we talked about a phone**
 4 **conversation you had with Mr. Misiak in which he told**
 5 **you that Patterson would not be attending the TDA**
 6 **annual trade show. Do you recall that discussion?**
 7 A. Yes.
 8 **Q. My question to you is about whether he**
 9 **told you or asked that Schein take any action in**
 10 **response to him telling you about that information, so**
 11 **let me ask the question, did Mr. Misiak ask or**
 12 **encourage Schein to take any action with respect to**
 13 **the TDA or the TDA Perks Supply program during your**
 14 **phone conversation with him?**
 15 A. I don't believe so, no.
 16 **Q. We also talked about you mentioned a**
 17 **Schein policy, Schein antitrust policy that you**
 18 **thought was implicated by your conversation with**
 19 **Mr. Misiak. Do you recall that?**
 20 A. Not really. It wasn't confidential
 21 information. At least I didn't believe it to be
 22 confidential information.
 23 But if I was contacted by my member of a
 24 competitive company I would tell my boss.
 25 **Q. Right.**

210

1 **My question, I am not as interested in**
 2 **whether or not it is confidential information, but I**
 3 **think you mentioned that -- you mentioned an antitrust**
 4 **policy that you thought was implicated. Do you recall**
 5 **that?**
 6 A. Yes, sure.
 7 **Q. Is that a written policy?**
 8 A. It is a Corpedia practice that we take
 9 through -- there is a written policy, but it is part
 10 of a training program we go through every year.
 11 **Q. What is the training program called?**
 12 A. It is called Corpedia, it is an online
 13 program.
 14 **Q. How long does the training take to**
 15 **complete?**
 16 MR. McDONALD: Object to the form.
 17 THE WITNESS: There are different modules
 18 in the Corpedia and they take different times, I
 19 believe this one is about an hour.
 20 BY MR. SOLOMON:
 21 **Q. And you have taken this training on more**
 22 **than one occasion?**
 23 A. Every year.
 24 **Q. Do you recall when you started taking the**
 25 **training?**

211

1 A. I do not.
 2 **Q. Do you know who else at Schein is**
 3 **required to take the Corpedia training?**
 4 A. I believe everybody above a certain
 5 level, and I am not certain what that level is.
 6 **Q. So how does that Corpedia training relate**
 7 **to your conversation on the phone with Mr. Misiak?**
 8 MR. McDONALD: Object to form.
 9 THE WITNESS: Again, the training deals
 10 primarily with confidential information, whether it is
 11 -- you are not allowed to talk about confidential
 12 information obviously with a competitor of the
 13 company, and I don't believe I did.
 14 BY MR. SOLOMON:
 15 **Q. Do you believe that what Mr. Misiak told**
 16 **you was public, right?**
 17 A. I did.
 18 **Q. And so why did you think that one of**
 19 **Schein's antitrust policies was implicated by your**
 20 **phone call with Mr. Misiak?**
 21 MR. McDONALD: Object to the form.
 22 THE WITNESS: I don't know that I said
 23 that.
 24 What I said was that I would report
 25 anything to my boss that I thought would be

212

1 potentially even related to that.
 2 BY MR. SOLOMON:
 3 **Q. Potentially related to what?**
 4 A. To anything involving competitors or
 5 potentially antitrust.
 6 **Q. Did you think that your phone call with**
 7 **Mr. Misiak potentially involved an antitrust**
 8 **violation?**
 9 A. No.
 10 **Q. Why not?**
 11 A. Because I believed it to be public
 12 information.
 13 **Q. I think we are going to take a look at**
 14 **another document.**
 15 **(Document identified as Exhibit 235 for**
 16 **identification.)**
 17 BY MR. SOLOMON:
 18 **Q. Mr. Steck, the court reporter has handed**
 19 **you Exhibit 235. Please let me know when you have had**
 20 **a chance to take a look.**
 21 A. Okay, I am familiar with it.
 22 **Q. Do you recall this e-mail?**
 23 A. Yes.
 24 **Q. This is an e-mail chain between yourself,**
 25 **Mr. Cavaretta, Mr. Dean, and Mr. Kyle Steck, is that**

53 (Pages 209 to 212)

213

1 right?
 2 A. Yes.
 3 **Q. I would like to just focus your attention**
 4 **on the first page of the e-mail, let's see -- it is**
 5 **actually the second page of the e-mail, my apologies.**
 6 **You tell Mr. Dean Kyle, Mr. Kyle Steck, and**
 7 **Mr. Cavaretta, "Guys, I have to get back to PDCO on**
 8 **whether or not we are attending the TDA." Do you see**
 9 **that?**
 10 A. Yes.
 11 **Q. Does PDCO refer to Patterson?**
 12 A. Yes.
 13 **Q. Why did you need to get back to Patterson**
 14 **about whether Schein was attending the TDA?**
 15 A. I must have said during the conversation
 16 I would let Dave Misiak know once we made a decision
 17 and gotten to the TDA, I assume that is what I said.
 18 **Q. Do you know why you would have told**
 19 **Mr. Misiak that?**
 20 A. Just as courtesy for him telling me.
 21 **Q. Any other reason why you would have told**
 22 **Mr. Misiak what Schein was doing --**
 23 A. No.
 24 **Q. -- with respect to the TDA?**
 25 A. No.

214

1 **Q. So it was just a courtesy?**
 2 A. That is the way I saw it, yes.
 3 **Q. Did Mr. Misiak ask you to get back to**
 4 **him?**
 5 A. I don't remember.
 6 **Q. Is it possible that he did?**
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: I wouldn't want to
 9 speculate, I can't remember whether he asked me to or
 10 not.
 11 BY MR. SOLOMON:
 12 **Q. And this e-mail is from January 21, 2014.**
 13 A. Right.
 14 **Q. Do you recall how much time after you**
 15 **wrote this e-mail your call -- strike that.**
 16 **Do you recall when you spoke to**
 17 **Mr. Misiak in relation to this January 21, 2014**
 18 **e-mail?**
 19 A. I never spoke to Mr. Misiak after that.
 20 **Q. How much -- strike that.**
 21 **You spoke to Mr. Misiak prior to this**
 22 **e-mail, right?**
 23 A. Yes.
 24 **Q. You recall when that was?**
 25 A. No, late -- no. Sometime in December, I

215

1 think, but I am not sure.
 2 **Q. So it would have been within a few weeks**
 3 **to a month of writing this e-mail?**
 4 A. Possibly.
 5 **Q. Okay.**
 6 **Did you feel any obligation to get back**
 7 **to Mr. Misiak regarding Schein's plans with respect to**
 8 **the TDA trade show?**
 9 A. I think this e-mail says I felt it was
 10 courtesy to get back, obligation, courtesy, you know,
 11 take your pick.
 12 **Q. Did Patterson's decision not to attend**
 13 **the TDA influence your opinion as to whether Schein**
 14 **should attend the TDA trade show?**
 15 A. No.
 16 **Q. Why not?**
 17 A. Because I knew we had what we believed to
 18 be a good relationship with the TDA and we were
 19 willing to try to meet with them and talk to them
 20 about it before we made any final decisions.
 21 **Q. Did you tell Mr. Misiak -- do you recall**
 22 **whether you told Mr. Misiak that their decision not to**
 23 **attend the TDA was not material to you?**
 24 A. I don't recall saying anything.
 25 **Q. Just kind of turning to the first page**

216

1 here, Mr. Misiak -- I am sorry, Mr. Cavaretta responds
 2 to your e-mail, and he says, "Sorry, Dave, I thought
 3 we had a phone conversation about this prior to the
 4 FMM confirming our direction." Do you see that?
 5 A. Yes.
 6 **Q. And I think you mentioned previously that**
 7 **FMM refers to the field management meeting?**
 8 A. Correct.
 9 **Q. Do you recall a phone conversation with**
 10 **Mr. Cavaretta about Patterson's -- strike that.**
 11 **Do you recall a phone conversation with**
 12 **Mr. Cavaretta about Patterson's decision not to attend**
 13 **the TDA?**
 14 A. I don't remember.
 15 **Q. Do you have any idea as to what**
 16 **Mr. Cavaretta is referring to here?**
 17 A. He is saying he thought we had a phone
 18 conversation, obviously I forgot we had a phone
 19 conversation or we didn't have a phone conversation, I
 20 am not sure.
 21 **Q. And that phone conversation, according to**
 22 **Mr. Cavaretta in this e-mail, was part of a field**
 23 **management meeting, right?**
 24 A. It was prior to that.
 25 **Q. My apologies, it was prior to the field**

54 (Pages 213 to 216)

217	<p>1 management meeting.</p> <p>2 Do you know whether anyone else would</p> <p>3 have been a part of that phone conversation other than</p> <p>4 Mr. Cavaretta and yourself?</p> <p>5 A. I would doubt it, but I don't remember.</p> <p>6 Q. Let's move on to the next e-mail, you</p> <p>7 respond to Mr. Cavaretta and you say "We did. I just</p> <p>8 wanted to be double sure before telling PDCO</p> <p>9 anything."</p> <p>10 So my question to you is why did you want</p> <p>11 to be doubly sure before telling Patterson about</p> <p>12 Schein's plans?</p> <p>13 A. I wanted to give him accurate</p> <p>14 information. At this time we were still going back</p> <p>15 and forth whether we were going to go or not. If you</p> <p>16 read the e-mail it says we were going to go and then</p> <p>17 not go in years coming. I wasn't sure where we stood.</p> <p>18 Q. Why were you interested in giving</p> <p>19 Patterson accurate information?</p> <p>20 A. Well, he had given me accurate</p> <p>21 information. Again, I felt courtesy to call him back</p> <p>22 and to let him know what we were doing, but I didn't</p> <p>23 want to tell him something wrong.</p> <p>24 Q. Why not?</p> <p>25 A. Just wouldn't be good. I try to be</p>	219	<p>1 Q. Specifically Mr. Misiak?</p> <p>2 MR. McDONALD: Object to the form.</p> <p>3 THE WITNESS: Yes.</p> <p>4 BY MR. SOLOMON:</p> <p>5 Q. McDONALD: Object to the form.</p> <p>9 THE WITNESS: I didn't really think about</p> <p>10 it.</p> <p>11 BY MR. SOLOMON:</p> <p>12 Q. Were you concerned about Patterson's</p> <p>13 reaction to what Schein decided with respect to the</p> <p>14 TDA?</p> <p>15 A. No, no, we make our own decision.</p> <p>16 Q. What do you mean by that?</p> <p>17 A. Well, they might agree with it, they</p> <p>18 might disagree with it, it doesn't really bother me at</p> <p>19 all.</p> <p>20 Q. Do you know whether anyone else at Schein</p> <p>21 was concerned about providing accurate information to</p> <p>22 Patterson regarding the TDA trade show?</p> <p>23 MR. McDONALD: Object to the form,</p> <p>24 mischaracterizes the testimony.</p> <p>25 THE WITNESS: I don't recall.</p>
218	<p>1 accurate with everybody.</p> <p>2 Q. So you were concerned about providing</p> <p>3 inaccurate information to a competitor?</p> <p>4 MR. I wanted</p> <p>7 to tell him the truth when I knew what I knew, I</p> <p>8 didn't know at that point.</p> <p>9 BY MR. SOLOMON:</p> <p>10 Q. Did you think there would be any</p> <p>11 consequence to providing inaccurate information to</p> <p>12 Mr. Misiak?</p> <p>13 A. Never thought about it.</p> <p>14 MR. So you wanted to make sure that you</p> <p>24 provided Patterson with correct information?</p> <p>25 A. Yes, that's right.</p>	220	<p>1 Somebody else talking to Patterson, is</p> <p>2 that what you are saying?</p> <p>3 BY MR. SOLOMON:</p> <p>4 Q. Well, my question was specifically about</p> <p>5 whether anyone else at Schein was concerned about</p> <p>6 providing accurate information to Patterson about</p> <p>7 Schein's plans with respect to the TDA trade show.</p> <p>8 A. I have no idea.</p> <p>9 MR. McDONALD: Hang on, please pause.</p> <p>10 Object to the form.</p> <p>11 THE WITNESS: No idea.</p> <p>12 BY MR. SOLOMON:</p> <p>13 Q. Did you ever get back to Mr. Misiak after</p> <p>14 writing this e-mail on January 21, 2014?</p> <p>15 A. No.</p> <p>16 Q. So you never called Mr. Misiak after</p> <p>17 this?</p> <p>18 A. No.</p> <p>19 Q. Did you ever e-mail him after this?</p> <p>20 A. I --</p> <p>21 MR. McDONALD: Object to the form,</p> <p>22 mischaracterizes the document. This is not an e-mail.</p> <p>23 THE WITNESS: No, I had e-mailed him and</p> <p>24 telling him I would get back to him, but I did not get</p> <p>25 back to him.</p>

221

1 BY MR. SOLOMON:
 2 **Q. Why did you not get back to Mr. Misiak?**
 3 A. Because when we chose to withdraw it was
 4 public information very quickly and got every
 5 everywhere, everybody knew, there was no reason to get
 6 back.
 7 **Q. And that would have been in the April,
 8 2014 timeframe when Schein made a decision, right?**
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: I believe so.
 11 BY MR. SOLOMON:
 12 **Q. Mr. --**
 13 MR. McDONALD: What is redacted, do you
 14 know, did you all do that?
 15 MR. SOLOMON: Yes, we did.
 16 MR. McDONALD: What is it?
 17 MR. SOLOMON: This was a document
 18 produced by Patterson, it has a Patterson Bates number
 19 on it, so that would have been an internal e-mail that
 20 took place at Patterson.
 21 MR. McDONALD: Okay.
 22 MR. SOLOMON: It is possible that one of
 23 the witnesses might have seen that in one of the other
 24 litigations, I don't know, but we redacted it just to
 25 be careful.

222

1 MR. McDONALD: Okay.
 2 (Document identified as Exhibit 236 for
 3 identification.)
 4 BY MR. SOLOMON:
 5 **Q. Mr. Steck, have you had a chance to look
 6 at Exhibit 236?**
 7 A. Yes.
 8 **Q. Do you recall this e-mail?**
 9 A. I recall sending it, yes.
 10 **Q. And this is from you to Mr. Misiak on
 11 January 21, 2014, and the subject is Texas.**
 12 A. Uh-huh.
 13 **Q. When you say "Hi, Dave. I will be
 14 calling you to let you know about our decision on the
 15 matter we recently discussed in the next couple of
 16 days."
 17 What does the matter we recently
 18 discussed referred to in your e-mail?**
 19 A. It refers to the fact that he had called
 20 me to let me know he wouldn't be attending the TDA.
 21 **Q. You said you would be getting back to him
 22 about Schein's decision, right?**
 23 A. Yes.
 24 **Q. So that would refer to Schein's decision
 25 about whether or not to attend the TDA?**

223

1 A. Yes.
 2 **Q. Did you tell anyone else at Schein apart
 3 from Mr. Cavaretta that you would be contacting
 4 Mr. Misiak as you have in this e-mail, Exhibit 236?**
 5 A. I don't recall.
 6 **Q. Did you ever discuss this e-mail with
 7 Mr. Sullivan?**
 8 A. I don't know that I discussed this e-mail
 9 with Mr. Sullivan, no, I don't recall if I did or not.
 10 **Q. You say that you would be getting back to
 11 Patterson in the next couple of days.
 12 What did you plan to tell Mr. Steck --
 13 strike that.
 14 What did you plan to tell Mr. Misiak when
 15 you got back to him?**
 16 A. I would tell him if we made a decision,
 17 that is what the e-mail says.
 18 **Q. And why did you want to get back to him
 19 within a couple of days?**
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: I thought that we were
 22 going to be making a decision in the next couple of
 23 days. It turned out it took several -- a couple of
 24 months.
 25

224

 2 **Q. So this e-mail in January, 2014 at
 3 5:23 p.m., was this the last time you communicated
 4 with Mr. Misiak?**
 5 A. Yes.
 6 **Q. And you -- is it your testimony that you
 7 never communicated with Mr. Misiak again after this
 8 e-mail?**
 9 A. I am going to qualify that, I never
 10 communicated with Mr. Misiak about the TDA since then.
 11 **Q. Mr. Steck, as you can see this e-mail was
 12 produced to us by it has a Bates number that
 13 represents it originated from Patterson Dental.**
 14 A. Yes.
 15 **Q. We didn't find a corresponding copy of
 16 this e-mail in Henry Schein's production.
 17 I am wondering if do you know whether
 18 this is something that would have stayed in your
 19 e-mail records after the sending of this e-mail.**
 20 A. I can't imagine why it wouldn't, a lot of
 21 other ones were in there, I don't know why this wasn't
 22 in there.
 23 **Q. Do you recall ever deleting this e-mail?**
 24 A. Not specifically, no.
 25 **Q. Generally?**

56 (Pages 221 to 224)

225

1 A. No.
 2 **Q. Is it possible that you did at some point**
 3 **after writing this e-mail?**
 4 MR. McDONALD: Object to the form, don't
 5 speculate.
 6 THE WITNESS: No, I don't know.
 7 BY MR. SOLOMON:
 8 **Q. Would you have expected this to have been**
 9 **in Schein's document production?**
 10 A. Yes.
 11 (Document identified as Exhibit 237 for
 12 identification.)
 13 BY MR. SOLOMON:
 14 **Q. Mr. Steck, the court reporter has handed**
 15 **you Exhibit 237. Please let me know when you have had**
 16 **a chance to look it over.**
 17 A. Okay.
 18 **Q. This document is Bates labeled Henry**
 19 **Schein-000012343. Strike that.**
 20 **Henry Schein-000012169 is the first page**
 21 **and the second page is Henry Schein 0000012343. And**
 22 **these two pages represent excerpts that were taken**
 23 **from a document that was produced to us by Henry**
 24 **Schein.**
 25 A. Okay.

226

1 **Q. I would just like to direct your**
 2 **attention to Page 2 of the document, about six lines**
 3 **from the top. There is an entry from January 6, 2014**
 4 **at 12:42 p.m. Do you see that, Mr. Steck?**
 5 A. I do.
 6 **Q. And I would just like to confirm the**
 7 **left-hand most column in this document has a phone**
 8 **number there (414) 688-1925. Am I correct that that**
 9 **is your cell phone number?**
 10 A. Yes, it is.
 11 **Q. And turning to a few columns over there**
 12 **is a To line and there is another number**
 13 **(651) 686-1652. Do you see that?**
 14 A. I do.
 15 **Q. Do you recognize that number?**
 16 A. No.
 17 **Q. Do you have any doubt that this -- strike**
 18 **that.**
 19 **Is it possible that this is Mr. Misiak's**
 20 **cell phone number?**
 21 A. I have no idea, I don't have his cell
 22 phone number.
 23 **Q. You have no reason to doubt that would be**
 24 **Mr. Misiak's cell phone number, right?**
 25 MR. McDONALD: Object to form.

227

1 THE WITNESS: I don't know. It could be,
 2 could not be, I talked to other people in St. Paul,
 3 too.
 4 BY MR. SOLOMON:
 5 **Q. And as you just mentioned, the phone**
 6 **number is associated with a St. Paul, Minnesota**
 7 **address, do you see that?**
 8 A. Yes.
 9 **Q. And then one line over from direction, it**
 10 **says incoming, do you see that?**
 11 A. Yes.
 12 **Q. Does that represent that this was an**
 13 **incoming call to your cell phone?**
 14 MR. McDONALD: Object to the form.
 15 THE WITNESS: I have not seen this report
 16 before, but I will presume that that is what that
 17 means.
 18 BY MR. SOLOMON:
 19 **Q. According to the duration column of this**
 20 **document the call that we are focusing on lasted for**
 21 **about 14 minutes, do you see that?**
 22 A. Yes.
 23 **Q. Does this refresh your recollection about**
 24 **a conversation you had with Mr. Misiak in January**
 25 **of 2014?**

228

1 A. Again, I am not sure this is his phone
 2 number, this phone number, then I guess it was 14
 3 minutes, but I don't know that that is the case. I
 4 get calls from other places, too.
 5 **Q. And assuming this is Mr. Misiak's phone**
 6 **number --**
 7 MR. McDONALD: Are you representing that?
 8 MR. SOLOMON: I will represent that this
 9 is Mr. Misiak's office phone number.
 10 MR. McDONALD: We can cut through this if
 11 we just make that representation to him.
 12 BY MR. SOLOMON:
 13 **Q. So my question again is does this refresh**
 14 **your recollection about a conversation with Mr. Misiak**
 15 **in early January, 2014 about the TDA?**
 16 A. Yes.
 17 **Q. And this would have been the phone**
 18 **conversation you earlier testified about with**
 19 **Mr. Misiak, is that right?**
 20 A. Yes.
 21 **Q. And you previously testified that it was**
 22 **only two or three minutes, do you recall that?**

 16 **Q. Would it be fair to say that you**
 17 **discussed the TDA situation with Mr. Misiak for 14**
 18 **minutes?**
 19 A. Possibly.
 20 **Q. Would it be typical for you to speak to**
 21 **Mr. Misiak by phone for 14 minutes?**
 22 MR. McDONALD: Object to the form.
 23 THE WITNESS: I don't know that I have
 24 ever received another call from Mr. Misiak, before or
 25 since.

1 A. Yes.
 2 **Q. And then the next phone number listed**
 3 **under Source App: IMessage is (414) 688-1925, and I**
 4 **believe you just testified that is your cell phone**
 5 **number, is that right?**
 6 A. Yes, it is.
 7 **Q. So this is -- this represents a text**
 8 **message communication between yourself and your son**
 9 **Kyle Steck, right?**
 10 A. It was Kyle sending it to me, but yes.
 11 **Q. I will just kind of walk through the**
 12 **substance of it, Mr. Steck he "just walked out of our**
 13 **TDA meeting" -- strike that. "Just walked out of our**
 14 **meeting with TDA."**
 15 **Would you agree that this text message is**
 16 **about a meeting Mr. Kyle Steck had with the TDA in**
 17 **April of 2014?**
 18 A. Yes. I don't believe he was there by
 19 himself, I believe he was there with others, too.
 20 **Q. And what was the purpose of this meeting?**
 21 MR. McDONALD: Object to the form.
 22 THE WITNESS: I believe it was about
 23 trying to decide whether we are going to go to the TDA
 24 and if there was something to try to work with them on
 25 to try to stay part of the meeting and then become

230

232

1 BY MR. SOLOMON:
 2 **Q. Before this instance here?**
 3 A. Yes.
 4 **Q. You can put that document aside. We may**
 5 **refer to it again.**
 6 **(Document identified as Exhibit 238 for**
 7 **identification.)**
 8 BY MR. SOLOMON:
 9 **Q. Mr. Steck, the court reporter has handed**
 10 **you Exhibit 238. Please let me know what you have a**
 11 **chance to review it. For the record it bears Bates**
 12 **Nos. HSD-AZ0136566.**
 13 A. I see it.
 14 **Q. Do you recall this communication?**
 15 A. I believe I do.
 16 **Q. This appears to be a text message between**
 17 **two phone numbers, starting at the top there is a**
 18 **number it is (512) 221-8968.**
 19 **Mr. Steck, do you recognize that number?**
 20 A. I don't recognize the number, but -- no,
 21 I don't recognize that number specifically, but I do
 22 believe I know who it is from.
 23 **Q. Who is it from?**
 24 A. I believe it is from my son.
 25 **Q. Would that be Mr. Kyle Steck?**

1 part of the program.
 2 BY MR. SOLOMON:
 3 **Q. Mr. Kyle Steck goes on to say "tough**
 4 **decision to make." Do you see that?**
 5 A. Yes.
 6 **Q. Is it fair to say that Schein had not yet**
 7 **made up its mind as to whether it was attending the**
 8 **TDA 2014 trade show at the time of this communication?**
 9 A. Yes, that is what I would infer from
 10 this, yes.
 11 **Q. I want to turn to the sentence before**
 12 **last of this communication, Mr. Kyle Steck writes**
 13 **"Nonetheless, it invites the possibility that**
 14 **Patterson will come back and they can stick it to us."**
 15 **Do you see that?**
 16 A. Yes.
 17 **Q. Is it fair to say that Mr. Kyle Steck was**
 18 **referring to Patterson retaliating against Schein for**
 19 **cooperating with the TDA?**
 20 MR. McDONALD: Object to form.
 21 THE WITNESS: That is not the way I would
 22 read it.
 23 BY MR. SOLOMON:
 24 **Q. How would you read that sentence?**
 25 A. That we were choosing not to go, that

233

235

1 Patterson could decide to come back and then be at the
2 meeting without us.

3 **Q. Meaning Patterson would change its mind
4 and it would attend the meeting?**

5 A. Yes.

6 **Q. How do you know that is what Mr. Kyle
7 Steck was referring to here?**

8 MR. McDONALD: Object to the form. You
9 asked his understanding and he gave it to you.

10 MR. SOLOMON: I am just asking
11 understanding how he knows that.

12 MR. McDONALD: You can also read Kyle's
13 EUO, which you have in your possession, where he
14 testifies about this.

15 MR. SOLOMON: I don't know what you are
16 referring to.

17 MR. McDONALD: Kyle Steck's examination
18 under oath from the Texas Attorney General that has
19 been provided to you.

20 MR. SOLOMON: I am just talking to --
21 trying to get Mr. Dave Steck's understanding.

22 MR. McDONALD: Again, you asked him for
23 his understanding and he gave it to you.

24 MR. SOLOMON: And I am asking what that
25 understanding is based on. I think that is a proper

1 **you had with Mr. Kyle Steck about this text message
2 represented in this document in front of you?**

3 A. I don't recall anything specific to this
4 text message, no.

5 **Q. Do you recall whether or not you
6 responded to Mr. Kyle Steck?**

7 A. With the text message back?

8 **Q. Uh-huh, right.**

9 A. I don't recall.

10 **Q. Did you follow-up with Mr. Kyle Steck by
11 phone or e-mail?**

12 A. I don't remember.

13 Are we done with this one?

14 **Q. You can put it aside for now.**

15 A. Okay.

16 (Document identified as Exhibit 239 for
17 identification.)

18 BY MR. SOLOMON:

19 **Q. Mr. Steck, do you recall the text message
20 conversation represented in Exhibit 239?**

21 A. I do now, yes.

22 **Q. And this appears to be another text
23 message conversation between yourself and your son,
24 Mr. Kyle Steck, right?**

25 A. Yes.

234

236

1 question.

2 MR. McDONALD: Okay.

3 THE WITNESS: I am just speculating that
4 is what he intended, that is what he meant by this.

5 BY MR. SOLOMON:

6 **Q. So it is not based on any follow-up
7 conversation you had with Mr. Kyle Steck about what he
8 meant here?**

9 A. No.

10 **Q. The next sentence Mr. Kyle Steck writes
11 "I am sure Joe or Dean will call you..." and I think
12 Joe refers to Mr. Cavaretta and Dean refers to
13 Mr. Dean Kyle, is that right?**

14 A. Yes, I believe that is right.

15 **Q. Did Mr. Cavaretta or Mr. Kyle in fact
16 call you?**

17 A. I don't remember. They certainly might
18 have.

19 **Q. Do you recall what you might have
20 discussed with Mr. Cavaretta or Mr. Kyle?**

21 MR. McDONALD: Object to the form.

22 THE WITNESS: We would have discussed the
23 meeting I had with the TDA.

24 BY MR. SOLOMON:

25 **Q. Do you recall any follow-up conversations**

1 **Q. So I just kind of want to start at the
2 top here, the first message in this chain, the text
3 says "Planmeca out of TDA," do you see that?**

4 A. Yes.

5 **Q. That is from Mr. Kyle Steck, right?**

6 A. Yes.

7 **Q. And Planmeca is a manufacturer, is that
8 right?**

9 A. Yes.

10 **Q. Do you know how Mr. Kyle Steck learned
11 that Planmeca was not attending the TDA?**

12 A. I do not.

13 **Q. Do you know whether Planmeca ultimately
14 attended the TDA in 2014?**

15 A. I do not.

16 **Q. Do you know why Mr. Kyle Steck was
17 sending you a text message about Planmeca's plans with
18 respect to attendance at the TDA trade show?**

19 A. He was just relating news relative to the
20 TDA.

21 **Q. Why?**

22 A. It is a hot topic.

23 **Q. Was this information of interest to you
24 at the time?**

25 A. Yes.

237

1 **Q. Why?**
 2 A. I just wanted -- it was interesting to
 3 know.
 4 **Q. Had you ever communicated with anyone at**
 5 **Planmeca about the TDA Perks Supply program?**
 6 A. No, I didn't.
 7 **Q. Did you ever communicate with anyone at**
 8 **Planmeca about whether they were attending TDA in**
 9 **2014?**
 10 A. No.
 11 **Q. You don't know how Mr. Kyle Steck learned**
 12 **this information, right?**
 13 A. I do not.
 14 **Q. It looks like the next message in this**
 15 **chain is a response in which you say "Awesome... What**
 16 **about Midmark?" Do you see that?**
 17 A. Yes.
 18 **Q. And Midmark is another manufacturer,**
 19 **right?**
 20 A. Of dental equipment, yes.
 21 **Q. And why were you asking Mr. Kyle about**
 22 **Midmark -- strike that.**
 23 **Why were you asking Mr. Kyle Steck about**
 24 **Midmark?**
 25 A. Just asking because they were another

238

1 equipment company if they had made any decisions as
 2 well.
 3 **Q. Did you expect that Mr. Kyle Steck would**
 4 **know that information?**
 5 A. Maybe.
 6 **Q. Why?**
 7 A. Because he is the local manager and he is
 8 aware of that kind of stuff.
 9 **Q. Was it of interest to you whether Midmark**
 10 **was attending the 2014 TDA trade show?**
 11 A. It would have been interesting to know
 12 one way or the other, but it wasn't affecting me one
 13 way or the other.
 14 **Q. Why not?**
 15 A. Because we had already made a decision.
 16 **Q. At the time of this e-mail April 21, 2014**
 17 **Schein had made a decision about the TDA, is that what**
 18 **you are testifying?**
 19 MR. McDONALD: Object to the form.
 20 If you know tell him.
 21 THE WITNESS: I believe we had, but I am
 22 not sure.
 23 BY MR. SOLOMON:
 24 **Q. If Schein had already made a decision at**
 25 **the time of this text message why were you interested**

239

1 **to know about the plans of other manufacturers?**
 2 A. We weren't the only ones who had issues
 3 with the TDA in this program.
 4 **Q. I think my question is a little bit**
 5 **different.**
 6 **I am just curious why you wanted to know**
 7 **what other manufacturers were doing if Schein had**
 8 **already made the decision to pull out of the show.**
 9 A. It is just interesting to know how
 10 everybody is looking at the situation, that is all.
 11 **Q. Why is that?**
 12 A. I don't think there is anything more to
 13 add to that.
 14 **Q. Why not?**
 15 A. Because there isn't. I mean, it was
 16 interesting to know somebody else had made that
 17 decision, they all made it independently.
 18 **Q. How do you know that?**
 19 A. I had no conversations with them.
 20 **Q. Who are you referring to by them in your**
 21 **last answer?**
 22 A. Any of the manufacturers that are listed
 23 here.
 24 **Q. And then just turning to the next message**
 25 **in this conversation, Mr. Steck writes "I think it was**

240

1 **safe for Planmeca in that they only do small business**
 2 **with Burkhart and Sirona is already out with**
 3 **Patterson." Do you see that?**
 4 A. Yes.
 5 **Q. Do you know how Mr. Kyle Steck knew that**
 6 **Sirona was already out with Patterson?**
 7 A. No.
 8 **Q. Do you know why he provided that**
 9 **information to you?**
 10 A. Again, just he thought it would be of
 11 interest.
 12 **Q. Why?**
 13 A. Just to understand what was going on with
 14 the meeting.
 15 **Q. Did you tell anyone at Schein's corporate**
 16 **office about this conversation you had with Mr. Kyle**
 17 **Steck?**
 18 A. I don't recall.
 19 MR. McDONALD: The text message, is that
 20 what you are talking about?
 21 MR. SOLOMON: That's right.
 22 THE WITNESS: I don't recall, but I very
 23 well might have.
 24 BY MR. SOLOMON:
 25 **Q. Who would you have told?**

60 (Pages 237 to 240)

241	<p>1 A. Probably Tim Sullivan.</p> <p>2 Q. What would you have told Tim Sullivan?</p> <p>3 A. That these manufacturers had elected not</p> <p>4 to come.</p> <p>5 Q. Why would you tell Mr. Sullivan that</p> <p>6 information?</p> <p>7 A. It is of interest to him, too, as much as</p> <p>8 it was to me.</p> <p>9 Q. How do you know that?</p> <p>10 MR. McDONALD: Object to the form.</p> <p>11 THE WITNESS: Just it just was, we had</p> <p>12 made a decision to pull out and other people -- I</p> <p>13 believe we had made a decision to pull out. If other</p> <p>14 people had come to a similar decision it was their</p> <p>15 decision to make.</p> <p>16 (Document identified as Exhibit 240 for</p> <p>17 identification.)</p> <p>18 BY MR. SOLOMON:</p> <p>19 Q. Mr. Steck, you have Exhibit 240 in front</p> <p>20 of you. Would you let me know when you had a chance</p> <p>21 to review it?</p> <p>22 A. I read it.</p> <p>23 Q. Do you recall this e-mail?</p> <p>24 A. Yes.</p> <p>25 Q. What is this e-mail?</p>	243	<p>1 BY MR. SOLOMON:</p> <p>2 Q. Do you know why Mr. Stack was providing</p> <p>3 that information to you?</p> <p>4 A. No idea.</p> <p>5 Q. Mr. Stack writes, the sentence before the</p> <p>6 last, "just wanted to drop you a quick note to</p> <p>7 confirm..." Do you see where I am referring to?</p> <p>8 A. Yes.</p> <p>9 Q. Do you know what Mr. Stack was</p> <p>10 confirming?</p> <p>11 A. No idea.</p> <p>12 Q. Had you asked Mr. Stack to confirm</p> <p>13 Ivoclar was pulling its authorized dealer to selling</p> <p>14 at the TDA to the Perks Supply program?</p> <p>15 A. No, I was not.</p> <p>16 Q. So you have no understanding as to what</p> <p>17 Mr. Stack is confirming here?</p> <p>18 A. No.</p> <p>19 Q. Were you surprised by his reference to</p> <p>20 confirming something when you read this e-mail?</p> <p>21 A. I didn't get that into the wording of it,</p> <p>22 he was just letting me know that they had made a</p> <p>23 distribution decision. It is not that uncommon for</p> <p>24 manufacturers to let us know they made particular</p> <p>25 distribution decisions after they make them.</p>
242	<p>1 A. This is the one I referred to earlier in</p> <p>2 my testimony.</p> <p>3 Q. That would be a conversation between</p> <p>4 yourself and Mr. John Steck who was from Ivoclar?</p> <p>5 A. Right.</p> <p>6 Q. I kind of just want to walk through this</p> <p>7 e-mail here.</p> <p>8 Is it fair to say Mr. Steck was e-mailing</p> <p>9 you regarding Ivoclar's discontinuing its authorized</p> <p>10 products?</p> <p>11 MR. McDONALD: Objection to form.</p> <p>12 MR. SOLOMON: I hadn't finished my</p> <p>13 question.</p> <p>14 MR. McDONALD: Sorry, I thought you had</p> <p>15 paused.</p> <p>16 BY MR. SOLOMON:</p> <p>17 Q. Is it fair to say that Mr. Steck was</p> <p>18 e-mailing you regarding Ivoclar discontinuing its</p> <p>19 authorized distribution of products through the TDA?</p> <p>20 MR. McDONALD: Object to the form.</p> <p>21 THE WITNESS: I would characterize it as</p> <p>22 the Ivoclar had requested at the west coast that was</p> <p>23 featuring the products through Source One, which was</p> <p>24 the TDA Perks supplier, and let us know that.</p> <p>25</p>	244	<p>1 Q. Did you discuss this e-mail with</p> <p>2 Mr. Sullivan?</p> <p>3 A. I don't believe I did.</p> <p>4 Q. And at the top you say, "Thanks, John."</p> <p>5 Do you see that?</p> <p>6 A. Yes.</p> <p>7 Q. Why were you thanking Mr. Stack in your</p> <p>8 e-mail here?</p> <p>9 A. Thank you for sending an e-mail, for</p> <p>10 giving you information. There was nothing to it.</p> <p>11 Q. Did you think this information was</p> <p>12 helpful?</p> <p>13 A. Not really.</p> <p>14 Q. So you were just thanking John for</p> <p>15 providing it in any case?</p> <p>16 A. We have a good relationship.</p> <p>17 Q. How many times have you met with Mr. John</p> <p>18 Stack?</p> <p>19 A. Half a dozen, maybe more.</p> <p>20 Q. On what occasions do you meet with</p> <p>21 Mr. Stack?</p> <p>22 A. Well, Ivoclar is a large manufacturer, we</p> <p>23 are a large distributor for them. I don't know,</p> <p>24 couple times a year maybe for one reason or another.</p> <p>25 Q. My apologies if you testified about this</p>

245

1 earlier, I don't recall, but where would you normally
2 meet with Mr. Stack?

3 A. It is hard to say. Our meetings have not
4 been regular, so they have been whenever he has asked
5 for them or his boss who is copied in the e-mail has
6 asked for them. Again, it tends to be a couple times
7 a year and usually it is at conventions.

8 **Q. Who is Mr. Stack's boss that you are
9 referring to?**

10 A. Pierre Lamoure.

11 **Q. Do you know what Mr. Lamoure's title is
12 at Ivoclar?**

13 A. I believe he was VP of sales.

14 **Q. And how well do you know Mr. Lamoure?**

15 A. Pretty well.

16 **Q. How often do you meet with Mr. Lamoure?**

17 A. I just mentioned, it is not regular, it
18 is whatever he asks for it. It is probably a couple
19 of times a year, they would come together.

20 **Q. So Mr. Stack and Mr. Lamoure would be at
21 the meetings together?**

22 A. Correct.

23 **Q. Is there anyone else at Ivoclar with whom
24 you regularly communicate?**

25 MR. McDONALD: Object to the form.

246

1 THE WITNESS: Not regularly, no.

2 BY MR. SOLOMON:

3 **Q. How about irregularly?**

4 A. They all change people occasionally from
5 time to time, it is hard to tell. I can't think of
6 anybody. There may be someone else, but I can't think
7 of them right now.

8 **Q. Would you say that Mr. Stack and
9 Mr. Lamoure are your primary points of contact at
10 Ivoclar?**

11 A. Mr. Lamoure is my primary contact,
12 Mr. Stack is somebody who works for him and I come in
13 contact with and seen at a few meetings, et cetera.

14 **Q. Does Schein ever hold joint meetings with
15 manufacturers?**

16 MR. McDONALD: Object to the form.

17 If you understand you can answer.

18 THE WITNESS: I was going to ask for
19 clarification.

20 You mean a meeting where we sit down with
21 the manufacturer to talk about business or something,
22 is that what you are asking?

23 BY MR. SOLOMON:

24 **Q. Yes.**

25 A. All the time, sure.

247

1 **Q. Does Schein ever hold any offsite
2 meetings or retreats from manufacturers?**

3 A. Yes.

4 **Q. Which ones?**

5 A. It varies.

6 We do an annual meeting offsite with
7 Dentsply Sirona, Dentsply, prior to the merger. We
8 have done them with 3M, we have done them with KaVo
9 Kerr. I don't believe I have ever been one with
10 Ivoclar. We have done them with some of the equipment
11 companies as well.

12 **Q. Why does Schein participate in those
13 meetings?**

14 A. We talk about what we can do to grow the
15 business together, what opportunities there are in the
16 marketplace for us to work together.

17 **Q. Do these meetings typically have an
18 agenda?**

19 A. Yes.

20 **Q. Do you know who prepares those agendas?**

21 A. Usually the company.

22 **Q. So the manufacturer would prepare the
23 agenda in advance of the meeting?**

24 A. Yes.

25 **Q. Do you know how long these meetings**

248

1 **usually last for?**

2 MR. McDONALD: Object to the form.

3 THE WITNESS: It varies. The actual
4 business meetings are usually a few hours and normally
5 if they are offsite there is some kind of recreation
6 involved.

7 BY MR. SOLOMON:

8 **Q. So that would be a golf outing or dinner
9 or something along those lines?**

10 A. Yes.

11 **Q. About how many people from Schein usually
12 attend those meetings?**

13 A. It depends. It can be as few as two or
14 three, it can be as many as eight or nine probably.

15 **Q. Do you usually attend -- strike that.**

16 **Do you try to attend all of the offsite
17 meetings with manufacturers?**

18 A. I think to, yes.

19 **Q. What about Mr. Sullivan?**

20 A. He does most of the time, he can't make
21 all of them.

22 **Q. Who else usually attends these types of
23 meetings from Henry Schein Dental?**

24 A. Normally someone from our New York team,
25 marketing team, and usually Joe or Jake, our two VPs

249

1 of sales, or both, and usually someone on my team that
2 is in a position to handle relations with that
3 company, whoever that is.

4 **Q. Can you give me an example of something**
5 **that a manufacturer would want to discuss as part of**
6 **an agenda at one of these meetings?**

7 A. Sure. You know, how can we grow our
8 business together, what segments of the market do we
9 want to go after together, what products do we sell we
10 can make we can do a better job with, how do we work
11 more closely with your sales team, those are all
12 things we talked about.

13 **Q. Does Schein ever provide the manufacturer**
14 **with a topic of discussion at these types of meetings?**

15 A. We could, we have, yes, we have.

16 **Q. Can you give me an example.**

17 A. If we felt that, for example, with an
18 equipment company, if we felt they had a product that
19 was underdeveloped or category was underdeveloped that
20 we thought we would do a better job with some help
21 from them we would probably put that on the agenda.

22 **Q. Does Schein ever discuss customers with**
23 **manufacturers at these types of meetings?**

24 A. Not generally, no.

25 **Q. Has that ever happened in your**

250

1 **experience?**

2 A. The only ones I believe have ever been
3 discussed were large DSOs, could make a significant
4 impact in the marketplace if the business was lost or
5 gained.

6 **Q. What kind of discussions would those be?**

7 A. Hey, we are really excited, we have
8 Heartland down or insert a name of a DSO to sell our
9 product or buy our product or what can we do, in which
10 case I am usually not the person to ask that question
11 because my group doesn't deal with those.

12 **Q. Who would be the person who would have**
13 **those discussions with a manufacturer?**

14 A. Hal Muller and Paul Burke, Paul Burke, he
15 works for Hal Muller.

16 **Q. I am not sure if we discussed him at all**
17 **today, can you -- do you know what his title is?**

18 A. No. It is somewhere around there, he
19 handles a lot of the vendor relations for special
20 markets.

21 **Q. Do any of Schein's top manufacturing**
22 **partners sell directly to customers?**

23 A. Well, Dentsply has direct divisions that
24 sell directly to customers that are not -- they are
25 mostly specialized products like implants and things

251

1 like that.

2 **Q. Go you --**

3 A. Things not traditionally that we don't
4 traditionally sell that much.

5 **Q. Do those divisions ever sell merchandise**
6 **or consumables to customers directly?**

7 A. I would --

8 MR. McDONALD: Object to the form.

9 THE WITNESS: I would be careful of the
10 word ever.

11 I believe they sell to dental schools
12 direct, but to dentists themselves, private practicing
13 dentists, which is what I am most familiar with, I am
14 not familiar with them selling direct.

15 BY MR. SOLOMON:

16 **Q. Are you aware of any products that**
17 **manufacturers sell directly which Schein also sells?**

18 A. Yes, sure.

19 **Q. Can you give me some examples?**

20 A. Well, there are a couple of brands that
21 sell both direct and through Schein.

22 **Q. Can you give -- name those brands?**

23 A. One that came to mind is a company called
24 Centrix and they sell both through us and through
25 distribution -- through us and directly.

252

1 **Q. Do you know why the manufacturer sells**
2 **directly?**

3 MR. McDONALD: Object to the form.

4 THE WITNESS: I don't know why each of
5 them make that decision, no.

6 BY MR. SOLOMON:

7 **Q. Does Schein have an opinion about that**
8 **decision?**

9 MR. McDONALD: Object to the form.

10 He is not here as a corporate rep, you
11 can ask him if he has an opinion.

12 BY MR. SOLOMON:

13 **Q. Do you have an opinion about**
14 **manufacturers selling directly the same products which**
15 **Schein also sells?**

16 A. I think they would limit the level of
17 support they would get from the salesperson by doing
18 that.

19 **Q. What do you mean by that?**

20 A. Because these products are consumables,
21 so if I were to sell a product from a brand like
22 Centrix that was in a dental office, I am a Schein
23 rep, and then they can call and order direct I
24 wouldn't be commissioned or get credit for it after
25 that.

253	<p>1 Q. So would a sales representative be 2 disincentivized to sell products which manufacturers 3 also sell directly to customers? 4 A. We don't disincentivize them, but I 5 believe they would believe that the fact that the 6 customer could buy it without them and being involved 7 in it would be reason not to promote it. 8 Q. What do you mean by promote it? 9 A. Doctors ask for product advice all the 10 time. 11 Q. Any other -- strike that. 12 Would a Schein sales representative do 13 anything to steer manufacturers away from products 14 that manufacturers sell directly? 15 MR. McDONALD: Object to the form. 16 You ought to read your question, Ronnie, 17 you might want to restate it. 18 BY MR. SOLOMON: 19 Q. Thank you, I appreciate that. 20 Would a Schein sales representative do 21 anything to steer a customer away from a product which 22 a manufacturer sells directly? 23 A. They very well might. 24 Q. What could a sales representative do in 25 that instance?</p>	255	<p>1 Q. What kind of discussions have you had? 2 A. Well, generally they want to know what 3 our opinion is on them so we generally share with them 4 what we have been talking about with them today. 5 Q. Have you spoken with all of Schein's top 6 manufacturing partners about buying groups? 7 A. No. 8 Q. Which ones have you spoken with? 9 A. Dentsply, they are the most interested. 10 There may be one or two others, but I can't really 11 remember specifically. 12 What happened, I believe, with the 13 Dentsply case, is that they already had an agreement 14 with Smile Source so when we took over or were 15 authorized as a Smile Source distributor that they 16 just let us know what that was. 17 Q. You said -- you mentioned that Dentsply 18 -- you said Dentsply they are the most interested, 19 referring to buying groups. What did you mean by 20 that? 21 A. Dentsply of all the companies we do 22 business with is the most aggressive in terms of 23 trying to find new parts of the market that they can 24 sell to. 25 Q. Have representatives of Dentsply ever</p>
254	<p>1 A. Promote a competing product that did not 2 self direct. 3 Q. Are you aware of that ever happening in 4 the field? 5 A. I can't cite a specific instance, but I 6 am sure it happens. 7 Q. So we talked a little about Dentsply has 8 certain divisions that sell direct. Do you know 9 whether there are any other manufacturers which Schein 10 works that also sell directly to customers? 11 A. Yes. KaVo Kerr has some direct 12 companies. 13 Almost all of these are what I call 14 specialty businesses, in other words, they sell to 15 orthodontists, endodontists, they don't sell to 16 general practitioners, which is a little different. 17 The -- I am just thinking who else. 18 There might be one or two others. 19 Like I said, most manufacturers sell 20 direct to dental schools just because the products are 21 discounted so low. 22 That is the only ones I can think of. 23 Q. Do you ever discuss buying groups with 24 manufacturers? 25 A. We have had discussions about them, sure.</p>	256	<p>1 encouraged Schein to work with a specific buying group 2 or GPA? 3 A. Not to my knowledge. 4 Q. Have you ever asked a manufacturer 5 whether they would support Schein working with a 6 buying group or GPO? 7 A. Not that I can remember. 8 Q. Do you know whether anyone else at Schein 9 has had those types of conversations with a 10 representative of a manufacturer? 11 A. No. 12 I know there was some discussion when we 13 did the Smile Source thing earlier this year with 14 A-Dec who was approached by Smile Source and they 15 asked us what we thought, but that was the extent of 16 it. 17 Q. Have you or anyone else at Schein ever 18 suggested that Schein would not be in favor of a 19 manufacturer selling directly to a buying group or 20 GPO? 21 MR. McDONALD: Object to the form. 22 THE WITNESS: I don't remember ever 23 having a conversation like that, but I think it would 24 be obvious to the manufacturing community that if they 25 started selling directly to a buying group, which is</p>

257

1 effectively selling directly to the dentist, same
2 thing, that we wouldn't view it positively, but I
3 don't believe they have ever asked the question.

4 BY MR. SOLOMON:

5 **Q. Why do say it would be rather obvious to
6 the manufacturing community?**

7 A. Because we make money selling products.
8 And so if they are bypassing us then we are not going
9 to have access to the products.

10 **Q. And so in that instance or in that
11 scenario Schein would lose sales?**

12 A. Yes, sure.

13 **Q. But you are not aware of any specific
14 conversations you or anyone else at Schein has had
15 with the manufacturer about that topic?**

16 A. I can't recall any, no.

17 **Q. Did you ever have the sense that
18 manufacturers were interested in directly selling to a
19 GPO or a buying group?**

20 MR. McDONALD: Object to form.

21 THE WITNESS: Did I ever -- can you
22 restate that, ever have the sense that --

23 BY MR. SOLOMON:

24 **Q. Sure.**

25 **Did you ever have the sense that**

259

1 THE WITNESS: Where they refused to
2 provide special pricing, meaning they were not giving
3 us or the GPO any kind of special pricing other than
4 their normal wholesale is what you are asking?

5 BY MR. SOLOMON:

6 **Q. Right. That would be one instance of
7 that.**

8 A. Yeah, no, I am not aware of that.

9 MR. SOLOMON: I think we can take a short
10 break.

11 (Recess taken.)

12 BY MR. SOLOMON:

13 **Q. Mr. Steck, apart from Mr. Misiak -- apart
14 from a call you had with Mr. Misiak in January of 2014
15 have you communicated with anyone from Patterson in
16 the past ten years?**

17 A. Communicated is a wide term. I mean,
18 saying hello at a trade show, sure.

19 **Q. Have you had communications with anyone
20 from Patterson other than saying hello at a trade
21 show?**

22 A. Well, I work on a committee with Tim
23 Rogan on Dental Lifeline Network, he is on that as
24 well.

25 **Q. Who is Tim Rogan?**

258

1 **manufacturers were interested in directly selling to a
2 GPO or buying group?**

3 MR. McDONALD: Object to the form.

4 THE WITNESS: No.

5 BY MR. SOLOMON:

6 **Q. Do dental manufacturers offer chargebacks
7 or discounts specific to buying groups or GPOs?**

8 MR. McDONALD: Object to the form, lack
9 of foundation.

10 THE WITNESS: I am not aware of any
11 personally with buying groups. We talked about it
12 earlier with corporate accounts. I am not aware of
13 any specific to buying groups. But there may be --
14 Smile Source which, again, I am not that familiar
15 with, there may be some kind of arrangement like that
16 and I am not familiar with that.

17 BY MR. SOLOMON:

18 **Q. Do you know whether that would be with
19 Dentsply?**

20 A. I don't know.

21 **Q. Are you aware of any instances in which a
22 manufacturer refused to provide special pricing for a
23 GPO or buying group customer?**

24 MR. McDONALD: Object to the form, lack
25 of foundation.

260

1 A. Well, I believe he is works for Misiak,
2 but he is -- he and I are on the same board together.

3 **Q. Is Mr. Rogan an employee of Patterson?**

4 A. Yes.

5 **Q. So Mr. Rogan is a part of the Dental
6 Lifeline Network board, is that right?**

7 A. Yes.

8 **Q. Do you attend meetings for that
9 organization at which Mr. Rogan is also present?**

10 A. Generally he attends the same meetings I
11 do, yes.

12 **Q. About how many times a year do those
13 meetings occur?**

14 A. I already testified to this, but it is
15 twice a year usually.

16 **Q. Thank you.**

17 **Do you speak with Mr. Rogan at these
18 meetings?**

19 A. Generally about Dental Lifeline Network
20 matters, yes.

21 **Q. About anything else?**

22 A. Not really.

23 **Q. How long do those meetings usually last?**

24 A. They can be as long as a day, sometimes
25 usually a couple -- usually a couple hours.

261

- 1 **Q. About how many people would you say**
 2 **attend those meetings?**
 3 A. We went through that earlier, I think
 4 there is about -- from the trades, dealers, and
 5 manufacturers probably six or so and then there is
 6 another six from the dental profession that are
 7 dentists and about six that are staff. Again, these
 8 are all approximate numbers, I can't give you exact.
 9 **Q. Have you ever discussed business other**
 10 **than business relating to the Dental Lifeline Network**
 11 **at one of those meetings?**
 12 A. No.
 13 **Q. Are there any other employees of**
 14 **distributors that are a part of that organization's**
 15 **board?**
 16 A. In the last year Chuck Cohen has joined
 17 the board as well.
 18 **Q. Who is Chuck Cohen?**
 19 A. Chuck is I believe his title is managing
 20 director of Benco.
 21 **Q. How many times have you -- strike that.**
 22 **Have you ever met Mr. Chuck Cohen?**
 23 A. Sure, yes.
 24 **Q. How many times?**
 25 A. Well, I met him before, just, again,

262

- 1 saying hello, meetings, we are part of the same Dental
 2 Lifeline Network team, we used to do videos for the
 3 Dental Lifeline Network together. I don't know, maybe
 4 a dozen.
 5 **Q. A dozen over --**
 6 A. Ten years.
 7 **Q. Are you aware of any communications**
 8 **between Mr. Sullivan and Mr. Cohen?**
 9 A. Not currently, no.
 10 **Q. What about in the past?**
 11 A. I know they had had a conversation in the
 12 past about recruiting each other's salespeople.
 13 **Q. And how do you know about that**
 14 **conversation?**
 15 A. Because we had had an agreement with them
 16 that we would have so many days that the salesperson
 17 would be out of the territory if we recruited them and
 18 it was mutual.
 19 **Q. Did Mr. Sullivan ever tell you about a**
 20 **conversation he had with Mr. Cohen?**
 21 A. Related to the point I just made, yes.
 22 **Q. So he talked to you about a specific**
 23 **conversation he had with Mr. Cohen?**
 24 A. Yes.
 25 **Q. Was that a conversation by phone or in**

263

- 1 **person or by e-mail?**
 2 A. I believe it was by phone, I don't know.
 3 **Q. Did Mr. Sullivan -- strike that.**
 4 **Do you know why Mr. Sullivan told you**
 5 **about that conversation?**
 6 A. Well, because I am involved with
 7 recruiting competitive salespeople from other places
 8 and so he just wanted me to be aware.
 9 **Q. Did Mr. Sullivan ever tell you about a**
 10 **conversation he had with Mr. Cohen about an entity**
 11 **called Atlantic Dental Care?**
 12 A. No, I don't believe so.
 13 **Q. Have you ever communicated with anyone**
 14 **else from Benco over the last ten years?**
 15 A. No.
 16 **Q. Have you ever spoken with Mr. Chuck Cohen**
 17 **about anything unrelated to the business of the Dental**
 18 **Lifeline Network?**
 19 A. Other than personal how are you doing,
 20 stuff, he had cancer, I probably asked how he was
 21 feeling and things like that.
 22 **Q. Anything else?**
 23 A. No.
 24 **Q. Have you ever met with Mr. Rogan where**
 25 **others were not present?**

264

- 1 A. No.
 2 **Q. The same question for Mr. Chuck Cohen.**
 3 A. No.
 4 **Q. Have you ever spoken with Mr. Cohen by**
 5 **telephone?**
 6 A. Yes, related to a Dental Lifeline
 7 Network, I believe, last year, related to a Dental
 8 Lifeline Network fundraiser.
 9 **Q. So that would have been in 2016?**
 10 A. Yes, I think so.
 11 **Q. Do you know when Mr. Cohen joined the**
 12 **Dental Lifeline Network?**
 13 A. I think it was in 2016, earlier.
 14 **Q. Early 2016?**
 15 A. Yes, I think so.
 16 **Q. Would you say -- do you have an**
 17 **approximate month in mind, or is that something you**
 18 **recall?**
 19 A. I am not sure, I am not sure. If I had
 20 to guess I would say last spring, but I don't know.
 21 **Q. So the spring of 2016.**
 22 A. Maybe, yes.
 23 **Q. Have you ever communicated with anyone**
 24 **from Patterson about buying groups?**
 25 A. No.

265

267

1 **Q. Have you ever communicated with anyone**
 2 **from Benco about buying groups?**
 3 A. No.
 4 **Q. Are you aware of anyone else from Schein**
 5 **communicating with Patterson about buying groups?**
 6 A. No.
 7 **Q. Are you aware of anyone else from Schein**
 8 **communicating with Benco about buying groups?**
 9 A. No.
 10 **Q. Mr. Steck, I would like to just have you**
 11 **look at Exhibit 237 again. And this time we are just**
 12 **going to look at the first page of that document.**
 13 **About 19 lines down, about 12 lines from**
 14 **the bottom, there is an entry on November 9, 2015 at**
 15 **2:01 p.m. Do you see that?**
 16 A. Yes.
 17 **Q. And just to go over this again on the**
 18 **left-hand column under device, is that your phone**
 19 **number (415) 688-1925?**
 20 A. (414) 688, yes, that is my number.
 21 **Q. That is your cell phone number, right?**
 22 A. Yes.
 23 **Q. According to this record here you had a**
 24 **phone call with a number that is listed as**
 25 **(570) 407-1340. Do you see that?**

1 THE WITNESS: It could be, I mean, not --
 2 we don't speak regularly, you can check the phone
 3 records. I remember a phone conversation with chuck
 4 about the Dental Lifeline Network, that is about the
 5 only thing I can remember.
 6 BY MR. SOLOMON:
 7 **Q. Do you recall what you and Mr. Cohen**
 8 **discussed during that phone call?**
 9 A. Well, we were -- wanted to put together
 10 some additional ways to raise money.
 11 The other thing this could be potentially
 12 was when he was trying to decide if he wanted to go on
 13 the Dental Lifeline Network board, that would make
 14 sense, too. I do remember a conversation with him now
 15 about that when he wanted to see if it is something he
 16 should do.
 17 **Q. Did Mr. Cohen call you at any point to**
 18 **ask you about his decision to join the Dental Lifeline**
 19 **Network?**
 20 A. We did speak, yes, I just didn't know if
 21 it was on cell, we did speak at some point. He called
 22 to see what I thought about the organization.
 23 **Q. Do you know how Mr. Cohen got your phone**
 24 **number?**
 25 A. No.

