RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

I truly believe that the high ethanol fuels will do ongoing damage to any vehicles NOT specially designed to do so. This being most vehicles made prior to this date. My motorcycle and my car are not designed for this type of fuel and I highly protest these fuels being forced upon us.

Sincerely,
Lance Driscoll, WA
