Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission ("FTC" or "Commission") has accepted, subject to final approval, an agreement containing a consent order from Block Division, Inc. ("respondent").

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

This matter involves respondent's marketing, sale, and distribution of pulley blocks and other products with claims that the products are of U.S.-origin. According to the FTC's complaint, respondent represented that its products are "Made in USA." In fact, respondent's products incorporate significant imported parts, including imported steel pulley plates that entered the United States from overseas already stamped "Made in USA."

The complaint alleges that respondent's claims that its products are "Made in USA" were false or misleading, or not substantiated at the time the representations were made. Accordingly, the complaint alleges that respondent engaged in deceptive acts or practices in violation of Section 5(a) of the FTC Act.

The proposed consent order contains provisions designed to prevent respondent from engaging in similar acts and practices in the future. Consistent with the FTC's Enforcement Policy Statement on U.S. Origin Claims, Part I prohibits Block Division, Inc. from making U.S.-origin claims for its products unless either: (1) The final assembly or processing of the product occurs in the United States, all significant processing that goes into the product occurs in the United States, and all or virtually all ingredients or components of the product are made and sourced in the United States; or (2) a clear and conspicuous qualification appears immediately adjacent to the representation that accurately conveys the extent to which the product contains foreign parts, ingredients, and/or processing.

Part II prohibits respondent from making any "Made in USA" or other country-of-origin claim about a product or service unless the claim is true, not misleading, and respondent has a reasonable basis substantiating the representation.

Parts III through VI are reporting and compliance provisions. Part III requires respondent to acknowledge receipt of the order, to provide a copy of the order to certain current and future principals, officers, directors, and employees, and to obtain an acknowledgement from each such person that they have received a copy of the order. Part IV requires the filing of compliance reports within one year after the order becomes final and within 10 days of any change in respondent that would affect compliance with the order. Part V requires respondent to maintain certain records, including records necessary to demonstrate compliance with the order. Part VI requires respondent to submit additional compliance reports when requested by the Commission and to permit the Commission or its representatives to interview respondent's personnel.

Finally, Part VII is a "sunset" provision, terminating the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to aid public comment on the proposed order. It is not intended to constitute an

official interpretation of the proposed order or to modify its terms in any way.

By direction of the Commission.

Donald S. Clark,
Secretary.

FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Submission for OMB Review; Comment Request

AGENCY: Federal Trade Commission ("FTC").

ACTION: Notice and request for comment.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995, the FTC is seeking public comments on its request to OMB for a three-year extension of the current PRA clearance for information collection requirements contained in its Rule Governing Pre-sale Availability of Written Warranty Terms. That clearance expires on March 31, 2017.

DATES: Comments must be received by April 13, 2017.

ADDRESSES: Interested parties may file a comment online or on paper by following the instructions in the Request for Comments part of the **SUPPLEMENTARY INFORMATION** section below. Write "Warranty Rules: Paperwork Comment, FTC File No. P044403" on your comment, and file your comment online at <https://ftcpublish.commentworks.com/ftc/presaleavailabilityrule2pra> by following the instructions on the Web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW., Suite CC-5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street SW., 5th Floor, Suite 5610 (Annex J), Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information requirements should be addressed to Christine M. Todaro, Attorney, Division of Marketing Practices, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW., CC-8528, Washington, DC 20580, (202) 326-3711.

SUPPLEMENTARY INFORMATION:

Title: Pre-sale Availability of Written Warranty Terms (Pre-Sale Availability Rule), 16 CFR 702.

OMB Control Number: 3084–0112.

Type of Review: Extension of a currently approved collection.

Abstract: On December 29, 2016, the FTC sought public comment on the information collection requirements associated with Regulation O. 81 FR 95995. No germane comments were received.¹ Pursuant to the OMB regulations, 5 CFR part 1320, that implement the PRA, 44 U.S.C. 3501 *et seq.*, the FTC is providing this second opportunity for public comment while seeking OMB approval to renew the pre-existing clearance for the Rule.

The Pre-sale Availability Rule, 16 CFR. 702, is one of three rules² that the FTC issued as required by the Magnuson Moss Warranty Act, 15 U.S.C. 2301 *et seq.* (Warranty Act or Act).³ The Pre-sale Availability Rule requires sellers and warrantors to make the text of any written warranty on a consumer product costing more than \$15 available to the consumer before sale. Among other things, the Rule requires sellers to make the text of the warranty readily available either by (1) displaying it in close proximity to the product or (2) furnishing it on request and posting signs in prominent locations advising consumers that the warranty is available. The Rule requires warrantors to provide materials to enable sellers to comply with the Rule's requirements and also sets out the methods by which warranty information can be made available before the sale if the product is sold through catalogs, mail order, or door to door sales. In addition, in 2016, the FTC revised the Rule to allow warrantors to post warranty terms on Internet Web sites if they also provide a non-Internet based method for consumers to obtain the warranty terms and satisfy certain other conditions. The revised Rule also allows certain sellers to display warranty terms pre-sale in an electronic format if the warrantor has used the online method of disseminating warranty terms.

Likely Respondents: Manufacturers and retailers of consumer products.

Estimated Annual Hours Burden: 2,823,803 hours (221,547 hours for manufacturers + 2,602,256 hours for retailers).