266

268

1 A. Yes.
 2 **Q. And the number is associated with**
 3 **Pittston, Pennsylvania, right?**
 4 A. Yes.
 5 **Q. Do you recognize that phone number?**
 6 A. No.
 7 **Q. I will represent you to you that that is**
 8 **the cell phone number for Mr. Chuck Cohen. Do you**
 9 **have any reason to doubt that?**
 10 A. No.
 11 **Q. Does this phone record refresh your**
 12 **recollection about a conversation you had with**
 13 **Mr. Cohen of Benco on November 9, 2015 by telephone?**
 14 A. No, it does not.
 15 The only thing I could think is maybe I
 16 am off on my timing on Dental Lifeline Network, but,
 17 no, I can't -- I don't remember it.
 18 **Q. So you have no recollection of this phone**
 19 **call?**
 20 A. No.
 21 **Q. Apart from your communications with**
 22 **Mr. Cohen relating to the Dental Lifeline Network**
 23 **would it be typical for you to speak with Mr. Cohen by**
 24 **telephone?**
 25 MR. McDONALD: Object to the form.

1 **Q. And what did you discuss with Mr. Cohen**
 2 **during that conversation?**
 3 A. I remember talking about the organization
 4 why I thought the organization was a good
 5 organization, why I got involved with it, and, you
 6 know, that I thought he would be good if he wanted to
 7 be involved with it.
 8 **Q. Do you know why Mr. Cohen was asking you**
 9 **for that kind of advice?**
 10 MR. McDONALD: Object to form.
 11 THE WITNESS: I just wanted to know about
 12 -- he didn't know a lot about it, I think it was just
 13 naturally he wanted to reach out to somebody who was
 14 in a similar capacity and see what they thought of
 15 that organization.
 16 BY MR. SOLOMON:
 17 **Q. Do you know whether anyone else from**
 18 **Henry Schein is a part of the Dental Lifeline Network**
 19 **board?**
 20 A. No one else from Henry Schein is part of
 21 the board.
 22 **Q. Do you know whether Mr. Cohen reached out**
 23 **to anyone else from the Dental Lifeline board to**
 24 **discuss this his potential membership on the**
 25 **organization?**

269

1 A. I don't know for a fact that he did. He
2 said he was going to reach out to some other people
3 but I don't know if he did.

4 **Q. Did he tell you who he was going to reach**
5 **out to?**

6 A. Most likely it would have been Brett -- I
7 can't think of the last name, he is the CEO of
8 Dentsply. I will think of it. I am blanking on his
9 last name. You can look it up, it is on the Internet,
10 he was the CEO of Dentsply prior to the merger, and
11 then became -- Wise, W-i-s-e -- then he became like an
12 associate chairman because the guy that was the Sirona
13 chair became the CEO.

14 **Q. Do you recall whether you discussed**
15 **anything else with Mr. Cohen apart from his potential**
16 **membership on the Dental Lifeline Network board?**

17 A. I do not recall, no.

18 **Q. Did you discuss this phone call with**
19 **Mr. Cohen with anyone else at Henry Schein?**

20 A. I seriously doubt it, no, I don't think
21 so.

22 **Q. So you didn't tell Mr. Sullivan about**
23 **this phone call?**

24 A. No, because it was about a charity board
25 position.

270

1 **Q. I kind of want to just turn back to the**
2 **annual meetings we just talked about for the Dental**
3 **Lifeline Network.**

4 **I think you mentioned, obviously correct**
5 **me if I am wrong, I think you mentioned that these**
6 **meetings take place at annual trade shows or annual**
7 **DTA meetings?**

8 A. They are based in Denver, they will try
9 to do a meeting a year in Denver. I made it twice in
10 the amount of time I have been on the board. They are
11 hard because they are -- it is a long way and they are
12 stand-alone meetings. Typically they have a meeting
13 at the Chicago midwinter, at the ADA, and sometimes
14 will have one, although I don't think we did this
15 year, at the DTA meeting.

16 **Q. And physically speaking where do these**
17 **meetings take place, is it in a conference room?**

18 A. Usually.

19 **Q. Or restaurant?**

20 A. Usually conference room.

21 **Q. Where else would these kinds of meetings**
22 **take place?**

23 A. That is the only place they would be.

24 **Q. Just in a conference room?**

25 A. Yes.

271

1 **Q. Does someone record minutes of those**
2 **meetings?**

3 A. Yes.

4 **Q. Do you know who records those?**

5 A. Yes, the secretary of Dental Lifeline
6 Network.

7 **Q. What is his or her name?**

8 A. I believe -- I believe it is Steve -- I
9 think his last name is very long and very Polish, I
10 can't remember the name, it begins with a W. I can't
11 remember.

12 **Q. If you think of it you let me know?**

13 A. I will let you know, yes.

14 There are minutes for all the meetings.

15 **Q. So we talked a little bit today about the**
16 **California Dental Association, which you have also**
17 **referred to as the CDA.**

18 A. Yes.

19 **Q. And you also referred to an organization**
20 **called the Dentist Service Company, do I have that**
21 **right?**

22 A. That is part of the CDA company, yes,
23 Dental Solutions Company.

24 **Q. Dental Solutions Company.**

25 **Is that -- TDSC would be the acronym for**

272

1 **that, correct?**

2 A. Yes.

3 **Q. Did Henry Schein have any relationship**
4 **with TDSC?**

5 A. TDSC was just recently formed in the last
6 couple of years and so we didn't have any relationship
7 specifically with them, no.

8 **Q. Do you have an approximate date that you**
9 **can recall as to when it was formed?**

10 A. No.

11 **Q. But in the last two years it was formed?**

12 A. I think so.

13 **Q. So sometime in mid 2015 or early 2015 or**
14 **after?**

15 A. It would be my -- I don't know.

16 Somewhere in there, yes, it is fairly recent.

17 **Q. Do you recall whether Schein responded to**
18 **an RFP for the TDSC?**

19 A. Yes, we did.

20 **Q. And what happened with that RFP?**

21 A. We bid on the items that were on the
22 proposal and submitted it.

23 **Q. And what happened?**

24 A. They looked at the RFP and decided that
25 we had won a number of them. My memory says about

273

1 40 percent of the items that we won were the low bid
2 on.
3 **Q. What do you mean by we were the low bid?**
4 A. They had several other people bid on it,
5 too.
6 **Q. So did Schein form a relationship with**
7 **the TDSC as a result of that RFP process?**
8 A. No.
9 **Q. Why not?**
10 A. Because the way they structured it was
11 not the way when we first started negotiations. They
12 changed how they were going to structure this. We are
13 still interested in doing something with TDSC. In
14 fact, I met with them recently, but they set it up so
15 the dentist would order from their website and place
16 an order and that order would be then sent to the
17 appropriate distributor who was the low bid on that
18 particular item, and that wasn't what we agreed to.
19 **Q. What had you agreed to with the TDSC?**
20 A. That they would place the orders through
21 us and that we would be able to then match other
22 prices, whatever the lowest bid was we would be able
23 to match that price for the customer.
24 **Q. And when did Schein form that agreement**
25 **with the TDSC?**

274

1 MR. McDONALD: Object to the form.
2 THE WITNESS: It was during the early
3 negotiation process.
4 BY MR. SOLOMON:
5 **Q. Who was a part of that negotiation**
6 **process from Schein?**
7 A. Primarily Glenn Showgren.
8 **Q. Anyone else?**
9 A. Not that I know of.
10 **Q. How about from the CDA?**
11 A. Well, Bob Spinelli, as I mentioned
12 earlier is the head of it, and then whoever they had
13 hired to do this part of the business.
14 **Q. Do you recall the name of that person?**
15 A. No.
16 **Q. Do you recall whether special markets was**
17 **involved in that RFP?**
18 A. They were not.
19 **Q. So am I correct in understanding that**
20 **Henry Schein has never entered into a formal**
21 **relationship with the CDA or TDSC for the sale of**
22 **dental products and services?**
23 A. To my knowledge we had never been in any
24 kind of formal relationship.
25 **Q. And I think you mentioned just a few**

275

1 **moments ago that you recently talked to the CDA again,**
2 **is that right?**
3 A. Yes.
4 **Q. Do you know who from Schein recently**
5 **talked to the CDA?**
6 A. It was myself and Glenn.
7 **Q. What were those discussions about?**
8 A. Just asking if there had been any change
9 in their plan or structure.
10 **Q. And what did you learn?**
11 A. They said no.
12 **Q. And why were you interested in -- strike**
13 **that.**
14 **Why did you ask CDA for that information?**
15 A. Because we don't think their current
16 structure is going to work.
17 **Q. Why not?**
18 A. Because dentists hate getting things from
19 five different places.
20 **Q. Did you hope to renew discussions with**
21 **the CDA about working with Henry Schein?**
22 A. Yes.
23 (Document identified as Exhibit 241 for
24 identification.)
25

276

1 BY MR. SOLOMON:
2 **Q. Just let me know when you have had a**
3 **chance to read Exhibit 241, which is Bates labeled**
4 **HS-00015015.**
5 A. I am familiar with this.
6 **Q. And this is an e-mail chain between --**
7 **strike that.**
8 **This is an e-mail chain among yourself,**
9 **Mr. Sullivan, Mr. Cavaretta, Mr. Dean Kyle, and**
10 **Mr. Kyle Steck, is that right?**
11 A. Yes.
12 **Q. The subject is Dentsply, right?**
13 A. Yes.
14 **Q. Who is -- you refer to a Keith from**
15 **Dentsply in the bottom e-mail of this document. Who**
16 **is Keith from Dentsply?**
17 A. He is their VP of sales.
18 **Q. What is Keith's last name?**
19 A. Clements.
20 **Q. Do you know why Mr. Clements called you**
21 **regarding the TDA?**
22 A. He called to tell me they were going to
23 be staying in the TDA. I did not ask him to call me.
24 **Q. Do you have any understanding as to why**
25 **he told you that information?**

69 (Pages 273 to 276)

277

1 A. I think because he had heard we pulled
2 out.
3 **Q. Did Mr. Clements tell you anything else**
4 **apart from what you just stated?**
5 A. No, I don't remember.
6 **Q. Had you previously communicated with**
7 **Mr. Clements about the TDA?**
8 A. No.
9 **Q. Had you previously communicated with**
10 **anyone else from Dentsply about the TDA?**
11 A. I don't believe so, no.
12 **Q. Turning to the second sentence of that**
13 **e-mail, Mr. -- you write "They will be informing them**
14 **that they feel the TDA has put all manufacturers in a**
15 **very difficult place and that going forward that they**
16 **won't participate if their dealers don't." Do you see**
17 **that sentence?**
18 A. I do.
19 **Q. My question -- my first question is what**
20 **is your understanding of how the TDA put manufacturers**
21 **in a difficult place?**
22 A. Those were his words. He felt that
23 because his dealers were not at the convention and
24 that he was that they were in a difficult place, but
25 that was his term.

278

1 **Q. And who were his dealers?**
2 A. Patterson, Schein and Benco.
3 **Q. Do you have any understanding as to why**
4 **it was important to Dentsply that their dealers attend**
5 **the TDA?**
6 MR. McDONALD: Object to form.
7 MR. SOLOMON: I will rephrase it.
8 BY MR. SOLOMON:
9 **Q. Do you have any understanding as to why**
10 **it was important to Dentsply that Patterson, Benco and**
11 **Schein attend the TDA?**
12 MR. McDONALD: Object to the form.
13 THE WITNESS: Typically at a show we will
14 bring doctors to their booth and they will buy things.
15 BY MR. SOLOMON:
16 **Q. Any other reasons?**
17 A. It is really the only one I can think of.
18 **Q. So his reference to dealers in that**
19 **sentence that we just read, that refers to Patterson,**
20 **Schein, and Benco, is that right?**
21 A. I believe that is right.
22 **Q. And how do you know that?**
23 A. Because it was already known that Benco
24 and Patterson weren't coming.
25 **Q. Do you recall whether Mr. Clements told**

279

1 **you or referred to Schein -- Patterson and Benco**
2 **during your call?**
3 A. I believe he did, but I don't recall.
4 **Q. You don't recall what he told you about**
5 **Patterson and Benco?**
6 A. No.
7 **Q. Do you recall how long your conversation**
8 **with Mr. Clements lasted?**
9 A. No.
10 **Q. Just moving along to the next sentence in**
11 **the e-mail, "Not exactly what we were hoping for, but**
12 **I understood their rationale" is what you say. Do you**
13 **see that?**
14 A. Yes.
15 **Q. So my question is was Schein hoping that**
16 **Dentsply would withdraw from the 2014 TDA annual**
17 **meeting?**
18 A. Again, to put in context a time, at the
19 time this was going on, we saw it if somebody would
20 withdraw it was showing they also had issues with the
21 way the TDA was going to market. It wasn't so much
22 about the meeting as it was about the fact that they
23 had this buying arrangement, this TDA Perks
24 arrangement, that we weren't really comfortable with.
25 **Q. Were you hoping that Dentsply would**

280

1 **withdraw from the TDA?**
2 A. I suppose I was.
3 **Q. Why?**
4 A. Just validated our opinion.
5 **Q. Any other reasons?**
6 A. No.
7 **Q. Did you ever communicate that hope to**
8 **someone from Dentsply?**
9 A. No.
10 **Q. Did you ever tell that to Mr. Clements**
11 **during your phone call with him?**
12 A. Not that I remember.
13 **Q. Is it possible you did?**
14 A. I don't remember. I don't think so.
15 They had already made a decision.
16 **Q. Did you tell Mr. Clements that you hoped**
17 **Dentsply would pull out before your phone call with**
18 **him?**
19 A. No.
20 **Q. Turning to the next paragraph you go on**
21 **to explain in the last paragraph of this e-mail that**
22 **you plan to reach out to Carol Summerhays, who I think**
23 **we talked about previously, and I believe she says**
24 **here that she is the 2012 CDA president. Do you see**
25 **that?**

70 (Pages 277 to 280)

281	<p>1 A. Yes.</p> <p>2 Q. Did you ever -- strike that.</p> <p>3 You go on to say "I will also make clear</p> <p>4 that if the state dental associations go this route</p> <p>5 they better be prepared for economic losses on their</p> <p>6 shows and that we will organize and start competing</p> <p>7 conventions." Do you see that sentence?</p> <p>8 A. I do.</p> <p>9 Q. Is it fair to say that you wanted the CDA</p> <p>10 to know that Schein would work to organize against</p> <p>11 state association buying groups?</p> <p>12 A. This is another comment that I regret</p> <p>13 putting in here because the way it reads is much</p> <p>14 harsher than it was intended.</p> <p>15 But when I talked to Carol I made it</p> <p>16 clear that this was not -- it wasn't good that the</p> <p>17 dental associations were endorsing competitors and</p> <p>18 that people who weren't endorsed were not going to</p> <p>19 view that well.</p> <p>20 Q. Why do you regret writing this sentence?</p> <p>21 A. Well, because we weren't going to start</p> <p>22 competing conventions, that just wasn't going to</p> <p>23 happen.</p> <p>24 Q. Do you know why you wrote that you would</p> <p>25 in this e-mail?</p>	283	<p>1 it.</p> <p>2 Q. Did you change your mind on the idea of</p> <p>3 starting a competing convention at any point?</p> <p>4 MR. McDONALD: Object to the form.</p> <p>5 THE WITNESS: I never had the idea of</p> <p>6 starting a competing convention, I just wrote it in</p> <p>7 there. I never really did anything about it and</p> <p>8 wasn't serious about it.</p> <p>9 BY MR. SOLOMON:</p> <p>10 Q. You also referred to state associations</p> <p>11 and economic losses. Do you see that?</p> <p>12 A. Yes.</p> <p>13 Q. What did you mean by that statement?</p> <p>14 A. Dental associations make money on the</p> <p>15 trade shows, they use them to raise money.</p> <p>16 Q. And so how would state associations</p> <p>17 suffer economic losses on their shows?</p> <p>18 A. If we and anyone else stops -- any time</p> <p>19 anyone decides not to come to a convention if they</p> <p>20 cannot be replaced there is an economic loss to the</p> <p>21 dental society.</p> <p>22 Q. Did you ever tell a state association</p> <p>23 that it would suffer economic losses as a result of</p> <p>24 starting a buying group?</p> <p>25 A. No.</p>
282	<p>1 A. Well, in Europe they do. In Europe the</p> <p>2 trade runs all the shows, not the dental associations,</p> <p>3 it is very unique in the United States that the</p> <p>4 dentists themselves run their own trade shows.</p> <p>5 Q. Had you considered starting a competing</p> <p>6 convention at any point?</p> <p>7 A. No.</p> <p>8 Q. Did you discuss starting a competing</p> <p>9 convention with Mr. Sullivan?</p> <p>10 A. No.</p> <p>11 Q. Had you envisioned starting a competing</p> <p>12 convention with other distributors?</p> <p>13 A. No.</p> <p>14 Q. Had you ever had any conversations with</p> <p>15 other distributors about putting together a competing</p> <p>16 convention?</p> <p>17 A. No.</p> <p>18 Q. So apart from I think you just mentioned</p> <p>19 that they do it in Europe, apart from that, is there</p> <p>20 any other reason why you suggested starting a</p> <p>21 competing convention in this e-mail here?</p> <p>22 A. No. It is just basically if we were</p> <p>23 going to become at odds with the dental associations</p> <p>24 that we still need to see dentists and have events.</p> <p>25 But, as I said it, reads much harsher than I intended</p>	284	<p>1 Q. I want to take a look at Mr. Sullivan's</p> <p>2 response, he says "just to be clear... we are not</p> <p>3 contacting other exhibitors and asking them to pull</p> <p>4 out of any shows."</p> <p>5 What is your understanding of why</p> <p>6 Mr. Sullivan wanted to be clear on that point?</p> <p>7 A. Because of the fact that he understood</p> <p>8 from reading it that it could be interpreted</p> <p>9 differently than I intended it.</p> <p>10 Q. How do you know that?</p> <p>11 A. That is my intention, you have to ask</p> <p>12 him.</p> <p>13 Q. Did you ever discuss this e-mail with</p> <p>14 Mr. Sullivan?</p> <p>15 A. I don't believe we did, no.</p> <p>16 Q. Is it your understanding that</p> <p>17 Mr. Sullivan believed that you wanted to contact other</p> <p>18 exhibitors to ask about pulling out of state</p> <p>19 association shows?</p> <p>20 MR. McDONALD: Object to the form.</p> <p>21 THE WITNESS: Can you ask the question</p> <p>22 again?</p> <p>23 BY MR. SOLOMON:</p> <p>24 Q. Sure.</p> <p>25 Is it your understanding that</p>

285

1 **Mr. Sullivan believed that you wanted to contact other**
 2 **exhibitors to ask about pulling out of state**
 3 **association shows?**

4 MR. McDONALD: Object to the form.

5 THE WITNESS: I don't think he believed
 6 it, I think he just thought I was angry.

7 BY MR. SOLOMON:

8 **Q. And what is your understanding of that**
 9 **based on?**

10 A. Well, again, you have to ask him.

11 I mean, if I was going to start
 12 contacting other people and making any kind of a trade
 13 show of our own he would have known about it and I
 14 would have asked permission before I did it.

15 **Q. Do you think he would have supported**
 16 **that?**

17 A. No.

18 **Q. Why not?**

19 A. Because he would only want to do it as
 20 our own Henry Schein.

21 **Q. Why is that?**

22 MR. McDONALD: Object to the form.

23 THE WITNESS: For a lot of reasons, just
 24 makes sense to do it by ourselves, that way the
 25 customers who come are ours.

287

1 trade show that I attended in Georgia is the Hinman
 2 meeting, I don't know whether it is their trade show
 3 or it is run by a different association.

4 **Q. Do you recall whether that was a**
 5 **particularly large trade show?**

6 A. Midsize.

7 **Q. Did you understand the GDA to have**
 8 **established a group purchasing organization for its**
 9 **members at some point?**

10 MR. McDONALD: Object to the form.

11 THE WITNESS: Based on the prior stuff,
 12 yes, we knew they were interested in doing that.

13 BY MR. SOLOMON:

14 **Q. Do you recall whether they ever succeeded**
 15 **in that endeavor?**

16 A. I don't know. I believe we chose not to
 17 bid. Okay.

18 (Document identified as Exhibit 242 for
 19 identification.)

20 BY MR. SOLOMON:

21 **Q. Mr. Steck, Exhibit 242 is an e-mail Bates**
 22 **labeled HS-00131947 dated September 14, 2015.**

23 **Mr. Steck, do you recall this e-mail?**

24 A. Yes, I believe I do, yes.

25 **Q. And the subject of this e-mail is Buying**

286

1 BY MR. SOLOMON:

2 **Q. At the time of this e-mail did you in**
 3 **fact want to contact other exhibitors to ask them to**
 4 **pull out of state association trade shows?**

5 A. No.

6 **Q. He also writes the next sentence in this**
 7 **e-mail "also, let's not inform CDA or others that we**
 8 **will start to 'organize' other manufacturers and**
 9 **dealers to create competing conventions." Do you see**
 10 **that --**

11 A. Yes.

12 **Q. -- excerpt I just referred to?**

13 A. Yes.

14 **Q. Do you know why Mr. Sullivan made that**
 15 **statement?**

16 A. I think it was just what we said a few
 17 minutes ago, he didn't think it was a good idea. As I
 18 said, it was not a good idea.

19 **Q. Are you familiar, Mr. Steck, with the**
 20 **Georgia Dental Association, I think we talked about**
 21 **that earlier today, sometimes it is referred to as the**
 22 **GDA, do you recall that discussion?**

23 A. I do.

24 **Q. Did you ever attend a GDA trade show?**

25 A. They -- I don't know that -- the only

288

1 **Group Meeting Tomorrow at 2:30, do you see that?**

2 A. Yes.

3 **Q. Do you know whether you attended that**
 4 **meeting?**

5 A. I believe I did, yes.

6 **Q. Do you know who else was at that meeting?**

7 A. I do not.

8 **Q. Do you know what was discussed at that**
 9 **meeting?**

10 A. Well, the things that were on this
 11 e-mail. Tim obviously was coming to me, that is why I
 12 sent him the e-mail.

13 **Q. Did you discuss the Georgia Dental**
 14 **Association's buying group at this meeting?**

15 A. I believe we did.

16 **Q. Was Henry Schein Dental interested in**
 17 **working with the Georgia Dental Association buying**
 18 **group at the time of this e-mail?**

19 A. Again, I wasn't personally involved. I
 20 believe that we showed interest and had conversations
 21 with him and ultimately decided not to.

22 **Q. Just turning to the middle of this**
 23 **e-mail, there is a paragraph starting with Georgia**
 24 **Dental Association, colon, do you see that?**

25 A. Yes.

72 (Pages 285 to 288)

289

291

1 **Q. Just directing your attention to the**
 2 **sentence beginning with obviously, you state**
 3 **"obviously whatever we do here will go national so we**
 4 **are on scary grounds with a short timeframe to**
 5 **respond. They are looking for our proposal asap, Jake**
 6 **is going to ask for more time." Do you see that?**
 7 A. Yes.
 8 **Q. What were you referring to in that**
 9 **sentence?**
 10 A. What specifically are you talking about?
 11 **Q. What did you mean by go national?**
 12 A. It was our belief that if we made an
 13 alliance with a dental association, a state dental
 14 association, that other dental associations would see
 15 it and want to do something similar.
 16 **Q. Was that concerning to you at the time of**
 17 **this e-mail?**
 18 A. Not if the terms were right, no.
 19 **Q. And as part of the proposal to the**
 20 **Georgia Dental Association you list a few bullet**
 21 **points at the bottom of this e-mail, do you see that?**
 22 A. Yes.
 23 **Q. And one of them is an NDA to obtain the**
 24 **list of names who have pledged their business to their**
 25 **buying group and you write "we will analyze the list**

1 Source, but, again, I wasn't disclosed to them.
 2 **Q. Do you know whether that has happened**
 3 **with respect to other buying groups?**
 4 A. I do not.
 5 **Q. Do you know when the decision was made**
 6 **within Schein not to respond to the Georgia Dental**
 7 **Association's RFP?**
 8 A. No, I don't.
 9 **Q. Do you recall who would have made that**
 10 **decision?**
 11 A. I do not recall, no.
 12 **Q. Do you recall whether it was discussed at**
 13 **this September, 2015 meeting referenced in the e-mail?**
 14 A. I believe it was.
 15 **Q. Do you recall any specifics surrounding**
 16 **that discussion?**
 17 A. I do not.
 18 **Q. Did Schein ever have any communications**
 19 **with Patterson regarding the Georgia Dental**
 20 **Association's buying group?**
 21 A. Not to my knowledge.
 22 **Q. How about with Benco?**
 23 A. Not to my knowledge.
 24 **Q. Did anyone at Schein ever look at whether**
 25 **Patterson was bidding on the GDA's buying group?**

290

292

1 **to determine 'risk' with our offer." Do you see that?**
 2 A. Yes.
 3 **Q. What did you mean by analyzing risk in**
 4 **that sentence?**
 5 A. Well, as we mentioned earlier, there are
 6 risks and there are opportunities with any buying
 7 group because a risk would be if the customers were
 8 already all doing business with Schein. If we didn't
 9 do business with them then we have the risk of losing
 10 that business. It is an opportunity if they are not
 11 doing business with Schein to gain the business.
 12 **Q. How would Henry Schein analyze that list**
 13 **of customers?**
 14 A. Just look it up and see how much business
 15 they were doing.
 16 **Q. And does Henry Schein normally request**
 17 **such lists from buying groups that approach it to do**
 18 **business?**
 19 MR. McDONALD: Object to the form.
 20 THE WITNESS: I don't know. I am not
 21 comfortable with the word normally. I know it has
 22 happened, I don't believe it happens every day.
 23 BY MR. SOLOMON:
 24 **Q. How do you know it has happened?**
 25 A. Well, I believe it happened to Smile

1 A. I don't know, but typically they don't
 2 tell us who else is bidding.
 3 **Q. Is that something someone from Schein**
 4 **would have looked into?**
 5 A. I don't know. We could have.
 6 **Q. Do you know who would have looked into**
 7 **it?**
 8 A. No.
 9 **Q. Do you know whether someone did look into**
 10 **that?**
 11 A. I do not.
 12 **Q. The same question but for Benco.**
 13 A. Same answer.
 14 (Document identified as Exhibit 243 for
 15 identification.)
 16 BY MR. SOLOMON:
 17 **Q. Mr. Steck, please take a look at**
 18 **Exhibit 243 and just let me know when you have had a**
 19 **chance to review it. Mr. Steck, have you reviewed**
 20 **Exhibit 243?**
 21 A. I have reviewed the first page of it.
 22 The rest of it I have read before, but if you want me
 23 to spend time reading through it I can.
 24 **Q. I think that is all right, we can go**
 25 **ahead.**

293

1 So, Mr. Steck, this is an October,
 2 2015-e-mail conversation between yourself and Keith
 3 Clements from Dentsply and the document is Bates
 4 labeled Henry Schein-000024459.
 5 We talked about Mr. Clements earlier from
 6 Dentsply, and in this e-mail here, Exhibit 243, it
 7 looks like Mr. Clements forwards you an e-mail from
 8 Frank Capaldo regarding the Georgia Dental
 9 Association's buying cooperative, and then he asks to
 10 speak with you. Would you agree with that
 11 characterization of this e-mail?
 12 A. That Keith would like to speak with me.
 13 Q. Right.
 14 A. Yes.
 15 Q. He says, "Dave, call me on my cell when
 16 you have a moment, need to speak with you about this
 17 group."
 18 Do you recall speaking with Mr. Clements
 19 about this group?
 20 A. Very vaguely.
 21 Q. What do you recall?
 22 A. He just asked me if we were -- I think he
 23 asked me if we were going to do something with it at
 24 the point, I don't think I knew.
 25 Q. Do you recall what he asked you

294

1 specifically?
 2 A. No.
 3 Q. Do you know why Mr. Clements was curious
 4 as to what Henry Schein thought about this GDA buying
 5 group?
 6 A. You would have to ask him, I don't know.
 7 Q. What did you tell Mr. Clements in your
 8 phone call with him?
 9 A. As I said, I don't remember exactly.
 10 Q. Do you recall generally?
 11 A. I think he simply asked us whether we
 12 were going to be involved with this and I believe I
 13 said I didn't know at that point in time.
 14 Q. And you have no understanding as to why
 15 Mr. Clements wanted to know that information, is that
 16 right?
 17 A. Well, no, I don't.
 18 Q. Do you have any understanding as to why
 19 Mr. Clements wanted to know that information?
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: I do not.
 22 MR. SOLOMON: I think we can take a quick
 23 break.
 24 (Recess taken.)
 25

295

1 (Document identified as Exhibit 244 for
 2 identification.)
 3 BY MR. SOLOMON:
 4 Q. Mr. Steck, the court reporter has handed
 5 you Exhibit 244, which is a document Bates labeled
 6 Henry Schein-000060287. Have you seen this
 7 communication before?
 8 A. Yes. I don't really remember it very
 9 well, but I have seen it.
 10 Q. And it appears that this is a
 11 communication between yourself and Mr. Kyle Steck, is
 12 that right?
 13 A. Yes.
 14 Q. And in the from line it says Dad Steck,
 15 that would be you?
 16 A. Yes.
 17 Q. And that is your phone number there right
 18 next to it?
 19 A. Yes.
 20 Q. The body of the message says, "Okay...
 21 PDCO leaked last night to their team, we are calling
 22 suppliers all morning and confirming it. We will tell
 23 the sales team via internal memo later today."
 24 In that excerpt I just read you does PDCO
 25 refer to Patterson?

296

1 A. Yes.
 2 Q. What is this text message about?
 3 A. I really don't know. I believe -- I
 4 believe it was about A-Dec.
 5 Q. And how do you know that?
 6 A. Because of the timing.
 7 Q. What was happening with A-Dec at the time
 8 of this document?
 9 A. A-Dec had been selling through Patterson
 10 but not through Schein and then made the decision in
 11 late 2014 to open to Schein in 2015.
 12 Q. And A-Dec is a manufacturer?
 13 A. They are the largest manufacturer of
 14 dental equipment in the United States.
 15 Q. How did Schein learn that Patterson
 16 leaked that information to its team?
 17 A. It came from the investment community.
 18 Q. What do you mean by investment community?
 19 A. The CEO of Patterson addressed a group of
 20 managers with investors in the room and told them that
 21 they expect that Schein would be getting opened by
 22 A-Dec in the next few months.
 23 Q. And how did you learn about that meeting?
 24 A. Because it was all over the investment
 25 community Internet that night.

74 (Pages 293 to 296)

297

1 **Q. So you learned that information from a**
 2 **website on the Internet?**
 3 A. Yes, from one of the investors that
 4 follows both companies.
 5 **Q. Do you recall which investors that was?**
 6 A. Jeff Johnson.
 7 **Q. And Jeff Johnson is a part of what**
 8 **organization?**
 9 A. RW Baird.
 10 **Q. Is that an investment firm?**
 11 A. Yes.
 12 (Document identified as Exhibit 245 for
 13 identification.)
 14 BY MR. SOLOMON:
 15 **Q. Mr. Steck, the court reporter has handed**
 16 **you Exhibit 245, which is a document beginning with**
 17 **Bates number Henry Schein-0000128721.**
 18 A. Okay.
 19 **Q. Let me know when you have had a chance to**
 20 **look it over.**
 21 MR. McDONALD: Do you know where this
 22 came from?
 23 MR. SOLOMON: I don't.
 24 MR. McDONALD: The custodian?
 25 MR. SOLOMON: Thank you for the

298

1 clarification.
 2 MR. McDONALD: I know we produced it.
 3 MR. SOLOMON: I was just about to say.
 4 BY MR. SOLOMON:
 5 **Q. So this was Dave Steck was listed as the**
 6 **custodian on this particular version of the document.**
 7 **There was no metadata associated with it in terms of a**
 8 **date.**
 9 MR. McDONALD: Okay.
 10 MR. SOLOMON: It is sort of what I would
 11 like to learn a little bit about.
 12 THE WITNESS: Okay.
 13 Do you want me to read through it
 14 completely or just --
 15 BY MR. SOLOMON:
 16 **Q. Whenever you are comfortable enough that**
 17 **you are able to just discuss the document.**
 18 A. I think I am comfortable enough to
 19 discuss it.
 20 **Q. Okay.**
 21 **So this appears to me to be a document**
 22 **that was a hard copy document that was copied or**
 23 **scanned. Is that your understanding as well?**
 24 A. I don't know. I have seen it before, I
 25 don't know where it came from.

299

1 **Q. If you look at the first page of this**
 2 **document there appears to be a tab folder on top that**
 3 **says GPO Strategy.**
 4 **Does that appear to you to be a file that**
 5 **you -- strike that.**
 6 **Does this appear to be something from**
 7 **your files?**
 8 A. No. It appears to be a tab in a binder.
 9 **Q. And this is not a binder that you own or**
 10 **have made or that is a part of your own records?**
 11 A. It may be. I didn't create it.
 12 **Q. Do you know who would have created it?**
 13 A. I do not.
 14 **Q. And you said you have seen these**
 15 **documents before.**
 16 A. Yes.
 17 **Q. Do you recall in what context you have**
 18 **seen these documents before?**
 19 A. I think it was part of a meeting we had,
 20 but I don't know who actually did this. I am having a
 21 hard time figuring out by reading it either.
 22 Are you waiting for me to say something?
 23 **Q. Whenever you are ready to discuss the**
 24 **document.**
 25 A. I think I am ready to discuss it, I can't

300

1 be a master of all of it.
 2 **Q. Sure.**
 3 **Do you recall who prepared these**
 4 **documents?**
 5 A. No.
 6 **Q. The third page of this document begins**
 7 **with a sentence that says Objective, do you see that?**
 8 A. Yes.
 9 **Q. And it appears to be a study about Smile**
 10 **Source, it says "identify details on the Smile Source**
 11 **(SS) offering."**
 12 A. Yes.
 13 **Q. Do you have any idea who would have**
 14 **prepared that document or report?**
 15 A. I would be guessing, I don't know. It is
 16 well done, whoever did it, did a good job with it. I
 17 am trying to think of who that could be. I don't
 18 know.
 19 **Q. Do you have any understanding as to when**
 20 **this report would have been prepared?**
 21 A. No, no -- there is no date on it?
 22 **Q. There does not appear to be a date on it.**
 23 A. I don't know.
 24 **Q. Do you recall whether anyone within Henry**
 25 **Schein's dental organization was conducting a study on**

75 (Pages 297 to 300)

301

1 **Smile Source at any point?**
 2 A. Not a study.
 3 I know a lot of us -- different people
 4 were in conversations with them, but I don't know
 5 anybody that actually did a study like this.
 6 **Q. You can put that document aside unless**
 7 **you have any other information you would like to share**
 8 **about it.**
 9 A. No.
 10 I don't know. I wish I could help you,
 11 but I don't.
 12 **Q. Do you keep any files in hard copy at**
 13 **your office that relate to buying groups or GPOs?**
 14 A. I keep lots of files in my office in hard
 15 copy. I am sure there is things like this in them, I
 16 can't speak specifically. They are organized by time
 17 period.
 18 **Q. Do you organize your files by topic?**
 19 A. Usually by topic by year.
 20 **Q. Do you recall whether you have a file**
 21 **that is specific to buying groups or GPOs?**
 22 A. I do not recall.
 23 **Q. Does Henry Schein Dental ever hold**
 24 **internal meetings from time to time to discuss buying**
 25 **groups or GPOs?**

302

1 A. I can't recall any meeting we have had
 2 that was specifically for that reason. As you saw in
 3 some of the other we have had meetings where it was
 4 discussed.
 5 **Q. So you are not aware of any regular**
 6 **meetings internally, the purpose of which is to**
 7 **discuss buying groups or GPOs?**
 8 A. The only areas -- I am not aware of them,
 9 the only areas that would take place would be within
 10 the mid market group.
 11 **Q. Do you know who would be a part of those**
 12 **meetings?**
 13 A. Brian Brady and whoever else on his team
 14 was involved.
 15 **Q. Were you a part of any of those meetings**
 16 **at any point?**
 17 A. No.
 18 **Q. I have no further questions today about**
 19 **the documents we have looked at.**
 20 **Before we finish today I would just like**
 21 **to ask you if you have any other information you would**
 22 **like to provide us with that you would like us to**
 23 **consider in our investigation of this matter.**
 24 A. Not that I am aware of. But I am happy
 25 to -- you mean verbal information or written

303

1 documents?
 2 **Q. Both.**
 3 A. Written documents I would have to look, I
 4 don't know as I sit here.
 5 Verbal information, no, I think I have
 6 told you everything I know.
 7 **Q. Okay.**
 8 **WELL, thank you very much for your time,**
 9 **we really appreciate it.**

ERRATA SHEET

DEPOSITION OF: David A. Steck

DATE: May 26, 2017

CASE NAME: *Henry Schein, Inc., Patterson Companies, Inc. and Benco Dental Supply Company; Matter No. 1510190*

The following are the corrections which I have made to my transcript:

PAGE	LINE #	CORRECTION	REASON FOR CORRECTION
15	13	Change "Tay" to "Tae"	Typographical error
17	22	Change "that" to "those"	Typographical error/misspoke
18	5	Change "Tim Sullivan generally my boss." to "Tim Sullivan generally, my boss."	Typographical error/clarification
18	16	Delete "can"	Clarification/misspoke
19	9	Delete "we have"	Clarification/misspoke
		Change "mid market" to "midmarket" throughout	Typographical error
25	16	Change "several of them, other events" to "several of them at other events as well"	Typographical error
26	3-4	Delete "And so they were starting to grow together"	Clarification
30	14	Change "the primary" to "the primary reasons."	Typographical error
36	19	Change "we somebody we" to "somebody we"	Typographical error
43	1	Change "typically trade meetings" to "typically at trade meetings"	Typographical error
43	10	Change "and will sponsor" to "and we will sponsor"	Typographical error
48	19	Change "estimates has" to "estimates have"	Typographical error
49	6	Change "manufacturer Don Hobbs" to "manufacturer, Don Hobbs"	Typographical error
49	7	Change "manager" to "manufacturer"	Typographical error
51	16	Change "manufacture" to "manufactures"	Typographical error

56	20	Change "the services and the salesperson provide in the relationship" to "the services and the relationship the salesperson provides"	Clarification/misspoke
		Change "catalogues" to "catalogs" and "catalogue" to "catalogs" throughout	Typographical error
57	6	Delete "rarely"	Typographical error/misspoke
57	11-12	Change "some cases" to "in some cases"	Typographical error
65	11	Delete "or 10"	Clarification/misspoke
65	13	Change "variations" to "variation"	Typographical error
65	14	Change "dentist's" to "dentists"	Typographical error
78	24	Change "they want to pay so much" to "they only want to pay so much"	Clarification
84	23	Change "250" to "\$250,000"	Typographical error
88	1	Change "salesperson" to "salespeople"	Typographical error/misspoke
93	7-8	Change "the depends is" to "it depends on"	Typographical error/misspoke
93	8	Change "United States's" to "United States"	Typographical error/misspoke
105	11	Change "how" to "what"	Typographical error/misspoke
111	3	Change "about doing" to "about not doing"	Typographical error
112	2	Delete "go to management"	Typographical error
122	9	Change "Joe Cavaretto" to "Joe Cavaretta"	Typographical error
129	19-20	Change "that discuss order of review" to "that we discuss in order of review"	Clarification/misspoke
136	21	Change "conversational" to "involved"	Clarification/misspoke
151	8	Change "with" to "that"	Typographical error/misspoke
154	22	Change "see this unfortunately a trend" to "see this unfortunately is a trend"	Typographical error/misspoke
157	1	Change "He was recommended me" to "He was recommended to me"	Typographical error/clarification
157	13	Change "been" to "seen"	Typographical error/clarification
166	4	Delete ", it is"	Typographical error/misspoke

171	20	Change "sold to Dentsply" to "sold from Dentsply"	Typographical error
174	9	Delete "of"	Typographical error
185	8-9	Delete "at that time"	Clarification/misspoke
202	3	Change "need" to "needed"	Typographical error/misspoke
203	5	Delete "Midway Dental,"	Typographical error/clarification
203	7	Change "do" to "down"	Typographical error
204	22	Change "they weren't happy with" to "that weren't happy with"	Typographical error
207	5	Change "anyway" to "any way"	Typographical error
209	23	Change "my" to "a"	Typographical error/misspoke
234	23	Change "I had" to "they had"	Typographical error/misspoke
236	19	Change "relating" to "relaying"	Typographical error
236	22	Change "It is" to "It was"	Typographical error
242	22	Change "the Ivoclar had requested at the west coast" to "Ivoclar had requested that of the west coast"	Typographical error/clarification
243	15	Change "I was not" to "I had not"	Clarification/misspoke
244	10	Change "giving you" to "giving me"	Typographical error/misspoke
248	18	Change "I think to" to "I think so"	Typographical error/misspoke
259	8	Change "Yeah, no, I am not aware of that" to "No, I am not aware of that"	Clarification/misspoke
284	11	Change "intention" to "understanding"	Clarification/misspoke
288	22	Change "him" to "them"	Typographical error/misspoke
291	1	Change "disclosed to them" to "involved with them"	Typographical error/misspoke
302	3	Change "the other we" to "the other documents we"	Typographical error/misspoke

I, David A. Steck do hereby acknowledge that I have read the above-referenced transcript, that I have made any corrections, additions or deletions that I was desirous of making; and that the transcript contains my true and correct testimony.

EXECUTED this 29th day of June, 2017.

at West Allis WISCONSIN
(City) (State)

David A. Steck
Signature of Witness

Subscribed and sworn to and before me this 29th day of June 2017.

9	11
<p>1 (Exhibit 208 was marked for 2 identification.) 3 BY MS. KAHN: 4 Q. Do you understand that this is the 5 subpoena compelling your testimony today, 6 Exhibit 208? 7 A. Yes. 8 Q. Okay. You can put that aside. 9 You have provided sworn testimony before, 10 correct? 11 A. Correct. 12 Q. How many times? 13 A. Twice in this for this circumstance; once 14 was in Dallas and another time in Milwaukee for the 15 Source One case and the class action. 16 Q. And you understand that those cases are 17 separate from the FTC's investigation? 18 A. Correct, yes. 19 Q. Okay. I'm sure you're familiar with the 20 rules, but let me just take a few minutes to go over 21 them with you again. 22 Our conversation is being transcribed by a 23 court reporter today, so there are a couple of basic 24 ground rules. 25 Let's try not to interrupt one another.</p>	<p>1 To the extent you have a sense and it's based upon 2 communications with counsel, then I don't want you 3 revealing those communications, okay? 4 BY MS. KAHN: 5 Q. And just to be clear, I'm just asking yes 6 or no if you have a sense of what the investigation 7 is about. 8 A. Through the communication I had with 9 counsel, yes. 10 Q. Okay. Do you have a personal view of the 11 merits of the FTC's investigation? 12 A. No. 13 Q. You're employed by Henry Schein, correct? 14 A. Yes. 15 Q. Your current title is? 16 A. President of our North American dental 17 group. 18 Q. How many years have you had that title? 19 A. I've been with Henry Schein 20 years. I 20 started out as president of the U.S. dental 21 business. I was executive vice president for four 22 or five years; I've been president of North America 23 for about eight years now. 24 Q. And you started to do this a little bit, 25 but can you run through all of your prior positions</p>
10	12
<p>1 I'll let you finish, and please let me finish my 2 questions as well. 3 Please verbalize your answers instead of 4 nodding or using gestures. 5 Is that okay? 6 A. Okay. 7 Q. I'll do my best to ask clear questions, 8 but if you don't understand something, just let me 9 know and I will try to rephrase or clarify. 10 Okay? 11 A. Okay. 12 Q. We will take breaks from time to time, but 13 if you need a break at a certain point, just let me 14 know and we can go off the record. The only thing 15 that I ask is that you answer any pending questions 16 before you leave the room. 17 Okay? 18 A. Okay. 19 Q. Is there any reason why you cannot provide 20 complete and truthful testimony today? 21 A. No. 22 Q. And before we get started, I'm wondering 23 if you have a general sense of what the FTC's 24 investigation of Henry Schein is about. 25 MR. McDONALD: Well, I'll instruct you.</p>	<p>1 at Henry Schein? 2 A. Sure. So we merged with Henry Schein in 3 1997, and at that time I was president of our U.S. 4 dental business. And around '99-2000 I became 5 executive vice president of our U.S. dental business 6 and I believe it was around 2004 became president of 7 the U.S. dental business once again, and then took 8 responsibility for Canada about four years ago, and 9 that's when the North America dental group title was 10 added. 11 So between U.S. and North America, it's 12 been the last about eight to twelve years. 13 Q. Got it. And you mentioned executive VP of 14 U.S.? 15 A. Correct. 16 Q. What was that? What did that title 17 entail? 18 A. I was responsible for the field sales 19 organization and marketing team of the U.S. dental 20 business. 21 Q. Prior to Schein you worked for Sullivan 22 Dental; is that correct? 23 A. Correct. 24 Q. And that was your family business? 25 A. It started out as that. My father started</p>

13

1 in 1980. I joined the company in 1989, but we went
2 public in 1990 and a secondary offering in '92. And
3 by then my father brought on other partners into the
4 business, so it was never really run as a family
5 business, per se. Then we joined with Henry Schein
6 in 1997.

7 **Q. Sullivan Dental was a distributor of
8 dental supplies and equipment; is that right?**

9 A. That's correct.

10 **Q. And did they provide services as well?**

11 A. Yes.

12 **Q. Did you help out in the business before
13 you started officially working for Sullivan Dental?**

14 A. One summer.

15 **Q. And what did you do?**

16 A. I helped drive -- drove around with our
17 service technicians and helped install dental
18 equipment in dental offices.

19 **Q. Who was your first position at Sullivan
20 Dental?**

21 A. That's interesting. I was the assistant
22 controller. There was no controller. When he came
23 into business my father thought the title of
24 controller was too big for a young college brat, and
25 so I was assistant controller for a couple of years;

15

1 salespeople, service technicians, sales and service
2 centers, you know, branches across the country.
3 Henry Schein was going through the process of
4 transitioning from this mail order telesales
5 organization to full service.

6 So Henry Schein had an excellent brand
7 name from a marketing standpoint, innovative company
8 technology standpoint. Those are areas that we were
9 struggling in from the Sullivan Dental perspective.

10 So the combination of the direction they
11 were heading and the direction -- and our need on
12 the telesales side, overall marketing, technology,
13 was an area that from my perspective, you know, we
14 needed help with.

15 So the timing of putting the two companies
16 together was just -- it just felt right.

17 **Q. Got it. And at the time, around the time
18 of the merger, what was the largest full-service
19 dental distributor in the U.S.?**

20 A. Patterson Dental.

21 **Q. Patterson, okay. Since joining Schein,
22 have you personally been involved in the process of
23 acquiring other companies?**

24 A. Yes, some, yes, for -- within the U.S.
25 dental business, yes.

14

1 and I became controller vice president of operations
2 and then chief financial officer and ultimately
3 president of Sullivan Dental in 1997, which I only
4 held that title for about six months because six
5 months later we merged with Henry Schein.

6 **Q. Got it. And at the time of the merger, do
7 you have a sense of what the approximate market
8 share was for Sullivan Dental?**

9 MR. McDONALD: Object to the form.

10 THE WITNESS: Boy.

11 MR. McDONALD: Vague as to scope.

12 THE WITNESS: It's 5 percent maybe.

13 BY MS. KAHN:

14 **Q. And that's nationally?**

15 A. Correct, in the U.S.

16 **Q. And why did you decide to merge with
17 Henry Schein?**

18 A. We were, Sullivan Dental, we were
19 historically a full-service dental organization. We
20 started the business that way; my father started the
21 business that way. Henry Schein was historically a
22 mail order, if you would, telesales/marketing
23 company.

24 They were making the transition into full
25 service. We already had a national footprint with

16

1 **Q. Okay. Is that part of your job duties and
2 responsibilities?**

3 A. To get involved, yes, but I don't lead the
4 discussions. I don't lead the negotiations. We
5 have a business development team led by Mark Mlotek,
6 who is the primary person that we worked with during
7 our merger discussions; and he has a gentleman by
8 the name of Scott Sanders that focuses strictly on
9 the dental business.

10 **Q. Got it.**

11 A. So he takes the lead in negotiations. I
12 get involved just, you know, talking to the owners,
13 you know, kind of telling them my experience going
14 through the process, you know, here I am 20 years
15 later, it's a great company, and then helping to
16 answer any questions from a transitional standpoint
17 from them so they'll feel comfortable to join the
18 organization.

19 **Q. And would you say Mr. Sanders is the
20 primary contact person with the companies that
21 Henry Schein are trying to acquire in the U.S. on
22 the dental side?**

23 A. On the dental side, yes.

24 **Q. Henry Schein has three divisions; is that
25 correct?**

17	<p>1 A. Correct.</p> <p>2 Q. And can you just name them for us?</p> <p>3 A. Sure. We have a global dental business, a</p> <p>4 global animal health business, the vet business,</p> <p>5 companion pet business, and then it's a global</p> <p>6 medical, which is primarily the U.S. There's not</p> <p>7 much on a global standpoint, so dental, vet and</p> <p>8 medical.</p> <p>9 Q. Henry Schein Dental is a distributor of</p> <p>10 dental supplies, equipment and service, correct?</p> <p>11 A. Correct.</p> <p>12 Q. As president of Henry Schein Dental, have</p> <p>13 you had interactions with the medical division?</p> <p>14 A. Interactions, yes.</p> <p>15 Q. In what context?</p> <p>16 A. I don't sit in any of their meetings; they</p> <p>17 don't sit in on any of our meetings. We report to</p> <p>18 the executive management committee of the company.</p> <p>19 Excuse me, a little head cold I'm dealing with.</p> <p>20 So monthly we present to the EMC. We</p> <p>21 don't sit in in each others' meetings, so I'm not in</p> <p>22 depth in their meetings; but Dave McKinley used to</p> <p>23 be the president of the medical division. I'd see</p> <p>24 him from time to time at various functions and</p> <p>25 meetings.</p>	19	<p>1 Q. Right. And who was in charge of Canada</p> <p>2 before you were in charge?</p> <p>3 A. Rich Miranda.</p> <p>4 Q. What would you say are your general duties</p> <p>5 and responsibilities for U.S., for the U.S. dental</p> <p>6 business?</p> <p>7 A. Really set the strategy, the tones around</p> <p>8 the culture and our, you know, just really</p> <p>9 going-to-market strategy for the U.S. dental.</p> <p>10 So the primary responsibility I have is</p> <p>11 the single office space practitioner. We have a</p> <p>12 segment we call our mid market space, which is where</p> <p>13 customers are joining together themselves owning</p> <p>14 multiple locations; and then there's a complete</p> <p>15 separate what we call our elite dental support</p> <p>16 organization, DSO. That's run separately by a</p> <p>17 gentleman by the name of Hal Muller. So I have</p> <p>18 responsibility for that mid market and single office</p> <p>19 space practitioner segment.</p> <p>20 We do sell equipment and service to the</p> <p>21 elites as well, but from a customer relationship</p> <p>22 standpoint that's owned by Hal Muller.</p> <p>23 Q. And do you see -- oversee Hal Muller at</p> <p>24 all?</p> <p>25 A. No. We both report in to Jim Breslawski.</p>
18	<p>1 Q. What is the EMC?</p> <p>2 A. Executive management committee.</p> <p>3 Q. And there's a monthly presentation to the</p> <p>4 EMC?</p> <p>5 A. Correct.</p> <p>6 Q. That involves all three divisions?</p> <p>7 A. Well, I'm not sure how often the others do</p> <p>8 it, but we -- presenting to the EMC, I'm sorry. So</p> <p>9 it's a meeting we call it. It's just an executive</p> <p>10 review with Stan Bergman, as our chairman and CEO,</p> <p>11 and Jim Breslawski, who I report to.</p> <p>12 Q. And I don't think I quite have it clear in</p> <p>13 my head. Is that just with dental?</p> <p>14 A. Yes, that's just dental.</p> <p>15 Q. Got it. Are there any meetings where all</p> <p>16 three divisions are presenting information about</p> <p>17 their division?</p> <p>18 A. No.</p> <p>19 Q. Would you say you have any insight into</p> <p>20 the medical distribution market?</p> <p>21 A. No.</p> <p>22 Q. And you've been responsible for both U.S.</p> <p>23 and Canada for four years you said?</p> <p>24 A. Yeah, Canada was just added four years</p> <p>25 ago.</p>	20	<p>1 Q. I guess in my mind that structure is a</p> <p>2 little unclear because you do oversee all of</p> <p>3 North America dental, right?</p> <p>4 A. Yes. Well, in Henry Schein.</p> <p>5 Q. So you oversee all of it except for the</p> <p>6 elite DSO portion?</p> <p>7 A. So not quite. So we have -- so the single</p> <p>8 office space practitioner and as they grow into this</p> <p>9 mid market segment; the elites are Hal. We have a</p> <p>10 lab division within -- so when I said there's three</p> <p>11 divisions within Henry Schein, Inc., those are the</p> <p>12 three main divisions. Within each division there</p> <p>13 are other subdivisions, if you would.</p> <p>14 So in the U.S. market, for example, our</p> <p>15 lab business, Zahn, that is run separately. That's</p> <p>16 not part of the U.S. dental business that I'm</p> <p>17 responsible for.</p> <p>18 So when we talk about Henry Schein Dental</p> <p>19 that does not include special markets. That does</p> <p>20 not include our lab business. We have a division</p> <p>21 called Henry Schein Practice Solutions, so that's a</p> <p>22 team that runs -- manages our practice management</p> <p>23 systems. Dentrax is the primary brand there on the</p> <p>24 dental side. That team is run out of Utah by a</p> <p>25 gentleman named Kevin Bunker. There is a dental</p>

21	<p>1 specialty group. We have folks on the specialists 2 in the market that there's a different go-to-market 3 strategy for specialists versus the primary general 4 practitioner. 5 So there's divisions within the U.S. 6 market that don't all report in to me. 7 Q. Got it. 8 A. And there's presidents of each of those 9 divisions as well. 10 Q. Got it. And does Hal Muller oversee 11 special markets for Canada as well? 12 A. No, no. 13 Q. And who oversees that? 14 A. Peter Jugoon, J-u-g-o-o-n, is the 15 gentleman responsible for that; and he reports in to 16 Cy Elborne, E-l-b-o-r-n-e, who is the president of 17 Canada. 18 Q. And how would you describe the dynamic of 19 your division versus Hal Muller's division? 20 MR. McDONALD: Object to the form. 21 THE WITNESS: It's structured really 22 completely differently. The customers are 23 structured differently. They're more centralized in 24 decision making. Even in the mid-market space where 25 they have multiple locations, in most cases the</p>	23	<p>1 my team that works in partnership with Hal and his 2 team when, you know, going to propose, you know, to 3 one of these customers. 4 And then once that happens, our team is 5 responsible for installing, servicing, you know. So 6 the day-to-day operations of a dental practice, we 7 still help manage that. 8 Q. How often would you say you interact with 9 Mr. Muller? 10 A. A couple times a month. 11 Q. Okay. Would you say you have a general 12 sense of special markets and Mr. Muller's division? 13 A. Yes. 14 If I can go back to the question you asked 15 about medical. 16 Q. Sure. 17 A. You asked about do I have a general -- can 18 you just repeat that? 19 Q. Yes. The earlier question was do you have 20 any insight into the medical distribution market. 21 A. Yeah, so, I mean, I understand the 22 differences between, you know, how we go to market 23 and dental versus medical, so I have a general 24 insight. In other words, they don't have any 25 equipment and service division. They sell equipment</p>
22	<p>1 individual locations are still making their own, you 2 know, buying decisions; or, you know, there might be 3 some primary decision maker, but they're still -- 4 the role of what we call our field sales consultant 5 is critical, FSC -- Acronyms R' Us at 6 Henry Schein -- so whereas in this elite special 7 markets group, the role of a field sales consultant, 8 the territory rep, a salesperson, is for the most 9 case not needed. It's a corporate buyer that's 10 funded differently; there's venture capital money 11 involved. So it's a different sales process, 12 different decision-making process. 13 Q. And in running your division, do you have 14 to confer with Mr. Muller's division from time to 15 time? 16 A. We don't have to and we do. It just makes 17 sense. 18 Q. Sure. 19 A. Because those customers, the large 20 customers in his space, he really primarily focuses 21 on the sundries, the merchandise side of the 22 business, you know. Part of the -- you know, the 23 proposals and contracts that they have including 24 pricing on equipment and service, but that's -- we 25 have a special markets equipment team that's part of</p>	24	<p>1 there, but it's operated and managed completely 2 different than how we do things on the dental side. 3 So in that sense I have a sense of the 4 differences between, you know, our dental division 5 and our medical division, but as far as the medical 6 industry I'm not as attuned to that. 7 So I just want to -- you asked something 8 that later triggered. I wanted to make sure I 9 answered that clearly. 10 Q. Sure. I appreciate that. 11 And what's -- your understanding of the 12 differences, what's that based on? 13 A. Meetings that I've had with Dave McKinley 14 and their folks in medical. There's a segment of 15 the medical division that can cross over a little 16 bit with dental. Oral surgeons, for example, oral 17 surgeons are dentists, they're D.D.S.s, but they 18 might also be a part of a group or an organization 19 within the medical side. 20 So we work closely to make sure there's 21 clarification on how to approach oral surgeons as an 22 example, but in general understanding how -- we've 23 attempted to figure out is there a way that we can 24 work -- use our service technician team to help on, 25 you know, installs on medical equipment.</p>

25	<p>1 We've tried some pilots. It's just a 2 completely different strategy, a different 3 go-to-market. The equipment is sold differently 4 from the manufacturers on the equipment side. They 5 take care of the installation and service, so we 6 don't really need to get involved. 7 So it's a different cost structure, a 8 different go-to-market structure. 9 Q. What meetings have you had with 10 Mr. McKinley? 11 A. Just, I mean, in most cases they're not 12 meetings that we have set up together, but we might 13 see each other at a function, you know, sidebar 14 discussions. We've had some meetings set up to 15 specifically talk through, you know, the 16 go-to-market strategy with oral surgeons. 17 There's a group of what we call community 18 health centers, and community health centers have 19 both a medical and a dental aspect within there, so 20 we want to make sure we're aligned how we approach 21 the community health centers. 22 So there's -- I mean, there's meetings, 23 scheduled meetings. I'm not sure when you say what 24 type of meetings. I'm not sure how to -- 25 Q. Sure. That's -- I appreciate your answer.</p>	27	<p>1 A. Correct. 2 Q. Has Henry Schein considered entering other 3 healthcare distribution markets? 4 MR. McDONALD: Object to the form, lack of 5 foundation. 6 THE WITNESS: Such as? 7 BY MS. KAHN: 8 Q. Such as vision. 9 A. Not that I know of, no. 10 Q. For today when I say "Henry Schein" or 11 "Schein," I'm referring just to the dental division 12 unless I say otherwise. 13 A. Okay. 14 Q. Okay. 15 A. Then on dental for sure we have not 16 discussed going into vision. 17 Q. Sure. No, my earlier question was with 18 respect to Henry Schein, Inc. 19 So going back to your duties and 20 responsibilities as president of Schein Dental, what 21 do you spend most of your time doing as president? 22 A. E-mails, really just analyzing what's 23 happening, you know, how our results compared to our 24 budget; working with Dave Steck, who is our general 25 manager, he's responsible for the field</p>
26	<p>1 So would you say that you have a good 2 understanding of the medical division limited to 3 oral surgeons and CHCs? 4 MR. McDONALD: Object to the form. 5 THE WITNESS: Well, yes, but also how they 6 go to market with the rest of the physician space, 7 again, it's no different than how we do in dental. 8 BY MS. KAHN: 9 Q. And in terms of the how to go-to-market 10 strategy, what's that understanding of yours based 11 on? 12 A. Just, again, based on how we offer -- I 13 consider us a full-service distributor. We do 14 basically anything and everything within the dental 15 office and dental practice. I don't believe that's 16 the case on the medical side. 17 Or what they do do is, again, it's the 18 equipment that's required in the medical office that 19 we, you know, participate in is the tables and 20 chairs. The big, huge, you know, exam, things that 21 they -- I think that's sold separately and sold 22 directly; we don't get involved in that. 23 Q. And that understanding, what you just 24 testified to, that's based on discussions with 25 Mr. McKinley?</p>	28	<p>1 organization; understanding where we're performing 2 well in some markets versus others and what can we 3 do to help turn around in the markets that maybe 4 we're not performing so well in. 5 Paul Hinsch is on the marketing side. 6 He's working a little closer with most of our 7 suppliers, so making sure our supplier relationships 8 are intact and strong. 9 Michele Filiault handles all of our 10 operations team, the service technicians. We have 11 750 service techs across the country, and so she's 12 responsible for the teams that manage those service 13 technicians and all the facilities. 14 So just really focused on is the business 15 running smoothly, and there's always fires 16 somewhere, and I spend too much of my time on fires 17 versus sitting back and having the opportunity to 18 really think strategically. 19 Q. You mentioned suppliers earlier. 20 Are you referencing manufacturer, 21 manufacturers that you -- that Schein partners with? 22 A. Correct. 23 Q. And the person that's in charge of that 24 relationship is Paul Rich you said? 25 A. Pull Hinsch, H-i-n-s-c-h. He's</p>

29	<p>1 responsible for the supplier relationships on our 2 merchandise side of the business. We have other 3 relationships as well on the equipment and 4 technology side. 5 Don Hobbs is responsible for what we call 6 our traditional equipment suppliers, chairs, units 7 and lights. John Cox helps manage our product 8 solutions group, which is, you know, CAD/CAM and 9 digital integration, digital technologies. 10 Q. Do you set the overall strategy and 11 direction for Schein? 12 A. Well, again, for Schein Dental? 13 Q. Yes. 14 A. I'm sorry, you said that. Yes. So we 15 have a team of folks; we get together twice a year, 16 and that's -- usually the latter one, the winter one 17 is typically around, excuse me, you know, our 18 budgets are set, and now what's our strategy to 19 help, you know, make sure we execute and perform to 20 the budget. But ultimately that is my 21 responsibility, yes. 22 MR. McDONALD: And as further 23 clarification, when you're saying "Henry Schein" 24 means Henry Schein Dental, it's Henry Schein Dental 25 North America. You're not referring to global?</p>	31	<p>1 A. So we have a gross margin, operating 2 margin and our net margin in the business. 3 Paul Hinsch, as I mentioned before, he's primarily 4 responsible for the margin management, if you would, 5 on our merchandise side of our business to work with 6 our manufacturers, to make sure we're buying as good 7 as anyone in the marketplace, that we have a good 8 rebate program that's aligned with our suppliers for 9 achieving the goals that they set for us; and then 10 from there how do we use that and figure out the 11 end-user pricing to our customers. 12 Q. You oversee Paul Hinsch; is that right? 13 A. Correct. 14 Q. Is margin management part of your job? 15 A. I mean, I definitely am ultimately 16 responsible for it, but I -- it's in very good hands 17 with Paul Hinsch. 18 Q. I'm not sure if you can quantify this, but 19 what portion of your time would you say is devoted 20 to margin management? 21 A. Very little. 22 Q. Is there a certain margin that Schein 23 tries to maintain? 24 MR. McDONALD: Object to the form, vague. 25 THE WITNESS: As our budgets are set each</p>
30	<p>1 MS. KAHN: That's correct. 2 MR. McDONALD: Okay. Just to be sure. 3 MS. KAHN: I appreciate the clarification, 4 but please just state an objection. 5 MR. McDONALD: Well, we want to have a 6 clear record. I'm not being obstructive. 7 MS. KAHN: I understand. 8 MR. McDONALD: I want to make sure that 9 we're clear that he doesn't have knowledge of the 10 strategy on global and he's talking North America. 11 MS. KAHN: I understand. 12 MR. McDONALD: Thank you. 13 BY MS. KAHN: 14 Q. Is part of your job to try to maximize 15 Schein's profits? 16 A. I don't know if I'd use the word 17 "maximize." Part of my job is to make sure that I 18 achieve the budget that we set for the year. 19 Q. And would you say part of your job is to 20 try to increase Schein's market share? 21 A. Yes. 22 Q. Are you familiar with the term "margin 23 management"? 24 A. Yes. 25 Q. What does that term mean?</p>	32	<p>1 year, our goal is to -- you know, part of the 2 overall mix is our gross margin. So yes, there's a 3 margin budget, operating expense budget right on 4 down through -- there's line items for each P&L, our 5 P&L line item that has budgets and targets for. 6 BY MS. KAHN: 7 Q. Who sets the budget? 8 A. Ultimately Steve Paladino, who is our 9 chief financial officer, sets it for the overall 10 organization. From there he is -- again, I believe 11 how it works is he kind of breaks it out between 12 dental, medical and animal health. 13 Jim Breslawski is responsible for the 14 global dental, so he is provided the overall target 15 from Steve there. And then from there he had Graham 16 Stanley, who is the chief financial officer for our 17 global dental business, and he breaks it down by 18 geography as far as, you know, setting targets. 19 Q. Do you have any involvement? 20 A. Not in setting the targets, no. 21 Q. Would you say part of your job is to watch 22 for market developments that may impact Schein's 23 margins? 24 A. Yes, overall market conditions, yes. 25 Q. And is part of your job to prepare Schein</p>

33

1 for risks in the marketplace?

