RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Adding another label to the gas pumps will not protect motorcyclist or ATV riders. Since all gas is pumped through the same hose what residue will be left in the hose that may still effect my bike even though I choose E10. I am against E15 as a whole.

Sincerely,
Kirsten Shivers, TX
