RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

I have a fair amount of equipment that is seasonal & the 10% ethanol creates a lot of extra costs & work for maintaining all my equipment. I would not like to see the percentage of ethanol increased. If anything gas stations should have an extra selection for off highway uses equipment the same as they have for off highway diesel fuel at a reduced price without the highway taxes. If they do this for off highway diesel they should do a separate pump for off highway gas with out ethanol !!!!!

Sincerely,  
Steve Skolnick, PA
