Washington, DC 20580

RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

I believe ethanol should be eliminated from all fuel although I know that probably will not happen. However I do think that fuel without it should be available at all filling stations so those of us who do not wish to damage our vehicles have a choice. Being a motorcycle mechanic for the past sixty-four years I know what damage it can cause to engine parts.

Sincerely,
H. Kenneth Clark, FL