2 A. Yes.

3 **Q. Do you spend any time on specific customer**
4 **accounts?**

5 A. Rarely. The only time I really get
6 involved, if there's a customer complaint of some
7 sort; and even in those cases it's only if the
8 customer for whatever reason just wants to send a
9 letter or an e-mail to the president of the company
10 about they're upset about something, and I'll get
11 involved and help get things resolved.

12 But I don't negotiate pricing with
13 customers; I don't meet with them on how their
14 business is doing in particular.

15 **Q. Do you get involved in determining whether**
16 **or not to try to go after a certain customer to**
17 **acquire them as a customer?**

18 A. To be clear, we don't acquire customers,
19 okay.

20 **Q. Sure.**

21 A. Typically no. I mean, so like the big
22 ones Hal gets directly involved, and I don't meet
23 with those customers. If I'm at a dental convention
24 and one of our sales reps is working on a client and
25 says, hey, would you mind meeting Dr. Jones, I'd

34

1 like to introduce him to the president, I'll say hi,
2 shake hands, stand there for five or ten minutes,
3 and then -- so but I don't ever get involved in
4 sitting down in-depth and setting -- negotiating
5 price or anything with the customers. That's all
6 happened at the local level.

7 **Q. Do you ever get involved in saying yes,**
8 **we're going to try to bid for a certain customer?**

9 A. Not customer-specific, no.

10 **Q. Okay. And why not?**

11 A. We have -- all that is handled by our
12 local leadership team.

13 **Q. Got it. Would you say you've been**
14 **successful in leading Schein's**

15 A. I'd like to think so.

16 **Q. And what would you say has been the key to**
17 **your success?**

18 A. The people around me. Just hire right.

19 **Q. You surround yourself with good people?**

20 A. Amazing people, yeah.

21 **Q. Would you say that you know Schein's**
22 **business very well?**

23 A. Yes.

24 **Q. Would you say you understand the dental**
25 **industry very well?**

35

1 A. Yes.

2 **Q. Your compensation is comprised of base**
3 **salary and annual incentives and long-term incentive**
4 **awards; is that right?**

5 A. Correct.

6 **Q. And what are the factors that determine**
7 **the incentive portions of your compensation?**

8 A. There's three pieces that make up the
9 bonus, what we call the PIP program, Performance
10 Incentive Plan. There's -- don't hold me to the
11 percentages -- like 25 percent is on functional
12 financial goals. So that basically is set how do we
13 do versus hitting our budget. So the budget that I
14 am responsible for, the U.S. dental business, makes
15 up about a third of my PIP.

16 There's a middle section that is on how
17 does overall Henry Schein, Inc. do, so I have no
18 control over that. That's overall Henry Schein
19 global results.

20 And then another portion is based on what
21 we call MBOs, the management by objectives. And
22 there's typically four or five of those more
23 activity-based type things, things like, you know,
24 working with our -- a couple of key suppliers,
25 things that are going on, you know, this year. Like

36

1 last year, for example, A-dec was a new supplier of
2 ours, so there was a specific MBO around, you know,
3 managing the relationship with A-dec.

4 One of our largest partners is KaVo Kerr,
5 part of the Danaher organization, and so there's a
6 specific MBO about managing that through some of the
7 complexities of that relationship.

8 So there's functional, financial,
9 Henry Schein, Inc. financial and then activity-based
10 pieces.

11 **Q. And who evaluates you to determine what**
12 **your incentive compensation would be each year?**

13 A. Jim Breslawski.

14 **Q. And in 2016 were you able to hit budget**
15 **for the dental division?**

16 A. No.

17 **Q. What about 2015?**

18 A. No.

19 **Q. And 2014?**

20 A. I think -- I don't know which years it
21 was, but I think somewhere like two of the last ten
22 years the U.S. dental business has achieved budget.

23 **Q. And how, if you can quantify it, how**
24 **far -- how much were you off by last year?**

25 A. Last year might have been one of our

37

1 biggest misses. We were probably at 91, 92 percent
2 of target.

3 **Q. And was it higher the years before?**

4 A. Yeah. The misses are usually within 2 to
5 5 percent of target.

6 **Q. Have you -- has it been a larger and
7 larger gap in recent years?**

8 A. No. Last year was a unique year.

9 **Q. Why do you think that was?**

10 A. It was just a challenging year. It's one
11 of the toughest years we've had in forecasting. We
12 don't know if it was overall election related. Who
13 knows. The whole market we felt was -- it wasn't
14 necessarily just Henry Schein Dental's performance.
15 The overall market was much softer than we had
16 anticipated going into the year.

17 So part of it is it's not that we perform
18 badly. It's that we missed -- you know, you
19 estimate the market is going to do something and the
20 market doesn't. That's going to drive our -- in
21 most cases that drives our miss.

22 **Q. Sure. And how are you guys doing this
23 year so far?**

24 A. So far we're pretty close to the plan, so
25 we're within [indicating] -- I'm sorry, I can't use

38

1 hands. We're close.

2 **Q. Who are your current direct reports?**

3 A. Paul Hinsch, VP of merchandising and
4 marketing; Michele Filiault, the VP of operations,
5 and she's spelled F-i-l-a-u-l-t [sic]. There is no
6 O, but it's Filiault; Ciprian, C-i-p-r-i-n [sic],
7 Tamas, T-a-m-a-s. Those are the three based in
8 New York.

9 Cy Elborne is the president of Canada.
10 Dave Steck is our vice president and general
11 manager. Chris Peterson is our director of
12 administration. Rodi Rozin, R-o-d-i, R-o-z-i-n,
13 director of business analytics.

14 I believe that is -- well, Wendy Rouse,
15 R-o-u-s-e, is my administrative assistant.

16 **Q. And what about Murray Stamer?**

17 A. He's no longer with the company. Ciprian
18 Tamas replaced him as our VP of finance, chief
19 financial officer.

20 **Q. What about John Chatham?**

21 A. He retired last fall.

22 **Q. What was his title before he retired?**

23 A. VP of -- well, still had the global
24 leadership title but he wasn't doing anything
25 global, but VP of leadership and team development.

39

1 **Q. And are you in the same office building as
2 most of your direct reports?**

3 A. I'm in -- I work out of West Allis,
4 Wisconsin, so three of those, Paul, Michele and
5 Ciprian are all in Melville, New York. The rest of
6 us are in -- well, Cy is up in Canada, and the
7 others are here in Wisconsin.

8 **Q. And of your direct reports, would you say
9 any one of them is sort of your right-hand man?**

10 A. Not really, no. I mean, Dave Steck is
11 responsible for the field organization. So
12 ultimately we are a sales-driven organization, and
13 Dave is responsible for sales.

14 So marketing is a key component of that
15 which Paul is a part of. Michele, you know, is part
16 of our operations. I mean, that marketing,
17 operations and service really drive our overall
18 results and sales, but ultimately Dave is the one
19 that's held the most accountable for sales results,
20 but, you know, they're all, you know, critical to
21 the success of the business.

22 **Q. Sure. Do you communicate frequently with
23 Mr. Steck?**

24 A. Yes.

25 **Q. How frequently would you say?**

40

1 A. Daily. We work in the same office.

2 **Q. And do you communicate to the same
3 frequency with your other direct reports?**

4 A. It's a little more challenging with those
5 in New York simply because you don't see each other
6 just walking to the restroom even. But, you know, I
7 have regular calls set up with them. Most meetings
8 that we have, it's either a videoconference,
9 teleconference. It doesn't matter where people are
10 at, you know; they're involved in the meetings.

11 So from a face-to-face standpoint, it's
12 definitely more frequently with those in Wisconsin.

13 **Q. Do you have regularly-scheduled one-on-one
14 meetings with your direct reports?**

15 A. I do.

16 **Q. How frequently?**

17 A. Once a month.

18 **Q. Together or individually?**

19 A. One on one.

20 **Q. One on one, got it. And do you have any
21 meetings where you meet with all of your direct
22 reports?**

23 A. Yes. That also is monthly.

24 **Q. Would you say you trust Mr. Steck?**

25 A. I do.

10 (Pages 37 to 40)

41	<p>1 Q. Has he been a good employee?</p> <p>2 A. Excellent.</p> <p>3 Q. Are there any other direct reports in the</p> <p>4 last ten years that we haven't discussed?</p> <p>5 A. John, Murray. Brian Watson, he was a dual</p> <p>6 direct report to both myself and Jim Breslawski. He</p> <p>7 left the organization about three years ago.</p> <p>8 Q. What was his title?</p> <p>9 A. VP of equipment.</p> <p>10 Those are the only ones that come to mind.</p> <p>11 Q. Okay. Do you Jake Meadows and</p> <p>12 Joe Cavaretta?</p> <p>13 A. I do.</p> <p>14 Q. And who are they?</p> <p>15 A. Jake is our vice president of the east,</p> <p>16 and -- area, and Joe is VP of the western area.</p> <p>17 Q. They don't directly report to you; is that</p> <p>18 right?</p> <p>19 A. Correct.</p> <p>20 Q. They report to Mr. Steck?</p> <p>21 A. Correct.</p> <p>22 Q. So I've seen a number of e-mails from</p> <p>23 Mr. Meadows and/or Mr. Cavaretta to you directly.</p> <p>24 Would it be fair to say that you</p> <p>25 communicate directly with them fairly regularly?</p>	43	<p>1 A. Not regularly, no.</p> <p>2 Q. How often would you say those instances</p> <p>3 come about?</p> <p>4 MR. McDONALD: Object to the form, vague,</p> <p>5 overly broad.</p> <p>6 THE WITNESS: Very rare.</p> <p>7 BY MS. KAHN:</p> <p>8 Q. Can you think of any circumstances where</p> <p>9 you've communicated with a zone manager?</p> <p>10 A. Sure. If there's, again, one with a</p> <p>11 customer complaint like I mentioned before, I'll</p> <p>12 make sure if it's in the east that Jake is involved;</p> <p>13 if it's in the west Joe is involved, typically copy</p> <p>14 the zone general manager, the regional manager, you</p> <p>15 know, ask for insights or input.</p> <p>16 If there's an employee issue for whatever</p> <p>17 reason that's bubbled up to me, I want to make sure</p> <p>18 the zone and regional managers are aware; a customer</p> <p>19 issue, same thing, typically, you know, that type of</p> <p>20 level of involvement.</p> <p>21 We get our entire field management team</p> <p>22 together twice a year, once in January in Wisconsin</p> <p>23 and then once at our national sales meeting in June;</p> <p>24 and we have just -- so it's our field managers, zone</p> <p>25 managers, regional managers, operations managers.</p>
42	<p>1 A. Yes.</p> <p>2 Q. And under what circumstances do those</p> <p>3 communications usually come about?</p> <p>4 MR. McDONALD: Object to the form, vague,</p> <p>5 overly broad.</p> <p>6 THE WITNESS: Occasionally -- you know,</p> <p>7 Jake used to be in the West Allis office also. He</p> <p>8 now relocated to the Baltimore area but, again, same</p> <p>9 type of thing; they're just in the office walking</p> <p>10 by, stick their head in, hey, give me a quick heads</p> <p>11 up. Sometimes it would be a scheduled meeting. If</p> <p>12 they can't get ahold of Dave on something they might</p> <p>13 come and ask me.</p> <p>14 So there's no rhyme or reason really just</p> <p>15 to -- you know, why we'd have direct communication</p> <p>16 versus -- sometimes they're sending the message to</p> <p>17 both Dave and I.</p> <p>18 BY MS. KAHN:</p> <p>19 Q. And would you say that Mr. Meadows and</p> <p>20 Mr. Cavaretta are good employees?</p> <p>21 A. Yes.</p> <p>22 Q. And do you trust them?</p> <p>23 A. Very much.</p> <p>24 Q. As a general matter do you communicate</p> <p>25 regularly with zone managers?</p>	44	<p>1 So I'll see them there and interact. But I'm</p> <p>2 rarely, you know, really sitting one on one with any</p> <p>3 of them unless they ask for time with me, which I'm</p> <p>4 happy to give.</p> <p>5 Q. Sure. As a general matter do you</p> <p>6 communicate regularly with the regional managers?</p> <p>7 A. Same --</p> <p>8 MR. McDONALD: Objection, same objection.</p> <p>9 THE WITNESS: Same thing with zone</p> <p>10 managers, when I just happen to see them at these</p> <p>11 situations that I just outlined as well as the FMM,</p> <p>12 or field manager meeting.</p> <p>13 BY MS. KAHN:</p> <p>14 Q. Who do you currently report to?</p> <p>15 A. Jim Breslawski.</p> <p>16 Q. Has that been the case for the last ten</p> <p>17 years?</p> <p>18 A. 20, yes.</p> <p>19 Q. And what about Mr. Stanley Bergman, do you</p> <p>20 report to him?</p> <p>21 A. Indirectly, so that's who Jim reports to.</p> <p>22 Q. Do you communicate often with Mr. Bergman?</p> <p>23 MR. McDONALD: Object to the form.</p> <p>24 THE WITNESS: Yes.</p> <p>25</p>

45	<p>1 BY MS. KAHN:</p> <p>2 Q. What about Mr. Breslawski?</p> <p>3 A. Yes.</p> <p>4 Q. Do you have regularly-scheduled meetings</p> <p>5 with Mr. Breslawski?</p> <p>6 A. Yes.</p> <p>7 Q. How often are those?</p> <p>8 A. On the calendar at least once a month, but</p> <p>9 there's -- that's our -- for our one on one; and we</p> <p>10 have our monthly, the exec review, so that's the</p> <p>11 entire team, and then, you know, scattered meetings</p> <p>12 throughout the month on various topics.</p> <p>13 Q. And how often do you communicate with</p> <p>14 Mr. Bergman?</p> <p>15 A. It could be -- it depends on the day, the</p> <p>16 topic, you know. So at least once or twice a week</p> <p>17 I'd say on -- you know, and most of that is</p> <p>18 e-mail-type communication.</p> <p>19 Q. Earlier you used the term "full-service</p> <p>20 distributor."</p> <p>21 A. Uh-huh.</p> <p>22 Q. What does that term mean to you?</p> <p>23 A. An organization that provides -- basically</p> <p>24 can answer any and all of the needs of a dental</p> <p>25 practice, so from the sundries, the merchandise,</p>	47	<p>1 THE WITNESS: Yeah, I don't have it. I</p> <p>2 could guess at the number, but I don't have it in</p> <p>3 front of me.</p> <p>4 MR. McDONALD: And you're not here to</p> <p>5 speculate or guess. You're here to tell the truth,</p> <p>6 as you know.</p> <p>7 MS. KAHN: Counsel, please just state an</p> <p>8 objection.</p> <p>9 MR. McDONALD: Hey, you know what, I'm</p> <p>10 going to do what I need to do. If you don't like it</p> <p>11 we can stop and leave, okay. I'm going to tell him</p> <p>12 not to speculate. I'm not obstructing. You don't</p> <p>13 want him to speculate; the rules don't require him</p> <p>14 to speculate; he's not going to speculate.</p> <p>15 Ask your question, please.</p> <p>16 MS. KAHN: And for the record, please</p> <p>17 state "objection" and we can move on from there.</p> <p>18 That's all that the FTC's rules and regulations</p> <p>19 allowed.</p> <p>20 MR. McDONALD: I will do what I think I</p> <p>21 need to do to protect the record and my client.</p> <p>22 Thank you.</p> <p>23 BY MS. KAHN:</p> <p>24 Q. Mr. Sullivan, do you have a general sense</p> <p>25 of Schein's gross margin today?</p>
46	<p>1 equipment, installation, repair, the service that's</p> <p>2 involved, warranty work. Really when you walk into</p> <p>3 a dental office there's virtually -- once you walk</p> <p>4 through that door, including the waiting room, we</p> <p>5 can help design and sell office furniture, we can do</p> <p>6 anything and everything in that dental practice.</p> <p>7 Q. And Schein is a full-service distributor,</p> <p>8 right?</p> <p>9 A. Correct.</p> <p>10 Q. And is distributor sometimes referred to</p> <p>11 as a dealer?</p> <p>12 A. Yes.</p> <p>13 Q. Are you familiar with the term "national</p> <p>14 distributor"?</p> <p>15 A. Yes.</p> <p>16 Q. What does that term mean to you?</p> <p>17 A. Someone who sells coast to coast.</p> <p>18 Q. And Schein is a national distributor</p> <p>19 today?</p> <p>20 A. Correct.</p> <p>21 Q. What is Schein's U.S. gross margin for</p> <p>22 today?</p> <p>23 MR. McDONALD: Object to the form.</p> <p>24 THE WITNESS: I don't know. We're --</p> <p>25 MR. McDONALD: Don't speculate.</p>	48	<p>1 A. I do.</p> <p>2 Q. What's your general sense?</p> <p>3 A. Meaning what's the percentage, what's</p> <p>4 the --</p> <p>5 Q. A range, whatever your sense is.</p> <p>6 A. 32 to 34 percent range.</p> <p>7 Q. And is that an average of all the dental</p> <p>8 products?</p> <p>9 A. Yes. So our full -- it's the complete</p> <p>10 average from merchandise to equipment.</p> <p>11 Q. Do you have a sense of the margins if we</p> <p>12 were to break it up by equipment and merchandise?</p> <p>13 A. Yes.</p> <p>14 Q. And what's your sense of the two?</p> <p>15 A. Merchandise is in the 37 to 38 percent</p> <p>16 range; equipment is in the 28 to 30 percent range.</p> <p>17 Q. And Schein has private-label products as</p> <p>18 well, right?</p> <p>19 A. Correct.</p> <p>20 Q. And do you have a sense of -- and strike</p> <p>21 that.</p> <p>22 Private-label products only for</p> <p>23 merchandise?</p> <p>24 A. Correct.</p> <p>25 Q. Do you have a sense of Schein's margin if</p>

49

51

1 we were to break it up for merchandise between
2 private label and branded products?

3 A. I know the percentage is higher but in
4 many cases GP dollars are lower. It's a
5 lower-priced item at a higher margin.

6 **Q. When you said "GP," what are you referring
7 to?**

8 A. I'm sorry, gross profit.

9 **Q. And the margin is higher for the
10 private-label products; is that right?**

11 A. The GP -- the gross profit percentage,
12 sorry, is higher. In some cases the GP dollars can
13 actually be lower with the price point.

14 **Q. Has Schein's gross margin increased,
15 decreased or stayed the same in the last five years?**

16 A. It's remained fairly steady.

17 **Q. What about in the last ten years?**

18 A. Fairly steady.

19 **Q. Has there been any changes?**

20 MR. McDONALD: Object to the form.

21 THE WITNESS: I'd have to go back and
22 look.

23 BY MS. KAHN:

24 **Q. You can't say one way or the other whether
25 it's gone down a little bit or up a little bit?**

1 **Q. Has the operating margin stayed fairly
2 consistent for the last five years?**

3 A. Yes, it has.

4 **Q. And what about the net margin?**

5 A. Again, so I'm not held responsible. We
6 don't actually calculate it, so I don't know what it
7 is. I just -- in my own mind I calculate it, you
8 know, knowing tax rates and things like that.

9 **Q. What's Schein's national market share
10 today?**

11 MR. McDONALD: Object to the form.

12 THE WITNESS: It is really hard to say.
13 We don't know for sure. There's really no good
14 reporting on this. There's a company called
15 Strategic Dental Marketing; SDM is the acronym we
16 always use for them. And that reporting has
17 become we believe less and less valuable, less
18 accurate, less consistent, and there's a lot of
19 things it does not include.

20 But we estimate our market share in total
21 to be somewhere around 36 to 38 percent.

22 BY MS. KAHN:

23 **Q. And that includes all of the services,
24 supplies and equipment?**

25 A. Correct.

50

52

1 A. I think over this period of time it's
2 stayed fairly consistent.

3 **Q. You mentioned earlier three types of
4 margins: Gross, operating and net. Is that right?**

5 A. Correct.

6 **Q. Do you have a sense of Schein's net
7 margins today?**

8 A. For the dental business, again, we
9 don't -- so you have our gross margin, which is the
10 cost of goods and what we sell to the customer.
11 Then we have our operating expenses; that gets us
12 our operating margin.

13 From there, at the divisional level, you
14 know, the interest and taxes and things like that
15 are not applied to that at the divisional level.
16 That's handled at the corporate level.

17 So I'm really held responsible for
18 ultimately our operating margin. The net margin
19 after tax would be in the 5 to 6 percent range if
20 you applied the tax rates and everything else to
21 that, but we don't typically -- I'm not held
22 accountable to that. That's managed at corporate.

23 **Q. Sure. And what's your sense of the
24 operating margin?**

25 A. 10, roughly 10 percent.

1 **Q. Do you have a sense of market share if we
2 were to focus solely on supplies?**

3 A. Based on these reports it's -- we believe
4 it's roughly 40 percent.

5 **Q. And do you know, are these percentages
6 that you're approximating, do these account for
7 manufacturers that sell direct to dentists?**

8 A. No. So this is what SDM reports on, and
9 they don't get the information from the direct
10 sellers.

11 **Q. Got it. So this is only the market for
12 the distributors?**

13 A. Correct.

14 **Q. Do you have a sense of how large the
15 direct manufacturer to dentist part of the market
16 is?**

17 A. No, and if you could find that for us,
18 that would be helpful.

19 **Q. Is Schein the largest dental distributor
20 in the U.S.?**

21 A. We believe so, yes.

22 **Q. What was Schein's market share about five
23 years ago?**

24 MR. McDONALD: Object to the form.

25 THE WITNESS: It really hasn't changed a

53	<p>1 lot over this period of time. We believe we've</p> <p>2 incrementally taken anywhere from, you know, 20 to</p> <p>3 50 basis points of share a year. So five years it</p> <p>4 might have been in the 34 to 36 range; now we're in</p> <p>5 the 36 to 38 range.</p> <p>6 BY MS. KAHN:</p> <p>7 Q. What about ten years ago, do you know?</p> <p>8 A. I'd be speculating. Similar type</p> <p>9 increments, we believe.</p> <p>10 Q. But as a general matter the market share</p> <p>11 has been increasing slightly over time?</p> <p>12 A. Correct.</p> <p>13 Q. Who are Schein's competitors?</p> <p>14 A. Other full-service dental dealers, other</p> <p>15 direct sellers, others -- you know, maybe a</p> <p>16 merchandise-only type company, you know. Some of</p> <p>17 our manufacturers we partner with, but they also</p> <p>18 have a direct selling component to their business,</p> <p>19 and it's primarily on the specialty side of our</p> <p>20 business. So there's components even within our</p> <p>21 partners that, you know, sell direct, so those</p> <p>22 segments we view as competitors.</p> <p>23 Q. Would you say Patterson and Benco are</p> <p>24 Schein's primary competitors?</p> <p>25 A. I would say -- I would say they're our</p>	55	<p>1 market. It will vary.</p> <p>2 So they're our largest national</p> <p>3 competitors, but every market is unique.</p> <p>4 BY MS. KAHN:</p> <p>5 Q. Sure. And I'm just trying to understand</p> <p>6 if you disagree with the statement that Patterson</p> <p>7 and Benco are Schein's primary competitors in the</p> <p>8 U.S. dental market.</p> <p>9 MR. McDONALD: Object to the form, asked</p> <p>10 and answered.</p> <p>11 THE WITNESS: I don't disagree with the</p> <p>12 statement, but I would refer to them as our largest.</p> <p>13 BY MS. KAHN:</p> <p>14 Q. Patterson and Benco are also full-service</p> <p>15 dealers; is that right?</p> <p>16 A. Correct.</p> <p>17 Q. And are they both national dealers?</p> <p>18 A. Patterson for sure. Benco, I would call</p> <p>19 them quasi national. I don't know that they're in</p> <p>20 every market across the country. They've expanded</p> <p>21 over the last, you know, five to ten years and</p> <p>22 become more national; so Patterson for sure and</p> <p>23 Benco mostly, yes.</p> <p>24 Q. Is Patterson the second largest U.S.</p> <p>25 dental distributor?</p>
54	<p>1 largest competitors, yes.</p> <p>2 Q. Would you say they're Schein's primary</p> <p>3 competitors?</p> <p>4 MR. McDONALD: Object to the form, asked</p> <p>5 and answered.</p> <p>6 THE WITNESS: They're our largest. It</p> <p>7 varies by market even within the U.S. dental</p> <p>8 business.</p> <p>9 BY MS. KAHN:</p> <p>10 Q. The reason that I ask is that Schein's</p> <p>11 2016 10-K filing identifies Patterson and Benco as</p> <p>12 the primary competitors in the dental market. I'm</p> <p>13 just curious if you agree with that.</p> <p>14 MR. McDONALD: Object to the form.</p> <p>15 THE WITNESS: I'm not responsible for --</p> <p>16 MR. McDONALD: If you have a document you</p> <p>17 can show him, you should do it.</p> <p>18 Go ahead.</p> <p>19 THE WITNESS: I'm not responsible for</p> <p>20 filing the 10-K.</p> <p>21 So I view them as our largest competitor.</p> <p>22 They're in every market that we're in. But when I'm</p> <p>23 talking with, say, our manager in Memphis or in</p> <p>24 Knoxville, you know, Nashville Dental, they might be</p> <p>25 a bigger player than Patterson or Benco in that</p>	56	<p>1 A. Yes.</p> <p>2 Q. And do you have a general sense of their</p> <p>3 market share?</p> <p>4 A. Just based on public reporting and knowing</p> <p>5 where we're at, we think they're in the 32 to 34</p> <p>6 range.</p> <p>7 Q. And is Benco the third largest U.S. dental</p> <p>8 distributor?</p> <p>9 A. Correct.</p> <p>10 Q. Do you have a general sense of Benco's</p> <p>11 market share?</p> <p>12 A. No.</p> <p>13 Q. Do you have a sense of who comes in</p> <p>14 fourth?</p> <p>15 A. No. There's a multitude of other regional</p> <p>16 players that we don't know their volume.</p> <p>17 Q. You're familiar with Burkhart Dental?</p> <p>18 A. Yes.</p> <p>19 Q. And Burkhart is a competitor of Schein's?</p> <p>20 A. Yes.</p> <p>21 Q. Are they full-service as well?</p> <p>22 A. Yes.</p> <p>23 Q. And they're regional rather than national,</p> <p>24 right?</p> <p>25 A. Correct.</p>

57	<p>1 Q. Is Darby a competitor?</p> <p>2 A. Yes.</p> <p>3 Q. They're not full-service?</p> <p>4 A. No.</p> <p>5 Q. How would you describe them?</p> <p>6 A. Telesales organization.</p> <p>7 Q. Do they have value-added services?</p> <p>8 MR. McDONALD: Object to the form, vague.</p> <p>9 THE WITNESS: Not that I'm aware of. I'm</p> <p>10 sure they would claim they have some but not in the</p> <p>11 full-service sense.</p> <p>12 BY MS. KAHN:</p> <p>13 Q. Would you consider Darby a national</p> <p>14 distributor?</p> <p>15 A. Yes.</p> <p>16 Q. And do you have a general sense of Darby's</p> <p>17 market share?</p> <p>18 A. No, I do not.</p> <p>19 Q. Are there other telesales distributors in</p> <p>20 the U.S.?</p> <p>21 A. Yes, yes.</p> <p>22 Q. Can you name any off the top of your head?</p> <p>23 A. I knew you were going to ask.</p> <p>24 Safco, S-a-f-c-o. That's really the only</p> <p>25 significant one that comes to mind.</p>	59	<p>1 And that statement says, you know, we believe in</p> <p>2 improving the lives of those we touch. It goes on</p> <p>3 to talk about by focusing on practice care so our</p> <p>4 customers can focus on patient care. And there's</p> <p>5 true meaning behind it. We have what we call our</p> <p>6 practice care wheel and all the things that we</p> <p>7 provide.</p> <p>8 And I'll say, you know, dental schools do</p> <p>9 a fantastic job of teaching kids, you know, how to</p> <p>10 look into an oral cavity and become a good</p> <p>11 healthcare provider. They do a terrible job of</p> <p>12 reminding them when they look up, oh, by the way,</p> <p>13 you're a small business owner, right; and so the</p> <p>14 practice side of dentistry is where we believe our</p> <p>15 role comes in.</p> <p>16 And so we train our team differently than</p> <p>17 our competitors. We go to market differently than</p> <p>18 our competitors. Our advertising is different. We</p> <p>19 really are focused on the practice side of</p> <p>20 dentistry.</p> <p>21 And so we do -- most of our competitors</p> <p>22 provide a lot of the services that we do, the</p> <p>23 merchandise, the equipment. Patterson, as an</p> <p>24 example, has a practice management company,</p> <p>25 Eaglesoft like our Dentrax. All the others refer to</p>
58	<p>1 Q. Would it be accurate to say that Patterson</p> <p>2 and Benco are Schein's only full-service national</p> <p>3 competitors?</p> <p>4 A. Yes, again with the exception I mentioned</p> <p>5 earlier on Benco. They're I call them quasi</p> <p>6 national, but in essence, yes.</p> <p>7 Q. Okay. How does Schein compete against</p> <p>8 Patterson?</p> <p>9 MR. McDONALD: Object to the form, it's</p> <p>10 overly broad, vague.</p> <p>11 THE WITNESS: No different than we compete</p> <p>12 with any of our competitors. We go to market with a</p> <p>13 strategy for our customers. We talk about</p> <p>14 everything that we provide and what differentiates</p> <p>15 us from our competitors.</p> <p>16 We don't have a Patterson-specific plan, a</p> <p>17 Benco-specific plan, a National Dental-specific</p> <p>18 plan.</p> <p>19 BY MS. KAHN:</p> <p>20 Q. Sure. And what would you say</p> <p>21 distinguishes you from other full-service</p> <p>22 competitors?</p> <p>23 A. Well, we have a couple things. Our</p> <p>24 mission statement, it's not just a tagline; it's not</p> <p>25 just a marketing thing. There's meaning behind it.</p>	60	<p>1 someone else's so they can provide practice</p> <p>2 management services. Everyone has some level of</p> <p>3 digital impressioning, you know, CAD/CAM, you know,</p> <p>4 offering. Full-service dealers all have service</p> <p>5 technicians that provide service.</p> <p>6 The one piece that we believe is uniquely</p> <p>7 ours is what we call our business solution segment</p> <p>8 of our practice care wheel, and that's a team of</p> <p>9 folks that are just solely focused on the practice.</p> <p>10 When you go in to meet with your dentist,</p> <p>11 you probably sit down with them and you go through</p> <p>12 and he provides you a patient treatment plan after</p> <p>13 doing an oral exam. We sit with our customers. We</p> <p>14 do a business development meeting with them, and out</p> <p>15 of that comes a practice analysis. That practice</p> <p>16 analysis is like their practice treatment plan. So</p> <p>17 just like they're not going to do all that dentistry</p> <p>18 on your next visit, we're not going to do all this</p> <p>19 on your practice the next time we're here, but it's</p> <p>20 a plan over the next three to five years how we can</p> <p>21 help them to achieve their goals and dreams.</p> <p>22 And, you know, it all sounds great from --</p> <p>23 you know, like motherhood and apple pie, and if</p> <p>24 you're sitting on -- there's real meaning and</p> <p>25 strategy that supports all of that. That is what we</p>

61	<p>1 believe makes us unique versus any of our 2 competitors.</p> <p>3 Q. You mentioned a number of services and 4 products that Schein offers its customers. I'm 5 wondering if there's -- can we use the term 6 "value-added services" to sort of account for all of 7 these various types of services that you just 8 described?</p> <p>9 A. You could, but from our perspective it's 10 too generic --</p> <p>11 Q. Sure.</p> <p>12 A. -- because everyone, you know, Darby 13 included I'm sure, has what they call their 14 value-added services.</p> <p>15 Our unique segment that is different than 16 just a typical value-added service is our business 17 solutions, and that business solutions offering is 18 unique. It would fall under an overall value-added 19 service for sure, but it's a segment that we don't 20 believe anyone in the market does like we do.</p> <p>21 Q. Including Patterson and Benco?</p> <p>22 A. Correct.</p> <p>23 Q. Would you agree that Schein, Patterson and 24 Benco try to outbid each other on price from time to 25 time?</p>	63	<p>1 THE WITNESS: It certainly happens from 2 time to time. I don't know how often it happens. 3 It's definitely not in every scenario.</p> <p>4 Our salespeople call on our customers, you 5 know, 10 to 15 calls a day. Most times they're not 6 dealing with price. There are times they walk in 7 there might be a price-related issue. It could be 8 they saw a price online; it could be Darby called or 9 something; it might be the Patterson rep was just 10 in, who knows. But they're not dealing with that on 11 a day-to-day basis typically.</p> <p>12 BY MS. KAHN:</p> <p>13 Q. Schein publishes its prices for all of its 14 dental products; is that right?</p> <p>15 A. Yes.</p> <p>16 Q. Does it do that for the services as well?</p> <p>17 A. I mean, for our service technicians, like 18 our hourly rate for a service tech?</p> <p>19 Q. Yes.</p> <p>20 A. We don't publish it because it varies by 21 market. So it's published internally, but we don't 22 put that like in a catalog or it's not online 23 anywhere, no.</p> <p>24 Q. Okay. And just focusing back on the 25 products, the merchandise, is the published price</p>
62	<p>1 MR. McDONALD: Object to the form.</p> <p>2 THE WITNESS: I think we compete with all 3 of our competitors, you know, so if it's -- it could 4 be we're up against Patterson; it could be up 5 against Benco; it could be up against Burkhardt; it 6 could be up against Darby; it could be up against 7 fill in the blank.</p> <p>8 BY MS. KAHN:</p> <p>9 Q. Sure. And you compete on price to gain 10 business from time to time?</p> <p>11 A. Yes, we do.</p> <p>12 Q. If we're focusing just on Schein, 13 Patterson and Benco, how frequent of an occurrence 14 is it when the three of you try to outbid each other 15 on price?</p> <p>16 MR. McDONALD: Object to the form, overly 17 broad, vague.</p> <p>18 THE WITNESS: Yeah, I wouldn't know. I'm 19 not involved in price negotiations with customers.</p> <p>20 BY MS. KAHN:</p> <p>21 Q. Sure. Do you have any general sense of 22 whether that happens at all?</p> <p>23 MR. McDONALD: Object to the form, vague.</p> <p>24 THE WITNESS: It certainly --</p> <p>25 MR. McDONALD: Go ahead.</p>	64	<p>1 also referred to as the catalog price?</p> <p>2 A. Yes.</p> <p>3 Q. Do you know if Patterson also publishes 4 its dental product prices?</p> <p>5 MR. McDONALD: Object to the form. And to 6 be clear, when you say "products," you're referring 7 to merchandise only?</p> <p>8 MS. KAHN: I am right now, and then we can 9 broaden it.</p> <p>10 THE WITNESS: Okay. So we believe -- I 11 believe we're the only ones that publish an annual 12 catalog with the prices in it. Patterson, Benco, 13 Darby, you know, all of our competitors publish 14 fliers from time to time that will have prices 15 included. Most of them will have something online, 16 but in most cases like even with ours you have to 17 have a password for your account specifically to see 18 your pricing. But general pricing is typically 19 available online.</p> <p>20 BY MS. KAHN:</p> <p>21 Q. So I'm just trying to understand your 22 answer.</p> <p>23 You're not sure if Patterson publishes a 24 catalog of prices for all of its merchandise?</p> <p>25 A. No, I know they don't. We are the only</p>

65

1 ones that publish an annual catalog that is fully
 2 priced.
 3 **Q. Okay.**
 4 A. Others, other competitors, I don't know
 5 what Patterson does relative to pricing, you know,
 6 but I know that they have fliers from time to time
 7 with a special or promotion. How often they come
 8 out with that I don't know.
 9 **Q. And what about Benco?**
 10 A. I think it's the same thing, from time to
 11 time. They do not have an annual catalog that's
 12 listing prices.
 13 **Q. And you were mentioning prices being**
 14 **available online.**
 15 **Do you know if Patterson has prices for**
 16 **all of their dental merchandise online?**
 17 A. I have not looked. I don't know that
 18 it's -- I believe you have to have a password to
 19 have -- you know, the dentist has to have it for
 20 their pricing. They can see their pricing online.
 21 It's not available for anyone else to see that I'm
 22 aware of.
 23 **Q. Got it. And do you have an understanding**
 24 **of how it works with Benco?**
 25 A. I don't. I think it's very similar to

66

1 Patterson's and others.
 2 **Q. And why does -- you mentioned that Schein**
 3 **is the only one that publishes an annual catalog.**
 4 **Why does Schein do that?**
 5 A. That's an excellent question, and we --
 6 it's just historic. We've always been the -- it
 7 goes back to the foundation and the roots of, you
 8 know, Henry Schein. You know, as it expanded, it
 9 was a catalog mail-order-type organization. Our
 10 sales reps -- we know our customers really do like
 11 the catalog. It has a lot of, you know, other
 12 things included in it. But we are going through
 13 the, you know, does it make sense to paper print
 14 versus digital review every year.
 15 **Q. Do you have a general sense of how**
 16 **Schein's prices compare to those of Patterson?**
 17 MR. McDONALD: Object to the form, vague.
 18 THE WITNESS: So Paul Hinsch and team do
 19 as best as possible to analyze our pricing. When we
 20 go to price the catalog every year, you know, we
 21 want to make sure that we're competitively priced.
 22 We're -- we believe we're very competitively priced
 23 with all the full-service dealers.
 24 BY MS. KAHN:
 25 **Q. And when you say "competitively priced,"**

67

1 **what do you mean exactly?**
 2 A. Within a range of, you know, 2 to 5 to
 3 8 percent.
 4 **Q. And do you have a general sense of whether**
 5 **Patterson -- excuse me.**
 6 **Do you have a sense of whether Schein is a**
 7 **couple of percentage points higher than the other**
 8 **full-service distributors?**
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: I don't.
 11 BY MS. KAHN:
 12 **Q. You made a distinction of being**
 13 **competitively priced with all full-service dealers.**
 14 **Do you have a sense of how Schein's prices**
 15 **compare to non-full-service dealers?**
 16 A. I don't.
 17 **Q. Is it fair to say that the**
 18 **non-full-service dealers are cheaper for**
 19 **merchandise?**
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: It really would -- I don't
 22 know. It would vary on -- I'd have to see the
 23 pricing. I don't know.
 24 BY MS. KAHN:
 25 **Q. And why is it that you have an**

68

1 **understanding for the full-service dealer**
 2 **competitors but not the non-full-service dealer**
 3 **competitors?**
 4 MR. McDONALD: Object to the form.
 5 THE WITNESS: Just through the process
 6 that I know Paul Hinsch goes through. I'm not
 7 exactly sure what that process is and how, you know,
 8 he manages it.
 9 Again, I just -- there's a big piece of me
 10 that just has an emphatic trust with someone like
 11 Paul, but he does -- he goes through analysis of
 12 where we are, you know, how we are priced within the
 13 full-service segment.
 14 BY MS. KAHN:
 15 **Q. Got it.**
 16 A. I don't know that we have access to anyone
 17 else's pricing or how he gets it from -- I'm not
 18 exactly sure how he comes up with the analysis, to
 19 tell you the truth.
 20 So that's only -- we're concerned about
 21 our primary competitive space in the full-service
 22 dealer network.
 23 **Q. Just so I understand, Mr. Hinsch in**
 24 **pricing Schein's products considers the full-service**
 25 **distributor market pricing, is that --**

69

71

1 A. That's correct.

2 **Q. -- fair to say?**

3 A. That's fair to say, yes.

4 **Q. And do you have an understanding of why he**
5 **doesn't take into account the non-full-service**
6 **market?**

7 MR. McDONALD: Object to the form, lack of
8 foundation.

9 THE WITNESS: We know our strategy. We
10 know the market that we're approaching, and we're
11 interested in how we compare as compared to those
12 others that have provided similar services that we
13 do.

14 BY MS. KAHN:

15 **Q. Sure. In your mind is that a different**
16 **market segment than the full-service dealer market?**

17 A. From the standpoint of just from a --
18 excuse me -- market segmentation standpoint, yes. I
19 mean, there's the full-service dealers and then the
20 non-full-service dealers. We're all going, you
21 know, approaching the same customer, but our
22 go-to-market strategies are different.

23 So that's that where we know we need to be
24 structured differently. Our cost structure is
25 different; the services that we provide is

1 where does price rank for you, Doctor. So if price
2 is a significant concern for the dentist, we will
3 then want to talk to them about, you know, your
4 profitability of practice must be a concern for you,
5 right; and in most cases they say yes. Well, let me
6 show you where I can help you in your overall
7 profitability for your practice, and it's not
8 necessarily just about saving 10 percent off your
9 supplies. If you're buying 35 grand a year in
10 supplies, 10 percent would be \$3,500. That's a lot
11 of money, but we know if we go through this practice
12 analysis with you we can help you generate more
13 revenue in your practice that falls to the bottom
14 line than 10 percent off supplies.

15 So we will work with them in that capacity
16 from a full-service offering standpoint. That
17 doesn't mean we won't also then, by the way, still
18 have to do the price matching and still, you know,
19 giving the 10 percent off on the supply side, but we
20 want to make sure that we give the full basket of
21 our offering.

22 BY MS. KAHN:

23 **Q. Sure. From time to time does Schein**
24 **analyze its competitors' business models?**

25 MR. McDONALD: Object to the form.

70

72

1 different. So our cost structure is higher in order
2 to provide all the services that we provide, so we
3 want to make sure, you know, customers that are
4 interested in that type of service are -- we're
5 priced competitively to provide those services.

6 **Q. How would you say Schein competes against**
7 **the non-full-service dealers?**

8 A. Well, again, let me go back to the wheel,
9 the practice care wheel. We want to make sure our
10 customers understand that we are competitively
11 priced. We won't necessarily be the lowest, you
12 know, at all times.

13 But for the services that we provide, you
14 know, the basket of everything, the price is a
15 component of value. So the total value we believe
16 we are the best offering to the marketplace. And
17 price is a component, but it's not necessarily
18 number one in everyone's category.

19 **Q. And do you have a sense of when Schein is**
20 **competing against a non-full-service distributor**
21 **whether price is less important because you're**
22 **trying to sell the value and the value-added**
23 **services?**

24 MR. McDONALD: Object to the form.

25 THE WITNESS: We don't ask specifically

1 THE WITNESS: Yes, in the extent from the
2 standpoint of knowing who our competitors are and,
3 you know, and understanding are they full-service or
4 not. But beyond that, we wouldn't have access to
5 what their, you know, their structure, their
6 go-to-market strategy or model would be.

7 BY MS. KAHN:

8 **Q. Does Schein try to analyze what**
9 **competitors are offering customers?**

10 MR. McDONALD: Object to the form, vague.

11 THE WITNESS: Yes.

12 BY MS. KAHN:

13 **Q. And why is that?**

14 A. It's important to know who your
15 competitors are.

16 **Q. And why is that?**

17 A. So we know who we're competing against.

18 **Q. Does Schein conduct strategic planning?**

19 A. Yes.

20 **Q. Is that done every three years or more**
21 **frequently?**

22 A. So back to Henry Schein, Inc.,
23 Henry Schein, Inc. goes through a three-year
24 strategic planning process, and we're just in the
25 process of -- we're wrapping up our third year of

73

75

1 that plan, and we're launching the strategic
2 planning process for the next three-year strat.
3 plan.

4 At the divisional level we don't have a
5 specific three-year strat. plan, but we want to make
6 sure our operating structure and our go-to-market
7 strategy matches, you know, much of what we're doing
8 from a Henry Schein, Inc. strategic plan
9 perspective. But there may be some things in the
10 global plan, like international growth; okay, that's
11 not part of my plan in the U.S. But human capital
12 is a very important one and, you know, how do we
13 work with our team members; that will make its way
14 into our plan.

15 **Q. And for the -- focusing on the three-year**
16 **strat. plan, what's the purpose of doing the**
17 **three-year strat. plan?**

18 A. Understanding what's happening in the
19 marketplace; are we organized in a way to address
20 what's happening in the marketplace, you know. The
21 market is evolving; it has been evolving, you know,
22 and the pace of change is even faster today than it
23 was five years ago and ten years ago, you know, so
24 understanding what's happening in the marketplace so
25 then we can structure ourselves appropriately to win

1 **Are you familiar with a situational**
2 **analysis focused solely on competitors?**

3 A. Yes.

4 **Q. And what's the purpose of doing that**
5 **analysis?**

6 A. To understand what the competitive
7 landscape is.

8 **Q. Is it fair to say that the purpose of that**
9 **in part is to gain insight into your competitors'**
10 **business models and value propositions?**

11 A. Well, we -- again, in that process we're
12 not going to understand what their business -- how
13 did you word it again?

14 **Q. To gain insight into your competitors'**
15 **business models and value propositions.**

16 MR. McDONALD: Object to the form.

17 THE WITNESS: I don't know that we
18 necessarily analyze their value propositions. We
19 may judge it ourselves. We wouldn't understand what
20 theirs specifically is, but it's more in the
21 understanding of are they a full-service
22 organization, non-full-service, nontraditional type
23 competitors, you know, new entrants into the
24 marketplace, understanding those dynamics.
25

74

76

1 in the market.

2 **Q. And do you know if Schein does something**
3 **called a situational analysis as part of the strat.**
4 **plan?**

5 A. Yes, it does.

6 **Q. Can you tell me what that is?**

7 A. It's -- so kind of what I just outlined.
8 So the situation analysis would say -- would talk
9 about the competitive landscape, industry dynamics,
10 general economic conditions.

11 **Q. Anything else?**

12 A. Those are the big three that come to mind
13 right now.

14 **Q. And are there specific situational**
15 **analyses for different topics, or is it all lumped**
16 **together?**

17 MR. McDONALD: Objection to the form.

18 THE WITNESS: Meaning we do one
19 specifically for dental. There's -- I believe
20 there's a separate one for medical and animal
21 health.

22 BY MS. KAHN:

23 **Q. Sure.**

24 A. So I don't know what you mean by "topics."

25 **Q. Sorry. Let me ask you a better question.**

1 BY MS. KAHN:

2 **Q. And is part of the reason for doing the**
3 **situational analysis for competitors to try to**
4 **understand threats posed by competitors?**

5 A. Correct.

6 MR. McDONALD: Object to the form.

7 THE WITNESS: Yes.

8 BY MS. KAHN:

9 **Q. And why does Schein try to understand**
10 **threats posed by competitors?**

11 A. I think it's smart.

12 **Q. I'm sorry?**

13 A. It's smart. I mean, if we have to adjust
14 our model to address, you know, what's coming, we
15 need to maybe have to adjust how we go to market.
16 We might have to -- you know, there's more and more
17 information available online today. We want to make
18 sure our e-commerce platform is as good as anyone's
19 out there and ease of doing business, you know.

20 So understanding what our competitors are
21 doing, we want to make sure we're doing something
22 more and better.

23 **Q. Would it be fair to say that Schein may**
24 **adjust its own model based on what it's seeing from**
25 **competitors and threats in the marketplace?**

77

79

1 A. More so adjusting to see what customer
2 needs are, what the economic environment is like,
3 you know, technological changes. Some of that will
4 be driven by what competitors are doing and making
5 sure that we can complete effectively in the
6 marketplace.

7 **Q. Does Schein -- strike that.**

8 **Does Schein try to gather market**
9 **intelligence on Patterson and Benco from time to**
10 **time?**

11 A. Yes.

12 **Q. Can you tell me about that?**

13 A. So we have a number of representatives
14 that have joined us this year alone that have come
15 from Patterson. So we will ask them questions and
16 understanding -- you know, so tell us a little bit
17 about what's the environment like, what's the
18 culture, you know. We -- there has been a shift
19 from -- you know, in suppliers. Was A-dec important
20 to you and we didn't have A-dec here; yes, it was
21 important. Then we did our best to make sure we
22 added A-dec to our lineup.

23 We're great partners with Dentsply. We
24 didn't have Sirona here in the U.S. market. We just
25 were able to negotiate a deal to add Sirona, you

1 **market intelligence?**

2 A. So Patterson as an example is a public
3 company, so we will go to the public filings.
4 That's all that comes to mind right now.

5 **Q. And you mentioned Patterson a lot through**
6 **this, but I wanted to clarify for Benco as well.**
7 **Are there any other ways that Schein tries**
8 **to gather market intelligence about Benco aside from**
9 **what you've already talked about?**

10 A. Not that I'm aware of.

11 MR. McDONALD: When you get to a break,
12 why don't we stop. We've been going for like an
13 hour and 15 or so.

14 MS. KAHN: I've got a quick segment, and
15 then we can break.

16 BY MS. KAHN:

17 **Q. Are you okay to go for a few more minutes?**

18 A. Yes.

19 **Q. How would you describe the competition**
20 **between Schein, Patterson and Benco?**

21 A. Again, no different than any of our
22 competitors. It's a competitive market out there.
23 We welcome the competition.

24 And, again, I've outlined our strategy
25 before. So our go-to-market strategy we believe is

78

80

1 know, coming up with that this year, so
2 understanding -- Patterson reps in particular, was
3 having CEREC important; yeah, okay. Let's do our
4 best to make sure we can provide that type of
5 service.

6 So understanding from that perspective, we
7 will gain some of that intelligence from current
8 employees who used to be employed there.

9 **Q. Any other ways aside from getting**
10 **information from current employees who are former**
11 **Patterson employees?**

12 A. Just from time to time meeting with
13 suppliers, asking them, you know, how are we doing
14 versus any of our competitors, so we're not
15 necessarily asking Patterson, you know, anyone
16 specific. And they'll tell us how we're performing
17 in their portfolio versus others. And then we will
18 ask them, you know, if we're getting beat, you know,
19 why is it, what do you see, is there something we
20 can be doing different and talk about how we can
21 work with you differently and better. It's not
22 necessarily about -- we don't ask specific questions
23 about any of our competitors in that light but
24 understanding how we can perform better with them.

25 **Q. Any other ways that Schein tries to gather**

1 different; we think it's unique. That's how we
2 differentiate ourselves.

3 **Q. Would you say it's fierce or strong?**

4 A. I would say it's fierce.

5 **Q. Is it fair to say that Schein's loss of a**
6 **sale can mean a Patterson or Benco gain?**

7 A. I don't care whose gain it is. If it's
8 our loss, I don't care whose gain it is.

9 **Q. And is it fair to say that a Patterson or**
10 **Benco loss can mean a Schein gain?**

11 A. Again, I don't care whose loss it is as
12 long as it's our gain.

13 **Q. Would you agree that competition between**
14 **Schein, Patterson and Benco for certain accounts has**
15 **driven down prices?**

16 A. I wouldn't -- I wouldn't specifically cull
17 out Patterson or Benco to the price competitiveness
18 in the marketplace. It's a competitive market,
19 always has been, always will be, and it's been --
20 it's driven by a number of factors. Patterson and
21 Benco are part of that, but we do not focus solely
22 on those two organizations.

