Same process – follow up with the original hardcopies.

The instructions read as follows:

HSR filings may be submitted in hard-copy paper form **or** by DVD. Combination hard- copy/DVD submissions will not be accepted. Please note that if filing by **DVD, hard-copy cover letters and original signed certifications and affidavits are required.**

Does this mean we need to supply the original signature pages if filing by DVD instead of the copies we usually use followed up by the originals?
