RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Please no ethanol 15. This blend does not work in my motorcycles or other small engines. The strategy of using ethanol is poor choice when you figure that the greenhouse gas burned to produce corn and then to ethanol is probably higher than if we had just straight gasoline. Ethanol only helps the farm lobby. Please no ethanol

Sincerely,
