RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

Why doesn't EPA recognize the dangers and problems caused by forcing the use of E15 fuel? There is no documented proof that ethanol even improves air quality. There is proof that it will damage vehicles when the level goes to E15. The EPA is not watching out for its citizens. It would make you believe there is another agenda.

Sincerely,
Lloyd Liebetrau, CO
