RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Why do you continue to support a product that does little to improve the environment and in fact causes further damage. Look at what it takes to produce one gallon of ethanol, how can that reduce carbon emissions? Stop supporting the Big Corn Lobby and do away with ethanol all together.

Sincerely,
David Keyser, AR
