Dear Health-Minded Friend,

Ever considered the fact that you may be in the beginning stages of having prostate problems?

You're not alone. A lot of men pay no attention to their prostate... *until the tiny, walnut-sized gland starts to give them trouble!*

Doctors say...

"You Can Almost Set your Clock By It: Turn 40-years-Old... and your Prostate Starts to Act Up!"

A lot of men just live with it. Some men take drugs. But prescription drugs like *finasteride* (trade name: Proscar) can have side effects – *sexual side effects!* And drugs like this are expensive, too.

Are You Ready to Fix your Prostate Problem?

Are you ready to do away with your awful symptoms of prostate embarrassment? Then I urge you to carefully study this information packet. I guarantee that you'll discover the answer to your prayers!

Another prostate-shrinking plant extract in **Betarol** is *Pygeum Africanum*. A study of 263 men at eight different urological clinics in Europe showed that, "Treatment with the *Pygeum africanum* extract led to a marked clinical improvement."

Betarol also possesses other powerful prostate-helpers like *saw palmetto*, *campesterol*, *stigmasterol* and *brassicasterol*, each included to help accelerate a speedy return to healthy prostate function.

Imagine... A Restful Night's Sleep Without Urinating Once!

Dear Health-Minded Friend:

Your life is about to change... for the better. Here's how.

For starters, you're going to begin sleeping like a newborn baby... *and we're talking the whole night through, too.* Not once will you have to get up to urinate. And speaking of peeing...

When you do decide to urinate, there'll be no more standing at the toilet or urinal like a mannequin, doing the "stop-and-start" dribble.

After taking the *miracle prostate shrinker, Betarol*, you're going to 'go like a racehorse,' with stream so forceful that you'll wake the neighbors!

***Betarol* shrinks fat prostates as thin as a dime!**

Betarol not only shrinks enlarged prostates, it also resolves weak erection problems, actually stimulating a larger, firmer, longer-lasting erection. *Isn't that a nice side effect?*

Betarol is a once-in-a-lifetime breakthrough for all men who are tired of having to 'go' all the time, and fed up with not performing well, sexually. [REDACTED]

Health Research Labs developed *Betarol* especially to help you deal with that irritating prostate gland that wants to be a balloon! Are you ready for... [REDACTED]

- ✓ *Improved bladder control for more restful nighttime sleep?*
- ✓ *Enhanced sexual performance, more vigorous erections?*
- ✓ *More energy on-demand, and an increased sense of well-being?*

If you suffer from frequent nighttime urination, irregular urine flow, impotence, and the embarrassment of poor bladder control, *Betarol* can help you.

There is absolutely ZERO risk, I urge you to try *Betarol*, risk-free. If you do not see improvement, any improvement... then you pay absolutely nothing! (except of course, s&h)

Yours in good health,

Richard Cohen, M.D.

*I have the best job in the world.
There's nothing better than making people feel great!
Please read this unsolicited letter!*

"Wow! What a difference Betarol has made in my life! I actually think your formula saved my marriage. For nearly two years, I had just about lost interest in sex. I could tell that my wife was wondering what the heck happened. I'm sure she thought, 'Was he having an affair? Did he go impotent overnight?'

I mentioned our intimacy problems to my doctor who immediately recommended your formula. I was surprised he didn't recommend a prescription medicine, but he said Betarol would work much better for me.

And boy was he right! My sex drive has returned in spades! I get terrific erections and I can urinate like a racehorse. No more sputtering and dribbling. I had to write and tell you how much I appreciate your Betarol formula. It really worked for me!"