23 **Q. Okay. Let me broaden up the question a**
24 **little bit.**

25 **Would you agree that competition between**

81

83

1 **Schein and other competitors in the dental market**
2 **for certain accounts has driven down prices paid by**
3 **dentists?**

4 MR. McDONALD: Object to the form.
5 THE WITNESS: I think it's kept -- it's a
6 competitive landscape, you know, and I mentioned our
7 margins haven't changed significantly over the
8 years, you know. The mix of that has.

9 So, you know, some categories have come
10 down while others have gone up, and, you know, the
11 overall blend has been, you know, fairly consistent.
12 BY MS. KAHN:

13 **Q. So you don't think competition has driven**
14 **down prices in the dental market?**

15 A. I don't know if it's driven them down. I
16 mean, prices are a component of value, there's no
17 question, always has been, always will be.

18 **Q. Sorry, I just -- I don't want to belabor**
19 **it too much, but I just want to get a sense of**
20 **whether you think competition in the dental market**
21 **has driven down prices.**

22 MR. McDONALD: Object to the form, asked
23 and answered.

24 THE WITNESS: I don't know how -- I don't
25 know. I don't know, you know. Prices have been

1 you know, 3D cone beam technology, that's probably
2 going to be a 22 or 24 percent gross profit versus a
3 chair unit likely you would see in a dental office,
4 those are typically going to be in the 32 to
5 34 percent gross profit range.

6 So the blend, the digital segment is
7 growing faster than the core equipment, so,
8 therefore, the margin percentage has been driven
9 down. But GP dollars overall have been growing
10 because sales have grown in those segments.

11 **Q. Got it. But the prices, and shifting back**
12 **to merchandise or supplies, there hasn't been any**
13 **changes in prices that you're generally aware of in**
14 **the last five years?**

15 MR. McDONALD: Object to the form, vague.
16 Go ahead.

17 THE WITNESS: It's been significantly
18 stable.

19 BY MS. KAHN:

20 **Q. And do you have a sense of whether**
21 **Schein's catalog prices have stayed the same in the**
22 **last five years?**

23 A. They haven't stayed the same, you know.
24 Typically what happened, you know, whatever --
25 again, our suppliers set the prices, so they're the

82

84

1 fairly consistent over this period of time that
2 we're talking about.

3 BY MS. KAHN:

4 **Q. What period are you referring to?**

5 A. You've been asking about the last five to
6 ten years, so in that period is what I'm in my mind
7 talking about.

8 **Q. So in the last five to -- let's just stay**
9 **with five for now so we can be clear.**

10 **In the last five years prices for dental**
11 **merchandise or supplies have stayed fairly constant,**
12 **is that what you're saying?**

13 A. Correct, yes.

14 **Q. Is that true for the last ten years?**

15 A. I'd have to go back and look, but I
16 believe so, yes.

17 **Q. And what about for equipment?**

18 A. Very similar. Our margins have actually
19 come down on equipment in the last five to ten
20 years, but part of that is driven by mix; and the
21 mix has been driven by what we call, you know, the
22 digital radiography, 2D and 3D, large cone beam
23 machines. It's a high-ticket item, but it's a lower
24 gross margin. The gross margin dollars are still
25 significant. But, you know, if you buy a \$100,000,

1 ones who determine our cost. So if they have a
2 price increase of 1 percent, we're most likely going
3 to raise our prices by 1 or, you know, what's
4 needed; if they raise them by 2, we're going to be
5 sometimes 1.8, sometimes 2.2 depending on -- part of
6 our margin management team will be analyzing the
7 mix.

8 So it will typically follow what's
9 happening with our suppliers relative to their price
10 increases, and that will determine what we're doing
11 in the marketplace in a significant way.

12 **Q. And aside from instances where the**
13 **supplier has increased the price that they sell**
14 **products to you by a certain percentage, has Schein**
15 **increased prices in other instances in the last five**
16 **years?**

17 MR. McDONALD: Object to the form, overly
18 broad.

19 THE WITNESS: We are primarily focused on
20 the price changes from our suppliers. So if they
21 don't have a price change, most likely we will not
22 either.

23 MS. KAHN: Got it. All right. We can
24 take a break.
25

85	87
<p>1 (Whereupon, a recess was taken 2 from 9:17 p.m. to 9:31 a.m.) 3 BY MS. KAHN: 4 Q. We are back on the record. 5 I want to spend a couple minutes and talk 6 about Schein's customers. 7 Who are Schein's customers? 8 A. General practitioners, specialists, anyone 9 with a D.D.S. title. 10 Q. I've seen Schein presentations with a 11 sales pyramid, sales model pyramid. 12 Are you familiar with that? 13 A. Yes. 14 Q. Can you walk me through the different 15 levels of the pyramid? 16 A. Sure. I touched on it earlier. So the 17 base of the pyramid is our general private 18 practitioner, typically your single office space 19 practitioner, maybe one or two locations. 20 The very top of the pyramid is that elite 21 DSO customer segment that's Hal Muller's 22 responsibility. 23 And then we have this mid-market segment, 24 which is where multipractice -- multilocation 25 practices are segmented. In there is also community</p>	<p>1 A. Not anymore. This elite DSO used to be 2 considered the corporate account group. The acronym 3 was CAG, corporate accounts, CAG. We no longer 4 refer to them as that. It's now DSO. 5 Q. And what about the mid-market groups, is 6 there a generic name for that? 7 A. Internally we call them select customers. 8 Q. Are all mid-market customers select 9 customers? 10 A. In essence, yes. I'm sorry, in the 11 mid-market, mid-market segment, the CHCs, the 12 community health centers are also managed by this 13 group. They would not be considered the elite DSOs. 14 They're managed by the same group. 15 Q. You mean the select customers, they're not 16 the select customers? 17 A. Yes. 18 Q. Okay. I think you said elite. 19 A. I'm sorry, you're right. 20 Q. And what about "large group account," is 21 that something that -- a term that you guys use? 22 MR. McDONALD: Object to the form. 23 THE WITNESS: So we've gone through a 24 multitude. We're now -- we now refer to this group 25 in the mid market as select. Used to be LGP, large</p>
<p>1 health centers in the mid-market segment as well. 2 Q. Is the elite -- did you say DSO customers? 3 A. Correct. 4 Q. And what does DSO stand for? 5 A. Dental support organizations. 6 Q. Is that separated from -- is there just a 7 DSO level and then an elite DSO level? 8 A. So this is how we segment the market. The 9 market isn't necessarily segmented this way. 10 So it's roughly our top 50 customers that 11 have the elite DSO status. There are some in the 12 mid-market segment that would refer to themselves as 13 DSOs and, you know, are members of the Association 14 of Dental Support Organizations, ADSO, so we support 15 them out of our mid-market segment there. 16 Q. And so aside from the mid-market DSO and 17 the elite DSO, is there another level of just DSO, 18 or no? 19 A. Not the way we've segmented. 20 Q. Got it, okay. 21 Is it fair to call these different levels 22 different customer segments? 23 A. Yes. 24 Q. Do you or others at Schein use the term 25 "corporate account"?</p>	<p>1 group practices. 2 So you'll see we intertwine these 3 terminologies, you know, from time to time. The 4 goal is to get everyone to talk in the same 5 language: The elite DSOs, the select DSOs, 6 mid-market customers, and the community health 7 centers. 8 BY MS. KAHN: 9 Q. And how large are the mid-market DSOs, how 10 many offices? 11 MR. McDONALD: Object to the form. 12 THE WITNESS: So it does vary because some 13 were grandfathered in from where people were, but 14 going forward our goal is anywhere from about 4 to 15 25 locations or so would be mid market, and anything 16 above that would be select. But, again, it's a 17 real -- it's a gray line at that 25 locations 18 depending how they're structured, what's their 19 go-to-market strategy, what's their growth strategy, 20 do they want a field growth consultant. 21 So there's a number of factors that 22 determine that, but that's the general range. 23 BY MS. KAHN: 24 Q. And above the 25 market approximately then 25 it becomes an elite DSO?</p>

89	91
<p>1 A. That's correct.</p> <p>2 Q. And special markets handles elite DSOs; is</p> <p>3 that right?</p> <p>4 A. That's correct.</p> <p>5 Q. So you're in charge of everything below</p> <p>6 that line, so the private practice and the mid</p> <p>7 market?</p> <p>8 A. Correct.</p> <p>9 Q. Are you familiar with the term "DPM"?</p> <p>10 A. No.</p> <p>11 Q. Okay. What about "DSM"?</p> <p>12 A. Is that an internal -- so internally?</p> <p>13 Q. Yes.</p> <p>14 A. We have a DSL account, which would be</p> <p>15 Henry Schein Dental, and DSM is dental special</p> <p>16 markets.</p> <p>17 Q. Got it.</p> <p>18 A. That's just terms in a computer system.</p> <p>19 That's the tag on there in the system.</p> <p>20 Q. Okay. DSL is --</p> <p>21 A. HSD, so --</p> <p>22 Q. Okay. And so DSL account would be</p> <p>23 mid-market or private-practice accounts?</p> <p>24 A. That's correct.</p> <p>25 Q. Okay. And DSM would be the elite DSO</p>	<p>1 Q. Does Schein do any sort of surveys of its</p> <p>2 customers?</p> <p>3 A. Individually that's part of our business</p> <p>4 development meeting with them, yes. So it's not a</p> <p>5 survey, per se, as much as it is a, you know,</p> <p>6 discovery meeting with them to understand. There's</p> <p>7 a series of questions that we ask them of what's</p> <p>8 happening within their practice.</p> <p>9 Q. Is the same set of questions that are used</p> <p>10 with most customers?</p> <p>11 A. Generally, but it's up to each rep kind of</p> <p>12 which direction they go with the customer when they</p> <p>13 meet with them.</p> <p>14 Q. Sure. And are the answers stored in some</p> <p>15 centralized location?</p> <p>16 A. Not that I'm aware of.</p> <p>17 Q. And are the questions stored somewhere</p> <p>18 centrally?</p> <p>19 A. So we will keep -- we keep the practice</p> <p>20 analysis, which is the output of those questions we</p> <p>21 have by customers. Those are kept by -- our field</p> <p>22 sales consultant has it, our regional managers.</p> <p>23 I'm not sure where it's kept corporately,</p> <p>24 quite honestly, in dental.</p> <p>25 Q. Okay. So practice analysis, that term,</p>
<p>1 accounts?</p> <p>2 A. That's correct.</p> <p>3 Q. Okay. Would you say that Schein tries to</p> <p>4 understand its customers' needs to better serve</p> <p>5 them?</p> <p>6 A. Yes.</p> <p>7 Q. And is it fair to say that Schein tries to</p> <p>8 understand the economic environment that its</p> <p>9 customers operate in?</p> <p>10 A. Yes.</p> <p>11 Q. Does Schein try to understand the economic</p> <p>12 pressures that its customers face?</p> <p>13 A. Yes.</p> <p>14 Q. And how would you say Schein tries to</p> <p>15 learn about these things?</p> <p>16 A. From meeting with customers. So we don't</p> <p>17 use a cookie-cutter approach to all customers. We</p> <p>18 have what we call our business discovery meetings</p> <p>19 with customers to understand what their specific</p> <p>20 challenges and issues are. Some of the pressures</p> <p>21 might be reducing -- you know, a reduction in</p> <p>22 insurance coverages, cost per procedure is -- our</p> <p>23 reimbursement procedure coming down.</p> <p>24 So it's really about individual meetings</p> <p>25 with customers.</p>	<p>1 you're referring to the answers or the result of the</p> <p>2 business development meeting with the dentist?</p> <p>3 A. Yes.</p> <p>4 Q. And, you know, you mentioned a series of</p> <p>5 questions that are part of the business development</p> <p>6 meeting.</p> <p>7 Do you have access to that list of</p> <p>8 questions that go into the business development</p> <p>9 meeting?</p> <p>10 A. I could get them. I mean, I don't.</p> <p>11 Q. How long typically are the business</p> <p>12 development meetings?</p> <p>13 MR. McDONALD: Object to the form.</p> <p>14 THE WITNESS: I have not sat in one of</p> <p>15 them. I think they're -- we typically block an hour</p> <p>16 with a customer to meet with them to go through</p> <p>17 this.</p> <p>18 BY MS. KAHN:</p> <p>19 Q. Would you say that private practices</p> <p>20 are -- strike that.</p> <p>21 Would you say that private practices</p> <p>22 traditionally have been the core of Schein's</p> <p>23 customer base?</p> <p>24 A. Yes.</p> <p>25 Q. And has there been a shrinking of the size</p>

93

1 **of private practices as compared to larger groups?**

2 MR. McDONALD: Object to the form, vague.

3 THE WITNESS: Yes.

4 BY MS. KAHN:

5 **Q. And why do you think that's the case?**

6 A. Well, as the elite DSOs have grown, part
7 of that growth has come from they've acquired
8 private practices. So the sheer number of them are
9 growing faster in the elite space, and it's coming
10 from the private practice segment.

11 As the private practice segment has seen
12 what's going on in the elite space but might not
13 necessarily want to be part of that, they still want
14 to control their own destiny and be the boss, make
15 their decisions, they're creating their own groups
16 that have multiple locations.

17 So the shift from single office space
18 practitioner into this mid-market space, that's our
19 fastest-growing segment right now. So all of
20 those -- the growth comes from the single office
21 space practitioners.

22 So the number of them is down; they're
23 just in different segments.

24 **Q. Got it. And why would you say there has
25 been -- you know, you mentioned the elite DSOs**

95

1 **them, but then you mentioned that that's not really
2 the case; is that right?**

3 A. Correct.

4 **Q. Can you explain that to me?**

5 A. So that's part of what we do with our
6 customers in the value proposition. So we just --
7 you know, we meet with our customers individually,
8 understand what their specific needs are; we have a
9 solution for them that can help them achieve their
10 hopes, dreams and goals.

11 So they don't -- just, you know, they
12 don't want to become a -- they don't want to sell
13 their practice, but in their mind they're thinking
14 that the elite segment is getting better pricing.
15 In reality what we can offer them as a single office
16 space practitioner is very competitive, but we can
17 work with them in a unique way to run a better
18 business because in their mind what's happening at
19 the elite is it's business-driven, and therefore
20 someone else is making decisions based on that, and
21 so they want to control their destiny in that
22 regard.

23 **Q. Okay. And you mentioned "in their mind" a
24 couple of times.**

25 **What's the basis of those statements that**

94

1 **acquiring some of the private practices and in
2 response some of the private practices are growing
3 themselves into larger groups.**

4 **Why -- what's your sense of why they're
5 doing that?**

6 MR. McDONALD: Object to the form, lack of
7 foundation.

8 THE WITNESS: We have as part -- it's
9 output of some of the meetings we have with our
10 other customers, you know. They want to remain
11 independent; they want to continue -- you know, they
12 love the practice of dentistry and what they're
13 doing. They believe -- the elite DSOs they believe
14 for some reason have some competitive advantages
15 over them, which they really don't, but they
16 believe; and so they're looking to compete with
17 those large groups but in a sense not have to --
18 they don't necessarily want to be -- they don't want
19 to sell their practice, so they're forming groups to
20 be more competitive in the marketplace themselves.

21 BY MS. KAHN:

22 **Q. You mentioned the elite DSOs -- strike
23 that.**

24 **You mentioned that some practices believe
25 the elite DSOs have a competitive advantage over**

96

1 **you made?**

2 A. It comes from input from the customers.

3 **Q. Okay. So is it fair to say that the
4 customers have told you or others at Schein that
5 they believe that the elite DSOs are getting better
6 pricing than they are?**

7 A. Yes, they have said that.

8 **Q. Anything else that goes into what you --
9 anything else that they've said to you that's along
10 the lines of what we're talking about?**

11 A. Those are the primary factors.

12 **Q. Why do you think it is that they believe
13 that the elite DSOs are getting better pricing than
14 they are?**

15 MR. McDONALD: Object to the form.

16 THE WITNESS: I think it's just a general
17 feeling that, you know, the larger, the more
18 business you can provide someone, the better pricing
19 you're going to get. That's not always the case,
20 but I think there's a general belief in the overall,
21 you know, marketplace, not just in dental.

22 BY MS. KAHN:

23 **Q. Would you say that the increase in the
24 number of DSOs has impacted Schein's business in any
25 way?**

97	<p>1 MR. McDONALD: Object to the form, vague.</p> <p>2 THE WITNESS: It's helped us -- we've</p> <p>3 focused on that segment, so it's helped us grow in</p> <p>4 the marketplace.</p> <p>5 BY MS. KAHN:</p> <p>6 Q. How so?</p> <p>7 A. We do business with a lot of the large</p> <p>8 elite DSOs that are in the market today.</p> <p>9 Q. How do Schein's margins compare for the</p> <p>10 elite DSOs versus the private practice dentists?</p> <p>11 MR. McDONALD: Object to the form.</p> <p>12 THE WITNESS: I'm not as close to the</p> <p>13 special markets on the elite side, so I don't get</p> <p>14 involved in the quotes, the pricing, or</p> <p>15 understanding what the individual margins are for</p> <p>16 accounts there.</p> <p>17 BY MS. KAHN:</p> <p>18 Q. Do you have any general sense of margins</p> <p>19 for special market accounts?</p> <p>20 MR. McDONALD: Object to the form. If you</p> <p>21 know, tell her, but don't speculate.</p> <p>22 THE WITNESS: So I don't know the exact</p> <p>23 number. I know generally they're lower than our</p> <p>24 private practice, but some of that is funded -- we</p> <p>25 get different pricing, so our suppliers also set up</p>	99	<p>1 MR. McDONALD: Object to the form.</p> <p>2 THE WITNESS: Sorry. No.</p> <p>3 BY MS. KAHN:</p> <p>4 Q. Has there been any downward pressure on</p> <p>5 Schein's margins as a result of the increase in</p> <p>6 larger groups and DSOs?</p> <p>7 MR. McDONALD: Object to the form, vague.</p> <p>8 THE WITNESS: Yes.</p> <p>9 BY MS. KAHN:</p> <p>10 Q. Can you explain that to me?</p> <p>11 A. The larger the groups get, the better</p> <p>12 pricing that they want.</p> <p>13 Q. And why is that?</p> <p>14 MR. McDONALD: Object to form.</p> <p>15 THE WITNESS: I think it's basic</p> <p>16 economics. I mean, they're looking for -- they're a</p> <p>17 large customer, you know, and they're expecting</p> <p>18 better pricing.</p> <p>19 BY MS. KAHN:</p> <p>20 Q. Is there a reason that the larger you are</p> <p>21 the better pricing you expect?</p> <p>22 MR. McDONALD: Object to the form.</p> <p>23 THE WITNESS: You'd have to ask them. I</p> <p>24 just -- that's their expectations.</p> <p>25</p>
98	<p>1 different pricing for large groups.</p> <p>2 And so we -- in many of those cases we</p> <p>3 work with our suppliers on specific pricing for an</p> <p>4 account, so we have a lower cost of goods for those</p> <p>5 and so there's a savings for the customer, and</p> <p>6 then that helps protects our margin on the special</p> <p>7 markets. But generally speaking, it is lower than</p> <p>8 where we are on the private practice side.</p> <p>9 BY MS. KAHN:</p> <p>10 Q. And what about comparing the mid-market to</p> <p>11 the private-practice segments, how do the margins</p> <p>12 compare for those two groups?</p> <p>13 A. Very similar.</p> <p>14 Q. Is one higher or lower by any point?</p> <p>15 A. It really varies by account.</p> <p>16 Q. Got it.</p> <p>17 A. But I would say overall very, very, very</p> <p>18 similar.</p> <p>19 Q. And earlier when you said the DSOs get a</p> <p>20 lower margin, you're talking gross margin?</p> <p>21 A. Correct.</p> <p>22 Q. Do you have any sense of net margin, how</p> <p>23 the net margin compares for the DSOs versus the</p> <p>24 private accounts?</p> <p>25 A. No.</p>	100	<p>1 BY MS. KAHN:</p> <p>2 Q. Would you agree that DSOs are able to</p> <p>3 command lower supply prices through aggressive</p> <p>4 procurement practices?</p> <p>5 MR. McDONALD: Object to the form, lack of</p> <p>6 foundation, vague.</p> <p>7 THE WITNESS: I don't know based on</p> <p>8 what -- they're expecting better prices based on</p> <p>9 their volume. I don't know if it's necessarily due</p> <p>10 to procurement or what. It's their volume.</p> <p>11 BY MS. KAHN:</p> <p>12 Q. Would you agree that corporate practices</p> <p>13 have a low demand for value-added services?</p> <p>14 MR. McDONALD: Object to the form --</p> <p>15 THE WITNESS: No.</p> <p>16 MR. McDONALD: -- overbroad.</p> <p>17 BY MS. KAHN:</p> <p>18 Q. You disagree with that?</p> <p>19 A. I disagree with that.</p> <p>20 Q. Can you explain why?</p> <p>21 A. I think everyone expects value-added</p> <p>22 services.</p> <p>23 MR. McDONALD: Can you just pause a</p> <p>24 second. I lost -- okay. I'm back.</p> <p>25</p>

101	<p>1 BY MS. KAHN:</p> <p>2 Q. Do you agree or disagree that DSOs care</p> <p>3 less about personal relationships with a rep?</p> <p>4 A. Yes.</p> <p>5 Q. You agree with that?</p> <p>6 A. With their sales -- with a sales</p> <p>7 representative, yes.</p> <p>8 Q. And why do you think that is?</p> <p>9 A. It's just based on their structure.</p> <p>10 Typically the owner of these large elite DSOs,</p> <p>11 they're -- in some cases, you know, it's someone</p> <p>12 from the VC firm themselves that is running it.</p> <p>13 It's a more business-savvy person, so in their mind</p> <p>14 they believe they know -- they say they can</p> <p>15 understand the business side, so that business</p> <p>16 solutions piece they're less interested in. But</p> <p>17 they still expect all of our other value-added</p> <p>18 services for service technicians and all the other</p> <p>19 things that we provide, practice management software</p> <p>20 services, but that segment of our offering they</p> <p>21 typically say thank you, you know, we've got it.</p> <p>22 Q. And the business solutions piece, remind</p> <p>23 me, is that the piece that you mentioned that no</p> <p>24 other competitor has in the market?</p> <p>25 A. Not the way -- correct, not the way we go</p>	103	<p>1 procedure as much as 25, 30 percent.</p> <p>2 Q. Has that been a development in the last</p> <p>3 five or ten years?</p> <p>4 A. Yes.</p> <p>5 Q. Can you specify a little bit more on when</p> <p>6 that started to be a real issue for private</p> <p>7 practices?</p> <p>8 A. I'd say it started around ten years ago.</p> <p>9 Q. And you also mentioned general economic</p> <p>10 conditions.</p> <p>11 What were you referring to there?</p> <p>12 A. Just the U.S. economy.</p> <p>13 Q. Any other pressures that you haven't</p> <p>14 mentioned?</p> <p>15 A. I'm sure if you show me a report I can</p> <p>16 tell you some more, but that's the top of mind right</p> <p>17 now.</p> <p>18 Q. Fair enough. Would you agree that</p> <p>19 various -- strike that.</p> <p>20 Would you agree that these pressure points</p> <p>21 that we've been talking about have caused private</p> <p>22 practices to seek ways to reduce their supply costs?</p> <p>23 A. Yes.</p> <p>24 Q. Would you say they seem to be more price</p> <p>25 conscious than ten years ago?</p>
102	<p>1 to market with it.</p> <p>2 Q. Got it.</p> <p>3 A. Many will claim they have some of these</p> <p>4 services but not in the way we package it all</p> <p>5 together.</p> <p>6 Q. Sure. In the last five or ten years, what</p> <p>7 types of pressure would you say private practices</p> <p>8 have faced that have sort of -- strike that. Let me</p> <p>9 ask that again.</p> <p>10 In the last five or ten years, what types</p> <p>11 of pressures have you seen on private practices'</p> <p>12 ability to thrive?</p> <p>13 A. Just general economic conditions; pricing</p> <p>14 from insurance companies, so their reimbursement per</p> <p>15 procedure, the pressures have been coming down.</p> <p>16 Again from the private practice</p> <p>17 perspective, the more -- the rise in, again, what</p> <p>18 they view as corporate dentistry, the DSO space,</p> <p>19 they view as a challenge for them to grow.</p> <p>20 Those are the top three that come to mind.</p> <p>21 Q. Can you explain the insurance pressures</p> <p>22 that you were just mentioning?</p> <p>23 A. Sure. Companies like Delta Dental have,</p> <p>24 you know, in certain states have just come across</p> <p>25 the board and cut what they reimburse for a certain</p>	104	<p>1 A. Yes.</p> <p>2 Q. And how have you seen that in your</p> <p>3 experience?</p> <p>4 A. We've just seen we've had to do more price</p> <p>5 matching, what we call price overrides and the</p> <p>6 things that remain, you know, to keep the business</p> <p>7 of our customer. And our first approach would not</p> <p>8 necessarily be just, you know, drop pricing. We</p> <p>9 want to make sure they understand the full value. A</p> <p>10 lot of times that is what's required, but it's just</p> <p>11 a general sense of, you know, price comes up more</p> <p>12 often in the discussion with customers.</p> <p>13 Q. In the last ten years than before?</p> <p>14 A. Yes.</p> <p>15 Q. You mentioned price overrides.</p> <p>16 What are those?</p> <p>17 A. So in our system, the catalog price, if we</p> <p>18 have to override the price that's already in the</p> <p>19 system.</p> <p>20 Q. To give a discount off of the catalog</p> <p>21 price?</p> <p>22 A. Correct.</p> <p>23 Q. Can you talk a little bit about the</p> <p>24 different pricing plans that Schein offers its</p> <p>25 customers?</p>

105	<p>1 MR. McDONALD: Object to the form, overly</p> <p>2 broad.</p> <p>3 THE WITNESS: Generally I can. I don't</p> <p>4 have any --</p> <p>5 BY MS. KAHN:</p> <p>6 Q. Sure.</p> <p>7 A. I don't have the specifics in front of me,</p> <p>8 but we have what we call VPAs, volume purchase</p> <p>9 agreements, and there's a set schedule on the level</p> <p>10 of the amount of business that they commit to</p> <p>11 Henry Schein that can increase or decrease the level</p> <p>12 of either rebate or discount that they get on their</p> <p>13 orders.</p> <p>14 Q. Do any customers pay the catalog price?</p> <p>15 A. Some. Very few.</p> <p>16 Q. So who are the customers? Just as a</p> <p>17 general matter, what's the segment that's paying the</p> <p>18 full catalog price?</p> <p>19 MR. McDONALD: Object to the form, vague.</p> <p>20 THE WITNESS: It's scattered throughout</p> <p>21 the pyramid.</p> <p>22 BY MS. KAHN:</p> <p>23 Q. Got it. The sales pyramid of the various</p> <p>24 customer segments?</p> <p>25 A. Correct.</p>	107	<p>1 A. Yes.</p> <p>2 Q. How would a dentist do that?</p> <p>3 A. Meet with their field sales consultant.</p> <p>4 Q. And are there -- is there training for the</p> <p>5 field sales consultants on when to give a discount</p> <p>6 just because a dentist is asking?</p> <p>7 A. No.</p> <p>8 Q. Do you have a general sense of under what</p> <p>9 circumstances a discount would be given?</p> <p>10 MR. McDONALD: Object to the form, overly</p> <p>11 broad.</p> <p>12 THE WITNESS: This is a</p> <p>13 relationship-driven business. It always has been;</p> <p>14 we believe it always will be. So we leave it in the</p> <p>15 hand of our sales rep, our sales team to set</p> <p>16 pricing. They're paid as a percentage of gross</p> <p>17 profit that's produced, and they can decide the mix</p> <p>18 with their customers.</p> <p>19 BY MS. KAHN:</p> <p>20 Q. Are you familiar with the G plan?</p> <p>21 A. Yes.</p> <p>22 Q. And the PG plan?</p> <p>23 A. Yes.</p> <p>24 Q. And the P plan?</p> <p>25 A. Yes.</p>
106	<p>1 Q. And why is it that those customers that</p> <p>2 are paying -- why is it that they're paying full</p> <p>3 catalog price but others in their same segment are</p> <p>4 not?</p> <p>5 MR. McDONALD: Object to the form, overly</p> <p>6 broad.</p> <p>7 THE WITNESS: Again, it goes back to</p> <p>8 volume that they're committing to us, and it might</p> <p>9 be, you know, you three could be different dentists,</p> <p>10 and you're paying catalog prices on gloves but</p> <p>11 you're not because gloves is really important to him</p> <p>12 but, you know, maybe impression material is more</p> <p>13 important to you, so it will be based on what your</p> <p>14 usage of products are.</p> <p>15 And so we really don't -- we don't go to</p> <p>16 the market with a cookie-cutter approach. It's very</p> <p>17 customized customer by customer based on their needs</p> <p>18 and based on what's important to them.</p> <p>19 BY MS. KAHN:</p> <p>20 Q. And the variations in pricing, is that</p> <p>21 solely based on volume purchased, or is it also --</p> <p>22 you know, you mentioned gloves may be important to</p> <p>23 me.</p> <p>24 Can I negotiate the pricing of gloves</p> <p>25 aside from just my volume commitment?</p>	108	<p>1 Q. Can you tell me what the G plan is?</p> <p>2 A. I can't tell you which one is special</p> <p>3 markets versus mid market, you know. They -- all</p> <p>4 alphabet soup for me, but they're specific, you</p> <p>5 know. Some include vendor chargebacks; one doesn't.</p> <p>6 So it's we share some of the -- actually</p> <p>7 we mimic some of the programs that our special</p> <p>8 markets elite team created and have offered that</p> <p>9 into the mid-market space as well, but I don't</p> <p>10 recall which one is P, which one is G and which one</p> <p>11 is PG.</p> <p>12 Q. Got it. You don't know what they stand</p> <p>13 for either?</p> <p>14 A. No.</p> <p>15 Q. Okay. Who would know about that?</p> <p>16 A. Primarily Joe and Jake have been working</p> <p>17 the closest with our special markets team on that.</p> <p>18 Q. Would Mr. Steck be familiar with these</p> <p>19 various plans?</p> <p>20 A. Yes, he would.</p> <p>21 Q. Okay. You mentioned vendor chargebacks.</p> <p>22 What is that?</p> <p>23 A. So when we -- that's what I was talking,</p> <p>24 referring to earlier. We get better pricing from</p> <p>25 our suppliers based upon certain customers. The way</p>

109	111
<p>1 that happens is we buy at the regular price, you 2 know. What's in our inventory is in our inventory; 3 we buy in bulk 60 days in advance. But if we commit 4 something to a certain customer, that volume gets a 5 discount. We don't re-order for that. They just 6 give a rebate, if you would, for that volume for 7 that specific customer.</p> <p>8 Q. And when you say "they," you're referring 9 to the manufacturer?</p> <p>10 A. Correct.</p> <p>11 Q. And special market customers qualify for 12 vendor chargebacks; is that right?</p> <p>13 A. Correct.</p> <p>14 Q. And I think you mentioned some DSOs within 15 mid market also qualify for vendor chargebacks?</p> <p>16 A. That's correct.</p> <p>17 Q. Which ones qualify versus those that 18 don't?</p> <p>19 A. It varies, and there's no set rule for it. 20 It's negotiated locally.</p> <p>21 Q. Okay. And who does the negotiating for 22 that?</p> <p>23 A. We have what we call regional account 24 managers that's part of the mid market team, and 25 depending on what pricing and requirements are</p>	<p>1 A. That's correct.</p> <p>2 Q. And in special markets there's a similar 3 manager that does something similar to that?</p> <p>4 A. It's a SAM, strategic account manager.</p> <p>5 Q. Okay. Are you familiar with the term 6 "free goods"?</p> <p>7 A. Uh-huh.</p> <p>8 Q. What does that refer to --</p> <p>9 A. Sorry, yes.</p> <p>10 Q. -- in the dental industry?</p> <p>11 MR. McDONALD: Did you get the question? 12 Ask your question again.</p> <p>13 BY MS. KAHN:</p> <p>14 Q. Are you familiar with the term "free 15 goods"?</p> <p>16 A. Yes.</p> <p>17 Q. What does that mean?</p> <p>18 A. So every now and then our suppliers will 19 run a promotion, buy three get one free, and so 20 that's considered the free good. It's in essence a 21 discount, but it's being done through, you know, 22 giving the customer product.</p> <p>23 Q. And do the free goods always come out of 24 the manufacturer's pocket, or does it ever come out 25 of Schein's pocket?</p>
110	112
<p>1 needed for a specific customer will determine which 2 of those acronym plans they qualify for and then if 3 it's needed to get a chargeback from a supplier or 4 not to get it.</p> <p>5 Q. Got it. And regional account managers, is 6 that R-A-M? Is that referred to as R-A-M?</p> <p>7 A. Yes, a RAM.</p> <p>8 Q. RAM. They're within mid market?</p> <p>9 A. Correct.</p> <p>10 Q. So mid market can negotiate vendor 11 chargebacks directly with the manufacturers?</p> <p>12 A. No, that is predetermined. So 3M, for 13 example, if they allow it, that's set. But it's not 14 necessarily every customer will qualify for it. 15 So 3M has to agree, oh, yes, this customer 16 will qualify for it; then they get it. It's not 17 like, well, one is going to get 2 percent, one is 18 going to get 3. Those -- at least as I understand 19 it, those are predetermined and set, and it's up to 20 our team, the RAM team to decide and work with 21 customers and then the suppliers on which accounts 22 can qualify for the lower pricing so that we can get 23 the chargeback from the supplier.</p> <p>24 Q. So the RAMs work both with the customer 25 and the vendors?</p>	<p>1 A. I believe it's -- primarily it's a 2 manufacture-driven program.</p> <p>3 Q. And are they shipped directly from the 4 manufacturers to the dentists?</p> <p>5 A. It will vary. Sometimes that's how it 6 works; sometimes it's out of our inventory.</p> <p>7 Q. If I'm a customer, how do I get free 8 goods?</p> <p>9 MR. McDONALD: Object to the form.</p> <p>10 THE WITNESS: Well, it's up to the field 11 sales consultant working with the manufacturer's 12 rep, you know. Usually those type of programs are a 13 30-day or a 60-day, you know, marketing program that 14 our manufacturers come up with. 15 So the customer might get it because I've 16 walked through the door and talked to them about it. 17 They might -- maybe the manufacturer, it's online; 18 they see it that way.</p> <p>19 And then, again, depending on which 20 program, sometimes the free good comes directly from 21 the manufacturer. Sometimes it comes out of our 22 inventory, so we will ship them the four even though 23 they bought three.</p> <p>24 BY MS. KAHN:</p> <p>25 Q. The G plan, the PG plan and the P plan,</p>

113

115

1 **how do those relate to the catalog price, if you**
 2 **know?**
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: I don't know. I don't
 5 recall.
 6 BY MS. KAHN:
 7 **Q. And are you familiar with within the P**
 8 **plan P10, P15, P20, what those are?**
 9 A. I believe that would be one is 10 percent,
 10 it's 15, and one is 20 percent discount.
 11 **Q. 10 percent discount off of the P plan**
 12 **pricing?**
 13 MR. McDONALD: Object to the form.
 14 Don't speculate. Only if you know.
 15 THE WITNESS: Sorry, I don't know exactly.
 16 BY MS. KAHN:
 17 **Q. Okay. No problem.**
 18 **Are you familiar with the term "buying**
 19 **group"?**
 20 A. I am.
 21 **Q. What does that term mean to you?**
 22 A. It's a group of customers that will get
 23 together and form a group however they refer to
 24 themselves as to negotiate with their larger volume.
 25 **Q. In order to get better pricing?**

1 **Q. The group decides which distributor to**
 2 **work with?**
 3 A. I'm sorry. First off, there are no GPOs
 4 that I'm aware of in the dental community, so I have
 5 not worked directly with them. That's my
 6 understanding how they work. And once they get the
 7 pricing from the manufacturer, then they'll go to
 8 the dealers or whatever their suppliers are in those
 9 segments and to see if the supplier will honor those
 10 pricing.
 11 **Q. And you said historically -- strike that.**
 12 **Historically have you used the terms**
 13 **"buying group" and "GPOs" interchangeably?**
 14 A. Yes, we have.
 15 **Q. And when you say "we," are you just**
 16 **referring to Schein generally?**
 17 A. Yes.
 18 **Q. Are there any other terms that Schein has**
 19 **used interchangeably for buying groups and GPOs?**
 20 A. Not that come to mind right now.
 21 **Q. What about a "buying co-op" or a "buying**
 22 **cooperative," what does that term mean to you?**
 23 A. I think it's similar to a buying group.
 24 **Q. Okay. Have you heard of a buying club?**
 25 A. Just interchangeably with a buying group.

114

116

1 A. Correct, and in some cases about pricing;
 2 some cases they're doing more for the group. It
 3 could be to get better insurance rates; it could be
 4 an overall better cell phone plan.
 5 There's various groups do completely
 6 different things. If you've seen one buying group,
 7 you've seen one buying group.
 8 **Q. Are you familiar with the term "group**
 9 **purchasing organization"?**
 10 A. I am.
 11 **Q. Is that also referred to as GPO?**
 12 A. Yes.
 13 **Q. And what is that? What does that term**
 14 **mean to you?**
 15 A. So unfortunately historically we've
 16 intertwined the terms, so I've learned a lot more in
 17 the last couple years about it.
 18 GPOs are different than buying groups.
 19 GPOs are those that negotiate directly with the
 20 manufacturers on pricing, so they become an
 21 intermediary between us and the customer; and that
 22 pricing is set then by the manufacturer with that
 23 group. And then the group then, you know, decides,
 24 you know, what dealer they want to work with and
 25 provide that pricing through.

1 I don't know if -- there's this thing called study
 2 clubs that in essence try to do the same thing as,
 3 you know, a buying group.
 4 **Q. You mentioned that in the last few years**
 5 **you've learned more about what GPOs are; is that**
 6 **right?**
 7 A. Yes.
 8 **Q. How have you come to learn about that?**
 9 A. Just because we've intertwined the terms
 10 so much and in working with some of our folks on the
 11 medical side where their GPOs are more prevalent,
 12 you know, and then understanding from them then what
 13 a GPO is versus what we see more prevalent in the
 14 dental space is more on buying groups.
 15 **Q. And did you have meetings with the medical**
 16 **side specifically about GPOs?**
 17 A. Not specifically about that, but it's come
 18 up in meetings, yes.
 19 **Q. And what type of meetings?**
 20 A. As I mentioned earlier, Dave McKinley, the
 21 president of our medical division, he was at the
 22 time, he hasn't in the last year or so, so I'd see
 23 him from time to time. We'd be in meetings, and he
 24 would raise, you know, the fact that the GPOs in
 25 medical are interested in working with our dental

117

119

1 group as well, and that's it. And I'd ask him what
2 that means, and I learned more about that through
3 Dave.
4 **Q. Do you have a sense of when you first**
5 **recall Mr. McKinley mentioning that the GPOs on the**
6 **medical side are interested in working in the dental**
7 **space?**
8 A. It's been in the last three to five years.
9 **Q. And has Schein Dental done anything with**
10 **Mr. McKinley with respect to those GPOs that are**
11 **interested in moving over to dental?**
12 A. No.
13 MR. McDONALD: Object to the form.
14 THE WITNESS: Sorry. No.
15 BY MS. KAHN:
16 **Q. And do you know which GPOs specifically?**
17 A. No.
18 **Q. Did Mr. McKinley say that certain medical**
19 **GPOs are interested in working with Schein Dental?**
20 A. They wanted to meet with us on the dental
21 side to gauge our interest.
22 **Q. And did those meetings take place?**
23 A. No.
24 **Q. Why not?**
25 A. I'm not interested in working with GPOs.

1 MR. McDONALD: Object to the form.
2 THE WITNESS: So price is a component of
3 value, and if that's taken out solely, we think that
4 that does not represent appropriately the total
5 value proposition that we bring to a customer.
6 Price is a component.
7 So we want to talk to our customer about
8 price, about what's going on in the practice,
9 business solutions for them, does CAD/CAM make sense
10 for their practice, going 2D/3D, do they want to add
11 another room, are they interested in another
12 location. All of that comes into the value
13 proposition that we meet with our customers about.
14 BY MS. KAHN:
15 **Q. And am I correct to understand you to say**
16 **that if GPOs are placed in between Schein and a**
17 **customer that the GPO would or could solely want to**
18 **talk about price with Schein rather than all of**
19 **these other services and value that Schein brings to**
20 **a customer?**
21 MR. McDONALD: Object to the form,
22 misstated his testimony.
23 THE WITNESS: What I was -- again, I
24 wouldn't put it that way, all right. I would go
25 back to what I said before. Price is a component of

118

120

1 **Q. Has that always been the case?**
2 A. To date, yes.
3 **Q. Why not? Why are you not interested in**
4 **working with GPOs?**
5 A. I view them as an intermediary somewhere
6 between us and our customers, and I want to always
7 have that direct relationship and communication and
8 contact with our customers. I'm not interested in
9 having anyone come between us and our customers.
10 **Q. Why does having an intermediary -- why do**
11 **you see that as a bad thing for you?**
12 A. I didn't say it was necessarily a bad
13 thing. I was saying it's not -- from what I know
14 about them, it's not something I'm interested in.
15 **Q. And why not?**
16 A. Again, I don't want anyone, another
17 intermediary between us and a customer. We will
18 work with our customers directly on their specific
19 issues within their practice and where price comes
20 into that overall proposition. We want to determine
21 that, not another party.
22 **Q. I see. So I'm just trying to understand.**
23 **You don't want the GPO to determine**
24 **pricing. You want to have a direct conversation**
25 **with the customers about pricing?**

1 value. We don't want that -- you know, I wouldn't
2 want one of our manufacturers to meet with the
3 customer specifically and only talk about CAD/CAM
4 and then have the manufacturer work with our
5 customer on here is what we will sell you the
6 CAD/CAM for. We have to do the service and
7 installation. So it's a component of everything and
8 all the value that we provide.
9 So I don't want an intermediary between
10 our company and our customers.
11 BY MS. KAHN:
12 **Q. Right. And I'm trying to understand why**
13 **you don't want an intermediary, and I'm trying to**
14 **understand -- strike that.**
15 **I'm trying to understand why you would not**
16 **want an intermediary between you and the customer.**
17 **And are you saying that an intermediary could**
18 **potentially just focus on one aspect of the entire**
19 **Schein value such as price and you wouldn't want to**
20 **talk about just one aspect, you want to talk about**
21 **the entire wheel with a customer?**
22 MR. McDONALD: Object to the form.
23 THE WITNESS: I don't know how else to
24 answer it than what I did. So I don't want to say
25 it the way you say. You said are you saying this;

30 (Pages 117 to 120)

121	123
<p>1 no, I'm not saying this. I didn't say that. No, 2 no, I understand. I'm not trying to be picky 3 either. 4 Price is a component of our overall value 5 proposition, and our overall value proposition has a 6 lot of components to it, and we believe it's best 7 presented to a customer. We think it's actually 8 best for our customer if they understand the full 9 offering. And price is one; we're going to work 10 with them on price. But they need to understand 11 everything. 12 And if a piece of that is being discussed 13 by someone else, they're not going to present it in 14 a way that we would present it to understand the 15 full offering. 16 BY MS. KAHN: 17 Q. And that someone else you're referring to 18 is a GPO potentially? 19 A. In this instance, yes. 20 Q. And, you know, I was asking you earlier 21 about why you would not want an intermediary between 22 you and the customer, and you brought up price. 23 I'm just curious if you see GPOs as 24 wanting -- as being more focused on price alone 25 rather than the entire wheel.</p>	<p>1 market? 2 A. Yes. 3 Q. Can a buying group refer to a state dental 4 association that sets up a buying program for its 5 members? 6 MR. McDONALD: Object to the form. 7 THE WITNESS: Well, so historically the 8 state associations, their members are dentists who 9 are our customers, and the state associations have 10 always been this middle neutral party. We work 11 directly with the state associations in a 12 significant way. But recently some of them have 13 looked to add services such as buying group type 14 aspects. 15 So not all state associations are doing 16 that, but some are, yes. 17 BY MS. KAHN: 18 Q. How does Schein distinguish between a 19 buying group and a large group account such as a 20 DSO? 21 A. So it's primarily based on ownership. So, 22 for example, Heartland Dental, Aspen Dental, some of 23 these large, elite DSOs, they own all the locations 24 that they have. So they've got 2, 3, 4, 500 25 locations; they own those. And, therefore, they can</p>
122	124
<p>1 A. So I have not met with the GPOs, so I 2 don't know that to be the case, but we would -- I 3 have nothing else to add, sorry. 4 Q. I'm just curious why you brought up price. 5 I didn't ask you about price, and you brought up 6 price when we were discussing why you wouldn't want 7 an intermediary between Schein and the customer. 8 A. Well, I thought I said prior to that what 9 I understand about GPOs is they work directly with 10 manufacturers on their group and the prices and the 11 prices that a manufacturer will set with that group, 12 so that came up before that. 13 Q. Got it. 14 A. And that's how it fits into the overall 15 value proposition. 16 Q. Okay. Thank you for that. 17 A. Sure. 18 Q. You said you haven't met with any GPOs, 19 right? 20 A. Correct. 21 Q. Okay. Going back to -- strike that. 22 You said there are no GPOs in the dental 23 market today. Is that what you said? 24 A. None that I'm aware of. 25 Q. But there are buying groups in the dental</p>	<p>1 and do negotiate with us on overall volume, and no 2 decisions are made, you know, locally. 3 Typically buying groups are not owned 4 anywhere. They're just, you know, member dentists 5 from across the country. It could be four people in 6 that building right there. But they make their own 7 purchasing decisions; they still require a field 8 sales consultant calling on them. 9 So the buying group itself, there's no 10 mandate that once they're a member of this group you 11 have to now buy on what we've negotiated with 12 fill-in-the-blank dealer name. 13 Q. Is it fair to say that Schein would talk 14 to the group to figure out whether they're a buying 15 group or a corporate account DSO? 16 A. Yes. 17 Q. Do you recall when you first became aware 18 of dental buying groups? 19 A. I started in the industry 28 years ago, 20 and they were around then. 21 Q. 28 years ago? 22 A. Yes. 23 Q. Is that how long you've been -- okay. I 24 was wondering why it was so specific. 25 A. Yeah.</p>

125

127

1 **Q. What do you recall about when you first**
2 **started learning about dental buying groups?**

3 A. They were primarily study clubs, so, you
4 know, I'm from Milwaukee so I'll just pick, you
5 know. There's a Milwaukee study club of five or ten
6 dentists, and they get together monthly or
7 quarterly. I don't know how often they get
8 together. Sometimes it's a golf outing. They get
9 together and talk about the practice of dentistry,
10 and we might go present to them, you know. They
11 invite us in to talk to their group. And then at
12 some point they'd say, oh, by the way, we will
13 commit all of our purchases to us if you give us ten
14 dentists a better price. And, you know, it never
15 follows because each person in that room has a
16 relationship whoever they have a relationship with,
17 and, you know, the buying group has really never
18 worked with the intention that they were -- you
19 know, that they bring us this additional volume.

20 **Q. When you said Schein would go in and**
21 **present, you're talking about as part of some sort**
22 **of continuing education for the study club, not for**
23 **the buying group component?**

24 A. Correct.

25 **Q. And I take it from your answer from time**

1 profitability, I'm sorry.

2 BY MS. KAHN:

3 **Q. And one way that dentists are looking to**
4 **do that is to join a buying group to try to get**
5 **savings through the supplies?**

6 A. Correct.

7 **Q. In the last ten years, when a buying group**
8 **approaches Schein, do you know who those**
9 **communications typically go to?**

10 MR. McDONALD: Object to the form, overly
11 broad.

12 THE WITNESS: It really depends on the
13 size. So if it's something like I mentioned before,
14 ten dentists around Milwaukee, our regional manager
15 is going to meet with them and decide if he wants to
16 put something together or not. We typically have
17 stayed away just because we have learned
18 historically that the volume never follows and then
19 we really have no control; there's no mandate.
20 There's nothing more than I'll call it just the
21 buying group.

22 The larger they become, the more across
23 state lines, across regions as we've set them up,
24 then our zone managers, Jake or Joe, are more likely
25 to get involved.

126

128

1 **to time buying groups have approached Schein to see**
2 **if Schein would be interested in being a supplier?**

3 A. Correct.

4 **Q. Has the frequency of buying clubs --**
5 **strike that.**

6 **Has the frequency of buying groups**
7 **approaching Schein increased in the last five or ten**
8 **years?**

9 A. Yes.

10 **Q. And can you be a little bit more specific?**
11 **Is it ten years? Is it five years?**

12 MR. McDONALD: Object to the form.

13 THE WITNESS: The last ten years, but it
14 has definitely increased significantly in the last
15 five years.

16 BY MS. KAHN:

17 **Q. Why do you think that's the case?**

18 MR. McDONALD: Object to the form, lack of
19 foundation.

20 THE WITNESS: Going back to the pressures
21 that dentistry is under. As I mentioned before, the
22 rate, the reimbursement rate per procedure has come
23 down, general economics, and they're looking to
24 figure out how do they continue to earn more and
25 increase their revenues -- or increase their

1 BY MS. KAHN:

2 **Q. When you said "we typically have stayed**
3 **away," you're saying that Schein has typically**
4 **stayed away from buying groups?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: So I say typically because
7 we have some relationships with some buying groups,
8 and it will depend on how they're structured. And
9 if we believe that the, you know, volume of
10 purchases that they say that they can bring to us
11 they can actually follow through with will determine
12 whether or not we will, you know, try -- you know,
13 we will work with them.

14 BY MS. KAHN:

15 **Q. So is it fair to say that some buying**
16 **groups have committed to a certain volume? Is that**
17 **fair to say?**

18 A. Yes.

19 **Q. What buying groups are those?**

20 MR. McDONALD: Object to the form.

21 THE WITNESS: You know, I don't know the
22 names off the top of my head. So there's -- just in
23 general the ones that have committed to --
24 Smile Source is one example. It's one that we've
25 recently worked with. We worked with them in the

129

1 early 2000s, and we realized during that period of
2 time that their members that they had at that time
3 really weren't -- there was no real incremental
4 volume that followed along once we put together a
5 program with them, and we mutually parted ways, and
6 they decided to work with another dealer. And part
7 of it was because they were just looking for bigger
8 discounts, and we said, well, the volume hasn't come
9 to warrant it.

10 They've changed their leadership there.
11 We've met with them in the last several years, and
12 we just recently became, you know, one of their key
13 suppliers, not sole, not exclusive, but, you know,
14 one of their key suppliers, and we just -- they have
15 changed their structure and their value proposition
16 to their members. Their members have now grown.
17 Their members have re-upped to be multiple-year
18 members of their group, and the statistics that they
19 showed us were that their members actually buy from
20 their suppliers that they have relationships with.

21 So we said in that case, on a multitude of
22 other factors, based on that, you know, we'd like to
23 join.

24 BY MS. KAHN:

25 **Q. You mentioned that they changed their**

130

1 **structure, Smile Source.**

2 A. Yes.

3 **Q. What are you referring to when you say**
4 **that?**

5 A. I should say they changed their value
6 proposition to their members.

7 **Q. How so?**

8 A. They have now monthly meetings. They have
9 someone locally in each of their markets. They get
10 their members together and chat. They, you know,
11 have offers with labs so that, you know, they can
12 get a better value and service from -- if they use
13 the labs that they negotiated with.

14 So they've offered more services than just
15 simply join, you can get better pricing on supplies.
16 There's other things they do for the members'
17 practices.

18 **Q. Do these value propositions -- strike**
19 **that.**

20 **How long have these value propositions**
21 **been in place for Smile Source members?**

22 MR. McDONALD: Object to the form, lack of
23 foundation.

24 THE WITNESS: Yeah, just based on what
25 they've told us, you know, in the last four years is

131

1 when they've really changed their structure or value
2 proposition.

3 BY MS. KAHN:

4 **Q. And I take it that Schein sees it as a**
5 **positive that Smile Source has these added value**
6 **propositions; is that right?**

7 A. Yes, because part of our -- their offering
8 matches more our entire practice care wheel as well.
9 And so, you know, on the business solutions side
10 they are very focused on helping their members grow
11 their practice. That aligns exactly with our
12 mission statement.

13 And so our missions and our purposes for
14 their members which are our customers are aligned,
15 and, therefore, we're going -- we're approaching
16 their members and our customers in a very similar
17 way with a similar story.

18 **Q. Okay. And is Schein offering sort of the**
19 **same services that Smile Source is offering its**
20 **members?**

21 A. Some. So there's no competing service,
22 but the members can choose, you know, if they want
23 to use one of our business solutions or one that
24 they get, you know, directly from Smile Source. But
25 they're aligned in the intent and the goal of, you

132

1 know, what is important to that individual member.

2 **Q. Okay. And how does that alignment -- why**
3 **is that alignment a good thing?**

4 A. It's our -- it aligns with what our
5 strategic plan is and our go-to-market strategy with
6 our customers and here's a group that has the same
7 vision for their members. And price is a component
8 of their value. A member stays and joins
9 Smile Source, and price and supplies is a component
10 of why they joined because they pay I think it's
11 3 percent of their revenue to be a member of
12 Smile Source. If they're a million-dollar practice,
13 that's \$30,000 they pay into Smile Source to be a
14 member. They're doing it for more than a discount
15 on supplies. There's other values that they're
16 getting.

17 **Q. You mentioned that Smile Source showed you**
18 **statistics?**

19 A. Yes.

20 **Q. What are you referring to there?**

21 A. They showed us --

22 MR. McDONALD: Object to the form. And I
23 don't know if you have a nondisclosure with them or
24 not, but if you do, then we should talk before you
25 start disclosing what they told you.

133

1 THE WITNESS: So we do. So I apologize, I
2 didn't know. I was in this environment it would
3 be -- that would come out.

4 MR. McDONALD: I don't want you to
5 disclose stuff that you've been instructed by
6 Smile Source to not reveal without us talking about
7 it.

8 BY MS. KAHN:

9 **Q. Is there any privileged information?**

10 MR. McDONALD: I don't care, Lin. If he
11 has got a nondisclosure agreement, the last thing I
12 want to do is get in a lawsuit with Smile Source
13 because he has revealed stuff to you that he has
14 been told not to. And I don't think you're asking
15 him to do that.

16 He can generally answer the question, but
17 I don't want him to give you specifics that are
18 protected from disclosure by a nondisclosure
19 agreement without he and I having a chance to visit
20 and me understanding the circumstances.

21 BY MS. KAHN:

22 **Q. Okay. Can you still answer my question,
23 please? Is there -- were you going to disclose
24 privileged information in response to my question?**

25 A. I don't know. This one particular

134

1 statistic about the number of their members that
2 recommit and rejoin their member every single year,
3 I don't know if that would be something that they
4 would consider privileged. For sure pricing, you
5 know, whatever discounts that they're getting, so
6 that for sure would be part of their nondisclosure.
7 I don't know if this statistic that I was about
8 to -- I don't know if it's important, quite
9 honestly, it was to us, but I don't know if it's a
10 statistic that he would -- that they would consider
11 confidential.

12 **Q. Sure. And aside from the nondisclosure
13 agreement, I'm trying to understand if there was
14 some attorney/client privilege that covers what you
15 were going to testify to --**

16 A. I don't know.

17 **Q. -- that you know of.**

18 A. I don't know.

19 **Q. You're not aware of any --**

20 A. I'm not.

21 **Q. -- any attorneys being involved?**

22 A. Attorneys were absolutely involved --

23 **Q. In the statistics that I'm asking about.**

24 A. -- in the contract that we signed with
25 them, including mutual nondisclosure agreements.

135

1 **Q. Sure.**

2 A. Absolutely they were involved.

3 **Q. So my question goes back to the statistics
4 that you're referring to.**

5 **Is there any attorney/client
6 communications specifically related to the
7 statistics?**

8 A. That is the piece I'm saying I don't know.

9 **Q. You don't know. You're not aware of any
10 attorneys being involved?**

11 MR. McDONALD: He just told you he doesn't
12 know.

13 THE WITNESS: I don't know if the
14 statistic I was about to give you would fall under
15 the NDA.

16 BY MS. KAHN:

17 **Q. Okay. And, you know, specifics aside of
18 the number that you were going to I guess share with
19 us, the statistics that you're referring to is
20 members purchasing through Smile Source vendors; is
21 that right?**

22 A. Correct.

23 **Q. And based on that statistic in part Schein
24 decided to enter into a deal with Smile Source; is
25 that right?**

136

1 A. That's correct.

2 **Q. Is there any level of commitment by
3 Smile Source members to purchase through Schein?**

4 A. Not the -- excuse me, not the
5 individual -- I'm sorry, I don't know on the
6 individual member basis. I believe there is a
7 minimum threshold that we have for them also, but in
8 total there are targets that we have with
9 Smile Source that impacts the financial arrangement
10 that we have with them.

