RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Engine damage is ALREADY occurring in smaller engines due to the effects of ethanol! WHY would you want MORE ethanol in our fuel!?! Factor in the long term unintended(?) consequences of increased foods cost, sure appears to me that ethanol is the biggest boondoggle to ever be perpetrated on the American people!

Sincerely,
William Wood, MO
