SUPPLEMENTARY INFORMATION:

Section A. Background

On October 20, 1999, the Commission issued its final Rule¹ pursuant to the Children's Online Privacy Protection Act, 15 U.S.C. 6501 *et seq.*, which became effective on April 21, 2000.² On December 19, 2012, the Commission amended the Rule, and these amendments became effective on July 1, 2013.³ The Rule requires certain Web site operators to post privacy policies and provide notice, and to obtain verifiable parental consent, prior to collecting, using, or disclosing personal information from children under the age of 13. The Rule enumerates methods for obtaining verifiable parental consent, while also allowing an interested party to file a written request for Commission approval of parental consent methods not currently enumerated.⁴ To be considered, the party must submit a detailed description of the proposed parental consent method, together with an analysis of how the method meets the requirements for parental consent described in 16 CFR 312.5(b)(1).

Pursuant to § 312.12(a) of the Rule, AgeCheq has submitted a proposed parental consent method to the Commission for approval. The full text of its application is available on the Commission's Web site at www.ftc.gov.

Section B. Questions on the Parental Consent Method

The Commission is seeking comment on the proposed parental consent method, and is particularly interested in receiving comment on the questions that follow. These questions are designed to assist the Commission's consideration of the petition and should not be construed as a limitation on the issues on which public comment may be submitted. Responses to these questions should cite the number of the question being answered. For all comments submitted, please provide any relevant data, statistics, or any other evidence, upon which those comments are based.

1. Is this method, both with respect to the process for obtaining consent for an initial operator and any subsequent operators, already covered by existing methods enumerated in § 312.5(b)(1) of the Rule?

2. If this is a new method, provide comments on whether the proposed parental consent method, both with respect to an initial operator and any subsequent operators, meets the requirements for parental consent laid out in 16 CFR 312.5(b)(1). Specifically, the Commission is looking for comments on whether the proposed parental consent method is reasonably calculated, in light of available technology, to ensure that the person providing consent is the child's parent.

3. Does this proposed method pose a risk to consumers' personal information? If so, is that risk outweighed by the benefit to consumers and businesses of using this method?

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Allegheny County's Adoption of Control Techniques Guidelines for Four Industry Categories for Control of Volatile Organic Compound Emissions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to conditionally approve revisions to the Pennsylvania State Implementation Plan (SIP) submitted by the Commonwealth of Pennsylvania on behalf of the Allegheny County Health Department (ACHD). This SIP revision includes amendments to the ACHD Rules and Regulations, Article XXI, Air Pollution Control, and meets the requirement to adopt Reasonably Available Control Technology (RACT) for sources covered by EPA's Control Techniques Guidelines (CTG) standards for the following categories: miscellaneous metal and/or plastic parts surface coating processes, automobile and light-duty truck assembly coatings, miscellaneous industrial adhesives, and fiberglass boat manufacturing materials. Upon review of the submittal, EPA found that the average monomer volatile organic compound (VOC) content limits were referenced but not included in the regulation for fiberglass boat manufacturing materials. ACHD has committed to revising the regulation and submitting the table of VOC content limits for fiberglass boat manufacturing materials to EPA in order to address specific RACT requirements for Allegheny County. EPA is, therefore, proposing conditional approval of the revisions to the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).