11 **Q. Is it fair to say that the more -- the
12 higher the target that they hit the better the
13 pricing that they get?**

14 A. Not the individual dentists but the
15 administration fee that goes back to Smile Source.

16 **Q. Got it. The individual dentist pricing
17 does not change regardless of purchase volume?**

18 A. That's correct.

19 **Q. In the last five to ten years, have you
20 been personally involved in discussions within
21 Schein about buying groups?**

22 A. Yes.

23 **Q. And has the frequency of those discussions
24 increased over time?**

25 A. Yes.

137

1 **Q. Can you tell me generally how these**
 2 **discussions come about?**
 3 MR. McDONALD: Object to the form, overly
 4 broad, vague.
 5 THE WITNESS: Generally usually it comes
 6 up from the field in some way.
 7 BY MS. KAHN:
 8 **Q. How so?**
 9 A. From a regional manager that might have
 10 been approached by someone locally to one of our
 11 zone or area VPs.
 12 **Q. And then eventually you get involved?**
 13 A. Not in all cases, no.
 14 **Q. And how often have you been involved?**
 15 A. I don't have a number. Several times a
 16 year.
 17 **Q. And is there a group of individuals at**
 18 **Henry Schein corporate that's typically involved in**
 19 **discussions about buying groups if that topic comes**
 20 **up?**
 21 MR. McDONALD: Object to the form.
 22 THE WITNESS: So Henry Schein Dental
 23 corporate?
 24 BY MS. KAHN:
 25 **Q. Yes.**

138

1 A. Yes.
 2 **Q. And who are those individuals?**
 3 A. Well, it depends. Again it's
 4 account-specific. It really depends on the size.
 5 It could be local; we're not involved. The bigger
 6 they get, as I mentioned before, then up to Jake and
 7 Joe to maybe even Dave and myself. And I know
 8 Smile Source I was involved with. That's the only
 9 one I've been directly involved with in a number of
 10 years.
 11 **Q. When there have been discussions about**
 12 **buying groups, what is typically discussed about**
 13 **them?**
 14 MR. McDONALD: Object to the form, overly
 15 broad.
 16 THE WITNESS: The structure, as I
 17 mentioned before, so how are they structured, do
 18 they -- is it mandated they have to, you know, buy
 19 from the suppliers that partner, how they're
 20 structured, you know, do they own the practices or
 21 not.
 22 BY MS. KAHN:
 23 **Q. If a buying group does not mandate**
 24 **purchases through the buying group, is it fair to**
 25 **say that Schein's practice has been to decline those**

139

1 **buying groups?**
 2 MR. McDONALD: Object to the form, overly
 3 broad.
 4 THE WITNESS: Generally speaking, yes.
 5 BY MS. KAHN:
 6 **Q. And is it fair to say that if there's no**
 7 **common ownership Schein's practice has been to**
 8 **decline those groups?**
 9 MR. McDONALD: Object to the form, overly
 10 broad.
 11 THE WITNESS: Generally speaking, yes.
 12 BY MS. KAHN:
 13 **Q. Whose decision -- strike that.**
 14 **Would you say that there's a general**
 15 **company policy to not work with buying groups that**
 16 **cannot mandate purchases through the group?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: I wouldn't call it a policy,
 19 per se. I mean, there's no written memo: Here's a
 20 policy on buying groups. But we have a general
 21 practice as you just outlined in your prior
 22 questions.
 23 BY MS. KAHN:
 24 **Q. And who set those general practices?**
 25 MR. McDONALD: Object to the form.

140

1 THE WITNESS: In many cases ultimately I
 2 have, but we determined -- that's based on input
 3 from a multitude of executives.
 4 BY MS. KAHN:
 5 **Q. Have you ever looked specifically into**
 6 **what buying groups offer dental practices?**
 7 A. Well, again, it depends on -- you know,
 8 you've seen one buying group, you've seen one buying
 9 group. So it really depends on the individual
 10 buying group.
 11 **Q. Can you give me some examples of what**
 12 **buying groups offer dentists?**
 13 MR. McDONALD: Object to the form, overly
 14 broad.
 15 THE WITNESS: So back to Smile Source.
 16 They offer business solutions for them. They might
 17 offer, you know, overall combined insurance rates
 18 for them. They might try to combine cell phone.
 19 Anything -- you know, anything that might be helpful
 20 to the profitability of a practice, some buying
 21 groups get involved with that. Some talk that way
 22 but don't actually really do it. And several are
 23 just simply saying let's all get together and try to
 24 get a better price because we're a group.
 25

35 (Pages 137 to 140)

141

1 BY MS. KAHN:

2 **Q. Do you have a general understanding --**
3 **strike that.**

4 **Has Schein conducted any sort of analysis**
5 **of buying group pricing as compared to Schein's**
6 **pricing?**

7 MR. McDONALD: Object to the form.

8 THE WITNESS: Not that I'm aware of.

9 BY MS. KAHN:

10 **Q. Who is Brian Brady?**

11 A. He is our director of group practices
12 or -- I think that's his title. He's responsible
13 for the mid-market segment.

14 **Q. And at some point did he get involved with**
15 **buying groups?**

16 A. Yes.

17 **Q. And when was that?**

18 A. In the last two to three years, maybe
19 sooner. I don't know, but it's more prevalent in
20 the last couple of years.

21 **Q. Do you recall him doing an analysis of**
22 **existing buying groups in the dental space?**

23 MR. McDONALD: Object to the form, vague.

24 THE WITNESS: I recall him doing it, but I
25 don't recall the specifics of the report, no.

143

1 pricing program with us. If only ten of them are,
2 then the opportunity to grow our business with the
3 other 40, that's more appealing.

4 **Q. Have you ever characterized buying groups**
5 **as a threat to Schein?**

6 A. Yes.

7 **Q. And can you explain why?**

8 A. For the purposes of what I just outlined.
9 If a group of dentists do come together and let's
10 say 40 of those 50 are good customers of ours, and
11 we decide, well, we don't want to work with the
12 buying group, we already have the business, and now
13 the buying group aligns with someone else and the
14 business actually does flow, then we'd lose the
15 business of our 40 good customers.

16 **Q. Any other reasons that you would**
17 **characterize buying groups as a threat?**

18 MR. McDONALD: Object to the form.

19 THE WITNESS: That's the primary concern
20 is, you know, the amount of business we already have
21 with the customers that are in the group.

22 BY MS. KAHN:

23 **Q. Would you -- have you ever seen buying**
24 **groups as a threat to the dental industry as a**
25 **whole?**

142

1 BY MS. KAHN:

2 **Q. Do you view selling to buying groups as a**
3 **good business opportunity for Schein?**

4 MR. McDONALD: Object to the form, vague.

5 THE WITNESS: It can be.

6 BY MS. KAHN:

7 **Q. Can you just tell me again under what**
8 **circumstances it can be?**

9 A. Under the circumstances I've been talking
10 about. So if they commit to the volume, they
11 mandated that they buy, the volume actually follows;
12 and there's incremental opportunity for us within
13 the group. We will work with them.

14 If it's owned, it's a much simpler
15 decision at the various locations. If it's just
16 members, it would be repeating everything I said in
17 the last 15 minutes on the subject.

18 **Q. You mentioned incremental opportunity.**
19 **What do you mean by that?**

20 A. So we will -- part of what we will
21 analyze, if there's, let's say, 50 dentists in this
22 group, we will ask for a list of those customers,
23 not what they do but where they're located; and we
24 can analyze if 40 of them are already Privileges
25 customers of ours, they're already in some type of

144

1 A. Again, it could be a threat but they could
2 also be an opportunity. So they really could fall
3 in both, both, you know, squares of a SWOT analysis.

4 **Q. Let me just ask my question.**

5 **Have you ever seen buying groups as a**
6 **threat to the dental industry as a whole?**

7 MR. McDONALD: Object to the form.

8 BY MS. KAHN:

9 **Q. Aside from losing, you know, the customers**
10 **to another dealer.**

11 MR. McDONALD: Object to the form.

12 THE WITNESS: I only recall thinking of
13 them how they would have impacted under Schein. I
14 don't -- I haven't thought about what the industry
15 impact would be.

16 MS. KAHN: Now is a good time for a break
17 actually.

18 THE WITNESS: Sure.

19 MS. KAHN: Go off the record.

20 (Whereupon, a recess was taken
21 from 10:37 a.m. to 10:55 a.m.)

22 BY MS. KAHN:

23 **Q. I want to go back to Smile Source we were**
24 **talking about earlier.**

25 **Did you say that they, Smile Source, did**

145	<p>1 not commit to a volume?</p> <p>2 A. They have stated their members are</p> <p>3 mandated to purchase through their agreed-to</p> <p>4 channels; and if they don't, they put their</p> <p>5 membership at risk.</p> <p>6 Q. Got it. So Smile Source to your</p> <p>7 understanding monitors members' purchases?</p> <p>8 A. That's correct.</p> <p>9 Q. And your understanding is per</p> <p>10 Smile Source's agreements with its members that</p> <p>11 those members are obligated to purchase through the</p> <p>12 Smile Source vendors; is that right?</p> <p>13 A. That's correct.</p> <p>14 Q. And if the members don't, then the members</p> <p>15 could lose their membership with Smile Source?</p> <p>16 A. That's my understanding.</p> <p>17 Q. And what is that understanding based on?</p> <p>18 A. Discussions with Trevor Maurer, who is</p> <p>19 their president and CEO.</p> <p>20 Q. Have you reviewed their customer</p> <p>21 contracts?</p> <p>22 A. I have not.</p> <p>23 Q. Or rather member contracts I should say.</p> <p>24 A. I have not.</p> <p>25 Q. Have you seen other buying groups in the</p>	147	<p>1 buying group that does not offer any value-added</p> <p>2 services but is able to commit their members'</p> <p>3 volume?</p> <p>4 A. Let's say this: The market has been</p> <p>5 evolving. The market is evolving continuously and</p> <p>6 particularly in this space, so we have worked with</p> <p>7 buying groups in the past; we will work with buying</p> <p>8 groups going forward.</p> <p>9 So generally speaking there's -- there are</p> <p>10 a multitude of factors that we will consider whether</p> <p>11 or not we decide to work with a buying group. One</p> <p>12 of them will be what you just outlined, you know,</p> <p>13 will the volume actually follow. That's an</p> <p>14 important factor.</p> <p>15 Q. So even if a buying group doesn't have the</p> <p>16 value-added components that we talked about earlier,</p> <p>17 Schein would still be interested as long as the</p> <p>18 buying group is able to commit volume?</p> <p>19 MR. McDONALD: Object to the form.</p> <p>20 THE WITNESS: Yeah, I'd be speculating. I</p> <p>21 don't know. It's possible.</p> <p>22 BY MS. KAHN:</p> <p>23 Q. What's your sense sitting here today of</p> <p>24 what Schein would be interested in dealing with?</p> <p>25 MR. McDONALD: Object to the form, overly</p>
146	<p>1 dental industry that have done something similar</p> <p>2 where they mandated purchase through the buying</p> <p>3 group vendor?</p> <p>4 A. The closest time is on the Smile Source</p> <p>5 one. I've heard of others, but I don't know</p> <p>6 specifically.</p> <p>7 Q. So does anything come to mind when you say</p> <p>8 you've heard of others?</p> <p>9 A. No.</p> <p>10 Q. But you're saying you are aware of other</p> <p>11 buying groups who have similarly mandated purchases</p> <p>12 through the buying group members?</p> <p>13 A. That's my understanding.</p> <p>14 Q. And do you know if Schein has worked with</p> <p>15 those buying groups?</p> <p>16 A. I believe so, yes.</p> <p>17 Q. And you don't have any names?</p> <p>18 A. No.</p> <p>19 Q. Earlier you talked about being aligned</p> <p>20 with a buying group in terms of offering the</p> <p>21 value-added propositions and not just focusing on</p> <p>22 price.</p> <p>23 Do you recall that?</p> <p>24 A. I do.</p> <p>25 Q. If -- would Schein be interested in a</p>	148	<p>1 broad.</p> <p>2 Go ahead.</p> <p>3 THE WITNESS: My sense is it's possible.</p> <p>4 BY MS. KAHN:</p> <p>5 Q. So I'm still trying to understand.</p> <p>6 Earlier you talked about the value-added proposition</p> <p>7 of a buying group being important. I'm trying to</p> <p>8 understand why that's important to you.</p> <p>9 A. Well, using it as a specific example with</p> <p>10 Smile Source, that was one of the other compelling</p> <p>11 things. That was part of -- and in that particular</p> <p>12 instance I came to the, you know, conclusion with</p> <p>13 the team, that, yes, let's partner with this one, so</p> <p>14 that was a specific example.</p> <p>15 Q. Got it.</p> <p>16 A. There's a multitude of factors that we</p> <p>17 will think about, as I've outlined before, whether</p> <p>18 we will or we won't. We have historically worked</p> <p>19 with buying groups. Even how they're going to</p> <p>20 market is evolving. So we want to evolve with and</p> <p>21 in advance of how the market is evolving.</p> <p>22 Q. So the Smile Source specific example</p> <p>23 aside, is the value-added proposition that a buying</p> <p>24 group offers its members, is that an important</p> <p>25 component to Schein when you're considering whether</p>

149

151

1 **to partner with a buying group?**
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: It can be.
 4 BY MS. KAHN:
 5 **Q. Why is that?**
 6 MR. McDONALD: Objection, asked and
 7 answered.
 8 THE WITNESS: I don't know how else to
 9 answer that. I mean, it can be important because it
 10 aligns with what we're doing with them with the
 11 value proposition we provide our customers. That's
 12 another reason why they're members of a group, and
 13 therefore we believe the likelihood of them, those
 14 individual dentists to want to work with us
 15 increases.
 16 BY MS. KAHN:
 17 **Q. The likelihood of the members wanting to**
 18 **work with Schein?**
 19 A. Yes.
 20 **Q. Got it. So I'm just -- sorry, I'm not**
 21 **trying to ask the same question again. I'm just**
 22 **trying to understand why it matters that Schein's**
 23 **value proposition is aligned with a buying group**
 24 **also having these value-added services.**
 25 **And are you saying that if a buying group**

1 BY MS. KAHN:
 2 **Q. The court reporter has handed you what has**
 3 **been marked as Exhibit 209. It has Bates number**
 4 **Henry Schein-000043081.**
 5 **Take a minute and let me know when you're**
 6 **ready.**
 7 A. Okay.
 8 Okay.
 9 **Q. Exhibit 209 is an e-mail chain. The**
 10 **latest in time is an e-mail from you to Mr. Muller**
 11 **on October 30th, 2014.**
 12 **Did you send this e-mail to Mr. Muller?**
 13 A. Oh, I'm sorry, it's at the top. Yes, I
 14 see that.
 15 **Q. And I'm going to focus you in on your**
 16 **e-mail to Jim -- is it Huether --**
 17 A. Yes.
 18 **Q. -- on October 28th, 2014, and the subject**
 19 **is RE: GD Exec Update with SB - Thursday-10/30.**
 20 **What does GD refer to there?**
 21 A. Global dental.
 22 **Q. And who is Jim Huether?**
 23 A. He's on Jim Breslawski's team. I don't
 24 know his exact title but helps in an administrative
 25 role.

150

152

1 **offers value-added services, then the members are**
 2 **more likely to purchase from Schein if Schein is a**
 3 **vendor?**
 4 MR. McDONALD: Object to the form, asked
 5 and answered.
 6 THE WITNESS: As I stated before, we
 7 believe -- I'll use the word "stickiness." The
 8 stickiness with a customer is greater when the
 9 value-added services that we're providing align with
 10 that specific customer's need, and when part of that
 11 is also with the member, you know, the buying group
 12 membership provides, that's even another kind of,
 13 you know, helpful point, stickiness point.
 14 But, again, it's one of many things.
 15 There's a lot of things in a value-added offering.
 16 BY MS. KAHN:
 17 **Q. Why is -- why is there more stickiness if**
 18 **you're aligned with the buying group?**
 19 A. If the likelihood that the member joined
 20 that buying group and why they're working with us
 21 are similar, then they're not only going to enjoy
 22 their partnership with us but their partnership with
 23 their group as a member.
 24 (Exhibit 209 was marked for
 25 identification.)

1 **Q. Were you sending this e-mail to**
 2 **Mr. Huether to prepare for a dental executive update**
 3 **with Stanley Bergman?**
 4 A. No, it was actually for -- that's what the
 5 title says, but it was actually for an off-site
 6 meeting that we were having coming up in November, I
 7 believe.
 8 So initially it started out as the exec
 9 update, and we were pulling things from that for our
 10 off-site planning meeting.
 11 **Q. Got it. And what is this off-site**
 12 **planning meeting that you're referring to?**
 13 A. Once a year we go off-site, meaning just
 14 out of our building, as part of Jimmy's team, the
 15 global dental team to talk budgets, going-to-market
 16 strategies, that sort of thing.
 17 **Q. And you said that takes place in November?**
 18 A. It varies. Here it did, yes.
 19 **Q. Who attends these meetings?**
 20 A. Jimmy, who is the CEO of our global dental
 21 business, and his direct reports.
 22 **Q. So that would be yourself?**
 23 A. Uh-huh.
 24 **Q. And who else?**
 25 A. Bob Minowitz, Graham Stanley, Hal Muller.

153

1 And then he will have -- it really depends. There's
2 other invites that might join for certain segments.
3 Some of them are the practice solutions team; the
4 president of that is Kevin Bunker. We might have
5 someone from finance come in, someone from IT come
6 in. There's -- it's based on the topic.

7 **Q. And how long are these meetings typically?**

8 A. A day and a half.

9 **Q. Do you recall sending this e-mail to**
10 **Jim Huether on October 28th, 2014?**

11 A. I do now.

12 **Q. Can you tell me what the purpose of your**
13 **e-mail to Mr. Huether was?**

14 A. Well, I titled it the Top 5 "Keeps Me Up
15 at Night." I believe one of the topics we were
16 going to discuss is everyone come to the meeting
17 with one of the top five keeps you up at night right
18 now.

19 **Q. That means top five things that you're**
20 **most worried about?**

21 A. Could be excited about too. If I'm going
22 on vacation tomorrow I might not sleep well because
23 I'm excited, but yes, it's the top five things that
24 are keeping you up at night.

25 **Q. Okay. So it could be a positive or a**

154

1 **negative?**

2 A. Correct.

3 **Q. And under the heading Top 5 "Keeps Me Up**
4 **at Night," in this e-mail these are things that you**
5 **thought at the time were keeping you up at night?**

6 A. I mean, in the heading of things that are
7 on the top of my mind, yes.

8 **Q. And under Top 5 "Keeps Me Up at Night,"**
9 **you have -- you wrote Customer Trends to, and then**
10 **the second bullet under that is Buying Group**
11 **mentality.**

12 **Do you see that?**

13 A. I do.

14 **Q. What did you mean there?**

15 A. All the things we've been discussing about
16 the potential impact of the buying groups could
17 have. It could be positive; it could be negative.

18 **Q. And what did you mean when you said buying**
19 **group mentality?**

20 A. The thoughts of dentists, it's becoming
21 more and more prevalent. As we talked about, the
22 market is evolving. You're hearing more and more
23 about buying groups, and dentists are looking to
24 create or join buying groups, and so the mentality
25 of the want, the desire, the need to join a buying

155

1 group.

2 **Q. And your testimony is you included that**
3 **under Top 5 "Keeps Me Up at Night" because you were**
4 **both excited about it and scared of it?**

5 MR. McDONALD: Object to the form,
6 mischaracterizes the testimony.

7 THE WITNESS: So there's the five main
8 headers are The New Normal, Customer Trends,
9 Supplier Relationships, Sales Team Structure, and
10 then the Meetings-R-U's, you know, where I'm spending
11 my time. Those are the top five. Within each of
12 those there are things that we're talking about.

13 So when it came to customer trends, it
14 was, you know, the shift from, you know, to -- or
15 from private practice to mid market and the elite
16 DSOs, and so how do we need to think about that and
17 structure ourselves to answer that market trend; and
18 then from a buying group perspective, mentality,
19 whatever, how do we structure ourselves to meet the
20 demands of our customers.

21 BY MS. KAHN:

22 **Q. And why was the buying group mentality on**
23 **the top of your mind at this time?**

24 MR. McDONALD: Object to the form,
25 misstates his testimony.

156

1 THE WITNESS: It in and of itself was
2 customer trends in general or an understanding of
3 what the customer trends are. That was one of the
4 trends in understanding what our customers' needs
5 are or desires, and so how do we structure ourselves
6 to address that.

7 BY MS. KAHN:

8 **Q. There are two bullets under customer**
9 **trends; is that right?**

10 MR. McDONALD: Object to the form,
11 misstates or mischaracterizes the document.

12 THE WITNESS: There are.

13 BY MS. KAHN:

14 **Q. And the first is Mid Market and ultimately**
15 **Elite DSO model.**

16 **Do you see that?**

17 A. I do.

18 **Q. And why was the customer trend of mid**
19 **market and ultimately elite DSO model, why was that**
20 **keeping you up at night?**

21 A. The question is were we structured
22 ourselves to address that trend in the market.

23 **Q. Is it fair to say that in 2014 you**
24 **believed that the buying group mentality was a**
25 **customer trend?**

157

1 A. I do.

2 **Q. What would you say are the negative,**
3 **possible negative impacts that the buying group**
4 **mentality can have on Schein?**

5 A. So as I discussed earlier, we -- if it's
6 in an area that a group that the customers are
7 already good customers of ours and if we decide not
8 to work with the group because we already work with
9 them individually but they do buy -- they do join a
10 group and then end up changing their supplies
11 because of that, that's a negative trend for us.

12 **Q. In that scenario, why wouldn't Schein just**
13 **offer a higher discount to retain those customers?**

14 MR. McDONALD: Object to the form.

15 THE WITNESS: That might be one of the
16 strategies.

17 BY MS. KAHN:

18 **Q. A customer can leave Schein at any time,**
19 **right?**

20 A. Absolutely.

21 **Q. So why is the buying group mentality**
22 **something that you were thinking about at this time?**

23 MR. McDONALD: Object to the form.

24 THE WITNESS: I don't know how else to
25 answer than I already have. I'm not trying to be

158

1 difficult either. I think I've answered it. I
2 don't know how else to put it in another way.
3 BY MS. KAHN:

4 **Q. So the only possible negative impact of a**
5 **buying group on Schein is that they would leave,**
6 **they would go to another distributor?**

7 MR. McDONALD: Object to the form,
8 mischaracterizes testimony.

9 THE WITNESS: That's our leading concern
10 about that, and if we -- again, if we're already
11 working with these customers, we have a pricing
12 structure set up with them already based on their
13 volume and they decide to leave because they've
14 joined this other group and we decide not to work
15 with that group, that is the primary risk we have
16 with them.

17 BY MS. KAHN:

18 **Q. Is there any other reasons that a buying**
19 **group mentality could possibly have a negative**
20 **impact on Schein?**

21 A. There are cases where if we decide to work
22 with a group and offer better pricing than they're
23 maybe getting today with the expectation that the
24 other business is going to follow but the other
25 business doesn't follow and, therefore, all we have

159

1 done is reduce margin on the existing business,
2 that's a risk.

3 **Q. Anything else?**

4 MR. McDONALD: Object to the form, overly
5 broad.

6 THE WITNESS: Those are the two key things
7 that come to mind right now.

8 BY MS. KAHN:

9 **Q. Okay. So going back to the answer that**
10 **you just gave, am I understanding you correctly that**
11 **the buying group mentality could lead to reduced**
12 **margins for Schein?**

13 A. The way I stated it was on our existing
14 business, and we're willing to take that risk, if
15 you would, for the opportunity to grow the accounts
16 that are not currently customers. If the business
17 doesn't follow, if they don't -- if the buying group
18 doesn't do in essence what historically they haven't
19 done, which is the volume followed, then the only
20 thing we've done is reduce our margin through the
21 existing members.

22 **Q. And that's why typically Schein has not**
23 **worked with buying groups, right?**

24 MR. McDONALD: Object to the form,
25 mischaracterizes testimony.

160

1 THE WITNESS: Absolutely not why. That's
2 not -- I've never stated that.

3 BY MS. KAHN:

4 **Q. You've never stated what?**

5 A. That that was why.

6 **Q. Okay. Can you explain to me why**
7 **typically -- earlier you testified that typically**
8 **Schein has not worked with buying groups.**

9 **Can you explain why that's the case?**

10 MR. McDONALD: Object to the -- hang on.
11 Object to the form, mischaracterizes testimony.
12 Go ahead.

13 THE WITNESS: So let me clarify what I
14 think I said earlier. I want to make sure that
15 we're on the same page.

16 Generally speaking we have not worked
17 with -- we've worked with buying groups
18 historically. We have in a multitude of cases a
19 multitude of times. We've seen some that worked and
20 some that haven't.

21 As the market has evolved, we want to
22 continue to evolve how we go to market and work with
23 individual dentists that are part of the group,
24 they're a DSO to mid market and have an answer to
25 the trend in the market. So we've worked with

161

163

1 buying groups in the past. We have. We won't work
 2 with all of them depending on all the criteria I've
 3 mentioned to you before.
 4 Now, will we have to adjust that as we go
 5 forward based on what's happening in the
 6 marketplace? It's possible. We were looking at
 7 what's happening within the trends in the
 8 marketplace, and we want to stay ahead of the curve.
 9 So we historically have worked with many,
 10 you know, groups, but there have been many more that
 11 have approached us than we've actually worked with.
 12 BY MS. KAHN:
 13 **Q. How many buying groups has Schein worked**
 14 **with?**
 15 A. I don't know.
 16 **Q. Do you have any ballpark estimate?**
 17 A. I'm not --
 18 MR. McDONALD: Object to the form. If you
 19 know, tell her, but don't guess.
 20 THE WITNESS: I'd be guessing.
 21 BY MS. KAHN:
 22 **Q. How many buying groups have approached**
 23 **Schein, if you have any estimate?**
 24 A. No.
 25 **Q. And can you name any buying groups that**

1 **evolves. Do you recall saying that?**
 2 A. Yes.
 3 **Q. What are you referring to when you say as**
 4 **the market evolves?**
 5 A. Well, what I'll refer to as customer
 6 trends, things that are happening within the market,
 7 the trends to mid market and elite DSOs, those types
 8 of trends. Those are happening in the industry.
 9 (Exhibit 210 was marked for
 10 identification.)
 11 BY MS. KAHN:
 12 **Q. The court reporter has handed you**
 13 **Exhibit 210, which has Bates number**
 14 **Henry Schein-000018481.**
 15 **Take a minute to look at that, and let me**
 16 **know when you're ready.**
 17 A. Okay.
 18 **Q. Exhibit 210 is an e-mail from**
 19 **Bruce Lieberthal on November 19th, 2015, to a number**
 20 **of individuals, and you are cc'd on it; is that**
 21 **right?**
 22 A. Correct.
 23 **Q. And the subject is Christensen**
 24 **International Study Club - Summary of Progress.**
 25 **Do you recall receiving this e-mail?**

162

164

1 **Schein has worked with other than Smile Source?**
 2 A. Alpha Omega is one in particular.
 3 **Q. Can you tell me where Alpha Omega is**
 4 **based?**
 5 A. I don't know. I've not worked directly
 6 with them.
 7 **Q. What do you know about Alpha Omega?**
 8 A. That's about all I know about them, quite
 9 honestly. It's a group. I don't know.
 10 **Q. Is it a buying group?**
 11 A. That's my understanding, yes.
 12 **Q. And what's that understanding based on?**
 13 A. That the members that are part of
 14 Alpha Omega we've had a pricing structure
 15 arrangement. It's not been through HSD. It's part
 16 of the special markets, so I'm not directly involved
 17 with them. And I don't even know if it still
 18 exists, to tell you the truth, but it's one that
 19 we've historically worked with.
 20 **Q. Through special markets?**
 21 A. Correct.
 22 **Q. Any others aside from Alpha Omega that you**
 23 **can name that Schein has worked with?**
 24 A. Not that come to mind right now.
 25 **Q. Earlier you mentioned that as the market**

1 A. I do now.
 2 **Q. And do you recall Christensen**
 3 **International Study Club and what that is?**
 4 A. Yes.
 5 **Q. What is it?**
 6 A. So Gordon Christensen is considered one of
 7 the top KOL, key opinion leaders, in the industry,
 8 and he has been followed for many years, and he
 9 comes up with reports on products and value to
 10 dentists.
 11 He has recently also formed study clubs
 12 where he goes out and talks and teaches on various
 13 events and topics, and we support some of those
 14 groups, some of those events as a sponsor.
 15 **Q. Was Schein in discussions with Gordon**
 16 **Christensen on a potential partnership between the**
 17 **two companies?**
 18 A. From a sponsorship standpoint, yes; not
 19 acquire him in any way, no.
 20 **Q. And who is Bruce Lieberthal?**
 21 A. He is our vice president and chief
 22 innovation officer for Henry Schein, Inc.
 23 **Q. Do you know why he was sending this to you**
 24 **and others?**
 25 MR. McDONALD: Object to the form.

41 (Pages 161 to 164)

165

1 THE WITNESS: Well, it was to Diana
 2 Friedman and Stan Bergman, so I was cc'd on it. But
 3 I believe it was a follow-up to a meeting that
 4 someone was at a Christensen event, and this is his
 5 notes coming out of that meeting, it looks like his,
 6 yeah, Bruce's.
 7 BY MS. KAHN:
 8 **Q. Do you know why you were cc'd?**
 9 MR. McDONALD: Object to the form.
 10 THE WITNESS: He's a key opinion leader in
 11 the dental industry.
 12 BY MS. KAHN:
 13 **Q. Mr. Lieberthal wrote -- do you see Our**
 14 **Goals? Do you see that heading?**
 15 A. I do.
 16 **Q. And a couple of bullets down, the fifth**
 17 **one down he wrote, "Have Christensen abandon his**
 18 **push for dentists to join buying groups, which is**
 19 **not in their interest and adverse to Henry Schein's**
 20 **interests and well-being."**
 21 **Do you see that?**
 22 A. I do.
 23 **Q. Why was one of Schein's goals to have**
 24 **Christensen abandon his push for dentists to join**
 25 **buying groups?**

166

1 MR. McDONALD: Object to the form, lack of
 2 foundation.
 3 THE WITNESS: That wasn't one of Schein's
 4 goals to do that.
 5 BY MS. KAHN:
 6 **Q. Whose goal was it?**
 7 MR. McDONALD: Object to the form, lack of
 8 foundation.
 9 THE WITNESS: It looks like Bruce's.
 10 BY MS. KAHN:
 11 **Q. And why do you think it was Bruce's goal**
 12 **to have Christensen abandon his push for dentists to**
 13 **join buying groups?**
 14 MR. McDONALD: Object to the form.
 15 THE WITNESS: I don't know. I'd be
 16 speculating.
 17 BY MS. KAHN:
 18 **Q. You've never talked to Mr. Lieberthal**
 19 **about buying groups?**
 20 A. I have not.
 21 **Q. Do you have an understanding of what he**
 22 **meant when he wrote the buying group is not in their**
 23 **interest and adverse to Henry Schein's interests and**
 24 **well-being?**
 25 MR. McDONALD: Object to the form.

167

1 THE WITNESS: I do not.
 2 BY MS. KAHN:
 3 **Q. Can you think of any reason for**
 4 **Mr. Lieberthal to say that our goal was to have**
 5 **Christensen abandon his push for dentists to join**
 6 **buying groups?**
 7 MR. McDONALD: Object to the form, calls
 8 for speculation.
 9 THE WITNESS: I'd be speculating.
 10 BY MS. KAHN:
 11 **Q. Aside from what he was actually thinking**
 12 **in his head, can you think of any reason sitting**
 13 **here today why Mr. Lieberthal would write that?**
 14 MR. McDONALD: Object to the form, lack of
 15 foundation, calls for speculation.
 16 THE WITNESS: Not beyond anything I've
 17 already shared with you on why I would consider
 18 buying groups in general a risk.
 19 BY MS. KAHN:
 20 **Q. And do you agree that buying groups are**
 21 **adverse to Henry Schein's interests and well-being?**
 22 MR. McDONALD: Object to the form.
 23 THE WITNESS: Not beyond the two primary
 24 reasons why I view buying groups as risks.
 25

168

1 BY MS. KAHN:
 2 **Q. And the first reason, just to clarify, is**
 3 **that a buying group can -- a buying group which**
 4 **consists of many Schein customers can leave and go**
 5 **to another distributor; is that right?**
 6 A. That's right.
 7 **Q. And the second is if Schein enters into an**
 8 **agreement with the buying group there's potential**
 9 **for margin reduction?**
 10 MR. McDONALD: Object to the form,
 11 mischaracterizes testimony.
 12 THE WITNESS: On the second one, what I
 13 said in the past and I'll just restate it is that on
 14 the second one if we -- if, it's not for sure that
 15 the prices that we would offer that group are any
 16 better or lower than where the individual customers
 17 are already, but there is risk that some of that
 18 could happen. If our margins go down in those
 19 specific accounts but the other accounts don't come
 20 over to offset that for the incremental opportunity,
 21 then yes, margin erosion in that customer segment
 22 would be a risk.
 23 BY MS. KAHN:
 24 **Q. You can put that document aside.**
 25 **Earlier this morning you testified that**

42 (Pages 165 to 168)

169

1 **Schein Dental has the general practice not to work**
2 **with buying groups that cannot mandate purchases**
3 **through the group.**

4 **Do you recall that testimony?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: Yes, I recall that as part
7 of our discussion, yes.

8 BY MS. KAHN:

9 **Q. And based on what you've said after the**
10 **break, I just want to make sure. You're not**
11 **changing that testimony, are you? You're still**
12 **testifying to that?**

13 A. Repeat --

14 MR. McDONALD: Object to the form.

15 THE WITNESS: Repeat that line again,
16 please.

17 BY MS. KAHN:

18 **Q. Sure. And just to be clear, I'll repeat**
19 **the question and answer so I'm not misstating it.**

20 MR. McDONALD: Could you state where
21 you're reading in the record?

22 MS. KAHN: Sure. It's I guess --

23 MR. McDONALD: The line and pages are on
24 the far left.
25

171

1 MR. McDONALD: Object to the form, asked
2 and answered.

3 THE WITNESS: Again, back to it's one of a
4 multitude of factors. Not on that basis alone would
5 that necessarily be the sole determining factor.
6 We've -- as I've said, we've worked with buying
7 groups in the past, and some of them mandated, some
8 have not -- some that have not. It may have worked.
9 I don't know. I don't have the specific examples.

10 And, again, the market is evolving in this
11 case, so we're going to evolve at or ahead of the
12 market to make sure we're addressing our customers'
13 needs.

14 If a group can actually commit that their
15 members are going to shift that business then to us,
16 that is for sure a helpful factor, but it's not the
17 sole determining factor.

18 BY MS. KAHN:

19 **Q. If a group, if a buying group cannot**
20 **mandate purchases, has there been a general practice**
21 **at Schein how to deal with such a group?**

22 A. No.

23 **Q. So sometimes Schein sells, sometimes**
24 **Schein doesn't?**

25 A. That's correct.

170

1 BY MS. KAHN:

2 **Q. 134/21. Actually 134/22.**

3 **"Would you say that there's a general**
4 **company policy to not work with buying groups**
5 **that cannot mandate purchases through the**
6 **group?"**

7 **And you said: "I wouldn't call it a**
8 **policy, per se. There's no written memo here's**
9 **a policy on buying groups, but we have a**
10 **general practice as you just outlined in your**
11 **prior questions."**

12 THE WITNESS: So, again, in the context of
13 the entire discussion, there's a multitude of things
14 that we will consider whether we're going to work
15 with a buying group or not. If they have a mandate
16 to purchase through their partners, that's one --
17 that's one of a multitude of things, right.

18 So in that instant, yes, that would help
19 us, you know, get across the goal line of wanting to
20 work with them. It's not the sole factor.

21 BY MS. KAHN:

22 **Q. Sorry to cut you off.**

23 **Has there been a general practice at**
24 **Schein to not work with buying groups that cannot**
25 **mandate purchases of its members?**

172

1 **Q. And what determines whether Schein sells**
2 **to a buying group that cannot mandate purchases?**

3 MR. McDONALD: Object to the form.

4 THE WITNESS: There's no one -- I mean,
5 there's no one magic formula that determines it.

6 BY MS. KAHN:

7 **Q. What would you say are the factors that go**
8 **into the decision of whether Schein sells to a**
9 **buying group that cannot mandate purchases?**

10 MR. McDONALD: Object to the form, asked
11 and answered.

12 THE WITNESS: So it could be low percent
13 of the members are doing business with us anyway,
14 you know. There's little risk there in that
15 regards, you know, much more if you have a great
16 opportunity. It could be a local relationship that
17 maybe our manager has, and he says I want to give it
18 a try, go for it, give it a shot. Who knows.

19 I mean, I don't know. I don't work
20 directly with all of them. We leave that up to
21 our -- a lot of the decision-making will happen
22 locally, and there's a lot of it is
23 relationship-driven based on who might be the
24 president of the group.
25

173

1 BY MS. KAHN:

2 **Q. And does Schein have any company policy on**
3 **how to deal with buying groups?**

4 A. Not that I'm aware of.

5 **Q. Has Schein ever had a division devoted to**
6 **going after buying group business?**

7 A. Not per se. It was more -- historically
8 more driven by our special markets team and Hal and
9 that group; but as the trend has been moving from
10 single office space practitioner into this
11 mid-market space, our local teams that are on the
12 HSD team have worked with buying groups in the past,
13 and we've continued to partner with them.

14 We've shifted the buying group decision
15 making for the most part to Brian Brady and our
16 mid-market group, but that doesn't stop special
17 markets from, you know, working with one of their
18 customers in that aspect as well.

19 **Q. And has Schein had rules and procedures**
20 **for how to go after buying group business?**

21 A. I think -- not that I'm aware of. I mean,
22 I think there's some general guidelines and
23 discussion points to look for, you know, in
24 determining the factors, some of the things I've
25 already outlined.

175

1 the, you know, buying group business. It's a, you
2 know, as the teams are out there and as they're
3 presented with these opportunities, there's a
4 process to figure out so who does it come to and who
5 can make a decision, how much local is it versus,
6 you know, moving it up to someone like Jake or Joe.
7 It's not a written procedure guideline.

8 BY MS. KAHN:

9 **Q. Was there anything similar to what**
10 **Mr. Brady put together prior to him putting that**
11 **together?**

12 MR. McDONALD: Object to the form, lack of
13 foundation.

14 THE WITNESS: Not that I'm aware of.

15 BY MS. KAHN:

16 **Q. Has Schein ever had a pricing plan for**
17 **buying groups?**

18 MR. McDONALD: Object to the form, lack of
19 foundation.

20 THE WITNESS: Not -- again, each one could
21 be presented potentially a different plan, but it's
22 part of where maybe the P and the G and the PG, you
23 know, some of the groups might have presented that
24 type of plan; some have been presented something
25 different.

174

1 **Q. Are those general guidelines communicated**
2 **in any way to others within Schein?**

3 MR. McDONALD: Objection to form, lack of
4 foundation.

5 THE WITNESS: Yeah, I believe at one point
6 Brian Brady put something together that talked
7 about, you know, how we will go to market with a
8 group and how we will set them up. It's not
9 necessarily this decision tree if we're going to do
10 one or not but if we do here are some of the things
11 that we're looking for.

12 BY MS. KAHN:

13 **Q. When did Mr. Brady do that?**

14 A. I don't recall, sometime in the last
15 couple years.

16 **Q. And prior to Mr. Brady putting that**
17 **together, were there general guidelines on how to go**
18 **after buying group business?**

19 MR. McDONALD: Object to the form, lack of
20 foundation.

21 THE WITNESS: I'm not saying -- don't hold
22 me to what this report is. I just recently reviewed
23 it again.

24 So it's -- I don't know what it is, if
25 it's a -- it's not a guideline on how to go after

176

1 So it's not a written, you know, single
2 price plan for any group that we're talking to.

3 BY MS. KAHN:

4 **Q. Has Schein tracked sales to buying group**
5 **business?**

6 A. I believe so.

7 **Q. How so?**

8 A. I don't know. I mean, Brian has kept
9 track of that.

10 **Q. When did Brian start keeping track of**
11 **that?**

12 MR. McDONALD: Object to the form,
13 mischaracterizes his testimony --

14 THE WITNESS: I don't know.

15 MR. McDONALD: -- foundation.

16 THE WITNESS: I don't know. I haven't
17 seen it in quite some time.

18 BY MS. KAHN:

19 **Q. I think you testified that Mr. Brady**
20 **started getting involved in buying groups in the**
21 **last couple of years; is that fair?**

22 A. Correct.

23 **Q. Prior to that role what was his role at**
24 **Schein?**

25 A. He was a regional manager for us in

177

1 southern Cal and then up in northern California, and
2 I believe that was his last role before moving to
3 New York to be part of the mid-market space.

4 **Q. So did his title change after the move?**

5 A. Yes.

6 **Q. What's his current title?**

7 A. I don't know for sure. It has something
8 to do with group practices.

9 **Q. Before Mr. Brady took on his current role
10 having to do with group practices, did Schein track
11 sales to buying groups?**

12 MR. McDONALD: Object to the form, lack of
13 foundation.

14 THE WITNESS: I don't know.

15 BY MS. KAHN:

16 **Q. Who would know?**

17 A. Probably Hal Muller because there's more
18 groups at the time probably in his space. Jake or
19 Joe might know.

20 **Q. Does Schein track business to DSOs?**

21 A. Yes.

22 **Q. Is there a DSO indicator in Schein's
23 databases?**

24 A. Well, that's the DSM indicator that we
25 talked about before, yes.

179

1 **during meetings?**

2 A. It's been part of discussions in the
3 meetings. It hasn't been me leading the meeting,
4 per se.

5 **Q. And you said "not beyond what we've talked
6 about." I don't want to make you repeat what you've
7 said, but I just want a general sense of what types
8 of guidance or thoughts you've provided at meetings
9 about buying groups.**

10 MR. McDONALD: Object to the form, asked
11 and answered.

12 THE WITNESS: If the group would commit,
13 mandate the volume purchases, if they're aligned in
14 any way with the services that we're already doing
15 for the customers, if the percentage of the group is
16 a significant amount of customers are all the things
17 that I've -- those type of things that I was
18 referring to before.

19 BY MS. KAHN:

20 **Q. Got it. And if those things are true,
21 then what?**

22 A. It's possible that we would work with the
23 group.

24 **Q. Have you ever expressed a sentiment that
25 Schein should not work with buying groups?**

178

1 **Q. Got it. The DSM and the D --**

2 A. -- SL --

3 **Q. DSL.**

4 A. -- is HSD.

5 **Q. Got it. Was there a similar acronym for
6 tracking purposes for buying group --**

7 MR. McDONALD: Object to the form.

8 BY MS. KAHN:

9 **Q. -- business?**

10 MR. McDONALD: Object to the form, lack of
11 foundation.

12 THE WITNESS: Not that I'm aware of.

13 BY MS. KAHN:

14 **Q. Why not?**

15 MR. McDONALD: Object to the form.

16 THE WITNESS: I don't know.

17 BY MS. KAHN:

18 **Q. Have you ever provided any guidance or
19 directive within Schein on whether the company
20 should try to sell to buying groups?**

21 A. Not beyond what we've talked about. I
22 mean, so not that I recall. I mean, anything -- you
23 know, just in general meetings about here's when we
24 want to work with a group or not.

25 **Q. And you've communicated those things**

180

1 A. Not as a flat out across the board, no.

2 **Q. What about just a general sense --**

3 MR. McDONALD: Object to form.

4 BY MS. KAHN:

5 **Q. -- that's not a flat out across the board?**

6 MR. McDONALD: Object to the form, vague.

7 THE WITNESS: No.

8 BY MS. KAHN:

9 **Q. You've never said --**

10 A. Not that I recall.

11 **Q. Sorry.**

12 MR. McDONALD: Let her ask the question.

13 BY MS. KAHN:

14 **Q. You said you do not recall that?**

15 A. Can you repeat the question?

16 **Q. Yes. Let me go back a couple.**

17 **Have you ever expressed a sentiment that
18 Schein should not work with buying groups just as a
19 general statement?**

20 A. No.

21 **Q. Have you ever expressed a sentiment that
22 Schein should not align with buying groups?**

23 A. No.

24 **Q. So it's your testimony that you've always
25 expressed that Schein should work with buying groups**

45 (Pages 177 to 180)

181

1 **if certain things are met?**

2 A. I never said the word "should," but we're
3 open to working with any customer.

4 **Q. So just to be clear, your testimony is**
5 **that you've also expressed within Schein that the**
6 **company is open to working with buying groups?**

7 A. Based on certain criteria, yes, and
8 history shows we've done that.

9 **Q. Did you ever personally get involved and**
10 **say yes, we should go after this buying group?**

11 A. Smile Source is the one example that I was
12 personally involved in. Beyond that, I have not,
13 that I recall, been involved in any specific group
14 in particular.

15 **Q. Have you ever been involved in, personally**
16 **involved in determining that yes, Schein should try**
17 **to bid on a particular corporate account or DSO?**

18 A. No. That's been determined by Hal.

19 **Q. Did you ever express to others within**
20 **Schein that it would be good to get buying group**
21 **business?**

22 A. Until -- most recently, yes, and
23 Smile Source is the classic example.

24 **Q. Okay. If we go back to pre 2016, did you**
25 **ever express to others within Schein that it would**

183

1 specific here's this moment in time I changed my
2 perspective, no.

3 BY MS. KAHN:

4 **Q. Let me -- I should rephrase my question.**

5 **You testified that you've always been --**
6 **you've been open to working with buying groups; not**
7 **a good or a bad, you're just open to it.**

8 **I'm wondering if that has always been the**
9 **case in the last ten years or if there has been a**
10 **shift in your thinking about buying groups ever.**

11 A. Well, the shift that has happened is the
12 shift in the market, so the more requests we're
13 getting for it; feels like there has been more and
14 more of a customer need for them, so being more open
15 to the concept of them and building and creating a
16 proposition for them has definitely increased over
17 time. But I've always been open to working with a
18 buying group if it made, you know, sense for the
19 company as well as its members.

20 (Exhibit 211 was marked for
21 identification.)

22 BY MS. KAHN:

23 **Q. You've been handed Exhibit 211. Take a**
24 **minute to review, and let me know when you are**
25 **ready.**

182

1 **be good to get buying group business?**

2 A. Again, Smile Source we worked with even in
3 '04 and '06, and then for a lot of reasons it didn't
4 work out. We've worked with others, you know,
5 before then.

6 So I have not taken a firm position that
7 we should or we shouldn't. Depending on how the
8 group is structured, based on all the things we've
9 talked about, we're open to exploring whether or not
10 to work with a group.

11 So it's not a should or shouldn't
12 mentality. It's we're open and flexible based on
13 the market needs.

14 **Q. Do you have an opinion one way or the**
15 **other whether buying groups are good for the dental**
16 **distributor market?**

17 MR. McDONALD: Object to the form, vague.

18 THE WITNESS: I would only have thought
19 about the or concerned about the impact that would
20 have for Henry Schein.

21 BY MS. KAHN:

22 **Q. Do you recall ever having a change of mind**
23 **about buying groups?**

24 MR. McDONALD: Object to the form, vague.

25 THE WITNESS: No, I didn't. I mean, not

184

1 A. Okay.

2 **Q. Exhibit 211 is an e-mail chain, and the**
3 **top e-mail latest in time is from you to Mr. Mark**
4 **Mlotek and others on July 17th, 2011, and the**
5 **subject is Re: a GPO or possibly just a buying group**
6 **but could it cause a problem.**

7 **Do you see that?**

8 A. I do.

9 **Q. And did you send and receive the e-mails**
10 **in this chain?**

11 A. I did.

12 **Q. Do you recall this e-mail chain?**

13 A. I do now.

14 **Q. Earlier we talked about the terms "GPO"**
15 **and "buying group," and you mentioned that within**
16 **Schein those two terms have typically been used**
17 **interchangeably.**

18 **Do you recall that?**

19 A. Yes.

20 **Q. And this chain is talking about a group**
21 **called Synergy Dental Partners; is that right?**

22 A. That's correct.

23 **Q. And to your understanding was that really**
24 **just a buying group in the dental industry?**

25 A. I don't -- I didn't know them then and I

46 (Pages 181 to 184)

185

1 don't know them now, so my assumption is that they
2 were a buying group based on what I'm reading here,
3 yes.

4 **Q. And at the bottom of the chain, Mr. Hal
5 Muller sent the original e-mail on July 17, and his
6 e-mail is suggesting that this Synergy Dental
7 Partners group could cause a problem.**

8 **Is that how you read it?**

9 MR. McDONALD: Object to the form, the
10 document speaks for itself.

11 THE WITNESS: Can you repeat that?

12 BY MS. KAHN:

13 **Q. Sure. Mr. Muller sent the original
14 e-mail, and do you read his e-mail to suggest that
15 he believed this Synergy Dental Partners buying
16 group could cause a problem?**

17 MR. McDONALD: Same objection.

18 THE WITNESS: I see him asking the
19 question "but could it cause a problem." It's not a
20 statement.

21 BY MS. KAHN:

22 **Q. Why do you think Mr. Muller was asking
23 that question?**

24 A. I don't know.

25 MR. McDONALD: Object to the form.

187

1 anything I could see on their website, was anything
2 more than the traditional buying group that did any
3 more relative to the things that I've outlined
4 before as far as criteria that we would work with.

5 **Q. Meaning that you wouldn't work with a
6 buying group like this?**

7 MR. McDONALD: Object to the form.

8 THE WITNESS: No, I'm saying nothing new
9 here is what you're asking me. I didn't see
10 anything based on what I saw on the website that
11 provided other membership value, the members follow
12 what the -- you know, what the membership is
13 directing them to do. So it was nothing new in here
14 at that time.

15 BY MS. KAHN:

16 **Q. And you also said that in your e-mail,
17 "Founding partners are two dentists in NC. They
18 list Darby, Brassler, Orascoptic and Sonicare."**

19 **Do you see that?**

20 A. I do.

21 **Q. And that list at the end there, is that
22 the vendors that you believe the buying group was
23 getting supplies from?**

24 A. If I recall correctly, yes, that's who was
25 listed on their website as sponsors.

186

1 THE WITNESS: I don't know.

2 BY MS. KAHN:

3 **Q. Can you think of any reason sitting here
4 today?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: Not beyond the two examples
7 I've given you in the past about buying groups.

8 BY MS. KAHN:

9 **Q. You responded higher up on July 17th,
10 2011, at 8:50 a.m. with more information about the
11 group; is that right?**

12 A. What do you mean by with more information
13 from the group? Yes, I did respond. Oh, here, I'm
14 sorry, the top one.

15 **Q. Right. Let me strike --**

16 A. Yes, I see that here.

17 **Q. You were providing some information that
18 you found on the website about the group?**

19 A. Correct.

20 **Q. And you ended your e-mail with, "Nothing
21 new here."**

22 **Do you see that?**

23 A. I do.

24 **Q. And what did you mean there?**

25 A. That I didn't view what they were doing,

188

1 **Q. And prior to this were you aware of Darby
2 supplying buying groups?**

3 A. I was not.

4 **Q. Prior to this did you have any
5 understanding of who was supplying buying groups?**

6 A. Well, we had some. I know we were working
7 with some. I don't know what others were doing.

8 **Q. And then I'm going to -- Mr. Mlotek
9 responds to you, and he wrote, "Darby distributing
10 the products, dot-dot-dot."**

11 **Do you see that?**

12 A. I do.

13 **Q. Why do you think he was pointing out Darby
14 there?**

15 MR. McDONALD: Object to the form.

16 THE WITNESS: Well, I listed Darby below.
17 I think he was confirming the fact that Darby is, in
18 fact, distributing the products for them.

19 BY MS. KAHN:

20 **Q. I realize that's all he said in his
21 e-mail, and I guess what I'm trying to understand
22 from you -- you have a history with Mr. Mlotek, you
23 understand the general discussions that the two of
24 you have had.**

25 **I'm trying to understand from you why he**

189

191

1 **made that statement, why he was pointing that out**
 2 **with the dot-dot-dot after it.**
 3 MR. McDONALD: Object to the form, lack of
 4 foundation, calls for speculation.
 5 If you know, tell her.
 6 THE WITNESS: I don't know.
 7 BY MS. KAHN:
 8 **Q. I'm going to focus you on the top e-mail**
 9 **from you. You wrote, "That's where they belong. I**
 10 **don't think you will ever see a full-service dealer**
 11 **getting involved with GPOs."**
 12 **Do you see that?**
 13 A. I do.
 14 **Q. And focusing on the first sentence, when**
 15 **you said "that's where they belong," the "they,"**
 16 **were you referring to Synergy Dental Partners?**
 17 A. No, I was referring to Darby.
 18 **Q. Okay. And what did you mean when you said**
 19 **"that's where they belong"?**
 20 A. So Darby is one of the companies I
 21 mentioned before that they're not full service.
 22 They are, you know, kind of a telesales/mail order
 23 type of company solely that only distribute
 24 merchandise. They don't do the rest of the line.
 25 And if that's looked like what this group was

1 BY MS. KAHN:
 2 **Q. What do you mean -- go ahead.**
 3 A. So we had -- you asked the question had
 4 Henry Schein been working with buying groups. We
 5 have been. We have even prior to this, and we've
 6 had some since then.
 7 **Q. And were you aware of Henry Schein working**
 8 **with buying groups at the time you wrote this**
 9 **e-mail?**
 10 A. Yes.
 11 **Q. You said earlier there was a poor choice**
 12 **of words.**
 13 **What did you mean by that?**
 14 A. Well, I don't think you'll ever see a
 15 full-service dealer get involved with, you know,
 16 buying groups. Clearly we are already doing that.
 17 **Q. Did you not mean to write those words?**
 18 A. It was just a poor choice of words.
 19 **Q. And what were you meaning to say instead**
 20 **of what you wrote?**
 21 A. I don't recall. That was six years ago.
 22 **Q. Okay. Earlier you testified that you do**
 23 **recall this e-mail chain, right?**
 24 A. Well, I said I remember -- I now recall
 25 the chain now that I've seen it. I remember the

190

192

1 interested in, I was saying that's where they
 2 belong.
 3 BY MS. KAHN:
 4 **Q. Darby belongs with this buying group?**
 5 A. I was saying that's where they belong,
 6 meaning the buying group belongs, you know, with
 7 Darby as their distribution partner.
 8 **Q. Got it, okay. And then you went on to say**
 9 **"I don't think you will ever see a full-service**
 10 **dealer getting involved with GPOs," but with the**
 11 **term "GPO" were you referring to buying groups**
 12 **there?**
 13 A. Correct, correct.
 14 **Q. Is it fair to say that at this time you**
 15 **did not believe that Henry Schein was involved with**
 16 **buying groups?**
 17 MR. McDONALD: Object to the form.
 18 THE WITNESS: No. As I mentioned before,
 19 we have -- we've already had some. We knew the
 20 market was trending that way. Clearly there's a
 21 poor choice of words on my part, but it was, you
 22 know, the direction that -- 2011 it wasn't as
 23 prevalent as it was today. We're talking about the
 24 last five years primarily.
 25

1 chain. I don't recall why I wrote that at the time.
 2 **Q. Okay. You have no recollection of**
 3 **writing -- of why you wrote "I don't think you will**
 4 **ever see a full-service dealer get involved with**
 5 **GPOs"?**
 6 A. I don't know what I was thinking at that
 7 time because we had been working with buying groups
 8 at the time.
 9 **Q. And the sentence earlier where you said**
 10 **that's where they belonged, you recall why you wrote**
 11 **that?**
 12 A. Yes.
 13 MR. McDONALD: Objection to the form.
 14 BY MS. KAHN:
 15 **Q. Can you help me understand why you're able**
 16 **to recall why you wrote the first sentence but not**
 17 **the second sentence?**
 18 MR. McDONALD: Object to the form.
 19 THE WITNESS: I wish I could tell you the
 20 answer.
 21 BY MS. KAHN:
 22 **Q. I think I know the answer to this, but let**
 23 **me just ask it.**
 24 **Was it your understanding at the time you**
 25 **wrote this e-mail that full-service dealers were not**

193

1 **involved with buying groups?**
 2 MR. McDONALD: Object to the form.
 3 THE WITNESS: No.
 4 BY MS. KAHN:
 5 **Q. What was your understanding at the time**
 6 **that you wrote this e-mail?**
 7 A. In fact we were working -- had some buying
 8 groups that we were already working with.
 9 **Q. Were you aware of what other full-service**
 10 **dealers were doing with respect to buying groups?**
 11 A. I don't believe so, no.
 12 **Q. Do you have any reason sitting here today**
 13 **of why you would write you will never see -- you**
 14 **don't think you would ever see a full-service dealer**
 15 **get involved with a buying group?**
 16 MR. McDONALD: Object to the form, asked
 17 and answered multiple times.
 18 THE WITNESS: I still don't know.
 19 BY MS. KAHN:
 20 **Q. Did you have an understanding in July 2011**
 21 **that Patterson was not involved with buying groups?**
 22 A. I don't know.
 23 **Q. You don't recall or you don't know?**
 24 A. I don't know what Patterson's strategy is
 25 today much less six years ago what their approach

194

1 was with buying groups.
 2 **Q. So you've never known?**
 3 A. I don't know what their strategy is with
 4 buying groups.
 5 **Q. And you didn't know back in 2011?**
 6 A. I don't know today and I didn't know six
 7 years ago.
 8 **Q. And what about with respect to Benco, did**
 9 **you know what Benco's practices or policies were**
 10 **with respect to buying groups in 2011?**
 11 A. I don't know what any other companies'
 12 strategies are other than our own.
 13 **Q. Were you ever aware that Benco had a**
 14 **policy against selling or offering discounts to**
 15 **buying groups?**
 16 MR. McDONALD: Object to the form, lack of
 17 foundation.
 18 THE WITNESS: I don't know.
 19 BY MS. KAHN:
 20 **Q. Nobody ever told you that?**
 21 A. Nobody ever told me what, I'm sorry?
 22 **Q. Nobody ever told you that Benco had a**
 23 **policy against selling or offering discounts to**
 24 **buying groups?**
 25 MR. McDONALD: Object to the form, lack of

195

1 foundation.
 2 THE WITNESS: Not that I recall.
 3 BY MS. KAHN:
 4 **Q. Is it possible that somebody told you but**
 5 **you just don't recall?**
 6 MR. McDONALD: Object to the form.
 7 THE WITNESS: Not that I recall. I don't
 8 know. I don't know what their strategy is, so no.
 9 BY MS. KAHN:
 10 **Q. You mentioned that at the time of this**
 11 **e-mail Schein was involved with buying groups; is**
 12 **that right?**
 13 A. Yes.
 14 **Q. And that contradicts what you wrote in**
 15 **this e-mail, right?**
 16 A. It depends how you -- again, I don't know
 17 what I was thinking when I wrote it. It depends on
 18 how you read it. So I don't know how to answer
 19 that.
 20 **Q. Okay. Is there a way to read the second**
 21 **sentence so that it's consistent with the fact that**
 22 **Schein was selling -- was involved with buying**
 23 **groups at the time?**
 24 MR. McDONALD: Object to the form.
 25 THE WITNESS: We were working with the

196

1 buying groups at the time, so clearly it was
 2 misstated.
 3 BY MS. KAHN:
 4 **Q. Can you name any buying groups that Schein**
 5 **was working with in July 2011?**
 6 A. I believe the one example I gave you
 7 earlier on, Alpha Omega is one of them; and there
 8 are others in Hal's group that we're -- that we had
 9 relationships with.
 10 **Q. And what about outside of Hal's group?**
 11 A. I don't know of any specifically, but I
 12 believe there were plenty of them throughout -- you
 13 know, maybe some were in Boston, some were in Utah.
 14 Our regional managers can take those decisions. If
 15 you call a study club a buying group, that's in
 16 essence -- you know, we do some of that already.
 17 So those are examples of things that I
 18 know we had in the past. I can't specifically tell
 19 you, you know, any of the names of them.
 20 **Q. And you had that knowledge at the time**
 21 **that you wrote this e-mail?**
 22 A. Correct.
 23 **Q. And at the time that you wrote this e-mail**
 24 **it was your understanding that Schein was working**
 25 **with plenty of buying groups?**

49 (Pages 193 to 196)

197

1 A. Yes.
 2 **Q. Okay. And you are unable to explain to me**
 3 **why you wrote something -- why you wrote the second**
 4 **sentence here; is that right?**
 5 MR. McDONALD: Object to form. Lin,
 6 you've asked him this about six times. I really
 7 respect -- I really ask you to respect this witness.
 8 He's the president of the company. Quit asking him
 9 the same thing over and over again, please.
 10 BY MS. KAHN:
 11 **Q. Mr. Sullivan, I'm entitled to an answer if**
 12 **you're able to answer it.**
 13 MR. McDONALD: He has answered the
 14 question multiple times. He can answer it again.
 15 The next time you ask him I'm going to instruct him
 16 not to answer it. It's abusive, okay.
 17 Ask the question so it's clear, the record
 18 is clear, please.
 19 BY MS. KAHN:
 20 **Q. I'm going to go back two questions so we**
 21 **have a clear record.**
 22 **At the time that you wrote this e-mail in**
 23 **July 2011, it was your understanding that Schein was**
 24 **working with plenty of buying groups?**
 25 A. Correct.