¹ The Commission received six non-germane comments.

² The other two rules relate to the information that must appear in a written warranty on a consumer product costing more than \$15 if a warranty is offered and minimum standards for informal dispute settlement mechanisms that are incorporated into a written warranty.

³ 40 FR 60168 (Dec. 31, 1975).

- Manufacturers account for approximately 221,547 hours ((1,028 large manufacturers × 26.88 hours) + (30,299 small manufacturers × 6.4 hours))
- Retailers account for approximately 2,602,256 hours ((7,745 large retailers × 20.8 burden hours) + (508,575 small retailers × 4.8 burden hours))

Estimated Annual Cost Burden:

\$62,123,688 (which is derived from \$33,885,648 for sales associates + \$28,238,040 for clerical workers).⁴

- Sales Associates: (1,411,902 hours) (\$24/hour) = \$33,885,648
- Clerical Workers: (1,411,902 hours) (\$20/hour) = \$28,238,040

Total Annual Capital or Other Non-labor Costs: De minimis.

Request for Comment

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before April 13, 2017. Write "Warranty Rules: Paperwork Comment, FTC File No. P044403" on your comment. Your comment, including your name and your state—will be placed on the public record of this proceeding, including, to the extent practicable, on the public Commission Web site, at <http://www.ftc.gov/os/publiccomments.shtm>. As a matter of discretion, the Commission tries to remove individuals' home contact information from comments before placing them on the Commission Web site.

Because your comment will be made public, you are solely responsible for making sure that your comment does not include any sensitive personal information, such as anyone's Social Security number, date of birth, driver's license number or other state identification number or foreign country equivalent, passport number, financial account number, or credit or debit card number. You are also solely responsible for making sure that your comment does not include any sensitive health information, like medical records or other individually identifiable health information. In addition, do not include any "[t]rade secret or any commercial or financial information which is . . . privileged or confidential," as discussed in Section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule 4.10(a)(2), 16 CFR 4.10(a)(2). In particular, do not include competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices,

GULF COAST ECOSYSTEM RESTORATION COUNCIL

Notice of Proposed Subaward Under a Council-Selected Restoration Component Award

AGENCY: Gulf Coast Ecosystem Restoration Council.

ACTION: Notice.

SUMMARY: The Gulf Coast Ecosystem Restoration Council (Council) publishes notice of a proposed subaward from the National Oceanic and Atmospheric Administration National Centers for Coastal Ocean Science (NOAA) to the Gulf of Mexico Alliance (GOMA), a nonprofit organization, for the purpose of supporting the Council Monitoring and Assessment Program (CMAP). The Council and NOAA have entered an interagency agreement for NOAA to carry out CMAP, as approved in the Council's Initial Funded Priorities List.

FOR FURTHER INFORMATION CONTACT: Please send questions by email to raams_pgmsupport@restorethegulf.gov.

SUPPLEMENTARY INFORMATION: Section 1321(t)(2)(E)(ii)(III) of the RESTORE Act (33 U.S.C. 1321(t) and *note*) and Treasury's implementing regulation at 31 CFR 34.401(b) require that, for purposes of awards made under the Council-Selected Restoration Component, a State or Federal award recipient may make a grant or subaward to or enter into a cooperative agreement with a nongovernmental entity that equals or exceeds 10 percent of the total amount of the award provided to the State or Federal award recipient only if certain notice requirements are met. Specifically, at least 30 days before the State or Federal award recipient enters into such an agreement, the Council must publish in the **Federal Register** and deliver to specified Congressional Committees the name of the recipient and subrecipient; a brief description of the activity, including its purpose; and the amount of the award. This notice accomplishes the **Federal Register** publication requirement.

Description of Proposed Action

As specified in the Initial Funded Priorities List, which is available on the Council's Web site at <https://www.restorethegulf.gov/council-selected-restoration-component/funded-priorities-list>, RESTORE Act funds will support the Council Monitoring and Assessment Program (CMAP). Administered jointly by NOAA and the Department of the Interior's United States Geological Survey (USGS), CMAP will build the foundational components for Gulf region-wide monitoring in order to measure impacts of investments in restoration. Through collaboration with the Gulf States, federal and local partners, academia, non-governmental/non-profit organizations, and industry, the program will use a Monitoring Community of Practice coordinated by the Gulf of Mexico Alliance to leverage existing resources, capacities, and expertise and build on existing monitoring programs. These existing programs will be coordinated into a network, to provide efficiency in monitoring and collaborative cross-program review of performance with other Gulf ecosystem recovery efforts.

The program will: (1) Create an inventory of the existing monitoring programs, data, protocols and standards; (2) determine the minimum monitoring elements needed to evaluate the performance of restoration projects; (3) evaluate monitoring program suitability; (4) combine data from the suitable existing programs into searchable databases for Council use; (5) examine the inventory to determine what data are missing (*i.e.* identify information gaps) that would be required for the RESTORE Council; (6) document existing baseline assessments of habitat and water quality conditions; and (7) provide recommendations to the Council to supplement and refine the existing monitoring programs to fill-in the information gaps where possible.

Will D. Spoon,

Program Analyst, Gulf Coast Ecosystem Restoration Council.
