RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Please consider the many findings that Ethanol causes damage to motor vehicles and not allow the higher percentages of Ethanol to be forced onto the market place. As a country, we should not be using corn to fuel vehicles. As a government, we should not allow our elected leaders to force a product that we as citizen consumers do not want. We vote.

Sincerely,  
Denver Mut, LA