198

1 **Q. And are you able to explain to me why you**
 2 **wrote the second sentence where you said "I don't**
 3 **think you will ever see a full-service dealer get**
 4 **involved with buying groups"?**
 5 A. No.
 6 **Q. You can put that document aside.**
 7 **(Exhibit 212 was marked for**
 8 **identification.)**
 9 BY MS. KAHN:
 10 **Q. You've been handed Exhibit 212. Take a**
 11 **minute, and let me know when you are ready.**
 12 A. Okay, I'm ready.
 13 **Q. Exhibit 212 is an e-mail chain with Bates**
 14 **number Henry Schein-000043065. The top e-mail is**
 15 **from you to a number of individuals on October 29th,**
 16 **2014, and the subject is Dental Gator.**
 17 **Do you see that?**
 18 A. I do.
 19 **Q. And did you send this e-mail?**
 20 A. I did.
 21 **Q. Do you recall sending this e-mail?**
 22 A. I do.
 23 **Q. I'm going to turn you to the second page**
 24 **there that's an e-mail from Daniel Hobson on**
 25 **October 29th.**

199

1 **Do you see that?**
 2 A. I do.
 3 **Q. And who is Daniel Hobson?**
 4 A. He is a -- we called them SAMs at the
 5 time, but one of -- someone in Hal Muller's special
 6 markets team.
 7 **Q. Mr. Hobson was providing some information**
 8 **about Dental Gator.**
 9 **Do you see that?**
 10 A. I do.
 11 **Q. I'm going to read the first sentence of**
 12 **the first paragraph, and then I'm going to skip to**
 13 **the second paragraph there. He wrote, "Dental Gator**
 14 **is owned by our EDSO, MB2 Dental." And then he goes**
 15 **on in the second paragraph to say, "In our prime**
 16 **vendor agreement we spelled out specific terms and**
 17 **restrictions about these consulting offices to**
 18 **prevent Dental Gator from being a typical GPO."**
 19 **Do you see that?**
 20 A. I do.
 21 **Q. And do you know why Schein included a**
 22 **specific term, specific terms and restrictions to**
 23 **prevent Dental Gator from becoming a typical GPO?**
 24 MR. McDONALD: Object to the form, lack of
 25 foundation.

200

1 THE WITNESS: Prime vendor agreements are
 2 something that our special markets team signs with
 3 our customers, so I'm not directly involved with
 4 them at all.
 5 BY MS. KAHN:
 6 **Q. And aside from special markets and, you**
 7 **know, putting this document aside, have you been --**
 8 **are you aware of any contractual restrictions that**
 9 **Henry Schein has entered to try to prevent an entity**
 10 **from becoming a GPO?**
 11 MR. McDONALD: Object to the form, lack of
 12 foundation, mischaracterizes his testimony.
 13 THE WITNESS: I am not aware.
 14 MS. KAHN: You can put that aside.
 15 (Exhibit 213 was marked for
 16 identification.)
 17 BY MS. KAHN:
 18 **Q. You have Exhibit 213 in front of you. Let**
 19 **me know when you are ready.**
 20 A. Okay.
 21 **Q. Exhibit 213 is an e-mail chain with Bates**
 22 **number Henry Schein-000090794.**
 23 **Do you recall receiving and sending the**
 24 **e-mails in this chain?**
 25 A. I do.

50 (Pages 197 to 200)

201

1 **Q. This is an e-mail chain about Dental Gator**
2 **again; is that right?**

3 A. Correct.

4 **Q. Is it accurate to say that there was a**
5 **debate within Schein on how to handle Dental Gator?**

6 A. Yes.

7 MR. McDONALD: Object to the form.

8 BY MS. KAHN:

9 **Q. Can you explain that debate to me a little**
10 **bit?**

11 A. So Dental Gator is an offshoot of -- you
12 saw an earlier e-mail -- MB2. MB2 is an elite DSO,
13 one of the customers of Hal's group. What they were
14 attempting to do is offer -- you know, expand to
15 practices that they don't own and those they don't
16 own, you know, try to get them the same pricing that
17 we were offering on the elite DSO contract, if you
18 would, the prime vendor agreement contract. That's
19 where the pricing is determined for those groups.

20 So the conflict was is they're expanding
21 to now just provide that pricing to others that want
22 to join this buying group that they are creating
23 called Dental Gator. Those are, again, existing
24 customers of ours. They weren't mandated that they
25 have to buy. They were not actually permitted to

202

1 use the pricing that they were offering for MB2 to
2 this offshoot of theirs called Dental Gator.

3 So the conflict in the field was we have
4 good customers of ours today and whatever pricing
5 strategy that we're using for them and the overall
6 value proposition; that the customer would say,
7 well, gee, I just met with this Dental Gator
8 company, and it looks like the pricing they're
9 getting is better. And they shouldn't be; they
10 don't have that agreement with us.

11 So that was the conflict that was creating
12 internally between HSD and our special markets
13 group.

14 **Q. And in trying to understand this, is it**
15 **fair to say that HSD or special markets was at the**
16 **time offering the same pricing to MB2 as to the**
17 **Dental Gator entities?**

18 MR. McDONALD: Object to forgot.

19 BY MS. KAHN:

20 **Q. That's what caused the issue?**

21 A. Well, not HSD. So, again, just to
22 clarify, so special markets, so special markets --

23 **Q. Sorry. HSM I meant to say.**

24 A. Yeah. So HSM had the agreement with MB2,
25 a lot of acronyms. They formed a separate group

203

1 called Dental Gator. That was in conflict with what
2 their contract allowed them to do from what I'm
3 understanding --

4 **Q. Sure.**

5 A. -- that was in that agreement.

6 If MB2 acquired another dental practice,
7 it would definitely fall into the MB2 contract, but
8 they were not allowed to just now create a buying
9 group based on that pricing. That was -- it's a
10 separate -- so now they're out there promoting it as
11 if it were a Henry Schein-supported program, and it
12 wasn't.

13 And the first couple times I heard about
14 it, you can see Joe's comment about, you know, it
15 used to be just annoyance. It's becoming more and
16 more prevalent, more of an issue; and therefore
17 we're asking her special markets team to address it
18 with them.

19 **Q. And Mr. Muller wrote on October 21st on**
20 **the second page there in response to Joe's request**
21 **for somebody to address this, he said, "I will" -- I**
22 **think that he meant to say I will let Randy address.**
23 **"At the moment we feel good at the point we are at**
24 **with them staying as they are."**

25 **Do you see that?**

204

1 A. I do.

2 **Q. And did you take that to mean that special**
3 **markets wanted to continue their existing practice**
4 **at this time?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: Well, with MB2, yes, but not
7 with the extension to that over to Dental Gator.

8 BY MS. KAHN:

9 **Q. Okay. So special markets did not want**
10 **Dental Gator to get the MB2 pricing?**

11 A. That's my recollection, yes.

12 **Q. Okay. And is it fair to say that HSD also**
13 **did not want Dental Gator to get the MB2 pricing?**

14 A. Not just as a standalone if that was the
15 only part of an agreement with them, correct.

16 **Q. Mr. Cavaretta wrote to you on**
17 **October 21st, 2014, at 4:59 p.m.**

18 **Do you see that e-mail?**

19 A. Uh-huh. Yes.

20 **Q. He's responding to your question of what**
21 **would you suggest we do. He said, "Don't allow this**
22 **to be used any longer. This is a straight up GPO,**
23 **and if we allow I'm not sure how we say no to other**
24 **GPOs."**

25 **Do you see that?**

51 (Pages 201 to 204)

205

207

1 A. I do.
 2 **Q. Do you know what he meant there?**
 3 MR. McDONALD: Object to the form, lack of
 4 foundation.
 5 THE WITNESS: So, I mean, based on
 6 discussions that we've had, what I was doing with
 7 the how would you suggest -- what would you suggest
 8 we do, it's my way of challenging Joe just to, you
 9 know, think about it, what's your solution, you
 10 know, what do you want me to do, you know, what
 11 would you do; and his position was if we have a GPO
 12 or buying group that the only thing that they're
 13 doing is it's a price-only play, if it's only about,
 14 you know -- no other thinking, nothing else that
 15 we've talked about, other parameters, then in his
 16 mind if we do with one, we have to do it with all.
 17 And so that's been the internal date and the
 18 internal discussions.
 19 BY MS. KAHN:
 20 **Q. And was it his -- do you recall that his**
 21 **position was that Schein was, generally speaking,**
 22 **not selling to other GPOs at the time?**
 23 MR. McDONALD: Object to the form.
 24 THE WITNESS: I don't know what his -- I
 25 don't know what he was -- you're asking me what he

1 **You're having a dialogue with**
 2 **Mr. Cavaretta, is that right, in this e-mail chain;**
 3 **is that right?**
 4 A. Yes.
 5 **Q. Surely you had an understanding of what he**
 6 **wrote.**
 7 MR. McDONALD: Object to the form.
 8 THE WITNESS: Well, again, my reply to him
 9 wasn't an agreement or disagreement with his
 10 statement, so I was actually challenging further.
 11 So do we close down other large groups, you know?
 12 Would Heartland be considered, you know? I was
 13 trying to say, you know, how do you define GPOs,
 14 what -- so I was challenging him in that because it
 15 wasn't clear to me what he was saying.
 16 So I don't want to speculate as to what
 17 his position is here.
 18 BY MS. KAHN:
 19 **Q. And he ended his e-mail with, "I don't**
 20 **think that is a consistent strategy with where we**
 21 **want to go per our last meeting with you and Dave."**
 22 **Do you see that?**
 23 A. I do see that.
 24 **Q. Do you know what meeting he's referring to**
 25 **here?**

206

208

1 was thinking at the time? I don't know what his
 2 position was at this time.
 3 BY MS. KAHN:
 4 **Q. Well, what did he mean when he said "if we**
 5 **allow I'm not sure how we say no to other GPOs"?**
 6 **That implies to me that he was trying to say no to**
 7 **other GPOs.**
 8 MR. McDONALD: Object to the form, lack of
 9 foundation.
 10 Don't speculate. If you know, tell her.
 11 THE WITNESS: I was just going to say I'd
 12 be speculating what I think he means here, which I
 13 don't think I should do.
 14 BY MS. KAHN:
 15 **Q. Okay. Well, what's your understanding of**
 16 **what that means?**
 17 MR. McDONALD: Object to the form.
 18 Again, if you know tell her, but don't
 19 speculate.
 20 THE WITNESS: I really don't want to
 21 speculate.
 22 BY MS. KAHN:
 23 **Q. I'm not asking you to speculate about what**
 24 **Joe was thinking. I'm just trying to get your**
 25 **understanding.**

1 A. I don't. No, I don't.
 2 **Q. Do you know what strategy he's referring**
 3 **to here?**
 4 A. I don't specifically know.
 5 **Q. What about generally?**
 6 A. No.
 7 **Q. Did you ever discuss with Mr. Cavaretta a**
 8 **general strategy on buying groups?**
 9 A. Yes, as we've talked in the past about we
 10 have worked with them, where it's becoming more
 11 prevalent, how do we want to work with them going
 12 forward; and there were certain parameters that we
 13 were starting to discuss about what it would make
 14 sense to me so we're not -- and what we knew about
 15 Dental Gator didn't seem aligned with that strategy.
 16 **Q. And so in October 2014 was the strategy**
 17 **that you and Mr. Cavaretta discussed that Schein**
 18 **would be open to working with buying groups?**
 19 A. Yes, as we have in the past. We've worked
 20 with some in the past.
 21 **Q. You said in the next e-mail, "So also**
 22 **close down Heartland, Comfort, Mortenson,**
 23 **et cetera?"**
 24 **And are those DSO accounts?**
 25 A. They are.

52 (Pages 205 to 208)

209

1 **Q. And you said, "If these convert to**
2 **ownership office I would not put it -- I would not**
3 **put into the straight up GPO bucket."**

4 **Do you see that?**

5 A. I do.

6 **Q. What did you mean by "straight up GPO**
7 **bucket"?**

8 A. So I was repeating what he had said below
9 about this is a straight up GPO, so I was re quoting
10 his words there. And, again, it goes back to if
11 these accounts are owned, in Heartland's case they
12 own the accounts, it's not a GPO; again, it's not a
13 buying group. It's not -- it doesn't fall into
14 that. It's an individual -- it's an elite DSO.

15 Comfort Dental is an example, so here's
16 another one. When I said I don't recall some names,
17 here's one that historically they don't -- they own
18 some of their practices, and they're more of an MSO
19 to other practices. In other words, they provide
20 some management services. So they don't own, but
21 they fall underneath the Comfort contract, if you
22 would, and therefore they get the pricing.

23 And, again, but there's an example of they
24 don't own them; they don't necessarily mandate that
25 they have to buy, but all the Comfort locations do.

210

1 So I was challenging him saying there's a
2 mix of what's happening here, so we haven't actually
3 determined exactly what the strategy is going to be.
4 It's evolving. So I was challenging what would you
5 do, here is what he said; then what would you do
6 with the others, you know, we need to talk.

7 **Q. You said so we haven't actually determined**
8 **what the strategy is going to be.**

9 **In October 2014 did Schein not have a**
10 **strategy on buying groups?**

11 A. It was very open as I mentioned. We had
12 some relationships. We knew the trend was picking
13 up. How do you want to address this trend going
14 forward? Do we need to rethink how we've done
15 things in the past? Do the parameters change?

16 So it's an evolving strategy. It's
17 evolving as we sit here today.

18 **Q. Why do you say that?**

19 MR. McDONALD: Object to the form.

20 BY MS. KAHN:

21 **Q. What's evolving?**

22 A. Our -- how we're -- how we're evolving and
23 working with our customers based on trends that
24 we're seeing in the industry.

25 **Q. In October 2014 was Schein selling to,**

211

1 **quote, straight up GPOs?**

2 A. Well, again, not GPOs, the term being
3 buying groups. I don't know. I don't know what
4 he's referring to as a straight up GPO. I was just
5 reusing Joe's words for him.

6 **Q. You can put that document aside.**
7 **(Exhibit 214 was marked for**
8 **identification.)**

9 BY MS. KAHN:

10 **Q. You have Exhibit 214 in front of you. Let**
11 **me know when you are ready.**

12 A. Okay.

13 **Q. Exhibit 214 is another e-mail chain**
14 **discussing Dental Gator; is that correct?**

15 A. Correct.

16 **Q. And it looks like Mr. Muller was trying to**
17 **figure out an appropriate pricing plan for**
18 **Dental Gator; is that right?**

19 A. Correct.

20 **Q. I'm going to direct you to**
21 **Mr. Breslawski's e-mail in the middle on the first**
22 **page on January 28, 2015. He wrote, "Thanks. It is**
23 **important that while accommodating for unique**
24 **reasons here, we don't help open the floodgates on**
25 **buying groups, exclamation point."**

212

1 **Do you see that?**

2 A. I do.

3 **Q. What did you understand him to mean there?**

4 MR. McDONALD: Object to the form.

5 THE WITNESS: I'd be speculating what he's
6 defining buying groups there, so I don't want to
7 speculate to that.

8 BY MS. KAHN:

9 **Q. Did you have any -- do you recall**
10 **receiving this e-mail?**

11 A. I do.

12 **Q. Did you have any understanding of what**
13 **Mr. Breslawski meant when you read it?**

14 A. I would have made assumptions about it,
15 but, again, I'd be speculating about it.

16 **Q. What was your understanding of what**
17 **Mr. Breslawski wrote?**

18 A. From it that what I would call the
19 traditional buying group, if it's only about their
20 purchases and nothing else, that we don't want to
21 open -- in this case he's saying we don't want to
22 open up floodgates to just that type of buying
23 group.

24 But, again, we've been working with buying
25 groups significantly in the past, and we will

213

1 continue to work with them here and into the future.

2 **Q. You worked with buying groups**
3 **significantly in the past. What do you mean by**
4 **"significantly"?**

5 A. We've had a number of relationships with
6 buying groups in the past, as I've already
7 testified.

8 **Q. So is it wrong to say that at the time of**
9 **this e-mail Schein was, generally speaking, not**
10 **working with buying groups?**

11 A. That would be wrong.

12 **Q. Do you have any understanding of why**
13 **Mr. Breslawski would not want to open the floodgates**
14 **on buying groups?**

15 MR. McDONALD: Object to the form.

16 THE WITNESS: I'd be speculating what his
17 thoughts were there.

18 BY MS. KAHN:

19 **Q. Do you know if Mr. Breslawski thought that**
20 **Schein was not working with buying groups?**

21 MR. McDONALD: Object to the form.

22 THE WITNESS: I'm confident he knew that
23 we were already at this point.

24 BY MS. KAHN:

25 **Q. Why is that?**

214

1 A. He's the CEO of our dental business.

2 **Q. And he would know about the buying groups**
3 **that Schein was selling to?**

4 A. And he had been involved in these type of
5 discussions about, you know, we have in the past,
6 here is an example of one we're working with. And
7 so he knows Dental Gator is a buying group; we're
8 working with them. He's aware of that. Hal
9 supports in to Jimmy.

10 **Q. But I read Mr. Breslawski's e-mail to mean**
11 **that Dental Gator was a unique situation and that**
12 **Schein shouldn't do this on a regular basis.**

13 **Is that not how you read his e-mail?**

14 MR. McDONALD: Object to the form.

15 THE WITNESS: That's your -- you're
16 speculating what he's thinking?

17 MR. McDONALD: Yes, she is. She is not
18 going to testify.

19 MS. KAHN: If you have an objection,
20 please state it for the record.

21 MR. McDONALD: You know what, Lin, ask a
22 question that's not objectionable, okay. You're not
23 here to testify or give your understanding. You can
24 ask him a question. You've asked him three times if
25 he has an understanding, and he said no, he would be

215

1 speculating.

2 Ask another question, please.

3 BY MS. KAHN:

4 **Q. Mr. Sullivan, you understand that we**
5 **received this document as part of our investigation,**
6 **correct?**

7 A. Yes.

8 **Q. And our job in this investigation is to**
9 **review the documents and try to understand them.**

10 **Do you understand that?**

11 A. I do.

12 **Q. And I'm just trying to understand from you**
13 **what your interpretation of this document is.**

14 **Do you understand that?**

15 A. I understand that.

16 **Q. Okay. And aside from what we've already**
17 **talked about, is there any other information that**
18 **you have to share that would help us understand**
19 **Mr. Breslawski's statement here?**

20 A. No.

21 **Q. You can put that aside.**

22 **I can go on to the next document, or do**
23 **you guys want to take a break?**

24 MR. McDONALD: It's up to you.

25 THE WITNESS: I'm good.

216

1 MS. KAHN: Okay.

2 (Exhibit 215 was marked for
3 identification.)

4 BY MS. KAHN:

5 **Q. You have Exhibit 215 in front of you. Let**
6 **me know when you are ready.**

7 A. Okay.

8 **Q. Exhibit 215 is an e-mail from Graham**
9 **Stanley to Mr. Breslawski, you, Mr. Steck and a few**
10 **other individuals.**

11 **Do you see that?**

12 A. I do.

13 **Q. And the subject is Meeting notes:**
14 **November 2nd.**

15 **What meeting is he referring to?**

16 A. We -- I believe this is a meeting we had
17 in our office in West Allis, part of what we would
18 call our off-site planning meeting.

19 **Q. And who attended that meeting?**

20 A. This one was more my direct team, so it
21 was the focus on the U.S. end of it. It's not a
22 global dental analysis.

23 **Q. Was Mr. Breslawski present?**

24 A. I believe so.

25 **Q. Are the individuals on the To: line, those**

217

1 were the individuals at the meeting?
 2 A. That's my understanding, yes.
 3 **Q. And who is Graham Stanley?**
 4 A. He is the global chief financial officer.
 5 **Q. Was he present at the meeting?**
 6 A. I believe so, yes.
 7 **Q. And do you know why he was sending this**
 8 **e-mail?**
 9 A. I think it was summary notes from some of
 10 the key takeaways from the meeting on various
 11 topics.
 12 **Q. Had somebody asked him to send this?**
 13 A. Usually Jim Huether would be that
 14 individual -- you've seen some prior messages -- but
 15 Jim must not have been at the meeting. So Graham as
 16 the CFO would just -- decided to take the notes,
 17 summary notes.
 18 **Q. I'm going to turn to the second page.**
 19 **There's a section titled Buying Groups.**
 20 **Do you see that?**
 21 A. I do.
 22 **Q. Okay. And, again, these are notes, these**
 23 **are Mr. Stanley's notes of what took place during**
 24 **the November 2nd meeting?**
 25 A. Correct.

218

1 **Q. And this says, "Buying Groups, colon: Tim**
 2 **clearly set out that HS should not be first to**
 3 **cooperate with GPOs but also don't want to be last."**
 4 **Do you see that?**
 5 A. I do.
 6 **Q. And do you recall saying something to that**
 7 **effect at the November 2nd meeting?**
 8 A. I think this is poorly summarized, you
 9 know, his summary notes. The discussion was, again,
 10 how are we going to work with them, how have we done
 11 in the past, and how do we set a strategy for
 12 working with them in the future.
 13 If -- I think it's -- I believe it's
 14 poorly worded because the discussion was really
 15 about how do we want to work with them on whether --
 16 is it mandated purchases, is it, you know, all the
 17 things that we've been talking about.
 18 So I don't think it properly summarizes my
 19 position.
 20 **Q. So you did not, at this meeting, you did**
 21 **not clearly set out that Henry Schein should not be**
 22 **first to cooperate with GPOs?**
 23 A. Correct.
 24 **Q. Nor did you say that Henry Schein, that**
 25 **you don't want to be the last to cooperate with**

219

1 **GPOs?**
 2 A. That's correct.
 3 **Q. So Mr. Stanley got the notes wrong?**
 4 A. I think it's poorly worded.
 5 **Q. Well, I mean, when you say "poorly**
 6 **worded," I'm trying to understand.**
 7 **Is there another way to read what he wrote**
 8 **that would be consistent with what you expressed at**
 9 **the meeting?**
 10 A. Yes, I think the summary of the notes on
 11 this topic could have been drafted differently.
 12 **Q. And what he wrote you never said? What he**
 13 **said you clearly set out you did not clearly set**
 14 **out?**
 15 A. That's correct.
 16 **Q. Okay. Did you get a chance to review the**
 17 **rest of the notes here?**
 18 A. I did.
 19 **Q. Is there anything else in here that**
 20 **Mr. Stanley got wrong?**
 21 A. Let me review again.
 22 So his comment here, "Planmeca USA not
 23 fully behind the product," plan -- they absolutely
 24 were fully behind the product. They were struggling
 25 with certain support, but to say that they were not

220

1 fully behind the product is not an accurate
 2 statement.
 3 **Q. Anything else?**
 4 A. Bob P. not participating in the meeting,
 5 his name is Bob Pienkowski, not
 6 participating/attending meetings, that's not
 7 accurate. He was attending meetings. He just
 8 wasn't attending all of them. So it's not clear.
 9 It's a generalization, but it's not clear.
 10 Confidence and quality of reps in
 11 marketing, they have some excellent reps, but
 12 they're struggling. They were losing some reps and
 13 replacing them with newer ones. So it wasn't that
 14 the quality was bad; they were having some turnover
 15 issues.
 16 That's one example.
 17 **Q. Okay. I appreciate that.**
 18 **So turning back to the buying group**
 19 **summary point, do you recall what you stated at the**
 20 **November 2nd meeting?**
 21 A. Not exactly, but it was along the lines of
 22 we have worked with buying groups in the past; it is
 23 definitely a market trend that's happening, you
 24 know. We don't want to -- maybe that's what he's
 25 thinking about, you know, we don't want to be the

55 (Pages 217 to 220)

221

1 first to cooperate. We're not going to lead the way
2 in creating a specific buying group strategy other
3 than when approached we want to understand what the
4 benefits could be, you know, and how it's aligned
5 with our strategy along with the group's strategies
6 and its members, so similar to what we have, you
7 know, been talking about here.

8 **Q. And why didn't you want to lead the way?**

9 A. Poor choice of words. We were -- it's the
10 trend happening in the marketplace, actually view us
11 as being the leader in everything we do relative to
12 our customers and the customers' needs, so we wanted
13 to work with our customers; those that believe they
14 need and want to join a buying group, understand the
15 reasons why and then create a program for -- either
16 through our own, which is why we're talking about
17 possible solutions, you know, work being done to
18 redefine our Privileges programs, address their
19 needs that way directly with us. Or if it's through
20 a group, then how we work with that group to make
21 sure that they're aligned and their members will
22 continue to buy.

23 **Q. So you did want to lead the way with
24 buying groups?**

25 MR. McDONALD: Object to the form.

223

1 **buying groups, but you're recanting that testimony;
2 is that right?**

3 A. I'm restating it. I think it was poorly
4 worded.

5 **Q. What's your restatement of that testimony?**

6 A. Can you read? I think I did.

7 **Q. I didn't get anything about leading.**

8 A. Okay. So we want to lead the way with our
9 customers in addressing their needs, so in that
10 regard absolutely we want to lead the way. And if
11 they're in a position where they want to join a
12 buying group, we want to understand why and address
13 their needs either through our own programs that we
14 already have for them or work with a buying group to
15 say does it make sense for us to work with them. So
16 in that respect I believe we're leading the way in
17 the industry and in the market.

18 So ...

19 **Q. Was there anything that you said that
20 would have given Mr. Stanley the impression that
21 Schein didn't want to be first to do something?**

22 MR. McDONALD: Object to the form.

23 THE WITNESS: Not that I recall.

24 BY MS. KAHN:

25 **Q. Was there anything that you said that**

222

1 THE WITNESS: If the strategy made sense
2 with a particular group, absolutely.

3 BY MS. KAHN:

4 **Q. Okay. I'm just trying to understand how
5 Mr. Stanley summarized -- strike that.**

6 **Did you respond to Mr. Stanley's e-mail?**

7 A. I don't recall. I'd have to -- see,
8 there's a lot of notes in here.

9 **Q. Do you recall reading this summary when
10 you received it?**

11 A. I recall seeing this. I don't recall, you
12 know, line-by-line detail, no.

13 **Q. And did you -- do you recall telling
14 Mr. Stanley that he got your position on buying
15 groups wrong in his summary?**

16 A. No, I do not.

17 **Q. Why not?**

18 MR. McDONALD: Object to the form.

19 THE WITNESS: Because we were going to
20 create -- we knew we had meetings coming up to
21 discuss it further, clarify it there.

22 BY MS. KAHN:

23 **Q. So I just wanted to be clear. Earlier you
24 said maybe what he was getting at was that you
25 didn't want to lead the way with a strategy on**

224

1 **would have made Mr. Stanley get the impression that
2 you didn't want to be last to do something?**

3 A. Not that I -- not that I recall.

4 **Q. Does it matter to Schein whether other
5 distributors are selling to buying groups?**

6 A. Only in the respect of, as I mentioned
7 before, if a buying group decides to work with
8 another dealer and then those members shift to those
9 dealers, to that program, to another dealer,
10 absolutely.

11 **Q. And that would be a risk if other dealers
12 were selling to buying groups, right?**

13 A. In that regard, yes.

14 **Q. All right. You can put that document
15 aside.**

16 **Why don't we take a break now.**

17 (Whereupon, a lunch recess was
18 taken from 12:34 p.m. to
19 1:18 p.m.)

20 BY MS. KAHN:

21 **Q. Welcome back, Mr. Sullivan.**

22 A. Thank you.

23 **Q. Would you say that buying groups have been
24 a high priority at Schein in the last ten years?**

25 A. The buying group initiative in and of

225

1 itself has not made our top five key priorities, but
2 it's been an important aspect of what we're doing
3 relative to the mid-market space, yes.

4 **Q. Are you referring to a specific initiative
5 when you say "the buying group initiative"?**

6 A. No, I'm saying the buying group segment.

7 **Q. It has not been one of the top five key
8 priorities you said; is that right?**

9 A. That's correct.

10 **Q. Do you have any sense of where it would
11 rank in the longer list of priorities?**

12 A. No.

13 **Q. Was it a top ten, one of the top ten
14 priorities?**

15 A. We don't rank the top ten.

16 **Q. What were the top five priorities?**

17 MR. McDONALD: Object to the form.

18 THE WITNESS: It's very -- it's been part
19 of our -- there's various different three-year
20 strat. plans.

21 MS. KAHN: Got it.

22 (Exhibit 216 was marked for
23 identification.)

24 BY MS. KAHN:

25 **Q. You've been handed Exhibit 216. Let me**

226

1 **know when you are ready.**

2 A. Okay.

3 **Q. Exhibit 216 is an e-mail chain entitled --
4 the subject is RE: Klear Impact Buying Group
5 question mark.**

6 Do you see that?

7 A. I do.

8 **Q. Do you recall this e-mail chain?**

9 A. I do.

10 **Q. Your bottom -- the earliest in time e-mail
11 is from you to Jake Meadows on November 3rd, 2015,
12 and you said, "You slid me a note about this group
13 during the SM budget meeting."**

14 Do you see that?

15 A. I do.

16 **Q. And you're referring to Mr. Jake Meadows
17 slipping you a note about Klear Impact buying group?**

18 A. That's correct.

19 **Q. And the SM budget meeting, is that part of
20 the November 2nd meeting that we were looking at in
21 Exhibit 215?**

22 A. I believe so, yes.

23 **Q. And you can look back at 215.**

24 A. I believe it is. The dates look right.

25 **Q. Got it. And is the SM budget meeting a**

227

1 **specific portion of the overall meeting?**

2 A. Correct.

3 **Q. And what --**

4 A. There's a segment of the meeting that we
5 talked about special markets, where there's
6 crossover, how do we structure our teams to, you
7 know, actually work closer together, that type of
8 thing.

9 **Q. Do you remember what Mr. Meadows wrote to
10 you on the note that he passed to you?**

11 A. That I do not.

12 **Q. Fair to say that it was about
13 Klear Impact?**

14 A. Yes.

15 **Q. And that Klear Impact was a buying group?**

16 A. I didn't know. I'm asking the question
17 who are they, where are they essentially. I didn't
18 know who they were.

19 **Q. You wrote to Mr. Meadows on the last page
20 there, "I had just informed Hal and team that we do
21 not have plans to open up new buying groups but have
22 a plan ready to roll if needed."**

23 Do you see that?

24 A. Yes.

25 **Q. And what were you referring to there when**

228

1 **you said "I just informed Hal and team that we do
2 not have plans to open up new buying groups"?"**

3 A. So I don't know what I wrote the Hal in
4 particular, but I'm highlighting the fact, you know,
5 a little bit of where Graham got his, you know,
6 comment from relative to, you know, we are not
7 looking to accelerate the buying group segment.
8 We've worked with them; we'll continue to work with
9 them. We don't have plans right now to open up new
10 ones. We don't know of new ones that are at the
11 table, but as they come up we will address them.

12 So we're not looking to accelerate the
13 plans, maybe, again, Jimmy's reference to opening
14 the floodgates. It's those type of analogies we're
15 using to say we're in the space; we've always been
16 in the space; we will continue to be in the space;
17 we're not looking to accelerate their growth.

18 I think our model is very good for our
19 customers, but as the market evolves we will look at
20 them on an individual basis. I was getting into
21 then so tell me more specifically about
22 Klear Impact, who are they, what are they; maybe we
23 can put something together for them.

24 **Q. At the time that you wrote this, were you
25 open to selling to a new buying group?**

229

231

1 A. Yes.

2 **Q. And you mentioned that you were not**
3 **looking to accelerate the buying group segment.**
4 **Do you remember that?**

5 A. Yes.

6 **Q. Was that a change in strategy, or was that**
7 **always your strategy for the last ten years?**

8 A. It was -- it's always been -- let me make
9 sure I phrase this right. We've always worked with
10 buying groups. We've had numerous that we've worked
11 with in the past, continue to work with them, you
12 know, going forward as the market evolves and our
13 customers evolve, but we don't have plans to
14 necessarily, you know, accelerate it in a pace
15 faster than it may be already moving.

16 We believe our existing model, our current
17 model ten years ago was serving the market well,
18 five years ago well, and today it's moving well.
19 But our structure has evolved. How we have gone to
20 the market has evolved.

21 So we're evolving with the market, and
22 we'll continue to come up with submissions for
23 customers.

24 **Q. And I just want to clarify this. You were**
25 **talking about you didn't want to accelerate it any**

1 **you wouldn't want to see happen if buying groups**
2 **were to grow?**

3 A. So as I've testified prior, there are two
4 potential negative outcomes with, you know, buying
5 groups. So as I said, we don't think putting large
6 groups of our customers, you know, together, again,
7 it's nothing we want to accelerate, but if that's
8 where the market is going we are absolutely going to
9 address it. But the likelihood of customers
10 potentially as they're in large groups making
11 decisions to move their business, you could have a,
12 you know, positive impact if they come over to us or
13 a negative impact if they leave.

14 So that's the -- one of the potential
15 outcomes as I've talked about, and we don't think
16 accelerating getting those groups together is
17 necessarily a good thing for our customers or for
18 us.

19 **Q. Why not for your customers?**

20 A. We believe that our current go-to-market
21 strategy and understanding what really the customer
22 care wheel that I talked to you about can do for our
23 customer and address all of their needs.

24 **Q. Is it fair to say that you know customers**
25 **are better served by Henry Schein directly than by**

230

232

1 faster.

2 **Has that always been the thinking, or was**
3 **that a new thinking in 2015?**

4 A. I don't know that it changed dramatically
5 over the years. We, again, we addressed our needs
6 of our customers as it was at the time. It itself
7 has been accelerating, and we've talked about the
8 markets evolving and we get more and more approach
9 from more customers about buying groups, so,
10 therefore, we need to accelerate with the market.
11 But we ourselves didn't want to -- don't want to be
12 the ones that, you know, create that acceleration.
13 It's happening -- there are certain things happening
14 in the market that are going to happen with or
15 without us.

16 **Q. Why do you not want to accelerate the**
17 **growth of buying groups?**

18 A. We think our current strategy is really
19 good for our customers, and we can address their
20 needs, whatever they are. That's why we sit down,
21 have the business discovery meetings with them to
22 understand their needs and create a program that can
23 address it.

24 **Q. What's the -- strike that.**
25 **Is there an impact, a negative impact that**

1 **buying groups?**

2 A. Absolutely.

3 **Q. You talked about positives and negatives**
4 **as a result of buying groups; is that right?**

5 A. Yes.

6 **Q. I guess can you help me understand why**
7 **there are potential positives and potential**
8 **negatives, why Schein wouldn't want to accelerate**
9 **the growth of buying groups?**

10 MR. McDONALD: Object to the form, asked
11 and answered.

12 THE WITNESS: Yeah, I think I've addressed
13 it, but, again, it goes back to what I've said at
14 one point not looking for an intermediary between us
15 and our customer. So we want to work directly with
16 you, Dr. Lin, and what's going on in your practice,
17 not someone else, you know, determining one of the
18 factors that impact our customer care wheel.

19 BY MS. KAHN:

20 **Q. And during the November 2nd series of**
21 **meetings I guess, did you say anything about Schein**
22 **not having any buying group agreements?**

23 A. About not having -- you know, we had -- we
24 absolutely had buying group agreements at that time
25 already.

233

235

1 **Q. So you did not say that?**

2 A. I don't recall saying it. I don't know
3 why I would say that. I know we had agreements with
4 customers already that were buying groups, and I
5 know we were -- you know, would be adding more in
6 the future as they approach us. We didn't have any
7 current plans that I was aware of at this time that
8 we were working with. That's why I was asking about
9 Klear Impact; it was unknown, who is this, tell us
10 more about it.

11 **Q. I just want to be clear. You don't recall**
12 **saying it, or is your testimony that you did not say**
13 **that?**

14 A. Say what?

15 **Q. That Schein does not have any buying group**
16 **agreements.**

17 A. I don't know why -- I don't recall saying
18 it, so I don't know I would say it. I know we had
19 buying group agreements at that time.

20 **Q. And do you recall saying that Schein would**
21 **not do buying group agreements?**

22 A. No.

23 **Q. You can put that aside.**
24 **(Exhibit 217 was marked for**
25 **identification.)**

1 A. No.

2 **Q. Do you have any understanding of how**
3 **Mr. Meadows could have taken this away from that**
4 **meeting?**

5 A. I don't.

6 **Q. And do you know what Mr. Meadows meant**
7 **when he said -- well, strike that.**

8 **Sitting here today, reading what**
9 **Mr. Meadows wrote here, soapboxing about HSD and**
10 **buying groups, do you know what that means?**

11 A. I do not.

12 **Q. Have you in the past talked -- strike**
13 **that.**

14 **You can put that aside.**

15 **You talked about Schein working a lot with**
16 **buying groups in the past, right?**

17 A. Yes.

18 **Q. When did Schein start selling to buying**
19 **groups?**

20 MR. McDONALD: Objection to form, lack of
21 foundation.

22 THE WITNESS: I don't know. I've been
23 with the company 20 years. They could have been
24 doing it before that. I don't know.
25

234

236

1 BY MS. KAHN:

2 **Q. You have Exhibit 217 in front of you. Let**
3 **me know when you are ready.**

4 A. Okay.

5 **Q. Exhibit 217 is an extension of**
6 **Exhibit 216, and I realize that you are not on the**
7 **later parts of the chain; is that right?**

8 A. Correct.

9 **Q. Okay. And this is also about Klear Impact**
10 **as well as the November 2nd meeting; is that right?**

11 A. That's right.

12 **Q. Mr. Meadows wrote to Mr. Cavaretta on**
13 **November 3rd -- strike that. Let me go back a chain**
14 **so the record is clear.**

15 **Mr. Cavaretta asked Mr. Meadows, "Did you**
16 **slide the note to Tim on this"; is that right?**

17 A. I see that.

18 **Q. And Mr. Meadows wrote back, "I had to,**
19 **sorry. He was going off about how we do not have**
20 **any buying group agreements and that we will not do**
21 **them, soapboxing about HSD and buying groups."**

22 **Do you see that?**

23 A. I do.

24 **Q. Is Mr. Meadows' characterization of what**
25 **you said at the November 2nd meeting accurate?**

1 BY MS. KAHN:

2 **Q. Do you recall the first time that you**
3 **learned that Schein was selling to a buying group?**

4 A. No, I do not.

5 **Q. Was it more than ten years ago?**

6 A. Yes.

7 **Q. And what group was that, do you know?**

8 A. I do not. It might have been the
9 Alpha Omega as an example.

10 **Q. Do you know when Schein started selling to**
11 **Alpha Omega?**

12 A. I do not.

13 **Q. And the buying groups that Schein has sold**
14 **to in the past, what division has it been out of?**

15 A. Through both -- the primary focus was
16 through Hal's special markets team before we
17 segmented between the elite and the DSOs and mid
18 markets, but we within HSD within the dental
19 business, as I mentioned, in the past study clubs,
20 you know, various state groups, you know, we had
21 worked with them on an HSD perspective in the past
22 too.

23 **Q. And the buying groups that Schein had sold**
24 **to in the past, again putting aside the Smile Source**
25 **recent agreement, were you personally involved in**

237

1 **approving those sales?**
 2 A. No, not that I recall.
 3 **Q. Did anybody ask for your approval for**
 4 **those sales?**
 5 A. With a particular buying group?
 6 **Q. With the buying groups prior to**
 7 **Smile Source.**
 8 A. Not that I recall, not a specific example
 9 of a particular buying group, no. We talked about
 10 the concept of buying groups prior to that. But you
 11 just said -- you excluded Smile Source. I don't
 12 know another incident or specific group that I was
 13 involved in, no.
 14 **Q. Have you ever talked about buying groups**
 15 **with Hal Muller?**
 16 A. Yes.
 17 **Q. And do you have an understanding of how**
 18 **Mr. Muller sees buying groups?**
 19 A. We definitely -- we had a difference of
 20 opinion, as you saw in the Dental Gator example.
 21 **Q. What was that difference of opinion?**
 22 A. That he -- his approach would be
 23 different, and he was fine with the only thing that
 24 they were interested in price and nothing else
 25 mattered. It wasn't as big a concern for him. He

238

1 deals with a different segment of the market, and
 2 whether they're owned or not owned, he didn't have
 3 the same opinion of myself where, you know, if it's
 4 owned that's one thing; if it's not, they're making
 5 individual purchasing decisions, it's another thing.
 6 **Q. Okay. And I just want to clarify the**
 7 **difference in thinking between you and Mr. Muller.**
 8 **I think you said that Mr. Muller was fine with the**
 9 **only thing that they were interested in is price.**
 10 **Can you explain that to me?**
 11 A. Well, as I said in the past, the way we
 12 want to work with buying groups is if -- you know,
 13 price is a component of the overall value
 14 proposition that we provide, and if part of that
 15 they can also convert the business, that's
 16 incremental volume, there's alignment of interests
 17 with our customers and those customers that are
 18 members of the group, that's how we want to work
 19 with the buying group.
 20 Hal's position historically has been
 21 different. His was let's take a shot at anything.
 22 We can get a ton of customers that sign up, and
 23 whether they buy or not, it wasn't that important to
 24 him. To us that creates challenges.
 25 **Q. And why do you think Mr. Hal -- Mr. Muller**

239

1 **had a different view than you?**
 2 A. You'd have to ask him. I don't know.
 3 **Q. You guys never talked it further than just**
 4 **understanding the differences?**
 5 A. Correct.
 6 **Q. And did you make your views known to**
 7 **Mr. Hal Muller?**
 8 A. Yes.
 9 **Q. And did he tell you that he disagreed with**
 10 **you?**
 11 A. From time to time, yes.
 12 **Q. Did anybody else within Henry Schein**
 13 **Dental tell you that they disagreed with you on your**
 14 **approach to buying groups?**
 15 A. Not that I recall.
 16 **Q. What about other people in special**
 17 **markets?**
 18 A. I never really worked with them, so not
 19 that I recall, no.
 20 (Exhibit 218 was marked for
 21 identification.)
 22 BY MS. KAHN:
 23 **Q. You have Exhibit 218 in front of you. Let**
 24 **me know when you're ready.**
 25 A. Okay.

240

1 **Q. Exhibit 218 is an e-mail chain, and I**
 2 **realize you're not on it.**
 3 **Is that right?**
 4 A. Correct.
 5 **Q. And you've never seen this document**
 6 **before?**
 7 A. Other than in preparation for this
 8 deposition.
 9 **Q. Did you review this document in**
 10 **preparation with your attorney?**
 11 A. I did.
 12 **Q. And -- okay.**
 13 **This Exhibit 218 is -- the top e-mail is**
 14 **from Jake Meadows to Patty Delikat on July 17, 2012.**
 15 **Do you see that?**
 16 A. I do.
 17 **Q. And this e-mail chain is about a Schein**
 18 **employee helping to put together a buying group.**
 19 **Is that your understanding?**
 20 A. Could you repeat the question?
 21 **Q. Sure. Is this e-mail chain about a buying**
 22 **group?**
 23 A. It is.
 24 **Q. Okay. And who is Ron and Dan who are**
 25 **referred to in that top e-mail?**

60 (Pages 237 to 240)

241

243

1 A. The lead -- Ron Brown at the time was our
2 regional manager, and I believe Dan was our regional
3 operations manager in that market. I think this is
4 Washington State.

5 **Q. And from reading this, was Ron putting
6 together -- working on putting a buying group
7 together?**

8 MR. McDONALD: Object to the form.

9 THE WITNESS: I don't know that Ron was
10 working to put it together. I think they were
11 approached by this group to work with.

12 BY MS. KAHN:

13 **Q. And who is Patty Delikat?**

14 A. She is one of our field sales consultants.

15 **Q. And is it fair to say that Ms. Delikat was
16 saying here that Ron and Dan had approved some
17 discounts for this buying group?**

18 A. I think that's what I read, but I wasn't
19 involved with that. I see that statement, yes.

20 **Q. Okay. I just want to make sure that's how
21 you -- but that's your understanding as well from
22 reading this sitting here today?**

23 A. I'm saying I believe Ron had a discussion
24 with our field sales consultant approving it. I
25 don't know if anything was done with the customer at

1 A. I do.

2 **Q. And do you know why Mr. Meadows would have
3 gotten the impression that you directed him to not
4 support buying groups?**

5 MR. McDONALD: Object to the form.

6 THE WITNESS: I don't think that's what
7 he's -- that's not what I read here.

8 BY MS. KAHN:

9 **Q. Okay. What do you read here?**

10 A. Well, I don't know what happened between,
11 you know, the time that he received this e-mail and
12 the next day when he's responding to Patty, if he
13 spoke with Ron further and now he understood better.
14 I don't know.

15 But in general that's why he's asking the
16 questions down here, which supports what I was
17 saying before about how and why and when we will
18 work with buying groups; you know, who is the leader
19 of the group, is there a relationship there, how
20 many offices do they have, what's the average
21 purchase, has it been presented to them yet, what
22 discounts are we talking about, will each office
23 buy.

24 There's a series of questions that he
25 asked prior to that, and so I don't know what

242

244

1 this point. The way I read it, this is from Patty,
2 our field sales consultant, to Jake after he had
3 asked a series of questions that align with what
4 we've been talking about relative to how and why and
5 when we work with a buying group. The discounts
6 were approved by Ron and Dan. He didn't answer the
7 question, you know, has it been presented, and she's
8 answering the question about were the discounts
9 approved and by who, and she's saying Ron and Dan.

10 **Q. Got it. It was approved at least
11 internally by Ron and Dan?**

12 A. That's correct.

13 **Q. So Ron and Dan had approved some sort of
14 discount for a buying group. Is that your
15 understanding?**

16 A. That's my understanding.

17 **Q. Okay. And then let me read Jake Meadows'
18 e-mail to Patty Delikat. "We can talk about this.
19 I have to tell you Ron and Dan made a decision that
20 is against what Tim Sullivan has directed us to do
21 in regards to supporting buying groups. We do not
22 want our customers organizing and creating what are
23 known as GPOs. It takes the value away from the
24 distributor."**

25 **Do you see that?**

1 happened between all of that and that response.

2 **Q. And have you ever directed anyone within
3 Schein that you do not want your customers
4 organizing and creating buying groups?**

5 A. Only in the spirit that I've outlined
6 before about it's a trend in the marketplace; we see
7 it's happening; we've worked with groups, buying
8 groups in the past; we will continue to work with
9 them in the future. It is accelerating. We don't
10 want to be the accelerator or the accelerator of it.
11 It's happening on its own, so we will work with the
12 market in that regard in that respect.

13 **Q. But you've never directed anyone within
14 Schein that you do not want your customers
15 organizing and creating buying groups?**

16 A. That's correct.

17 **Q. And do you -- have you ever had the
18 sentiment that buying groups take away -- takes the
19 value away from the distributor?**

20 A. I think it's a poor way of saying we don't
21 want anyone between us and our customer. We want
22 the value the customer sees and why they do business
23 with us, the value we want to be with Henry Schein.
24 We want the value that a customer sees or views as
25 why they're buying from Henry Schein, that value we

245

1 want absolutely viewed as a value by doing business
 2 with Henry Schein.
 3 **Q. Not the buying group?**
 4 A. Not any form of intermediary.
 5 **Q. I guess I'm a little confused because**
 6 **earlier you said that you want to work with buying**
 7 **groups that offer value-added services, but doesn't**
 8 **that -- wouldn't that take away from the value that**
 9 **Henry Schein has?**
 10 A. No. I think you're reading into what I
 11 said because what I said is I want their values
 12 aligned with ours, and that value can still be
 13 viewed as a Henry Schein value.
 14 **Q. Got it.**
 15 A. When you work with those customers, they
 16 still buy from -- when they're in a buying group
 17 they still buy from Henry Schein Dental. We want
 18 them viewing the why they're buying is because of
 19 the value that we bring.
 20 **Q. And if a buying group is aligned, meaning**
 21 **they also want to provide additional value, the**
 22 **customer would view that as a Henry Schein value as**
 23 **well?**
 24 MR. McDONALD: Object to the form.
 25 THE WITNESS: I don't know which value.

246

1 Can you give me an example of what type of value
 2 that could be?
 3 MS. KAHN: It's okay. We don't have to go
 4 back.
 5 (Exhibit 219 was marked for
 6 identification.)
 7 BY MS. KAHN:
 8 **Q. You have Exhibit 219 in front of you.**
 9 A. Yes.
 10 **Q. Let me know when you're ready. And let me**
 11 **just represent that you're not on the top two**
 12 **e-mails, and I will not be asking you about those.**
 13 A. Okay.
 14 **Q. Starting at the bottom you're on there.**
 15 A. Okay.
 16 **Q. Are you ready?**
 17 A. I am.
 18 **Q. Exhibit 219 is an e-mail chain, but I'm**
 19 **only going to ask you about the portion which is an**
 20 **e-mail from Brian Brady to many individuals with a**
 21 **cc to you and others on September 9th, 2015, and I**
 22 **believe the subject line was Henry Schein Dental &**
 23 **Existing Buying Groups; is that correct?**
 24 A. Yes.
 25 **Q. Did you receive this e-mail from**

247

1 **Mr. Brady?**
 2 A. I did.
 3 **Q. And at this time in September 2015**
 4 **Mr. Brady had moved into his buying group position?**
 5 A. Responsibility was for the mid-market
 6 space including buying groups, yes.
 7 **Q. Okay. So he wasn't specifically**
 8 **responsible for buying groups and GPOs?**
 9 A. Not -- that wasn't his sole
 10 responsibility. That was in his realm of
 11 responsibility.
 12 **Q. Did anybody else within Schein have any**
 13 **responsibilities over buying groups and GPOs?**
 14 A. Not directly like Brian did.
 15 **Q. Was Mr. Brady tasked to deal with buying**
 16 **groups and GPOs?**
 17 A. To help us develop the strategy and, you
 18 know, any material that we would present. For
 19 example, he helped put together the presentation for
 20 Smile Source. He was involved in that one. So as
 21 they come up, he'd get involved working with our
 22 local teams on what to present and how to present
 23 it.
 24 **Q. Okay. Mr. Brady wrote on September 9,**
 25 **2015, in the third paragraph there, he wrote,**

248

1 **"Traditionally Schein has rarely engaged with these**
 2 **groups."**
 3 **Do you see that?**
 4 A. I do.
 5 **Q. And do you understand "these groups" to**
 6 **mean buying groups?**
 7 A. I do.
 8 **Q. And do you disagree with Mr. Brady's**
 9 **statement that traditionally Schein has rarely**
 10 **engaged with buying groups?**
 11 A. I mean, in a 2-plus-billion-dollar
 12 business, I don't know how much it represented, so I
 13 don't know if he's referring to the overall volume
 14 of the business that we're doing, the number of
 15 customers. We look at 90,000 customers across the
 16 country, so if 500 of them are in various different
 17 groups, maybe he's viewing that as rarely. I don't
 18 know. Don't quote me on the 500 number. I don't
 19 know that number.
 20 I'm just saying I'm not sure his view,
 21 what he means by rarely, so you'd have to ask him.
 22 But we've been -- there are a number of groups that
 23 we have worked with even at this time.
 24 **Q. And I just want to -- you know, aside from**
 25 **what Mr. Brady was thinking or how he was**

62 (Pages 245 to 248)

249

1 **quantifying rarely, sitting here today do you**
 2 **disagree with the statement that traditionally**
 3 **Schein has rarely engaged with buying groups?**
 4 MR. McDONALD: Object to the form.
 5 THE WITNESS: Yeah, I would because I
 6 didn't -- even as my testimony earlier, I wasn't
 7 using the word "rarely," but often we worked with
 8 them. We had many different buying groups.
 9 BY MS. KAHN:
 10 **Q. Okay. So kind of the opposite of what you**
 11 **read here from Mr. Brady?**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: Correct.
 14 MS. KAHN: Okay. You can put that aside.
 15 (Exhibit 220 and Exhibit 221
 16 were marked for identification.)
 17 BY MS. KAHN:
 18 **Q. You have Exhibits 220 and 221 in front of**
 19 **you. Let me know when you are ready.**
 20 A. Okay.
 21 **Q. Okay. Exhibit 220 is an e-mail with an**
 22 **attachment, and the attachment is Medical-Dental GPO**
 23 **9-18-13, and Exhibit 221 is some sort of a calendar**
 24 **scheduler I believe for the meeting that's**
 25 **referenced in Exhibit 220.**

250

1 **Do I have that right?**
 2 A. You do.
 3 **Q. And from Exhibit 221 it looks like you**
 4 **attended that meeting --**
 5 A. That's correct.
 6 **Q. -- or were going to.**
 7 **Did you attend the meeting?**
 8 A. Yes, I did.
 9 **Q. Do you recall attending the meeting?**
 10 A. I do.
 11 **Q. Can you tell me the purpose of the meeting**
 12 **that was held on September 18, 2013?**
 13 A. So Brad Connett and Bill Barr are two
 14 gentleman in our medical division, and they were
 15 making a presentation about GPOs and how they viewed
 16 GPOs relative to the medical market.
 17 And then if I recall, again, I haven't
 18 looked at this since the meeting quite honestly,
 19 they have some things that they know about GPOs and
 20 where they're going to get their growth and that
 21 type of thing.
 22 **Q. And whose idea -- strike that.**
 23 **And were these two individuals Brad and**
 24 **Bill from medical, they were going to give this**
 25 **presentation about GPOs to some dental folks; is**

251

1 **that right?**
 2 A. Correct.
 3 **Q. Was it an education overview of GPOs for**
 4 **the dental side?**
 5 A. That's how I viewed it, yes.
 6 **Q. Whose idea was it to have this meeting?**
 7 A. I don't recall. It wasn't -- I didn't ask
 8 for the meeting.
 9 **Q. Was it Mr. Muller?**
 10 A. I don't know.
 11 **Q. And earlier we talked about Schein using**
 12 **the terms "GPO" and "buying groups" interchangeably.**
 13 **In this presentation there are only references to**
 14 **GPOs, I believe.**
 15 **Do you know if that was meant to be used**
 16 **interchangeably with buying group?**
 17 MR. McDONALD: Object to the form,
 18 mischaracterizes the testimony.
 19 THE WITNESS: As I reread this again now,
 20 I haven't read it since that meeting, it looks to be
 21 GPO focused, not buying groups, but GPOs as defined
 22 earlier.
 23 BY MS. KAHN:
 24 **Q. GPO where you said the entity would**
 25 **negotiate with the manufacturer for discounts?**

252

1 A. Correct.
 2 **Q. Okay. And, again, there are no GPOs in**
 3 **the dental industry?**
 4 A. None that I'm aware of.
 5 **Q. All right. Turning to Slide 8, the last**
 6 **bullet says, "We know that opening the door for them**
 7 **on their terms" -- strike that. Let me just set the**
 8 **stage.**
 9 **Slide 8 has the title What do we know**
 10 **about GPO's?**
 11 **Do you see that?**
 12 A. I do.
 13 **Q. And you take that GPOs to mean the type**
 14 **where -- an actual GPO, not synonymous with buying**
 15 **groups; is that right?**
 16 A. That's correct.
 17 **Q. And the last bullet says, "We know that**
 18 **opening the door for them on their terms is not a**
 19 **favorable approach."**
 20 **Do you see that?**
 21 A. I do.
 22 **Q. And do you know who drafted this**
 23 **presentation?**
 24 A. I believe it was Brad Connett and
 25 Bill Barr.

