RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Having ridden motorcycles for over thirty years I have never been attacked by the fuel I am purchasing to operate my motorcycle during the time I am riding. I am concerned about the fuel efficiency involved and I run higher octane fuels to better maintain the motorcycles I own and ride. Now with the fuel additives that are being introduced I am risking the maintenance of my vehicle for what reason, motorcycles and off road vehicle are also air cooled which also can lead to further issues. We need to better mark the fuel we are using in order to better maintain our investments.

With Respect
Adrian Arnold, UT