63 (Pages 249 to 252)

253

1 **Q. And were they making that statement for**
 2 **the dental industry?**
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: I don't know. I don't
 5 recall.
 6 BY MS. KAHN:
 7 **Q. Medical was working with GPOs in 2013,**
 8 **right?**
 9 A. That's correct, yes.
 10 **Q. The second-to-last bullet says, "We know**
 11 **they have contacted dental competition."**
 12 **Do you see that?**
 13 A. I do.
 14 **Q. Do you believe that to mean that we know**
 15 **that GPOs have contacted dental competition?**
 16 A. That's how I read it, but I don't --
 17 again, that's not my presentation. I don't recall
 18 how he portrayed it in this meeting.
 19 **Q. Okay. That's what I was going to ask is**
 20 **do you recall the discussion around these bullets.**
 21 A. I do not.
 22 **Q. Do you have any information to share with**
 23 **us that would help us understand these two bullets?**
 24 A. I do not.
 25 **Q. Can you think of any reason why Schein**

254

1 **would care whether a GPO has contacted your**
 2 **competitors?**
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: No.
 5 BY MS. KAHN:
 6 **Q. Can you think of any reason why Schein**
 7 **would care whether a buying group has contacted your**
 8 **competitors?**
 9 A. Well, I just go back to what I stated
 10 earlier, and maybe the GPOs fall under the same
 11 thing, but as it relates to buying groups, again, if
 12 we decide not to and the group decides to work with
 13 one of our competitors and now that puts our
 14 business at risk, yes, we want -- we would want to
 15 know that, and that does matter to us.
 16 **Q. Why?**
 17 A. As I just stated, if we decide not to work
 18 with the group and the group decided to work with
 19 one of our competitors, and then those customers
 20 that were already existing business of ours now are
 21 members of this group move their business, we lose
 22 the business.
 23 **Q. If you turn to Slide 13, this slide is**
 24 **titled What do we not know about GPO's, and the**
 25 **first bullet says, "Will they be successful in**

255

1 **baiting a dental company to work with them?"**
 2 **Do you see that?**
 3 A. I do.
 4 **Q. Do you recall the discussion around that**
 5 **point?**
 6 A. I do not.
 7 **Q. Is it your understanding that in 2013**
 8 **dental distributors were not generally working with**
 9 **GPOs?**
 10 A. That's my understanding.
 11 **Q. And what about buying groups?**
 12 A. I believe they were as -- I mean, I know
 13 we were for sure, and I know in working with some
 14 groups, you know, that we were up against, you know,
 15 competing with other potential distributors for
 16 their -- for the group.
 17 **Q. And so you talked about this concern of a**
 18 **buying group going to a competitor, right?**
 19 A. Yes.
 20 **Q. Can you tell me about any instances where**
 21 **a buying group has gone to a competitor?**
 22 A. I'll give you the example of Smile Source.
 23 We were partners with them in '04 to '06 I believe
 24 is the time frame. I don't know who they were
 25 working with prior, but when we got the business we

256

1 did well with the customers in that space that were
 2 members of the group, but they didn't have nearly
 3 the traction with gaining much incremental business
 4 from the group, and then eventually they switched
 5 over and joined Burkhart, so Burkhart became their
 6 supplier of choice. And in that case many members
 7 did shift their business to Burkhart, and we were
 8 able in some cases to go in and maintain as much of
 9 the business as we could on our own directly.
 10 There's one example.
 11 **Q. Can you think of any other examples that**
 12 **involved another distributor?**
 13 A. No, not offhand.
 14 **Q. And earlier we saw a document where Darby**
 15 **was selling to buying groups; is that correct?**
 16 A. Correct.
 17 **Q. Is it still your understanding today that**
 18 **Darby sells to buying groups?**
 19 A. Yes.
 20 **Q. And what about Safco, have you heard of**
 21 **Safco selling to buying groups?**
 22 A. I've heard of Safco. I know who they are.
 23 I don't know of any buying groups that they're
 24 working with.
 25 **Q. Have you heard of a buying group going to**

64 (Pages 253 to 256)

257

1 **Patterson?**
 2 A. No, not that I know of.
 3 **Q. Have you heard of a buying group going to**
 4 **Benco?**
 5 A. I have.
 6 **Q. Which buying group?**
 7 A. There's one in Virginia. I don't know if
 8 it's Dental Alliance, Atlantic Dental, with a name
 9 somewhere along that line.
 10 **Q. Is it the Atlantic Dental Care? Is that**
 11 **what you're thinking of?**
 12 A. No. ADC is a large DSO that Patterson
 13 does have. I think that's the one who -- that's the
 14 ADC I know of, but it's a large DSO. It's not a
 15 buying group, per se.
 16 **Q. Your understanding is Patterson has ADC?**
 17 A. Correct.
 18 **Q. And Benco never had ADC?**
 19 A. Not that I know of.
 20 **Q. Okay.**
 21 A. If it's the same. There might be another
 22 company with those initials. The one I'm thinking
 23 of is a large, large Patterson account.
 24 **Q. So the acronym -- I know ADC may be the**
 25 **same, but I'm talking about Atlantic Dental Care.**

258

1 **Is that familiar to you?**
 2 A. I don't know if that's the name. It's one
 3 in Virginia, I know.
 4 **Q. The ADC that you know is in Virginia?**
 5 A. I don't know if it's ADC. I'm saying --
 6 **Q. You're talking about the buying group now?**
 7 A. Right.
 8 **Q. Got it.**
 9 A. It's either Atlantic Dental, I don't know
 10 if they even call themselves -- if there's a C at
 11 the end of that or not, or if it's Dental Alliance.
 12 It's something, some name like that. I just don't
 13 recall the name.
 14 **Q. And that is a buying group to your**
 15 **understanding?**
 16 A. From what we know about them, yes.
 17 **Q. And you said that Benco supplies them?**
 18 A. That's correct.
 19 **Q. And how did you come to learn about that?**
 20 A. Our sales reps there today tell us all the
 21 time, you know, that they've lost accounts; they've
 22 lost some business due to the buying group that
 23 they're -- one of our customers became a member of
 24 and now are buying through Benco.
 25 **Q. Do you know how much you lost in sales to**

259

1 **this buying group in Virginia?**
 2 A. I do not.
 3 **Q. Do you have any sense of if it was just**
 4 **one customer or if it was some significant amount?**
 5 A. I don't know.
 6 **Q. And it was brought to your personal**
 7 **attention?**
 8 A. Yes.
 9 **Q. By whom?**
 10 A. Well, a multitude of ways. In this
 11 particular case Chuck Cohen himself called me, which
 12 I thought was a crazy call.
 13 Then after that it just came through --
 14 once we knew that they did sign a deal with Benco,
 15 we were hearing from our regional manager and reps
 16 locally that customers had signed up.
 17 **Q. Which regional managers and reps?**
 18 A. The regional manager involved I believe
 19 was Bobby Anderson.
 20 **Q. Okay. It's your testimony that he called**
 21 **you after they lost customers to Benco?**
 22 A. I'm sorry, he didn't call me.
 23 **Q. Okay.**
 24 A. So I heard it through Jake Meadows, who
 25 was the area manager at the time.

260

1 **Q. And why did -- how did that conversation**
 2 **come about?**
 3 A. I don't know, just in discussion,
 4 conversation that either -- again, I don't remember
 5 if we actually bid on them or what, decided not to.
 6 Whatever the scenario was, we either decided not to
 7 and then Benco did, or we bid on it and Benco won
 8 it. I don't know which way it -- which series of
 9 events happened.
 10 But at some point Jake did update me that
 11 Benco did end up signing with them, and, you know,
 12 some of our reps were saying this is why some of
 13 their business has been lost.
 14 **Q. And do you have an understanding that this**
 15 **Virginia buying group somehow mandates purchases**
 16 **through the buying group?**
 17 A. Not that I'm aware of.
 18 **Q. They do not mandate?**
 19 A. I don't know that they do. I've never met
 20 with them. I don't know their strategy.
 21 **Q. Okay. And you don't know if Schein bid on**
 22 **them?**
 23 A. I don't know.
 24 **Q. Did you -- okay. Strike that.**
 25 **Can you tell me about the call from**

65 (Pages 257 to 260)

261

263

1 **Chuck Cohen that you mentioned?**
 2 A. It -- I forget the date. At some point he
 3 had called me. Again, I don't know if it was a text
 4 first or not or how the series of events went; asked
 5 me if I had heard of them. I had not.
 6 And he basically said to me that they
 7 don't plan to, you know, bid on their -- on this
 8 group, to which I immediately said that, Chuck, I
 9 don't know why you're telling me this; this is not
 10 something you and I should be talking about. And I
 11 don't know who they are; I've not met them; I'm
 12 really not aware of what their strategy is.
 13 **Q. And then what did he say in response?**
 14 A. Something to the effect of, oh, I know, I
 15 was just, you know, calling to let you know that
 16 we're, you know, we're not interested. Okay,
 17 thanks, Chuck.
 18 **Q. How did the conversation end?**
 19 A. Pretty much like that, thanks, Chuck.
 20 And, you know, with Chuck, I don't know if you've
 21 met him yet, he's a very unique character, and you
 22 could have a 20-minute discussion and actually talk
 23 about -- absolutely talk about nothing, and --
 24 **Q. Why do you say that?**
 25 A. He's a very just Chatty Cathy, you know,

1 **Q. And after this call did you receive any**
 2 **follow-up from Mr. Cohen?**
 3 A. I did.
 4 **Q. Okay. And what follow-up did you receive?**
 5 A. I believe he sent me a text, something to
 6 the effect of we decided to bid on the Dental
 7 Alliance or Alliance, whatever the name of the
 8 company was. It was in the text. I don't remember
 9 the name.
 10 **Q. And during the call, I can go back, but**
 11 **during the call you said he told you about Atlantic**
 12 **Dental Care and that it was a buying group?**
 13 A. Yes.
 14 **Q. And that he wasn't going to bid on it?**
 15 A. Correct.
 16 **Q. And he texted you to say that he had**
 17 **essentially changed his mind?**
 18 A. Correct.
 19 **Q. And that it was not a buying group?**
 20 MR. McDONALD: Object to the form.
 21 THE WITNESS: I don't think that he -- I
 22 don't know. He just said that they're going to bid
 23 on it. I don't think he changed the position on
 24 whether they were a buying group or not.
 25

262

264

1 talk about the weather, Packers/Philadelphia Eagles
 2 conflicts, bets, you know. There's just small talk,
 3 how's the family.
 4 So it's -- you know, he's just a very
 5 unique character.
 6 **Q. Was there -- did you ask for any**
 7 **follow-up --**
 8 A. No.
 9 **Q. -- after the call?**
 10 **Did he say he was going to provide any**
 11 **follow-up after the call?**
 12 A. He did not say anything, no.
 13 **Q. Did you ever ask him about Atlantic Dental**
 14 **Care?**
 15 A. No.
 16 **Q. How long would you say you guys talked**
 17 **for?**
 18 A. I don't know. Sometimes it was two
 19 minutes; sometimes it was ten; it might have been
 20 twenty. It really depends on the topic.
 21 **Q. Sure. I'm specifically --**
 22 A. Specifically to this topic, very brief.
 23 **Q. All right. Can you quantify that at all?**
 24 A. I would say on this topic it couldn't have
 25 been a minute or two.

1 BY MS. KAHN:
 2 **Q. Got it. And did you respond to that?**
 3 A. I don't believe so.
 4 **Q. Did you have any -- did you try to call**
 5 **him on the day that you received that text?**
 6 A. I don't believe so.
 7 **Q. Did you speak to him -- excuse me.**
 8 **Did you speak to him again shortly**
 9 **thereafter?**
 10 A. You have the records. I'd have to look.
 11 I don't recall. We can look at the records.
 12 **Q. Did you ever speak to him again about this**
 13 **buying group?**
 14 A. I don't believe so, no.
 15 **Q. Did you do anything with the information**
 16 **that he shared with you?**
 17 A. No.
 18 **Q. Did you tell anybody about it?**
 19 A. I don't know if I communicated with our
 20 in-house legal counsel or not. I typically would,
 21 and I just don't recall if I did in this case or
 22 not.
 23 **Q. What do you mean when you say "I typically**
 24 **would"?**
 25 MR. McDONALD: Well, let me just give you

265

1 some instruction here. On answering this question I
 2 don't want you to reveal the actual communications
 3 you've had with counsel.
 4 THE WITNESS: That's where I was going.
 5 So I've had a lot of communications with
 6 counsel relative to how and how not to communicate
 7 with Chuck, and I'll leave it at that.
 8 BY MS. KAHN:
 9 **Q. And was this prior to the Source One**
 10 **litigation?**
 11 A. Yes.
 12 **Q. So prior to -- was it prior to the Texas**
 13 **AG investigation?**
 14 A. Yes.
 15 **Q. How did -- strike that.**
 16 **When you said you typically would, were**
 17 **you suggesting that you had previously reported to**
 18 **Schein's legal counsel about other communications**
 19 **from Mr. Cohen?**
 20 A. I need to ask if I can answer that.
 21 MR. McDONALD: You can answer that yes or
 22 no.
 23 THE WITNESS: Yes.
 24 BY MS. KAHN:
 25 **Q. How many times?**

266

1 A. I don't know.
 2 **Q. Can you quantify, more than ten, less than**
 3 **five?**
 4 A. Communications with counsel about --
 5 **Q. How many times have you reported a**
 6 **communication that you were having that you received**
 7 **from Chuck to legal counsel?**
 8 A. I don't know. I'd be completely guessing.
 9 More than five.
 10 **Q. More than five.**
 11 **More than twenty?**
 12 A. I don't know.
 13 **Q. Do you know what Schein did with the**
 14 **buying group that Chuck was communicating to you**
 15 **about?**
 16 MR. McDONALD: Object to the form, asked
 17 and answered.
 18 THE WITNESS: I don't. I don't know if we
 19 bid on it or not. I don't recall.
 20 BY MS. KAHN:
 21 **Q. You didn't look into it after you got the**
 22 **call from Chuck Cohen?**
 23 A. No.
 24 **Q. Nor did you look into it after you got the**
 25 **text message from Chuck Cohen?**

267

1 A. No.
 2 **Q. Earlier you said that the call from Chuck**
 3 **was crazy.**
 4 **Do you recall that?**
 5 A. I do.
 6 **Q. And why did you say it was crazy?**
 7 A. It was a call I would never make to him,
 8 and I was in shock that he had actually made the
 9 call to me.
 10 **Q. Why would you never make that call?**
 11 A. Based on antitrust training that I've
 12 received throughout the years.
 13 **Q. Why do you think Mr. Cohen called you with**
 14 **that information?**
 15 MR. McDONALD: Object to form.
 16 THE WITNESS: That would be a good
 17 question for him.
 18 BY MS. KAHN:
 19 **Q. Why do you think Mr. Cohen called you with**
 20 **that information?**
 21 MR. McDONALD: Object to the form.
 22 THE WITNESS: I don't know.
 23 BY MS. KAHN:
 24 **Q. You never tried to think about why he**
 25 **called you with this information?**

268

1 A. I thought it was -- as I said, I told you
 2 what I thought about it. I thought it was crazy
 3 that he called, and I would never have made that
 4 call.
 5 **Q. I guess my question is going to you didn't**
 6 **try to think about the motive behind the call?**
 7 A. No.
 8 **Q. Did you get the sense that Mr. Cohen was**
 9 **trying to reach some general understanding with you?**
 10 A. No.
 11 **Q. Why not?**
 12 MR. McDONALD: Object to the form.
 13 THE WITNESS: I didn't get the sense. I
 14 can't tell you why not. No, I didn't. We never
 15 would come to an understanding with them to begin
 16 with. We didn't engage in that type of discussion
 17 with him at all. So if he even attempted to go down
 18 that road I would have cut him off immediately.
 19 BY MS. KAHN:
 20 **Q. Can you think of any reason for Mr. Cohen**
 21 **to communicate what he did with you?**
 22 MR. McDONALD: Object to the form, asked
 23 and answered.
 24 THE WITNESS: I cannot.
 25

67 (Pages 265 to 268)

269

1 BY MS. KAHN:

2 **Q. Was that the only -- so there was a call**
3 **from Chuck to you and then a text message from Chuck**
4 **to you, right?**

5 A. Correct.

6 **Q. Both about the same buying group**
7 **situation; is that right?**

8 A. That's right.

9 **Q. And that time aside, has Mr. Cohen tried**
10 **to reach out to you about buying groups in any other**
11 **instances?**

12 A. Not that I recall.

13 **Q. Is it possible but you just don't recall?**

14 MR. McDONALD: Object to the form.

15 THE WITNESS: It's not that -- I just
16 don't recall any specific incident about another
17 buying group that Chuck ever reached out to me
18 about.

19 BY MS. KAHN:

20 **Q. What about buying groups in general?**

21 A. I've never had that discussion with Chuck
22 about our strategy, their strategy on buying groups.

23 **Q. Has Mr. Cohen ever shared with you his**
24 **general thoughts on buying groups?**

25 A. No.

271

1 **Q. And I just want to confirm, Mr. Cohen**
2 **never shared with you that Benco had a policy of not**
3 **selling or offering discounts to buying groups?**

4 A. That's correct.

5 **Q. Have you known Mr. Cohen to lie?**

6 A. I know him as an odd personality but to
7 flat out lie, no. I don't communicate that much
8 with him to tell you the truth, but it's -- I don't
9 know him to have lied.

10 **Q. Why do you say he's odd?**

11 MR. McDONALD: Object to the form.

12 THE WITNESS: I just asked you I don't
13 know if you've met him yet. I probably shouldn't
14 even go down that road. No, I don't know him as --
15 to be a liar.

16 BY MS. KAHN:

17 **Q. My question was, why do you say he's odd?**

18 A. I find him odd.

19 **Q. Why is that?**

20 A. He's a close talker. He's -- he's just --
21 I don't know. How do you define odd? He's just not
22 my cup of tea.

23 **Q. Do you consider him a friend?**

24 A. I consider him not a friend by any means,
25 no, but we're -- our families know each other.

270

1 **Q. Have you ever shared with Mr. Cohen your**
2 **general thoughts about buying groups?**

3 A. No.

4 **Q. And earlier we talked about buying groups**
5 **not being able to mandate purchases through the**
6 **vendor contracts.**

7 **Do you recall those questions and answers?**

8 MR. McDONALD: Object to the form. We've
9 had many questions and answers on that.

10 THE WITNESS: I'm not sure.

11 BY MS. KAHN:

12 **Q. Strike that. Let me ask a different**
13 **question.**

14 **Have you and Mr. Cohen ever discussed**
15 **whether buying groups can mandate purchases through**
16 **buying group vendors?**

17 A. No.

18 **Q. Have you and Mr. Cohen ever discussed**
19 **rationale for not wanting to work with buying**
20 **groups?**

21 A. No.

22 **Q. So aside from this one instance you don't**
23 **recall any other discussions with Mr. Cohen about**
24 **buying groups?**

25 A. That's correct.

272

1 We've been in the business a long time. We're
2 friendly but not friends.

3 **Q. And do you respect Mr. Cohen?**

4 A. I do.

5 **Q. In the last ten years how often had you**
6 **seen Mr. Cohen in person?**

7 A. Boy, ten, twelve, fifteen. I'd see him at
8 least once a year at a DTA event. We were both on
9 the board for a period of time. I usually see him
10 at at least one major trade show or convention.

11 **Q. What are the other trade shows and**
12 **conventions that you're referring to?**

13 A. There's a Chicago Midwinter meeting in
14 February, the Greater New York meeting in November.
15 Those are two of the biggest ones. Wherever the ADA
16 moves their meeting around to a different city every
17 year, we might see each other at those meetings.

18 **Q. So Chicago Midwinter, Greater New York and**
19 **the ADA meeting, those are three meetings that you**
20 **have seen Mr. Cohen at throughout the years?**

21 A. Examples of meetings, you know. I don't
22 know if -- I've been to the Boston meeting and that
23 could be in January. I don't know if I ran into him
24 there or not.

25 I attend five to six meetings a year

273

1 myself, and in most cases Benco is also showing at
2 those meetings. Sometimes Chuck is there. I don't
3 know. I don't go looking for him. We don't have
4 meetings scheduled.

5 So it's just -- it's more by happenstance
6 if we see each other at the meetings.

7 **Q. Do you ever -- have you ever texted each
8 other to try to catch each other at a trade show or
9 convention?**

10 A. There was one meeting in particular that
11 he wanted to get together I'm thinking with someone
12 from Patterson to talk about how do we from a DTA
13 perspective bring more value to the members relative
14 to training service technicians.

15 **Q. Aside from that, any other instances where
16 you've tried to catch one another at a trade show or
17 convention?**

18 A. I mean, you have the -- not that I recall,
19 but I know you have the record, so I'd be happy to
20 address any specific examples you have.

21 **Q. Have you ever had drinks or a meal or food
22 with Mr. Cohen?**

23 A. Yes.

24 **Q. How many times?**

25 A. Drinks, maybe three or four times, you

274

1 know, post a DTA board meeting, not him and I one on
2 one. It's the whole board coming out and getting
3 together and just socializing with the other members
4 of the board.

5 I've had dinner with him twice, both times
6 in a discussion about potentially merging our
7 companies together in some way. Whether we would
8 acquire Benco is the obvious -- not obvious but one
9 of the paths that we wanted to explore, just dream,
10 you know, some day could it happen.

11 **Q. Any other times that you've had drinks or
12 a meal?**

13 A. Not that I recall.

14 **Q. What about any meetings one-on-one in
15 person that didn't involve drinks or food?**

16 A. We had phone conversations.

17 **Q. So I'll get to that. I just wanted to
18 stick with in person first.**

19 A. Okay. Outside of what I just outlined, I
20 don't believe so.

21 **Q. And when you run into him at a trade show,
22 do you stop and say hello?**

23 A. Yes.

24 **Q. Anything beyond that?**

25 A. That's -- typically how's it going, how's

275

1 the family, Packers just beat the Eagles again, how
2 are you feeling, that type of stuff.

3 **Q. Let's move on to the phone conversations.**

4 **How many phone calls would you say you've
5 had with Mr. Cohen in the last ten years?**

6 A. More than five, less than ten I'm
7 guessing. I'm guessing somewhere in that range.

8 **Q. Have you ever called him from your home
9 line?**

10 A. I don't think we even have a home line
11 anymore. No.

12 **Q. Have you ever called him from anything
13 other than your cell phone or your work line?**

14 A. No.

15 **Q. Has -- strike that.**

16 **Do you have Mr. Cohen's home phone number?**

17 A. I might. I don't know. I don't recall
18 ever calling him at home.

19 **Q. Okay. That was my question. Thank you.**

20 **And the phone calls that you do recall
21 having with Mr. Cohen, aside from the one where we
22 called you about the buying group, what were the
23 other calls about?**

24 A. The majority of them had to do with the
25 employment agreement that we had between our two

276

1 organizations. Going back to the late '90s and
2 early 2000s, when we were going through our merger
3 mania years, Benco was expanding west, and so we
4 ended up in a lot of legal challenges with them,
5 whether -- if they hired one of our employees that
6 had a noncompete, you know, how we -- depending on
7 the state laws, we ended up spending a lot of money
8 on attorneys, and we almost always would end up
9 settling with something less than a 12-month period
10 that was on the employment agreement with our
11 employee.

12 We decided to save ourselves a lot of
13 money and decided if that happens everyone is free
14 to go work where they want to work provided that
15 they live within the confines of the contract, if
16 they had a contract with us primarily, and to make
17 sure that, you know, we cut that period down from
18 12 months to let's say there's a period of 90 days,
19 there's a period of 120 days. So it was actually
20 good for the employee that was leaving because their
21 noncompete time would be reduced.

22 Anyway, so it was those type of
23 discussions on, you know, come to that agreement.
24 And then any time a particular situation happened,
25 usually the lawyers talked, but every now and then

277

1 Chuck and I would talk directly about it also.

2 **Q. Any other topics aside from that?**

3 A. He made a call to me one time relative to
4 him seeing a Henry Schein brand product on Amazon.

5 **Q. And what did he say?**

6 A. Tim, are you aware, something to the
7 effect, it wasn't the exact quote, that there's a
8 Henry Schein brand product available on Amazon? And
9 I was surprised to hear it because we don't sell
10 directly to Amazon, and so I said, you know, thanks
11 for the information, I wasn't aware of that,
12 appreciate the heads up.

13 And I did call him back, I think it was
14 two days later, saying thanks for bringing that to
15 my attention. It was happening through a different
16 channel, our medical division, and but I appreciated
17 him letting me know.

18 **Q. And what did you find out about that
19 product appearing on Amazon?**

20 A. So through our medical division, they work
21 with a company called Buy Direct Now or dotcom.
22 It's some dotcom organization, which there's no
23 problem on the medical side who they want to sell
24 to, but there's agreements that we have with our end
25 users that they cannot use Henry Schein brand in

278

1 particular and then use it -- resell it to other
2 channels for distribution.

3 And so when that came to our attention,
4 medical saw that as well. They weren't aware,
5 medical, that that particular group is now selling
6 through Amazon themselves, and they took action on
7 that to make sure that BuyDirectNow.com, they can
8 continue to buy but they can't sell it through
9 Amazon.

10 **Q. So is it fair to say that Schein medical I
11 guess stopped the practice?**

12 A. No, didn't stop the practice. It enforced
13 its already-existing rules of we sell to our end
14 user, not end user to another sales channel.

15 So they were selling it to a company
16 called BuyDirect.com. They can then use that
17 product to sell to, you know, other physicians in
18 their case. It could not be used to sell.

19 So it was an agreement they already have.
20 It was enforcing an existing agreement. It wasn't
21 stopping anything other than enforcing the existing
22 agreements.

23 **Q. Why do you think Mr. Cohen called you
24 about this?**

25 MR. McDONALD: Object to the form.

279

1 THE WITNESS: Same thing as the prior
2 example. I don't know.

3 BY MS. KAHN:

4 **Q. You have no idea. Okay.**

5 **Had you and Mr. Cohen talked about Amazon
6 prior to that?**

7 A. Not directly, no.

8 **Q. What about indirectly?**

9 A. We both sat on the board of the DTA, and
10 when Amazon was coming into the dental industry
11 there was discussion at the board about can they be
12 members of DTA or not, and ultimately they did.
13 They came onboard while I was the chair of the DTA.
14 And so there was discussion about Amazon at the
15 board of the DTA.

16 **Q. In the last ten years you've also
17 communicated with Mr. Cohen -- well, strike that.**

18 **Let me just make sure. Aside from what
19 you've already told me about, any other calls, any
20 other subjects?**

21 MR. McDONALD: Object to the form.

22 THE WITNESS: None that come to mind right
23 now.

24 BY MS. KAHN:

25 **Q. In the last ten years you've communicated**

280

1 **with Mr. Cohen by e-mail from time to time?**

2 A. Correct.

3 **Q. And how often would you say that has
4 occurred?**

5 A. I really don't know.

6 **Q. And you've also communicated with
7 Mr. Cohen by text from time to time?**

8 A. Correct.

9 **Q. How often would you say that has occurred
10 in the last ten years?**

11 A. I really don't know.

12 **Q. Have you ever deleted a text message from
13 Mr. Cohen?**

14 A. No.

15 **Q. Have you ever deleted an e-mail from
16 Mr. Cohen?**

17 A. Just through my normal, you know, like hit
18 delete so it's not in my in box but it's still in my
19 deleted. So I don't do anything to completely clear
20 out anything from Chuck in my system, no.

21 **Q. In the last ten years has Mr. Cohen sent
22 you notes in the mail?**

23 A. Yes.

24 **Q. Can you tell me about those?**

25 A. Usually fun little, you know, notes about

281

1 I saw your father's name listed, you know, in Dental
 2 Impressions magazine for, you know -- I forget the
 3 award that he received. He said, hey,
 4 congratulations. So it's congratulatory, nothing
 5 business related; social, you know, a little hey
 6 Packers beat the Eagles. We had a little bet;
 7 here's ten bucks he sent, or he had to send some
 8 cheesesteak or something along that line.
 9 **Q. You guys had a bet going?**
 10 A. We did at one point, yes. And if you
 11 could collect for me when you see him, that would be
 12 great.
 13 **Q. Has Mr. Cohen ever sent you anything in**
 14 **the mail regarding Smile Source?**
 15 A. About Smile Source, no.
 16 **Q. Has he sent you anything in the mail about**
 17 **buying groups in general?**
 18 A. No.
 19 **Q. Have you communicated with Mr. Cohen by**
 20 **any other means aside from what we've already talked**
 21 **about in the last ten years?**
 22 A. No.
 23 **Q. Have you and Mr. Cohen ever communicated**
 24 **about price?**
 25 A. No.

282

1 **Q. Have you and Mr. Cohen ever communicated**
 2 **about manufacturers?**
 3 A. There was a communication he sent me about
 4 Dentsply at one point and Hu-Friedy relative to the
 5 Dentsply agreement that all suppliers have to sign
 6 with Dentsply per their rules, and we shared data
 7 and whatnot; and he had sent a message about, you
 8 know, looks like Hu-Friedy is looking to do
 9 something similar.
 10 **Q. And why was he reaching out to you?**
 11 MR. McDONALD: Object to the form.
 12 THE WITNESS: I don't know.
 13 BY MS. KAHN:
 14 **Q. Was there an ask in there somewhere? What**
 15 **was he asking you to do?**
 16 MR. McDONALD: Object to the form.
 17 THE WITNESS: I'd have to read the e-mail
 18 again. I don't know what the -- I do remember that
 19 is one of the communications I mentioned I forwarded
 20 on to counsel.
 21 BY MS. KAHN:
 22 **Q. And aside from that communication, have**
 23 **you communicated with Mr. Cohen about manufacturers**
 24 **in any other instances?**
 25 A. Not that comes to mind right now.

283

1 **Q. Have you and Mr. Cohen ever communicated**
 2 **about a private practice account?**
 3 A. Not that I recall.
 4 **Q. Have you and Mr. Cohen ever communicated**
 5 **about a DSO?**
 6 A. Not that I recall.
 7 **Q. Or a corporate account?**
 8 A. Not that I recall.
 9 **Q. Have you and Mr. Cohen ever communicated**
 10 **about Patterson?**
 11 A. I'm sure from time to time, you know, if
 12 we're meeting he might make a joke about Patterson
 13 or vice versa, but not -- nothing, nothing of any
 14 significance, no.
 15 **Q. What do you mean when you say "might make**
 16 **a joke about Patterson or vice versa"?**
 17 A. As I said, Chuck is a funny guy. He may
 18 have referred to Patterson in some way, in some type
 19 of funny way. Nothing comes to mind, so, again, I'm
 20 a little bit speculating here, but I just don't know
 21 if he -- if there's any type of communication that
 22 he might have said something about, you know, where
 23 Patterson, the name, came up. It's not like we --
 24 you know, that it would not have come up at any
 25 point, but we don't talk about Patterson and in

284

1 particular how we're going to go to market, you
 2 know, against them, what their strategy is, nothing
 3 of any significant importance.
 4 Are we done with this?
 5 **Q. Yes, thank you.**
 6 **(Exhibit 222 was marked for**
 7 **identification.)**
 8 BY MS. KAHN:
 9 **Q. You have Exhibit 222 in front of you?**
 10 A. I do.
 11 **Q. Let me know when you're ready.**
 12 A. Okay.
 13 **Q. Is this an example of a communication**
 14 **between you and Mr. Cohen involving a joke about**
 15 **Patterson?**
 16 A. Correct.
 17 **Q. And the first text message is from you to**
 18 **Mr. Cohen, correct?**
 19 A. That's correct.
 20 **Q. On June 13, 2012, you wrote, "Creative**
 21 **annual report this year. Nice job and congrats on**
 22 **successful year. Too many former Team Schein**
 23 **Members included though, smiley face."**
 24 **Do you see that?**
 25 A. Yes.

71 (Pages 281 to 284)

285

287

1 **Q. Why did you send that?**

2 A. So they sent out a thing to -- you know,
3 their customers, many of their customers are our
4 customers. It was a deck of cards, and the deck of
5 cards had pictures of team members on it, had stats
6 on the company, how they did. So they were sharing
7 publicly with their customers information about
8 Benco's year and thanking customers, you know, for
9 their success.

10 So I thought it was creative, kind of
11 funny, and I was, you know, sending a joke about,
12 hey, too many of your team members are former, you
13 know, Team Schein members, ha-ha.

14 **Q. How did you come to get the deck of cards?**

15 A. I don't recall specifically. I think one
16 of our reps sent it in saying they were just in
17 Dr. Smith's office and look what I saw.

18 **Q. And Mr. Cohen responded to you, "Listen,
19 if it weren't for us, Patterson would smoke you
20 guys. You're lucky to have us."**

21 **Do you see that?**

22 A. I do.

23 **Q. Do you know what he meant when he said
24 "Patterson would smoke you guys"?**

25 A. It's his way of joking around, thinking

1 **Q. Do you ever see him in person at events?**

2 A. Occasionally. Again, Chicago Midwinter,
3 there's, again, this Oral Health America is a big
4 dinner that the trade industry puts on on Wednesday
5 night. I might see him there.

6 He comes from California, so if I would
7 attend one of the CDAs, he typically was at that
8 meeting and I might see him there.

9 **Q. What about Mr. Anderson?**

10 A. Most often I'd see him was at the DTA
11 board meetings. Since he left the board I don't see
12 him that often.

13 **Q. How often would you say you've
14 communicated with Mr. Anderson either in person or
15 via some other form in the last ten years?**

16 MR. McDONALD: Object to the form.

17 THE WITNESS: Out -- well, again, the DTA
18 board meetings, we had at least two meetings a year;
19 maybe one other, you know, meeting in Washington,
20 D.C., when we're lobbying as an industry.

21 So I'd see him as many as two to four
22 times a year at various trade events or industry
23 events I should say.

24 BY MS. KAHN:

25 **Q. And in the times that you have**

286

288

1 that, you know, Patterson would be beating us in the
2 market and this is his way of saying instead it's
3 him, I think. I didn't communicate back with him on
4 this.

5 **Q. You can put that aside.**

6 **Have you communicated -- do you guys want
7 to take a break?**

8 MR. McDONALD: Fine. It's up to you.

9 THE WITNESS: I'm fine either way.

10 BY MS. KAHN:

11 **Q. Have you communicated with Mr. Guggenheim,
12 Paul Guggenheim of Patterson from time to time?**

13 A. Very rarely. I don't know Paul Guggenheim
14 nearly very well, but I have had communications with
15 him.

16 **Q. And what about Scott Anderson of
17 Patterson?**

18 A. Yes, I have met with Scott. Scott and I
19 worked on the -- we both were on the DTA board of
20 directors together during the same period of time.

21 **Q. Can you quantify in any way how often
22 you've communicated with Mr. Guggenheim in the last
23 ten years?**

24 A. I'd be surprised if it's more than two or
25 three.

1 **communicated, what have you discussed with
2 Mr. Anderson?**

3 A. The only business-related things we really
4 ever talked about was at one point I expressed an
5 interest or wanted to let him know that if he'd like
6 to talk to us about the medical division, we
7 believed they're struggling with the medical, if
8 they wanted to sell that I could connect him with
9 Mark Mlotek and, you know, maybe have some dialogue
10 on if they wanted to spin off medical we could take
11 that over. But most of it had to do with industry
12 DTA-related topics.

13 **Q. Has the DTA -- strike that.**

14 **The DTA has board meetings from time to
15 time?**

16 A. Correct.

17 **Q. And at one of these DTA board meetings are
18 you aware of any discussions about buying groups?**

19 A. I really don't -- I don't recall buying
20 groups specifically coming up as an agenda topic.
21 It's possible, but, again it doesn't come to mind.

22 **Q. You said specifically as an agenda item,
23 so I just wanted to make sure I broaden up my
24 question.**

25 **What about any discussions through DTA**

289

1 about buying groups, do you recall anything like
2 that?

3 A. Not, sorry, no, not that I recall.

4 Q. Have you ever communicated with
5 Mr. Guggenheim about buying groups?

6 A. No.

7 Q. Have you ever communicated with
8 Mr. Anderson about buying groups?

9 A. No.

10 Q. Have you communicated with anybody
11 outside -- strike that.

12 Have you communicated with any of your
13 competitors about buying groups other than the
14 instance that you already talked about with
15 Mr. Cohen?

16 A. I don't believe so.
17 (Exhibit 223 was marked for
18 identification.)

19 BY MS. KAHN:

20 Q. Do you have Exhibit 223 in front of you?

21 A. Yes.

22 Q. Let me know when you're ready.

23 A. Should I go from the top down or the
24 bottom up, do you know?

25 Q. Top down.

290

1 A. Okay.

2 Q. Exhibit 223 are various text message
3 exchanges; is that right?

4 A. Yes.

5 Q. I'm going to take you through the first
6 three pages of Exhibit 223.

7 The first one appears to be a text message
8 from Chuck Cohen's cell phone to your cell phone on
9 March 25th, 2013; is that correct?

10 A. Yes.

11 Q. And Mr. Cohen said to you, "You around?
12 Available to talk?"

13 A. Yes.

14 Q. And you responded shortly thereafter, "In
15 meeting right now. Scheduled til 5:00 p.m. Eastern.
16 Wide open thereafter. What's best for you?"

17 And then he responded, "You go to
18 meetings? I stopped years ago. Smiley face.
19 Great. Please call on my cell when meeting ends."

20 Did I read that correctly?

21 A. Yes.

22 Q. And those were communications between you
23 and Mr. Chuck Cohen, right?

24 A. Correct.

25 Q. And the reason that I ask is on the second

291

1 page there I see that it's from you and your phone
2 number, but the To: line, there's no indication of
3 who that's to, so I wanted to confirm that was to
4 Mr. Cohen.

5 A. I believe so, yeah. Yes.

6 Q. Do you recall this text stream?

7 A. Yes.

8 Q. Is this what predated or is this what took
9 place right before the call from Mr. Cohen about the
10 buying group that you referenced?

11 A. Yes. It's that series I referred to
12 earlier. I didn't recall the order things happened,
13 but yes.

14 Q. Sure.

15 A. Yeah.

16 (Exhibit 224 was marked for
17 identification.)

18 BY MS. KAHN:

19 Q. And the court reporter just handed you
20 Exhibit 224, which is a short excerpt from your
21 phone records from AT&T.

22 Do you have that in front of you?

23 A. I do.

24 Q. Okay. And I just want to kind of walk you
25 through both Exhibit 223 and 224 in conjunction with

292

1 each other so we can understand the timing of the
2 communications.

3 If you turn to the second page of
4 Exhibit 224, you'll see line item 3082 on
5 March 25th, 2013, from your cell phone to
6 Chuck Cohen's cell phone.

7 Do you see that?

8 A. I do.

9 Q. And that's the same day as these text
10 messages. It looks like you guys talked for
11 8 minutes and 35 seconds.

12 Were you there calling Mr. Cohen as a
13 response to his text messages to you?

14 A. Correct.

15 Q. And it looks like, as I stated, you guys
16 talked for 8 minutes and 35 seconds.

17 Aside from what you've already told us,
18 did you guys talk about anything else?

19 A. Again, with Chuck there's typically some
20 small talk, how's the fam., where are you at, some
21 jokes around, you know, being in meetings, you know,
22 that type of stuff, but nothing else
23 business-related, no.

24 Q. Did you guys discuss any terms relating to
25 anything?

73 (Pages 289 to 292)

293

1 A. No.
 2 **Q. Did you guys discuss -- strike that.**
 3 **I think you testified that you didn't**
 4 **recall exactly the buying group's name, right?**
 5 A. Correct.
 6 **Q. That you talked about?**
 7 A. Correct. Sorry.
 8 **Q. Okay. I'm going to turn to the next page**
 9 **of Exhibit 223, the text messages, and that is from**
 10 **you to Mr. Cohen on the same day, March 25th, 2013.**
 11 **And you said, "Hi Chuck. Thanks for the call. Yes,**
 12 **I am good with the terms we discussed, and I look**
 13 **forward to joining Team Benco. PS. Want to confirm**
 14 **that the Benco tooth logo will include a picture of**
 15 **me. Smiley face."**
 16 **Do you see that?**
 17 A. I do.
 18 **Q. What did you mean -- well, strike that.**
 19 **Here you were thanking him for the call;**
 20 **is that right?**
 21 A. Yes.
 22 **Q. And why were you thanking him for the**
 23 **call?**
 24 A. Again, I was surprised that he called
 25 about the topic that he did, but I was really more

294

1 setting up the joke about him calling, you know,
 2 thanks for the terms we discussed on my employment
 3 as if I was going to go to work for him, as if the
 4 call was him trying to recruit me. So I was being
 5 cute, nothing more than that.
 6 **Q. You were trying to -- I'm sorry, I don't**
 7 **quite understand. You were --**
 8 A. I was saying, "Hi, Chuck. Thanks for the
 9 call. Yes, I am good with the terms we discussed
 10 and I look forward to joining Team Benco," as if he
 11 was calling to recruit me, but he wasn't. I was
 12 just being cute. I have a dry sense of humor
 13 myself, and so I was trying to be cute and be funny
 14 with him and as a matter of fact, you know, make
 15 sure a picture of me is in your logo.
 16 **Q. And why did you send this text message**
 17 **with the joke in it?**
 18 A. I thought it was going to be funny.
 19 **Q. And this was right after a call that you**
 20 **were surprised by; is that right?**
 21 A. The actual --
 22 **Q. The topic.**
 23 A. The intent, ultimately what the purpose of
 24 this call was, yes, I was surprised about that.
 25 **Q. And you were surprised by it because --**

295

1 **strike that.**
 2 **You were surprised by it from an antitrust**
 3 **perspective; is that right?**
 4 A. That's correct.
 5 **Q. Can you explain to me why you sent a joke**
 6 **after such a call?**
 7 A. I thought it would be funny.
 8 **Q. On the same day a few hours later,**
 9 **Mr. Cohen followed up with another text; isn't that**
 10 **right? And he said, "Here's a link to the press**
 11 **release we discussed," and there's a link, and in**
 12 **the link you can see the name Atlantic Dental Care**
 13 **PLC.**
 14 **Do you see that?**
 15 A. I do.
 16 **Q. Does this refresh your recollection that**
 17 **the group that you and Mr. Cohen were discussing was**
 18 **called Atlantic Dental Care?**
 19 A. It does.
 20 **Q. And is that the buying group that you guys**
 21 **were discussing?**
 22 A. I believe so, yes.
 23 **Q. Okay. So I guess I just want to clarify.**
 24 **Earlier when you said ADC is a Patterson customer,**
 25 **that's a different ADC?**

296

1 A. Correct, yes, thank you.
 2 **Q. And just going back to the joke you made,**
 3 **did that stem from something you guys talked about**
 4 **during the call?**
 5 A. No.
 6 **Q. Why do you think Mr. Cohen sent you the**
 7 **press release?**
 8 A. I don't know.
 9 **Q. Did you guys talk about a press release**
 10 **regarding Atlantic Dental Care during the call?**
 11 A. I don't -- I don't recall that coming up.
 12 **Q. You didn't ask him for any follow-up**
 13 **information such as a press release?**
 14 A. No.
 15 **Q. Did you read the press release?**
 16 A. I don't believe so. I don't remember
 17 clicking on it and reading anything about them.
 18 **Q. Were you surprised when you received this**
 19 **text from Mr. Cohen?**
 20 A. It takes -- after the phone call I
 21 received, I don't know that I would say this
 22 surprised me like the call itself did, but I did
 23 tell him clearly on our call this is not the type of
 24 stuff you and I should be discussing, Chuck. So
 25 from that standpoint, yeah, that surprised me, but,

74 (Pages 293 to 296)

297

1 again, some things about Chuck don't surprise me.

2 **Q. Do you have any -- can you think of any**
3 **reason why he would send this to you, the press**
4 **release?**

5 MR. McDONALD: Object to the form, asked
6 and answered.

7 THE WITNESS: No.

8 BY MS. KAHN:

9 **Q. Mr. Cohen then said to you, I think**
10 **responding to your joke, "Problem with this joke is**
11 **if Stan says 'Great.' It's a risk."**

12 **And you responded, "Ouch. Didn't think**
13 **about that response from Stan. Maybe Scott would**
14 **hire me. Thanks for the follow-up on the article.**
15 **Unusual."**

16 **Do you see that?**

17 A. I do.

18 **Q. And the Scott there is referring to**
19 **Scott Anderson of Patterson?**

20 A. That's correct.

21 **Q. Okay. Had you guys talked about**
22 **Mr. Anderson prior to this text?**

23 A. No.

24 **Q. Why did you thank him for the Atlantic**
25 **Dental Care article?**

298

1 A. That's a good question. I don't know.

2 **Q. Do you recall thanking him?**

3 A. Until reading this, no.

4 **Q. Can you think of any reason for you to**
5 **thank him?**

6 A. No.

7 **Q. And would you say that's inconsistent with**
8 **the way you responded to him during the call when he**
9 **brought up Atlantic Dental Care?**

10 A. It was -- I was clear with him on the call
11 that this is not the type of stuff you and I should
12 be talking about.

13 **Q. And you didn't write that down anywhere?**

14 A. No.

15 **Q. You didn't communicate in writing to him**
16 **that he should not be talking to you about this**
17 **subject?**

18 A. Not that I recall.

19 **Q. And why did you say "unusual"?**

20 A. Again, I don't even remember, recall
21 writing this line, so unusual that he sent it to me
22 maybe. I don't know.

23 **Q. But you don't recall writing this?**

24 A. I actually remember the exchange around
25 Stan and Scott and the hiring and that type of

299

1 stuff. Me actually at one point thanking him for
2 the follow-up on that article is something I don't
3 remember. I'm surprised myself to read it.

4 **Q. Why are you surprised?**

5 A. Because, as I stated, I was clear with him
6 that this is not anything we should be talking
7 about. I don't talk to him about prices; I don't
8 talk to him about strategy. And so I don't know
9 what I was thinking when I said, "Thanks for the
10 follow-up on the article. Usual."

11 **Q. Did Mr. Cohen try to understand from you**
12 **whether Schein was going to try to sell to Atlantic**
13 **Dental Care?**

14 A. I don't remember him asking me anything
15 about that. I told him I wasn't aware of who the
16 group was, which is maybe why he sent me the
17 article; I don't know. Maybe that's why I said, you
18 know, thanks for the follow-up on the article
19 because now I know who they are. I mean, I'm
20 guessing that's -- because I didn't know anything.
21 I didn't know anything about them.

22 **Q. During the call Mr. Cohen indicated to you**
23 **that they were not going to bid on Atlantic Dental**
24 **Care because it was a buying group; is that right?**

25 A. I don't recall him saying why, just that

300

1 he was -- they were not going to go to bid on it.

2 **Q. Did you guys -- you guys talked about a**
3 **buying group, right? That was your testimony before**
4 **about a buying group?**

5 A. Well, the fact that they were a buying
6 group. I don't -- again, there's a very brief
7 discussion once he got to the point of what he
8 wanted to talk about, to which I said, you know,
9 Chuck, this is not anything you and I should be
10 talking about, and we pretty much ended the call
11 after that with a little joking around about I think
12 he said something about no, no, I'm really calling
13 to recruit you. That's the thing that led me to do
14 some of that funny recruiting stuff.

15 **Q. So the joke did stem from something on the**
16 **call?**

17 A. I believe, again, something on that call
18 he joked about, you know, looking -- I'm calling you
19 to recruit you.

20 **Q. So your memory got refreshed because**
21 **earlier you said the joke didn't stem from the call?**

22 A. Yeah. Now it's coming back to me. I
23 think that's why it went back to me. I had that
24 thanks for the call, for joining the team, and, you
25 know, non -- well, maybe Scott will hire me if not

75 (Pages 297 to 300)

301

303

1 you, and then thanks for your follow-up on that
2 article, it was a group I wasn't aware of.

3 **Q. So going back, during the call you said**
4 **Mr. Cohen told you that they were going to -- they**
5 **were not going to bid, but I guess I wasn't clear on**
6 **whether you guys talked about it being a buying**
7 **group.**

8 A. I don't remember him specifically calling
9 them referring to them as a buying group or not on
10 the call. I know later he clarifies what he says on
11 it, but I don't remember he and I talking about that
12 specifically on the call, no.

13 **Q. Okay. Because earlier, before I started**
14 **showing you the documents, you testified that**
15 **Mr. Cohen called you about a buying group. And I**
16 **guess I'm just trying to understand, was that your**
17 **understanding at the time you got the call?**

18 A. At the time I got the call, I didn't know
19 why he wanted to call -- talk. In retrospect I knew
20 he wanted to talk about this ADC group, who is a
21 buying group.

22 All I'm saying is that -- so when I
23 testified earlier that is what he called me about,
24 he called it a buying group, not that he said those
25 words to me on the call.

1 A. Yeah, the timing.

2 **Q. Yeah, I can help you with that because I**
3 **spent a little time with this.**

4 So the time zone of the text messages
5 appeared to be UTC-5, and the time zone of these
6 three phone records are UTC.

7 A. I'm sorry, what's UTC?

8 **Q. UTC is a standard coordinated universal**
9 **time. It's a time zone that we do not live in.**

10 A. Okay.

11 **Q. And so by my calculations you called**
12 **Mr. Cohen on March 27th before he sent you the text**
13 **message on March 27th that said, "Tim, did some**
14 **additional research."**

15 A. Yeah.

16 **Q. So that's why I'm asking you about that**
17 **call before I move on to the next text message.**

18 A. Got it. No, I don't recall why I was
19 reaching out to him.

20 **Q. Okay. Can you think of any reasons?**

21 A. I cannot.

22 **Q. Okay. All right. And then moving to the**
23 **text message then that followed that call, on**
24 **March 27, 2013, Chuck wrote you to you, "Tim: Did**
25 **some additional research on the Atlantic Care deal.**

302

304

1 MS. KAHN: Got it. Can we take a short
2 break. I'm going to need a little break before we
3 go to the next part.

4 THE WITNESS: Sure.

5 (Whereupon, a recess was taken
6 from 2:53 p.m. to 3:04 p.m.)

7 MS. KAHN: We are back on the record.

8 BY MS. KAHN:

9 **Q. I'm going to go back to Exhibit 223 and**
10 **224.**

11 A. Okay.

12 **Q. If you look at Exhibit 224, line item**
13 **3089, do you see that?**

14 A. I do.

15 **Q. Do you want a piece of paper so that it**
16 **makes it easier for you to --**

17 A. Sure. Thank you.

18 **Q. So that's on March 27th, 2013. You tried**
19 **to call Mr. Cohen, and it looks like no answer**
20 **because the call is for just six seconds.**

21 **Do you see that?**

22 A. I do.

23 **Q. And do you know why you were calling**
24 **Mr. Cohen? I see you're trying to look at the text**
25 **messages to sort of match up the time.**

1 **Seems like they have actually merged ownership of**
2 **all the practices. So it's not a buying group, it's**
3 **a big group. We're going to bid. Thanks."**

4 **Do you see that?**

5 A. I do.

6 **Q. And does this refresh your memory of**
7 **whether the two of you talked -- whether the term**
8 **"buying group" came up during the call?**

9 A. I still don't believe it did.

10 **Q. Okay. Your testimony is that the term**
11 **"buying group" never came up?**

12 A. I'm saying I don't recall it. I don't
13 believe it did, so I don't recall that it came up
14 during our discussions, no.

15 **Q. You don't recall one way or the other, or**
16 **you don't --**

17 A. Correct.

18 **Q. -- believe it came up?**

19 A. I don't recall one way or the other.

20 **Q. Okay. Thank you. Were you surprised to**
21 **receive this text message from Mr. Cohen?**

22 A. Yes.

23 **Q. And earlier you testified that you had, in**
24 **fact, told him to stop communicating about Atlantic**
25 **Dental Care; is that right?**

305

1 A. I told him that we should -- he and I
2 should not be talking about these type of topics,
3 correct.
4 **Q. Okay. Did you tell him to stop
5 communicating to you about this topic?**
6 A. I don't know exactly what my words were,
7 whether it was stop or we shouldn't be, you know,
8 don't. Something along the lines of I'll send him
9 the message, Chuck, this is not a conversation that
10 you and I should be having.
11 **Q. Can you think of any reason why he would
12 have sent you this text message after you delivered
13 the message that you two should not be having a
14 conversation about this?**
15 A. I cannot.
16 **Q. Okay. Following Chuck's message to you,
17 he then says a few minutes later, "Also, noticed you
18 rang me this a.m. No message. Call later?"
19 Do you see that?**
20 A. I do.
21 **Q. And there by my lining up the record with
22 the text messages, I take that to refer to the time
23 that you tried to call his cell earlier on March 27;
24 is that right?**
25 A. That's -- that's what 3089 is?

306

1 **Q. Yes.**
2 A. I see that, yes.
3 **Q. And does this refresh your memory about
4 why you tried to call him?**
5 A. No.
6 **Q. And looking back on the phone records, I'm
7 going to move you to line 8 -- sorry, 3091. It
8 looks like on March 27, that day, you tried to call
9 Mr. Cohen again.
10 Do you see that?**
11 A. I do.
12 **Q. And do you know why you tried to call him
13 again?**
14 A. I do not.
15 **Q. Do you know if it had anything to do with
16 Atlantic Dental Care?**
17 A. No.
18 **Q. Is it possible that you were trying to
19 reach out to him about Atlantic Dental Care?**
20 A. I don't believe so, no.
21 **Q. Can you think of any reason why you were
22 trying to reach out to him on March 27th?**
23 A. I cannot.
24 **Q. Okay. He then -- moving on to the text
25 messages, he then looks like saw your call and said,**

307

1 **"Out for dinner, talk tomorrow?"
2 Do you see that?**
3 A. I do.
4 **Q. And you responded, "Sure. Call cell.
5 Bon appétit."
6 Do you see that?**
7 A. Yes.
8 **Q. And just so I have the record clear, do
9 these further text messages refresh your memory
10 about why you were trying to call Mr. Cohen?**
11 A. No.
12 **Q. Actually I skipped two text messages. If
13 you could go back to Henry Schein, it ends in 332
14 and 333.**
15 A. Okay.
16 **Q. So on March 26, 2013, Mr. Cohen sent you a
17 message saying, "As per my guy in Raleigh: Dental
18 Alliance, they apparently get 7 percent off of
19 catalog pricing just for joining. Dr. Ben Koren is
20 the doctor [sic] involved. A guy named Sam
21 contacted me about a year ago and asked if Benco was
22 interested. Told him he was out of his tree."
23 Do you see that?**
24 A. I do.
25 **Q. And then he goes on to say, "Could be a**

308

1 **rumor, sometimes stories go around. Thanks."
2 What's your understanding of what these
3 two text messages are about?**
4 A. Well, the first one is Chuck telling me
5 what he has learned about Dental Alliance. I'm not
6 sure what "Could be a rumor, sometimes stories go
7 around," I don't know what that's referring to.
8 **Q. Is your testimony that Dental Alliance is
9 the same thing as Atlantic Dental Care?**
10 A. I -- you know what? I assume so. I don't
11 know.
12 **Q. Do you recall receiving this text message
13 about Dental Alliance?**
14 A. I do now after seeing it again, but I
15 never spoke to him about Dental Alliance. That's
16 why I say earlier for some reason I was thinking
17 they're one and the same. I don't know if they are
18 one and the same or not.
19 **Q. So you have -- you don't know Dental
20 Alliance to be something separate from Atlantic
21 Dental Care?**
22 A. I don't know if they're one and the
23 same --
24 **Q. Okay.**
25 A. -- or not.

77 (Pages 305 to 308)

309

1 **Q. Sorry. Aside from what he wrote, you**
 2 **don't know why Mr. Cohen was sending you what he**
 3 **did --**
 4 A. Correct.
 5 **Q. -- about Dental Alliance?**
 6 A. That's correct.
 7 **Q. Nor do you understand when he said, "Could**
 8 **be a rumor, sometimes stories go around"?**
 9 A. Correct.
 10 **Q. And after these two text messages, did you**
 11 **guys have any further discussions about specifically**
 12 **a group called Dental Alliance?**
 13 A. Not that I recall.
 14 **Q. Okay. So moving on to the phone records,**
 15 **it looks like on March 28th, which is a day after**
 16 **the text message exchanges that we've looked at,**
 17 **Mr. Cohen tried to call you on two occasions, and**
 18 **those are line items 3097 and 3098.**
 19 **Do you see that?**
 20 A. I do.
 21 **Q. And do you know why he was trying to call**
 22 **you?**
 23 A. I do not.
 24 **Q. Okay. Was it to return your call, as we**
 25 **had seen in the end of the text messages?**

310

1 A. Possibly. I don't know.
 2 **Q. And, again, you don't recall why you were**
 3 **trying to reach him?**
 4 A. No.
 5 **Q. And if you'd turn to the next page of the**
 6 **phone records, on March 3rd, 2013, line item 3120,**
 7 **you tried to call Mr. Cohen, and it says that the**
 8 **elapsed time is 37 seconds.**
 9 **Do you recall calling him on April 3rd,**
 10 **2013?**
 11 A. I do not.
 12 **Q. Do you know what that could have been**
 13 **about?**
 14 A. No.
 15 **Q. And if you skip a line and go to item**
 16 **3122, it looks like Mr. Cohen called you back, and**
 17 **you guys spoke for 5 minutes and 36 seconds.**
 18 **Do you see that?**
 19 A. I do.
 20 **Q. Do you know what that call was about?**
 21 A. I do not.
 22 **Q. Is it possible that you guys talked about**
 23 **Atlantic Dental Care?**
 24 MR. McDONALD: Object to form.
 25 THE WITNESS: I don't believe so, no.

311

1 BY MS. KAHN:
 2 **Q. And why? Why not?**
 3 MR. McDONALD: Object to the form.
 4 THE WITNESS: I had one discussion with
 5 Chuck when he first called me. I don't recall
 6 talking to him again about that ever again.
 7 BY MS. KAHN:
 8 **Q. Could you guys have been talking about --**
 9 **is it possible that you guys talked about Dental**
 10 **Alliance?**
 11 A. I don't believe so.
 12 **Q. Can you think of any other reasons that**
 13 **you guys were talking on March 3rd, 2013?**
 14 A. I cannot.
 15 **Q. Sorry, April 3rd, 2013.**
 16 A. No.
 17 **Q. Okay. We can put that aside, both of**
 18 **those.**
 19 **(Exhibit 225 was marked for**
 20 **identification.)**
 21 BY MS. KAHN:
 22 **Q. You have Exhibit 225 in front of you, and**
 23 **let me know when you're ready.**
 24 A. Okay.
 25 **Q. Exhibit 225 is a pretty long e-mail**

312

1 **chain --**
 2 A. Yeah.
 3 **Q. -- about Atlantic Dental Care; is that**
 4 **right?**
 5 A. Yes.
 6 **Q. Okay. Do you recall this e-mail chain?**
 7 A. I do now, yes.
 8 **Q. I'm going to turn you to the very first**
 9 **e-mail from Michael Porro to you on March 31st,**
 10 **2013.**
 11 **Do you see that?**
 12 A. I do. Is that 164453?
 13 **Q. Yes, it's Bates number Henry**
 14 **Schein-000164453.**
 15 **Who is Michael Porro?**
 16 A. He is our zone general manager in this
 17 market.
 18 **Q. And Mr. Porro wrote, "Tim," I'm going to**
 19 **skip the next parenthetical, he said, "Tim,**
 20 **following up on the chat we had about the Atlantic**
 21 **Dental Care group in Virginia."**
 22 **Do you see that?**
 23 A. I do.
 24 **Q. Did you chat with Mr. Porro about Atlantic**
 25 **Dental Care?**

313

315

1 A. I don't recall the conversation, but
 2 apparently I did here.
 3 **Q. Okay. So you have no recollection of the**
 4 **conversation?**
 5 A. This e-mail is bringing back the whole
 6 discussion via e-mail back, but I don't recall a
 7 discussion with Michael in particular at all.
 8 **Q. Got it. And do you know if you reached**
 9 **out to Mr. Porro?**
 10 A. No. I'm sure he reached out to me.
 11 **Q. And why is that?**
 12 A. I would have no reason to reach out to
 13 Michael as it relates to this group.
 14 **Q. This is the group that you were texting**
 15 **with Mr. Chuck Cohen about; is that right?**
 16 A. Apparently.
 17 **Q. And do you see that this is just a few**
 18 **days after the text messages and the phone call**
 19 **between you and Mr. Cohen about Atlantic Dental**
 20 **Care?**
 21 A. The initial call that was about Dental
 22 Care Alliance [sic]. I don't know that he and I
 23 ever had a call about Atlantic Dental Care.
 24 **Q. Okay. Let's go back to the text messages.**
 25 **That's Exhibit 223. You have that back there, if**

1 **Michael Porro based -- strike that.**
 2 **Is it possible that you reached out to**
 3 **Michael Porro after getting the call and text from**
 4 **Mr. Cohen?**
 5 MR. McDONALD: Object to the form.
 6 THE WITNESS: I would not have reached out
 7 to Michael Porro to tell him anything about a
 8 discussion I had with Chuck.
 9 BY MS. KAHN:
 10 **Q. Okay. Well, okay. Would you have reached**
 11 **out to Michael Porro -- aside from telling him about**
 12 **any discussion with Chuck Cohen, is it possible that**
 13 **you reached out to Michael Porro about Atlantic**
 14 **Dental Care after discussing it with Mr. Cohen?**
 15 A. I don't believe so.
 16 **Q. And Mr. Porro is a zone manager; is that**
 17 **right?**
 18 A. I believe that's correct at this time.
 19 Yes, zone manager.
 20 **Q. Do zone managers typically reach out to**
 21 **you directly?**
 22 A. They can from time to time.
 23 **Q. And do you recall the circumstances under**
 24 **which Mr. Porro may have reached out to you?**
 25 A. Well, you did skip the parenthetical,

314

316

1 **you can grab it.**
 2 **So the first three are Mr. Cohen trying to**
 3 **reach out to you, and you guys talked on March 25th,**
 4 **2013, for 8 minutes and 35 seconds. Thereafter,**
 5 **Mr. Cohen on March 25th sent you a link to Atlantic**
 6 **Dental Care.**
 7 A. I apologize, you're correct. The first
 8 one was that, yeah, yeah.
 9 **Q. Okay.**
 10 A. Like I said, I don't know that -- at one
 11 point he refers to I think the same group as Dental
 12 Alliance. I don't know. But, anyway, so that's --
 13 they may be one and the same is all I'm thinking. I
 14 don't know.
 15 **Q. The Dental Alliance?**
 16 A. Right.
 17 **Q. Okay. But in Exhibit 225 you're having a**
 18 **conversation with Michael Porro about Atlantic**
 19 **Dental Care in Virginia; is that right?**
 20 A. An e-mail exchange, yes.
 21 **Q. And it's your understanding that this is**
 22 **the same group as the group that Mr. Cohen called**
 23 **and texted you about?**
 24 A. Yes.
 25 **Q. Is it possible that you reached out to**

1 which it does say, Dave, you were out. That gives
 2 me the impression that he reached out to Dave first;
 3 since Dave wasn't in, then I'm reading this as
 4 that's why he reached out to me.
 5 **Q. So do zone managers reach out to you if --**
 6 **strike that.**
 7 **Zone managers report to the area manager,**
 8 **right?**
 9 A. Correct.
 10 **Q. Mr. -- and the area manager for Mr. Porro**
 11 **would have been Jake Meadows; is that right?**
 12 A. That's correct.
 13 MR. McDONALD: Object to the form. That's
 14 an incorrect statement.
 15 BY MS. KAHN:
 16 **Q. Is your understanding that -- well, who**
 17 **does Mr. Porro report to directly?**
 18 MR. McDONALD: Currently?
 19 MS. KAHN: At the time of this e-mail.
 20 THE WITNESS: I believe Jake Meadows. It
 21 might have been -- I don't know for sure that he had
 22 the area structure set up at this time. Let me look
 23 through this. I don't see Jake on any of these.
 24 At this time I don't believe we had the
 25 area structure. Jake was our zone general manager

317

1 of the west.
 2 BY MS. KAHN:
 3 **Q. Okay. So did Mr. Porro report to who,**
 4 **Dave Steck?**
 5 A. Dave Steck.
 6 **Q. Okay, got it. And do you recall**
 7 **anything -- can you think of any reason why**
 8 **Mr. Porro would have reached out to you about**
 9 **Atlantic Dental Care?**
 10 A. I believe he reached -- the way I read
 11 this, he reached out to Dave first; you were out,
 12 this is the first you're seeing this, following up
 13 with the chats. I believe he then reached out to me
 14 because as I'm reading through the rest of his
 15 exchange it looked like they were looking to turn
 16 something around pretty quickly.
 17 **Q. So he wrote to you and Mr. Dave Steck,**
 18 **"Bobby, let me know. We were invited to bid on the**
 19 **business of this group. See attached. They gave us**
 20 **a list of products they want us to bid on. At first**
 21 **this looks like just a buying group, which led me to**
 22 **initially believe we could do more harm if we bid**
 23 **versus not submitting a bid."**
 24 **Do you see that?**
 25 A. I do.

318

1 **Q. Is it your understanding that prior to**
 2 **March 31st Schein was not planning to bid on**
 3 **Atlantic Dental Care?**
 4 MR. McDONALD: Object to the form.
 5 THE WITNESS: I don't know.
 6 BY MS. KAHN:
 7 **Q. And Mr. Porro goes on to say, "I talked to**
 8 **Joe and Jake and we talked as well, Tim."**
 9 **Do you see that?**
 10 A. I do.
 11 **Q. Do you know why he would have talked to**
 12 **Joe and Jake?**
 13 A. They were involved in our working with,
 14 you know, figuring out our go-to-market strategy on
 15 buying groups as we had our prior discussions about.
 16 **Q. And he said, "The thinking is that Benco,**
 17 **a decent player in the market and always hungry,**
 18 **will put in a bid."**
 19 **Do you see that?**
 20 A. I do.
 21 **Q. You did have a direct conversation with**
 22 **Mr. Porro aside from this e-mail discussion; is that**
 23 **right?**
 24 A. Again, I don't recall a discussion. Just
 25 based on the one line, following up on the chart,

319

1 apparently we had.
 2 **Q. Okay. And would that have been by**
 3 **telephone?**
 4 A. I would assume so when he says it's a
 5 follow-up from the chat. I mean, that's -- I don't
 6 know how else you chat with someone.
 7 **Q. Mr. Porro is not in your -- is he in your**
 8 **office?**
 9 A. No, correct, he's out east.
 10 **Q. Okay. And you're not aware of any sales**
 11 **meetings around this time where you would have been**
 12 **in person with each other?**
 13 A. That's correct.
 14 **Q. Okay. So most likely if there was a chat**
 15 **it would have been by phone?**
 16 A. Correct.
 17 **Q. And he said, "The thinking is that Benco,**
 18 **a decent player in the market and always hungry,**
 19 **will put in a bid."**
 20 **Did you tell Mr. Porro that Benco was**
 21 **going to bid on Atlantic Dental Care?**
 22 A. No.
 23 **Q. How are you -- how do you know?**
 24 A. I never had a discussion with Michael
 25 Porro about anything to do with Benco.

320

1 **Q. But you don't recall the chat, right, that**
 2 **we were just referring to --**
 3 A. That's correct.
 4 **Q. -- between you and Mr. Porro?**
 5 A. Sorry. That's correct.
 6 **Q. So is it possible that during that chat**
 7 **you brought up Benco?**
 8 A. I would not have brought up Benco, no.
 9 **Q. Why not?**
 10 A. I wouldn't have.
 11 **Q. Why not?**
 12 A. I just wouldn't have.
 13 **Q. Benco is one of your top competitors,**
 14 **right?**
 15 A. That's correct.
 16 **Q. Okay. Why is it unusual for you to bring**
 17 **up one of your competitors?**
 18 A. I don't believe I would have.
 19 **Q. Why not?**
 20 A. I don't believe I would -- I don't know
 21 how else to answer. I don't believe I would have.
 22 **Q. Did you ask Mr. Porro to do some research**
 23 **on Atlantic Dental Care?**
 24 A. As I said, I don't recall having a
 25 discussion with Michael Porro.

321

323

1 **Q. And the next e-mail is from you to Michael**
 2 **Porro, John Chatham, Dave Steck and others in**
 3 **response, and in that second line you said, "I think**
 4 **we should take a shot at this."**

5 **Do you see that? It's ending --**

6 A. Yes.

7 **Q. Do you see that? Okay.**

8 A. Yes.

9 **Q. Why did you -- there were you saying that**
 10 **you think Schein should take a shot at bidding on**
 11 **Atlantic Dental Care?**

12 A. Yes.

13 **Q. Why?**

14 A. Well, based on the lengthy e-mail from
 15 Michael where he's talking about the group, the size
 16 of the group that's already doing business with us,
 17 you know, the other details that are in here, and he
 18 says that he's hearing from them that they're not a
 19 co-op or a buying group, that they have one
 20 corporate structure, a unified group of mature
 21 practices, so they were fitting into some of the
 22 things I would say, you know, here's one that we
 23 would work with. I think it shows that I am open to
 24 working with buying groups exactly as we've been
 25 talking about.

1 **involved in Atlantic Dental Care?**

2 A. So Comfort Dental seems to be very
 3 similar. It's in our special markets group already.
 4 If there's 53 locations and they are going to be
 5 more of an organized structure, there's some things
 6 that we should be working with special markets.

7 Again, this is before we were -- we had
 8 the segments split up, right, so that we were doing
 9 our best to really work together with special
 10 markets in certain areas and that. And based on the
 11 size of this potential group, their go-to-market
 12 strategy and the number of dentists that were
 13 potentially involved, it felt like it could fit
 14 maybe better special markets at that time than in
 15 our group.

16 **Q. And you said to various individuals on**
 17 **April 4th, "Our first reaction to this was it was**
 18 **simply a buying group and we were going to walk**
 19 **away."**

20 **Do you see that?**

21 A. Yes.

22 **Q. Is it fair to say that if a group was**
 23 **simply a buying -- well, strike that.**

24 **What did you mean "simply a buying group"?**

25 A. Meaning, again, the only thing that they

322

324

1 **Q. There was no volume commitment or mandate**
 2 **with this buying group; is that right?**

3 A. What they were saying in here, they did
 4 mention the merch. spent for the group was probably
 5 two and a half million, not the three and a half
 6 million in the letter. I'm not sure what the letter
 7 is referring to. If we win, the upside is the other
 8 business we don't currently get, so a combination of
 9 all those things.

10 **Q. Okay. I'm going to turn you to the e-mail**
 11 **that's on page ending in Bates number 164444.**

12 A. Okay.

13 **Q. And here you are roping in special**
 14 **markets; is that right?**

15 A. Roping in? Did I say roping in?

16 **Q. Here you are looping in special markets;**
 17 **is that right?**

18 A. Oh, okay. Yes, I was saying we should
 19 have brought special markets in this much sooner,
 20 although this seems to have snuck up on us rather
 21 quickly. Our first reaction was simply it was a
 22 buying group and we were going to walk away, and the
 23 more that Michael dug into this, it was more of a
 24 Comfort Dental type group.

25 **Q. Why were you getting special markets**

1 were offering members was some type of, you know,
 2 price negotiation. Nothing else aligned with, you
 3 know, all the things we've talked about that seemed
 4 to be outlined in Michael's lengthy e-mail, that
 5 that's all it was. We are happy with how we're
 6 approaching customers already in that market, so we
 7 would not work with them in that regard.

8 **Q. Okay. Was that Schein's general practice,**
 9 **that if a group -- if the buying group was simply a**
 10 **buying group, to use your terms, that Schein would**
 11 **not deal with them?**

12 MR. McDONALD: Object to the form.

13 THE WITNESS: I think I've gone through
 14 this multiple times. So if -- we've worked with a
 15 number of group practices or group -- buying groups
 16 in the past. We've continued to analyze them one by
 17 one, and depending on if our values are lined up
 18 with theirs and how they approach the market, can
 19 they commit to the volume, there's a multitude of
 20 factors.

21 So no, our practice was not to not work
 22 with them, and depending on the size, a local
 23 manager could, you know, make a decision. This was
 24 a pretty big group, which is why Bobby was bubbling
 25 it up and working with Michael on it, and Michael

325

1 wanted to confirm with us that is this something we
 2 want to do or not.
 3 **Q. Is it fair to say that prior to these**
 4 **e-mail exchanges Schein was not going to bid on**
 5 **Atlantic Dental Care?**
 6 A. I have no idea.
 7 **Q. Well, you said here, "Our first reaction**
 8 **to this was it was simply a buying group and we were**
 9 **going to walk away."**
 10 **Do you see that?**
 11 A. I do.
 12 **Q. What did you mean there?**
 13 A. Well, it was based on Michael's e-mail to
 14 me. Bobby let me know we were invited to bid on
 15 this, see attached. They gave us a list of
 16 products. At first this looked just like a buying
 17 group, which led me initially to believe that we
 18 could do more harm if we bid versus not bidding, and
 19 he went on to say there's a lot more he learned
 20 about.
 21 So I was going based off of what Michael
 22 was -- I never met with this group. I don't know
 23 them. It was based on our local manager's input.
 24 **Q. Sure. So based on your local manager's**
 25 **input, prior to this e-mail exchange which started**

326

1 **on March 31st, 2013, Schein was not going to bid for**
 2 **Atlantic Dental Care; is that right?**
 3 MR. McDONALD: Objection to form.
 4 THE WITNESS: I don't know that to be the
 5 case.
 6 BY MS. KAHN:
 7 **Q. Because you didn't independently verify**
 8 **it, or why not?**
 9 A. I know when we got the invite and when he
 10 says, Bobby, we were invited to bid on the business
 11 group, he could have got that a month ago. I don't
 12 know when he got that. So we could have been
 13 invited a month ago, and for whatever reason I'm
 14 saying we should have brought special markets into
 15 this sooner, and based on what -- you know, now that
 16 you guys have learned more about them, it seems to
 17 me it would be a better fit in special markets, but
 18 at this point let's roll forward, which is why I
 19 then included Hal to make sure that we didn't create
 20 an internal conflict.
 21 **Q. Okay. But at a certain point Schein was**
 22 **not going to bid on Atlantic Dental Care; is that**
 23 **fair to say?**
 24 MR. McDONALD: Object to form.
 25 THE WITNESS: I don't know that to be the

327

1 case.
 2 BY MS. KAHN:
 3 **Q. Isn't that what Mr. Porro is telling you?**
 4 A. Where did you see that?
 5 **Q. He said, "At first this looked like just a**
 6 **buying group, which led me initially to believe we**
 7 **would do more harm if we bid versus not submitting a**
 8 **bid."**
 9 A. Doesn't that say that -- I'm sorry, what
 10 I'm saying I don't know when that occurred, when we
 11 were invited; was that a month prior, was it more
 12 recently, when did they learn about -- you know,
 13 more about them. I don't know.
 14 **Q. Sure. And timing aside, is it fair to say**
 15 **at some point in time Schein's inclination was that**
 16 **it was not going to bid? It was going to walk away**
 17 **from Atlantic Dental Care?**
 18 MR. McDONALD: Object to the form, asked
 19 and answered.
 20 THE WITNESS: I don't know how else to
 21 respond in the way I already have. I don't know
 22 when they had first meetings if they were initially
 23 going to or not. The way I read it, when they first
 24 heard about it, it was perceived to be just a buying
 25 group and then when they learned more about it they

328

1 would do more.
 2 So I don't know that anyone came to the
 3 conclusion at any point that we were not or was
 4 walking away. If we just walked away I don't think
 5 we would have had these meetings and continued to
 6 learn more about them.
 7 **Q. Why did you say our first reaction to this**
 8 **was it was simply a buying group and we were going**
 9 **to walk away?**
 10 MR. McDONALD: Object to the form, asked
 11 and answered.
 12 Please move on, Lin, please.
 13 MS. KAHN: You can answer, unless you're
 14 instructing him not to answer.
 15 MR. McDONALD: He can answer it, but I'm
 16 asking you to please move on. You've asked him this
 17 question three times now.
 18 MS. KAHN: With all due respect --
 19 MR. McDONALD: Yes, you have, at least
 20 multiple times.
 21 MS. KAHN: I haven't gotten an answer.
 22 MR. McDONALD: Multiple times you've
 23 asked.
 24 MS. KAHN: I've asked, but I haven't
 25 gotten an answer.

82 (Pages 325 to 328)

329

331

1 THE WITNESS: I don't know how else to
2 answer you.
3 BY MS. KAHN:
4 **Q. I'm just asking at a certain point in**
5 **time, you know, putting aside when the timing was,**
6 **was it a month before, was it two months, putting**
7 **aside when this actually occurred, at a certain**
8 **point in time was Schein's inclination to walk away**
9 **from Atlantic Dental Care?**
10 MR. McDONALD: Object to the form, asked
11 and answered.
12 THE WITNESS: And I'm telling you I'm now
13 copying Hal and Randy in special markets. They
14 haven't been involved in this chain prior. So what
15 I'm updating them on is our first reaction based on
16 what I've seen, I don't know when that was, what the
17 timing was, as I've said many times, was to walk
18 away because it looked like it was just a simple --
19 BY MS. KAHN:
20 **Q. Okay.**
21 A. All right. So this is where Hal, for the
22 first time, I'm bringing him into the loop on that.
23 **Q. Got it. So when you say walk away, it**
24 **means not bid; is that right?**
25 MR. McDONALD: Object to the form.

1 he was on an earlier exchange. Yes, he was on the
2 one that John Chatham sent.
3 **Q. Okay. Well, I'm referring to your e-mail**
4 **where you said, "We should have brought SM team into**
5 **this much sooner."**
6 **Do you see that?**
7 A. I do.
8 **Q. Okay. So was there a certain point in**
9 **time when the SM team was not brought in?**
10 A. I don't know when they were or when they
11 weren't. I'm now bringing up -- Hal Muller is the
12 president of the special markets group. I'm now
13 bringing him and his right-hand man Randy Foley into
14 the loop. He wasn't copied before.
15 I don't know what, if anything, Colan
16 Rogers was communicating with them prior.
17 **Q. At this point -- strike that.**
18 **Was your understanding that Atlantic**
19 **Dental Care was a buying group?**
20 A. As we've defined them, a form of, yes.
21 **Q. Is Comfort Dental a buying group?**
22 A. As I explained when their name came up in
23 that earlier exchange, they've always been a part of
24 special markets. They have -- they're structured
25 different where they own some of their practices.

330

332

1 THE WITNESS: Possibly.
2 BY MS. KAHN:
3 **Q. Okay.**
4 A. It possibly could be that. It could be,
5 you know, maybe see, wait if they're going to come
6 back. I mean, it really is up to the local team
7 what we're going to do there.
8 **Q. Okay. At a certain point Schein was going**
9 **to walk away, and then there was a change in**
10 **thinking. Is that fair to say?**
11 A. No, that's not what I'm saying.
12 **Q. Can you explain to me why that's not fair**
13 **to say?**
14 MR. McDONALD: Object to the form.
15 THE WITNESS: I don't know how to answer
16 that.
17 BY MS. KAHN:
18 **Q. You don't know how to answer that**
19 **question?**
20 A. I do not.
21 **Q. Special markets wasn't roped in**
22 **previously, right, wasn't looped in previously,**
23 **right?**
24 A. Colan Rogers was part of the special
25 markets team at this point, I believe, and I believe

1 They don't own all of them. But those that do join
2 consider themselves a part of Comfort Dental, and
3 every one of the locations buys everything -- well,
4 there's a significant majority of the purchases
5 through Henry Schein.
6 **Q. And what made you think that Atlantic**
7 **Dental Care was similar to Comfort Dental?**
8 A. I didn't know for sure that they were. I
9 was just using that as an example. And the way
10 Michael was outlining in his meeting with whoever he
11 met with that they were positioning themselves not
12 to be -- not a co-op, not a buying group, one
13 corporate structure, unified group of mature
14 practices, that to me sounds a little bit like how
15 Comfort Dental positions themselves.
16 **Q. And was part of the reason that Schein**
17 **decided to bid because it believed Benco would bid?**
18 A. No.
19 **Q. Okay. So Benco's -- let me just turn back**
20 **to Mr. Porro's e-mail, the Bates number ending in**
21 **164454. At the top he said, "The thinking is that**
22 **Benco, a decent player in the market and always**
23 **hungry, will put in a bid."**
24 **Do you see that?**
25 A. I do.

333

335

1 **Q. Did that -- go ahead.**

2 A. So it's possible from, you know, not
3 reading that, you know, Michael is -- knowing that,
4 maybe he wanted to -- that was another influence for
5 him to want to get involved.

6 **Q. Prior to this chain had you seen Benco do
7 any deals with a buying group?**

8 A. Not that I -- I would assume so, but I
9 don't know that for sure for a fact.

10 **Q. And why do you assume so?**

11 A. I believe that they've worked with groups
12 in the past.

13 **Q. What groups?**

14 A. I don't know.

15 **Q. Why do you believe they've worked with
16 groups in the past?**

17 A. Just an exchange with our leadership team.

18 **Q. Who in your leadership team?**

19 A. Jake and Joe primarily.

20 **Q. That they indicated to you that Benco was
21 selling to buying groups?**

22 A. That they had relationships with other
23 large groups, whether they're buying groups, they
24 have some DSOs. How they structure them, I have no
25 idea how they structure their segments. I know how

1 BY MS. KAHN:

2 **Q. You've been handed Exhibit 226, which is
3 an e-mail chain around February of 2012, and the
4 subject is Smile Source customer list; is that
5 right?**

6 A. That's correct.

7 **Q. Do you recall this e-mail chain?**

8 A. I do now, yes.

9 **Q. Is it fair to say that February 2012 was
10 right after the time that Schein's relationship with
11 Smile Source ended?**

12 A. I have to tell you I thought -- because
13 I'd referred to the '04-'06 period for a period of
14 time, I didn't think that we had any -- did much
15 with them again until just recently.

16 So I think my prior testimony about those
17 dates must have been off. It must have been more in
18 this '10 to '12 time period.

19 So yes, it looks like around this time is
20 when we severed ties.

21 **Q. And in the earliest e-mail from you ending
22 in Bates number 178391, the earliest in time, you
23 were sending an e-mail on January 31st, 2012, to
24 Kevin Burniston and John Chatham with a cc to a
25 couple of people saying, "How are we doing with**

334

336

1 we segment ours. And based on that, we -- through,
2 you know, the field leadership team, we believed
3 that Benco has also been involved in bidding on our
4 projects or on other groups.

5 **Q. Okay. So just to be clear, Jake Meadows
6 and Joe Cavaretta have informed you in the past that
7 Benco was selling to buying groups?**

8 A. I don't remember the -- the answer is yes,
9 but I don't know the specific group other than that
10 they're in the market as well.

11 **Q. And what about Patterson, did you have an
12 understanding of whether Patterson was in the
13 market?**

14 A. I don't recall.

15 **Q. Did you recall hearing anything from Jake
16 or Joe about Patterson and buying groups?**

17 A. I do not.

18 **Q. And do you know why it is that you would
19 have heard about Benco but not about Patterson?**

20 A. No.

21 **Q. You can put that aside.
22 (Exhibit 226 was marked for
23 identification.)**

24 THE WITNESS: Okay.
25

1 them?"

2 **I assume that means Smile Source
3 customers?**

4 A. Yes, the members as customers, yeah.

5 **Q. And then you said, "What tracking
6 mechanism do we have in place to track performance
7 going forward?"**

8 **Do you see that?**

9 A. I do.

10 **Q. Why were you asking that question?**

11 A. I really -- I don't recall other than, you
12 know, we'd want to know -- it seems to me at this
13 point we either knew we were being terminated or it
14 was going out to bid, and so how are we doing with
15 the customers that were in the group.

16 **Q. And do you have a sense of what you were
17 trying to track specifically?**

18 A. Yeah, how much volume did we have at risk
19 here.

20 **Q. Got it. How much are the -- are the
21 Smile Source members currently purchasing from
22 Schein?**

23 A. Correct.

24 **Q. Let me turn you to the latest e-mail from
25 you on February 2nd, 2012, on the first page there.**

337

339

1 A. Yes.

2 **Q. And you said, starting that third sentence**
 3 **on February 2nd, 2012, "I am really interested to**
 4 **see how and what we can do to retain these customers**
 5 **and judge how effective they're buying group model**
 6 **is. Let's really take this serious and get after**
 7 **it. I'm really less concerned about the actual**
 8 **revenues, although very important too, rather more**
 9 **about what we can do to kill the buying group model,**
 10 **exclamation point, exclamation point."**

11 **Do you see that?**

12 A. I do.

13 **Q. Why did you want to kill the buying group**
 14 **model?**

15 A. I probably should have meant -- put -- the
 16 word should be their instead of the because I was
 17 referring to their buying group model. And it
 18 sounds like they had just terminated us, so kill is
 19 probably a strong word, but we wanted to make sure
 20 that we were as successful in retaining those
 21 customers and not allowing their model to survive.

22 **Q. Why is that?**

23 A. Because we wanted -- again, we don't want
 24 anyone between us and our customers. So if those
 25 customers are now -- this is a classic example of if

1 we have at risk that potentially goes out the door.

2 **Q. Why did the relationship end with**
 3 **Smile Source?**

4 A. I don't recall specifically, but, again,
 5 originally they were -- really they didn't add --
 6 they didn't have any of the additional business
 7 solution type things that attracted and actually
 8 retained their members. There were things in their
 9 contracts with members at the time that I understand
 10 that mandated that they purchase from the group, you
 11 know. And I'm sure that they were coming back to us
 12 at this point saying, okay, we've been together a
 13 year or two, we're going out to bid again, so
 14 so-and-so is going to give a bigger discount. Well,
 15 is that all that this is about? That changes our
 16 relationship.

17 **Q. Your testimony is that Smile Source was**
 18 **asking for a bigger discount, and that's why the**
 19 **relationship ended?**

20 A. That's actually not what I said.

21 **Q. Okay.**

22 A. What I said is I don't recall specifically
 23 why. I believe there were a multitude of factors.

24 One of them was they were looking for a bigger
 25 discount, or, you know, going out to bid, you know,

338

340

1 they left to now go to Burkhart, if Burkhart is
 2 their new supplier, we don't want to lose those
 3 members as customers. So we would want to do
 4 whatever we could to not allow their particular
 5 model, however they structured it at that time, to
 6 work. We wanted to make sure that those customers
 7 stayed with us.

8 **Q. So instead of "the" you meant to write**
 9 **"their"?**

10 A. I referred to them as their buying group
 11 model is above. I was talking about their buying
 12 group model.

13 **Q. And why did you put kill in all caps?**

14 A. Just to emphasize. Poor choice of words.

15 **Q. Is it fair to say that you saw**
 16 **Smile Source's buying group model as a negative**
 17 **thing in February of 2012?**

18 A. So two things. That's what I was trying
 19 to understand how are we doing with them to begin
 20 with, you know; did we -- how were those customers
 21 doing anyway, you know, prior to -- did anyone --
 22 the fact that we were partners with them, were they
 23 growing with us, were we gaining any, you know,
 24 incremental revenue or not, so to understand that,
 25 and then clearly if they leave how much business do

1 for better pricing programs.

2 They didn't have a mandate for their
 3 members to purchase; they didn't have the other
 4 business solution things and go-to-market strategy
 5 like we had. So there was a multitude of reasons.

6 **Q. Was special markets, was Schein's special**
 7 **markets selling to Smile Source at some point in**
 8 **time in the past?**

9 A. I don't know when it was, but that's how
 10 the original relationship started, yes.

11 **Q. And then Smile Source got moved to HSD; is**
 12 **that correct?**

13 A. That's correct.

14 **Q. And why did that move come about?**

15 A. For the reasons that we've outlined.

16 From -- all the different locations make their
 17 independent decisions on purchasing. They weren't
 18 required to buy.

19 So our field sales consultants were still
 20 very actively involved with their members who are
 21 our customers, and it was creating a conflict. They
 22 were going to market; they were advertising, you
 23 know, join Smile Source, get a better price from
 24 Henry Schein. We tell -- we were telling them that
 25 we don't want you -- you can't do it that way.

341	<p>1 That's not how we want your go-to-market to be 2 because that's not how we market. We don't market 3 to our customers based on price. 4 So it's that they don't tell our value 5 proposition, our total value story the way they were 6 structured then. 7 Q. Whose -- strike that. 8 Were you involved in special markets 9 selling to Smile Source in the initial iteration of 10 the relationship? 11 A. No. 12 Q. Whose -- who was involved? 13 A. I don't know if it was Hal directly or if 14 it was someone on Hal's team. 15 Q. And at some point when it got moved to 16 Henry Schein Dental, whose decision was it to move 17 Smile Source? 18 A. Collectively Hal and I together. 19 Q. Did something prompt that decision to come 20 about? 21 A. The noise it was creating in the field 22 relative to how they were going to market and 23 marketing to the general -- the general 24 practitioners as to why to join, it was only about 25 saving discounts on supplies. That's not our total</p>	343	<p>1 Q. And why do you say that? 2 A. He'd flip-flop on it. I mean, one week he 3 was for, one week he's not. It was -- by the time 4 we did it he knew it made sense; and then once they 5 were still with us we were doing, I believe, okay 6 with them. 7 Once they left, it was Hal's opinion that 8 he could have held -- you know, hung onto them if, 9 you know, we didn't try doing all the other 10 value-added service type things. I don't think he's 11 right, but that was his opinion. 12 Q. I don't understand. What do you mean he 13 could have hung onto them if we didn't do all the 14 other value-added services? 15 A. Hal, that was just Hal's opinion, that he 16 didn't think -- you know, to this day he doesn't 17 believe in the value of a sales rep, and that's what 18 was driving the relationship with the specific 19 customers which are members of Smile Source. 20 Q. So what's your understanding of why Hal 21 thought not having the value-added services, why 22 that would help Schein keep Smile Source? 23 A. What I'm saying, I don't understand why he 24 believes that. 25</p>
342	<p>1 value story. And they weren't owning the practices. 2 It wasn't -- it didn't fit the model. They 3 weren't -- it wasn't like a Comfort Dental where 4 everyone -- once they joined they all buy. It was 5 very sporadic. 6 And so Hal even was of the opinion from 7 his perspective, you know, don't want to create that 8 conflict. It was also that wasn't working from his 9 perspective the way he had thought it was going to 10 go, so let us take it over and see if we can help 11 drive more volume and have our field sales 12 consultants working with their members to help them 13 grow their revenue and therefore their purchases and 14 buy more from us. And it worked for the accounts 15 that we already had a relationship with, and it 16 didn't change the relationship for those that we 17 didn't already. 18 Q. And how did the pricing for Smile Source 19 change after the move from special markets to HSD? 20 A. I don't think it did. We honored the 21 pricing that they had at the time. 22 Q. And just so I understand, was Hal Muller 23 in favor or against keeping Smile Source in special 24 markets? 25 A. It depends which week you talked to him.</p>	344	<p>1 (Exhibit 227 was marked for 2 identification.) 3 BY MS. KAHN: 4 Q. You have Exhibit 227 in front of you. 5 A. I do. 6 Q. Let me know when you're ready. 7 A. Okay. 8 Q. Exhibit 227 is an e-mail chain, and the 9 subject is Smile Source dated October 3rd, 2014. 10 Do you recall this e-mail chain? 11 A. I do. 12 Q. There's an e-mail from you to 13 Hal Muller -- strike that. Let me start from the 14 earliest e-mail. 15 Mr. Muller wrote to you, "Are we sure we 16 don't want to let SM to try to get this business 17 back under SM rules of play?" 18 And was SM special markets? 19 A. Yes. 20 Q. And was Hal here asking about 21 Smile Source? 22 A. Yes. 23 Q. Is it fair to say that he wanted to -- he 24 was asking whether Schein should try to get 25 Smile Source back under special markets?</p>

345

1 A. Well, again, at this point they're no
2 longer -- their members are no longer customers of
3 ours. So he's saying -- I think he cut and pasted
4 this in some type of notice somewhere that they
5 opened up 58 new offices during the month of
6 September. He's saying they're growing, should we
7 go after them again; and if so, should we approach
8 it via special markets versus through HSD.

9 **Q. And your response was, "What's the
10 difference between now and then? What do we do when
11 a private customer joins their GPO?" Is that --**

12 A. That's a Privileges customer. Privileges
13 is the name of our customer loyalty program.

14 **Q. Got it. So you said what do we do when a
15 Privileges customer joins their GPO.**

16 **What did you mean when you said what's the
17 difference between now and then?**

18 A. So what's the difference, what's the
19 difference between how they're structured now versus
20 then? I mean, are we just going to head down the
21 same road where we had it for a year or two,
22 everything goes back out for bid? So you bring them
23 all on, you lose them, you bring them all on; it's
24 not a model we want to work in.

25 So I was asking what's the difference

346

1 between now and then with Smile Source.

2 **Q. Meaning you could lose them if you brought
3 them back on?**

4 A. Well, meaning if we'd lost them a year
5 ago, what's changed between now and then that they
6 would want to come in.

7 **Q. Okay. And what did you mean when you said
8 what do we do when a Privileges customer joins their
9 GPO?**

10 A. So we have -- a Privileges customer is one
11 of our -- call it our better customers. Again, it's
12 our customer loyalty program, so they do more
13 business with us. So what do we do with that
14 customer when they join, which this is what was
15 creating our conflict before in the field was that
16 if they were, again, only a price play and that's
17 all that they were doing, adding for their members,
18 that does not fit with what we're doing for our good
19 customers, our Privileges customers.

20 And so if they've changed their model and
21 maybe they're doing more than just -- this is not
22 just a, quote-unquote, price play, it's all they
23 have for members, I was asking what's the
24 difference. And then what do we do if that's all
25 they still are? Isn't the conflict the same today

347

1 that it was two years ago when we lost them?

2 **Q. Why would something that's only a price
3 player, why would that not fit with what you're
4 doing with the good customers, the Privileges
5 customers?**

6 A. It goes back to before. We have this
7 customer care wheel. There's a lot we provide our
8 customers. Price is a component of it. But we
9 don't -- we feel if you win a customer only on
10 price, you know, that's the way you'll lose a
11 customer is only a price. If they don't understand
12 the full value of all that we bring and all that we
13 do, then they don't understand the Henry Schein
14 value proposition.

15 **Q. And then Mr. Muller wrote to you, "They
16 are all private customers. What do we do when they
17 have over 1,000 offices? Just throwing it out
18 there."**

19 **And you wrote, "Then we wave flag and
20 commit."**

21 **Do you see that?**

22 A. I do.

23 **Q. What did you mean when you said "then we
24 wave flag and commit"?**

25 A. If at that point they grew to be 1,000

348

1 members, then obviously creating value for their
2 members in our mind beyond just a price play. So if
3 that's the case, then we would -- if they really --
4 to me that would mean they have changed their model;
5 they've grown significantly. Their members see
6 value in what they're providing, and we would want
7 to be a part of that because then we can help add to
8 that value.

9 **Q. So when you said "wave flag and commit,"
10 you were referring to supplying Source One or trying
11 to go after that business?**

12 A. It's not -- Smile Source.

13 **Q. Smile Source, sorry.**

14 A. Correct.

15 **Q. Okay. And why does if they -- if they get
16 to over 1,000 offices, why does that indicate to you
17 an entity that you would want to supply?**

18 A. Well, he threw out the number --

19 **Q. Sure.**

20 A. -- so I was just responding to that.
21 There's no magic number.

22 **Q. Yeah, but I'm just trying to understand
23 why does the number of offices indicate something to
24 you?**

25 A. Well, it indicates they're not only

349

351

1 attracting but they're retaining members.
2 **Q. You're familiar with the Dental Trade**
3 **Alliance?**
4 A. I am.
5 **Q. And you were on the board at some point,**
6 **right?**
7 A. Correct.
8 **Q. What years were you on the board?**
9 A. Well, I don't know the exact years. There
10 was a year in the late 2000s I was on. Then the
11 current chair of the board was -- became a
12 Henry Schein employee. So we can't have two members
13 on the board so I went off for about a year and a
14 half; he went back off the board and I went back on.
15 So between 2007 and 2014 I was on and off
16 the board, kind of that window at that time frame.
17 **Q. And after 2014 have you continued to play**
18 **some role with respect to DTA?**
19 A. I attend the annual meeting.
20 I'm sorry, let me be clear. So I was the
21 chair from '13 to '14; then I was the immediate past
22 chair from '14 to '15; and then I went off the board
23 in 2015.
24 **Q. Got it. You're familiar with the**
25 **exhibitors' committee of DTA?**

1 down.
2 **Q. And what was the exhibitors' committee**
3 **going to do about that?**
4 A. Work with --
5 MR. McDONALD: Object to form.
6 THE WITNESS: Sorry.
7 MR. McDONALD: Go ahead.
8 THE WITNESS: Work with the various trade
9 associations, you know. For example the Yankee
10 Dental meeting, it's a great meeting. It's in
11 Boston in January of every year. They have a person
12 that's responsible for the exhibitor relationships.
13 She does a marvelous job in listening to exhibitors
14 as to how to bring more value.
15 The ADA is, quite honestly, just the
16 opposite.
17 BY MS. KAHN:
18 **Q. So I just want to be clear. The**
19 **exhibitors' committee of DTA goes to the**
20 **associations to talk about value of the trade shows?**
21 A. And how to make them -- so, again, their
22 members are our customers. And so when they come to
23 the trade show floor -- so we pay the trade
24 associations to exhibit. There's expenses,
25 significant expenses outside of that, but that's

350

352

1 A. Yes.
2 **Q. And what is that?**
3 A. So the board trade has committees to
4 address certain industry challenges or opportunities
5 or trends, and one had to do with exhibits, that
6 there was a decreasing value in showing up at trade
7 shows. And so what we wanted to do is create an
8 exhibits committee to start working with the various
9 trade associations on bringing up the value of the
10 meetings.
11 **Q. Why did DTA want to create an exhibits**
12 **committee, why at the DTA level?**
13 A. Well, the DTA, its core purpose is to
14 bring more value to its members, and the members are
15 dealers and manufacturers. And there's multiple
16 ways that that can happen, whether it's, you know,
17 lobbying on particular, you know, laws that we think
18 would impact our customers; you know, we want to
19 help our customers grow and how can we as an
20 industry help that happen.
21 One of the issues that we were having as
22 an association as its members was the decreasing
23 value of exhibiting at trade shows. We all exhibit
24 at trade shows, and it costs a lot of money to
25 exhibit, and the value of those had been coming

1 part of what we do is we pay the trade association
2 to exhibit. We want to make sure that the members
3 that are -- the members of the trade association
4 that are our customers, when they come to the trade
5 shows, that they actually come to the exhibit floor
6 and purchase and listen to our story.
7 If they come but, you know, they show up
8 but their attractions are outside or off the exhibit
9 floor and they're not coming onto the exhibit floor,
10 that's where we're challenged as the exhibitor to
11 get the mind share of the customers.
12 So we work with them to say, you know, why
13 not create more activity instead of outside of the
14 trade -- the convention hall than we have inside the
15 convention hall to attract the members in.
16 **Q. And who -- is there -- strike that.**
17 **How many people are on the exhibitors'**
18 **committee?**
19 A. I really don't know.
20 **Q. Is there a Schein representative on the**
21 **committee?**
22 MR. McDONALD: Currently, is that your
23 question?
24 BY MS. KAHN:
25 **Q. Let's start with currently.**

353

1 A. I don't know. I would assume -- I would
2 assume so, but I don't know for sure.

3 **Q. What about in the past, do you know?**

4 A. I know there have been, but I don't know,
5 you know, who has been.

6 **Q. What about Patterson and Benco, do you
7 know if their representatives --**

8 A. Again, I would assume so, but I don't
9 know. There's other manufacturers and other
10 members.

11 **Q. You're familiar with the Texas Dental
12 Association?**

13 A. Yes.

14 **Q. And you're familiar with TDA's endorsement
15 of Source One?**

16 A. Well, the TDA Perks Program that is
17 supplied by Source One, yes.

18 **Q. Got it. And following the creation of the
19 TDA Perks Program that was supplied by Source One,
20 Henry Schein pulled out from the following TDA trade
21 show; is that right?**

22 A. That's correct.

23 **Q. And was that in 2014 that TDA -- that
24 Schein pulled out of the trade show?**

25 A. That sounds correct.

354

1 **Q. Did Schein attend 2015?**

2 A. No.

3 **Q. Did Schein attend in 2016?**

4 A. Yes.

5 **Q. And did you make the decision to attend in
6 2016?**

7 A. Yes.

8 **Q. Why did you make that decision?**

9 A. Because we were hearing from our customers
10 that they missed us there and they wanted us to
11 attend.

12 **Q. What specifically were you hearing?**

13 A. That they missed us there and they wanted
14 us to attend.

15 **Q. Okay. How did you come to hear that?**

16 A. Through our sales team.

17 **Q. Do you recall who told you that
18 information?**

19 A. No.

20 **Q. Anybody at all? You have no recollection?**

21 A. Well, between our regional manager and
22 zone general manager down there, Randall McLemore,
23 he was hearing from the reps; so I was hearing it,
24 you know, more so from Joe via what was happening
25 with Randall.

355

1 Stanley Bergman himself, our chairman and
2 CEO, was at an event where he was speaking when the
3 ADA was in San Antonio, I believe, and he had
4 customers approach him and say we really miss you
5 guys at our trade show. And so Stanley was, you
6 know, a strong push with me saying, you know, he was
7 hearing it from customers there; I really think we
8 should go back there.

9 So it was a multitude of channels like
10 that.

11 **Q. Why would a customer miss Schein? What
12 are they missing exactly?**

13 A. We have great relationships with our
14 customers, and the fact that we didn't go really
15 didn't impact our sales in the market, and so -- but
16 when our customers say, you know, we miss you, we
17 want you at the show, we decided to join -- I'm
18 sorry, to go back.

19 **Q. I'm just trying to understand what it is
20 that customers missed. Just not seeing the Schein
21 faces during the TDA trade show?**

22 MR. McDONALD: Object to the form.

23 THE WITNESS: Or whatever we're
24 exhibiting, we might have a show special going on at
25 the time; there might be -- we might sponsor an

356

1 event. We went back in '16; we sponsored a luncheon
2 and invited customers to come to it.

3 You'll have to ask the customers, you
4 know, why they see value with that. The fact that
5 they were telling us that they missed us and they
6 wanted us to come back led to our decision to go
7 back.

8 BY MS. KAHN:

9 **Q. What's the show specials that you're
10 referring to?**

11 A. Just, you know, if a -- we have various
12 marketing promotions that are going on all the time,
13 even right now.

14 **Q. Like a discount of some sort?**

15 A. Possibly, or it could be, you know, if a
16 manufacturer has got something going on,
17 manufacturers might have a buy three/get four type
18 thing, and they can place that order anywhere on the
19 floor, we want to make sure we get that order, that
20 type of thing.

21 **Q. So prior -- strike that.
22 So your understanding is that customers in
23 part were missing these show specials that Schein
24 would offer at the TDA trade show?**

25 MR. McDONALD: Object to the form.

357

1 THE WITNESS: No, I was using that as an
2 example. When you asked what were they missing, I
3 said I don't know; it could be this, it could be
4 that.
5 BY MS. KAHN:
6 **Q. Sure.**
7 A. They were telling us that they wanted us,
8 so I don't know, you know.
9 **Q. Okay.**
10 A. I didn't specifically talk to a customer
11 about it.
12 **Q. Okay. But you have a general**
13 **understanding of what your customers like and what**
14 **they need --**
15 A. Uh-huh.
16 **Q. -- and want, right?**
17 A. Yes.
18 **Q. So I'm just trying to understand what it**
19 **is about Schein that your customers were missing.**
20 MR. McDONALD: Object to the form.
21 THE WITNESS: I don't know. That's why,
22 you know, we've said we're trying to ourselves
23 understand the value of trade shows, and even by the
24 two years that we didn't go our sales were not
25 impacted.

358

1 So we didn't -- we don't see -- we see a
2 dying value or declining value I should say in
3 exhibiting and showing at trade shows. In some
4 cases we've reduced our footprint.
5 When it came to the TDA, for a multitude
6 reasons we decided not to go at all. But once we
7 made that decision, we didn't know for a couple of
8 years; we were hearing from customers we'd really
9 like to have you back. We said okay.
10 BY MS. KAHN:
11 **Q. And what was the reason that Schein pulled**
12 **out of the TDA trade show in 2014?**
13 A. It goes back to we paid to be at the show.
14 We work with our trade associations. We view them
15 as an independent party, a neutral party, if you
16 would. They help put the floor together, to bring
17 the exhibit together. They -- you know, they
18 bring -- they track members that come into the trade
19 show, including continuing education courses, and we
20 pay them for us to show an exhibit.
21 What they started to do then was to say,
22 okay, well, thank you, exhibitors, come pay us, but
23 once customers start showing up on the floor they
24 were actually saying, okay, but now go buy your
25 supplies through our own program called TDA Perks.

359

1 So we're paying to be at the trade show to
2 sell our goods, but their members, who are our
3 customers, are coming onboard and they're saying
4 bypass those booths, place your orders here. That,
5 to us, they lost their neutrality as a neutral party
6 when it came to their trade show.
7 **Q. The TDA Perks Program that's being**
8 **supplied by Source One is still going on today,**
9 **right?**
10 A. That's my understanding, yes.
11 **Q. And why is it that that is no longer**
12 **reason enough for Schein not to attend the TDA trade**
13 **show?**
14 A. It showed in the two years that we didn't
15 go we realized it did not affect our volume, did not
16 affect our relationship with customers, and but the
17 fact that they were asking us to come back, we
18 decided to go back.
19 **Q. Even though TDA is no longer a neutral**
20 **platform?**
21 A. That's correct.
22 **Q. So had you not anticipated that your**
23 **customers would miss you at the trade show?**
24 A. Didn't know for sure.
25 **Q. Prior to Schein's decision to pull out of**

360

1 **the 2014 TDA trade show, you've come to be aware of**
2 **communications between Schein employees and Benco**
3 **employees about the TDA trade show; is that right?**
4 A. Yes.
5 **Q. And have you also come to be aware of**
6 **communications between Schein employees and**
7 **Patterson employees about the TDA trade show?**
8 A. Yes.
9 **Q. Do you have any understanding of why those**
10 **communications were taking place?**
11 A. No.
12 **Q. You cannot think of any reason sitting**
13 **here today?**
14 A. Well, no.
15 **Q. Did anybody say anything about why those**
16 **communications were taking place?**
17 A. No, I mean, other than people generally
18 wanted to understand and know who was going to the
19 show or not.
20 **Q. Why would people want to generally**
21 **understand that?**
22 A. It would be good to know what's happening
23 at a trade show.
24 **Q. Why is that?**
25 A. It's important. I mean, it's -- if --

361

1 we're going to make our decision solely based on
2 what we believe is good for us and for our
3 customers. We find it interesting to understand
4 what's happening with others, but it was not a
5 determining factor on anything that we were deciding
6 to do.

7 **Q. Why was it interesting?**

8 A. We just find it interesting.

9 **Q. Why?**

10 A. I don't know. I find you interesting.

11 **Q. Why? You don't have to answer that.**

12 MR. McDONALD: I don't know. But you're
13 at seven hours, so if you'll try to move it along,
14 that would be great.

15 BY MS. KAHN:

16 **Q. Are you aware of similar communications
17 between Schein employees and Patterson or Benco
18 employees on subjects other than TDA trade show
19 attendance that you're now aware of?**

20 A. Can you give me an example? I mean, I
21 don't -- nothing comes -- you mean the TDA mind set,
22 so no, I don't.

23 **Q. I don't have any examples.**

24 A. Nothing comes to mind.

25 **Q. Okay. And I guess what I'm trying to**

363

1 that's a good idea for the TDA and TDA Perks to do
2 that to their exhibitors. And us in particular,
3 we're not going to attend if, in fact, that's what
4 they were going to do.

5 **Q. And, in fact, Joe Cavaretta and others who
6 were in communications with TDA tried for several
7 months to set up a meeting with TDA; is that right?**

8 A. That's correct.

9 **Q. Can you help me understand why Schein
10 didn't just pull out and why Schein spent a lot of
11 effort trying to talk the TDA into changing its
12 mind?**

13 A. Absolutely. It's made up of our
14 customers, so we don't want to fight with our
15 customers, right.

16 And so this is -- you know, the members of
17 the TDA board are dentists, and they're doing what
18 they believe is in the best interests of their
19 members; and we were trying to highlight the fact
20 that, well, by not treating their exhibitors
21 properly at the trade show itself, which we're
22 paying to be at, to then point their -- to start the
23 relationship and our purchases somewhere else other
24 than us, then they're no longer a neutral party. We
25 wanted to talk to them about why we don't think

362

1 understand is why there was communications, why
2 there were communications between Schein employees
3 and Patterson and Benco employees on TDA but not
4 with respect to other issues.

5 A. I don't know.

6 **Q. Is it fair to say that Schein -- Schein
7 met with TDA, right, to talk about the TDA Perks
8 Program and Source One?**

9 A. Yes, we did.

10 **Q. And from your perspective what was the
11 point of that meeting?**

12 A. We wanted to let them know that we believe
13 that they're crossing the line of neutrality; that
14 they shouldn't expect us to continue to pay them to
15 exhibit when the moment their members walk on the
16 floor they are pointing them somewhere else. We
17 viewed that as that's our role at the trade shows
18 and that -- you know, so we're trying to convince
19 them, you know, if you're going to go down this
20 road, we think you should choose us, and let me show
21 you why.

22 But even in part of those presentations
23 from what I understand it wasn't -- between
24 Dean Kyle and Joe Cavaretta who met with them, we
25 were trying to show them why we don't think that

364

1 that's a good strategy for them and in particular us
2 as a paying exhibitor.

3 **Q. You said that you don't want to fight with
4 your customers.**

5 **Did you view pulling out of the trade show
6 as in some way a fight with your customers?**

7 A. Not our customers in general, but, you
8 know, there's ten -- I don't know how many members
9 are on the board. Let's say five of them might have
10 been customers of ours. Some from my understanding
11 were actually supporting our position and trying to
12 convince the TDA not to do this; some were saying
13 they should do this.

14 So those are the ones we didn't want to be
15 arguing with and fighting with.

16 **Q. Just the board members?**

17 A. Correct.

18 **Q. And was your decision to pull out of TDA?**

19 A. Ultimately, yes.

20 **Q. Did anybody at Schein disagree with your
21 decision?**

22 A. Not at the time that I recall. In
23 retrospect I think we would like to have done things
24 different, but at the time no.

25 **Q. Why do you say in retrospect you would**

365

367

1 **have liked to do things different?**
 2 A. We would not have had the opportunity to
 3 meet.
 4 **Q. I'm sorry?**
 5 A. I'm trying to be facetious.
 6 **Q. Oh.**
 7 A. We wouldn't be sitting here right now.
 8 **Q. Got it.**
 9 A. And we think that it's -- yeah.
 10 **Q. Did Mr. Breslawski or Mr. Stanley Bergman**
 11 **indicate that they were not in favor of pulling out**
 12 **of TDA when you made the decision?**
 13 A. Jimmy was ultimately supportive of it with
 14 challenging along the way. Stanley, you know, is
 15 always looking for, always looking for, you know,
 16 ways to make amends with anyone or, you know, to
 17 come to, you know, a mutual understanding versus,
 18 you know, not working together.
 19 So, I mean, at the time I think he
 20 understood it, but I can't tell you that he
 21 necessarily wholeheartedly agreed, but he
 22 understands that my responsibility is the U.S.
 23 dental market. I trusted our local teams to come to
 24 their recommendation and -- but it was ultimately my
 25 decision to say, you know what, let's not go.

1 **Q. Are you aware of anyone within Schein that**
 2 **took the position that it would actually be**
 3 **advantageous for Schein to attend if Patterson was**
 4 **not going to attend?**
 5 A. Not that I recall, no.
 6 **Q. Does that argument or position make sense**
 7 **to you at all?**
 8 A. It could.
 9 **Q. How so?**
 10 A. If for some reason others backed out but
 11 we went, would the membership there, you know, do
 12 anything to say, look, you know, Schein is
 13 supporting us, even though any others didn't? It's
 14 possible; I don't know. We'd be speculating on what
 15 some potential scenarios are.
 16 MS. KAHN: All right. Let's go off the
 17 record, and I'll wrap it up after that.
 18 (Whereupon, a recess was taken
 19 from 4:23 p.m. to 4:28 p.m.)
 20 MS. KAHN: Back on the record.
 21 BY MS. KAHN:
 22 **Q. Did you want to clarify something?**
 23 A. Yes. I think earlier you had asked the
 24 question about when we decided to pull out. The way
 25 things actually flowed is we had a meeting, so Jake

366

368

1 **Q. And at the time that you made the**
 2 **decision, you were aware that Patterson had already**
 3 **decided to withdraw, right?**
 4 A. We never know for sure until you actually
 5 get to a convention floor.
 6 **Q. You had market intelligence at the time**
 7 **that you decided that Patterson was likely not**
 8 **going; is that right?**
 9 A. Again, I did not know for sure. What we
 10 do know is you can go right now and go to their
 11 website and see who has registered or not. I don't
 12 know at that time if Patterson was already off the
 13 registration or not; I don't recall. But their
 14 decision to show or not show had no bearing on our
 15 decision whether we were going or not.
 16 **Q. I know counsel has indicated he wants to**
 17 **get you out of here as early as possible, so I want**
 18 **to avoid marking a bunch of documents.**
 19 **But do you recall in communications**
 20 **discussing Patterson having either decided or was**
 21 **going to pull out of the meeting?**
 22 A. Yes.
 23 **Q. Okay. And did it matter to you that**
 24 **Patterson had already pulled out?**
 25 A. No.

1 and Joe had -- sorry, Joe and Dean had that meeting
 2 with the folks at the TDA, gave a presentation.
 3 There were parts of the meeting we thought went
 4 well, some parts of it didn't think went so well;
 5 but later one of the people on the board had called
 6 Joe, said you know what, actually you've got us
 7 thinking about some stuff, we think that, you know,
 8 some of what you said made sense. So we started to
 9 get the sense, you know what, we might be able to
 10 make this work. Then he even said can you delay
 11 your decision for a few months to Joe. We said you
 12 know what, as long as you're committing that we will
 13 continue discussing and talking about this, yes.
 14 It was later then one of our managers down
 15 there, Kyle Steck, was working our events team on
 16 our booth when we realized on the website they had
 17 actually taken us off the site. So we got -- we
 18 actually feel we were uninvited to the show, and
 19 then that's what snowballed to ultimately the
 20 decision for us not to go.
 21 **Q. Okay. I appreciate that. I just have a**
 22 **few more questions and I'll be done.**
 23 **I think I got this from you earlier, but**
 24 **you do have a general sense of what the FTC's**
 25 **investigation of Schein is about?**

92 (Pages 365 to 368)

369

371

1 A. Yes.
 2 **Q. Okay. And with that in mind, aside from**
 3 **what we've already talked about today, is there**
 4 **anything else that you would like to share with us**
 5 **to help us determine how to move the investigation**
 6 **forward?**
 7 A. No.
 8 MS. KAHN: All right. With that, I have
 9 no further questions.
 10 MR. McDONALD: Okay. Thanks.
 11 MS. KAHN: Do you have anything?
 12 MR. McDONALD: No.
 13 MS. KAHN: Off the record.
 14 (Whereupon, the deposition was
 15 concluded at 4:30 p.m.)

1 CERTIFICATE
 2 The within and foregoing deposition of the
 3 witness, TIM SULLIVAN, was taken before GREG S.
 4 WEILAND, CSR, RMR, CRR, at Suite 1825, 55 West
 5 Monroe Street, in the City of Chicago, Cook County,
 6 Illinois, commencing at 7:53 o'clock a.m., on the
 7 25th day of May, 2017.
 8 The said witness was first duly sworn and
 9 was then examined upon oral interrogatories; the
 10 questions and answers were taken down in shorthand
 11 by the undersigned, acting as stenographer; and the
 12 within and foregoing is a true, accurate and
 13 complete record of all the questions asked of and
 14 answers made by the aforementioned witness at the
 15 time and place hereinabove referred to.
 16 The signature of the witness was not
 17 waived and the deposition was submitted to the
 18 deponent as per copy of the attached letter.
 19 The undersigned is not interested in the
 20 within case, nor of kin or counsel to any of the
 21 parties.
 22 Witness my signature on this 1st day of
 23 June, 2017.
